

Low Batting Average But Large RBI Average Sometimes Better

NEW YORK, July 7.—(AP)—There's a saying that figures don't lie. But sometimes they can be deceiving. For instance, you probably wouldn't think that a ball player with a batting average in the 200's was any great shakes as a hitter.

But there's where you can be wrong. Bill Nicholson of the Chicago Cubs, sporting an insignificant .267, leads the National loop in runs batted in—and RBI is the payoff symbol on a hitter's value. It shows the ability to bang one when it counts.

The same situation exists in the American League. Charlie Keller of the Yankees, with an apparently puny average in the 200's, is pacing the circuit in RBI. Ted Williams of the Boston Red Sox is setting a furious batting pace, with an average of .330. He has driven in as many runs as Keller.

A number of players who habitually author seasons' batting averages under .300 are actually of more offensive value to their teams than the lads with impressive .330 marks.

Take the cases of Cecil Travis of the Senators and Dolph Camilli of the Dodgers. Both have been in the majors eight years. Travis has a lifetime batting average of .322 while Camilli's is only .285. Yet Dolph has knocked in 660 runs to Travis' 480. He has hit 171 home runs to Cecil's 18 and 65 triples to the Washington infielder's 51. He won't get as many hits as Travis but he hits a longer ball and connects more often when there are ducks on the pond.

Here are some other hitters with light averages and heavy RBI totals: Joe Gordon of the Yankees, Hal Trosky of the Indians, Joe Kuel of the White Sox, Bobby Doerr of the Red Sox, Bob Johnson of the A's and Dominic Dellesandro of the Cubs.

Dizzy Dean To Try His Hand At Radio

PITTSBURGH, July 7.—(AP)—Dizzy Dean of the Chicago Cubs turned his back on baseball Sunday but not without a prayer in his heart that he might return.

At the conclusion of a doubleheader here between the Cubs and the Pittsburgh Pirates, Dean who entered the major leagues with the St. Louis Cardinals in 1930 set out for St. Louis where he will take a job with a broadcasting company as a radio broadcaster.

Waxing serious between the two games Sunday, Dean said: "I think I am going to like radio. The experience I have had on several occasions has been enjoyable, yet I must say I am leaving baseball with deep regret. The game has been very good to me and I feel I am obligated to it."

Riggs Faces Neil In Southern Meet

LOUISVILLE, Ky., July 7.—(AP)—Don McNeill, of Oklahoma City and Bobby Riggs, of Chicago, Sunday advanced to the final of the annual Southern tennis tournament.

McNeill defeated Blisly Grant of Atlanta, 6-7, 6-6, 1-6, 6-4. Riggs beat Garner Mulloy of Coral Gable, 6-4, 6-3.

Finals had been scheduled for the same day, but the tournament was delayed by rains during the past three days.

Pauline Betz and Winston Park and Doris Hart, the defending champion, of Miami, advanced to the finals in women's singles.

A New York catering establishment once made a wedding cake for a sale at \$150.

White Sox Pilot Suspended For Abusing Umpire

DETROIT, July 7.—(AP)—President William Harridge of the American league announced Sunday that Manager Jimmy Dykes of the Chicago White Sox had been "indefinitely suspended" for the "use of obscene and abusive language" to Umpire Steve Basil in Saturday's Chicago-Chicago game at Chicago.

Harridge who is here for the major league all-star game at Briggs Stadium Tuesday, declared Dykes will "remain under suspension until he can satisfy the American league office" that he will fall in line with the other seven managers of our league.

Text of the Harridge statement, one of the severest ever issued against a major league manager, follows: "For his conduct and use of obscene and abusive language to Umpire Basil in the game played in Chicago on Saturday, while protesting the decision of Umpire (Harry) Geisel on the foul ball hit to rightfield in the ninth inning, Manager Dykes has been indefinitely suspended.

"He will remain under suspension until he can satisfy the American league office that in the future he will fall in line with the other seven managers of our league in conducting himself and his ball club on the field.

"His tactics in delaying our games, attempting to bulldoze and browbeat the umpires while filing protests, which have no basis in fact or justification in the rules has become very offensive, not only to the spectators in other cities throughout the circuit, but to our entire organization."

As a result of yesterday's run-in with the umpires, Dykes was banished from the game.

British Hit At France In Air Attack

Continued Bombing Aimed At Softening Opponent For Land Sortie

Nazi Convoys Hit By Planes

New Type Bomb With Remarkable Power Reported In Use

By Associated Press
Britain's ever-expanding air offensive featured Monday by two day-long daylight raids on northern France and smashing blows to two German convoys off shore—has tangled communications in a great swath from Kiel to Brest and has softened the Nazi defense for possible British invasion.

A competent observer declared last night.

The continuing attacks, the observer said, not only are softening the path in case Britain decides to send expeditionary forces but are destroying facilities Germany would require for an invasion of Britain.

The British air force, continued since June 11, now are implemented by hundreds of planes daily and by new super-special 4,000-pound bombs of almost unbelievable destructive power.

One of these new bombs, an "incendiary" bomb, is reported to be "a hole in the sky" that burns for 10 minutes, and that everything in the path of the incendiary is destroyed.

Incendiary bombs, the observer said, are being used in the air to destroy the German's air bases and to destroy their fighter bases.

In detailing the day's activities, the air ministry acknowledged that the British air force had hit the German's air bases and that the British air force had hit the German's air bases.

Strength Of Forces In Iceland Secret

WASHINGTON, July 8.—(AP)—The strength of naval forces based in Iceland Monday by the United States was a government secret.

London Halls U. S. Move In Iceland

LONDON, July 8.—(AP)—Establishment of United States forces in Iceland was approved in London today, an authoritative source said.

Amies Do Battle From Rock To Rock

CAIRO, July 8.—(AP)—Austrian fighters fighting northward along the Red Sea front were reported last night to be attacking Demos, main French stronghold before the Nile.

Two Airline Stops Will Be Omitted

WASHINGTON, July 8.—(AP)—Douglas county commissioners ordered relief assistance without delay from the county or by other means.

Goldilocks And The Stubborn Hot Dog

With the mercury high in the nineties in New York, Little Faith Weiss, 2, decided she's done it. But Faith is a charitable little something had to be done to keep cool, and girl and she knows dogs get just as hot as people. She's trying to induce Sparky, fire house mascot to sample the water. Go ahead, Sparky, try it!

New Salvation Army Leader Was Born In Austria

Langer Was Educated Only 75 Miles From Herr Hitler

Major William Langer, who is to take the place of Adj. R. E. Rose of the Salvation Army, was born in the village of Humberg, Austria, a community at the foot of the Alps and received his education only 75 miles from the place Adolph Hitler was educated, both of them going to school at the same time, according to a report received by The Herald today.

At the age of 15 years Major Langer left Austria to settle in the United States. He served in the service of the Salvation Army for nine years and has spent the longest period of service in Valdosta, Ga., from which post he is coming here.

Of his early life and associations in Austria Major Langer speaks of Hitler as a pouting personality.

"Hitler is a confusing personality and I just can't seem to place him as one of the happy-go-lucky people that are characteristic of the Austrian people."

"In fact I don't very much like Hitler really, in or over was a real Austrian," he continued.

In connection with his work with the Salvation Army Major Langer recalls one experience that stands out in his mind as proving the honesty of people.

Two Airline Stops Will Be Omitted

WASHINGTON, July 8.—(AP)—Douglas county commissioners ordered relief assistance without delay from the county or by other means.

Air Reserve Called For Active Duty

Need For Transportation Of 4,000 Railroad Tank Cars

WASHINGTON, July 8.—(AP)—The War Department disclosed today all air reserve officers not already on active duty and whose civilian occupations are not of primary importance to the defense program are being ordered to extended active duty.

The actual number thus summoned "will not be made public," the department said. Adding that by Aug. 1 all available officers of this branch are scheduled to be on duty.

While the War Department was making a move to strengthen the air force the railroads were asked to bolster the battle on the production front by making cars available for the shipment of oil in the East.

In response to an appeal for the use of railroads to move oil west where shortage threatens, about 4,000 railway tank cars have been pressed into this emergency service, Secretary of Interior Ickes reported.

The Populus Atlantic Seaboard herebefore received almost all its oil by ship tankers from the gulf and Pacific ports.

Stock Prices Up In Sharp Buying

NEW YORK, July 8.—(AP)—Wall Street ran a buying fever Monday which pushed prices of many stocks up to around \$4 a share in the third biggest deal since 1929, and imparted sharp rises to various farm commodities.

U. S. To Take Needed Brazilian Materials

RIO DE JANEIRO, July 8.—(AP)—The United States has agreed to take all Brazil's production of 11 specified strategic materials for the next two years. It was learned Monday.

INJURED IN ACCIDENT

ATLANTA, July 8.—(AP)—Frank H. H. assistant vice president of the Southern Bell Telephone Company, and son of the late Joel Chandler Harris, was injured severely in an automobile collision near Clayton, Ga., Monday.

IT WASN'T BANK NIGHT

ROSS, Ohio, July 8.—(AP)—The staff of the First bank went to lunch the other day and left the bank door wide open.

Russian Boy Scout Flag Is Captured

WASHINGTON, July 8.—(AP)—Constantine A. Oumantzy, the Russian ambassador, charged Monday that Germany had used a Soviet Boy Scout flag to give the impression that she had captured a big Russian troop unit.

AGAINST WAR

NEW YORK, July 8.—(AP)—The Daily News said last night it will poll in New York state on whether the United States should enter the war to help Britain defeat Hitler.

LOT OF FIGURING

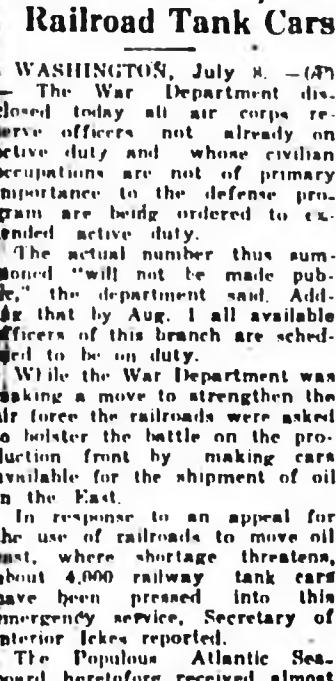

SMOKLEY, W. Va., July 8.—(AP)—When W. E. King went to work today he found an old computer in the office. He has used it over and over and can make it do almost anything but talk.

Relief Workers Can't Have Dogs

LAWRENCE, Kan., July 8.—(AP)—Douglas county commissioners ordered relief assistance without delay from the county or by other means.

British Hail Churchill's Co-operation Suggestion Of U.S., British Navies

English Leader's Message Hints Of Working Together In Iceland Waters

Parliament Cheers Minister's Speech

Berlin Regards Icelandic Move As Military Step By U. S.

LONDON, July 9.—(AP)—The House of Commons today joyously heard Prime Minister Churchill suggest that United States and British warships may profitably assist each other in guarding the "very dangerous waters" off Iceland.

Churchill's statement roused Parliament to its loudest cheers since the day he dramatically announced the sinking of the German battleship Bismarck.

He added it seems very likely that United States forces "will cooperate effectively in resistance to any attempt by Hitler to gain a footing" on Iceland.

In Berlin it was said the United States, by occupation of Iceland, has taken an active military step and is now represented by troops in the war zone.

The spokesman added "from a military point of view, these moves might as well be in a British port."

President Roosevelt made it clear yesterday that the unbreakable line separating the Eastern and Western Hemispheres would not be considered the eastern boundary of American defense activities.

In a joint communique which followed the American occupation of Iceland, the President said there were points beyond that line which might become of terrible importance in this country. He had stopped here, trying to determine just where the line ran.

The Chief Executive met reporters toward the close of a day which had seen the White House through his secretary, Stephen T. Early, approve Senator Wheeler for saying last week he had information that Iceland would be taken over by this country.

Early took the position that Wheeler had disclosed military information and at his press conference, Mr. Roosevelt said he thought the case spoke for itself.

As for the reasons behind the Icelandic move, the President said he could not reply categorically to a question whether he knew of any German intention to establish a base upon the island.

In a war, he said, one puts one's self in the position of the other fellow, and asks what action would be taken in a given set of circumstances. Sometimes actions taken are less than information, he said, and sometimes not.

"Do you think the other fellow is likely to make any move toward the Azores or Cape Verde Islands?" he was asked.

Mr. Roosevelt's reply was that he could not say.

In a recent speech he stressed what he considered the importance of these Atlantic Islands in the defense of the United States.

As for where he considered the hemisphere boundary to lie, the President said it generally depended on which power was in a position to take action. He tried to draw a line of demarcation, he added, but he was not sure it was impossible, he said, to draw an imaginary line and say a boy on it.

Tells Draft Plans

Names of the newest draft registrants, the 21-year-olds who were signed up July 1, will be mixed in with those of older men registered a year ago instead of being placed in a group apart, according to Brig. Gen. Lewis B. Hersey, deputy director of Selective Service. He indicated a new national draft lottery will be held soon.

Bid Instructions For Supplies At Bidding Received

Instructions for supplying vegetables for Camp Blending were received by H. Lehman, Farmer's Market manager, today and anyone interested in bidding to the camp are invited to make a bid by writing to the State Agricultural Marketing Board, 206 Exchange Building, Jacksonville.

Vegetables needed and the requirements for each are listed in the instructions.

Corn in sacks of five dozen each will be bought with the closing date of July 14 for bids and July 17 and 22 for delivery.

The amount needed is 334 sacks of U. S. No. 1, sweet and fresh.

Applicant 413 of 40-pound hampers of U. S. No. 1 or approximately 16,500 pounds will be bought. The closing date for bids is July 19 and delivery must be made on July 23.

Flat peas, U. S. No. 1 grade, will be bought up to 750 bushels, of 25 pounds each, with the bid date set at July 18 and delivery date, July 19.

Planes To Be Named After 'Saving' Cities

KNOXVILLE, Tenn., July 9.—(AP)—Army fighting planes manufactured by the Vultee aircraft plant at Nashville will be dedicated to Tennessee Valley cities that meet power conservation quotas during the next four months, the TVA announced today.

W. I. Nichols, in charge of the conservation campaign, said the authority obtained the cooperation of the war department for the plane dedications to further the connection between civilian saving of electric energy and the production of national defense goods.

Annenberg Denied Parole From Jail

WASHINGTON, July 9.—(AP)—L. Annenberg, Philadelphia publisher, serving a three-year term for income tax evasion, has been denied a parole, Justice Department officials said today.

Annenberg would have been eligible for parole on July 11. He was caught with \$100,000 in cash hidden in a trunk on Nov. 11, 1937. The short term sentence was imposed for three off

Mrs. Dancy Divorced

TAMPA, Fla., July 9.—(AP)—Mrs. Dancy, 40, was granted a divorce from her husband, J. Dancy, 45, by Judge J. M. ...

Health Unit Is Put Before County Board

Action Expected To Be Taken By Commission Next Week

The question of establishing a Seminole County health unit was brought before the County Commission at its meeting at the Court House yesterday but final action was deferred until the members of the commission could look further into costs and benefits. D. P. Herndon, circuit court clerk, said this morning.

W. A. Lefler, along with a committee composed of Miss Ruth Mettinger, Mrs. W. L. Morgan, and T. W. Lawson, appeared before the board and urged the appropriation of \$4,000 to provide for the unit which would replace the present system. Mr. Herndon declared.

"The board in some degree favored the establishment of the health unit in the county but did not want to make a decision until it had gone into the matter more thoroughly," Mr. Lefler said. He added that he expected the commissioners to take some action, one way or another, at their next meeting.

The budget for the health unit would be about \$18,000 or \$14,000, with the State and the United States Government providing about half of the funds.

The remainder, about \$4,800 would have to be provided by the county, but the present cost of the health office now in operation, about \$2,500, would be eliminated, making the additional cost only about \$4,300, Mr. Lefler stated. Of this amount, the Seminole County might pay a part.

School Board is expected to furnish a unit in the county would entirely outweigh the cost, Mr. Lefler said. If the money is provided by the County, the unit will be established on Oct. 1.

It would be a step forward for Seminole County as 27 other counties in the state already have such a unit, Mr. Lefler declared. The unit would provide a full time doctor, two nurses, a sanitation officer, clinics about the county and medical supplies.

"The work of the unit is not to take the place of doctors in the county but rather to find disease and poor sanitary conditions in the county and bring them to public attention. Such a revelation of the disease would probably bring more business to the doctors," Mr. Lefler said.

Extra Time For Drafted Men Opposed

Roosevelt Expected To Ask Additional Appropriation For Defense, Aid

WASHINGTON, July 9.—(AP)—Speaker Rayburn today said he opposed suggestions that drafted men be kept in service longer than one year but favored an amendment to the Selective Service Law to permit them to volunteer for the second year.

At the same time, Rayburn expressed the opinion that national guardsmen and reserve officers "might be willing to stay in service another year."

He added he'd also like to see officer training schools established in the army.

County Votes Funds To Improve Police's Radio

A feeler put forth by the city on the question of building a larger broadcasting unit for the police department, to extend the service to county and state patrol cars, was met favorably by the County Commissioners at their meeting yesterday, and the group appropriated \$400 to bear half the cost of the improvement, James H. Gut, acting mayor in the absence of W. C. Hill, said today after he had presented the proposition to the County Commission.

The City Commission has not passed upon the extension of service yet but are expected to take it up at its meeting next week. Mr. Gut explained, if the proposition is put through the benefit would be principally to the county as radio sets would be put in county cars and state patrol cars to cover the whole county.

The present set used by the city police reaches the whole city and a small area in the county, while an improved set would cover the entire county and part of Volusia county, Police Chief Roy Williams says.

Reds Report Smashing Victories Over Nazis

Nazi Machine Gunners In Action Against Reds

Camouflaged German machine gunners shown warily edging forward toward a group of burning farm houses on the Russian front, according to the official German caption with this radiophoto from Berlin.

Invading Forces Are 'Wiped Out' On Battle Grounds Of Northern Russia

Vichy Peace Made With Free French

London Says German Push Apparently Halted By Soviets

VICHY, July 9.—(AP)—An armistice between Vichy forces and British and Free French invaders of Syria has been arranged, it was announced here tonight. Negotiations began last night through the United States Consulate General at Beirut, it was announced.

Soviet Armies Reported Smashing A Victory Over Adolf Hitler's Invasion Forces In A Battle Today In Northern White Russia Where Two German Motorized Regiments Were Declared To Have Been Wiped Out And The 'Enemy' Left Hundreds Killed On The Field And Retreated To The West.

Moscow declared fierce Russian resistance was stalling German drives along the vast front. Far from executing a blitzkrieg, Moscow said, the Nazis were trying to entrench in northern White Russia on the upper Dnieper River.

London asserted the Nazi eastward push into U. S. S. R. "appears halted," and that "unless there is a big breakthrough in the next few days, a great pause is likely."

Vichy put in a word that the Nazi onslaught has been stalled for four full days.

The German High Command summed up the battle in a single sentence: "The fights continue successfully on the entire eastern front."

Meanwhile, in the Middle East campaign, the British reported Gen. Henry Deteric, such commander of French-mandated Syria, Lebanon, had asked for armistice terms in the month-old conflict.

The Red armies reported early today that desperate counterattacks were driving the Germans back at several points along the eastern front, and that in all other sectors they were (Continued on Page Four)

County Votes Funds To Improve Police's Radio

City's Feeler For Stronger Station Meets Approval

A feeler put forth by the city on the question of building a larger broadcasting unit for the police department, to extend the service to county and state patrol cars, was met favorably by the County Commissioners at their meeting yesterday, and the group appropriated \$400 to bear half the cost of the improvement, James H. Gut, acting mayor in the absence of W. C. Hill, said today after he had presented the proposition to the County Commission.

The City Commission has not passed upon the extension of service yet but are expected to take it up at its meeting next week. Mr. Gut explained, if the proposition is put through the benefit would be principally to the county as radio sets would be put in county cars and state patrol cars to cover the whole county.

The present set used by the city police reaches the whole city and a small area in the county, while an improved set would cover the entire county and part of Volusia county, Police Chief Roy Williams says.

Personal Property Tax List Will Be Published July 15

The delinquent tax list of both tangible and intangible personal property will be published in the July 15 issue of The Sanford Herald, in accordance with the act of the 1941 Legislature. Jas. Jenkins, tax collector, said this morning.

"Since the people of Seminole County have made an extra effort to pay such taxes as are assessed, and thus avoid the extra penalties and interest imposed by the new laws, the published list will be comparatively small," Mr. Jenkins explained.

The Herald was chosen as the newspaper for publication of the list by the County Commissioners at a meeting held yesterday at the Court House.

The cost of such advertisement of the taxes will be added together with the penalties, interest and costs, to the taxes as is required by law, Mr. Jenkins stated.

Brooker Talks On Three 'E's' Of Safety Rules

Kiwanis Club Will Have Picnic At Sanlando Springs

The three "E's" of safe driving were explained by William Brooker, state highway patrolman, who has just returned from the state traffic school being given by the Kiwanis Club today, according to Frank Shames, chairman of publicity.

Engineering, education and enforcement of laws compose the three "E's" of highway safety, Mr. Brooker explained. Engineering means the building of good roads, education refers to the education of drivers to the dangers of driving and to the rules of driving and enforcement is the enforcement of the laws by all officers of the law.

A car traveling at the speed of 20 miles-per-hour can be stopped by the application of 4000 foot pounds of energy in 25 feet but a car going 40 miles-per-hour takes four times the amount of pounds of energy and four times the stopping distance, according to studies made at the North Western University. A car doing 80 miles an hour on the highway takes 400 feet to stop with reasonably good brakes, the patrolman said.

Discussing the new state traffic laws passed by the last session of the Legislature, Mr. Brooker said, the State had control of all traffic lights on State maintained highways. The State has the right to remove obstructions on the highway, such as signs or shrubbery.

The late also has the right to regulate requirements for night driving lights on the highways and can issue warrants for those drivers using improper lights.

Since new patrolmen have been appointed Mr. Brooker will now be on duty in the County at all times, instead of having to go out of the county on calls as he has been doing until now, he said.

The Kiwanis members voted to have a picnic at Sanlando Springs some time in the future and appointed Ed. Lane to set the date and arrange the details, Mr. Shames said.

Icelanders Excited To Meet Americans

REYKJAVIK, Iceland, July 9.—(AP)—United States naval forces arrived here amid a display of excitement and hearty welcomes.

The first signs of the convoy's appearance were noted from a tall church steeple by watchers who relayed the news to persons gathered in the streets.

Icelanders asked one another, "Can't they be Americans?"

The new arrivals saw the country at its best. Faxa bay was smooth under a lazy breeze, while soft summer showers occasionally obscured the mountains. Soon the sun routed the remaining clouds and the full beauty of the land was disclosed.

David Gatchel Tells Experiences As Guest Of Georgia Boy's State

Saturday morning delayed the party for several hours. The Georgia patrol was to meet them at the line and receive the visitors from the Florida patrol but instructions had been confused and the Georgia patrol arrived late.

Beneficial Atlanta about 6:00 o'clock Saturday afternoon the visitors were taken to camp where the officers of the Georgia Boy's State were introduced. The officers of the Girl's State were present and all went to a dance at the Georgia Military Academy.

The whole group of officers was taken to radio station WATL for a ten minute broadcast and all three governors present made a speech. Governor Folsom Chamber of Boy's State, Governor Jane Brewer of Girl's State and the Florida Boy Governor later lead the grand march at the dance.

Spending Saturday night in Georgia, David next journeyed to Alabama for an overnight stay before returning home on Monday afternoon.

One dark spot of the weekend was a continual downpour of rain. David said, "I missed from the time we crossed into Georgia until we left on Sunday."

One whole night was staged on the stage of a camp and the group staged in a 4-H Club building at Alabama. The Governor of the state was present but not commented.

Wife Tears Shirts So He Gets Divorce

ATLANTA, July 9.—(AP)—Georgia's Supreme Court upheld Tuesday a divorce won by Lucian R. Boone, Jr., partially on the ground that his wife was too hard on his shirts.

Boone, former operator of the Lakemoore club, said it was part of his job to dance with guests but his wife, Mrs. Susan Brotherton Boone, was intensely jealous, would create scenes and start fights.

The climax came, Boone said, when he was dressing for a party and his wife tore four shirts from his back as fast as he could put them on.

Prizes For Alibis Offered By Judge

CHICAGO, July 9.—(AP)—Weary of moth-eaten alibis, Traffic Court Judge George L. Quillet is offering a daily prize for originality.

"I'm getting so tired of hearing those worn-out, dilapidated stories about speedometers that don't work and sick mothers and wives," he said Tuesday. "What the excuse I think most original each day will win a discharge."

Heads Funeral Directors

DAYTONA BEACH, July 9.—(AP)—T. M. Lloyd of Pensacola was elected president of the state board of examiners of funeral directors and embalmers here today. He succeeds Joe L. Reed of Tampa. Charles B. McIntosh of Daytona Beach was named secretary of the board. Forty-two applicants for licenses appeared for examination.

DRYGOODS PRICES UP

TALLAHASSEE, July 9.—(AP)—Sweeping increases in dry goods prices were reported in the state cabinet today by Dan D'Alemberte, state industrial purchasing clerk.

Staking Ship Causes Loss Of U. S. Mail

WASHINGTON, July 9.—(AP)—The postoffice department said today that a staking ship in the Gulf of Mexico caused the loss of U. S. mail.

The ship was the Great Britain, which was staked in the Gulf of Mexico. The staking was caused by the ship's failure to follow the correct route.

SWEDISH SHIPS SUNK

NEW YORK, July 9.—(AP)—Destruction of four ships carrying the neutral flag of Sweden and of the Danish freighter flying the red ensign of Britain was disclosed in maritime circles Tuesday, Sweden has now lost 120 vessels.
