

Gifford Goes On Trial In Slaying Of Charles Schuh

Elderly Butcher Of Doubtful Sanity Pleads Innocent

CLEARWATER, July 17—(AP)—Trial of Charles Gifford for the slaying of state Rep. Charles J. Schuh, Jr., was postponed today until tomorrow to give defense counsel an opportunity to investigate prospective jurors.

CLEARWATER, July 17—(AP)—Charles Gifford, the little old ex-butcher who has admitted shooting state Representative Charles J. Schuh to death, goes on trial here today.

Gifford, 71, pleaded innocent at his arraignment to a first degree murder charge.

He commented later "it might be the best thing if they sent me to the electric chair, considering my infirmities and how old I am."

Despite his reference to infirmities, the slight, gray-haired defendant seems spry and healthy in body.

His attorneys have said they will ask the jury to rule on his sanity. Circuit Judge John U. Bird, who will hear the case, had asked two doctors to test Gifford's sanity, but the defense protested this was matter for the jury to decide.

Three years ago Gifford's wife tried to have him committed as mentally incompetent by reason of senility. Schuh, a lawyer, represented her in that case, and although he failed to prove that was the motive for the slaying.

Gifford, while freely admitting pumping five pistol bullets into the popular young legislator in his St. Petersburg office Apr. 24, has given several reasons for the killing.

Once he said Schuh owed him for distributing campaign circulars and "city policy" was behind it. But Schuh was not a candidate then and was not active on behalf of anyone else.

Another time Gifford said Schuh called him a liar and he never took that from any man. Another explanation was that Schuh struck him during an argument. Schuh's employees said there was no time for argument between the time Gifford entered the inner office and when the shots were heard.

Gifford has been consistent about one thing since he was caught on the scene: that his name is Charlie Ross and that he came to this area only a few weeks before the shooting from Texas.

OCALA, Fla., July 17—(AP)—Dr. Ralph E. Russell, local eye, ear, nose and throat specialist, was found dead in his office last night about 9:30, with a self-inflicted bullet wound in his head.

The body was discovered by Dr. Carl S. Lytle, who had been summoned to the scene by Mrs. Russell when she found her husband's car at the rear of the office building but could not gain admittance.

Mrs. Russell told Police Lt. Kenneth Alvarez and Deputy Sheriff Don McLeod Dr. Russell had left Lake Kerr, where they were vacationing, yesterday afternoon about 3 o'clock saying that he would be back in a short while.

When he had not returned at 7 o'clock, Mrs. Russell said she set out to look for him around the lake. Failing to find the doctor, his wife drove on into Ocala and saw his car parked at the rear of the office building. She was unable to get any response to repeated calling and banging at the door, Mrs. Russell said, and telephoned Dr. Lytle.

Dr. Russell was found slumped in a chair at his desk, and the death weapon, a .45 caliber automatic U. S. Army revolver, in his lap.

Northern

(Continued From Page One) ... over presidential nomination.

House Republican Leader Martin Dies of Massachusetts declared that the resolution was certain.

Representative Brown (R-Ore.) said "it hasn't a chance in the world."

Already passed by the Senate, the proposed amendment would establish the Electoral College method of giving each state's electoral vote to the candidate receiving the most popular

vote in the state.

The states would continue to elect electors for each of the members in Congress, including the two senators.

Instead of going on to the winning candidate, the electors would split between the candidates in direct proportion to

the number of votes a candidate got in the state.

It would mean that a candidate who lost the electoral vote would still have a chance of winning the presidency.

The amendment would give each state an equal number of electors, no matter how large the state is.

Acheson

(Continued From Page One) Stalin. Stalin's reply was handed to the Indian ambassador in Moscow Saturday.

The New York Times, quoting confidential sources, said Stalin wrote that he "welcomed Nehru's initiative in trying to restore peace in Korea" and "reactivation of the Security Council should be the first step."

The Times noted that this latter reference obviously meant that the Chinese Communists should be seated on the U. N. Council in place of the Nationalists. Russia has been boycotting the council and other U. N. agencies because of the presence of Nationalist China representatives.

Seating of the Chinese Reds on the council would lead to the return of Russia to its deliberations and a discussion of the Korean situation among its five permanent members—the U. S., Britain, France, Russia and China, the Times said.

Substantially the same information was reported from a reliable source in New Delhi.

The American government, however, has taken the position that this is not the proper time to press the China question in its view the basic fact of the present situation is that the United Nations is fighting for its life in Korea and that fight must be won as a preliminary to the settling of other issues.

Finally, some of Acheson's advisers feel that to trade peace in Korea for Chinese Communist membership in the U. N. would be like giving way to international blackmail.

Two factors make the American reply to Nehru a matter of extraordinary delicacy and importance. One is that Nehru's great prestige as a leader of Asian nationalists means his attitude toward American policy and action in Asia can vitally affect their chances for success.

The other factor is seen at the State Department is a need to present the American action in Korea clearly as a fight in support of the principle of international security under the United Nations.

American government leaders would like to retain Nehru's good will toward the United States' stand on Korea and his sympathetic understanding of this government's policy of opposition toward bringing Communist China into the United Nations.

Initial drafts of Acheson's reply, therefore, were understood to have set forth American policy on the point in some detail.

Acheson is convinced that any compromise on the basic issues of the Korean crisis now would constitute appeasement of an aggressor that would be almost certain to bring on other Communist attacks elsewhere in the world.

As far as Korea itself is concerned he sees no alternative to pressing the military campaign against the Communists.

WASHINGTON, July 17—(AP)—The State Department got a copy today of Marshal Stalin's reply to Indian Prime Minister Nehru's proposals for ending the Korean

crisis.

The terms offered by the Russian Prime Minister were not officially disclosed. He was reported in New Delhi dispatches to have made seating of the Chinese Communists in the United Nations Security Council an essential preliminary to halting the fighting.

The State Department is reported to have completed a draft of the U. S. response to Nehru. It is expected to restate the "rock bottom" American terms for settlement, but in a manner to leave the way open for Nehru to pursue his effort if he believes it holds any promise of success.

The minimum U. S. demand, outlined Friday, is withdrawal of the Communist invaders back of the 38th parallel into North Korea. There is every indication that this country will refuse to compromise on this point, which is also a U. N. objective.

In addition to the U. S. reply to Nehru, the State Department said it is preparing to publish an

Indo-Chinese Red Fight To Be Pushed

SAIGON, Indochina, July 17—(AP)—American and French military and diplomatic leaders met here today to step up the fight against Communism in strategic Indochina.

They began their talks amid new acts of terrorism by Communist-led Vietminh guerrillas in and near Saigon. The war in Korea added to the urgency of the meeting.

The opening session lasted four hours and reportedly covered a general review of the political and military situation in Indochina. It was the first full plenary meeting of American and French military and diplomatic experts since President Truman's announcement of increased U. S. aid to France for Indochina.

Eclipses of the moon are due in 1950 on April 2 and Sept. 26.

BIGGEST TRUCK OPERATING ECONOMY STUDY EVER MADE!

OFFICIAL NATIONWIDE FORD TRUCK ECONOMY RUN

ON THE WORLD'S BIGGEST PROVING GROUND!

This sign shown above will identify the thousands of trucks from 1/2-ton Pickups to 145-h.p. Big Jobs participating in the big Ford Truck Economy Run throughout America. Watch for them!

This month, thousands of Ford Trucks of every size and type, in every kind of trucking duty launch the biggest truck operating economy demonstration in truck history—the Ford Truck Economy Run!

The operators of these trucks will keep accurate records of all gas and oil consumed, total repairs and maintenance, mileage travelled, loads carried, and work done for the next six months!

Dramatic Demonstration that Ford is America's No. 1 Truck Value

The Ford Economy Run will demonstrate for every-

one to see what Ford owners have known right along. Ford Trucks do more per dollar . . . in your business, in any business.

Economy is one reason why Ford is America's No. 1 Truck Value. And value is the big reason why more and more truck users are switching to Ford. Proof of this fact is that Ford Trucks are making the industry's biggest sales gain!

Come in today and let us show you how one of over 175 Ford Truck Models will save you money on your job!

In the long run, too—Ford Trucking Costs Less Because—

FORD TRUCKS LAST LONGER

Using latest registration data on 6,892,000 trucks, life insurance experts prove Ford Trucks last longer!

Sanford Giants Hand Palatka 8-7 Defeat

Locals Now Riding Six Game Streak; DeLand Red Hats Play Here Tonight

The Sanford Giants won their sixth straight game last night when they beat the Palatka Azaleas 8-7. It was the sixth straight win for the locals.

Palatka got nine rallies from their Giant moundmen but were able to manufacture only seven runs, while the winners eight hits and turned in the same number of runs.

Bob Rucker, Palatka center-fielder, connected for the game's only homer in the first stanza. He drove in two mates to give his squad a three to one lead.

Carl Thiels was called on in the last half of the ninth to just out a blaze. With the bases loaded and none out, Thiels retired the side via the strikeout route.

Jack Deal, who started the game, was pulled in the fifth for Jake Heutel who was credited with the win.

Sanford takes on the DeLand Red Hats tonight at Municipal Ball Park.

20 TO 17 VERDICT

DAYTONA BEACH, July 18.—(AP)—Leeburg's Packers took a deep breath and outlasted the Islanders Sunday night in a four hour orgy that saw the Packers blow a 10 run lead at one point and finally win, 20 to 17 in 11 hectic innings.

The Islanders raked up 10 runs in a big sixth inning to knot the count, and then fought the Packers on seven terms until a five run outburst in the top of the 11th.

The Islanders tried to make another comeback, but the rally fell three runs short. Bob Gouth the sixth Packer hurler, gained the win.

GOATER LOUIS

COUNCIL OF BLUFFS 11, July 18.—(AP)—Louis, ex-heavyweight boxing champ, was among the winners on hand to see-off the 100 in the Central States Golf tournament held for the big Negro world champion at the Florida Golf and Country Club, St. Louis.

Mr. Cane and Very Able - By Alan Maver

WILLIAM H. CANE,
ALSO KNOWN AS MR. TROTTER, THE MAN WHO BUILT UP THE HAMBLETOWN STAKES TO ITS PRESENT PROMINENT SPOT. THE 25TH RUNNING OF THE CLASSIC WILL BE HELD AT HIS BOSNEN TRACK, AUGUST 9!

The Neutral Corner

By BILL HEHING

Eddie Eagan, much involved in New York's fighting circles, has arrived upon a system of scoring fights that he claims is foolproof. Mr. Eagan claims that the balcony managers, if they follow his point scoring, will be spared the morning after debates with the adherents of the fall-gadlator. They will be able to show exactly—in so many points—why the decision went to the right man after all.

Eddie's system is as follows: One point is scored for the man winning the round by a bare margin, none for the victim. No round shall be judged even. There must be a winner.

When the round is clearly won, the winner gets three points, the loser none. If it is a one-sided round, plus one or more knockdowns, the winner receives four points.

"Knockdowns can count one or two points, depending on the judgment of the officials," says Chairman Eagan of the New York Boxing Commission. "The officials must determine the value of the knockdown. They should judge the round as though no knockdown occurred. After arriving at this decision, they can add or deduct points."

"Hence, if a man has won a one-sided round by a 3-0 margin, and during the scuffle gets knocked down, he still might win the round, or at least have it judged even. That is, he might have one or two points deducted from his score. He might end up with a 1-0 advantage."

Now, that is all well and good. The system sounds fair. We see only one drawback in it: while you are wrapped up adding, subtracting, multiplying, and dividing after each miff of leather thrown, you are very apt to miss the knockdown when it comes. If, of course, you are a chucker in the mathematical department you are almost certain to be in your seat totaling up the final outcome long after the battle is over . . . and your result is very likely to disagree with the headlines in the morning papers.

In the event you find yourself sitting down ring-side way at some important national battle The Neutral Corner would like to give you the inside angle of how we score a fight. It isn't the last word; it doesn't come close to meeting with the standard set down by Abe Greene's NBA, but it has enabled us to call such close fights as the first Jersey Joe-Louis fracas.

Every punch landed counts one point. The weight of the blow carries no ilk. A haymaker means the same as a light left jab. That isn't as unfair as it sounds. If, for example, fighter A throws and connects with ten powder-puff hooks as compared to fighter B's three roundhouse your score card would read A-10 and B-3. The weight behind the blows have been duly registered on each fighter's breadbasket or jaw as the case may be, and will surely tend to even up your card as the fight progresses.

In the event of a knockdown we immediately give the round to the fighter who remained on his feet. The number of blows in such a case is washed by the board's.

If your score card at the end of a round shows the same amount of blows and/or knockdowns for each fighter you revert to that intangible substance known as aggressiveness. The fighter who carried the round in that department is, we believe, credited with the round.

One word of caution. Don't use this system when you are comfortably entrenched in your favorite chair listening to the battle via radio. The sports announcers, no matter how good they may be, cannot hope to give you a blow-by-blow account of the fight. The human voice just can't keep track of every punch landed in a ten-second exchange. They hit the highlights and let it go at that.

The name of Sliser when mentioned in American League paries about 20 years ago caused managers to run hiding into their dugouts never to be seen again. Maybe it's a little early to be calling a shot, but it appears that the same old nemesis—in name only—is serving notice again on the mentors in the major loops. This time it's Dick Sliser of the Phils, age of old George.

And there's a youngster down in Princeton, the Harvard finishing school, that is breaking every schoolboy record in the books. He has hung on five straight wins, one of them a no-hitter against Yale. He is also credited with hitting home a brace of runs on the rarely-seen double square play. He has whiffed 33 batters in 49 innings and has an earned run average of 0.77. His name is Dave. Another son of old George.

Clubhouse

By FRANK ECK
AP Newsfeatures Sports Editor

OCEANPORT, N. J.—When ever anybody opens a new race track it seems they get Edward J. Brennan for the job.

The tall and ever smiling Irishman has opened nine tracks in the last 25 years. He has helped open many others, too. Today Brennan is about finished in his task of bringing infant race tracks into the American way of life.

In 1946 he got the east's latest modern plant started at Monmouth Park. He did such a good job as racing secretary that he was elevated to the post of general manager, a position that look like a lifetime job.

One might think Brennan is old money bags himself because of his success in starting new thoroughbred tracks. But if he has it stashed away there would be no reason for him to talk about the \$50,000 he could have made when he brought racing to the Dominican Republic.

In 1943 Brennan opened Perle Antillana, half-mile track for President Rafael Trujillo in the Dominican Republic.

"In one race there were six horses and all were owned by one man and trained by another man," says Brennan. "All six jockeys were brought over by the president from Puerto Rico. The horses were owned by the president and trained by Fred Hanon, who was getting \$500 a month and expenses."

"When each jockey went to the scales to weigh in he was escorted by a special policeman. After weighing in, each jockey was told what horse he was to ride and each policeman escorted a jockey by the arm so that none of the riders could talk over the race with each other."

Now if ever a race could be fixed here was one. Brennan assures that every precaution was taken by Trujillo. They probably even had policemen to watch the policemen.

"I could have made \$50,000 on racing at Trujillo," says Brennan. "But I'm not a betting man. I never bet a nickel on a horse race."

Ed got \$3,000 and expenses for supervising the racing at Trujillo, the city named by the president. Betting on the races, he ran would be almost an impossibility for Brennan.

At this day and age, and even in Trujillo where they race every Sunday, it would be tough on Brennan's feet to go rushing from one wiggle to another. He wears high button shoes.

However, his shoes are the only things ancient about Brennan. While Monmouth Park's ground work the beauty of Belmont Park and Saratoga, its stands and clubhouse are the most modern in the east.

Brennan's first "big job" around the racetracks was the president of the Cumberland Mid track in 1925. Two years later he started Hagerstown, Md. In 1929 he was patrol judge at Timonium, Md.

When the thrilles he opened tracks at Suffolk Downs in East Boston, Agawam in Springfield, Mass., now out of existence, Delaware Park near Wilmington, Md., and Charleston, W. Va., and Wheeling Downs, W. Va.

Besides all these inaugurations, Ed also worked at Pimlico, Bowie and Laurel in Maryland and Thistledown and North Rancliff in Cleveland.

Of course, there's always hunt meetings, too. At last year's hunt on the estate of Amory Haskell, president of Monmouth Park, Brennan was the announcer.

No racing job, it seems, is too big or too small for Ed Brennan. That's because he loses the sport.

Tim Tatas Is Headed For Hurlers Crown

By ASSOCIATED PRESS
Tim Tatas, the tall pirate from Tallahassee, is a candidate to be the pitcher-of-the-year title in the Georgia-Florida League.

Tatas, 34, is 6'11" straight and has a 190 lb. build. He is leading Florida with a great one-hitter over Moultrie in the first game of a doubleheader. The two wins, Tallahassee came back with a 7-1 victory in the last game.

Tatas' victory in the seven-inning first game was his 17th of the season. He has lost only three games. The only hit he gave was a scratch single by Hal Frey in the fourth inning.

Tim Tatas won his first game for Tallahassee in the eighth. The Pirates punched eight of their 11 hits in the third, fourth and fifth for all their runs.

American slug out the Albany Cards in a 3-0 win to take fourth place, passing Moultrie. American got also blows to the Cards' fire. Tony Kret poked a

Big Pack Of High Scorers To Race At Volusia Track

DAYTONA BEACH, July 18.—A pack of high scorers has been selected by Racing Secretary Merrill "Duke" Watts to go to the post in the feature ninth race at the Volusia dog track tonight. The setup lists Karlock, Sun Shy, Maxuma, Jack Riboud, Mom's Flash, Sally Manda, Montine and Please Nect.

Please Note, owned by Randle Doherty, has chalked up the most wins of the octet, having scored five times this season. Montine and Sun Shy come next with four wins each to their credit. Karlock and Maxuma rate high in the celebrity pack though they have acquired just two firsts each. But everyone knows that these two speedsters can really burn the rubber.

Sally Manda, a new comer, is certain to be given a lot of consideration after her sensational win in the eighth race Saturday night in celebration of her debut on the Volusia oval. She belongs in the kennel of E. Rouselle and comes here with six brilliant brothers and sisters, the offspring of Sally Goodloe, a Volusia star in 1948. These greyhounds have built up enviable reputations at Orange Park in Jacksonville and though not yet two years old they are rapidly climbing the ladder in fame. It was a sister of Sally Manda, Sherrylane, who finished second in the All-States Handicap Saturday night, beating the famed Jiffy Jet by half a length.

Tonight's tenth race over the beach course brings out some muzzled ones including Rocket Chief, Wachaeta, B's Montana and My Rustie.

Macon Peaches Take SA All-Star Title

MACON, Ga., July 18.—(AP)—Singly the teams of the South Atlantic League have been unable to stop the Macon Peaches. Last night the best from each team met together and still could not stop the Peaches.

Three Macon pitchers limited the South Atlantic All-Stars to two hits as the Peaches won their third All-Star game, 6-1.

Fred Wolfert, Bill Selosoth and Barney Shultz chalked up one of the greatest pitching nights of any of eight All-Star games. The three pitchers were on an awfully hot streak, a stolen base and an infield fly.

While Macon's great trio was at work, All-Star pitchers Jack Martin of Savannah and Barney Martin of Jacksonville were just as good for five innings. Swift and Martin gave Macon only one hit and that one didn't get out of the park.

However, Clarence Keller of Columbia was wild in the sixth and Macon clinched the game. Two walks, a hit batter, balk, a single, a double, a homer and another single gave Macon four runs.

Don Phelps finished Macon's scoring in the eighth with a 300-foot homer. The Peaches also scored in the seventh. Selosoth was the winner and Zeiser the loser.

Macon's victory was the third time in as many All-Star games that the Peaches have won. The five other mid-season star matches were won by All-Star teams.

Tennis Championships Start One Day Late

CHICAGO, July 18.—(AP)—The 40th National Clay Courts Tennis Tourney, weather permitting, will start a day late today.

A heavy downpour cancelled yesterday's scheduled opening at suburban River Forest Tennis Club. Showers also are predicted for today.

Ted Schroeder, the nation's top amateur, will face Dixon (Illinois) of Dallas, Tex., in his first match. Art Larsen, ranked sixth nationally, meets Earl Schultz of Riverside, Ill.

Doc Hart of Jacksonville favored in the women's division opens against youthful Bonny McKay of Dayton, Ohio.

The tourney won last year by Pancho Gonzalez, now a pro, in the masculine division, and returning Magda of Los Angeles in the women's section continues through Sunday.

single, double and triple in three trips to pace the winners. John Husebeck took the win as Walt Montgomery suffered the loss.

Thomasville nipped Cordele 3-2 in the semifinals. The Tigers jumped out in front in the first 3-1 and then matched an eighth inning homer by Bill Sides with an infield hit, sacrifice, wild pitch and squeeze bunt to win the game.

Carl (Ace) Adams, former Univ. of Georgia pitcher, chalked up his seventh victory.

BOOSTER NIGHT
By ASSOCIATED PRESS
Selma called for a "booster night" last night and just about everybody got "boosted"—players, fans, the front office and Selma's win column in the Southeastern League standings.

A fine crowd turned out and saw the Cloverleaf win Gadsden 5-2. The victory was Selma's third straight and the seventh in nine games.

The "booster night" was staged to determine if fans wanted to continue operation. A lack of funds caused the front office to appeal to Selma fans. Cloverleaf officials said they were gratified with the results.

Selma scored in the first inning and never was headed.

The Cincinnati Red Stockings, America's first professional baseball team, played their first National League game on April 25, 1870, defeating St. Louis 2-1.

Clayton Robinson, Michigan State's assistant trainer, was a varsity hurdler as a Spartan undergraduate in the 1930's and still holds two indoor barrier records.

Many efforts to build steam cars were made in England in the 18th Century, one having legs instead of wheels.

Hints To Housewives
By Anna Mae Sikes

A new fruit spread of smooth, creamy texture which may be kept without refrigeration has been developed from fruit juice and honey at the U. S. Department of Agriculture's Eastern Regional Laboratory, Philadelphia, Pa. In reporting the new product for commercial manufacture the Bureau of Agricultural and Industrial Chemistry points out that it may prove as well as for honey. The fruit gives flavor and color to the spread. Honey contributes sweetness, creamy consistency and good keeping quality.

Delicious spreads were made with red raspberry, grape, loganberry, and orange. Fruit products included frozen strawberry and red raspberry purees and juice from the frozen berries, fresh

LINED UP IN DRYDOCKS at Bremerton, Wash., are mothballed fighting ships, many of which will soon come in handy for Korean war assignments. The Navy has announced that it is taking an undisclosed number of small aircraft carriers "out of the mothballs" to ferry men, planes and military equipment to Japan. (International Soundphoto)

peach puree, bottled grape juice, canned pineapple, and loganberry juice, peach and apricot "nectars", cherry puree, frozen orange juice concentrate, and grape juice concentrate with natural flavor essence of the fruit added.

To accentuate the fruit flavor, refined or de-flavored liquid honey was used. But a pleasant spread can be made which blends the fruit and honey flavors. Briefly, the process of making it is to mix juice or puree and honey—half and half—and evaporate under vacuum at relatively low heat to save flavor. The product is then cooled. Just before filling into small packages, a carefully crystallized honey is stirred in slowly. This "starter" causes all the honey to crystallize as the packages stand for a week at cool temperature (55 to 60 degrees F.) Thus the spread acquires its creaminess. A similar method is used to convert liquid honey to the familiar "creamed honey."

The new spread may be spread like jam or jelly on bread or sandwiches, on wafers, crackers or cookies. Its convenience in spreading and for keeping on the cupboard shelf, its delicious flavor and appetizing appearance, and its wholesome ingredients should make it a popular sweet tooth appeaser when it goes to commercial manufacture. The creamy texture keeps best in a rather cool place. In temperatures above 90 degrees Fahrenheit it softens because the honey tends to liquefy.

Among the Shimon, an Indian tribe of Bolivia, a father changes his name to that of a new son, adding a phrase meaning "another of."

The diving bell is said to have been invented by Roger Bacon. Joseph Conrad's full name was Joseph Theodore Conrad Korzeniowski.

Prayer-bells are used by Hindus, Mohammedans and Buddhists.

Veterans Fear U. S. Might Be Facing Dunkerque Again

By HAL BOYLE
NEW YORK.—(AP)—There is a growing uneasiness among Army veterans that the American expedition in Korea may end in another Dunkerque.

Time, they feel, is fighting right now on the side of the heavily armored North Koreans—and against the lighter-armed U. S. forces.

One retired high-ranking officer I talked to felt that only an immediate withdrawal of and industry could stave off disaster in Korea—and perhaps other fronts to follow. He is one of the most experienced veterans of the last war, having fought in Africa, Sicily and Europe.

"We'll be lucky if we aren't pushed right back into the sea," he said. "The situation there is simply a matter of mathematics."

"So far we've had to send a boy to do a man's work. We've had to throw in a couple of companies here—a battalion there—and watch them get chewed to pieces. It's the same thing we did at Cassino. Gap-fied small units in one at a time to be destroyed."

This officer felt there was real danger that enough reinforcements could be put into the field in time to avoid a complete withdrawal from Korea. He pointed out that the North Koreans had backed 100 miles in slightly more than two weeks—and that another 100-mile advance would drive them to the tip of the peninsula.

"We may be able to hold a defensive beachhead in the south, where the terrain is pretty mountainous," he said. "But it will be terribly difficult."

The battle line is about 125 to 135 miles wide. To do the job right we ought to have at least six good divisions on the line—and two in reserve. This means eight divisions at the least. And eight divisions is an army—60,000 men or more.

"Where can we get that many men without mobilizing? We have only 12 divisions now all told, and they're stretched all around the world from Tokyo to Berlin."

What worried him also is the fact Russia has a reported 250 divisions in being, and some 200 more in reserve.

"She is just throwing a left jab at us in Korea, testing us out," he said. "And she is even using her own men—she's using satellite troops."

This officer felt, as so many other veterans do, that the American military machine should be quickly expanded in an all-out effort.

If caught in the open by an approaching tornado, experts advise you to run, not walk, at right angles to its path. You may be able to get out of the way.

Modern Way To Control Roaches!

Bothered by roaches or ants? Johnston's NO-ROACH applied by brush in the kitchen kills roaches, ants, and waterbugs. What's more, the colorless coating is effective for months, and kills the strays that wander in and walk over it. For scientific control, use Johnston's NO-ROACH!

Police Are Fired In Mobile, Ala. In City-Union Row

MOBILE, Ala., July 18.—Forty-one Mobile policemen and firemen were fired today for refusal to sign statements of non-union affiliation.

Eight policemen and 33 firemen were discharged. They failed to sign the non-union statements by last midnight, the deadline prescribed by a city ordinance.

Police Chief Dudley E. McFadden and Fire Chief L. L. Pezrey said normal operations of the departments would not be affected. Pezrey said remaining firemen would "double up" temporarily to handle fire fighting equipment.

The ordinance passed a week ago, brought a threat by a labor leader that unless the city took a "holiday" to show their strength.

Sam Shannon, a member of the executive board of the Mobile Central Trades Council, said a general shutdown for a day or two might show the city commissioners "how strong we really are."

Shannon made the statement in calling a mass meeting for 7:30 P. M. tonight to consider the city's ban against union membership for firemen and members of the police force.

The Mobile police local says that 100 of the 125 members of the police department belong to the union. The firemen's union claim 90 per cent membership.

Alleged Spies

(Continued from Page One)

Hoover declared.

At their first meeting in June, 1945, Hoover said, "Greenland was paid \$500 by Gold, who obtained it from his Soviet superior, Anatol A. Yakovlev, Soviet Vice Consul in New York City."

Hoover added that after Gold was arrested last May, Rosenberg warned Greenland to flee the country and gave him substantial funds to do so.

Rosenberg's wife told reporters today that she is a sister of Green, the man her husband is accused of recruiting.

She denied that her husband was a Communist Party member, although membership in the party was given as the reason for his dismissal from a civilian job with the army signal corps during World War Two.

Mrs. Rosenberg said she thought the real cause of his dismissal was his activity in union affairs.

"Neither of us has any party affiliations," Mrs. Rosenberg said. "We vote as we see fit at election time."

A business associate of Rosenberg's, who declined to give his name, said the accused man never talked politics around the shop or gave an indication of being a Soviet sympathizer.

"I can't understand it," the associate said. "He was very nice to his help and worked right along side them."

Cancer Test

(Continued from Page One)

Francisco's National Cancer Institute said the tubes can carry large amounts of drugs to the site of the cancer. Twice as much of the drug injected into a vein would be greatly diluted before it reached the same site, he explained.

Drugs were given in this way to 50 patients, all dying of cancer, in the past year, Dr. Shimkin said. About half of them received temporary help and a few obtained an extra three months of life, he added. The drugs used were nitrogen mustard, made from wartime poison gases.

The tube method, Dr. Shimkin said, had proven safe and may become increasingly useful. "The patient gets a local anesthetic at the point of the tube's entry and doesn't seem to mind the process," the doctor added.

Two other reports at today's session described the use of vitamins to fight cancer. Smaller than bacteria, the tiny viruses have to enter body cells to live and reproduce. If they get into cancer cells, they may be able to halt or slow down the cancerous growth.

A report from Dr. Shimkin and other San Francisco experts—Dr. Howard A. Bierman, Dr. William M. D. Hammond, Dr. Jerome C. Erdie and Dr. Karl P. Meyer—said such diseases had been given to 16 persons suffering from cancer of the lymph glands or cancer of the blood, leukemia. Some recovered temporarily, for a few weeks or months, the doctors said.

Each virus administered was of a type that could be controlled by using another virus, or antibodies, as "antimycin" or chloromycin. Diseases used included a virus disease of cats, a venereal disease called lymphogranuloma venereum, and rocky mountain spotted fever.

Dr. Alice E. Moore of the Sloan-Kettering Institute for Cancer Research, New York, told the group that a virus which causes Russian encephalitis, this dangerous disease, given mice, destroyed some kinds of cancer.

Acheson Note

(Continued from Page One)

and had the delicate problem of avoiding any peril of alienating Nehru and India without compromising the firm American "rock bottom" terms for settlement of the Korean crisis.

In responding to Nehru the State Department considered the unusual device of two notes or a single note plus a statement detailing the U. S. position. Because Nehru's note was brief and in general terms, diplomatic authorities said protocol demanded that the American reply likewise be brief and to the point.

Nehru's note was brief and in general terms, diplomatic authorities said protocol demanded that the American reply likewise be brief and to the point.

These officials said they had planned to release the correspondence "when all replies were received." They said they still awaited the reaction of the U. S. and British governments to Stalin's reply.

Leaders Urged

(Continued from Page One)

some foods because they can get replacements by an efficient transportation system.

Regarding farm machinery—short during the last war—Patton said the equipment makers should be underwritten by the government, if necessary.

Patton said he doesn't want to see any more inflation but is opposed now to controls beyond restrictions on credit and strategic materials.

He said he is against gouging of consumers and "we ought to move in on some of these food processors." He didn't say how.

Patton said another matter he took up with Mr. Truman was the idea of strengthening the non-military, peaceful and utilitarian arms of the United Nations.

Reuther Plan

(Continued from Page One)

chart the course of action.

Military defense would be expanded. America's present foreign and program would of course be dwarfed.

One final purpose would be total disarmament, however.

In arguing for his proposal Reuther went into recent history, including what he called the "tragic lessons of the appeasement at Munich" and the present "Korean situation."

He said the latter was a "part of total Communist strategy" and he predicted that the "dictator in the Kremlin will repeat the technique."

"We may push the Communist aggressors back in Korea only to find a repeat performance in Indochina, Burma, Iran, Turkey, Berlin or in any one of a dozen other spots," Reuther said.

Reuther's communication to the White House covered roughly 13,000 words, including his "total peace offensive" draft, a letter to Mr. Truman, and a "foreword."

In essence these were his nine points:

1. The U. S. to pledge an annual \$13,000,000,000 over the next 100 years (1950-2050)—"not conditional" upon payments by other nations.
2. The UN fund to help develop and expand economic resources and facilities of participating nations and to improve living standards, "including nutrition, housing, health and education."
3. The fund to be available also to the Soviet Union and its satellite nations subject to certain conditions.
4. Upon adoption by Congress of America's proposed role, this nation to submit it to the peoples of the world.
5. The UN to convene an international conference looking toward total disarmament and establishment of an international police force.
6. The UN to set up a "People's World Assembly" to make recommendations. The Assembly would be composed of representatives from workers, the farm, professions, business, education, religion, and other groups. The Assembly would convene annually.
7. The UN to expand existing agencies and create others as might be needed to administer the program.
8. The UN to create an agency authorized to employ scientists to develop and apply atomic energy to peacetime use.
9. This would be done "within the limits permitted by security measures made necessary by the refusal of one or more nations to agree to universal disarmament and inspection."

Broward Sheriff

(Continued from Page One)

successors to Clark were Frank Tupper, Pompano Beach police chief; Chief Roland Kelly of Fort Lauderdale, and Mayor Dave Turner, mayor of Wilton Manors.

Clark succeeded Turner's father in the sheriff's office in 1933.

Governor Warren announced at Tallahassee that he would suspend both Clark and Sheriff James A. Sullivan of Dade county if testimony showed them guilty of wrongdoing.

Sportsman Group

(Continued from Page One)

found that a clubhouse for meetings and gatherings leads to membership in the membership and affords greater pleasure.

He appointed as a committee to investigate sites for this project and to report back to the membership meeting July 28, Boh Williams, chairman, Denver Cordeiro, E.J. Moughton Jr. and Mrs. Mayme Hoelkin.

The secretary was instructed that on receipt of a definite date to be set by the president, that letters be forwarded to the clubs of the Fifth District to meet in Sanford for the election of officers, which will be sponsored by the Seminole Club.

A meeting for the purpose of organizing a membership drive will be held July 28 at 8 P. M., at the City Hall.

Mexican President Attacks Aggression

MONTERREY, Mexico, July 18.—President Miguel Aleman, expressing himself on international affairs for the first time since the Korean war broke out, says Mexico "condemns aggressive wars."

The statement was made by his official spokesman at the Nuevo Leon State University yesterday.

The President, seldom speaks himself but has his cabinet members speak in his name. Education Minister Manuel Gual Vidal said the President's attitude is:

"Mexico condemns aggressive wars and domination in its different forms, military or economic, and will follow her unchanging tradition of peace and fulfillment of international obligations."

Mexico is a member of the United Nations, which voted to halt the North Koreans, and as a member of the Organization of American States approved the U. S. action in Korea.

Legion Meeting

(Continued from Page One)

in out-of-town spending.

"Local businesses," he said, "must spend money outside of Sanford to exist."

Mr. Householder said, however, that the Fair actually brings money into Sanford. He stated that the Fair Association spent over \$1,000 last year in putting on the show. "In addition to that," he continued, "the Fair brought several hundred workers and performers to Sanford for one week during which time they spent their money here for eating and living purposes."

The Post promised in a resolution to pledge its full support and cooperation to the Seminole Club or efforts that might be authorized or called for by them.

The young men thanked the Legion for their part in establishing and sponsoring the program throughout Florida.

The Isle of Man was technically at war with Germany from 1914 to 1945.

Korean War

(Continued from Page One)

General MacArthur in Tokyo and an Eighth Army spokesman in Korea reported all American lines intact in the area. The Eighth Army spokesman credited the 24th Division with having fought the Reds "almost to a standstill."

The Reds were reported pouring reinforcements across the Kum River. They wrested a foot hold there by sheer manpower from the thin line of Americans in the Kongju area, 20 miles northwest of Taejon. But the spokesman at Eighth Army headquarters in Korea said only four North Korean tanks had been reported south of the river.

So quiet were the Reds, MacArthur's communique said, that the outnumbered, battle weary 24th division sent out patrols in an effort to find out the enemy's movements.

Associated Press correspondent William R. Moore reported from the battle zone that air power appeared to be slowing the Red drive at Taejon.

American planes, he said, seemed to have kept North Korean armor from moving against the Americans around the city.

The Red radio at Pyongyang, North Korean capital, broadcast that 2,600 U. S. troops were killed and 100 captured in fighting south of the Kum through 4 P. M. Monday (3 A. M. EST).

All American references to U. S. losses in the river battle have pictured them as light.

A spokesman at Eighth Army headquarters in Korea said at 9:50 P. M. (6:50 A. M. EST) that South Korean units in central Korea attacked Red troop concentrations in that area. The extent of the attack was not reported.

The spokesman said South Koreans inflicted "heavy losses" on a Red column encountered southwest of the American sector. Later the South Korean unit withdrew.

South Korean casualties have been light the past two days, the spokesman said. There was little activity in the American sector during the day.

Francisco's National Cancer Institute said the tubes can carry large amounts of drugs to the site of the cancer. Twice as much of the drug injected into a vein would be greatly diluted before it reached the same site, he explained.

Drugs were given in this way to 50 patients, all dying of cancer, in the past year, Dr. Shimkin said. About half of them received temporary help and a few obtained an extra three months of life, he added. The drugs used were nitrogen mustard, made from wartime poison gases.

The tube method, Dr. Shimkin said, had proven safe and may become increasingly useful. "The patient gets a local anesthetic at the point of the tube's entry and doesn't seem to mind the process," the doctor added.

Two other reports at today's session described the use of vitamins to fight cancer. Smaller than bacteria, the tiny viruses have to enter body cells to live and reproduce. If they get into cancer cells, they may be able to halt or slow down the cancerous growth.

A report from Dr. Shimkin and other San Francisco experts—Dr. Howard A. Bierman, Dr. William M. D. Hammond, Dr. Jerome C. Erdie and Dr. Karl P. Meyer—said such diseases had been given to 16 persons suffering from cancer of the lymph glands or cancer of the blood, leukemia. Some recovered temporarily, for a few weeks or months, the doctors said.

Each virus administered was of a type that could be controlled by using another virus, or antibodies, as "antimycin" or chloromycin. Diseases used included a virus disease of cats, a venereal disease called lymphogranuloma venereum, and rocky mountain spotted fever.

Dr. Alice E. Moore of the Sloan-Kettering Institute for Cancer Research, New York, told the group that a virus which causes Russian encephalitis, this dangerous disease, given mice, destroyed some kinds of cancer.

Reuther Plan

(Continued from Page One)

chart the course of action.

Military defense would be expanded. America's present foreign and program would of course be dwarfed.

One final purpose would be total disarmament, however.

In arguing for his proposal Reuther went into recent history, including what he called the "tragic lessons of the appeasement at Munich" and the present "Korean situation."

He said the latter was a "part of total Communist strategy" and he predicted that the "dictator in the Kremlin will repeat the technique."

"We may push the Communist aggressors back in Korea only to find a repeat performance in Indochina, Burma, Iran, Turkey, Berlin or in any one of a dozen other spots," Reuther said.

Reuther's communication to the White House covered roughly 13,000 words, including his "total peace offensive" draft, a letter to Mr. Truman, and a "foreword."

In essence these were his nine points:

1. The U. S. to pledge an annual \$13,000,000,000 over the next 100 years (1950-2050)—"not conditional" upon payments by other nations.
2. The UN fund to help develop and expand economic resources and facilities of participating nations and to improve living standards, "including nutrition, housing, health and education."
3. The fund to be available also to the Soviet Union and its satellite nations subject to certain conditions.
4. Upon adoption by Congress of America's proposed role, this nation to submit it to the peoples of the world.
5. The UN to convene an international conference looking toward total disarmament and establishment of an international police force.
6. The UN to set up a "People's World Assembly" to make recommendations. The Assembly would be composed of representatives from workers, the farm, professions, business, education, religion, and other groups. The Assembly would convene annually.
7. The UN to expand existing agencies and create others as might be needed to administer the program.
8. The UN to create an agency authorized to employ scientists to develop and apply atomic energy to peacetime use.
9. This would be done "within the limits permitted by security measures made necessary by the refusal of one or more nations to agree to universal disarmament and inspection."

Mexican President Attacks Aggression

MONTERREY, Mexico, July 18.—President Miguel Aleman, expressing himself on international affairs for the first time since the Korean war broke out, says Mexico "condemns aggressive wars."

The statement was made by his official spokesman at the Nuevo Leon State University yesterday.

The President, seldom speaks himself but has his cabinet members speak in his name. Education Minister Manuel Gual Vidal said the President's attitude is:

"Mexico condemns aggressive wars and domination in its different forms, military or economic, and will follow her unchanging tradition of peace and fulfillment of international obligations."

Mexico is a member of the United Nations, which voted to halt the North Koreans, and as a member of the Organization of American States approved the U. S. action in Korea.

Legion Meeting

(Continued from Page One)

in out-of-town spending.

"Local businesses," he said, "must spend money outside of Sanford to exist."

Mr. Householder said, however, that the Fair actually brings money into Sanford. He stated that the Fair Association spent over \$1,000 last year in putting on the show. "In addition to that," he continued, "the Fair brought several hundred workers and performers to Sanford for one week during which time they spent their money here for eating and living purposes."

The Post promised in a resolution to pledge its full support and cooperation to the Seminole Club or efforts that might be authorized or called for by them.

The young men thanked the Legion for their part in establishing and sponsoring the program throughout Florida.

The Isle of Man was technically at war with Germany from 1914 to 1945.

Korean War

(Continued from Page One)

General MacArthur in Tokyo and an Eighth Army spokesman in Korea reported all American lines intact in the area. The Eighth Army spokesman credited the 24th Division with having fought the Reds "almost to a standstill."

The Reds were reported pouring reinforcements across the Kum River. They wrested a foot hold there by sheer manpower from the thin line of Americans in the Kongju area, 20 miles northwest of Taejon. But the spokesman at Eighth Army headquarters in Korea said only four North Korean tanks had been reported south of the river.

So quiet were the Reds, MacArthur's communique said, that the outnumbered, battle weary 24th division sent out patrols in an effort to find out the enemy's movements.

Associated Press correspondent William R. Moore reported from the battle zone that air power appeared to be slowing the Red drive at Taejon.

American planes, he said, seemed to have kept North Korean armor from moving against the Americans around the city.

The Red radio at Pyongyang, North Korean capital, broadcast that 2,600 U. S. troops were killed and 100 captured in fighting south of the Kum through 4 P. M. Monday (3 A. M. EST).

All American references to U. S. losses in the river battle have pictured them as light.

A spokesman at Eighth Army headquarters in Korea said at 9:50 P. M. (6:50 A. M. EST) that South Korean units in central Korea attacked Red troop concentrations in that area. The extent of the attack was not reported.

The spokesman said South Koreans inflicted "heavy losses" on a Red column encountered southwest of the American sector. Later the South Korean unit withdrew.

South Korean casualties have been light the past two days, the spokesman said. There was little activity in the American sector during the day.

AN AMERICAN COMMAND POST IN KOREA, July 18.—(AP)

through the roadblock.

"Then I knew our people up ahead were in trouble. It turned out, however, that the regimental colonel on the other side had climbed in another tank and he was able to crack through the roadblock."

Sweetheart for ACTION

The remarkable resiliency of resinated glass fibers and their astonishing strength (250,000 lbs. per sq. in.) give **wonderrods** the sweetest action you ever saw. Actually superior to either steel or bamboo. Won't take a set... can't warp, rust, shrink... unaffected by even salt water. All told, we believe these are the finest rods ever offered. Come in and see **wonderrods** today.

ROBSON SPOTTING GOODS

306 East First

Here's why **MERCURY** owners are "having a wonderful time!"

The right power!
No matter where you travel with Mercury—city traffic or mountain trails—you're always way ahead with its livelier get-up-and-go performance! You're way ahead with Mercury's economy, too. Save money! Win the Mobilgas Grand Canyon Run. Mercury is "America's No. 1 Economy Car!"

The right roadability!
You can drive all day cross-town or cross-country—and scarcely feel it in a beautiful, new Mercury. Rough roads... curves... tight parking spaces are all easy to take with Mercury's "Cushion-Coll" springing and "Stedi-Line" steering!

The right riding comfort!
Two's company, four more are fun in the big, roomy, "built-for-six," new Mercury! There's plenty of leg room, front and rear! It's a car that's built to keep your whole family happy! Take them all for a ride—see! They'll all enjoy it!

And here's the vacation picture for you!

National Guard And Reserves Expected To Be Called Soon

President Asks Congress For Ten Billion Dollars For Korean Controversy

WASHINGTON, July 19.—(AP)—The Defense Department announced today the Army and Air Force will begin immediately recalling a limited number of Reservists to active duty. The Navy also will start immediately a "selective recall" of Reservists, the announcement said.

WASHINGTON, July 19.—(AP)—President Truman asked Congress today for a \$10,000,000,000 program to provide men and materials for Korean fighting and to guard against any armed aggression elsewhere.

Along with new military measures, Mr. Truman proposed partial home front mobilization. There will be no price controls or rationing now. But the President said he won't hesitate to call for them if sharp price rises make them necessary.

Later, he said, there will be a request for higher taxes. Mr. Truman asked that all legal limits on the size of the armed forces be lifted.

The President also reported to Congress he has empowered Secretary of Defense Johnson to call to active duty "as many National Guard units and as many units and individuals of the reserve forces of the Army, Navy, and Air Forces as may be required."

The armed services now are limited by law to 2,065,882 men. That figure is divided this way: Army 817,000, Navy 660,882 and Air Force 588,000.

Mr. Truman laid down his program in a 5500-word message to the Senate and House reporting in detail on what has happened in Korea and why the United States again is fighting thousands of miles from home.

The attack upon the Republic of Korea, Mr. Truman said, "makes it plain beyond all doubt that the international Communist movement is prepared to use armed invasion to conquer independent nations. We must therefore recognize the possibility that

(Continued on Page 2)

AFL Drafts Plans To Raise Funds For Political Drive

WASHINGTON, July 19.—(AP)—Leaders of the American Federation of Labor, worried about a shortage of political funds, met today to draft plans to raise more.

Instead of an expected \$5 contributed by each of the AFL's 1,000,000 members, collections actually have averaged only 7 1/2 cents a member, say AFL political leaders.

Leaders of AFL state and local groups were urged to make more contributions and more voter registration for the fall elections.

Heavy outlays in organized labor's leading fight in Florida and North Carolina have concerned the AFL leadership, it was relatively reported.

Joseph D. Keenan, director of labor's League for Political Education—the AFL's political branch—said the league's political work is down to \$100,000.

In addition to that sum the league has collected about \$300,000 from union treasurers, on the basis of 10 cents a member, for political "admission" purposes. This money is set aside for publicity on issues in which the AFL is interested, not candidates, AFL leaders say.

Leaders of some of the AFL's biggest unions got up at a meeting yesterday and said they were "ashamed" that contributions have lagged so miserably. Keenan told the group that only about 10 or 20 percent of AFL locals have met political money to league headquarters.

STATEMAN HONORED
A NEW YORK, July 19.—(AP)—The 1950 Freedom Award has gone to Secretary of State Dean Acheson for his "valiant and constructive voice leading the Democratic world toward unity against tyranny."

The award was announced yesterday by Freedom House, which sponsors its activities to the cause of world freedom.

President Truman's Program Means Partial Mobilization

WASHINGTON, July 19.—(AP)—President Truman's call upon Congress today for expanded military and partial civilian mobilization means, if Congress approves in full:

For families—
1. Tightened installment credit, probably higher down payments and less time to pay.
2. Sooner or later, higher taxes.

3. No price, wage or ration controls now, but later if prices soar.
4. Perhaps fewer things to buy, especially autos and television sets.

For men of military age—
1. A draft summons—for those over 19 and under 26 as needed.
2. A mandatory call to active service for National Guardsmen and Reservists if their units or individual assignments are wanted by the military.

For business—
1. Controls over materials, including government authority to ration supplies and set up priorities to say who should get them.
2. Possibly limited output of civilian goods which take big quantities of steel and other scarce materials.
3. Curbs on inventory hoarding.

4. The possibility that needed materials will be requisitioned.
5. Higher clearly-implied possibility of an excess profits tax, to produce revenues and curb profiteering.

WASHINGTON, July 19.—(AP)—The National Guard and armed services reserves include about 2,500,000 men subject to call under power given to Secretary of Defense Johnson by President Truman.

However, only a small part of that number are "hot" trained and equipped, or even organized into units.

Here is how the backlog of military strength is made up:

National Guard
A total strength in a few weeks before the Korean war of about 328,000 in ground units.
Organized into 27 divisions—25 infantry, three armored.

All these divisions, says the Army, are fully organized by units, ready to go. However, the man strength of almost all of the divisions is barely half the wartime complement.

Air National Guard
About 45,000 men; 516 units composed into 12 light bomber and 72 fighter squadrons.

Army Reserves
About 600,000 men. However, only about 185,000 of these (70,000 officers and 115,000 men) are on a paid, regularly trained basis.

On paper the reserves consist of 17 infantry, three armored, five airborne divisions. But the degree of organization and actual readiness generally is much less than that for the guard.

Navy Reserves
A total of 1,118,231 names are listed—but only 184,000 are actually in regular training. The others generally are men who have indicated willingness to go on active duty.

Marine Reserves
128,000, with 23,000 receiving training on drill-pay status.

Air Force Reserves
53,000 in regular drill-pay status, training outfit.

The 45,000 men of the Air National Guard are in addition to these Air Force reservists.

Former Resident Of Sanford Died Sunday
Funeral services were held at the graveside in Evergreen Cemetery at 2:00 P. M. today for Clarence C. Vickery, 55, who died suddenly Sunday at his home in Jacksonville where he had lived for the past four years.

Mr. Vickery was born in Hartwell, Ga., and formerly lived in Sanford where he lived before moving to Jacksonville.

Military Aid Bill Approved By House Vote

Quick And Favorable Reaction Is Found To President's Message To Congress

WASHINGTON, July 19.—(AP)—Responding swiftly to President Truman's call for action "without delay," the House today authorized \$1,222,500,000 of military aid to free nations to combat Communism abroad.

Passed earlier by the Senate, the bill now goes to the White House for the President's signature.

Legislation was introduced in Congress today to "freeze" military service for the next 12 months all persons over 18.

Rep. Vinson (D-Ga.) offered the bill in the House and said the Armed Services Committee which he heads would start hearings on it Friday.

A similar measure was introduced in the Senate by Chairman Tydings (D-Md.) of the Senate Armed Services Committee.

Vinson said he intends to offer legislation to extend the term of service for quakers, once they are taken into the Army. At present, the law sets the draft term at 24 months.

It also is expected that the Defense Department will request that the top age draft limit of 26 years be raised. Some sources indicate it may be placed at 32 years.

In the meantime, Vinson introduced legislation to suspend for a year all legal limits on the strength of the armed forces. This was asked by President Truman in his message to Congress today.

Congress generally indicated willingness to give speedy approval to most of President Truman's requests for men, money and materials to meet the Korean crisis and to meet any other armed aggression.

House Speaker Sam Rayburn said the President's recommendations for economic legislation will be embodied in a bill to be introduced today.

"In hoping we can pass his bill next week," Rayburn said.

House Majority Leader McMillin said the President's recommendations for economic legislation will be embodied in a bill to be introduced today.

Senator Bricker (R-Ohio) indicated Congress will grant Mr. Truman's requests for billions of dollars and broad powers to all fronts and other wartime materials.

"I think it's necessary if we've got a war on and I guess we should have a war on," Mr. Bricker said.

Ecceles Introduces Six-Point Plan To Prevent Inflation
SALT LAKE CITY, July 19.—(AP)—Marriner S. Ecceles of the Federal Reserve Board yesterday outlined a six-point plan designed to curb inflation which he said is developing rapidly because of the Korean War.

He proposed in a statement that inflation be checked through use of stricter credit controls, maintenance of current tax levels and a reduction of civilian demand for goods.

Ecceles, a former Utah banker, suggested as a fiscal program for the government that:

1. The government make no reduction in taxes this year.
2. It re-impose a corporation excess profit tax of 75 per cent on all net earnings above 10 per cent of the first \$5,000,000 (50) of invested capital and 8 per cent on any balance, allowing a \$5,000 exemption of earnings subject to the tax.

3. Organized labor be asked to make no demands for wage increases while the Excess Profit Tax is effective.
4. Second and third class post rates be boosted to a point where Post Office Department deficits may be met.

5. Tax loopholes be closed.
6. The U. S. Treasury offer non-bank investors long term maturity interest rates of 1 1/2 per cent.

While the situation will require some controls, Ecceles said, he hoped the country could avoid the necessity of using wartime direct controls, unless the Korean situation develops into World War III.

Two Crack U.S. Divisions Land As Reds Gather Forces For Assault On Taejon Post

Telephone Cable Laid

Laying of the cable across Lake Monsee to provide telephone service to Plantation Estates was pictured last week when over 9,000 feet had been laid with some 10,000 feet remaining before the job is complete. The barge from which the cable was laid was brought in the St. Johns River from Jacksonville.

Defense Claims Gifford Insane In Schuh Case

Clark Won't Resign; "Governor Warren Will Understand"

CLEARWATER, July 19.—(AP)—The defense today began to lay the ground for its plea of insanity for Charles Gifford, 69, accused of slaying state representative Charles J. Schuh, Jr.

The frail, old, ex-meat cutter, has pleaded both innocent and innocent by reason of insanity to the first degree murder charge.

M. H. Jones, Clearwater attorney who represented Gifford in a divorce case last year, described a visit to the defendant in jail a few days after the shooting, Apr. 24, 1950.

Jones said Gifford showed no signs of recognizing him and insisted his own name was Charlie Ross.

The attorney gave it as his opinion that there was "some mental derangement" unless Gifford was taking his lack of recognition. He added Gifford gave no indication of taking, although he was watching closely for such traces.

On cross examination Jones said he talked to Gifford only five or six minutes. He admitted he was giving his opinion only as a layman and had no qualifications as a psychiatrist or mental expert.

The state closed its case after presenting evidence of the wounds which killed the popular young legislator.

Schuh, 37, a leader of Governor Fuller Warren's forces in the 1948 Legislature, was shot in his St. Petersburg law office. Gifford was seized on the spot and admitted shooting Schuh.

MIAMI, July 19.—(AP)—Broward county Sheriff Walter Clark said today he had no intention of resigning "because I feel that I haven't done anything to warrant my resignation."

He said he would explain to Governor Fuller Warren his part in the activities of the Broward Novelty Company. He said he felt the Chief Executive would understand his activities.

The sheriff's flat statement that "I have no intention of resigning" was issued in the wake of recurring reports he planned to resign before the hearing in Tallahassee should be removed from office.

The hearing was ordered by the Governor after the Kefauver Senate Crime Investigating Committee presented evidence that Clark was a partner in the Broward Novelty Co., which operated a place both Nationalistic and Chinese Reds. Vice President Li Tsung-Jan, now in New York, is active in the third party move.

Secret Meeting Of Red Cominform Is Rumored In Europe

LONDON, July 19.—(AP)—Western European politicians speculated today that the Cominform has been called into secret session to discuss the Far East and the Korean war.

Top Communist leaders, Maurice Thorez and Jacques Duclos of France and Palmiro Togliatti of Italy were known to have left their posts on unexpected journeys.

The time and world conditions generally were considered appropriate for one of the Communist organization's policy meetings somewhere behind the Iron Curtain.

One report mentioned that Soviet Foreign Minister Andrei A. Vishinsky cut short a vacation at Carlsbad, Czechoslovakia, yesterday and left by plane for an unknown destination.

This report was attributed to informed sources at Carlsbad. Vishinsky has been in Czechoslovakia, it was said, for many weeks, and there has been speculation that he has been in Prague.

A Cominform conference now could be expected to discuss not only Korea and the Far East generally, but also the position of Marshal Tito's Yugoslavia, which was expelled from the Red's international fraternity two years ago for being too independent.

Tension between Tito and Cominform members was risen sharply in recent weeks. Tiny Athanasu Kung, Yugoslav ambassador, accused Tito week ago of violating the Yugoslav-Albanian border with the intention of starting a fight.

Nationalist Reform Suggested To Chiang
TAIPEI, Formosa, July 19.—(AP)—Reform of the Kuomintang (Chinese Nationalist Party) will be discussed at a future meeting.

Chiang Kai-Shek was urged today to revamp the party by 214 members of its central executive committee. He delayed any decision.

A high official said the party probably would expel members who had taken refuge abroad. These include T. Y. Suong, Brother-in-law of Chiang; H. H. Kung, Brother-in-law of Chiang; and Sun Po, son of Dr. Sun Yat-Sen, founder of the Chinese Republic.

Formosa recently resigned from the executive rather than go to Formosa. Both he and Kung are living in New York. Sun is in Hong Kong. Sun and Suong are former premiers. Kung is a former finance minister.

The reform move is seen as an attempt to undercut the formation of a third group to displace both Nationalists and Chinese Reds. Vice President Li Tsung-Jan, now in New York, is active in the third party move.

Spencer Outlines Building Plans To Kiwanis Club

Civic Club Building Estimated To Cost Not Over \$23,000.00

"Sanford can have a new Civic Club Building for as little as \$23,000," declared G. W. Spencer today at the Kiwanis luncheon.

Mr. Spencer said that the present building being utilized by the majority of clubs in Sanford is too small and inadequate.

He said that the Rotary Club has already contacted an architect and plans have been drawn for a new club building.

The overall measurement of the building, he said, would cover 70 by 43 feet. It would seat 100 persons enough to meet the needs of a growing Sanford for the next 30 years.

"The structure would be constructed, so as to insure as many as 100 people seats," he said. Mr. Spencer said that many civic organizations could hold their state, division or county meetings in such a building without having to rent out the high school auditorium or the Amory.

The plans call for a stage measuring nine feet deep by 22 feet wide. The stage would be elevated two feet from the main floor. A kitchen would allow meals to be prepared on the premises.

"The structure would be built of brick," he said.

Like Opposes Use Of Atom Bomb In Korea
SAN FRANCISCO, July 19.—(AP)—General Dwight D. Eisenhower does not believe the atom bomb should be used in the battle for Korea.

"I believe that were I in the middle of this thing, I would avoid using anything that our own people or others peoples might consider inhuman," Eisenhower told reporters at Fresno yesterday on his way here.

"It is imperative that we stand before the world as the champions of decency. I wouldn't want to do anything that might antagonize public opinion in any way."

Eisenhower, the supreme Allied commander in Europe in World War II, is president of Columbia University. He and Mrs. Eisenhower are on a vacation trip.

"The Korean battle just doesn't look like it was deliberately planned as the beginning of a major war," Eisenhower said. "We've got to win in Korea or we're bound to get smacked somewhere else."

He declared the loss of the Korean campaign would be "the worst that could happen to our hopes of peace."

THE WEATHER

Fair and hot through Thursday, except for thundershowers at widely scattered places occurring mostly in afternoons.

American Amphibious Landing Close To Enemy Lines Meets Little Opposition

POKYU, Thursday, July 20.—(AP)—Fresh American troops who seized a beachhead at Pohang on Korea's east coast rushed inland today in an apparent effort to block a new North Korean drive southward.

The First Cavalry Division (uncommitted) was expanding its beachhead possibly to cover the north-south Yonju-Anju road, a crucial route which leads to Taejon. The Reds were reported moving down this line. Taejon is on the American supply line from Pusan.

By ASSOCIATED PRESS
U. S. troops were on the offensive today with two fresh American divisions thrown into the Korean war. But on the western front a heavy Communist artillery barrage possibly signalled the resumption of the main Communist attack.

Front observers said the time for American retreat may be nearly past, but President Truman cautioned against hopes for a quick victory.

The famed "Hell for Leather" First Cavalry division, veterans of the liberation of Manila and actually a mechanized infantry unit, landed unopposed on the east coast at Pohang yesterday, just below Red lines. It quickly drove seven miles inland. It was followed the 25th "Tropic Lightning" Division had come ashore at an undisclosed location and apparently already has cut the enemy.

Communists on the main Korean battlefield before Taejon are grouped and uncommitted their firepower despite heavy Allied air attacks. They began blasting mortar and cannon fire at American positions. An enemy spearhead 40 miles to the southeast drove out South Korean forces defending the town of In.

There was no evidence that the gallant doughboys on the Korean front, with prospects of increased presence due to arrival of new American troops, had any doubts.

Firing Of Rocket Is Postponed By Technicalities
LONG RANGE PROVEN GROUND, Korea, July 19.—(AP)—Technical difficulties are delaying the scheduled firing on a double-bomber rocket out over the Atlantic today.

The rocket, a two-stage "Humbler" built under the German V-2 with a little "Waco" (rocket) in its nose, was supposed to be launched on its way about 8 A. M. (EST).

Difficulties in control circuits caused a series of postponements. The public information office says it hopes the guided missile will take off on its expected 300 mile flight around 1:30 P. M. (EST).

Army, Navy and Air Force "chairs" are on the scene along with scores of new government watching workers make last minute adjustments.

When the rocket takes off it will be the first horizontal or low-angle firing of the V-2 in this country as well as the first launching at the sprawling base operated by the Air Force as a missile proving ground for all the services.
