Green Light Shines For Sanford

No matter what viewpoint is taken — past, present or future — the picture of the lakefront city of Sanford, County seat of Seminole, is emerging with mounting brilliance.

As the debris of construction is hauled off, sidewalks and plazas poured, the glory of the new Seminole County Courthouse, embodying the latest architectural design and use of materials, delights the eye of the beholder.

At long last the controversial floating docks and breakwater has remedied the eyecore which was the west harbor of the marina. Soon the docked boats will grace this segment of the overall marina which bustles with activity.

This week the greatly needed high-rise Bram Towers will hold an open house where this pioneer in such apartments for Greater Sanford will show what can be done and what is being done to relieve the shortage of apartments which has plagued the city.

But it was at the meeting of the Sanford City Commission this week that the frosting on all this was placed by two other major announcements. First, it was Mayor Lee P. Moore who explained a tax cut which will reduce the debt service tax from three mills to one and one-half mills for '72-'73. This was brought about by sound fiscal management in which recent city commission all had a hand.

Welcome as this is, and it is most welcome, almost more so — when the immediate future is concerned — was the brilliant picture of a \$2 million motel, part of a \$14 million complex which will start taking shape, right next to The Herald on the lakefront side, by New Years Day. These acres which run along Seminole Boulevard and curve south along French Avenue are a natural asset of the city which have fairly cried for proper use which would be beneficial all around.

Flying Guns

Just the other day the Treasury Department issued another report on the success of the sky marshall plan, and it revealed that in the previous 16 months nearly 50,000 weapons were confiscated.

Just imagine — 50,000 people in and around airports with gun, knife, bomb or other lethal instrument in their possession! No wonder the pilots felt impelled to strike for international anti-hijacking laws. — Anston (Ala.) Star

The Quality Motel — six story with 180 units — fills an immediate need. The plans for construction (on piles) of a luxury apartment are recognition not only of the need for further apartment construction but recognition of the prime value of the view of Lake Monroe which will be provided.

The future also holds in its hands the solution of two other knotty problems. These include the location and operation of the zoo. This is still very much unresolved.

Straw Boss Lot "Not A Happy One"

By HAL BOYLE
NEW YORK (AP) — Remarks that straw bosses for losses:

"What do you have to do around here to get a merit raise besides work yourself into an early grave?"

"They just told me to report to somebody they call Loudmouth Harry. Are you the guy?"

"How's that again, chief? You'll have to run that order by me some more. I didn't get it the first time."

"He'd dock his own mother an hour's pay if she were two minutes late."

"Is this really my paycheck, Harry or something you planned to give to the poor?"

"He's so cheap that after he gets to knowing you better, he'll start borrowing a sandwich from you every day for his lunch."

"I don't know why everybody is always picking on you, Loudmouth. It could have been me, too. What if, for example, they'd given us a boss with brains?"

"Don't worry too much about Harry. Ever since he got his store teeth, his bark has been worse than his bite."

"How about it, Loudmouth? Do you put another bar of soap in the shower room, or do you want a strike on your hands?"

"If there is anything in the factory, I want to steal, just put it in a wheelbarrow and

The other is the city hall itself. We commend the city commission for its wise handling of the debt service tax and its cooperation with the developers of our neighboring acres.

But this should be just an earnest of what can be expected as they come to grips with the zoo and city hall relocation issues.

Nice going so far, gentlemen! We are ready, able and willing to bestow more laurels as they are earned. We hope, most respectfully, that they will be and soon!

Nixon Looks Beyond Convention

By RAY McHUGH
Copley News Service

MIAMI BEACH — Can the Republican Party stand prosperity? Will success spoil Richard Nixon? Those are questions that lurk in the corners as the Republican National Convention prepares to open Aug. 21.

Not since the 1952 and '56 days of Gen. Dwight D. Eisenhower has a GOP presidential candidate ridden such a wave of August optimism.

Mr. Nixon enjoys a lead of up to 20 percentage points over the Democratic nominee, Sen. George McGovern of South Dakota. Wholesale desertions have hit the Democrats after a political disaster involving a switch in vice presidential candidates.

Former Gov. John Connally of Texas has organized a "Democrats for Nixon" campaign and claims 20 million Democrats will turn their backs on McGovern.

Though the Democrats covered her July 10, it was Aug. 8 before R. Sargent Shriver finally emerged as McGovern's vice presidential running mate.

Where the Democratic convention treated the TV public to a struggle between the "old" and the "new" politics, the Republicans are wrapped in so much harmony that some worry that their convention may prove dull and uninteresting.

Columnist Art Buchwald, the master of Washington satire, has suggested that Republicans should form a new group called "The Committee to Elect the President Without Boring the Country to Death."

In the midst of all this optimism, however, Republicans are nagged by doubts. They still lag behind the Democrats in total voter registration. The 19-24 first-time voters remain an

McGovern Defense Plan Way, Way Off

By BRUCE BLOSSAT

Sen. George McGovern has been so busy getting nominated and solving his vice-presidential problems that he has had no time to iron out a puzzling wrinkle in his defense program: a proposal to halt ongoing changes in our missile-bearing submarine fleet.

On Jan. 17, McGovern's top aides laid out in a background session the senator's "alternative national defense posture" calling for a cut of some \$32 billion in U.S. defense outlays by fiscal 1975.

Among the specific recommendations was one to stop converting our missile submarines to longer range weaponry. We have 41 such vessels. Before major conversion began, each bore 16 advanced A-3 Polaris missiles.

Well under way is a funded program to convert 31 of the 41 submarines to carriers of a longer range Poseidon missile holding not just one warhead but 10 independent, 15-targetable warheads.

In McGovern's 56-page defense presentation, it was argued that our missile-bearing fleet is our chief nuclear deterrent against the Soviet Union or any other conceivable aggressor. Traversing millions of miles of ocean undetected, these vessels can mount a second-strike nuclear response within minutes after an enemy first-strike begins.

Nevertheless, McGovern proposed in mid-January to stop converting Polaris submarines to the more advanced Poseidon.

His document says nothing about the alleged advantage of having longer range weapons. The greater range of Poseidon conversions is stopped at seven out of the proposed 31.

First off, McGovern's aides conceded on Jan. 17 that seven was an unrealistic figure, that more converted vessels than that number would be in the water before they could take effect as president. It was not clear, why the figure seven was chosen.

Soon afterward, I checked and found there were already more than seven Poseidon-equipped submarines in the water. I have just checked again, and the figure today is 12 converted, with eight more on the ways. At least two of these eight will be in the water before the next presidential inauguration.

So the hard prospect for next Jan. 20 is at least 14 Poseidon vessels in the water and on station, a total exactly double the figure McGovern's "alternative national defense posture" sets as a top limit.

Furthermore, the remaining six on the ways will be fairly advanced stages of conversion by early 1973, and still more vessels may be started on the process.

In theory, submarines in this state could be kept from conversion. But submarines on the ways represent about a fifth of the missile-bearing fleet. Let them in mid-conversion would subtract seriously from our nuclear deterrent. To try to reconvert them to Polaris weapons is deemed impractical.

Probably their conversion would have to be finished. That would give us at least 20 of a scheduled 31 Poseidon vessels, roughly triple the total of seven McGovern fixed in January as the upper limit.

Airlines Lacking Sense Of Humor

By KEN GIFFERT Associated Press Writer MIAMI (AP) — If you spot your friend Jack at the airport, or worse yet, on an airplane, don't try to be funny by yelling "Hi Jack!"

A growing number of would-be jesters can testify that airlines don't laugh at the one-liners.

"Everybody's so sensitive about hijackings now," said George Kokus, deputy chief of the U.S. Attorney's criminal division in Miami. "But it's an irresistible impulse to make a joke and the next thing a person knows, he's in jail."

Kokus said in an interview that at least a dozen persons have been arrested at the international airports in Miami and Fort Lauderdale in the last year after airline employees or passengers reported that they overheard comments about hijacking.

"Most of those arrested have been convicted and all of them spent at least one night in jail," said Kokus.

He cited the case of Vito Lesma Jr., a 39-year-old Fort Lauderdale youth, who faces a preliminary hearing Aug. 23 on a charge of giving a false report of a hijacking which is punishable by a maximum prison term of 20 years.

The airline passed out slips of paper to passengers, asking them to guess what time the aircraft would pass over St. Augustine, Fla. The winner was awarded a bottle of champagne while the loser got a deck of cards.

"It's just a little something to help the passengers pass the time of day on long, monotonous flights," explained National spokesman Walt Rothbaum.

Miami Beach officials say a commute for nondelegates at the Republican National Convention will open Thursday, and weary protesters evicted from the still off-limits Flamingo Park for the third time early today can finally get up their tents and quietly hit the hay.

Shortly after midnight today about 100 riot-deputied Dade County sheriff's deputies and Miami Beach police went into Flamingo Park and threatened the protesters with arrest if they didn't vacate the park.

"This is a disorderly assembly," Miami Beach Police Chief Carl Larry Cotzen shouted through a bullhorn. "If you do not leave the park peacefully you will be subject to arrest."

Messer told the Cabinet that while the validity of the ratio study was being challenged by his suit, the Cabinet should not issue a blanket certification on tax rolls.

The non-delegates then began taunting the police through a megaphone, chanting "power to the people" and "can we stay in the park?" Failing to get a response from the officers, the frustrated would-be campers sang "God Bless America" and "The Star Spangled Banner" until one demonstrator took the megaphone and yelled:

"This is a confrontation between the free generation and the state generation. We are living in an authoritarian society. Is this a free country or not?"

He had barely finished speaking when two Miami Beach paddywagons pulled up behind the protesters. Another order to clear out was issued by Cotzen as sheriff's deputies began a sweep through the park in a light formation.

At that point, the demonstrators left. About half struggled off to City Hall for a brief protest, while the others straggled seven blocks north to the Miami Beach Community Church lawn where they flopped down on the grass for some shut-eye.

A. Clyde Brockmans Return From An Extended Vacation

Mr. and Mrs. A. Clyde Brockman have returned to their home 2599 Sanford Ave., after an extended vacation trip in the Northern states. They attended the wedding of a niece (the former Elizabeth Priest) of Sanford, in Blackville, S. C. While visiting their son and family, John M. Brockman in Cleveland, Ohio, they had the pleasure of getting acquainted with their first grandchild, six weeks old, Matthew Hardy Brockman. This was the first time the family had all been together for four years. Relatives and friends in Virginia, North Carolina, Moncks Corner, S. C. and points of interest along the way were on their agenda. The 10 week trip was made in a Minihome Camper and enroute home they visited the factory where the camper was made at Lorain, Ohio. Lake Erie was one of the more interesting places they enjoyed.

They enjoyed the trip with the exception of a short stay at the Holy Cross Hospital, by Mr. Brockman, while visiting their daughter Patricia, in Silver Springs. Another famous patient was also in the same hospital, Gov. George Wallace. Relatives and friends in Virginia, North Carolina, procedures and guards made them rather nervous.

Dear Abby Nudity in the home? Just pull the shades

By Abigail Van Buren 10 175 W. CHAMBERLAIN N.Y. New York, N.Y. 10024

DEAR ABBY: Please give me your opinion on this subject as it seems to be "law" with the women in McLean, Texas. I am new in this town and the townspeople appear to be feeling me out. At work the other day some women asked me what I sleep in, and I said, "Nothing." It's true. Well, I was told I was no lady, go. I'd never been in Texas women are ready to run me out of town on a rail, and I live alone, so why can't I do as I please? Are you with me? NEW IN TOWN

DEAR NEW: I'm with you. But do put an apron on when you're frying bacon. And watch the wringer. DEAR ABBY: How-women! I just read the following sentence in one of your columns: "You will always be your mother's daughter regardless of whom your father's wife is." Abby, you could not possibly have committed so horrendous a grammatical crime, so it must have been your secretary, a proofreader or printer. Regardless of "whom" it is, kill the culprit on the Karpet and Katagite him, her or it categorically.

TONY THE STICKLER IN CANOGA PARK, CALIF. DEAR TONY: I'll take my lumps when I go, but I time I'm not guilty. The word was correctly "who" in it copies sent to all the newspapers carrying my column. For one reason, ONE newspaper [with a circulation of almost a million] changed my "who" to "whom." IOK, word that they had changed my "whom" to "who" when recently I erroneously wrote, "Whom shall I say is calling?"

DEAR ABBY: My husband has been an invalid for 10 years. I have been willing to take him on trips for vacations twice a year, but he refuses to go because he would have to go in a wheelchair, and this he refuses to do. Do you think I should give up all future vacations and let him stay at home? I have opportunities to go with tour groups thru my husband's business associations. No hanky panky. Just a change of scenery, which I would so love. My husband would have good loving care from our children, and they think I should go. I'd never been gone more than 10 days. Should I go or not? CABIN FEVER IN ILLINOIS

DEAR CABIN: How does your husband feel about it? If he wants you to go, then go. If he doesn't, also it would be selfish of him, stay home. You wouldn't have a good time if you want and took a nagging conscience with you.

FORECAST FOR THURSDAY, AUGUST 17, 1972 CARROLL RICHTER'S HOROSCOPE from the Carroll Richter Institute

GENERAL TENDENCIES: You are now overly eager to travel or in some way to expand your interests and extend yourself far beyond your present sphere of activity. Make sure, however, that during the morning you force nothing and that you do not get into any arguments. Don't rest the rest of the day and evening are just great for you. ARIES (Mar. 21 to Apr. 19) You are apt to want to use force to get something you want very badly, but use diplomacy instead. Make some new contacts who are worthwhile. Go to the right source for the information you want.

TAURUS (Apr. 20 to May 20) Although the morning may be trying, do not let irritation in self-pity, and later you can have much fun with the one you love. Your intuition is not good during day, but fine tonight. So be sure to follow it then. GEMINI (May 21 to June 21) Morning could prove difficult, but show you can still smile. Later in the day you can make better arrangements with a good associate. Know what your true position is with mate, others. Then you realize what is best to do.

MOON CHILDREN (June 22 to July 21) If you stop deliberating about that work all day and delve right into it, you get it done for once and for all. Show you are most efficient. Plan time for rest in p.m., instead of going out and getting over-tired. LEO (July 22 to Aug. 21) Steer clear of one who has an eye on your assets during day and then be off with congenials for the amusements you desire. Show thoughtfulness for mate and come to a better understanding. Good manners are most important now.

VIRGO (Aug. 22 to Sept. 22) Showing consideration and thoughtfulness to those who dwell with you brings fine results now. Handle some basic matter well, though it requires some effort on your part. Prove you are an efficient person. LIBRA (Sept. 23 to Oct. 22) Make preparations early to see good pals and business allies so that you can help what you say and do. You can confer with one who can help you advance very quickly.

SCORPIO (Oct. 23 to Nov. 21) Money matters are very important today, so get into all the ramifications of it early and watch the improvement by p.m. Listen to what a clever business expert has to suggest. Follow good advice. SAGITTARIUS (Nov. 22 to Dec. 21) Handle personal matters with others in a dignified and intelligent way now, and this will help you advance. The afternoon is excellent for entertaining, or accepting some fine invitation extended to you.

CAPRICORN (Dec. 22 to Jan. 20) Much care in motion of any kind should be exercised now. Plan your activities for the near future most intelligently and widen your horizons. Get the suggestions you need from one who is an expert in your particular field of endeavor. AQUARIUS (Jan. 21 to Feb. 19) Avoid that pal who likes to argue a good deal and get together with people who can help you be more productive. Personal affairs should be put off to the evening hours. Then handle them wisely. PISCES (Feb. 20 to Mar. 20) The morning is apt to be rather difficult, but later in the day you can take care of both home and civic matters efficiently. Find the right system for handling one who is vital to your happiness and welfare. Early to bed tonight.

IF YOUR CHILD IS BORN TODAY... he or she will be one of those highly sensitive young people who needs harmony and happiness in the environment early in life so the nervous system can strengthen itself naturally. Then your offspring can become a most vibrant and efficient person. An academic education is best here, since this child is definite and thorough, then upon maturity fine opportunities will be seized and much made of them. Provide good religious background. "The Stars impel, they do not compel!" What you make of life is largely up to YOU! Carroll Richter's Individual Forecast for your sign for September is now ready. For your copy send your birthdate and \$5 to Carroll Richter Forecast (name of newspaper), Box 105, Hollywood, Calif. 90028

8.9 CBS, The David Steinberg Show. Comedy team, Burns and Schrier, tonight. Jack Burns and Avery Schrier had gone the other way as actors before what appeared to be a promising career as a comedy team. Back together now, they do a skill about psychiatry in prison, then compare techniques in picking up a girl at a bus stop (Carol Wayne). Also on tonight's show is singer Della Reese, who solos on "Cabaret" and "Never Can Say Goodbye."

Elizabeth Rogers Honored With Bridal Tea At M. D. Walker Home

BY ANN SIECKOWSKI

Petite and pretty Elizabeth Rogers, daughter of Mr. and Mrs. Wilborn Rogers, was honored at a lovely tea at the home of Mrs. M. D. Walker, with Mrs. J. S. Duncan, the former Sharon Walker, co-hosting.

Elizabeth will become the bride of Steve Madden, son of the late Steve Madden, who was served delectable petit fours, tea sandwiches, ginger lime punch, assorted mints, nuts and cookies, from a festively decorated table employing the bride's colors of yellow, white and green.

Serving were Mrs. E. R. Wood, Pam Madden, sister of the groom; Mrs. Margaret Horne, Mrs. Clarence McLeod and Mrs. Stella Watson. Also assisting with the serving and entertaining during the party hours was Mrs. Noah Booth. The hostess gift was an electric skillet.

Receiving guests on their arrival were the honoree, Elizabeth, wearing a varicolored printed knit long gown, featuring short puffed sleeves; her mother, Mrs. Rogers, in a stunning green knit long jumpsuit, with full sleeves, cuffed at the wrist; Mrs. Walker the hostess, in a lovely silver-grey cotton with white trim and collar, and Sharon Walker Duncan, who was gorgeous in a floral printed long puffed nylon skirt, with a red silk long sleeve blouse.

Dear Abby

Nudity in the home? Just pull the shades

By Abigail Van Buren

DEAR ABBY: Please give me your opinion on this subject as it seems to be "law" with the women in McLean, Texas.

I am new in this town and the townspeople appear to be feeling me out. At work the other day some women asked me what I sleep in, and I said, "Nothing." It's true. Well, I was told I was no lady!

Abby, I enjoy sleeping in the nude. In fact, I also enjoy doing my housework in the nude, (privately), and with all the shades drawn, of course! and what is more I like to take in the nude. I see nothing wrong with it, but these Texas women are ready to run me out of town on a rail.

I live alone, so why can't I do as I please? Are you with me?

DEAR NEV: I'm with you. But do put an apron on when you're frying bacon. And watch the wringer.

DEAR ABBY: Ho-hum. I just read the following sentence in one of your columns: "You will always be your mother's daughter regardless of whom your father's wife is."

Abby, you could not possibly have committed so horrendous a grammatical crime. It is I, Abby, who am your secretary, a proofreader or printer. Regardless of whom I is, I call the Kulpit on the Karpel and Kastigate him, her, or it categorically.

TONY THE STICKLER IN CANOGA PARK, CAL.

DEAR TONY: I'll take my lumps when I goof, but I time I'm not guilty. The word was correctly "who" in ti copies sent to all the newspapers carrying my column. For some reason, ONE newspaper (with a circulation of almost a million) changed my "who" to "whom." (Oh, word who had changed my "whom" to "who" when recently I erroneously wrote, "Whom shall I say is calling?")

DEAR ABBY: My husband has been an invalid for 10 years. I have been willing to take him on trips for vacations twice a year, but he refuses to go because he would have to go in a wheelchair, and this he refuses to do.

DEAR ABBY: How does your husband feel about it? If he wants you to go, then go. If he doesn't, altho it would be selfish of him, stay home. You wouldn't have a good time if you wait and look a nagging conscience with you.

Claims, Counter-Claims Candidates Wrangling

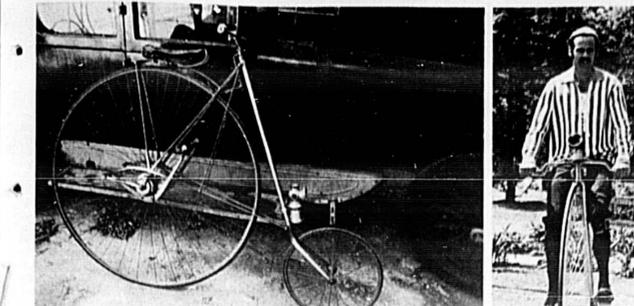

By BILL SCOTT
State Attorney Abbott Herring has filed a formal vote complaint against Brevard County Solicitor Jerald Bross, candidate for Herring's elective office, charging Bross with "perpetrating a fraud on the voters of Brevard and Seminole Counties."
In a complaint to Roger F. Dykes, Circuit Court judge, Herring charged Bross represented himself in his road signs and literature as a candidate for re-election to the state attorney post.
"This is a fraudulent attempt to obtain votes prohibited by Florida Statutes 104.04, which says, 'Any person perpetrating or attempting to perpetrate or aid in the perpetration of any fraud in connection with any vote cast or to be cast, or attempted to be cast, shall be guilty of a felony on the third degree,'" Herring alleged.
The state attorney outlined Bross is not running for re-election in Brevard County for state attorney and has never been elected to any office in Seminole County. Herring attached pictures of road signs he said were displayed in both Brevard and Seminole Counties, and a copy of a brochure distributed in both counties.
"In all fairness to Mr. Bross and the general public, I have tried to resolve this matter without resorting to filing a formal complaint," but Herring said Bross, in a response to a letter from James Graham, Herring's campaign manager, said he would continue with his "false advertising of his candidacy."
Bross, contacted today at his Titusville office to comment on Herring's charges, replied, "That is the action of a scared man." Bross said he would not file countercharges to Herring, but pointed out the statute used by Herring in his complaint was under a law referring to polling places.
On the allegations of advertising his re-election to a post, Bross said, "My opponent refuses to recognize I am an

Dredge And Fill Controls, Urged By Trustees Of IIF

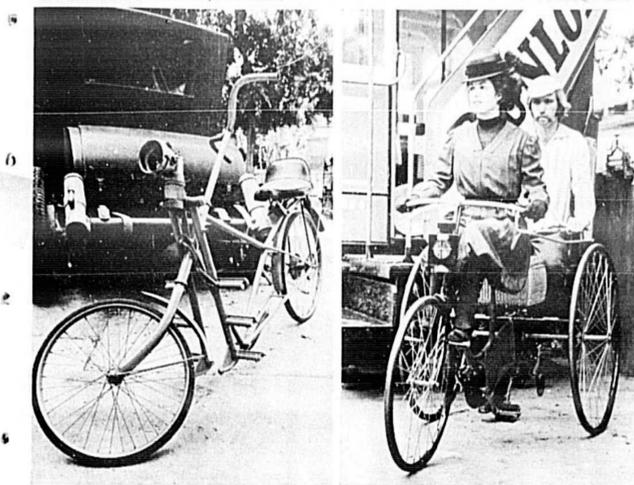

By ANN SIECKOWSKI
Langley Adair, County pollution control officer, reported to the Board of County Commissioners that Jack Van Norman, trustee of the State Internal Improvement Fund, is of the opinion that if local governments get behind a move to control the dredge and fill situation, more can be done.
"He is interested in our problems, but is limited by staff and other considerations," Adair said. "He did send an investigator to our area to gather more information and seemed to be more interested in the loss of flood plain area than in the actual dredging operations."
"They have had little success in the courts when they come uninvited and feel that more local government support is required."
Adair said that he anticipated that the Trust would ask for a moratorium for a period of one year in order to completely survey the area and establish where the mean high water marks are.
Commissioner Ed Yarbrough queried Adair as to the definition of "mean high water marks." Adair indicated that it means an average mark. He said he had contacted the municipalities in the county concerning their support of this project and received only one reply and that from Altamonte Springs, which "was a definite negative," on the basis that there is no need.
Referendum
Van Norman recommended that the local government place

a recommended set-back line from the mean high water mark before the voters in the form of a referendum election. Adair said that this seemed like a good idea, and that it would take at least one year with two survey teams to establish mean high water marks.
In other business, Adair requested that the board consider reinstating the secretary II he currently has. In the budget for next year, this classification was changed to secretary I and Adair said that he did not feel this class I rating would provide him with the experienced type of secretary his office operation required. The board promised to consider the information at the next budget session.
Commissioner Chairman Greg Drummond asked Adair if he would investigate and document the problem of pollutants draining into lakes from shopping center parking lots and from roads. He said that he had had a number of complaints from the Prairie Lake area and he requested specific information on metal pollutants. Adair suggested that he would contact the technician at the Crime Lab who has equipment to check the metal components of the pollution matter. He told the board that the run off from roads into the lakes is a more serious problem than effluent.
Boat Is Shot
Some time ago, during an encounter with an alleged drug violation group in the K-Mart Plaza shopping center, one of the display boats in the area was hit by bullets. The sheriff's

department was told that the boat would have to be paid for. At that time, Adair was in need of a boat for his sampling crew and he requested that the county assign that boat after repair to his department.
At Tuesday's meeting, Commissioner Sidney Viblen told the board that he went with Adair in that boat twice over the weekend and that in the process of attempting the sampling operation, the boat was almost swamped three times. He said that it is inadequate for the work and that the board should consider trading it in for a more suitable boat for the pollution control department.
Chairman Drummond remarked that he would like the minutes of that earlier meeting when Adair requested that same boat so that he could be refreshed as to the comments by the pollution control officer.
"Sometimes we jump too fast without enough consideration of all the facts, in order to get something we need," Drummond remarked.
In another action, the county attorney was authorized to draw an ordinance adopting regulations governing septic tank and sanitary landfill permitting and inspections.

Confident McGovern Vows Return To Free Market

By LEE BYRD
Associated Press Writer
SPRINGFIELD, Ill. (AP)— Sen. George McGovern, claiming greater confidence than ever that he can beat President Nixon, has pledged to end wage-price controls within 90 days after taking office.
With little advance fanfare, the Democratic nominee declared he would order a return to a free market upon ending the Vietnam war and reducing military spending.
In comments to a group of Illinois labor leaders Tuesday night, McGovern said, "When the war is ended and waste is stopped, we can end wage and price controls, and I think that can be done within 90 days of the inauguration. And I'm committed to that goal."
McGovern's economic pledge capped a day of campaigning Tuesday in Ohio and Illinois in which he asserted that Nixon himself was at least indirectly involved in an attempt to spy on Democratic National Committee headquarters in Washington.
McGovern planned to court the farm vote today after enjoining a new round of labor en-

U. S. Jets Continue Attacks On No. Viet

By GEORGE FAPER
Associated Press Writer
SAIGON (AP)— U.S. planes made their deepest and heaviest strikes in North Vietnam in a week Tuesday, renewed their attack on the northwest rail line to China and shot down one of three MIG21s that tried to intercept them, the U.S. Command announced today.
It was the 150th MIG reported down by U.S. crews in the war and the 48th this year.
The U.S. Command said Air Force, Navy and Marine fighter bombers flew more than 200 strikes against targets in North Vietnam. U.S. pilots had been averaging less than 300 a day in the north since Aug. 8 because of heavy clouds, but the weather improved Tuesday.
Air Force F4 Phantom pilots made several direct hits with laser bombs on the 75-foot Phu Tho railroad bridge 45 miles northwest of Hanoi, the Air Force said. The bridge had been attacked before but had been repaired.
"Other planes attacked the Viet Tri thermal power plant 30 miles northwest of Hanoi."
Capt. Fred W. Sheffer, 29, of Akron, Ohio, and Capt. Mark A. Mason, 25, of Downey, Calif., flying an Air Force Phantom jet, were credited with downing the MIG21 about 35 miles northwest of Hanoi. They hit it with a missile.
North Vietnam claimed that five U.S. jets were shot down during daylight raids Tuesday and two more during midnight strikes. The only losses announced by the U.S. Command were an F4 Phantom shot down Sunday in the northern half of the demilitarized zone and a helicopter gunship downed Tuesday below the DMZ, south of Quang Tri City.
The two phantom crewmen are listed as missing. One American aboard the A1H Cobra gunship was reported killed and one wounded.
The U.S. Command also reported that 175 Americans have now been listed as missing in aircraft losses in 4 1/2 months.

Kissinger New Peace Move Seen

SAIGON (AP)— U.S. presidential adviser Henry A. Kissinger arrived in Saigon tonight and Le Duc Tho, his North Vietnamese adversary, is expected to arrive in Hanoi and widespread speculation about a new move to end the war.
There was no official confirmation of the new peace move, and Tho contended there was no basis for it. But some diplomats in Washington and Paris surmised that Kissinger, who met with Tho in Paris Monday, would try to persuade President Nguyen Van Thieu to agree to a compromise formula approaching the enemy's demand that Thieu step down.
Others suggested that Kissinger and Tho would report a deadlock in their secret Paris sessions, with Kissinger reassuring the uneasy Thieu that President Nixon will not let him show.
There also had been speculation in Saigon that Kissinger might fly to Hanoi after ending his visit here Friday. But informed sources said Kissinger would fly from here to Tokyo Friday en route back to Washington.
He will stop in Tokyo to make final plans for the forthcoming summit conference between Nixon and Prime Minister Kakeei Tanaka scheduled for Honolulu at the end of this month, sources said. Plans call for him to leave Tokyo on Saturday.
Diplomats here and in Paris surmised that Kissinger, perhaps with a negotiating lure from Tho, wants to persuade South Vietnam's President Nguyen Van Thieu to agree to a compromise formula towards meeting the enemy's demands that Thieu step down.
Meanwhile, others suggested that Kissinger and Tho would report a deadlock in their secret Paris sessions, with Kissinger

Agnew Backed By Mrs. Agnew

WASHINGTON (AP)— Even though Eleanor McGovern has offered to debate Pat Nixon, and Eunice Shriver has spoken out against abortion, July Agnew says she doesn't intend to change her own low-keyed campaigning style.
"I do not speak out on the issues," said the wife of Vice President Spiro T. Agnew in a pre-inauguration interview. "I'm here to back up my husband. After all, my husband is the one running for office, and he's very knowledgeable."
She said she has no campaign schedule yet and has spent most of the summer sitting for a portrait.

Dollar Ain't Worth What It Used To Be

By JACK WEBB
Copy News Service

MONTREAL—Bob took his American visitor to a bar here, where the American showed two one-dollar bills across the counter.

"No!" said the bartender, a short young man with his hair styled open to show his hairy belly. "No American dollars."

The man in the red shirt, who had a beard and a French accent, was very angry. To understand why, you must understand two things that can be important to an American traveling abroad. These things are the state of the American dollar and the French-European mentality.

Bob—his full name is Bob Desjardine and he is the eldest son of the owner of what is generally considered one of the three finest restaurants on the North American continent—summed it up in a precise British way.

After a long, angry argument with the bartender in fluent French, Bob turned to his American guest and shook his head.

"He has had many bad experiences in the United States," Bob said. "He would go there and try to use Canadian dollars and he was treated like dirt."

Outside the tavern a cold rain was beginning to fall on the cobbled streets and open-air bistros of Montreal's Old Town. The painters were covering their heads with rags and carrying their paintings to his shelter and long-haired Canadian youth were running into taverns for warmth.

The American had still not received his drink. Bob turned again to the bartender and began to argue in French. The bartender gestured violently.

"Toriste American!!!!!" he said.

The bartender turned to the American and said:

"Why don't you learn and he was treated like dirt? Look at me. I am German-French. I know French, Italian, English, German. It is only courtesy..."

Then the bartender turned back to Bob and began talking again in rapid French.

Finally the bartender shrugged and poured two drinks. Bob reached into his wallet and pulled out two Canadian dollars.

Area Girl Wins Honors
(Ann Steckowski Photo)

Miss Pattie Nurkiewicz, daughter of Mr. and Mrs. Henry Nurkiewicz, of Casselberry, has had an exciting summer and has brought more honors for Seminole County.

She attended 4-H State Congress at Gainesville and while there, learned that she was the state winner in the home management project. This not only brought honors to Seminole 4-Hers but meant an all-expense paid trip to Chicago to attend the first National 4-H Congress in November.

Pattie's record book in home management will be sent on to compete with other state finalists in that category and in November, eight 4-Hers will be notified of winners. One of Florida's 4-H Congress that are the winners of \$700 scholarships. This home management program is sponsored by Tupperware, one of Florida's 4-H home industries. The company also annually hosts an evening of musical entertainment for all the delegates, leaders and guests at the Congress.

Attending National 4-H Congress is just about the biggest thing in a 4-Her's life. Usually a one-time only occasion and for one to achieve this goal, means tremendous talent and hard work over a period of years in 4-H.

Seminole County may well be proud of Pattie, who is also president of the Seminole County 4-H Council this year as well as alternate delegate for district council.

Longwood Council Actions

By DONNA ESTES

The feasibility of a regional concept of sewer treatment to serve a combined area of Longwood, Altamonte Springs, and their "areas of influence" is being studied, Mayor Kenneth Brown informed the City Council Monday.

The mayor said such a regional plant would have a daily capacity of 8 million gallons and would be eligible to receive "more federal money than could be spent." He added that privately-owned utility systems, such as Sandalco Utilities Company, would be required to hook up to the regional plant, regardless of company principals' wishes.

Councilman Dick Crenshaw questioned the constitutionality of such an action, but Brown said, nevertheless, this is his understanding. Brown continued that Sandalco Utilities "will be out of the sewer business" if the regional concept comes to pass.

Sandalco Utilities Company serves with water and sewer service their areas bounding State Road 434 and Interstate 4.

Apartments Nixed

Any land developer wishing to develop the large Fairy Lake tract, the subject of much controversy in recent months, must do so in single family homes, at least first.

This was the gist of Mayor Kenneth Brown's assurances to the Council and residents there yesterday. The mayor said any developer of that section will have to show the Wildmere-Fairy Lake residents good faith and that he is a qualified builder.

"As long as I am sitting here (in the mayor's chair) I will not listen to plans for building apartments there," Brown said insisting only single-family homes would get his approval for the property bounding the lake.

Councilman William Klosky stated his position that the only suitable site for apartments on the tract would be toward Seminole Boulevard where they can be a buffer between commercial interests and single family dwellings.

Water Rate Change Proposed

Revision of the city's water rate structure to give "homeowners a slight break and have the heavy users pay more," is contained in a proposed ordinance the city's water committee is proposing for adoption.

The exact figures contained in the ordinance were not revealed, however, some months ago City Engineer William Palm recommended the minimum usage of water monthly should be reduced from 5,000 gallons to 4,000 gallons and the minimum rate reduced 25 cents monthly.

Palm and Councilman Klosky discussed the differences in sewer rates in the south as opposed to those charged up north with the engineer agreeing generally rates are 75 per cent of the monthly water bill with a cap of slightly over \$4 was recommended as a proper sewer charge. Now, it is expected the engineer will point to raising construction and maintenance costs as the reason for a flat 75 per cent of monthly bill as the necessary rate of billing.

Mature Heads Needed

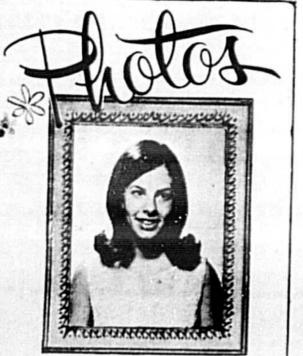

"Sometime cities would be better off if they had more mature men running them. They need somebody, who is dry behind the ears."

Councilman E. E. Williamson, veteran of 15 years service on the city board, struck out at Council Chairman Eugene Jaques for the councilman's alleged remarks alluding to Williamson's advanced age and past inexperience at Council meetings. Jaques comments concerned Williamson's opposition to the proposed new city charter.

The senior member of the Council explained he has missed a number of meetings due to illness, has been hospitalized on five separate occasions during the past year and undergone major surgery.

He said the voters of the city elected him to public office for another term last December, well aware of his health problems at the time. "I have attempted to work diligently on behalf of my city for many years," Williamson said, "and have never opposed progress or improvements for the city."

Explaining his absence at recent charter sessions of the City Council, Williamson said a committee (the charter revision commission) was appointed to formulate a document and he did not wish to interfere with their work. "I stand firm in my convictions of how this city should be run."

Before 'Community Court'

Nixon's Policies Will Go 'On Trial'

By HOWARD BENEDICT
Associated Press Writer
MIAMI BEACH, Fla. (AP)—Elderly Miami Beach residents and young protesters plan to join in political action during the Republican National Convention and organizers say they will put President Nixon's policies on trial in a "community court."

"The young people won't be the only demonstrators at the Republican National Convention," said 70-year-old Max Serchuk. "The senior citizens also have some gripes...."

The complaints may not be the same but there seems to be a mutual feeling of alienation from the political process.

"We realized we had several things in common, that we were being generally ignored by the administration," said Pamela Cole, 23, a San Diego State College student.

The alliance blossomed during the Democratic convocation last month. Senior citizens met the Zippies, Vippies and other nondelegates in the carnival atmosphere of Flamingo Park.

"We sat down and talked over our problems. We danced together and sang together," said Miss Cole. "It's a fantastic relationship we've built together."

Serchuk, head of the Dade County Council of Senior Citizens, said the oldsters have joined with the young people "in an investigation of the administration because we heard... in July many of these Vietnam veterans, blacks, labor representatives, Mexican Americans, women, Indians, welfare recipients and gay activists."

"We want to hear their stories," Serchuk said. "They will be heard in a general court of the community."

He said the investigation would hear not only the complaints of the golden agers but also will listen to presentations from all the groups here — the veterans, blacks, labor representatives, Mexican Americans, women, Indians, welfare recipients and gay activists.

Egg Foo Yung At Brunch

By Cecily Brownstone
Associated Press Food Editor

Although that standby, eggs with bacon or ham, is good for brunch, it's fun to make a change. My sister Phyllis did just that recently; she served a Foo Yung dish from Chinese-American cuisine. The recipe she concocted was so good, we're passing it along.

As a first course for the brunch, Phyllis offered a platter of fresh fruit she had skillfully and attractively prepared: pineapple strips, orange sections, sliced peaches and miniature bunches of seedless green grapes. For nibbling after the main course we had a homemade caramel coffee-cake which I provided. The menu was so warmly applauded it's a pleasure to recommend it.

PHYLIS'S HAM FOO YUNG

1 cup finely chopped mushrooms
1/4 cup finely chopped onion
1 tablespoon butter
1 cup finely chopped cooked ham
1/3 cup finely chopped celery
1 can (16 ounces) bean sprouts, drained and rinsed with cold water
2 scallions (green onions), thinly sliced (green tops included)
1 teaspoon sugar
1/8 teaspoon pepper
1 tablespoon soy sauce
5 eggs
1/3 cup (about) peanut oil
Cooked rice

Make the Foo Yung Gravy and set aside.

In an 8-inch skillet gently cook the mushrooms and onion in the butter until softened, turn into a medium mixing bowl. Add ham, celery, bean sprouts, scallion, sugar, pepper and soy sauce.

In another medium mixing bowl beat the eggs just enough to blend yolks and whites, add the vegetable-ham mixture, stir well.

Pour 1/2 tablespoon peanut oil into a 6-inch skillet, heat over medium heat. Stir the egg mixture with a fork, scoop up 1/4 cup of the mixture and pour gently into the hot oil. Spread until omelet is firm enough to turn, turn and cook other side. Remove to a large cookie sheet covered with two layers of paper towels; place in a just-warm oven.

Continue making omelets adding 1/2 tablespoon peanut oil for each omelet and stirring the egg mixture before scooping out each 1/4 cupful. As each omelet is cooked, place on the cookie sheet in the warm oven.

Reheat gravy. Place a low mound of rice on each plate, top with 2 or 3 omelets and spoon some of the gravy over the top. Makes 12 omelets, enough for 4 to 6 servings.

FOO YUNG GRAVY

In a small saucepan gradually stir 1 cup fat-free chicken broth into 2 teaspoons cornstarch, keeping smooth. Stir in 1 tablespoon soy sauce and 1/16 teaspoon pepper. Cook over moderate heat, stirring constantly, until mixture comes to a boil. Remove from heat and reheat before serving. Makes about 1 cup.

SKILLET VEGETABLES

This medley is seasoned well, 4 tablespoons butter
3 small onions, peeled and cut into thin strips (1 cup)
1 pound (3 small) straightneck yellow squash, unpared and sliced thin crosswise
3 medium tomatoes, each cut into 8 wedges
1 green pepper, seeded and cut into thin strips
1 teaspoon salt
1/4 teaspoon white pepper
2 teaspoons sugar
1/4 teaspoon ground allspice

In a large skillet melt 2 tablespoons of the butter; add onion and cook gently until golden. Add remaining 2 tablespoons butter, remaining vegetables and the seasonings. Mix well. Cover and simmer, stirring a few times, just until squash is tender — about 10 minutes. Makes 6 servings.

Salmon Buns A Meal

By Cecily Brownstone
Associated Press Food Editor

With a 1 pound can of salmon at hand you can whip up a main-course lunch or supper dish in short order.

The salmon is mixed with green pepper, mayonnaise, lemon juice and scallion and piled into hamburger-bun halves. Then the salmon mixture is topped with a slice of tomato and a mixture of mayonnaise and grated cheddar cheese. Under the toaster the bun halves go until the topping is puffed and browned.

We found these salmon buns rich and delicious. There's a generous amount of mayonnaise in the recipe so that all you need is a good slice of pickled salad, celery, carrot and cucumber sticks and if available, watercress sprigs.

SALMON BUNS

1 can (1 pound) salmon
1/4 cup finely chopped green pepper
1/2 cup mayonnaise
1 tablespoon lemon juice
1 tablespoon minced scallion
1 green onion
4 hamburger buns split

12 tomato slices
1/2 cup grated medium-fine cheddar cheese
1/4 cup and 1/2 cup salmon mix with green pepper, 1/2 cup of the mayonnaise, lemon juice and scallion
1/2 cup tomato mixture onto hamburger buns. Top each with a tomato slice.

Mix together the remaining 1 cup mayonnaise and cheese; spread over tomato slices.

Broil about 4 inches from source of heat until topping is puffed and lightly browned. Makes 4 hearty servings — 2 bun halves per portion.

CHINESE SALAD

2 cucumbers
1 Tablespoon vinegar
1/2 cup soy sauce
1 Tablespoon sugar
2 Tablespoons oil
polysubstituted oil

Slice unpeeled cucumbers (sparer than Add vinegar, soy sauce and sugar. Marinate for 15 minutes. Then add oil and stir. Chill and serve. Makes 4 servings.

SUPER SLAW

1/2 teaspoon salt
1/2 teaspoon pepper
1/2 teaspoon dry mustard
1/2 teaspoon celery seed
1 Tablespoon sugar
2 Tablespoons green pepper
1 Tablespoon chopped onion
1/2 teaspoon grated onion
polysubstituted oil
1/2 cup shredded carrots
1/2 cup shredded cabbage

Combine all ingredients; mix well. Cover and chill thoroughly. Makes 4 servings.

CHICKEN TOMATO SALAD

2 envelopes
unflavored gelatin
1 can (10 1/2 ounces) condensed consommé
2 cups tomato juice
1/2 cup onion
1/2 cup Tabasco
2 cups celery
2 cups sliced, cooked chicken
1 cup chopped celery
1 cup chopped onion
1/2 cup cucumber

Sprinkle gelatin over 1 cup of the undiluted consommé in saucepan. Place over low heat, stir until gelatin dissolves, about 4 or 5 minutes. Add remaining consommé, tomato juice, salt, lemon juice and Tabasco. Chill, stirring occasionally, until the consistency of soft-serve ice cream. Fold in sliced chicken, celery and onion. Turn into soup mold or bowl, chill until firm. Unmold. Makes 4 servings.

WEEKEND BREAKFAST

1/2 cup orange juice
Seven-Ingredient Cereal
Whole-wheat Toast
Beverage

SEVEN-INGREDIENT CEREAL

It's a hot-mixed cereal.
1/2 cup undiluted raisins
1/2 cup shredded coconut
1/2 cup chopped nuts
1/4 cup sesame seed
1/2 cup raisins
1/2 cup packed light brown sugar
1/2 cup corn oil
1/2 cup flax seed

In a large mixing bowl mix together the oats, coconut, nuts and sesame seed. Stir in brown sugar, then corn oil and well mixed. Spread on a jelly-roll pan. Bake in a preheated 300-degree oven, stirring occasionally, until lightly browned — 20 minutes. Remove from oven. Mix in raisins. Serve as a cereal with milk. Keep in a tightly covered container in the refrigerator. Makes about 1 pound.

Fresh Fruit Dessert

By AILEEN CLAIRE
NEA Food Editor

A dessert using fresh fruit that is in season proves a refreshing and economical way to please hungry friends and family members. Buying fruits in season means they cost less and are at the height of their flavorfulness. For a Nectarine Freeze just melt puffy marshmallows, fold in sliced fresh nectarines, maraschino cherries, whipped cream and put into freezer until thoroughly chilled, or about two hours. To serve, scoop out in big dips and surround with nectarine slices.

NECTARINE FREEZE:
4 large fresh California nectarines
20 marshmallows
3 tablespoons lime juice
1 cup whipping cream
1/4 cup maraschino cherries

Peel and dice nectarines to make about 2 cups. Melt marshmallows over hot water. Add lime juice. Cool. Whip cream. Cut cherries in halves, fold sliced nectarines, cherries and cream into marshmallow mixture. Refrigerate at least 2 hours. Before serving, pour into mold and slice remaining nectarines and arrange in swirl in fruit compote. Sprinkle chilled marshmallow mixture in center. Makes 6 to 8 comports.

Quick-to-fix desserts solve many social crises — unexpected company, a spur-of-the-moment neighborhood coffee, or a hastily planned committee meeting. Or the dessert might be needed to bolster a rather humdrum family meal. The dessert recipes given today are in the quick category. And, what's more, they need no apology, either in eye or taste appeal.

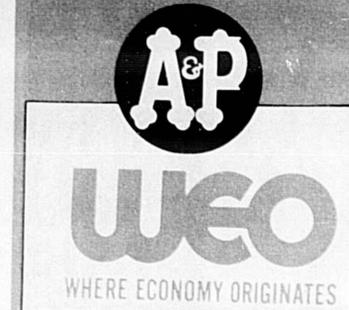

SPICY OATMEAL FRILLING CAKE:
1 1/2 cups all-purpose flour (Note)
1 cup quick-cooking oats
1/2 cup brown sugar (packed)
1/2 cup granulated sugar
1/2 cup soda
1 tsp. cinnamon
1/2 tsp. salt
1/2 tsp. nutmeg
1/2 cup shortening
1 cup water
2 eggs

2 tbsps. dark molasses
Coconut-raisin topping (below)
Heat oven to 350 degrees. Grease and flour 8-inch pan, 1 1/2 inches deep. Measure all ingredients except topping into large mixer bowl. Blend 1/2 minute on low speed, scraping bowl constantly. Beat 3 minutes at high speed, scraping bowl occasionally. Pour into pan.

Bake 25 to 40 minutes or until wooden pick inserted in center comes out clean. Cool slightly. Spread topping over cake.
Set oven control at broil and or 350 degrees. Place cake three inches from heat. Broil two to three minutes or until topping is golden brown.
(Note: Do not use self-rising flour in this recipe.)

QUICK APPLE-CREAM LOAF:
1 1/2 cups canned apple sauce
One-third cup apricot jam
1/2 tsp. grated lemon rind
1 pound cake
1 cup heavy cream
3 tbsps. confectioner's sugar
1/4 tsp. vanilla extract
Combine apple sauce, jam and lemon rind in a small saucepan. Simmer for 30 minutes. Chill. Slice cake lengthwise into four layers. Spread apple sauce mixture on top of three layers, about one-third cup per layer. Stack layers. Whip cream until soft peaks form. Gradually add sugar and vanilla and whip until stiff. Spread cream over sides and top of cake. Refrigerate. Makes eight servings.

ORANGE HONEY CUBES:
1 loaf unbleached day-old white bread
1/4 cup light brown sugar
1/4 tsp. cinnamon
2 tbsps. honey
2 tbsps. frozen orange juice concentrate, thawed, undiluted
1/4 cup melted butter
1/2 cup coarsely chopped nuts
Cut crust from top and sides of bread. Cut bread lengthwise almost through to bottom crust, then cut crosswise to form eight cubes. Combine sugar, cinnamon, honey, orange juice concentrate, melted butter and nuts; stir until well blended. Pour mixture over bread, letting some run down into cubes and over top. Loosely with string. Place on cookie sheet and bake in a 350-degree oven 10-15 minutes. Remove string and serve warm. Makes six servings (one loaf).

Cheddar Cheese Quiche

By AILEEN CLAIRE
NEA Food Editor

A handsome bachelor once extolled the virtues of a young woman who served him a delicious Cheddar Cheese Quiche. He did not marry the girl, but his praise proved of value to her and she shared a friend of his more interested in marriage. A quiche is relatively simple to make with a little practice and does impress the eater. Serve it as a main course as an appetizer, as a late night snack or even as a breakfast treat.

CHEDDAR CHEESE QUICHE:
8-inch unbaked quiche
1/2 pound sliced bacon
1/2 cup minced onion
1 egg, lightly beaten
1 cup milk
1 1/2 cups shredded Cheddar cheese
2 tablespoons Worcestershire sauce

Preck bottom and sides of quiche shell. (Homemade or frozen from supermarket.) Bake in a preheated 425-degree oven for 3 minutes. Remove from oven. Reduce oven temperature to 350 degrees. Lightly saute 1 to 2 bacon slices. Drain on paper towels and reserve for topping. Saute remaining bacon until crisp. Drain, crumble and reserve. Pour off all but 1 tablespoon of the bacon drippings from skillet. Add onion for 3 minutes. Combine eggs, milk, shredded cheese and Worcestershire sauce. Stir in crumbled bacon and sauteed onion. Pour into lined quiche pan. Arrange reserved bacon slices spoke-fashion on top. Bake in a preheated 350-degree oven for 40 minutes or until knife inserted into center comes out clean. Cool 10 minutes. Garnish with parsley, if desired. Serve hot or cold. May also be made in an 8-inch pie shell. Makes one 8-inch quiche.

Crabmeat Proving Popular With All Americans

By TOM HOGGE
AP Newsfeatures Writer

Despite the soaring cost of shellfish in America, it still is one of the top favorites here — at home or dining out.

The late Michael Field of culinary fame reported that Americans consumed more lobsters, shrimps, crabs, scallops, oysters and clams per capita than any other nation in the world.

But then, where else in the world can you find such specialties as oyster stew, soft-shelled crabs and tangy chowders that abound in America?

Crabmeat is second only to shrimp as the most popular shellfish in the United States. The hard-shell or blue crab of the Atlantic seaboard, the Dungeness of the Pacific and the Alaskan King crab are those most available in food stores.

In the opinion of many cooks, the small eastern blue crab for all its sweetness is the most worth the trouble of preparing at home. After all, one can purchase frozen crabmeat taken from the Dungeness of the West Coast.

Soft-shell crabs are something else, however. Many people are not aware that the soft-shell is not a distinct species, but merely a blue crab that has shed its covering. In the Chesapeake Bay area off Virginia and Maryland, fishermen keep close watch for crabs about to "molt" and set them off in special floats until they discard their shells. These crabs are left an extra hour in the water until the new shell has a chance to harden enough to withstand the rigors of shipping.

The so-called soft-shell crabs should be bought live and cleaned by your fish dealer the moment you purchase them. After cooking, all parts of the dressed, cleaned crab are edible. They are delicious fried or broiled and seldom take more than three minutes to cook.

The blue crab is available the year round in coastal areas. The peak season for the soft-shell is in July and August.

Seafood is a specialty of the Press Box, a New York restaurant which is now observing its 25th anniversary. Mike Wayne, the affable owner is celebrating the occasion with a series of seafood specialties from Lobster Dandros to Stuffed Crabmeat Crepes. Here is the recipe for crab crepes.

Filling
Simmer about 16 ounces of defrosted crabmeat in a mixture of 2 ounces butter, 1 ounce sherry, 1 ounce brandy and salt, pepper, garlic and bay leaves to taste. Simmer a few minutes, then remove from the flame.

Crepes
3/4 cup sifted flour
4 eggs
4 egg yolks
1 quart milk
2 teaspoons sugar
1 teaspoon salt
1/4 cup clarified butter

Mix flour, eggs and egg yolks with egg beater or whisk. Add milk, sugar and salt and beat

all ingredients are blended. Melt butter and skim off foam. Pour off and reserve clarified butter. Discard sediment in bottles.

Heat a four-inch skillet and brush with clarified butter. Pour in 1 tablespoon of the batter and tilt the pan so that the batter spreads over bottom of the pan. Cook crepe quickly on both sides. Repeat process until all crepes are cooked. Should make 16 crepes. Put an ounce of the crab meat filling in each crepe, roll and dress with Hollandaise sauce.

Quick Hollandaise
Heat 8 ounces butter to bubbling, but don't brown. Put 6 egg yolks into an electric blender, plus 4 tablespoons lemon juice, 1/2 tablespoon salt and pinch of cayenne. Run motor low speed and add hot butter gradually. Blend about 15 seconds or until sauce is thick and smooth.

MEAT COOKERY Quiz

Q. What is the name of this cut of meat?
A. Beef Blade Steak.

Q. How is it identified?
A. Cut from the beef chuck, this steak contains portions of the blade bone and backbone, and may include small pieces of rib bone. The lean is composed of the same muscles found in the blade pot-roast.

Q. How is it prepared?
A. By broiling or broiling indoors or out. For broiling it is best to have steak cut thin and to marinate it for these are less tender than steaks cut from the loin or sirloin. To broil, place marinated steak on grill or on broiler rack 4 to 5 inches from heat. Broil at moderate temperature for 7 to 10 minutes on each side, depending on doneness desired (rare or medium). To braise, brown the steaks, add seasonings and a small amount of liquid, cover and cook slowly until tender (1 to 1 1/2 hours for 3/4 to 1-inch steaks; 1 1/2 to 2 1/2 hours for 1 1/2 to 2-inch steaks).

Peking Duckling Leads All Far Eastern Main Dishes

By SUSAN DELIGHT
Copley News Service

The Far Eastern influence in foods is growing in the American home. But the foods prepared by American home-makers are greatly simplified versions of those prepared by cooks in the Orient. The prime rule to remember in Chinese cookery is not to overcook. Vegetables should be delicately tender, but not mushy. And the sweet-sour dishes should establish a just-right combination of both. In the Orient, the serving of Peking duck is the sign for preparing a special dinner.

This time-honored dish originally took almost a whole day to prepare. Today's easy-to-prepare version has a traditional plum-like sauce made by combining pure grape jelly with mustard, ginger and garlic. This sauce not only enhances the flavor of duckling, but coats a beautiful dark red glaze on the surface of the food.

Duckling Marco Polo receives its tantalizing flavor from spiced marmalade glaze.

Leftover turkey — or chicken — can be the main ingredient for turkey Oriental, quickly made with canned chicken giblet gravy.

PEKING DUCKLING
4 1/2-pound duckling, quartered
Salt
1 1/2-oz. jar pure grape jelly
1/2 tsp. ground ginger
1 1/2 tsp. vinegar
1/4 tsp. cornstarch
1/4 tsp. dry mustard
1/4 tsp. garlic salt

Sprinkle both sides of duckling with salt; place breast-side up on rack in shallow roasting pan. Cover loosely with foil; bake at 425 degrees, 45 minutes. Prick skin occasionally. Reduce temperature to 325 degrees; bake uncovered for 45 minutes. Pour off drippings. Combine remaining ingredients; cook over low heat, stirring occasionally until glaze is smooth and thickened. Continue basting duckling 30 to 45 minutes or until tender, brushing frequently with sauce. Garnish with kumquats, if desired. Makes three to four servings.

DUCKLING MARCO POLO
2 1/2- to 3-pound ducklings
Salt
Sprinkle both sides of ducklings with salt; place breast-side up on racks in large shallow roasting pan. Cover loosely with aluminum foil; bake at 425 degrees, 45 minutes. Prick skin occasionally. Reduce temperature to 325 degrees; bake an additional 1 1/2 hours. Pour off drippings. Remove foil cover. Continue roasting ducklings 45 minutes to 1 hour or until tender, brushing frequently with spiced marmalade glaze. Cut into quarters. Makes six to eight servings.

SPICED MARMALADE GLAZE
1 1/2-oz. jar pure orange marmalade
1/4 cup mustard
1 1/2 tsp. ginger ale
1/4 tsp. allspice

TURKEY ORIENTAL
1 pkg. (10 oz.) frozen broccoli spears, cooked and drained
1/2 cups diagonally sliced celery
1/4 tsp. ground ginger
1 1/2 tsp. butter or margarine

2 cups cooked turkey, cut in large chunks
1/4 lb. snow peas, cooked and drained
1/2 cup sliced water chestnuts
1/2 cup soy sauce
Cooked rice

Cut broccoli spears into 1-inch pieces. In skillet, cook celery with ginger in butter until tender. Add broccoli and remaining ingredients except soy sauce. Serve over rice. Makes six servings.

Smoked and Fresh Pork Paired in Tasty Loaf For Family or Friends

Summer is the season for family get-togethers — both premeditated and spontaneous. Many families make formal plans, but Uncle Ed and Aunt Isabelle, with nieces and nephews of assorted sizes, may simply drop in from nowhere.

Guests, arriving with or without advance notice, are no problem for the homemaker who has the recipe for Family Reunion Ham Loaf on file. The ingredients are readily available, the preparation is easy and the loaf is juicy and packed with flavor; points out Reba Stages, home economist of the National Live Stock and Meat Board.

Family Reunion Ham Loaf
3 pounds ground smoked ham
3 pounds ground pork
3 eggs, beaten
1 can (14 1/2 ounces) evaporated milk
1 can (10 1/2 ounces) condensed tomato soup
1 cup cracker crumbs

Combine all ingredients thoroughly. Pack into two 9 x 5-inch loaf pans or form into 2 loaves, each about 9 inches long, and place on rack in a large roasting pan. Bake in a moderate oven (350 F.) 1 1/2 hours. Serve hot or cold with Epicurean Sauce, 18 to 24 servings.

Brothers Testify At Sheriff's Trial

OCALA, Fla. (AP) — Two prosecution witnesses were cross examined Wednesday by defense lawyers who asked the former Lake County Jail inmates if they participated in fatal beating of another prisoner for which Sheriff Willis McCall has been charged with second-degree murder.

Jackie and James Huffman, two brothers who testified they saw the 63-year-old sheriff beat and kick Miami Tommy Vickers, denied inflicting the fatal blows to Vickers' stomach.

Defense attorney John Robertson went on the attack after Jackie Huffman took the stand.

"Did your brother stomp on Vickers between the shoulder blades?" Robertson asked.

"No, sir," Huffman said.

"If your brother said he did in a sworn statement, would he be lying?" the attorney asked.

"Yes," said the witness.

"Didn't you tell (two other inmates) that you and your brother beat Vickers to death?" Robertson asked, again getting a negative answer.

Earlier, the 20-year-old Huffman testified that he grabbed Vickers at the sheriff's instructions last April 13. He said he held the traffic violator by the arms.

"Then the sheriff came in and kicked him in the stomach three or four times," Huffman said.

"What did the sheriff say?" asked prosecuting State Atty. Robert Eagan.

"He is not crazy. Not a bit crazy," Huffman quoted the sheriff as saying.

Vickers was reportedly suffering from a mental illness and had been confined to state hospitals. Vickers, a black man, was jailed after he was unable to pay a \$26 traffic fine for not having an inspection sticker on his car.

Both Jackie Huffman, 23, and James Huffman, 32, admitted having prior criminal records.

City Pay Hike Bid Brings 'Battle Royal'

Sanford City Commission is meeting this afternoon in a second effort to resolve a dispute over proposed pay increases for city employees.

Commission started a "battle royal" Wednesday afternoon when Mayor Lee P. Moore and Commissioner John Morris proposed large pay increases for 187 city workers, including city manager W. E. Knowles, finance director Henry Tamm and assistant finance director Rosa Rutunda.

Commissioners Gordon Meyer and Julian Stenstrom proposed capping the salaries at \$23,887.

Tamm has been proposed by Knowles for a \$2,066 increase.

Under the new pay proposals the city manager would receive a \$2,887 increase this year, boosting his annual salary from \$21,000 to \$23,887.

Tamm has been proposed by Knowles for a \$2,066 increase.

Sub Site Eyed For The Cape

CAPE KENNEDY, Fla. (AP) — Part Canaveral, adjacent to Cape Kennedy, is one of seven sites being considered as home port for the fleet of missile-firing Trident submarines which will become operational late in this decade.

This was reported Wednesday by two Florida congressmen, who also said Part Canaveral probably would be the testing site base when advanced nuclear submarines commence missile firing tests in the Atlantic.

The port has been the testing site base for Polaris and Poseidon submarines.

Let's see what else is exciting... minute-to-minute coverage of political conventions is a bore, says the former "Today" show producer, and the upcoming Republican conclave may be the most boring of all.

Look, I didn't say it. It was Al Morgan. (But, I've been thinking along those lines...)

And did you hear about the six-member Circuit Court jury in Fort Lauderdale, which awarded Miriam Lauth \$5,000 in damages for an operation to remove belly stretch marks which she said scarred her career.

(You just never know what choice tidbit you'll pick-up in this column, now do you?)

Oh, yes... Miriam is a waitress at a high-class Polynesian restaurant. (And late those meetings, next week, scheduled for Monday, Wednesday and Thursday at 7 p.m. in the court house will have many, many more indignant taxpayers "waiting to be heard.")

Wear that smile, especially if you're on the river. On one of those houseboats, there is a staff from the National Geographic. Doing a story on Central Florida... having already visited the Cape and naturally, Disney World; they'll be here for a couple months.

We reported about 30 residents in yesterday's edition on being unhappy with their tax assessments. Well, it's up over 50 by today and it looks like those meetings, next week, scheduled for Monday, Wednesday and Thursday at 7 p.m. in the court house will have many, many more indignant taxpayers "waiting to be heard."

More Are Anticipated Double Sessions Upped

Two additional Seminole County schools will be on double sessions when school bells ring for the 1972-73 school year on Sept. 5.

The school board Wednesday afternoon decided to include grade 1-2 at Longwood Elementary and grades 1-2 at Forest City Elementary on a split day schedule, based on a recommendation from School Supt. John Angel, who disclosed that available data indicates these two schools will have enrollment of 10 per cent above capacity.

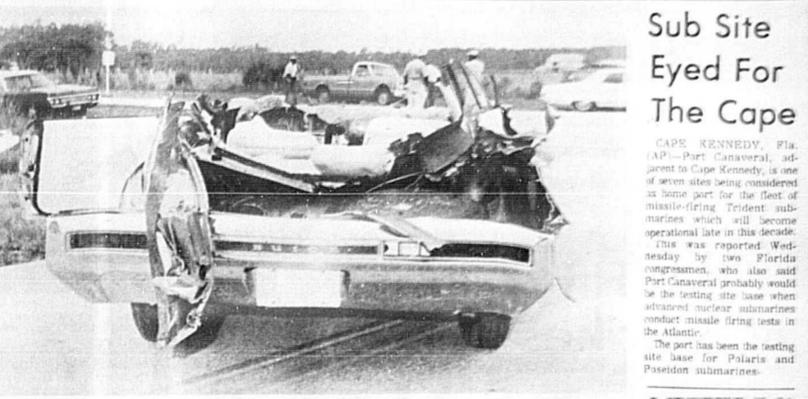

Double sessions also may be in the offing at Casselberry, Eastbrook and Spring Lake Elementary Schools. A final decision on these three schools will be made after opening day.

Teague Middle School was placed on double sessions a year ago when it opened its doors. It will be again on half-day session until the completion of Lake Brantley High School in late December, at which time Milwee Middle School will again move into its old facility which will be occupied in September by Lake Brantley students.

One bright light appears on the clouded school horizon with the opening of Red Bug Elementary School, which will relieve English Estates Elementary school of its present overflowing enrollment.

Mrs. Jean Bryant, board vice chairman, warned when the board voted to rescind its action on implementing the 45-15 year round school plan, that more and more elementary schools would be on double sessions this year and in the years to come.

However, the 45-15 decision would have had no effect on this year's enrollment problems since it was not slated for implementation until July, 1973.

LIKE IT WAS CUT IN HALF... Robert Emerson Phillips, 23, of DeLand was killed in this collision on SR 11, 10 miles south of Bunnell Wednesday morning. Troopers J. W. Peaden and R. B. Yates are handling the investigation with charges still pending the completion of their finding. To see what happened to the top of this 1970 Buick, see page 2A. (Rupert Chastain Photo)

Bram Open House Set This Weekend

BY DONNA ESTES

Atmosphere of busy, happy people who will determine their own degree of activity is being strived for at Bram Towers and the feeling is in the air.

Even the view from the windows of the smooth-lined complex is unmatched. The entire panorama of Sanford and its environs clear to Lake Jesup can be seen from the upper levels of the 13-story apartment complex.

A view of Lake Monroe can be seen from all the apartments, an exclusive self-contained community. And the complex is exclusive. Tenants accepted are only those 22 years old and more with maximum incomes of \$4,470 for a single person or \$6,535 for a married couple.

A full schedule of activities is expected to be on tap within short order once doors to the Towers open formally following open house this weekend. Residents will be as active or inactive as they choose to be in a variety of planned events from the passive puzzle enthusiast to the sports minded with city shuffleboard courts located immediately across the street to planned trips or bicycling.

Incidentally, administrative assistant John Oakes is searching for good complex picture puzzles when area citizens might wish to donate. He points out the type of puzzles desired are ones that are intricate, demanding skill. The puzzles will be set up in the library and board room.
