Inflation, Jobs Go Hand-In-Hand

AT Business Analyst
NEW YORK (AP) — In the loss of one or two million jobs an acceptable price to pay for getting this inflated economy back in balance?
Some economists, most of them perhaps with a business bent, feel that a million jobs might indeed be the price for leaving inflation from expiring into a recession.
There is an unfortunate relationship between jobs and inflation. When unemployment drops below 4 per cent, inflation generally pushes up wages. Marginal help pushes up costs. Sooner or later, the price of goods rises.
The unemployment rate now is well under 4 per cent. At about 3.5 per cent, in fact, it is the lowest in many years. And, coinciding with this, inflation is running at a rate of 4 or 5 per cent a year.
Some businessmen, as indicated by statements made at a meeting of the Business Council, feel the overestimated economy must be slowed substantially, even if it means the loss of hundreds of thousands of jobs.
Meeting during the weekend at Hot Springs, Va., these corporate heads warned that the economy must be restrained for the next year or so. The tax surcharge must be extended; government spending must be cut, they said.
The result of such a policy would be to brake the economy to restrain growth to a degree that could be maintained without inflation. A consequence of this would be to brake the economy to restrain growth to a degree that could be maintained without inflation. A consequence of this would be to brake the economy to restrain growth to a degree that could be maintained without inflation.

Teenagers Take Pills

City authorities are reportedly at a loss to determine why five Sanford teenagers took over-doses of sleeping pills.
The group is reported to be in "good" condition at Semole Memorial Hospital after drinking undetermined number of pills.
City Det. Donald Brumley reported one youth was found unconscious Friday night near Sanford Plaza.
Four others were found in a stator scattered around the same vicinity.
In an unrelated report of a sleeping pill incident at Osteen, a 16-year-old girl was hospitalized in "satisfactory" condition Friday after she reportedly took an overdose of pills.
Rev. Bill Barron made "a funny" from the pulpit as he welcomed members of the Pico Club to Sunday services. He pointed out that the members of some members also were present, and referred to them as "co-pilots."
United Fund will have a Dutch treat report session Friday noon at House of Sins.
Sanford Civilians will journey to St. Petersburg this weekend for the quarterly council meeting of the Florida district.
How come the State Road Department has sufficient funds to have its men spend hours removing political signs from the shoulders of state roads, but does not have the funds to pick up cans and other refuse from the same spots? Candidates of both parties have lost hundreds of dollars worth of posters during the past week in the massive effort of the SRD to remove them from right-of-way in Seminole. While the SRD is carrying on this program, the county road department is busy for tearing down the signs which they haven't done.

That South Seminole night club again is featuring topless go-go girls . . . or so our South Seminole informers tell us. In fact, "it" said, they're almost bottomless, too.

Five persons were injured yesterday afternoon in a collision between a pickup truck driven by John Evans, of St. Cloud, and a car driven by Norman H. Cox, Edgewater, at SR 436 and Lake Howell Road. Trooper L. P. Tompkins said all five were in "fair" condition at Florida Sanitarium and Hospital. Both vehicles were demolished.

For County Consolidation Legislative Study Sought

A resolution requesting Seminole-Orange County legislative delegation and Seminole County Commission to study municipal and county governments to determine how best to consolidate various services to save money and avoid costly duplication came out of the first meeting of a special Seminole County Commission on October 22.

Confabs Closed To Press

By BILL SCOTT
Negotiations between City of Sanford and Holt Corporation relative to a one-year lease on 14 buildings at the defunct Sanford Naval Air Station have reached a "tentative" stage.

In the lapse of a week since Holt Corporation President Robert E. Holt and City Commission members met to discuss the proposed lease, at least three sessions have been held between the principals on certain stipulations which, according to local officials, have not been met by Holt.

Free Food At Big Rally

Free food will be one of the attractions at the gigantic political rally to be sponsored by the Downtown "We Care" Merchants Association Saturday on the sidewalks of First Street and Magnolia Avenue.

Both the Democratic and Republican executive committees have completely endorsed the rally and feel it could be the biggest political activity of the type in the two-county area during the political season.

Fatal Fire

CHICAGO (AP) — Four persons were killed and 18 were injured, four critically, when fire swept two floors of an apartment-hotel on Chicago's North Side.

'No Detectable Sign' Of Bomb Halt

PARIS (AP) — American and North Vietnamese peace envoys traded charges today of aggression in Vietnam without providing any detectable sign that they might be nearing agreement on terms for halting the bombing of North Vietnam.

There had been speculation that Hanoi might reply in this session of the conference to Washington overtures about ending the aerial attacks.

Ambassadors W. Averell Harriman and Xuan Thuy clashed in the 2½-hour meeting over who is entitled to speak for the South Vietnamese people.

Harriman reaffirmed American backing for the present Nguyen government of South Vietnam.

Van Thieu while they once again demanded U.S. recognition of, and negotiations with, the Viet Cong's National Liberation Front.

There was no immediate information to indicate whether the two envoys used their 35-minute talk for a private exchange of the status of current moves for a bombing halt.

Harriman started reporters on a message from the old Majestic Hotel conference headquarters when he said: "We have decided to meet again tomorrow."

For some months the sessions have been held at weekly intervals so that some newsmen are "on a brief" to the situation may have developed.

But as the chief American delegate talked, his spokesman, William J. Jordan, was seen to shake his head. And later Harriman himself and Thuy made clear it was a slip of the tongue.

The next formal meeting will be on Wednesday, Oct. 23, maintaining the usual pace.

It remained a possibility that Harriman's slip was an unconscious giveaway. He and Thuy are believed to have met in private several times outside the conference framework on terms of a possible compromise agreement.

But spokesmen of the U.S. and Hanoi delegations have been consistently declined to comment on whether any private contacts have been taking place.

In his opening statement, Harriman urged the North Vietnamese to act now for peace.

"The choice is yours," he said.

There was no immediate indication, however, that the North Vietnamese envoys had reached a decision.

The U.S. chief delegate made his call to Ambassador Xuan Thuy in the context of a general discussion at the 27th session of the talks that began last May. But the terms he used seem to pack a special significance at the moment when President Johnson is awaiting Hanoi's response to his secret exchange plan for a bombing halt.

Harriman began his formal statement by challenging North Vietnamese claims that the Viet Cong's National Liberation Front of South Vietnam controls most of that country and has the backing of most of the local people. Then he related how nations of east Asia, which are working together economically, have raised living standards.

Addressing Thuy, Harriman said: "The United States stands ready to join in cooperative efforts for the benefit of all the people of Southeast Asia. The opportunities are limitless for those who will work together in peace. It is time for you to act."

The choice is yours," Harriman told envoys as he went into the meeting that he had no indication that anything but the usual arguments were going to come out of the session, although "I am always hopeful."

Even if Thuy gave Harriman his government's acceptance or rejection of the American proposal with the reinstatement of a disputed white teacher.

Johnson reportedly offered to stop all bombing of North Vietnam if Hanoi limited its participation in the war and let Paris peace talks move promptly into a new stage of discussion.

The President has called for the Saigon government to participate in the second phase of the talks and is reported to let the Viet Cong's National Liberation Front take part on the Communist side of the table.

U.S. officials believe North Vietnam's leaders are now debating Johnson's proposal at conferences in Hanoi for which the Viet Cong is reportedly sending a delegation to Washington.

Xuan Thuy, returned from Paris last week.

A Western ambassador in Moscow with access to high Soviet officials reported to Paris that Thuy on his way home told Soviet Premier Alexei Kosygin he had good hopes of an agreement with the Americans.

A blast Tuesday from the Viet Cong accused to reject Johnson's proposals for Communist de-escalation in exchange for an end to the bombing.

The Viet Cong statement also repeated the long-standing demand that Washington recognize the National Liberation Front as the only legal representative of the South Vietnamese people. And the statement once again called the Saigon government a puppet regime which represents no one.

The Apollo 7 crew splashed down at 11:12 a. m. EDT Tuesday in the Atlantic southeast of Bermuda. Officials called the Apollo 7 flight "a perfect mission."

Each of the three men were brought aboard the Essex, Dr. William Carpenter, the recovery team chief physician, said a medical examination showed all three men "essentially normal — no problems."

Esiele had some residual infection, but otherwise there was no evidence of the colds that plagued all three astronauts during the flight and caused so much worry for their re-entry.

The men came out of orbit without their helmets to permit them to hold their noses, blow and equalize the atmospheric pressure on their ears.

Like most other spacecraft on the 14 previous American flights, the Apollo 7 trio walked stiffly after the long confinement in the crew quarters. But Carpenter said he was "very pleased with their total ability."

Esiele showed more weariness than the others because he had stood the last night watch and normally would have been preparing for sleep at the time of splashdown at 11 minutes, 37 seconds after 7 a. m.

Visibility was the poorest for any recovery to date. Under normal clear conditions rescue helicopters would easily have spotted the orange and white chutes as they gently lowered the spacecraft into the water 7½ miles from the carrier.

But under leaden, gray skies, the descent was not seen from the ship, which disappointed helicopter viewers hoping to see the recovery in color for the first time. On landing, the chutes disintegrated and the capsule tipped upside down in the water. It took 29 tense minutes before the world could be told that the men were safe.

Samples from the capsule—including some of the mysterious "fuzz" that collected on the windows during the flight—were taken to Patrick Air Force Base for analysis.

The astronauts, after eating meals, eggs, toast, butter and large quantities of coffee and grapefruit juice, followed the ritual of inspecting the craft in which they had spent so much time. On the way to the module, they shook hands with the Essex crew and posed for pictures.

Later they shaved off 11 days of beard. Schirra and Esiele left the ship on Friday, returning to their homes in Houston.

Schirra, Cunningham and Esiele will stay at Patrick Air Force Base until late Friday, returning to their homes in Houston.

SUCCESSFUL END of a successful mission finds astronaut Walter Cunningham in a liferaft waiting for Donn Esiele and Walter Schirra to emerge from their Apollo 7 spacecraft after a flawless 11 days in space pointing the way toward a manned lunar orbit on the upcoming Apollo 8 flight.

Enemy Force Trapped, Nearly Half Are Killed

SAGON (AP) — U.S. Marine units sighted more than 400 North Vietnamese troops moving through the heavily wooded area of the Nam and called in artillery and air strikes that wiped out nearly half of the enemy force, military spokesmen reported today.

The U.S. Command said that the Marine units sighted four columns of North Vietnamese troops moving through the area on Wednesday. Four artillery missions and air strikes killed 178 of the enemy troops, a spokesman said.

The enemy soldiers, wearing various types of weapons including rifles and mortars, were spotted in one of the open valleys about 30 miles southwest of the embattled Thung Duc district headquarters and a hamlet 5 miles away. A company of 200 men was killed and 10 others wounded.

While the bulk in major enemy ground attacks continued in the fourth week, the air war against North Vietnam's southern part made continued, full scale Tuesday and today despite persistent reports that a halt in the bombing of the North might be expected.

With a break in the monsoon overcast, American pilots flew 130 missions over the peninsula Tuesday. Eighteen pilots reported destroying or damaging 29 supply boats, nine bridges, nine warehouses and three trucks.

Marine pilots also reported knocking out one Russian 130mm. artillery field gun just inside the headquarters of the U.S. 3rd Marine Division at Dong Ha and the adjoining town of Khe Sanh.

An Air Force F106 Superhawk fighter-bomber destroyed a North Vietnamese MiG 17 fighter jet north of Hanoi. The pilot bailed out over the South China Sea.

The 34th U.S. warplane downed in combat over South Vietnam.

America's biggest bombers, the Air Force B52s, roared over the southern half of the demilitarized zone 12 miles north of Hanoi.

Strikes Plague New York City

NEW YORK (AP) — A teachers' strike kept the 1.1-million pupil public school system paralyzed, police patrolmen continued a work slowdown and firemen started their own slowdown today — but for most visitors there was little visible evidence of New York's intensifying municipal labor crisis.

The firemen carried out their threat to join the police in refusing to perform nonessential duties, beginning officially at 6:45 a. m. "Nothing can stop the slowdown this morning," a union official said.

The 900 schools, most of them locked with only custodians in charge, are off the usual tourist paths. Most police cars will patrol the streets and fire engines will respond to emergency calls with sirens wailing.

As the strike by the 35,000-member United Federation of Teachers and another day of classes—the 18th of 30 in the fall term—the Board of Education made no moves toward an end to the walkout.

The board announced Tuesday: "High school seniors are being permanently handicapped in their efforts to enter the college. Students in all grades have lost momentum which will be increasingly difficult to replace."

The UFT struck Sept. 8, at the fall term opened, over the Ocean Hill board's refusal to reinstate the 80 teachers ousted last spring. A hearing examiner had later dismissed the local board's charges that the teachers tried to sabotage the decentralization experiment.

Astronauts Return To Cape

ABOARD USS ESSEX (AP) — The Apollo 7 space trio, well-fed and rested after 24 hours on the carrier Essex, flew toward Florida today to relieve for another three 11-day, six million mile saga in space.

The three will fly from the USS Essex to Patrick Air Force Base, Fla., for a long series of debriefings.

From their answers and data gathered by the spacecraft, the space agency hopes to determine whether the next manned space shot can safely take men in a circle around the moon.

The decision on whether the Apollo 8 flight will be another earth orbit or circumlunar is expected in November.

For Navy Capt. Walter M. Schirra Jr., Air Force Maj. Donn F. Esiele and civilian Walter Cunningham, the next few weeks will be a continuous round of medical examinations, debriefings and reports.

The Apollo 7 crew splashed down at 11:12 a. m. EDT Tuesday in the Atlantic southeast of Bermuda. Officials called the Apollo 7 flight "a perfect mission."

Each of the three men were brought aboard the Essex, Dr. William Carpenter, the recovery team chief physician, said a medical examination showed all three men "essentially normal — no problems."

Esiele had some residual infection, but otherwise there was no evidence of the colds that plagued all three astronauts during the flight and caused so much worry for their re-entry.

The men came out of orbit without their helmets to permit them to hold their noses, blow and equalize the atmospheric pressure on their ears.

Like most other spacecraft on the 14 previous American flights, the Apollo 7 trio walked stiffly after the long confinement in the crew quarters. But Carpenter said he was "very pleased with their total ability."

Esiele showed more weariness than the others because he had stood the last night watch and normally would have been preparing for sleep at the time of splashdown at 11 minutes, 37 seconds after 7 a. m.

Visibility was the poorest for any recovery to date. Under normal clear conditions rescue helicopters would easily have spotted the orange and white chutes as they gently lowered the spacecraft into the water 7½ miles from the carrier.

But under leaden, gray skies, the descent was not seen from the ship, which disappointed helicopter viewers hoping to see the recovery in color for the first time. On landing, the chutes disintegrated and the capsule tipped upside down in the water. It took 29 tense minutes before the world could be told that the men were safe.

Samples from the capsule—including some of the mysterious "fuzz" that collected on the windows during the flight—were taken to Patrick Air Force Base for analysis.

The astronauts, after eating meals, eggs, toast, butter and large quantities of coffee and grapefruit juice, followed the ritual of inspecting the craft in which they had spent so much time. On the way to the module, they shook hands with the Essex crew and posed for pictures.

Later they shaved off 11 days of beard. Schirra and Esiele left the ship on Friday, returning to their homes in Houston.

Schirra, Cunningham and Esiele will stay at Patrick Air Force Base until late Friday, returning to their homes in Houston.

Optimists Seek Club In Area

Efforts are underway in the Sanford area to organize an Optimist Club of Tampa to organize a club in the area.

Joseph A. Gregory, of Tampa, is a past district governor. He met last week with Sanford Mayor W. Vincent Roberts and other area leaders to discuss the possibility of forming a club in the area and will return to Sanford this Thursday and Friday to consult with local businessmen and civic leaders.

Holiday Inn at the Marina will be his headquarters.

To form an Optimist Club, which Gregory states is the fourth largest and fastest growing group in the nation, there must be 25-30 paid members before an organizational meeting is called to elect temporary officers. When membership grows to 40 paid members, a field representative from St. Louis, Mo., will visit the city to officially organize the group and help select permanent officers.

Objects of Optimist International are to develop Optimism as a philosophy of life; to promote an active interest in good government and civic affairs; to inspire respect for the law; to promote patriotism, and to aid and encourage the development of youth.

In relation to the latter, the Optimist sponsor at annual Youth Appreciation Week each November, conduct anti-smoking campaigns and bicycle safety projects for young people.

It is hoped that a local club may be fully organized within the next six weeks. Any man in Sanford, and all surrounding communities, interested in becoming a member of the Optimists may contact Mayor Roberts or Gregory.

Nixon Assails Humphrey

Richard M. Nixon accused Humphrey of "a gross act of misfeasance" in his role as president of the American people.

"Mr. Humphrey has shown a constitutional inability," Nixon said to treat the Vietnam war and the Paris negotiations correctly, or for that matter, understandably, ever since this campaign began.

Humphrey, meanwhile, was being hailed as a political miracle worker for unifying all-odds Texas Democrats behind him. He heads for California late today to try to repeat the feat.

And third party candidate George C. Wallace—hit by an apple core thrown along with eggs and tomatoes Tuesday—said leaders of both major parties have "known and ignored average citizens."

Nixon said today the present Democratic administration has not been able to keep the peace, has not kept up military strength or American prestige "and now it cannot recover."

"To this dismal record," Nixon said in a statement in San Francisco, "I add the following:

—The failure to bring the Vietnam war to a just and honorable conclusion.

—The failure to bring the economy to a state of sustained growth and full employment.

—The failure to bring the nation to a state of peace and unity.

—The failure to bring the nation to a state of respect for the law.

Apollo 7-Capsule And Crew-A Beginning!

Editorial Comment

We all can hold ourselves a little more erect, our heads a little higher and our strides more vigorous and purposeful today for what Apollo 7 and its heroic crew accomplished yesterday.

For this was a visible witness to the traditional American spirit which lately has been obscured by a doctrine of fear or doubt or — worse than either — apathy.

Our hats are doffed to Navy Capt. Walter M. Schirra Jr., capsule commander; Air Force Maj. Donn F. Eisele and Walter Cunningham. This salute is tendered not only for what they did but the way in which they did it.

For they showed, beyond the peradventure of a doubt, that our men have not only the skill and ability to perform all the exacting and complex duties of space flight but can do so without any loss of the traditional right to grouse about conditions they don't like.

This is mentioned as we would not want anyone

to interpret this editorial paean of praise as a Pollyannaish appraisal. For it is not!

But it is a strong recognition that what is most needed in these emotional and controversial periods of a presidential election is just what the Apollo 7 sign has furnished.

The achievement affords proof of courage instead of fear, emphasizes what we can do in the face of such tragedies as took place when three astronauts were killed in a capsule fire while on the pad, encourages a stance of vigor as we go forward in the world of space.

For our space progress must not be halted. True it does require expenditure of large sums of money but there have been and will be equally large rewards, the amount of which can only be hinted at now.

Getting down to specifics the Apollo 7 successful flight showed that the capsule's life-support systems can keep three men alive long enough for a

moon-orbiting orbit; that the global Apollo tracking net can operate new and sophisticated communication systems; that the same maneuvers which were performed on this 11-day flight can be counted on for later moon-destined adventures.

There is in this success a reminder of historical fact which might well be remembered. Do you recall the 1957 "Sputnik" days when the United States reacted with deep shock as the Russian space first interrupted an American period of Rip Van Winkle slumber and we and our scientists were caught napping.

Without trying to draw paralytic conclusions, it must be said those were the days when the last Republican administration was in the White House.

It was when the Democrats took over and President John F. Kennedy boldly proclaimed the aim of a man on the moon in 1970 that our present space age took wing.

There is little need for us to remind our readers

in this area where the going on Cape Kennedy and Merritt Island made space news a very intimate and vital thing that continues of our space probes is not only the international and national importance but of very real importance to our area.

Already the slicing of appropriations has made many of our neighbors prepare for the worst. This has taken place, as is evident, with a Congress in a budget-cutting mood due to the vast expenditures needed for the Vietnam war and the pressures of presidential politics.

Thus we hail the accomplishment of Apollo 7 and its illustrious crew as a very much needed reminder that space is something far removed from the Vietnam war, that continuation of such space achievements is possible with such men as Messrs. Schirra, Eisele and Cunningham and their backup scientists ready to perform heroic deeds in traditionally bold American fashion.

Guaranteed What?

Among the many proposals that Congress must consider in the not-too-distant future is a proposal for a "guaranteed annual income" which has almost complete opposition from Floridians who operate businesses.

Almost anyone who finds this come up in private conversation will agree with this statement. But we are in receipt of statistics from the National Federation of Independent Business who conducted a nation-wide survey that only five per cent of those queried in Florida were in favor, 91 per cent opposed and four per cent undecided.

This "guaranteed annual income" (\$4,000 is suggested) for all families is a proposal which came out of a panel of professors and was, as a matter of fact, one of the demands made by the "Poor People March" on Washington.

NAME-THE-BASE CONTEST

Sanford Industrial Commission needs a name for the former Sanford Naval Air Station, something in keeping with an industrial park and aviation center. The local banks have subscribed \$25.00 Savings Bonds for the winners. Deadline for entries is Nov. 10. Mail to Sanford Industrial Commission, P.O. Box 818, Sanford, Fla., 32771.

I suggest the following name:

My name: _____

Address: _____

City: _____ ZIP: _____

College Education-Emotion?

By RAY CHOMLEY, NEA Washington Correspondent

WASHINGTON (NEA) — There may be a connection between campus revolts and the new instructors hired in large numbers in the great expansion of U.S. universities in recent years.

It hadn't been publicized, but at recent sessions of the nation's most respected association of political science teachers, numbers of younger college faculty members attempted to disrupt the meetings. They made loud noises. When organizers they disagreed with spoke, young teachers turned their backs. When disruption failed, they marched out, set up their own ramp.

A significant number of these younger men say they favor abandoning classroom objectivity. Frankly, they want to use the classroom to propagandize, to promote their views on any question up for discussion.

This reporter attended portions of a dozen sessions at the annual meeting of the American Political Science As-

Political Notebook:

Lindsay Victim Of '68 Mood

By BRUCE BLOSSAT, NEA Washington Correspondent

WASHINGTON (NEA) — Mayor John V. Lindsay of New York is not involved in the 1968 elections except as an occasional patron for either Republicans. Yet current voter attitudes toward him say a great deal about the mood of the nation in this strange year.

Private polls taken in New York City only a bit more than a fortnight ago, refined to eliminate persons unlikely to vote, show that 85 per cent of the city electorate either definitely or probably would support Lindsay if he ran in the 1968 election.

It is perhaps not fair to assume that to some extent the appraisal is truly a general one, indicating that many New Yorkers do not believe that since he took office in 1966 Lindsay has really solved any of the problems that make his city nearly unliveable.

Some analysts who have put the Lindsay regime under scrutiny from time to time have come up with summary judgments not far from that viewpoint.

But in the view of some seasoned judges of the New York scene, a general downgrading is not the big thing. They argue that Lindsay's amazingly high poll totals today has one overriding meaning: He is a victim of the "law and order" mood that is sweeping the nation in New York, the other big cities, and most of the country.

Lindsay's brave walk

Words About The Holy Ghost

Crane's Worry Clinic:

By GEORGE W. CRANE, Ph. D., M. D.

CASE G-571: Tom W., aged 19, teaches in Sunday School.

"Dr. Crane," he began, "our churchman says the 'Holy Ghost' is the Father, Son and Holy Ghost. Is it really one or three?"

"But I don't understand just what is meant by the Holy Ghost."

Until his death on the cross, Christ's Spirit was chained to a human machine with an average walking speed of about 2 1/2 m.p.h.

For while we inhabit our anatomical body, we are comparable to an automobile chassis, except that the chauffeur is not shackled to his steering wheel.

At death, however, our spirit becomes free.

Thus, when Jesus finally "gave up the ghost," he became once more a Cosmic Spirit, capable of being simultaneously in Nazareth, Capernaum, Jerusalem and everywhere else instantaneously.

"Wherever two or three are gathered together in my name," Jesus thus reassured his followers "I will be in the midst of them."

But until death freed his Spirit he was anchored to just one place at a time.

And this instant ability to be anywhere on this planet Earth, or on any others of the 100,000,000 inhabited or inhabitable planets circling distant stars, indicates the unfettered Spirit of Deity.

God and Jesus are somewhat analogous to the magnetic North and South poles of our planet Earth.

God and Jesus are somewhat analogous to the magnetic North and South poles of electrical energy.

But flowing everywhere between our North and South Poles

Pro-Hippie Resolution

ALBUQUERQUE, N.M. (AP) — New Mexico Democrats rejected a pro-hippie, pro-minority resolution during their state platform convention in Albuquerque.

The rejection, on a 447-445 roll call vote, came after a lengthy debate on the matter.

The resolution, as proposed by the convention's Resolutions Committee, said laws and regulations "should be administered so that persons 'being' or 'suspected' of being a member of a group discriminated against because of personal appearance or unusual point of view."

One proponent said the resolution does not call for enactment of new laws, but merely seeks to provide for proper administration of existing laws.

State Sen. Mack Easley of Hobbs, chairman of the Platform Committee, said he was in sympathy with those supporting the resolution, but added there would be some practical problems created through its passage.

"It could create chaos in the high schools," Easley said.

Dallas, Tex., began its life in 1841 when a trading post was built there by John Neely Bryan.

Good Supply Of Venison

WELLINGTON, New Zealand (AP) — New Zealand is exporting more and more venison with West Germany the best customer. It pays about 1.5 million New Zealand dollars (\$1,680,000 U.S.) for three quarters of the total export.

The deer are slaughtered in Fiordland at the south of the South Island where they run wild in thousands. The country is so rugged that the carcasses usually are flown by helicopter onto a landing pad on a refrigerated ship.

Keypunch Operators: Finger Pickin' Good

By F. J. LAIN

Miss Lain awards a new Mercury portable, courtesy of the Royal Typewriter Co., to Theresa Rutland, Indianapolis, Ind., for her question:

"I'm a high school graduate who is very interested in taking up keypunching. Could you please let me know what the qualifications are and what it takes?"

Have you ever wondered how computers get so smart? Aside from built-in design and programming, they must be fed information and frequently it's the KEY-PUNCH OPERATOR who starts the ball rolling by transferring information from records onto punched cards (computer food).

Once a hole's punched in a card, it can't be put back, so you can see why keypunch operators must be "finger pickin' good."

These same punched cards are also used with tabulating machines. Tab machines sort, count and print large quantities of accounting and statistical information; I think of them as accountants and bookkeepers on wheels. The Big Daddy computers. Regardless of the end-user machines...

Here's how the keypunch operator works: She (women predominate) sits while operating a keypunch, which is an electric machine equipped with a keyboard similar to a typewriter's (but with numerical characters). Instead of typing characters, it punches holes in cards; each hole represents a specific item of information.

The location of the holes tells the computer or tab machine how to deal with the card. The keyboard has more keys than that of a typewriter; these control feeding and positioning of cards and a couple of other features.

Job characteristics: Usually steady work with occasional overtime during peak periods... operators sit most of the regular pace for long periods... Groups of children from 4 to 9 years of age were invited to a studio and shown an hour-long series of filmed cartoons and commercial spots of which was the Billy Blustoff advertisement, planned for pre-Christmas release.

In one hand the children held a device by which they recorded their likes and dislikes, their voluntary responses to what was a lie detector.

From the other hand the children were slugged into a measuring device. Electrodes and wires were taped to their fingers to measure perspiration and blood pressure. This revealed involuntary responses. It was a lie detector.

The children also were tested in another way. The studio was bugged so the children's conversations could be overheard. And they were taped up through closed circuit television as they discussed the top.

In addition, they filled out test sheets both before and after the showing of the commercial.

"It's all this necessary," Closser was asked. Not always.

TEACHER RECRUITMENT brochure proof is checked by Hugh Carlton, principal of Sanford Junior High, Miss Darlene R. E. Iseli, before it goes on the printing press. The pamphlet, made up by Kay Bartholomew of the Superintendent of Schools' office staff, is being printed by the Junior High staff. Iseli did the art work on the brochure that will be distributed to colleges and universities throughout the United States to encourage teachers to come to Seminole County.

Yule Toys Are Big Business

By JOHN CUNNING

AP Business Analyst

NEW YORK (AP) — The grimy streets of Christmas are a truly serious time in the toy industry. It is no time for ordinary games, except those that hopefully will be sold to one of the world's most fickle consumer groups, the children.

One of the big sellers this year likely will be Billy Blustoff, a small battery operated astronaut who comes with several accessories, including a laser gun and space car.

Executives of Eilon Industries, the manufacturer, confidently forecast that it will be "among the top half dozen toys of the year." Electronic science and motivational psychology help produce this assurance.

Through such means, Eilon has convinced itself that the toy it offers satisfied the subconscious desires of the age 3 to 7 group, and that its advertising evokes a response strong enough for children to ask their parents for the toy.

Chuluota Club Eyes Building

By LIZA BAKER

The Greater Chuluota Community Club has received offer of an option to buy the Community Building for use as a permanent Community Center, according to a recent bulletin issued by the club officials.

It is stated that although the building is in need of certain repairs, it has a "beautiful" auditorium with stage and a screened porch large enough to be used by all organizations and clubs within the community.

The kitchen could be placed in first class condition and there also are two other large rooms and restrooms, the officers note, really should be an incentive for the club officials.

The club also would like to improve the playground area to be used for skating, dancing, tennis, handball, and other activities, as well as to improve the playground for supervision and to provide teenage activities, with proper supervision, the bulletin continues.

"However, the club treasury is at rock bottom and it will take money to do these things. We are sure you will agree that anything worthwhile is worth working for and the satisfaction we derive from making this a

reality should be an incentive for each of us," it is emphasized.

The first fund raising project to be taken by the club to provide funds for their proposed improvements are game nights, which are open to the public each Saturday. Refreshments are available at a nominal fee and there is free baby-sitting provided.

Annual membership drive will begin Nov. 1 with Mrs. Thomas Mikler as chairman.

Names may be paid to Mrs. Mikler or any member of the board which is made up of Mrs. L. A. Ratliff, Mrs. Eva O'Neill, Joe Gordon, Thomas Mikler, Mrs. A. Perrin, John Bayler, Mrs. Paul Anthony, R. C. Jackson and T. C. Coberly.

A membership roster will be placed on the grounds in front of the building before Jan. 1 and names will be added as families join. Dues will be accepted before Nov. 1 if desired.

H. L. Hunt Says:

Communists Keep Listening

Communists listen for the "go-ahead" before each aggressive move to set our resolve. Each time Russia pushes a satellite like East Germany or North Korea or North Vietnam into another such test, one of our own influential officials seems to provide what the Kremlin bosses consider a green light. Each time it costs the U.S. dearly in treasure and prestige, and twice (Korea and Vietnam) even more dearly in the blood of our fine young men before the communists decide to try again elsewhere.

This was the case with the Berlin Wall, which stood off the flight to freedom seven years ago this August. Shortly before the Reds built the wall, Senate Foreign Relations Chairman J. W. Fulbright stated on nationwide TV, "I don't see why the East Germans don't close it (the Berlin border), because I think they have a right to close it." He was arguing for concessions to the Russians on this point because they "have power to close it in any case. I mean you are not giving up very much because I believe

"Why not make 'riding' a new Olympic game — that wouldn't be any problem about location!"

DEDICATION of new Gracia Barr Andersen Garden at Florida Sanitarium and Hospital, Seventh-Day Adventist hospital in Orlando, took place at the 60th anniversary celebration with more than 1,000 visitors present for the occasion.

Hospital Dedicates New Andersen Garden

More than 1,000 visitors enjoyed the new Gracia Barr Andersen Garden during its dedication on the 60th anniversary celebration of Florida Sanitarium and Hospital, a Seventh-Day Adventist supported facility located in Orlando.

Each woman was presented with a large orchid and all persons present received four sketches of the institution as it progressed from a 1908 farmhouse, through developments of 1913, 1940, and to its present stages.

Punch and cookies were served in the garden, with hundreds of vanda orchids surrounding the punchbowl and blanketing the tables. Beautiful and exotic plantings make the garden a delightful place for visitors and ambulatory patients to spend the hours.

Strikes And Spares

By JOHN A. SPOLSKI

Let's see how many names we can drop for your inspection today. Details you'll recognize more than a few as friends and neighbors, too.

First of all, a salute to our friends from the Friday evening Community Methodist Church of Casselberry. Chuck Bainger, the red devil (in a church league???) had a 187-327 and teammate Dawn McGrew registered a 185. Richard Heaps of the Fibralis rolled a 200-224; Richard VanWormer was two pins higher at 182; from the Treasurer's Post (now, that's more like it...) Don Young - 183 and Bill Seprath had a 191.

The Friday evening SANDRA FASHIONS MIXED LEAGUE had a couple of "beasts" also. Jerry King had an even score of 200, while Bob Boomsberg missed it by a scant seven pins to total 190.

As a follow-up to last week's notes regarding those bowlers who contributed to the overall success of the State Bowling Convention, a 1,000 yarders to Bill Beck of WTRR, and also serving as Chairman of the Seminole Chamber of Commerce Promotions Committee.

Bill reminds me that it was Minnie Maid and not the Florida Circus Committee who bent over backwards to assist us in our efforts and that it was the Chamber of Commerce who put up that attractive Welcome Bowlers Banner on First Street.

It's like I said last week... I just knew that I'd find and forget someone while offering our pleads.

Meanwhile, back on the lanes... Orville Touchton had himself a dandy in the Toyota Mixed League action. Mr. T. was pocket-punching with a 219 and finished the series at 126. Fred Weston needed that single pin to make it into the charmed circle - a 199.

Others deserving your applause are Alice Best with a 190, Guy Thornton with a 191, E. G. Higginbotham had another good night at 206-530, and Gus Henke finished the bombing for the night with his 213-576 series.

Johnny Jacob was the man of the hour this past Saturday, when he needed a 125 (Shaggy) Murphy by 12 pins to win the No Tap Tournament and the \$25 first place prize money. Jacob clipped a 128 series (remember - all nine pin counts are scored as automatic strikes) and Murphy's 726 was good "enuff" for the case. It was Dick Schaeffer winning with an 1124. First and second places paid \$20 and \$15, respectively.

And talking about tournaments, this week we'll again have the game handicapped sweater. This one carries a \$100 prize but based on 20 entries. Two weeks ago when it was run, the top score was that of Jerry Mikala (127) including handicaps; while second place normally goes to the high scorer; in this case, it was Dick Schaeffer winning with an 1124. First and second places paid \$20 and \$15, respectively.

How many do you know from the Thursday a.m. Shooting Stars League? Part of the next group to be featured in our spotlight, Elaine Marston of the Gasman Studio team had a 106 and teammate and sponsor June Gasman clipped a 172. Harold Garrett of the M. A. Evans Machine & Tool team had a 185, while Bonnie Link of the E. Lank Construction team rolled a 166.

Bunny Evans of the Pryor's State Farm Insurance foursome rolled a 167, two pins more than teammate Lorraine Spots' 165, and Elaine Sorenkowsky's 150. High for the opposing team was Peg Patey 167, 169-463 and Helen Feicht 161.

It was Pat Foster who was "leading the pack" on Monday evening in the Adcock Home Improvement Mixed League as the started strong with a 190, followed it with games of 187 and 174 for a 551 series. Attaway to toss 'em, Pat. (I suppose that husband Bill would be just as happy if I only mentioned ONE of his scores... a 190. The others reminded me of my trysts lately. Ekl)

Others who were on the one-three pocket included Ralph Betts with a 207, Ellen Betts at 180, Fran Morton 178, Jean Krulik 185-22, Jo Ann Wright 185-219, Jane Spoliski 186 and Freddie Kaiser with a 204.

Even though it was "position round" for the Seminole Primer's League, only the Informals and the Business Cards played a friendly game... both teams split.

In this game group, Edna McClary rolled a 181 and June Gasman had a 171 for the Officals. Liz Graham tried real hard with her 169 but it wasn't enough as the Kluges dropped all four points to the Rubber Sluggers with Jack's Payne rolling 166, Gladys Dovey 172 and Dot Dutton 187, 185-214.

And now that you've been brought up to date on the scoring of our local "pro", let me fill you in on my friend, and truly a professional bowler Bill Allen.

The PBA results just published this week show Allen winning \$5,000 in seven tournaments during the time of July 11 through Sept. 5.

That's about \$800 per week. Sorta gives you something to think about, doesn't it?

Another quickie reminder about the six game sweater this Saturday at 9 p.m.

For Olympics Basketball Title Yank 5 Will Tangle With Yugoslavia

By ROB GREEN
Associated Press Sports Writer
MEXICO CITY (AP) — The showdown for the Olympic basketball title comes Friday, matching the United States' rag-tag collection and steady new-Yugoslavia.

Giant-killer Yugoslavia edged out mighty Russia 63-62, and the U.S. team, by-passed by most of the best collections and almost year-old whose nicknames trans-

lated "Lakewarm." His real name is Felipe Maron and his highly partisan countrymen figuratively raised the roof on the Olympic pool when he edged Russian world record holder Vladimir Kozlov. Then he broke down and cried.

The Russians, silver medal winners in the last four Olympics, didn't cry—at least publicly, after their basketball loss to Yugoslavia, but Russian Coach Czern Gombosky, who had said he would hold a press conference, failed to turn up for the interview.

It was wild, lead-changing affair, with Yugoslavia going in front to stay with the Russians, the game's high scorer with 13 points, dropped in a field goal with 1:18 to go, for a 61-59 lead. Vladimir Kvetkovic had two free throws to make a 63-60 lead. Sergeant Belove, Russia's highest scorer with 14, hit in the last second of play.

The United States, which beat Yugoslavia 73-58 in an earlier tournament game, handied Brazil with ease and is heavily favored to bring home another gold.

The American attack with 10 points, Bill Hollock of Ohio State and Spencer Haywood of Detroit each had 12.

"I don't believe there will be any problem getting the boys up when they are playing for the gold medal," his said.

"WE CAN'T AFFORD TO HAVE INTERFERENCE IN THE COURTHOUSE VOTE DEMOCRATIC"

YOUTH CAMP The Game and Fresh Water Fish Commission viewed a visual-aid progress report of the Youth Camp at Ocala, which disclosed an increase in attendance from 200 campers in 1967 to 1,067 campers this year, and highlighted a largely expanded activity program in conservation education.

Other outstanding performers, Stram said, "We beat Oakland because of the sterling performance of Ed Budde and our offensive line." Budde himself was on the other end of a devastating attack, blocking at the point of attack 1963 when two unfriendly fellows and a steel pipe got in his way. He wound up first with a split head and then a plate under regulations similar to those on Lake Parker in Polk County.

Time and place of the November meeting of the Commission will be announced later, Sunday included Jim Whalen, who caught only three passes.

SO YA LIKE SPORTS, EH? then READ S.O.S. EVERY THURSDAY!

HORSE GRADUATION SET FOR TODAY Ocala, Fla. (AP)—Men and women from half a dozen states will gather at the Dorchester Equine Preparatory School near here Saturday afternoon to see their "babes" receive diplomas in one of the most unusual graduation exercises in the country.

The 25 graduates have gone through rigorous and closely supervised training although they won't be two years old on Jan. 1, the universal birthday for all thoroughbreds in the United States.

Headmaster Jack Price of Carry Back farm, who will preside, has always contended that an environment means more than breeding and has attempted to prove it on Dorchester's 120 rolling acre.

Out of 67 graduates, 44 have been issued the diploma, a remarkably high percentage in any business—especially horse raising.

They have been schooled to gallop and run, to go to the inside or outside of the track, to drop back and take dirt in the face; go around the track counter-clockwise, as in this country, or clockwise, as in foreign lands.

All this, Price believes, builds muscles in all four legs and prepares the horses for any racing conditions.

Dorchester is a showplace in a community of manicured pastures and sleek thoroughbreds worth up to \$1 million (for Dr.

PUT IT IN WRITING

Mr. John Spoliski Sports Editor The Sanford Herald Sanford, Fla. 32771

With reference to your column last week concerning attendance at Seminole High football games, I don't think the price of tickets has anything to do with it. I will also disagree with those who might think it might be due to the caliber of coaching.

During Seminole High's great seasons of '63, '64 and '65, under Coach Jim Figgitt, Coach Stump led the Baby Seminoles through undefeated seasons. There's nothing wrong with the coaching techniques of a man who can do that.

But interest in the Seminoles began to drop when someone at the school pushed the panic button a few weeks after it was announced in December, 1965, that ENAS was to be phased out and replaced by Georgia. The Seminoles immediately withdrew from the Metro Conference. In fact they're not in a conference and have withdrawn from the championship crown.

During the two years Sanford was in the Metro, the team tied for second place one year and placed second the next. They still beat most of the Metro schools and should be in the league. Daytona Beach Mainland replaced Seminole on fast I doubt if Seminole will be able to get back in the loop within the near future.

If Seminole were in the Metro this year I suggest they'd still have a big following and home attendance would not be dragging its heels. So don't blame Sanford fans. If anyone is to blame it would be those EHS authorities who withdrew the Tribe from the Metro.

Sincerely, JULIAN STENSTROM

SEALS LEADING MINNEAPOLIS ST. P. A. L. (A.P.) - The Oakland Seals, who won only 15 National Hockey League games in 1967-68, took over first place in the West Division Tuesday night.

The Seals edged the Minnesota North Stars 3-2 on George Swarbrick's rebound with 4:01 remaining.

It was the second consecutive victory for the Seals. Oakland, now 2-5-1, leads Minnesota and St. Louis in the West by one point.

Tourney Draws Large Following

The Mayfair Men's Golf Association is preparing for the Hugh Wheelhel Memorial Tournament which will open this Saturday with an expected 100 men starting play.

The tournament will be a 26 hole medal play with the field limited to 100 players, and divided into five flights with 20 players per flight.

Following Saturday's play the flights will be broken down into A and B divisions. Prizes include \$200 per flight, a cup properly inscribed for each entry, two large trophies for the low net and low gross winners, and a mug for the winner in each flight.

Upcoming plans also include a cocktail party, 7:30 p.m. followed by a barbecue of beef, pork, and chicken.

Presentation of the prizes and trophies will take place following Saturday's play. There are still a few openings in the field.

By THE ASSOCIATED PRESS NEW YORK (AP) — Ed Budde has had a metal plate in his head for five years, and it may take the Oakland Raiders that long to forget what he did to them.

Budde, a Kansas City guard, was the standout on an offensive line that was so instrumental in making Coach Hank Stram's surprise return to the old-fashioned T-formation a 24-0 success Sunday.

For his part in the upset, Budde was named the American Football League's offensive player of the week today, the first time an interior offensive lineman ever has won the week's Associated Press award.

Discussing the results of his surprise offensive maneuver, Stram said, "We beat Oakland because of the sterling performance of Ed Budde and our offensive line."

Budde himself was on the other end of a devastating attack, blocking at the point of attack 1963 when two unfriendly fellows and a steel pipe got in his way.

He wound up first with a split head and then a plate under regulations similar to those on Lake Parker in Polk County.

Time and place of the November meeting of the Commission will be announced later, Sunday included Jim Whalen, who caught only three passes.

Rugged Lyman Treks To Deland Friday

By RON PAGE
Herald Sports Staff
Lyman's Fighting Greyhound dive into the second half of their 1968-69 football schedule Friday night against the Deland Bulldogs in Deland.

The Hounds faced one of their toughest contests last week in the form of Orlando's Evans Brewery Trojans, but came out victorious to a tune of 13-6, losing one of their prize possessions and that was their unseasoned record.

Lyman with five games remaining, will hopefully continue to be as successful in their defense and improve their offense to do well against Deland Friday night and in the upcoming matches.

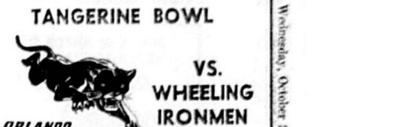

Head Lyman Mentor Dick Copeland commented concerning the Bulldogs, "The Land has a real big team and have greatly improved over last year's group." Copeland added, "They have done fairly well against all of their opponents and beat Kissimmee worse than we did." Copeland referred to the Kissimmee Knights' 20-0 loss to Lyman two weeks ago.

Copeland also stated that the Hounds will be keeping a close watch on Deland's 197 pound split end Mike Jenkins and their quickie fullback, Tim Nain.

Followback Jim DeWitt of Yale also handles the kick place kicking.

Taxpayers Not Swindled, Cabinet Says

TALLAHASSEE, Fla. (AP)—Democratic Cabinet members say Secretary of State Tom Adams has failed to convince his Cabinet colleagues that taxpayers were swindled when they approved the sale of 44 acres of Sumnerland Key property.

Agriculture Commissioner Bruce Doyle Conner and Treasurer Broward Williams said Tuesday they felt they were correct in approving the sale for \$425 an acre, as Atty. Gen. Earl Faircloth recommended.

"Faircloth, at Tuesday's Cabinet meeting, accused Adams of bushwhacking him by charging that the Monroe County land was actually worth \$12,000 an acre during the meeting. School Supt. Floyd Christian also said he felt Faircloth was right."

The Cabinet did not rescind approval of the sale Tuesday and Gov. Claude Kirk said his directive holding up the sale could not be left in effect much longer.

"I had no reason to question the integrity of the staff of the case well and this was a legal question," Adams made the charges after last week's meeting, which he did not attend.

Kirk brought up the matter at the meeting by asking if Adams had anything to say and if Faircloth had any reply. Then the GOP governor sat back, sometimes smiling to himself, and watched the fireworks.

Faircloth said \$425 was the best price the state could have gotten for the plot in a settlement with the Topgins Dredging Co. The company claimed it had filled the 44 acres of state submerged land by mistake, the attorney general said, and the state might have lost if it took the case to court.

"I feel almost like I've been bushwhacked, a m-bushed or something," Faircloth said of Adams' charges. Then, looking at Kirk, he said: "The only thing I can feel, governor, is that the honorable member Adams wants your job."

Adams denied Faircloth's statements. The secretary of state also claimed that the state had received less than \$10,000 from state might have lost if it took the case to court.

Volkswagen leaps into the present.

With a fully automatic transmission.

"If you bet a friend we never would 've almost don' it." 10 years ago the decision was made. To design a fully automatic transmission. The kind you put in drive and forget. Our one was to make things easy, but for us cheapest aren't easy to make. Especially in this case. There were certain things we just didn't want to lose. Like horsepower, and our reputation for being economical. What we've needed wasn't a 3-speed automatic transmission. It's a pure Volkswagen—designed from scratch to get the most out of the VW with the least expenditure of effort. It has the lowest moving parts. It's the lightest per horsepower out-

pet. And it's incredibly sensitive. Its model performs engine as powerful enough for the job.

So come see how far Volkswagen has come.

The Syncroback and Frontack. Both have disk brakes, an electronically controlled fuel injection system, and now, a fully automatic transmission.

If you're serious, it's comparable to an engine on our 40 models.

If you're not interested, we have saved to a lot of trouble for nothing.

Dear Abby:

By Abigail Van Buren

DEAR ABBY: My son is 8 feet, 2 inches, and weighs 220 pounds. He's married to a 5-foot-6-inch, 110-pound girl who has sent him to the hospital twice since they've been married, and it hasn't been a year yet.

The first time, she laid his head open with a coffee pot, and the doc took 22 stitches in his skull.

The next time she hit him with a bridge lamp and broke his nose.

The big dummy refuses to bring charges against her. He says he "loves" her. Is he crazy or is she?

How can I get him to either defend himself or help with this maniac. I'm afraid she'll kill him.

HIS MOTHER: They could both be in a mental hospital. If your son sticks around and takes this kind of punishment hands down, he's crazier than she is.

DEAR ABBY: When two couples go to dinner together, is it considered "cheap" to ask for separate checks?

Check and I have gone out with another couple and unless separate checks are asked for in advance, we split the check in half, which is very unfair because (1) I don't drink. (2) I never order the most expensive dinner on the menu like the other couple. (3) Our share of the

tip shouldn't be divided 50-50, because we didn't spend as much.

Nick and I talk to each other about this after we get home, but we feel sheepish and never do anything about it. Do you think we should?

"SHEEPISH": DEAR SHEEPISH: Yes. And if you don't, you are not only sheepish—you're foolish.

DEAR ABBY: I'm sick of reading about dirty old men. How about dirty old women?

I am a bachelor, 65 years of age, and I can tell you that a man who isn't in a wheel chair isn't safe alone anymore.

I went on a cruise for relaxation and the women nearly ran the road that 60-year-old women positioning me for early dates, late dates, and the late late dates. I got all sort of gifts, and one old dame even offered me MONEY! Not only that, but a 24-year-old kid passed me a note, "What are you saving it for? Dad? The prom?" I even had them trying to break into my room at night.

Maybe I'm old fashioned, but I still like to do the asking, but nowadays you don't get the chance. They ask you first.

SIDNEY: DEAR ABBY: The older the most expensive dinner on the menu like the other couple. (3) Our share of the

tip shouldn't be divided 50-50, because we didn't spend as much.

Horoscope Forecast

THURSDAY, OCT. 24, 1968

GENERAL COMMENTS: A fine day and evening to look at some new outlets through which you can express the school of thought and the ideas that mean the most to you, so first look into all available sources for best ways to do so and then you will be able to discuss with persons in the know who have had the background of experience to give you correct answers to questions of importance to you.

ARIES (Mar. 21 to Apr. 19): Going off on a little trip or arranging to be introduced to worthwhile persons is best for you now. Pay more attention to self-projection. Persons you meet now can help you in the most considerate and courteous drivers on the road.

It seems to be an unwritten law of the road that a truck driver will never pass up a car that looks like it needs help.

Needs help. I see a truck driver. I see a host of angels behind him all the way to heaven. God bless the truck driver. E. G. P.

Everybody has a problem. What's yours? For a personal reply write to Abby, Box 69700, Los Angeles, Cal. 90069 and enclose a stamped, self-addressed envelope.

FOR ABBY'S NEW BOOKLET "WHAT TEEN-AGERS WANT TO KNOW SEND ENVELOPE TO ABBY, BOX 69700, LOS ANGELES, CAL. 90069."

TAURUS (Apr. 20 to May 20): Getting everything of a very workable basis is wise now so that you will make a fine impression on bigwigs who will then support you more willingly. Have that talk with mate which makes everything between you much clearer. Be happier.

GEMINI (May 21 to June 21): Good day to come to a better understanding with others through intelligent and kindly conversations. Let them know your desire to cooperate and they quickly reciprocate. Save time for some recreation tonight.

MOON CHILDREN (June 22 to July 21): You find it easy to breathe through your duties of routine nature. Look so that you free more time for other things. Pay some attention to improving your health. Exercise for better health is wise, also.

LEO (July 22 to Aug. 21): This can be a very happy day for you if you make the arrangements for amusement in P. M. and then get at your work with a vim. Discuss whatever is on your mind with mate. Reapprochement can make everything ideal between you.

SCORPIO (Aug. 22 to Sept. 22): Know better where you are going in your structural life pattern and gain more backing. Be more direct in handling that problematical affair at home and it is soon solved. Think constructively.

LIBRA (Sept. 23 to Oct. 22): Instead of just thinking about the duties ahead of you, get right at them and they are soon done. Take care of your correspondence, make the calls that are necessary, etc. Keep active and you feel fine.

SCORPIO (Oct. 23 to Nov. 21): You have to think along more broad lines if you must be really expressive and do something worthwhile of your life. Get that money matter handled ideally and everything is much easier for you. Stop procrastinating.

SAGITTARIUS (Nov. 22 to Dec. 21): You can accomplish a lot about anything you set out to do, so get an early start and use positive methods. Don't hesitate to join that ideal group or club that gives you prestige. Be bold, charged, firm.

CAPRICORN (Dec. 22 to Jan. 20): If you do not confide in others about some plan you have, you find you can make it work very successfully. You have to use more confidence and charm with mate if you are to live together ideally.

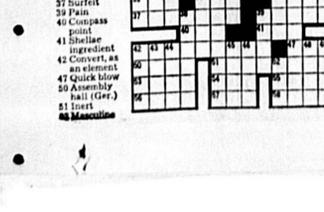

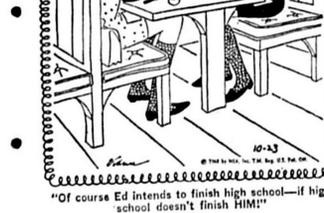

AQUARIUS (Jan. 21 to Feb. 19): Out to the social now and meet those wild and charming persons who can make your life more successful in the days ahead. Many new hobbies can be yours that will bring delight into your life. Avoid that individual who will be responsible for your unresponsiveness.

PISCES (Feb. 20 to Mar. 20): You find just the right method for getting bigwigs to give you support for your present needs and projects. Improve your credit and improve your image with the public in general. Just keep busy.

If YOUR CHILD IS BORN TODAY... he, or she, will be one of those charming people whose success can come most easily in states or countries distant from one's place of birth, or with persons of entirely different background in his, or her own. Give right education, teach to travel early and learn to think before stating ideas and avoid troubles there.

"The Stars imply, they do not compel." What you make of your life is largely up to YOU!

Flow flows from 7 to 13 feet high have been measured in the Arctic Ocean.

Gas Used In Major Bank Haul

NASHVILLE, Tenn. (AP)—Two gunmen who used a new gas which police say is similar to stun rioters are being sought today in connection with what may be Tennessee's largest bank robbery.

The well-dressed robbers, who also carried pistols, took \$100,000 from the vault and teller's cages of a branch of the First American National Bank Tuesday, bank manager Lonnie E. Wilson said after an audit.

Police were searching for two men in a late model blue Pontiac. Wilson said the robbers stopped at his desk, placed a smelloosed pistol to his head and ordered the tellers to leave their cages. Later, after employees and customers were forced to lie down in the bank's conference room, the gunmen sprayed the chemical into the air over them, Wilson said.

ANNUAL Halloween Carnival sponsored by Enterprise Parent-Teacher Council will take place on the school grounds the afternoon and evening of Nov. 1. All dressed up in anticipation of the big event are (left to right) Adriana Jones, Bobby Hennigan, Robbie Jones, Mike Henry and Kathy Ann Neider. With them is Mrs. K. E. Henry, chairman of the PTC ways and means committee. (Herald Photo)

U. S. Will Cut OJ Purchases

WASHINGTON (AP)—Agriculture officials say the federal government probably will not make substantial purchases of oranges this year.

The Agriculture Department spokesman said the government, in the past, often has made volume purchases because bumper crops depressed prices in the citrus industry. Two years ago, approximately 15 million gallons of concentrate were purchased. But officials said that was because the orange crop was 344 million boxes—a surplus.

This year the crop is expected to be about 120 million boxes—excluding five million boxes of temple oranges.

"We'll have to wait and see what damage if any, the harvest did to the Florida citrus industry before a final decision is made," said one official, who declined to be named.

Another agriculture official, who also asked not to be named, said the "ultimate decision may be a political one anyway."

He said Secretary of Agriculture Orville Freeman will make the final decision. He said Freeman's decision will be influenced by the adjacency of the Florida congressional delegation in seeking federal purchases. Officials said a crop of 120 million boxes does not seem to be heavy enough to cause a surplus. Under Public Law 230, the government is empowered to make purchases of the concentrate for use in the school lunch program, for distribution to the military and even for foreign distribution.

BALLOT SERVICE FOR SHUT-INS

If you are an invalid or shut-in and are unable to complete your ballot for this most important election, call us. We will send a notary and a witness to you so that you might voice your convictions for the leadership of our country. After you have completed and sealed your ballot, we will notate it and deliver to the Supervisor of Elections for you.

Citrus Hearing Nov. 4

LAKELAND, Fla. (AP)—The Florida Citrus Commission has called a public hearing Nov. 4 to consider implementation of the controversial citrus stabilization act passed by the 1967 Legislature.

Where The Antelope ...

LARAMIE, Wyo. (AP)—Metropolitan airports have their woes with overcrowded conditions and heavy traffic. But airlines operating at other remote areas have more problems.

Postmark

EL QANTARA Israeli-occupied Egypt (AP)—The Israeli Army has opened a post office in its half of this city, which straddles the Suez Canal. The postmark reads "Israeli Defense Forces—El Qantara" in Hebrew, English and Arabic.

The act, designed to stabilize prices in the face of crop size fluctuations, has the support of most segments of the industry. Warren Savant, executive vice president of Florida Citrus Association, told the commission Tuesday he believes the act eventually will boost sales of frozen concentrate or a n.e.g. juice to schools to \$6 million a year.

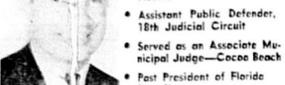

The act will allow farmers to give officials of the federal school lunch program specific price guarantees for future planting officials said.

But Wilson C. McDoe, general manager of United Growers and Shippers, called the act "a hastily concocted scheme to force the Florida growers to subsidize a national school lunch program through erosion of a vast, unwieldy commodity pool."

Citrus Commission officials say implementation of the act will require a nickel-a-box levy on citrusmen, to finance administration, promotion and marketing.

8 YRS. EXPERIENCE
DEMOCRAT
Full. Pol. Ad. by S.O. Dorminey

ROBERT G. PETREE COUNTY AND JU VENILE JUDGE

I believe that the decent, responsible, hard-working citizens of this community have the right to believe the law must be enforced in such a manner as to make every person aware that he is responsible for his own actions. Public factors from the bench are not easy and we have already had too much leniency from some of the judiciary. No offender will respect the law if he expects it and receives no penalty for its breach.

I pledge you a firm but fair administration of the law. I pledge you an active program of court cooperation with law enforcement officials and civic organizations to develop an effective juvenile educational program as the dangers of drug and alcohol abuse.

I pledge you a mature and understanding attitude by the court toward juvenile offenders. I earnestly ask your support of my candidacy on the basis of qualification and a genuine desire.

BROWN AND SERVE PIZZA—Crusts are made, partly baked and refrigerated. Then the filling and final baking are done at your convenience.

Brown-and-Serve Pizza Is New

By CECILY BROWNSTONE
Associated Press Food Editor
Here's a great pizza recipe for those cooks who like to be prepared. It makes four 12-inch crusts. You partly bake these, then refrigerate them and use within eight days.

Simply mix a package of active dry yeast, just as it comes from the package with some of the other dry ingredients and you're on.

If you make this pizza, be ready for thin crusts and a really flavorful tomato sauce. When we tried the recipe, we made the sauce ahead and refrigerated it along with the crusts. What a pleasure to have everything on hand.

BROWN-AND-SERVE PIZZA
4 to 4½ cups unbleached flour
1 teaspoon sugar
1 teaspoon salt
1 package active dry yeast
¼ cup very hot tap water
¼ cup olive oil
Tomato Sauce—see below
¼ cup grated Parmesan cheese
2 teaspoons crumbled dried oregano leaves

1 pound mozzarella cheese, coarsely grated
Garnish—onion rings, sliced mushrooms and green pepper strips, all sautéed; sliced pepperoni; drained flat anchovies

In a large mixing bowl thoroughly stir together ½ cups of the flour, the sugar, salt and dry yeast, gradually stir in very hot tap water and the oil. With electric mixer at medium speed, beat two minutes, scraping bowl several times.

Use ¼ cup flour or enough to make a thick batter. Beat at high speed for two minutes, scraping several times. Stir in enough more flour to make a soft dough.

Turn out onto lightly floured surface—board, pastry cloth or Formica counter; knead until smooth and elastic—4 to 10 minutes. Place in greased bowl; turn to grease top. Cover with a towel; let rise in warm draft-free place until doubled—about 45 minutes.

Punch down dough; turn out onto lightly floured surface. Divide dough into four equal pieces. Roll and stretch each piece into a 12-inch round, be careful not to stretch out too thin. Place in ungreased 12-inch round pizza pans. Form a standing rim of dough around edge.

Bake in a preheated 425-degree oven for five minutes; place a sheet of foil over each pan without bending down foil edges and bake three minutes longer using a spatula, careful to press down any bubbles that have formed. Remove crusts from pans and place on wire racks to cool. Wrap lightly with transparent plastic wrap; re-heat in 15-minute intervals. Bring to room temperature before using; don't worry if crusts have bubbles; sauce will weigh them down.

When ready to bake, place crusts in oiled pizza pans; spread about ¼ cup Tomato Sauce over each crust. Sprinkle each with two tablespoons Parmesan, ½ teaspoon oregano and ¼ of the mozzarella. Brush edge of crust with extra olive oil. Garnish.

Bake in a preheated 425-degree oven until crust is browned—about 25 minutes. Be sure to use a pizza wheel to cut the thin crisp crusts into wedges. Serve hot.

Makes four 12-inch pizzas.
TOMATO SAUCE (for pizza)
2 cups finely chopped onion
1 can 1 pound, 12 ounces Italian-style plum tomatoes

until onion is wilted and tomatoes are soft. Stir in remaining ingredients. Bring to a boil. Simmer, uncovered, until thick and reduced to about three cups about one hour. Sauce is ready to use. In a Dutch oven or similar non-stick saucepan, heat the oil. Add onion; gently cook, stirring often, using

APPLES, RAISINS AND GREEN PEPPER STEPS make this beef pot-roast a menu treat for a chilly evening. Serve with buttered, parboiled carrot sticks and baked potatoes, topped with sour cream and cooked bacon.

Corn Flake Carrot Muffins For Spring Breakfast

2 cups butter
1 cup butter or margarine, melted
1 cup finely shredded raw carrot
1½ cups corn flakes, crushed to make 1 cup
Combine flour, baking powder, salt and soda. Stir in brown sugar and raisins. Combine milk and eggs; beat slightly. Beat in butter or margarine and carrot. Add to dry ingredients and stir just until all ingredients are moistened. Fold in flakes. Spoon an equal amount of batter into 12 greased muffin pans (2½ x 1½ inches). Bake in hot oven (400 F) until done, 16 to 20 minutes. Yield: 12 muffins.

Get a happy smile out of the family on a "good-to-be-here" morning in spring with these golden muffins. This unusual way with muffins adds corn flakes and carrot to the batter. The flavor is delicate and not too sweet. The texture is tender yet has "bite" serve the muffins hot with butter and jam. Round out the menu with orange juice, cereal and milk and coffee for an adequate breakfast that is nutritionally sound. If you do the baking a day ahead, the morning meal will be prepared and served in the time it takes to make the coffee and toast the muffins.

When you move into a Medallion Home... you already know a lot about it.

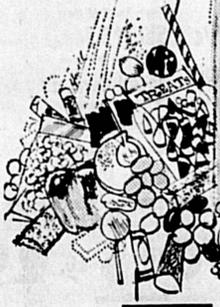

You know that the Gold Medallion *outside* means the ultimate in total-electric living *inside*. Here clean, flameless electricity does everything faster, safer and cheaper. Every Gold Medallion home or apartment features cooking, water heating and electric reverse-cycle air conditioning. Also two other major electric appliances, such as refrigerator-freezer, dishwasher, home laundry. Plus ample Light-for-Living and Full Housepower Wiring with plenty of convenient switches and outlets. The Gold Medallion symbolizes all the comforts, conveniences and economies you've always wanted.

There's no match for flameless electric... it's cheaper, too!

Chicken Stuffed Filets

By CECILY BROWNSTONE
AP Food Editor
SUNDAY SUPPER
Here's an interesting fish dish!
Chicken Stuffed Filets
Fried Potatoes
Bread Basket
Cooked Vegetable Salad
Fruit Sherbet
Beverage
1 can (4 1/2 ounces) chicken spread
1 teaspoon lemon juice
1 tablespoon sour cream
1/2 teaspoon dill weed
1 tablespoon minced parsley
1 sole filets—2 pounds
Salt
1/2 cup flour
1 egg, slightly beaten
1 tablespoon water
1/2 cup fine dry bread crumbs
8 medium wedges
Combine chicken spread, lemon juice, sour cream, dill weed and parsley. Pat filets dry, lay flat, with darker side up; salt lightly. At wider end of each filet, spread a rounded tablespoon of chicken-spread mixture part way down the center of the filet but not to the edges; then roll up and secure tip with a wooden pick. Dip in flour, then in mixture of egg and water, then in bread crumbs, completely coating sides and ends each time. Refrigerate overnight. Deep-fat fry two or three at a time at 375 degrees for six minutes. Drain on absorbent paper. Keep warm in a 300-degree oven until ready to serve. Serve with lemon wedges. Makes six average servings.

Lion Cub Bounced

CAMBRIDGE, Mass. (AP)—Randolph College has said Randy Paar, daughter of television personality Jack Paar, that she would have to find some place besides a school dormitory to raise a 15-week old lion cub.
Mrs. Gerald Peabody, house chaperone at the off-campus Shepard House, discovered the cub's presence Monday after she heard the animal make "a funny noise."
She then learned that the lion had been living with Randy and 30 other upperclasswomen and had even been taking strolls through the neighborhood on a leash.
"He's very friendly and he doesn't bite," she added.
But the college rules do not allow for keeping a house cat, much less a lion. In the dormitories and Randy agreed Tuesday to take the pet home to her father.
Paar likes lions and brought three home last summer from a trip to Africa. He eventually gave them to a Florida zoo and the zoo owners had asked Randy to care for one for a while.

State Hits Embargo

TALLAHASSEE, Fla. (AP)—Agriculture Commissioner Doyle Conner was scheduled to meet with farmers today to see what action could be taken to lift embargoes by other states on Florida's cattle.
Conner said Tuesday he was also considering "taking some" agency action to resume some sort of brucellosis testing program in the wake of embargoes on Florida cattle by seven states and notification that 16 others may join in the ban.
"If this embargo by the seven states is not lifted," Conner said, "the embargo will be economically devastating to the cattle industry."
The embargoes came after Florida's compulsory brucellosis testing program was ruled unconstitutional in a Martin County Circuit Court. The case is being appealed to the state supreme court.
California, Indiana, Maine, Montana, Tennessee, New Hampshire and Maryland have already put embargoes into effect, the agriculture commissioner said.

Squirrely BRIDGEPORT, Conn. (AP)—A large portion of the Bridgeport area was without electricity Sunday because of a squirrel.
A spokesman for United Illuminating Co., which supplies power in the area, said 41,700 customers were without electricity for 30 minutes after a squirrel short-circuited high tension lines at a substation.

Offering From The Pantry

By CECILY BROWNSTONE
AP Food Editor
FRIDAY BUFFET
You'll like this spicy offering from pantry ingredients:
Shrimp Curry
Rice
Pear Chutney
Sautéed Beans
Chocolate Roll
Beverage
PEAR CHUTNEY
1 can. Rappaport pear halves
1 can Italian-style peeled tomatoes
2 medium onions, sliced
1/2 cup sugar
1/2 cup distilled white vinegar
1/2 cup coriander, rinsed in hot water and drained
1 cup fine strips, strip-cut, serrated ginger, lightly packed
1 teaspoon salt
1 teaspoon ground ginger
1 tablespoon Worcestershire sauce
Cut each pear half into eight pieces. Turn into a three-quart saucepan with the pear strips and the undrained tomatoes. Add remaining ingredients. Boil vigorously, stirring often, for one to one and a quarter hours on mixture is of chunky consistency. Stir almost constantly for the last 15 minutes or so of the cooking to prevent sticking. The pear pieces should keep their shape. Makes one quart. Cover and store in the refrigerator.

FAMILY DINNER
Mushrooms from the pantry make an excellent topping for steak.
Roasted Steak with Mushrooms and Onions
Green Peas with Carrots
Mixed Green Salad
Roast Tripe
Pear
MUSHROOMS AND ONIONS
3 tablespoons butter
1 1/2 cups thin strips onion
1 can 4-mushroom-chopped mushrooms, drained
In a 10-inch skillet over low heat, melt the butter. Add the onion and cook gently, stirring occasionally, until golden brown. Add mushrooms and gently heat about five minutes. Makes four to six servings. Serve over slices of steak.

New Alarm Brainier Than Crooks

LONDON (AP)—Safecrackers, bank robbers and pesky mice better watch their step. A British company has developed an ultrasonic burglar alarm that's brainier than most crooks.
Don't try to tamper with it or turn it off, because it will just get excited and turn itself on.
The "G-vector," an electronic device which guards up to 500 square feet, is so sensitive it can go off at the sound of rain falling or a mouse scurrying through the gallery.
It has been especially designed to detect criminals who use a thermic lance, flame-thrower or other methods to drill into safes, banks and stores. Its major asset, says a company official, is that it can replace standard and vulnerable tubing and wiring systems.
Alarm Equipment Supplies Ltd., the manufacturer, says the new alarm operates on a transmitter-receiver basis which picks up disturbances in air wave patterns.
Sales Manager R. W. Robin says the major problem with burglar alarms these days is that 90 per cent of them make false alarms. The G-vector has a way of taking that problem.
The \$40 alarm—as large as a medium-sized transistor radio—can have its sensitivity adjusted to pick up the slightest sound or movement. But it also has a delayed reaction system that can differentiate between a false alarm and the real thing.
To avoid having the alarm triggered off erroneously, the device silently waits to see whether or not there is continuous motion. If something disturbs it for longer than 15 seconds, the alarm needs to operate in 12 volts, which continues to flow even if the main switches are turned off.
Gold was discovered in Denver, Colo., in 1858, by William Gilman Russell of Georgia.

Refresher For After Classes

By CECILY BROWNSTONE
AP Food Editor
AFTER-SCHOOL REFRESHER

Fine chocolate flavor and a soft interior distinguish these cookies.

Apple Wedge with Chocolate Cookies Milk

CHOCOLATE COOKIES
1/4 cups sifted flour
1/4 squares melted chocolate
1 teaspoon baking soda
1 stick butter or margarine
1 cup firmly packed dark brown sugar
1 teaspoon vanilla
1 large egg
1 1/2 cup buttermilk
1/2 cup raisins, rinsed in hot water and drained
1/2 cup chopped walnuts

On wax paper sift together the flour, baking soda and salt. Cream butter, sugar and vanilla. Beat in egg, then chocolate. Gently beat in sifted dry ingredients and buttermilk until smooth. Stir in raisins and walnuts. Dough will be very soft. Drop by level tablespoons, a few inches apart, on buttered cookie sheets. Bake in a pre-heated 350-degree oven 10 to 12 minutes. With a wide spatula, remove to wire racks to cool. Store in a tightly covered tin. Best with warm juice or tea.

DINNER FOR FOUR
Adding a liqueur to coffee just produces a sophisticated drink.

COFFEE JELLY PLUS
1 envelope unflavored gelatin
1/4 cup cold water
2 tablespoons sugar
4 teaspoons instant coffee
1/4 cup boiling water
1/2 cup domestic white cream de cacao.

In a one-quart bowl sprinkle gelatin over cold water and allow to soften for about five minutes. Add sugar, coffee and boiling water; stir to dissolve. Stir in cream de cacao. Turn into four or five half-cup molds. Chill until set. Unmold. Serve with vanilla-flavor custard sauce or whipped cream. Makes four or five servings.

FAMILY DINNER
Try one of our favorite vegetable dishes.

GREEN BEANS AND APPLES
1 pound green beans, cut one 1-inch lengths
2 tablespoons sugar
1 cup boiling water
1/4 teaspoon salt
2 tablespoons butter
2 large tart green apples pared and cut into 1/2-inch cubes
2 tablespoons flour
2 tablespoons sugar
1 tablespoon lemon juice

In a covered saucepan, boil beans with water and salt until tender—about eight minutes. Drain and add enough water to bear liquid to make 1 1/2 cups; set aside. In a 1 1/2-quart skillet, melt two tablespoons of the butter and sauté apples for five minutes. Add sugar and lemon juice. Stir in the remaining ingredients. Cook for five minutes. Serve with the beans. Makes four or five servings.

MOTHER'S HELPER
NEW YORK (AP) — Now little girls can do everything that mother does on their own with a group of mini-appliances that really work.

There are stoves, dishwashers, grills, blenders, and mixers for tiny tots who want to keep house. Other "Busy Homemakers" toys include carpet sweeper, vacuum cleaners, iron and ironing boards, dishes, cutlery, utensils, and cake and cookie makers.

Baked Salad Popular

By CECILY BROWNSTONE
Associated Press Food Editor
Every one in a while a new recipe comes along that is so popular, it is almost impossible to find a restaurant that does not have it on its menu. One such recipe is Baked Crab Salad. It is a delicious and healthy dish that is easy to make and can be served at any time of the day. It is a great addition to any meal and is sure to be a hit with everyone who tries it.

So when we came upon a new version of the hot salad we were ready to try it. And a delightful version this is featuring crab meat, mayonnaise and corn chips. One layer of the non-chips is put in the bottom of the baking dish to make in the good ingredients on top of it. Another layer garnishes the dish and these non-chips stay crisp and offer good texture contrast.

Served at lunch at our house, this Baked Crab Salad was much enjoyed. You may want to try it when you have someone guests at your home. It is a nice connection to the rest of the menu can be on the table.

BAKED CRAB SALAD
3 cans, each 7 1/2 ounces, tender free king crab or 1 pound frozen free frozen king crab, thawed
1/4 cup commercial mayonnaise
2 tablespoons lemon juice
1 teaspoon salt
1/4 teaspoon garlic salt
1/4 teaspoon chili powder
1 teaspoon Worcestershire sauce
1/2 cup finely dried celery
2 medium tomatoes, sliced—1/4 cup
1/4 cup minced scallion greens
1 egg 1/4 beaten, cover with 2 cups from a larger bag
Drain and slice crab
In a mixing bowl, thoroughly stir together mayonnaise, lemon juice, salt, garlic salt, chili powder and Worcestershire sauce. Mix in the crab, celery, tomatoes and scallions.
In the bottom of a buttered shallow one-quart baking dish place a layer of crab chips. Top with crab in slices. Top with remaining crab chips.
Bake in a preheated 350-degree oven until just hot through, 15 to 20 minutes. Serve at once.
Makes four to five delicious servings.

Easy On Iodine
HONOLULU (AP) — A Honolulu dermatologist believes that Hawaii residents who buy iodine salt are more than helping themselves.
The physician said the iodine salt and water in Hawaii contain a lot of iodine naturally. He says the excessive iodine may be one reason that acne is more common and seemingly more severe in his island.
He reports that adolescents and adults with acne problems frequently find skin eruptions disappear when they go to the continental United States.

Increase
FRANKFURT, N.Y. (AP) — Kentucky State Police believed to be among the lowest paid in the nation, have received salary raises. The starting pay of a trooper went from \$35 to \$50 a month.

Grand Jury Returns Indictments

UTILITY POLE DOWNED when an auto driven by Jo Anne Bohannon was knocked into the object after her car was struck early today on SR 46A by an auto driven by Inez Baker. Three persons were hospitalized for treatment and one was admitted in "satisfactory" condition. Pole damage was estimated at \$900.

True Bills Sealed

True bills were returned by the Grand Jury in an interim report this morning and the indictments were immediately ordered sealed at the request of Assistant State Attorney Robert Eason, unless the persons named are in custody.

Circuit Judge Roger Dykes was to sign the warrants today and set bond for the individual defendants. The Circuit judge declined comment on the appearance when queried on the matter.

Jury Foreman Gordon Meyer asked for and received permission of Judge Dykes for the jury to return to its work in the conference room at the sheriff's department. Alexander declined comment on the appearance when queried on the matter.

Term of the current grand jury began on Aug. 13 and will end on Nov. 3, election day. Two sessions, many alleged members of the gambling community have testified.

Altamonte Vote Set

Election proclamation calling for municipal election in the city of Altamonte Springs on Nov. 3 is scheduled to be issued by Mayor W. Lawrence Swafford today.

City Council last night adopted an ordinance calling for an election ordinance calling for use of voting machines in elections in the city.

3 Injured In 2-Car Accident

One person was admitted and two others treated this morning at Seminole Memorial Hospital after sustaining injuries in a two-car accident that occurred at intersection of SR 46A and Lake Mary Road.

Trucker Buddy Smith of Florida Highway Patrol investigated the 7:50 a.m. mishap and charged Inez W. Baker, Mulberry Street, driver of one of the vehicles, with failing to yield right of way after her car pulled into the path of an auto operated by Jo Anne Bohannon, a Seminole High School teacher, who lives at 102 Kingswood Court. Smith said the collision resulted in the total loss of both cars and the snapping of a utility pole which toppled over onto the Bohannon vehicle.

Two passengers in the Baker auto were removed to hospital for treatment. Suzanne June, 23, 125 Academy Street, suffered injuries to right side and right hip and was admitted to Seminole Memorial Hospital in "satisfactory" condition.

Mattie June, her sister, was treated for multiple cuts and bruises and released, hospital officials said. Jo Anne Bohannon was also treated for superficial bruise and laceration.

Parent orientation will be held at Seminole High School at 7:30-9:30 p.m. Monday.

Parent orientation will be held at Seminole High School at 7:30-9:30 p.m. Monday.

Opposes County Contract

Insurmountable road block may have been put in the way of the solution to the ambulance service problems arrived at by the County Commission last Tuesday.

Altamonte Springs City Council last night instructed City Attorney S. Joseph Davis Jr. to prepare a resolution opposing proposed contract with Herndon Ambulance Service to provide the service from one station at the county at annual subsidy of \$18,000.

Resolution as agreed on by Council also opposes proposal by Seminole Memorial Hospital and one by Brevard Ambulance Service. The resolution would call for possible purchase of three ambulances valued at \$28,000 for a service based at the medical facility in Sanford.

At the same time, the Brevard firm proposed two stations with annual subsidy of \$27,000 annually.

Council in the resolution further asked that future proposals on ambulance service be submitted to the city for consideration.

Thomas Pratt appeared before the board and urged the city to stand for nothing less than equal and adequate protection. "Pratt stated that under the method approved by the Commission on a three-to-two vote, South Seminole would not be receiving equal and adequate protection and under the plan of the hospital, South Seminole would receive no protection at all."

Mayor W. Lawrence Swafford reiterated his opposition to subsidizing private enterprise and explained the Herndon firm equal was the best of the proposals considered by the Commission.

County Attorney Harold Johnson made it clear at the Commission meeting that no contract with an ambulance service could be approved without concurrence by the cities of the county.

In other business, Council advised architect Richard Osterlander to submit a request for change of zoning in writing for the complex being planned for the seven and one-half acre tract of land fronting on SR 436 at Park Place. Osterlander said it is planned to build a service station, prestige shopping center and 79 condominium multi-family units on the site.

Shop Fire Contained

Quick response by the Caswellberry Volunteer Fire Department last night prevented major damage from a fire at Castle William Children's Center, Way, owned by Jean Bespe and William Ramsay.

The fire was reported at 7:30 a.m., having started in the main room when an electrical fan was being cleaned. Electrical sparks apparently ignited fumes from the cleaning fluid.

Damage was mainly confined to the fan and the wall.

Sanford Atlantic National Bank 101 E. FIRST STREET member FDIC

Holt-City Picture Clouded

Events surrounding the negotiations between the City of Sanford and Holt Corporation involving the leasing of certain facilities at the Sanford Naval Air Station moved quickly and confusingly in the past 24 hours with the result being additional closing of the picture.

Closely the developments have evolved around the reported "press conference" of the Holt Corporation, a request from Holt to lease additional buildings at the base for temporary construction for the former Naval Air Station and an announced intent by Seminole County School Supt. William J. Phillips to seek use of certain structures at the base for temporary operation of a county vocational technical school until permanent construction for the training center can be completed at county owned property located on Highway 17-92 near the Seminole Junior College site.

Answers to some of the questions came today during a breakfast interview with Holt Corporation President Robert E. Holt, who is seeking a lease on 14 buildings at the phased-out Navy base said today, "It is not a policy that none of our employees are authorized to call press conferences with local media to expound on certain reasons, he said, had caused the now existing stalemate between the Holt Corporation and city officials.

Holt officials later said that the statements made by the man alluding to "political reasons" why he said city would not come to an agreement with Holt and lease the structures.

Disclaiming any implication in the incident, Holt said today, "It is also a policy that none of our employees are authorized to call press conferences with local media to expound on certain reasons, he said, had caused the now existing stalemate between the Holt Corporation and city officials.

He went on to say the "individual" was dismissed from the Holt organization before he gave out statements to the press and, therefore, should be construed as the opinions of a private individual and not the views of the Holt group.

Reasons for the man's dismissal were not disclosed but Holt said he was never in executive capacity.

City Manager Warren E. Knowles revealed that his office had received written request from Holt seeking additional buildings at the base for further expanded operations.

Knowles revealed that Holt had requested an additional leasing of over 100 buildings and listed the individual structures wanted. Presumably the request will be presented to City Commission for action in near future.

Hand Opens 6 Concerts

A burst of late sales has catapulted the membership drive of the Seminole County Mutual Concert Association near its goal.

But the membership chairman, Mrs. Morris Loggason and Mrs. Wendell Springfield, announced they are short approximately \$1,500 and urged their captives to reach former members who have not yet renewed their season tickets.

All Republican and Democratic candidates are being invited to appear, Mrs. Gene Meadors told the Herald today. Each candidate will have an opportunity to speak.

The public is invited to attend to meet the Chief and the candidates. Children are also invited. Free cold drinks, popcorn and potato chips will be served.

Parent orientation will be held at Seminole High School at 7:30-9:30 p.m. Monday.

Parent orientation will be held at Seminole High School at 7:30-9:30 p.m. Monday.

Parent orientation will be held at Seminole High School at 7:30-9:30 p.m. Monday.

Parent orientation will be held at Seminole High School at 7:30-9:30 p.m. Monday.

Parent orientation will be held at Seminole High School at 7:30-9:30 p.m. Monday.

JAMES H. DYSON JR., grandson of Mrs. W. R. Dyson, 1201 Magnolia Avenue, has been appointed cadet commander of the ROTC brigade at State University, where he is a senior student. He is the son of Col. and Mrs. James H. Dyson, of the Army War College, Carlisle, Pa.

Altamonte Planning Chief Quits

Mrs. Bernice O'Hearn, chairman of the Altamonte Springs Planning and Zoning Commission, resigned as head and member of the Commission in a written communication to the City Council last night. The resignation was accepted.

In her letter to the Council, Mrs. O'Hearn said, "Unfortunately this job has been thankless beyond the point of resignation. I undertook this assignment with the sincere desire to render a civic service to my community."

"However, the Town Council has evidenced in recent months that they are not interested in the thoughtful and well planned growth of the City of Altamonte Springs, Fla. I do not feel that the Council has the capacity to understand or appreciate the need for proper zoning."

Mrs. O'Hearn's board in recent weeks has taken a position at odds with the desire of the Council to solve the problem of two enterprises apparently improperly operating in R-3 zoning in the professional building on Mallard Avenue.

She said her group had until Nov. 1 to receive contract to base, after which she will have to look elsewhere to protect and fulfill contracts.

To further complicate an already complex situation, word came from the school of a state that the superintendent would ask for certain base properties to house a temporary facility for the approved vocational school.

It is not known what building the school has in mind for the vocational operation, but presumably some of the structures would possibly be among those requested by Holt.

Phillips has indicated, however, that he would wait until the City of Altamonte has approved the request for the Holt Corporation and would seek accommodations not requested by the Virginia-based firm.

Holt indicated today his intentions to continue in an effort to break an impasse that has developed between a group and city over whether his firm has met requirements set by city officials.

Holt acknowledged today his need for the additional buildings which he said would be utilized in the expansion operation of his firm.

He said he had already had certain alternative offers when the state that he could move his Arlington (Va.) operation but because the Cuban ambassador to the United Nations, and to send a National Guard message, says Chief Asst. Dist. Atty. Alfred J. Scott.

Continuing, Holt said "We have received invitations from other Florida municipalities that are favorable than those received from Sanford" he concluded. "The Holt Corporation would employ 220 persons right away at the base" the president said "with expansions within a year's time to over 1000 people."

He indicated that many more contracts would be forthcoming once the corporation has base lease to show prospective customers.

Directors Will Meet Directors of the Seminole County Chamber of Commerce will hold their third quarterly meeting at 10 a.m. this coming in the conference room of the Chamber building.

The 1968 proposed budget will be presented for approval, and will include funds for an assistant manager. Also to be discussed is a new color brochure for special distribution.
