## DUPONT MAKES NET OF \$50,000 DEMOCRATS

Check One Of Biggest  
Contributions Ever  
Given To A Political  
Campaign In U.S.

## City Will Not Limit Donations

Made President  
Of Collegiate Bureau  
Behalf Of Smith

NEW YORK, Aug. 14.—(INS)—A national headquarters today received a check for \$50,000 from Pierre Dupont, chairman of the General Motors Corporation, who recently declared his support of Governor Smith.

The contribution is the largest to date by the Smith campaign managers and is one of the largest political contributions recorded by any campaign.

Dupont, who is director of the association against the Prohibition Amendment, declared in making his support of Smith that the Governor's open advocacy of prohibition was his principle reason for joining the Republican party.

He is reported to have announced his \$50,000 contribution to the Democratic National Committee, repeated that the committee managers saw no reason for limiting the size of a campaign contribution.

He said he had no objection to contributions of any size so long as they are published and the money is used for legitimate campaign purposes, Raskob said.

Secretary of the state in the collection of the Smith campaign announced today by Raskob, will open headquarters in the state committee rooms here.

Governor Smith makes a personal appeal to college men and women, Polk said, in accepting his nomination.

It is his intention to organize clubs in every important city in the country.

## Two Negroes Held After Robbery After Case Across City

Following a wild chase across the city, Chief of Police Roy C. Williams today collared two negroes after an alleged daylight robbery at the corner of Sanford and Fifth Street had been reported. They were Jerry Williams and James Holt.

The negroes were caught at the corner of Park Avenue and Ninth Street by Williams. In the possession of a gun and shoes they had taken from the store. Both confessed to the robbery after their arrest.

## OHIO VOTERS HOLD PRIMARY ELECTION With Prohibition As The Main Issue

COLUMBUS, O., Aug. 14.—(INS)—Prohibition held the center of the stage in Ohio today as 900,000 voters began their march to the primary election booths to nominate state, county and judicial candidates from the November election. Though the ballots make no reference to the prohibition issue, the Anti-Saloon League has endorsed or opposed primary candidates on both sides of the political fence for nearly every state office, and has been in the thick of one of the hottest primary campaigns since 1914 when the late U. S. Senator Frank B. Willis won the G. O. P. nomination and later defeated former Governor James M. Cox, Democratic standard bearer.

U. S. Senator Simon D. Fees, G. O. P. keynoter at the national convention at Kansas City and candidate for re-election is one of the few unopposed on the Republican ballots, while Congressman Theodore E. Burton, of Cleveland,

## Coolidge Commends Hoover For Speech

SUPERIOR, Wis., Aug. 14.—(INS)—The speech of Herbert Hoover accepting the Republican presidential nomination is a document ranking high in political discussion in the opinion of President Coolidge. The President today sent the following message of congratulations to the nominee: "Your speech of acceptance ranks very high in political discussion. I congratulate you upon it and upon the reception which has been given it by the country."

## PRECAUTIONS ARE TAKEN TO SHIELD NEGRO FROM MOB

Black Shoeshine Boy Tells  
Teacher He Killed School  
Teacher; Slayer Is Traced  
By Means Of Stolen Watch

EVANSTON, Ill., Aug. 14.—(INS)—Extra precautions were being taken today to prevent mob violence from snuffing out the life of David Shanks, the Chicago negro, who confessed last night to the murder and violation of Miss Jennie Meta Constance, 42-year-old Peoria school teacher and summer student at Northwestern University.

Evans' worst crime in a decade" became solved when detectives traced a wrist watch, which had been torn from the school teacher's arm after the attack, to Shanks. He was working in a shoeshine parlor when arrested. Confronted with the evidence, Shanks said:

"Yes, I did it."  
He was rushed to police headquarters where, before citizens generally knew of his arrest, his confession was taken down in detail. He was then hid away in an outlying district as a precaution against lynching.

The watch was traced in this manner. When it was definitely established that Miss Constance had worn a watch the night of her disappearance, police notified all jewelers to be on the lookout.

Early yesterday a white boy took a lady's wrist watch to a Devon Avenue jeweler to have it reinitialed. It bore the letters J. M. C. representing Jennie Meta Constance. The jeweler got in touch with police and the watch was identified as that of Miss Constance.

Detectives hid in the store and just before closing time yesterday the youth came back. He was arrested and gave his name as Leart Bastian. He said his father ran a shoeshine parlor and that a negro bootblack who worked for his father, sold him the watch for \$1.75.

The youth led the detectives to his father's shop. There the boy pointed out Shanks. He finally admitted his guilt.

## MEXICAN PLOT NIPPED

MEXICO CITY, Aug. 14 (INS)—Discovery of a plot for simultaneous uprisings in the states of Durango, Guanajuato and Coahuila was announced today by General Gonzalo Escobar, chief of military operations in that district. A roundup is being made of members of Catholic leagues in these states, and 12 prominent Catholics have been arrested, including Padre Marcial Mendez Andrade.

## Ohio Voters Hold Primary Election With Prohibition As The Main Issue

and Jacob S. Coxey, (Coxey's army leader) of Massillon, are two of five candidates contesting for the right to run for the place of late F. B. Willis in the U. S. Senate. Six gubernatorial candidates and nine aspirants or the lieutenant governorship appear on the Republican primary ballots.

On the Democratic side the fight has been as bitter though only 25 candidates are trying for the nine state offices, while 36 Republicans are in the primary race.

Democrats of national repute on the ballots are: Peter Witt, Cleveland laborite, candidate for governor; Kenneth Poolson, Cleveland attorney for Yelma West, confessed hammer murderer of her husband, J. Edward West, candidate for the attorney generalship; Charles E. Wharton, president of the National Farm Federation, and George White, Marietta, national Democratic committeeman, candidates for U. S. senator.

## HOOVER FARM RELIEF PLANS ARE OUTLINED

Organization Of Numerous  
Co-Operative Bodies He  
Lieved To Be Best Way To  
Check Slack-Business Ways

## Favors Huge Fund To Handle Crop Surplus

Federally-Financed Commission  
Controlled By Farmers  
Also Is Urged By Nominee

STANFORD UNIVERSITY, Cal., Aug. 14.—(INS)—The injection of the "big business" methods into the conduct of American agriculture will be vicious, Hoover's first contribution to the relief of any farm problem, should be elected president, it was learned today.

Convinced that agriculture has suffered unnecessary losses through slack business methods, Hoover will seek to organize American farmers into a series of gigantic cooperatives, one for each major crop, in an effort to eliminate waste, improve marketing conditions, reduce cost of production and distribution and increase farm profits. He is certain, it was learned, that proper business regulation of agriculture will go far toward eradicating agricultural depression.

The Hoover farm relief program however will include recommendation to congress for the creation of a farm board, backed by at least \$250,000,000 of government funds but regulated and controlled by farmers themselves, for the handling of surplus crops. In his acceptance speech, he also pledged the development of inland waterways to reduce transportation costs, and the equalization of tariff rates on farm products to favor the farmer the same protection enjoyed by industry.

The Republican nominee declared the "greatest problem" of the country is the farm problem. (Continued on page 3.)

## Gator Grid Coach To Be Speaker At Meeting Tomorrow

University of Florida alumni, students and prospective students will hear Charlie Bachman, new Gator grid mentor, discuss the university's football prospects for the coming season tomorrow afternoon at 1:30 at a meeting held at the new football coach, at the Valdez Hotel.

In addition to meeting and alumni and students will listen to Everett M. Yon, university athletic director; Dean Harry R. Trustler, head of the law school, and Ralph Stoutamire, the university director of publicity.

Prominent Sanford citizens and public officials will attend the meeting. Senator J. J. Parrish, of Titusville, is expected to speak. Mayor E. F. Housholder, who is making arrangements for the meeting, will preside. The university meeting will follow immediately after the Chamber of Commerce and Civic club meeting at noon.

The University of Florida officials will be guests of Mayor Housholder at the Chamber luncheon, where Dean Trustler is expected to speak.

## LeRoy Observes Business Is Not Brisk In Mid-West; Attends Rotary Gathering

Returning from a two month  
trip, with visits to Chicago,  
Cleveland, Milwaukee, Minneapo-  
lis, Toledo and other large cities  
of the middle west, Leon L. LeRoy,  
prominent business man, today  
described business in the central  
section as being fair and "no  
crisis."

"I found leaders of big industry very apprehensive of the approaching election," said LeRoy, "and of course this attitude has had a decided effect upon business in general."

Mr. LeRoy however, found Chicago in the midst of a building boom, which he attributed partly to a general preparation for the World's Fair which will be held there in 1933. The extraordinary construction program, he explained, has had its influence in greatly inflated land values. Mr. LeRoy predicted that the boom would result in an over-building which he declared also occurred in the nineties when the World City was getting ready for the fair of 1893.

A good deal of illegitimate speculation has also attended the boom, Mr. LeRoy said. Purchase of air rights for the construction of gigantic skyscrapers has become popular in the Chicago business district, Mr. LeRoy stated. One building of 47 stories, whose erection was made possible by the acquisition of air rights, is being constructed over a net work of railway lines. Another structure, rising into the skies to the extent of 77 stories is expected to be started within a short time, Mr. LeRoy said.

The Sanford man was amazed at the vast development which has been made possible by a tremendous reclamation project on the Chicago lake front. While away, Mr. LeRoy attended the international convention of Rotary at Minneapolis. The gathering, held June 18 to 22, attracted about 12,000 delegates from all parts of the world. The meeting was described as one of great interest.

"It was the most significant thing in connection with the convention was the foreign reception of Rotary, particularly its sixth ideal, that of promotion of world peace," he said.

Mr. LeRoy expects to remain here for several weeks before returning to Chicago on a business mission.

## BROKEN ICE DAM INCREASES FLOOD MENACE IN INDIA

Raging Waters Threaten To  
Cut Off Frontier Section  
From Rest Of The Country;  
Frightened Natives Flee

SIMLA, INDIA, Aug. 14.—(INS)—The mighty flood which is raging down the Indus valley from the broken ice dam in the Shyok River on top of the Karakoram Mountains in the northwest India threatened today to cut off the entire frontier region from the rest of the country.

The torrent was rushing toward Skardu and is expected to reach the Attock railway bridge spanning the Indus tonight. Engineers are working feverishly to strengthen the bridge as its collapse would isolate the frontier region. Villages below the flood level are evacuated.

Frightened villagers, bearing as much of their household goods as they can carry upon their backs, jam the roadways leading from the danger zone. A stream of refugees is pouring into Peshawar.

Elaborate precautionary measures have been taken by the police and soldiers to get the people out of the district in the path of the flood. Royal air force aviators swept down the Kabul valley warning villagers along the river.

Some aviators kept pace with the flood notifying the authorities of its progress.

BOMBAY, INDIA, Aug. 14.—(INS)—A mighty chain of signal fires, stretching 140 miles along the ridges of the Karakoram Mountain range to Leh in the Himalayas, today gave warning to thousands of persons to flee from their homes, to avoid death in the rushing torrent from the broken Shyok river ice dam.

When the dam gave way 700,000,000 tons of water swept with a roar of thunder down the Indus valley from the mountains, spreading desolation in its path. As this gigantic tidal wave crashed its way toward the Kashmir plains, municipal and military authorities united in measures to warn the villagers in the path of the torrent.

The dam was upon the crest of a mountain wall, 17,900 feet high, which gave it a tremendous impetus. An ice barrier had dammed an artificial lake blocking the Shyok river on the top of the Karakoram mountain for miles. The glacier lake was in an isolated position being 140 miles from the nearest telegraph line.

## \$114,125 CLAIMS ON CITY FILED BY ATTORNEYS

Representatives Of School  
Board And County Present  
Requests For Payments On  
Two Sets Of Time Warrants

## City Will Not Pay, States Housholder

Warrants Were Assigned By  
Seminole County Bank For  
Security On Public Funds

NEW YORK, Aug. 14.—(INS)—Denouncing President Coolidge's appointment of Roy O. West of Chicago as Secretary of the Interior, Senator Burton K. Wheeler of Montana today called upon Herbert Hoover to tell the nation whether he approves the appointment. Wheeler charged that West handled campaign contributions of Samuel L. Insull, Chicago utility magnate, in the Illinois primary campaign of 1925. "As secretary of the interior, this former Insull attorney automatically becomes a member of the Federal Power Commission, which must pass on all application for water-power development permits," Wheeler said.

## RESERVOIR COVER CONTRACT TO BE LET TOMORROW

Huddleston And Hunt Offer  
Lowest Of 7 Bids Received  
By City Commissioners At  
Regular Session Yesterday

Seven bids for the construction of a cover for the City's water reservoir were received yesterday by the City Commission. The bids ranged from \$2,995,000 to \$5,146,911. Contract for the work will be awarded at an adjourned meeting of the Commission, tomorrow afternoon at 3:30 o'clock.

The two lowest bids were submitted by Huddleston and Hunt, local contractors. For cypress construction throughout with a three ply roof, their bid was \$2,995,000. For the same construction with a five ply roof, their bid was \$3,290,000.

The lowest bid for construction with cross-rotated timber was submitted by J. T. Pope. Using a three ply roof, his total bid was \$4,617,000 and using five ply roof his bid was \$4,907,500. On the cypress construction, Pope's bid was slightly above Huddleston and Hunt's. For cypress construction with a three ply roof his bid was \$3,590,000, and for a five ply roof, \$4,437,000.

Daun and Walthall submitted a bid on cross-rotated pine construction with a five ply roof that was slightly lower than Pope's bid with that type of roof. Daun and Walthall's bid was \$4,267,500. Other bids submitted were: Daun and Walthall cypress construction three ply roof, \$3,738,000; J. F. Wildman, cypress construction, five ply roof, \$3,720,000; Mike Wilson, cypress construction, three ply roof, \$3,978,382; five ply roof, \$4,284,950; Clarence Smith, cypress construction, three ply roof, \$3,870,000; five ply roof, \$4,175,000; T. A. Butler, cypress construction, three ply roof, \$3,592,500; five ply roof, \$4,199,500.

Members of the Commission indicated yesterday that the cheapest cypress construction would be chosen rather than the more expensive cross-rotated timber construction. No indication of whether a three or five ply roof would be selected, was given.

Plans and specifications for the cover were drawn by City Manager George H. Cairns, who tabulated the bids today in preparation for the awarding of the contract tomorrow by the Commission. The cover was decided upon by 25 Commissioners at the recommendation of the State Board of Health. It was planned as a method of eradicating disagreeable taste and odor from the City water supply.

The task of completing the cover will require between 30 and 60 days, Mr. Cairns estimates.

## Smith Declines To Debate Straton Except In Calvary Baptist Church

ALBANY, N. Y., Aug. 14.—(INS)—Unless Governor Al Smith is permitted to defend his political career from the pulpit of Calvary Baptist Church, New York, he will not engage in a debate with the Rev. John Roach Straton, pastor of the church.

The Governor made this plain in a letter which he sent today to Dr. Straton.

Governor Smith challenged Dr. Straton to a debate after the latter had characterized him as "the deadliest foe in America to moral progress." The New York Clergyman offered to meet the Governor in Madison Square Garden or any other large auditorium, but said his church could not be used for such purposes.

"The answer to my request to appear in your church before your parishioners under the conditions I mentioned is yes or no," the Governor wrote Dr. Straton. "Unless and until I hear from you in the affirmative the matter is closed."

The Governor's reply to Dr. Straton, which was made public at the executive mansion this afternoon, follows:

## WESTERN PART OF STATE LIES IN STORM PATH

Apalachicola, Pen-  
sacola Are Slated To  
Be Swept Today By  
Tropical Hurricane

## Steady Wind Is Blowing In Mobile

High Water Presents  
Serious Menace On  
Lower West Coast

JACKSONVILLE, Fla., Aug. 14.—(INS)—Florida's coast between Pensacola and Apalachicola will feel the effects of the tropical hurricane which is sweeping inland sometime late today or tonight, the local weather bureau revealed today.

Apalachicola, with a barometer reading of 29.60 and a wind of 20 miles an hour seemed to be in the direct path of the storm. It was expected that the blow would extend westward and reach Pensacola where a strong wind and a falling barometer were reported.

Much suffering was reported along the West Coast due to heavy rains which accompanied the blow. The lowlands from Tampa north and south for miles was reported under water, but the damage as far as was suffered mostly by farmers and public utilities.

All creeks in the vicinity of Punta Gorda, Fort Myers, Sarasota, St. Petersburg and Tampa were out of their banks, while at Okechobee City a 2000-foot bridge was threatened by the high water. Flood conditions on the Kissimmee River, with hundreds of acres inundated were considered the worst of any part of Florida today.

The storm last night exacted the usual toll in wire communications, and street car service in St. Petersburg was at a standstill up to noon, in addition to being without light service during the night. Sarasota and Tampa was also in partial darkness last night.

Meantime the menace of floods caused several hundred persons living in the lowlands on the west coast to abandon the Okechobee region. There 50 families were reported marooned and destitute, and Red Cross workers were trying to reach them to give aid.

Steady rains in the past few days which accompanied the storm, added to the seriousness of the situation. The flooded Kissimmee River continued to rise, inundating hundreds of acres of rich farmland and overflowing on to highways.

Citizens of Okechobee have asked the National Red Cross to give aid to farmers along the Kissimmee River and Taylor's Creek who were rendered destitute by the highwater.

The Miller brothers lost ranch in this section and some of its cattle were believed to have perished. Carcasses of cattle have been seen floating down the Kissimmee.

If Lake Okechobee goes out, the damage to surrounding property would be incalculable. There are thousands of acres of sugar cane land and stock farms and homes on the banks of the lake. Drainage engineers however were confident that the lake would not overflow, only last reports gave the level at 17 feet, within two feet of flood stage.

Boca Grande and Gasparilla were hit hardest by the last night's storm, and the damage suffered there was the same as in other Florida cities hit by a series of storms in the past week. Telephone and telegraph communication was impaired, and in Boca Grande the railway station roof was torn off in the 50-mile gale.

## CONFESSED BANK THEFT

KANSAS CITY, MO., Aug. 14.—(INS)—Virgil Davis, 23, independence, Mo., today signed a confession, according to police that he participated in the robbery of the University City Bank of St. Louis recently with three other youths. Davis was taken into custody and questioned when he spent more than \$4,000 in the last week. He purchased an automobile.

### HOOVER'S SPEECH MAKES DRY LAW CAMPAIGN ISSUE

#### Prohibition Becomes Major Question For First Time In Eight Years; Nominee Promises To Correct Abuses

STANFORD, UNIVERSITY, CAL., Aug. 12.—Herbert Hoover, dry; Alfred E. Smith, wet.

For the first time since its adoption eight years ago, prohibition today became a major issue in a presidential election with Herbert Hoover, the Republican nominee, definitely committed to the outlawing of intoxicating liquors. The issue will be joined 10 days hence when Governor Alfred E. Smith, the Democratic nominee, declares himself for liberalization of the Volstead Act.

Hoover today stood on record as opposed to repeal of the Eighteenth Amendment, as pledged to efficient enforcement of the Volstead act, as opposed to nullification of the Eighteenth Amendment through liberalization of the Volstead Act and as pledged to the correction of all abuses of the prohibition statutes.

In drafting this stand on prohibition for his acceptance speech, International News Service learned on the highest authority, Hoover believed he was "burning all his bridges behind him" so far as prohibition is concerned. The Republican nominee believed he had definitely committed himself to the dry side of the prohibition question. That, at least, was his purpose, according to unimpeachable purpose, according to unimpeachable authority.

The nominee, however, did not and does not desire to battle out the campaign on the prohibition issue. He looks upon prohibition as a "great moral experiment," as he has publicly stated, and feels it should be decided on a non-partisan basis and not as a part of any political campaign.

The Republican nominee does not look upon the Volstead Act as "perfect." He feels there should be an impartial investigation of prohibition, its problems and abuses, methods of enforcement and means of correcting abuses. When the "facts" are learned, he is ready to have a new enforcement act placed on the statute books which will carry out the purpose of the Eighteenth Amendment—namely, the prohibition of the sale, manufacture and transportation of intoxicating liquors.

Hoover's position can be summarized in these words: "If the Volstead Act is not workable, we should have an investigation to learn how we can make it a success."

Hoover, in his speech Saturday, believed he cleared up all misunderstanding about his position on prohibition. He was said to feel there is no need of further discussion of the question by him if he does speak on the subject again during the campaign, it will be only because the public has become confused about it and in that event, Hoover will declare himself as dry as to leave no doubt in any man's mind.

There was considerable turmoil here over the weekend about Hoover's prohibition stand, due to the action of one of his advisers in giving out an unauthorized "wet" interpretation of his speech. This self-appointed "spokesman" said Hoover really stood for liberalization of the Volstead Act, much like Governor Smith, and had tried to so assert himself in the speech. When Hoover learned of this interpretation word was passed out from his headquarters that the "spokesman" had been permanently silenced.

### 2 Passengers Rob Paris Taxi Driver

PARIS, Aug. 11.—(INS)—A Paris taxi-driver who is robbed by his client is about as rare as any rose in December. But one of them was heard of recently.

Louis Spriet, sixty-two, who has been carrying passengers to all parts of the city for forty years or more, picked up two well-dressed gentlemen who asked him to drive to the Porte St. Denis. They had been seated in the car only a few minutes, when they lowered the window, beat the poor chauffeur over the head, grabbed his pocket-book and left the car before any gendarmes could arrive.

Whether they were just taking their revenge on Paris taxi-drivers in general or needed a little money has not yet been decided. At any rate Monsieur Spriet has established a new record.

### RESIGNATION IS ACCEPTED

WASHINGTON, Aug. 12.—(INS)—President Coolidge has accepted the resignation of Maj. Thomas G. Lanphier, commander of the army's first pursuit group at Selfridge Field, Mich., the War Department announced today. He is to become associated with Col.

### Sanford Boy Boxer Sends Mother Gold Champ's Emblem

Larry Levette, Sanford boxer who is spending the summer winning fights at and near Waukegan, Ill., has just presented his mother, who lives in Sanford, a gold boxing glove emblematic of a district championship in the 150 pound class for amateurs.

The gold glove was brought to Sanford by A. J. Lindberg who has just returned from Waukegan, in addition to turning over the trophy to Mrs. Levette, Lindberg told her that her son, who is only 17 years old, has won his last 17 fights, most of them by the knockout route.

### A. A. U. SLATED TO LOSE CONTROL OF AMATEUR SPORTS

#### Brigadier-General Palmer A. Pierce Foreseen End Near Of Rule By Few; Suggests Colleges Be Given Voice

By DAVID J. WALSH  
NEW YORK, Aug. 12.—(INS)—In a few chosen words not exceeding 100,000, Brigadier-General Palmer A. Pierce, professor of the National Collegiate Athletic Association today sounded what he intended to be the verdict of A. A. U. domination of amateur athletics, to be general, and American Olympic competition to be specific.

The rule of the favored few is about over, he intimated, and while he declined to lay the blame for American failures directly at their door until he could learn the particulars, had somehow neglected to indicate that he felt these failures would injure his case.

"The time when a few men in the East can sit down in an office on lower Broadway and run the country's athletics by diving right in past long since," the general declared. "That was a condition that did very well in the old days when most of the competitors were in the East and therefore, received direct attention and supervision. Times have changed greatly since then but A. A. U. goes right on dominating under the old rules and regulations."

It was General Pierce's expressed thought that the A. A. U. having had its chance and failed, the time was ripe for a supervisory revolution that would unseat the "arbitrary" form of government now in the saddle and install a few new faces with new and perhaps better ideas.

Both the men and their ideas would come from the colleges, the latter being almost nationally represented in Pierce's organization. The colleges supply 90 percent of the athletes who comprise the American Olympic track and field team, yet have little or nothing to say about the activities of that team, he stated.

Among other things, he felt that the selection of the Olympic coaches should have been in the hands of a more widely representative committee. In brief, he intimated that star chamber proceedings were in order when those nominations were acted upon.

"It is not my intention to offer criticism of what happens in Amsterdam until the fact is established that criticism is deserved," he added. "However, I am well acquainted with what happened here before the team sailed. The colleges should have had something to say about the men who were placed in charge of these athletes. They had absolutely nothing to say about it, although we were much more adequately represented in the Olympic association this year than ever before."

"I am not complaining about the men who were selected. They are good men as their records prove. However, I think an old hand like Stagg could have been used to advantage in Amsterdam. He is recognized everywhere as a great handler of men and our Olympic teams need plenty of handling."

"The fact that the coaches were named without what we would term representative consideration is the source of our objection. One of our representatives in the Olympic association never attended a meeting because he never was notified to attend. He wired the first time to say he couldn't be there and after that he was ignored. So were seven of the eight members of the team selection committee in one notable instance."

"No, the few men of the East had to rule and now the end of that rule can't be far off. A few more failures, and it might end automatically."

Charles A. Lindbergh in commercial aeronautics. Lanphier was known as one of the army's best fliers.

### BOOKS LABELLED AS 'MERCHANDISE' EXCLUDED BY U. S.

#### Customs Men At Ellis Island Claim Titles Of Several Volumes Are So Vile That They Cannot Be Published

WASHINGTON, Aug. 12.—(INS)—Again the public morals have been protected.

The board of literary censorship of the U. S. Custom Service got into action today and excluded a set of 43 books—termed "Merchandise"—that were held to be "filled with obscenity of the rottest and vilest character."

The decision was backed up by the customs court.

The titles of some of the books couldn't even be printed outside of the court record, but among the "mild" ones that ran afoul of the customs literary Ellis Island were:

"The ethnology of the sixth sense." "The basis of passionate psychology." "Cravings of sex." "The strongest, voluptuousness." "Aphrodite."

"The plaintiff stands in his brief that these books are of undoubted merit and literary value," and the customs decision.

"If it could be argued that the books abounding in obscenity, filth and rotteness are books of undoubted merit and literary value, then all these are masterpieces. If merchandise of this character is to be admitted into United States then section 205 of the tariff act of 1922 should be erased from the statute books."

Section 205 provides for the barring of books or other works found to be obscene. The customs service held that books which are offensive to chastity, decency, or decency, decency, and purity forbidden to be expressed, are obscene.

Customs officials said that they are frequently called upon to examine questionable literature or pictures brought for import from Europe. Sometimes a considerable furor was caused when the government held that a frank translation of the "thousand and one nights," the "great pre-lent fantasia," was a little too spicy for American bibliophiles.

The post office department also has a literary censorship board and occasionally here from mails both foreign and domestic books and magazines.

### FOUR DIE IN CRASH

BERLIN, Aug. 12.—(INS)—Three men and one woman were killed and several others injured today when an exhibition flyer named Gesper lost control of his airplane and crashed into a crowd of spectators at the Aachen flying field. Motor trouble is said to have been the cause of the accident. Gesper was only slightly hurt.

### French President Has Toughest Job In Holiday Season

The busiest man in France during these days of general holiday-making is the chief of the State, President Doumergue. He will probably not be able to take any vacation until in the early autumn and then will not go much farther than his country White House at Rambouillet, within an hour's run from Paris.

"Gastonnet," as he is familiarly called by French citizens, has just concluded a series of visits to the north, attending important public functions at Le Havre, an Honen, He spent the national holiday, Bastille Day, at Carcassone—where there were some fest of unusual character.

He has been up early in the morning and busy until the wee small hours for several months but it seems to make little difference with his general health and happy appearance.

### Daily Fashion Hint

### SPORTY ATTIRE FOR WARM DAYS

Here are two models, easy to make because of the smart simplicity of their cut; easy to wear because their straight silhouettes are becoming both to slight and mature figures. The model at the left offers manifold fabric possibilities. It may be made of one material but it is most attractive, as illustrated, with a tured skirt and contrasting silk blouse. The kerchief adds a jaunty air which may be lightened by making it of printed silk.

The ensemble shown at the right is as smart as it is serviceable. The straight three-quarters coat is smartly finished by the little pointed revers, but for the woman who needs a more slenderizing line, an applied band may be used to finish the neck and front edges. In tweed or kasha, this coat will be very smart over the trim tailored frock shown, which will be attractive in plain or printed rayon or shantung.

First Model: Pictorial Printed Pattern No. 4239. Sizes 14 to 18 years.

### AMERICAN ART IS BEING SHOWN AT PARIS EXHIBITION

#### Works Of 136 United States Artists Being Displayed At France's National Library; French Art To Be Seen Here

By ALICE LANCELIER  
International News Service Staff Correspondent

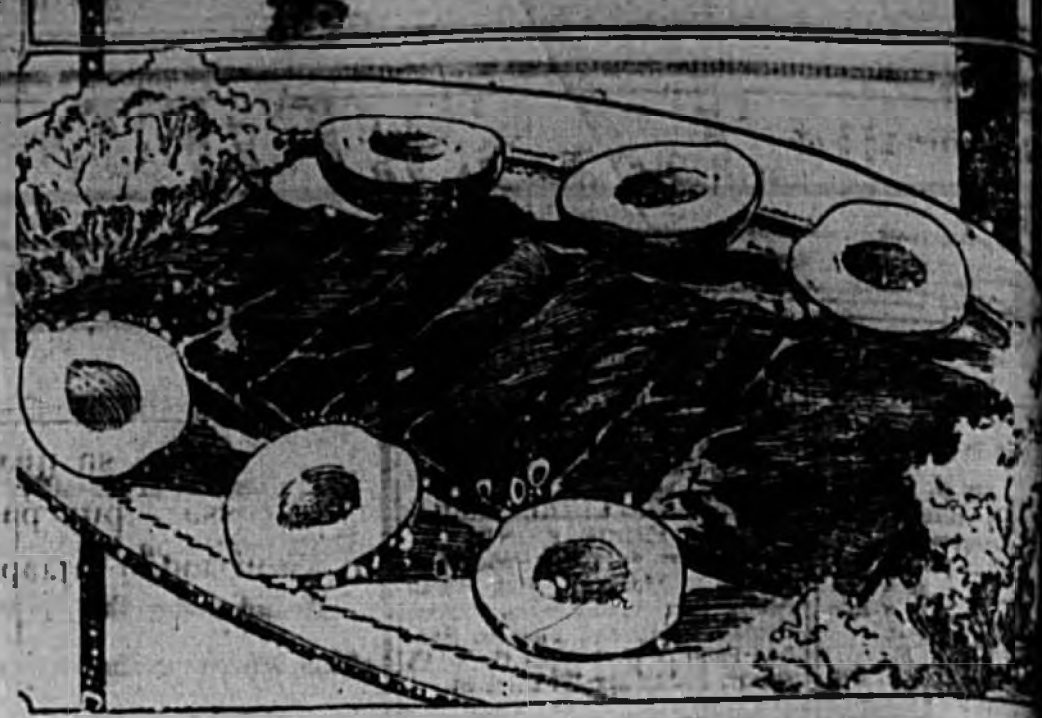

PARIS, Aug. 11.—(INS)—One of the most interesting exhibitions of American art that French people have had the opportunity to see is now going on at the National Library in the rue Richelieu.

It is one of a series of international exchanges intended to foster a friendly feeling between nations. In the same spirit, an exhibition of French engravings is being held in the Library of Congress in Washington. One hundred and thirty-six American artists with three hundred and fifty-four works are represented in the ensemble. Whistler is perhaps the first to mention with remarkable plates such as "Warehouse, Pont de Pivon, and an astonishing view of the Luxembourg. The late Mary Cassatt is represented by her delightful "Mother and Child," "Conversation" and "La Loge."

Many of the Americans show that they have found their sources in old Europe, recording picturesque aspects of Italy, France and Germany. Among those who have worked almost exclusively abroad are Katherine Kimball, E. T. Warner, John Marin, L. Orr and E. D. Bath. One remarks that the French influence shows itself in a lesser degree among the late arrivals than among the artists of Whistler's and Pennell's day.

As a whole the collection of American engravings gives art lovers a complete gamut of a technique put to service in many ways. There are sort, caste lines, rough rugged ones and many others representing a rich variety which has brought nothing but high praise from French connoisseurs unaware of what American artists could produce.

A Cold Supper Combination  
The right combination of foods a summer is the same as in winter. Meat, vegetables, and fruit must constitute the bulk of our diet, with the addition of bread, butter,

### Satisfying Summer Appetite

DINNER is scarcely ever dished in summer. In fact, most of us would wish every night to have a Sunday night supper sort of meal. At the close of a blistering hot day cold foods are most tempting. Whether we have been in the office, or out hiking, motor-ing, playing tennis, or having a swim, cold food, and plenty of it, is just the right combination, is that we want.

Aluring Cold Meats  
In hot weather, keep the fire as much as possible, and eat cold meats. Among the prepared meats that you can buy, ready to serve, there is an alluring variety. The long list includes boneless chicken, roast beef, lunch tempters, corned beef, veal loaf, devilled ham, oiled chicken, and many others. Considering the fact that every morsel in the can is good to eat, and easy to serve, the price of these delicacies is very moderate. If you get the can into your refrigerator and get the contents thoroughly chilled, you can slice the meat very thin and arrange it most appetizingly on a platter.

A Royal Road to Preserving  
There is no royal road to learning, but there is a royal road to preparing spiced and sweet pickled fruit. If you prefer to make your own, at home.

Spiced Apple Sauce: Spiced apple sauce is an easily prepared home spiced fruit to accompany a cold meat. Simmer together one No. 2 can of apple sauce, the juice and grated rind of one-half lemon, one cup of water, one-fourth cup brown sugar, one-fourth teaspoon cinna-

mon and one-half teaspoon salt. As soon as the mixture is ready, the stove and the fire. **Spiced Peach Pickles:** Excellent peach pickles necessitate the use of actual time required for three days is required. No. 2 can of peach syrup from the can, sugar, two long pieces of muslin and one-half cup of vinegar. Boil the seasoned syrup and one-eighth teaspoon of salt for ten minutes. Drain off the muslin and let stand for ten minutes. Back over the package same the third day the glass jars and seal.

Pickled Ginger: Easy to prepare in peach pickles. To one No. 2 can of peach syrup, one-half cup vinegar, three cups brown sugar, one-half cup water, and one-eighth teaspoon of salt. Boil the mixture ten minutes, and pour into glass jars.

"Just plain wonderful" say all who have seen it

Amid all the fusture of new car announcements, one fact stands out with shining clarity: Owners of cars in every price field are turning to the Silver Anniversary Buick with an eagerness which proves that they regard it as the greatest value ever offered in the motor world!

This radically new and different automobile is pulling up the biggest demand ever seen by any new quality car. It is drawing more people to the showrooms, day after day, than any other automobile ever drew before. It is focusing the attention of America by quality, standards as new, advanced and so essential as to preclude any thought of comparison.

New Masterpiece Bodies by Fisher marking the highest degree of dashing, daring, dynamic beauty—the thrilling new abilities, so un-matched as they were unknown a few weeks ago—new appointments of luxury and convenience never before known to motor car practice!

America has seen plenty of automobiles. But America has never seen an automobile like this. "Just plain Wonderful" is the country's verdict on the Silver Anniversary Buick!

A Welcomed Reversal

The Herald notes with interest the City Commission's decision to hold another election, and we desire to say at this time that we are in hearty accord with their efforts to effect a change in the present method of electing the Mayor and City Commissioners. We are especially glad that they are eager now to lead their support in a referendum which they are sure will result in a reversal of the present method of electing the Mayor and City Commissioners. We believe that two heads are better than one and that five are superior to three.

Protecting the News

Protecting the news is a task which is becoming increasingly important in these times. The news is the lifeblood of a democracy and it is essential that it be kept free from all outside influences. The news should be reported as it is, without any bias or prejudice. It is the duty of the newsman to report the facts as they are, and not to be swayed by any outside interests. The news should be a mirror of the community, reflecting its strengths and weaknesses.

Are They Hoaxers?

It is a low use to be served, one man will do nearly or quite as well as another; if a high one, individual excellence is to be regarded.—Troyens.

When You Vote

When you vote, you are not only voting for a candidate, but you are also voting for a platform. It is important that you understand the platform of each candidate and that you vote for the candidate whose platform is most in line with your own beliefs. Do not be swayed by promises or promises of favors. Vote for the candidate who will do the most for the community as a whole.

Child Salvation

Child salvation is a task which is becoming increasingly important in these times. Children are the future of our country and it is essential that they be given the best possible start in life. This means that they must be given a good education and that they must be protected from all outside influences. Child salvation is a task which requires the cooperation of all members of the community.

### SERUM ABLE TO CHECK INFANTILE PARALYSIS FOUND

Harvard Commission Testing New Treatment Which Stops Disease When Used in Early Stages of Dangerous Malady

BOSTON, Aug. 13. (INS)—After several years of experiment with the usefulness and limitations of convalescent serum in infantile paralysis cases the Harvard Infantile Paralysis Commission has made public a statement to physicians advising them of the effectiveness of the serum and the means of obtaining it.

During the epidemic last year the serum was administered in a number of cases still in the pre-paralytic stage by Drs. Lloyd Aycock and E. H. Luther of the commission. The results were sufficiently encouraging to warrant the continuance of the treatment, and the commission has secured a sufficient supply of the serum to meet the needs of the coming year.

Despite its success, the serum treatment is still regarded by the commission as still being in the experimental stage. Details in regard to dosage and methods of ad-

ministration are not yet certain. Consequently physicians will not be allowed to administer the serum personally but will summons a member of the commission when a case requires a dose of the convalescent serum.

Any physician in Massachusetts, the commission announced, can obtain this service by communicating with the State Board of Public Health or the office of the Commission between the hours of nine and five o'clock daily.

Early diagnosis is essential, the commission emphasized, since the serum is apparently ineffective beyond the early stages of the disease. The aid of expert diagnosticians of the commission may be secured at any time.

The state department of public health is in close co-operation with the commission as Dr. George H. Bigelow, State Health Commissioner, is a member of the commission.

### 3-Mile Violations Have No Penalties

HOBOKEN, N. J., Aug. 14. (INS)—Although it is against the law to engage in the liquor traffic between the 3-mile and 12-mile limits off the coast of the United States, there is no penalty for the offense, according to a ruling by United States Commissioner Stanton.

Stanton's decision resulted in his freeing three men who had been charged with a suspicion of smuggling liquor. The men were arrested outside of the 3-mile limit, and Stanton said that although the 12-mile had been established by agreement no provision had been made in the agreement for punishment of those arrested between it and the 3-mile limit.

### Rum Running Plans Told By Bootlegger

LORIAN, O., Aug. 14. (INS)—How rum running is carried on despite the vigilance of customs officials along the shores of Lake Erie, was described here recently by a reputed smuggler. The runner, who it was said, has imbibed somewhat freely of the cup that cheers, on the day he told his story stated that a regular schedule was maintained daily between Canada and a point near Cleveland. He declared a boat, carrying a cargo of 200 cases of beer, shoves off shore each night from Canadian shore for American warehouses, after taking aboard cargo during the day.

The beer, which costs about \$2.50 per case in Canadian government stores, brings from five to six times that sum in the United States, the runner declared.

### A Two-Dollar Dinner For Six

**Tomato Soup with Whipped Cream:** Cook a large, quality can of tomatoes with one pint water, twelve peppercorns, bit of bay leaf, four cloves, one slice onion and two teaspoons sugar twenty minutes; strain and add one teaspoon salt. Brown two tablespoons butter and three tablespoons flour cooked together. Mix thoroughly with soup mixture and serve hot, topped with whipped cream.

**Lima Bean Loaf:** Mash two cups canned lima beans through colander, add one cup cooked brown rice, one teaspoon salt, one-eighth teaspoon pepper, with one-fourth cup

### Lady Astor Scores Expensive Funerals

PLYMOUTH, Aug. 10. (INS)—Lady Astor, M. P., has strong opinions on lavish expenditure at funerals.

"I am amazed," she has just told an audience of her constituents at Plymouth, "at the number of people in the world who just go through life putting by their little bit to be buried with. I always tell Lord Astor that I don't want him to spend a lot of money on my burial."

"I would consider it a positive disgrace to have a fine funeral. Anything he has to spend, he must while I am living, not when I am dead."

### Commercial Houses Adopting Air Mail

CHICAGO, Aug. 10. (INS)—A check by the American Air Post Association shows that American business is taking the air. More than 100 concerns selected at random by the U. S. Chamber of Commerce shows that 41 made extensive use of the air mail and express, 39 made limited use and 16 reported "once in a while" while four made no use of the nation's air facilities at all.

With five per cent air mail postage for the first ounce, and ten cents for each additional ounce, effective August 1st, a substantial increase in the number of firms using air transportation is expected to be shown.

### Houses For Sale

**FOR SALE:** Attractive furnished Spanish bungalow consisting of five rooms, bath with shower, well located close in, double garage. Will sacrifice as need money. Price \$4,750. easy terms can be arranged. See Mr. Lewis at The Herald office.

## ATTENTION ADVERTISERS

The attention of classified advertisers is called to the sixth paragraph in the rate box which reads:

No ad under three lines accepted.

This simply means that our minimum charge for a classified ad is three lines, counting five words to the line.

Should advertisers desire to run a one or two line ad, the minimum charge of three lines will apply.

This has been a Classified rate rule of The Herald for years but as there seems to be some confusion in the minds of advertisers about it we direct their attention to the rate schedule in the upper left hand corner.

## (Legal Notices)

### NOTICE OF SALE

NOTICE IS HEREBY GIVEN that under and by virtue of an execution issued out of the Circuit Court of the Twenty-Third Judicial Circuit of the State of Florida, in and for Seminole County, on the 23rd day of July A. ## PEASANTS RETURN HOME

**AGRAM, Croatia, Yugoslavia** Aug. 13.—(INS)—Thousands of peasants who flocked into this ancient city to attend the funeral of Stefan Radich leader of the Great Jug peasant party, were returning to their homes today after a hysterical display of grief at the grave. Nearly 200,000 persons were in the funeral procession. Despite the undercurrent of hatred against the Belgrade government the week-end passed off quietly.

## GOVERNOR GETS "JACK-POT"

**NEW ORLEANS, Aug. 13.—(INS)—**Governor Huey P. Long today had \$15,000 of a gambling "pot", which he planned to turn over to some state fund. The governor early Sunday made good his threat to use militia to stamp out gambling here, when national guardsmen under orders of long raided two fashionable clubs—the Jal-Alai Fronton and the Aribi Club.

## PROBE WOMAN'S DEATH

**NEW YORK, Aug. 14.—(INS)—**Police today were seeking to determine the cause of the death of Hazel Deyo Hatchelor, 38, widely known writer of sex novels and other fiction, who was found dead in her Greenwich Village apartment. The body of the woman, who was said to have been in ill health for some time, was found in a kneeling posture beside her bed.

## TO BUILD HUGE PLANT

**DETROIT, Aug. 14.—(INS)—**The Ford Motor Company will shortly begin construction of a \$10,000,000 assembly plant at Long Beach, Calif. It was learned today.
