9-Item Agenda Confronts Board

A nine-item agenda will face the Board of Sanford City Commissioners tonight at the adjourned meeting of Nov. 14.

The lengthy session, beginning at 8 o'clock in the City Commissioner's Room, will possibly draw one of the largest audiences since the annexation question was being discussed.

It is expected that several items will come up from the floor and along with the public hearing on the rezoning of an area on Melville Ave. near 20th St. to al-

low construction of homes in the less than 1,600 feet living space requirement.

Already, the Zoning and Planning Commission of the City has recommended a change in rezoning to a low R1AAB which will require only 1,300 feet in the living area. Bradley Odham, head of Odham and Tudor, Inc., who proposed the new subdivision, says that homes upward of the original requirement for the Melville area will be built directly on Melville Ave. However, the lesser space will be reserved for other sections of the plat.

Other items on the agenda that will be discussed or handled during the meeting will include an appointment to the Zoning and Planning Commission, a resolution for the late Elton J. Moughton, a report from the City Attorney in regards to services beyond the city limits, the discussion of a request to use the present hospital building on Oak Ave. as a home for the aged, the vacating of an east-west alley at the rear of 107 W. 10th St., and the authorization for the completion of the agreements with Odham and Tudor, Inc., in regards to water and sewer.

Car Fails To Make Curve, Crashes Into Swamp, Brush

A 1953 Cadillac passenger automobile, traveling south on State Road 600, failed to make the curve at the Lake Monroe Bridge early this morning and crashed into the swamp and brush nearly 250 feet off the highway.

The car was a total loss and had to be cut out of the underbrush and trees into which it had hurled. Apparently out of control, the automobile did not turn over but smashed head-on and buried its front wheels into water and mud.

The accident occurred shortly after one o'clock when the automobile, driven by Mrs. Louise Heberlin, 37-year-old housewife of 2400 Laurel Ave., left the highway immediately south of the Lake Monroe Bridge as it attempted to round the sharp curve.

Mrs. Heberlin sustained a broken right hand and complained of shoulder pains when she was confined at the local hospital. The steering wheel of the car was badly bent as she was thrown against it from the impact.

Cecil B. Heberlin, 27-year-old railroad man, and husband of the driver, received a severe gash on his head when he was thrown into the windshield. He also received a cut on his left elbow.

Florida Highway Patrolman Carl Williams, investigating the accident said that the automobile was apparently traveling at a high rate of speed. However, he noted that there were no skid marks immediately discernible at the scene early this morning.

The automobile was a total loss with the front end completely demolished, the doors twisted out, and the body bent. Property loss was set at approximately \$2,500.

Couple Celebrates 64th Anniversary At Lake Mary Home

Mr. and Mrs. Zermi E. Smith of Lake Mark celebrated their 64th wedding anniversary Saturday.

Mrs. Smith, bedfast for the past 15 months and not enjoying the very best of health, and her husband not able to be about as spry as he once was, celebrated a quiet anniversary at the home of their son-in-law and daughter, Mr. and Mrs. W. T. Batley, at Lake Mary.

The Smiths were married Nov. 19, 1891 in Beltington, W. Va., and came to Florida from Charlottesville, Va. in 1925.

Mrs. Smith will celebrate her 64th birthday on Dec. 14 and her husband will celebrate an 86th birthday on Jan. 3. They were honored at the Annual Pioneer Meeting as the couple that had been married the longest.

Born to Mr. and Mrs. Smith were eight children, 14 grandchildren and 21 great grandchildren. There have been only two deaths in this large group of descendants, a son George L. Smith was killed in an on-the-job accident and one great grandson died in infancy.

Children of the Smiths are a son, Emory E. Smith, Washington D. C., three daughters living in Virginia, Mrs. Mona Miller at South Boston, Mrs. J. Frank Davis and Mrs. Ella Ellis of Charlottesville, and three daughters residing in Lake Mary, Mrs. Bailey, Mrs. W. R. Harrison and Mrs. Ed Zimmerman.

Many friends joined in wishing this couple many more years of married happiness as they celebrated their anniversary Saturday.

Mrs. Tom Boyd, 73, Dies This Morning

Mrs. Tom Boyd, 73, passed away this morning at the home of her daughter and son-in-law, Mr. and W. First St., after a short illness.

Mrs. E. R. Bronson Sr., at 1110 Tampa had lived in Sanford most of her life. Mrs. Boyd was a member of the First Baptist Church here.

Survivors are three children, Mrs. E. R. Bronson Sr., Sanford; Chesley Boyd, Sanford; Lloyd Boyd, Orla Vista, one brother, Henry Rowell, Plant City; 13 grandchildren, and 19 great-grandchildren.

Funeral services will be held at 2:30 p. m. Wednesday at the Bronson Funeral Home with Dr. W. P. Brooks Jr. officiating and the Rev. D. L. Beahard Sr. assisting. Burial will be in Sylvan Lake Cemetery.

Sanford Manufacturing Company Is Faced With Space Problem

Local Ministers Preach To Large Audiences Sunday

Beginning the Thanksgiving Season, Sanford churchgoers heard sermons of varying topics as local ministers preached to a continuing larger audiences in observance of the Sabbath Day.

Pastor Perry L. Stone of the First Christian Church preached Sunday morning from Eph. 2:10 on "Grace, the Free Gift of God." He said, "We are saved by grace, by God's forgiving mercy, his divine favor toward us despite our guilt of sin. Grace is not attained by our own doing—it is a free gift bestowed on penitent believers. It is utterly unmerited, and cannot be earned by morality, observance of the Law, or pious practices. Grace is not attained by works, but any man should boast. We are created in Christ Jesus for good works. Grace is the root of good works, not the fruit. God bestows the gift of grace upon us because of our faith in His Son. Grace is not of ourselves but faith certainly is. Faith is not thrust upon us irresistibly or presented to us miraculously. God has revealed himself, and we are free to believe or disbelieve the credible testimony of the Word of God. But God's promise of blessing depends on our faith, our response to his offer of salvation. Faith is not a coldly sterile, or aridly intellectual belief, but a warm, creative experience, the personal commitment of our whole selves to Christ."

The Rev. David R. Carnotix, pastor of the Christian and Missionary Alliance Church used as his subject yesterday, "The Kind of Thanksgiving That is Not Dependent Upon Circumstances."

Thanksgiving Day is a celebration peculiar to this great nation. (Continued on Page Eight)

SHS Seniors Get Point-By-Point Tour Through Local Bank

Seniors at Seminole High School are getting a point-by-point picture of the banking business as officials and members of the staff of Florida State Bank take the graduating class through their facilities.

In groups of 20 to 25 students, the huge 1954 graduating class is being honored at luncheon, given a word picture of the effect of the banking business on the community, led some of the philosophies of the bank department, and then shown the machine methods, and steps used in banking and loans.

One of the exciting moments during the luncheon was the handing of \$20,000 in \$100 bills as the pad of currency was passed from one student to another to get the feel of how money is handled in the Florida State Bank.

Senator Douglas Stenstrom, a guest of the bank for the occasion, spoke to the students on the importance of saving and of the services which the bank renders its depositors. Senator Stenstrom explained "the way in which banks serve the public and the part it plays in the county's growth, and the importance as a leading institution."

T. E. Tucker, president of the Florida State Bank, told the Seminole High School graduating class that, "We are proud to have you as our guests and we want to show you through the bank and explain just exactly how we operate."

At the luncheon with the seniors were Representative Volts A. Williams Jr., Superintendent of Public Instruction R. T. Milwood, Mrs. Gertrude Dingfelder, Miss Rebecca Stevens of the Seminole High School staff, and Willis Peacock, cashier of the bank.

Divided into two groups, the second tour of the bank was made conducted by President Tucker and Cashier Peacock of the bank's staff of officials.

Billias Loop, the bank's personal loan officer explained the operation of the loan department and told the seniors, "I'd like to impress upon you the value of taking care of your credit, for you never know when you will need it."

From one side of the bank to the other, the students got first-hand information of the way a bank operates, its policies, and how accounts, loans, savings, and other service are handled.

"It's the feel of money that really impresses me," one student was heard telling another. "I didn't know they had so much of it here."

Hyman Meltzer, father of the local head, is president of the parent organization and also of the Sanford Manufacturing Co., "Jerry" Meltzer said, "We do all of our buying, wherever possible, locally for we believe in spending our money for materials where it will do the most good."

But, our big problem is this, he explained, we are operating with 5,000 feet of floor space where we need upward of 10 to 15 thousand.

"Certainly, we are hopeful of solving our problems here in Sanford, and stay here," Meltzer said. "We like it here and we have an enormous investment, but we must have space necessary for our operations," he concluded.

McRoberts Heads Firm

W. K. McRoberts, head of the local tire distributorship, "The Hunt-McRoberts Tire Division," is expected to head the local tire distributorship, "The Hunt-McRoberts Tire Division," in the future for Florida and for Cuba.

"With over 20 years combined experience in the major tire industries of the country," said McRoberts who heads the local tire distributorship, "we are equipped to serve every tire need of the entire area."

Special representatives Dale Emery and W. E. "Huck" Butler will travel for the concern with Kirby Fite, sales coordinator for the firm.

Dale Emery is a former Eastern Sales Manager for the Wick Corporation and has spent 21 years in one of the major tire industries.

W. E. "Huck" Butler spent 22 years with the major rubber countries of the nation.

W. K. McRoberts, heading the firm, has spent an additional 22 years with major companies and in business for himself.

Explaining the setup of the new organization operating out of Sanford, McRoberts said that there will be a complete warehouse stock here so that shipments can be made in all points from the local source.

McRoberts said, "Denham Tires are not new tires. It has been a quality tire for 12 years." And he continued, "It has been our contention that the Denham tire is a bit better than the run-of-the-mill due to additional control during manufacture of the tire and the additional inspection that is given them after manufacture."

Commented the new firm head, (Continued on Page Eight)

New Industry Is Formed In Sanford

Jaycees Are Urged To Help During Christmas Parade

The Seminole County Junior Chamber of Commerce will not hold their regular Thursday luncheon meeting due to the Thanksgiving Day holidays.

According to the Jaycee Journal, official publication of the local Junior Chamber of Commerce Organization, the next meeting of the group will be held on Thursday, Dec. 1.

Members of the local Jaycee group are urged to volunteer for service during the Jaycee-Mercantile Association Christmas Parade slated for Wednesday, Nov. 30, 2:30 p. m.

Balloons will be sold during the parade to raise funds for the annual Orphan Shopping Tour of Florida say that "the more balloons sold will mean more money these children will have to spend."

An appeal is also being made for the local Jaycee members to send in their cards stating the hours that can be worked by the member during the "Mayfair Inn Open" Jaycees are "going all out" in lending their support to the tournament.

Hamrick Assigned Duty As Assistant Operations Officer

John L. Hamrick, who recently reported to the Sanford Naval Auxiliary Air Station, has been assigned duty as an Assistant Operations Officer, according to an announcement made by the local Navy commander, SanDiego.

Hamrick has been selected for promotion to Commander, according to the weekly release. He is one of those who have recently been promoted to the local NAAS.

In 1941 Hamrick entered the Navy through the Naval Cadet program and was first assigned to duty with Fighting Squadron 30, then stationed at Norfolk, Va.

Serving in Torpedo Squadron Four around the USS Ranger operating in the Atlantic, he was shifted to the Pacific aboard the USS Bunker Hill and later on the USS Essex.

Mr. Hamrick returned to the States in 1948 and assigned to the NAAS Charleston, S. C. as Operations Officer.

He was then assigned to the USS Kearsarge for a tour of duty after which he attended the General Line School, later becoming Administrative Officer of Helicopter Training Unit One.

In September, 1954 Hamrick was assigned to Helicopter Squadron Two at Lakehurst, N. J.

His immediate prior assignment, before coming to the Sanford Naval Auxiliary Air Station, was as Assistant Air Officer aboard the USS Midway.

Landscaping Alters Appearance Of New Memorial Hospital

Sanford's Sunday sightseers were delightfully surprised to see a striking change of appearance in the north location of the new Seminole County Memorial Hospital, for it now has the glowing beauty of last part of the landscaping.

Officials are happy about the progress that is being made and are hopeful that doors will be open for patients early in January.

Rather than wait for springing to grow and cover the front grounds of the building that is now nearing completion the trustees decided to have and laid. The green carpeting thus provided around the attractive entrance sets off the new structure in a fine contrast.

In addition to the greenery there are phloxia palms and some short shrubs that add their notes of beauty.

To the east and south most of the springing has been done and the sprinkler system has been work to keep the small patches of grass growing. There is still a large section of the grounds that must be set in lawn mostly to the south and southwest of the new structure.

Floral beds have been laid out and the preparation of the soil being done to insure healthy growth for the plants that are (Continued on Page Eight)

Franchise Held For Florida, Cuba

With an exclusive franchise for the State of Florida and for Cuba a new industry is created in Sanford with representatives traveling throughout the State and over the entire island of Cuba.

"With complete confidence in the future for Florida and for the island of Cuba," said W. K. McRoberts, distributor for the Denham custom built tire, "we are establishing our business here to take care of the expanding trade and the continuing growth of the State."

Two representatives of Hunt-McRoberts Tire Division will travel the entire area where the exclusive franchise has been granted. "With over 20 years combined experience in the major tire industries of the country," said McRoberts who heads the local tire distributorship, "we are equipped to serve every tire need of the entire area."

Special representatives Dale Emery and W. E. "Huck" Butler will travel for the concern with Kirby Fite, sales coordinator for the firm.

Dale Emery is a former Eastern Sales Manager for the Wick Corporation and has spent 21 years in one of the major tire industries.

W. E. "Huck" Butler spent 22 years with the major rubber countries of the nation.

Cabbage Acreage Shows Increase In Market Area

"Cabbage acreage shows an increase in the Sanford Market area," according to Sandy Anderson, manager of the Sanford State Farmers' Market in his tabulation of fall crop acreage in L. N. Lewis, Director of the Florida State Farmers' Markets.

"Vegetable acreage in the Sanford-Oviedo-Delaware-Lake Harris sections, as of Nov. 1," said Manager Sandy Anderson, "shows an increase of 201 acres over the corresponding period last year. Cauliflower acreage increased 44 acres and iceberg lettuce 44 acres. However, there is a decrease in other items with beans showing the greatest with 242 acres less. There are lesser decreases in celery, Boston lettuce, escarole, chikory and romaine and other items. The overall acreage Nov. 1 totaled 2,173 acres as compared to 2,171 acres on this date last year. A part of the celery decrease is attributed to the Lake Harris acreage being converted to pasture and therefore not being farmed this year."

"Last week the Sanford Market grossed in excess of \$60,000 for 20,817 packages of 30 varieties of produce. Beans, celery, corn, cucumbers, escarole squash and citrus led in volume," Anderson reported.

"Rapidly increasing volume at the Fort Myers State Farmers' Market," is reported by Manager Henry Wille Jr. "However, prices are at such a low level on most items growers are barely receiving harvesting and packaging costs," he said.

35 Congratulated

The Executive Officer at the Sanford Naval Auxiliary Air Station personally congratulated each man in a 35-man group last week when they received certificates of advancement.

Commander H. C. Cole Jr., NAAS Executive Officer presented the certificates of advancement and commended the group for their initiative.

Hamrick Assigned Duty As Assistant Operations Officer

John L. Hamrick, who recently reported to the Sanford Naval Auxiliary Air Station, has been assigned duty as an Assistant Operations Officer, according to an announcement made by the local Navy commander, SanDiego.

Road Department Has Grass Problems

If planning to mow your front lawn makes you tired, just think of the problems of the State Road Department.

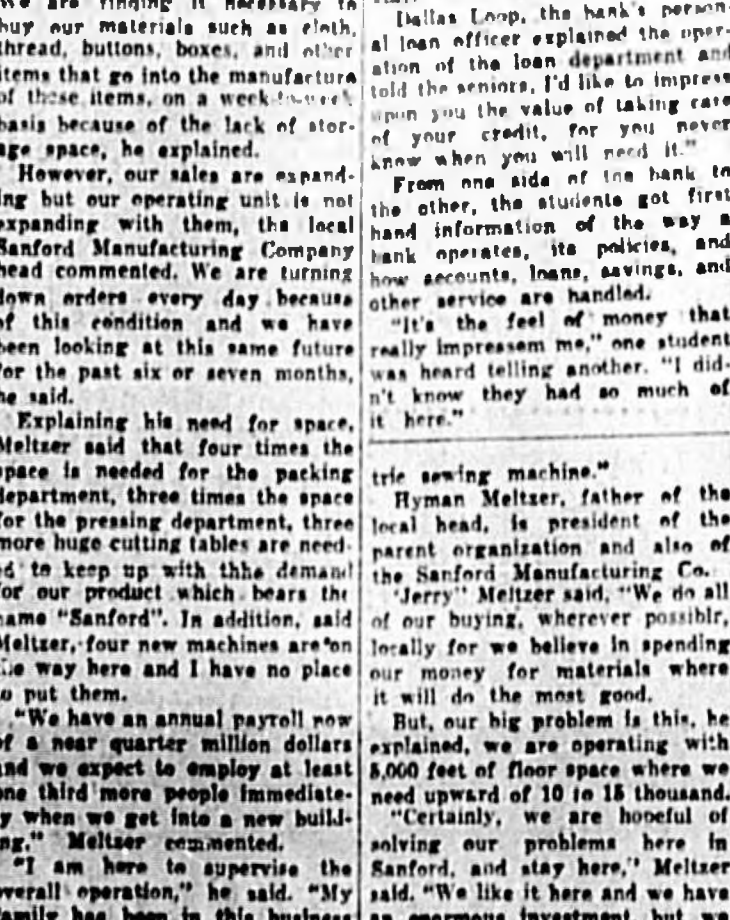

Last year the maintenance division of the Road Department mowed an average of three times the 150,000 acres adjacent to state highways—or a 6-foot wide strip of grass 642,000 miles long.

The 134 mowing units of the State Road Department traveled the equivalent of nearly 26 times around the earth in maintaining the grass rights of way along more than 12,000 miles of primary and secondary roads according to R. C. Bynnerman Jr. maintenance engineer.

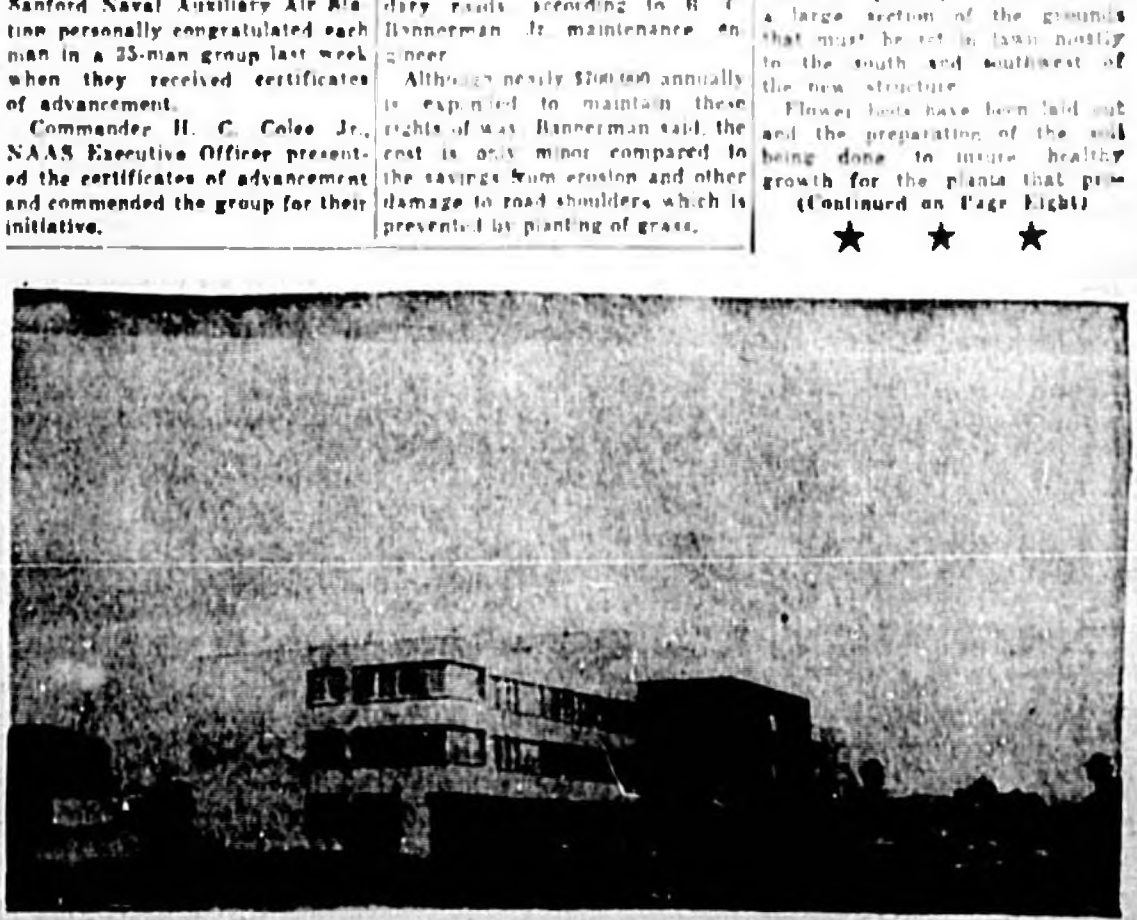

Although nearly \$200,000 annually is expended to maintain these rights of way Bynnerman said, the cost is only minor compared to the savings from erosion and other damage to road shoulders which is prevented by planting of grass.

U.S. MARSHAL restrains Mrs. Irene DeMare as she interrupts a probe in Miami, Fla., of the interstate sale of children with shouts of "they look away my children." Sen. Estes Kefauver (D-Tenn.), conducting the probe as head of Senate Subcommittee on Juvenile Delinquency, promises the would-be heard Judge Walter Beckham, a witness at whom the outburst was directed, said Mrs. DeMare's two children were taken from her custody on the recommendation of a psychiatrist and the Catholic Charities Bureau. (International)

News Of Men In Service

FORT POLK, La.—Army Cpl. Mark B. Williams, 22, whose wife, Jeanette, lives in Oviedo, is assigned to the Aggressor Force in Exercise Sage Brush, the largest joint Army Air Force maneuver since World War II, now being held in Louisiana.

Some 110,000 Army troops will test the latest concepts of bacteriological, atomic, chemical and electronic warfare. The exercise will end Dec. 15.

The Aggressor Force furnishes opposition to the regular maneuver troops in simulated battles.

Corporal Williams, an infantryman in Company B of the 4th Armored Division's 55th Armored Infantry Battalion, is regularly stationed at Fort Hood, Tex. He entered the Army in May 1953.

Williams is the son of Burton Williams, Oviedo.

AT A SPECIAL CEREMONY in the United Nations Building, New York, winners of the 1953 Seventeen-Save the Children Federation Christmas doll contest receive special citations from Gen. Carlos P. Romulo, Philippine Ambassador to the United Nations. The top dollmakers are (l. to r.): Alice Adams, 18, Denver, Col.; Judy Fisher, 16, Creve Coeur, Mo., and Barbara Webb, 13, Santa Monica, Calif. The event climaxed the fifth annual contest in which 45,000 girls made dolls for their less fortunate sisters at home and abroad.

People Are Eating Too Many Things Containing Sugar

(This article is published as a service by The Sanford Herald in cooperation with the Seminole County Dental Society.)

Teeth aren't in perfect health one day and suddenly diseased the next.

When an aching tooth flares suddenly, it means the end product of a long process of decay. The pain is the danger sign and may be the death rattle of a dying tooth.

The decay begins in a tiny speck you cannot see — a point no bigger than a pinpoint. Contrary to widespread belief, the decay starts on the outside of the tooth, not from within.

Because the outside layer of the tooth, the enamel, is the body's toughest tissue, the pinpoint spot enlarges slowly at first. But as the decay works its way into the soft tissue within, it spreads rapidly.

Decay usually doesn't occur on smooth tooth surfaces that are constantly cleaned by movement of food over them in the chew-

ing process. To create decay, there must be a favorable point for growth. Natural creases, pits, grooves, and spaces between teeth provide the usual places for decay.

Most dental authorities agree tooth decay is caused by acids formed in the mouth through action of bacteria on the sugars and starches that stick in these creases.

One of the recent findings of dental science is that acids are formed very rapidly and are in greatest concentration on the teeth five to 20 minutes after eating sweet or starchy foods. These acids may continue to be produced in sufficient strength to damage the teeth for about 30 minutes.

Nature has provided a defense against the "decay" acids, but in our modern way of life it does not save the teeth because people are eating too many things containing sugar.

We have such a sweet tooth that we consume every year an

average of about 140 pounds of sugar per person, according to the studies of one university dental professor.

"In other words," he says, "we practically eat our own weight in sugar. This may seem like a tremendous amount, but when you think that three teaspoonsful of sugar a day will amount to 13 pounds a year, and then add the amount of sugar hidden away in other foods, it adds up quickly."

There is abundant evidence in dental profession to show that if children and grown-ups cut down the sugar they consume, tooth decay, pain and loss of teeth would be greatly reduced.

Authorities point out that a proper diet has enough sugar and starches without eating candy, pies and cakes.

The ancient Romans made alloys of tin and lead and used them for chewing, much as they are used today.

Fun To Be Santa Clause

AP Women's Editor It must be fun to be Santa Clause. I was permitted to be present at a pre-Christmas Santa ceremony the other day, when I accompanied a group of airline dignitaries to the apartment of an amazed and

slightly breathless young woman who was presented with a check of \$5,000.

The happy recipient was Miss Vera Mezel, a free-lance writer of radio and television scripts, who was notified she had won second prize in part I of a contest sponsored by an airline for her 30-word explanation of why she likes to fly. The winner of part 2 will not be known until 1955, when \$50,000 will be awarded to the contestant (or his heirs) who most closely predicted the future of aviation in the next 30 years.

Miss Mezel's first reaction on seeing the large and handsome check was complete speechlessness. Her next was:

"Who won first prize?" She was told that a Texas grandfather named Jack Hampton had won the \$50,000 first prize, and was a momentary wishful but then

ed happily:

"That's the highest price I was ever paid for a half hour's work." The slender, dark-haired Vera Mezel made a living doing various kinds of radio and television writing since her arrival in the United States in 1941 from her native Hungary.

"I just love flying, although so far I've flown only six times—going and coming on three vacation trips," she said.

Her predictions as to the future of aviation:

"I think helicopter taxis will be as common as automobile taxis by 1985, and people will have their own 'rovers' too, and park them on the roofs. This will change the architecture of the country, because all houses will have to have flat roofs."

M. Kent Is Setting Up Own Business As 'Private Eye'

ALBUQUERQUE, Nov. 19 (AP)—A 23-year-old Albuquerque girl, who earned a living for two years trailing and checking on people, now is setting up her own business as a "private eye."

"I'm beginning to get very busy," said Marian Kent, who started her own business just a few weeks ago after two years with an Albuquerque agency.

"Maybe it's just curiosity at hearing about a woman private investigator, but people are coming to me. Of course, since most clients of agencies are women, some just want to talk to a woman."

The post, blonde Miss Kent, who gives an impression of naivete because of her glasses and dimpled smile, graduated from Albuquerque High School in 1946. She held several secretarial jobs and worked for a telephone company as a long distance operator.

Then she met her future husband, another private detective, and "I just naturally drifted into the work." She was married last Dec. 2.

Contrary to popular belief a private investigator is not in a cloak and dagger profession. McCarian says "none is a dirty business."

"Being a private eye is unusual and a very fascinating life. Most people have the impression it's a dirty business, but it's only as dirty as you make it. People get the wrong impression from television and the movies. They're actually surprised when they learn the truth."

"Sometimes, I think they're disappointed."

Marian specializes in domestic investigation. The cases she's handled range from checking on marital infidelity to blackmail.

"My job is to prove or disprove the allegations made by my client," she said. "Most of my clients are women, which makes investigation a good field for a woman. A man is more likely to solve his own problems where a woman will seek help."

"Often I just go and talk with the other person involved and check his character. Many times my job involves trailing people. Incidentally, whenever I'm trailing someone or I'm on a stakeout, I always notify the police so they'll know what I'm doing. The average case takes two to three weeks."

Marian went to work for the Army Detective Agency when she learned it was looking for a woman interested in that type of work. "I was real excited because I guess it's not something the average woman would do."

Although her first case was an interview and she turned the information over to another operator, she soon graduated to working on her own. At first she received a commission and then 500 a week, plus.

"But lately I wanted to go on my own," she said. "I'll only handle domestic cases and any other kind of work will be turned over to other private investigators."

Mrs. William Woodward, Sr., leaves Doctors Hospital in New York where she visited her ailing daughter-in-law, Mrs. William Woodward, Jr. The latter has been in the hospital since October 30 when she fell and her husband (thinking he was a preacher) (International)

"You Are Invited To Use Our Lay-Away Plan"

What Would 100 New Factory Workers Mean To Our Community?

What will 100 new factory workers mean to our community?

This question must come before the leaders of our community immediately, and as the problem is discussed, we'd like to give you some facts and figures to mull over.

For instance, not only will the community receive 100 new factory workers, but we receive 286 more people to bolster our ever growing economy and our bulging population.

The schools will have 51 more children attending school. That many opportunities to provide a president, senator, congressman or civic leader. It will mean 51 more excellent opportunities to carry the name of our community further into history.

We can't stop there because there will be 174 more workers, employed, including the 100 factory workers, plus additional employment in retail trade, construction, and professional services.

To raise our hopes and dreams even further, there will be more than a half million dollars added to personal income for a year. Five hundred and ninety thousand dollars is the figure more readily accepted by the analysts who provide the figures for a growing community.

There will be \$270,000 more in bank deposits. A swelling figure for loans, investments, bonds and other banking interests.

Figuring still further, the additional 100 factory workers in the community means 112 more homes, 107 more automobiles registers, four more retail establishments, and to add to the hearts of the merchants, there will be \$360,000 more money in retail sales per year.

As an industry searches for a new location, there must be serious consideration given to every aspect of the endeavor. Owing one manufacturer who located in a city, "the community we sought must want us as eagerly as we wanted them."

So, you see, landing an industry takes more than just a well-organized sales argument by the local Chamber of Commerce.

TODAY'S BIBLE VERSE

And he was sad at that saying, and went away grieved; for he had great possessions. Mark 10:22.

JAMES MARLOW

Court Angered Lot Of Southerners

WASHINGTON (AP)—The Supreme Court angered a lot of Southerners when it ordered an end to segregation in public schools. The decision overturned an opposing ruling in 1896 which segregation laid down by the court 58 years ago.

A special Virginia commission, trying to find a way to get around the new ruling, expressed indignation that the "law of the land is whatever the court may determine to be by the process of judicial legislation."

But this commission—called the Gray Commission—must have known this wasn't the first time the court has done an about face on a decision handed down by the highest court in the land.

Research at the Library of Congress shows the court has reversed itself 65 times in American history: 29 times between 1789 and 1832 and 36 times since then.

The court in 1896 said it was unconstitutional to pass laws segregating Negroes from whites—so no railroad trains—if the facilities given Negroes were equal to those of the whites.

This was the famous "separate but equal" doctrine which no subsequent court—until 1954—knocked down although justices in the meantime chipped away at it.

Then on May 17, 1954, the present court wiped out the doctrine by ruling that segregation in public schools was unconstitutional.

Since times change—and justices are a product of their times and environment—it is not so unusual, as history shows, that justices of a later day find a mean in the Constitution contrary to that of their predecessors on

It requires solid and continuing support from the entire citizenry.

There is certainly room for thought locally on the experience just mentioned.

Every community, looking to the future, looking toward expanding economy, looking at the necessity for providing more jobs for more people, is using every means at its command to demand industry. Plans are promulgated for attracting industry from other locations with exciting and promising offers that make the industrial leader's eyes open wide.

Sanford must plan and produce or industry will find another avenue down which it can march the millions of dollars in trade, construction, expansion, growth and prosperity.

Central Florida is booming and Sanford must boom with its neighbors.

The problem can be solved if heads are put together with the one idea of getting industry for Sanford, and once we get the industry, keep it here.

Help Elect Outstanding Man

Have you ever noticed who the volunteers are when the time comes for supporting our civic and social agencies, promoting enthusiasm for civic improvements or leading the way in providing a better city for your children to grow up in?

It's the Junior Chamber of Commerce, the group of young business men, banded together here in our community and known as the Seminole County Junior Chamber of Commerce.

What is there in this organization of young men that compels them to be in the front ranks when there is work to be done? The Junior Chamber of Commerce must be an excellent training ground for young men who are willing to accept the responsibilities of civic leadership.

The Jaycees, who now number, nationwide, 200,000 strong in 2,900 chapters across the nation, actively promote member participation in civic responsibilities with the idea in mind to (1) develop in young men the qualities of personal leadership, (2) offer young men an avenue with which to improve their communities and (3) afford young men an excellent medium for vigorous expression of their opinions.

The Jaycees are now searching for Seminole County's outstanding young man of the year who will receive the Junior Chamber of Commerce Distinguished Service Award. This is an opportunity for you to help choose the man in Seminole County, who, as a young citizen, has provided leadership and service beyond the actual voicing of an opinion, or who has minimized his own desires to better and more actively support the needs of his community.

The ballots for naming the man who will receive this award are at the Jaycee Information Booth. The deadline for getting this application and making your nomination is Dec. 15.

This is a fine way for the community to express itself as to who will be this outstanding young man of the year.

GENEVA VENTRILOQUIST

No Comment

WASHINGTON—If you could have attended the Congressional hearing on automation you would have heard convincing testimony that automation is absolutely essential for the Nation's industrial development.

Automation has been pictured by some as a scare word... something to be feared... something which will throw millions out of work by replacing them with machines.

Actually automation should be regarded as a miracle word... something which will raise the standard of living for the United States and for the world... and something that actually will increase over-all employment.

Just what is automation? Well, you are going to be surprised at some of the information developed during the hearings before a subcommittee of the Joint (Congressional) Committee on the Economic Report.

Automation really got its start, the subcommittee was told, millions of years ago when our ancestors got tired of doing everything with their hands. One day one of our Granddaddies discovered that jagged pieces of flint were better than his bare hands for doing certain work.

This sounds elementary today but at that time it was a revolutionary development. And, believe it or not, that was the real beginning of automation.

Ever since then people have sought ways to increase their efficiency and output by using tools and machines instead of muscles.

As a result, modern America has led the world in the application of scientific progress to the satisfaction of human wants and has constantly opened up new frontiers for the betterment of mankind.

From our beginning in the dawn of the steam age, we have advanced steadily into new worlds—of electricity, of the internal combustion engine, of powered flight, of communications, of transportation, of electronics and, now, of atomic power.

Now there has been developed an oath to support the Constitution which is not as it is understood by others.

In that particular decision which said Negroes were not citizens—Taney's court suffered a terrific reversal, not by a subsequent court, but by Congress and the people with the passage of the 14th Amendment.

ingenious control mechanisms, such as the electric eye, mechanical brains, and other intricate electronic and radiation devices, which can direct and control the operation of machines.

The production engineer has at his disposal a variety of machines and devices for controlling them, which, when put together in proper sequence, can turn out a continuous flow of mass-produced products or materials without human hands touching them during the manufacturing process.

This is "automation." It is a new word. Yet these control devices are not new. The essential features of automation have been applied in a number of fields for many years, such as petroleum refineries and the production of certain chemicals, some kinds of food, paper and the refining of ores. The production of cigarettes is an almost wholly automatic process. The dial system for telephones and vending machines for selling various forms of merchandise are other examples.

It would be idle to contend that automation will not bring about major changes in the economy. If it did not, there would be no purpose in all the work of the scientists who are developing this technological concept and the production engineers who are conceiving ways to put it to work in the service of the American people.

But it is estimated that the reallocation problem arising out of automation will involve only about 2,500,000 jobs over a twenty-year period. This is hardly alarming when we recall that as great a shift was accomplished in four years, with very little difficulty, during the reconstruction period following the World War II peak.

Remember that, by 1975 it is anticipated the population of America may rise to as much as 230 million people. To provide for this additional 30 million, and to continue to improve our living standards as they have improved in the past, we should aim at producing twice the volume of goods and services by that time that we enjoy today.

Obviously, unless we can bring about a 50 per cent increase in the average output of goods or services by the individual worker, we will not reach our goal.

However, our labor force will have increased only by one-third, even assuming there will be as many people wanting to work in proportion to total population as we have now.

Obviously, unless we can bring about a 50 per cent increase in the average output of goods or services by the individual worker, we will not reach our goal.

Way To Lose Faith In Human Nature

NEW YORK (AP)—The surest way to lose all faith in human nature is for a man to get a black eye or a broken hand in a small household accident.

Nothing turns an optimist into a cynic faster. The reason: no matter how simple or logical your tale of woe is, neither friend nor foe will believe it.

I'm in a position to know. Recently I received two tiny chip fractures in my starboard flipper

while supposedly safe in the refuge of my rented castle. The injury was a small one, but 10 days, two X-rays and three doctors later I found myself wearing an aluminum splint—might as well be on the safe side—and a bandage big enough for a wounded elephant.

In my office a friend who I assure would readily lend me \$1,000 if I really needed it took on look at the bandage and asked what had happened.

"Oh, just a little household accident," I told him, feeling I shouldn't upset his day with worry. "You mean a little household argument?" he replied heartlessly. "Maybe that'll teach you not to

talk back to your wife." I made a dignified mental note never to borrow \$1,000 from him, even if he begged me on his knees. When the second fellow solicitously inquired about my injury, I murmured something about "falling off a ladder."

"I'll bet you got it falling off the wagon," he remarked. The third man didn't even bother to ask. He felt he already knew. "Don't tell me you caught it in a door," he said, "unless it was a swinging door."

After a number of others stopped me to find out the reason for the bandage, I gave up hoping for sympathy. I realized that people don't want the real truth in such cases. They are looking for entertainment.

The sadder the tale you tell the more they respect you.

I told one man a fellow stepped on my hand when I bent over to retrieve a woman's handkerchief, and he patted his head and said, "I'll bet the woman didn't even thank you."

I told another inquirer I had hurt my hand merely by sitting down on it, and he answered, "You know I heard of a guy who did that and actually broke five bones in his hand. Imagine it—five bones."

"How did I break my hand? Why, defending a lady's honor," I proudly informed a middle-aged secretary I felt a little guilty when she patted my shoulder and said:

"Best you, there aren't many men like you left in this world." (Editor's Note: Enough of this outblinding. Tell us the real truth. How did it happen?)

(Boyle's Note: Well, if you really must know, I banged my hand against the wall deliberately—so I had an excuse to get out of varying the Thanksgiving turkey this year.)

(Editor's Note: Knowing how busy Boyle is, we'll accept this story as gospel true.)

Your City Charter

Part I
Charter of the City of Sanford, Florida
Chapter 26210 (No. 1214)
House Bill No. 1136, Laws of Florida
Acts of 1949

An act to abolish the present municipality of the City of Sanford, in Seminole County, Florida, and to establish, organize and incorporate in its place a municipality to be known and designated as The City of Sanford, Florida; to define its territorial boundaries and to provide for its government, jurisdiction, powers, and privileges, and the exercise of the same; to preserve and confirm all titles, rights, ownership of property, uncollected taxes, liens, dues, claims, judgments, decrees, and choses in action, contracts and obligations, existing in favor of or against the City of Sanford, Florida, abolished by this act, and to transfer the same to the City of Sanford, Florida, created by this act.

Section 1. Abolition of existing municipality. That the existing municipality of the City of Sanford, County of Seminole, State of Florida, be, and the same is, hereby abolished.

Section 2. Preservation of title, rights, and so forth, of former municipality. That the title, rights and ownership of property, uncollected taxes, special assessments, dues claims, judgments, decrees and choses in action, held and owned by Municipality of Sanford shall pass to and be vested in the Municipal Corporation organized under this Act to succeed the Municipality abolished.

Section 3. Obligations and contracts of former municipality not impaired. That an obligation or contract of the said Municipality, including bonds heretofore issued, shall be impaired or avoided by this Act, but such debts and obligations shall pass to and be binding upon the new Municipality which is hereby created.

Section 4. Officers of former Municipality to hold office until successors elected; ordinances continue to hold their respective offices and to discharge the duties thereof until their successors are elected and qualified under the provisions of this Act; and all existing Ordinances of the Municipality, not in conflict with the provisions of this Act, shall continue in effect and unimpaired until repealed, amended or modified by the Municipality which is hereby created.

Section 5. Abolition of existing municipality. That the existing municipality of the City of Sanford, County of Seminole, State of Florida, be, and the same is, hereby abolished.

Section 6. It is enacted by the Legislature of the State of Florida: That all existing Ordinances of the Municipality, not in conflict with the provisions of this Act, shall continue in effect and unimpaired until repealed, amended or modified by the Municipality which is hereby created.

Section 7. The British colonial office announces Britain will grant East-West some form of aid-rub. In the present trend of granting

more independence to nations, they've finally gotten down to the letter E.

The Navy is experimenting with a miniature, portable weather station. We get it—so cheaply as the weather.

Research shows that red traffic lights appear clearer to most motorists than do the green ones. Also bigger.

Typhoon Louise, after sweeping across Japan, had disappeared inland in a northwesterly direction. After looking at the map we understand what happened—she's been called to Siberia.

It's easy to tell the Stock Market won't flourish. Just listen to some of these investors growl!

Remember that, by 1975 it is anticipated the population of America may rise to as much as 230 million people. To provide for this additional 30 million, and to continue to improve our living standards as they have improved in the past, we should aim at producing twice the volume of goods and services by that time that we enjoy today.

Obviously, unless we can bring about a 50 per cent increase in the average output of goods or services by the individual worker, we will not reach our goal.

However, our labor force will have increased only by one-third, even assuming there will be as many people wanting to work in proportion to total population as we have now.

Obviously, unless we can bring about a 50 per cent increase in the average output of goods or services by the individual worker, we will not reach our goal.

Three Local Members Attend Board Meet of American Colonists Thursday

The State Board Meeting of the National Society of American Colonists was held Thursday at the Hotel Plaza, Orlando in the form of a luncheon at 12:30 p. m.

The report of the Pilgrim Chapter of Orlando, Mrs. J. P. Ristig, was read over the business meeting which was opened with prayer by the chapter chaplain, Mrs. C. A. Kelly of St. Cloud.

The Pledge to the Flag was led by Mrs. H. K. Hamilton of Daytona Beach. Mrs. Ristig welcomed members and honored guests and introduced the speaker, Joseph Guern-

Miss G. Biting Given Shower In Leonard Home

Honoring Miss Gail Biting, bride-elect of Nov. 26, Mrs. John Meisch and Mrs. J. M. Leonard entertained with a personal shower recently at the home of the latter on Holly Ave.

Pink Radiance roses were used in decorating the party rooms. There were several unusual arrangements including a cornucopia of baby mums. The shower gifts were presented the honoree in a golden cornucopia.

Refreshments were served buffet style later in the evening from the dining table which was covered with a pineapple linen cloth and centered with a silver bowl of pink roses and white mums along with chrysanthemums. On either side silver candelabra held burning pink tapers. Silver appointments were also used.

Miss Biting held the marked cup and was presented costume jewelry. The hostesses were assisted in serving by Miss Joan Wright and Miss Patty Rutigan. Invited to be with the honoree were Mrs. Walter Carter, Mrs. R. H. Harvey, Mrs. E. W. Cleveland, Mrs. M. L. Raborn, Mrs. O. P. W. Tauchon, Mrs. A. K. Shoemaker Sr., Mrs. R. W. Harmon, Mrs. Grady Herman, Mrs. T. F. McDaniel, Mrs. Hugh Duncan, Mrs. O. K. Goff, Mrs. A. K. Shoemaker Jr., Mrs. Frances McDougal, Mrs. Charles Wilke, Mrs. Francis Stenstrom, Mrs. Robert Graham, Mrs. W. V. Biting, Miss Joan Wright, Miss Patty Rutigan, Mrs. Marilyn McDaniell and the hostesses.

White Elephant Sale Is Sponsored At Class Gathering

The Homemakers Club of the First Baptist Church met at the home of Mrs. Lavinia Hines, 2472 Palmetto Ave. with Mrs. Clayton Smith as co-hostess.

Mrs. B. B. Brown, vice president, presided in the absence of Mrs. Hoke Duggan and Mrs. Cordell officiated the devotional. After the business meeting a very amusing and entertaining white elephant sale was held, during which time the members bought some "nice things". Mrs. Cordell acted as auctioneer.

Refreshments of pumpkin pie and coffee were served to the following: Mrs. A. D. Holloway, Mrs. J. A. Cook, Mrs. Nelson, Mrs. Joe Hoke, Mrs. Vera Phillips, Mrs. Louise Brinkins, Mrs. W. T. Kelly, Mrs. Christine Woodruff, Mrs. Irving Pryor, Mrs. B. B. Brown, Mrs. J. D. Cordell and Mrs. J. Roy Green.

Mrs. W. Kirchhoff Gives Interesting Talk To Auxiliary

St. Ann's Chapter of the Episcopal Church met recently at the home of Mrs. R. A. Newman with Mrs. W. E. Kirchhoff opening the meeting with the auxiliary prayer.

Reports were given by the standing committees and Mrs. Miriam Russell offered the report of the board meeting. Mrs. Kirchhoff presented an interesting talk on "Create and Make New Our Hearts".

The hostesses served refreshments to Mrs. Miriam Russell, Mrs. Harry Lee, Mrs. Ann Howard, Mrs. B. P. Whittier Sr., Mrs. Kirchhoff, Mrs. A. Dorby, Mrs. W. A. Laffler Sr. and Mrs. Irma Fletcher.

Employees Honor Mr. & Mrs. Perkins At Housewarming

Mr. and Mrs. Fred Perkins were honored Friday night with a surprise housewarming by the employees of The Sanford Herald of which Mr. Fred Perkins is Editor and Publisher.

The group left from The Herald Office and formed a motorcade to their new home on Scott Ave. Upon arriving the surprised honorees took the group on a tour of the residence. Presents appropriate for a new home were opened and refreshments of cake and soft drinks were served.

Those participating in the affair were Mr. and Mrs. A. K. Shoemaker Sr., Mr. and Mrs. Charles Morrison, Mr. and Mrs. James Anderson, Mr. and Mrs. L. Luster, Mr. and Mrs. Joe Lumpkin, Marion Harman, Miss Patty Walker, Bud Jennings, Mr. and Mrs. Clyde Wallis, Danny Hall, Mr. and Mrs. Fred Wells, Mr. and Mrs. John Cullum, Mr. and Mrs. Ralph Swartz, Mr. and Mrs.

Mothers Rebound Library Books

The Grammar School library mothers' day were served lunch in the school Thursday as they mended 60 books and rebound 34 of them.

Those present were Mrs. Jack I. Greene, Mrs. J. B. Phillips, Mrs. Walter Meriwether, Mrs. Edward Epstein, Mrs. Bessie Carter, Mrs. J. B. Scott, Mrs. Charles Silvego, Mrs. W. E. Dodson, Mrs. J. C. Howell, Mrs. Fred Williams Jr., Mrs. J. D. Willimon, Mrs. W. V. Brooks, Mrs. W. H. Grier, Mrs. Billy Southward, Mrs. W. A. Kratzert, and Mrs. S. O. Chase.

Surprise Shower Given By Ladies For Mrs. Thompson

A surprise stork shower was given Wednesday at the home of Mrs. Tolly Engstrom, on Palmetto Ave., for Mrs. Douglas Thompson.

The hostesses were Mrs. Engstrom and Mrs. Elmer Robber. Games were played and prizes were won by Mrs. Thelma Ried, Mrs. Gaye Duffy, Miss Betty Aliman and Mrs. James Thompson.

The rooms were decorated with fall flowers. Mrs. Thompson opened many lovely and useful gifts of her friends gathered around.

Refreshments were served and the hostesses were assisted by Mrs. William Meeks.

Those present to enjoy the occasion were Mrs. E. Sisson, Mrs. F. Sessions, Mrs. H. R. Meeks Jr., Mrs. Durane Pruitt, Mrs. James Thompson, Mrs. Robert Woods, Mrs. Thelma Reid, Miss Betty Aliman, Mrs. W. W. Dusen, Mrs. J. R. Arnold, Mrs. Wayne Duffy, Mrs. Charles V. Alkinson, Mrs. Tony Trams, Mrs. Irene Silkwood, Mrs. Vera Gilliard and Mrs. Ray Goeheltes.

Club Holds Supper

A covered dish supper was held at the tourist and shuffleboard club recently with approximately 35 present.

The tables were tastefully decorated for Thanksgiving. New members and guests were introduced and after supper games and shuffleboard were enjoyed by everyone.

The local club is playing orange city in shuffleboard on alternate Wednesdays.

CALENDAR OF EVENTS

MONDAY
Beta Sigma Phi Sorority will meet at the home of Miss Dial Boyle on Mellowville Ave. Members are asked not to forget their Thanksgiving food for the basket for the needy and the gift for some one in Chattanooga. Meeting begins at 8 p. m.

The Women's Bible Class of the Presbyterian Church will have a covered dish supper at the church at 7 p. m.

TUESDAY
The Band Parents Association will hold a meeting at 8 p. m. in the Band Hall.

The Bethany Class of the First Baptist Church will meet at the home of Mrs. Bralley Odham, 1907 Palmetto Ave. at 8 o'clock with Mrs. Eloise Hunt as co-hostess.

Laymen's revival continues at the First Baptist Church at 7:30 p. m.

The First Noble Grand's Club of the Semolina Rebekah Lodge will meet with Mrs. D. C. Howard at 8 p. m.

WEDNESDAY
Laymen's revival continues at the First Baptist Church at 7:30 p. m.

MRS. EUGENE LEGETTE
★ ★ ★ ★ ★
Candlelight Ceremony Unites Jacquelyn Claypoole, E. LeGette

In candlelight rites Friday in the First Methodist Church, Miss Jacquelyn Claypoole, daughter of Mrs. Louise Claypoole of Norwalk, Conn., became the bride of Eugene Smith LeGette of Sanford.

The groom is the nephew of Mr. and Mrs. William C. Hill.

Officiating at the double ring ceremony was Dr. Helton S. Roudler, head of the Department of Religion, University of Florida with the Rev. Milton H. Wyatt assisting him.

Pink gladioli and white chrysanthemums decorated the altar.

At 8 p. m. the nuptial organ recital was presented by Mrs. Robert H. Walthour.

The bride, who was given in marriage by George Benjamin Fishback of Orlando, wore a ballerina gown of Chantilly white lace over pale pink tulle. The portrait scalloped neckline was edged with seed pearls, and the bodice was fitted with long pointed bridal sleeves. Her veil of illusion fell shoulder length from a small Juliet cap accented with seed pearls. She wore pale pink satin slippers, and her bridal bouquet contained a pink orchid and stephanotis with matching pink ribbon streamers.

Among out-of-town guests were Mrs. Bertha Benedict, Norwalk, Conn.; Mrs. J. Albert Woods, New York City; Mr. and Mrs. Harry

LeGette, Bainbridge, Ga.; Mrs. Max Tyson, Cairo, Ga.; Dr. Edelman, Gainesville; Jed Moore, Gainesville and Mr. and Mrs. Ben Fishback of Orlando.

Afterwards the couple left on a brief wedding trip, the bride completed changing to a Navy blue featherweight wool sheath dress with a button front and panel treatment. A Navy blue cloche, suede shoes and white gloves completed her accessories and she wore a pink orchid corsage.

After Nov. 28 they will be at home at 421 NW 15th, Gainesville.

The bride attended Lauriston Hall, Milford, Conn., and the University of Florida. Mr. LeGette will graduate from the University of Florida School of Journalism Jan. 28 and be on the staff of the University News Bureau. He is a member of Phi Kappa Alpha social fraternity, a Seminole High School graduate of 1928, he formerly worked at The Sanford Herald.

DANCING

Couple Is Given Rehearsal Supper In Newman Home

Mr. and Mrs. W. A. Adams and Mrs. R. A. Newman entertained with a rehearsal party at the Newman residence, 500 Grandview Ave. for the former Miss Jacquelyn Claypoole and Gene LeGette who were married Friday.

The table was overlaid with a lace cloth and centered with a large arrangement of pink and white chrysanthemums. Crystal candelabra accented the creation with burning white tapers. Each candle was surrounded by tiny pink flowers.

Chrysanthemums were also used in the other room to suggest an autumn theme. Gladoli and greenery interspersed most of the decorations.

A buffet style supper was served to the guests. Those attending besides the wedding party were Mrs. Claypoole, mother of the bride; Mrs. Bertha Benedict both from Norwalk, Conn.; Mr. and Mrs. Ben Fishback, Orlando; Mrs. Edna Ordeman, Gainesville; Mr. and Mrs. Harry LeGette, Bainbridge, Ga.; Mrs. Max Tyson, Cairo, Ga.; Mrs. Walthour, organist and the hostesses.

Club Holds Supper

A covered dish supper was held at the tourist and shuffleboard club recently with approximately 35 present.

The tables were tastefully decorated for Thanksgiving. New members and guests were introduced and after supper games and shuffleboard were enjoyed by everyone.

The local club is playing orange city in shuffleboard on alternate Wednesdays.

Mr. D. Newman Feted At Shower By CPO Ladies

Mrs. David Newberry was honored Friday evening with a surprise stork shower at the home of Mrs. Walt Egan, Ladies of the SNAAS CPO Club were hostesses.

A pink and blue theme was used throughout the dining and living rooms which were opened en-suite.

When Mrs. Newberry arrived an appropriate record was played for the occasion.

Contests were played with Mrs. Howard Wolfe, Mrs. Jettie Shuler, Mrs. Jim Stowell and Mrs. J. C. Merritt, winning prizes. Tasty snack trays were placed in the party rooms for the guests to enjoy.

Early in the evening Mrs. Newberry opened her many nice gifts which were in the setting of a decorated bassinet. A sweet course consisting of ice cream, cake and coffee was served to Mrs. Gene Seaman, Mrs. Jettie Shuler, Mrs. Robert Newwood, Mrs. Jim Edge, Mrs. Harold Giers, Mrs. Salls Evans, Mrs. Jim Corbett, Mrs. James Parsons.

Mrs. Jim Stowell, Mrs. Rucker Spencer, Mrs. Tommy Cobb, Mrs. J. C. Merritt, Mrs. Bill Johnson, Mrs. Bill Makowski, Mrs. Howard Wolfe, Mrs. James Eastman, Mrs. John Bailey, Mrs. Miles Franklin, Mrs. R. B. Gasper, Mrs. Vincent Butler, Mrs. John Russell, Mrs. Terry Faye, Mrs. Gerald Myers and Mrs. Walt Egan.

Central Baptist WMU Circles, Are Combined As One

The Central Baptist WMU Circles No. Two and Three met recently at the home of Mrs. Fred Vesicle, the purpose of the meeting being to combine them into one.

Nomination of several of the officers was held and they are Mrs. Fred Vesicle, secretary, treasurer and publicist; Mrs. Mae Robinson, program chairman; and Mrs. Ina Galloway, vice chairman.

The members voted to name the circle Mary Tealy, after a missionary of Nigeria. The next meeting is slated for Dec. 13, at the home of Mrs. Connie Lodge, 1215 Oak Ave.

Wednesday night at the Sanford USO "Peggy's Dance" was held with Miss Peggy Best as junior hostess; Rocky Kramer Jr. assisted as host.

Senior hostesses for the evening were Mrs. Minnie Jones and Mrs. George Shippy representing the Episcopal Women. Refreshments were served and dancing was enjoyed.

It was announced by Miss Pat Casube, president of the junior hostesses, that on Nov. 22 from 8 p. m. to 12 midnight there will be a Harvest Moon Dance. A six piece orchestra will furnish dance music and "a wonderful time is planned for all."

Lyman Beat By Hurricanes

By B. HUGH ANSLEY
Little Lyman wound up his unimpressive season by losing to the Golden Hurricanes of Mount Dora 12-0 Friday night in Mt. Dora. Lyman's season has been marred by sickness, bad weather and injuries.

Don Gregg and Richard Griffin tore up the Lyman forward wall and led their Hurricanes to their third Central Florida Conference win. Gregg led in ground gaining with 112 yards. Both Gregg and Griffin scratched past dirt. The Mount Dora club almost tripped the Lyman running yards, 102 yards against the terry-

Feds Face Toughest Game Of Season Wednesday Night

By B. Hugh Ansley
The chips are down and the Feds know it. After last Friday night's Island-Leesburg game, the Feds know they have the toughest game of the season Wednesday night. It is all about the game of the week, the game of the season, the game of the year. The Bulldogs are expected to be the toughest opponent.

Local Ministers

(Continued from Page One) of ours. But, it is basically of Christian origin and purpose.

Our Pilgrim forebears who established the precedent which we follow annually did not come to the first Thanksgiving as we come to Thanksgiving Day 1955. We come to the season with innumerable blessings, unparalleled prosperity and vast comforts and conveniences. They were almost at the depths of poverty, at least, by modern standards, but they practiced the kind of thanksgiving is not dependent upon circumstances.

First and foremost their Thanksgiving was to God. They were not so concerned with counting their material blessings that "things" actually eclipsed the GOD behind it all.

Let us ask ourselves four questions to see if we are going to practice the kind of thanksgiving that is not dependent upon circumstances.

1. Are we thankful for the greatness of God—revealed to us in the universe; but even more important for the revelation of His greatness in the plan of redemption by the death of His Son on the Cross of Calvary? (2) Are we thankful at the remembrance of God's righteousness and purity and holiness—knowing that we may share in these godly attributes in Christ Jesus? (3) Are we thankful for the times we have to reflect and meditate upon God—realizing His mercy and long suffering, as He patiently waits for our repentance so that He might graciously forgive our sins? (4) Are we thankful for every opportunity of service to God—whether it be large or small, easy or difficult.

From his text, Ps. 55, the Rev. Phillip Schlessman of the Lutheran Church of The Redeemer spoke on "The Prayer for Flight." He said, "Did you ever feel that you would like to fly away from it all, get away from the mess that your life is in. King David in our text had that feeling. He bowed down in prayer before God and said, 'Oh, that I had wings like a dove. For then I would fly away and be at rest.'"

"It had been a terrible blow to David when he discovered that

his most friendly associates had turned upon him and were trying to turn the people against him. Those in whom he had placed a great deal of trust had slandered him with one cheek and been his friend with the other. He felt as though he might be safer away from it all.

We find that even in our age we feel the same way. Our daily life becomes a routine of drudgery and hardship, our hearts are burdened with the crosses of life, and finally we look with longing upon the bird in flight and sigh saying in our hearts, if I but had such wings that could fly away from all these cares and woes.

But would it really be so wonderful? Could we fly away far enough to forget all that we left behind. I think not, for the burdens that have placed upon us cannot be forgotten. We cannot fly away from the temptations and worries of life for they are part of us as God tells us that our heart is wicked; out of the heart proceed all evil thoughts. Nor can we flee wicked tongues as David would have for the tongues are the same all over the world.

Nor could we fly away from the obligations of our family, church or home for they would go with us no matter where we go. Neither could we fly away from God for He would be on the highest mountain or the lowest valley.

How then can we ever come the pressure and hardships of our lives? Is there no place that we can fly to and find peace and rest? Yes, you must set your wings that we might fly to God for in Him we will find the rest we seek, in Him we will overcome sin, death and the devil. In Him we find life everlasting, through His son Jesus Christ. For David finishes His Psalm with, "As for me, I will call upon God; and the Lord will have me."

When we flee let us flee to the household of refuge that David sought, the refuge of God, the peace of the Lord in that hope of

Landscaping

(Continued from Page One) bably will be set the latter part of this week.

T. E. Tucker, chairman, said that this phase of the finishing touches should be completed in the next ten days. Meanwhile, workmen are continuing to add last minute touches to the interior and are moving in furniture and equipment.

When the workmen have finished their work, the staff will then go through a familiarization training, according to Harry Weir, administrator. Because of the thoroughness with which this schooling must be handled, it is difficult to say exactly when patients can be accepted, but the hope is that it will be "shortly after the first of the year."

MORE VOTERS, FEWER PEOPLE

MANILA (AP)—Dinaig is quite a town. The number of registered voters jumped to 16,000 this year from 3,000 in 1941, despite a decrease in population.

A congressman from the district says he knows why and has asked the Commission on Elections to knock out 14,000 names. He says that is the number of fictitious names slipped in by sly politicians who used "Moslem words for days, trees, monkeys and dog."

(Continued From Page One) "A Denham Tire has to be perfect before going out to the customer in finished form" Mr. Roberts explained that Denham manufactures tires of every type. Truck tires, tractor tires, special service tires, with a complete passenger car tire in both regular and tubeless.

The manufacture of the tire and sales representative to talk with, said, "in the short time that we have been organized we are already receiving phone and mail orders from all over the State."

Dale Emery, running through his hundreds of accounts, commented that, "we are doing a

transcendent business with various Federal Agencies."

Butler, in summarizing the prospects over the state said "everyone we are calling on is planning on good business in the future. Prosperity is on the upgrade and it is reflected in the general conversation of all of the businessmen we call on." And he added, "I've not so much business it keeps me humping all the time. The days and weeks just aren't long enough."

Emery, speaking about Cuba where he calls on many customers all over the island said, "there are more farm tractors per capita in Cuba than in the United States. There's been an increase since the war of approximately 30 percent in the private ownership

Florida Hunting Opens Wednesday

Hunting season opens Wednesday, Nov. 23. Again this year many hunters who have never been in the woods before will take a gun and a dog and start looking for game. The farmer, being an early riser, has frequently been taken for game, stated A. H. Frank, Director of the Florida Safety Council.

In 1954 there were 63 persons killed and many injured by firearms. A hunter's wife blew a tire of cars. And he concluded, "Cuba's railroad system is limited so there is a vast network of buses covering the island, buses even more modern than those we see here."

key call and was shot a boy fell down while running with his gun and was injured.

A hunter was accidentally shot in the stomach while banding a loaded rifle to his buddy. Another man was killed when a hunter fired at a duck across a point of land behind which the unfortunate man was concealed.

A boy of ten accidentally shot his sister through the lower back while playing with a .25-caliber Colt automatic.

"HUNTERS, be especially careful while in the woods and always know what you are shooting at," urged Frank.

TRUCK AND TREAT

DAVY, W. V. A. (AP)—It was near Halloween. Drug store manager Opal Neely told police she was "amused" when a man in a long, gray coat—wearing a paper bag over his head—entered the store at closing time and began clowning.

She wasn't laughing, however, when the man pointed a gun to her and the other clerks, ordered the safe opened, and fled with \$1,500 in cash and checks.

Perry Appears Before Board To Give County Agent Qualifications

Condemnation proceedings are set underway to acquire three sections of right-of-way property for the widening and paving of a three-quarter mile stretch of road off the Markham Road in South Seminole County, according to action taken by the Board of County Commissioners this morning at their regular bi-monthly meeting.

Dickson Road, involving 19 persons, will be improved following the necessary right-of-way acquisitions. Properties of EAD Hildebrande, Georges King, and Doyle, will be acquired through the condemnation proceedings approved by the Commissioners.

In other business transacted at the morning session of the Board of County Commissioners included plans for the retirement of County Agent C. R. Dawson.

F. S. Perry, District Agent for the University of Florida Agricultural Extension Service, appeared before the Board to explain the qualifications of a person needed to replace Dawson whose plans to retire are now tentatively set for July, 1956.

Commissioner Otis Foraker told the Board that, "I think we should extend the courtesy to Mr. Dawson to allow him to retire at the completion of his service but adapted to his retirement plans."

The District Agent told the Commissioners, "You have an advantage now that you can look at a number of men. It is important that we have top men in these positions."

Admitting that the announcement of Dawson's retiring was premature, Perry told the Commissioners, "We won't start looking for a replacement until there is a vacancy."

Board Chairman John Melich said, "We have three local applicants for the position but we don't know if they come up to the requirements necessary to be approved by the University of Florida Extension Service."

Damage reported as tractor, trailer skids, hits on side. A tractor and trailer, owned and operated by Bell Baker of Daytona Beach, skidded for a total of nearly 300 feet and came to a stop on its side at a telephone pole on Seminole Boulevard Friday afternoon shortly before 3 o'clock.

Accidents Reported In County

Two accidents were reported in Seminole County last night about three hours apart.

The first accident occurred at Mobley's Corner when a 1952 Dodge Pickup truck, driven by Otis Axel Ekblom, 26-year-old Lake Mary man, stopped for a left turn and was hit in the rear by a 1947 Ford driven by Wellington William Starr, 78-year-old Seminole County man.

Starr, according to Florida Highway Patrol Trooper T. Mark Mack, was traveling 30 to 35 miles per hour when he smashed into the rear of the truck.

Damages to the truck were estimated at \$100 and to the 1947 Ford a total loss.

Starr, according to Trooper Mack, received lacerations of the face and head, possible fracture of the left knee and contusions of the right knee.

Charges of driving a car with "improper lights" were placed against Ekblom.

The second accident occurred at approximately 10:15 last night on the old road between Maitland and Altamonte Springs when a 1955 Plymouth Sedan, driven by Merrill Hollett of Altamonte Springs, traveling north at an apparent high rate of speed, failed to make a curve and ran off the road on the left side smashing into a power pole breaking it into three pieces.

Florida Highway Patrol Trooper T. Mark Mack said that damages to the car were estimated at \$1,400. It was also reported that Hollett received minor lacerations to his face.

Trooper Mack said today that charges are pending.

New Residential Zone Is Adopted, Approved

SNAAS Personnel Get Commendation

The Personnel of the U. S. Naval Auxiliary Air Station of Sanford, Fla., have received special commendation from Major General U. W. Christensen, U. S. A. (Ret.), President of the American Korean Foundation, for contributing \$1711 in support of the Foundation's health, welfare and education programs in Korea.

Calling the contribution "a concrete expression of goodwill and sympathy," General Christensen said: "The Personnel of the U. S. Naval Auxiliary deserve warm praise for so generously helping our organization to carry out its work to better the lot of the Korean people."

In a letter of thanks he stated: "The response from the members of the Armed Forces, both here and abroad, as well as from all governmental employees, has been most encouraging. The people of Korea will be notified of this particular support from those in governmental service."

The American-Korean Foundation is not a relief agency, General Christensen pointed out, but rather "is concerned with providing the equipment, training and facilities urgently needed to enable Korea to take its rightful place in the community of free nations."

City Hall Room Packed

Odham Says 'Better Homes'

A packed commission room was featured at the Sanford city Commissioners' meeting at City Hall Monday night.

The Planning and Zoning Commission, which was in session at the east end of the city of Sanford, approved the adoption of a new residential zone.

The Planning and Zoning Commission, with Herb Odham as its chairman, recommended to the Board of City Commissioners that a new residential zone be adopted.

Odham said that the new zone would be a "better homes" zone, which would be used for the construction of single-family homes on lots of 1,000 square feet or more.

The new zone would be located in the area bounded by the intersection of 20th Street and the intersection of 20th Street and the intersection of 20th Street and the intersection of 20th Street.

The new zone would be used for the construction of single-family homes on lots of 1,000 square feet or more.

2 Officials Attend Florida Cemetery Association Meet

The officials of a local cemetery organization were returned to Sanford after attending the Florida Cemetery Association meeting at Punta Vista Beach.

Ray Nelson, head of Ocala's Memorial Park and City Annex, associated with the local organization, attended the annual meeting held at the Inn.

Both of the local executives said that the meeting, one of the most enthusiastic and informative they have ever attended, presented an excellent program was conducted for the benefit of the statewide members who took advantage of the opportunity to hear outstanding speakers as well as to discuss some of the problems common to every member of the organization.

Speakers for the meeting, said Nelson, included such well known cemetery officials as J. Howard Wendolph, president, Memorial Sales Company, who spoke on "Facing up to the future"; W. A. Stewart, Sales Manager, Bellvue Memorial Park, Daytona Beach; A. H. Craig, president, Florida Funeral Directors and Embalmers Association, Martin; F. Gaudin, Executive Vice President, National Cemetery Association, Washington, D. C.; and Dr. Gene Stuart, Department of Anatomy, University of Florida, who spoke on "Florida Burial, Grave and Soil."

Cliff Abus said that, by far, the most interesting program presented during the meeting was an address by John B. Priney, a landscape architect of Jacksonville, who presented "Long Range Planning for the Modern Cemetery."

The new subdivision, "Green Manor," created from the Coronado property and the single group, bought by Odham and Taylor, Inc., has been planned for a possible 100 new homes.

The "Green Manor" subdivision, which is being developed by Taylor, Inc., is located on the east side of the city of Sanford, between the intersection of 20th Street and the intersection of 20th Street.

Commission Opens Following Area For Hunting Season

The Game and Fresh Water Fish Commission on Oct. 28, 1955, at DeLand, opened the following described area in Seminole County, to hunting during the present hunting season:

Beginning on the south shore of Lake Jesup at a point where the south shore of said Lake Jesup intersects with the division line of Ranges 30 East and 31 East, thence run south to the northernly side of Sanford-Oviedo public highway, thence southeasterly along the northernly side of said Sanford-Oviedo public highway to the town of Oviedo, Florida, at a point where said Sanford-Oviedo public highway intersects with the northernly side of said Oviedo-Geneva public highway to the right of way of the Florida East Coast Railway, known as the Kissimmee Valley Division, thence northerly along the westerly side of said right-of-way to a point where the same intersects with the east line of Section 29, Township 20 South, Range 32 East, thence northerly along the east line of Sections 29, 20, 17, and 6, all in Township 20 South, Range 32 East, to the southerly side of State Rd. No. 44, known as the Sanford-Geneva Road, thence northerly along the southerly side of said State Road 44, in the east shore of the St. Johns River, thence southerly along the east shore of said St. Johns River to Lake Jesup, and thence southerly and westerly along the East and south shore of the said Lake Jesup to point of beginning.

The Board of Sanford City Commissioners is faced now with an additional expenditure of \$4,000 (approximately) for the addition of a pump at the new water tank on Mellonville Ave.

City Manager Warren E. Knowles explained to the Board of Commissioners that the estimated cost to put the water tank into use has been submitted by engineers and that the recommendations would include both the pump and valve which would be controlled manually from the main water plant as well as operating automatically.

A feeling existed, during the Board of Commissioners meeting last night, that the engineering firm responsible for plans, specifications, and other data, should be held responsible and accountable for the expense involved in putting the new tank into operation.

Commissioner-elect David Gatchel said that "it is time to get the legal minds together to get some action."

A suggestion presented in the commission would withhold payments of money due the engineering firm in lieu of action on putting the tank in workable condition.

POST OFFICE REMAINS RULES WASHINGTON—Just in time for Christmas, the Post Office Department is relaxing its rules to permit inclusion of personal messages in packages and second-class mail. But you still have to see the rules before you ship.

City Hall Room Packed

Odham Says 'Better Homes'

A packed commission room was featured at the Sanford city Commissioners' meeting at City Hall Monday night.

The Planning and Zoning Commission, which was in session at the east end of the city of Sanford, approved the adoption of a new residential zone.

The Planning and Zoning Commission, with Herb Odham as its chairman, recommended to the Board of City Commissioners that a new residential zone be adopted.

Odham said that the new zone would be a "better homes" zone, which would be used for the construction of single-family homes on lots of 1,000 square feet or more.

The new zone would be located in the area bounded by the intersection of 20th Street and the intersection of 20th Street and the intersection of 20th Street.

The new zone would be used for the construction of single-family homes on lots of 1,000 square feet or more.

2 Officials Attend Florida Cemetery Association Meet

The officials of a local cemetery organization were returned to Sanford after attending the Florida Cemetery Association meeting at Punta Vista Beach.

Ray Nelson, head of Ocala's Memorial Park and City Annex, associated with the local organization, attended the annual meeting held at the Inn.

Both of the local executives said that the meeting, one of the most enthusiastic and informative they have ever attended, presented an excellent program was conducted for the benefit of the statewide members who took advantage of the opportunity to hear outstanding speakers as well as to discuss some of the problems common to every member of the organization.

Speakers for the meeting, said Nelson, included such well known cemetery officials as J. Howard Wendolph, president, Memorial Sales Company, who spoke on "Facing up to the future"; W. A. Stewart, Sales Manager, Bellvue Memorial Park, Daytona Beach; A. H. Craig, president, Florida Funeral Directors and Embalmers Association, Martin; F. Gaudin, Executive Vice President, National Cemetery Association, Washington, D. C.; and Dr. Gene Stuart, Department of Anatomy, University of Florida, who spoke on "Florida Burial, Grave and Soil."

Cliff Abus said that, by far, the most interesting program presented during the meeting was an address by John B. Priney, a landscape architect of Jacksonville, who presented "Long Range Planning for the Modern Cemetery."

The new subdivision, "Green Manor," created from the Coronado property and the single group, bought by Odham and Taylor, Inc., has been planned for a possible 100 new homes.

The "Green Manor" subdivision, which is being developed by Taylor, Inc., is located on the east side of the city of Sanford, between the intersection of 20th Street and the intersection of 20th Street.

Attorney Says No Power To Extend Fire Protection

"There is no charter authority to extend fire protection outside the city limits," City Attorney William C. Hutchinson, Jr. told the Board of Sanford City Commissioners last night.

In making his report to the commissioners, Hutchinson said, "I don't believe there is an authority to furnish fire protection and charge for the service, to anyone beyond the city limits." He said, "There is liability on the part of the city if equipment is not within the city limits for the protection of the citizens property."

Mayor Deaver Cordell said that, "from my observation at the recent meeting of the Florida League of Municipalities in Jacksonville, we are the only city sending equipment out of the city without charge."

Commissioner Earl Higginbotham commented, "I prefer to change the charter to allow us to charge a fee. However, we aren't going to prevent a fire truck from going outside of the city to save a man's home from fire."

Following lengthy discussion, the Board of Commissioners agreed to table the consideration until near the time for the 1957 Legislature when some definite action should be taken.

With letters from two citizens regarding the use of the present hospital building, when the new one is put into use, for an old folks home, the commissioners decided to table the suggestion until complete details of the requirements for such an operation could be studied.

S. Reid Harris was authorized by the Board of Commissioners to operate a photographic commission at the Sanford Zoo, with a percentage of the gross income from the operation benefiting the city.

Action by the commissioners revealed that an extra traffic officer will be assigned to the Sanford Police Department as soon as the new police cars for city service.

Banks along Pump Branch Creek are shifting. City Manager Warren E. Knowles said the Board of Commissioners' corrective measures were authorized.

A 1954 Buick Wildcat was authorized to be sold by the city as was authorized last night. A group period of 60 days was set for the commission.

Thanksgiving Day Talk To Be Given By Rev. R. Spear

The annual Union Thanksgiving service, sponsored by the Seminole County Unitarian Association, will be held this year at the Congregational Christian Church, Park Ave. and 5th St., Thanksgiving morning beginning at 9:30.

The Rev. Robert H. Spear, pastor of the Church of the Nazarene, will deliver the Thanksgiving Morning message this year.

The Seminole County Ministerial Association issued the following statement in regard to the Thanksgiving services:

"At this Thanksgiving season, we should all turn our thoughts to the giving of thanks to our Heavenly Father for the multitude of blessings He bestows upon us. This year's Thanksgiving service has been prayerfully and carefully planned and it is hoped that the church will be filled to overflowing."

Library Memorial Group To Meet

A meeting of the General Sanford Library Memorial Association was announced this morning.

The important planning meeting will be held next Monday afternoon at 6 o'clock in the Educational Building on Commercial Ave.

Dr. Kitchen Makes Plea To Rotarians At Close Of Talk

Concluding his 80th Rotary—Its 50 Years of Service and Its Opportunities In The Years To Come," Dr. Arthur S. Kitchen, Governor of the 24th District of Rotary International, made this plea to his fellows at the weekly meeting of the Sanford Rotary Club, at noon yesterday:

"Do all the good you can by all the means you can in all the ways you can, in all the places you can, at all the times you can, to all the people you can, as long as ever you can."

"This," the speaker stated, on the occasion of his official visit to the local club, "summed up, in just one sentence, much of the ideals of Rotary. The object of Rotary, he emphasized, was to encourage and foster the ideal of service as a basis of worthy enterprise and to encourage and foster the development of acquisitiveness as an opportunity for service. High ethical standards in business and professions, the application of the ideal of service by every Rotarian to his personal, business and community life and the advancement of international understanding, good will and peace through a world fellowship of business and professional men united in the ideal of service, were inspirationally brought out by the man in charge of the 48 clubs comprising his district. There are over 8,805 Rotary clubs in 98 countries and geographical areas in the world with a membership rapidly approaching a half million members.

His address was received with enthusiasm and applause by over 20 members of the local group in attendance at the meeting presided over by president William (Bill) Bush Jr. At the close of the meeting the District Governor went into a session with president Bush and Secretary R. W. Ruppel in preparation for the club assembly held at 7 o'clock last night at Spencer's restaurant.

The following directors and committee chairmen were present: Bush, Ruppel, Dr. Kitchen, H. L. Perkins Jr., Robert Lamont, Lloyd Lowe, Lowell Oiler, C. L. Redding, M. L. Raborn, Rion J. Moughton Jr., the Rev. Lucian Scott, Roy Holler, H. C. Coleman, Myron Reck, A. W. Lee, R. J. Bauman, James W. Holthead, R. A. W. Epps Jr., Earle V. Turner, Walter M. Hayes, Charles E. Morrison, George A. Stine and Robert Trus.

Damage Reported As Tractor, Trailer Skids, Hits On Side

A tractor and trailer, owned and operated by Bell Baker of Daytona Beach, skidded for a total of nearly 300 feet and came to a stop on its side at a telephone pole on Seminole Boulevard Friday afternoon shortly before 3 o'clock.

The 1914 GMC tractor and Muter Van Trailer was driven by John Dallas Black Jr., 23-year-old truck driver of Daytona Beach.

Damage was estimated at one thousand dollars. However, the telephone pole against which the tractor came to a stop, had to be moved before the truck could be towed.

Investigating officers L. E. Beck and Ben Butler, in their accident report filed at the Sanford Police Station said that an unknown car pulled out of Holly Ave. into the path of the oncoming truck.

The driver, according to the report, pulled the truck sharply to the right and locked his brakes in order to avoid hitting the car. The truck skidded on its wheels for a distance of 30 feet, turned on its side and skidded on additional 100 feet.

The accident, said the investigating patrolmen at the intersection of North Holly Ave. and West Seminole Boulevard, just east of the new approach to French Ave., was unexplained.

Another accident, investigated by the Sanford Police Department, occurred at the intersection of W. 18th St. and Oak Ave. when a Daytona Beach attorney ran the stop sign and smashed into the side of an oncoming car.

A 1950 Dodge Sedan, driven by Ivan Hyde Yentich, 31-year-old attorney was traveling west on 18th St. Damages to the car was estimated at \$80 when the front bumper and fender were smashed.

A 1941 Dodge Coupe, driven by Eloise Snyder Pfeilaut, 18-year-old Sanford bookkeeper, received damage to the side estimated at \$24.

The investigating officer, Patrolman Arnold Williams, filed charges against Yentich for "running a stop sign."

Billie Joe Horton Fund Is Increasing

The Billie Joe Horton Fund, of Oviedo, received again Friday night when another contribution was made to swell the total.
