

...THE HOPE OF OUR COMMUNITY, THE Church... OUR NATION!

OUR NATION!

LIFE IS FULL OF QUESTIONS

One of the most common we spell with just three letters, WHY. As children we want to know the reason for everything. Why is snow cold, or sugar sweet? We grow into adolescence and the question is usually linked with restrictions: Why can't I? In maturity there are more and greater problems to solve, troubles and disappointments to overcome. And still we ask the age-old question, "Why?"

The Church knows our questions and our problems and invites us to come, bringing them with us. In the Church we find new friends. Many of them have known sorrows and disappointments and through their faith, have found courage. They will inspire us to try again.

Still more important we can learn to know Christ. In His Divine wisdom He holds the answers to life's questions. In His love He invites all who need His help.

Cyprus Hostilities Show Detente's Flaws

By WILLIAM L. RYAN AP Special Correspondent American policymakers are playing their cards in the tangled Cyprus situation with an eye to the Soviet Union as well as to the Greeks and Cypriots themselves.

Washington pictured itself as "trying to evaluate the situation." So once again, as it had so many times before, the United States as the leading democracy in the world found itself stepping out of character, solicitous of the sensibilities of a military regime, in glaring contrast with the attitudes of the Western allies.

The Sanford Herald

66th Year, No. 285 Sunday, July 21, 1974—Sanford, Florida 32771 Price 20 Cents

Cyprus Attacked By Turk Forces

NICOSIA, Cyprus (AP) — Bloody fighting raged in Cyprus on the first day of a massive Turkish invasion by sea and air.

The Turkish government did not resort to armed attack before all the other means were tried, but to no avail. Nikos Sampson, the Greek Cypriot installed as president in the coup that ousted Makarios, broadcast to the Turkish community: "Your leadership is betraying you. In

You're Into Acupuncture, But Is Your Doctor?

If your doctor is ready and willing to practice acupuncture on you, first ask him where he learned about it. Some are products of a four-day course. NEA Science Editor David Hendra reports in this exclusive, four-part series.

NEW YORK — (NEA) — Contrary to the best interests of their patients, hundreds — and perhaps thousands — of doctors in the United States are practicing acupuncture after three- or four-day "short-

courses often taught by individuals with questionable qualifications in the field. Frequently well-meaning physicians are duped into taking such courses because of the frenzied demand by many patients for acupuncture treatments. Many people believe acupuncture to be a panacea. Its mystique has fanned the

zeal of tens of thousands of Americans who are rushing headlong into the arms of ill-equipped and often illegitimate practitioners of acupuncture — and paying millions of dollars for the dubious privilege. I recently attended a four-day acupuncture course in New York City and discovered a "scientific" atmosphere so questionable that several physicians admitted to me that they were "almost ashamed to be here." I was invited to attend as a journalist.

The course was called the "Complete Course 377 in Medical and Surgical Acupuncture," and was put on by the American Institute of Hypnosis of Los Angeles. The course ran from June 27 to 30 at the Summit Hotel in New York. A similar course is scheduled to be held Sept. 25 to 29 at Atlanta's Hyatt Regency Hotel. One was held in Dallas earlier this year.

R. L. Rubottom, M.D., director of the course and an official of the American Institute of Hypnosis (AIH) said that 96 physicians, physicians' assistants and non-physicians attended the course. Tuition, exclusive of room and travel, was \$48 and wives or assistants accompanied by fully paid registrants were charged \$150. (These wives and assistants also received certificates say-

ing they "successfully completed" the course.)

Attending the course were doctors from New York, New Jersey, Ohio, California, Illinois and other states. A brochure for the course, direct-mailed to thousands of mimeographed syllabus, the scant contents of which bore practically no relationship to the course that was actually given.

Furthermore, the brochure for the course promises physicians "26 and a half hours fully approved Category 1." This refers to a type of continuing education credit required by professional groups such as the American Academy of Family Physicians (AAFP) for ongoing membership in their medical specialty organization.

The American Medical Assn. (AMA) also requires such credits for its Physician's Recognition Award for continuing medical education. Investigation reveals, however, that none of the AIH courses in acupuncture has been approved for Category 1 credit by the national offices of either the AMA, the AAFP or the American Osteopathic Assn.

The brochure for the AIH acupuncture course also promises "University Credit." In January 1974, the "Journal of the American Institute of Hypnosis" also noted that "every single one of our courses which we are giving now, and which we have given in the past, will be given four hour university credit toward a Ph.D. in

Psychology by the California Graduate Institute." In an interview Dr. Rubottom added that "the California Graduate Institute is an accredited college in California."

However, the California State Board of Education said that the California Graduate Institute "operates legally but is not approved by our office." And the Western Assn. of Schools and Colleges, which accredits for California, Hawaii and Guam for the Federation of Regional Accrediting Commissions of Higher Education says that the Institute is "definitely not accredited."

In addition to lacking the approval and accreditation it claimed, the AIH distributed diplomas and certificates of "successful completion" of the course that are apparently illegal under New York State Law. The certificate they gave me says:

"This is to certify that Dave Hendra has successfully completed the postgraduate course 377 in Medical-Dental-Surgical Acupuncture of the American Institute of Hypnosis, Inc. With lectures, demonstrations, workshops and practical training in Anesthesia, Analgesia and Therapeutics of Classical Chinese Acupuncture, Moxibustion, Japanese Nakatani

Methods and Modern New Scientific Techniques given at New York City from 27 June to 30 June 1974." The certificate is signed by the four "faculty" members who delivered medical lectures in the course. On the last day of the session, when participants were told to "pick up your certificates on the table in the rear," there was a quick rush on the table and within 15 minutes it was clean. Even the bona fide physicians had snatched up the phony credentials. "Not bad for five hundred

bucks," I heard one doctor say as he admired his newest wall decoration.

But the certificate was given illegally, according to Michael Esdry, a lawyer with the New York State Education Department in Albany. (NEXT: The Teachers)

Other pending suits filed by McLaren sought to prevent ITT's acquisitions of Canteen Corp. and the Hartford Fire Insurance Co. On July 31, the case was set for trial in court, but before Nixon's decision was reversed and the appeal was filed after a delay in the Supreme Court.

McLaren, despite Nixon's decision, stayed in the Justice Department until Dec. 4, 1971, when he became a U.S. District judge in Chicago. The out-of-court settlement became a political issue in March and April 1972 after an ITT memo was published linking the court case to a pledge of a political donation by the corporation. ITT says it pledged \$200,000, but a White House memo says it was \$400,000.

In addition to the April 19 transcript, the committee made public for the first time another conversation on April 21, 1971, between Nixon and former Atty. Gen. John N. Mitchell. Mitchell successfully persuaded Nixon that he should allow McLaren's appeal to go to the Supreme Court, but only for political reasons. He said Solicitor General Erwin Griswold would resign and predicted a Senate investigation of the handling of the case.

"I don't know who's been giving you the information, but it's a bad political mistake (to ease off on ITT)," Mitchell told Nixon. In his own testimony before the Senate Judiciary Committee considering the Klein-dienst nomination, Mitchell said he played no part in the ITT settlement and stayed out of the discussions on locating the Republican convention in San Diego. He also denied any knowledge of the ITT political pledge.

The committee's evidence, however, includes a June 30, 1971, memo from then-White House Communications Director Herbert G. Klein to H. R. Haldeman, then White House chief of staff. The memo noted a "\$400,000 in private money arranged through a new major ITT bid" as part of San Diego's attempt to get the convention. A copy of the memo went to Mitchell.

In another memo, a White House aide asks Jeb Stuart Magruder, who was deputy director of the Committee to Re-elect the President, if it is true Mitchell promised ITT the Nixon campaign headquarters would be set up in the ITT-Sheraton Hotel in San Diego in exchange for the "pledge of \$400,000."

In a third memo on July 28, 1971, Magruder notes a number of important decisions to be made regarding the status of the convention and asks Mitchell for quick action.

DeLand retiree John LeCrox, left, says he nets \$45 a week for Knights of Columbus building fund, after nightly visits to bars to collect cans. Reynolds Metals buys aluminum cans for recycling Wednesdays at 2 p.m. at Sanford Chamber of Commerce lot.

NATION TODAY

Ford: No Lobbying

HOT SPRINGS, Va. (AP) — Vice President Gerald R. Ford says he won't engage in any "arm-twisting lobbying" to ward off President Nixon's possible impeachment by the House. "I think that's an insult to most members of the House," Ford said. Ford told reporters Friday might believe Chairman Peter W. Rodino Jr., D-N.J., of the House Judiciary Committee has conducted the impeachment inquiry in a fair and proper way. Referring to critical comments by White House Press Secretary Ronald L. Ziegler, Ford said, "I certainly would not call the manner in which that committee has operated a kangaroo court. I think they've worked very hard to do a responsible job."

Hoffa Wants Old Job

DETROIT (AP) — James R. Hoffa says a federal judge's decision is just a temporary setback in his fight to regain power in the giant Teamsters union and he will appeal the decision. U.S. District Judge John H. Pratt refused on Friday to overturn a presidential election restriction barring the former Teamsters president from returning to union office before 1980. Hoffa planned to run for the presidency of his old Detroit Local 299 in November and then to challenge Teamsters President Frank E. Fitzsimmons for leadership of the 2.3-million member union in 1976. Hoffa was convicted of jury tampering and mail fraud in 1964 and was serving a 13-year sentence at Lewisburg, Pa., when Nixon granted the restricted order of clemency.

Female Episcopal Priests

NEW YORK (AP) — The Episcopal Church's exclusion of women from the priesthood is being challenged by three bishops who say they are going to ordain 11 women July 29. It would be the first time for priestly orders to be conferred on women in the 2.1-million member American wing of the Church of England. Bishop Robert L. Dewitt of Philadelphia, who has resigned as head of the diocese and retired Bishop Edward Randolph Welles, former bishop of western Missouri, Daniel Corrigan of Denver, Colo., former head of the church's national domestic missions office, disclosed their plan Friday.

Parents Guilty In Death

SAN BERNARDINO, Calif. (AP) — "I'm just glad I have Jesus Christ to lean on," says Lawrence Parker, whose diabetic son died after Parker and his wife refused to give him his insulin on religious grounds. Parker, 35, and his 30-year-old wife, Alice, stand convicted of child abuse and involuntary manslaughter in the death of Wesley Parker, 11, Aug. 22, 1973. A Superior Court jury of 10 women and two men which deliberated since July 11 returned the verdicts Friday against the Parkers, of Barstow, Calif. Sentencing is set for Sept. 3. The maximum sentence for manslaughter is 15 years and for felony child abuse is 10 years.

WORLD TODAY

Brezhnev To Warsaw

WARSAW, Poland (AP) — Soviet Communist party leader Leonid I. Brezhnev has flown into Warsaw to participate in celebrations marking the 30th anniversary of Communist rule in Poland. He will stay three days. Brezhnev was greeted on Friday at the military airport by Polish Communist party chief Edward Giersek and other top Polish leaders.

Franco Improving

MADRID (AP) — Gen. Francisco Franco left his hospital bed today to take a brief walk around his room, the news agency Europa Press reported. Just 24 hours earlier, he temporarily handed over his position of chief of state to young Prince Juan Carlos de Borbon after doctors said intestinal bleeding complications had made the generalissimo's condition "very serious." The agency quoted city official Jesus Suenos as saying Franco, 81, took the walk at his doctors' suggestion though he did not feel much like getting out of bed after Friday's relapse, according to the agency. He was hospitalized July 9 with an attack of plebitis, an inflammation of the veins.

Israel Fears Arab Wealth

JERUSALEM (AP) — Israeli government officials say they believe the vast accumulation of wealth in Arab oil-producing countries poses a new threat to Israel's future. As they see it, the wealth makes possible virtually unlimited defense expenditures by the Arabs. Second, it could buy influence in the United States at Israel's expense. Haim Bar-Lev, Israel's minister of commerce and former army chief of staff, points to the recent U.S. decision to sell a nuclear reactor to Egypt as an example of how new Arab influence could hurt Israel. Israel faces a \$13.1 billion deficit in its balance of payments this year, government economists say. Saudi Arabia, on the other hand, may accumulate surplus funds of \$15 billion to \$20 billion in 1974, according to U.S. estimates.

Success Flushed

HULL, England (AP) — Dennis Bateson, 23, who formerly flushed 2,000 toilets a day as teler at a bathroom equipment factory here, has been promoted to the position of junior foreman. Bateson was known as Britain's top chain puller and had held his previous post for two years.

Men Who Walked On Moon Are Different

EDITOR'S NOTE — Twelve men have walked the moon since that first landing five years ago this week. They came back lame, for a while, and to personal difficulties for some. Walking the moon, looking back at "the best of these men, and earth," changed these men, and the memory still overwhelms them.

By HOWARD BENEDICT AP Aerospace Writer

Twelve men have walked on the moon — that distant globe that Edwin E. Aldrin described as "Beautiful! Beautiful! ... Magnificent desolation!" It has been five years since man first stirred the ancient lunar dust and the feat has been relegated to history. But it remains fresh in the memories of the only 12 humans to view the earth from another body.

On return to earth, some had difficulty readjusting. Eight of the 12 men have left the astronaut corps. One is a millionaire. One preaches about God and is deeply in debt. One is exploring frontiers of the mind.

After their historic flight, Armstrong and Aldrin were feted around the world. Armstrong, a quiet, intelligent man did not like the glare of publicity and he soon withdrew from public life. The first man on the moon, he probably could have earned a fortune trading on his name. Instead, he chose the academic life and is now a 43-year-old professor of aerospace engineering at the University of Cincinnati.

Armstrong also regrets that the spirit fostered by his "giant leap for mankind" faded as the public interest in the space program.

There still is criticism that the more than \$20 billion spent on the entire man-on-the-moon program would have been better spent on social programs.

Rep. David Dennis, R-Ind., a staunch Nixon defender, said while Doar's presentation was pro-impeachment, "I thought he did a very well."

Doar's analysis of that evidence continues today in another closed-door session dealing with charges of illegal intelligence gathering, misuse of government agencies, tax fraud and contempt of Congress.

More discussions and a presentation of arguments against impeachment by the minority staff are scheduled for early next week and on Wednesday the committee will begin its fateful deliberations, with the possibility of a vote on whether to recommend impeachment by next Saturday. The committee sessions are expected to be televised.

Any recommendation by the committee will go to the full House, which would decide whether to impeach Nixon. If the majority votes impeachment, the charges would then go to trial in the Senate, with a two-thirds vote needed for conviction and removal from office.

In his opening presentation Friday, Doar dropped the role of the impartial investigator presenting facts without conclusions and laid down what most Democrats described as a strong case for impeachment on the basis of Watergate alone.

His performance produced an angry response from Nixon's press secretary, Ronald L. Ziegler, who said Doar was "out of order in the extreme" in marshaling facts on the side of impeachment.

Several Republican committee members said they thought Doar did a good job in putting together a case from the mass of material before the committee.

Others say the nation's space goal — landing on the moon in a few aviation and electronics firms and travels extensively to talk about mental health.

Aldrin said he still takes regular treatment to prevent a recurrence of his mental depression, and he and his wife, Joan, still have family counseling sessions to help preserve their marriage.

Apollo 12's Charles Conrad Jr. and Alan L. Bean are the only moonwalkers who made subsequent space flights. Conrad commanded the Skylab 1 28-day orbital mission in 1973. His daring space walks helped save the station when it ran into serious mechanical trouble.

Bean headed the Skylab 2 crew which later inhabited the station for 59 days. "Certainly a walk on the moon has to have a profound effect on a person," Bean said. "It influences your philosophical outlook when you look back at our tiny earth. And it affects a person, in my opinion, because it's a high risk situation. You can see your life in jeopardy all the time. You're able to contemplate those things perhaps the same way a person is changed when he's in combat."

Conrad's flight was barely over when he starved for more action. "When I came home from the moon, I said I wanted to fly again," he said, the building, fast-talking Conrad, who races autos for relaxation. "I volunteered to work on Skylab, because that was an exciting program. After that I volunteered for something else."

But a lucrative business offer earlier this year lured him away from the space program, and he is now the 44-year-old vice president of a cable television company in Denver.

Bean, 42, is one of the four moonmen still in the astronaut corps. He is training as backup commander for the U.S. team that will fly a joint earth orbit mission with Soviet cosmonauts next July.

He noted that after that flight, no U.S. astronauts are to fly again until the space shuttle is

launched in 1979 and that he might not stay around that long. "I'm going to look around and see what's available," he said. "I felt the power of God as I'd never felt it before," Irwin said. "My faith in God was freshened and made more real."

He retired from the Air Force and NASA in 1972 and founded High Flight, an inter-denominational evangelistic foundation, headquartered in Colorado Springs, Colo. It put him in a deep financial hole that at one time amounted to nearly \$250,000.

Most of the debt, now down to about \$150,000, accrued last year when High Flight sponsored retreats in Colorado for former Vietnam prisoners of war and their families, and the families of those missing in action. The retreats, attended by 1,500, included marriage, psychological and spiritual counseling.

David R. Scott, 42, the Apollo 15 commander, said, "Going to the moon has got to be an overpowering experience in anyone's life. It changes your outlook... What impressed me was looking at the earth and finding it is the only color in the universe."

"My feeling is the earth has a crew like a spacecraft, and for the mission to be successful, the Apollo 18's moonwalkers, John W. Young and Charles M. Duke Jr., are still in the astronaut corps, based at Houston's Johnson Space Center.

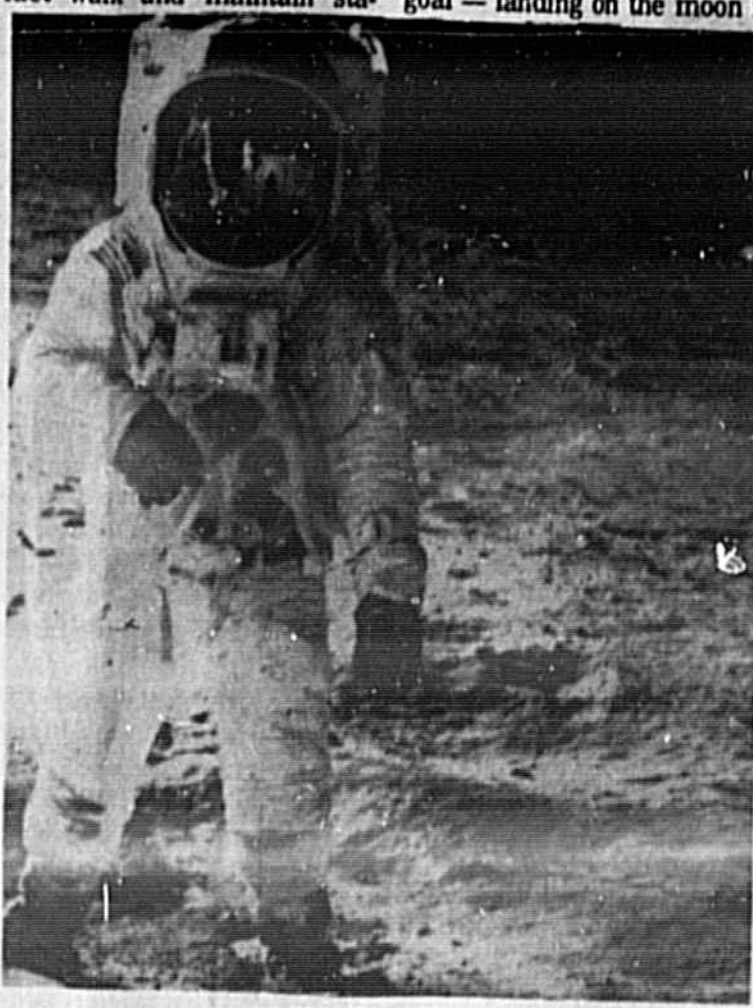

James B. Irwin of Apollo 15 views his moon journey as an overpowering religious experience. He feels compelled to tell others about it. "I felt the power of God as I'd never felt it before," Irwin said. "My faith in God was freshened and made more real."

ALDRIN ON MOON

MAY NONE BUT HONEST MEN RULE UNDER THIS ROOF

White House Has Been Home To Good And Bad

WASHINGTON, D.C. — (NEA) — Tourism at the White House reportedly is down about 50 per cent. "The line of visitors waiting for the doors to open used to wind from the east entrance on 18th Street near Pennsylvania Avenue all the way round the back to 17th and Pennsylvania," said J. W. Lee, a White House guard. "Now it's usually only half that long. Maybe it's the energy crisis that's keeping folks away."

And maybe it's not. There is a trust crisis, too. One wonders if many Americans just don't have a strong enough stomach — heart — to take such a tour anymore. Even if the building is supposed to be our property. And even if the tour is free, no small matter considering there is an inflation crisis too.

Recently, I took the tour. I had never done so before. It begins at 10 a.m. I arrived at 9:15 and already there was a pretty long line. A family of four from Denver was at the head, having staked out at 7:30.

The few persons I passed the time with seemed more concerned with Washington sights than with politics. In front of me, a prim lady from Kansas with sequined earrings rumped through a man with her lady friend, and then turned to me. "Do you know where Ford's Theater is?" she asked. "I heard it's something to see, too."

We waited quite along the tall, iron-shafted fence separating the maple-and-magnolia-lined street from the manicured White House grounds. It was just about 10. Suddenly, there was a great clash of cymbals. I almost jumped. The ladies were startled. The sound was immediately followed by a blaring orchestration of "America the Beautiful." It came from small speakers half hidden in the shrubbery on the White House side.

When my nerve chords had begun to unjangle, I wondered if President Nixon had installed those speakers when he put in his bugging system. I soon came to terms with something else: Although this is the "people's house," I had much trouble separating the premises and edifice from the current occupant. The line started moving. One grows up learning of the majesty and awe-inspiring of the White House. As I entered the white-columned double doors, the first president to greet me was William Howard Taft, all 300 pounds of him and his walrus mustache.

I remember learning two facts about President Taft. One, he did not like being president and, two, he had an immense problem trying to navigate his bulk in and out of the sined, mahogany bathtub in the White House. I never learned whether one fact had anything to do with the other.

I felt that my musings on the portrait of President Taft were getting my tour off on an irrelevant foot, so I decided to buy all three of the guide books sold at the end of the first corridor.

Now as I went through the East Room and the Red Room and the Blue Room and the Green Room and the State Dining Room, I was dutifully aware of the historic background of the cut-glass chandeliers, the various Americana, the chinoiserie (European furniture in Oriental style), the savonnerie (tapestries inspired from a French soap factory), and the gifts from aliens such as the

howdah leader — for getting on and off elephants — from Asian Indians, and the feathered headdress from American Indians. One could feel the sense of history all around. President Teddy Roosevelt said, "I think of Lincoln, shambling, homely, with his strong, sad, deeply furrowed face, all the time. I see him in different rooms and in the halls... he is to me infinitely the most real of the dead Presidents."

After President Lincoln signed the Emancipation Proclamation, and after shaking hands for three hours at a reception here, he said, "I never felt more certain that I was doing right. But my arm is stiff and numb. If they find my hand trembling, they will say, 'He had some convulsions.' But anyway it is going to be done!"

Coincidentally, I read recently that President Nixon's hands have begun to shake very much in the last two years.

President Lincoln and President Nixon also shared a problem with spending too much of the taxpayer's money on improvements. Mary Lincoln, on her own, spent \$6,700 to spruce up the living quarters. "Angrily," said a guidebook, "Lincoln refused to ask for a deficiency appropriation, saying: '...it would stink in the nostrils of the American people!'"

The White House has been the scene of several scandals and near-scandals. For example, when President Benjamin Harrison ascribed his narrow victory to Providence, Boss Matt Quay of Pennsylvania exclaimed that Harrison would never know "how close a number of men were compelled to approach... the penitentiary to make him president."

The difference between then and now is that President Nixon knows.

Such a melancholy realization of the historic corruption at the highest levels of the government can truly choke one as he walks in a pack through the magnificent and — one wishes — hallowed halls. The echoes of faith sound through the corridors: "May none but honest and wise men ever rule under this roof," said President John Adams.

"James Monroe is so honest that if you turned his soul inside out there would not be a spot on it," said President Thomas Jefferson.

"I never forget that I live in a house owned by all the American people and that I have been given their trust," said President Franklin Roosevelt.

The whole tour takes about half an hour, and 174 years. As I walked outside, I looked back at the great white mansion. I felt a mingling of outrage about this building and love for what it symbolizes: strong, trustworthy leadership in a free and humane society.

It was silent Cal, of all people, who shed the clearest perspective. The guidebook, "The Living White House," relates how President Coolidge and a guest, a Missouri senator, strolled outside the grounds. As they returned to the White House, the senator joked, "I wonder who lives there?" "Nobody," replied the President. "They just come and go." It is simply the presidency that remains.

Editorial Court Is Facing A Difficult Task

The attitude of the Founding Fathers toward a role for the Supreme Court in the impeachment process would be best expressed by Alexander Hamilton in the Federalist Papers.

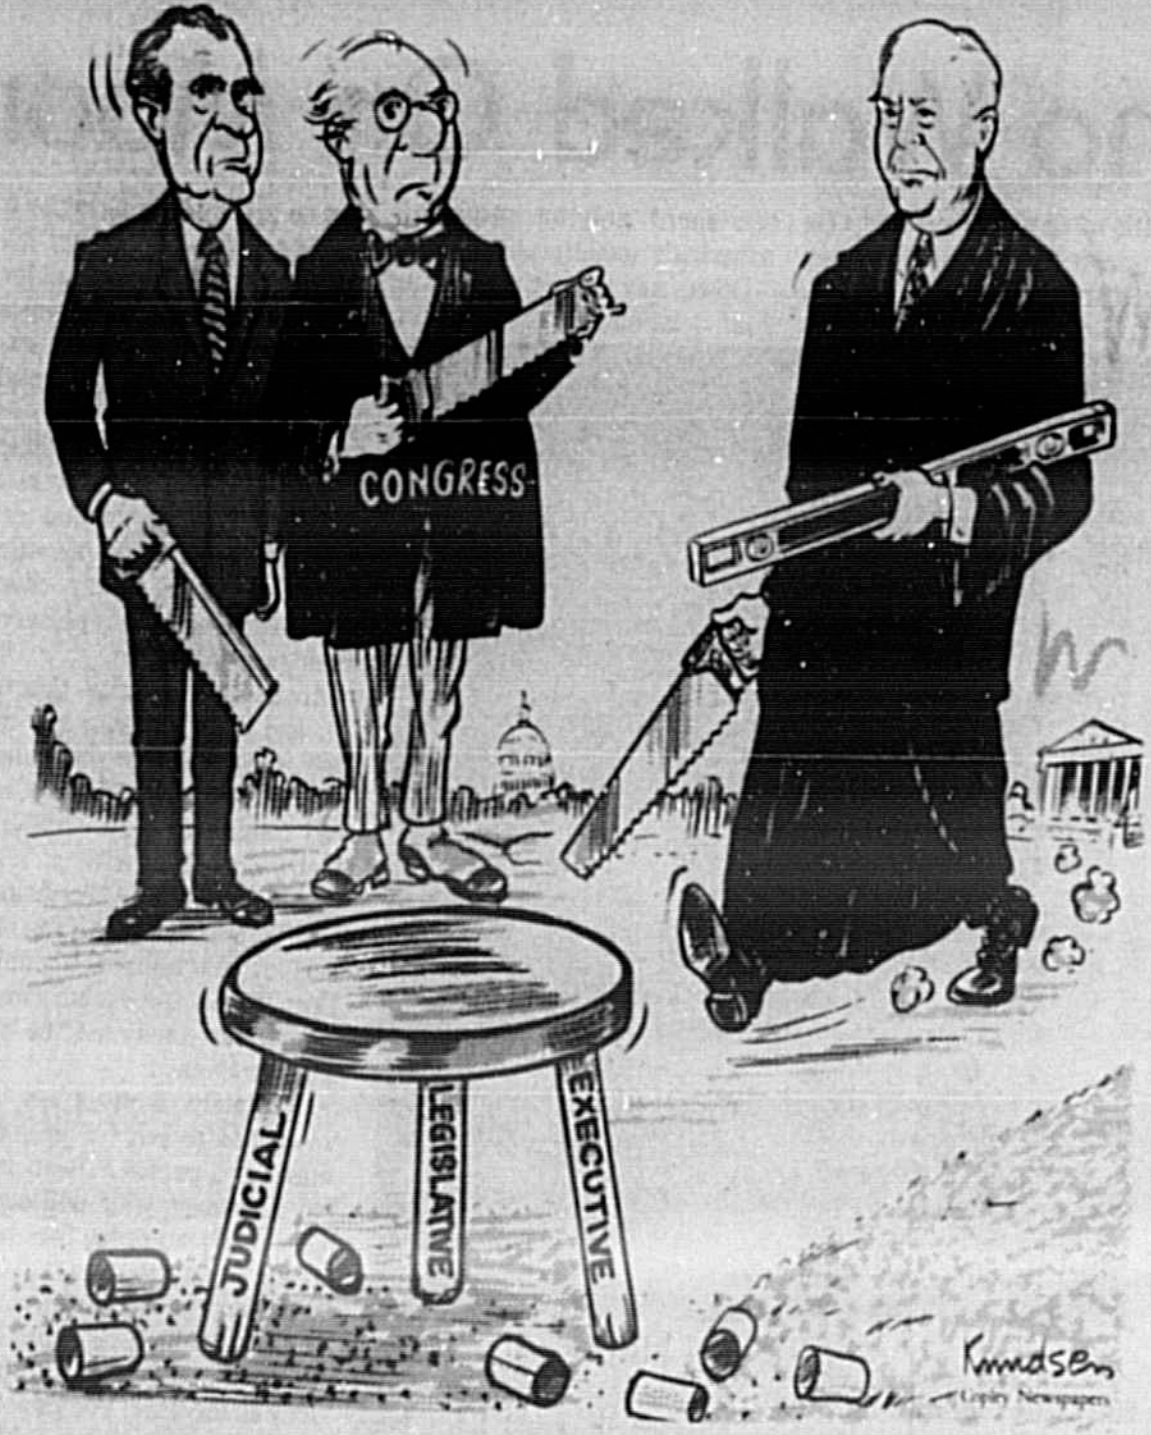

A well-constituted court of impeachment would be difficult to obtain in a government wholly elective because the offense in question would be a violation of the public trust and this always generates political overtones, Hamilton said. He did not believe that the Supreme Court was the proper tribunal for the resolution of impeachment matters because it didn't "possess the degree of credit and authority which might... be indispensable to warding off the people to a decision that should happen to clash with their passions brought by their immediate representative."

That was in the late 1780s. Recently the U.S. Supreme Court achieved what might turn out to be a dominant role in the current impeachment inquiry.

Whether the ultimate court decision is considered favorable or adverse to President Nixon, it will heavily influence the outcome of the impeachment inquiry.

Under the circumstances, we do not envy the court the tough task with which it is confronted, and can only hope that it exercises itself with the least damage to all concerned.

In the meantime, we also must take note of the unhappy fact that the predicament of the court directly from the failure of the House Judiciary Committee to be decisive. If it had taken the bull by the horns last October the whole issue might have been academic by now.

Mobil Finds It Difficult To Tell About Other Side

By WILLIAM A. RUSHER
The Herald Services

What can you do if you are Mobil Oil and want to tell your side of the oil shortage story to the American television public? You can sit there and take it on the chin from your critics, that's what. And that's all you can do.

Mobil is one of America's biggest oil companies, and naturally came in for its share of criticism during the recent energy crisis. But there is, of course, Mobil's side to the story, and Mobil has been spending many thousands of dollars to buy advertising space in newspapers to get that side before the public.

So far as print media are concerned, a reasonably fair balance among conflicting opinions has thus been maintained. But television, on which tens of millions of Americans chiefly rely for their information, is something else again.

Not long ago ABC ran a one-hour documentary on the origins of the energy crisis. ABC called it a "primer," and in general strove to create, and did create, the impression that the program was objective. In fact, however, it was no such thing.

Rather, the documentary set forth a carefully selected set of facts leading to one conclusion: namely, that the energy crisis was largely the fault of the federal government, which had erred in being far too responsive to the requests and demands of the oil industry. Mobil, as one of the giants of the industry, came in for its share of the blame. To fortify its conclusion, ABC carefully excluded facts pointing in other (and indeed opposite) directions, and just in general tied the pinball machine outrageously. The end product was an hour-long exercise in tendentious anti-business propaganda.

Mobil, not surprisingly, was sore. Casting about for some remedy, it filed a complaint with the National News Council (of which, by the way, I am one of the 15 members), an independent, foundation-financed body that was created not long ago to review complaints against major news outlets and also to blow the whistle on possible threats to the freedom of the press.

Indians Deserve Better

By DON OAKLEY
The Herald Services

The Havasupai Indians have been the white man's well-served slaves for justice—in 1908, 1920, 1943, 1957 and 1962. Legislation is once again before Congress that would grant them trust title to 251,000 acres on the remote South Rim of the Grand Canyon, all that remains of their once vast ancestral homeland.

Beginning about A.D. 700, the Havasupai tribe, known as "The People of the Grand Canyon," lived there without doing ecological violence to the land. In fact, with a religious reverence other Americans are slowly beginning to understand, they considered themselves its protectors.

In the late 19th century, the small tribe, now numbering only 435, was herded into 518 almost inaccessible acres deep in the bowels of the canyon and denied access to the upper plateau region, where for 1,300 years they spent their winters. Havasupai livestock may use the plateau land but not the Havasupai people, and even the use of the plateau for grazing is allowed by permit that can be revoked at any time.

The isolation of the Havasupai has exposed them to perhaps the most severe community health problems in the United States: a grossly inadequate landbase, extremely low income and the constant threat of food, clothing, shelter, maintenance and a high incidence of disease. Life expectancy of the Havasupai is 44 years—25 less than for other Americans.

Because of their isolation, they are visited only once a month by a doctor. Medical evacuation is almost impossible since the nearest horse trail to the nearest dirt road is blocked for weeks in winter by snow. Emergency helicopter service is available only during the day and in good weather.

Confinement of the Havasupai to the canyon has also had profound social effects. Today, 70 children aged 10 and over must leave home for nine months of the year to attend a federal boarding school 80 miles away. Living distant foster homes while attending public school. The shortage of land has forced more than 100 tribal members to leave their families to reside in towns 75 or more miles away.

The means of granting justice to the Havasupai lies in an amendment to Senate bill S-1296, a bill to double the size of the Grand Canyon, which has already passed the House. The amendment has the support of a number of prominent congressmen, as well as President Nixon.

"Sure, I've been on the floor," he said. "But I'm not pinholing any members. I'm for a strip-mining bill that will have ecological protection and will permit strip-mining. After all, nobody ever said Wayne Aspinall wasn't a conservationist."

Actually, that is exactly what his environmentalist opponents have said for years, now more than ever as they sit in the galleries and helplessly watch him at work on the floor below.

From The Mailbag

Editor
The Herald
Sanford, Fla. 32771

Dear Sir:

Well, sir, would you believe? There was the absent-minded professor right on the editorial page asking for the key to dealing with inflation. When all the time he had it in his hand: "you pay the piper." That's the key, inflation did not begin yesterday or 10 years ago; it started with "Handsome" Harry Hopkins when he said we will spend and spend and spend and elect, elect and elect. And the key was thrown away when "he" started HEW and the nation started to cannibalize the unborne Deficit Financing and unproductive expenditure of funds.

The Port of Sanford is a perfect example. As it is advertised as the Port of Sanford, it was in actuality the Seminole County Port Authority and was financed illegally by the department of Housing and Urban Development. At least I see it this way, as public law 891-38 Sec 702 reads:

"No financial assistance under this act shall be extended to any project when the results there of are to increase the production of goods, materials or commodities or the availability of service or facilities when there is not sufficient demand for such goods, materials, commodities or services to justify the cost of the project."

The port was built without a financial feasibility study and four years before the estimated completion of the Cross-Florida Barge Canal, the canal being said to be necessary for the success of the Port.

The taxpayers are fortunate that they have an efficient administrator of the Port.

The House Committee on Interior and Insular Affairs voted this month on S-1296 and on the amendment granting permanent trust title to the Havasupai of these 251,000 acres. If passed by the House, Senate supporters of the amendment are confident it will be ratified by the upper chamber.

Answering the objections of hard-line conservationists, who seem to be the only people opposing the amendment, Edward F. Kennedy, D-Mass., stated: "The Havasupai have absolutely no desire or intention to use their land base for any purpose other than those which they have pursued for nearly 1,300 years. They are not going to build a dam, or put up a factory, or launch a tourist extravaganza or undertake any other environmentally unsound project."

Quite the contrary, the Havasupai are intent upon preserving the natural, undeveloped and unspoiled beauty of their homeland and are ready to accept any reasonable requirements Congress might impose to insure environmental protection and consistency of use with the adjacent and enlarged Grand Canyon National Park.

This legislation should be passed.

Chess Stumbling Frenchman Seminole Calendar

By JOSEPH MILL BROWN
The Herald Services

In the 1906 Memphis Commercial Appeal reported the visit of a Frenchman who accidentally stumbled into a chess tournament and announced, with some horror, that the atmosphere resembled a "congress of maniacs."

Of course today, in some quarters, chess as an occupation still ranks one or two notches above butterflycatching, and chessplayers considered a breed of homo sapiens only one or two steps ahead of the man in the white coat.

At the 1946 Hastings (England) Tournament—the first big one after World War II—a mine was suddenly washed ashore by the English Channel waters, and came to a menacing stop in front of the playing site: Not a single chessplayer even bothered to look—convicted, no doubt, that death from exploding mine could not possibly be more horrible than a lost game from a winning position.

The assumption that chessplayers are not really like you and me, but more like men from Mars, is often responsible for the liberties taken or by blockheads who would ordinarily hesitate to profane their opinions to, say, heavy-weight wrestlers.

The 19th Century English star, J.H. Blackburne, who had a living baseball ambidextrous potter, was nettled by a kilted warrior covered over him as he went about chattering an amateur reverence enough to have bet on their game.

As Blackburne pocketed the money, the kilted sneered, "How can you enjoy playing such a noble game for filthy lucre?"

"It's not the filthy lucre I object to," sneared Blackburne. "It's the filthy looker."

Perhaps because there is this need to prove himself, the chessplayer is exhorted to overachieve, just like any other garden variety genius. "To gain a tournament first, mastery is not enough," proclaimed Russian theorist A.S. Suetin. "You must dare; must take risks"—which is what a professional chessplayer does every day of his life. A prominent example is Lubomir Kavalek, an ex-Zechre fencer and a current U.S. Olympic hopeful, for whom the chessboard frequently resembles a trapeze act. (See game below).

Truth of the matter is, the single-mindedness thought to be mandatory for success in business is child's play compared to the slave labor necessary for the proper preparation for a chess tournament. Such routine was described with quiet agony by Soviet veteran Alexander Kotov in his book, "Think Like a Grandmaster."

"Suppose you have to play in a tournament with 20 competitors. You will have to prepare separately for each one. This involves looking through at least 30 of his games... (or) over 600 games. Spend a half-hour on each, you need 300 hours which at six hours a day works out at 50 days. What about the conclusions... the hard work of finding new moves which may well prove unsound? Yes, there is real hard work for you."

One Church Gives Word Three Ways

MIAMI (AP)—To make sure that all its members get the message, a Baptist Church in Miami conducts its services in three languages: Mandarin, Cantonese and English.

The Rev. Kwong-Wah Lau says the non-English interlopers are mainly for older members who still speak only their native tongue. He came to the United States from Hong Kong seven years ago and conducts the weekly services at the Chinese Baptist Church.

"Most of the Chinese people in Miami are professionals who speak English and Mandarin," Lau, 40, said Friday. "Some of them brought their parents, and they speak only Mandarin. The older generation that came from China, Taiwan and Hong Kong speaks only Cantonese."

Eighteen years ago, a Baptist church in downtown Miami began teaching Sunday school in Chinese. There were about 40 members attending a weekly afternoon service in English and Cantonese when Lau arrived in 1968.

The members decided two years ago to form their own church, a \$150,000 project that opened in January. Money was raised from weekly collections and Lau said he expects to have the entire project paid off by the end of this year.

"Language was a problem, but that was not the main reason we wanted our own church," Lau said. "Since most of our members are businessmen, they couldn't come to the single Sunday afternoon service we used to have."

Lau says about 150 members from throughout South Florida regularly attend the Sunday morning services.

For awhile, Lau interpreted his own sermons from English into both Cantonese and Mandarin. But he began having trouble with his throat and two church members now handle the translation.

Lau, who said he edited a religious magazine, "Heavenly Bread," in Hong Kong for 10 years, said he decided to bring his family to the United States because he wanted to be a pastor.

"I was young, and it's hard for the Chinese (in Hong Kong) to accept a young pastor," he explained. "In this country, it's different."

Tribe's Bosman No Hits A'S

Cleveland's Dick Bosman threw a perfect game... Making only his fifth start of the season, the 30-year-old right-hander threw 79 pitches to the plate against the Oakland A's and 6 of them were either strikes—banned four—or resulted in outs. Bosman also threw twice to first base and one of them was glancing

off the glove of Tom McCraw for a two-base error... Red Sox 3, Rangers 1... accounted for two runs and the winning run in the ninth on Fran Hely's single, Fred Pattek's double and Jim Wolford's infield hit.

White Sox 7, Brewers 3... Ken Henderson drove in three runs with two-run homer and a double as Chicago rolled to its fifth straight victory.

Fisherman Fine Fare For Flooded Fire Ant

The St. Johns River continues to rise and as the pasture lands become inundated, another problem has come to light for the already beleaguered sports fishermen. Fire ants, flooded out of their hills, are floating on every piece of trash and debris. Anyone wading is running the risk of getting some extremely painful bites.

Bill Hill stepped out of Lake Jessup but with the high water, speckled perch have started biting. Lowell Hiley, camp operator, predicted the stream would start up again this week.

Mrs. Arthur White at Wekiva River Haven. Her husband had lunched a couple of small ones before trying which his wife lunched. Arthur turned his little ones loose.

Seminaries Take Blame For Decline

By GEORGE W. CHANE Ph. D., M. D.

CASE A-889: Albert J., aged 23, is a seminary student.

"Dr. Crane," he began, "I am writing a thesis for my M.A. degree.

"It deals with the rapid rise in membership of the independent Bible churches that stress fundamental religion.

"For our large, entrenched denominations are actually losing members steadily.

"Indeed, they aren't even holding their own with the rising population increase of the nation.

"And we seminary students who preach over the weekends at small neighboring towns, find that our parishioners don't accept the sociological emphasis of our seminary professors.

"Why don't our preps get out on the firing line and preach, as St. Paul did?"

The Mormon Church is noted for its volunteer missionaries, who pay their own way as they preach.

And the early Christian Church had no billions of dollars in accumulated real estate, farms or stocks and bonds!

Even the pastors worked at other jobs for their livelihood; then preached nightly at street corners or on Sunday.

St. Paul thus was the major organizer of Christian churches in that century, A.D., and Paul worked as a tentmaker.

Nowadays, our churches are so concerned with conserving their billions of dollars in property, and in financing their home office bureaucracy, that they have soft-pedaled the former stress on evangelism.

That explains why their sermons often are political diatribes, and sociology lectures urging more federal aid to their hospitals and schools.

Last fall the newspaper feature called "Graffiti—By Larry" offered a challenging truism, when it stated:

"The easiest way to change history is to become a historian."

Which means that if you can gain enough eminence to pontificate, then you can subtly slant religious as well as secular history.

You can then attempt to undermine evangelical concepts by trying to grab headlines with a shocking claim that:

"God is dead."

Or like a current new book that claims Christ didn't die on Calvary but lived to middle age as a crippled but kindly soul.

Modern versions of the Bible have also been printed, claiming to simplify former puzzling words or phrases.

But have similar simplifications occurred with references to the beautiful prose of William Shakespeare's many plays?

Instead of attaching a brief glossary to show the changing nature of a few words in the King James version (as has been done in College English courses with reference to Shakespeare) our headline hunting theologians glaze over their new versions of Scripture.

Likewise, they delete or add so many variations to basic church hymns that congregations no longer are thrilled emotionally by the great evangelical music of the churches.

So beware of rash changes in the pulpit or choir loft!

Seminaries are at fault for the decline of organized religion.

They've been trying to change religious history and sermonizing, yet most parishioners dislike such bureaucratic innovations and are thus flocking to the independent Bible-based churches!

(Always write to Dr. Crane in care of this newspaper, enclosing a long, stamped, addressed envelope and 25c to cover typing and printing costs when you send for one of his booklets.)

FLORIDA TODAY

Baby Death Trial

FERNANDINA BEACH, Fla. (AP) — Windie T. Turner faces a maximum of 15 years in prison after being convicted of manslaughter in the death of a 7-month-old baby.

A Nassau County Circuit Court jury returned the verdict late Friday. Sentencing for the 27-year-old Turner, who had been charged with first-degree murder, was set for Aug. 2.

Turner was accused of beating Amy Kitchens over the head with a plastic baby bottle on Nov. 19, 1973. The child died the next day.

FP&L Earnings Drop

MIAMI (AP) — Fuel costs and rising interest have been blamed for a 16 per cent drop in the quarterly earnings of Florida Power & Light Co.

The utility, which serves 36 of the Florida's 67 counties and is the state's largest, made the report Friday.

Church Sued When Heaven Won't Open

MIAMI (AP) — A Miami man who says he didn't get the blessing he was promised has sued his former church for the return of \$800 in donations.

In a handwritten suit filed Friday, Hugh McNatt, 42, said: "On Sept. 7, 1971, I delivered \$800 of my savings to the Allapattah Baptist Church in return for the pastor's promise that blessings, benefits and rewards would come to a person who would tithe 10 per cent of their wealth. I did not and have not received these benefits."

McNatt said he has dropped the suit because the church has declined to say what blessings he expected.

"That's between me and the church," he told a newsman.

Dr. Franklin M. Jacobs, co-pastor of the church, said side, "I'm sure that things can't be done that way. They must go through the church to try and reach an out-of-court settlement in the meantime."

But she urged McNatt and an attorney for the church to try and reach an out-of-court settlement in the meantime.

Dr. McNatt said he had dropped the suit because the church has declined to say what blessings he expected.

"That's between me and the church," he told a newsman.

Dr. Franklin M. Jacobs, co-pastor of the church, said side, "I'm sure that things can't be done that way. They must go through the church to try and reach an out-of-court settlement in the meantime."

Puerto Rican Chief Hails Ties With U.S.

MIAMI (AP) — The governor of Puerto Rico has told more than 5,000 of his cheering countrymen that the island's relationship with the United States is a "unique experience in interdependence" that was many years ahead of its time.

"The 22-year experience of a unique relationship between a giant country and a small county... is fully as important and advanced as the pioneering of Puerto Ricans to register and vote in this country."

"We must have an open, innovative and responsive government," he said.

Asked issued a plea for Puerto Ricans to register and vote in this country.

"It is a concept that was tailored to fit the realities of the island's situation in the modern world," he said.

Asked issued a plea for Puerto Ricans to register and vote in this country.

Tenure Denial Upheld

TALLAHASSEE, Fla. (AP) — A Board of Regents decision denying tenure to former University of Florida professor Kenneth Megill has been upheld by a federal judge who says the board "has the duty to make the final decision."

U.S. District Judge David L. Middlebrooks ruled Friday that procedures used by the regents were "correct and afforded plaintiff Megill due process."

Megill, a leftist philosophy professor, filed suit last Sept. 24 charging that the regents lacked power to deny him tenure. He also said his constitutional rights were violated.

The regents moved on July 25, 1973 to back the decision of former UF President Stephen O'Connell to deny tenure to the professor. The move had the same effect as dismissing him.

Megill is now executive director of the United Faculty of Florida.

Attorney Wins \$338,000 Suit

LAKELAND, Fla. (AP) — An Orlando attorney who brought suit against a marketing order by the Florida Citrus Commission has been awarded \$338,000 in fees.

Lake County Circuit Judge Troy Hall ordered the commission Friday to pay the money to Charles E. Davis. Hall also assessed the commission \$5,000 in court costs.

The commission immediately voted to appeal the ruling.

Monte Campbell, an attorney for the commission, said he felt the judge's order was of doubtful legality.

Davis represented C.V. Griffin Jr., owner of the Honey-In-The-Hills and C.V. Griffin Groves companies, in a suit opposing the marketing order.

A five-cents-per-box tax collected under the order is to be used to promote the sale of orange juice to schools across the country.

Davis maintained that the tax violated the rights of citrus growers and processors because it constituted taxation for an unlawful purpose.

The marketing order unlawfully authorized the expenditure of tax revenue for the benefit of private industry, Davis said. He also charged that the order unconstitutionally delegated legislative authority to the citrus commission.

The suit was filed in 1969. It was settled in 1973 when Davis requested dismissal without prejudice and asked the judge to order the citrus commission to pay his fees. The commission had been waiting since then for Hall's decision.

At the time of the dismissal, Griffin offered to cooperate with the commission in working out an acceptable school-marketing policy.

MR. AND MRS. J.L. BUTLER ...Newlyweds

Vows Exchanged By Candlelight

Miss Cynthia Joan Martin and Jimmie Lee Butler exchanged wedding vows June 29, 1974 at 5 p.m. in a candlelight ceremony at the New Mt. Zion Primitive Baptist Church, with the Rev. P. Ballard, officiating.

The bride is the daughter of Mrs. Willie M. Martin, 131 Drew Avenue, Sanford and John Martin, Rt. 2, Box 332, Sanford. And the bridegroom is the son of Mr. and Mrs. Nathan Butler Sr., Rt. 2, Box 147-C, Sanford.

The vows were exchanged under a white arch with white daisies and spring flowers.

Given in marriage by her father, the bride wore a formal length gown of white organza and val lace, featuring a scooped neckline edged with Venice lace. The full skirt fell from a natural waistline and was bordered with rows of lace matching the lace double ruffle at the wrists of sheer fitted sleeves.

Her triple tiered cathedral length mantle was edged in lace matching that on the headpiece. She carried a cascading bouquet of stephanotis, carnations and orchids with natural foliage and ribbon streamers. She also carried two long stemmed roses which she presented to the two mothers en route to the altar.

Miss Jamie Selim, who served her sister as maid of honor, wore a formal length gown of white organza and val lace, featuring a scooped neckline edged with Venice lace. The full skirt fell from a natural waistline and was bordered with rows of lace matching the lace double ruffle at the wrists of sheer fitted sleeves.

Bridesmaids and matrons wore Mrs. Shirley Slater, and Miss Linda Gaines, both of Tropicana rose.

The bride's mother chose a formal length delta blue gown of polyester knit, empire style trimmed with pearl bands at the neckline and sleeves, and peignoir back and a white orchid corsage. The bridegroom's mother wore a formal length gown of mint green Quana nylon with gold accessories and a green orchid corsage.

The bride's mother chose a formal length delta blue gown of polyester knit, empire style trimmed with pearl bands at the neckline and sleeves, and peignoir back and a white orchid corsage. The bridegroom's mother wore a formal length gown of mint green Quana nylon with gold accessories and a green orchid corsage.

Jones-Selim Are Wed

MR. AND MRS. ASHBY GLENN JONES, JR. ...The former Phyllis Deason Selim

Miss Phyllis Deason Selim, daughter of Mr. and Mrs. Ramzy H. Selim, 1232 Flagstone Dr., Daytona Beach and Ashby Glenn Jones, Jr., son of Mr. and Mrs. Ashby Glenn Jones, Sr., 2410 Elm Ave., Sanford, were united in Holy matrimony June 22, 1974 at 7 p.m. at Trinity Lutheran Church, Holly Hill.

Officiating clergyman at the candlelight, double ring ceremony was the Rev. Albert J. Schultz. Mrs. Helen Pearson, organist, and Miss Helen Benner, artist-in-residence in voice at Florida Southern College, presented a program of nuptial music.

Church decorations included altar arrangements of assorted flowers in colors matching those of the bridesmaid's gown, two basket arrangements in front of the altar and every other pew held a single candle with springs of flowers and greenery.

MR. AND MRS. RONALD ADDINGTON ...The former Rebecca Anne Serraes

Wedding Ceremony Held At All Souls

Miss Rebecca Anne Serraes and Ronald Lee Addington, exchanged wedding vows July 6, 1974 at 2 p.m. at All Souls Catholic Church, Sanford.

Officiating at the double ring ceremony was the Rev. William E. Finis. Mrs. Lorraine Divie, organist, and Mrs. Roy Berguson, soloist, presented an appropriate program of nuptial music.

The bride is the daughter of Mr. and Mrs. Alex J. Serraes, 199 East Woodland Dr., Sanford and the bridegroom is the son of Mr. and Mrs. Howard Addington, DeBary.

The church was decorated with basket arrangements of multicolor flowers, on the altar and side altars, railings were adorned with garlands of greenery interspersed with flowers and candles and the aisles were lighted with candles and sprigs of greenery at the end of each pew.

Given in marriage by her father, the bride wore a formal length gown of white silk organza, featuring a scoop neckline with triple bertha collar encircled with Venice lace and pearls. The long sleeves had a side ruffle outlined with lace and interspersed with medallions.

From the natural waistline of lace the A-line skirt carried a deep flounce trimmed with lace which swept into a brush train. The three tiered silk illusion bouffant veil was held in place by a cluster of Venice flowers. She carried a cascading bouquet of roses, baby's breath and trailing ivy.

Miss Eileen Serraes, maid of honor, was attired in a formal length gown of pastel yellow knit, with butterfly sleeves, V-neckline and a crystal headpiece of garden flowers with green ribbon streamers and carried a bouquet of garden flowers.

Bridesmaids were the Misses Cindy Serraes, Cathy and Susan Hoffman. Their gowns, headresses and flowers were identical to those of the bride except in pastel shades of blue, pink and green.

Their new residence will be 903 Lake Shore Dr., Lake Park, Fla. The bridegroom is a school teacher and bride a nurse.

Out of town guests came from Detroit, Mich. and Gainesville, Palmetto and Fort Myers, Fla.

Her fiancé, born in Sanford, is the grandson of Mrs. Roy H. Welch and the late Mr. and Mrs. Willie Fields Hunt Sr., all of East Point, Ga.

He is a 1972 graduate of Seminole High School, Sanford, and Seminole Junior College. He is presently student at David Lipscomb College, Nashville, Tenn., where he is a member of Sigma Chi Delta fraternity and is also employed at David Lipscomb College and Warner Drug Co.

The wedding will be an event of Aug. 30, 1974 at 7:30 p.m. at the Hillsboro Church of Christ, in Nashville.

Miss Mitchell Weds C.M. Pigott

Miss Bonnie Louise Mitchell, daughter of Mrs. Robert Asher, 272 Spring Circle, Lake Park, and J. R. Mitchell, 3039 Avenue R, Riviera Beach, became the bride of Charles Martin Pigott, son of Mr. and Mrs. James H. Pigott, 744 Kitty Hawk Way, North Palm Beach, June 15, 1974 at 7 p.m. at Trinity United Methodist Church, Palm Beach Gardens.

Officiating at the candlelight, double ring ceremony was the Rev. Gordon Ralls. Mrs. Evelyn Phillips, organist, was in charge of the musical program.

Church decorations included two standing basket arrangements of pink and white carnations and double branched candelabra.

Given in marriage by her maternal grandfather, Harold Emery, the bride wore a formal length gown of pale beige satin with an overskirt of Belgium lace. It was complemented with a wine satin cummerbund ending in a bow with streamers falling gracefully to the floor. She wore a headpiece of fresh baby's breath and carried a nosegay of sweetheart roses, lace and pink floral print, carnations with an abundance of baby's breath and white satin ribbon streamers.

Mrs. Sandra Snyder, matron of honor, was attired in a formal length gown of colorful Summer silk floral print, with pink predominating. It featured an empire bodice, scooped neckline and bell sleeves and she carried a bouquet of pink carnations, in shades to match the pink in her gown, with baby's breath and ribbon streamers.

Bridesmaids were Janice Higgins, Michelle Howe, Anita Smith and Marli Mitchell. Their gowns and flowers were identical to those of the bride.

James H. Pigott, served his son as best man and usher-groomsmen were Floyd Mathews, Mike Obasugh, Edmund Pigott and Robert Bell.

The bride's mother chose a floor length gown of lavender silk with scoop neckline, matching accessories and an orchid corsage. The groom's

MR. AND MRS. CHARLES PIGOTT

Miss Adams Engaged To Roy Hunt

Mr. and Mrs. John M. Adams, Antioch, Tenn. are announcing the engagement and forthcoming marriage of their daughter, Carol Ann Adams, to Roy Allen Hunt, son of Mrs. Willie Fields Hunt and the late Mr. Hunt, 2408 Palmetto Ave., Sanford.

The bride-elect is the granddaughter of Mr. and Mrs. Bert Mathis, Memphis, Tenn. and Mr. and Mrs. John Adams, Arbyrd, Mo. A 1973 graduate of David Lipscomb High School, Nashville, she is presently a student at David Lipscomb College, also in Nashville, and employed by Hutchison Pharmacy.

Her fiancé, born in Sanford, is the grandson of Mrs. Roy H. Welch and the late Mr. and Mrs. Willie Fields Hunt Sr., all of East Point, Ga.

He is a 1972 graduate of Seminole High School, Sanford, and Seminole Junior College. He is presently student at David Lipscomb College, Nashville, Tenn., where he is a member of Sigma Chi Delta fraternity and is also employed at David Lipscomb College and Warner Drug Co.

The wedding will be an event of Aug. 30, 1974 at 7:30 p.m. at the Hillsboro Church of Christ, in Nashville.

20th Reunion Brings Back Many Memories

MISCELLANEOUS SHOWER FOR BRIDE-ELECT
... (l to r) Teri Fay, Teresa Stebbins, Althea Whitcomb, Mary G. Wheelchel and Kelly Hankin.

Party Honors Miss Whitcomb

The home of Teri Fay, 305 Collins Drive, was the scene of a miscellaneous shower honoring Miss Althea Whitcomb, July 20, bride-elect of James Shupe.

Hostesses were Mrs. Fay, Teresa Stebbins and Mary G. Wheelchel. They presented the honoree with a plant arrangement and mug rack. In addition to the gifts from friends attending the shower, she received some pieces of green depression glass from an uncle in Lancaster, Pa. and a cake decorated in blue and white.

Joining a group of local friends of the honoree were her sister, Kelly Hankin and Diane Kencer, of Oviedo and Jean Canada and Chris Canada, of Orlando.

CROOMS CLASS OF 1954 REUNION
... (l-r) W.G. Allen, Mrs. W.R. Crooms, Mrs. H.G. Evans and RT.V. Davis.

Evans, was a beautiful orchid, given by one of her students Mrs. Dressie F. Holt; also a lovely plant by the class to add to the many potted plants Mrs. Crooms loves so well. Tribute to the deceased classmate was given with a moment of silent prayer led by Rev. Donell E. Evans. The roll of classmates was called by Mrs. Annette J. Franklin with 25 answering the call. Prayer of thanks and blessing was given by John Moore.

Speaker for the evening was Theodore V. Davis, class president, who is now director of student placement at Chicago City College, Ill.

Dedication of a poem to Mrs. Crooms "In Tune" was read by Mrs. Queen S. Jones. Gag prizes were presented by Mrs. Rebecca K. Sweets. To the person who had come the farthest, the prize went to Rosetta Davis, From California. The next prize went to the person with the most children.

At the close of a delicious dinner the class stood and sang the school song written by a former student, James A. Foster, "Dear Old Crooms Academy."

This group departed to meet again in 10 years. Class reunion committee included Hortense Givens Evans, Marva Y. Hawkins, Semecia Knight Sweets, Queen Stallworth Jones, Fannie Griffin Beaman, Mrs. and Mrs. Cornelius Jenkins and sons of Daytona Beach were guests of the class. Mrs. Jenkins taught many of the students present.

Classmates attending were Betty Black Smith (Bette Glade); Willis Boyd, Philadelphia; Alton Burke, Rochester, N.Y.; Allen Caldwell Marshall, Rochester, N.Y.; Mary Harris, Orlando; Regina Hestie Graham, Calif.; Semmie Long, Sanford; Willie Ann Miller Walker, Rochester; Dorothy Phillippe, Rochester, N.Y.; Modestine Smith Modye, Rochester; Mary Lee Stinson, Orlando; Bertha Vickers, Washington, Rochester; Easter M. Wellaw Barron, Rochester; Willie James White, Sanford; Students from other classes attending were Percy Lee, and Mary Murray.

SHOWER HONORS MRS. GOLDEN

MRS. Cynthia Golden of Sanford was feted with a baby shower given by her sister, Venice Cassanova, at the family home on South West Road. The honoree was showered with lovely gifts by the guests. From left, Margaret Hughes, Venice Cassanova, Mrs. Golden, and Jeanette Williams.

Save Seeds Longwood Party For Simple Honors Couple

Mr. and Mrs. Robert A. Gardner, 207 Sheridan Avenue, Windsor Manor, Longwood, are having a party at a recent cook-out honoring Miss Regina Murray and Mrs. Chris Alcott, whose marriage will be an event in the near future.

Miss Murray is the daughter of Mrs. Edna Murray, Sanford, and Mr. Alcott is the son of Mr. and Mrs. Wesley Alcott, Orlando.

The guests included the staff of Cawley Steel and Aluminum, in Orlando. Guests were: Mr. and Mrs. Frank Murray; Edna Murray; Mrs. Mary Murray; Mr. and Mrs. Tom Dobbin; Mr. and Mrs. Bill Parker; Mr. and Mrs. John Voelpel; Mr. and Mrs. Mitt Forrester; Mr. and Mrs. Ed Hughes; Nancy Treat; Kevin McNamara; Juanita Eiale; Mr. and Mrs. John O'Dell; and Mr. and Mrs. Charlie Copeley.

The first step is to sketch an outline on a scrap of paper of a simple picture. In an accompanying illustration a boat outline is suggested.

Next, transfer the design to the meat tray, first with a very light pencil, then boldly with a felt pen. Then it is easy to glue the seeds into place, following along the outline. Experiment with the loose seeds first on a flat surface to see how you want to contrast the dark watermelon seeds with the light cantaloupe ones, as many different effects can be achieved.

For a final touch, use the felt pen to sketch in finishing details however your imagination decides. And you'll have a wall piece all ready for hanging either with a thumb tacked to ribbon looped and taped to the back.

Since it's so easy to accumulate a supply of seeds in very little time, another project that is easy to make is a pair of homemade maracas. These are fun to play in a backyard, and particularly if you listen to some Latin American music in which these instruments are featured, and then decide to play along.

Take two paper or plastic cups and tape them rim to rim after dropping a handful of seeds inside. Poke a pencil or round, thin stick through one end to serve as a handle.

Cover the cups with aluminum foil or decorate them with crayons of felt pen designs. This gourd-like rattle takes minutes to make and serves a fine accompaniment to a budding rhythm group.

If you decide to use the seeds for jewelry projects, string them on ordinary sewing thread.

You can probably think up other seed projects, and in the meantime there's no better excuse for having a "fine fruit feed."

Would you like a "Baker's Dozen Soukles" featured "Child's Play" columnist? Send \$1.25 to Barbara-Huntzinger, P.O. Box 957, Santa Rosa, Calif. 95401.

Wedding Plans Announced

Mr. and Mrs. Michael Caolo, 131 East Woodland Dr., Sanford, are announcing the engagement and approaching marriage of their daughter, Miss Bonnie Louise Caolo, to Carl Hutchinson Collins, son of Mr. and Mrs. Henry H. Collins, New Orleans, La.

Born in Coco Solo, Panama Canal Zone, the bride-elect, is the granddaughter of Mrs. Betty Williams and the late Mr. and Mrs. Antonio Caolo, Brooklyn, N.Y.

Miss Caolo is a 1965 graduate of Seminole High School, where she was a cheerleader, captain, member of Delta-Delta Sorority and National Honor Society and salutatorian of the Senior Class. She graduated from the University of Florida, Gainesville, in 1969 with a B.A. degree in political science and was a member of Delta-Delta Sorority. She is presently employed by Medical Services Casework Division of Family Services.

Her fiance, graduated from St. Martin's Episcopal High School, New Orleans, June 1964 where he was active in football, basketball, track and swimming. He graduated from Southern Methodist University, Dallas, Texas, in 1969 with a BBA in Marketing, and was a member of Beta Theta Pi.

Designers Discover Full Figure Market

NEW YORK—(NEA)—To-day designers are giving more attention to ever before to the large-size woman. It may well be that shopping for clothes—pretty, chic clothes—again becomes a joy once more as a new, wide world of fashion opens up for this very special customer.

The fashion world has at last come to realize that statistics prove that more than one third of the adult women in the country are over size 16. That fact proves there is a great market for fashionable large sizes.

Lines that flatter in both half sizes and large size clothes are now available. Dresses, separates and pantsuits in fabrics that combine durability with eye appeal, color that flatters and silhouettes that artfully camouflage rather than simply cover up take their places in the fashion picture.

One sportswear line with sizes ranging from 30 to 40 in pants and to 46 in shirts uses color with imagination in scaled-to-size prints that flatter the wearer.

And there's another new sportswear line of cool baby cord separates that need not take a back seat in any fashion show. Shirt jackets, safari jackets complete with epaulettes, vests, blazers and battle jackets give a choice of tops over A-line or double-pleat skirt or comfortable pull-on pants in attractive colors. Shirts with long or short sleeves in solid or prints and mock turtle shells touch. Collars and cuffs coordinate with pocket detailing. Necklines feature turtling and mock turtles. Saddle stitching, slim belts, proportioned lapels and other fashion highlights provide a chic, young look. Dresses, separates and pantsuits are from Fairfield, Nole. Sportswear from Oakland, Lady Fairfield and Sugarbush. They are moderately priced and available at leading department stores throughout the country.

Area Activities

Games Party
DeBARY—Barracks No. 1197, Veterans of World War I Auxiliary will hold another games party, Aug. 19 in the DeBary Community Center, following a very short business meeting at 1:30 p.m.

The Barracks will hold a short business meeting at the same time and will then join the women for cards or other games.

For additional information, see Mrs. Edwards at 695 S. Hartley Ave., Deltona, Fla.

Club Cruise
DELTONA—The Empire State Club of Deltona is planning a Caribbean Cruise for January of 1975. At the regular meeting last month, chairman Jerome Amundsen, announced the forthcoming trip, stating that the 10-day cruise will be on the S.S. Statendam of the Holland-American Lines, leaving from Miami on Jan. 20.

Anyone interested in making the trip should contact Amundsen at 1338 Maywood Ave., Deltona.

Photographing Children Is A Ticklish Business

EASTON, Pa. (AP)—"What did the photographer do when you had your portrait taken?" "He tickled Mommy."

That is how one small tot described for his father the fun of being photographed by Herb Snyder, owner and operator of a local studio. While it is Mommy who gets tickled, the ostrich feather also sets off the giggles and invariably produces a smile on the child's face.

In 23 years of business, Snyder has photographed more than 53,000 children and has a reputation for capturing the essence of his small subjects, a success he attributes in part to the measure of child psychology he employs.

Young children may be reluctant to smile for a stranger, especially in new surroundings, says Snyder, who takes time to make his small customers feel at home. Youngsters relax in the reception room where a boy of toys, a slide and even a swing are available.

When it's time for the portrait sitting, Snyder urges parents and even grandparents to accompany the child into the camera room where he chats with the young children about their favorite TV characters or sports team. For the preschooler, he may operate the "tickle machine," an ostrich feather which descends from the ceiling and can be manipulated by the photographer.

"When parents come to us they are looking for a lively and informal, but artistic portrait of their child," comments Snyder, who heads the Jack and Jill studios. "With modern studio lighting, natural color film and a little bit of psychology, we've been able to meet the challenge."

For the best portrait of your newborn, Snyder suggests waiting until the baby is at least four months old. "We find the child responds well after this age, can raise himself up and has control over his head," he explains.

— Pick a hat. Babies and young girls look attractive with bonnets. If your child has one, bring it to the studio with you. — Bring a selection of clothes with you to the studio and dress your child there. If your child is involved in an organized activity, he may wish to wear his uniform for the photograph. — Plan to have the portrait sitting when your child will be most relaxed and alert — usually morning, before an active child has had a chance to tire. Also, mornings are best in warm weather. — Schedule a portrait sitting for a baby after nap and mealtime. — Bring a couple of familiar toys with you if your baby is a baby photographer. For the young infant, it is wise to have a bottle of milk on hand in case he gets restless or hungry. — "I've photographed so many children over the past 23 years, that I've probably had to meet every creative challenge imaginable," says Snyder, who is now photographing the second generation of his clients.

Quotable Women

By The Associated Press

Here are some quotable quotes from women during the week:

"I've never taken off more than three or four days. I can't get bored." Chris Evert, talking about resuming tennis practice after her victory at Wimbledon.

"I've always had a yearning to be in the police. I never rip up a ticket." Officer Hitomi Ebina, 23, of the Tokyo police, as she ticketed an illegally parked driver.

"We will resume the road toward peace and liberty with Christian endeavor." Isabel Peron, giving workers a pay bonus in Buenos Aires in her first full working day as Argentina's new president.

"At the moment I have no idea what I will do with the money, but having to wait five years means that it keeps your outlook sensible. It's not like winning the football pools and suddenly being rich." Annella Whittle, a British woman who stands to inherit more than \$400,000 if she avoids men and makeup for five years.

FOR THAT FEMINE LOOK Add Lace For Bikini Glamour

JEANNE SCHREIBER The Herald Services

Is there a special beach or pool party on your calendar? Make a super-special bathing suit for the occasion, adding rows of lace to a basic bikini pattern.

This lacy afterthought can be adapted to any bikini pattern which has a straight-cut bra top, according to the St. Louis Trimming educational department. For your basic fabric, use a drip-dry white cotton blend, a nylon double-knit or a special stretch material designed for swimwear.

The trim is stitched to the finished garment. On the bra, stitch vertical rows of nylon lace with a braid edge, keeping the strips close together. Extend the trim to the side seams. Finish the upper edge with a length of trim extending to the back closing. This top requires no cup support since the multiple rows of stitching help to support the bra shape and the lace itself adds fullness to the bustline.

Make halter straps of tubular-knit braid. To give the pants a slim-hipped look, place vertical rows of nylon ruffle two inches apart. Finish waistline, leg bands and elastic casing with additional nylon ruffle.

All this lacy elegance calls for only seven yards of ruffle. Add a lacy coverup for a coordinated outfit that's sure to splash plenty of compliments your way.

STITCHING TIPS

DEAR JEANNE: I want to make a stretch halter top. I'm not sure how to work with elastic thread. Can you help?

B.T.

DEAR B.T.: It's easy to put stretch into a halter. Wind elastic thread on your bobbin by hand, with it stretching. A standard round bobbin will take about five yards. Thread the top of your sewing machine with regular thread and use a medium (14) needle. Adjust for a long stitch, because the stitch length regulates the fullness. The longer the stitch, the fuller the gather. Practice on a test swatch to make sure tension and pressure are right and that you get a good even stitch with the elastic thread feeding evenly from the bobbin.

Then mark all stitching lines as you stitch and keep rows a quarter-inch apart for tight shirring, half-to 1-inch apart for easier shirring. A shirred halter can be made of any flat piece of material — just stir to a snug fit and join the back seam after the shirring is finished. Trim at top and bottom with ruffled trim. Best, Jeanne.

POLLY'S POINTERS Perfume Spots Her Wool Knits

By POLLY CRAMER

DEAR POLLY — Perfume odors do not last when I put them on. I now spray on perfume after I am dressed, just before I go out. As a result I have yellow spots on the collars of my double knits. I wash them with special soap used for woollens but the spots do not come out. What can I use for this? — JO.

DEAR POLLY — My Pet Petve is with those mothers who bring children into a fabric shop with colas and candy. The children leave their little sticky fingerprints on the beautiful materials and many are ruined. Some also use the thread and zipper cabinets for a play house and mix up the dyes and colors yet one dare not correct them. — MRS. P.R.

DEAR POLLY — I hope my method will help Anna remove the odor of moth crystals from her clothes. I put such garments in my dryer and run them through the "air" cycle. — J.

DEAR POLLY — After the table was set for a big family dinner I realized the seating would be simplified if I had bought place cards. My 8-year-old came up with the idea of writing each guest's name on a paper napkin placed in the center of the plate. This was so simple to do. — MRS. R.S.

DEAR POLLY — Our lives seem so busy that there is never enough time to spend with one's growing family. Cleaning, doing laundry and preparing meals exhaust me to the point I should be spending more time with my three children. I finally hit on a solution. After dinner we sit longer at the table and have open discussions on any subject with each person having his turn to ask a question or tell about something special that happened during the day.

Dad and I also have our turns and we also discuss real family problems. Tempers do not flare so easily when everyone is cool and comfortable after a nice meal. Solutions come easier and we have found that the children often come up with great ideas. Also my husband typed up several maxims, each on a separate sheet. One is discussed each week and then attached to the refrigerator door as a reminder. Two of the favorites are: "Anything is impossible if you cannot do it" (one can never do anything) and "Small duties neglected become great perils." The week that was posted the dishes were washed immediately after dinner and the beds made soon after I got up in the morning. — BOBBI.

DEAR POLLY — A much appreciated and seldom thought of gift to take to someone in the hospital is a big jigsaw puzzle (500 to 750 pieces). I was in the hospital and had a stroke and my husband brought one to me to be put on a board to fit and to which he had added a narrow wood edging so the puzzle did not slide off. After some weeks of therapy I was able to work on the puzzle with my left hand. This gift was treasured as it kept me from feeling sorry for myself, helped pass the time and even the nurses were fascinated with what I was doing. — MRS. A.S.

DEAR POLLY — Claire wanted to know what others do so they are not locked out of their homes without a key. I inserted a small metal eyelet on the edge of my wallet and attached my key with a short chain that never got out without my key. I never got out without my key's license and money so the key is always there when needed. A key could also be worn on a chain around one's neck. — E.L.I.

Nancy's Newsnotes

Last week we wrote of the Terrace Homeowner's Association. The name of that organization has since been changed to the United Homeowner's Association of Winter Springs.

According to Ronald Tumminia, founder of the organization, the name was changed to reflect the large interest generated by concerned citizens of the city. It now felt that membership should not be limited to just the Terrace section of the city, but should include all interested parties.

One of the primary aims of the organization will be to find the means to bring badly needed recreation facilities to the area.

A slate of officers will be elected at the first meeting Aug. 6. These officers will, as part of their duties, attend the various board meetings in the city and report back to the general membership regarding actions taken by their government officials.

Membership has doubled in the last week or so and now stands at 130. Due to the limited space available in the City Council room, it was felt that one or two representatives would be more practical way to keep interested citizens informed.

Work has begun on the Fire Station City Hall Complex on the corner of First Street and Moss Road. Land has been cleared and marked off and as soon as it has "dried out" construction will begin.

Completion date for the building has been set for Dec. 24, 1974.

A loan for \$200,000.00 has been negotiated with the city's franchise monies being allotted for repayment of the loans.

This construction is Phase One of the City Hall Complex which will include, eventually, a new city hall and police station.

It has been decided to wait for the appointments to the Youth Advisory Council until the proposed Youth Park site has been decided upon. Councilman Irwin Hunter is researching suitable parks within the city that could be leased to the Youth Group.

Dear Abby Light On Gin, Heavy On Olives

By Abigail Van Buren

DEAR ABBY: My husband is a radiologist. He's a wonderful husband and an excellent provider, but he has some peculiar ideas.

For example, when he goes out for an evening, he orders a vodka martini with eight olives. If for some reason he can't get the eight olives, he doesn't order and asks me to leave with him, which is very embarrassing.

This is not the worst of it. If he gets the olives, one by one he puts them in his nose and sniffs out the juice. He claims it clears his sinuses.

I don't mind when he does this at home, but when he does it in public, I want to crawl into a hole.

He doesn't have any allergies or sinus trouble, so I can't see the sense of this. Should he find a psychiatrist?

RADIOLOGIST'S WIFE DEAR WIFE: Yes, but she should find one that drinks martinis with a twist of lemon so they won't fight over the olives.

DEAR ABBY: What does a mother do when her 20-year-old daughter insists on going with a fellow who has no ambition or drive? She is pretty and smart and could do so much better. He is such a nothing. It just tears me apart to see her heading toward a marriage with him. I have talked my heart out, but it does no good.

They have gone steady since she was 17 and she won't look at anybody else. How can I keep her from throwing her life away on this boy?

HEARTBROKEN MOTHER DEAR MOTHER: If she won't look at anyone else, she is obviously in love with him. Don't knock him, or try to tell her how much better she could do or she will feel compelled to defend him. And instead of talking her out of marrying him, she will talk herself into it.

DEAR ABBY: I have a pet peeve. There are parking places marked "For handicapped only" near some stores and office buildings as an accommodation for those who have difficulty getting around.

CARROLL RIGHTER'S HOROSCOPE from the Carroll Righter Institute

SUNDAY, JULY 21, 1974

GENERAL TENDENCIES: Daytime finds you able to accomplish matters of weight and importance. Later contemplation may develop, so it is advisable to keep a wary eye out and observe all that is going on.

ARIES (Mar. 21 to Apr. 19) You have fine creative ideas of art at home necessary to improve it. Come to a better understanding with relatives.

TAURUS (Apr. 20 to May 20) You can please kin a great deal in a.m. Do what is necessary around the house early. In p.m., take care you don't overstep where fun is concerned.

GEMINI (May 21 to June 21) Imbue your mind with the finest ideas. Then you can make the effort at home necessary to improve it. Come to a better understanding with relatives.

MOON CHILDREN (June 22 to July 21) Plan how to add to present income during a.m., then take care of correspondence and other usual Sunday routines. Learn ropes from a successful person.

LEO (July 22 to Aug. 21) Do what most pleases you in a.m., but concentrate later on the financial side of your living. Get social events set up early for the future.

LIBRA (Sept. 23 to Oct. 22) Handle tasks properly during day so you can enjoy the company of friends later. Some personal goals can be pursued with fine results in a.m.

SCORPIO (Oct. 23 to Nov. 21) Obtain the information you need from an expert and use it wisely. Don't show any partiality among friends. Be logical.

SAGITTARIUS (Nov. 22 to Dec. 21) Attempting to business activities early makes this a very successful day for you. A higher-up can give the data you need.

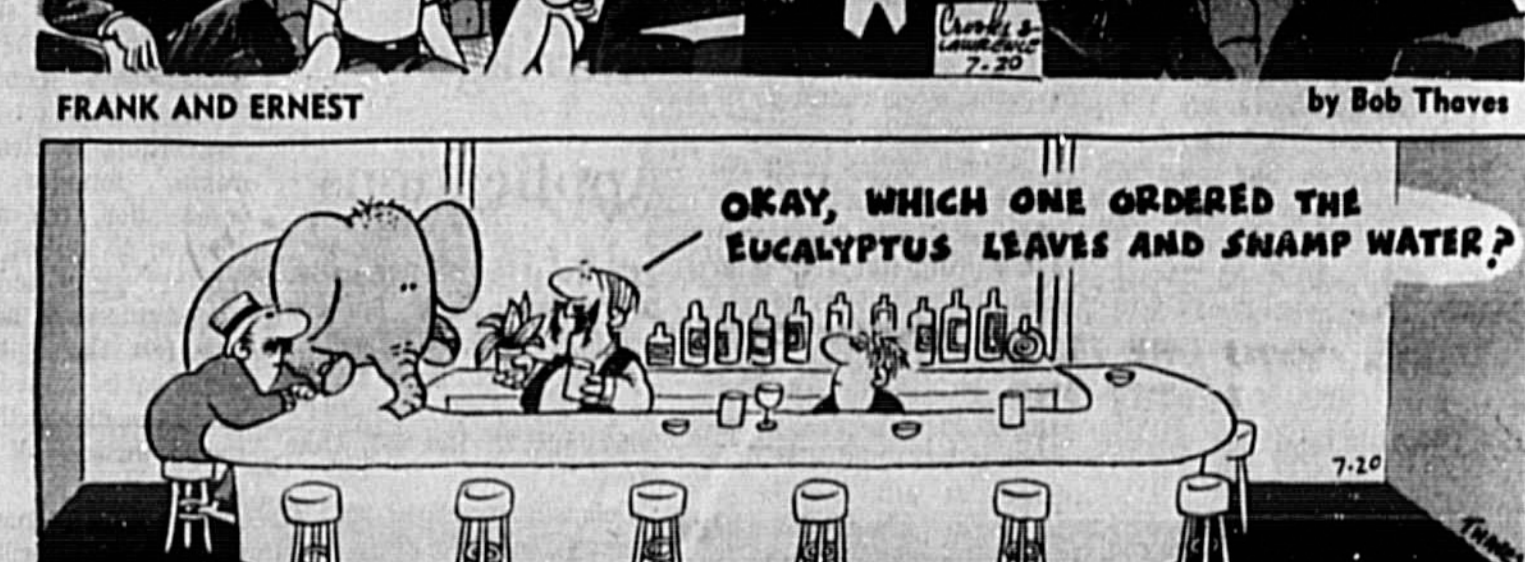

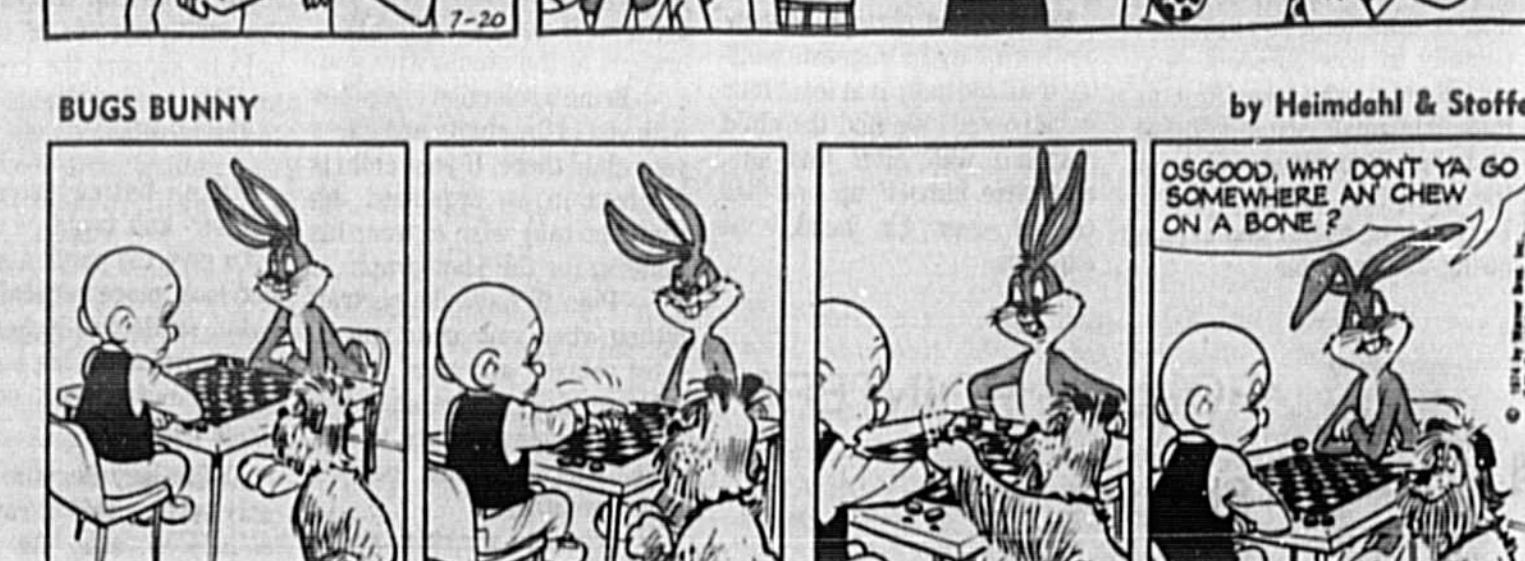

CAPRICORN (Dec. 22 to Jan. 20) Use your hunches in a.m. and know what activities to get into that are best for you. Handle pressing responsibilities early. Let your friends present tonight.

AQUARIUS (Jan. 21 to Feb. 19) Don't hesitate to ask what an associate's really expects of you and get contracts clarified over the telephone. Gain more prestige by acting in a most orthodox fashion.

PISCES (Feb. 20 to Mar. 20) Improve your surroundings in a.m. and then invite associates in so you can plan the future more wisely. Repay favors or show appreciation in a tangible way.

IF YOUR CHILD IS BORN TODAY...he or she will be mentally and romantically alive. Give the finest education you can afford, then the life becomes most successful, especially where serving others is concerned in some big way.

The Stars impel, they do not compel. What you make of your life is largely up to YOU! Carroll Righter's Individual Forecast for your sign for your copy send your birthdate and \$1 to Carroll Righter Forecast, The Sanford Herald, P.O. Box 629, Hollywood, Calif. 90028.

Education Is Basis For Sales Success

A few years ago we had lunch one day in Los Angeles with a prominent pastor of a large and well known Baptist church in Long Beach. Following the delicious repast we ordered the good doctor a cigar because we knew that he enjoyed a good smoke right after a delicious meal.

Number one, no matter how much a real estate broker or salesman learns about real estate he can never set himself up on a pinnacle and preach that he knows all there is to know about the profession.

Number two, no matter how much experience he has in this business he is never inwardly satisfied with his knowledge about the business and that's why the average practitioner is constantly trying to improve himself and his talents each day as he pursues the business of listing property and finding customers to buy it.

Consequently, since all sales people are not born salesmen there must be an effort made by those in the real estate business to map a pathway to success by striving to increase both their knowledge of this business and their aptitudes in various jobs.

The average real estate office library will contain books dealing with various types of properties, the real estate market, contracts, appraising, planning and zoning, deeds, taxation, brokerage techniques, the mortgage market, legal descriptions, and real estate financing among others.

But the nation's most complete real estate library is located in the Chicago headquarters of the National Association of Realtors. This library is widely acclaimed as the world's most extensive source of material on the real estate profession.

After all, the highest paid profession in the world is that of the astute salesman who knows his product and knows how to sell it.

Slump Crippling Builders And Lenders

NEW YORK (AP) — The nation's housing and mortgage slump has grown into the worst on record, according to some bankers and builders.

With most consumers now largely priced out of the housing mortgage markets, John M. Wetmore, director of economics and research at the Mortgage Bankers Association, said many banks now extend mortgage credit only to top executives of companies which do business at the bank.

Construction firms must pay anywhere from 2.5 per cent above the bank prime lending rate, which now stands at about 12 per cent at most banks. Smaller contractors often pay even more. The higher interest rate translates into a bigger price tag on a new home.

Bank mortgage loans are hard to get anywhere, and in some places virtually nonexistent. Through May, the nation's savings and loan associations granted \$18.16 billion in loans to home buyers, down a whopping 20.4 per cent in May from the previous month, and 38 per cent from a year ago.

Interest rates on conventional mortgages for both new and previously occupied single family houses in June averaged 8.84 per cent, according to the Federal Home Loan Bank Board.

The board said rates for new homes compared with 8.74 in May and 7.79 per cent in June 1973. For previously occupied homes, the earlier rates were 8.57 and 7.79 per cent.

Bankers argue that housing and mortgage activity is at its lowest in those states where usury laws are toughest. The laws designed to protect the consumer have rebounded against him, they say, and should be repealed.

DR. W. H. Runge for his office at 2105 S. Park Ave.

Hard-To-Employ Workers Look For Temporary Jobs

BY VIVIAN BROWN AP Newsfeatures Writer Men and women retirees and housewives are getting a lift in jobs that are either "temporarily permanent" or "permanently temporary," depending on your point of view.

In fact, steady "temporary work" is providing a new lease on life for a great many people. High school and college graduates even use it to test their aptitudes in various jobs.

Publications of the National Association of Realtors as well as specialized material published by affiliated institutes, societies and councils are supplemented with materials from commercial publishers, trade and professional associations and government agencies.

All these resources are indexed and classified under 2,300 subject headings devised with the real estate practitioner in mind.

The beautiful thing about this library is that about 95 per cent of the library's services are provided by mail, usually in response to requests for information on a particular subject as well as for a specific publication.

Proper Mowing Helps Make Lawn Attractive

BY DAVID DeVOLL Extension Agent Mowing is one of the most important factors contributing to an attractive lawn.

Proper mowing is one of the most important factors contributing to an attractive lawn. Mowing can "make or break" the lawn regardless of the type of grass or how well it is otherwise maintained.

The height of cut should never be drastically or suddenly changed. If the grass has become too high, the recommended height should be regained by gradually lowering the mowing height on successive cuttings.

Mowing wet grass should be avoided, since it does not cut evenly and can clog the mower. Grass growing in the shade should be produced enough should be produced enough to contribute to thatch and provide an excellent environment for diseases and insects.

The following "rule of thumb" is a practical guide for mowing frequency. Mow often enough so that not more than 1/3 of the total leaf surface is removed at a given mowing.

Real Estate Question Box

Editor: We have read several stories recently about the city to be built at Walt Disneyworld called EPCOT. Would you tell us exactly what the letters in the name EPCOT stand for?

Dear Mr. and Mrs. RL: Certainly, the letters EPCOT which form the name of the city Walt Disney Productions is preparing to construct stand for "Experimental Prototype Community of Tomorrow."

Editor: About a year ago you wrote in one of your columns that over one-half of the assessed evaluation of land and buildings inside the city limits of Sanford was exempt from property taxes.

Yes, it's still true. Sanford City Manager Warren E. Knowles says that 54.1 per cent of the total realty value (that is, land and buildings) within the city limits of Sanford is exempt from paying any property taxes.

Editor: Will the Veterans Administration pay transportation costs to the place of burial for a veteran who died in a private hospital of a non-service connected disability—GRD

Farm And Ranch Accident Costs Reach Into Billions

Two and a half billion dollars. That's what accidents and fire cost farm and ranch people last year. Two and a half billion dollars!

Far more precious than mere gold were the more than 5,000 farm and ranch family members who died accidentally last year. And how can we measure the pain and unhappiness of the over half million farm and ranch residents who suffered disabling injuries last year?

Farm Safety Week then and now calls attention to accident problems which steal away valued human and economic resources in our agricultural communities—and it provides a means to specially emphasize things which could be done to reduce those losses.

Through the years, many safety areas have been featured during Farm Safety Week: traffic, farm machinery, fire, recreation, protective equipment. The 1973 thrust was against falls. And because of the seriousness of this problem and because falls are involved in perhaps a third of all injuries to farm and ranch people, they are again being spotlighted, particularly those connected with farm work activities.

Waste Haste Loses Garbage Money

By VIVIAN BROWN AP Newsfeatures Writer. Someday your garbage man may pay you for the privilege of carting away your garbage. If you'd take a close look at what you are about to throw away, you might see why. Even a class ring that cost only \$18 to \$25 may contain a half-ounce of 10-karat alloy worth \$7, recycling experts advise.

Here's the Answer

By ANDY LANG AP Newsfeatures. The metal flashing around one of the vents on our roof appears to have a gap in it between the bottom of the vent and the roof, which is composed of asphalt shingles. We haven't had any leak in the house, but I think I should fix it before we do. How do I make the proper repair?

A—In nearly every case, all that is required is to apply a generous coating of roofing cement to the damaged area. However, if the flashing is in bad condition and appears to require replacing, get a new flashing collar. Tell the lumber yard, roofing or other dealer exactly what it is to be used for.

A—While it can be done, using a first coat of latex paint may raise the grain and make it difficult to cover it with a second coat. Instead, apply a first coat of a sealer made especially for controlling the wild grain of plywood. Use the white sealer, intended for use under varnish, lacquer, shellac and the other transparent coatings. This white sealer will prevent the grain from showing through and thus enable the final coat to "wake" nicely.

The techniques of varnishing, lacquering, shellacking, bleaching, staining and painting removing are explained in Andy Lang's helpful booklet, "Wood Finishing in the Home," available by sending 30 cents and a large stamped self-addressed envelope to Knowlton, P.O. Box 47, Huntington, N.Y. 11743.

Q—The wood shingles on the walls of our fairly new house have never been treated. I want to apply a wood preservative. Can it be obtained in colors? A—Some types can. There is enough pigment in the preservative to provide a color, but not so much as to hide the wood grain.

Q—I often see the term "work triangle" in reference to kitchen arrangements. What does it mean? A—It refers to appliance placement. The three main appliances are the refrigerator, sink and stove—should form a triangle whose sides total no less than 12 feet and no more than 22 feet. When the triangle is this size or close to it, so is the scientific studies say, there is a minimum amount of walking required of the person preparing the meals.

Q—The wood shingles on the walls of our fairly new house have never been treated. I want to apply a wood preservative. Can it be obtained in colors? A—Some types can. There is enough pigment in the preservative to provide a color, but not so much as to hide the wood grain.

United States, predicts M.J. Mighdall, executive vice president of the National Association of Recycling Industries. The association claims it processes and utilizes more than 90 per cent of recycled materials reclaimed from industrial firms and most-consumer services. "Strides are being made in recycling," Mighdall observed. "One out of six aluminum cans is now being recycled. And just about half of all copper used in the entire economy of the United States is supplied by the recycling industry."

Few Bug Repellents Are Really Effective

By LIZETTE L. MURPHY Consumer Education Florida Cooperative Extension. QUESTION: Do you have any information on which insect repellent is best? Also are they safe to use on small children?

ANSWER: The U.S. Department of Agriculture has found that only a few of the repellents on the market are effective. According to the food and drug administration, insect repellents have not proven a safety hazard when used as directed.

Repellents with either diethyl toluamide (N,N-diethyl-methyltoluamide) or ethyl hexanediol (3ethyl-1,3 hexanediol) are best for keeping insects away. Read the labels. There are two or three familiar brands which have two or three repellents.

All insect repellents wear off with clothing, swimming, sweat and weather. Therefore, they have to be reapplied. Spraying your clothes will help keep mosquitoes, biting flies, ticks, fleas, and chiggers from biting or burrowing into your skin. But, be careful what you spray. Since some repellents don't warn you on their labels, you should be aware that they can damage synthetics, especially rayon and acetate. They may also damage vinyl plastic sunglasses frames and fishing lines.

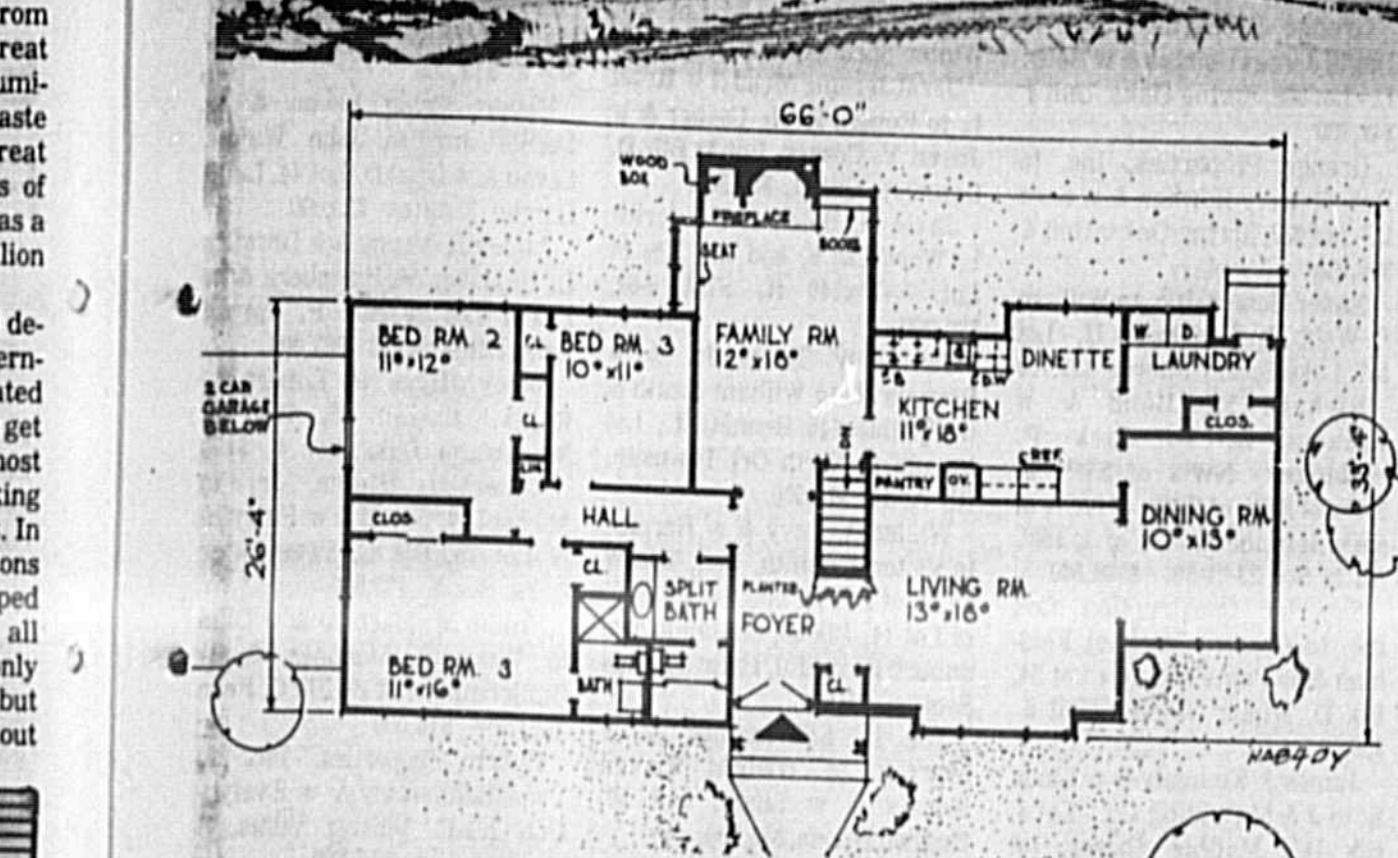

For further information which will help you with your consumer problems, write to "Consumer Information", Extension Home Economics, University of Florida, Gainesville, FL 32611, or contact your local County Extension Home Economics Agent, E. Louise Gill, 4320 S. Orlando Drive, Sanford, FL.

THIS COUNTRY-STYLE RANCH HOUSE has many conveniences that will add to year-round living comfort for the entire family. A double front door opens on a spacious foyer, the perfect spot for welcoming guests.

Solar Heat Cost 'Justified'

TALLAHASSEE, Fla. (AP) — Floridians could recover the initial high cost of solar water heaters in less than two years through reduced utility bills, says a solar energy expert.

Dr. Erich Farber, director of the University of Florida Solar Energy Laboratory, commented on the potential savings of such water heaters at a Florida Energy Committee meeting Tuesday night.

Farber said the average Florida family pays \$18.50 a month for the energy it consumes in filling its hot water needs, a cost that he said could be reduced to nearly nothing through use of solar heaters.

The WEEDERS GUIDE For Bright Room Dress

By EARL ARONSON AP Newsfeatures. There are a number of ways to propagate plants — by seed, by division, by cuttings and by runners.

While it takes a bit longer, seed is the least expensive way to produce a large number of plants. Among plants that can be grown from seed are African violets, Gloxinias, coleus, fuchsias, cacti, sulian snapweeds and cyclamens.

Here is how to sterilize: moisten the medium with water, bring the soil temperature to 180 degrees (F), and bake in oven for half an hour. After the soil has cooled, fill container, which should be three inches deep and have drainage holes.

Loose Hinges May Mean Doors Sag

By ANDY LANG AP Newsfeatures. When a door in the house refuses to close or does so with great reluctance, it's usually because it is sagging. This condition is often neglected for weeks, especially when it is possible to close the door by using a little upward pressure on the doorknob.

This nuisance is tolerated even though other repairs around the house may be undertaken without much delay. It can only be assumed that the neglect is the result of a belief that only a professional can solve the problem. Actually, you can handle the repair in most cases without any special skill if you know what causes sagging.

The most common cause is one or more loose hinges. Since a loosened hinge may not be too noticeable, it often can be detected only if the door is opened and closed several times while the examination is being made.

Putterin' Pete

ONE OF THE EASIEST WAYS TO KEEP PAINT OFF OF LIGHT FIXTURES WHEN REPAINTING A ROOM IS TO TIE A PAPER BAG, THE KIND YOU GET AT THE GROCERY STORE, OVER EACH LIGHT FIXTURE ON WHICH THE PAINT MIGHT DRIP. THIS IS MUCH EASIER THAN CLEANING UP AFTER A PAINTING JOB.

Henry Romer, a committee staffer, said the state is close to developing a significant market for solar water heaters. "The big problem doesn't seem to be technology," he said. "It's building the stuff in quantity at a price people are willing to pay and selling it."

Rep. A. H. "Gus" Craig, DSI, Augustine, questioned how the committee could "get free enterprise in Florida on the ball so they go ahead and produce it."

Rembrandt House Needs Help

By KEN JACOBSON AMSTERDAM (AP) — The Rembrandt House, one of Amsterdam's foremost tourist attractions, is settling through its foundations, and an all-out campaign is underway to raise funds for its restoration.

The 1606 structure, built in the year of the great Dutch painter's birth, sits on soft, sandy ground along the edge of a street which urban renewal turned into a major thoroughfare a few years ago.

Private Sholar Completes Schooling. Army Private George L. Sholar, son of Mr. and Mrs. Laverne Sholar, 50 N. Cortez, Winter Springs, completed eight weeks of basic training at U.S. Army Training Center, Armor, Ft. Knox, Ky.

Area rugs are adaptable to all room sizes. They can be round, square, oblong, oval or free form. Some are bordered and some are plain. The design, size, and shape of an area rug are limited only by the room size and your tastes.

COUNTRIES OF THE WORLD-

CZECHOSLOVAKIA
Czechoslovakia is one of the East European Communist Bloc countries. It is about the size of New York state and is bordered by East and West Germany, Austria and the U.S.S.R. The capital and largest city is Prague. The major languages of Czechoslovakia are Czech and Slovak. The main religion is Roman Catholicism.

BULGARIA
Bulgaria is a Communist Bloc country located in southeastern Europe. It has a coastline on the Black Sea and shares common borders with Rumania, Yugoslavia, Greece and Turkey. Bulgaria is about the same size as Tennessee but has twice the population. Bulgarian is the major language and Eastern Orthodoxy is the main religion. The capital is Sofia.

Write the proper word for each part of the face.

People in History snowed

ROBERT EDWARD LEE

Commander of the Virginia forces. After serving as advisor to Jefferson Davis, Lee accepted command of all the northern Confederate forces. After several victories and one major defeat at Gettysburg, Lee became general in chief of the Confederate armies. A short while later, Lee surrendered to U.S. Grant and the war was over. Lee was appointed to the position of president of Washington and Lee University, the office he held until his death in 1870. In 1900, Lee was appointed to the American Hall of Fame.

Robert E. Lee was born at Stratford, Virginia in 1807. He graduated from the U.S. Military Academy at West Point and served in the corps of engineers in the Mexican War. Lee served one year as superintendent at West Point then transferred to the cavalry for duty on the frontier in Texas. He commanded the unit that defeated John Brown's raiders at Harpers Ferry. When the Civil War started, Lee resigned from the U.S. Army and joined the Confederates as

OUR MAN ON BROADWAY

CARNIVAL

"SOME DUMMY DIDN'T UNDERSTAND HE WAS SUPPOSED TO DRIVE SIX LENGTHS AHEAD OF ME!"

"I HOPE YOU'VE NOTICED, MOTHER, THAT HENRY HAS QUIT SMOKING!"

"DID YOU KNOW THAT PAUL THE APOSTLE, MAHATMA GANDHI AND JOAN OF ARC ALL DID TIME?"

"I HOPE I'M NOT TOO LATE FOR MY APPOINTMENT. I THOUGHT I'D NEVER FIND A PLACE TO PARK!"

"THAT WASN'T A BAD SHOW. CONSIDERING WE ONLY HAD ENOUGH MONEY FOR FOUR BAGS OF POPCORN!"

Bernice Bede Osof's Astrology

Dear Bernice:
We have made our daughter break her engagement to the same young man for the second time. Now we are wondering if we were right or wrong in doing this. Her birth date is July 6, 1951 and his birth date is March 28, 1951. —Worried Mother

DEAR WORRIED:
YOUR DAUGHTER'S CHART SHOWS SHE'LL ALWAYS BE ATTRACTED TO MEN FROM UNDER THE FIRE SIGNS OF ARIES, LEO OR SAGITTARIUS. HER HOROSCOPE ALSO SHOWS SHE IS VERY SENSITIVE AND DESIROUS OF PLEASEING HER PARENTS, BUT QUITE CAPABLE OF MAKING HER OWN DECISIONS. I'M FEARFUL YOU ARE STIFLING THIS QUALITY, ENCOURAGE HER TO THINK FOR HERSELF. IF SHE HAS NOT BEEN CRIPPLED WITH SELF-DUBIOUS THE COURSE SHE SELECTS WILL BE THE RIGHT ONE.

NOTE: Send letters to Bernice Bede Osof, c/o this newspaper, 1200 West Third Street, Cleveland, Ohio 44113. Bernice cannot answer all the letters, only the ones of general interest.

ADJUSTMENTS
BERNICE PREDICTS
THE WEEK OF JULY 21-JULY 27 OPENS ON A SOUR NOTE FOR BUSINESS GENERALLY, IN PERSONAL DEALINGS. PEOPLE TEND TO BE MORE INTERESTED IN FINDING FAULTS THAN IN SOLUTIONS. VIRGOS, PISCES AND SAGITTARIANS COME UNDER THE GUN MORE THAN OTHERS. BY MIDWEEK UNSETTLED CONDITIONS HAVE A DISTURBING EFFECT ON TRAVEL AND TRANSPORTATION INDUSTRIES. SOURCES FOR NEWS TIPS AREN'T TOO RELIABLE NOW. BY FRIDAY, OVER-ALL TRENDS TURN MORE POSITIVE. LEOS BORN EARLY IN THE SIGN BENEFIT FROM SHARED IDEAS AS THE WEEK CLOSES.

YOUR WEEK AHEAD

- ARIES** (March 21-April 19) More frustrations than usual are likely this week where your work and personal relationships are concerned. Tread lightly. The weekend offers a bright reprieve.
- TAURUS** (April 20-May 20) Monday and Tuesday social situations have unexpected complications. Co-operation from others is questionable Wednesday, Thursday. Your best days are Friday and Saturday.
- GEMINI** (May 21-June 20) Early in the week family matters require much attention. From midweek on curb your extravagant tendencies. Friday is the day that may well bring rewards your way.
- CANCER** (June 21-July 22) Acting without thinking spells trouble as the week opens. On Wednesday and Thursday, progress is delayed by others. A nifty weekend is in store for you. Enjoy!
- LEO** (July 23-Aug. 22) Your material interests are in jeopardy early in the week. Be very businesslike. Wednesday and Thursday, eliminate unnecessary travel. By Friday you begin to get it all together again.
- VIRGO** (Aug. 22-Sept. 22) Be tactful with friends as the week opens or relationships will deteriorate. Midweek. Poor mileage from money. Friday, Saturday offer chances to correct mistakes.
- LIBRA** (Sept. 23-Oct. 23) Behind the scenes troublemakers are a nuisance early in the week. Tuesday and Wednesday, a problem with the boss. Improvement in finances as the week closes.
- SCORPIO** (Oct. 24-Nov. 22) Poor planning lessens your chances of success concerning a new interest on Monday and Tuesday. Responsibilities hem you in at midweek. From Friday on, you're the boss!
- SAGITTARIUS** (Nov. 23-Dec. 21) Goals will be difficult to achieve this week unless details are attended to. Don't make changes based upon impatience. Unexpected allies will assist you on Friday.
- CAPRICORN** (Dec. 22-Jan. 19) Avoid any type of situation that could have legal complications this week. Honor all agreements and obligations. By Friday, breathe easier. You'll be back on firm ground.
- AQUARIUS** (Jan. 20-Feb. 19) Neither loan or borrow from others as the week opens. Plans suffer setbacks on Wednesday and Thursday. Goals become reachable for you toward the weekend.
- PISCES** (Feb. 20-March 20) Partnership matters are troublesome most of the week. Be fair and co-operative where sharing is involved. Solutions are on the horizon as your week comes to a close.

THE WASP'S ANATOMY

THE SUCCESSFUL TESTING OF THE "WASP" (WILLIAMS AERIAL SYSTEMS PLATFORM), A KIND OF 2-MAN FLYING "POGO STICK" BUILT BY WILLIAMS RESEARCH CORP., HAS OPENED A NEW DIMENSION TO MAN'S MOBILITY. THIS REVOLUTIONARY MACHINE IS BEING DEVELOPED UNDER A U.S. NAVY CONTRACT FOR THE MARINE CORPS.

THE WASP'S TINY FANJET ENGINE NOW PRODUCES 700 LBS. OF THRUST, WITH A POTENTIAL OF OVER 1100 LBS. EITHER ONE OR TWO MEN CAN FLY FOR 30 MINUTES AT A SPEED OF 60 MPH. MAXIMUM ALTITUDE HAS NOT BEEN ESTABLISHED.

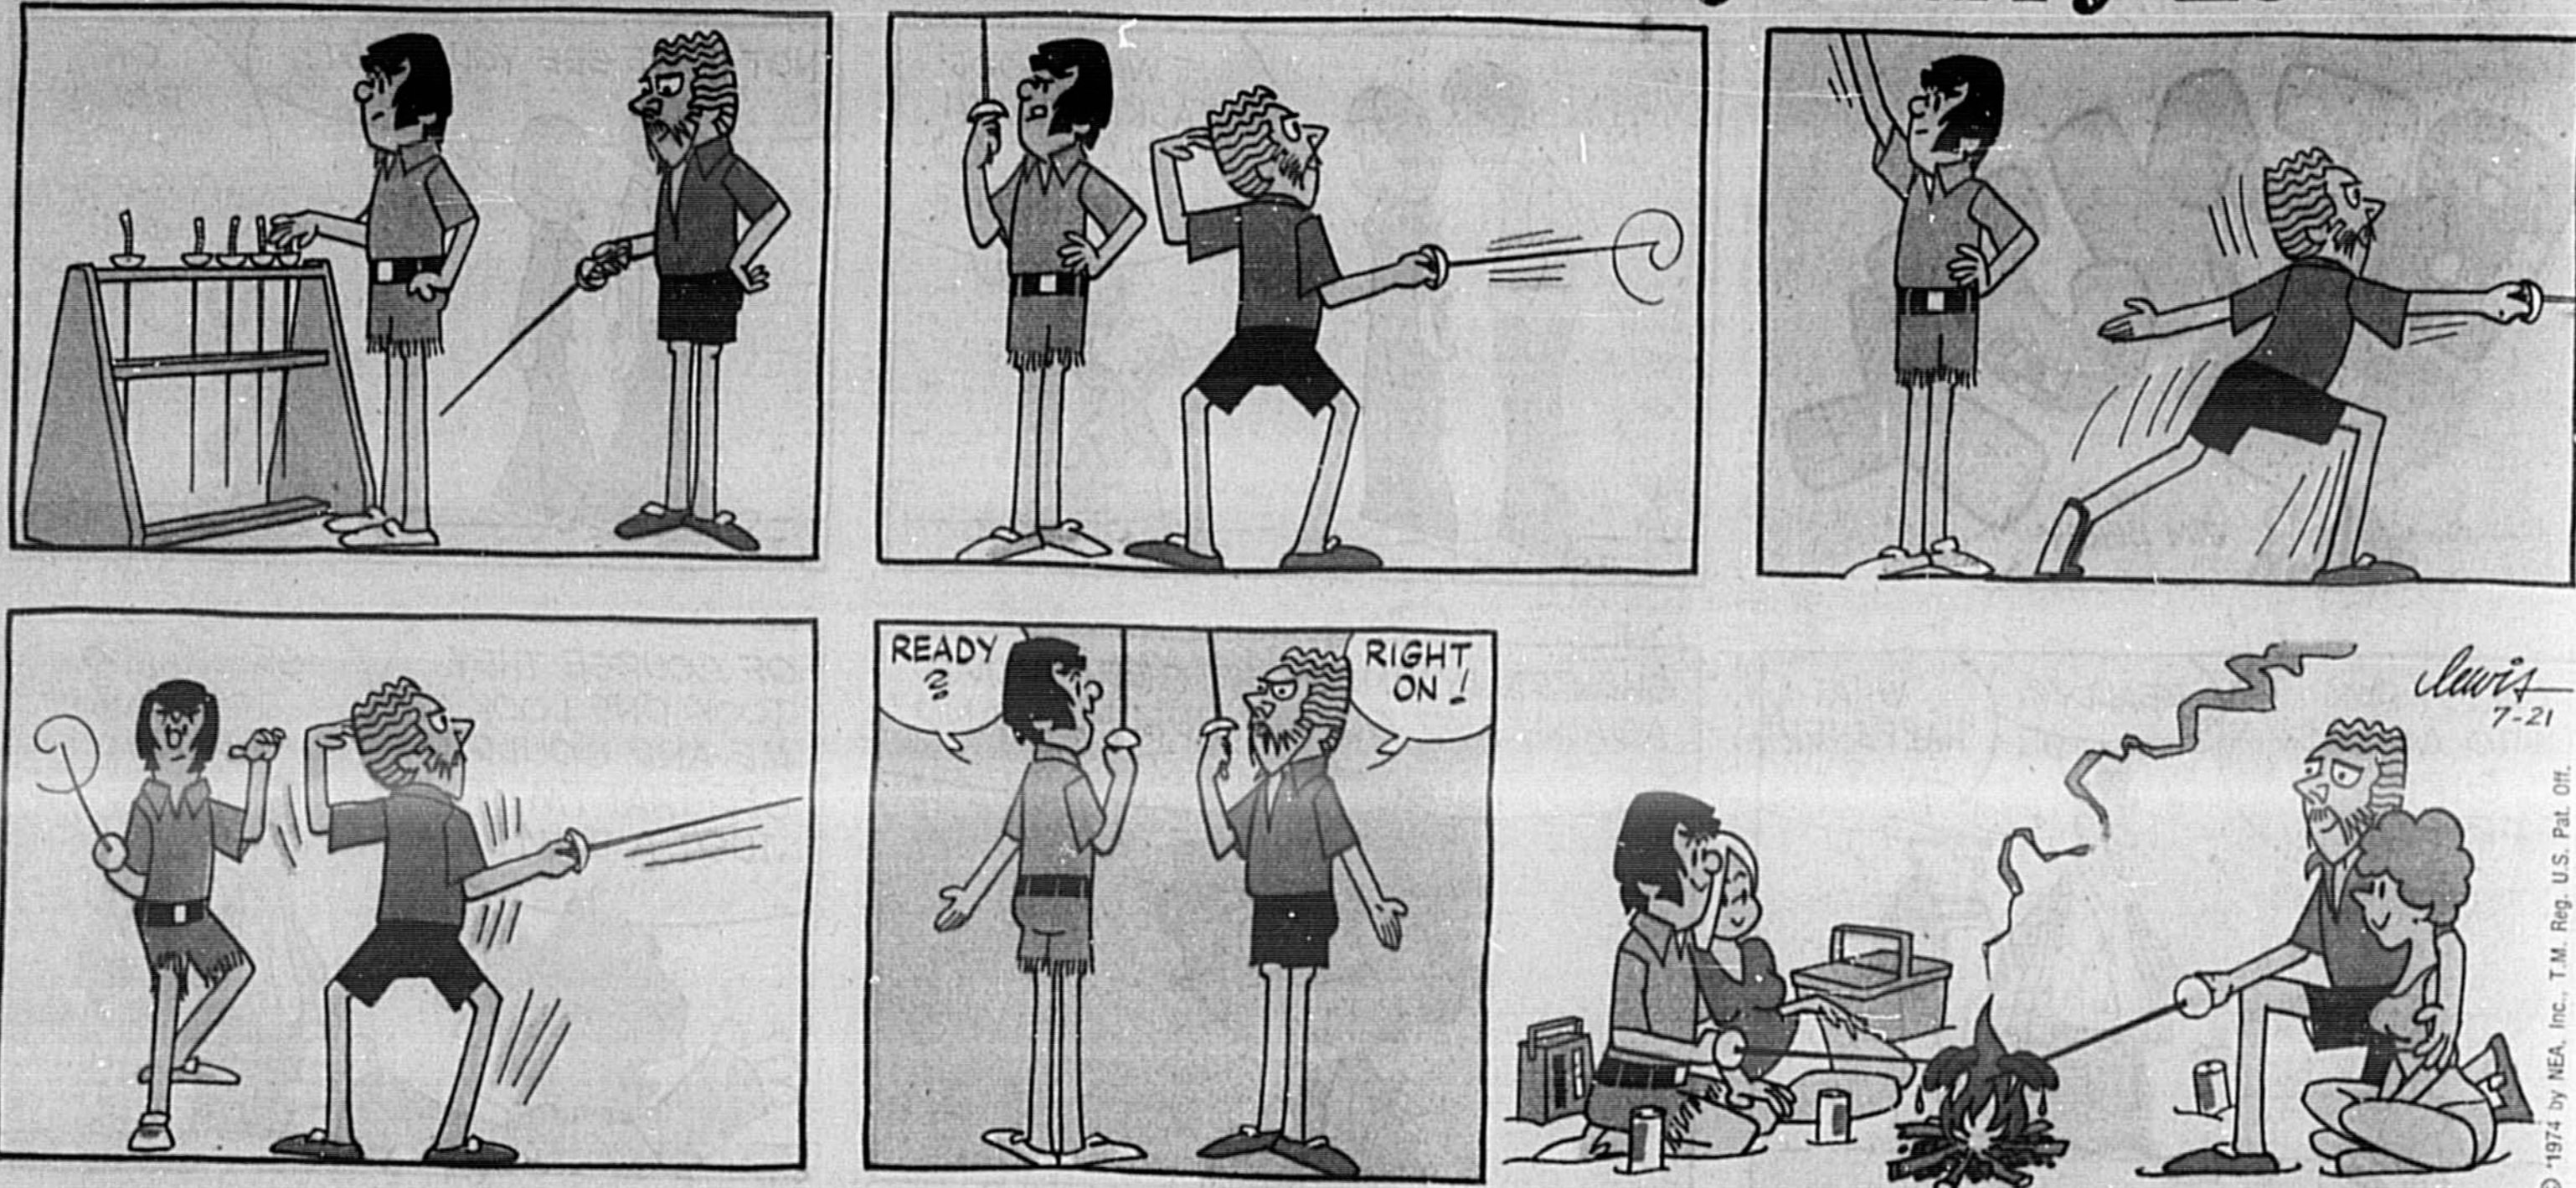

MILITARY ADVANTAGES FOR RECONNAISSANCE, LIAISON, MINE DETECTION, ETC., ARE OBVIOUS, BUT WASP-FLYING POLICE, FIRE-FIGHTERS, RESCUE WORKERS—AND POSSIBLY EVEN COMMUTERS—MAY NOT BE FAR BEHIND!

KING COBRAS
THE KING COBRA OF INDIA IS THE LONGEST POISONOUS SNAKE IN THE WORLD. IT MAY GROW TO BE NEARLY 10 FEET LONG. THE COBRA'S HOOD IS FORMED BY THE RIBS OF THE NECK, WHICH THE COBRA SPREADS WHEN DISTURBED.

THIS WEEK'S TOP PRIZE QUESTION:

SALINDA CIALONA OF SLIDELL, LA, ASKS:
"WHY DO MY WATCH HANDS ON MY WATCH GLOW IN THE DARK?"

MANY WATCHES AND CLOCKS HAVE LUMINOUS HANDS AND DIALS WHICH CAN BE SEEN IN THE DARK. THEY GLOW BECAUSE A SPECIAL LUMINOUS PAINT HAS BEEN PAINTED ON THE HANDS AND DIAL. THE PAINT GLOWS IN THE DARK BECAUSE IT CONTAINS A LUMINESCENT MATERIAL CALLED PHOSPHOR. WHEN EXPOSED TO SUNLIGHT, FOR EXAMPLE, THE PHOSPHOR GIVES OFF A LIGHT OF ITS OWN FOR A PERIOD OF TIME. THE LIGHT THAT IS GIVEN OFF IS CALLED PHOSPHORESCENT LIGHT.

BRITANNICA JUNIOR ENCYCLOPAEDIA
Win one of these valuable prizes for the question answered here each week. World Almanac awarded for the next four best. Send your question and age to:

Polly's

DEAR POLLY — We moved and could no longer buy an old reliable brand of ant poison so I wrote and asked my mother to mail us some and she wrote back "Try cloves." We did and it worked! Sprinkle about a dozen whole cloves wherever you see ants and most kinds will head for the hills. Too, this eliminates any worry about toddlers and pets getting into poison. — HELEN

DEAR POLLY — My little granddaughter always wears a plastic apron while having a meal at my house. It is such a mess that I put it in the TOP of my dishwasher along with the dishes and it comes out clean as new. — MRS. O.W.H. (Polly's note - Tie the strings to the basket so it will not drop and get caught in the mechanism.)

DEAR POLLY — To remove iron-on patches set the iron on "hot" for cotton. Rub over the entire patch until it is hot and then pull off the patch. — ALISON

DEAR POLLY — When making artificial flower arrangements it is often necessary to cut off the ends of the stems. These small, plastic-coated wires make excellent stakes for house plants. They are unobtrusive, and will last almost indefinitely. — MISS L.

SET IRON ON HOT FOR COTTON

TAPE A PLASTIC INSIDE A SHELF NEAR THE BASKET

Polly pays \$1.00 for every idea used. Send them to her, c/o this newspaper.

DEAR POLLY — After losing the lid to a big cooking pot I was horrified at the price of a new one. I tried a pizza pan because it was the right size and very inexpensive. It is an easy-to-use lid for big skillets and pans, a great baking sheet and handy for heating things in the oven. — JEAN

DEAR POLLY — When making stuffed toys I have found that using a metal zipper for teeth is better than tape. The zipper looks like teeth and is especially effective when making a hippo. — ELLEN

DEAR POLLY — A professional musician gave me a wonderful pointer for treating washed hands. After covering the hands with a generous layer of thick, rich, hand cream, slip them into heavy rubber gloves, the kind with inner fabric lining. Proceed to wash dishes or simply plunge your hands into a bowl of hot water. Within five minutes all the cream will have soaked into the hands, leaving them moisturized so they stay soft for days. — SALLY

FOR THE CHILD
Children will long remember this lovely prayer when it is presented in the form of a pretty embroidered panel. No. 2264 has hot-iron transfer, color chart, stitch illustrations.

TO ORDER — Send 60c plus 15c handling with name, address, pattern number and size to PATTERNS (c/o this newspaper), Box 438B, Midtown Station, New York, NY 10018.

Herald Adopts New Look

It is with a great deal of satisfaction that we present to you today's first edition of the new Herald... new in design, new in concept but rich in history and dedication to the truth.

The decision to change the name of the newspaper to Evening Herald and Sunday Herald was not lightly taken. Major changes are seldom easy; the status quo has a reassuring ring to a successful operation.

And the Sanford Herald established a reputation over the past 66 years as a newspaper that informed a community in addition to newspaper whose overriding commitment was to the truth without fear or favor.

The tradition will be continued.

The world however does not stand still. Nor do newspapers interested in more than the profit and loss statement. A newspaper is a living thing and as it matures it must necessarily grow with the community it seeks to serve.

The fact of the matter is that for many years now the Sanford Herald has been extending its influence into other cities and communities throughout Seminole County and portions of Volusia County.

In other words we've become the "hometown" newspaper for readers in Altamonte Springs, Oviedo, Longwood, Lake Mary, Casselberry, Deltona, Winter Springs, DeBary and other communities in addition to Sanford.

Our new names—Evening Herald and Sunday Herald—were selected to reflect the growth of the newspaper and Seminole and Volusia counties. There are other changes, including the popular local column "Around the Clock" by the newspaper. Some will be immediately obvious to even casual readers, others involve internal changes and still more are planned for the future.

All the changes made and planned are directed towards improving the newspaper, making it easier to read and provide a more comprehensive picture of the world in which we live.

You'll also find stories of particular interest easier to find through our expanded index and a greater use of color photographs, pictures that add to the impact of the written word and pictures that constitute an art form in and of themselves.

Of course, not everything will be new. All your favorite columns will be retained including the popular local column "Around the Clock" by Associate Editor John Spolaki.

If you enjoy a laugh in the evening you'll be particularly pleased to note that the "new" Herald will bring you a full page of comic strips with a host of newcomers joining such old favorites as Beetle Bailey and Blondie and the Born Loser.

We're proud of our "new" newspaper. We hope you like it, too, and we give you our solemn pledge that the Evening Herald and Sunday Herald will continue to serve the highest standards of impartial reporting, thoughtful comment and responsible leadership.

Watermelon Contest
Taking a refreshment break during the watermelon pit-pitting contest in Sanford last week are Becky Linebrier, 10, of 1403 Wywood Drive, Sanford, and Gary Wayne Anderson, 10, of Riverview Avenue, Sanford. The contest, held at the Sanford Civic Center, was organized by the Sanford Recreation Department.

Prosecutor Under Fire

problems which delayed last week's scheduled arraignment, as Orlando trial attorney Jim Williams has agreed to hear Bundy's position at 1:30 p.m. Tuesday in Titusville, according to defense attorney Newman Brock, a former assistant state attorney.

Finally, State Atty. Abbott Herring's office must submit to Federal Judge John A. Reed by 5 p.m. today a memorandum of law defending its methods in securing a search warrant in last week's pornography raid.

Reed last week declined to issue any ruling in the matter, but lectured Herring, Sheriff John Polk and other law enforcement personnel on the dangers of hastily executed warrants and ordered the men to allow full access to the warehouse by its owners.

According to defense attorney Gerald Hubbard, today would only say, "I await the Federal judge's decision," a search warrant was obtained from a county judge who had not reviewed the material in question.

MONDAY

Cyprus Truce Announced

State scientists say the Environmental Protection Agency should require additional studies before it allows the Du Pont Co. to dump chemical wastes into the Gulf of Mexico. — Page 5A.

At least count, 4,000 men and women work for a governmental or public agency in Seminole County. Their combined take-home pay runs into the millions. Since 1964 the total has increased more than 130 per cent. — Page 1B

The thought of a physician using acupuncture on his patients after only a few days of study and no supervised experience is frightening leading doctors. Some observers have already dubbed this "quackupuncture." — Page 1B.

Winter Springs' Rick Costantine, older brother of Lyman High School star quarterback, Bob Costantine, is ready for his pro boxing debut, according to Herald Boxing Commentator, Lee Geiger. — Page 8A.

Women's libbers might be cutting off their noses to spite their faces. Influenced by their interpretation of the women's movement, many divorce court judges—including those in Seminole County — are getting stingier with alimony awards. — Page 6A.

By The Associated Press
Turkey and Greece announced their forces on Cyprus would observe a cease-fire beginning at 10 a.m. EDT today.

The truce was announced first in Washington by the State Department. Confirmation from the Turkish government came about 3:30 a.m., and the Greek military junta announced its acceptance more than two hours later.

The State Department said it assumed the cease-fire would also apply to the Cypriot National Guard and its Greek Army officers who overthrew President Makarios last Monday. A dispatch received this morning from Nicosia, the Cypriot capital, said the cease-fire was scheduled to take effect this afternoon, but it made no mention of any cease-fire announcement from the Greek Cypriot regime.

Associated Press correspondent Frank N. Hawkins Jr. reported from Nicosia that the Greek and Turkish sectors was relatively quiet. He said Turkish jets hit targets around the city and its airport at dawn, but the raids were light compared to the massive strikes Saturday and Sunday. At least one F-100 fighter was reported shot down, the 18th Turkish plane claimed by the defending forces.

Hawkins said the Greek and Greek Cypriot forces appeared to be holding their own. Travelers who arrived from the northern coast said Greek Cypriot forces were still in control of the northern port of Kyrenia, but the Turks appeared to be in control of a corridor about 10 miles wide running from west of Kyrenia into the Turkish sector of Nicosia. Fighting was reported still going on south and west of the city around St. Hilarion Castle and the Boghaz Pass.

A newsmen who was at the Nicosia airport Saturday said he hoped for "new victories" before the cease-fire took effect. Radio Cyprus reported that Turkish air attacks were continuing, and it claimed the Greek Cypriots shot down three of the planes today.

A Turkish communiqué claimed that the Turkish navy sank a Greek destroyer in an engagement Sunday. It did not say where the action occurred, but the Turks on Sunday reported an engagement between Turkish and Greek naval units off Paphos, Cyprus.

Greece denied the report Sunday, and today the official Greek radio claimed that Turkish air force jets attacked a Turkish navy task force by mistake off Paphos on Sunday and sank two battle cruisers.

By The Associated Press
About 10,000 employees of the Kennecott Copper Co. have returned to work, ending a week-long strike against the nation's largest copper producer.

But walkouts continued at other copper companies. And negotiators reported few developments in other labor disputes involving airline employees, bus drivers, pro football players and thousands of other workers.

Kennecott said the last remaining locals of the United Steelworkers of America voted Sunday night to ratify a tentative agreement reached last Monday with the firm.

However, approximately 20,000 employees still manned picket lines at facilities of Phelps Dodge Corp., Magna Copper Co., and American Smelting and Refining Co. as talks remained in temporary recess.

In Washington, D.C., National Football League owners refused to even talk with the striking players' Association until the union revises its contract demands.

National Airlines planes remained grounded while talks continued in Washington between the airline and the union representing 1,600 striking mechanics, on strike for the last week.

In Oakland, California, about 800 Trans International Airlines employees were expected back at work today, a week after they struck the world's largest charter airline.

But about 200,000 daily bus commuters between Oakland and San Francisco again had to find alternate means of travel as negotiations were to resume today between the AC Transit Co. and bargain for clerks, mechanics and bus drivers who struck the line July 1.

After power was restored to portions of suburban Los Angeles, four of five unions striking the city's Department of Water and Power voted to accept a new contract.

Workers End Strike At Kennecott Copper

WASHINGTON (AP) — U.S. intelligence misread Turkish military intentions towards Cyprus, administration officials acknowledge.

"It was our conventional wisdom that the Turks could be talked out of landing on Cyprus," one official said. "Obviously, we were wrong."

History played a part in the misjudgment by U.S. intelligence as well as a number of governments, including the British, with whom the United States consulted as the crisis deepened.

Secretary of State Henry A. Kissinger recalled Saturday that during the 1964 and 1967 Cyprus crises the Turks embargoed troops, but did not invade the island.

DRIVER DIES IN FLAMING I-4 CRASH
Richard K. Wolfe, 31, Daytona Beach, became Seminole's 14th highway fatality of year early Sunday when his car (above) crashed into rear of disabled car occupied by Donald Faulk, Sanford, alongside I-4 just south of Lake Mary exit. Faulk was treated for lacerations at Seminole Memorial Hospital and released. Lake Mary volunteer firemen extinguished flames that engulfed Wolfe's car after it rolled over in ditch after collision.

Turkish Intent Misread

WASHINGTON (AP) — U.S. intelligence misread Turkish military intentions towards Cyprus, administration officials acknowledge.

"It was our conventional wisdom that the Turks could be talked out of landing on Cyprus," one official said. "Obviously, we were wrong."

History played a part in the misjudgment by U.S. intelligence as well as a number of governments, including the British, with whom the United States consulted as the crisis deepened.

Secretary of State Henry A. Kissinger recalled Saturday that during the 1964 and 1967 Cyprus crises the Turks embargoed troops, but did not invade the island.
