

Cardinal Griffin Warns Catholics Of Communism

Politics Is Called New Theology At Buffalo Congress

NEW YORK, Sept. 24 (AP)—Myron C. Taylor, President Truman's special representative to the Vatican, arrived by plane today at La Guardia Field and said he would report to the President next week on conditions he observed during a European tour. Taylor said that what he saw was "a pretty sad picture, politically and economically." He left by automobile for his home at Locust Valley, N. Y.

NIAGARA FALLS, Sept. 24 (AP)—Bernard Cardinal Griffin, archbishop of Westminster, London, today called upon Catholics to unite "against the common enemy of Communism and of materialism."

In a sermon prepared for delivery at a postlunch mass here, the only out-of-town event of the Buffalo Centennial Eucharistic Congress, Cardinal Griffin said: "In many countries the state shows a benevolent tolerance of the Catholic religion. In some countries there is an active prosecution of our holy faith."

"Now more than ever it is necessary that Catholics throughout the world should be united against the common enemy of Communism and of materialism." "It is the mass that will unite us," he said. "It is the sharing in the body of Christ by Catholics throughout the world that unites us to him and to one another."

"We here today are united in a very real way with our brethren in Yugoslavia and in many countries east of the Iron Curtain where the faithful have to attend mass at a great risk to their lives."

Meanwhile, St. Joseph's new cathedral in Buffalo was the setting for one of the most impressive ceremonies of the four-day demonstration of the Catholic belief that Jesus Christ is present in the sacrament of Holy Eucharist (communism).

It was the rare oriental pontifical mass, sung in Ukrainian and Aramaic language of Christ.

Other events scheduled for today, the third day of the Congress, included a low pontifical mass for children, presided over by Francis Cardinal Spellman, archbishop of New York, and a civic stadium sectional meeting for working men expected to attract 50,000 persons tonight.

About 20,000, the largest gathering in the Congress to date and the biggest indoor crowd in Buffalo's history, jammed Memorial Auditorium last night to hear the Rev. Marg. Fulton J. Sheen, Washington, D. C., declare that "politics has become the new theology."

"Passion and zeal which were once associated with the cause of God have now been transformed into fanaticism for Caesar," said Marg. Sheen. "By losing themselves in politics they seek to find the way out of individual chaos."

City Meeting

(Continued from Page One) Janes of chicken coups to 50 feet from neighbors homes and 25 feet from homes of owners, was adopted. Numerous complaints about chickens being kept too near homes prompted the action, according to Mr. Sawyer.

The Commission adopted the State approved beer and wine ordinance amendment which increases the license cost for selling these beverages above 3.2 alcoholic content from \$15 to \$50.

The ordinance increasing the utility service tax to \$2.00 maximum was placed on final reading and adopted. It will go into effect Oct. 1, said Mr. Sawyer.

Estimates for the reurfacing of a number of City streets were made. City Attorney Fred R. Wilson rendered an opinion that the City had the right to assess abutting property owners as to street paving costs. The average cost to an owner of a 50 foot lot on a 24 foot wide street was estimated at \$40, Mr. Sawyer reported that he had taken up the matter of financing the paving with Lady and Wheeler, Orlando brokers. Action on the matter was deferred by the Commission pending receipt of advice from the brokers on how to finance the paving which is needed on about 40 miles of streets.

The Commission, said Mr. Sawyer, instructed him to notify Harry Crosswell, who leases the Municipal Trailer Park on French Avenue, that unless he makes a promise to clean the place up and make necessary repairs to buildings within 10 days that the City will terminate his lease.

Who were authorized for a new automobile for City Building Inspector Grady Duncan, including the trade-in of his old car. Purchase of \$500 refunding bonds was approved. The sum of \$1033 authorized for a new cash register for the Waste Utilities Department.

Pilot Objectives

Celery Grate for funds, the club voted to make a monthly donation of \$5 until such time as the amount could be increased. Mrs. Felice West was appointed to act on the advisory board of the Grate.

Making a report of the Milk Bank, a project of the club, Mrs. West stated that five quarts of milk are being given daily to four needy families in the county, representing a cost of \$32.98. The president, Mrs. Joel Field, requested that a complete report be sent to the donors of the Milk Bank each month. The Pilot Club guarantees \$15 a month toward the Bank, and solicits the help of other organizations or interested persons in this worthwhile project.

Volunteers for the forthcoming Tuberculosis Seal Sale were called upon to help prepare the seals and folders for mailing, to which a number of the members responded. Mrs. Mary Hawkins, finance chairman, displayed samples of Christmas cards which the club will sell. She also urged members to make preparation for the rummage sale which will be held early in October.

Miss Ramsey, civic chairman, stressed the importance of courtesy to strangers for our midst, also for all members to better inform themselves in civic affairs throughout the county, state and nation. She pointed out the importance of electors to avail themselves of the opportunity of voting.

A report from Mrs. Laura Albrecht, president of Pilot International, revealed that several new clubs have recently been organized in California, the latest one being in Los Angeles. Mrs. Sarah Hughes of Orlando, district governor of district four, in a letter to the club, requested as many members as could to attend the Fall Council meeting to be held at the Sheraton-Plaza Hotel in Daytona Beach Oct. 4 and 5. "The secretary was instructed to place an order for clothes hangers which will be sold by members to raise money for club projects. There were 26 members present at the meeting."

Gold Returned

(Continued from Page One) ancial difficulties.

In Paris, French leaders were reported to have told Secretary of the Treasury Snyder that France will face a financial crisis within a few weeks unless help is forthcoming and that any aid under the Marshall Plan would be too late.

Lovett said the United States urged a preliminary distribution of the gold not later than Oct. 15 and the commission has agreed to try to meet this deadline.

Of the Nazi-looted gold, about \$200,000,000 worth has been recovered by American forces in Germany and about \$70,000,000 worth recovered from other countries.

Eleven countries have filed claims to the money, totalling nearly \$800,000,000, and Lovett explained about half the amount now in hand will have to be withheld to meet claims.

Aside from France the claimants include Albania, Austria, Belgium, Czechoslovakia, Greece, Italy, Luxembourg, the Netherlands, Poland and Yugoslavia.

U. S. Joins Russia

(Continued from Page One) of the Soviet boycott on the Trusteeship Council. It now has 10 members, with Russia absent.

The new big power clash on trusteeship occurred as the Assembly shifted from Flushing Meadow Park, New York, to begin committee work here at UN headquarters. It came amid these other developments:

1. The United States delegation to the United Nations, fearing a "very nasty situation" might develop from anti-Semitic has ordered a police campaign against orators who denounced Jews, a government source said today.

The informant said that under the present government policy street speakers who supported Fascist ideologies but did not denounce Jews would not be molested.

after South Africa demanded more time to prepare her statement.

L. Lingo, Jr., Mr. and Mrs. James W. Wilson, who have been spending the summer months at Denver, Colorado, have returned home amidst the hurricane. En route they stopped in North Carolina for a few days. Mrs. H. R. Hunt, President of the Oviedo Woman's Club, who has been visiting relatives and friends in the northern and northeastern states during the summer, has returned home.

Miss Lola Ruddle is confined to the Florida Sanitarium, Orlando. T. L. Lingo reports fishing is very good at Vero Beach. He urges all who go to take heavy tackle, especially the "windless" type.

General Strike

(Continued from Page One) last night to be "the first Communist attempt to hamper the essential life of Trieste," arrested nine union members at 3 A. M. on charges of assaulting and intimidating workers who refused to strike.

The accused will be arraigned before an AMG court. They included Andre Turcovic, president of a factory committee at the San Marco ship yards, and Giglio Di Patreico, secretary of the same committee.

The charges grew out of alleged beating of members of the moderate Camera Del Lavoro union who refused to participate in a strike called to protest the machine gun killing of an 11-year old girl in Slav-Italian rioting at the birth of the Free Territory.

The beatings originally led to AMG suspension of the six Sindacati Unici members, which resulted in yesterday's general strike order.

AMG police yesterday arrested ten persons after a bomb was thrown at a trolley car, injuring a passenger, and took into custody another 12 persons, accused of intimidating workers who wanted to go to their jobs.

He said in an interview it was called to protest "the attitude of partiality shown by AMG in favor of fascist elements" as well as a protest against living conditions in Trieste.

Rizzotti charged AMG with "encouraging incidents which resulted in violence." Communists and Yugoslav sympathizers were arrested and held for months without charges, he asserted. "Fascist elements found with their bombs and tommyguns in their possession were released almost immediately."

Meanwhile, AMG said there was nothing new to report concerning the American officer Robert Williams Van Allen of East Orange, N. J., and two expelled men who fell into the hands of a Yugoslav patrol Monday. No reply has been received to the American Military Authority's request for their return, it was said.

Storm Damage

(Continued from Page One) save the valuable herds worth many thousands of dollars, have failed, reported H. L. Speer, assistant county agent here.

The rancher in the boat escaped with his life. As word of possible victory in the battle of the dike spread, the people of the Everglades were set forth in all its optimism by W. H. Van. He has been able to control the water on 400 acres between Belle Glade and Pahokee—and today he was planting beans.

CHARLESTON, S. C., Sept. 24 (AP)—A tropical storm which originated in the Caribbean Sea and caused anxiety but little damage as it crossed Florida and Georgia, moved through the Carolinas today and the Weather Bureau said it is no longer "severe."

The latest advisory from Miami placed the center of the disturbance about 50 miles northwest of Charleston at 10 A. M. (EST) It was moving northward with strongest winds of 35 miles and 45 miles an hour gusts. It was expected to reach the North Carolina-Virginia cape section tonight.

Heavy rains accompanying the disturbance flooded streets in Savannah, Ga., and other coastal cities. Storm warnings were up from Hatteras to Manasquan and small craft warnings flew from Hatteras to Brunswick, Ga.

Meanwhile on Florida's West Coast harrassed last week by a severe hurricane and again this week by threat of one, the sun came out. Some minor damage from the latest storm was reported on beaches at Bradenton and Sarasota. The citrus crop escaped.

Jews Protected

LONDON, Sept. 24 (AP)—The British government, fearing a "very nasty situation" might develop from anti-Semitic has ordered a police campaign against orators who denounced Jews, a government source said today.

The informant said that under the present government policy street speakers who supported Fascist ideologies but did not denounce Jews would not be molested.

after South Africa demanded more time to prepare her statement.

President Meets With His Cabinet On Big Problems

President Truman met with his cabinet in special session this afternoon and invited congressional leaders to the White House Monday to discuss the general food situation at home and abroad.

An official told a reporter the cabinet discussion involves the "general food situation," presumably including European relief and the effect this may have on the high cost of living in the United States.

There were also these other developments: 1. Senator Taft disclosed in Seattle that Mr. Truman has asked Republican and Democratic congressional leaders to discuss with him Monday the world food situation as it relates to proposed exports under the Marshall Plan of aiding European recovery.

2. Top level American officials are arriving or are enroute home to give President and Secretary of State Marshall first-hand information on European conditions and on the 16-nation Paris conference calculations that \$22,400,000,000 will be needed in outside aid, chiefly from the United States, to help rebuild Europe in the next four years.

The problem of soaring prices for food and other items, subject of country-wide debate—in public meetings, legislative halls and in corner grocery store—is being given "every consideration" by President Truman.

Mr. Truman, giving no indication that he plans to call a special session of Congress on the price situation, says he hopes to reach a decision soon "on the best manner of approach" to the price situation.

The President's views were expressed in a letter to Rep. O'Toole (D-N.Y.) in reply to a letter O'Toole had written to Mr. Truman while he was in Brazil.

"The danger from high costs is becoming increasingly serious every day," O'Toole said, adding that if Mr. Truman "gives the problem the consideration I know he will, a special session is practically inevitable."

Mr. Truman, who is to make a statement on world food problems "in a few days," is studying recommendations of his cabinet committee and was reported conferring with the possibility of a voluntary food rationing system at home and smaller grain shipments abroad.

Also in Washington, Senator Connolly (D-Tex.), describing the control of soaring prices "a very difficult and troublesome problem," said he was "not prepared to say whether a special session of Congress to control prices would be justified." He said he planned to confer with the President about the price situation.

Senator Ralph E. Flanders, subcommittee of the joint congressional committee investigating (R-V-I), chairman of the eastern high prices, said in New York that the group would ask Mr. Truman to take action to curb speculation on commodity exchanges.

At the hearing in New York testimony yesterday stressed charges that speculation in the exchanges was in large part responsible for recent increased prices of food.

Rep. Robert F. Rich (D-Pa.), a committee member, said if commodity exchanges would not curb speculation "the government ought to." He asserted that "letting speculators make profit on food stuffs is a crime against our civilization."

In the country's commodity markets yesterday, only wheat made substantial gains, continuing its upward trend with closing prices 3 to 4 and a half cents higher. Prices of corn, oats, sugar and eggs showed slight declines.

Throughout the country, however, retail prices for meat, milk, bread, butter, eggs and other staples generally remained at about the same levels as last week.

Red Newspapers

(Continued from Page One) posed, Soviet-Iranian oil agreement.

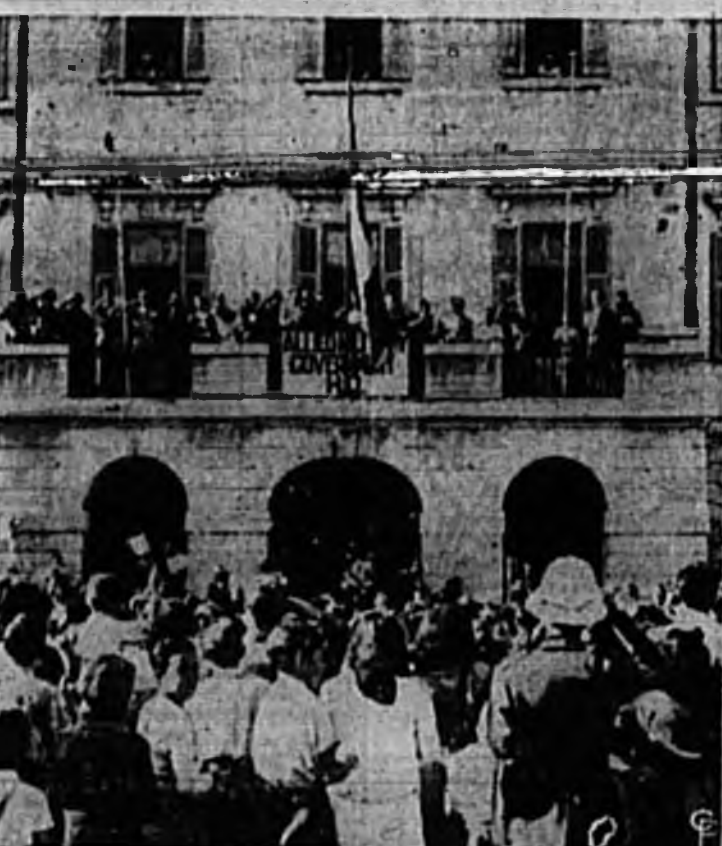

The commentator wrote that "very recently one Iranian diplomat in Iran has added his voice to the campaign directed against fulfillment of the Soviet-Iranian agreement." He did not name the diplomat.

"Covering himself with hypocritical phrases about 'national interests' of the Iranian people and concerning himself with strengthening the position of imperialistic circles of his country in Iran, this diplomat said Iranians would not be bound by obligations undertaken by her in the Soviet-Iranian agreement," the article said.

Foreign observers here said the reference probably was to U. S. Ambassador George V. Allen in Tehran.

The coast of Colombia was one of the first parts of the American continent visited by the early Spanish navigators.

Historians believe that the direct ancestor of American comic strips was the British Hogarth's "The Rake's Progress."

Kiwanis Club

(Continued from Page One) games are scheduled, with two in the office, he said, and predicted even better attendance than last year.

Assistant Coach Tyler, former Rollins grad, said that his "green boys" were coming along pretty well, were constantly improving and expressed the hope of a good showing against the Jacksonville team of seniors Friday evening.

Principal Morris highly praised the work of Coach Kettle and his assistants.

(Guests introduced by Joel

Field were: T. Mead Wilson, former state Legion commander; Lieut. Col. M. G. Williams and Capt. George C. Walsh of Jacksonville, Lloyd F. King of Winter Park, Salvation Army Major Allan S. Wherton and Herbert Sienstrom of the Key Club.

Among the first examples of the comic strip, which started to appear in magazines during the latter half of the 19th century, was Palmer Cox's "The Brownies," which depicted the romantic life of tiny elves.

There were 100 high schools in the United States in 1860 compared with 29,000 in 1940.

MEDICS SUMMONED

SANTA ANA, Calif., Sept. 24 (AP)—Medical witnesses were summoned today by Louise Overell and George Gollum as they opened their sur-rebuttal to the state's accusation that they killed

their testimony by late today. Chief contention of the defense will be that the people's witnesses erred in estimating that financier Walter E. Overell was no more than 12 inches away from the

Overell yacht. Prosecutor Eugene Williams rested the state's rebuttal late yesterday. The defense lawyers said they planned to use three or four witnesses and should conclude

There are approximately 180,000 species in the family of beetles, the largest single order in the animal kingdom.

Russia Accuses U.S. Of Violating Pact

Potsdam Agreement Bought Into Argument On Admission Of Balkan States

LONDON, Sept. 25. (AP)—Britain is urging a postponement of the Foreign Ministers' Council meeting on the German peace because the United Nations Assembly may go on for two months, the Foreign Office announced tonight.

LAKE SUCCESS, Sept. 25. (AP)—The United States demanded late today that Albania and Bulgaria be barred from participation in the United Nations Assembly's political committee debate on the Balkan question unless they agreed in advance to accept Assembly decisions.

LAKE SUCCESS, Sept. 25. (AP)—Australian Delegate W. R. Hodgson today accused Russia of using "blackmail" aimed at forcing the Security Council to admit Soviet satellites to United Nations membership. Hodgson made the blackmail charge in referring to a statement by Soviet Deputy Foreign Minister Andrei A. Gromyko that Russia would vote for admission of Italy only if the Council also admitted Hungary, Romania, Bulgaria and Finland.

LAKE SUCCESS, Sept. 25. (AP)—Russia charged today that the United States and Britain were violating the Potsdam agreement by opposing the admission of Soviet satellites to membership in the United Nations. The new Soviet attack on the big western powers took place in the Security Council.

Soviet Deputy Foreign Minister Andrei A. Gromyko, sitting as Council president for this month, declared he would not vote for Italy's admission unless the Council admitted Hungary, Romania, Bulgaria and Finland.

The United States and Britain supported Italy, but objected vigorously to admission of the Communist-dominated governments of Hungary, Romania and Bulgaria. They insisted that a separate vote be taken on each of the five enemy states.

Polish Foreign Minister Zymunt Muzalewski touched off the new big power fight by proposing formally that the Council (Continued on Page Eight)

Heavy Rainfall Is Reported In Carolina

By ASSOCIATED PRESS

Heavy rains fell in the southeastern section of the country as the tropical storm, diminishing in intensity, moved northeastward across the Carolinas today, as sections in the Midwest reported frost and temperatures in the 20's.

The storm in the eastern part lost most of its force as winds veered, but many Carolina and Virginia cities reported abnormal heavy rainfall. The fall at Greensboro, N. C., measured more than seven inches, the highest on record. Lighter rains extended northward to southern New England.

Minnesota and Wisconsin were the coolest spots on the country's weather map this morning, with frost reported in some areas. The main cool air extended from northern Illinois and northern Indiana and federal forecasters said it would spread across the Ohio River valley. The morning's low was 25 at Duluth, Minn.

Clear weather, with temperatures in the high 80's and 90's were reported in the Southwest and Pacific coast states yesterday and more of the same was predicted today.

AUTO ACCIDENT

DELAND, Sept. 25. (AP)—Melvin Goldberg, 20, of Deland, freshman at Stetson University last year, was killed today when his car overturned near here.

Patrolman H. E. Douglas said he "apparently lost control at 37 1/2 feet and overturned four times.

DEATH THREATS

JERUSALEM, Sept. 25. (AP)—David Ben-Gurion said today he received a letter, signed "The League of Fighting Youth" for a "Free Palestine," threatening to kill him within three months unless he withdrew his support for the proposal to partition Palestine. Ben-Gurion is president of the Jewish Agency executive.

Similar letters were reported to have been sent to three other prominent Jews. No indication was given whether the organization—heretofore unknown—was Arab or Jewish.

New Atomic Chain Reactor Pile Is Planned For Oak Ridge Plant

WASHINGTON, Sept. 25. (AP)—Plans for a new atomic chain reactor pile at Oak Ridge "several times more powerful" than the one now operating at the Tennessee plant were announced today by the Atomic Energy Commission.

A member of the commission staff said the pile will open new opportunities to explore some of the "many things about the atom that still are a mystery to science."

He said it will offer means for developing more powerful atomic weapons and broaden the field for uses of peace-time use of atomic energy.

The plans were disclosed in an announcement that the control of the Clinton Atomic Laboratories at Oak Ridge will be taken over by the University of Chicago under a four-year contract. Since July, 1945, the laboratory has been operated by the Monsanto Chemical Co.

Fourteen southern universities, members of the Oak Ridge Institute of Nuclear Studies, will cooperate with the University of Chicago in research at the Clinton Laboratories, the announcement said.

It listed as a principal part of the new program the design and construction of a new high-flux reactor several times more powerful than the existing Oak Ridge pile, for further studies and expanded research requiring intensities not now available.

The announcement also said the laboratory will continue its efforts to apply atomic power to industry, engineering and in-

dustrial firms are cooperating in this program.

The program includes a school for the training of scholars and industrial personnel, to spread the "know-how" of producing and applying atomic energy as widely as possible throughout the nation. There will be "on-the-job" training for graduate students who will be given credit toward advanced degrees.

The program brings to a total of 52 the universities sponsoring this plan of expanding atomic knowledge.

Besides the 14 southern universities, 29 are participating in the work of the Argonne National Laboratory at Chicago and nine eastern universities are allied with the Brookhaven National Laboratory at Patchogue, Long Island.

The 14 southern institutions, allied with the Clinton project are: Alabama Polytechnic (Auburn); Catholic University, Washington, D. C.; Duke; Emory University, Atlanta, Ga.; Georgia Tech; Louisiana State; Tulane; Universities of Alabama, Kentucky, North Carolina, Tennessee, Texas, and Virginia, and Vanderbilt University.

State Official Is Grilled On Entry Of Eisler To U. S.

Mrs. Roosevelt's Letter To Welles Is Shown As Evidence

WASHINGTON, Sept. 25. (AP)—George S. Messersmith, then assistant Secretary of State, acknowledged today that he wrote the American Consul General at Havana in 1939 urging prompt and personal consideration of Hanns Eisler's application for a visa to reside in the United States.

Testifying before the House Committee on Un-American Activities, Messersmith also said he sent the Consul General a copy of a letter that Sumner Welles, (Continued on Page Two)

Byron Beard Head Of Student Council

Byron Beard, son of Mr. and Mrs. R. L. Beard was yesterday elected to the responsible post of president of the Student Council, of Seminole High School and Floyd Co., Fla. The final choice of girl cheer leaders included Betty Duncan, Peggy Pippin, Betty Jane Copeland, Phyllis Bach and Shirlee Moreland.

Boy cheer leaders elected were: Alvin Penley, Francis Temple, Robert Faircloth, Bill Duncan and P. R. Bach.

The football field was being showed this morning by members of the Future Farmers who coaxed the back firing motor mower to do its duty. The new score board is completed. The stand has been repaired. This morning the City Council agreed to place more cinders inside the entrance for the benefit of motorists at the game tomorrow night.

Enrollment at the school is 480; teachers number 22.

SANFORD MAN KILLED

WILLIAMSPORT, Pa., Sept. 25. (AP)—A man, identified by police as Richard Buckner, 45, of Sanford, Fla., died in the Williamsport hospital last night after his left foot was amputated under the wheels of a Pennsylvania Railroad freight train he tried to hop here Tuesday night. Death was attributed to shock.

RECORD TURTLE

NANTES, France, Sept. 25. (AP)—A turtle weighing 1,254 pounds has been caught off the Brittany coast. Fishing authorities said today it was the largest turtle recorded in France since Sept. 4, 1929.

Eccles Warns Of Approach Of Big Slump

Says U. S. Ought To Spend More On European Aid And Less On Military Forces

NEW YORK, Sept. 25. (AP)—Deposits in Mutual Savings Banks of the nation, totalling \$17,525,000,000 as of Aug. 31, continued to fall during August but at a lesser rate than for any month since Jan. 1, the National Association of Mutual Savings Banks announced today. The overall increase in August amounted to \$61,000,000 of which \$38,000,000 was regular deposits and \$14,000,000 represented Christmas clubs, school savings, and other special purpose accounts.

WASHINGTON, Sept. 25. (AP)—Maurice S. Eccles, chairman of the Federal Reserve Board, suggested today the United States might better spend less on its military forces in order to aid foreign Democrats.

"It may be we could spend less on military forces if more were spent on maintaining conditions on which Democracy and peace depend," Eccles said in a speech to the National Association of Supervisors of State Banks.

"We can't very well continue to spend as much as we have on both," Eccles said, declaring "vigorous inflationary forces" already are at work and a "severe economic storm appears to be threatening."

Eccles said the United States had spent more than \$25,000,000,000 for maintenance of national defense in the first two postwar fiscal years, and more than \$10,500,000,000 has since been provided in foreign aid for that period.

"It cannot be denied or ignored that continued large loans and grants to foreign countries are either a heavy current burden upon our tax payers or a source of inflationary force on our economy," he said. "But so are our even larger military expenditures, which are considered by

Dr. Johns To Discuss New School Laws

The Seminole Teachers' Club will meet at 8 o'clock in the evening on Oct. 2 at Seminole High School. Dr. R. L. Johns, Professor of School Administration, University of Florida, and Research and Field Studies Specialist, Florida State Department of Education, will be the guest-speaker.

Dr. Johns was active consultant for the Citizens' Committee in preparing the program on school legislation at the last session of the Legislature. He will explain that portion of the new laws having to do with the schools as they are to be understood by the local teacher, and as viewed and interpreted by the State Department of Education.

Before coming to the University of Florida, Dr. Johns was professor at the University of Alabama, and previous to that he was with the United States Department of Education. An invitation to all parents in the county, and all others who are interested in progressive education to attend this meeting is extended by the Seminole Teacher's Club.

Rate Increases Are Given Express Agency

WASHINGTON, Sept. 25. (AP)—Rate increases intended to yield the Railway Express Agency an additional \$61,254,000 a year have been authorized by the Interstate Commerce Commission.

The commission acted yesterday, approving hikes of as much as 53.5 percent on short haul business with lesser increases ranging down to one-half of one percent on long-distance traffic.

The rate changes were authorized for one year or until further action by the commission and may be applied upon 10 days' notice to the public. The Express Agency, which is owned and operated by the railroads, had applied for increases that would hike its revenue by \$70,000,000 annually to meet increased operating costs.

Truman Asks Americans To Conserve Food For Europe

VETERANS OF FOREIGN WARS

Francis P. Whitehair (center) talks to James A. Wright (right) at the Veterans of Foreign Wars supper Monday night at the Mayfair Inn, as State Adjutant A. Reid Mann of the Fifth District, VFW, looks on. More than 150 members and guests were present at the meeting.

WASHINGTON, Sept. 25. (AP)—CIO President Philip Murray today asked President Truman to call a special session of Congress to reestablish price control and food rationing. Murray made public a letter to the President in which he made the request. The letter also suggested that the President ask legislation to "impose full taxes on extortionate profits."

WASHINGTON, Sept. 25. (AP)—CIO President Philip Murray today asked President Truman to call a special session of Congress to reestablish price control and food rationing. Murray made public a letter to the President in which he made the request. The letter also suggested that the President ask legislation to "impose full taxes on extortionate profits."

WASHINGTON, Sept. 25. (AP)—President Truman today asked Americans to save food for Europe's hungry. And said he still hopes emergency aid can be met without a special session of Congress.

In a news conference, Mr. Truman left open, however, the possibility that the legislators may be summoned into an emergency session. That is a question to be explored in a conference he will have Monday with Republican and Democratic congressional leaders.

Asked whether he thinks a return of outstanding price controls might be necessary, he replied that those are matters for Congress to decide.

In appealing for food conservation, the President observed that it would help budgets of American families as well as providing food to combat hunger in Europe.

His 20-minute talk with reporters ranged over a wide field of the problems involved in helping Europe get through the winter and spring months.

Half Of Turkeys And Quail Lost In Recent Blows

Commission Reports Wildlife Picture Bad In So. Florida

TALLAHASSEE, Sept. 25. (AP)—More than half the quail and wild turkeys in South Florida were lost in the five days of rain and subsequent high water that came with last week's hurricane, a State Game and Fish-Water Fish Commission survey showed today.

Commission Director Ben C. Morgan said that on the basis of reports from wildlife offices in seven South Florida counties, the turkey and quail picture "is far from bright."

The officers' reports indicated, however, that deer and squirrel in the storm area had been harmed "little, if any."

Luther Bunnett, Miami agent for the Commission, reported flood waters had destroyed 80 percent (Continued on Page Eight)

Cardinal Spellman Calls For Renewed Fight On Evil Isms

BUFFALO, N. Y., Sept. 25. (AP)—The Buffalo Cardinal Archbishop Spellman today called for a renewed fight against evil isms. He said the faithful should be encouraged to "go to the aid of the oppressed and the persecuted."

Battle Is Fought For Seven Hours With Guerrillas

WASHINGTON, Sept. 25. (AP)—The State Department announced today it will take up "immediately" with the Yugoslav government the case of three American soldiers seized and held captive by Yugoslav troops along the Trieste frontier. Press officer Michael McDermott told a news conference that a protest by Maj. T. S. Meyer, commander of the British-American forces at the Free Territory at Trieste, has produced "no results."

ATHENS, Sept. 25. (AP)—Guerrilla forces estimated at 250 bo-

Walks Are Laid To Information Booth

Street Supt. Sid Richard made good this morning his promise to get busy and cement the two short walks leading to the entrances of the new Jaycee-sponsored Tourist Information Booth. Rainy weather had delayed the project.

"On the first fair day I will see that the walks are finished," Mr. Richard said last week this morning. Mr. Richard had his whole crew with cement mixer, bucket, and shovel, and was down on hands and knees getting to it that the walk was smoothed just right. City Engineer Ralph Lubinski was on hand to aid him.

The latter reported that it will probably take City crews several weeks removing debris from streets. This for the most part is moss and small limbs.

"Sanford certainly got off very light from the storms," he declared. "You ought to see the streets of Palm Beach all littered with blown over coconut palms." Mr. Lubinski spent the week-end in Palm Beach visiting his parents.

LEO THE LIP IS BACK

CINCINNATI, Sept. 25. (AP)—Walter Mulby, secretary of business, said today Leo Durocher's suspension automatically ended with the conclusion of the World Series next month and that Commissioner A. B. Chandler had advised the former manager of the Brooklyn Dodgers he was free to negotiate for a job for 1948.

FIGHT DENIED

HAVANA, Cuba, Sept. 25. (AP)—General Genovevo Perez Damera described as completely without foundation today a report that Cuban forces at Comandante Key had besieged 1,500 armed men organized for the purpose of overthrowing the Dominican Republic.

Mrs. F. Whitehead Died Today At Daughter's Home

Mrs. Florence Whitehead, a Whitehead mother of Mrs. G. L. Park, died early this morning at the home of Dr. and Mrs. Park on West Southwest Street following a long illness. A resident of Sanford, Mrs. Whitehead was the daughter of Mr. and Mrs. J. W. Whitehead, and the widow of Mr. J. F. Whitehead.

Surviving her daughter Mrs. Park, and her two daughters, Mrs. R. B. M. DeLand, three sons, Mr. H. C. Webb, Mrs. R. F. Park, and Mr. Leila Anderson, all of Gray, Mrs. one brother, Joe Anderson of Hillsborough, Ga.; four grandchildren, Charles, Park, Jr., Bobby, and Billy Park of Sanford, and Mrs. Billie J. DeLand.

Funeral services will be held in the Egleston Funeral Chapel Friday at 10:00 A. M. with the Rev. W. P. Brooks, Jr., officiating. The casket will be consigned to H. M. Patterson and Son in Atlanta, Ga., to be buried in the Woodlawn Park Cemetery Sunday at 2:00 P. M.

Banks Asked To Keep Consumer Controls

WASHINGTON, Sept. 25. (AP)—A. A. Rogers, Oregon state bank superintendent, recommended today that banks hold to loan term limitations now imposed under consumer credit controls after the controls are dropped Nov. 1.

The regulations generally require that loans for a purchase of such things as automobiles, refrigerators and washing machines be limited to two-thirds of the purchase price and that they be repaid within 15 months.

Rural Common Sense

By Spud Johnson

The findings of agricultural research are potentially valuable to scores of commercial industries as well as farming, a recent U. S. Department of Agriculture report shows, but the benefits derived depend largely on individual resourcefulness in applying them. One person may see in the discovery of a new insecticide, for instance, an opportunity to establish a pest-extminating business in his home town. Another may see in the same research a better way to control insect pests in his store, factory or hotel. Besides suggesting how businessmen and others may keep informed on the results of scientific studies of the Department of Agriculture and operating State experiment stations, the report summarizes numerous industrial applications that have already been made. To cite a few: An improved variety of tomato,

the Marglobe, besides benefiting growers has provided more business for processors of tomato juice and other canned and bottled tomato products.

Plans for improved farm structures have enabled lumber dealers to develop more business at a profit to themselves as well as beneficial to farmers—for example when one dealer posted plans for a well-designed dairy barn on his office wall he sold material for 75 barns.

Research on hog-cholera serum and other veterinary biological products has led to the commercial manufacture of about \$19,000,000 worth of such products annually. Research on animal parasites has disclosed chemicals, effective for their control, now distributed by many manufacturers, jobbers and other businessmen.

Research on animal fibers has found profitable applications in the manufacture of textiles, clothing, bedding, brushes and other goods. Studies by dairy specialists have provided technical knowledge useful to the market-milk condensed

milk, butter, cheese and ice-cream industries. For instance, the discovery of a process for making textile fiber from the casins of skim milk has led to the domestic production of about 10,000,000 pounds of such fiber annually.

Technical knowledge obtained through home-economics research has found application in a wide range of industries, especially those dealing with foods, clothing and household appliances.

Research in forest products also has had far-reaching applications not only in the building industry but also in others dealing with the manufacture of paper, paints, plastics, boxes, storage batteries and sundry other articles.

Male ants live only a short time in adult state; the life of the workers is only a few months. But the average life of the queen ant is about a year although some have been known to live six or seven.

Over 100 Million Is Distributed By State Welfare Commission

TALLAHASSEE, Sept. 25 (AP)—

State's needs aged and blind and to dependent children in the past ten years, and the peak of the steadily growing program still is not in sight.

The Board reported to Governor Caldwell that joint state-federal disbursements had increased from \$4,057,639 in the first year, 1937-38, to \$25,092,777 last year. The budget calls for about \$35,000,000 this year and next.

"As will be noted, disbursements have progressively increased," the Board said in its formal report.

This has been due to increased legislative appropriations since 1941 demanded by economic transitions unprecedented in the history of the state.

"Because of abnormal conditions, it is possible at this time only to speculate upon when the program will level off," the Board said, but it will not undertake to make a guess.

Factors that will tend toward a reduction in the number of recipients and the amount of cash assistance paid are lowered cost of living and increasing number of cases of aged persons getting pensions under the old age insurance system to which they have been making regular payroll contributions rather than through the State Welfare program.

By far the biggest portion of Florida Welfare funds during the past ten years, \$91,966,676 went to old age assistance. A total of \$13,213,222 was paid out for aid to dependent children and \$5,411,781 for aid to the blind.

Quick Frozen Fillets Make Good Substitute For Steak At Picnics

By CHARLOTTE ADAMS

door picnics should cease this fall just because the price of meat is beyond your budget for a party.

An outdoor fireplace party is one of the nicest ways to entertain anybody, but teenagers love this informal entertaining best of all.

Be sure to have the proper equipment handy, in particular remembering that outdoor eating is likely to be messy.

The best way I've found to achieve a really useful bill for this purpose is to use Irish linen dish towels of generous size.

Now for the food! A lobster is of course, the most luxurious seafood you can serve.

Charcoal Broiled Lobster Have the butcher prepare your lobster for broiling at the very last minute if you possibly can.

Flatten the lobster, shell-side down, on your grill. Brush the split side generously with butter or margarine and sprinkle with salt.

Lobsters need something to zip up their rather bland flavor. Of course they're served with melted butter or margarine.

Progress In Africa

Unique in the world's family of nations today is the Union of South Africa. Here is a country practically assured of an era of unlimited prosperity.

While it looks to the United States for capital and machinery, the U. S. A. can pay for what it gets. Here is produced half of the world's gold, and this remains the real purchasing power in world economy. There are also other natural resources which have been scratched only lightly. Already American plants, in keeping with the industrial awakening there, are going in Africa where products will vary from rubber tires and automobiles to vaselins and medicinal supplies. Skilled artisans and trained factory executives are being welcomed.

Africa may have seemed far distant in the past. But air travel is fostering a new frontier of prosperity. It is welcome to hear of one country which has a hopeful outlook and doesn't expect charity from the United States.

Star Of World War I

Why did World War I produce fewer famous American soldiers than World War II? Was it because the later war was much longer and fought on a larger scale, or because the earlier was mainly fought in the trenches, giving less opportunity for strategy? At any rate, the recent struggle gave us Eisenhower, Patton, Bradley and a dozen others whose names are widely familiar. Against these World War I can show only Pershing and his three aides, Hunter Liggett, James G. Harbord and Robert L. Bullard. Liggett died in 1935, Harbord only the other day and now Bullard is gone.

An Alabamian, Bullard lived up to the fighting traditions of his state. He helped to capture the Indian fighter, Geronimo, served in the Philippines, fought at Chateau-Thierry and Verdun and became a lieutenant-general in command of the Second Army. Since his retirement he was president of the National Security League and a firm supporter of a strong national defense.

Only Rogers now remains of the top-notchers of the war of 1917-18.

Unesco's Influence

In preparation for the second assembly of the United Nations' Educational, Scientific and Cultural Organization, known as UNESCO, to be held in Mexico City in November, the United States National Commission for the organization met recently in Chicago.

Its chairman, Dr. Milton S. Eisenhower, brother of the army's chief of staff, spoke of efforts toward a new development in the nation's foreign policy. UNESCO, said Eisenhower, "advises government officials but it retains the right to speak its own mind. It marshals the educational, scientific and cultural forces of this country for service in both governmental and private channels."

Dr. Richard McKeon, an executive board alternate, cautioned against making any branch of culture an end in itself and setting up a screen for political action. Members of the commission were gratified at the extent of American interest and support of this UN subsidiary.

Success of the United Nations rests on the free flow of information and ideas between countries and the knowledge and understanding of each group of people by the others. The peace of the world ultimately depends on the peoples of the world.

Eisler Inquiry

(Continued from Page One)
then Under Secretary of State, had written Mrs. Eleanor Roosevelt who had expressed interest in Eisler's case.

The committee is investigating the question whether high government officials have knowingly permitted Communists to come to this country in violation of immigration laws.

Eisler, now a Hollywood song writer, testified yesterday that he joined the Communist Party in his native Germany in 1928, but declared he was never active and is not now a Communist.

Messersmith took rigorous exception when Rep. Rankin (D-Miss.) called the letter "almost a directive" for the consul general to give Eisler a visa.

The former State Department official declared it was not intended as a directive at all.

Rep. J. Parnell Thomas (R-N.J.) committee chairman, commented: "If you can explain yourself out of this, you're good."

Messersmith said the letter to Coert Dubois, Consul General at Havana, was "merely to make it clear to him that this was a case that had angles" requiring careful consideration and personal attention.

LAKE SUCCESS, Sept. 24, (AP)—Mrs. Eleanor Roosevelt said yesterday her note to Sumner Welles in behalf of Hans Eisler, admitted former Communist, was strictly routine. She said she did not know Eisler and did not remember the note and did not comment on the note which was made public in Washington by the House Committee on Un-American Activities. Mrs. Roosevelt said:

"The note to Sumner Welles simply passed for consideration a name sent to me. When I was in the White House I had hundreds of such requests a month and, depending on the character of the request, the letters were passed on to the correct government department."

"I never knew Mr. Eisler and, in fact, I don't remember the note concerning him."

"In a letter written to Mrs. Roosevelt there was a reference to a 'Don Stephens' from the National Artists Club in New York. Stephens was not further identified but was said to be keeping Mrs. Roosevelt posted in the case."

"The committee recessed without developing who approved the Eisler's visa. Stripling said that would be brought out Thursday."

"Fuller says the seats of Mrs. Roosevelt's letters:

(Dated Jan. 11, 1935)

"Dear Sumner:

"All three papers were brought to me yesterday by a friend of Mr. Eisler. The man who brought them is a perfectly honest person and very much disturbed. He thinks the State Department has really told the Cuban consul that they do not wish to admit the

No Figures Released On Coal Miners Pay

MOSCOW, Sept. 24, (AP)—No figures have been published here on the base pay of Russian coal miners who have been singled out for new pension and security benefits by the Soviet government.

It is known that the miners are among the best paid workers in Russia and that the average miner makes over 1,000 rubles monthly. (The ruble is worth 8 1/3 cents at the diplomatic rate and about 13 cents at the official rate.)

However, the amount of a miner's pay depends upon the amount of coal he mines. Also, the pay is higher in direct relation to the responsibility of his position. Some miners make up to 4,000 and 5,000 rubles monthly.

About 80,000 people were killed in the great earthquake, tidal wave and fire in Lisbon in 1755.

THE WORLD TODAY

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

Just as the Democracies in the United Nations finally have cracked down on the tendentious obstructions of the Soviet bloc and are going about their business with the business of making peace, so there is developing a similar tendency in the politico-economic war zones of Europe and Asia.

A prime example is the case of Germany, which is divided into four zones of occupation—Russian, British, French and American. All efforts at drafting a German peace treaty having failed because of the split between the Russian and Western bloc, and the Soviet Union having refused economic cooperation to ease the chaos in the stricken country, the other three Allies show marked signs of consolidating their areas and doing the job without wasting time in further futile negotiation.

This trend is being hastened by the rapidly increasing gravity of the economic crisis. U. S. Senator H. Alexander Smith, New Jersey Republican, who is co-chairman of a joint American congressional committee studying European economic and political problems, stated yesterday in Berlin that it is "initially necessary that at least the three western zones of Germany be tied into the Marshall Plan."

The Senator said it would be desirable to include all Germany in the plan, "but the Russians won't have it and we can't do it around for the chaos of Germany's economic unification." At the same time U. S. Representative Karl E. Mundt, South Dakota Republican, who also is co-chairman of the committee, said he believed the average American does not realize how closely Germany's economy is interrelated with that of Europe and how vitally necessary it is to get Germany back on a self-sustaining basis in order to help all Europe recover.

Approval of this situation, a recent report turned out by U. S. congressional and State Department cooperation and originally secret, says that the Russians are the "principal obstructionists" in the Allied Control Council in Berlin and that Eastern Germany (under Russian control) is "the report further says that the 'suspicion is now possible that the U. S. R. covets Austria, in order to isolate Czechoslovakia, and penetrate Italy and Germany, as well as other parts of Western Europe with Communist political and economic aims."

This coincides with the general belief among western observers that the Soviet occupied part of Germany already is to all intents a Russian dominion and that Moscow is maneuvering for further westward expansion in connection with this belief we have an interesting side-light in the mystery surrounding the whereabouts of Dr. Rudolf Paul, missing premier of the state of Thuringia in the Soviet zone.

Paul has been reported to be and not to be, in the American zone—a fugitive from the Communist zone. A French licensed Neim Kurier said he had escaped with all his documents, including a projected constitution for a Soviet Republic of East Germany.

In any event, whatever may be the truth about Dr. Paul, the fact remains that Russia has a firm grip on Eastern Germany.

The economic pressure has given a fillip to the trend toward a merger of the American, British and French zones into a unified nation. However, the French apparently are not yet ready for a complete merger, but they have agreed that the Marshall Plan for rehabilitation before casting the die. France is fearful that Germany may become strong enough to undertake military aggression against her, but at that point both America and Britain are agreed that the new world fatherland be in position to start another war.

Dr. Bush Is Named Research Board Head

WASHINGTON, Sept. 25 (AP)—President Truman today completed the leadership of the new national defense organization by naming Dr. Vannevar Bush, noted scientist, as chairman of the research and development board.

General Carl Spaatz was appointed chief of staff for the air department. He has been chief of the Army Air Force.

The board which Dr. Bush will head is designed to keep America in the forefront of scientific developments and in obtaining new weapons.

Bush, one of the masterminds in the development of the atom bomb, now heads the Temporary Research and Development Board set up last year by the Army and Navy as a joint organization. He also is president of Carnegie Institution, Scientific Research Organization, and a member of the National Advisory Committee for Aeronautics.

Eisler and he is perfectly sure that the Eislers are not Communists and have no political affiliations of any kind. He is sure that they believe our form of government is 'Heaven' and would be entirely agreeable without reservation to take an oath of allegiance.

"I believe that this said that the Labor department did not examine the case carefully enough. Why not do it all over again and bring it out in the open and let the Eislers defend themselves?"

Cordially, Eleanor Roosevelt

(Signed) Eleanor Roosevelt

On Feb. 7, 1939, said only: "Dear Sumner . . . This Eisler case seems a hard nut to crack. What do you suggest?"

"Sincerely,
"E. R."

Presumably Mrs. Roosevelt's reference to the Labor Department was to an investigation it made of the Eislers.

His MARRY GERMAN'S FRANKFURT, Sept. 25, (AP)—More than 3,000 Americans have applied for permission to marry German girls since the ban on such weddings was lifted last December. U. S. Army headquarters said today.

Approval has been given to 1,592 of the applications and at least 1,350 of the couples already have been married. Applications are still pouring in.

Little English Girl Likes U.S. Shopping

By ED CREAGH
NEW YORK, Sept. 25 (AP)—The poptingest pair of blue eyes in all New York today belong to a blonde 14-year-old girl, who walked into a Fifth Avenue store and bought a big box of candy—for the first time in her life.

"You mean," she said, "I can just go in and buy it? It isn't rationed?"

"You can buy it if you have the money," she assured her.

"Oooh," she said, "if mummy was here!"

Mummy was back in London. Her eyes would have popped, too, if she could have seen daughter Jacqueline wolf a hot dog, wash it down with a chocolate soda, and then make a frontal assault on the candy counter as her introduction to America.

Jackie, who came from England with this writer and his wife for a year's schooling, was six when the war broke out. She can't remember a time when she could buy more than a pound of candy a month or get rich, sweet ice cream.

Or bananas—all she could eat. She stopped in front of a fruit stand on Lexington Avenue. Her piggy bank twitched with excitement.

"Bananas . . . ?" she breathed.

"Oh, Ed, could I—?"

"You're going to be sick, but it's probably worth it. Go ahead."

"No," she decided. "I think I'll wait and have one of those things

you told me about—banana splits, are they?"

She gave the banana split the highest praise in the English schoolgirl vocabulary: "It's absolutely SUPER!" Then she drew a picture of it and sent it to her mother.

New York wasn't all whipped cream. Jackie shied away from the racking taxis, shuddered at the blind beggars on Broadway, winced when people jostled her without the murmured "sorry" that is universal in England.

"You needn't expect me to become American," she assured us with as much dignity as her chewing gum allowed.

Then she spotted some school-girl fashions in a show window. Her eyes widened again to the size of half-crowns—big pardon, half-dollars.

"Oooh," she whispered. "Do you suppose it would be all right with mummy if I had some saddle shoes?"

Ten More Believed To Have Perished

ROUQUOIS, Ont., Sept. 25, (AP)—Rescue workers expressed belief today that the 10 crewmen of the Great Lakes Collier Milverton still missing after her collision with the tanker Transal, either drowned or died below decks in the following explosion and fire.

The tanker and the collier, both owned by Canadian companies, collided in the St. Lawrence estuary yesterday. Of the Milverton's crew of 25, two are known dead, 10 are hospitalized with varying degrees of injuries, and another man is uninjured. All aboard the tanker were safe.

Seminole High Gridders Prepping For Tilt With 'Canes

Celery Feds To Open With Gainesville Here Friday Night; Foe Large And Fast

By ARTHUR BECKWITH, Jr.
Herald Sports Editor
The Seminole High School Celery Fed grid machine will pry the top off for the 1947 season at the high school athletic field tomorrow night in a tilt with the Gainesville Purple-Hurricanes, one of the better ball-clubs in the state this year.

After several lengthy seasons this week Coach Carl Kettles and his assistants seem to think that the Celery Feds will make the Gainesville powerhouse realize that they have been in a ball game, but have little expectations during the contest.

Kettles stated that the Sanford offense is fair, but the defense is mighty ragged. "All I can say is that I hope that we get out of the game alive," Kettles added.

Meanwhile, in Gainesville Coach Buster Bishop is prepping his charges for the Sanford battle. The 'Canes were nothing short of magnificent over though they were defeated by the Miami Edison aggregation and Coach Bishop has had nothing but words of praise for his team.

The Hurricane eleven will be out to avenge the 14 to 13 defeat handed them by the Celerymen last year in the University City.

Fred Saviva and Dick Bashaw are rated as top notch backs for the Gainesville eleven, and both youngsters are in the heavy class of high school gridgers, weighing upwards of 170 pounds.

The defensive play of center Biddy Smith and halfback Gilbert Tucker was spectacular against the Miami club, it has been reported.

Sanford has added another game to their schedule. The contest with New Smyrna has been changed, and the Feds will meet the Barracudas here on the night of Oct. 17, and the Winter Park Wildcats have been scheduled to invade the local gridiron on Nov. 14.

The probable starters for the contest tomorrow evening will be Byron Beard and Floyd Cooper at the ends, Wallace Tyne and Chris Jensen at the tackles, Edison Meyers and Dick Bass at the guards and either Chuck Herron or George Dague in the center of the forward wall.

The backfield will likely find Johnny Alexander and Ray Dunbar at the halfback berths, Donald Deal at the blocking back post and Holly Flery at the spinner back hole.

Moultrie Defeats Gainesville In 3 To 2 Game

MOULTRIE, Ga., Sept. 25. (AP)—The battle for the mythical Class "D" baseball championship of the southeast is running in favor of the Moultrie Packers, champions of the Georgia-Florida League, over Gainesville of the Florida State League.

In the second game of the best four of seven series last night, Moultrie defeated Gainesville 3-2. It was Moultrie's second win in the series. The clubs will play the third game in Gainesville tonight.

Ken Rhyne, Moultrie first sacker, was the powerhouse behind the win last night. He belted out a 360-foot home run in the fifth with one on to put the game in lead. The winning hurler, Lentz, gave up only three hits.

GAINESVILLE

Time of game: 1:15.

POSTPONED AGAIN
AUGUSTA, Ga., Sept. 25. (AP)—Rain forced a second postponement last night of the fifth game of the South Atlantic League play-off finals between Augusta and Savannah. Savannah leads 5-1, and a victory tonight would give the Indians the series. Augusta plans to start Carl Ray against Savannah's Wild Bill Connelly who won the first game against the Braves.

YESTERDAY'S STARS
Outfielder Grady Hatton, 2nd, set a high mark for 3-5 edge over the Indians. Bobby Pallas, Indians, was the first 20-game winner in American League with 9-1 triumph over Browns, a five-hitter.

MANY TOP FLIGHT FOOTBALL TILTS ARE SCHEDULED FOR THIS WEEKEND

By AUSTIN BEALMEAR
NEW YORK, Sept. 23. (AP)—College football, which arrived quietly on the crowded sports scene last weekend with a handful of warmup games, gets down to cases in a hurry this week when the program lists so many interesting encounters it appears to be a month ahead of itself.

Few September Saturdays in the past, or Fridays either, for that matter, have found as many potential powers banging away at each other right from the opening gong as there will be this week against an invading Villanova crew that has waited a long time for this opportunity.

Humbled, 35-0, by the Cadets in their opener a year ago, Villanova demonstrated its ability to end the long army string by crushing the U. S. Merchant Marine Academy Saturday, 60-0.

Although the game at West Point will command widespread interest because of Army's record, it may not produce the action anticipated in Dixie, where Rice, the Southwest Conference favorite, invades Louisiana State and Georgia, tabbed to fumble LSU for the Southeastern Conference crown, moves in against North Carolina, the top choice in the Southern loop.

At the same time, Southeastern Conference inaugurals will find Alabama at Tulane, Mississippi at Florida Tech, while Southern Conference openers send William State at Davidson and Maryland to South Carolina.

Kentucky, beaten by Mississippi, 14-7, in the Southeastern Conference lid-lifter Saturday, entertains Cincinnati and other southern high spots include Mississippi State at Chattanooga, Georgia Washington at Virginia and Georgetown at Wake Forest.

Alabama warmed up last week with a 34-7 conquest of Mississippi Southern but Georgia, unbeaten last year, was a disappointment in squeaking past little Furman, 13-7.

In the Midwest, Purdue will be with Wisconsin for the Big Nine opener with other Big Nine teams taking on outsiders. Michigan, the Conference favorite, entertains Michigan State, Indiana goes to Nebraska, Ohio State plays host to Missouri and Minnesota, Northwestern and Illinois will be home for inter-sectional struggles with Washington, Vanderbilt and Pittsburgh, respectively.

Two inter-sectional highlights in the far west Saturday will find Navy at California, which opened with a 37-7 triumph over Santa Clara, and Texas, 33-0 winner over Texas Tech, invading Oregon, 27-14 conquerer of Montana State. Washington State goes to Southern California and Idaho to Stanford for Pacific Coast conference tests and Southern Methodist will be at Santa Clara for another inter-sectional duel.

Oklahoma A. and M., which dumped Kansas State 12-0, goes to Texas Christian, which played a scoreless deadlock with Kansas, Texas A. and M. invades Texas Tech and Arkansas, Southwest Conference co-champ, entertains North Texas State.

Back in the past, where Pennsylvania licked Washington State, 27-6 Saturday night, Pennsylvania's Ivy League favorites will be idle another week but five other Ivy clubs will be involved in non-league competition on Saturday. Rutgers will be at Columbia, and Connecticut at Brown.

This weekend is due to get off to a rousing start Friday night with a half dozen high class inter-sectional games topping the arc light card.

HARDLY A LEMON

By Jack Sords
People Showing Enthusiasm For Grid Contest

Entries for the Thorpe-Ritz Herald pick the winner football contest are coming in rapidly for the first week of the 1947 football season, indicating that the sports-minded people of Seminole County are longing for the gridiron classics to resume their marches through the coming months.

Most people have selected Alabama to trounce Tulane and are quite undecided about the Florida-Florida contest.

The Georgia-North Carolina game is being given the top choice of the day as the outstanding contest of the weekend, and ballots cast that either team has a chance to win the battle. In the Rollins game, the ballots indicate that the "ars" from Winter Park might have a slight edge.

One of the best games to be played in the country this Saturday will be the Rice-L. S. U. engagement. The Louisiana aggregation is rated high in the southwest and Rice has one of the best leavens in the southwest, therefore the game will surely be a nip and tuck affair.

Between 1825 and 1835 about 400 miles of canals were constructed in the United States.

Jones, Jr. You are hereby required to file your written appearance with the Clerk of said Court at the County Court House in Sanford, Florida, on or before the 31st day of October, A. D. 1947, or default will be entered against you and said cause will proceed ex parte.
IT IS ORDERED that this notice be published one week for four consecutive weeks in The Sanford Herald, a newspaper of general circulation, Sanford, Florida.
D. P. Herridon, Attorney at Law, Sanford, Florida, Solicitor for Plaintiff.

Comments from the SIDELINES
By ARTHUR BECKWITH, JR.
Florida Gators Superstitions and statistics figure prominently in the pre-game dope for Florida's football tussle with Mississippi in Jacksonville Saturday night.

Coach Ray "Bear" Wolf at the University of Florida would rather look at it from the superstitious angle for things look brighter to him from there. If the precedent that has been established in the last three years falls true to form Florida is due to upset favored Mississippi.

In 1944 and 1946 Ole Miss fell before the power of the Kentucky Wildcats only to come roaring back to dust at the Florida Gators in both years. The odd year in between saw Ole Miss turn the tide on the Wildcats and then bow to Florida. Coach Wolf believes in breaking no favorable precedents, and plans to follow through with things the way the football gods have willed them in the past.

The statistical slant shows up with a deep crimson on that page of the ledger, however, and the Gators will have to take along several gallons of black ink to blot it out. Six years in competition with each other and the Rebels have gained four victories against one Gator win and a 13-13 deadlock.

THE CLUBHOUSE

By FRANK ECK
AP Newsfeatures Sports Editor
NEW YORK—Paging Mr. Page and Calling Mr. Casey!
This could be the mottos of the grandstand during the 44th World Series.

The Series brings together baseball's two top relief pitchers, experts agree that without Lefty Joe Page the Yankees would never have cakewalked to the American League pennant. Brooklyn feels the same about Hugh Casey, the chubby right handed spot pitcher.

Casey, who is 33, once handled the bird dogs of Wilbert Robinson, ex-Dodger manager, down in Atlanta, Ga., and Brooklyn fans regard him as a Dodger from away back. However, while Casey had several spring trials with the team, he first appeared in an official Dodger box score in 1939.

Through Sept. 15 Casey appeared in 46 games for the Dodgers, all in relief, and showed a record of nine victories and four defeats. Until this season his earned run average was 3.06 runs per nine innings for 781 innings.

Casey, who began 1947 with 27 victories and 37 setbacks, was the victim of the most infamous passed ball in baseball history. It happened in the fourth game of the 1941 World Series in Ebbets Field, and against the Yankees, too.

The first three games were decided by one run with the Yanks winning two of them. The Dodgers looked as if they were going to square the Series at two games each as they began the ninth-inning with a 4-3 lead.

The first two batters in the top of the ninth grounded out and Casey, who had allowed but two singles since the fifth when he replaced Larry French with two out, had the situation well in hand. He was one pitch away from victory when the count ran out on Tommy Henrich, the batter. With a count of three and two Casey had to come in with the next pitch. It was low and inside, a fast breaking curve. Henrich swung and missed for what under ordinary circumstances would have been the final out of the game.

But this game was played in Ebbets Field where ordinary circumstances seldom prevail. Mickey Owen, brilliant Brooklyn catcher who last year jumped to the Mexican League and now is out of baseball, missed the pitch and Henrich went all the way to second base.

The official scores ruled it a passed ball although on the way to an exhibition game in Hartford, Conn., against a team led by Ted Williams, Casey said to the writer in the presence of Owen, that it was a difficult pitch to handle and could have been called either a wild pitch—or a passed ball. But Owen, who had a habit of stopping even the most errant pitch, said the scorers made a good call.

At any rate, the passed ball opened the door for the Yankees, who during the first four innings had found Kirby Higby for six hits and all three of their runs and hadn't threatened since. With Henrich on second, Joe DiMaggio hit the second pitch to left for a single, sending Henrich to third base with the tying run. Casey then faced the dangerous Charley Keller, who incidentally is sitting this series out in Frederick, Md., with a lame back. Casey put Keller in a hole, his first two pitches being strikes. But on the third, Keller lashed a vicious double off the right field wall to score both Henrich and DiMaggio, and what followed was anti-climatic. The Yanks added two more runs for a 7-4 victory and just about sewed up the Series. Bill Dickey walked and both Keller and Dickey rode home on a double by Joe Gordon.

The next day, with Brooklyn fandom still moaning about what happened on the sad Sabbath, the Yanks ended the Series with Ernie Bonham pitching a 3-1 four-

Lightning causes more farm fires in the United States than any other hazard; 37 percent compared with 11 percent for chimney fires, the next highest item.

The noise of beetles, produced by scraping one part of the body against another, is believed to be a mating call.

From where I sit... by Joe Marsh

Nobody in Our Town is exactly lazy (even though Pete Swanson's missus claims he sleeps till seven A.M.). But the hardest working man of all is Doc Hollister—on call, morning, noon and night.

Funny thing, Doc's favorite prescription to his patients is: You ought to have fun. The pace of modern living, even on the farm, demands some relaxation.

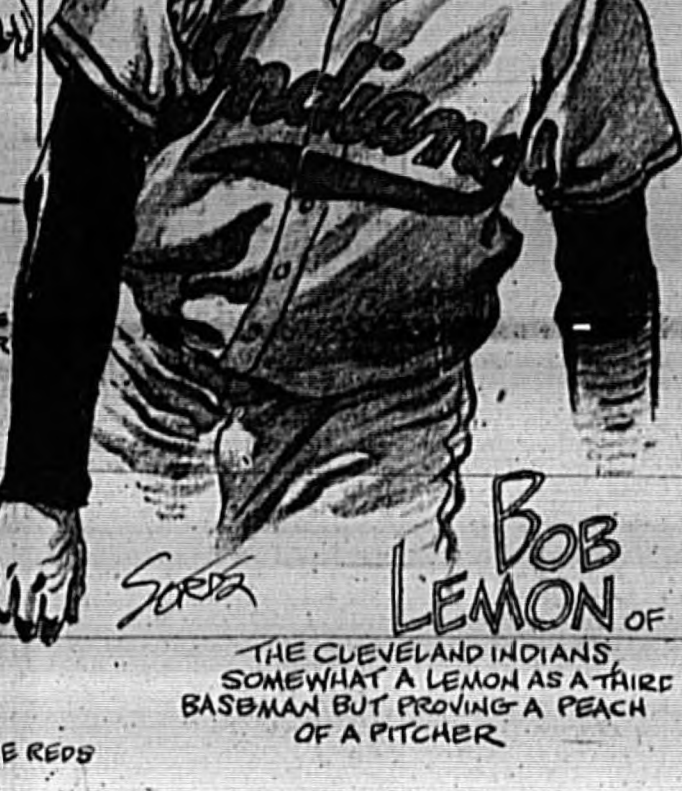

And as Doc says—(as is a personal thing, for the missus it may mean a movie or a good book; for Dad, a melon and refreshing glass of beer; and for the kids, parched or the radio. Doesn't mean everybody has to like the same thing—so long as they relax, have fun, together, in the home.

Doc doesn't have much time himself. After a hard day, he'll relax before the fire with a glass of beer—and wait for the phone to ring again. And from where I sit, Doc deserves each well-earned minute of that relaxation.

Joe Marsh

European Newspapers Short Of Newsprint

NEW YORK, Sept. 25 (AP)—Robert W. Fowler, president of the Newspaper Association of Canada, said today on his return from Europe that a "relatively small voluntary release of newsprint tonnage" by North American publishers would help newspapers in Western Europe.

Although fire insurance may cover the dollar value of physical losses, the underwriters emphasize the cost of time and labor to rebuild, which they find "is usually far in excess of the value destroyed."

Among all farm fires of the last four years in which approximately 3,500 persons were killed, lightning led the field. Principal causes of rural fires were found to rank as follows:

Table with 2 columns: Cause of fire, Percentage. Includes categories like Lightning, Chimneys, flues, cupolas, Petroleum and its products, Matches and smoking, Sparks on roofs, Stoves, furnaces, boilers, pipes, Spontaneous ignition, Electricity misused, Friction sparks from machinery, Hot ashes, coils, open fires, Miscellaneous.

Negro Spirituals - To Be Presented Sunday Evening

A program of negro spiritual singing is scheduled to take place Sunday evening at the Municipal auditorium.

The Rev. W. R. Parley, negro author and proponent of better racial relations.

A forecast of the program will be heard tonight at 7:30 o'clock and Sunday morning at 7:00 o'clock over Station WTRR.

Known as the Good Will Program of the Southland the Sunday evening program at the Hall Park will feature competition in single spirituals by various colored quartets and ensembles.

The Rev. Fairley is a native of North Carolina, a graduate of Tuskegee Institute in Alabama and has toured the country on his good will mission. He claims that the white and negro citizens of the South have no problems that they themselves cannot solve without outside force or foreign propaganda. On the program will be the Southern Gospel Singers of Tampa and a good will choir from Orlando.

Special accommodations will be made for white visitors, it was announced.

Truman Appeal

(Continued from Page One)

back on its feet, economically speaking.

Mr. Truman said:

1. A decision on a special session of Congress for emergency aid for Europe will flow from a meeting he has scheduled Monday.

2. He hopes a special session can be avoided and has an open mind on the subject.

3. On the long-range Marshall Plan for helping European countries which help themselves and each other, careful study will precede any action and the government will move cautiously.

4. A special committee of citizens has been named to consider the immediate food problem and advise on ways and means of carrying out the necessary conservation effort.

5. Other committees have been assigned the responsibility of studying the report drawn up by 16 nations in Paris, outlining their needs under the Marshall Plan.

Mr. Truman refrained from making any voluntary rationing his immediate plan to save food. Repeatedly, he said, it calls for saving food, for not wasting food.

Mr. Truman said he has been advised that Americans waste the equivalent of 70,000,000 bushels of wheat. Presumably he meant 70,000,000 bushels a year.

The proposal for conserving foods stemmed directly from a recommendation of a committee of cabinet members who have been studying world food programs.

The committee is headed by Secretary of State Marshall and Secretary of Commerce Harrison.

Mr. Truman released their report, plus a statement of his own on it and on the Marshall Plan.

The Cabinet (food) committee made it clear that definite steps to conserve on use of food stuffs at home and reduce the feeding of livestock will be essential if we are to make our fullest contribution towards meeting minimum foreign needs and at the same time relieve the upward pressure on prices at home.

Consequently, he said, he is naming the special citizens food committee headed by Charles Luckman, president of Lever Brothers, Cambridge, Mass., to lead a conservation campaign.

At one point, he said he could not say how many millions of dollars would be involved in stopping the European food shortage. He admitted that a shortage of dollars in other lands causes a shortage of food and fuel.

Mr. Truman also was not willing to go so far as to say that a return to rationing and price controls, or to other wartime controls might be necessary to support America's program to combat hunger and Communism in Europe.

Those, he suggested, are matters for Congress to determine.

Answering statements of some Republican leaders that they have not been kept informed on world conditions, Mr. Truman said he was letting them know as soon as he found out himself. He pointed to a copy of the report on the Marshall Plan, enclosed in green cardboard folders and tied with red tape, and said it had just arrived this morning.

The Chief Executive said he is asking special committees to be appointed and various government agencies to look over the Marshall Plan information for the benefit of congressional studies.

The 16-nation Paris conference is asking for some \$22,400,000,000 of outside help, mostly from the U. S. in the next four years.

Mr. Truman said he also is counting on Latin America to give a hand. He said no conference with Latin American nations has been called, but they will be kept informed of developments.

The problem in which the report of the Paris conference is devoted, Mr. Truman said in his statement, "not only underlies the political and economic well-being of Europe, but is also of key importance to a stable peace in this world."

"The people of the United States recognize, as do the people of the European nations, that the earliest practicable achievement of economic health and consequent political stability in Europe, is of utmost importance for the peace and well-being of the world."

Meanwhile in New York, top grades of butter dropped 2 1/2 cents a pound on the wholesale market with the best selling at 77 cents a pound, compared with 80 1/2 cents Sept. 15. Consumer resistance was credited with forcing the decline. Wholesale egg prices held steady in New York and cotton futures opened 25 to 40 cents a bale higher.

The rally in grain prices followed announcement of President Truman's cabinet food committee that about 470,000,000 bushels of all grains would be available for export during the 1947-48 fiscal year.

After an hour of trading, wheat was 1/4 to 1 1/2 cents higher than yesterday's close with December at \$2.57 1/2. Corn was up 1/4 to 1 1/2 cents, December \$2.18 1/2, and oats were 1/4 to 1/2 up, December \$1.05 1/2.

Recent declines in the prices of 18 commodities brought a drop of 2.5 per cent in the Dun and Bradstreet Wholesale Food Prices Index during the week ended Tuesday, Sept. 23. The index, representing the sum total of the price per pound of 81 foods in general use, stood at \$3.91 on that date compared with a record \$7.12 on Sept. 18 and \$5.15 year ago.

Mr. Truman said a decision on a special session of Congress for emergency aid for Europe would come from a meeting he has

Red Headquarters In Milan Bombed

MILAN, Sept. 25. (AP)—Communist headquarters in this strike-ridden industrial center was bombed early today when a bomb hurled by an unidentified person exploded outside the building.

Police and carabinieri hurried to the scene, but failed to find any trace of the bomb thrower.

The entire textile industry in northern Italy, meanwhile, was threatened with paralysis by a strike of 40,000 technicians and administrative employees, called yesterday by the Communist-dominated general confederation of labor.

Textile officials said that if the strike continued all of the industry's 550,000 workers would be thrown out of work because they would lack technical direction.

In Rome the Communist newspaper L'Unita declared today that textile workers would seize plants by force if owners decided to close them completely because of a strike of approximately 40,000 administrative workers and technicians.

Some owners in Milan stated they would be forced to close the plants to avoid damage to materials by workers lacking direction from the technicians.

DROPPING TOKEN OF DUST on the casket of Fiorello H. LaGuardia, the Rev. Gerald V. Barry, of Christ Episcopal Church, blesses the casket during committal service in Woodlawn Cemetery, New York. Mourners at the graveside of the city's ex-Mayor (l. to r.) are: Mrs. LaGuardia; son Eric and daughter Jean; Paul Bettlers, of U. S. Conference of Mayors, and LaGuardia's successor, Mayor William O'Dwyer.

Ovèrell Jury To Inspect Death Yacht

SANTA ANA, Calif., Sept. 25. (AP)—With testimony completed, the jury trying Louise Overell and George Gollum on charges of murdering a wealthy man, today to inspect the yacht aboard which the wealthy Mr. and Mrs. Walter E. Overell died last year.

The defense rested its rebuttal case late yesterday after failing to get court permission to show motion picture of a calf carcass being blown up with 10 sticks of dynamite.

The movies were offered by the defense in an attempt to refute the state's claim that Overell was in the forward cabin of his boat, the Mary E. when 12 sticks of dynamite, blew two holes in the hull.

Defense attorneys contend that the Overells were alive at the time of the explosion and that Mr. Overell was in a standing position. The prosecution holds that both victims were bludgeoned to death before the explosion occurred.

Eccles Warning

(Continued from Page One)

many as necessary for maintaining peace."

The choice is between punitive and constructive alternatives, Eccles said, adding that the question is this: "How much are we going to make available to maintain peace through the production of food and productive facilities to get other Democracies back on their feet."

"How much are we going to spend preparing for the next war? The Federal Reserve chief said that we are going to have to give up something, adding: "We cannot be lavish in aid to other countries without suffering the consequences of inflation, heavier taxation or the resumption of wartime controls."

Foreign countries receiving aid, Eccles continued, must "take measures to assure the most effective use of their own resources as well as those received from us."

Eccles said that financing the war largely by government borrowing was primarily responsible for "runaway inflationary developments." But he also asserted that expansion of private credit in the last two years—and prospects for its further substantial expansion—had contributed to pressures that "could lead to disastrous consequences for the economy."

Jews Decline French Offer Of Homesite

(Continued from Page One)

LIÉGECK, Germany, Sept. 25. (AP)—Jewish refugees of the Exodus 1947 only laughed today when a renewed French offer to take them back to France was broadcast in the camps where they are being held.

None of the refugees accepted the offer, despite a British warning that those who turned it down would find their rations cut from the present 2,800 calories a day to the regular German ration of 1,650 calories.

"If the Jews refuse," the Jewish East and West handbill said, "it will be quite clear that they remain in the British zone of Germany of their own free will."

Refugees in the two displaced persons camps—Dampendorf and Am Stau—went about their normal duties after the broadcast, voiced in English, German, Polish and Yiddish, with children attending school and women busy at domestic tasks.

U.S. Denounced

(Continued from Page One)

gave blanket approval to all five ex-enemies.

Gromyko supported the Polish proposal with a declaration that the Potsdam Agreement treated all these ex-enemy states in the same way without any discrimination toward any of them.

The United States and the United Kingdom, he said, "delivered the Potsdam Agreement when they seek to have Italy considered separately."

The new membership battle came in the midst of these other developments.

The U. S. delegation prepared to plunge immediately into the Greek-Balkan controversy this afternoon with a formal proposal to the United Nations Assembly for creation of a "watchdog" commission to restore peace under Assembly authority. Herschel V. Johnson was scheduled to make a major U. S. speech on the Balkan problem in the 55-nation political committee to back the American resolution. That committee was scheduled to start at 3 P. M.

Dr. Herbert V. Evatt, Australia's minister for external affairs, today was elected chairman of the extraordinary United Nations Assembly Committee on Palestine.

Evatt suggested inviting representatives of the Jewish Agency for Palestine and the Arab Higher Committee for Palestine to participate in discussions of the 55-nation committee on the same terms which were adopted at last spring's special assembly sessions on Palestine. His proposal was adopted without opposition.

Evatt then called for a statement from the United Kingdom as the country which rules Palestine under a League of Nations mandate.

The British indicated they would be prepared to speak tomorrow. Colonial Secretary Arthur Creech Jones was expected to deliver Britain's main policy declaration.

Evatt's election as chairman had been assured when Canada's Lester B. Pearson indicated he would not be able to serve. The choice of Evatt was unanimous, but Yugoslavia said she would abstain from the groups that the chairman should not be a representative of the British Empire.

The Palestine committee elected Siamese Foreign Minister Arthakitti Hanomyong as vice-chairman and Thor Thors of Iceland as rapporteur.

Taft Considers Revision Of Law To Permit Halls

By ROBERT E. GIGER

WASHINGTON—Maritime "hiring halls" are back in newspaper headlines.

Senator Taft (R-Ohio) said at Santa Cruz, Calif., he "might consider" revising the Taft-Hartley labor law to permit continuance of the halls.

He made this statement to newspapermen after a conference with Harry Lundeberg, secretary and operating head of the AFL Sailors' Union of the Pacific.

What is a hiring hall? The record of the hearings on the Taft-Hartley law are men with pages of discussion about them.

Taft Called Them Closed

During these hearings last February Taft said:

"One thing that concerns me about the closed shop is this hiring hall, particularly in the maritime industry.

"There, apparently, the effect of the closed shop is the arbitrary ability of unions to limit the people that may be employed. Apparently the effect of that, more or less, is to destroy discipline and everything else on the ship.

"I mean these hiring hall businesses are so extreme a form of the closed shop. . . .

"The closed shop, in which only union members may be employed, is outlined by the Taft-Hartley law and was a keynote of discussion.

But Hoyt S. Haddock, executive secretary of the CIO Maritime Committee, and Joseph Curran, committee chairman, with other labor leaders, contended the hiring hall is not a closed shop but is "preferential hiring."

And it may be on that basis that a way can be found to exempt them from the Taft-Hartley law. One Labor Department official, who did not want to be quoted by name, said "there is serious doubt whether the hiring halls are outlawed by the act."

Haddock explains the hiring hall this way:

Under preferential hiring, priority of employment is given to union members. But where the union is unable to supply men the employer is free to hire elsewhere. And the union cannot compel non-union employees, secured by the employer from other sources, to join the union.

Haddock says it is only in rare cases, however, that "there is cannot supply need."

Outgrowth of 'Shanghai' System

The record of the hearings traces American seaman-ship back to 19th century days and the pic-

day and concluded with a benediction from the Cardinal.

Since the Congress began Monday night, hundreds of thousands have flocked to five pontifical masses, dozens of sectional meetings and holy hours in a demonstration of Roman Catholic mass worship and ritualistic splendor unrivaled in this country since the last Congress in 1941 at Minneapolis-St. Paul.

The participants included seven cardinals, 65 archbishops and bishops and scores of prominent members of the clergy and laity.

Thomas Jefferson, one of the leaders in the development of the U.S. Declaration of Independence and Constitution avoided the term "democracy" in his public addresses and documents and used it only occasionally in private conversation.

Battle Is Fought

(Continued from Page One)

sieged the village of Arkhova, 70 miles west of Athens on the slopes of Mount Parnassus, for seven hours yesterday but were driven off when government reinforcements arrived. Official reports said today.

During the days which included three assaults on the village, 40 gendarmes were supplied with munitions by air. Some of the guerrillas were reported this morning to be still under attack by Greek soldiers.

Press reports said the mountainous area south and west of Phlorina, in northern Greece near the Yugoslav border, had been cleared of guerrillas. It was presumed this was part of a general operation to protect Phlorina where it was feared "General Markos," guerrilla chieftain, may attempt to set up a Communist free state.

The army announced that the class of 1946 had been called up for service.

Wildlife Hurt

(Continued from Page One)

of the turkey stock in Idaho, Montana and Nevada—estimated the loss of quail was lighter—about 60 percent.

Most of the quail destroyed were those which had hatched within the past 60 days, Runnell said.

In the pine flatwoods west of Lake Okechobee, District Chief J. E. Albritton estimated "well over 50 percent" of an already short bobwhite population was swept away by winds and waters.

Henry and Glades counties, among the state's more popular hunting areas, previously had been hard hit by heavy mid-summer rains.

Albritton says turkey losses at 80 percent in DeWitt, Charlotte, Lee and Hendry counties.

In a long list of Orange Bowl football athletes you can add the two backed punts on successive plays in the 1947 New-Tennessee classic.

Lions Meeting

(Continued from Page One)

Audience on the 9th, 10th and 11th of May. He praised the Sanford group as being an "up and up club."

Los Huffman of Daytona Beach, Lion cabinet secretary, told of various projects by Lions of Germany of their own free will.

Refugees in the two displaced persons camps—Dampendorf and Am Stau—went about their normal duties after the broadcast, voiced in English, German, Polish and Yiddish, with children attending school and women busy at domestic tasks.

Organization of the New Smyrna Club

Organization of the New Smyrna Club last February was described by King Lion Bob Quigley, who described a Lion campaign to induce the County Commission to fix New Smyrna bridges. This resulted in action in 10 days, he said. He told of fund raising campaigns that resulted in a substantial donation to the Holly Hill project. He reported 26 active members.

King Lion W. O. Livingston of the Sanford club told of the progress in signing up merchants to give space to gum ball machines designed to raise funds for the blind and underprivileged youth. He promised financial support to the Holly Hill blind school project. He stressed the need of a program to be started in schools explain what the flag stands for, also to stress the principles of freedom and Democracy in an effort to check the growth of Communism. He was commended for this plan by Deputy District Gov. John Myers of Deland.

Harry Robson, chairman of the Junior Baseball League, told of this activity in Sanford and heads of other clubs expressed much interest. Aid to the Lions and the Tourist Booth project and to the Salvation Army were other Sanford projects reported. In an effort to King Lion Quigley, General Boyd and J. V. Gillespie were present from Deland. Tully Twister H. Robson had a busy evening and found everybody on the slightest pretext

Buyer Resistance Grows And Prices Lose Some Altitude

WASHINGTON, Sept. 26 (AP)—William Green, American Federation of Labor President, today called for increased production to check soaring living costs at home and help carry out President Truman's "waste less" food program in help hungry Europeans. Saying "full production is the remedy for high prices," the AFL leader appealed for joint cooperation by labor and management to achieve greater output.

By ASSOCIATED PRESS
Some high-flying prices were losing altitude in scattered cities throughout the country today and buyer resistance was credited with halting the upward spiral in several of the lines.

As Chicago, New York, Philadelphia, Kansas City and Denver, reported retail butter price drops from a week ago ranging up to 13 cents a pound, Dunn and Bradstreet reported that buying of luxury items had decreased throughout the nation. There were also scattered drops in the retail prices of eggs and fresh meats.

The business research firm said retail sales for the week were slightly higher than the preceding week and three to seven percent ahead of a year ago with a "large proportion" of consumer income spent on foods, which increased substantially in volume.

Poultry, cheese and inexpensive canned meats were in heavy demand while butter, eggs and fresh meats decreased in popularity. Beef and pork continued to be preferred to high-priced hogs.

The Agriculture Department reported 70 percent of this year's corn crop was largely safe from damaging frosts as of Sept. 19. However, there have been reports of frosts since then in northern parts of the mid-western corn belt. The Sept. 19 estimate compares with 83 percent of the crop reported safe from frost a week earlier. Frost damaged corn is of lower quality for livestock feeding and cannot be stored as long as fully matured grain.

As much as this year's crop is unusually small, any considerable damage would greatly complicate the nation's problem of sharing grain supplies with needy areas abroad.

Senator Flanders (R-Vt.) said today the Congress will be asked to "apply controls" unless commodity exchanges curb what he termed (Continued on Page Three)

General Bradley Back From Europe

WASHINGTON, Sept. 26 (AP)—General Omar Bradley returned today from a six-week inspection tour of American troops in Europe and reported the morale of G. I.'s there is "fine." Bradley, veterans administrator and former Army commander in the European campaign, made the trip at the invitation of President Truman. Bradley has been mentioned in speculation as successor to General Dwight D. Eisenhower as chief of staff. He told reporters that he found American troops in Europe to have "fine morale, well disciplined, well housed and doing more training than has been done there recently."

Vishinsky Urges John F. Dulles Be Enchained

WASHINGTON, Sept. 26 (AP)—Russia's Andrei Vishinsky asserted today at a news conference that John Foster Dulles and other prominent Americans be attacked as "warmongers" should be "enchained." Vishinsky broadened his slashing attack to cover U. S. Delegate Warren Austin and Britain's Chief Delegate Hector McNeill.

Vishinsky released at the news conference his first in the United States—a 10-page statement fully renewing and strengthening his charge of a virtual war plot in the United States against the Soviet Union and naming Dulles, a ranking member of the American delegation all over again as he had in his original "warmonger" speech of Sept. 18 to the United Nations Assembly.

Vishinsky declared that his charges of warmongering had not been met by either Austin or McNeill. (Continued on Page Three)

U.S. Military Experts Late In Arriving

BATAVIA, Java, Sept. 26 (AP)—The United States was the only participating power without military experts on hand today for the United Nations consular mission to investigate enforcement of the U.N. cease fire order to the Dutch and Indonesians.

It seemed unlikely that the United States would be able to contribute first hand military information to the initial report of the consular mission to the U.N. Security Council, due next Thursday.

U. S. sources here said the delegation of from six to 10 American officers assigned to the mission would not arrive here from Manila before Sunday.

The delay in the arrival of the Americans has aroused considerable comment in newspapers and in foreign political circles here.

Sanford Fishermen Bring In 13 Big Bass

A string of 13 black bass caught by Otis (Dick) Jones and R. Z. Johnson, was displayed in front of the Robson Sporting Goods store this morning, giving further evidence that the big ones are being caught in Seminole County.

The fish were caught between 5:00 o'clock and 9:00 o'clock this morning with live bait near the Osteen bridge on the St. Johns River.

The largest of the bass weighed slightly over five pounds, while the smallest one weighed one and one-half pounds.

BANKS WANTED
WASHINGTON, Sept. 26 (AP)—H. Earl Cook, a director of the Federal Deposit Insurance Corporation, said today bank supervisors should be watchful of lending practices, particularly on real estate and consumer loans.

Phone Union Declares War On CIO Group

WASHINGTON, Sept. 26 (AP)—The Communications Workers of America, newly formed independent union, took on the CIO today in what may develop into a long and bitter fight to represent long distance operators and the men who install major telephone equipment.

A declaration of open warfare came from CWA President Joseph A. Beine who led the nationwide strike of 320,000 telephone workers last spring. The CWA was formed to replace the loosely knit National Federation of Telephone Workers, which directed the strike.

But two of the NFW's strategic groups refused to go along with the CWA. Their officers chose to cast their lot with the CIO's specially created Telephone Workers Organizing Committee (TWOC).

The two unions are the American Union of Telephone Workers (AUTW), with about 20,000 members in the long lines division of the American Telephone and Telegraph Company, and the Association of Communications Equipment Workers (ACEW) whose 20,000 members are employed by the Western Electric Company in key cities of the Bell system.

The AUTW membership voted by a five to three ratio to go into the CIO TWOC. A. T. & T. has allowed the union until Oct. 10 to prove that it will represent the workers in the nationwide bargaining unit. This is being done by having the members sign new payroll deduction cards. A majority in the bargaining unit is required.

"The equipment workers' board of directors has voted to join the TWOC and to conducting a membership referendum. Said Beine in a statement today: "So many AUTW and ACEW (Continued on Page Three)

Rep. Thomas Demands Former Communist Should Be Deported

WASHINGTON, Sept. 26 (AP)—Rep. Thomas A. Blanton, R-Miss., today demanded that Hanns Eisler be prosecuted for perjury and passport fraud. In a report to be sent to the Justice Department, he also recommended that Eisler be deported and prevented from "ever returning to this country."

WASHINGTON, Sept. 26 (AP)—Under a new policy, the United States is admitting "responsible" Communist Party members to this country for the sole purpose of reporting activities of the United States, Immigration laws and Communist Party activities from officials and diplomats—(from an unclassified article, a State Department official stated today in explaining why a passport visa was granted to Hanns Eisler).

He writes for the "Humanite," Paris organ of the French Communist Party.

WASHINGTON, Sept. 26 (AP)—Rep. J. Parnell Thomas (R-N.J.) said today he is convinced the State Department was "lax" in permitting Hanns Eisler, self-admitted former Communist, to remain in the United States.

Thomas made that statement as the House Committee on Un-American Activities, of which he is a member, today.

Right Of City To Refuse Permits Upheld By Judge

The right of the City to refuse to issue a permit to the Central Florida Quick Freeze and Storage Co. to operate an abattoir in its plant at Thirtieth and Elm Avenue was upheld in Circuit Court Tuesday by Judge Frank A. Smith of Orlando. It was announced today by Fred R. Wilson, city attorney.

Judge Frank Smith, who is officiating during the vacation of Judge Millard B. Smith, "held that the City Commission had the right to exercise discretion in issuing the license for the operation of the abattoir and the right to refuse to issue it if in their judgment it should not be issued," said Mr. Wilson.

This judgment was the result of an alternative writ of mandamus filed by the Freeze Company asking the City to show cause why such a license should not be issued. Judge Smith, said Mr. Wilson, gave the company until Sept. 30 to amend the alternative writ of mandamus.

Following the filing of the suit against the City by E. F. Householder, attorney for the company Fred R. Wilson, in behalf of the City filed a motion with the Court to quash the writ.

HOMELSS MOTHER BRIDGOTON, N. J., Sept. 26

A homeless mother and two children are moving into Mayor Bertram R. B. Aiken's office in the town hall "because they have no other place to go," the Mayor said today. He did not identify the family, but said they had been evicted from their home so the building could be turned to commercial use.

WANTED: A CHURCHILL
LONDON, Sept. 26 (AP)—Peter Thomsyrot, conservative member of Parliament, predicted in an address at suburban Wansted last night that before many months have passed Great Britain "is going to demand the services of Winston Churchill."

The demand, Thomsyrot said, will be made "not on the basis of his record or the affection in which he is held, but because of the events which are going to sweep over the country."

"We have not yet seen what it is like to live on our own resources under a Socialist government," he declared. "Britain is going to face the greatest crisis that has ever confronted her in war or peace."

Russians Seek Joint Withdrawal Of Troops From Korea In 1948

WASHINGTON, Sept. 26 (AP)—American diplomatic authorities view the Soviet proposal for early simultaneous withdrawal of American and Russian troops from Korea as a propaganda maneuver to influence the United Nations. These authorities said Moscow does not expect the proposal to be taken seriously as a practical course of action.

The proposal was first made public by Soviet Lt. General T. F. Shitikov, State Department spokesman, today.

A spokesman today said the proposal would be taken up by the UN Assembly at the UN Assembly in the next session.

Simultaneous withdrawal of American and Russian occupation forces from Korea at the beginning of 1948, was proposed today by Col. General L. F. Shitikov, chief Russian delegate to the joint commission.

The proposal, made at a commission meeting called at Shitikov's request, was regarded by some American here as an attempt to avoid the United Nations. The United States delegation has not yet met with American troops," he said.

"The Soviet delegation has no other proposals," Shitikov said, adding that it "is expecting answers and proposals from the American delegation."

If the withdrawals should be effected, the Russians "would leave in north Korea a Communist government, 200,000 trained, armed soldiers. The Americans would leave in south Korea a military government, a rightist interim government, and an estimated 200,000 police, constables and coast guard members."

State Officials Accused Of Laxity In Eisler Case

WASHINGTON, Sept. 26 (AP)—Rep. Thomas A. Blanton today accused State Department officials of laxity in permitting Hanns Eisler, self-admitted former Communist, to remain in the United States.

Thomas made that statement as the House Committee on Un-American Activities, of which he is a member, today.

Claude P. Ford Died Suddenly Thursday

Claude P. Ford died Thursday afternoon suddenly at his home on South Hendall Avenue. Born in Lawrenceville, Ga., the 61-year-old man had been a resident of Sanford for 18 years. He was a member of the First Presbyterian Church.

Survivors include the widow, and two daughters, Mrs. Raymond Knapp of Sanford and Mrs. Noel Norris of St. Paul, S. C.; one son, Fred M. Ford, Sanford; five grandchildren, Jackie Knapp and Jane Ford, Sanford and Barbara Joyce, Noel Jean and Jimmie Norris of St. Paul, S. C.

Funeral services will be conducted at the Erickson Funeral Chapel Saturday afternoon at 4:00 o'clock with the Rev. Douglas Charles, assisted by Rev. J. E. McKinley officiating. Interment will be made in Evergreen Cemetery.

Police Department Hears Complaints

William R. Kemp of Orlando yesterday denied he was a junk dealer after he had summoned to the City Hall following a complaint that he was collecting junk from the City license office, "inasmuch as the City had requested Ralph Cowan, the owner, to clear up the debris at the location," police reported.

During the year, many complaints reach the Police Department from irate gardeners whose gardens have been trampled on or eaten up by chickens, cows, horses, dogs and mules. Yesterday a resident on East Second Street telephoned police that two pigs were eating up her garden.

The owner of the pigs was summoned and the pigs were removed. Another complaint that is often made to police is that motorists fail to heed the slow down signs while motoring past schools. A half-motorist, recently charged with driving too fast past the South Side Primary School on the Palmto Avenue side, was given a stern warning by police against repetition of this.

SHRINE LEADER MIAMI, Sept. 26

William C. Woodard of Sudan Temple, New Bern, N. C., today was elected president of the South-eastern Association. He succeeded George W. Hunt of Savannah, Ga., as head of the 14 state organization. Woodard's home is at Rocky Mount, N. C.

Withdrawal Of Troops From Korea In 1948

WASHINGTON, Sept. 26 (AP)—American diplomatic authorities view the Soviet proposal for early simultaneous withdrawal of American and Russian troops from Korea as a propaganda maneuver to influence the United Nations. These authorities said Moscow does not expect the proposal to be taken seriously as a practical course of action.

The proposal was first made public by Soviet Lt. General T. F. Shitikov, State Department spokesman, today.

A spokesman today said the proposal would be taken up by the UN Assembly at the UN Assembly in the next session.

Overell Jury Is Taken On Tour Of Murder Yacht

SANTA ANA, Calif., Sept. 26 (AP)—Except for final arguments and court instruction, the case of the people of California against Louise Overell and George Gollum, charged with murdering her parents, is ready for the jury.

Fourteen jurors, including the two alternates, yesterday visited the blasted Mary E. the yacht of Mr. and Mrs. Walter E. Overell, that blew up in Newport Harbor, Mar. 15. They made a minute inspection of the craft under magnifying glasses.

"The jury looked at the boat in the light of the prosecution and the defense theories of how Mr. and Mrs. Overell were killed," said trial Judge Kenneth E. Marlett.

E. S. McCall, Santa Ana County prosecutor, and J. A. Spurr, Santa Ana City attorney, supervised the inspection.

The jurors were driven to Balboa in a chartered bus and took advantage of Judge Morrison's invitation to wear their "yard clothes" and sit on the grass and huddle up in the shade.

Gangster Settles Tax Of \$500,000 For \$78,000

CHICAGO, Sept. 26 (AP)—A House subcommittee investigating the parole of four former members of Al Capone's gang had in its report today that one of the ex-convicts—who said he believes in Santa Claus—did not know who had settled the government's income tax claim of nearly \$500,000 for \$78,000.

Louis (Little New York) Campagna, one of the four Chicago men paroled from federal prisons after serving the minimum of 10 year sentences, was one of the witnesses called yesterday as the congressional group headed by Rep. Hoffman (R-Mich.) opened the investigation.

Campagna told the group he did not know who made the settlement on an income tax lien of \$485,977 for the years 1938 to 1941—how did he know how much had been paid.

"Do you believe in Santa Claus?" Hoffman asked Campagna, who replied, "Yes, I do."

Walkways Finished At Information Booth

The two cement walkways leading to entrances of the Tourist Information Booth on Seminole Boulevard and Park Avenue were completed yesterday by City workers under the direction of Ralph Lubinski and Sid Richard.

This morning they were staking out a semi-circular walk at the front of the booth. This will connect to the rest room entrance at the rear of the building.

Only a few inquiries have been made at the booth office during the past few days, according to Mrs. Gabe Michel, receptionist, with the improvement of weather, she predicted that more tourists will visit the booth.

MERCURY DROPS

Following the stormy period the skies cleared Thursday morning with the wind shifted from south-southwest to northwest, and the temperature during early morning dropped down to 62 degrees according to B. F. Whitner, weatherman. Many residents reported that they had to get up in the night to put more blankets on beds as the first chill hint of Fall woke them up shivering. During the day the thermometer showed a maximum of 80 degrees.

British Will Give Up Mandate In Palestine; Little Assembly Asked

Resolution Offered To Create New Body To By-Pass Veto On Security Council
LAKE SUCCESS, Sept. 26 (AP)—The United States today officially asked the United Nations to establish an interim committee of the General Assembly in a major step to overhaul the United Nations peace machinery. The move already has been hotly attacked by Russia.

The American resolution, implementing the "Little Assembly" proposal put forward on the assembly floor last week by Secretary of State Marshall, was handed to Secretary-General Lee and circulated to the other 54 national delegates.

The move to extend United Nations powers for handling disputes will come up for debate in the 54-nation political committee, where it follows the track set on the agenda.

In its final form, the American proposal was modified to drop the phrase calling for the committee for "peace and security," and to eliminate any reference to the permanent body going to the veto-conscious Security Council.

John F. Dulles, American delegate who will deliver the proposal, told newsmen that Andrei Vishinsky charges that the United States is "pro-Jewish."

4 British Police Killed In Tel Aviv Robbery Of Bank

JERUSALEM, Sept. 26 (AP)—A band of Hebrew-speaking gunmen killed four British constables in the busy streets of downtown Tel Aviv today during a daring armored car holdup which netted the holdups \$180,000.

They took \$600,000 from the closely guarded car outside Ha'aretz Bank and dropped one bag of money containing \$420,000 during their getaway in a white jeep.

A Jewish policeman was wounded in the gunfighting which culminated in the holdup and a hand grenade into the group of British constables guarding the armored car. In the gunfighting and exchange of shots which followed, three constables were mortally wounded.

Witnesses said the jeep entered the bank building through a hole in the wall. They said there was an unusually large number of persons dressed as Arabs and some of these were believed to have been members of the extreme left band.

When these men tried to force their way out of the bank, two (Continued on Page Three)

Divorees In Britain Are On Increase

SPRINGFIELD, Mass., Sept. 26 (AP)—Divorce petitions in Great Britain are being filed at the rate of one to every five days, according to the Methodist Episcopal Conference learned today.

The Rev. John W. Waterhouse, principal of the British Methodist National Children's Home, disclosed the ratio at a symposium on social tensions in the modern world.

He told 500 Methodist leaders from many lands that America also "provides figures which point to the same tragic trend."

British clergymen are working to avert the break-up of marriages and homes by serving with marriage guidance councils, he said. They also talk privately with young couples planning marriage.

The church's task with regard to marriage is not educative only, he added, but redemptive. The Rev. Mr. Waterhouse also urged the delegates "to challenge the evils in society which contribute to these divorces."

As the two-day conference began into its third day a New York delegate advertised United Nations action "on the plight of displaced persons, particularly those of the Jewish people."

RISHIAN VIEW MOSCOW, Sept. 26

Russians read today a prediction of "significant resistance in the United States to the 16 western European Nations' proposal for effecting the Marshall Plan."

A Tass dispatch, datelined New York, said there was reason to believe the plan for nearly \$20,000,000 in U. S. aid would meet such resistance.

6 British Police Killed In Tel Aviv Robbery Of Bank

Plans Announced To Enter Team In State-Skeet-Shoot

New and faster traps combined with a high wind to keep down scores at the Sanford Skeet Club's range at the Municipal Airport yesterday afternoon, but even so, E. S. McCall managed to break 10 out of 20 pigeons.

Plans were announced by Lloyd C. Cook, secretary of the organization, to develop a team of crack shooters to represent Sanford in the state-wide matches next winter. He said that with the installation of the new traps which are extremely fast, valuable experience can be gained.

Scores at 21 yards as reported yesterday were as follows:

E. S. McCall	15
Sam Gardner	12
Ray Maffett	14
R. A. Newman, Jr.	11
C. Y. Street	13
W. A. Adams	13
W. R. Williams	11
W. A. Beck	11
Sam Gardner	10
F. V. Turner	10
H. V. Scott	10
Hugh Wheelbar, Jr.	10
W. C. Hill	9
E. C. Kelly	8
C. K. Ellis	8
Oliver A. Adams	7
Hugh Wheelbar, Sr.	6
(Unfinished)	6
J. J. West	11 x 16
E. A. Speer, Jr.	9 x 15
G. G. Williams	7 x 12

Jurisdictional Strike Goes Into 2nd Year

HOLLYWOOD, Sept. 26 (AP)—The first anniversary of movie-lab's smoldering jurisdictional strike was observed today.

At least 3,000 members of the striking confederate of studio unions (AFL) have been out of work a year, with studios acknowledging 4,000 were unemployed at the peak of the strike. The total wage loss ranges between the studios' estimated \$17,500,000 and the CBU's \$24,000,000.

The strike was called on Sept. 26, 1946, following discharge of CBU picketers who refused to work on sets they declared "hot" and on which members of the rival International Alliance of Theatrical Stage employees were doing jobs the carpenters claimed to be theirs.

AFL President William Green has called another negotiation meeting -- the latest in a long string -- at San Francisco next month.

TRUMAN BROADCAST

WASHINGTON, Sept. 26 (AP)—President Truman will make a four-minute nation-wide radio address tonight to launch annual community chest drive. The address, at 9:55 (EST), will be broadcast by all networks.

Future Of Palestine Is Placed In Hands Of U. N. Assembly; Debate Next Week

LAKE SUCCESS, Sept. 26 (AP)—Britain told the United Nations today that she had decided to pull out of Palestine completely regardless of the outcome of current Palestine deliberations before the U. N. General Assembly.

Colonial Secretary Arthur Creech Jones advised the Assembly's 55-nation Palestine committee that Britain favored immediate termination of her 25-year-old League of Nations mandate.

"I announced" the future of Palestine was in the hands of the U. N. and that "in the absence of a settlement" Britain had decided "for an early withdrawal of British troops and of the British Administration from Palestine."

Creech Jones did not commit Britain definitively to the report of the Assembly's committee of inquiry, which recommended the Holy Land's partition into Jewish and Arab countries. He said, however:

"I can not easily imagine circumstances in which we should wish to prevent the application of a settlement recommended by the Assembly."

The main problem, Creech Jones said, was enforcement of the Assembly's recommendations. He said the British staff must (Continued on Page Three)

Lions Club Votes To Co-Operate In Handicapped Week

The Lions Club at its meeting today at the Tourist Center voted to co-operate with other civic organizations including Rotary and Kiwanis in putting on a program designed to aid handicapped veterans or non-veterans to secure employment.

Dick Hyster, who represented the club at the meeting of civic leaders Friday with Mrs. Jesse Mosley of the U. S. Employment Service and Ralph A. Hood of the Federal Security Agency, was invited to attend a similar meeting today and to report that the club is ready to co-operate in the program during National Handicap Week starting Oct. 6.

Full co-operation by merchants in donating space for gum ball machines, from the sale of which the club will obtain a percentage to be devoted to the aid to the blind fund and underprivileged youth, was reported by John Levy, chairman of the campaign.

The club is co-operating with Rotary and Kiwanis the cost of tuning the piano in the Tourist Center.

Secretary Hamilton Hyster reported that the Club will donate \$25 to the Cleary Crute youth center at the City Hall for which new equipment and furniture is being secured under direction of Mrs. S. C. Graham. Fred Gana was elected to represent the club in the Cleary Crute program.

Walkways Finished At Information Booth

The two cement walkways leading to entrances of the Tourist Information Booth on Seminole Boulevard and Park Avenue were completed yesterday by City workers under the direction of Ralph Lubinski and Sid Richard.

This morning they were staking out a semi-circular walk at the front of the booth. This will connect to the rest room entrance at the rear of the building.

Only a few inquiries have been made at the booth office during the past few days, according to Mrs. Gabe Michel, receptionist, with the improvement of weather, she predicted that more tourists will visit the booth.

MERCURY DROPS
