

THE SOUTHEAST'S FIRST trailer-truck piggy-back train combination rolled into Miami from Jacksonville this week, the event inaugurating a regular service by Great Southern Trucking Company between the two cities. The flat cars provided by the Florida East Coast Railway to accommodate the huge trailers are fifty-five feet long and were specially designed as were the ramps and trackage at each terminal to insure the speedy loading and unloading of the trailers. Great Southern, a division of Ryder System, Inc.—the country's largest exclusive truck rental concern—is the largest common carrier in the Southeast. As the trailers move off the train they are sped immediately to their final destination.

### Dangerous Health Situation

NEW YORK — Medical science is becoming uncomfortably aware of an ominous and possibly dangerous situation. Few physicians practicing today have even seen a case of smallpox, and even that small number is constantly diminishing.

That is reassuring proof of one of the great triumphs of medical science, of course. Smallpox, the virulent, highly contagious killer, has all but disappeared from the United States. But it hasn't entirely disappeared and that is what makes an ominous situation.

Would the average physician recognize a case of smallpox should he encounter one? Would the possibility that it was a case of smallpox leap instantly into his mind? There have been a few scattered instances over recent years when the diagnosis was fumbled and delayed.

**May Miss Diagnosis**  
This indicates that the average physician might well miss the diagnosis long enough for a community to be endangered. Once present, smallpox can spread rapidly; and there are thousands who think they are immune because they were vaccinated as children, but who are not immune. Their vaccinations have worn off.

Mrs. Kenneth D. Rogers and Arthur M. Harmuth of the School of Public Health, University of Pittsburgh, are alerting the average practicing physician to this situation through the technical journal of the American Academy of General Practice. They cited the following example:

A 14-year-old girl came down with pox. Two days later a physician was called in and said it was chickenpox. The child's condition grew progressively worse, and five days later she was taken to a communicable disease hospital. The diagnosis still was chickenpox.

But it wasn't chickenpox which either looked or behaved in the usual way of chickenpox. A number of doctors were called in. They all thought it was chickenpox. Yet not one of them could say positively that it wasn't smallpox.

**Child Dies**  
The child died during her second day of illness. Tests proved that she was a victim of an unusual and complicated case of chickenpox. If it had been smallpox, she would have been a

#### Watch Your Summer Health

In summer we make many adjustments in our living habits for the sake of comfort. We use our wits to "beat the heat". It is natural and fitting to do this. But our search for comfort should not be the end of our efforts. Often times health is injured by things people do in order to be comfortable. Comfort and health should go together. But since our "chats" deal with health we shall confine our discussion to it.

From a health viewpoint summertime has its hazards as well as its benefits. To enjoy the benefits and to avoid the hazards we should profit by scientific knowledge, which comes from others, and by intelligence and self-control, which we must exercise for ourselves.

First, let us consider the very important matter of food. On account of the heat the body's food requirements are different in summer. When the heat is excessive the amount of food consumed should be considerably reduced. Also, a kind of food eaten in summer should be somewhat different from that consumed in the cooler months. Starchy foods and sugars are heat producing foods and should, therefore, be eaten more sparingly in hot weather. Meats, fruits, fresh vegetables and milk may well be chosen as the principal hot weather foods.

For those who are easily overcome by heat and those who cannot well endure heat, an increased intake of sodium chloride—table salt—and water will prove

source of readily transmittable germs for nine days.

But that is not all of the story. The instant smallpox was suspected all employees and patients in the hospital were vaccinated—40 in all. Four young children among them had never been vaccinated before. The remaining 36 had been, and supposedly were immune. But vaccination reactions showed that actually only two were.

The doctor urged their colleagues everyday to keep textbooks available which describe minutely the appearance of smallpox to impose strict quarantine on any suspected case; to get a precise diagnosis with all possible speed; and to notify public health authorities instantly so they can organize to vaccinate all persons with whom the suspected case had been in contact.

beneficial. Blast furnace workers who formerly were subject to heat stroke now are free from the malady through the increased consumption of salt. Salt tablets are now used extensively and are a convenience for those who suffer from heat.

Ice water and other ice-cold drinks should be taken temperately, if at all, in hot weather. Severe illness has often been caused by taking a large quantity of iced drinks into the stomach. Such drinks should be taken slowly, and in moderate quantity, even when one is very thirsty. From a health standpoint, cool drinks are preferable to extremely cold ones.

There are more perils in summertime besides than overloading the stomach with an indigestible combination of foods. To be avoided if possible are such noxious plants as poison ivy and such possibly dangerous insects as wood ticks. If a tick is identified on the skin, it should not be touched with bare hands but should be removed by use of gloves or tweezers.

Swimming is healthful exercise but it should not be done soon after a heavy meal, as paralyzing cramps may strike suddenly and result in drowning. And newspapers still carry stories of broken necks and fractured skulls from diving in shallow water.

Fishing is one of the most healthful of sports. For those who enjoy it, fishing relaxes mind, muscle and nerves as few other pastimes do.

Summertime health activities are a matter of individual choice. What appeals to one person will not appeal to another. But everyone should have some kind of recreation, preferably in the open air and in the sun.

If everyone will eat intelligently, avoid the hazards mentioned above, and follow some interesting outdoor pastime, summer will prove to be a season of good health.

## School Board Reveals Teacher Pay Schedule; Studies New Budget

### Top News In Brief

**WASHINGTON** — The United States has agreed to a cautious relaxation of the trade restrictions between Japan and Red China, informed sources said today. The trade question was one of the most delicate issues taken up during talks here between Japanese Prime Minister Nobusuke Kishi and top American officials headed by strengthening U. S.—Japanese postwar ties.

**TALLAHASSEE** — Gov. LeRoy Collins was due to depart today for the National Governors' Conference in Virginia, but he leaves behind him an almost cleared desk which had been piled high with legislative bills. The governor worked late into the night Thursday putting his signature on hundreds of bills from the 1957 Legislature and making scores of appointments.

**WASHINGTON** — The South has lost a major battle in the Senate for the first time over civil rights legislation but has not yet lost the war. The biggest battles are still to come and probably will tie up the Senate during most of July in a filibuster. But even then, the chances that southern Democrats can defeat the bill will be much less bright than in past years.

**NEWPORT, R. I.** — The Navy today reported a "mild outbreak" of Oriental influenza at the Newport naval base. The Navy said the flu which has swept the Far East has been detected on eight of 110 Newport-based ships since June 1. An estimated 500 personnel have been stricken.

### Frank Akers, 73, Dies At Bay Pines

Mr. Frank P. Akers, 73, died at the Veterans Hospital, Bay Pines, Wednesday morning at 5:15. Mr. Akers had been ill for about 10 months. He formerly lived in Sanford for 30 years but for the past six years had made his home in Clearwater. Mr. Akers was a member of the B.P.O.E. Sanford Lodge 1941. Survivors include his widow, Mrs. Nina Akers, Clearwater; one son, Frank P. Akers Jr., Sanford; one stepdaughter, Mrs. Ted Smith, Clayton, Ga.; one stepson, Hugh B. Conley, Chicago, Ill.; two brothers, William Akers and Dillon Akers, both of Atlanta, Ga. and one sister, Mrs. Ethel Perry, Atlanta, Ga. Remains arrived in Sanford from Bay Pines this morning. Funeral services will be held Monday morning at 10 o'clock at Brison Funeral Home with Rev. B. E. Hutland, pastor of the First Methodist Church officiating. Pallbearers will be members of the Sanford Elks Lodge. Those who will serve as pallbearers are: John Leonard, Herman Guntter, Denver Cordell, Clyde Easterbrook, T. B. Smith, Ralph Wight. The Elks will conduct graveside services at Evergreen Cemetery.

### Mechanical Brain Loses At Checkers

**CAMBRIDGE, Mass.** — A million dollar mechanical brain that can make 40,000 calculations a second lost a game of checkers today. The \$2,742,000 computer, built by the International Business Machines corporation for the Massachusetts Institute of Technology, can figure out in a minute a mathematical problem that would take a scientist more than a year to solve. But the mechanical wizard lost a game of checkers Thursday to Paul Westlow, former New England and Canadian champion, in less than half an hour. The defeat didn't alarm the scientists, who said the new machine has not had enough time to "build up memories" yet.

### Senior Life Saving Course Is Offered

A senior life saving course will be offered for those over 16 years of age at the Municipal Swimming Pool in Fort Mellon Park beginning Tuesday night at 7 o'clock. The course will last for about two weeks and is a part of the Citywide Recreation Program. Robert Samuel will be the instructor.

### United Press Marks 50th Anniversary

**NEW YORK** — The United Press marked its 50th anniversary today with a tribute from President Eisenhower on the part it has played in strengthening the free world by straight reporting of the news. On its birthday today, the 10,000 men and women who make up this unique news-gathering organization were, as every weekday, sending almost 4 million words of news literally around the world. Their stories and pictures went in 1,500 newspapers in this country, were translated into 45 languages for clients in 71 foreign nations. They were heard on radio, seen on television, beamed to ships at sea. United Press today looks back on covering a turbulent half century that started with the cry, "get a horse," and looks forward to a tomorrow where the world seeks a way to chain the hydrogen bomb.

### County Road Projects To Get Underway Soon

The State Road Department today announced beginning dates for two road projects in Seminole County totaling nearly a million dollars. Both projects are on main arteries into Sanford. The SRD's Information and Research section stated that work is scheduled to begin by June 26 on the \$508,319 construction project on State Roads 15 and 60 (U. S. 17-92) in Seminole County. A contract for this work was executed with Hubbard Construction Company of Orlando, who was the apparent low bidder when the project was let on May 16 in Jacksonville. Work on this project is scheduled to take 183 working days for completion, and consists of grading and paving from French Ave. at the south city limits, southwesterly for approximately 2300 miles. At the same time the State Road Department reported that work is scheduled to begin by July 3 on a \$337,089 construction project on State Road 46 in Seminole County. A contract for this work was executed with Langston Construction Company of Orlando, who was the apparent low bidder when the project was let on May 16. Langston Construction Company began construction work on the highway Wednesday. Work on this project is scheduled to take 183 working days for completion, and consists of grading and paving from McIlwain Ave. in Sanford east to Lake Jessup Bridge.

### 6 Children In One Family Are Wiped Out By Tornado

**FARGO, N. D.** — A tornado wiped out six children in one family to boost the death toll in Thursday night's devastating twister to at least nine. Another 108 persons were injured. Authorities desperately sought to contact the dead children's father, Gerald Munson, who was out of town and apparently unaware of the tragedy. Only the mother and one child of the family of nine survived the disaster. Both the mother and her young son, Ricky, were hospitalized. The latest reported victim was Don Tigen, about 27. Also killed were an unidentified man in his 30s and a woman about 60 years old. The twister, described by witnesses as like a "huge black arm," smashed about 100 square blocks of Fargo, a city of 45,000 population. About 250 buildings were destroyed or damaged and total damage was estimated at more than one million dollars. Searchers, hampered during the night by power failure, said they expected to find more victims to go in a thorough probe of the grotesque debris. Children identified: The dead children were identified as Phyllis Munson, 8; Jeanette, 5; Mary Beth, 1; Darwin, 12; and Bradley, 10. The twister plowed a jagged path through residential district, causing heaviest damage on the west side. It swept into the city from the west shortly before 8 p. m. e. s. t. Gov. John Davis ordered a detachment of 200 national guardsmen from Camp Grant, N. D., to the city to aid in patrol and cleanup duty. They were added by naval and Air Force reservists, members of the Finley Air Force Base in Fargo and state police.

### Reck Will Take Over As Rotary President Monday

Sanford Rotarians, at their regular weekly meeting Monday night at the Yacht Club, will witness the transfer of the reins of authority from the hand of outgoing president Dr. Charles L. Persons to the hand of incoming president Myron A. (Mike) Reck, who will guide the destinies of the local business and professional men's club for the year 1957-58. Persons will tell of some of the accomplishments of his administration during the past year and receive from a former president of the club yet to be designated, the customary past-president's pin. Mike Reck will then take over the handling of the program, announce his committees and introduce Rotarian Henry A. Simpson who was the club's delegate to Rotary's International Convention held early this month in Lucerne, Switzerland, to give a report on the visit which he and his wife made to Europe.

A contract for this work was executed with Langston Construction Company of Orlando, who was the apparent low bidder when the project was let on May 16. Langston Construction Company began construction work on the highway Wednesday. Work on this project is scheduled to take 183 working days for completion, and consists of grading and paving from McIlwain Ave. in Sanford east to Lake Jessup Bridge.

### County Road Projects To Get Underway Soon

The State Road Department today announced beginning dates for two road projects in Seminole County totaling nearly a million dollars. Both projects are on main arteries into Sanford. The SRD's Information and Research section stated that work is scheduled to begin by June 26 on the \$508,319 construction project on State Roads 15 and 60 (U. S. 17-92) in Seminole County. A contract for this work was executed with Hubbard Construction Company of Orlando, who was the apparent low bidder when the project was let on May 16 in Jacksonville. Work on this project is scheduled to take 183 working days for completion, and consists of grading and paving from French Ave. at the south city limits, southwesterly for approximately 2300 miles. At the same time the State Road Department reported that work is scheduled to begin by July 3 on a \$337,089 construction project on State Road 46 in Seminole County. A contract for this work was executed with Langston Construction Company of Orlando, who was the apparent low bidder when the project was let on May 16. Langston Construction Company began construction work on the highway Wednesday. Work on this project is scheduled to take 183 working days for completion, and consists of grading and paving from McIlwain Ave. in Sanford east to Lake Jessup Bridge.

### Jaycees Hear Top Legislature Events

The Seminole County delegation reported to the Seminole County Junior Chamber of Commerce on the "1957 session of the Legislature" at its noon luncheon meeting yesterday held at the Yacht Club. Before a record attendance of Jaycees Senator Douglas Stenstrom, Representative Mack N. Cleveland Jr., and Representative Gordon V. Frederick told of the important events occurring with the 68 days of the session. Senator Stenstrom said "Everybody agrees it was one of the most difficult sessions we've ever had in Florida. It is almost impossible to tell you what happened in those 68 days," said Senator Stenstrom, and he added "the people of our State will find some things which will benefit our state—it was not all good or all bad." Speaking on the appropriation, Senator Stenstrom commented that Florida's growth has been fabulous—but when the appropriation committee came in with an increase from 412 to 604 million, I believe that it was far more than the taxpayers could handle. "I still feel that the appropriation bill was too high and I am glad that it could have been cut," he said. On the teacher pay raise bill Senator Stenstrom told the Jaycees that "We can provide keepers for our classrooms, but to provide teachers is another problem. When you compare our teacher pay raise bill with the \$200 Georgia gave their teachers and \$300 Texas gave theirs—Florida took a great step forward." Senator Stenstrom praised Representative Gordon Frederick when he said "in his first session brought honor and prestige to his country."

### Reck Will Take Over As Rotary President Monday

Sanford Rotarians, at their regular weekly meeting Monday night at the Yacht Club, will witness the transfer of the reins of authority from the hand of outgoing president Dr. Charles L. Persons to the hand of incoming president Myron A. (Mike) Reck, who will guide the destinies of the local business and professional men's club for the year 1957-58. Persons will tell of some of the accomplishments of his administration during the past year and receive from a former president of the club yet to be designated, the customary past-president's pin. Mike Reck will then take over the handling of the program, announce his committees and introduce Rotarian Henry A. Simpson who was the club's delegate to Rotary's International Convention held early this month in Lucerne, Switzerland, to give a report on the visit which he and his wife made to Europe.

## Now Hear This!

JACKY FENWICK

Don't forget the Air Station Theatre now runs a special Saturday morning show for the "kids". All cartoons, etc. From now on, 10:00 a.m. on Saturday mornings will be "Kiddie Time" at the movies!! There will be the small charge of \$10 for children over twelve years of age. And for those under twelve it's only \$2.50!!

We played cards at Doris Shortland's house last night! (See... didn't forget this time!) Eight of us made it this week, so we played partners, and it got down to a plain and "rough" duel between Rosemary Finnegan and Doris, and Chris Riker and yours truly, for high score, with Rosemary and Doris emerging the winners! (But we sure made them work for it!) Also attending were Jimi Gold, Adele Heitman, Betty O'Conner, and Joyce Williams. Jimi and Adele won low score prizes. Doris served potatoes chips, cokes, coffee and doughnuts. We all stuffed ourselves, as usual, and the "duel of the card game" went on for lots longer than any of us expected it to!

Good thing there was a softball game downtown! Kept several of our husbands occupied for part of the evening at least.

Adele Heitman is expected her husband momentarily, from duty in Iceland. They have orders to Edwards Air Force Base in California, and though I'm not sure exactly when they'll be leaving, I don't imagine it's too far off. Keeping Adele company until Charles arrives are his aunt and uncle, Mr. and Mrs. Frank Parker of O'Fallon, Missouri. The Parker's are moving here to Sanford to settle permanently, and I for one can assure them they'll really like it.

Irene Dulek didn't make it to the card game because she too has out-of-town company staying with her. Wilbur's sister and brother-in-law, Mr. and Mrs. Leland Lohsle, and their eleven-year-old daughter, Carol, arrived here from Chippewa Falls, Wisconsin. They made a stop in Indiana on the way down, and plan to stop in Ohio, Chicago, and Milwaukee on their return trip. They plan to spend about a week with the Dulek's.

## Health Hints

By DR. A. W. WOODALL  
FIRST AID IN AILMENTS DUE TO HEAT

First aid is treatment to be given immediately in case of accident or sudden illness, before the services of a doctor can be obtained. The purpose of this health article is to discuss some of the more common summertime illnesses and accidents that require first aid treatment. The prompt application of correct first aid care has the effect of making the patient more comfortable, improving his physical condition, and possibly saving his life.

There are a number of general rules of first aid. First, in case of accident or sudden illness, keep the patient lying down. Persons untrained in first aid nearly always make the mistake of trying to get the patient to sit up or even to stand. The head may be slightly raised if the face is flushed or it may be turned to one side in case of vomiting, but the patient must be kept lying down.

Another rule of first aid is to keep cool. An excited patient is almost sure to make mistakes. Another thing to remember is never to give an unconscious person any liquid whatever. He is likely to strangle from the liquid getting into his windpipe. You can determine whether a patient is unconscious by will probably talk to you.

A summertime ailment requiring first aid treatment is sunstroke or heat stroke. Sunstroke results from direct exposure to the sun's rays, while heat stroke results from excessive indoor heat. In both conditions the symptoms are the same—first dizziness and a pain in the head, flushed face and dryness of skin and mouth, rapid and full pulse and a high temperature. In severe cases the patient becomes unconscious. About 25 per cent of cases admitted to hospitals die.

First aid care for these cases is to remove them to cool shade, if possible. Remove clothing and reduce temperature by applying cold wet cloths or an ice bag to the head, and by wrapping the body in a sheet and pouring on cold water or by giving a cool bath lasting for 15 to 20 minutes, with brisk rubbing of the trunk and limbs to improve circulation. Do not give stimulants of any kind. The patient should be kept lying on his back with head and shoulders slightly elevated.

Heat exhaustion (Prostration) is also due to excessive heat, outdoors or indoors. In this ailment the symptoms are almost opposite of those of sunstroke or heat stroke. Heat prostration usually begins with nausea and vomiting. The face is pale, the skin moist and cool and sweating is profuse. The pulse is weak, temperature is low, the patient is faint and seldom remains unconscious for more than a few minutes. The breathing is shallow; the patient becomes cold; and there is great prostration and weakness.

To give first aid treatment in case of heat prostration, remove patient to a place with cool, circulating air. Keep the patient lying down with head level or low. Also give salt, for there is usually a salt deficiency in this condition.

Heat cramps sometimes attack workers employed in shops where the temperature is very high. The cramps are usually in the muscles of abdomen and the limbs. The pain is severe. Heat cramps may or may not be accompanied by the symptoms of heat prostration. The treatment is the same for heat prostration.

Firm pressure with the hands on muscles of the limbs will often give relief.

THE U.S. ARMY INTRODUCES its Raytheon Hawk, a guided missile designed to bolster the nation's guard against enemy sneak attacks. Three Hawks are ready for launching (left) after which they detect and seek out low flyers in the blind zone of conventional radar. At right, a cloud of smoke is stirred up as the slender 16-foot newest Army missile is shown taking off on its deadly mission.

THIS IMPORTED GRAY WOOL STREET DRESS is from the spring collection by Call Chapman. The slim walking skirt is softly twisted into a neat waistline. The neckline of the fitted bodice is formed by a soft folded drape.

### Higher Prices For Hogs Predicted

WASHINGTON UP —The Agriculture Department has predicted that farmers will get higher prices for hogs this summer than at any time in the past three years, but that prices will drop sharply in the fall.

In a report on the outlook for livestock, the department also forecast that retail pork prices will be higher this year than last until close to the end of the year.

It said retail prices of choice beef now above a year ago, may continue high for a few months more.

The department forecast total consumption of meat in this country in 1937 at an average of 133 pounds per person, 8 pounds less than the record 167 pounds per person in 1934.

**Pork Will Drop**

It said the usual fall hog price decline will be greater this year than usual and by December prices may be somewhat under those of a year ago. However, December prices will be well above the low of December 1935, it added.

Farm prices of all meat animals have improved significantly.

the department said. Some of the gains are seasonal, but long as the demand for meat stays strong, prices are expected to continue above depressed levels of the last two years."

The department said the break in the Southwest drought coupled with reduced cattle and hog inventories are contributing to higher livestock prices. Prices of stocker cattle, already on the up-trend, increased more rapidly as ranges improved and in early May were \$3 a hundredweight above a year earlier.

Prices of stocker and feeder cattle are expected to pass a spring peak and then decline seasonally.

**Cattle Numerous**

On April 1 there were 4 per cent more cattle on feed than a year before. Slaughter of fed cattle will stay large the rest of 1937, but because fewer grass cattle will go to slaughter, total slaughter probably will average lower than last year during the rest of the year.

Hog prices probably will be seasonally highest from mid-June to mid-August. The above-average

hog-corn price ratio this spring probably will result in more farrowings this fall.

If the increase is held to the neighborhood of 4 to 6 per cent, declines in prices next winter would not be severe. A greater production increase would risk a more serious winter price break.

Higher lamb prices reflect reduced slaughter of sheep and lambs and price strength in other meat animals. Seasonal declines are likely this summer, but it is possible prices will continue to average a little higher than last year.

**MAN COMBING DOG FOR NEW TALENT**

LONG BEACH, Calif. —The owner of an amusement park show was combing his dog for new talent today.

His 20 star performers collapsed and died Tuesday of heat prostration while running a merry-go-round and competing in a chariot race in 100-degree weather. The victims were members of a flea circus.

### Forestry News

By ALBERT LUNDAY  
FLORIDA FOREST SERVICE

It is time now to start making application for pine tree seedlings to plant this winter. Many people are ordering the fast-growing Slash Pine seedlings to plant their idle acres. They will control erosion, help control the water table, provide income, and put idle land into productivity.

With the scarcity of wood increasing pine tree farming becomes more and more profitable. Seedlings can be purchased from the Florida State Nurseries for \$4.35 per thousand will plant a little better than an acre of Also Florida Red Cedar can be purchased for \$8.35 per thousand and delivered. These make excellent Christmas trees and fence posts. For more information contact your Farm Forester.

## Expert Planning Needed So County Can Become Aggressive, Progressive

Why does Seminole County have to be one of the backward counties of the State? We've tried to find the answer, and the pointer ends at the same place every time.

Seminole County is seventeenth in the State of Florida in population. It is toward the top.

But—in receipts, according to the Comptroller's figures for October 1955, Seminole County is 49th in receipts and 54th in expenditures. The county's failure to be aggressive and turn its assets into revenue producing land has repeatedly held county-wide progress at a standstill.

Furthermore, according to the Comptroller's report, the City of Sanford produces three-fourths of the revenue for the county.

There is no reason that this condition should exist. For instance, a county with four thousand less population than Seminole has more than double the revenue on which to operate. Sarasota County in the same report which was checked, had receipts of \$1,357,621.08, while Seminole County's receipts were \$681,717.89.

The blame isn't going to be shoved onto the annual gripe "Seminole County is an agricultural area." Certainly it is! And we should be proud that its agriculture is bringing thousands of dollars to those who depend on the land for their livelihood.

Herbert Behrens, for instance, and his prize crop of bell peppers! The greatest yield yet to be found in the annals of Agriculture Department reports!

The Sanford State Farmers Market is showing hundreds of thousands of dollars coming into Sanford from farm raised produce, and a new market is coming into being to take care of the growth and demand there!

The incident of last Tuesday's board of Seminole County Commissioners meeting is one of the answers. When the board, because of a "nay" vote from three of its members failed to place vacant, idle, unsightly, non-producing land up for public sale, showed another step backward.

Revenues of Seminole County would have increased because of the sale value of unusable land by at least \$4,000 per year in addition to an initial sale value upward of \$40,000.

Because of political expediency, because of the lack of facts or not wanting the facts, both Sanford and Seminole County were held back in the "backward" group of counties

in the State. The eleven lots in question, now owned by the county, and even a bigger share of the property in that area, should be packed with business houses. There could be a bank, an office building, insurance company headquarters, or some of the hundreds of commercial establishments easily located there, investing in Sanford and Seminole County with an ever growing revenue from the property.

We're not mad at anybody—but we'd like to see our elected representatives acting in the interest of the people of Seminole County and not in the interest of a few selfish individuals who would like to hold the county back by the reins and dare it to progress.

A terrible excuse has been used to prevent the sale of this valuable property now standing idle. It was "We might want to build a courthouse there some day—just as soon as we get the money."

Where's the money coming from?—at least a million dollars for a courthouse to cover all of the property sprawling from the present courthouse site down to the lakefront!

One commissioner dared suggest that "we start a fund" and save enough toward building it—and the county right now not able to invest a few thousand dollars in radio equipment it badly needs—or equipment to take care of decaying roads throughout the county!

The best suggestion was, when one person stated, that the present courthouse would be good for the next 50 years at the rate we're progressing today!

It's a sad figure to report when a county—17th in population among the 67 counties of the state—has to be 54th in expenditures and 49th in receipts.

It's time for Seminole County to become aggressive and progressive! It's time for expert planning! Put Seminole County on a business-like basis and turn its dead assets into revenue producing assets!

A large piece of land is fine for grazing and raising hay—but in the middle of a city there's no income from it unless it is put to use!

The Board of Seminole County Commissioners can do itself proud by calling a special session immediately in order to reverse itself on the vote taken last Tuesday relative to the sale of the eleven lots on Park Avenue adjacent to the courthouse!

## Jaycees Have Big Plans For City

The Seminole County Junior Chamber of Commerce has started off its new year in high gear!

Already in the planning stage is a

## Foreign News Commentary

By CHARLES M. McCANN  
United Press Staff Correspondent  
President Gamal Abdel Nasser of Egypt may soon lose his sole remaining ally in the Arab world.

Four of Egypt's eight fellow members of the Arab League are now openly opposed to his pro-Russian, anti-Western policy and are pretty solidly lined up with the Western Allies.

Three others are doing nothing to help Nasser in his steadily developing isolation.

This leaves only Syria in support of Nasser. And diplomatic reports from Middle Eastern capitals say that a political blow-up which would unseat that country's leftist government may come at any time.

A challenge to President Shukri al-Kuwatli and Premier Sabri al-Ahali by conservative, pro-Western politicians and business leaders has been increasing in strength for weeks.

Sixty-two opposition members of Parliament have offered their resignations in protest against the government's pro-Nasser policy.

It was the Suez Canal crisis which seemed to be such a big victory for Nasser, that started him on the way to isolation.

Nasser's victory, it developed, hurt the most important of his fellow members of the Arab League.

Revenues of oil-producing Saudi Arabia and Iraq fell alarmingly. Lebanon, Jordan and Syria suffered severe economic losses.

This has had a great deal to do with the challenge to the Syrian leftist regime.

As has been said frequently, the visit of King Saud of Saudi Arabia, to President Eisenhower last January convinced him that

cooperation with the United States was desirable.

Then came the victory of young King Hussein of Jordan over the pro-Nasser enemies who, with Egyptian and Syrian complicity, tried to overthrow him.

In view of the threat to the Syrian leftist, Nasser must feel that he is a lonely man.

MR. AND MRS. EVERETT A. HARPER

## Patricia Brown, Everett Harper United In Home Wedding

Miss Patricia Ann Brown and Everett A. Harper were married in an impressive home wedding Saturday June 19, at the home of her aunt Mrs. W. M. Brown, 20th and Melrose.

She is the daughter of Mr. and Mrs. T. V. Brown, 2047 Washington Ave. of this city and the groom is the son of Mr. and Mrs. H. R. Harper of West Palm Beach.

The candlelight, double-ring ceremony was performed by the Rev. S. L. Whalley. The couple exchanged vows before an arch of fern and pink roses. Arrangements of gladioli and fern were in the background along with candelabra which were placed on the piano holding white burning tapers.

Mrs. Ed Mossman, pianist, accompanied the Rev. Robert Spear Jr., who sang "I Love You Truly" and "Rebecca".

The bride, given in marriage by her father, was lovely in a gown of the traditional white net over tulle, trimmed in lace. The dress featured a high neck with self-covered buttons extending to the waist. It had three-quarter length sleeves and she wore finger-tipped gloves. The short veil fell from a headpiece of tulle. She carried a white Bible topped with a white orchid.

Miss Jeanette Brown, sister of the bride, was maid of honor and Miss Jeanette Kinlaw, bridesmaid. They were dressed in identical gowns of blue net over tulle.

Vernon Brown, brother of the bride, served as best man while Ray McLeary acted as an usher.

For her daughter's wedding, Mrs. Brown chose a tulle and lace dress with black accessories and lavender orchid corsage.

Mrs. Harper wore a lavender flowered chiffon dress complemented with white accessories and a lavender orchid corsage.

A reception was held immediately following the ceremony on the porch of the Brown home. The table covered with a white lace embroidered cloth was centered with a punch bowl surrounded by fern and pink roses. The couple cut a three-tiered wedding cake topped with a bride and groom.

## B.P.W. Held Meet Wednesday June 19

The Sanford and Professional Women's Club held its regular dinner meeting June 19 at the Yacht Club with Mrs. Myrtle Gradik, president presiding. The tables were decorated with ferns, gold plaques, gold keys, folders and programs brought back from the state convention by the six delegates. The keys had small tags with the words "YOU HOLD THE KEY" which symbolized that each member holds her own key to success and opportunity.

The program was under the direction of Mrs. Betty Baker who introduced Judge Ernest Housholder as guest speaker. Judge Housholder spoke on the need for a place, other than the City and county jails, to detain the children of Seminole County who need the help and guidance of the Juvenile Court. Judge Housholder told of the effect the environment of the jails have on our children who have to be detained there and that this environment is the very thing we are trying to get away from. Judge Housholder told the B.P.W. Club his ideas and plans which he plans to submit to the County Commissioners at a later date. The speech was thoroughly enjoyed by every member and the club was unanimous in its approval of Judge Housholder's plans.

Guest for the evening were Judge and Mrs. Ernest Housholder, Mrs. Christine Ailing and Mrs. Sidney Fowler of Lake Mary; Mrs. Martin Friszel of Muskogee, Mich. and Mrs. Eva Brumder of Chattanooga, Tenn.

After the dinner a short business meeting was held. Short reports were given on the State Convention by Mrs. Myrtle Gradik, President, Mrs. Betty Baker, Mrs. Arlin True, Mrs. Harriett Sawyer and Mrs. Esther Evans.

## St. Luke's Guild Holds Monthly Session Monday

SLAVIA—The St. Luke's Missionary Guild held its monthly business meeting last Monday evening at the school auditorium. The meeting opened with prayer by the president, Mrs. E. Bellhorn. The Educational Topic was given by Mrs. Pauline Arndt on the Bible story of Jarirus' Daughter. Committee reports were given by Mrs. Ethel Mikler, card and gift, Mrs. F. Duda, activities.

A report was given on the meeting held at Trinity Lutheran Church in Orlando attended by several members. A Prayer Project for the Guild is under consideration. Mrs. Virginia Mikler reported and will be started on next month, that the Haven Residents she took for an outing to Tupperware Industries was enjoyed by all. Mrs. Virginia Bellhorn volunteered to take the residents for an outing next month. Mrs. Gertrude Lukas and Mrs. Virginia Mikler will take their turn as greeters for next month.

## 'Come As You Are' Party Given Last Thursday Evening

SLAVIA—The home of Mrs. F. Duda was the scene of a "Come As You Are" Party held last Thursday evening. Members of St. Luke's Missionary Guild were picked up at their respective homes without advance notice. Games were played including a very cleverly arranged treasure hunt.

Refreshments were served by the committee which included: Mrs. F. Duda, Mrs. Joe L. Mikler, Mrs. J. Colbert, Mrs. J. Duda Jr. and Miss Marian Stanke.

Members who enjoyed the very informal party were: Mrs. J. Arndt, Mrs. Hilgard Johnson, Mrs. P. Lukas, Mrs. D. Lukas, Mrs. H. Weber, Mrs. A. Mikler, Mrs. N. Mikler, Mrs. George Jakubec Jr., Mrs. J. King, Mrs. A. Sobek, Mrs. Ann Rook, Mrs. Eleanor Barnick and Mrs. E. Bellhorn.

## Dorcas Class Met With Mrs. J. Hobby

The Dorcas Class of the First Baptist church met Tuesday evening at the home of Mrs. J. L. Hobby, 2101 Cordova Dr., with Mrs. Clyde Humphrey, Mrs. Charles Benham, and Mrs. R. A. Cohen as co-hostesses.

Mrs. Hobby presided over the business session and reports were given by the secretary and treasurer. Mrs. Clyde Humphrey presented the devotional and Mrs. W. D. Gardiner led the class in prayer.

Following the business session an interesting game was enjoyed under the direction of Mrs. W. J. Crabtree. Mrs. J. E. Andrews was awarded a prize for winning the game.

A social hour was enjoyed and refreshments were served by the hostesses in the following: Mrs. E. C. Campbell, Mrs. Clyde Humphrey, Mrs. John Cullum, Mrs. W. I. Crabtree, Mrs. J. E. Andrews, Mrs. R. A. Cohen, Mrs. J. L. Hobby, Mrs. H. J. Finch, Mrs. E. E. Cash, Mrs. W. D. Gardiner, Mrs. Charles Benham and Mrs. M. T. Haynes.

## Personals

Mr. and Mrs. Billy B. Labree and family have returned to their home in Longwood, after a seven year absence, during which he lived in Loves Park, Ill. Mr. Labree owned and operated a plumbing business in Ill. and plans to start his own shop in Longwood in the near future.

Mrs. C. N. Ryerson and daughters, Cordelia and Carole of Hadonfield N. J. and Duncan McRay III, of St. Augustine are visiting with Mr. and Mrs. George A. Marfert and Mr. and Mrs. C. W. Hamill Sr.

Mr. and Mrs. Joseph Galletta arrived Sunday from New York City to spend a few days with their son and daughter-in-law, Mr. and Mrs. Bart Galletta. Miss Ray Galletta, a sister of Bart Galletta all spent the last two weeks in May with them.

Mr. and Mrs. Turner Lodge had as their guests for a few days, Mrs. Lodge's sister and grand-daughter-in-law, Mr. and Mrs. Deal Jordan and Mr. and Mrs. W. E. Jones from Americus, Ga.

Mrs. Gertrude Gilbert, Finance Officer for the Seminole County Board of Public Instruction, is attending a State Conference of School Finance Officers in Miami this week.

PLANNING A DREAM HOUSE is an outlet for many ambitions, according to this trio in the Florida State University Arts and Crafts Summer Camp for high school students, June 9 to 22. Left to right, are Mary Page Andrews of Tallahassee, Emma Rumbly of Sanford, FSU graduate student who is an instructor in the camp, and Mary Jo Winter of Tallahassee. (Photo by Bergstrom)

## Elder Springs Chapel Started Vacation Bible School Monday

Monday morning marked the beginning of two weeks of Vacation Bible School at Elder Springs Baptist Chapel. There was an enrollment of seventy-nine the first day, and by Wednesday the enrollment had climbed to one hundred and five. Tuesday's attendance was ninety-six and Wednesday's was ninety-one.

There are departments for all ages from nursery through intermediate ages.

The boys and girls spend three hours each day beginning at 9 a. m. in Bible study, story time, missionary study, handicraft, music and other activities.

Mrs. D. E. Carpenter is Supt. of the Nursery Dept. and has Miss Ann Jett as her helper.

Mrs. C. C. Hannah is Supt. of the Beginner Dept. Her teachers and helpers are Mrs. Melba Long, Mrs. Walter Gay, Miss Lynn Crabtree, Miss Carol Cleveland, Miss Betty Ann Slaton, and Mrs. John Griffin.

Mrs. Vance Duke is Supt. of the Primary Dept. and her helpers and teachers are Mrs. Milton Han-

## Mrs. R. Schmidt Entertains Joy-Ruth Class

The June meeting of the Joy Ruth Class of the First Baptist Church was called to order by the president, Mrs. Robert Schmidt. A devotional entitled "Joseph and His Brothers" was followed by sentence prayers.

The group leaders, Mrs. Vernon Hardin, Mrs. Otto Thomas, and Mrs. William Johns Jr. gave a report on members of the class. A list of prospects were given and plans to contact them and the absentees were made.

It was called to the attention of those present that the class does not give baby showers. Each new mother receives instead, a potted plant and the Young Married Dept. gives an engraved white Bible to the newborn baby.

Mrs. Vernon Hardin read a letter from the Baptist Children's Home in Lakeland.

Games and refreshments followed the adjournment of the meeting. Mrs. Dan Batten and Mrs. Herman Swaggerty served as co-hostesses at the home of I. E. Batten on Valencia Drive.

Members attending were: Mrs. Roger Schmidt, Mrs. Vernon Hardin, Mrs. Ralph Betts, Mrs. Ronald Humes, Mrs. R. B. Wilken Jr., Mrs. Gerald Covington, Mrs. Otto Thomas, Mrs. Floyd E. Kelly, Mrs. Duell Chinn, Mrs. Nina Hardy, Mrs. Hugh Patrick, Mrs. William Johns Jr., Mrs. W. L. Gramkow, Mrs. Dan Batten, and Mrs. A. J. Peterson.

CARDIGAN COAT is in beige-brown tones of imported silk tweed, from Harry Fischel's spring collection. The unbroken line from neck to hem is relieved by deep patch pockets. A wrap that will be found useful right through the summer, especially for outdoor concerts or plays.

"Not That Old Joke Again"

It's no joke that one out of every five people in the U. S. are walking around with a disease—and don't know it. Have you had a medical check-up this year?

A GAME OF GOLF—President Eisenhower (right) throws his hands up in mock horror after he had learned that he had erred in telling Japanese Prime Minister Nobusuke Kishi that Sen. Prescott Bush was a Harvard man. Sen. Bush, a Connecticut Republican, (all man in shorts) is a Yale man. Prime Minister Kishi and President Eisenhower played around of golf at Washington's Burning Tree Country Club. The Japanese head of state is shown at left ready to drive. (UP Telephone)

## Semi-Pro Team Will Move Home Games To Orlando's Tinker Field

### Robson Edges Burpee 11-9

The Sanford City Softball League finished their first week of action last night with a wide-open, free-scoring game that ended with Robson Sporting Goods edging Burpee Seed Co. 11-9.

Excitement mixed with a touch of irony was the feature last night as Burpee batters rattled Robson Sporting Goods pitcher J. Jowers for 13 hits for the game yet fell before the six hit effort of Robson.

Lennie Bates tossed the six hitter for Burpee and had little support in the field that meant the difference. Seven errors turned to cost the Seedsters the price of victory as Robson sailed through the game with eight and still won.

### Thanks

My dear Mr. Ansley: I am writing this letter to you thanking you for obtaining those cuts for us which we asked in the printing of our new stationery. They fit in with the theme of our club perfectly. We also want to thank you for the many articles that you have written which have been very informative and helped to publicize our organization. Sincerely yours, J. Leon Taylor, Sec.-Treas. Sanford Boat and Ski Club

### REMODELING

Call

## GRIGORY LUMBER

6th And Maple Sanford — FA 2-0500

The Sanford Semi-Pro, unable to draw a crowd on their home fields, will move all but two of their home games to Orlando's Tinker Field for the second half of the schedule beginning tonight when they play host to the power of the Central Florida Semi-Pro Baseball League, Longwood. The Longwood team, supported

in the main by the Holms clan, has been a traditional power in the Central Florida League, and shows no signs of letting up with Dalton Helms now managing the team.

The two fastest rising powers in the League, Casselberry and Sanford, will have to topple both Pinecastle and Longwood to get the go ahead signal for the remainder of the second half, while Oviedo and Clermont are both looking for their first win and hoping each will crack the ice in make up games against the number one teams.

Over the weekend Longwood must make up a rained out game with Oviedo, and that game is scheduled for Saturday afternoon, and Pinecastle must make up a game with Clermont. The latter game is scheduled for Sunday.

Game time for the Sanford-Longwood game in Orlando's Tinker Field is 7:30 p.m. tonight.

### Legion Team Is Downed By Strong Ocala Nine 7-2

The Sanford American Legion baseball team took its second loss in row in as many games this season as they fell before powerful Ocala 7 on Field 1 of the New York Glanis Training Base.

For the first five innings the Sanford team held the powerful district 4 visitors to 21, but steady Ken McMurray found a powerful line of hitters that made their toll in the final frames of play.

### Stobbs Will Try To Break Losing Streak Tonight

WASHINGTON — All of Washington will dig up good luck charms tonight when the Senators' hard luck left hander, Chuck Stobbs, will attempt to break his 14-game losing streak extending over two seasons, against the Cleveland Indians.

The whole thing started as a gag when the Washington publicity department decided to give out a rabbit's foot to each of them, the thing has snowballed the first 1,000 cash clients. Since then, charms, amulets, voodoo drums, four-leaf clovers, lucky coins and medals.

## Today's Sport Parade

By OSCAR FRALEY United Press Sports Writer NEW YORK — The great mermaid and annihilated by an American pastime has passed into limbo, crushed by a cum-sacot.

From now on, gentlemen, Emily Post is destined to become more important in the hit-runs and errors industry than the immortal ghost of General Abner Doubleday. Because the days when you went to the ball game in your shirt sleeves or deader than the Washington Senators.

They are at least, if you plan to go to Yankee Stadium. Daniel Reed Topping, social and scientific leader of the Bronx 400, made this clear with an edict aimed at the carriage air-conditioned saloon known as the Stadium Club. Henceforth, jackets will be de rigueur and those without them, fittingly, will be given the bum's rush.

No Hardship Cases. D.T., the tin plate heir with the silver spoon, even refused to consider sportswriters as a hardship case. So they only have one summer sports jacket. On days when it's in the cleaners they must not even use the corridors in the vicinity of the club.

There is a suspicion here that Topping, who hereafter must rank as the Sherman Billingsley of the Bronx, has hidden reasons in addition to making a saloon out of a saloon.

For years, the rest of the American League has been screaming "Break up the Yankees." It being the only major league team with a major league farm club, this is a difficult assignment. So Dan's possibly has decided to take matter into his own hands on the social level.

This, of course, jeopardizes most of the members of the ball club and they immediately become trade bait.

Zine Miner's Son Mickey Mantle, now, is the son of a sine miner. Heavens to Betsy, Bollingworth, we just can't keep him!

Yogi Berra's pater worked in a St. Louis brickyard. What will Elia think of that? Bob Grim's most immediate ancestor is, horrors, the owner of a not very rich bistro in, of all places, Brooklyn.

Hank Bauer has got to go. The man is a steam-fitter, whatever that is, in the off-season. Meanwhile, D.T. and his brain trust have a more pressing problem. The question, Morgastroyd,

CHAMPE PART AND PRESENT—A trio of former Southern Amateur golf champions watch closely as defending champ Arnold Blum, Macon, Ga., sharpens up his putting technique as they prepare to start the match play over Miami Beach's La Gorce course. The former champions are (from left) Toumy Barnes of Atlanta, Dick Chapman of Southern Pines, N. C., and Charley Harrison of Atlanta. (UP Telephone)

### FSU Umpires Will 'Change Partners' In Second Half

ORLANDO—Florida State League umpires will "change partners" when the second half of the season opens with games on Saturday night at Tampa, Orlando, Daytona, and Palatka, it was announced at league headquarters here today.

One pair of rookie umpires will be divided between two veterans in that Rookie Bob Estill will work with veteran Aubine Batts, and rookie Ed Holly will be paired with veteran Charlie Silverstein.

In addition, the veteran Lou Isert will be teamed with rookie George Kennedy, and rookies Bob Matine and Harry Grimmer will be paired.

Explaining the change, league executive secretary Pete Schaal said that "while our league is said to have the best umpiring staff in Class D baseball this year, we want to make it even better, if possible. Batts, Isert, and Silverstein should be able to give most valuable pointers to new-comers Estill, Holly, and Kennedy. Matthews and Grimmer have proved themselves, too, and should work extremely well together."

Schaal indicated there would be no change in the new pairings unless it was determined that it was necessary to wear white ties and tails to night games.

Announcing THE SENSATIONAL GERMAN AUTO UNION DKW 3-6

Mighty Mite of the Automobile World

Top contender in the light car field, fast and economical, and roomy enough for the entire family.

All DKW cars have frontwheel drive. This technical feature — acknowledged by automobile experts the world over — means that the car is pulled and not pushed. The front wheels pull the car through bends and corners and keep the DKW always in its track, even on wet, slippery roads, with absolute safety.

Other important safety features: the DKW floating axle which prevents the coach work from slanting on sharp bends, the low center of gravity, the rack and pinion steering, and the soft but extremely powerful hydraulic Duplex brakes.

Delivered Price \$1995 for 2-DOOR SEDAN

Quick Steering Adjustable Driver's Seat  
Peppy Power Weight 2,000 Pounds  
Four Forward Speeds 3-Cylinder, 2-Stroke engine  
Free Wheeling Five Passenger Capacity  
Unit Body Construction 38 Miles Per Gallon

TESTS PROVED the DKW averaged 87.75 miles per hour over the 6,225 course on Italy's famous Monza track.

THE BRITISH AIRCRAFT CARRIER Ark Royal passes and Secretary of Defense Charles E. Wilson aboard in review at Norfolk, Va., as 114 fighting vessels of the guided missile ship U.S.S. Canberra. At right, Capt. Fred J. Fitzmaurice, Soviet naval attaché, is shown aboard the Canberra. The review was part of a show over held in the United States. Among scores of onlookers were Adm. Jerrold Wright (bottom, left), Commander in Chief of the Atlantic Fleet, and Fleet Week and the 350th anniversary of the setting of Jamestown, Virginia. (International)

THE NEWEST SURFACE-TO-AIR guided missile, the Army's Hawk, blasts off from its launcher in a demonstration of the protection offered to large cities against attack by low-flying aircraft. The Raytheon Hawk will be used at altitudes under 3,500 feet, which rules out an atomic warhead. The Army is reportedly ready to build installations in both New York and Washington. (International)

## Court Again Buying Into Dispute

By LYLE C. WILSON  
United Press Staff Correspondent  
WASHINGTON — Twenty years have passed and the U. S. Supreme Court again is buying into a bitter controversy with another branch of the government.

Moreover, the court is remodeling the social contours of the United States and starting dynamically new ground rules for the conduct of big business.

On its present course, the court is headed for controversy with both branches of the U. S. government—the executive and the legislative. The controversy with Congress was well joined this week in decisions stalling abrupt limits on the conduct and authority of congressional committees.

Still More Controversy  
The controversy with the executive is just around the corner. In its decisions Monday the court bore down hard on the rights of individuals and against the authority of congressional committees and government prosecutors. It ruled that congressional committees, on demand, must tell witnesses that the questions it asks are pertinent to specific purposes and must specify the purpose. It did so in throwing out a contempt conviction against Illinois union leader John T. Wadkins, who had refused to name persons he had known in the Communist movement.

Far from all congressmen will object to that ruling and many will applaud it. There is a hard core of senators and representatives, however, closely identified with and well informed about the effort to expose Communism in the United States already are flowing.

The controversy with the executive is headed for the high court in the case of William S. Girard, the U. S. soldier who was ordered turned over to the Japanese government for trial on charges of shooting and killing a Japanese woman. The Constitution says U. S. citizens are entitled to a trial by certain stipulated processes.

Federal Judge Joseph C. McGarraghy may have taken due note of this week's Supreme Court urgency to protect the rights of individuals in the area of Communism. However that may be, he ruled here Tuesday in defense of Girard's rights as an American citizen. Called "Constitutional Violation," the threatened action to permit the Japanese to try Girard is illegal and in violation of the Constitution and laws of the United States," McGarraghy said in his order forbidding the government to deliver the soldier to the Japanese.

That case will go to the Supreme Court where, on the basis of the record to date, the justices will rule against President Eisenhower and the State and Defense Departments who would permit the Japanese to try Girard.

That should arouse the administration considerably in view of the fact that the trial of Girard by a Japanese court evidently has become a major issue of foreign policy bearing on U. S. relations with the Asiatic nations. The Girard case is a sensitive nerve end of American diplomacy, presumably much in the President's mind.

We can repair that novelty electric clock for you. Or any electric clock. Only new, genuine parts used. Estimates cheerfully given. All work guaranteed.

## Conning The News

By VIRGINIA CONN

John and Dodie King stopped to see Mary and Bill Emerson, late of VAH-5, in Falls Church, Virginia. Dodie reports that the Emersons have a beautiful home and are very happy. Not that I could say anything else, but it's a fact.

Lou and Joan Fellini are the proud new parents of a baby boy, born at the Semmes Memorial Hospital yesterday morning. Joan went on Monday, and Lou was a shadow of his former self. Tuesday night several Grove Manor neighbors watched Polly Brubaker's night blooming cereus do its stuff. This is a beautiful flower with a scent like vanilla. Hear that it closes up at four-thirty in the morning.

The HATU luncheon was held at the Mayfair Country Club Thursday afternoon. Chicken salad was the piece de resistance, and the table was decorated with red hibiscus and trailing English ivy. This last flourish in Lab Cleveland's garden. Hostesses were Lab and Mable Barlow. Cooling off on the hill were Mac Edwards, Lucy Gay, Helen Griffin, Anita Hadden, Betty McClane, Treta Michel, Ruth Norwell, and her sister, Louisa Stubb, Pankin O'Dea, Jeanne McGuire, Polly Savage, Virginia Shaffer, Jean Kahlo, Amy Haber, and Edith Woodruff.

The VAH-5 bridge club met at Betty Linker's this week. Betty served sandwiches and cold drinks. Attending were Betty McCracken, Betty Lemons, Sonja Blackwood, Ethel Fitzsimmons, Hazel Rowell, Ruth Tully, Millie Donaud, Betty Guy, Barbara Jacobsen, Jean Filton, and Marge Hill. Jean won first, Marge second and Ethel carried off the booty prize.

Fifty riders were invited to a rare musical masterpiece, if they heard the recordings dedicated to Joe Tully over W.I.O.D. this morning. "We are the Joy Boys" and "Mary" beamed over the airways to remind everyone that VAH-5 is still in town. Navy Presleys are Paul O'Dea, Cy Filton,

SILK LINEN and printed ballate are combined for a dress and jacket costume from Herbert Sandheim's spring and summer collection. In watermelon red, the slim skirt is attached to a red and pink printed blouse with a shirred cummerbund.

John Dooley, Jack Smith and Gordie Jacobsen. May be a few more unidentifiable voices in there, too.

We Are Pleased To Announce The Appointment Of

N.R. (Bob) Whitney

To our sales staff, Bob invites his friends and customers to visit him or call him at Reimann Motors.

### How To Make Sure You Get Enough Milk

**By HERMAN M. BUNDESEN, M.D.**

YOU can drink your milk and get it in and day out? I do eat it, too! I do, every day. For years all of you have been bombarded with advice about the value of milk. By this time I'm sure you are aware that adults should have at least one pint a day, expectant mothers require two pints, nursing mothers need a minimum of one and one-half to two pints per day. While no single food supplies all the nutrients we need, milk comes closer than any other.

**Many Elements**

It gives us calcium for strong bodies and numerous vitamins, minerals and proteins which we need constantly to replenish dwindling supplies. There are dozens of ways of getting this daily milk quota. Drinking several glasses, of course, is the easiest and surest way. But not everyone is that fond of milk. Also, you may not always find the opportunity to drink milk.

**Various Ways**

Therefore, some of you have to consume your milk in a different manner—in cooked foods, on cereals, ice cream, pudding and the like. But even so, how many of you actually get your milk requirements?

**Retains Milk Values**

This powdered milk actually is the "heart of the milk." It retains most of the original milk values like calcium, thiamine, riboflavin, niacin, protein, lactose and minerals. The single spoonful provides about a 15 per cent bonus of these important ingredients. The only thing lacking is the fat content and vitamin A. I make up the vitamin A with other foods. As for the fat, most of us in the "middle and upper age bracket can do without it. The older you get, the less fat you need. But sufficient milk is important every day of your life.

**QUESTION AND ANSWER**

**Q.** Is there such a disorder as "hyper-insulinism"? I have read that for this as an after effect of undulant fever.

**A.** Answer: There is such a disorder.

### Food Sense—Not Nonsense

**Take it with You!**

Today's Dental Bona, headed for woods and stream, carries gear that guards his well-being. He has traded shank's mare for a jeep; his shooting iron and dried venison for a portable cooler and easy-to-cook food from a nearby super market.

Modern "Pioneers," like their forebears, need grab to insure endurance. Trail tramping and hill climbing still cause food needs to soar. Provisions should include large portions of essential foods each day: enriched or whole wheat bread and rolls, fruits and vegetables, meat and milk.

When body food stores are low, fatigue and accidents may follow. Bearing out this fact are industry surveys which show that accident rates rise when workers are hungry. Long intervals between meals also bring on feelings of weakness and irritability.

Meals of active campers, therefore, should be large enough to stave off hunger for several hours... or else "pick-me-ups" should be provided.

Spencer Tracy takes to the bongo drums to dispell the gloom that has settled over the office party caused by his installation of an electronic "brain" as Katherine Hepburn turns on the charms to keep her office staff on the payroll. The uproarious scene is one of many that enliven 'Twentieth Century-Fox's CinemaScope spoof on big business, "Desk Set," starring Sunday at the Ritz Theatre. Gig Young and Joan Blondell are co-starring in the film.

### S. Tracy, K. Hepburn In Comedy 'Desk Set'

A comedy that sparkles with wit and gaiety and is tailored for every girl who works, and they are myriad, and her equally numerous bosses, opens Sunday at the Ritz Theatre. It is Twentieth Century-Fox's CinemaScope version in DeLuxe color of the Broadway play, "Desk Set," a fascinating spoof on big business and what happens in this modern age of automation to the poor, unsuspecting employee who is in danger of losing his job to a machine.

From the time Spencer Tracy, who shares starring honors with Katherine Hepburn, installs an electronic "brain" in the reference department of a big broadcasting company office until he succeeds in getting Miss Hepburn to say yes to his proposal, the story sails along to fascinating entertainment heights. Tracy as the hated efficiency expert, and Miss Hepburn, head of the reference department, give gratifying performances and their filing for comedy was never better illustrated than in "Desk Set." They are consummate artists and are aided in this hilarious entertainment by Gig Young and Joan Blondell and a supporting cast of personable young ladies. Particularly, Dina Merrill, a willowy blonde and ex-model, Sue Randall, a blue-eyed bunnet from the Broadway stage, who make their screen debut as Miss Hepburn and her girls. They deserve special mention and Leon Shamroy's camera work gives "Desk Set" visual brilliance as girls in offices today were as pretty as these youngsters, every young man in the country would be looking for office work, with a little romance on the side.

Phoebe and Henry Ephron, who translated William Marchant's stage play, have kept a nice balance between the romantic angels of the story that give it warmth and the office hi-jinks that accentuate the comedy. Director Walter Lang, who recently was nominated for an Oscar for his direction of "The King and I," demonstrates once again his worthiness for that honor by doing a splendid job. He keeps the pace fast and handles the comedy situations nicely.

Two of the funniest scenes in the picture revolve around "Emmy," the amazing IBM machine, which is the villain in the story, and the office Christmas party. When the machine goes berserk and puts a pink slip in every envelope, firing everyone, it nearly wrecks the company. After seeing what goes on in this office party, wives will demand that their husbands come straight home the day before Christmas. This is a party to end all Christmas parties. Champagne flows freely and lipstick is generously smeared by secretaries on their bosses.

What this well-dressed office girl will wear is beautifully illustrated in the clothes which Charles LeMaire designed for Miss Hepburn and her girls. They deserve special mention and Leon Shamroy's camera work gives "Desk Set" visual brilliance as girls in offices today were as pretty as these youngsters, every young man in the country would

### Peggy Lee Working On Television Show

By WILLIAM EWALD  
United Press Staff Correspondent  
NEW YORK (AP)—Peggy Lee, winding up her third week on the Gleasonless Jackie Gleason program, is free now to turn to her own pet project—a musical TV show and writing.

"We've been working on a format for a TV show for a year," said the silver-blond singer, "and it's just been one thing after another."

"We had one format that was partly dramatic, but we decided to throw that out. And then we had another format that put me in a bar setting, but somebody decided it might not be such a hot idea for a girl to do a series in a bar."

Miss Lee, who'll host the Gleason CBS TV show this Saturday after acting as guest vocalist for two weeks, is convinced TV is heading into a new cycle.

**Music On Rise**

"Music seems to be on the next turn of the wheel," she said. "Perry Como has shown how successful a singer can be on TV. And, of course, there's Dinah Shore too. Music is coming back."

"Still, I don't think there's any doubt that the singer works under a handicap on TV. They haven't completely solved the problem of sound yet and there's too much attention payed to all those props they feel they have to set up around a singer."

TV has developed very few singers of its own and Miss Lee thinks she knows why. "The trouble is," she said, "TV is not a place for beginners. It's no place to get experience. There's just too much to learn."

**Starts With Hands**

"Most of the big singers of today started with hands, traveled on the road, got their experience the hard way. And I'd advise any kid today who wanted to become a singer to get that kind of work in—even if it means singing in joints."

Miss Lee herself is becoming more interested in writing than singing. She writes poetry and songs.

One of her present tasks is expanding "New York City Ghost," a poem she wrote four years ago which Victor Young set to music. She hopes to fatten it into a TV spectacular. She has written about 100 songs over the past 14 years and some have sold pretty well—"Manana," "It's A Good Day" and "I Don't Know Enough About You."

### 'The Rainmaker' Is Exciting Film

The gripping story of a smooth-talking con man and the ranch girl he teaches to be beautiful teams Burt Lancaster and Katharine Hepburn in a memorable film, Hal Wallis' "The Rainmaker," a movie that may well run off with top screen honors. Acclaimed, followed its preview showings, as one of the year's great pictures, the Paramount release, which opens Sunday at the Movieland Theatre, deserves every bit of the praise. Presenting Burt Lancaster in a performance as powerful and startling as in "The Rose Tattoo" and Katharine Hepburn in a brilliant portrayal that ranges from intense drama to high comedy, the Technicolor film is superb movie fare, as funny as it is moving, as human as it is magical.

Set somewhere out West, the plot revolves around a farming family, a dedicated-bachelor sheriff and the wandering charlatan who turns their lives upside down while extracting money from them with the promise of bringing rain to end their damaging drought. His wild gift of gab, intended to inspire confidence in his weird rituals, instead brings love to Miss Hepburn, her younger brother Earl Holliman and sheriff Wendell Corey, an adventurous new life to older brother Lloyd Bridges and father Cameron Prud'homme, and coincidentally a change of fortune for himself.

A rare movie, "The Rainmaker" is a tribute to the skills of producer Hal Wallis, director Joseph Anthony, writer M. Rich and Nash and the superlative cast.

The male narwhal, a small whale, has a long spiral tusk growing out of its upper jaw. Medieval Europeans mistook the mythical unicorn. Scientists still puzzle over the spear's function.

New acting find Earl Holliman and scene newcomer Yvonne Lime in scene from the Hal Wallis drama "The Rainmaker," which will play Sunday and Monday at the Movieland Ride in Theatre. Burt Lancaster and Katharine Hepburn star.

### Smokey Says:

### Legal Notice

NOTICE is hereby given that the State Board of Education of Florida, pursuant to Law, will offer for sale for COMPETITIVE BIDS, in the Board Room of the Governor's Office, Capitol Building, Tallahassee, Florida, at 10:30 A. M., July 31st, 1957, the following described land in BREVARD COUNTY, FLORIDA, to-wit:

82% of 82% of Section 14, Township 25 South, Range 21 East, 49.25 acres.

The successful bidder is to pay the cost of advertising and documentary stamps.

The sale, if and when made, shall be subject to the Board reserving unto itself 75% of the phosphate, mineral and metal and 50% of the petroleum thereon or thereunder.

The State Board of Education reserves the right to reject any and all bids.

By CHIEF CLERK of the State Board of Education of the State of Florida,  
—Ray Collins  
Governor

ATTEST:  
Thos. D. Bailey  
Superintendent of Public Instruction

### SHOPLIFTERS TO WRITE ESSAYS

SAN FRANCISCO (AP)—Municipal Court Judge Clayton Horn placed five women shoplifters on probation Tuesday with the stipulation they see a movie and write 200-word essays on one phase on the film.

The movie: "The Ten Commandments."

The subject: The Eighth Commandment: "Thou shalt not steal."

A "dead glacier," one that thaws before it reaches the ocean is as brittle as glass yet as pliant as tooth paste, says the National Geographic Society.

LEWIS BARTLETT, of Plymouth, Mass., a guide at the Plymouth Rock Memorial, tells three-year-old Sandra Jean Chlusana the story of the Pilgrims' landing as they sit on the famous Rock. Bartlett's ancestors came to the new world on the second voyage, 1623, three years after the first historic landing. (International Soundphoto)

### Financial Side Of Graham Crusade

Editor's Note: This is the fourth and final special report by the United Press on Billy Graham's New York crusade. It tells about the financial side of the crusade—where the money comes from, and where it goes.

By LOUIS CASSELL  
United Press Staff Correspondent  
NEW YORK — Years ago when he was just beginning his career as an evangelist, Billy Graham was photographed holding a bag of money which his sponsors had just presented to him.

The picture appeared in the newspapers and embarrassed Graham severely. He resolved then that never again would he jeopardize his ministry by giving people any ground for suspicion that he was getting rich from evangelism.

Today the financial side of a Graham crusade is handled with an impeccable care that would do credit to a bank. Every penny taken in and paid out is audited by a firm of certified public accountants.

But the association of evangelists with profiteering is so strong in the public mind and indeed, so well justified by the record of some itinerant preachers—that Graham still gets a few abusive letters each day from people who regard him as a kind of racketeer.

Hull in Charge  
To Roger Hull, who has the responsibility of raising enough money to meet the bills of the current New York crusade in

KIDDIES WIN OBEDIENCE  
MEMPHIS, Tenn. — Motorists have begun to heed the home-made signs of a volunteer kiddie patrol which warn of "Children At Play," "Slow," and "Stop." The sharp-eyed kiddies jot down license numbers of those who don't obey the signs and turn them over to traffic police.

#### Smokey Says

It's much easier to PREVENT a forest fire than to stop one!

Madison Square Garden, it seems incredible that anyone should consider Graham's meetings a money-making operation.

Hull is vice president of the Mutual Life Insurance Co. of New York. He also is chairman of the committee—legally incorporated under the laws of New York state—which is sponsoring the meetings. He opened the books to a reporter in his office to show that crusading is a very costly business.

One of the smallest items in the allowance of \$18 a day which the committee pays to Graham for living expenses, Graham also got a salary of \$15,000 a year, but this is paid entirely by the Billy Graham Evangelical Association of Minneapolis, Minn., which sponsors his "Hour of Decision" radio broadcast each Sunday afternoon. The arrangement gets no extra salary, no "love offering" of any kind, from the funds raised for the New York crusade.

Read Big Item  
Big items of expense are the rent for Madison Square Garden—\$5,000 a night—and salaries of 60-odd ushers, stagehands and other Garden employees that run to about \$1,500 a night. Advertising and publicity expenses, including daily radio and nightly television programs in the New York area, average \$40,000 a week. Expenses of the crusade office at 163 West 64th Street, including staff salaries, printing, postage, and rent total \$17,000 a week.

These costs, to run to more than one million dollars by the time the meetings end on July 21, are lumped into one budget to be met by funds raised by the local crusade committee.

The offering taken up at the Garden each night will cover only a little more than one third of the figure if they continue at the present rate. The offering—which is immediately placed in the custody of, and counted by, representatives of the Chase Manhattan Bank—has averaged about \$7,100 a night.

### Company Reveals New Member On Sales Staff

Ken Reiman, owner of Reiman Motors, today announced the appointment of N. R. (Bob) Whitney to the company's passenger and truck sales staff.

Whitney is a veteran Central Florida automobile salesman, and former DeLand newspaperman, and for the past six years he has made his home in Sanford. The Whitney's live at 409 Mellonville Avenue. He extends a cordial invitation to all his old friends to visit him at his new location.

WES DESIGNER'S MOON shows the new Lockheed radar plane, which reportedly gives tremendous expansion to America's aerial warning system. The huge U.S. Navy sky sentry has a "flying saucer parabol," four prop-jet engines, two turbojets attached to wingtip pods and a twin-fin tail. The long-distance craft will replace the Navy's current flying radar stations, which now range far out to sea.

DR. HERMANN J. MULLER (left), Indiana University, and Dr. James F. Crow, University of Wisconsin, both geneticists, discuss in Washington the effect of radioactive fallout. They testified before a Senate-Atomic Energy subcommittee that present bomb tests will bring injury, disease and death to future generations. Their remarks were supported by Dr. H. B. Glass, Johns Hopkins University and Dr. A. H. Sturtevant, California Institute of Technology.

THE SENSITIVE FINGERS of blind Penelope Coose, 7, fascinate Queen Mother Elizabeth of Britain during reading competition at National Library for the Blind in Westminster, England. (International)

### YOU NEED CALCIUM

By EVANGELIST CEMER, Health Specialist  
The human body needs a large amount of organic calcium. In fact it is necessary for us to have more calcium than any other element. Ninety per cent of the body's calcium is in the bones and teeth and the rest circulates in the blood stream and permeates the tissues. This is very important to the performance of the blood as well as the muscles and nerves. As an example, the muscles which make the heart beat must be constantly bathed with blood of lymph containing a normal proportion of calcium.

Many people have a real calcium problem even though natural foods contain an abundance of this very important element of calcium. However, very few people eat enough natural food and as a result suffer with a calcium shortage. In fact one of the most common deficiencies in the average American diet is the lack of sufficient calcium.

Years of experiment have definitely proved that increasing the daily amount of calcium results in physical improvement almost at once. Most Americans today get too much inorganic calcium by eating too many foods that do not contain the natural vitamins and minerals necessary for good health. This over-abundance of inorganic calcium causes arthritis and a host of other diseases common to our day.

But to help you get your share of the natural organic calcium for a stronger, healthier body use much of the following foods. Milk is a good calcium food and soy bean milk is twice as good as cow's milk. Excellent natural sources of calcium are broccoli, cabbage, natural cheese, churned butter, milk, soy beans, various kinds of greens, turnip and watercress.

Yes, you need calcium, you must have an adequate daily supply for good health and it is available to you without spending large amounts for it in some chemical form found in the store. Eat and drink natural foods and get your share of calcium for life.

EVANGELIST CEMER begins a series of important Free Health Classes Friday night at the Woman's Club Auditorium. His first topic will be "How To Add 10 Years To Your Life." Free U. S. Health Department charts will be given to each one bringing any one of these articles to the service. The sermon subject will be "Heaven, Are You Going?" Will we know each other there? If you have enjoyed the health articles so far, tell someone else about them. DON'T MISS FRIDAY NIGHT, JUNE 21, 8:00 P.M. HOUR FOR THE CHILDREN.

### Small Firm Has Top Retirement Plan

By ALFRED LEECH  
United Press Staff Correspondent  
CHICAGO — Sam Trapani, 40, is just an average shop worker, but he has \$12,000 in savings. And at the age of 38 he'll have at least \$60,000.

Steve Tarasuk, 37, another shop worker, has \$14,931 in savings. Roy Brington, 38, a production supervisor, has saved \$23,707.

All are employees of the House of Vision, a Midwestern optical firm which prides itself on its retirement plan.

Big for its industry, the firm operates in five Midwestern states. But it is no industry giant. It employs 300 persons and qualifies as a "small business."

Nevertheless, its retirement plan helps many of the largest ones in its benefits to the average worker.

Bernard Spero, who founded the firm in 1924, started the employees' trust fund in 1936 with the idea that his employees were entitled to share in the profits.

Annual (Company) Contribution  
Spero put up 200 of his own shares of stock in the company to start the trust fund, and offered an annual company contribution of 20 per cent of the firm's profits.

The employees contribute 2 per cent of their pay, and these contributions now total \$18,968. The company has contributed 16 times this amount, of \$344,178.

Milton Spero, Bernard's brother and treasurer of the company, believes the plan might serve as a model for small business generally.

"Eventually small business will have to come to something like this," he said. "The plan has been a tremendous benefit, both to the employees and the company."

"We have very loyal workers, and a very low turnover in personnel."

The trust's assets today total \$1,452,021.

Average Is Misleading  
But Milton Spero says the "average" is misleading, because older employees have benefited far more. For example, he said, one man joined the firm in 1925 as a messenger boy at \$8 a week. Now an executive, he has more than \$40,000 to his credit and in another 20 years he could have \$150,000.

Trapani, who works on crutches, has a "sit down" job fitting eye-glass lenses into plastic frames. His contribution to the fund has totaled \$90 and his share is \$12,000.

"It's a great thing," said Trapani, who has five children.

About 50 employees have bought homes financed through the plan. Most of them agree they "couldn't have bought a house" without the plan.

Ruth Reigner, an attractive, trim office worker, has contributed \$296 to the fund since 1949 and has

### Science Today

United Press Science Editor  
NEW YORK — A director reports that simply giving some of a 1,000 bed mental hospital patients keys to keep and to use will bring about an improvement in their mental conditions.

No other places, not even prisons, probably are more thoroughly locked and keyed than mental hospitals. Yet, as Dr. Aaron S. Mason said, "almost complete silence is maintained" about those locks and keys.

"To the mental patient, the key is the most significant symbol of his helplessness," said Mason. "It is viewed as token of the whole structure of power and responsibility in the mental hospital."

Heads VA Hospital  
Mason is professional services director of the Brockton, Mass. Veterans Administration Hospital. There, as in other mental hospitals, every room, every closet, every cabinet—every cubicle or receptacle of any kind—has its lock and a corresponding key.

Certain Brockton patients are given a key to rooms in which they can carry out their assignments in "industrial therapy." Although the hospital was opened in 1953, "no untoward incident has resulted from this policy."

On the other hand, "we have observed marked improvement in some patients when they are given the recognition and responsibility of handling keys," Mason said.

He looked forward to a day when locks and keys are used in mental hospitals in the same way they are used in homes—mainly for the protection of property. He thought that more and more "the concept of custody and control" was dying out among mental hospital administrators and more and more they were accepting the "trend of the open hospital."

Some Hospitals Are Open  
An "open hospital" is one in which there are no locked doors, and patients may go and come as they please. The advocates of this practice still are in minority in psychiatry but definitely there is a trend.

Mason said that at Brockton almost half the patients are in unlocked wards and their number has doubled in the last two years. A basic premise of the "open hospital" advocates is that

a balance of \$7,736. Single, she showed her passbook to some employees and got "three or four marriage proposals."

"They were impressed by my big, fat figure," she said.

MRS. PENELOPE KATSIYANNOU, 44, is greeted by her sister, Dr. Amalia Lignos (left), following her arrival in New York with her daughter, Mary, from Athens, Greece. Mrs. Katsiyannou was once completely helpless and is still paralyzed below the waist since receiving anti-rabies treatment for a cat bite in December, 1949. Mrs. Katsiyannou was taken to the Sister Kenny Institute in Jersey City, N. J., for special treatment. (International Exclusive)

### YOU'RE TELLING ME!

By WILLIAM RITT  
Central Press Writer

A DEMOCRAT won a Texas U. S. senatorial seat from a field of 19 candidates—17 Demos, two Republicans. At those odds, says Betcha Dollar Dennis, how could the Democrats lose?

An Italian claims a world record after shaving in 43 seconds flat. Boy, that fellow really stuck his neck out!

A fortune in diamonds was found in a South African arizoni oyster bed. Since when did the bivalves switch from pearls?

Teenagers, to combat rock-'n'-roll, have formed an I Love Ludwig club. Ludwig's last name was Beethoven. This is music to these aging ears.

A person standing in one spot for a year and constantly keeping an eye on the skies would, in

that time see some 4,000 stars—Factographa. Somehow, it hardly seems worth it.

A new Palm Springs, Calif., hotel has only 43 rooms but each has a private bar. The drinks may not be on—but they're certainly in—the house.

In the town of Timmins, Ontario, all the parking meters went on the fritz because somebody jammed 'em with toothpicks. Now, there's a case the cops can really get their teeth into!

### Mrs. Essie Martin Dies Yesterday

Colored News  
Mrs. Essie M. Martin, prominent citizen of Sanford and Seminole County, passed away on Thursday at 4:15 p. m. She had been confined to the Seminole Memorial Hospital for several weeks.

Mrs. Martin had recently retired from the agency of the Afro-American Life Insurance Company where she had served for 34 years.

Funeral services will be held Monday at 3 p. m. at St. Paul's Baptist Church. Arrangements are in charge of Burton Funeral Home.

Surviving Mrs. Martin are three daughters, two sons, and other relatives.

## Board To Consider Docks Proposal Tonight

### Navy Man Held On Assault Charge Of 16-Year-Old Girl

A 6-foot 3-inch, 190 pound Navy man confessed to the charge of assault with intent to rape a 16-year-old Seminole County girl last Wednesday night on a lonely road near Longwood.

Neil E. Ditcher, 26, a Navy Chief Petty Officer, who at first denied the charge when confronted with the evidence obtained by Deputy Sheriff Morgan McClelland, said "I don't know why I did it."

Ditcher, a married man with a family, was ordered placed at first under a \$10,000 bond which was later raised by Judge Ernest Houssholder to \$25,000.

He is being held in the Seminole County jail.

The young Navy man picked up the 16-year-old girl at her home in the presence of having her babysit at his home. However, he admitted taking her directly to the lonely road between 10 p. m. and midnight last Wednesday, committed the assault and then returned her to her home.

The girl nor her mother remembered Ditcher's name but furnished a description of the car and the license tag number.

Deputy Sheriff Morgan McClelland conducted the investigation, said Sheriff Luther Hobbs, starting with only the car's description.

Ditcher was identified by the mother of the girl in a lineup with other men.

Deputy Sheriff McClelland described the assault this way: "In all of my police experience this was the worst of its kind I have ever seen."

### Commissioners Will Discuss Sidewalk Proposal Tonight

As a means to promote greater use of the municipal parking lot just off Commercial Avenue, commissioners tonight, at their regular meeting, will discuss a proposal to construct a sidewalk on Grand and Commercial Avenues.

Other items appearing on tonight's agenda for consideration of the Board of Sanford City Commissioners, in an appointment to the Zoning and Planning Commission; a request of the Zoning and Planning Commission to petition the county for zoning along the fringe boundaries of the city; the first reading of an ordinance rezoning an area south of 25th St. between Magnolia and Palmetto Avenues; and the discussion of an offer for the use of city land.

Miscellaneous business from the floor and City Commission will be discussed.

The Board of Sanford City Commissioners will consider the proposal of Gee and Jensen, consulting engineers of West Palm Beach, pertaining to the Warehouse and Dock facilities.

Gee and Jensen was employed to prepare a feasibility report looking into every aspect of the important warehouse and dock facilities for the city including the location of the huge project.

The same engineering firm was engaged to prepare the feasibility report for the proposed Sanford Titusville Canal which was presented before the hearing held in Sanford by the Corps of Engineers earlier this year.

It is possible that the report to be submitted to the Board of Commissioners tonight will either kill the interest of the commissioners in the proposed docks and terminals or will renew their interest.

One commissioner maintains that, in spite of engineers' reports, commissioners should see other projects in operation to determine whether or not it is feasible for the city to undertake the construction of the proposed docks and terminals here.

Local citizens, interested in the expansion of the industrial port.

# 5th, Mightiest Atomic Blast Set Off Today

## First In 20-Shot Series

ANGELS' PEAK, Nev. (AP) — The Atomic Energy Commission unleashed the fifth and heaviest atomic explosion of its 1957 experiments today—a blast so powerful it ripped a door and cracked the concrete wall of the control blockhouse 14 miles away.

Its mighty flash shamed the post-dawn daylight and momentarily blinded unguarded witnesses 45 miles distance. Its sound wave bounced off a stratosphere layer and was heard in Reno, Nev., 300 miles away.

The detonation was set up as the first major test, in the scheduled 20-shot series, of a totally new approach to civilian underground shelters.

In addition to testing the survival characteristics of civilian shelters beneath concrete domes, experiments were conducted to determine the most suitable radiation-protective clothing for soldiers and civilians and the effects of radiation fallout on foodstuffs.

Interior doors at the control point swung freely in the earthquake-like shock wave, the AEC reported. No one was injured.

The door went flying off its hinges and a four-foot long crack split the thick concrete wall.

A total of nearly 1,000 military observers occupied trenches 54 miles from ground zero, the first use of troops close up in the current series.

Military units for testing included field fortifications, fox holes and gun emplacements and battlefield equipment in addition to various types of protective wear for the soldier of the atomic age.

"Only light fallout readings are anticipated" along Highway 93 and "for further distances into Utah," the AEC said after the blast. Its announcement said the cloud, which started out to the southwest, had taken a firm course as scheduled slightly north of due east.

AN EARLY MORNING FIRE DESTROYED the 15-room frame dwelling south of Benson Junction on Highway 1792 near the Diamond Club. The home was owned by Mr. and Mrs. Jesse Nance. Flames from the blaze threatened nearby structures for nearly an hour. (Staff Photo)

## 13 Navy Men Attend Survival School In North Carolina

Thirteen officers and men from units of Heavy Attack Wing One recently returned from a week in North Carolina where they participated in "Exercise Tenderfoot." Making the trip were: Ensign Donald Franz, John Bailey, and David Rockford of VAH-5; Lt. C. J. Youngblade and Ensign G. F. Rankin of VAH-7; Lt. Lt. (jg) Bane Weber, Ensign Anthony Downs, J. S. Sandifer AO1, and R. M. Hill Jr. AO1 of VAH-11; and C. O. Osburn PR3 of Heavy Attack Training Unit.

Navy, Air Force and Army units participated in the exercise which was a practical experience in survival for downed aviators. Clothing was limited to items worn while flying, and equipment could not exceed that normally carried in aircraft.

Briefings in first aid and equipment requirements preceded the trip. New experience was gained in building rough shelters, in trapping, preparing, and preserving wild animal meat, and in overnight navigation by day and night on foot.

Participants learned that being forced down on land need not be a terrifying experience. Utilizing equipment carried and the food and shelter provided by the woods, flight personnel can survive and travel on land until they reach their own units.

IDEAL "ACTOR" — After some initial difficulty, professor Jaime del Valle has come up with someone he believes is the ideal person to portray the part of the San Francisco fire chief in a television show.

The "actor" is William Murray, fire chief of San Francisco.

## 15-Room Dwelling Destroyed By Fire

A 15-room frame dwelling was completely destroyed by fire early this morning just south of Benson Junction on Highway 1792 at Club Diamond.

Neighbors reported that the huge home was found in flames shortly before 5 o'clock. The fire had burned out at 6:25.

The home was owned and occupied by Mr. and Mrs. Jesse Nance but was away, at the time of the fire. Only a few items of furniture were salvaged from the dwelling before flames became too hot.

The Sanford Naval Air Station sent its huge pumper to the scene to protect adjacent dwellings and the Diamond Club which for a time were threatened. SNAS firemen were unable to combat the fire since the entire house was completely involved when they arrived shortly after 6 o'clock.

Fire departments in DeLand, Delary and Sanford were called to the fire but did not answer the alarm.

A three-car collision on State Road 46, three miles east of Sanford, shortly before 5 o'clock yesterday, caused property damage estimated at more than \$1,200.

A 1954 Pontiac driven by Robert Lewis Short, 44, of Patrick Air Force Base and a 1957 Ford driven by Dexter Anson Lee Jr., 30, of Tampa had stopped at the intersection of Richmond Ave. and the highway to allow another car coming into the intersection from Richmond Ave. to clear traffic.

A 1952 Nash sedan driven by Charles Edwin Patterson, an ACL fireman, who was driving the car owned by John O. Arnold, crashed into the rear of the new Ford and then in turn smashing the front end of the Ford into the rear of the Pontiac.

The bumpers of all three cars were locked into one another.

Investigating officer was Florida Highway Trooper T. Mark Mack who was assisted by Constable J. Q. "Slim" Galloway.

Charges were placed against Patterson.

## 3-Car Collision Results In Over \$1,200 Damage

## National Guard C. O. Will Speak At Lions Luncheon

Lt. John Keeling, Commanding Officer of the local unit of the Florida National Guard, Company B, 154th Armored Infantry Battalion, will be the guest speaker at the regular luncheon meeting of the Sanford Lions Club tomorrow noon at the Yacht Club.

Tomorrow's meeting will be the first to be conducted by the new president, W. Hugh Duncan, who was installed last Tuesday night by International Counselor Burton Brown of DeLand.

President Duncan was recently honored by Lions District Governor Jimmy Boye of Leesburg, Governor of Lions District 35-0, when he was appointed Zone Chairman which includes Lions Clubs of Sanford, DeBary, DeLand, DeLeon Springs and Plover.

All Lions are urged to be present, said President Hugh Duncan, at tomorrow's meeting as members of various committees for the coming year will be selected.

## Assn. Declares Dividends; Will Close Saturdays

Dividends on savings accounts, payable on June 30, were declared by the directors of First Federal Savings and Loan Assn. at their meeting Friday. They also voted to stay open on Friday nights till 8 p. m. and close Saturday, effective July 1, it was announced by Howard Faville, president.

Assets of the association are now in excess of \$7 million, it was reported, the top figure in the 22 years the thrift organization has served Seminole county and this area.

In spite of the tight money conditions that have prevailed this year, savers have made it possible for the S&L group to finance scores of homes, it was said. The figures for the first half of the year will be reported after the books are closed on June 30, Faville said. But he pointed out that conditions in the area had been very good and that the outlook for the balance of the year was quite rosy.

Much of the continued expansion both here and nationally, it was said depended on how thrifty the top wage earning nation of the world is, because it is from savings alone in some form that capital for much needed industrial growth originates.

The First Federal office will be closed next Friday and Saturday to permit employees to post the dividends to over 2800 savings accounts. The total amount of dividends will exceed \$100,000 it was said.

The reserve position which is a source of pride to the directors because of the additional safety it affords S&L savers and which is one of the best in the state, will not be impaired, Faville declared, but will probably be improved when the final figures are available on June 30.

Additional local news on page 3.

## Negro Dies In Fight Over Woman

A 33-year-old Sipes Ave. Negro, Isaac Williams, died instantly early Saturday night when stabbed one time in the heart with a butcher knife.

Leroy Fouts, 49-year-old Negro, whose address is given as Chambers Quarters in Midway is being held without bond in the Seminole County jail for the alleged murder.

The incident took place in the home of Mattie Jones, in Midway, during an argument over the woman, which had continued from the weekend before.

Deputy Sheriff W. L. Long said that Fouts left the scene of the stabbing and went to his home. He returned to the Mattie Jones home where he was taken into custody.

Constable J. Q. Galloway recovered the butcher knife from outath an ironing board cover at Fouts' home.

Corner W. Hugh Duncan said this morning that no coroner's jury will be impaneled for the investigation.

The Seminole County Sheriff's Department, over the weekend,

SANFORD NAVAL AIR STATION personnel return from "Exercise Tenderfoot." (Front Row) left to right are: Lt. C. J. Youngblade, VAH-7; R. M. Hill Jr., AO1, VAH-11; J. B. Sandifer, AO1, VAH-11; and "Slim" Galloway, VAH-5. (Back Row) left to right are: Ensign Anthony Downs, VAH-11; Lt. (jg) Bane Weber, VAH-11; Ensign G. F. Rankin, VAH-7; Ensign John Bailey, VAH-5; and Ensign Donald Franz, VAH-5. Also on the trip but not shown in the picture were: Lt. H. C. White, VAH-9; Ensign J. C. Stevens, VAH-9; H. C. Daffron, AQ3, VAU-9; and C. O. Osburn, PR3, HATU. (Official U. S. Navy Photo)

TT&EE CARS CRASHED three miles east of Sanford on State Road 46 shortly after 1 o'clock yesterday. Damage was estimated at more than \$1,200 when the three automobiles were separated by No injuries were reported. (Staff Photo)
