

Lit'l Giant To Open Here Tomorrow

Sanford's newest chain store will open tomorrow.

The Lit'l Giant Food Store at French Ave. and Catherine St. will hold its grand opening Friday through Sunday.

The drive-in food store will remain open seven days a week from 7 a. m. until 11 p. m. Convenience is stressed in the Lit'l Giant store, which features quick service as well as curb service. The operation of the store is not to be compared with that of a super market, officials said.

John Graham has been selected as local manager. Graham and his wife have moved to Sanford from Omaha, where he was former manager of another Lit'l Giant store. The modern building is built of concrete block, and accessible from both streets. A well-paved

parking area increases its convenience. The latest equipment has been installed. More than 4,000 items will be carried, including all food supplies and beauty aids.

The Lit'l Giant Food Stores are owned and operated by Giant Food Stores Inc., with headquarters in Omaha. Leon J. Souther, general manager of the company, will be in Sanford for the opening tomorrow.

Mardi Gras Fan

NEW ORLEANS (UPI)—Jon Wood, 18, must have wanted to see the Mardi Gras in the worst way.

He made the 1,000-mile trip here from his home in Brookfield, Wis., by bicycle. It took him three weeks and cost \$18.

The new manager, John Graham, said "We feel very fortunate in securing this wonderful location in such a progressive, fast-growing city as Sanford. We are looking forward to becoming a part of your city and assisting in every way possible toward continued progress in the future."

Brave Dog Absent

LONDON (UPI)—The Association of Dog Biscuit Manufacturers announced that it will not award its silver trophy and a six-month supply of dog biscuits to the bravest British dog this year because no British dog has been sufficiently brave.

About one out of every six hospital admissions in the U. S. is a maternity case.

Deaths

JERUSALEM, Israel (UPI)—Joseph Sprinzak, 73, speaker of the Israeli Knesset (parliament) and veteran Zionist leader, died Wednesday of a heart attack.

PHILADELPHIA (UPI)—William Blair Craig, 79, associate editor of the Philadelphia Bulletin at his retirement in 1948, died Tuesday.

TARBES, France (UPI)—French army Gen. Pierre Agostini, 35, collapsed and died of a heart attack Wednesday while reviewing a regiment of paratroopers.

Cagers Traded

NEW YORK (UPI)—The New York Knicks have traded forward Guy Sparrow to the Philadelphia Warriors for guard Jack George in a deal forced on both clubs by their injury list. It was officially confirmed today.

Big Teen-Age War Headed Off By Law

WINTER HAVEN (UPI)—Police headed off a big teen-age war here Wednesday night after receiving tips from several anxious parents.

The entire police force of this small citrus city—10 men—was called after reports came to the station that two teen-age gangs would gather for a battle at the Big Lake Silver Amphitheater.

Two policemen were "staked out" at the amphitheater at 9 p. m. when groups of boys began arriving. They were armed with ammonite and sling shots to hurl heavy roofing staples.

The officers, Detective Ray Willis and Patrolman Gerald Hunter, called for help. All six Winter Haven police cars were called out and some officers summoned from the police training school which was underway in the city courtroom. By the time officers arrived the

milling mob had grown to about 50. Despite being badly outnumbered, the foot-footed officers nabbed 21 persons ranging in age from 17 to at least two fruit pickers from nearby Auburndale who were over 20.

Police Chief Muncie Smith said several of the boys were from prominent families.

Gets Three Winners

WHEELING, W. Va. (UPI)—Jockey Fred Kratz highlighted the Charles Town racing program Tuesday with three straight winners. Kratz scored on Dauntless Darrah (\$4.00) in the fourth, Andy Hope (\$17.00) in the fifth and Happy Retreat (\$18.00) in the sixth.

The average American sees his doctor about five times a year.

All were charged under a state law with unlawful assembly and under a city ordinance with vagrancy.

Bond was set at \$125 but many were released on their own recognizance. Police recovered no weapons. They said the boys threw their

weapons away before being arrested and officers said they had their hands full catching the youths.

Several of the young prisoners said the boys who escaped told them they planned to double back later and pick up any weapons which had been thrown away.

County Purchasing Criticized In Audit

Seminole County Commissioners were criticized yesterday by State Auditor Bryan Willis, who reported that the Board made purchases of more than \$51,000 contrary to a state law requiring bids on each purchase over \$500.

Most of the buying was for road and bridge supplies: asphalt, culverts, lime rock, concrete pipe and slag. Some \$2,500 was for an ad-

dressograph and typewriter, which came from the general fund. The addressograph was purchased for the Superintendent of Registration.

Income, Expenses Listed For County In Past Year

Receipts and expenses of county offices during 1958 have been released.

The office of the county clerk grossed \$40,554.20. Salaries of deputies came to \$30,828.87. Office expenses were \$6,598.44. The net income was \$23,126.89. O. P. Herndon, clerk, was paid a salary of \$9,000, and returned \$14,126.89 to the county.

Commission Chairman John Krider said this morning that the audit was the best the county had ever had. "We are attempting to correct the situation, and from now on all road materials will be subject to bid," he said. The only exception, Krider said, was the purchase of pipe. "We don't have the money to tie up in every size, and the size varies with each job."

The chairman said that the hiring of a road construction engineer should alleviate confusion about purchases. "With the exception of road materials, everything has been bought by bid in the last two years. One time we asked for bids and had none for one item and one bid for another," Krider blamed unauthorized road construction for much of the material paid for by the Road and Bridge Fund.

Fleshy Lines Set For Bosom Battle At Gaudy 'Strips'

LAS VEGAS, Nev. (UPI)—The battle of the bosoms moved from this city's gaudy nightclub "strip" to the halls of the Nevada Legislature today in a fight to ban nude dancing girls from Las Vegas' plush hotels.

Total receipts of Prosecuting Attorney Karlisle Housholder were \$10,635. Housholder's expenses came to \$2,604. His compensation is \$7,500. Justice of the Peace Hugh Duncan reported receipts of \$7,221.65. His expenses were \$1,210.57. He received a net income of \$6,011.08.

Constable J. Q. Galloway reported a compensation of \$7,500. His expenses were \$2,193.94. Total receipts of County Judge Wilson Alexander's office were \$34,743.45. After expenses and salaries, his net income was \$15,568.32. Judge Alexander received a compensation of \$11,213.34, and he returned \$4,344.44 to the county.

Commissioner also was criticized for purchasing a motor grader from the higher bidder. The difference of \$1,554.19 was "justified" in the minute book because the "blade is controlled from the cab and the machine has a higher chassis clearance," Willis noted.

No property records were kept for movable equipment other than that of the road department, Willis said, "although it represents a substantial investment; much of it is attractive and could easily disappear without the knowledge of the Board."

Citizens' Council Hears Rev. Downs

The Citizens' Council of Seminole County held its first regular meeting last night in the Court House.

Rev. George Downs, representative of the Florida State Citizens' Council, from Orlando was the speaker.

Willis stated, however, that, in general, finances were "well managed, and in fairly good condition." The budget was properly prepared and followed, and no appropriation items overran; records in general were properly kept.

Michiganers Say Saw Ad In Herald, Sold 'Site Unseen'

Two former Michigan residents locally believe in classified advertisement.

Downs expressed surprise at the "very few red-blooded Americans" that attended the Council meeting, and urged the members to "bring a friend" to the next gathering.

State law forbids a county official from doing business with the county in which he is an officer. Hooten, who was absent at Thursday's meeting, claimed he had resigned as an officer of the fertilizer firm which sold the property, before he became a county commissioner.

Chorus Will Sing At Church Sunday

The Sanford Male Chorus will sing Sunday at 2 p.m. in the Central Baptist Church.

Let the people judge on what they want in their way of life," said Downs, in respect to the recent Supreme Court ruling on the Little Rock integration act.

He said that he was thoroughly impressed by Downs was that the Citizens' Councils throughout the country were working "for Americanism - against Communism" that they (the Councils) were "trying to educate the people on their constitutional rights as voters and citizens of America."

United Fund Allocates Agency Money

Directors of United Fund, meeting at the Sanford Atlantic National Bank building, yesterday approved the report of the Budget Committee that recommended the allocation of amounts identical to those of last year for participating agencies in 1959.

United Fund Allocates Agency Money

that the \$35,000 goal deemed essential by the agencies for their work, had not been met. Its completion was the hard work by campaign workers, but said that apparently Seminole County just does not want a United Fund.

United Fund Allocates Agency Money

Harold Kastner, president, thanked those who had worked so hard. He said that he felt UF was a great step forward from the "once a week" solicitations which lured residents under the "every one for himself" type of charity drive. But he "wished the people of the community don't want it, then there isn't much use in a few of us knocking ourselves out trying to maintain it."

United Fund Allocates Agency Money

Clifford McKibbin agreed that results were far below the goal, but he added that perhaps it wasn't

Senale Is Assured Of 'Urgent' Drive In Race For Space

WASHINGTON (UPI)—Dr. T. Keith Glennan assured a Senate space inquiry today that the U.S. will try "with the same sense of urgency we had during the war" to place a man in orbit "within the next couple of years."

UN Council Gets 'Murder' Charges

UNITED NATIONS, N.Y. (UPI)—The United Nations Security Council meets today to investigate a charge of "murder in cold blood" hurled at the United Arab Republic by Israel.

UN Council Gets 'Murder' Charges

Israeli Ambassador Abba Eban said the charge in a letter Monday to Tunisian Ambassador Mongi Slim, Security Council chairman for January, in which he also cited seven other "acts of aggression" by U.A.R. troops in Syria.

UN Council Gets 'Murder' Charges

Slam scheduled today's meeting for late in the afternoon so as not to conflict with the U. N. visit of President Arturo Frondizi of Argentina. Frondizi will be given a guided tour of the building by Secretary General Dag Hammarskjöld and be guest of honor at a luncheon in the Security Council lounge.

UN Council Gets 'Murder' Charges

Eban's chief charge was that U.A.R. soldiers in Syria opened fire on two Israeli shepherds in Galilee last Friday and killed one of them. He said the shepherds were on "their usual grazing ground situated inside Israel."

UN Council Gets 'Murder' Charges

The Israeli delegate also listed seven other alleged acts of aggression by U.A.R. troops which he said happened since the council last considered the Israeli-Syrian border situation Dec. 15.

UN Council Gets 'Murder' Charges

Five of the youths, all 18, were killed instantly. They were James E. Weaver, Kenneth E. D. Gardner, John Edward Roquemore, Richard Charles Fies a Knobler and Nichol Hendrick Moran, all of Orlando.

UN Council Gets 'Murder' Charges

The amounts set up for the participating agencies are Girl Scouts, \$2,640; Salvation Army, \$4,500; Boy Scouts, \$4,700; Children's Home Society, \$1,500; Mental Health, \$1,700; Red Cross, \$4,100; USO, \$1,200; total \$22,760.

UN Council Gets 'Murder' Charges

Directors attending the session were Kestner, Mann, McKibbin, Sunny Powell, George Touhy, Mrs. Carmeta Bay, Bruce, Paddock and Maloney.

UN Council Gets 'Murder' Charges

He predicted that the "cluster" of Jupiter rockets being put together by the Army will make it possible in 1962 to put 10 tons of payload into orbit and to send two tons of payload into deep space, far beyond the moon.

Merchants Meet, Discuss Problems

While the night skies of Sanford resounded with the scream of jets, local merchants pondered their problems last night in the sleek curved splendor of the Civic Center.

group that coordination was needed in each store category. He suggested three citywide promotions a year, and asked the cooperation of all merchants in not offering or advertising sales merchandise just prior to the promotion. A program was circulated containing a six-month promotion calendar.

Two didn't spend a cent, although they shopped in the large cities of Chicago and New York. None of the students were able to spend the entire \$50.

That story made me think about suggesting items to customers who had come into the store for something else," she said. "Too many of us simply drop the ball when we either sell one thing or don't have it in stock. We could offer to show other merchandise in which they might be interested."

Weather

Fair with little change in temperature through Saturday. Some fog again late tonight and early Saturday. High this afternoon 75 to 80, low tonight to 64. Variable winds 10 to 15 miles per hour.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake, (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

A Piece OF THE PICTURE

"For Thy love we thank Thee, Lord... for Thy help we pray."
Just a few words, rooted in gratitude. But gratitude means so much... to the Giver... and to those who receive!
To God it means that we are not too busy enjoying His gifts to understand His love.
To us it means that we have not forgotten the heart of life. We haven't lost sight of the spiritual center toward which the Church constantly points our vision. And to our children it means a family life based on faith and prayer.
Of course, our "blessing" or "grace" is only a small part of the Christian Life to which the Church calls us. But, like every piece in a puzzle, it belongs there!
And the sooner we put all the pieces in place, the sooner we'll understand the WHOLE PICTURE.

Day	Book	Chapter	Verse

Editorials

High Level Is Needed For Assessments Here

Although the duties of the tax assessor and the County Commission have been clarified, so far as assessment and millage are concerned, the one question uppermost in the minds of most Seminole people yet must be answered.

This question is: what will be the total tax on property after appraisal, assessment and millage levels are established?

The tax total is of most interest to the average person. He is interested in the appraisal and assessment levels only as they relate to how much money will come out of his pocket.

Under orders from Gov. LeRoy Collins and State Comptroller Ray Green, assessments must be made on the basis of 100 per cent of cash value. If the Seminole Board of County Commissioners and the County School Board could be assured that each piece of real estate in the county would be assessed at cash value, all these two governing bodies would need to know to set the millage rate would be the total assessed worth of the county.

Given the total worth, the Commission and School Board could set the millage rate, which the two have pledged to reduce "according to the increase in the assessment level."

The "100 per cent of cash value" term defies definition. Although cash value of property amounts, largely, to opinion, assessments can be set "somewhere in the vicinity" of actual worth.

Inequalities, too, can be corrected. Inequalities in this case are not confined to the usual difference in total taxes on similar property.

A correction of inequalities in this instance means the inclusion of much property on the tax rolls which now is tax-exempt. No matter the economic level of the property owner, he should pay his way for the services rendered by the county.

The surest way of including present tax-exempt property on future tax rolls is establishment of a high level of assessment. This we urge and support. We believe it to be the democratic way. We also believe it is the key to the future of Seminole County.

If we have progress, everyone will share it. If we are to get progress, everyone must share in the cost.

Records Of Galloway

John L. Galloway, county tax collector, has been commended by State Auditor Bryan Willis for efficient operation.

Willis said that collection records were remitted properly, remittances made regularly and accurately, percentage of collectables good, rolls properly closed and other complimentary things about the operation of the tax collector's office.

This is good news to, and for, Seminole County. Efficient governmental operation is desired highly by taxpayers. Too often, the American public gets the other type of operation.

Galloway can be proud of the auditor's report. This is especially true when one notes the many criticisms directed toward other counties by Willis' audits.

Farm Bureau Sets Membership Drive

Directors of the Seminole County Farm Bureau met Wednesday night to plan a membership campaign.

The drive will be held the last week in February, and will start with a kick-off banquet for chairman and committee.

Material for use in the campaign was submitted by Robert

Can, director of organization, Gainesville, and Robert Williams, field representative, Dade City. Others attending were Charles Lawson, Ronald Muirhead, R. F. Hoehlik, all of Sanford; Jack Syme, Goldenrod; Charlie Morrison, Longwood; Tommy McLain, Geneva; Cecil Tucker, County Agent; and Joe Ellis, County Farm Bureau service agent.

IN THE SWEET BY AND BY

Inez Robb Says

By INEZ ROBB

The informal history of the Communist party in the United States points to two great watersheds of disillusionment among native-born members.

Thousands of fellow travelers and of the faithful left the party in profound dismay when Stalin made his cynical nonaggression pact in 1939 with the arch-foe, Hitler, a pact that left Hitler free to war on the world.

Many others are said to have withdrawn in shock from the party when the Soviets grossly ended the Hungarian bid for freedom two years ago. The most notable defectors over the Hungarian tragedy were Howard Fast, the American party's chief literary star, and John Gates, a member of the American Politburo and editor of its mouthpiece, "The Daily Worker."

Now I wonder if the Soviets have created a third watershed in their brutal onslaught against Boris Pasternak, Can American Communists stomach this Red inquisition aimed at a single, non-conforming individual?

I am under no illusion that the Pasternak case will magically dissolve the hard-core party leadership or the more disciplined do-it-or-die devotees. But if the Stalin-Hitler pact and the Hungarian repression set off a wave of revolution in the Communist party and its hangers, surely the vulgar and massive assault on Pasternak will have the power to separate other sleep from the party goals.

Beef Show Slated Here On Saturday

A Seminole County beef show will be held Saturday at the Farmer's Auction Market on 17-52.

Boys in 4-H work with beef breeding projects will show their animals from 9 a. m. to noon. The exhibition will train the boys for the district show in Kissimmee, Feb. 18. The winning animals Saturday will be taken to Kissimmee. Preliminary prizes are Jerry Arndt, Ovidio, Robert Hopkins and Carl Stubbs, all of Lake Mary.

Judging the events will be Al Dawson, manager of the Duda Ranch in Slavia. Judging will be based on 25 per cent each for showmanship, fitting and conformation of animal, animal score and record books.

Eight to ten animals are expected to be shown, according to Cecil Tucker, county agent. Any boy with a beef breeding project may participate.

Judge Nixes Pleas To Drop Cases Of Whiteside, Mack

WASHINGTON (UPI)—Federal Judge Burnita S. Matthews refused yesterday to throw out the government's charges against Richard A. Mack and Thurman A. Whiteside in the celebrated Miami Channel 10 television case.

Mack, a former Federal Communications Commissioner and Whiteside, a Miami lawyer and Mack's close friend, had asked Judge Matthews to dismiss some or all of the indictment and to transfer the trial to Miami.

The two are accused of conspiring to influence the FCC award of Channel 10. The case is now back before the commission.

Mack and Whiteside argued among other things that the secrecy of grand jury proceedings had been violated. They cited a news story reporting the indictment would be returned.

Union Curbs Asked
 WASHINGTON (UPI)—Some Senate Republicans expressed hope today that President Eisenhower would follow up his new labor law proposals by encouraging a move later this year to curb the political activities of unions.

Officers Installed By Boat-Ski Club

C. H. Powell was installed Commodore of the Sanford Boat and Ski Club last night.

Installation ceremonies were held at the Agriculture building at Seminole High School.

Others taking office were Jim Young, vice-commodore; Mrs. Lucky Payne, recording secretary; and Mrs. G. H. MacGillis, treasurer.

Directors of the club are Gordon Branson, R. H. MacGillis, Joe Nicholas, and Richard Hart.

Washington Calling

By Marquis Childs

WASHINGTON — As a result of what has the look of a political deal, the Eisenhower Administration is once again put in the position of seeming to repudiate the oft-proclaimed principle of encouraging trade with America's allies in order to build up the economy of the West.

Last November 1, on the eve of the election, Rep. Hugh Scott, Republican of Pennsylvania, announced that a \$1,750,000 contract for two hydraulic turbines for a dam in Arkansas would go to a Pennsylvania company, the Baldwin-Lima-Hamilton Corporation, instead of to the English Electric Company of London. In a close race against former Gov. George Leader for a Senate seat Scott was looking for any and all crumbs of comfort for the jobless in the depressed areas in his state.

What made his announcement especially significant was that he said the word had come directly from the White House. President Eisenhower's veto of the depressed areas bill had caused wide resentment and Scott may have hoped this would be a small offset. He announced that the contract represented more than 207,000 man hours of employment for Baldwin-Lima-Hamilton and an additional \$9,694 man hours for suppliers of the company.

The original bids for the turbines had been opened on September 4. The English bid was 19 percent lower than the lowest domestic bid, that of Baldwin-Lima-Hamilton. Presumably, therefore, it was mandatory to accept the English bid, since the law says that in depressed areas any bid that is more than 12 percent below the domestic bid gets priority.

But an interdepartmental committee had been set up to determine whether in the interests of "national security" all imports of turbines and generators should be cut off. Three weeks ago Leo A. Hoeg, Director of Defense Mobilization and Civil Defense, said he could make no decision on the turbines for Arkansas until the larger question had been resolved. Then 10 days ago he reversed himself and found that in the interests of "national security" the contract should go to the Philadelphia firm because it was one of a limited number of companies possessing the required machine tools.

During all the intervening weeks after November 1 representatives of the English company had been going through an elaborate bureaucratic rigamarole to try to establish their case. While Hoeg is empowered by the White House to make recommendations in these matters, his office says now that he knew nothing of an earlier decision. A spokesman for Scott, now a Senator, was unable to recall who in the White House authorized the announcement.

Letters To The Editor

Editor, The Sanford Herald:

Since the merchants of Sanford are trying to organize and work out problems and plans to keep trade at home, so as to enable our city to grow and attract, lets look on both sides of the fence. . . the Merchant and the customer. . . and before we go too far with our criticism, let's ask ourselves if we aren't due a little criticism, too.

Why do so many of us think the merchants of Sanford should cut prices and sell cheap to keep trade at home? If he has good merchandise, can he sell cheap or cut prices? He must have to pay a certain price for what he sells and has to be allowed a legitimate profit to pay overhead, taxes and living expenses, which is equivalent to you and me receiving a salary, pension, or any type of income.

Would we be willing to take a cut in our income to make it easy for some one else?

How can a merchant improve and make his business attractive if it is unable to make a profit? How can he buy and build stock up if we citizens continue to buy out of town?

The merchants say taxes are high. Do the ones imposing and collecting taxes do all their shopping in Sanford?

What about the many organizations, civic and otherwise, who go in the merchant for donations. . . do they work towards a trade-at-home policy? The merchants always give.

I think we can stand a good checking up on both sides of the fence. If we get down to thinking straight. . . the clerks in most all stores do take personal interest and do go out of their way to please. . . and maybe we forget they get tired, too, and have long hours and can't blame them for not wanting to work over time.

For a better and beautiful Sanford.

Yours truly,
 A. H. Myers
 Sanford, Fla.

Ceremony Marks Reenlistment Here

Sanford and Seminole County who have shown the squadron the utmost of cordiality and hospitality.

The welcome that we were given when we arrived by Mayor Wilson and the many other civic-minded people present was indeed quite gratifying.

In addition, I would like to express my thanks to Mr. Brailey Odham for his kindness and personal attention in welcoming us to our new home in Sanford.

I know the relationship between VAH-1 and the fine people of Sanford and Seminole County will continue to be one of friendship and good-will.

Sincerely,
 SID BANEY
 Commander, USN
 Commanding Officer

Bomarc Is Fired At Drone Target

EGLIN AIR FORCE BASE

(UPI) — The Air Force fired a supersonic Bomarc interceptor missile at a jet drone target over the Gulf of Mexico here Wednesday.

The launching was the second in a series of tests and training firings conducted jointly by the Air Proving Ground Center and the 4751st Air Defense Wing (Missile) of the Air Defense Command.

Test results were not announced.

Mrs. Roy Tucker, Ex-Resident, Dies

Word has been received here of the death of Mrs. Roy Tucker, former Sanford resident.

Mrs. Tucker died last Sunday in Marcellus, Mich., after a long illness. Her husband formerly owned the laundrette at Second St. and Oak Ave. The family left Sanford five years ago.

DAR Chapter Hears Brailey Odham Speak

J. Brailey Odham was the speaker for Pilgrim Chapter, National Daughters of the American Revolution, when the chapter met Tuesday for luncheon at the Mayfair Inn.

Odham spoke on the "American Way of Life". At the conclusion of his interesting talk a round table discussion was held.

The next regular meeting will be held in March in Orlando. Those present included: Mrs. Gideon C. Montgomery, Mrs. Leola King, Mrs. H. W. Helem, Mrs. R. M. Stokes, Mrs. W. Bogg.

Local Events

SATURDAY There will be a rummage sale sponsored by the WSCS of the Grace Methodist Church at 307 East Second St. beginning at 8:30 a. m.

TUESDAY The VFW Auxiliary will meet at 8 p. m. at the VFW Post on the lakefront.

WEDNESDAY A general business meeting will begin with a luncheon at the Sanford Woman's Club at 12:30 p. m. Hostesses are Mrs. C. M. Flowers, Mrs. S. G. Harriman, Mrs. C. M. Wine, Mrs. Stephen Terrell, and Mrs. J. N. Gillon.

All-America Chorus Slates Concert Tour The All-America Chorus will undertake its fourth annual good-will concert tour of Europe this summer.

Bean Casserole Is Mid Week Dinner Looking for another recipe that can act as a mid-week dinner entrée? For those days when the afternoon just seems to slip by, Heba Staggs, a home economist, suggests you turn to the pantry shelf for aid.

Lamb And Bacon Whirls Are Good Presenting—the newest, most up-to-date in ground meat dishes, Lamb and Bacon Whirls.

Hash and Green Beans Casserole 1 can (16 ounces) corned beef hash, a can of condensed celery soup and a package of frozen Frenched green beans which have been cooked.

Many homemakers will probably agree that corned beef hash is considered a "last resort" type of meal. However, in this type of combination, one will be quite surprised to find out just the opposite.

Combine a can of corned beef hash, a can of condensed celery soup and a package of frozen Frenched green beans which have been cooked. Many homemakers will probably agree that corned beef hash is considered a "last resort" type of meal. However, in this type of combination, one will be quite surprised to find out just the opposite.

Mashed cooked carrots make a tasty, nutritious filler for hamburgers or meat loaf.

Methodist Women Will Attend Study Course On February 3

The Woman's Society of Christian Service of the First Methodist Church and Grace Methodist Church will have a study course on Feb. 3 in McKinley Hall.

Fashion News Told

Paris says skirts will soar this Spring. And shoes will soar with them into the limelight, says still another fashion authority, America's National Shoe Institute.

Officers Installed

Several visitors attended the meeting of the Newcomers' Club held Wednesday night at the Sanford Woman's Club building. There were 19 women present.

Hostess for the meeting was Mrs. Evelyn Mohler. New officers were installed. Taking office were: president, Mrs. Bobby DeBard; vice president, Mrs. Lou Smith; secretary, Mrs. Jimmie Dinkins; treasurer, Mrs. Shirley Reimsberg.

Members discussed means of raising funds. Plans were made for volunteers to work one day at the TH Mobile Unit. Mrs. Ruth Gallagher discussed keeping the cancer closet clean and supplied.

The outgoing president, Mrs. Anna Arnet, was presented with a gift. She won the door prize, also. The women enjoyed playing bridge and canasta.

Concert Slated In Orlando

The second annual Gala Opera Concert will be presented in Orlando on Friday, February 13, at Municipal Auditorium, at 8:30 P. M.

Four outstanding artists of the Metropolitan Opera Co., Heidi Krall, Mildred Miller, Cesare Siepi and Richard Tucker, will appear in concert with the Florida Symphony Orchestra, Frank Miller, conductor. The program will consist of famous arias from favorite operas, with a highlight being the performance of the quartet from Rigoletto, which drew an ovation from the audience last season.

The Junior League of Orlando is presenting the opera concert, with all proceeds to benefit the Florida Symphony Orchestra. Last year's concert netted \$5,200.

Tickets are available from Symphony offices, Room 133, San Juan Hotel Bldg., Orlando, or from Miss Pauline Harrell, Robinson Music Co., Orlando. All seats are reserved.

Hat Styles Revealed

NEW YORK (UPI)—Millinery designers have added new touches in classical hat styles for spring.

Cloches come with wedges cut away at sides or front. Cartwheels have brims trimmed with nautch feathers. Pillboxes are covered with flowers. Coolie hats have higher crowns and ogee brims and often are piled high with flowers or fruit.

BIRTHS

Lehr and Mrs. Carl G. Tegfeldt announce the birth of a daughter, Joyce Ellen, born on Jan. 26 in the Seminole Memorial Hospital.

When you serve dessert topping mix with fruit or ice cream, blend the mix with 1/2 teaspoon almond or orange flavoring instead of vanilla.

BE SURE TO SEE RAVENNA PARK This Sunday at its Grand Opening !! Marcel Faile FA 2-1320 Our Best Wishes for Continued Success... to Shoemaker !! We're proud to have been selected for sign designing

under the direction of Mrs. R. U. Hutchison. Mrs. Howard Anderson, Daytona Beach, district WSCS president, will be a guest for the session.

Pastor Will Be Installed

The dinner will honor the Rev. Gail Smith who will assume his duties as pastor of the church on that day. At 2 p. m. the Rev. J. L. Moore will install Rev. Smith. The All Male Chorus of Sanford will sing at this service.

Luncheon Is Given

LUNCHEON ROOM 36 BODONI SOC. Mrs. John Schirard Jr. entertained Wednesday with a luncheon held at her home in Loch Arbor.

Guests of honor were her mother, Mrs. M. D. Henderson, Williamsburg, Va., and an aunt, Mrs. C. B. Gill, Tampa. A delicious luncheon was served in the dining room. The table was covered with a pink damask cloth. Pink and white china was used. Arrangements of pink alstroemeria and white narcissus added to the attractive appearance of the room. Two card tables were set up with white linen cloth with an overlay of pink organdy cutwork.

Following the luncheon guests enjoyed chatting. Invited to attend were: Mrs. Caroline Howard, Sweet Spring, W. Va., and Sanford; Mrs. H. C. Carmine, Poppon, Va.; Mrs. H. I. Tuck, Norfolk and Sanford; Mrs. W. T. Waddle, Oxford, Pa., and Sanford; Miss Linda Smith, Mrs. Byron Smith, Mrs. J. K. White, Bluefield, W. Va.; Mrs. Jack Schirard, Mrs. Harry Lee Jr., Mrs. Harry Lee Sr., Mrs. John Schirard Sr., Mrs. T. J. Gallagher, Mrs. W. H. Traynham, Hampton, Va., and Sanford.

All-purpose flour cannot be substituted for an equal measure of cake flour for cakes. The gluten of flour forms much of the cake's framework and varies with the type of flour.

Closed-toe, open-back pumps are back in town this Spring. Creative footwear, silk ribbons and bows for that all important touch of femininity.

But it's open season in the country. Casuals go in for air conditioning, with thongs and slings and backless mule-type shoes to create the cooling vacuum that fit a country climate. So much for Spring and Summer shoe silhouettes.

For shoe colors, fashion squeezes the paint out of every tube. No impressionistic painting could give a wider choice of country greens, from the green of tender, new-born grass to the deep, rich greens of grass and ferns and foliage.

Red shoes have gone lighter and brighter, but the fashion accent is on pink geranium, as pretty a color as you'll find on any painter's palette. Blues will be lighter and brighter, beige will run the gamut from pale palemint to bright, rich brown.

The new slinky is silky slinky shoes that take to color with fashionable affinity. But that's not all. There'll be silks, petit point, embroideries, ambers and stripes.

Seminoles To Host Wildcats Tonight

By JERRY COVINGTON
Coach Bud Lauer put his small squad through the paces this week and should be set for OBC leading Winter Park Wildcats when they come together tonight for the second time in the season.

Cubs Are Leading Race For Second In Signing Derby

United Press International
The Chicago Cubs look like a good bet to finish second behind the Cleveland Indians in baseball's annual pen-ink derby.

Frank Lane, the Indians' hustling general manager, broke his own record for contract signing earlier this week when he announced all members of the Cleveland club had signed new pacts.

The Cubs, meanwhile, were left with only five unsigned players when outfielder Chuck Tanner accepted his new contract. Tanner battled .362 last year.

Pitchers Dave Hulman, Glen Hobbie and Marcelino Solis, utility man Earl Averill Jr. and catcher Gordon Massa are the first Cub players still unsigned.

The Kansas City Athletics signed two young pitchers, Howard Reed and Dave Hill, while the Philadelphia Phillies announced the signing of infielder Ted Kanasaki, who batted .228 in 94 games last season.

The San Francisco Giants bagged their 20th and 21st players—Whitely Lockman and Bob Speake. Lockman, oldest Giant in point of service, batted .248 in 92 games last season. Speake, used mostly as a pinch hitter, hit .211.

When Pro Cagers Hit Road, Trouble Seems To Develop
Every time the National Basketball Association hits the road, it runs into trouble.

A game between the Syracuse Nationals and Minneapolis Lakers at Houston, Tex., was delayed two hours Thursday night when a plane carrying the Nationals ran into a snow storm en route from Minneapolis.

Argument Brewing Over Fight Site; Patterson Picked

NEW YORK (UPI)—Manager Gus D'Amato declared flatly today he prefers Colorado Springs, Colo., as the site for the Floyd Patterson-Ingemar Johansson heavyweight title fight, which was signed Thursday without date or location.

But promoter Bill Rosenzohn insists he is considering five other cities besides Colorado Springs; also offers from two home-TV networks and one from an advertising agency for a national sponsor.

Sweden's unbeaten Johansson, champion of Europe, said "I favor New York because of the bigger gate and because I expect 5,000 friends to come over from Sweden—and they wouldn't want to go clear to Colorado."

Concerning Colorado Springs, D'Amato—manager of champion Patterson, said: "I like that city's \$500,000 net gate guarantee, and I like the people here—their hospitality and consideration for others."

Thayer Tutt, owner of the plush Broadmoor Hotel at Colorado Springs, confirmed Thursday the offer of a \$500,000 guarantee for a live gate for the fight. The fight would be a feature of the Colorado centennial celebration.

Meanwhile, Patterson was installed a 13-5 favorite, in man-to-man betting, to beat Johansson, despite Ingemar's 21 straight victories as a professional. It was "even money" Patterson will knock out the Swedish challenger.

The price was 5 1/2 to 1 against Johansson's winning on a kayo, and 2-1 that the bout does not last the full 15 rounds, regardless of the winner.

Although Rosenzohn has a deadline of Sept. 30 for staging the bout, he prefers the month of June. He says he will announce the site and date within 30 days.

Rupp Gets 600th Basketball Victory

United Press International
Old Adolph Rupp was a cinch to do it. The coaches of other sports at the University of Kentucky were so sure of it they went out and had a silver pitcher engraved in advance so they could present it to him as soon as the game was over.

The inscription read: "To Coach Adolph Rupp, on the occasion of his 600th victory, Jan. 20, 1959."

Rupp, who was given the pitcher and other gifts in ceremonies immediately following the 108-55 triumph of his nationally top-ranked Wildcats over Georgia Thursday night, realized at once that the engraving must have been done some time ago.

"You fellows," said the man in the brown suit with a familiar gleam in his eye, "sure were optimistic."

Thursday night's win, an easy romp in which Kentucky held a 61-25 halftime lead, gave Kentucky a 16-1 record for the season. And it also gave Rupp a measure of long-delayed revenge, for way back when he started as coach at Kentucky in 1930 it was a Georgia team that dealt him his first defeat.

Rupp, who now has an overall record of 600 wins and 104 losses, thus joins only three active coaches in the 600-plus category—Ed Hiddle of Western Kentucky, Hank Iba of Oklahoma State, and Ed Adams of Texas Southern.

Forrest (Phog) Allen, retired Kansas coach who once tutored Rupp, holds the record with 729 wins and 299 losses.

The Wildcats out-rebounded Georgia, 81-41, and outshot the Bulldogs, 37.6 per cent to 27.3. Leading the way was Bobby Slusher with 17 points.

In the only other game Thursday night featuring high-ranked teams, 11th-ranked St. John's (N.Y.), 72-63, at St. Louis. It was the 10th straight win for the Hillmen, the first loss after nine straight for the Redmen.

St. John's cut a 13-point deficit down to two points, 61-59, but St. Louis pulled away to win comfortably. Bob Ferry of the Bills and Alan Heiden of St. John's tied for scoring honors with 25 points each.

Anthony Favored To Whip Vargas
NEW YORK (UPI)—It will be matador vs. the bull tonight when slender Tony Anthony, top light heavyweight contender, faces Heuben Vargas, stocky heavy-weight slugger, in their TV fight at Madison Square Garden.

Because of his speed and punch, New Yorker Anthony is favored at 3-1 to beat the Mexican boxer-weaver from Richmond, Calif., in Vargas' eastern professional debut.

Their 10-rounder will be televised and broadcast nationally by NBC.

Despite Strike Threat, IL Players Ink Pacts

By MILTON RICHMAN
United Press International
International League baseball players are signing contracts "the same as always," despite their threat to strike unless they get a pension plan, a survey by United Press International disclosed today.

General managers and other club officials from all over the triple-A circuit said "there isn't a shred of evidence" to support the slogan "no sign for '59" which the players announced they had adopted only 11 days ago.

Harold M. Cooper, general manager of the Columbus Jets, said 15 of his players already have signed contracts for 1959.

Rai Garcia, spokesman for the Cuban Sugar Kings, said his club already has 11 signees.

General Manager George Sisler Jr. of Rochester reported five players signed.

Not a single club official reported that any player had returned his contract unsigned with an explanation that he was following instructions of the league's player committee, which is heading the drive for the pension plan.

Player-Spokesman Silent
"So far, we have had no indication that any of the players are following that directive," Cooper said. "Yes, a couple of contracts have been returned unsigned, but they were over a matter of dollars and cents, not because of any directive."

When appraised of the UPI survey, James Durante, one of the attorneys representing the International League players, said "We have no comment to make at this time."

General Manager Don Labruzzo of Buffalo said he had mailed out only six contracts so far and the rest will go out Sunday.

"Even if all the team members who played in the International League did hold out, we'd still have a team on opening day. We have 23 men on our current roster who were not in the league last year and the Philadelphia Phillies will send down 12 more a week before the season opens."

The Richmond club, recently purchased by the New York Yankees, does not plan to send out contracts to its players until the middle of next month.

Yankees' Nat Warried General Manager George Weiss of the parent Yankees, however, made it clear he is "not worried in the slightest" about contract difficulties with Richmond players.

Joe Ryan, the GM of the Miami Marlins, said his relations with players on the club so far this winter have been "most cordial." Ryan said he has not mailed out player contracts but added that he did not "anticipate any difficulty."

Which Is Tougher, Golf Circuit Or Big Leagues?

NEW YORK (UPI)—The newest parlor game in sports today is trying to decide whether it's easier for a youngster to become a big league ball player or a money making professional golfer.

Each side has staunch advocates; and it may be rather significant that the ball players—many of whom are excellent golfers themselves—often argue the question.

Probably the best authority on the subject is Sammy Byrd. He's one of the rare few, and quite possibly the only man, ever to reach the big time in both sports.

Byrd played the outfield for the New York Yankees in the shadow of the immortal Babe Ruth and then hit golf's touring trail when his baseball days were done.

"When the question was once put to Byrd, he replied: 'That's a real stumper. Actually it's tough to do either—to reach the majors or to develop into a successful golfer.'"

Sammy finally admitted, however, "If they pinned me down, I'd have to say it's harder to become a top-notch golfer—one that earns a good living in tournaments. Sure the competition is tough getting to the big leagues, but I think it's tougher getting to the top in golf."

Little Abbie Pearson, the Washington Senator outfielder who won the American League's Rookie of the Year award for 1938 and also won the baseball players' golf tournament in Florida last February, takes the opposite view from Byrd.

"First of all," says 3-foot, 4-inch Pearson, "let's get it straight that I'm not exactly an expert in either sport. But I'd have to say it's easier to become a fine golfer than to reach the majors. I found baseball tougher, but maybe my site had something to do with it."

And within two strokes of the leaders are such comparative unknowns as Buddy Sullivan, Yuba City, Calif.; Joe Campbell, Knoxville, Tenn.; Bob Frantz, Wilmette, Ill.; and Felice Tursa, Aurora, Ill.

Tied for third are Bo Winniger, Odessa, Tex., and Doug Sanders, Miami Beach, Fla., each with 66. In the 67 bracket, along with Campbell, are Jay Hebert, Sanford, Fla., hometown favorite Bill Casper, Apple Valley, Calif.; and Al Besselink, Grossinger, N.Y.

While the course was easy for some it was no setup for others. Such men as Art Wall, leading money winner of the year with \$11,000 to his credit in the first four weeks, had a 71, Masters and Palm Springs champion Arnold Palmer had a 72. So did National Open champion Tommy Bolt. Frank Stranahan went for 71 blows, Dave Marr for 76 and Art Doring, 73.

Fighter To Defend
HOLLYWOOD, Calif. (UPI)—Jose (Toluco) Lopez of Mexico arrived here Thursday to defend his North American bantamweight title against Boots Monroe of Los Angeles Feb. 7.

But Folley's manager - trainer, Bill Swift, said he didn't expect to get any rise from Patterson. "We want Patterson," Swift said, "but we're going to England in March. We've offered him \$250,000 for the past two and a half years, but D'Amato (Patterson's manager) is a pretty good matchmaker and is not about to lose his title to Folley." Swift said he would take his 27-year-old boxer back to England to fight some of the top heavies over there.

Sikes Authors Bill To Curb Decisions

WASHINGTON (UPI)—Rep. Robert L. Sikes (D-Fla.) has introduced a proposed constitutional amendment in Congress designed to prevent the Supreme Court from changing past decisions.

His proposed amendment would state that: "The judicial powers of the United States shall not give the Supreme Court of the United States the power to overrule, modify, or change any prior decision of that court construing the Constitution of the United States or acts of Congress promulgated thereon."

A number of southerners applauded Sikes' proposal when it was introduced Thursday. They included Reps. George W. Andrews (D-Sia.), John J. Flint (D-Ga.) and J. Vaughan Gary (D-Va.).

Rep. Orrin Harris (D-Ark.) said the trend of the court's decisions should be changed to "bring about a stable, constitutional government."

The rat in case better has a tenderizing effect. For the quick-mix method, hydrogenated shortening will give best results.

Smog Poses Death Threat To London

LONDON (UPI)—The worst smog in six years choked London today with a suffocating pall that threatened death to persons with heart or lung conditions.

The government warned that the mixture of smoke and fog was as bad as the December, 1952, smog that caused the deaths of 3,500 to 4,000 persons in four days. Continuing smog was predicted. Ninety per cent of the 1952 dead were persons over 45 who had previous records of heart or lung disease. The government since has established precautions against a recurrence.

Advise Wearing Masks

Doctors advised biting patients of those who fall in the smog victim categories to stay home until the air clears. They warned any going out of doors to wear masks.

The fog, now in its third day, also was bringing a mounting toll of automobile wrecks. An 11-year-old girl was killed and dozens of motorists were injured in the chaotic traffic conditions.

The daytime darkness also was used by criminals to good advantage. Derek Burgess, 27, escaped from a London prison by climbing a rope made out of socks. A purse snatcher robbed Mrs. Annie Pritchard of \$10 and vanished a few yards away.

Fog Blankets Roads

The fog blanketed 40,000 miles of roads throughout Britain, slowed railway traffic and halted almost all airline flights. Hundreds of highway accidents were reported and hundreds of cars were abandoned by the side of the road.

At Hampton Hill, 35 vehicles and a girl bicyclist were involved in one pileup. The girl was taken in the hospital with a broken leg. Thirteen damaged vehicles were abandoned on the spot.

At Eltham a driver wandered onto the wrong side of a dual-lane highway and caused a bumper-to-bumper collision of 20 cars and trucks. Eighteen automobiles piled into the wreckage of a truck in Kent.

King Seeks Means To Beat Conviction

HARTFORD (UPI)—Former state Sen. Harry King, still facing a charge he gave an opponent \$10,000 to drop out of the race for his Senate seat, today sought ways to beat his second conviction on perjury charges growing out of the payoff.

King was convicted for the second time Thursday night on charges he conspired to commit perjury to block his indictment on charges he gave the \$10,000 to former state Rep. Boone Tallett Jr. in 1956.

But the 56-year-old King, a Winter Haven lawyer, was acquitted of procuring persons to commit perjury. The six-man Criminal Court jury returned the verdict at 9:35 p.m. after five hours and 25 minutes of deliberation. It recommended mercy.

He was convicted on two counts of conspiring to commit perjury, each misdemeanor punishable by a maximum of one year in prison and a fine of \$500. But the jury acquitted him on two counts of subornation of perjury, a felony which carries a maximum penalty of 20 years on each count.

In his first trial in May of 1956 King was convicted on all four counts and sentenced to five years. Judge Roy H. Amidon withheld sentencing in the second trial, pending King's motion for a new trial, a move he has 15 days to make.

The trial ended after nine days during which some 450,000 words of testimony were presented. His first trial lasted 21 days.

The state presented eight days of testimony in the second round, but the defense chose not to present a single witness in King's behalf.

Still hanging is the indictment charging King violated election laws by giving Tallett, a Lake Wales attorney, the \$10,000 to drop out of the race for the Senate, where King was slated to become president. This charge cannot be prosecuted until all of the perjury counts are disposed of.

De Gaulle Planning 'Fireside' Address

PARIS (UPI)—President Charles de Gaulle will broadcast a "fireside chat" to the nation tonight to reassure a people troubled by new bloodshed in Algeria and re-entire of a financial squeeze at home.

At 10 p.m. when he last broadcast to France de Gaulle is expected to concentrate on his "austerity" program—explaining why he is trying to hold the line on wages while prices rise.

Advance indications are that he will tell people that his austerity plan is like an emergency surgical operation—painful, but necessary if the nation is to survive.

The President also is certain to have something to say about Algeria, but there has been no indication that he plans to announce any major development in the situation there.

An upsurge of guerrilla activity in Algeria during the past month has taken a heavy toll of French lives, although French reports say this country's troops have inflicted far heavier losses on the Arabs.

Almost two million tubes of beauty preparations are purchased by American women every week.

Quotable Quotes

United Press International

WASHINGTON — Gen. Thomas S. Power, head of the Strategic Air Command, on placing a fleet of bombers in the air constantly to retaliate against possible enemy attack.

"I'd like to put one up there. I'd like to see one as soon as possible."

NEWARK, N.J.—A 14-year-old boy, on why he set fire to a 1,600 pupil grammar school.

"I did it to get even with teachers who have been picking on me."

CHICAGO — Freelance diver Frank Heffing, 35, on being trapped more than 4½ hours in a water tunnel 10 feet underwater.

"I was wet up to my neck from water inside my suit. I could have drowned in my own suit."

JACKSONVILLE, Fla. — Disc jockey Dave Hunter, after 225 consecutive hours without sleep.

"I'm glad to get this thing over with. It has really been a horrible experience. It was just a nine day period of wanting desperately to get some sleep."

Congratulations

Archeologists Could Dig DuPont's Show Of Month

NEW YORK (UPI)—An archeologist says he would like to dig around Manhattan. I suggest the plunge their spades into the earth around CBS-TV's DuPont Show of the Month.

The series is possessed of an almost staggering devotion to dramatic artifacts. It is a little like the old bone room of a theatrical museum - immaculate, polished, neatly cased and de-acidated.

Wednesday night, the Show of the Month trotted out an exquisitely groomed version of Sir James M. Barrie's "What Every Woman Knows," a piece that must have been antique when the Pharaohs were building the first pyramids.

It would be fairly easy to increase Barrie. Much of his product is composed with an almost stupefying coquetry. It is not so much written as tatted. He is a kind of middleweight embroiderer.

This leads to problems. Line-like: "We must think no more of this, it's madness," or "Bybil, let us declare our love" are not meant, of course, to be played seriously. But they can't really be played comically either because they are such paralyzing exaggerations of the comic.

Nevertheless, let me jump to the good. The good lay in the production which was quite close to being superb. Slothan McKenna is an actress of great artistry and she was in sweet form. Opposite her, James Donald gave his impossible part a near-believable quality that was masterful.

Miss McKenna and Donald were supported by a defense that was tight and stylish. That infield included such players as Maritita Hurd, John Williams, Cyril Cusack and Diana van der Vliet. Director Bob Mulligan kept the

team moving in a beautiful performance from the bench. It was too bad that all of this talent had to be squandered on a play suffering from palsy.

Next outing, the Show of the Month will present a sanitized version of "Hamlet." But it would not surprise me at all if it were to offer Rebecca of Sunnybrook Farm, played magnificently, of course, by the combined forces of the Comedie Francaise and the Moscow Art Theater.

The Channel Swim: The NBC-TV George Burns show gets the ax on April 14—"I'll probably be replaced by The Californians, which is in turn turning over its Tuesday night time spot to a David Niven anthology series. ARC-TV's Mike Wallace turned down the title role in NBC-TV's Elmer Queen. Right now, Gig Young is a lead contender for the part.

When the NBC-TV George Gobel hour shrinks to 30 minutes in April, its vacant half hour probably will be filled by switching Dragnet into the spot.

June Allyson, Kim Novak, Larry Oliver, Mort Sahl, Millie Perkins, Dick Powell, Bob Hope, Louis Jourdan, Tony Martin, Cyd Charisse and Bob Wagner all are included in NBC-TV's telecast of Hollywood's Oscar derby on April 6.

With the Sanford Atlantic's **TUITIONPAY** Plan

No one must stop his education because of lack of cash.

HOW TUITIONPAY WORKS
Under the TUITIONPAY program, low-cost, insured loans may be obtained by Florida Residents in the area served by the Sanford Atlantic National Bank to cover all or any part of a college education, including tuition, board and lodging, books and fees... a normal educational expense. TUITIONPAY-PLAN loans can be made up to \$5,000. Borrowers may be parents, relatives or friends... in some cases even the students themselves. The only requirement is that the borrower meet ordinary Bank credit qualifications.

Organized 1926
(Affiliated With The Atlantic National Bank of Jacksonville)

Shoemaker Construction Co. Sets Formal Opening Of Ravenna Park Model Home On Sunday Afternoon

Homes In Progress May Be Inspected

At 12:30 p. m. Sunday, the doors of 108 Temple Drive, Ravenna Park, will be open for the formal showing of the first model homes built by Shoemaker Construction Co., Inc. in Ravenna Park.

This home has been color-coordinated by an interior decorator with draperies by Mrs. Harry McQuatters and furnishing by Herby's. Across the street, 104 Temple Drive also will be on display. In addition, other homes will show various stages of construction: footing, slab prepared for pouring, concrete walls in

place, framing in progress, ready for lath, plastered, etc.

A. K. Shoemaker Jr., in announcing his open houses said, "We invite examination of these homes in progress, so everyone can be assured of the quality of materials and workmanship we incorporate in every home."

All homes in Ravenna Park have three bedrooms and either one or two baths. Many have glass sliding doors opening on the outside living area, and still others have screened porches. The floors are all terrazzo and the window sills of American

part of which was a grove, has Parson Brown and Pineapple orange trees.

In planning the homes on the lots, the minimum amount of trees have been removed so that each home will have its own bearing fruit trees and shade. Other portions of the Ravenna Park have large oak and pine trees.

According to Don Howe, who has extensive experience in the home building business for feature, and foot for foot, there is more spaciousness, finer quality and \$1,000 more value in a Shoemaker Ravenna Park home than in any other selling in this area at a comfortable price."

Each of the Ravenna Park homes is equipped with a General Electric range and refrigerator — some with built-in plate and oven — and some have garbage disposals. In fact, all of the homes have received the Medallion Award given by the Florida Power & Light Co. for homes that meet the electrical industry's requirements of full housepower, ample light for living and basic electrical appliances and equipment.

Included in each home is an exterior convenience outlet, clothes dryer circuit and garbage disposal circuit, in addition to the standard features.

Ravenna Park eventually will have 150 homes, 22 of which will be on Lake Ravenna, with many lakeview lots as well. Hard surface roads will lead to all parts of the subdivision. There also will be a dedicated park of approximately three acres for the use of the homeowners and their families.

All of this is set in beautiful, high-rolling ground, away from the city noise and confusion, yet within a few minutes drive of schools, stores, churches and the Sanford Naval Air Station. The Mayfair Inn golf course is just one-half mile west. The land,

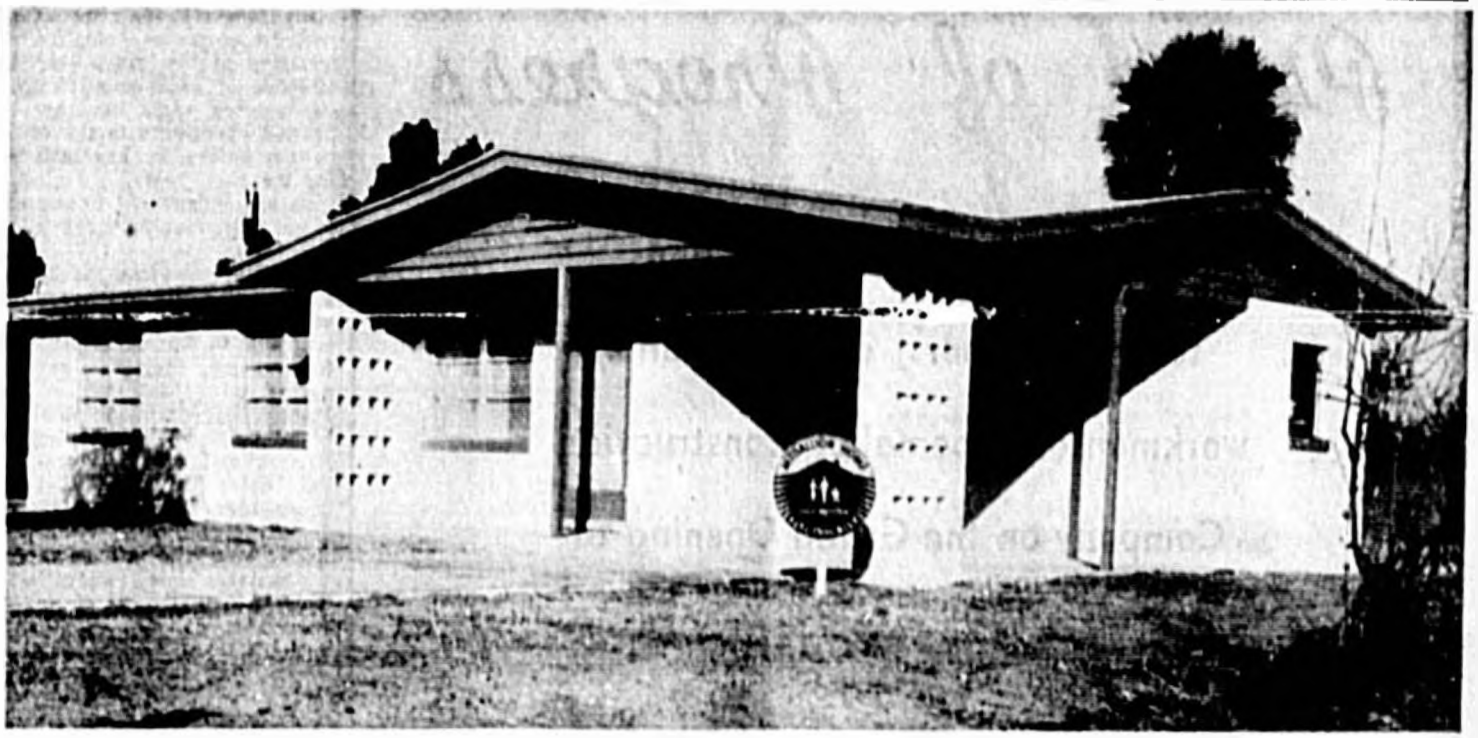

Suggestion Given On Buying Carpet

MINNEAPOLIS —(UPI)— Because a carpet is an infrequent purchase for most families, few customers know what to look for. Mrs. Myra Zabel, a home furnishing expert at the University of Minnesota, offers these suggestions:

First, determine the needs of your home and family. For example, cotton is cheap but wears fast and mats; rayon mats and sold easily but cleans easily; wool is resilient, resists soiling; but is subject to attack by moths; nylon will outwear wool but mats easily.

Price can be a guide in buying carpeting. Mrs. Zabel said. For less than \$10, you can buy cotton, rayon, blends of rayon and nylon and blends of rayon and wool. In the \$10 to \$12 group there are low-priced wools; from \$12 to \$15 the 100 per cent wools; and more than \$15, high quality wools and nylons.

The Crawford Street Bridge in Providence, R. I., is the world's widest—1,147 feet.

RAVENNA PARK MODEL HOME — This is the Shoemaker Construction Co. model home, located at 108 Temple Drive, Ravenna Park, which will be opened to the public Sunday afternoon. All of the homes in the Ravenna Park development, near the Country Club, will have the Medallion emblem (on post in yard) of the Florida Power & Light Co. In addition to this home, visitors may see other homes in the various stages of construction when visiting.

A. K. SHOEMAKER JR.

Modernize Kitchen, Modernize Life

Modernizing the kitchen is modernizing your life! The whole house takes on sparkle when the display area is a new electric kitchen.

Greatest joy of all is an electric range—the whole family enjoys cleaner, faster, more nutritious and tempting electric range cooking. Mother is relieved of so many tiresome chores, with automatic electric cooking on top of stove, in broiler or oven, and has more time to spend with the family, time for outside interests.

Father is relieved of postponing installation of an electric range and other major appliances that make the modern kitchen the first goal of every family. Now, modernizing the kitchen to electricity is easy to arrange by any one of several plans—such as a property improvement or home improvement loan, available at most banks and savings and loan associations. Then, there is the F.H.A. Title I method of insured loan—your local appliance dealer will be glad to get all details for you.

There is still another type of financing that revolves around use of your mortgage. An "open end" mortgage can be used to finance a kitchen remodeling job with small payments over a long period.

Don't postpone modernizing your kitchen—enjoy electric living today and pay as you go!

With one refueling, the State etc. Air Command's new B-52D bomber can fly more than half-way around the world.

Telephone, Texas, To Get Telephones

WASHINGTON (UPI)— Telephone, Tex., is about to get telephone service for the first time.

The Rural Electrification Administration recently approved a loan of \$158,000 to the Win-Tel Telephone Co. Inc., of Winston, Tex., to improve and expand service in rural areas of Fannin County. Among the expanded services will be a new dial exchange at Telephone—(pop. 250 in 1950).

Two-thirds of the television sets in the world are in the United States.

The welcome mat is out at the new

is Eureka, a Greek word meaning
"I have found it."

More than 16 million homes in
the U. S. are heated by oil, and
more than 22 million by gas.

Homes To Feature 'Individuality'

Designs Requested Will Be Included

In announcing his Ravenna Park subdivision, A. K. Shoemaker, Jr. has stated that whereas many people haven't the time to wait for a custom home, he was including in the design and construction of each home many of the features which have been requested by owners in the various custom homes he has built during the past years.

He has endeavored to give each home "individuality" and a custom look.

For those who like the Ravenna Park section, its quiet, and convenience to the golf course, and who are in no particular hurry for a home, they can have the nearest thing to a custom home by selecting one of the houses not yet completed and choosing tile, formica and color schemes, etc. This chore is simplified in the Shoemaker office, where there is an extensive display of tile, formica and wall surfacing.

Shoemaker has further stated that the development of Ravenna Park will not stop his activities in the custom building field. Presently, plans are on the drawing board for three custom homes in the \$18,000-\$20,000 bracket, as well as several other types of structures. There are also several homes in the pre-planning stage.

Most of Shoemaker's custom homes start as a pencil sketch made by the prospective owner, or a clipping from a magazine or newspaper. In fact, some plans have been devised by taking attractive and practical features from several plans.

The point in Shoemaker's sales program is that he offers a complete planning and specification service with financing under the best terms. His major aim is to suit the new homes to the needs and budget of the owners.

The margins on mats in picture frames vary in size. The bottom margin is wider than the other three. In making a horizontal rectangle, make the two side margins wider than the top. A vertical rectangle should have the top margin wider than the side margins. A square should have top and side margins of the same width.

KEY EMPLOYEES OF SHOEMAKER CONSTRUCTION—These are the employees who keep the various phases of Shoemaker Construction Co. going on an efficient basis. Seated are Joe Denbison, draftsman, who designs the Shoemaker homes, and Mrs.

Robert Billhimer, office manager. Standing, left to right, Don Howe, sales manager; Edgar Osborne, general superintendent; Robert Dotson, superintendent of Ravenna Park, and W. L. Dickerhoof, accountant.

We're Always Proud of Progress

Our Sincerest Congratulations to the planners, designers and workmen of Shoemaker Construction Company on the Grand Opening of

Ravenna Park

A FAMILIAR SIGN—This is the Shoemaker Construction Co. sales office in Ravenna Park. This building, which faces Country Club Road, is the headquarters for one of Sanford's newest subdivisions. All of the homes in Ravenna Park will be given a

Medallion by the Florida Power & Light Co. Just to the right of the sales office building is a large sign which proclaims, "Ravenna Park." Persons interested in one of the finer homes in Seminole County may call this sales office, by telephone or in person.

It is expected that \$70,000 single family houses will be built in the U. S. in 1959.

Finland's reindeer are capable of pulling sleds up to 20 miles an hour on short hauls.

SANFORD, FLA.

NEW HOUSE TAKING SHAPE — Shoemaker Construction Co. employes had another successful home under construction last week when this photograph was made. This is a familiar scene in Ravenna Park, which will have its formal showing of its model home on Sunday afternoon.

In the background can be seen some of the fine homes in Ravenna Park. The wide expanse to the left of the construction site will be filled with homes. Note the shade trees available in the background.

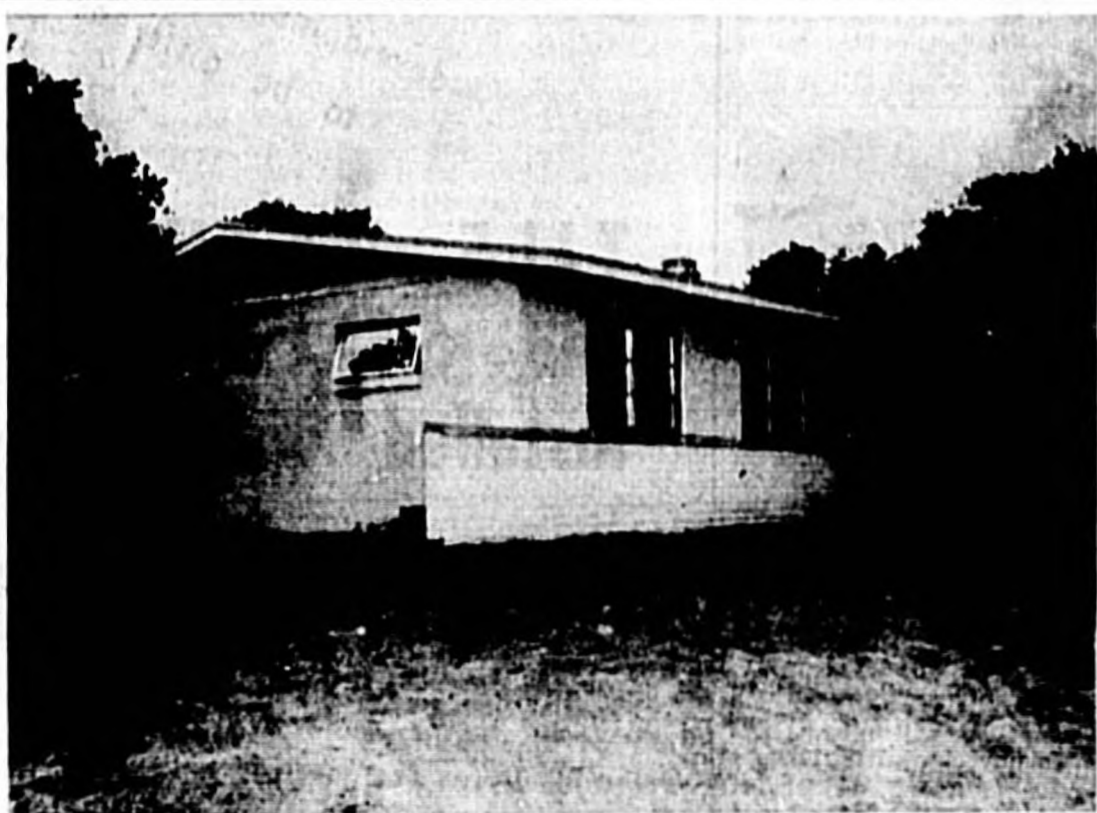

Shoemaker Reputation Growing Fast

A. K. Shoemaker, Jr. fast is becoming known as one of the better young builders in the Sanford area.

He started in business for himself a little more than three years ago and since then has built in excess of 100 homes, the majority of which have been custom homes. At present, Shoemaker is the largest "one-of-a-kind" builder in the Sanford area.

His firm is a member of the Mid-Florida Association of Home Builders and the Seminole County Home Builders Assn. Shoemaker returned Wednesday from the National Association of Home Builders' Convention in Chicago, where he got many new ideas on construction methods and materials available today.

Shoemaker is a native of Sanford, the son of Mr. and Mrs. A. K. Shoemaker Sr. Following his graduation from Seminole High School, he attended the University of Florida, where he graduated with a degree in Construction Engineering. A veteran of the Korean campaign, he served with an Engineer Construction Battalion as a construction engineer. In all, he has had nine years experience in commercial and residential construction in Gainesville, Orlando, and Sanford. He is married to the former Sophia McDougal and lives with her and their daughter, Beth, on South Wilcox Avenue.

HOMES IN 'GROVES' — Ravenna Park formerly was an orange grove. In construction of new homes, Shoemaker workers have left all of the citrus and oak trees possible. This is the home at 104 Temple Drive, which has been completed. The photo shows some of the trees surrounding the home.

Congratulations

Medallion Program Very Young

A little more than a year ago the home buying public was introduced to the electrical industry's Live Better Electrically Medallion Home program—a nationally integrated effort to help them fashion a better way to live—electrically.

Today, like glittering jewels against a countryside of "stone-age" homes which lack sufficient housepower and modern appliances, the Medallion Homes sparkle with excitement making possible a more comfortable and luxurious way of living.

Utility companies, home builders and electrical contractors made this contrast possible by fulfilling the quality concept of the Medallion Home as it was conceived under the sponsorship of its parent program, Live Better.

Electrically, the result—more than 70,000 Medallion Homes were built in 1958 with specified standards of electrical excellence in adequate wiring, appliance equipment and lighting. This year's estimate of 100,000 new Medallion Homes to be constructed is a conservative one, according to the Medallion Home sponsors, and will undoubtedly be surpassed before the year's end.

Complete Cooperation
The unparalleled success of Medallion Homes so far was achieved in cities, suburbs, towns and

developments all across the nation through the efforts of more than 200 local electric utilities (who award the Medallion) and almost 5,000 private home builders (who earned the right to display the Medallion). The reason for the success was two-fold.

Primarily, more and more families are and want to be homeowners. They're buying new homes—and they want quality. Secondly, today's homeowner wants a fresh start—a modern start. Hence, the Medallion had an enviable appeal: a new home with electrical excellence.

Basic Medallion Standards
The home buyer knew the symbol of the Medallion Home, permanently though unobtrusively gracing the home's facade, meant certified assurance of the home's electrical excellence or that it has passed inspection.

He knew the new home had full housepower and adequate wiring, at least 100-ampere entrance service and a minimum of 20 electric circuits within the house with ample outlets and switches for present and future needs.

The home buyer knew also that his (and definitely "her") Medallion home had a functional grouping of appliances in the kitchen, the laundry area and, in case of Gold Medallion homes, heating plants.

And last, he realized that light-

ing was planned for practical living in work and leisure as well as the finest in decorative attractiveness.

Medallion Home Types

The above are the basic standards of the Bronze Medallion Home. In the case where the particular Medallion Home is outstanding in its use of modern housepower, time and labor-saving appliances and lighting for living a Gold Medallion may be awarded.

What of the future Medallion Home prospects? They look as

shiny and solid as the symbol itself. As mentioned, in 1958 100,000 or more Medallion Homes are expected to be built through the cooperation of local electric utilities and builders. Of these, some 30 per cent are expected to

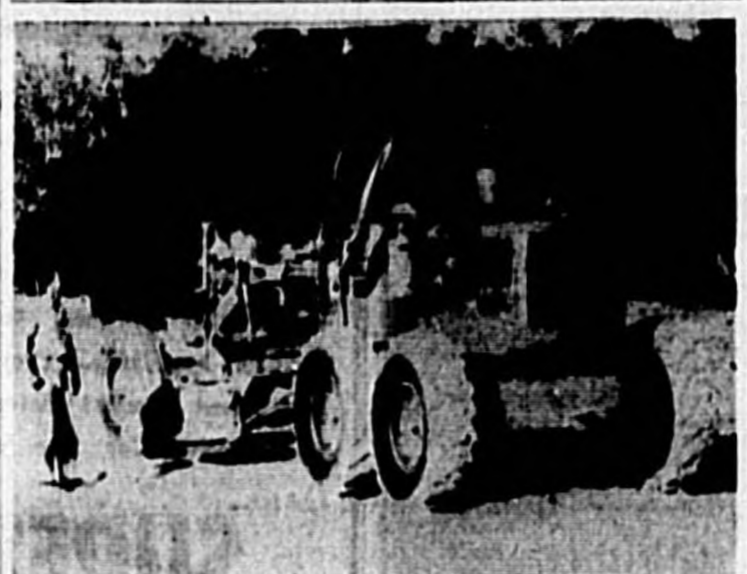

be of Gold Medallion proportions. The Medallion Home program is now an established and recognized quality effort to advance our mode of living through standards of electrical excellence in the home.

Rock Kills Woman

MILAN, Italy (UPI)—A huge rock falling from a mountain slope smashed a coach on a passenger train near the Italian-Swiss border Tuesday. A woman passenger was killed and two men were injured.

Beatings Charged

NICOSIA, Cyprus (UPI)—A committee of Cyprus physicians has complained to British Governor Hugh Foot that naked Cypriot girls were beaten by British women troops last week in the village of Agros.

STREETS IMPORTANT—Ravenna Park will have paved streets which measure up to county standards. Here, equipment is working on a base for the streets, which will be maintained by the contractor for one year. At the end of this time, the county will accept them as a part of the road program.

Construction Of Home Requires Many Talents

The construction of a new home is not a one-man project by any means.

A long procession of men work on a Shoemaker home in Ravenna Park, and they all take pride in work well done.

First on the job-site is the surveyor, who checks the boundary stakes. He is followed by the foreman who lays out the job with an engineer's transit. Next

come the laborers who dig the footing, place the steel in position, tie it and put saddles under the steel to allow the concrete from Vulcan Materials and Miracle Concrete to flow under, around and over the steel.

At this point, the first FHA and Seminole County building inspections are made, after which the footing is poured and the foundation blocks are laid by

"Buck" Polley and his crew. After DeWitt Hunter fills the foundation with clean sand, Wall Plumbing & Heating Co. enters the picture and does the rough plumbing work which will be underneath the floor, and stubs in the pipes which will come through the terrace and service the bathroom, utility room and kitchen. The laborers tamp the sand while wetting it so that it is tho-

roughly compacted. Under the bearing partition there is a dropped slab reinforced with steel which makes the footing at this point 12 inches thick. The hard packed sand then is covered with two layers of felt which are hot-mopped, to make a complete seal. On top of this, steel mesh is fitted inside the entire foundation, and this wire is securely tied in place. It is now that the FHA and County inspectors make their second inspection, after which the concrete floor is poured and R. C. Barber pours the terrace floor. Blocks then are laid to ceiling height and lintels from Chapman Concrete Co. are placed over the door and window openings.

A four-man framing crew with material from Gator Lumber Co. and Vulcan Materials then puts up the studding, wall partitions and roof framing. All material which touches the concrete is Celcure pressure-treated for termite prevention, as are the furring strips. After the furring is in place, and the sheathing and the roof are on, the Crosley windows from Bricklin Builders Supply are installed.

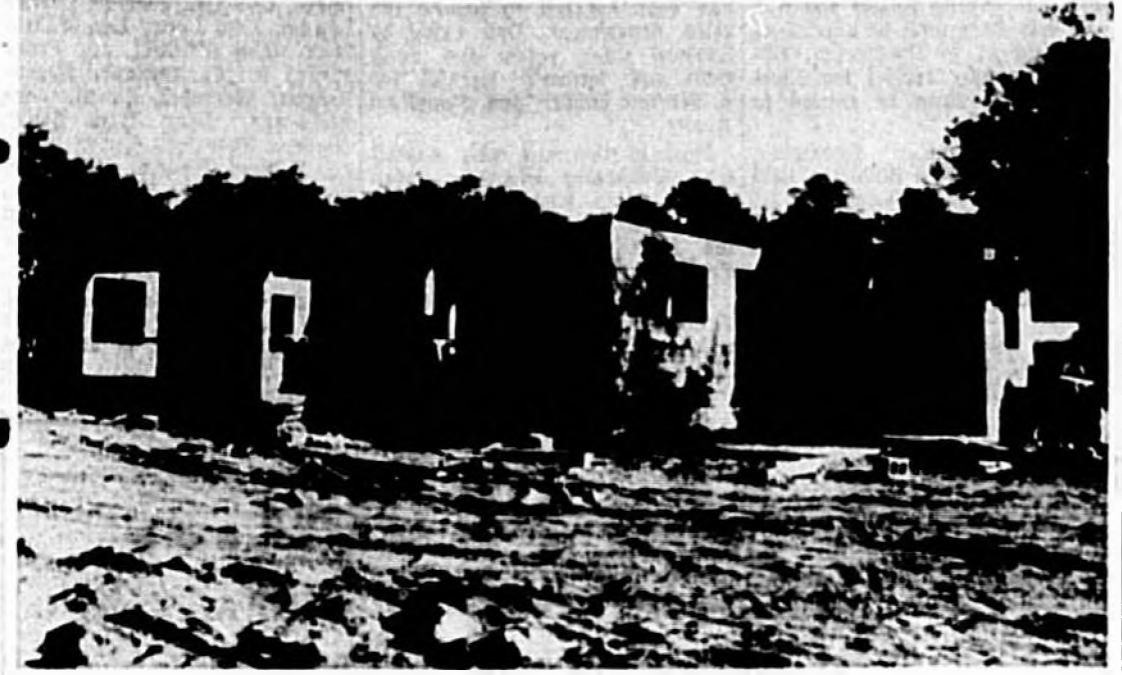

Sanford Electric Company does the rough-in for the electrical service and the house is ready for the third inspection. The plasterer, Carl Lammier, then moves his crew in to do the brown plaster coat. After this, and before the finish coat of plaster, the ceramic tile is installed by Paul Mueller & Son, and the terrace floors are ground and

polished. When the final coat of plaster is on, the interior and exterior grounds of the building are thoroughly cleaned. Then the trim crew of carpenters go into action hanging doors, putting in baseboards and door trim, etc.

During the last few stages of construction, Imperial Decorators have been painting the trim, gables, blocks and other exterior parts of the house and when the plaster is thoroughly dry, they move inside the house to paint the walls and finish the doors and trim. By this time the York-towne cabinets have been installed by Superior Distributors. Phillips millwork has delivered the finish materials and the plumbers and electricians have completed their installations.

The floors have had their final polish and seal job and the wall furnace, stove and refrigerator are in place. Outside, meanwhile, the drive has been poured, the lawn sprigged and the shrubs and plants arranged in advance. The FHA inspector then makes his final thorough inspection and fills out a certificate showing that all contingencies have been complied with. The county inspector makes his final inspection and issues his certificate of occupancy.

A conservative estimate would show that at least 25 groups of men, numbering in all about 100, had done some work on the house from the time it was started and this would not take into consideration the drivers who deliver material, the men in the warehouses who load the trucks, and the men indirectly involved in supplying material for the home.

SOON, ANOTHER BEAUTIFUL HOME— This is one of the homes under construction in Ravenna Park, a development by the Shoemaker Construction Co. Soon, this will be a Medallion Home in one of Sanford's

newest subdivisions. All of the homes will wear the "Medallion" of the Florida Power and Light Co. Visitors to "open house" at the model home Sunday will see homes in various stages of construction.

Scientist Says Reds May Orbit Man This Year

(Russian-born French scientist Alexander Ananov, founder of the World Astronautical Society in 1941, reviews the first year of the Space Age in the following dispatch and tells why he believes the second year will see the Russians sending a man into orbit around the earth.)

By ALEXANDER ANANOV
(Written for United Press International)
PARIS—(UPI)—A Russian satellite with a man in it probably will be placed in orbit around the earth during the Sputnik Era's second year which we are now entering.

How the Russians expect to get him safely back to earth, I do not know. But I believe they are concentrating on this problem now and may have it solved already. On the other hand, I regret to

say I am not at all optimistic about any real success for the American moon probe project during the next 12 months.

Certainly the main event of Year One was the Russian success with the dog Laika.

By sending Laika up in her satellite, the Russians were able to collect extremely interesting and valuable information on how a living creature reacts under such conditions.

The very first satellite proved conclusively that there was no real peril in space travel from the much-talked-about danger of meteorites.

The Laika experiment then showed that cosmic rays worked no serious ill effects on a living satellite passenger.

and bring the man safe and sound back to the earth's surface.

After talks I had with (Soviet) Prof. Leonid Sedov in Paris last year, I concluded that the Russians had in fact planned to recover Laika from her Sputnik.

Apparently something went wrong. Perhaps the mechanism which was to eject her cabin from the satellite failed to operate.

But in my opinion this was the original Russian project and I believe it points the path Soviet space research will take this year.

The past 12 months have seen remarkable Russian achievements in rocket speed and precision. In a remarkable demonstration of precision they recently sent two dogs up to a high altitude in a rocket and then recovered them when they landed back on the earth.

Similar American attempts to perform the same sort of exploit with mice have not yet succeeded.

The Russian success in rocket speed and power has allowed them to hoist extremely heavy payloads into orbit around the earth.

Newspaper accounts have explained this by saying that the Russians have discovered an extraordinary new fuel for their rockets.

But I believe this explanation is incorrect. In my opinion the Russians are still using the classic rocket fuels available to all.

I am convinced the secret of their extraordinary rocket power is a series of new metal alloys which they have discovered. These are alloys which I believe melt at much higher temperatures

than any other metals known to man.

They are used to build the combustion chambers of the Russian rockets. This means very high temperatures can be developed inside these combustion chambers.

Greater heat in the combustion chamber means greater speed and lifting power in the rocket.

I believe the Americans have not yet discovered how to make these alloys. To my mind, this simple fact also explains why so many American rockets have disintegrated on launching.

The salmon catch in the Canadian province of British Columbia brings in about 48 million dollars a year.

AMBROSE OLLIFF
 President

117 W. 1st St.

When A. K. Shoemaker, Jr. went into the construction business little more than three years ago, his organization consisted of Edgar Osborne, field supervisor, about ten workmen and Mrs. Robert Billhimer in the office as his secretary, bookkeeper and color consultant.

Since that time the office as well as the field has expanded considerably. The first addition to the staff was Joe Dennison, who designs and drafts all of the Shoemaker home plans. Dennison is a native of Maryland, but has lived in

Florida for the past 12 years. He first became interested in architecture when, as a child, he watched his father build houses. In fact, his grandfather was a contractor also. So, home building runs in his family. During his eight years in the Army, part of which was spent in Florida, he was in the Army Engineers and gained a great deal of experience and training there. Before joining Shoemaker, he had worked for well-known architects in Orlando and Winter Park for three years. Dennison lives with his wife, Carol, and two children, Jolene and Ray, in a house he designed.

Mrs. Billhimer has been in some phase of the building business for the past 12 years. She was one of the first employees at Plantation Estates — long before it became known as DeBary. After three and one-half years there, she became associated with Orler-Weller Homes and was with this firm until its operations were moved to Champaign, Illinois. She has worked for Shoemaker ever since he started in business.

The trio of "Kay" Shoemaker, Dennison and Mrs. Billhimer, held down the A. K. Shoemaker, Jr. office until July, when the firm was incorporated and it became necessary to have a full time accountant take care of the books. These duties are handled ably by W. L. Dickerhoff. Dickerhoff has lived in Sanford for several

years, having previously worked for another Sanford builder and at Patrick Air Force Base since coming to Florida from Ohio. He lives with his wife, Irma, and children, David and Jane, in a Shoemaker home. More recently Donald I. Howe has been engaged to handle the sales department. Don came to Sanford three years ago from Ohio and formerly worked for a Sanford builder and Stenstrom Realty.

Most of the men who started with Shoemaker when he began his building business are still with him. Bob Dotson is now the superintendent of Ravenna Park building operations. Other men are LeRoy Benton, James Foster, Robert Miller, John Mitchell Sr. and Joseph Russi. In addition to these men, the

following are those who have entered Shoemaker's employ in the past two and one-half years: "Tennessee" Adams, Arthur Boyd, Leon Buffum, Kenneth Cook, Jeff Davis, R. T. Davis, James Dempf, McKinley Harrison, V. A. Hipshire, James H. Hodge, Creongie Johnson, Charles Lawson, John Henry Lee, William Long, John Henry Lee, Frank Moore, J. F. Osborne, Eugene Padgett, Herschel Powell, John Rinkavage, Lacy Earl Rouse, Clarence Shockley, Lester Veino, Jr., William Weddle, James Williams, Carl Boone, Roland Croom, Alfred Horton and David W. Van Ness, Sr.

The Jerez district of Spain, which produces all of the world's true sherry wines, is about the size of New York City's Manhattan Island.

Jayne Playing Ophelia? Predictions Of Untruth

HOLLYWOOD (UPI) — United Press's International undertook some star-gazing this week and came up with the following predictions for the denizens of Hollywood in 1958:

Jayne Mansfield will forego sexy roles and low cut gowns in favor of playing Ophelia opposite Huntz Hall in "Hamlet."

Jerry Lewis and Dean Martin will patch up their quarrel and reunite in a movie titled "My Buddy," with Eddie Fisher in the supporting cast. The Liberate brothers (Lee and George) also will bury the hatchet in a TV series featuring a harmonica band.

Mamie Van Doren will be named "Miss Valentine's Day" of 1958 (posing with a cardboard heart).

Elvis Will Re-enlist Paul Newman and Joanne Woodward will revive the "Ma and Pa Kettle" films.

Soybean Planting Likened To Corn

MADISON, Wis. (UPI) — A group of University of Wisconsin researchers report that soybeans can be planted by the "wheel track" method as successfully as corn.

With the new method, soybean seed is planted in rough plowed ground—in the wheel tracks of the tractor. The researchers say that soybean yields can be increased by as much as 15 per cent simply by placing the rows closer.

Frank Sinatra will star in a story about a newspaperman who almost gets run over by a singer. One of the cheapie producers will make a sequel to "The Blob," entitled, "Son of the Blob Faces Life for the FBI" starring Charles Laughton.

Elvis Presley will be released from the Army, but sign up for a four year hitch — at the request of the Defense Department and the Ricky Nelson fan clubs.

Zsa Zsa Gabor and Marie McDonald will forget their differences to form an independent branch of the PTA, with King Farouk as secretary-treasurer.

Gen. Rafael Trujillo Jr. will re-visit Hollywood on a good-will tour, lavishing mink coats, foreign cars and campaign buttons (with and without his mustache) on Marjorie Main, Elsa Maxwell and Dottie Goodman.

Lawrence Welk will learn to count past one and uh-hoo.

Mamie Van Doren will be named "Miss Fourth of July" (posing with a cardboard firecracker).

Clean-cut Pat Boone will grow sideburns and ducktail to star in "I Was a Ratpacker at Columbia University," costarring Gary Crosby and Evelyn Rudie.

Ed Sullivan will guest star on Steve Allen's show plugging foreign cars.

Julius LaRosa will launch a video series, and hire Arthur Godfrey to add humility to the program.

Mamie Van Doren will be named "Miss Thanksgiving" (posing with a cardboard turkey).

Mikoyan Goals: Trade, Summit Talks

By PHIL NEWSON
UPI Foreign News Editor

Anastasia Mikoyan, a Russian deputy premier and one of the Kremlin's top salesmen, arrived back in Moscow this week in time for the 21st special congress of the Soviet Communist Party.

He was returning from a visit to the United States, during which he:

- Commented favorably on Americans' ability to drink vodka.
- Commanded unfavorably on U.S. foreign policy, particularly as regards Berlin and the U.S. ban on shipment of strategic goods to the Soviet Union.
- Reacted with considerable irritation when prevented from placing U.S. troop landings in Lebanon in the same category with Soviet deceit and butchery in crushing the revolution in Hungary.

The first and third points were incidental to the main purposes of his visit, which probably were two.

Trade First Objective

Mikoyan, as the Kremlin's foremost expert on merchandising, probably had an expansion of trade as his first objective.

One of the projects which the party congress will be asked to rubber stamp is Premier Nikita Khrushchev's ambitious seven-year plan for the economic development of the Soviet Union.

The announced purpose of the plan is ultimately to make the Soviet Union superior to the United States in everything from production of milk to steel.

Thus Mikoyan was in the market here for a wide variety of products ranging from entire chemical plants, to pipelines to credits.

And thus, too, his sour reaction when the State Department blocked his project.

"The cold war in the State Department is continuing," he said. To which the State Department replied: "Fatuous."

Mikoyan's second purpose here is more conjectural but may have met with greater success.

Peace Summit Meeting

A diplomatic view of the sudden pressure applied by the Soviet Union two months ago to the Berlin problem is that the Soviets were acting with an ultimate view to forcing another meeting at the summit.

Three Key Areas Govern Modern Home Lighting

For beauty, convenience, and safety in your bedroom, make sure three key areas are properly lighted.

These areas, according to the American Home Lighting Institute, are the ceiling, bed, and dresser.

"A large ceiling fixture, controlled by a well switch at the room entrance, is essential for cheerful overall lighting, plus safety and convenience," the institute said.

Lamps may be suitable for small accents, but they can't provide the general light needed in the bedroom. In many cases, a small lamp will create dangerous shadows which a ceiling fixture will eliminate.

At the same time, light from the ceiling lets you see down into dresser drawers for ease in picking out the clothes you want. A bedroom ceiling fixture should be at least 17 inches across and

have four 36-watt or five 40-watt bulbs. Make sure a diffusing shield is used to cover the bulbs and eliminate glare.

Over the bed, a wall bracket or pull-down fixture is practical. A 48-inch wall bracket consisting of a 40-watt fluorescent tube shielded by a faceboard provides excellent reading light.

Or, if you prefer, you can hang 130-watt pull-down fixtures over the night stands by the bed. These can be raised or lowered to shed light as desired.

"Don't neglect the dresser in your bedroom," the institute advised. "Many women, and even

husbands, use the mirror over the dresser in aid in dressing and grooming."

Bullet spotlights with 75-watt bulbs mounted on the ceiling over the dresser provide excellent light for this purpose. These fixtures have swivel necks for easy adjustment.

To take Brazil nuts from the shell easily, cover the unshelled nuts with cold water and bring to a boil. Boil 2 to 5 minutes, cover with cold water and let stand a minute. Then crack the shells. The meats should come out whole or in big pieces.

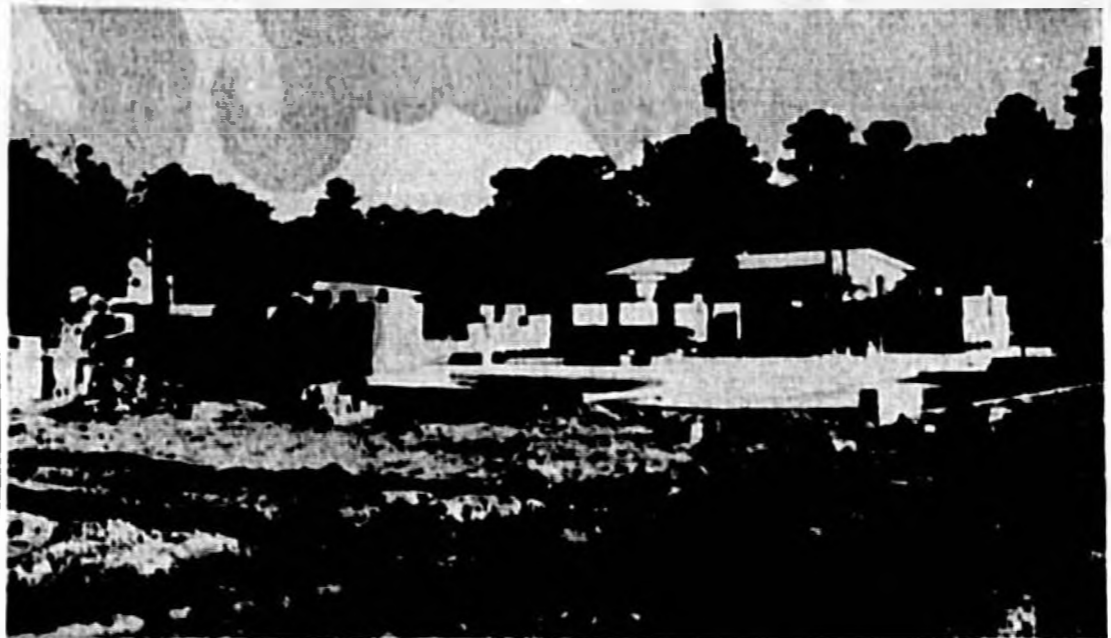

Or, if you prefer, you can hang 130-watt pull-down fixtures over the night stands by the bed. These can be raised or lowered to shed light as desired.

"Don't neglect the dresser in your bedroom," the institute advised. "Many women, and even

'COUNTRY' IN CITY—Like to live in the quiet of the country, yet "next door" to all of the city conveniences? Ravenna Park will be such a development. Located on tree-shaded lots, homes in the all-Medallion Ravenna Park will have the privacy of the country, all of the conveniences of city living. This construction site is one of many. Shoemaker Construction Co. is the developer of Ravenna Park.

Washington Window

By LYLE C. WILSON
WASHINGTON (UPI) — A real solid tribute to the political power of organized labor is this fact:

If any legislation is enacted at this session of Congress to penalize bomb violence in labor disputes it probably must come about by indirection and, almost, by chance.

President Eisenhower's forthcoming 1950 labor reform bill could and may change that. As of now, however, bomb violence in labor disputes will become subject to federal penalties only because Congress is moving toward a crackdown on another type of bomb outrage.

This other type is hate bombing of schools, churches and synagogues, the homes and property of persons belonging to racial minorities.

Heavy Penalties

Bills against such hate bombing are accumulating in Congress. All of them would make bombing and arson a federal crime under most circumstances. These civil rights bills are more than broad enough to cover violence in labor disputes. The civil rights bill of 1950 introduced by Sen. Lyndon B. Johnson (D-Tex.) is drawn so lightly that the FBI could be ordered out to track down the bombers of a slum farm.

Another is the civil rights bill introduced by Sen. Kenneth B. Keating (R-N.Y.) on behalf of himself and 14 others representing both parties. Both bills would invoke a death sentence against a bomb thrower whose act costs human life.

Here's a threat to loss a bomb or, more accurately, the uttering of a false statement that any premises would be bombed, could be punished by a year in jail, a \$1000 fine or both. These penalties are prescribed primarily to protect religious and educational property against hate bombers.

Applies to Labor

The Johnson bill and others would apply equally in labor disputes or any bomb violence whatever, although that is not the prime purpose of any of the bills. The mere transport of an explosive within the United States for certain specified purposes would be a violation of the proposed laws.

Protected by the Johnson bill and others would be any building or other real or personal property if the violence were for the purpose of interfering with its use for business, educational, religious, charitable or civic objectives. The bomb technique for the purpose of intimidating any person pursuing such objectives also would be forbidden by federal law.

Too Late To Classify

By Russell Kay

Ordinarily I don't go in for statistics like laying things end to end to see how far they will reach or comparing the height of a building by estimating how many telephone books would have to be stacked one on top of the other to reach an equal height.

Now and then I do run into statistics that tell a real story and are genuinely interesting. Such was the case recently when my good friend Harold Cole of the Florida State Chamber of Commerce advised me that he had taken the measurements of his girl friend, Miss Florida, and was so thrilled he had to shout about it.

He used an adding machine instead of a tape measure and the answer wasn't 36-24-36, but it was equally impressive. Miss Florida is growing up. She's a big girl now, and a mighty attractive one.

The state's permanent population today is 4,442,000 an increase of 80 per cent in the last eight years. Ours is the fastest growing state in the Union with one exception, Nevada, which shows a 61 per cent gain. For the past three years, the weekly gain in population for the state has been \$0.32. If the number of new residents locating in the state were to select one spot it would be like adding a new town the size of Pahokee, Punta Gorda or Titusville every seven days. Try to picture 32 cities of this size being added to Florida each year and you begin to get some idea of how the state is growing.

We now rank the 12th state in population. We were 20th only eight years ago. Our population today places us close in such states as Indiana or Massachusetts.

We passed Missouri last year and will probably top Indiana before very long.

And these new comers are not all old folks or senior citizens as the politicians call them. Broken down, our population figures show that 37 per cent are under 21 years of age, 53 per cent are from 21 to 64 and only 10 per cent are over 65.

Florida's population is 81 per cent white, and there are 58 persons per square mile of the state's area. Only 16 states are more densely populated today. There are 54,382 square miles of land area in Florida. Only 24 states are larger.

While in many of Florida's faster growing areas our citrus groves, dairy farms and truck farms are giving way to new industrial and residential growth yet there are new groves and farms being developed to more than offset such losses.

The phenomenal growth of our cattle industry has caused 1.6 million acres to be developed as improved pasture and our cattle industry now ranks 13th in beef production and the industry is growing by leaps and bounds.

Industries continue to move into the state and home building has been stepped up in many areas to provide housing for new comers. Mail order land sales in prospective home seekers continues brisk and many of these large developments report purchasers investing in homes as permanent residents.

All indications point to an excellent tourist season. Severe weather has driven thousands to the state in the past few weeks, and hotels and motels report good business. With the settlement of airline strikes such carriers as Eastern, National, TWA, Delta and others report heavy bookings in Florida from all sections of the country.

Harold has good cause to be proud of his girl friend, Miss Florida. She is quite a girl and is getting "quiter" and quiter."

Pope John Says Pius 'True Saint'

VATICAN CITY (UPI)—Pope John XXIII said Wednesday his predecessor, Pope Pius XII, was "truly a saint."

The Pope, speaking to pilgrims at a general audience, said he was certain of the former pontiff's eventual canonization although the Roman Catholic Church has not started canonization proceedings.

A request for canonization would have to come from some diocesan authority in Pius' native Rome or some other church body rather than from Pope John himself.

Legend Mixed Up

NOTTINGHAM, England (UPI)—Legend got all mixed up in Nottingham today.

Someone stole Robin Hood's bow and the sheriff of Nottingham is trying to get it back for him. Robin Hood's bowless statue stands outside Nottingham Castle.

Mishaps Mar Area Record

A three-year-old Negro child was hit by a Sheriff's patrol car Friday night and admitted to Seminoles Memorial Hospital with head injuries.

Marvin Lee Holt was released this morning and returned to his home at 412 West 11th St. Witnesses said that Deputy W. Brown was "going too fast." Skid marks on the street were measured at 33 feet.

In other weekend accidents, Miller Adolphus Brown was charged with driving while intoxicated when police officers found him sitting in his car in a ditch on Hill Ave. Brown ran off the road on

News Briefs

17 Skiers Injured

MILAN, Italy (UPI)—Seventeen skiers were injured Sunday night when two buses collided here.

No Bread, Or Cake

NEW YORK (UPI)—A strike by 8,000 bakery workers has halted production in 700 bakeries in the New York metropolitan area.

Fronzizi Ends Tour

MIAMI (UPI)—Argentine President Arturo Fronzizi ended his U. S. visit Sunday by dedicating a new air terminal here.

Rob's Grandmother

OSASQUITO, Tex. (UPI)—Iramu Sugita, 22, was caught during the weekend after trying to kill his grandmother and making off with \$41.67 and a life insurance policy.

Talks In 12th Week

GENEVA (UPI)—The deadlocked U. S.—British—Russian nuclear talks entered their 12th week today with no prospect of early agreement in sight.

Trampled To Death

SINGAPORE (UPI)—One aged man and two elderly women were trampled to death in a weekend stampede to collect Chinese New Year money packets from a Chinese temple outside the city.

Lewis 'Improving'

WASHINGTON (UPI)—John L. Lewis, one of American labor's most controversial figures, was reported "much improved" today in his fight for recovery from a heart attack.

3 Sailors Killed State Toll Is 19

PENSACOLA (UPI)—Three sailors from a nearby Naval Air base were killed early today when their speeding car crashed into a truck north of here.

The Escambia County Sheriff's office said the car, which was apparently traveling at a high rate of speed, passed another car and smashed into the truck at the intersection of U. S. Highway 90 and the Elysson Field cut-off, about nine miles north of Pensacola.

Sheriff Emmett Shelby identified the dead as Donald Tullis, 30, Racine, Wis., Lawrence H. Geis, 22, Milwaukee, Wis., and Jerry Robert Driscoll, 23, Gaffney, S. C.

At least 10 persons, counting the three sailors, perished in accidents in Florida over the weekend, 19 of them on the highways.

Weather

Partly cloudy through Tuesday. A high center, high upper 90's, low in 50's. Northwest winds 10 to 20 miles per hour.

Humane Society Forming Here; Decision Praised

The formation of the Seminole County Humane Society has been greeted with enthusiasm by local law enforcement and health officials.

A small group met with officials from the Orlando Chapter to discuss the incorporation, by-laws and constitution of the new organization.

Slim Galloway, county constable, said, "If we can get this started, many of our most serious problems will be solved. At present, law officers and the health department must round up all stray animals and investigate reports of cruelty."

The Society hopes to become incorporated within two weeks. Mrs. Ernest Cowley has been chosen temporary organizational chairman. Mrs. Cowley said that membership is now open, and those who are interested may call her at FA 3-3388.

A meeting last week was called

Hunt For 95 Fails To Produce Clues; Signal Discounted

HALIFAX, Nova Scotia (UPI)—Four planes and two ships searched the ice-choked North Atlantic today for clues to the fate of 95 persons on the Danish motor vessel Hans Hedtoft which disappeared after striking an iceberg four days ago.

Moderating weather aided the search. But no trace of the bright orange vessel or its passengers and crew was immediately visible.

Faint radio signals had raised hope that at least some survivors were alive in a lifeboat or on an ice floe. But search directors said today there seemed little likelihood the signals were related to the Hedtoft.

Royal Canadian Air Force search and rescue officers said it was believed the signals came from an aircraft or an aircraft homing signal. They were not on a distress frequency, they said, nor on frequencies known to be available to the Hedtoft's radio or the radios in its lifeboats.

Planes criss-crossed the roughly 100-square-mile area off the southern tip of Greenland this morning under a 2,000-foot ceiling. Visibility was reported to be seven miles, obscured at times by light snow.

Return to Search

On the surface, the U. S. Coast Guard cutter Campbell and the German motor vessel Poseidon turned back into the ice fields as the sun rose for the brief eight hours of sub-arctic daylight. The ships have been forced to seek open water during darkness because of the hazardous ice conditions off the Greenland glaciers which spawn Atlantic icebergs.

Space Expert Says U.S. Lags Far Behind Russia

WASHINGTON (UPI)—Dr. T. Keith Glennan, director of the National Space Administration, warned today that Americans must "roll up our sleeves" for years to come if they hope to catch up with Russia in the race for space.

He told the House Space Committee that time, money and effort must be poured into a sustained U. S. program if this country is to overcome Russia's lead in powerful rocket boosters.

"If our space programs are to be run on an off-again, on-again basis, rigging and sagging with the turn of every year," he said, "then we'd better spend our money buying telescopes to watch the Russians pioneer in space."

Glennan, first witness at the committee's follow-up hearings on studies held in the Senate last week, gave this resume of U. S. space plans for the immediate future:

Hurl a 10-ton space craft into orbit around the earth by 1962.

Fire a two-ton space craft "in to deep space—far beyond the moon" by the same year.

Orbit a 75-ton space craft around the earth by 1965.

Glennan did not say in his opening remarks how far along the space trail Russia will be by then.

Conceding that Russia has rockets more powerful than anything in the U. S. space arsenal, Glennan said:

"We are behind the Russians on the time scale because they have bigger boosters. We shall have to spend large sums of money and work harder to attain our space goals as soon as we want."

Dulles Seeks Ideas On Berlin Problem

WASHINGTON (UPI)—Secretary of State John Foster Dulles today sought the ideas of the chief members of the Senate Foreign Relations Committee on the time-bomb Berlin crisis.

Dulles confers at the Capitol with Chairman J. William Fulbright (D-Ark.), until now one of his staunchest critics, before flying to Europe Tuesday to discuss the German problem with Allied leaders.

Fulbright already has hailed the Dulles mission. He said he hoped the secretary "will find some means to open up negotiations on Germany and other European problems."

Dulles talked by telephone with Fulbright Saturday shortly before the State Department announced the European trip. That was just one day after the new chairman called on the Eisenhower administration to get off "dead center" and take the initiative in settling cold war controversies.

Another frequent critic of Dulles' course, Senate Democratic Whip Mike Mansfield (Mont.), also praised the secretary's trip as an "excellent idea." He urged Dulles and other Allied leaders to abandon their "rigid position" on Berlin and lay some positive plan before Russia.

March Nets \$155 From Lake Mary

Lake Mary mothers covered the town Friday night and turned in \$154 for the Annual Mothers March on Polio.

Heading the drive was Mrs. Richard Keogh, who expressed appreciation for the courtesies extended the workers as they called on friends and neighbors.

Assisting in the drive were Mrs. Curry, Mrs. C. W. Spohorn, Mrs. Roy Howell, Mrs. Robert Rucenstein, Mrs. Curtis Green, Mrs. Millard Rice, Mrs. J. Varr, Mrs. C. J. McMinimium, Mrs. Robert Lankford, Mrs. Dale Alexander, Mrs. Donald Coleman, Mrs. Ted Brooklyn, Mrs. Mildred Donaldson, Mrs. Ty Dedman, Mrs. Nancy Tomblor, Mrs. Martha Mitchell, Mrs. Martha Riley, Mrs. James Chipman and Mrs. Ida Keogh.

Negro Found Dead; Investigation Set

Sheriff's deputies are investigating the death of an Altamonte Springs Negro who reportedly shot himself with a 12-gauge shotgun last night.

Merkeliah Jeremiah Epps, 27, was found dead in his home at 6:15 p. m.

A coroner's jury will decide whether the death was suicide, murder or accidental. J. L. Kritek and Vern Brewster, deputy sheriffs, are investigating.

Officials At Capitol

City Manager Warren E. Knowles is attending a meeting in the state treasurer's office to discuss the Fire and Police Officers Retirement Fund.

Also in Tallahassee for the two-day session is Fire Chief Mack Cleveland.

Virginia Integrates 4 Schools

NORFOLK, Va. (UPI)—Virginia admitted 21 Negroes to white public schools today in a reluctant but peaceful move from a policy of massive resistance to integration.

Seventeen Negroes were admitted to schools in Norfolk and four at Arlington in the Washington suburbs.

There was not the slightest incident, despite a few opening rumblings that there would be picketing and strife.

Until today, affected schools in Norfolk had been closed since last summer in the severe application of a Virginia law that required the closing of any school that was integrated.

Other schools that were closed under the same law are in Charlottesville—permitted to open segregated today under an eleven-hour court reprieve that postponed integration until next September—and at Front Royal in Warren County. The affected school there did not open today.

"I said an angry there wouldn't be any trouble and there was none," said Principal Charles W. Purdue, a former Duke University football star and now principal of Norfolk's big Norview High.

In Arlington, where police patrols and officers with gas masks were prepared for anything, School Supt. Ray E. Reid said with relief, "I am happy to learn there were no incidents and that everything is quiet."

A boycott had been threatened by white pupils at Arlington but it failed to develop.

Joan Potts, a white girl at Arlington, said she did not want to attend school with Negroes and went home. Her father sent her back to school. Four white boys also asked permission to leave but changed their minds.

Space Expert Says U.S. Lags Far Behind Russia

WASHINGTON (UPI)—Dr. T. Keith Glennan, director of the National Space Administration, warned today that Americans must "roll up our sleeves" for years to come if they hope to catch up with Russia in the race for space.

He told the House Space Committee that time, money and effort must be poured into a sustained U. S. program if this country is to overcome Russia's lead in powerful rocket boosters.

3 Killed, 80 Hurt By Bomb In Cuba

HAVANA, Cuba (UPI)—Authorities ordered an investigation today to determine whether a bomb explosion in the midst of a religious procession was accidental or a counter-revolutionary action.

Three persons were killed and 80 injured, many seriously, when the bomb exploded Sunday in the midst of 15,000 pilgrims in a procession at El Color shrine outside Santiago de Cuba in Oriente province.

Three persons were understood to have been arrested in the preliminary inquiry.

The explosion first was thought to have been caused by an abandoned army or rebel mine in the Santiago area, which had been the scene of some bitter fighting in the long rebellion that toppled the Fulencio Batista regime.

But experts said later that the blast was caused by a bomb or a grenade.

The violence occurred shortly before Fidel Castro returned to his Sierra Maestra stronghold to launch his land reform program in which state-owned states will be divided among Cuba's tenant farmers.

Local Briefs

Charles Cassel, DeBary, is recuperating at his home following surgery at Orange Memorial Hospital. Cassel is director of the Sanford Make Chorus.

Toastmaster's Club will meet Wednesday at 6:30 p. m. in Mar-Lou Restaurant. Last week Ed Graham won the preliminaries in the club speech contest. New members introduced were Vernon Mize, Cameron Lawrence and Ronnie Horn.

Bob Crumley has relinquished the former name of his insurance agency and replaced it with his own. Two years ago Crumley purchased the John H. Williams Insurance Agency. During that period the name has remained for good will purposes and complications with the telephone book.

On Jan. 18, all printed material, checks, and advertising emerged with the name of the Bob Crumley Agency. When the new phone book is published, customers will find the office under the "C."

Stanley L. Brumley received a bachelor of science degree during informal graduation exercises at Stetson University, Friday morning. Brumley manages the Stetson Bookstore. He plans to continue in business.

Over 1,500 Visit Ravenna Opening

Ravenna Park had its formal opening yesterday and more than 1,500 persons visited the model home and construction sites during the afternoon.

A. K. Shoemaker Jr., president of Shoemaker Construction Co., which is developing Ravenna Park, said he was "well pleased" at the response of the opening of the model home.

By actual count, more than 1,500 adults visited the park. The count included both husband and wife, when both came, but did not include a large number of children.

Shoemaker today said he would like to "express my sincere appreciation to the public and to those who helped with open house." He added that a "special thank you" was due Florida Power & Light Co., which is providing medallions for all Ravenna Park homes.

John Henry Lotz Dies In Hospital

John Henry Lotz, 71, of 304 Grand Vista, DeBary, died Sunday in Seminoles Memorial Hospital.

Mr. Lotz moved to DeBary in 1954 from Cleveland, O. He was a retired auditor for General Electric Corp., a member of the Presbyterian Church DeBary, member of the Cleveland Heights F and AM, and past patron of the Eastern Star Chapter in Cleveland Heights.

Survivors include his wife, Mrs. Lily C. Lotz, DeBary; two sons, Robert F. Lotz, Philadelphia, Pa., and Richard F. Lotz, Cleveland; one daughter, Mrs. Dorothea L. Sibbald, Carmel Valley, Cal., seven grandchildren, one brother, Herman Lotz, and a sister Mrs. Anna B. Rolf, both of Fort Wayne, Ind.

Funeral services will be held at 2 p. m. Wednesday in Grandview Home. The Rev. A. C. Summers will officiate. Interment will be held at a later date.

The Perfect Dress

PROVIDENCE, R. I. (UPI)—Delegates attending a Providence diocese Catholic youth organization meeting Sunday night voted in favor of a resolution that a dress ought to be "tight enough to show the wearer is a woman and loose enough to show she is a lady."

Rites Held Sunday For Hosack Infant

Funeral services for the infant son of Mr. and Mrs. William V. Hosack, 270 Mellenville Ave., were held at 3:30 p. m. yesterday at graveside in Lakeview Cemetery. The baby died Thursday soon after birth in Seminoles Memorial Hospital.

The Rev. Joseph Cardon of Green Baptist Church officiated. Surviving, in addition to the parents, are grandparents, Mr. and Mrs. Gerald Hosack, Osteen, and Mr. and Mrs. C. E. Patterson, Sanford. Grandmother's home was in charge of arrangements.

Fish Auction Set

The Central Florida Aquarium Society will meet at 8 p. m. Wednesday in the band hall at Seminole High School.

A fish auction will be held in addition to a program and business session.

Lake Mary Boy Wins 4-H Beef Ribbon

A Lake Mary boy took top honors Saturday in the third annual Seminole County 4-H Club Beef Show.

Carl Stubbings compiled a total of 91.7 points out of a possible 100, as he displayed his Shorthorn heifer, Seminole Leader's Rose.

Stubbings also received blue ribbons for two other Shorthorn entries, Beauford's Candy Clan and Seminole Leader II.

Jerry Arndt, Oviedo, showed his

Process Is Quiet, Incidents Lacking

NORFOLK, Va. (UPI)—Virginia admitted 21 Negroes to white public schools today in a reluctant but peaceful move from a policy of massive resistance to integration.

Seventeen Negroes were admitted to schools in Norfolk and four at Arlington in the Washington suburbs.

There was not the slightest incident, despite a few opening rumblings that there would be picketing and strife.

Until today, affected schools in Norfolk had been closed since last summer in the severe application of a Virginia law that required the closing of any school that was integrated.

Other schools that were closed under the same law are in Charlottesville—permitted to open segregated today under an eleven-hour court reprieve that postponed integration until next September—and at Front Royal in Warren County. The affected school there did not open today.

"I said an angry there wouldn't be any trouble and there was none," said Principal Charles W. Purdue, a former Duke University football star and now principal of Norfolk's big Norview High.

Joan Potts, a white girl at Arlington, said she did not want to attend school with Negroes and went home. Her father sent her back to school. Four white boys also asked permission to leave but changed their minds.

U. S. Space Goal: Peaceful Flights

WASHINGTON (UPI)—President Eisenhower told Congress in his first annual space report today that the goal of this nation is peaceful interplanetary flight.

Looking beyond the U. S. project to place a man in orbit within two years, the Chief Executive said that new programs are aimed at "exploring our solar system—first by unmanned, then by manned deep-space vehicles."

"As man-made devices, one after another have reconnoitered the frontiers of space," he said, "there is a realization that the human race has begun its greatest, most daring adventure."

"The benefits that will come as man's peaceful conquest of space proceeds should be shared with the world."

Just Over Threshold

The president's comments were contained in a 53-page document, summing up space achievements of 1958. The annual report is required by the National Aeronautics and Space Act.

Eisenhower said "a beginning has been made of which we may well be proud." But he cautioned that "we are, however, only just over the threshold."

He expressed confidence that the nation "has the knowledge, will and the skill to move ahead swiftly and surely in rapidly developing areas of technology."

Final Rites Today For Lindsey Baby

Funeral services were held at 1 p. m. today for Beverly Jean Lindsey, infant daughter of Dr. and Mrs. Edwin L. Lindsey, 1911 Magnolia Ave. The child died shortly after birth Saturday morning.

In addition to her parents, she is survived by three brothers, Larry L., Donald D. and Gary Phillip Lindsey; maternal grandmother, Mrs. Phillip Drilling, and paternal grandmother, Mrs. Ouida Lindsey, both of Morriston, Ark.

Services were held at graveside in Oaklawn Memorial Park, with the Rev. Thomas O'Steen, pastor of the First Methodist Church, officiating. Grandmother's home was in charge of arrangements.

Church Celebrates 75th Anniversary

The 75th anniversary of the First Baptist Church yesterday was highlighted by sermons by Dr. John McGuire, secretary of the Florida Baptist Convention.

Dr. McGuire chose "What Constitutes a Great Church" for his topic.

The Concord Choir sang special selections for the 75th anniversary service during the day of celebration. Richard Holtzclaw was soloist at 11 a. m. with the Adult Choir.

Displayed in the church were mementos of the past, including a copy of The Sanford Herald, dated Nov. 28, 1910.

Dance Drama Here Tomorrow Night

The second performance in the Mutual Concert Association series will be presented at the Sanford Civic Center tomorrow night at 8:15.

The Dance Drama Company, featuring Emily Frankel, is slated to appear before a large audience. Tickets will be purchased at the door for those who do not have memberships.

WINNERS IN 4-H BEEF SHOW — Top honors were won by these boys in the Seminole County Beef Show at the Farmer's Auction market Saturday morning. Blue ribbons were won by Carl Stubbings, Lake
