

Manager Tells Ward's Story Outlook For 70's Tremendous

Montgomery Ward of the Seminole Plaza in Casselberry has been operating under the direction of a new manager this summer. Ben L. McMillon took over reins as store manager in late May.

A veteran of 10 years in the store management, McMillon lost hold the position of District Operating Manager of the East Florida Division.

He was especially pleased to take over the management of this Montgomery Ward. "I've always wanted to come back to Florida," he said with a grin, "especially to the Orlando area."

As a store manager "for another large retail store" in Bowling Green, Kentucky, McMillon has traveled extensively in Florida. He grew fond of "The Sunshine State."

The Seminole County store opened in 1967, is one of the largest retail employers in the area. It covers 41,000 square feet of sales space. And all

Military Physical Errors Costing America Millions

By BROOKS JACKSON
Associated Press Writer
WASHINGTON (AP) — Sen. Richard S. Schweiker called for improved military physical examination after a government report disclosed the armed services continue to accept men who are physically unfit to serve.

Some men recently undrafted were found to have only one kidney, deformed by polio or missing part of a thumb, the Pennsylvania Republican said in releasing a report by the General Accounting Office.

He called on the Pentagon to improve its screening procedures to weed out men physically unfit to serve before induction.

Nearly 40,000 servicemen who were discharged in fiscal 1968 and 1969 within a year of their enlistments were released because of prior physical defects, Schweiker said.

Among the cases, the report said, were those of an Air Force man with a large scar from a kidney removal operation, a Marine released when it was found he had only part of his left thumb, an Air Force man discharged for an absence of muscles on the left side of his trunk, and a man whose child hood bout with polio had left him with his left leg bent.

The Pentagon spent \$13.6 million for pay, travel, allowances and uniforms in fiscal 1969 alone for men discharged for such prior defects, the report said.

Rickover said the long-standing groups are threatening to end chances of a postal reform bill emerging from Congress this year. (Page 5A)

Budget Increased, New Taxes OK'd

With the official adoption last night of a \$22,849,549 county school budget, the Seminole County School Board levied a tax of 15 mills, an increase of 2.3 mills over a year ago.

Walter Teague, school finance officer, explained at last night's meeting the extra 2.3 mills would go toward the debt service incurred by the sale of bond anticipation notes by the board to fund the cost of school construction.

Teague said the extra 2.3 mills would be paid off in six years and that county saved money by receiving six per cent low-interest anticipation notes in contrast to selling the bonds for 7.5 per cent interest at present market prices, which must be repaid over a 20-year period.

Coupled with the largest budget in Seminole's history, the school board also approved a 15 mill tax rate, an increase of 2.3 mills over a year ago.

President Nixon's top economic adviser discloses drop in tax revenues resulted in a \$2.9 billion deficit for past fiscal year but he calls it a good sign. (Page 2A)

Parents Seek Kirk's Support

By BILL SCOTT
Some 300 parents of children attending Pinescrest Elementary School in a meeting last night asked Gov. Claude Kirk to intervene in the Seminole County desegregation crisis with the federal government and stop the implementation of the county school board's integration plan which will cross-bus students from Pinescrest to Goldboro elementary schools and return.

The parents, aroused over the school board's plan to pair Goldboro and Pinescrest by shifting the fourth and fifth grades at Pinescrest to Goldboro and relocate Goldboro's 1.3 grades to Pinescrest met for four hours in the American Legion Hall to plan opposition to the board's plan on the grounds that it requires the cross-busing of white and black students to accomplish integration.

Many parents, wrought with emotion, accused the county school board of selling out the Sanford area schools to keep the "city white status" of South Seminole elementary schools.

Ben Lake, Lake Mary and several other institutions are not expecting any or very few blacks to enroll in those facilities when school opens August 3 into the board's new integration plan.

A six-member committee composed of Robert Ro-

People Forget About Money

By JANE CASSELBERRY
If you are one of the people who deposited a portion of the more than \$5,000,000 in Florida financial institutions and forget about it, State Comptroller Fred O. (Bud) Dickinson is looking for you!

Local banks report that every effort is made to contact owners of dormant accounts at their last address before remitting the accounts to the state. Roy Wright, cashier at Sanford Atlantic National, indicated that delinquency is not amount to a lot as far as his bank is concerned.

Harold Brooks, cashier at Florida State Bank of Sanford, said that bank average around 10-12 accounts a year classified as dormant and turned over to the state, usually amounting to over \$25 in a single account.

"There were quite a few when the Navy was here as they were transferred around the country and statements apparently never caught up with them," he stated. He also pointed out that many of the dormant accounts were opened by clerks or church groups who may have dissolved or the accounts were forgotten.

Gene Estridge executive vice president of the First Federal Savings and Loan of Seminole Inc. stated that although his institution also falls under this law, they have not been troubled with abandoned accounts.

The money, ranging from pennies to \$5,000, is only part of the abandoned property waiting for the rightful owner of the Division of Abandoned Property administered by Dickinson. All contents of safety deposit boxes also revert to the state if they have been abandoned for 15 years and may be disposed by auction following diligent efforts to find the owner. Dickinson insists on full value of items so that the liquid value can be returned to the owner, if the owner is ever found.

In the past five years his office has returned over half-million dollars to pleased Floridians. "You have to fight with some people to give them their money," reported Dickinson. "When people receive our notice, they sometimes misinterpret and think the state is billing them."

Individuals need not fear that they will lose any of their money reverting to the state after 15 years abandonment. The money is put in a trust fund and attempts made to locate the rightful owner. In best generated goes into the bene-

Sanford May Furnish Water For New Transient Complex

Sanford City Commission Monday night indicated a willingness to help in the establishment of a 400,000 two-bedroom transient type residential complex by furnishing water and sewage. If the developers would pay the costs.

While not officially acting to adhere to the request of Dynamic Developers to provide water and sewage disposal to the 104 units to be constructed on the west side of U.S. 17-92 south of the city driving range, the commission approved willing.

City has previously set a policy not to allow new hook-ups for sewage and water unless it was inside the city limits, but apparently there is a feeling at least by some of the officials to overlook this policy, except where it affects residential dwellings and transient units which are a commercial venture.

Commissioner Thomas McDonald moved to table the request explaining he would like to see the request a part of the overall negotiation now under discussion between the city commission and Monroe Harbours Inc. over the restoration of sunken docks in the west side of the lakefront facility.

Commissioner J. A. Crapp, the city manager was instructed to work with the developers on costs requirements and come back to the commission at next meeting.

Commissioner tabled a request from Monroe Harbours Inc. to sell larger than 24 foot boats and sublet a portion of the facility to Huntley Boat Sales.

The Huntley group wants to sublet a portion of the slips and facilities now contracted to Monroe Harbours Inc.

Commissioner Thomas McDonald moved to table the request explaining he would like to see the request a part of the overall negotiation now under discussion between the city commission and Monroe Harbours Inc. over the restoration of sunken docks in the west side of the lakefront facility.

Boom Seen For Sanford

The Board of Directors of the Greater Sanford Chamber of Commerce, meeting last night in that organization's conference room, were enthused by the reports of economic uplift for this area that now seem assured. Chairman Vernon Mize, Jr., of the Long Range Planning committee and Harold Kastner of the Port of Sanford authority vied for the position of "top strategist" in outlining recent developments in their areas of effort.

Mize commented on the recent efforts of the state's Department of Transportation

Local Census Drive Termed 'Unproductive'

The efforts of the committee under the chairmanship of Alex McKibbin and Harold Rowland in hosting the census figures for Sanford were not productive of the results hoped for. This was McKibbin's report to the Greater Sanford C. of C. directors Tuesday night at their meeting.

The committee had the full cooperation of the newspapers and the radio station in alerting the public to the importance of being enumerated in the official population figures for the city. Strategically located posters with official Census Bureau forms attached had been used.

An estimate of the cost of a door-to-door canvass, based on averages, is \$7,000. The addition of the estimated 2,000 names to the official figures would not justify this expense, it was decided.

The observation was made that even though the closing of the navy base cost the city about 3,500 people in its population, the official figure, 11,249, for Sanford did not reflect such a drop. This, it was felt that actually there had been growth, except for the drastic loss occasioned by the moves of navy personnel; and civilians associated with the air base operation.

At Last! New Sanford Zoo Gets Official Home

Congratulations are very much in order for the Sanford City Commission which has now cut through the underbrush which has hampered and hindered the creation of a proper zoo.

Official action has now secured the 12-acre site which stretches back from Seminole Boulevard southward to Fulton Street and looks north across Lake Monroe.

It is the first and essential step towards creation of a tourist attraction which will be and could be the beginning of wise use of the great natural beauties which that entire area west to I-4 provides.

It must be understood by all, however, that securing of the site and its designation of the area as the "official new site for the Sanford Zoo" is only a beginning.

The ending is what concerns us most. For we are most concerned about the continuing and unhappy plight of the Sanford Marina and its facilities gives eyeball witness as to the difficulties which come from short-sightedness.

Let this not be the case with the new Sanford Zoo. When the city commissioners make up their minds to the point where the type of zoo, the size of the zoo and the operation of the zoo is definable, will come the critical issue of maintenance.

We believe that there should be no minimizing of the costs of operating a zoo which will be a credit to the name of Sanford. We believe that this needs to be faced with honesty and integrity.

The hazards and the difficulties of zoo attractions should not, of course, minimize the benefits to visitors — home folks or tourists — of a modern

zoo where the animals and birds and water creatures can be seen and enjoyed without the awful foaling, too so obvious in the present zoo, of inadequate care.

This action by the city commission is sure to produce a revival of all the boosters of the zoo to an interest where many suggestions will flow into City Hall.

We would be happy to aid in this expression of public opinion, and advice by encouraging our readers to write to us so that the widest sort of debate will take place before action is taken which might be regretted.

"New Sanford Zoo" — words to charm and encourage! Words that can well break the apathy which has encompassed other moves to encourage tourism. This is the kind of break-through we need and endorse and encourage!

Registration NOW!

Remember — "There's Good News Tonight" which used to come out of loud-speakers at Gabriel Hester started his newscast in yesterday.

Well, we'd like to repeat that again today and most happily in reference to the registration of voters which is now taking place in Seminole County as the Aug. 8th deadline draws closer.

Statistics are being compiled and there appears to be a lively contest — entirely unplanned and unexpected — between the eligible voters who are using the Court House in Sanford and the branch office in Seminole Plaza, Casselberry, to file their forms.

How welcome this word from Mrs. Camilla Bruce, registrar of voters, of the eligibility of the registration. Of course the issues in the campaigns, the vigor of the candidates, the important officials to be elected should do this and more.

Yet the record is a very poor one in this part of the state. And August 8th is the cut-off date. One group of citizens, however, whose birthdays, when they will obtain their legal majority, fall between Aug. 8 and the primary elections, Sept. 8 and 29 and the general election, Nov. 3rd MUST register NOW!

The unusual dates for the primaries has allowed the shortest of times between these partisan balloting and the pay-off election. Now that the candidates have officially "qualified" the fust and fury of the campaigns will increase.

Yet none of these efforts are worth anything if they do not result in the most desirable will be voter registration — registration before August 8th!

Joint Chiefs Of Staff Power May Be Stripped

By JIM ADAMS
Associated Press Writer
WASHINGTON (AP) — A blue ribbon panel's sweeping reorganization plan to strengthen civilian control over the U.S. military establishment has been met in Congress with some enthusiasm — but no commitment.

The strategic studies in all three services would go under control of one military command, all land-sea-air conventional forces under the control of another, and all supply and logistics under the control of a third.

These three military commands would be directly responsible to the central military operations staff.

Postal Services Action Believed To Be Doomed

By GENE BERNHART
WASHINGTON (UPI) — Pres-idents from special interest groups and from the postmaster's office are threatening to post reform bill — and a pay raise for the nation's mailmen — out of Congress this year.

Conferees from the House and Senate were in their third week of meetings today trying to iron out differences between separate bills passed by the two bodies last month. The legislation calls for the post office to be turned over to an independent government agency to be run by a board of governors.

A related proposal, sure to stir controversy, would strip the Joint Chiefs of Staff of its military operations functions. These would go to a separate staff under a general or admiral directly accountable to the civilian deputy secretary.

The Fitzhugh panel did not say who should be the top military operations officer.

Putting the operations under a single officer was turned down by the Hoover Commission 20 years ago when the idea was opposed in Congress.

The military chiefs still would be uniformed heads of their respective services under the Fitzhugh panel proposal, and would retain authority to re-

Poisonous Pollutants Are Stretched On Seaboard

By United Press International
East Coast residents faced more air pollution near the hazardous level today. The weather bureau blamed an atmospheric inversion, a New Jersey official blamed automobiles and a congressman blamed the Senate.

The Atlantic Coast, from New York to Atlanta, has been covered for four days by a polluted haze trapped by hot and humid air. And the weather bureau reported it wouldn't go anywhere for a couple of days.

The temperature reached its highest in New York Tuesday, the temperature-humidity index was 81. A TH of 70 or higher is considered uncomfortable to virtually everybody.

Forecasters said the weather bureau said, "There's no relief in sight." Cool air that was expected to move from Canada will stay there.

"It's a low. It's not going anywhere. What we need is a high before we can expect some relief, train and equip their forces."

Fitzhugh acknowledged the joint chiefs are "less than enthusiastic about the panels' reorganization ideas."

The civilian operations chief would be one of three deputy secretaries sharing the Pentagon's major responsibilities.

A second would be in charge of the major cost items: weapons and equipment research and procurement, military bases and manpower. A third would be in charge of weapons and equipment tests and evaluation.

The strategic studies in all three services would go under control of one military command, all land-sea-air conventional forces under the control of another, and all supply and logistics under the control of a third.

Space Agency Prediction Women May Be Flying U. S. Spacecraft By 1978

By HOWARD BENEDICT
CAPE KENNEDY, Fla. (AP)—Five women who lived two weeks on the bottom of the sea have increased the odds that lip-stick and powderpuffs one day will be standard equipment aboard American spaceships.

But space agency officials caution women's "big groups" not to get their hopes too high, that it will be eight or nine years before a female flies in a U.S. spacecraft. And then it may not be an American, but a woman from another country with a particular scientific talent.

The National Aeronautics and Space Administration plans late in this decade to have space stations orbiting the earth with as many as 50 persons aboard. They will conduct scientific experiments and engineering experiments and earth resources surveys.

'Kirk's A Funny Man ...'

TALLAHASSEE (UPI)—Even Treasurer Rowland Williams admits Claude Kirk is a funny man. But Williams says it's no laughing matter that Claude Kirk is a governor of Florida. Williams Tuesday attacked Kirk's call for trimming Williams' powers in investigating state funds as "the desperate grasp of a radically troubled man."

KINDERGARTEN grads at the Altamonte Springs Seventh-day Adventist Bible School proudly wearing their white caps took part in graduation exercises. Front row, left to right, Ann Barryman, Johnny Bullock, Tina Umhock, and Barry Ayres; back row, left to right, Thelma Barryman, Kevin Barry, Mike Keyner and Julie Steele. A total of 75 youngsters attended the school last week. (Maryann Miles Photo)

Peddlers Under \$1 Million Bond

CORAL GABLES (UPI)—The five men arrested in another landmark U. S. drug raid awaited preliminary hearing on Thursday behind cell bars—three of them under \$1 million bonds.

Some \$30 million in cocaine and a C-46 airplane were part of the haul late Monday in a raid agents pulled off after 23 days of continuous surveillance at an apartment near Coral Gables.

Two of the men were arrested as they unloaded four large cartons of the narcotic at the apartment after picking it up from the C-46 parked at Miami International Airport. They were Marco Esoro, 44, and Jorge Vazquez, 31, both from Chile, but a third suspect escaped.

Trustees Approve Contract

Seminole Memorial Hospital Pathologist Dr. Fred Ionta has signed a 10-year contract with hospital trustees. Robert Bessner, hospital administrator, confirmed that Dr. Ionta had returned a signed contract given to him a week ago by the trustees after a several month hassle between the pathologist and the board.

McAllister Elected President

Life Underwriters Association of Sanford elected officers for the coming year at the annual meeting held this month in Casselberry at Gigi's Restaurant.

Granddaughter Of Mr., Mrs. C. S. Lee Married In Double Ring Ceremony

A double-ring ceremony on Saturday, July 25, at 5:30 p.m. in the First United Methodist Church of Sanford united in marriage Beverly Ann Jones of Lincoln, Neb., and William James Coyle of Seward, Neb.

Parents of the bride are Rev. and Mrs. John Louis Jones and Mrs. John W. Coyle of Seward, Neb. The bride is a granddaughter of Mr. and Mrs. C. S. Lee of Oviedo.

The bride's father officiated at the candlelight ceremony before an altar decorated with baskets of white gladioli and chrysanthemums and two nine-branched candelabra. Nuptial luncheon was given by Mrs. Clayton Peck, organist.

Given in marriage by her grandfather, C. S. Lee of Oviedo, the bride chose a formal gown of white silk linen with scooped neckline and elbow length sleeves. The A-line skirt extended to a chapel train and her veil of Chantilly lace fell from a lace and pearl-encrusted tiara.

Laurie Jones, sister of the bride as junior bridesmaid, wore a gown of pale turquoise silk lined and embroidered organza. Her headpiece was a Dior bow from which fell a brief veil of matching pale turquoise illusion and she carried a Colonial nosegay of white daisies.

Danny Seibold, Lincoln, Neb., served as best man and usher were Rex Clonts and Arthur Evans, cousins of the bride, Oviedo, and Archie Gresham and Scott Malbon, both of Tallahassee.

The bride's mother wore a pastel pink lace gown with matching accessories and corsage of pink, cyrindium orchids. Mrs. Coyle chose for her son's wedding a pastel aqua silk gown with accessories of a harmonizing shade and a corsage of cream cyrindium orchids.

For Merritt! Bridal Coffee Reflects Elegance

By DORIS WILLIAMS Society Editor
An elegant bridal coffee at the Hibiscus Court home of Mrs. George D. Bishop Jr., July 23, honored bride-elect, Miss Merritt Phillips. Co-hostesses were the lovely affair was Mrs. Frank Donahoe.

Greeting the parade of lovely guests at the door was Mrs. J. Curtis Spencer, who presented them to the receiving line, which included the hostesses, Miss Phillips and her mother, Mrs. W. M. Phillips Sr.

Exquisite is the word to describe the table which was covered in yellow bridal satin and overlaid with white silk illusion, bordered in wide hand-clipped lace. The same lace medallions were repeated in antique motifs over the ivory cloth. A peachy pink bowl was featured at one end of the table and silver appointments were attractively arranged with a tempting variety of divine party fare.

Reception Honors The Proctors Couple Marks Anniversary

Mr. and Mrs. Clifford Flemming Proctor Sr. were guests of honor at their home, 1901 S. Sanford Ave., Sunday, July 26, 1970, in celebration of their 25th wedding anniversary.

Hosts for the golden reception were their three children, Mrs. Robert W. (Marcia) Lippincott, Lyle Mary; Clifford P. Jr., Thiusell and Robert J. Greasley, Colo.

C. F. Proctor, Sr. and Margaret Lyle Burns were married July 28, 1920, at the home of the bride's parents, the late Mr. and Mrs. Robert M. Burns, Terra Haute, Ind.

The dining table was covered with a gold cloth and overlaid with Irish linen and lace. A punch bowl, given to his parents by Clifford Jr., graced one end of the table. At the opposite end, was a magnificent four-tiered cake, separated by columns and swans. Centering the table was a beautiful arrangement of gold-tipped gladioli and gold-tipped mums, flanked by gold tapers. Handmade mints and assorted nuts topped the picturesque table.

The hostess gifts to the bride-elect were porcelain figurines and an Italian wine decanter and matching glasses. About 150 called at the elaborate coffee during the appointed hours.

Arrangements of white gladioli, chrysanthemums, daisies and garlands of greenery decorated the church Social Hall for the reception, which was in charge of the Woman's Society of Christian Service. Miss Sally Coyle, sister of the bridegroom, Seward, was in charge of the bride's book and Julie and Bill Temple, niece and nephew of the bride, Cincinnati, Ohio, distributed the rice bags to the guests.

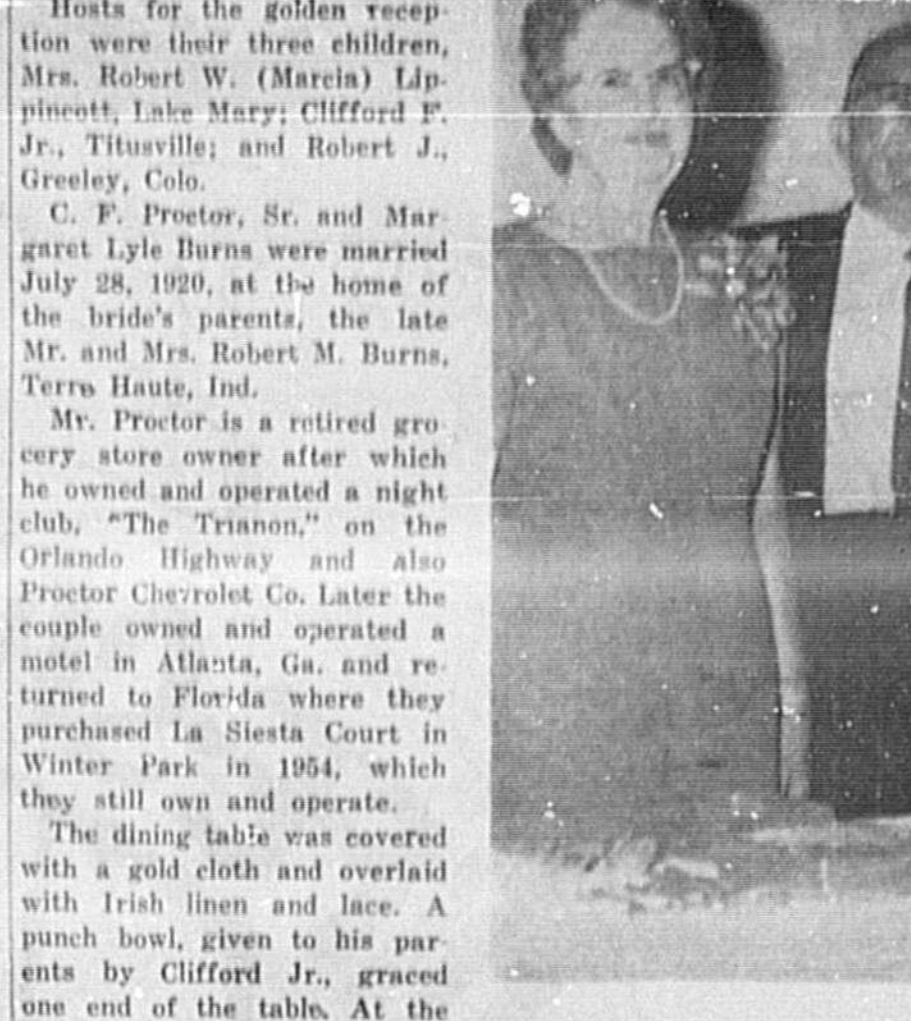

After a wedding trip to Florida's west coast and the Smoky Mountains the couple will reside in Lincoln, where the bride is an English instructor at the University of Nebraska and the bridegroom is an instructor at the Nebraska Reformatory and Penitentiary.

Guests attending the wedding from this area included Mr. and Mrs. C. S. Lee, Mrs. W. P. Carter, Mr. and Mrs. W. R. Clonts, Rex, Janet, Susan and Vivian Clonts, Mr. and Mrs. John W. Evans, Arthur and David Evans, Mrs. J. H. Lee, Miss Kathryn Lawton, Mr. and Mrs. W. H. Martin, Mr. and Mrs. H. Webb, Mrs. Tiny King, Oviedo; and Mrs. J. H. Lee Jr., Miss Gail Lee, Mrs. W. L. Carter, Sanford.

FLORIDA FUN-TIME IS FROZEN FOODS-TIME!

Now that Summer's here, you want to make every weekend a mini-vacation. You want to take advantage of every time-saving opportunity you can think of. Forget cooking! Enjoy the convenience of frozen foods. They've come a long way, you know, since the early days of TV dinners. Why, now you can enjoy excellent frozen "ready, ready" meals of the day. Frozen fruit juices are better than ever. Orange, apple, grape — all your favorites. And you can serve complete breakfasts of scrambled eggs, sausage and country-style fried potatoes, all pre-cooked and quick-frozen. For lunch just drop a couple of cooking bags of turkey slices and gravy into boiling water, and in a few minutes you'll have the tastiest open-faced sandwiches imaginable. Go international for dinner! Your freezer can be your passport to a world of good eating. Here's a popular German dish, Sauerbraten, Spätzle, Bavarian red cabbage and prune-apricot compote. A Chinese choice — chicken chow mein, fried shrimp, sweet-and-sour sauce and fried rice with egg. How about a South-of-the-Border specialty, Tacos, tamales and pinto beans. If you prefer to add your own side dishes, try separate main dishes like turkey tetrazzini, Welsh rarebit or lobster newburg. Indulge yourself for dessert with a thick rich German chocolate cake or a tropical key lime pie. All of these time-saving specialties are prepared by the world's finest cooks and bakers, then quick-frozen for your convenience. Go ahead! Make this weekend a mini-vacation. Let your freezer and oven do the work while you relax.

Poached Salmon Sauce

By CECILY BROWNSTONE
Associated Press Food Editor

A New York neighbor of ours who hails from Kentucky tells us that when she was young she had Aunt Sue who served delicious suppers to her small nieces and nephews.

When the children would thank Aunt Sue for a lovely supper, Auntie always piped up briskly, "And what about the company?"

"That's how we feel about Poached Salmon with Ripe Olive Sauce. When someone praises the salmon, we're inclined to say, 'And what about the sauce?'"

This sauce is a delectable combination that we based on a Maryland recipe. You'll find it's a really interesting accompaniment for the chilled fish.

POACHED SALMON WITH RIPE OLIVE SAUCE

1½ quarts water
1 tablespoon salt
Leaves from 2 ribs celery
1 small onion, peeled and sliced
12 peppercorns
6 whole allspice
4-pound thick piece fresh salmon (center cut)
Lemon slices and whole ripe olives, for garnish
Ripe Olive Sauce

Into a large saucepot (about 3 quarts) turn the water, salt, celery leaves, onion, bay leaves, peppercorns and allspice; bring to a boil.

Wrap salmon in a large piece of cheesecloth; bring ends of cheesecloth to center and tie leaving ends free.

Cramping the cheesecloth ends, lower salmon into the saucepot; cover tightly and simmer until the fish is opaque through — to 10 minutes per pound or 35 to 45 minutes in all. Liquid does not have to cover fish.

Cool salmon in liquid; remove salmon (holding the ends) and allow to stand on a rack to drain and cool for about 30 minutes.

Remove salmon and carefully pull off top and bottom skin. Scrape off any grayish part under top skin so pretty salmon color is exposed. Cover and chill.

Garnish with lemon and whole olives. Serve with Ripe Olive Sauce.
Makes 8 servings.

Delicious Chicken

By AILEEN CLAIRE
NEA Food Editor

Chicken remains a popular dish with most families. It is higher in protein and lower in calories than many other popular meats. But even before these facts were known, chicken was a favorite in most regions of the United States because of its flavor. Even today fried chicken heads the list of ways men like their bird prepared.

A delectable chicken with lemon, sprinkled with Parmesan cheese and browned under a broiler, is a variation of the "fried."

For another change, serve marinated tomato wedges, canned green beans and chopped onion rather than a tossed salad or coleslaw with the chicken.

CHICKEN WITH LEMON

1 broiler/ryer chicken, cut in serving pieces
1 teaspoon salt
¼ cup butter or margarine
1 tablespoon lemon juice
1 teaspoon grated lemon rind
2 teaspoons sugar
¼ cup light cream
2 tablespoons grated Parmesan cheese
1 lemon, thinly sliced
Sprinkle chicken with salt. Brown in butter in skillet 20 minutes. Cover, cook over low heat 20 minutes. Remove chicken. Stir lemon juice, lemon rind and sugar into dripping left in skillet. Add cream slowly, bring just to a boil. Return chicken to skillet, heat a few minutes. Arrange chicken on flame-proof serving dish. Pour over sauce, sprinkle with Parmesan cheese. Garnish with sliced lemon, dot with butter. Brown under broiler. Makes 4 servings.

Philly Raspberry Ice Cream

By CECILY BROWNSTONE
Associated Press Food Editor

Each year we have lots of favorites of ice cream, but there's one we haven't found around. Raspberry! And that's the ice cream we made for our issue recently, using readily available frozen raspberries in syrup.

Great success! If you try this you'll find it as much as our readers did. This ice cream has the true taste of raspberries and long after it is gone, its perfume is likely to linger in your memory.

PHILADELPHIA RASPBERRY ICE CREAM
3 packages (each 10 oz. from 1 cup sugar
3 cups (1½ pints) heavy cream
5 cups milk
1 tablespoon vanilla
½ teaspoon red food coloring
Cracked ice

Rock salt available at hardware stores.

Into a large fine-mesh strainer set over a large mixing bowl, turn the raspberries and their syrup. As syrup drips through, force through the berries to eliminate seeds and pure; discard seed residue.

To the raspberry syrup and pure, add sugar, cream, milk, vanilla and red food coloring. Fit a 4-quart freezer can into the ice-cream freezer; tub or insert dasher. Pour raspberry mixture into can. Cover can and attach cranking mechanism; latch securely. Turn freezer with cracked ice and rock salt and freeze and ripen according to manufacturer's directions for hand-cranked or electric ice-cream freezer. (If you have an electric ice-cream freezer, you may want to follow the General Directions below, coordinating them with the manufacturer's directions for your particular freezer.)

Makes 3 to 3½ quarts.
NOTE: If you have a 2-quart ice-cream freezer, cut the ingredients in half.

GENERAL DIRECTIONS FOR ELECTRIC ICE-CREAM
Put 1 quart cracked ice into tub. Sprinkle ½ cup rock salt evenly over ice. Continue packing tub with cracked ice and rock salt in above proportions. Fill the tub almost to the top of the freezer can. Plug in freezer. As churning starts, level of ice will drop. Add more ice and salt in above proportions to keep level almost to top of can. Churn about 20 minutes, adding ice and salt as needed; check drain hole occasionally to make certain it is clear, allowing time to drain the fat and remove cranking mechanism; wipe top and around top of can. Remove top and check to see if ice cream is frozen. If not, hold its shape but is very soft. If not frozen enough, recover and continue to freeze another 2 to 3 minutes. When frozen, remove dasher and scrape off ice cream adhering to it. With a long-handled wooden spoon stir ice cream, blending firm and soft portions; pack down in can. To ripen and firm ice cream in ice-cream freezer, cover can and plug hole in cover with a cork or a wad of plastic wrap. Fill freezer and pour off water in tub through hole in side of freezer. Repack the freezer tub with more ice and salt using 1 cup salt for each quart of cracked ice. Pack ice cubes over top. Cover top with a folded heavy turkish towel or other heavy material. Let ripen for 3 hours.

To ripen and firm ice cream in home freezer: Instead of repacking ice cream in ice-cream freezer, lift ice-cream can out of tub; cover and plug hole in cover with a cork or a wad of plastic wrap; place in home freezer to ripen. Or transfer ice cream to suitable containers, cover tightly and place in home freezer to ripen. Serve within 4 hours; left longer in home freezer, ice cream will lose its distinctive soft texture and harden too much.

Medina Honored
WASHINGTON (UPI)—Capt. Ernest Medina, one of the defendants in the Vietnam My Lai massacre, will be the honored guest at a "Mexican-American Fiesta" in Montrose, Colo., in August.

A Medina public relations man, Wayne Smith, said Medina will go to Denver Aug. 7 for news interviews, then to Montrose Aug. 8 for the 4th annual fiesta, which this year will partially be a fund raiser in his behalf.

Governor Hails Sanfordite

Man 70, Finds \$900, Returns To Owner

MRS. R. B. THOMAS JR. Two weeks of vacation Bible School will begin Monday, August 2 at the West Sanford Free Will Holiness Church. Activities are scheduled for 9:00 a.m. until 12 noon.

Children and adults of the community are cordially invited to share in the joy of Vacation Bible School. Mother Ruby Wilson, Pastor.

The right to vote is one freedom granted every reblooded American of voting age.

The slogan, "A voteless people is a voiceless people," in every sense is a true statement. How can you have a meaningful voice in governmental, political, state and local affairs unless you are registered to vote and exercise that right by voting.

In this rapidly changing society, the best way to be heard where in political issues are concerned, is by voting.

August 8, 1970 is the deadline for voter registration. After that date, the books will be closed and you will have no voice. Are you a registered voter??

Dan Bentley Sr. of 2701 West 18th Street, Sanford, received a letter from Florida's Governor and Claude R. Kirk, congratulating him for being one of few honest Americans.

Dated June 11, 1970 and we quote: "This is to let you know how much I admire the honesty of one program to another; grant streamlining to save money and manpower hours, and decentralization, giving local governments more say in federally-backed programs."

However, a later ruling by the Florida Supreme Court on definition of possession resulted in the revocation of charges by Herring. Still to be served with Circuit Court warrants are: Tom A. Fisher, Leonard Schilderhouse, Debra Lynn Fitch, Debra Capps and Charles A. King.

A second raid on the same apartment two weeks later by sheriff's department resulted in five misdemeanor arrests against Susan Yenich, Robert Hash, Kenneth Cox, Robert Chapman and John Teppeloff. These charges were dismissed by Peace Justice Thomas Lovett because the sheriff's department held the warrants four days before making the raid.

Herring said a week ago, he would bring these cases before the Seminole County Grand Jury and seek to have the five indicted.

One of the defendants, Abbie Hoffman (who is out of jail via the bonding route) makes application for and receives permission to go to Cuba!

"Can't you just imagine what would happen if he should decide NOT to return for sentencing?"

Of course, we'll send out troops into Castro-land and escort him back... and we wonder why there is so much lack of respect for the laws of the land! These clowns and their attorneys make a mockery of our system, and then we pat 'em on the head and send 'em on a trip.

And if that's not enough to hold you, look at this little jewel which was gleamed from the wires of the Associated Press... What's this crazy old world coming to?

MIAMI (AP) — "To the best bank teller in the world," the man said as he handed Linda Stone the gift wrapped package here Wednesday afternoon.

After the unidentified man left the bank building, Miss Stone and a fellow teller at the Security Federal Savings and Loan Co., unwrapped the blue-folled box.

Inside was a fragmentation hand grenade with the pin still secured.

If TV viewers react similarly to you newspaper hawks, then Channel 2 must be inundated with complaints about that "bad news" they're reporting... the recorded screams of a young dope addict.

I'd like to add mine... KEEP IT UP! If it stops just one from being tempted to try "grass" then they should sleep well.

Another example of how the news media contributes to the community, and cannot be inculcated with wide heads of criticism... like some national figures are prone to do.

School Board may delay the opening of school a week because of the unfinished condition of new educational buildings that have been counted on for use and the unsettled federal court hearing involving the board's desegregation plan now being scrutinized in Washington. There is a hesitancy on the part of the board to delay the start since teachers have already been advised to report for school opening Aug. 31 and any changing would mean problems in locating some teachers.

Sen. Edward Gurney has been pinch-hitting for G. Harrod Carswell in the money market, trying to score for dollars to finance Carter's campaign for Florida's other Senate seat. (Page 2C)

Gubernatorial candidate Jack Mathews' new pledge has a familiar ring to it... "no new taxes." (Page 2C)

WEATHER — Yesterday's high 96 low 73. Partly cloudy through Friday with a chance of thundershowers mainly during the afternoon and evening.

Afternoon highs 90 to 95, low tonight in the 70s.

NEWLY ELECTED officers of the local Toast Masters Club are (left to right) Don Graham, outgoing president; Ron Morris, vice president; A. D. McAllister, treasurer and Jim Gosman, president.

Richardson said emphasis was being placed on four areas of reform — proposals designed to "reverse the top-heavy trend of governmental programs."

Most important of the four, he said, was the consolidation of federal grants into a coordinated system of disbursement. Others include fund transfers, in which a governor may trans-

fer part of federal allocations route that evening. They threw their eye glasses and walked away (possibly in the ditch) after only removing sixty dollars which was visible, assuming I read in the paper, you returned it to its owner without the slightest hesitation. This was a splendid thing for you to do.

When I say that it is a privilege to have a citizen such as you among us, I am sure that I express the feelings of all Floridians." unquote.

Some months ago, the county maintenance crew cleared a drainage ditch on West 18th Street. The muddy sand and other debris was thrown about the ditch bank, later the leveler was used to spread the dried soil... is the beginning of it all.

Dan Bentley, age 70, a retired citrus laborer, was walking down the street a few feet from his home when he saw a wallet on the ground, he picked it up, looked inside and up to his surprise, he saw five one hundred dollar bills and even more, yes, four hundred more, a total of nine hundred dollars and identifiable credentials of the rightful owner, R. O. McNutt of Orlando, Florida.

Bentley received a one hundred dollar bill from McNutt for her work at being one of our salesmen. He was a salesman. He was attacked by three men while traveling the 18th Street

McNutt at that time was a salesman. He was attacked by three men while traveling the 18th Street

those youngsters taking advantage of the Program. Working with numbers, alphabet, coloring crayon, puzzles, marching, skipping and exercising to music, learning nursery rhymes, seeing and listening to films and records, all these, and more besides have gone into the learning experiences developed for each child. According to observers this has been a most fruitful summer.

CONCLUDES AT JACKSON HEIGHTS

The Summer Program at the Jackson Heights Elementary School has moved along quite progressively for six fruitful weeks. Teachers employed for this period have spared no pains in making each moment count as a profitable investment. The Program was designed to aid students in the areas of Language Arts and Mathematics. Because of the limited enrollment, each student in attendance has been able to benefit greatly from individualized instruction, the key to modern education.

Many enrichment experiences have been provided to enhance the program. These included a field trip to the Central Florida Museum and Planetarium in Orlando, Music, Art and Library services. Follow-up activities on each of these proved that each child expressed an appreciation for and a deep interest in all of the experiences.

First grade orientation has provided varied experiences for

those youngsters taking advantage of the Program. Working with numbers, alphabet, coloring crayon, puzzles, marching, skipping and exercising to music, learning nursery rhymes, seeing and listening to films and records, all these, and more besides have gone into the learning experiences developed for each child. Governor Responds To Parents Kirk May Intervene In Seminole Desegregation Issue Slated For Court Aug. 3

Gov. Claude Kirk is contemplating intervention into the Seminole County School desegregation controversy with the U.S. Justice Department and some 300 parents of elementary school students.

This was confirmed by a statement from Gov. Kirk after his receipt of a telegram from Robert Moore, representing parents of Pinerich school students, who asked the governor to intervene to stop the cross-busing of black and white students from Pinerich to Goldsboro Elementary School and return.

Gov. Kirk stated, "My office has been in contact with Seminole County School Supt. John Angel and talks will continue today following the return of Seminole School Attorney Douglas Stenstrom from Washington."

Kirk continued, "I am reviewing the case and I am considering asking U.S. District Judge Charles Scott to allow me to intervene in the Seminole case."

Supt. Angel told The Herald he had been in contact with the governor's office Wednesday and there had been discussions relative to the county's school plan, which was accepted yesterday by the Justice Department.

Attorney Stenstrom's trip to Washington was an effort by the school board to get approval of the county plan as another plan submitted previously by the Justice Department's educational team could be withdrawn in favor of the Seminole proposal.

Judge Scott, at an Aug. 2 hearing, will be asked to accept the county's plan by the Justice Department.

The jurist can, at his discretion, grant the request of the Justice Department and accept the local plan or he can... The county and the Justice Department plan in favor of his own proposal.

The Pinerich parents have, in another telegram, asked Judge Scott to allow them to be heard and possibly delay still another desegregation plan which some say would include the closing of Midway and placing of the 300 students into Pinerich thus preventing the cross-busing of the paired Goldsboro and Pinerich Schools.

County plans call for placing fourth and fifth graders now attending Pinerich into Goldsboro by busing and busing Goldsboro's 1-2-3 grades back to Pinerich.

All Pinerich School parents are requested to attend a 2 p.m. Sunday meeting at the school auditorium to discuss with Supt. John Angel and other school officials the desegregation problems arising from the cross-busing of school students from Pinerich to Goldsboro.

Douglas Stenstrom, board attorney, is also expected to be present for the meeting, according to Robert L. Moore, chairman of the parents committee.

Kirk May Intervene In Seminole Desegregation Issue Slated For Court Aug. 3

Gov. Claude Kirk is contemplating intervention into the Seminole County School desegregation controversy with the U.S. Justice Department and some 300 parents of elementary school students.

This was confirmed by a statement from Gov. Kirk after his receipt of a telegram from Robert Moore, representing parents of Pinerich school students, who asked the governor to intervene to stop the cross-busing of black and white students from Pinerich to Goldsboro Elementary School and return.

Gov. Kirk stated, "My office has been in contact with Seminole County School Supt. John Angel and talks will continue today following the return of Seminole School Attorney Douglas Stenstrom from Washington."
