

Whirlaway Gives Horse Laugh To Racing Experts

By SID FRIDER

NEW YORK. June 29. (AP)—It is becoming an increasing wonder that Whirlaway didn't bust his sides out with all the laughing he must have been doing at the expense of a lot of the experts "for" it last year, or to do him justice, George Woolf has done with Mr. Right. That is what has been doing the horse equivalent of haw-hawing a large portion of the time. That is why he wasn't running, which he also has done quite a bit of since his earnings now amount to \$404,666. He only broke his record to break Seabiscuit's \$27,730 money-winning record by July 15, but also to assume the

turkey first half-million dollar headbanger before he's through. Ever since he became famous, in the Kentucky Derby a year ago under the handling of Eddie Arcaro, after showing a lot of wacky ways of running earlier in the year, the myth has been built up that he only proved that all that the Kentucky Italian made him what he is. But in his two most recent outings, George Woolf has been on him. And all the jockeys have done with Mr. Right is smash Aqueduct's track record for the most part the mile, and a quarter Brooklyn Handicap yesterday, as the feature on a card from which was relief netted \$100,000.

Tobin Pitches 3-Hit Game As Braves Split

BOSTON. June 29. (AP)—The Chicago Cubs snapped out of a hitting slump Sunday in time to gain an even split with the Boston Braves, winning the nightcap, 3 to 1, after bowing before Jim Tobin's three-hit pitching, 3 to 0. Shutout yesterday by Al Avery, the Cubs had failed to score in four innings when they pieced together three hits for two runs in the fourth inning of the second.

Pitted against Claude Pasreau, the Cub's ace, Tobin held the Cubs to three hits and no Chicago runner reached third base. The victory was Tobin's seventh against 10 defeats, and the set back was the fifth for 11-game winner Pasreau.

The Reds took the opener, 6-3.

Paul Derringer held the Dodgers

German Spearheads Are Said Crushed By Reds At Kursk

Sevastopol's Weary Defenders Rally To Beat Back Repeated Nazi Blows

By Associated Press
Soviet forces on the Kursk front above Kharkov cut off German infantry forces which pierced their lines in several sectors and more than 200 Nazi tanks were smashed in two days, the army publication, Red Star, said. Much of the sting has been drained from the German attack, Red Star claimed.

Sevastopol's weary defenders rallied to beat back reinforced German tank troops, positions from which they launched another 48-hour assault. On the Kursk front, violent but indecisive fighting still raged.

Another heavy attack by some 200 planes was scored by the RAF on the Bremen seaport and submarine base for the third time in five days. Targets in Northwest Germany and occupied France also were hit. The British lost nine planes in their 97th raid.

Red Army smashed wave after wave of German tank attacks in the Kursk sector, north of Kharkov, yesterday but was forced to yield some ground to reinforced German forces in the battle for besieged Sevastopol, the Russian midnight communiqué said today.

The high command indicated the German offensive in both these sectors was continuing in violence, especially around the Crimean naval stronghold where the communiqué disclosed how German reserves were being used.

"On the Sevastopol sector," the communiqué said, "our troops repulsed frequent attacks of superior forces of the enemy. The army put new reserves to the battle. With these losses, the enemy succeeded in advancing somewhat. The battles are extremely fierce."

Torrential Rains Plague Jap And Chinese Armies

By Associated Press
Tokyo reported today Japanese invasion armies, fighting in torrential rains, gained another 20 miles in their two-way drive along the vital Chinkiang-Kuang railway in eastern China.

In clinching their first large-scale victory since they repelled the Japanese with heavy losses from Changsha last winter, the Chinese had 2000 wounded, 2000 killed in bloody battles throughout the past week on the Huan Province slopes of the mountains west of the Peiping-Hankow railway, main artery between North and Central China, a military communiqué reported.

They killed 800 others in smashing a column trying to make up the southwestern slopes from recently captured bases in Shensi Province.

The Japanese, seeking to re-marshal power from the vital railway and possibly to safeguard their rear in preparation for invading Siberia this summer, used heavy artillery, some motorized equipment, and bombers. Most of the Chinese had no arms heavier than machine-guns, rifles, bayonets and hand grenades. In addition to mountain passes two weeks ago, they rolled rocks down onto the enemy.

Verdict Favors Rector In Trial

DELAND, June 29. (AP)—The engagement of Rep. Joseph Edward Hendricks of DeLand and Washington to Miss Jane Morrison Harris of Concord, N. C., was announced yesterday by the editor of the will of late Mrs. Anna H. Paton who left \$10,000 each to her son, Edward Charles D. Millard, and his wife, Ruth, and three daughters, Mrs. Helen Hatt, Mrs. Beryl Hatt Moyer, and Mrs. Beryl Hatt Moyer.

WHITE PLAINS, June 29. (AP)—Representative Charles D. Millard today directed a verdict in favor of Rev. Millard, and his wife, Ruth, and three daughters, Mrs. Helen Hatt, Mrs. Beryl Hatt Moyer, and Mrs. Beryl Hatt Moyer.

75 Register At City Selective Service Office

Over 500 Young Men Are Expected To Sign By Nightfall

By Associated Press

About 75 Sanford youths between 18 and 20 years of age signed in at the Selective Service registration at 11:00 A. M. today. E. H. Carter, clerk of the Seminole County Draft Board, announced.

It was estimated that 200 or more would sign here and at the four registration places in the county before the deadline at 9:00 o'clock tonight. The government allowed for boys between 18 and 20 include both white and colored.

E. H. Carter stated that negroes are to register at the same places as white boys.

In Sanford, the young men must register at the recruitment office at Second Street and Magnolia Avenue. County places are at the white schools at Lake Monroe, Longwood, Oviedo and Geneva. Those living in other communities are to sign at the nearest place.

By Associated Press

Three million or more youths aged 18, 19 and 20, will register for selective service today, completing the listing of the nation's manpower for possible war duty.

The fifth nation wide draft registration will round out the official roster of some 43,000,000 men in the United States from 18 to 60.

The 20 year olds signing up to day will be subject to military service and the likely prospect is that many will be summoned within a few weeks to swell the ranks of the expanding armed forces.

Those aged 18 to 19 are not liable to immediate service but Major Lewis H. Hershey, selective service director, has advised that it may be necessary to call young men in their age brackets.

Head Of Osceola Cypress Company Taken By Death

By Associated Press

Mr. William Hatt, president of Osceola Cypress Company, since 1936, died at his home in Chatham, N. J., early Sunday morning. He had been in ill health for some months.

Mr. Hatt, who was 63, spent practically his entire life in the sawmill and lumber business for many years.

Last year the bond was set at \$1,000 but for the period starting Wednesday and running to June 30, 1943, the bond will be between \$1,000 and \$1,000. The amount will be determined by making the bond about 20 percent of the monthly average of sales of the company, it was explained. Applications are available at the market, Mr. Lehman said.

The Florida license is \$10 and \$10 is required for each \$1,000 put up in the bond dealers also will have to have a Federal license. The State act affects all truckers who buy directly from farmers.

Return-Load Order Postponed By ODT

WASHINGTON, June 29. (AP)—The office of Defense Transportation Monday postponed by July 1 to July 15 the effective date of orders requiring certain trucks to carry return loads.

ODT said the postponement was caused to allow sufficient time for a general review of orders concerning trucks operated by common, contract, and private carriers in over-the-road service.

As originally drawn, the orders prohibited trucks from returning to their point of origin unless loaded to at least 75 percent of capacity—considered the minimum efficiency standard for war-time commercial vehicle operation in light of the rubber shortage and lack of new equipment.
