

EAST IS HIT BY COLD WAVE ON RECORD SPREE

Marks Standing For 50 Years Broken By Frigid Weather On Extensive Rampage

NEW YORK, Apr. 23—(AP)—Freezing temperatures and snow falls in various quantities visited the North Atlantic states early this morning breaking records of 50 years or more.

An area of high pressure in the Canadian Northwest which extended to the Gulf coast and across the Atlantic Ocean in less than 24 hours was said by weather bureau officials to be responsible.

Rochester, with the mercury at 21, experienced the coldest April day in the history of the weather bureau, the nearest morning temperature being 26 degrees in 1872. Saratoga Lake in the Adirondacks, located inland winter with four inches of snow and a temperature of 12 degrees above zero.

Washington records were started to set winter records (taken about 6 o'clock) as were early rises in New York where the thermometer stood at 30, an all-time record for the date. Pittsburgh reported a 50-year weather record broken with a temperature of 27 and wind frozen on and in and around Spring Lake, Mass., when the mercury dropped to 20.

Weather Bureau forecasters said the unusually cold weather would continue until the Canadian high pressure area moved out to sea which probably would require another 24 to 48 hours.

Negro, Accused Of Slaying Youth, Is Lynched By Group

GUNNISON, Miss., Apr. 23—(AP)—A crowd of several hundred men today shot and killed David Harris, about 35, Negro, accused of slaying Clayton Funderberg, 17-year-old farm boy.

Deputy Sheriff T. L. Coates said the men took Harris to a barn along the Mississippi River near here, handcuffed him to a tree and shot him to death.

William H. Thompson, farmer near whose farm the Negro was killed, said several hundred shots were fired into the body. Harris was discovered by another Negro, George Williams, and the crowd soon learned of his whereabouts. Deputy Sheriff Coates said he was called but that the crowd took the Negro away before a formal arrest could be made.

An undertaker was sent to the scene by Deputy Sheriff Coates, who said no coroner's inquest was likely. He said it was doubtful whether any investigation would be made, before the 100,000 of a crowd today, which will last for six months.

U. S. ADVERTISING BODY WILL MEET IN MIAMI IN JUNE

South Florida Club In To Be Hosts At 4th District Assembly

MIAMI, Apr. 23.—The fourth district of the Advertising Federation of America will hold its annual convention June 8, 9 and 10, 1930, in Miami, Florida. The Advertising Club of Miami will be the hosts, according to a statement just issued by Henry J. Smith, general chairman of the convention.

Mr. Smith stated that since there is a movement throughout Florida to encourage the buying of Florida manufactured products and industrial production which is now being recognized as one of the most important factors in the development of the State, the convention will assume a new aspect in that it will invite the different industries from every section of the State to place samples of their wares on exhibition during the period of the convention. Newspapers and periodicals published in Florida will also be requested to exhibit copies of their best issues; and the various advertising agencies and publicity departments will be asked to exhibit display copy of their advertising. Mr. Smith said that these displays will be brought to the attention of the buying public and will be inspected by people from all sections of the country and many parts of Latin America.

Mr. H. I. Moschberger, of Miami, has been appointed chairman of the exhibit committee, and is now bringing together an exhibit that will give every member of this convention a true conception of the vast possibilities of industrial production and the part it should play in all publicity campaigns as well as a comprehensive knowledge of the methods now being used in advertising throughout the State. "I believe," commented Mr. Smith, "this convention and these exhibits from all sections of the state will give the people of the state an opportunity to know Florida better."

The officers of the Fourth District are: Karl Lehmann, of Orlando, Governor; Noble Edge, Jacksonville, Vice Governor; A. C. Smith, Miami, Secretary; Henry J. Smith, Miami, Treasurer; F. E. Garrison, St. Petersburg, and Marvin A. Walker, Directors. The officers of the

Tariff Conferees Are Nearing End Of Their Difficult Job

WASHINGTON, Apr. 23.—(AP)

The tariff conferees of the Senate and House today approached the conclusion of their gigantic task of bringing the two branches of Congress into agreement on more than 1200 disputed points and looked forward to the submission of a partial report before the end of the week.
 Eight controversies will be returned to the floors of the two chambers unsettled and further instructions requested. These are the rates on sugar, lumber, cement, shingles and silver and the Senate's amendments to the administrative provisions which attached the export bounty plan to the bill, revised the President's authority to change rates by proclamation, and proposed a wide reorganization of the tariff commission.

Directors Of New International Bank Completing Plans

BASEL, Switzerland, Apr. 23.—(AP)—The directors of the new bank of international settlements organized under the Young plan to handle reparations and other matters of international banking complete its plan of immediate operation, organization and personnel at a forenoon session today.

All proceedings were hastened definite but will be adopted formally when ratification of the Young plan by Great Britain and Italy fulfills all the requisite merits for actual commencement of operations of the bank.

It was decided to issue stock at par eight days after the ratification, are secured. Reparations bonds totalling \$200,000,000 will bear six per cent interest, as was understood previously, but details of this transaction have not been completed.

Functions and authority of the various officers were defined in more fully and it was decided that President-designate, Gustav W. Meier, Zurich, and Leon Frenkel, his alternate, may sign for the bank alone, while Pierre Guesbary, general manager, and other officials must have their instrument counter-signed.

Three chiefs of department were appointed and two other officers. Dr. Hulez of Germany was made chief of the banking department, Sir. Pittell of Italy named the secretary general, and M. Nanzeland of Belgium was appointed the chief of the country marketing division.

Drive To Obtain Club Members Gets Fine Start

(Continued from page one)

When the teams finish their campaign tomorrow approximately 500 memberships are expected to have been sold, according to leaders in the movement.

As it is impossible for the solicitors to call on everyone in the county, Chamber of Commerce officials wish to make it clear that everyone is cordially invited to take out a membership. One of the main purposes of the drive, according to leaders in the campaign, is to make the golf club more democratic by gaining a large number of members. To make this plan a reality the dues have been greatly reduced in order that everyone, interested in golf, may have the privilege of the country club and links.

One solicitor who has been

working in the west side farming section today intrusted the secretary of the Chamber of Commerce that he secured 21 memberships from the men in that section and that he expects to gain an additional 10 from other farms of the west side before the campaign ends tomorrow.

The teams were divided into two groups this morning, namely the Hookers and the Slivers, each having 11 individual teams. The Hookers gathered 71 individual memberships and 11 family cords, with a total of \$775 in cash and \$900 subscribed. The Slivers succeeded in signing up 32 individual and 12 families, getting a total of \$490 in cash and \$510 subscribed.

The results of the various teams is noted as follows with the team captains:

A "Taxpayers' Strike"

A new movement which is attracting considerable attention throughout Florida at the present time is the so-called "taxpayers' strike" which apparently is being fostered by the Florida Land Owners association.

"What strikes the Independent as being disloyal and outrageous is a circular letter sent out from Lake Placid in the name of the Florida Land Owners association and signed by W. C. Sherman as president, advising real estate owners in Florida to not pay their state taxes.

The argument is that the state will then not have sufficient taxable land and that the next legislature will be compelled to make terms with the delinquent taxpayers in order to get the land back on the tax books.

"When a large group of Floridians who own hundreds of thousands of acres of land not only refuse to pay their own taxes, but go so far as to advise all other landowners to refuse to pay the state taxes, it looks very much like treason to the state and an organized effort to 'force' the legislature to pass laws such as they shall dictate and for their particular benefit.

"This is the background for the campaign to put a sales tax upon the people of this state, and the purpose is to 'compel' the next legislature to put the sales tax upon the people in general and let the big and wealthy landowners off upon terms which they may dictate.

This indictment of the landowners association is, according to the Tampa Times, a bit severe. Property owners of Florida have taken it on the chin more than once during the past five years.

"Things have come to a fearful pass," it says, "when a body of taxpayers go on 'strike' against the payment of taxes and seek recruits for their ranks throughout the state.

"Automobile owners have this year been compelled to pay personal tax upon their machines before they could get license tags for them. Surely it cannot be successfully maintained that it is fair to place such stringent requirement upon them while owners of other property can go upon 'strike' as to their taxes.

"If the landowners do not look out they will do their cause more harm than good by the course they are pursuing. That remains for the future to reveal. In the meantime, doesn't a tax system that permits of a 'taxpayers' strike' badly need remedying, so that in future all taxpayers may be required to pay their taxes—and pay them promptly—and so that even to think of a 'strike' will be futile?"

The Fall Of Prices

Persons who are inclined to complain because their present incomes are not up to the high mark of five or ten years ago, should realize that the high cost of living is not up so high either.

"The index number" of American prices for commodities, published monthly by the Federal Bureau of Labor Statistics, is generally accepted as accurate, as such compilations go.

"This comparison is not altogether as startling as might be supposed, because prices, under the influence of Europe's enormous purchases of war material in America, had risen with great rapidity in the twelve months after the Summer of 1915.

"The course of prices since the sweeping collapse in 1921 has been irregular. Rising rather rapidly until the Spring of 1923, the general average lost most of that increase in the next twelve months.

"The present British average appears to be back approximately to the level of 1915, but still nearly 25 per cent above 1913.

"And going on not only makes his 'shopping' but debars us from the enjoyment of human society and makes success of any sort extremely difficult to attain.

"I am not one of those who say that this is the best of all possible worlds—and that it has what by in ourselves whether we are happy and successful or not.

"I know that there is a great deal of injustice in the world, that there are many casuals and frauds and that it is worth while to be careful about the people in whom you place your confidence.

"We are not perfect ourselves, and we cannot logically expect perfection in everybody else.

"Life is competitive, and some of the contestants do not play fair.

But, really, there is no reason for going sour.

Telling The World

BY NEAL O'HARA

Mr. Hoover's New Library. American book publishers have contributed 500 volumes to the White House for President Hoover.

Nobody knows what became of the original White House library. But the books were probably borrowed during the Harding regime and never returned.

The story goes that Mr. Hoover, at the end of his inauguration day, looked around for a book to read before going to bed.

It is not related what Mr. Hoover did that first evening after he found there were no books. But we know just what we would do.

The full list of titles donated to Mr. Hoover is not given. But we would like to make a list that we would like to have.

Among other things, the congressman might find out who it was that billed Secretary Fall.

The quickest way to scrap a battle ship would be to christen it with a bottle of Oldale liquor.

Some evening this week at the White House: "Herbert, when are you going to open that box of books and check them on the shelves?"

"I understand the publisher gave you 500 volumes." "Five hundred volumes? And I've got to stack them up? Gosh, it would have been easier if I'd taken out a library card!"

"Why, Herbert, it was very gracious of the publisher to meet this long felt want. See here is a list of the volumes they sent you."

"That's these are for light reading, Herbert." "Any good detective stories in the lot?"

"Yes. Here is 'The Canine Murder Case,' for instance, by S. Van Dong." "Oh, I don't like his books! He says Philo Vance solves all his mysteries. He never appoints a commission!"

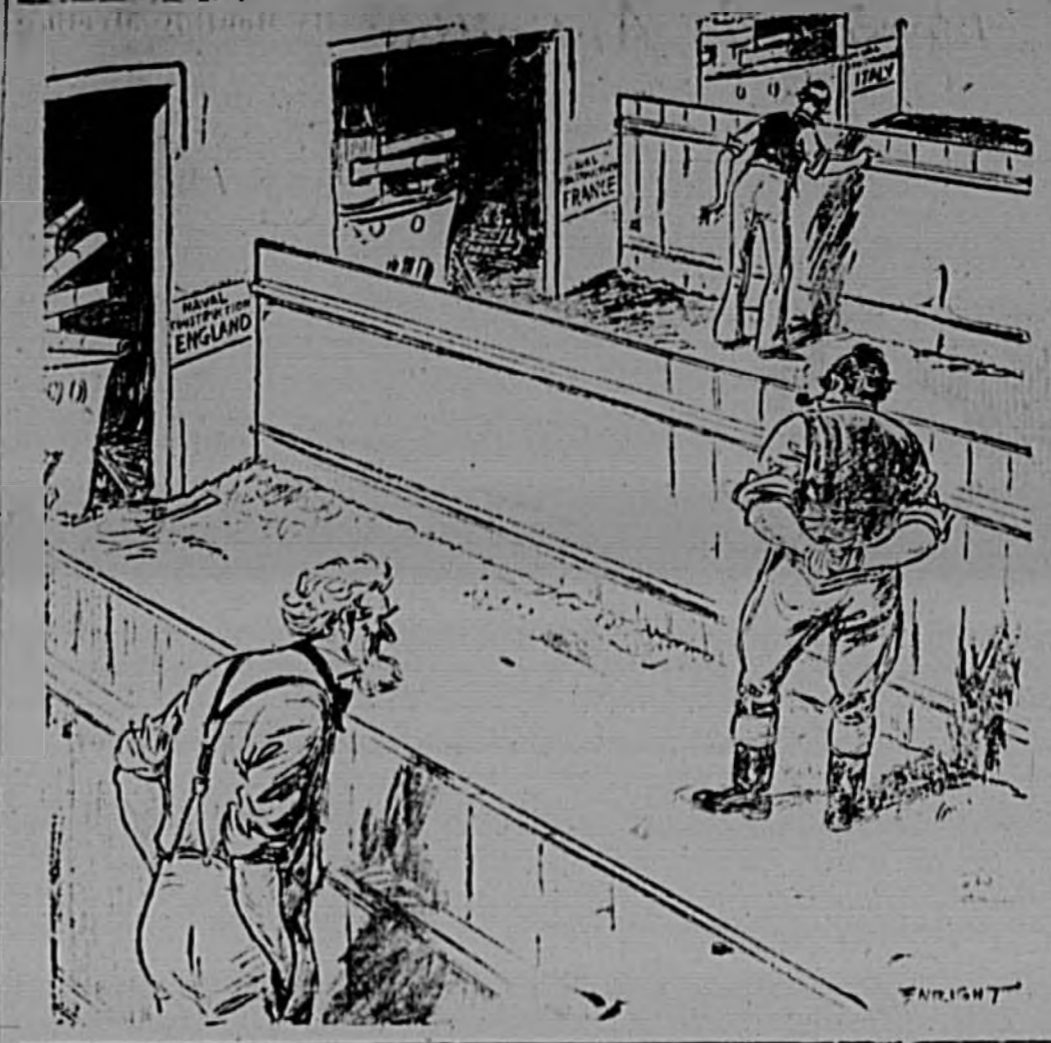

"Well, anyway, you have the best selections from standard literature and modern novels." "Is that so? Well, out of all those 500 books, they didn't send me the one I want!"

"What one is that, Herbert?" "An unabridged dictionary. I'd like to have that." "That's all right, but you'll never get it. It's in the minority."

Life is a difficult business at the best, and we ought to realize that fact at the start.

After the Digest has done the counting the losers will do the hissing. Weston Lender.

WORK TEMPORARILY SUSPENDED

It is not related what Mr. Hoover did that first evening after he found there were no books. But we know just what we would do. If we moved into a furnished house and found the library shelves vacant, we would have taken an inventory of the rest of the place and found if anything else was missing.

Among other things, the congressman might find out who it was that billed Secretary Fall. The quickest way to scrap a battle ship would be to christen it with a bottle of Oldale liquor.

Good news travels fast!

BAD NEWS used to have the reputation for speed. But such is the demand for the good things of life today that good news travels even faster.

The carriers of many of the good tidings that every one is eager to hear are right before you. They are the advertisements in this newspaper.

Let an automobile maker in Detroit or an orange grower in Florida develop a finer product. You will hear about it—and in a couple of years, not just "some time."

Advertisements are filled with the kind of good words you like to find. They tell you of new products, new improvements in well-known merchandise, new values and new ways to increase your well-being.

Another thing we'd like to see again is a good five-cent ticket.—Life.
