With JULIAN STENSTROM

**Feds Hit Trail**  
The Seminole High School Celery Feds left town at noon today for a cage tilt tonight with Ketterlinus High in St. Augustine and another with Bolles Military Academy in Jacksonville tomorrow night.

The probable starters for the improved quintet will be Kaestner and Anderson at forward, Clark at center and Grantham and Dyma at guard. Other Feds making the trip included Kiptrick, Bowen, Jenkinson, Swain and Jimmie Anderson. The Feds, in their first en-

agements with Holles and Ketterlinus, were defeated but their improved local aggregation during recent tilts will no doubt give their opponents this weekend a little more trouble. However, in the first game with Bolles, the Feds, after the military five, had recorded up a sizeable margin, narrowly cut down the Cadet lead and missed tying the Jacksonville cagers by a single point.

The Feds are also preparing for the East Central Florida Conference cage tourney which is to be played in Daytona Beach on Feb. 22 and 23.

**Net Is Burned**  
J. C. Trice, deputy state game warden, said yesterday that he had found a 100 foot seining net in the vicinity of Mullet Lake Park. Upon instructions of Judge R. W. Ware, Trice burned the net. Only recently, he added, he found a much larger net. These nets are illegal and the persons using such nets, if discovered, should be punished to the full extent of the law.

**Florida Flashes**  
Five pitchers and a catcher are on their way to Florida today

to open the Yankee Spring training camp at St. Petersburg. . . . Both youngsters and veterans around the state appear to be in good shape. But it's a different story this year. The youngsters are eager to show the stuff while the old boys are a bit nervous. . . . Manager Southworth of the Braves says every starting position on the club is wide open. . . . The Braves have 52 players coming south. . . . Mel Ott is taking no foolishness. Danny Gardella was tossed off the Giant club in Miami yesterday. We don't blame Ott one bit. No ball club can be successful if perfect harmony doesn't exist. . . . at least on the surface. Gardella had a good season last year, swatting in 18 circuit blows, but that doesn't mean he can blow his top at owners and even front office men. It's the old story—never bite the hand that feeds the face. Gardella says he's going to play ball in Mexico and it appears that as far as Ott's concern, Mexico has another ball player.

**Southern Shots**  
A new intercollegiate conference has been formed by

seven small southeastern schools including Mercer, Birmingham-Southern, Howard, State, Rollins, Oglethorpe and Presbyterian. . . . The first commercial race for jockeys will open in Louisville on Mar. 15. . . . Duke University's annual high school basketball tournament of champions will be revived next month. The tourney hasn't been held since 1942 because of the war.

**National Notes**  
Outfielder Bill Nicholson of the Cubs says he hasn't signed his 1946 contract but insists he's not a holdout. . . . Hugh McLaughlin, trainer for Dartmouth for 25 years, died yesterday at the age of 64. . . . Dr. Eddie Anderson has been given a new five year contract as head mentor at the U. of Iowa. . . . The new chief umpire for the All-American Girl's Baseball League is former American Association official George Johnson. . . . Former baseball coach Frank Silva of Rochester, N. Y. has signed a two year contract as general manager of the Leavenworth, Kan. Western Association club. . . . American Association teams will play full nine-inning twin tilts on all Sundays and holidays during the '46 season. . . . Hard-hitting Ron Northey of the Phillies has joined the holdout ranks. . . . Hank Greenberg, after signing his '46 contract with Detroit, will return for Spring training within a few days. . . . Tippy Larkin of Garfield N. J. and Nick Moran of California have been signed for a 10 round bout in Madison Square Garden. . . . The National Hockey League Board of Governors have set Mar. 19 as the date for the start of the Stanley Cup playoffs.

**SPORT ODDITY**  
In 1939, a young golfer named Curtis James set out to break the Marathon Golf record at Miami Beach. James smashed the old mark of 144 holes by playing 162 successive holes of golf. James started at 5:44 o'clock in the morning, and wound up at 7:00 o'clock in the evening. Furthermore, he had short, squat and pudgy. He had spread over the "Gorilla's" wide pan, and he answered: "All right, I'll wrestle him for it."

**SPORT LAUGH**  
At the turn of the century, Columbia turned out one of its most famed football machines, which took the measure of Yale, Army, Dartmouth and other powers of the day. Starring on the team were Weekes, Morely and Larendon. Bob Larendon, all of which earned him the nickname of "Gorilla".

A few years ago, the "Gorilla" took part in a golf tournament at the Oakland Country Club, and to everyone's surprise, tied for first place. All excited, Larendon went to the committee chairman and asked how the tie was to be settled. The bored chairman said, impatiently, "break it any way you want." Play off the tie, or flip a coin, or roll dice for it. Anything you want. A slow grin spread over the "Gorilla's" wide pan, and he answered: "All right, I'll wrestle him for it."

**DURABLE DOME**  
MISSOULA, Mont. (AP)—Sheriff R. D. McLean says that certainly was a hard-headed fellow he arrested for automobile theft. The prisoner charged a heavy oak door in the jail office room using his head for a battering ram. The door was smashed off its hinges, his noggin undamaged.

## Pre-war Stock Car Field To Race Feb. 24

Bill France, National Champion, Will Lead Famed Drivers

The fastest field to go to post in a stock race since the pre-war days will roar away from the starting line at the Sanford-Orlando Seminole Park Speedway Sunday afternoon, February 24.

Bill France of Daytona Beach, the national stock car champion who is promoting the races, announced today that upwards of 25 topline drivers will navigate around the one-mile oval at Seminole Park, located between Orlando and Sanford.

The main event on the all-star card is a 50-mile grand finale. The semi-final features a novel 25-mile Australian pursuit race. Another 10-mile consolation race for drivers who fall in the qualifying trials will be tossed in for good measure.

A number of drivers are just beginning to get out of the Armed Forces and they're itching to step on the gas pedal and let fly, France said.

Two recently discharged veterans who will be returning to the racing scene are Red Byron of Anniston, Ala., an Army Air Corps sergeant who was wounded in action and spent 27 months in the hospital, and Sy Clark of Miami, a Navy dischargee, who turned over three times the last time he raced in 1941.

Others heading the list of entries include France; Reckless Roy Hall of Atlanta, who is runner-up to the Daytonian in national stock car ratings; Ed Eng of Jacksonville; Don Smith, Cecil King and Speed Winn of Tampa; Skimp Hersey and Wild Bill Snowden of St. Augustine; Goobar Soabe of Jacksonville, Ga.; A. Marshall Teague and Lloyd Moody of Daytona Beach; Buddy Schuman of Charlotte; Bill Sockwell of Greensboro, N. C.; Cannonball Brown, Bob Plock and Fontell Flock, and Guy Rouse, all of Atlanta; Buck Puckett of Orlando, and others.

## First Peacetime Duck Season Was Generally Spotty

By FRANK ECK  
NEW YORK—The first peacetime duck hunting season was quite spotty in general, but Ray E. Benson, executive secretary of Ducks Unlimited, Inc., still believes the end of the war was a boon to DU's work of increasing natural production of waterfowl on their most important breeding grounds in Canada.

"Construction materials for dams, as well as labor, have been released from priorities and we plan to double our efforts during 1946," says Benson who operates DU's national headquarters here.

The State-Canadian government, in cooperation with DU, has set aside an area of over 1,000,000 acres on the Saskatchewan River as a permanent wildlife reserve for waterfowl nesting. DU is earmarking a fund of \$100,000 for development work, mostly stabilization of water levels in great marshes bordering the river to protect duck nests from being washed out by periodic floods.

In some drought years millions of young ducklings perish when these great marshes dry up. During the season recently concluded guides were booked solid in most of the popular gunning localities.

The Dakotas had particularly good hunting while in Iowa the shooting fell off. . . . Arkansas, however, reports its best duck season in many years with a notable increase in mallards. . . . Minnesota, which has more duck hunters than any other state, reports an increase of diving ducks.

## Cardinals Have 23 Winner This Year In Fred Martin

HOUSTON, Tex.—Fred Martin is back from the war and outside of being 10 pounds underweight is ready to try for a pitching job with the St. Louis Cardinals whom he reports to be Cardinals at St. Petersburg, Fla., Feb. 18.

Martin's pitching career was cut short in November of 1941, when he was called to the service. He finished that season with the Houston Buffs of the Texas League with a record of 23 victories against six defeats.

Forty-two months in the Army hasn't dulled his hurling effectiveness, he says. "I can throw as hard as I ever could," he declares.

The 30-year-old Martin has been in the Cardinal organization since he first entered pro ball in 1935, advancing up the ladder from Class D.

He has battle scars from action at New Guinea and in the Philippines but he also had time for some baseball pitching last summer at New Guinea, New Hebrides and in Manila against a team managed by Hugh Mulenby of the Phillies. In a series between the Army and Navy all-stars, Fred hurled 2-0 and 1-0 victories before losing in the finale.

Charles C. Peterson, president of the Billiard Association of America, reports that several military personnel during World War II.

## Bowles Faces Job Of Making Policy-Work

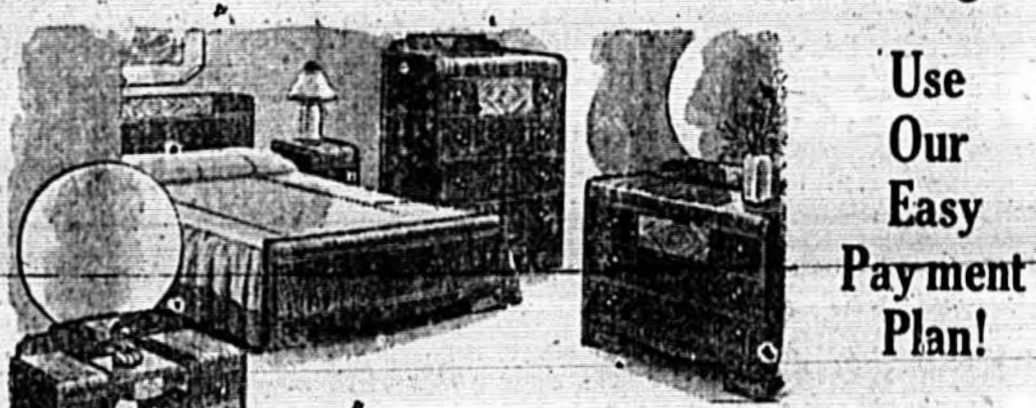

Continued From Page One  
18 percent.  
That range, of course, can go higher — and it also can go lower.  
This is the feature of the new

policy which already has drawn strong criticism from organized labor and is expected to draw even more now that it is official policy. However, labor so far has accepted wage recommendations of Presidential fact-finding boards. These recommendations all fit into the pattern now established.

Some labor quarters argue that this, in effect, is a restriction of collective bargaining. On the other hand, administration officials counter with the argument that right now certain checks are necessary to prevent inflation. This is one of them — and the most important in the entire new policy.

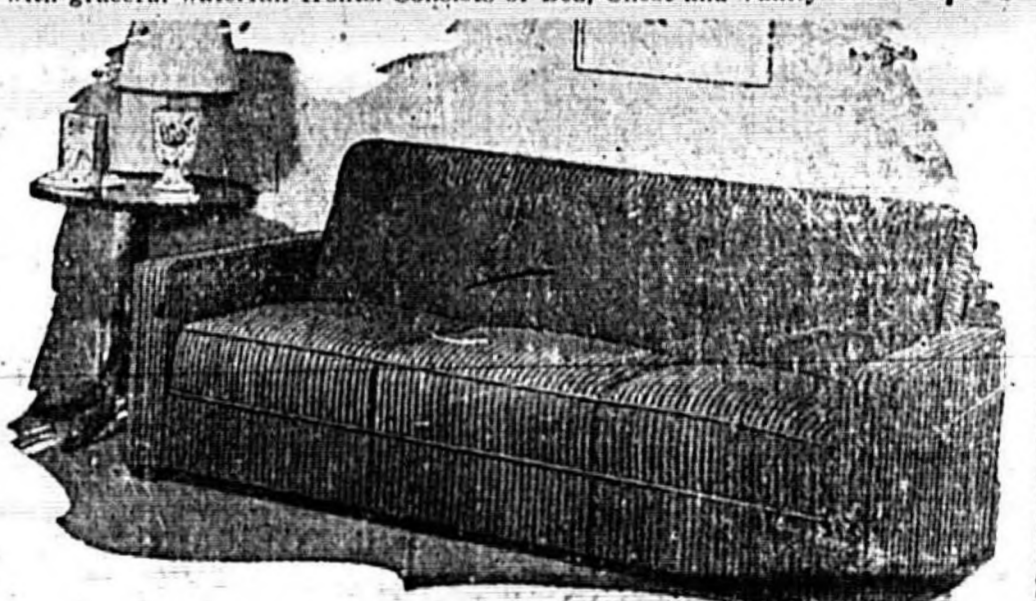

Applications for such relief can be made at once, along with a statement supporting claims that the pay raise granted will force a financial hardship. If the employer proves his case, OPA,

## Inflationary Explosion Is Threat To U.S.

### Chester Bowles Says Pressure Against Wage-Price Policy At Bursting Point

WASHINGTON, Feb. 18, (AP)—Chester Bowles today told the House Banking Committee that the United States faces an inflationary explosion. The new economic stabilizer says that the pressure against the wage-price line now is, as he put it, "up to the bursting point."

Bowles is appearing before the House committee to plead for an extension of life for the Office of Price Administration. The agency he just left to become economic stabilizer.

Bowles has told the committee he believes President Truman's new wage-price policy will work. If the bulge in the stabilization line is not permitted to become a breakthrough—Bowles says he believes the program will have little or no effect on food, rent or clothing prices.

Bowles has requested extension of the OPA for another year at the earliest possible moment. The agency is due to terminate June 30 unless an extension is granted. The new economic stabilizer has acknowledged that the new wage-price program is not perfect. But he declares that it does not mean that price increases should be out of the entire national economy. Bowles says he is emphatic about this last point.

Here is what Bowles has to say about the inflationary dangers facing the country:

"A speculative fever has taken hold of the country. The pressure in the boiler is up to the bursting point. The lobbyists and profiteers are looking their chops. It is going to take firm and decisive action . . . if we are to hold this country on an even keel."

## Mobile Blood Bank To Accept Sanford Donations Feb. 21

Representatives of the mobile Central Florida Blood Bank will be in Sanford Thursday under the sponsorship of the Seminole County Chamber of Commerce, President Jack Ratigan of the Jaycees announced today.

Citizens of the city, according to Mr. Ratigan, are urged to support this movement which is designed to continue the adequate availability of whole blood for transfusions when requests to the bank are made.

Mr. Ratigan said that persons who will volunteer to donate to the bank are asked to make an appointment either at the Seminole County Motors or at the Sanford Paint and Glass Company.

The mobile blood bank headquarters will be in the offices of Dr. L. Munro which are located in the Touchton Building.

## Group Announces Bounties For Game

The Commission of Game and Fresh Water Fish is paying bounties of \$1.00 on foxes; \$2.00 on bobcats, 50 cents on skunks and possum and on Armadillos \$1.50. It was announced Wednesday by County Judge R.W. Hagan.

In a letter to Judge Ware, J. N. Kennedy, director of the Game and Fresh Water Fish Commission, wrote: "Persons wishing to claim bounty must turn the two front feet of the animal taken to me or my Conservation Officer."

The Conservation Officer will give them a receipt which will show the number of animals killed and the amount of money due them. These receipts are sent in to the Comptroller for payment in the same manner as other State invoices are paid.

MASONS TO MEET  
Monroe Chapter No. 15 of the Royal Arch Masons will have their regular meeting Tuesday evening at 7:30 o'clock at which time the degree of Most Excellent Master will be conferred upon a class of candidates. All members are urged to attend. Visitors will be welcome.

ASHBY SEPARATED  
Lieut. (jg) Henry Nicholson Ashby of 1915 Hibiscus Drive, has been separated from the United States Navy, according to information received today from the Naval Personnel Separation Center in Jacksonville.

County Court will convene today morning at 10 o'clock. Judge J. W. Hagan presiding.

## 'Hap' On Visit To Old Home Town

GENERAL OF THE ARMY AIR FORCE, Philadelphia's native son Henry H. "Hap" Arnold is pictured in a car with his wife, responding to a hero's welcome on a visit in that city. Guards of honor were 600 men of the 82d Airborne Division. (International)

## Candidate Urges Reinstatement Of Funds For River Company Formed

### VOSS Asks Andrews And Pepper To Take Vigorous Action

ORLANDO, Feb. 18, (Special)—Tom Voss of Orlando, candidate for Congress from the Fifth Congressional District, declared here today that he had wired Senators Claude Pepper and Charles A. McNary urging them to seek reinstatement of funds for the Sanford River project which was disapproved last week by action of the House of Representatives.

Declaring his wholehearted support of an immediate appropriation bill for the Sanford River project, Voss expressed hope that vigorous action by the Florida senators might yet prove a deciding factor for favorable legislation during the present session of Congress.

The telegram sent to Pepper and Andrews was released by Voss as follows: "Urgently request you do everything possible to have funds for Sanford River project, deleted by House, reinstated in Rivers and Harbors Appropriation Bill now in Senate without necessitating withdrawal of funds from other much needed Florida projects. The people of this district want work, started on the 10-foot channel as it has already been approved by Army Engineers. Authorization for 12-foot channel will only delay project so necessary to people of this district."

Calling for an end of political dilly-dallying, Voss asserted, "I believe the Sanford River project has been a political football long enough. The people of Sanford and the Fifth Congressional District want action by their representatives in Congress on this project and other internal improvement projects."

"The political practice of voicing glowing promises along with election time each biennium must come to an end. If we are ever

## Farm Bureau Votes To Oppose Government Operation Of Plants

Members of the Seminole County Farm Bureau, at a special meeting Friday night, voted to sustain the action of the directors of the Florida Farm Bureau in opposing several bills before Congress which propose that the Government set up and operate two large phosphate plants and one potash plant. It was reported today by H. L. Cullum, bureau president.

The bill, he said, provides that after five years of such operation, the plants would be turned over to cooperatives to buy and operate with the condition that cooperative operations be subject to making available up to 50 percent of the production for government demonstration purposes. The length and complexity of the bills made it impossible to read them to the members, and so in order to give the members both sides of the question, Alex P. Johnson was requested to bring their contents and to prepare the arguments of the pro and con sides. Johnson already has done this.

## Jap Scheme To Regain Fishing Trade Is Spiked

### Company Refused Per- mission To Enter American Fishing Areas In U.S. Boats

TOKYO, Feb. 18, (AP)—General MacArthur's headquarters has announced it has spiked a Japanese scheme by Nippon Kaisha to reoccupy Japan's lost pre-war fishing business under the American flag and with American ships.

Headquarters say a Japanese company has been summarily refused permission to enter American fishing areas in American vessels manned by Japanese crews.

The headquarters announcement discloses that the Japanese planned to run crab meat on the vessels and send it into the United States—duty free. A headquarters announcement says: "Because it (the crab meat) would have come from American ships, it would be a product of American fisheries and enter the American market without duty. The significance of this scheme is not the mere fact that it was another attempt to break out of fishing areas now open to Japan, but the audacious manner in which the Japanese firm presumes to use the United States and the American flag to accomplish its ends."

A headquarters spokesman brands the Japanese request "outrageous" and says it was calculated deliberately to evade the restrictions imposed on the Japanese fishing industry by occupation authorities.

Earlier, Emperor Hirohito had expressed a rare interest in the subject to three American newspaper executives, the hope that the United States would cooperate with Japan in speeding Nippon's recovery.

Hirohito talked with President Robert McLeavelle, the Associated Press who also is president of the Philadelphia Evening Bulletin, President and Publisher Norman Chandler of the Los Angeles Times, and Editor Benjamin McKelvey of the Washington Star.

## Mrs. F. J. Warren Receives Injuries In Auto Accident

Mrs. Felton J. Warren was injured and taken to a hospital Saturday evening following a collision between the Plymouth coupe her husband was driving south on Park Avenue and a Plymouth sedan driven by H. N. Tamm, it was reported by police.

A little colored boy, Charles Armstrong, age 8, ran from behind a cab on East Thirteenth Street and was hit by a car driven by Sammy E. Wiley, of 416 East Eighth Street. He was seriously injured, it was reported.

Margaret Caswell, age 2, blonde hair, and wearing green striped overalls and Ann Schwartz, brown hair and wearing red overalls, set out to see Sanford this morning and walked from 510 West First Street to the Hotel Mayfair before they were recognized and their parents summoned.

Monroe Vaughn, negro city prisoner who escaped Saturday morning from the jail park, went to a store during the evening and requested that the police be called as he wanted to surrender. Deputy Sheriff Jack Flickinger came and got him.

## Curley Is Fined, Sentenced To Jail By Federal Court

WASHINGTON, Feb. 18, (AP)—Seventy-one-year-old Janet Curley, who is a Congressional Representative from Massachusetts and also mayor of Boston, was sentenced by a Federal Court in Washington today for mail fraud. He is to serve six months to a year and a half in prison and pay a fine of \$1,000.

Entered along with Curley was a former member of the National Labor Relations Board, Donald Wakefield Smith, a 41-year-old man who is already serving a five-year term at Atlanta for mail fraud. Smith was sentenced to four months in prison and a fine of \$1,000, and ordered to pay a \$1,000 fine, and Fuller drew a term of 18 months to four years.

All three men say that they will appeal to the Federal Circuit Court of Appeals. Curley said he will take his case to the Supreme Court if necessary.

WOODMEN TO MEET  
The Woodmen of the World will hold their regular meeting tomorrow night at 7:30 o'clock at the Woodmen Hall, 116 Park Avenue. Visitation privileges will be held during the meeting.

## Pickets Block Car Entering Struck Plant

DURING A HEAVY DOWNFALL of snow, pickets at the western electric plant at Kearny, N.J., attempt to overturn a car seeking to enter the factory grounds. Police in the picture face overwhelming odds as they attempt to halt the violence. Although a court order has been issued forbidding mass picketing and union leaders have asked the strikers to comply, hundreds remain on the picket line. (International)

## Dodger's General Manager Speaks Before Rotary

### Declares There Are Premiums For Those Who Observe Rules

Pointing out that some of the biggest men in the country are professional baseball and that he was proud to be associated with a game that touches so many millions of people and that says so much emphasis on the right thing in life, Bob Finch, general manager of the Brooklyn Dodgers, told the Rotary Club today that in baseball there are the rules, those who enforce them, and the penalties for those who violate the rules and the premiums for those who observe the rules.

That baseball is constantly being gambled by those who would wreck the industry for selfish gain was also indicated by Mr. Finch who said that we fight the gamblers to the death. We won't let our players get mixed up with gamblers. We've got to fight the gamblers or they will wreck the game. They don't care about the game, the players, or anything else just so long as they win their bets.

Paying a great tribute to baseball umpires, Mr. Finch said: "We must fan of the umpires, but deep in our hearts we know they deserve our respect. Twenty million boys in this country have both in our umpires. They stand in unapproachable. You can't teach them. Mistakes yes, but there is never any crookedness in a major league umpiring."

Mr. Finch was introduced by George Touhy, who had charge of the program and who said that Mr. Finch organized the baseball school here and had made an outstanding success of it.

Jack Ratigan, president of the Jaycees, announced that a Central Florida Blood Bank clinic will be held in Sanford next Thursday and called for volunteers to donate blood. President Lea Lasher announced that the board of directors of the Rotary Club at 3:30 o'clock Thursday afternoon at the City Hall. He also appointed a committee for the observation of the 25th anniversary of the local club.

Visitors at today's luncheon included: Burt M. Bristol of Cohasset, Mass., E. C. Rice of Battle Creek, Mich., W. W. Gardner of Salt Lake City, Utah, George Hunt of Boston, Mass., and Lionel E. Allen of Orlando, John Quest of Charleston, W. Va., and Gordon Swaim.

## W. H. Browning Died Friday In Oviedo

William H. Browning, 93, died at his home in Oviedo at noon Friday. He had lived in Oviedo for the past 60 years and was conductor on the first train that came to that city. He was born Mar. 25, 1852, at Boston, Mass., and had no known relatives.

Funeral services for Mr. Browning will be held Tuesday afternoon at 4:30 o'clock at the Oviedo Cemetery, the Rev. J. McLeod, officiating. The Erickson Funeral Home is in charge of arrangements.

W. H. Browning was a member of the Sanford Municipal Athletic Club and the Sanford Country Club. He was also a member of the National League and Clark Griffith's Washington Senators of the American League. Other attractions during the afternoon will be a golf tournament at the Seminole Country Club that will get underway at 1:30 o'clock. A flower show will be open to the public between the hours of 10:00 to 4:00 o'clock during the day.

A band concert will be presented for one hour, starting at 7:00 o'clock in the evening. The concert will be followed by a street dance which will be held from 8:00 o'clock until midnight. Another dance will also be held, probably at the Armory, between the hours of 9:00 o'clock and 12:00 o'clock.

There have been no definite plans yet formed for the jostling ring contest and the shuffleboard tournament.

## Entire Nation Threatened By Phone Strike

### Pickets Virtually Placed Around All Industrial Plants In Lancaster Area

MEMPHIS, Feb. 18, (AP)—The entire nation is threatened with a tie-up of telephone service as the result of a union executive board recommendation that 250,000 telephone workers strike. The executive board of the National Federation of Telephone Workers has proposed that its members quit their jobs to support demands for a revision of wages and hours.

President Joseph Heine of the independent union announced that the recommendation was made at a meeting of representatives of the 49 unions affiliated with the independent federation. However, the board action does not mean that a strike has been declared. Heine said that the representatives will discuss the situation, and then decide what course is to be taken.

The federation represents both local and long-distance operators, as well as maintenance workers and manufacturing and research employees of the American Telephone and Telegraph system. The issues at stake in the controversy include demands for a wage increase of 10 per cent, for a minimum hourly wage of 65 cents, and for a 40-hour week.

LANCASTER, Pa. Feb. 18, (AP)—Picket lines have been thrown about virtually all industrial plants in the city of Lancaster, as a "no work" period gets underway in support of the telephone operators' strike at the United Telephone Company. The AF of L Central Labor Union of Lancaster County has ordered all its affiliated unions out by way of the telephone operators' strike at the United Telephone Company.

The strike has been underway since Feb. 6 to enforce 26 demands, including one for a wage boost of 20 cents an hour. The central labor union says the "no work" action, affecting all industries and businesses in the Lancaster county area having contracts with the union, will continue until the transit strike is settled.

Spokesman for the Central Labor Union says that pickets have been stationed at all main roads leading into Lancaster to stop all long-distance trucks and buses operated by union labor.

## Improvement Of Mart Facilities Nears Completion

JACKSONVILLE, Feb. 18, (Special)—Improvements in our market facilities at Florida City and Sanford are rapidly nearing completion, shipments of produce are going forward in heavy volume from these and other points in the State system and at Fort Myers plans are under construction for the large-scale handling of gladioli—a brand new product so far as our organization is concerned, said William L. Wilson, Director of Florida State Farmers' Markets today, in summarizing current activities in production areas.

"This appears to be a very good chance that the Fort Myers State Farmers' Market, of which John C. McKewen is manager, will provide facilities for sale and shipment of gladioli. Growers have evidenced an active interest, and since there is very plentiful production in adjacent territory, it appears quite possible that this important commercial flower business may take its place alongside the more prosaic tomatoes, beans and other items normally handled through our market facilities," Mr. Wilson added.

Construction of a shed to increase facilities of the Florida City market was about 90 percent complete at the end of the week, Col. M. B. Hawkins, supervisor of construction of the Florida State Farmers' Markets reported. He said that this project should be completed within the next ten days. A similar improvement, badly needed by the Sanford Market, will be completed about Mar. 15, Col. Hawkins stated.

The outlook for Spring crops appears good throughout the State, according to reports received from our various local managers, this week-end," Mr. Wilson declared.

F. & A. M. TO MEET  
Sanford Lodge No. 63, F. and A. M., will hold its regular meeting tomorrow evening at the Masonic Temple at 7:30 o'clock. All Masons are invited to attend.

MONDAY, FEBRUARY 18, 1946

BIBLE VERSE FOR TODAY

CHRISTIANS KEEP THE LORD'S DAY SEPARATE FROM COMMERCIAL ACTIVITIES. MANY CALL THIS DAY THEIR SABBATH. IT IS A BLESSED CUSTOM. IT HEALS THE WOUNDS OF THE SOUL AND RECHARGES THE SPIRITUAL BATTERY AND GIVES IT POWER. THE SOUL NEEDS FOOD AND EXERCISE. Observe the sabbath day to keep it holy.—Deut. 5:12

That old expression, "Keep your shirt on," has taken on new meaning in the last few months. If you take it off, someone else is likely to grab it.

The new ambassador to Belgium laments that he can't find any stiff shirts in Washington. No, but we'll bet he can find plenty of stuffed shirts there.

The opinion seems to be widely held in this country that something reached a new low in Washington the other day, but there is general disagreement as to what it was.

Florida has the largest per capita income of any state in the South, according to Harold Cole, secretary of the State Chamber of Commerce. This is something worth remembering when we consider the per capita appropriations for schools, hospitals and so forth.

Everyone insists that the future security of the world, the only chance of avoiding another world war, and only hope for the success of the UNO, depends entirely upon a moral and spiritual revival throughout the world. But no one seems to exclude much confidence that such a moral and spiritual revival is in the process of taking place.

While there is still some vacant property in downtown Sanford—and we venture to predict there won't be long after building materials become available—something should be done by the City to establish permanent parking lots, where people can park their cars when there is no longer any room on the streets for them. Within two years there will be twice as many cars in Sanford as there are today, and it is practically impossible to find a place downtown to park now.

The contracts were signed Saturday for about eight thousand dollars worth of new construction at the Seminole Country Club which will give this community the finest thing of its kind we have ever had. Included in the project are a ladies' locker room with showers, a powder room, storage room, and kitchen which will be completely re-equipped with stove, refrigerator and all necessary accessories for serving meals to club members. It is hoped to have the work completed in time for some Spring festivities.

In order to avoid passing a realistic peace time Army law, Congress has forced the Army to resort to lowering its physical standards for draftees so as to raise enough men to meet its commitments overseas and at the same time release from the Army all those who have some service. Just what kind of an impression these untrained draftees will make in the occupied countries where in the uniforms of U. S. soldiers they will be expected to maintain order is not pleasant to contemplate. Meanwhile, the pension rolls will have to be expanded to make room as more and more are given medical discharges.

There is a growing tendency in this country for the people to vote independently of party affiliation. According to the Gallup poll which in a recent survey revealed that 44 percent are Democrats, 36 percent Republicans and 19 percent Independent. Time was when practically everybody was a Democrat. Democrats, or people bound Republican and voted for the party nominee even if he was a yellow dog. It is a good thing for people to get away from this idea. It is a good thing for the country to vote for the best regardless of party. This will be competition between the parties to nominate better

The Steel Strike Ends

The people of this country will breathe a sigh of relief that the great steel strike has been finally settled and that most of the 750,000 striking workers in the big steel corporations went back to their jobs today. It is not too much to hope now that the formula which worked successfully with steel may soon be applied to other strike-bound industries and that the products for which the public has waited so long may soon be coming off the assembly lines.

It should be fairly obvious to everyone by now that higher wages mean higher prices and that whatever is gained by the big unions dominating the industrial labor market will be paid for by the consuming public. Although government spokesmen had said that a wage increase could be granted at this time without an increase in price, the fact remains that the steel settlement included not only an 18 1/2 cent wage boost for the workmen but also a 85 a ton price increase for the corporation. This increase will be reflected in higher prices for everything made of steel which the public has to buy.

There is another way in which wage increases can be granted without increasing prices; that is, through a depreciation in the quality of the merchandise. This has become more and more noticeable to the public in the last few years as, with prices frozen by the government, goods have made their appearance in the stores which by common consent simply aren't worth having. Generally this has been attributed to the war, but the fact remains that as wages have been increased, with prices frozen, the quality has become worse and worse, so that in the final analysis the public again pays the bill.

There is only one way in which wages can be increased to the advantage of the people as a whole; that is, as a result of an increase in productivity. When a workman through long experience or greater efficiency is able to produce twice as much as he formerly produced, his wages can be doubled and both he and the consuming public as well are benefited. Or, if through the installation of labor saving devices, more efficient machinery or through the introduction of better factory management or better organization methods, production is increased, then wages too can be increased without raising prices.

But whenever wages are forced up arbitrarily by the strong arm methods of labor czars, there is nothing gained by the public as a whole and the net result is bound to be either higher prices or a depreciated product.

A Thousand Years

What a jolt to man's pride that "T" star business was the other day! Here were earth's inhabitants all puffed up and excited about having discovered atomic energy, only to learn that some star called "T" up there all those miles away had been having atomic explosions 1,000 years ago that turn the Hiroshima-Nagasaki stunts into child games by comparison. And all that happened on the star before mankind ever dreamed of such a thing!

It makes one wonder what's going on in that star now. Will it take 1,000 years for earth's atomic explosions to travel through the skies before they become visible to "T" star folk? And will they smile tolerantly at earth's quaint backwardness? Or don't star folk smile? Or do stars have folk.

But if man ever did discover people on stars it would be 1,000 years after the people were there, and in that case would they still be alive in space. What's the use! Earth-bound man had better stick to figuring out this year's income tax which is the much less than 1,000 years from now. Just the same it might be fun to be an astronomer, and a relief to turn the eyes far away from this world sometimes.

SANFORD TWENTY YEARS AGO

Friends of Harry L. Walsh, secretary manager of the Florida Vegetable Corporation, and well known Sanford citizen, were shocked to hear of his death this morning at 10:00 o'clock at the Riverside Hospital in Jacksonville.

The City Beautification Committee today authorized the purchase of trees and plants for its program for supplying the necessary planting along the streets and in the parks and also decided to employ a horticultural expert to assist in the matter of designing the plans for the beautification program.

City officials stated today that an agreement had been made with the Globe Dredging Company whereby the company in submitting its bid for the bill to be made inside the bulkhead on the west

HER HOPE CHEST

side of the city, within the city limits, had agreed that the city dredge would be allowed to assist. Work will start in the very near future.

Sanford's special advertising campaign will open with a campaign next Thursday night at the Hotel Forrest Lake.

Mr. and Mrs. Benjamin Whittier, Mr. and Mrs. John McKee and Master Jack McKee formed a congenial party visiting the fair in Orlando on Wednesday.

Mrs. W. Theodore Langley and her guests, Miss Ann Earl Farmer of Anderson, S. C., Miss Olga Simmons, Miss Feagan Simmons and Mrs. J. M. Simmons of Mountville, S. C., motored to Orlando on Thursday where they spent the afternoon most pleasantly as the guests of friends.

The ladies of the Episcopal Church will have cooked a food sale at Gonzalez' store on Saturday.

Mrs. Frank Bradley, nee Bradley, was honored by a "dinner shower" given by Miss Eleanor Holly Tuesday afternoon at her home on Laurel Avenue. Those present included Mrs. Frank Bradley, Misses Thelma Dobbins, Lillian Trundy, Martha Wallace, Marie Smith, Mary Helen Moore, Betty Bronson, Luella Mahoney, Janet Starnette, Mary Kinlaw,

RURAL COMMON SENSE

By Spuds Johnson

Many persons who have received counsel on agricultural and home-making matters from Florida's county and home demonstration agents are not familiar with the origin, duty, and support of the Agricultural Extension Service of which the agents are a part. So everyone will understand the operation and maintenance of the extension service, Director A. P. Spencer recently gave a clear-cut outline of its organization, duties, and support.

Agricultural extension work began in 1914, after President Wilson had signed the Smith-Lever Act, May 8, 1914, providing for it. Under provisions of the act, extension work was inaugurated as a cooperative endeavor by the federal government, the land grant college of each state, and the individual counties of each state, all contributing to the funds necessary to maintain it. Every state and every territory has an

agricultural extension service which operates on this basis. This fund for employing county and home demonstration agents come from three sources, while funds for employing extension of-ficers and specialists who are not attached to any specific county, come from the state and federal governments.

State extension workers cooperate with the federal extension service, which is a part of the U. S. Department of Agriculture, and with state agricultural experiment stations, also supported by state and federal funds, in disseminating information among rural people. Trained in agriculture and home economics, they are the bridge between the scientist and the people who need the information revealed by research. In order to obtain the services of a county or home demonstration agent, or both, it is necessary for a county to provide a portion of the funds for salaries and maintenance of

legumes lengthen the grazing season and increase the quantity and quality of pasture herbage.

Sixty of Florida's 67 counties, Mr. Spencer explained, now have county agents, and four of the 50 also employ assistant agents. 39 counties have home demonstration agents, and four of these also employ assistants. More Florida counties now have county and home agents than ever before.

Duties of county and home demonstration agents and other extension workers, the director said, are to help rural people in any way they can to advance in crop production and marketing and in rural living.

SALTY U. S.—WASHINGTON—One thing you don't have to start worrying about just yet is a shortage of salt. The Bureau of Mines estimates the United States supply at 55 trillion tons, or enough to last for 425,000 years.

Used kitchen fat not only enters into the making of soap of various kinds but is also an important ingredient in the production of insecticides, paint, leather-tires and other products.

Legumes and grasses combined give better pastures, says the Florida Experiment Station. The

Vitamins Should Be High In Quality

BY W. V. BITTING, TOUCHTON DRUG CO.

Quality tells in these days. Every purchase you make should be carefully scanned for its real value. This is particularly true when you buy Vitamins.

First of all, you should know which ones you need and here your doctor's advice is invaluable. He will be the first to tell you that the best quality is the cheapest. These are more efficacious, yield better results, save you money in the long run.

He will also tell you to buy Vitamins bearing the labels of reputable pharmaceutical firms, for by so doing you are assured of fine quality.

# Social And Personal Activities

Society Editor: Cecelia Truluck

Tele. No. 148

## Social Calendar

**TUESDAY**  
Inter-denominational young peoples meeting will be held at the Presbyterian Church at 7:30 P. M.

**WEDNESDAY**  
Woman's Club will sponsor a benefit bridge party and checker games at the club house at 2:30 P. M. for the Fernald-Laughton Memorial Hospital.

## Mrs. O. G. Gibbs Hostess To Circle

Circle No. 1 of the First Baptist Church met at the home of Mrs. O. G. Gibbs, 208 Maple Avenue, with Mrs. E. T. Thomas, chairman, presiding. Mrs. M. S. Cleveland led in prayer. Mrs. Gibbs gave a talk on "Stewardship and the Bible Study." "What Baptists Believe" was delivered by Mrs. E. T. Thomas.

Mrs. H. E. Turner invited the circle to meet with her in March with Mrs. O. G. Gibbs as hostess. The Valentine theme was carried out in the refreshments which were served by the hostess to the following: Mrs. H. T. Thomas, Mrs. A. L. Thomas, Mrs. L. H. Harvey, Mrs. Josh Phillips, Mrs. Frances Bolt, Mrs. O. G. Gibbs, Mrs. M. N. Cleveland, Mrs. H. E. Turner, Mrs.

## Engagement Of Miss Hetzel Announced

Of interest is the announcement made today by Mr. and Mrs. Harry Clayton Hetzel of this city of the engagement and approaching marriage of their daughter, Joyce Meredith, to Ferdinand Gregorie, Jr., son of Mr. and Mrs. Ferdinand Gregorie of Oakland Plantation, Mt. Pleasant, S. C. The wedding will be solemnized in April at the First Presbyterian Church in Sanford with Rev. E. D. Brownlee officiating.

Miss Hetzel attended the Christian schools and graduated from the University of South Carolina, Columbia, S. C. where she was a member of the Delta, Delta social sorority. She has been employed as executive secretary of the W. W. C. A. at the university in Columbia.

Mr. Gregorie attended Clemson College, Clemson, S. C. before going into the United States Army Air Corps. He served as flight officer and received his wings at Stuttgart, Ark., and for some time was stationed at Maxwell Field, Ala. He received his discharge from the service in November and is now in business in Mt. Pleasant.

E. M. Carroll, Mrs. V. G. Haetz, Mrs. O. G. Gibbs and visitor Mrs. J. E. Britt.

## Personals

Mrs. W. R. Dyon has left for Jacksonville where she will undergo a minor operation.

Mr. and Mrs. L. I. Beecher of Dayton, Ohio, are visiting her father J. T. Hardy of this city.

Capt. and Mrs. John Bolt and son, Robert Sims, left today for El Toro, Calif., where Capt. Bolt will be stationed.

Lieut. and Mrs. W. H. Stemper left Saturday for Miami where they will visit Mr. and Mrs. E. A. Perry for a week.

Mrs. Frank MacNeill has departed for Tampa where she will attend the Merchants' Market and will view the latest fashions.

Mr. and Mrs. Charles Whitner of Jacksonville have been the recent guests of Miss Lettie Caldwell at her home on Magnolia Avenue.

Karlyle Housholder, law student of the University of Florida, spent the weekend with his parents, Mr. and Mrs. E. F. Housholder.

Mr. and Mrs. L. Hawkins Connelly have as their guests Mrs. Cannelly's brother and sister-in-law, Mr. and Mrs. W. A. Wimbush of Jackson, Miss.

Mrs. Marguerite Stultz and Mrs. Janet Edwards of Charlotte, N. C. who have been the guests of Mr. and Mrs. G. T. Kellam at their home on Park Avenue returned yesterday.

Capt. and Mrs. Gordon Cashy have returned to their home in Virginia, Va., after visiting Mr. and Mrs. John L. Galloway at their home 1718 Magnolia Avenue for some time.

Mr. C. E. O'Brien of Columbia, Miss. arrived this week to accompany his aunt, Mrs. Mary O'Leary, home. Mrs. O'Leary has been spending several months at the Valdez Hotel.

Robert Marlowe has departed for Chicago where he has entered Northern Illinois college of Optometry. He has previously served one year overseas in France and Germany with the Army and received his discharge in October, 1915.

S. E. Douglas W. Brocton, son of Mrs. G. F. Brocton of this city, was among the recent guests at the United Nations Service Center on Union Station Plaza in Washington, D. C. He found the center an excellent place to meet friends.

Mr. and Mrs. Ben F. Currie and twin sons, Frankie and Johnny, and Carl Teel of Hartford, N. C. arrived Sunday to be the guests of Mr. and Mrs. George Wells. Mr. Currie and Mr. Teel will return to Hartford tomorrow but Mrs. Currie and sons will remain for several weeks.

Friends of A. Braxton Huntley, Jr. will be interested to learn that he has been formally initiated into Delta Sigma Pi, professional, commerce and business fraternity at Johns Hopkins University

## Subscription Bridge Party To Be Given

A subscription bridge party and Chinese checker games will be sponsored Wednesday at 2:30 P. M. at the Woman's Club for the benefit of the Fernald-Laughton Memorial Hospital and the public is invited to attend. Mrs. Fred T. Williams is general chairman of the affair with Mrs. H. J. Lehman in charge of the social hour.

Mrs. C. J. Fisher, chairman of the refreshment committee, has the following as her assistants: Mrs. W. A. Leavitt, Mrs. James Moughton, Mrs. J. B. Williams, and Mrs. S. D. Highman.

Each table will play as an individual table and no progression will be made unless an entire bridge club wishes to attend and progress within the club. A reward of 500 points will be given for those arriving on time. Reservations may be made with Mrs. C. R. Dawson by calling 769-W.

## Mrs. A. W. Epps Is Elected President At Garden Club's Annual Luncheon

At one of the largest business luncheons in the history of the Sanford Garden Club held Friday at the Seminole Country Club, Mrs. A. W. Epps was elected president for the new year and preside with Mrs. H. H. McCallin, current president, to the state convention which is to be held at Miami Beach May 1, 2, and 3. Other officers elected include: Mrs. Julius Dingfelder, vice president; Mrs. Zeb Kniffel, Recording Secretary; Mrs. L. E. Spencer, Corresponding Secretary and Mrs. Henry McLaulin, Jr., Treasurer. Alternates to the convention will be Mrs. D. P. Herndon and Mrs. E. E. Trook.

Mrs. McCallin announced that as a result of the growth of the club, plans are being made for a Garden Club House and the organization of another circle and possibly a men's circle.

Mrs. Epps, chairman of the annual flower show which is scheduled to be held in the Stockland-Morrison show room on April 3, announced the following committee to assist her: Mrs. Morris Meyron, Mrs. Elaine Kirchhoff of the Azalea Circle; Mrs. Fletcher Bolt, Mrs. George Touhy, Mrs. J. M. Stinecoper of the Central Circle; Mrs. W. A. Pitts, Mrs. E. W. Wilke, Mrs. C. B. Kirtley of the Bird Gardeners Circle; Mrs. C. L. Powell, Mrs. C. L. Irons, Mrs. Al Lyon of the Magnolia Circle; Mrs. Lawson, Mrs. Jack Russell and Mrs. C. P. Henderson of the Rose Circle. This committee will meet at the home of Mrs. McCallin Tuesday at 10:15 A. M. to discuss plans for the show which will be a part of the veterans' homecoming celebration.

Mrs. Epps, president of the Garden Club, presided at the luncheon. In her address she congratulated the president on her splendid leadership and the progress of the Sanford Club and for serving as chairman of state award committee. She was enthusiastic over the Junior Club and described the members as to-morrow's gardeners. A state-wide contest has been successful in obtaining new members and she announced as nine additional clubs throughout Florida have been organized or activated, and many circles started. One of the state projects is to be the beautiful "Hill of Hopedale" No. 1, from Jacksonville to Miami which will be in honor of those who fought and died in World War II.

Mulford and Racine Foster, authors of the book "Brazil, Or Child of the Tropics" and general secretary of the Florida Horticultural program chairman, highlighted the members and guests with stories of explorations and adventures in the Brazilian jungles and highlands in search of rare flowers. Mrs. Foster said they did not make the trip to Brazil with the intention of writing a book but to discover new plants. However, the making of numerous notes was necessary and Mrs. Foster has followed Mrs. G. C. Hinchliffe, Mrs. Clayton Smith, Mrs. C. K. Carter and Miss Alice Campbell.

Refreshments were served by

## Miss Godwin Weds Ernest L. Lavy

Miss Esther Mae Godwin, daughter of Mrs. M. G. Godwin and SKV 2, Ernest L. Lavy, son of Mr. and Mrs. F. C. Lavy of Henrietta, Texas, were married Feb. 8 at 10 A. M. in the First Baptist Church with the Rev. W. P. Brooks, Jr. officiating.

The bride, who was given in marriage by her father, Mr. M. G. Godwin of Sanford, wore a powder blue wool suit with accessories and a corsage of pink roses centered with a white orchid. SKV 2, Ernest L. Lavy, wore a best suit for the occasion. The maid of honor, Mrs. Mary Godwin, sister of the bride, chose

a light blue striped suit with black shoes and a corsage of pink roses centered with a purple orchid.

The bride's hair was styled in a short bob and she wore a white veil. The groom wore a white shirt and a white tie. The ceremony was held in the First Baptist Church at 10 A. M. on Feb. 8. The bride's father, Mr. M. G. Godwin, and the groom's father, Mr. F. C. Lavy, were present. The bride's mother, Mrs. M. G. Godwin, and the groom's mother, Mrs. F. C. Lavy, were also present. The bride's sister, Mrs. Mary Godwin, was the maid of honor. The bride's brother, Mr. Ernest L. Lavy, was the best man. The ceremony was officiated by the Rev. W. P. Brooks, Jr.

### \$30,000 Added Flamingo Stakes Will Be Run At Miami's Hialeah Saturday

MIAMI, Feb. 18.—For color and beauty, few American spectacles are comparable with Flamingo Day at Hialeah Race Course with its novel parade of the famed pink birds on the turf course.

The flock of 500 flamingos will be herded from the infield lake after the feature sixth race on Saturday and marched clockwise almost a half-mile around the grass course past the clubhouse and grandstand.

President John C. Clark anticipates a crowd of almost 30,000 to witness the procession of the flamingos—the only one of its kind in the world.

Racing highlight of Flamingo Day will be the \$30,000 added Flamingo Stakes for three-year-olds, one of the richest events of winter racing. The last Saturday in February has long been established as the date for Flamingo Day and the Flamingo Stakes. The race is a mile-and-an-eighth, and horsemen deem it inadvisable to run their three-year-olds a

### Californian Sees 8,000,000 Homes In Trailers Soon

LOS ANGELES—Sterling Gleason, public relations director for the Civilian Production Administration in southern California, says he is conservative in predicting that 20 million Americans soon will be "living in trailer homes."

Gleason's picture of postwar motor touring puts a trailer behind every four autos. It creates for the trailer industry, he says, the task of building eight million rolling homes.

The boom will be a little while getting under way, Gleason concedes, "because" even Detroit turned out only four million autos annually before the war, and material shortages are still a very real factor.

Gleason, who spent several years traveling in a trailer before the war, bases his predictions on research conducted toward a master's degree. Mass production, he says, will bring trailer prices so low that almost any American family can afford one. Trailers before the war, he says, "and manufacturers were a long way from assembly-line methods."

Some southern California factories are turning out trailers at a rate of one every six hours.

Gleason says the war punctured a trailer boom prematurely but predicts another is already in the making. "The manufacturers here, in Indiana, and in other parts of the country can't begin to meet the demand," he says.

"It won't be long before you'll see the biggest mass movement of tourists in history, and at least 20 million of them—probably more—will be dragging their trailers behind them."

### LEAVES UNIVERSITY

FRANK WRIGHT

Just out of military service after spending nearly three and a half years with the Army Air Corps, Frank Wright is not returning to the University of Florida, where he seemed like a part of the place. He went there as a student in 1922, graduated, spent a year as sports editor of the Florida Times-Union, then went back to Gatorland in 1927 to establish the University's Public Relations Department and head the Florida alumni association. His 15 years there made Frank Wright a wealth of friends in every part of Florida. It was a tough decision not to return to his alma mater and the good work he was so closely identified with there, but it's back to Miami, where Frank was born, and he has already opened his own business and industrial public relations office at 1201 Dupont-Building, Miami.

### Plaintiffs, LILLIAN L. BATES, EVERETT C. BATES and VIOLET BATES WILKINS, vs. Defendant, R. F. D. MILFORD, N. H.

NOTICE TO APPEAR THE STATE OF FLORIDA TO VIOLET BATES WILKINS, R. F. D. MILFORD, N. H. You are hereby notified that a suit has been brought against you and others in the Circuit Court for Seminole County, Florida, in Chancery, by Richard J. Hundy and Mildred J. Hundy, his wife, styled as above set forth, and you are hereby required to file with the Clerk of said Court your written appearance (personally or by attorney) in said suit, on the first Monday in March, 1946, being the 4th day of said month, and thereafter to file with said Clerk your written answer, if any, to the bill of complaint in said suit as the time prescribed by law. Failure to do so or judgment will be entered against you by default. The nature of said suit affects the title to that certain tract of land in Seminole County, Florida, designated as Lot "A" and otherwise known as "Hotel and Park" on a plat or plan of a subdivision of lands then owned by the Altamonte Land Hotel Navigation Company, a Florida corporation, according to a plat thereof recorded in Book 18 of the Public Records of Seminole County, Florida, and in which said relief sought is a declaration of the rights of plaintiff to certain easements and the enforcement of certain restrictions described in the bill, and to quiet the title of plaintiffs with respect thereto.

WITNESS MY HAND and the seal of said Court at Sanford, Florida, this 4th day of February, 1946.

G. P. HEINRICH, Clerk of said Circuit

not even its mother—knew anything about the care and feeding of young flamingos.

But it didn't take long for the birds to get used to their new environment. Now more than half the flock are native and Hialeah has been able to send flamingos to many zoos and menageries.

The bird's flame-like coloring is an indication of their good health. If one of them becomes ill, its plumage fades almost to white. The brilliant coloring of the birds this year, commented on by so many of Hialeah's visitors, is the result of a chance addition to the bird's diet. A newly-developed vitamin of fishfood was put into the lake for the benefit of the finny population, but the flamingos soon took a liking to it, and it has apparently added just the right ingredient to bring the flamingo pink color to its full brilliance.

### Kid Cook To Fight In Orlando Tonight

Johnny Cook, who began his boxing career here in Sanford in 1926, will enter the ring tonight in Orlando when he meets Charlie Morrison of Tampa on the American Legion's weekly boxing card.

Cook, more commonly known as Kid Cook, was recently discharged from the Army. While in the service, he spent a great deal of his time instructing youngsters in boxing.

### What do you mean... There may be less soap unless I save my used fats?

Exactly that, Mrs. American Housewife. Even though food fats are ration-free now... industrial fats are still very scarce. That's why it is so important to keep turning in your used kitchen grease, to help make soap and other peacetime products. Not for months will the fat supply be back to normal. Meantime, you can help the situation by salvaging used fats!

AFTER WHAT MR. BROWN SAID TODAY, GUESS WE'D BETTER KEEP SAVING EVEN FAT SCRAPS.

Here's how you can help put more soap back in the stores

EVERY DROP'S IMPORTANT... MEANS MORE SOAP FOR SHIRTS AND SHEETS! I'M TURNING IN A CAN TODAY... AND GET 4+ A POUND, BESIDES.

Where there's fat there's soap Keep Turning in Used Fats—To Help Make More Soap

### Whitner Signed As Pilot Of Sanford State League Entry

(Continued From Page One) was broken. While sweating out the recovery of the injured limb, he was transferred to the Kansas City Blues of the American Association where, during the final 50 games of the season, he hit .306. Levy-Whitner joined the Yankees in Spring training again

in 1942 and during the club's training activities. Levy burned up the grapefruit circuit by leading every Yankee in the plate department. When the opening bell rang, he lasted only six weeks before being sent back to Kansas City. He declared that he couldn't get going during the early part of the season. While at Kansas City though, he hit .309 and the Blues won the American Association flag. In the loop playoffs, Columbus eliminated Kansas City and went on to cop the little world series.

Levy-Whitner enjoyed his most successful season in 1943 while playing with Newark, the Yankee International League farm. He underwent Spring training sessions with the Yankees but since he was anticipating a call into the armed forces within a matter of days, the Yanks farmed him to Newark. The Bears, in an effort to eliminate the possibility of breaking up their infield without any due notice, decided to play Levy-Whitner in the outfield. He handled the center field assignment that year without the draft hindering his efforts. When the season ended, he was runner up for the league's batting championship with an average of .322. He slammed out 12 home runs, 10 triples, 34 doubles and batted in 82 runs. He was only one of five .300 hitters in the International that season.

On the third day of the playoffs, Levy was drafted but received a medical discharge three months later after spending most of that time in an Army hospital.

He returned to the Yankees in 1944 and opened the season in left field, formerly Charlie Keller's area. He hit well but was slowed down because of the necessity of wearing a back brace. He was sold to Milwaukee and was leading the Yanks in runs batted in until the day he left when Johnny Lindell tied his record.

At Milwaukee, he was used as

### Percentage Pay Hikes And What They Mean To U. S.

By MAX HALL WASHINGTON—When a labor union demands a 30 per cent wage increase, does that mean it is demanding a 30 per cent raise for every worker? Not necessarily. You may be surprised to learn that the CIO Automotive Workers have never asked that each worker's rate be raised 30 per cent.

In fact, CIO unions seldom demand a blanket percentage increase. They say that when the same percentage of increase is applied to each worker, the neediest people get the smallest raises.

For example suppose a certain percentage is given to everybody in a plant. Tom Smith, common laborer making relatively low wages, gets a much smaller increase than Jim Brown, skilled workman operating a complicated machine. And the wage gap between Smith and Brown grows wider.

That's why the CIO steelworkers union asked for a flat amount of raise for every worker (25 cents an hour; later reduced to 18 1/2 cents).

How It Works Then what about the Auto Workers' demand of 30 per cent? Here's the explanation:

The Auto Union decided to ask each company for a 30 per cent increase in its wage—taken as a whole. That is, it would demand a solid chunk of money amounting to 30 per cent of the company's straight-time wage payroll.

Part of it would be used for an insurance program—sick pay, death benefits, etc.—for all the workers. Part of it would be used to eliminate wage inequalities within each company. The union urges that people doing the same work for the same company should get the same pay, even if they work in different sections of the country.

Divided Up The remainder of the 30 per cent would be split up equally among all the workers. Thus Tom Smith and Jim Brown would get the same dollar and cent raise.

In the case of General Motors, the union once estimated that this would give each worker a raise of about 25 cents an hour. That is, all General Motors wage-earners would get about 25

FORMER State Department advisor Max Thornberry (above), testifying before the Senate Naval Affairs Committee in Washington, accused Edwin W. Pauley, nominee for undersecretary of the navy, of seeking transfer of an American oil tanker to Mexico in 1941 for which he would receive a \$4,000 commission that would go to the Democratic campaign fund. Pauley leaped to his feet and shouted, "That is a deliberate premeditated lie." (International Soundphoto)

cents an hour, plus insurance benefits. And some of the wage-earners would receive larger raises if their existing pay were lower than that of someone else doing the same work.

Thus it is not a blanket increase of 30 per cent. It is really an average raise of 30 per cent. If there were a worker whose pay accidentally happened to be the average wage for the whole company, it's true he would get a 30 per cent increase. But all other workers would get either less or more than 30 per cent.

In the General Motors case, the President's fact-finding board recommended a general increase of 19 1/2 cents an hour—an average raise of about 17 1/2 per cent. The board deliberately ducked the question of an insurance program and the elimination of inequalities, leaving those matters to the union and the corporation to work out.

Some For Insurance The union accepted the proposal. The corporation refused it. If both parties had accepted, would this have meant that every General Motors worker would have gotten a raise of 19 cents an hour? Not necessarily.

A union spokesman says the union no doubt would have expected to use part of the 19 1/2 cents for the insurance program and the elimination of inequalities. The union and corporation would have had to settle this by collective bargaining.

### Central Florida Freeze, Storage Company Formed

(Continued From Page One) construction reinforced with steel. It only needs to be repainted and equipped with the necessary insulation and machinery. Orders for this were placed on factory schedule late in December. Mr. Johnson added, explaining that he and Mr. Gatchel have been working on the deal since Dec. 14.

Mr. Johnson and Mr. Gatchel will be actively in charge of the management of the new concern. R. L. Cornell is consulting engineer for the company and Fred R. Wilson attorney.

Mr. Johnson came to Florida from Washington D.C. in 1916. His father operated several butcher shops in that city where as a youth he learned a lot about meat cutting and storage. He served two years in World War I, and in 1925 graduated from the University of Florida with a BSA degree, receiving an MS degree in 1931.

After several years of teaching he came to Seminole High School in July, 1928 as instructor in agriculture and shop work. He was actively in charge here of the school for war production workers. He lives with his family at 2011 Helly Avenue, has a daughter in Junior High School and a son, Ralph, who is a senior in Semhol High School. He is a member of the Christian Church and chairman of the board of elders.

Mr. Gatchel came to Sanford from Springfield, Ill. in 1907 and for a time worked at the Sanford Grocery Company under L.P. McCuller. In 1912 he went into the grocery business with his father at the corner of Carey and Sanford Avenue. In 1929 he moved the grocery to Fourth and Sanford Avenue and sold it to the Winn Lovett Company in July 1944.

### Candidate Urges Reinstatement Of Funds For River

(Continued From Page One) going to receive the benefit of development appropriations now is the time.

A retired Army officer after 35 years of service, Voss pointed out the Army engineers compiled a recommendation of necessary work projects only once a year and if the Sanford River project was sidetracked during the present session of Congress there would be no hope for definite action until next year at the earliest.

Voss declared that weak and ineffectual leadership in the House of Representatives was the primary factor for the failure of the Sanford River and other Fifth District development projects to receive favorable action long-ago.

### Florida Schools Are Praised For War Bond Sales

JACKSONVILLE, Feb. 18. — Between the opening of the current school year and Dec. 31, 1945, boys and girls in the schools of Florida have sold \$1,126,473 worth of U. S. Savings Bonds, bringing the total sales record for schools of this state to \$24,536,658 for the period from May 1941 through December 1945, according to an announcement made today by Ralph F. Bagwell, State Director of the U. S. Treasury's Savings Bonds Division, successor to the War Finance Committee.

During the Victory Loan Drive, Florida schools were asked by the Treasury Department to sell Bonds to cover the cost of hospital units at Army and Navy activities in this state. A unit price of \$3,000 was agreed to as the average cost of medical facilities for one man, including con-

struction cost, X-ray apparatus, operating table, etc., and Florida was assigned a quota of 440 units. Campaigns completed by Dec. 31 accounted for 1,268 units, or a quota performance of 288 percent, which has won high commendation from the Treasury, commented Mr. Bagwell.

Of the schools reporting bond and stamp sales for the current term to Dec. 31, Coral Gables leads with \$265,705. The Fort Lauderdale High School was second with \$197,696. Cove, Panama City third with \$181,187. St. Anthony, Fort Lauderdale fourth with \$155,000 and Cherokee High, Orlando fifth with \$153,455.

Schools participating are being awarded a Treasury Department citation "for distinguished services rendered in behalf of the School Savings Program" and, for their trophy case, one of the silk flag insignia worn by American fliers in the India-Burma-China theater of war. The insignia are painted on parachute silk and bear inscriptions in several languages.

A peacetime School Savings Program in Florida has been endorsed by leading educators in the state. Colin English, State Superintendent of Education, has advised the Treasury Department:

### Engineer Goes To Work Through Roof To Keep Prime Minister Warm

OTTAWA, Ont.—R. J. (Dick) Gorman has a queer job. He enters his office through a door in the roof. His office building contains the opening of a mile-long subterranean passage—Ottawa's subway, he calls it. He controls the comfort of Canada's Prime Minister and the members of parliament.

Gorman is a chief engineer of the government's central heating plant. He has a staff of 15 men and they manage to feed 16,500

tons of coal into the plant every winter. The heating of 16 downtown government buildings depends upon them and the space heated is approximately 35 million cubic feet, or equivalent to about 3,500 homes.

The Parliament buildings, the old and new Supreme Court buildings, the Confederation and Justice buildings, and Ottawa's new post office are among the structures served by Gorman's plant. The plant is built into the side of a 60-foot cliff which rises from the Ottawa river. The entrance is on the roof because that is where trucks dump their load of coal into 2,000-ton and 1,000-ton bins.

"We are cognizant of the great need for continuing the thrift program, which has functioned so well during the war."

## Canadian Spy Case Reported By Red Press

### Red Star Editorial Orders Commanders To Halt Penetration Of Alien Elements

MOSCOW, Feb. 19, (AP)—The Soviet Press has published its first accounts of the Canadian spy story. But today's publication of the story is confined exclusively to reprinting a factual Tass News Agency account of Canadian Prime Minister W. L. Mackenzie King's first statement on the subject.

There is no editorial comment in any of the Soviet papers on the Mackenzie King announcement.

The Moscow home radio service also has carried the story without comment.

Mackenzie King's statement disclosed that employees of foreign legation had been involved in espionage activity in Ottawa. This activity was said to have resulted in a leakage of secret and confidential information.

The King statement did not mention what legation was involved. Subsequent Ottawa dispatches asserted it was the Russian mission in Ottawa.

Meanwhile, the Russian Army newspaper Red Star has published a leading editorial directing Red Army regimental commanders and all Russian officers to guard against penetration from alien elements. Mentioned in the editorial as alien elements were what the paper called "spies, diversionsists, saboteurs and other enemies of the people," says the editorial in part.

"All action that can inflict damage to workers, peasants and the Red Army should immediately and resolutely be cut short."

## Auxiliary Coast Guard Seeks New Sea Scout Members

Any boy 15 years of age or older who wishes to join the Sea Scouts may do so by contacting any member of the Coast Guard Auxiliary or appear at any of the meetings of the Sea Scouts. High seas held every Thursday evening at 8:00 o'clock at the Sanford Armory.

"All boys in scouting are on an equal basis," said William J. Tolle of the Coast Guard Auxiliary, "with equal opportunity to avail themselves of the many benefits of sea scouting experience. The individual cost is small and the same to all boys."

"On behalf of the Coast Guard we extend a warm invitation to all boys of Seminole County to join the sea scouts," he declared.

At the present time the group numbers 15 boys.

## S-Sgt. Woodruff Back From Pacific After Six Battles

8/Esgt. John D. Woodruff, Jr., son of Mr. and Mrs. J. D. Woodruff of 1113 West Seventeenth, has returned home after serving as a radio gunner with the Army Air Corps in and around Palawan in the Philippines for a year and participating in six major battles. He entered the service Feb. 20, 1943 at Miami and was trained at Scott Field, Ill. and Army Air Field at Yuma, Ariz. Then was sent overseas from Columbia, S. C. Feb. 26, 1944 as a member of a B-25 unit which did strafing and skip bombing.

After arriving at New Guinea action started and Sgt. Woodruff completed 23 missions as a radio gunner in the following campaigns: China Offensive, New Guinea, Southern Philippines, Lamas, Borneo and Liberation of the Philippines. His unit was awarded the Presidential Citation for outstanding work in the Borneo Campaign and he was awarded the Air Medal for completing 100 combat hours.

He wears the following ribbons: Philippine Liberation with one star, American Theater of Operations, World War II Victory, Good Conduct, Air Medal, Asiatic-Pacific Theater of Operations with five stars and Presidential Unit Citation. Sgt. Woodruff arrived in the states Jan. 17, 1946 after making the trip by boat and was discharged at Camp Blanton, Jan. 26. He said that he is extremely glad to be back home and plans to continue his studies at Sanford College.

## Ready To Battle Inflation

SHAKING HANDS before holding a joint press conference in Washington are Paul A. Porter (left), new OPA chief, and Chester Bowles, new Economic Stabilization Director. Bowles told reporters that the President's wage-price policy is sound. He termed charges that the battle against inflation is just as "ridiculous and dangerous." (International)

## Boy Scouts Are Given Awards At Court Of Honor

### Six Scouts With First Class Ranks

Many awards were given at the Seminole District Court of Honor of Boy Scouts held Monday evening at 8:00 o'clock at the Episcopal Parish House. This was reported to have been one of the largest Courts of Honor held in this county in recent months.

Six scouts were presented by Julius Dingfelder with first class awards. They were: John Fox, Alan Hettel, and Jack Spencer of Troop 5; Randall Goff and Garnett White of Troop 34.

Second class awards were given to John O. Anderson, Alan Hettel, and Jack Spencer of Troop 5; Robert Axt, Clarence Clause, T. I. Harris, Denny Stafford and Elwood Williams of Troop 31.

Merit badges were awarded by H. C. Hettler to John O. Anderson, Alan Hettel, and Jack Spencer and Rudolph Smith of Troop 5 for Home Repairs, to Bill Meriwether of Troop 5 for stamp collecting and to two members of Troop 34, Randall Goff for safety and Garnett White for poultry keeping.

Two members of Troop 5, Billy Meriwether and Simon Dingfelder were made Junior Assistant Scoutmasters with R. B. Crumley making the awards.

## Soviet Prosecutor Relates Slaughter Of Red Civilians

NUERNBERG, Feb. 19, (AP)—Russian prosecutor Col. L. N. Smirnov today told the Nuernberg war crimes tribunal the story of the slaughter of countless thousands of Russian civilians and prisoners of war in 1943 by German troops frantically fleeing Russia.

Smirnov told the court trying Germany's top leaders that the Nazis sometimes forced their victims to carry wood to a cremation pyre, to down upon it and then be shot. The Germans then would force another group to place more wood upon the bodies and repeat the process. Finally, the whole pyre would be soaked with gasoline and ignited.

Smirnov has reminded the tribunal that captured German documents introduced by American prosecutors show some German Army commanders protested and widespread brutality. Earlier, the tribunal denied defense motions for a three-week adjournment of the trial following completion of the prosecution's case. The Russians are the first to present their testimony and evidence before the tribunal. Soviet prosecutors expect to wind up their case late this week or early next week.

## Henry Ford II To Go Before Banking Group

### Requested To Give His Side Of Argument With OPA Over Auto Prices

WASHINGTON, Feb. 19, (AP)—The House Banking Committee has invited Henry Ford, II, to appear personally to present his side in his argument with OPA over prices of new automobiles. The announcement that Ford will be called was made after Republican Representative Fred Crawford of Michigan objected to an attack he said had been made by the OPA on young Ford. At the same time, Republican Representative Howard Buffett of Nebraska accused the OPA of attempting to browbeat Ford in public statements.

Chester Bowles replied that he knew nothing in the law to prevent OPA from correcting what he termed false and misleading statements just previous to taking to the OPA chief and now economic stabilizer—had testified that the Ford Company last summer had asked for a 55 percent price increase over the previous year. Bowles asserted that such an increase would be outrageous. Democrat Wright Patman of Texas asked Bowles for a statement on an accusation Ford is said to have made that the OPA was holding up auto production by its pricing policy. Patman declared that young Ford, the directing head of the company, had claimed his firm was losing \$300 on each automobile produced. Bowles replied that it seemed as though young Henry had departed from the traditional Ford policy of high wages and low prices.

## David H. Thompson, 40, Dies Suddenly

David Houston Thompson, 40, resident of Lake Mary for the past 12 years, died suddenly at home yesterday. The deceased was born in Sorrento on April 9, 1905 and lived there until moving to Lake Mary. He is survived by two sisters, Mrs. R. L. Humphrey of Lake Mary, Mrs. J. Ben Smith of Delray Beach; three brothers, H. H. Thompson of Palm City, and Edward Thompson of Lake Mary; also several nieces and nephews.

Funeral services will be held at 10:00 o'clock Thursday morning at the Erickson Funeral Home with the Rev. Walter Pollock of Plant City officiating. Interment will be in Lake View Cemetery. Pall bearers will be H. A. Taylor, Ernest Lagerquist, L. C. Shriver, H. B. Fennell, H. T. Russell, and S. J. Grady.

JAYCEE ATTEND MEETING  
Jack Ratigan, president of the Seminole County Junior Chamber, led a delegation of local Jaycees to Orlando last night where they attended a meeting of the Board of Directors of the Orlando Junior Chamber. Also included in the group were Bradley Odham, Ray Slayton, Dick Eilberry, Alvin Odham and Julian Stenstrom.

STORM WARNINGS  
WASHINGTON, Feb. 19, (AP)—The Weather Bureau has issued the following storm warning for the Atlantic seaboard: "Boat-storm warning ordered 11 A. M. from south of Block Island to Cape Hatteras for increasing easterly winds reaching moderate force 30 to 40 miles per hour tonight with rain along the Virginia and Maryland coasts and snow turning to rain from Delaware northward."

MASONRY MEET TONIGHT  
Sanford Lodge No. 62, of F. and A. M. will hold its regular meeting tonight at the Masonic Temple at 7:30 o'clock. All Masons are urged to attend.

## Rollins Students To Present Debate At Jaycee Meeting

Miss Muriel Fox, Janet Haas, Thomas Fruin and Wesley Davis, members of the Phi Kappa Delta, national honorary speech fraternity, will present a debate Thursday evening at 8:00 o'clock at the weekly Seminole County Junior Chamber of Commerce meeting which is scheduled to be held at the Court House.

President Jack Ratigan of the Jaycees announced today that the public is invited to attend, particularly members of Sanford's various civic clubs.

The question to be debated will be "Resolved: That the United States should join a world government." Merrill B. Jones, professor of speech at Rollins, will accompany the debaters and introduce the speakers as well as act as moderator.

## Settlement Of Philadelphia Dispute Ends Strike Threat

### Pauley Says No Official Shares Oil Interests

### Says Hannegan Once Discussed Investment In Venture

WASHINGTON, Feb. 19, (AP)—Oil man Edwin W. Pauley, nominee for undersecretary of the Navy, has asserted that no government official has any interest in any of his extensive financial holdings.

Pauley made the statement before the Senate Naval Committee today in answer to questioning by Republican Senator Charles Tobey of New Hampshire. Pauley said that Postmaster General Herbert Hannegan once discussed with him a possible investment in a California oil venture, but that it never materialized. Pauley said that neither Hannegan nor any other government official shares his extensive oil and other financial interests.

The chairman of the committee, Democratic Senator David Walsh of Massachusetts, interrupted to hold up Pauley's answers until Senator Tobey explained the reasons for his line of questioning. Senator Tobey declared that he expected to show that officials with financial interests in Pauley's enterprises were backing him for undersecretary of the Navy. Pauley said this was not the case.

## Lots Of Quote And Unquote Here

STACKED UP ON EITHER SIDE OF pretty Ada Jackson of Center Moreland, Pa., in the Senate Office Building at Washington, are some of the sixty volumes of testimony as far recorded by the congressional Post Office investigating committee. If you're interested in buying, the price is \$100 for about 12,000 pages of words. (International Soundphoto)

## Caravan Of Cabs Slated To Reach Capital Tonight

### Chicago Drivers To Seek Relief From City Cab Ordinance

MASSILLON, Feb. 19, (AP)—A caravan of approximately 350 Chicago World War II veterans resumes its drive on Washington today from Massillon, O. The cab drivers, accompanied by their families and friends, expect to reach the national capital some time tonight. The drivers say they expect to pick up several thousand other cab driver recruits from Pennsylvania who have complaints similar to theirs. The Chicago drivers are seeking relief in Washington from a city ordinance limiting the number of cabs in Chicago to 3,000.

The president of the American Cab Drivers Association for discharged veterans, Edgar Siles, says his group plans to present its case to the Department of Justice. The 26-year-old veteran says his group contends that the fact that two companies control most of Chicago's 3,000 cabs constitutes a monopoly.

Siles says that his group hopes to meet in Washington "General" Jacob S. Coxy, whose home town is Massillon. Coxy is the 91-year-old Ohioan who led a march of unemployed in Washington in 1934. Coxy is in Washington again today attempting to gain interest for his proposal for non-interest bearing government bonds.

Siles says the cab drivers would be willing to have Coxy serve as their spokesman.

In 1894, Coxy was arrested and charged with trespassing when he attempted to speak from the steps of the capitol.

## Clarence Isbell Receives A. B. Degree

Clarence W. Isbell, who for the past three years was teacher of mathematics at Seminole High School, received his Bachelor of Arts degree in education with honors at the University of Florida, on Jan. 26, according to information received recently by Mrs. E. F. Cooper of Sanford. In addition, he was admitted to membership in the Phi Kappa Phi Fraternity.

Mr. Isbell has had 17 years of teaching experience in Seminole County during which time he was principal of the Chuluola School for two years of the Lake Mary School for 10 years and of the Lyman School at Longwood for two years.

## Efforts Renewed Today By Dewey To Bring End To 91 Day Old GM Strike

PHILADELPHIA, Feb. 18, (AP)—The threat of an immediate nation-wide telephone strike was removed today with settlement of a dispute in which 1,000 Philadelphia telephone workers had walked out. The settlement at Philadelphia was announced by Federal conciliator Peter J. Manno.

The National Federation of Telephone Workers had threatened to call a nationwide telephone strike unless the Philadelphia dispute was settled by tonight. The federation still is considering a nation-wide strike unless its wages and hours demands are met.

The Philadelphia dispute was settled by an agreement between the American Telephone and Telegraph Company and the Independent Federation of Long Lines Telephone Workers. A company spokesman said that the company has promised to investigate the promotion of three employees who the union said were given better jobs without regard for seniority rights. No wage demands were involved in the Philadelphia case.

LANCASTER, Pa., Feb. 19, (AP)—A Federal conciliator has met in Lancaster with officials of the Conestoga Transportation Company and leaders of striking transit workers. The two-week-old wage dispute has developed into a general strike called for by AF of L workers. An executive of the AF of L Central Labor Union asserted that the general strike was more effective today than yesterday. News men who visited Lancaster Industrial plants, said that they had found no evidence of any general strike.

## Jacksonville Civic Bodies Oppose Merger

### Claim ACL Proposal Would Contract And Not Expand Service

WASHINGTON, Feb. 19, (AP)—The city of Jacksonville through two of its civic bodies—stepped into the Jacksonville Traffic Bureau submitted a brief to the Interstate Commerce Commission in Washington.

Their document claims that the proposed acquisition of the line by the Atlantic Coast Line system as they put it "would not be consistent with the public interest." It adds that the railroad "should remain independent of any of the connecting independent railroads that serve Jacksonville from the north and west."

The ICC is considering two reorganization plans for the East Coast. One would authorize independent operation of the carrier under the control of the St. Joe Paper Company. The other would permit the merger of the Florida road with the Atlantic Coast Line.

The Jacksonville groups say the Coast Line "has not shown that the Florida East Coast is in need of financial aid of the Atlantic Coast Line, that the elimination of the East Coast's traffic saltation agencies would impair the service now being furnished to shippers from the Florida east coast, and that the effect of the ACL's proposal would be to contract—not expand—the routes of movement for Florida perishable traffic."

J. L. Stark, director of the National Association of Retired Railway Employees, will meet Monday morning at the City Hall with members of the Association, according to W. B. Zachry, chairman of local unit 41 of the Retired Railwaymen's Association.

## OPA Agents Gather Up Death-Trap Tires

JACKSONVILLE, Feb. 19, (Special)—Thousands of death-trap tires, many of them scrap rubber casings, have been rounded up by Southeastern OPA enforcement agents since the beginning of the drive last Fall. Stewart C. Mazy, OPA District Director, said today.

Whole carloads of defective casings have been recovered and approximately 100 alleged violators taken to court by OPA, he said.

With the tire shortage, many unscrupulous tire dealers patched together unroad casings, camouflaged them with a flimsy, unsafe tread, and sold them for sixty or seventy times the OPA ceiling for scrap rubber, he pointed out.
