SOCIAL CALENDAR

Monday—Pipe Organ Club will hold a picnic at Palm Springs. All of the members of the church meet at 2 p. m. Tuesday—Mrs. Fred Walsma will entertain the members of the Tuesday Duplicate Bridge Club at her apartments at 3:00 p. m.

Three brides-to-be: Misses Ethel Moughton, Coralie Tillis and Jessie Graves. The rooms were beautifully decorated with pink roses, love-vine and ferns. After several interesting contests the guests of honor were presented with dainty cooking aprons.

MRS. SCHAAL ENTERTAINS The members of the Thursday Social Club were most pleasantly entertained yesterday afternoon by Mrs. Mary Schaal, at her home on Palmetto avenue.

MRS. WATSON ENTERTAINS Mrs. W. E. Watson was the charming hostess yesterday when she entertained at a luncheon at her home, the Welaka, honoring the officers and board of the Sallie Harrison Chapter, N. S. D. A. R.

ENTERTAINS FOR JUNE BRIDE Last evening at her home on Palmetto avenue, Miss Hermida Lehman entertained the Primary teachers club and several invited guests in honor of

THE WEATHER For Florida: Showers tonight and Sunday; little change in temperature.

LOCALS This is the last day of the big show. And it has been most successful in every way. The visitors like Sanford.

Another Herald today filled with advertising. Watch for the special editions all during the summer. W. L. Dolive and Turner Evans of Orlando were among the trap shooters at the big meeting yesterday and today.

Sam Murrell is home from Stetson University for the week-end. His mother, Mrs. K. R. Murrell has been very ill for several days. The new Lincoln car of S. O. Chase is being repaired, the whole side having been torn off by another car ramming the Lincoln near Orlando the other day.

City Engineer Williams says he was not responsible for the names of the streets being painted on the curb as it was an idea of City Manager Williams. It was a Williams but it was the City Manager and the Herald makes this correction.

Mrs. Robert Hamel, of Denver, Col., was called to Sanford on account of the death of her father, Henry Brandt. Mrs. Hamel is staying with her sister and brother-in-law, Mr. and Mrs. George Balmea at their home in Eureka Hammock.

Watson; historian, Mrs. G. I. Loucks; chaplain, Mrs. J. N. Whitner... finance Mrs. Raymond Phillips. Mrs. Forest Lake is president of the chapter's auxiliary, Capt. Reuben Briscoe, C. A. R.

Nominations from the floor were called for by the regent, Mrs. Watson. There being none, it was moved and seconded that the nominating committee's ticket be accepted unanimously.

A rising vote of thanks was given our past regent, Mrs. Watson, who has served the Sallie Harrison Chapter so efficiently for the past three years and with the co-operation of the daughters, has kept the chapter up to the high standard, which is known, not only in the chapter and state D. A. R. as a capable leader, but in National circles.

After the election of officers and other business, Mrs. Starling, delegate to the Continental congress and Mrs. A. M. DeForest, alternate, and serving delegate, read their reports. Mrs. Starling's report was a short outline of the work done at the congress. Mrs. DeForest's report was a general one and was so realistic of all the events, business and social, one felt they were on the scene.

CHURCHES

INDIANA LADY SAYS SHE WAS RUN-DOWN, SUFFERED WITH HER BACK, TOOK CARDUI, and Got Well.

Richmond, Ind.—"I thought I would write a line or so, to say that I owe my good health and strength to Cardui," says a letter from Mrs. Cora Courtney, 31 Railroad Street, this city.

"I was all run-down until my family thought they would lose me," writes Mrs. Courtney. "My husband coaxed me to take Cardui, so, to please him, I did, and will say I do not regret it, for I am able to do all my work and do my shopping."

"I have five children, four in school, my husband and a boarder to do for, and I do all my own work for all of us, and find time to play. We all praise Cardui. Every sick and run-down woman should take this wonderful medicine."

"I suffered with my back; a very weak feeling in my limbs. I felt hardly able to drag; just tired—so tired all the time."

"It was an effort for me to do anything, but Cardui helped me so I felt like a different woman."

If you are in a run-down physical condition, suffering as this Indiana lady says she did, give Cardui a fair trial. It should help you. Take Cardui. NC-147

The Palatka District, will fill the pulpit at the night service. The Epworth League will have a meeting at 7:00 p. m. sharp.

WE ALL HAVE OUR BLUE DAYS

We all have our blue days—especially Blue Mondays—and there are none of us so fortunate that we never have any troubles or tribulations.

The wisest thing we have read for months appears on a cigar company's calendar: "All sunshine makes a desert."

Socrates would have nodded his head and started talking for a week. Grass and trees need sunshine, plenty of it.

We grumble at the rain and its clouds, but without it we would soon be living in a desert, without trees, grass, water or crops.

Wise nature works by the law of contrast—action and reaction. Sunshine and rain alternate.

This applies to our personal lives, which are inexorably governed by natural laws.

We get an "off day" or a "run of bad luck." That corresponds to rain and clouds. Our sky is overcast.

At such times, if we'd only pause to think, we'd realize that the clouds eventually will clear and the sun beam down out of a bright sky.

We crave continued happiness. But it's a good thing we don't have it. For constant happiness would soon become monotonous.

Perfect health would not bring real joy unless you had a sickness or pain to look back to and say: "Gosh, but I feel great today, compared with when I had a headache or the flu."

The psychology of lovers' bliss at "making up" after a quarrel is all a matter of this law of contrasts.

We cannot appreciate and enjoy prosperity unless we have had times for comparison. That's why the man who has to fight his way up from poverty gets a thrill and enjoyment never known to the lap-dog of luxury who inherits his fortune.

Providence has a wise purpose in sending troubles to us. If we meet our troubles and annoyances philosophically, we find later that they were preparatory—to make us appreciate and enjoy the sunshine that follows the cloudy day.

"All sunshine makes a desert."

COUNTY SHOULD OWN BRIDGES

Volusia county should own the Monroe and Crows Bluff bridges. It would, possibly, be better if Seminole and Lake counties should join with Volusia in the purchase of these bridges.

The purchase of these bridges came up about two years ago and resulted in a logjam. While the agitation among the business men of DeLand was late in starting it soon assumed large enough proportions among them, the largest taxpayers of the city, to try to see the thing through this year.

A big mass meeting has been called for Monday evening at the Commercial Club at 7:30 p. m. People of the East Coast, who are vitally interested in this matter as those of DeLand, are expected to be present in large numbers.

The News is heartily in favor of the movement whereby the county should purchase these bridges. It feels that under public management the tolls could be reduced and later done away with.

The position of the bridge companies has been set forth by their president, E. A. Wood. Everything is working towards the consummation of the purchase in an amicable manner.

Every citizen of the county who possibly can should attend the big mass meeting Monday night—DeLand News.

JUST KIDS— After A Lickin'

AN HONORABLE SENATOR.

John Stokes, senator from Escambia county, has won a high place in the esteem of the people of Florida by his courageous and upright course throughout this session of the legislature. He was the outstanding figure in the fight for the termination of the iniquitous convict lease system, and for the prohibition of the use of the lash on convicts.

Although Senator Stokes represents a west Florida district, he is in favor of a reapportionment of the representation in the legislature on a fair basis. He concedes the injustice of the present apportionment to south Florida.

That Senator Stokes is progressive and a safe leader is indicated by his active championship of the joint resolution providing for the submission of an amendment to the constitution pledging the state not to levy an inheritance tax or an income tax, a measure of great importance to the state, as it will surely attract to Florida men of large wealth through the assurance that they will not be taxed under the guise of collecting taxes.

John Stokes has been mentioned many times by men of prominence in the affairs of the state and by leading newspapers as well equipped for the governorship. He is a lawyer of ability. Discussing his record in the session of the legislature, the Palm Beach Post says:

"Senator Stokes is the owner of leading newspaper at Pensacola, and he has reflected credit on the newspaper fraternity by his course in the senate."—Tampa Times.

THE SONGS WE CAN'T FORGET.

If the songs that a people love best can be taken as an indication of that people's tastes, then America is decidedly a nation of folks devoted to their homes.

Music supervisors in national conferences have just voted on the songs most popular among the people of their communities. Among eighteen songs receiving highest number of votes from directors of community singing throughout the United States were:

"Old Folks at Home," "My Old Kentucky Home," "Old Black Joe," "Dixie," "Carry Me Back to Old Virginia," "There's a Long, Long Trail," "Home Sweet Home," "Sweet Genevieve," and "Till We Meet Again."

Those songs were found to be among those most in demand in community singing. There is more in that fact than appears in the connection of the songs with domestic affairs. They show how irrevocably a people's roots are in the past. And the past that is least subject to oblivion is the past that is cherished about the home. The influence of home is undoubtedly the strongest in determining destiny. And it is not strange that a people feeling its indebtedness to the most sacred should respond to expressions of work and song that together remind them of the family circle.

The ideals that are sung about the cradle are the songs that are singing yet. They are what men live by and for. When this sentiment that makes the home of the greatest place on earth grows stronger among all mankind, we may expect to find happier relations in the world outside.—Omaha World-Herald.

TEACH THE FIRE DRILL IN THE PUBLIC SCHOOLS.

The horrible disaster at Cleveland, S. C., Thursday night, in which a school house was burned and 75 persons, mostly children, lost their lives, revives a question which has long been a near hobby with us, and of which we have written and spoken many times in the past. That is the necessity of teaching the fire drill in the public schools. It is our candid opinion that had the persons, both old and young, who were entrapped in that school house and lost their lives, been consistently and persistently taught the fire drill not a life would have been lost.

The horrible disaster at Cleveland, S. C., Thursday night, in which a school house was burned and 75 persons, mostly children, lost their lives, revives a question which has long been a near hobby with us, and of which we have written and spoken many times in the past. That is the necessity of teaching the fire drill in the public schools.

Let the voice of the people resent all aggressive and misguided conduct in their legislative representatives. Give an inch and take an all. I am an unbridled Democrat. C. H. LEFFLER.

EXCEPTION TO STATEMENTS.

Rev. A. F. Carr, in a sermon as reported in the May 14, issue of your paper, says: "Christian Science tells us that the apostles and the martyrs were all mistaken and so did not understand the teaching of Jesus."

There can be found nowhere in Mrs. Eddy's writings unkind or disparaging remarks about either the apostles, the martyrs, or even the present-day orthodox clergy. On the other hand Mrs. Eddy's works abound in praise to these worthies. She makes it quite clear that it is only as one adheres to, and understands the truth about God, man, and the universe, as taught and illustrated by Jesus, his apostles, and the prophets can the Science of Christianity, or Christian Science, be demonstrated.

PUBLIC FORUM

REPRESENTATIVE LAKE AND HIS COUNTY COURT

The fact that Seminole county now has a county court, the bill being passed by both houses and signed by Gov. Hardee Saturday a week ago, fell upon this community as a stunning surprise and there is no one to deny it. The Sanford Herald certainly was unadvised while a somewhat diligent inquiry failed to uncover the slightest information. Some of those approached were members of clubs and two were prominent lawyers.

Let the voice of the people resent all aggressive and misguided conduct in their legislative representatives. Give an inch and take an all. I am an unbridled Democrat. C. H. LEFFLER.

CELERY SEED

It's all over! That is, the state shooting and baseball tournaments. And Williston is now the State Baseball Champions of the Florida high schools. Babe Ruth is still going after Cy seventh home run the season and the third in three days. This afternoon the first practice of Sanford's semi-pro baseball team will be held on the Ninth street park at 4 o'clock.

Sport fans of Sanford have been discussing for some time the possibility of a local baseball league. Mr. George McCrory of the local Ford Motor Company is organizing a four club league. The teams will probably be the DeMolay team, Brotherhood of St. Andrew, Big Berean, Brotherhood and the Oviedo Scouts. Mr. McCrory wishes to see the heads of these teams at 7:30 tonight in the Brotherhood of St. Andrew club rooms to discuss the league. Schedule will be made up and plans for getting necessary equipment will be made.

GIANTS HIT FOUR CARDINAL PITCHERS HEAVILY

NEW YORK, May 21.—The New York Nationals hit four Cardinal pitchers here yesterday for a 14 to 4 victory. Young, Kelly and O'Connell leading the attack with four hits each. Of the twenty hits the world's champions made only three of four extra bases, there were doubles by Young, Kelly and O'Connell. The score: St. Louis 001 002 100—4 11 4 New York 020 003 45x—14 20 1

BROOKLYN, May 21.—Brooklyn jumped on Couch, the first five batters in the first inning getting four singles and a triple for five runs, winning the opening game of the series from Cincinnati yesterday, 5 to 3. It was Dickerman's fourth straight victory. Wingo hit a home run over the right field fence with two out. The score: Cincinnati 200 000 001—3 8 0 Brooklyn 500 000 00x—5 7 2

The Daily Herald, 16c per week.

FOR THE MOVIE FAN

Lon Chaney in "The Trap" tonight!

Gaspard, a simple hearted trapper did not understand the ways of human wolves, and when his mine and sweetheart were stolen, who could blame him for trying to get even?

Lon Chaney's portrayal of the man who substituted kindness for revenge is one of the finest you have ever seen. Added attractions, too.

And tonight the honor guests will be G. Bassett Smith and wife and little daughter, and will see "The Trap" without cost. Be there G. B. as Osborne has saved a place for you.

Tomorrow night Dorothy Dalton in "Dark Secrets" and International News.

Wednesday—Katherine McDonald in "Money! Money! Money!" with a comedy as a side liner.

Thursday—Estelle Taylor, Wallace Beery and Mae Busch in "Only a Shop Girl" with a two-part Century comedy as an added attraction.

And then Friday and Saturday—Mary Miles Minter in "Drums of Fate." Also International News.

THREE MINISTERS ARE TO ATTEND FIGHT

MISSOULA, Mont., May 21.—Three ministers members of the Methodist Episcopal church in Montana will attend the championship fight between Jack Dempsey, world's champion and Tom Gibbons of St. Paul at Shelby July 4. The ministers will be there as an official committee of the church. It was said the committee of pastors proposed to see exactly what happens at this "prize fight." Rev. Jesse Lucklen, pastor of the First Methodist church here would not state definitely the purpose of the visit of the committee, but said it is a part of a campaign looking to the repeal of the present boxing law in Montana.

Compressed air machinery has been developed for steering ocean going vessels.

ATHLETICS TAKE SIXTH

DETROIT, May 21.—The Philadelphia Athletics yesterday continued their rampage through the western clubs, winning their sixth consecutive game by overwhelming Detroit 8 to 1. The score: Philadelphia 100 200 200—8 11 0 Detroit 000 100 000—1 9 0

CLEVELAND, May 21.—With Summa on second in the fifth inning yesterday and two out, Pitcher Quinn of Boston passed Catcher Myatt purposefully so as to get at Cuvleskie. The latter signed, scoring Summa with the run that gave Cleveland the victory 1 to 0. The score: Boston 000 000 00—0 0 0 Cleveland 000 010 0x—1 4 1

CHICAGO, May 21.—Sam Jones of the Yanks had the edge on "Red" Faber, the White Sox veteran, yesterday and New York won the first game of the series 3 to 2. The score: New York 000 010 020—3 8 0 Chicago 000 100 001—2 11 1

ST. LOUIS, May 21.—St. Louis broke its losing streak of four straight games by defeating Washington 9 to 8 in ten innings here yesterday. The score: Washington 300 000 004 1—8 14 3 St. Louis 001 400 002 2—9 12 1

BOTH NEW YORK TEAMS HAVING OPPOSITION IN PENNANT RACE

NEW YORK, May 21.—Strong opposition for the champion New York clubs of the major leagues was developed during the week's games, the St. Louis Cardinals having climbed high in the national race while Connie Mack's Athletics added punch to the American League scramble. The New York clubs maintained their lead in the races, but the strength shown by the Cardinals and the Athletics was the outstanding feature of the contests in both leagues. The Cardinals continued their heavy hitting and scoring, leading all National clubs for the week. Their pitchers improved. In the west the Athletics bowled over rail opposition winning their sixth straight game yesterday. The Yankees won seven of their last eight games, including the victory over Chicago yesterday. Cleveland and Detroit suffered from heavy hitting attacks by their opponents, Washington, St. Louis, Chicago and Boston continued on the losing side.

The Herald delivered six times a week for 16c.

150,000 PEOPLE MAY SEE CLASSIC AUTOMOBILE RACE

INDIANAPOLIS, May 21.—The greatest crowd that ever witnessed a sporting event will attend the annual International 500-mile automobile race here May 30, in the opinion of officials of the Indianapolis Motor Speedway, where the vent will be held.

Last year's crowd, announced as 135,000, will be topped by 15,000 this month-end, if the advance sale indicates anything, it was said. The sales to date were declared to be many thousands ahead of the mark at this time last year.

There are three new elements which tend to make the coming event the most interesting in years. They are: More foreign entries since 1914; the initial trials of racing motors of not more than 122 cubic inches piston displacement—only about two-thirds as large as the smallest motor in pleasure cars in the United States; and the introduction of rotary valve engines in the racing game.

The speedway track, which has been declared by many leading drivers to be the "sportiest" course in the country, is oval in shape. Each lap is equivalent to 2 1-2 miles, requiring 200 laps for the 500 miles. The bed of the course is brick. The straight-aways are 3,301 feet long, there are 1,320 feet of quarter circles at each of the four bends and 640 feet of short straight-aways between the curves.

Handling the enormous crowd which annually throngs to Indianapolis every year for the race is an easy matter now, due to the experience gained in the past. Months ahead of time private homes are canvassed for spare rooms and, with the hotels, these are listed for the benefit of visitors. The hotels usually are filled by reservations made months before the race, and this year is no exception.

Co-operating with the city authorities, the speedway management sees to it that every street and road leading to the track is marked so that the visitors can not get lost. From early morning until the crowd has reached the speedway, several of the main roads are given over to one-way traffic, permitting five and six machines to drive abreast. Traction and train service operating from the center of the city every few minutes for the thousands who use that method of reaching the course.

Once at the speedway, the people are turned over to an "army" of attendants. These men are experienced in handling the gigantic crowd for most of them have been doing the work for years. There is no confusion, entrance gates all around the plant enabling a sufficient division of the crowd. It is a rare occurrence for one to be seated in the wrong place, so well trained are the attendants, who in addition to their several years of experience at the course, are given about two weeks of special

INSTRUCTION EACH YEAR JUST PRIOR TO THE RACE

Jimmy Murphy, international driving champion and declared to be the most consistent winner in all racing history, will be a starter. He arrived at the track early this year to prepare his new single-seater for the grueling contest. Howdy Wilcox, Indianapolis pilot; Ralph DePalma, for years the most popular driver to come here; Eddie Hearne, Cliff Durant, Joe Boyer and other veterans will compete for the \$50,000 in prizes. In addition, there will be drivers from France, Argentina and Germany.

The course record, established last year by Murphy, is slightly better than an average of 94 miles an hour for the 500 miles.

CELERY PRICES BETTER

The much cooler weather of the past week was ideal for the few growers who still had celery to cut and prices for the twenty-six cars which went forward have been much better. The weather, however, has not been so beneficial to peppers. Twenty cars of peppers were shipped from the Sanford district and eleven mixed cars. These latter exports consisted mainly of tomatoes and Irish potatoes with scattering shipments of corn and other vegetables. Growers seem determined to perfect some form of co-operative organization which will develop the proper method of marketing and continue to work toward such distribution as will put their products on a remunerative basis.—The Florida Grower.

AUTO THIEVES VISIT SANFORD AGAIN

Saturday night the car of T. J. Miller was stolen. The car was parked on the side of his home, later on after the report had been turned into the authorities, a search was started for the car and it was found at Altamonte Springs where the driver had smashed the car into a tree totally demolishing it. The car was brought to Sanford by the wrecking crew from William's garage, and the mechanics at that place stated that the car was a total ruin with every part on the car damaged and torn asunder.

FATTY ARBUCKLE IN MUSICAL REVIEW

LOS ANGELES, May 21.—Roscoe C. (Fatty) Arbuckle, motion picture comedian, left Los Angeles yesterday for Chicago to begin an engagement in a musical review at a cafe in that city under a contract said to guarantee him \$2,500 a week. It will be his first appearance in musical comedy since he entered motion pictures eight years ago. The Herald delivered six times a week for 16c.

SENATE OPENS WAY FOR BROKERS, BUT BARB BUCKET SHOPS

TALLAHASSEE, May 21.—A measure that would repeal present laws against trading in the stock market, grain or cotton market through brokerage houses in this state and which would instead make it unlawful only to operate so-called bucket shops was passed by the senate last night 24 to 1. The measure, if it becomes law would permit the operation of legitimate "wire" houses and brokerage concerns which heretofore have been tabooed but in a great number of cases have operated anyway. A bucket shop in the bill is defined as a house in which the dealings carry no real intent to buy the stock or other commodity but merely prove a guise for gambling. Senator Etheredge opposed the bill because of its repealing clauses. Mr. Stokes in supporting the measure introduced by Senator Butler, declared that the legitimate brokerage concerns were permitted to operate in other states and in view of fact that many tourists who come to the state in the winter want to deal in the markets he believed the bill should pass.

A form of rust proof steel has been invented in Germany for use in dentistry. For cutting thick weeds a new garden trowel has been given one saw toothed edge.

KIDNEY TROUBLE BECOMES SERIOUS
"Suffered with severe headache, backache and pains in my legs and under my shoulder blade. My kidneys and bladder were in bad condition. I was weak and nervous and felt tired and worn out. Walking made me short of breath. Every morning my face and hands were bloated. Medicine failed to help my condition and doctors advised an operation," writes Maggie Nelson, Mosdale, Fla. "Fortunately I read about Foley Kidney Pills, tried them and got relief." Sold everywhere.—Adv.

According to the Lake Worth Herald, plans for planting 1,000 additional acres of sugar cane in the Everglades in Palm Beach county this summer have been announced by the Florida Sugar and Food Products Company, owner of the sugar mill east of Canal Point that the past spring has produced the first plantation white sugar ever made in the Glades. The Herald adds "before next year the sugar mill company expects to build railroad tracks into its fields, permitting quicker and cheaper transportation of the cane than is possible with barges. Reloading will be obviated by use of the railroad."

Poultry Ranks High in Food Efficiency

Hen Follows Cow and Pig Producing Human Food, Leader in Profits

By SETH W. SHOEMAKER, Director, The School of Agriculture, International Correspondence Schools, Scranton, Pa.

In these days when efficiency is eagerly sought after and extolled many extravagant statements are made in regard to the efficiency of farm animals in producing food for mankind.

Although there are various ways of figuring this, the following table, compiled by one of the highest food authorities in the country, will prove interesting reading:

Human Food Produced by Farm Animals from 100 Pounds of Digestible Matter Consumed

Table with 3 columns: Animal, Product, Solids. Rows include Cow (milk), Pig (dressed), Cow (cheese), Calf (dressed), Cow (butter), Poultry (eggs), Lamb (dressed), Steer (dressed), Sheep (dressed).

According to the figures of this table (which, of course, presents only one side of a rather difficult problem), the cow easily leads all other domestic

animals as a producer of human food. A cow for 100 pounds of digestible nutrients in feed will yield 139 pounds of milk containing 18 pounds of solid matter, practically all of which is digestible. The pig ranks second and poultry third.

On the same basis of comparison, the pig stands second with 25 pounds of dressed carcass. When the water, bone and gristle is deducted there still remain 15.6 pounds of edible dry meat.

The steer and sheep yield less than 10 pounds of dressed carcass per 100 pounds of feed consumed and nearly one-half of this is water. Deducting this and the bone and gristle there remain only from 2.6 to 3.2 pounds of water-free edible meat.

Big Vitamine Source
It has been shown in the experiments of Dr. E. V. McCollum, of Johns Hopkins University that vitamins in

Although animals do not produce these vitamins they obtain them from the green leaves of plants and concentrate them for the use of human beings.

In vitamine production, the cow comes first and the hen second. The financial aspect is still more favorable to the hen and puts her in first place. Her marketable products have a higher value than those of the cow, as 100 pounds of digestible matter consumed in the feed amounts to about 13 dozen of eggs, figuring 1 1/2 pounds to the dozen. Although market prices vary widely in different sections of the country, the present value of the hen's production on this basis would be from \$4 to \$5 and that of the cow would be about \$3.

The hen in addition possesses great advantages to the city dweller in that a comparatively large number can be kept on a small area in the city and can be more easily handled than any other domestic food producing animal, and with less objection from the neighbors.

On the farm the hen also is a very efficient creature as she picks up and makes use of a large quantity of feed that would probably not be utilized by any other livestock.

person who pledged for Christian education will pay up for the two years, past due. These amounts, for each person are very small but when each of these are put in one sum they will be a dormitory that will mean much to Southern Methodism and our state at large. The plea comes won't you be prompt in doing your lit.

MINISTERIAL RELIEF OCCUPIES A PLACE IN DELIBERATIONS

INDIANAPOLIS, May 21.—Dr. Henry B. Master, of Philadelphia, today submitted to the Presbyterian General Assembly the 68th annual report of the Presbyterian Board of Ministerial Relief and Sustentation, of which he is general secretary. He said the fact that more than one-half of the Presbyterian churches had a membership of less than 100 people made necessary a pension system sustained by the larger and richer churches. The Presbyterian church was a pioneer in such a pension system but it was inadequate.

The Relief Department of the Board needed \$4,500,000 a year for income for retired ministers, widows and orphans of ministers, and for support of the three Presbyterian homes and the tuberculosis sanitarium. The board needed another \$500,000 a year for the church's share of annuities, which is one-fifth supported by the previous savings of the annuitants.

Dr. Masters pleaded for an endowment fund sufficient to care for the growing demands of pensioners, and asked the General Assembly to set up a new laymen's movement to raise an additional endowment of \$15,000,000 during the next three years.

PRESBYTERIAN CHURCHES ARE DOING THEIR PART IN FEEDING STARVING EUROPE

INDIANAPOLIS, May 21.—Dr. H. B. Master, of Philadelphia, today reported to the Presbyterian General Assembly as American Secretary of the Alliance of Reformed Churches throughout the world holding the Presbyterian system.

After reviewing what has been accomplished in the sending of clothing and shoes to Europe, and fixing approximately at \$42,300,000 the sum sent abroad by the constituent churches, the report, referring to enlarging field of evangelization says in part:

"More than half of the 100,000 of our brethren in Russia live along the Volga river in Southeastern Russia, where the famine is worst. And now another fact is beginning to loom up—that there is a great movement in European Russia, east and southeast of Moscow, reaching to the Ural mountains, where hundreds of thousands who have left the Greek church have formed themselves into congregations called Presbyterianski, because they have elders. If they need help, shall we refuse to help them? More than this, we cannot say at present, we must wait for the develop-

CENSUS OF STATE TO BE TAKEN TO PROVIDE FOR REAPPORTIONING

TALLAHASSEE, May 21.—The senate today passed Senator Phillips' bill to provide for a census of the state in 1925 on the basis of which the 1925 session of the legislature could reapportion if the constitutional amendment on the subject is ratified.

The measure carries an appropriation of \$75,000, and provides that the census be taken from Feb. 15 to April 15. The figures under the terms of the bill would be available for the legislators by the latter date.

PARIS, May 21.—Napoleon's bay mare, which he is supposed to have ridden during the battle of Waterloo, has just been discovered among the miscellaneous odds and ends of the Louvre museum. After the final fall of Napoleon the mare was bought by an Englishman named Gleaves, who kept it until it died and then had it stuffed and presented to the Manchester natural history museum in 1841.
