## Moore Tallies Only Run Of Game In Third Inning

### Joe Shroba Limits Rodgersmen To Four Hits As Big Jim Finger Holds Islanders To Five

Winning their second game in two days by a single score, the Sanford Lookouts eked out a victory Sunday afternoon at the Municipal Ball Park over the Daytona Beach Islanders by a score of 1 to 0.

The only run of the game came in Sanford's half of the third inning. Billy Moore, Sanford center fielder, worked Joe Shroba, 1st-base pitcher, for a walk and on a pitch to Schmidt, ran for second and succeeded in making it but McWilliams' throw to Wickett left second was out of reach and rolled into center. Meanwhile, Moore continued on to third and as Joe Neilson's throw in from center field was wild, going into the left field bleachers, Moore crossed the plate for the single score and the winning tally of the game.

Schmidt If	4	0	0	0
Adx	1	0	0	1
Pitman 2b	1	0	0	2
Davis 1b	2	0	0	2
Smith 2b	2	0	0	2
Brody if	2	0	0	0
Wickett p	2	0	0	0
DeWames c	1	0	0	1
Totals	22	1	0	27
Daytona Beach	0	0	0	0
Errors	0	0	0	0

Aside from the scoring in this inning action was at a standstill. In the afternoon around the home as Joe Shroba limited the Lookouts to four hits and Big Jim Finger gave the Islanders only five. Both hurlers had excellent control at all times and mixed their offerings to baffle the opposing batters.

Eddie Davis' bat was the most effective for the Lookouts as he cracked two of the four hits, one of which was a double in the fourth. Morton and Turek secured two hits each to lead the Daytona batting attack.

Best fielding play of the afternoon came in the sixth when Bob Pitman sent a long fly to center field that looked for a moment as though it might clear the fence but was taken by Nielson on the run.

Start of the game was held up until 4:36 o'clock due to a steady drizzling rain. Most of the spectators were in the park prior to 3:00 o'clock and many grew impatient as it appeared that after the long wait the game might be called. Although hovering clouds were a constant threat, rain held off until after the game when the drizzle began again.

### Hit And Run Driver Returned To Jail

Herman Travis, negro, hit and run driver who struck the car driven by Mrs. Fred Dornor on Colony Avenue Saturday afternoon, was returned to Sheriff G. M. Hand Sunday afternoon from Titusville where he was apprehended.

Travis was placed in jail to await trial before Judge J. W. Sheriff Hand said Mrs. Dornor was damaged badly but she wasn't injured.

### Sanford Meets Islets In HomeTown Tonight

Traveling to Daytona Beach tonight for a second encounter with the Islet's team in two days, the Lookouts will attempt to repeat the victory of Sunday afternoon when they defeated the Islanders club by a 1 to 0 score.

However, they will endeavor to secure a safer margin tonight, and as the war clubs of the Lookouts swing into action after several days' silence, a high-scoring game may result.

The Rodgersmen take on the DeLand Reds tomorrow night and meet them in a return game here Wednesday night.

### Sanford Ball Club Releases Several Players And Secures Other Talent

Several releases and additions to the Lookouts' staff of diamond talent recently is expected to bolster the cellar sitters.

Fitterer Hank Bazzer was sent to the local club from Chattanooga of the Southern Association on last Wednesday. It was announced that Mose Johnson, a right fielder, was due to leave over the weekend.

Released was Clifford Verner, pitcher, who was loaned to the Atlanta club. He was released on the 2nd of this month.

A repeat of an Orlando team Sunday and Monday had been agreed to play with the Sanford club. Manager George McLucas announced that Alwater, who owns the chunker and crusher him by "celebrating" he would like to keep the boy, because he could use another pitcher, as he is killed as a pitcher, it will be impossible, because he has no room for another pitcher of that rating.

### Sid Hudson Leads Sanford To 1 To 0 Win Over Orlando

#### Sacrifice By Hurler Sends Pitman Home In Eighth Inning

Pitching effortless ball, Lanky Sid Hudson led the Lookouts to a 1 to 0 victory over the Orlando Senators at the Municipal Ball Park Saturday night.

Going into their half of the eighth inning without a run scored by either club, the Lookouts entered the run inning on the plate that won the game.

The first man up, Hal Pitman, slashed a double to right center field and on David's sacrifice advanced to third. Hudson shifted at a couple of Conn's offerings, but on the third pitch, despite a nice hunt down the first base line and Pitman running like a race horse charged across the home sack with the winning marker as Hudson was thrown out at first.

Trying desperately to knot the score the Senators rallied in the ninth. Ruggiero started off by doubling to center but Hal Pitman was down on an infield out. Guinness worked Hudson to a walk but was out when Pete Mahalle hit one to Bobby Smith at second permitting him to tag Guinness.

That Sid Hudson was on top of his game is indicated by the fact that from the fourth inning through the eighth, he retired 15 men in order. Aside from Hudson's excellent performance, Bobby Smith and Hal Pitman showed to particular advantage.

Smith's play afield was little short of perfect as he limited several chances in near big-league style. Pitman's stick work made him a standout as he bopped three hits, one less than Hudson permitted the Senators.

On the whole, however, every man on the team played top-notch ball as did the members of the Orlando club.

### Pigskin Practice Dates Are Set By Seminole Coach

#### First Workouts Will Begin September 12; "B" Squad To Be Used

Football practice will begin at Seminole High School Sept. 5, Coach Leonard L. McLucas announced Sunday. That will be the day after Labor Day and five days prior to the opening of school on Sept. 12th.

There will be two practices a day until the opening of school. Coach McLucas said, urging all interested to report for practice duty. He pointed out that there will be two squads this year-- an A and a B squad. Especially did he suggest that freshmen and sophomores try for the B squad.

Coach McLucas declared that very likely an attractive schedule will be arranged for the B squad. Uniforms will be issued to all B squad men.

#### Leesburg Wins Over Azaleas 4 To 0 As G-Men Take Saints

In state league games yesterday Orlando won over DeLand by 10 to 0; Palatka went down to defeat before Leesburg 4 to 0; and Gainesville took a 5 to 1 decision from St. Augustine.

Bob Overstreet hurling for the Senators scattered eight hits to blank the Reds and win his 13th game of the season. Frye led the Senators' hitting attack with four hits in five trips to the plate including a double and a home run.

Jake Bunch shut out the Azaleas while the Gontoliers were making four runs to clinch the fray. It was his 18th win of the season. The game was called at the end of the sixth on account of rain.

### Winning his 10th of the season against only one loss, Ken Willis, former University of Florida grid and diamond luminary, limited the Saints to five bingles as the G-Men tallied five runs to take the decision.

## Japs Subjected To Severe Shelling On Changkufeng Hill

### Two New Clashes On Border And Further Troop Concentrations Block Peace

### Canton Bombed For Second Day

### 21 Killed Yesterday While Scores Die In Today's Air Raid

YUKI, Korea, Aug. 9.—(AP)—Soviet Russia's heavy artillery today subjected Japanese lines on Changkufeng hill to the most terrific shelling they have received since the current Siberian-Korean border trouble started on July 11. All afternoon Soviet guns poured six inch shells at the rate of six a minute along the entire four mile front.

New clashes between Soviet Russian and Japanese troops added to the world's disorders today while Arabs and Jews fought in the Holy Land and wars continued in China and Spain.

A Japanese army communique said two battalions of Soviet infantry attacked Sutshen, a hill-six miles north of Shachofeng, when the Russians occupied July 29 and lost two days later.

The Japanese also said the Russians are constructing new defense lines and concentrating troops apparently for renewed fighting.

In China Japanese warplanes bombed Canton for the second consecutive day, killing at least 102 persons, wounding 150 and burying uncounted scores. Yesterday's raids left 121 dead and maimed and 180 injured.

Fighting in Spain was confined to isolated engagements. Jews and Arabs continued fighting in Palestine and British troops, seeking to maintain order, fought an armed band in the hills.

Soviet officials accused Japanese militarists of attempting to draw Russia into war "by any means" and warned that further provocations along the Siberia-Manchukuo frontier will force the Red army to strike with all its force.

Foreign Commissar Litvinov told Mamoru Shigemitsu, the Japanese ambassador, that Russia (Continued on Page Four)

## City Commission Plans To Boost Park And Basin

### Projects Expected To Be Rushed To Completion This Year

The City Commission Monday night passed a motion approving certain changes in the master plan submitted to WPA officials, but had been returned for revision due to new regulations set up by the government agency.

The revisions were made and being approved by the Commission, will now be resubmitted to the WPA.

The members of the Commission agreed to concentrate on getting the boat basin project through the WPA instead of trying to take on more projects which would call for a division of time and effort. It was also decided to do everything possible to complete Fort Mellon Park within the next year.

A petition was submitted to the Commission by Edward Lane on behalf of 49 Park Avenue residents asking that action be taken to control traffic on the thoroughfare at all hours of the day and night.

The petition requested that traffic be restrained from exceeding 25 miles per hour and that excessive use of horns be stopped. It was pointed out that all traffic laws have been made a race track of Park Avenue thereby endangering the lives of pedestrians as well as of others in automobiles.

Members of the Commission explained that City ordinances adequately provide for safe driving on Park Avenue as well as elsewhere in the City limits, and Police Chief Roy G. Williams was instructed to see that drivers observe the law in the future.

Fire Chief Mack Cleveland reported to the Commission on his vacation, declaring that while it was a relief from the duties of office it provided him ample opportunity to visit other fire departments through several southern states and compare them with the local department.

Chief Cleveland said that while the Sanford Department lacks a great deal in equipment and man power that its record is comparable with that of any he visited.

## Over 150,000 Persons Enjoy Daytona Beach

DAYTONA BEACH, Aug. 9.—Nine lifeguard towers bathing areas here attracted 153,422 bathers during the month of July, according to a report by A. M. Boland, director of the Daytona Beach Red Cross Life Saving Corps.

The report listed 153,422 bathers, 336 first aid cases, 25 assists and rescues from the surf, with no drownings.

Daytona Beach is probably the best patrolled beach in the state and presents a doubly difficult problem due to the heavy motor traffic on the beach and the amazing record of no drowning and no serious accident in a credit indeed not only to the efficient Life Saving Corps of the Red Cross but to the police department as well, for their phase of the protection work in regulating traffic and protecting children at play along the beach is equally important. They have earned enviable reputations not only for efficiency in their work but for their courteous treatment of visitors and willingness to aid and assist tourists in a friendly manner that gets results and leaves no ill will.

They must have reached their 50th birthday but must not have passed their 55th birthday on the cloudy day of the month of applications. Age limits do not apply to persons granted preference because of military or naval service, except that such persons must not have reached the retirement age.

Applications should be filed with the recorder, Board of License and the Board of Health.

## Cone Loses First Bout In Election Fraud Litigation

### Key West Judge Restrained From Presiding At Trial

TAMPA, Aug. 9.—(AP)—Circuit Judge L. L. Parks today granted a temporary order restraining Judge William V. Albury of Key West from continuing the criminal court trial of five Tampanians charged with participating in election frauds.

Morris Uman, Tampa attorney, obtained the writ. He claimed Judge Albury was assigned here during the absence of the resident judge but that the assignment order was signed by Branch Cone, the Governor's brother and secretary, not by the Governor himself.

Uman's first attack on Albury's assignment was answered by Albury with the statement he was acting under an order signed by the Governor July 13 after the one dated Aug. 1 had been rescinded.

The Governor was in a Jacksonville hospital Aug. 1 and admittedly did not sign that order. Uman's new challenge was based on the claim that Branch Cone also signed the original order. Albury recessed the election fraud trials to await the hearing on qualifications tomorrow.

## Tropical Storm Loses Intensity In Ocean

JACKSONVILLE, Aug. 9.—(AP)—The Weather Bureau said today the "slight" tropical disturbance reported near the Virgin Islands yesterday appears to have lost its intensity and has moved rapidly westward.

Meteorologists said reports they received gave no indication of any "organized circulation." The "squally wave," as the Weather Bureau termed the disturbance in its present form, was said to be centered north of Haiti and east of Cuba. An advisory said the disturbance is "attended by only fresh to moderate strong winds and indications are that this equal area will advance westward over the southern Bahamas, the old Bahaman channel and Florida Strait waters during the next 24 to 36 hours."

The Weather Bureau advised small craft on the area to use caution and sail additional advisories would be issued only if there are indications of a redevelopment.

## Lion And Tiger Hybrid Is Known As "Tigon"

NEW YORK, Aug. 9.—(AP)—An announcement has been given the Central Park Zoo a tigon, it has been announced by the Department of Parks. A tigon is a hybrid of lion and tiger, and is very rare.

The animal was born four years ago to an African lioness that had mated with a Siberian tiger. It has the body of a lion, but the head resembles that of a tiger. In the winter, when the pelts are thick, tiger stripes may be seen. The tigon arrived yesterday and will receive attention today.

## \$60,233 Grant To Run Board Is Approved

### Fund Is Provided To Operate Unemployment Service Here For Third Quarter

WASHINGTON, Aug. 9.—(AP)—The Social Security Board today approved a \$60,233 grant to operate the Florida Unemployment Compensation Service for the third quarter of year. This action followed an accord reached between Florida officials and the board regarding an examination of unemployment compensation employees and the general approval by the board of plans for operating the program in Florida.

Members of the Florida Industrial Commission told Frank Hane, executive director of the Social Security Board, they had entered into an agreement between Hane and Governor Cone under which the results of the examination would be allowed to stand with the understanding that the applications of two prospective employees alleged to have obtained examination information in advance would be disregarded. Chairman Wendell E. Heaton, E. T. Lay and Herbert E. Wolfe of the Florida Industrial Commission, announced unanimous concurrence in an agreement designed to settle the controversy between Florida and the Social Security Board over a protested merit system examination for unemployment compensation employees.

They said they approved during a conference among themselves an agreement between Governor Cone and Frank Hane, that results of the examination would stand except in the case of two applicants for jobs alleged to have obtained advance information about examination questions.

Lay said Wolfe had described the agreement as satisfactory to the Governor.

He said the agreement would assure administration of unemployment compensation activities in Florida in accord with the Social Security Board's wishes.

## Florida Given Nearly 100 Million For Relief

JACKSONVILLE, Aug. 9.—Federal funds amounting to \$98,614,000.92 were allocated to the State of Florida under the Emergency Relief Appropriation Act of 1935, 1936 and 1937, according to a report covering the period from April 9, 1935 to June 30, 1938 made public today by J. B. Guthrie, State Director for the National Emergency Council for Florida.

The \$98,614,000.92 expended during this period, \$21,413,470.60 were extended during the past fiscal year ended June 30.

Mr. Guthrie listed the principal purposes for which the money was expended and the amounts spent as follows: Agriculture, exclusive of Public Roads and Farm Security Administration, \$66,615.66; Public Roads, \$743,991.44; Farm Security Administration, \$3,158,951.13; Civilian Conservation Corps, \$6,533.20; Public Works Administration, \$315,925.14; Works Progress Administration, \$15,926,141.92; and other Federal agencies, \$1,195,780.80.

Mr. Guthrie pointed out that the Bureau of Public Roads, the Civilian Conservation Corps and the Public Works Administration have expended additional funds received from other appropriations.

## Big Business In Miami's Breeding Of Unusual Fish

### Mollies and Latipinna Is One Species Always In Demand

MIAMI, Aug. 9.—(AP)—Millions of a colorful little fish, in many colors and shapes, are bred here and shipped to all parts of the world.

They are tropical fish—mollies, guppies, and fish-pain fish, swordtails and gouramis that go into public aquariums and private water gardens.

By crossing the types, breeders have developed these snappish fish into thousands of shapes, in all most every conceivable color combination.

It required seven years for William A. Sternke, who has a reputation full of exhibition awards, to perfect one particular fish. It is called molliesia latipinna, a three-inch black specimen with red edging on a large fish-shaped upper fin.

Sternke worked three years developing his molliesia latipinna, which has a silver body with bluish tints, red tail and red white and blue dorsal fin.

Many of the fish are beautiful when first discovered. The latest specimen is the neon tetra, found in the wilds of Colombia, South America. The neon tetra, colored with a fusion of green, blue, yellow and red, has a silver streak on the sides and shines in the dark.

Another importation from South America is the sunset molliesia. The upper part of the body is a deep blue, the lower part a brilliant orange that gives the effect of a sunset.

Some of the fish are fan-shaped, with long flowing fins. Some are almost round, others are slender with whisker-like projections.

The breeders vie with one another to produce new designs in fish for the trade and more beautiful kinds command the higher prices. As a new variety becomes more common the price drops invariably.

"When I first produced the molliesia latipinna," Sternke said, "I sold them for \$25 a pair. Soon people who bought them from me bred them by the hundreds. They sold for lower prices. Now they're worth almost nothing."

Prices generally are at a low ebb now, single fish selling for prices ranging from two cents to \$3. Sternke blamed amateur competition.

A profitable sideline is the growing of water plants for aquariums. Many dealers also contract by the year to keep private aquariums clean, feed the fish and replace any that die.

## Singapore Safety Doubled In Event Britain Embroiled

### British Possessions In East Must Rely On Own Resources

SINGAPORE, Aug. 9.—(AP)—A frank explanation of fears felt by those responsible for the defense of Singapore, British crown jewel, has been made by Major A. D. Clark, secretary of the air and possessions committee for the island.

In case of war in Europe, places like Hong Kong, Singapore, Australia and New Zealand would be rather like besieged towns, relying entirely on their own resources in armaments and man-power until they could be relieved, he said.

"If Britain should be committed to a war in Europe, it might be extremely difficult to detach and send a part of the fleet to look after her interests in the Pacific."

It was with that possibility that air and possessions in Singapore might be found in a perilous part of the defense.

"The shore defenses of Singapore are extremely strong and completely adequate to prevent enemy ships from bombarding Singapore or troops from landings," Clark declared.

"But, should an enemy be able to establish an air base or bring aircraft without striking defenses of the island its planes could drop bombs, both high explosive and incendiary, and quite likely also gas bombs and gas spray on the town."

## Temperance Rally To Be Held Wednesday

The American Temperance Society of Florida will sponsor a temperance crusade Wednesday night at the Sanford Women's Club at 7:30 o'clock.

On the program there will be music, readings, speeches and pictures.

A pamphlet distributed by the society says there are 500,000 intemperate, cocktail lounges and dispensaries in America today, of three times as many as there were in the old days during prohibition.

It also declares there have been 118,169 traffic deaths during the first four years of repeal and that they are mounting higher each year. Eighty percent of the deaths, it adds, are due to drinking drivers and pedestrians.

It is further intimated that there are 25,000,000 drinkers in America today, 30 percent of whom will become hopeless drunkards in the near future and land in our tax-supported poor houses, insane asylums and penitentiaries. The program is free.

## Sanford Boy Enrolls At Ohio University

A communication received from Ohio State University announces the registration there of Walter Bach of Sanford in anti-venereal medicine.

### President Completes Sea Cruise In Destroyer After Transfer From Cruiser

### Plans Made For Georgia Talks

### Chief Executive Will Inspect Air Station And Deliver Speech

PENSACOLA, Aug. 9.—(AP)—President Roosevelt today cruised through the Gulf of Mexico to Pensacola, preparing two addresses which may indicate his wishes on the Georgia senatorial campaign. The President is scheduled to arrive here aboard the destroyer, preparing to deliver the address at the air station in the afternoon.

He will board the destroyer from the cruiser Houston at sea and will spend the night at the Naval Air Station.

After inspection of the air station, Fort Barrancas and Coon's Air Field here, Mr. Roosevelt will give a talk from the rear platform of the train which will take him to Warm Springs, Ga.

Leaving for Warm Springs early tonight, the President will find in Georgia one of the hottest national campaigns of his month-long trip. In a primary, set for Sept. 13, Senator Walter G. George seeks re-nomination against Lawrence S. Camp, United States district attorney at Atlanta, former Governor Eugene Talbot and W. G. McRae, Atlanta attorney.

Georgia has opposed many of Roosevelt's measures and political observers are wondering if the President will ask for George's defeat. Camp generally has been regarded as the Administration candidate.

The ability of the Roosevelt Administration leaders to sway Democratic voters in their choice of senatorial candidates is being tested now today in a number of the primary contests.

Citizens of Ohio, Idaho, Arizona and Nebraska will select their party tickets for the Fall elections. The outcome of some of the contests may decide how the President will go in the South this week toward indicating his opposition to senators who have opposed a substantial portion of the New Deal and are now up for re-nomination.

In the campaign ending at the polls today, the issue of New Deal loyalty versus flatly asserted independence has been raised most clearly in Idaho, although Mr. Roosevelt did not go into that state on his recent transcontinental tour.

Senator Pope of Idaho is running for re-nomination against Representative Clark, who says "a senator must rely on his own judgment." Pope has campaigned as a 100 percent supporter of Administration measures. He has received the good wishes of Secretary of State Hull and James A. Farley, the Democratic national chairman, and Mr. Roosevelt himself has given aid to Pope's proposals for the development of phosphate.

Politicians here have raised the question whether some Idaho Republicans might take a hand in deciding this contest. A new primary ballot, on which the names of both party's candidates are printed, would enable them to do so without sacrificing their right to vote Republican this fall. Their leaders have counseled them, however, to participate instead in the selection of their own party's candidate.

## AFL Okeys Senator George, Green Says

WASHINGTON, Aug. 9.—(AP)—William Green, president, and yesterday the American Federation of Labor had endorsed Senator George of Georgia for re-nomination as having a "100 percent labor record."

Green said he had sent his endorsement to the president of the Georgia State Federation of Labor in a letter dated Aug. 1.

His action aligned the AFL and CIO on opposite sides in the Georgia primary. Labor's Non-Partisan league, CIO's political branch, had put George on its "black list" and marked him for defeat.

In contrast to the AFL's endorsement, the league said that on 12 senate votes which it regarded as vital to labor, George had been wrong seven times and right only three. On the others, it added, he was absent or paired.

The league specifically named the wage-hour law and the Wagner-Steagall housing act as two of the measures George had fought.

MIDAS'S DREAM

I dreamt of gold and woke to
find
A strip of sun like orange rind,
A rooster farther down the lane,
Gold-painted like a weather-vane.
I looked and saw a golden calf
The heathen worshipped; heard a
laugh
And saw gold hair of my young
daughter,
Glimmering as sun on water.
I dreamt of gold against my
eyes,
And waking, saw the sun arise
To tip his golden penny up
And pour off gold as from a cup!
I dreamt of gold, and woke to
see
The sun's gold arrows aimed at
me!

Expert opinion in Europe is
reported as believing that if a
war breaks out this year, it will
be over the invasion of Czecho-
slovakia by Germany which will
take place on August 19, if it
does not place at all, they say,
since the experts have
predicted August 19 as the latest
date we can rest assured that
war will happen then.

There seem to be three pretty
reasons for the cause of the
border dispute. The
border may be trying to de-
termine the attention of the
Japanese around Han-
gchow. The Japanese may be trying
to divert the attention of the
border from the Czecho-
slovakian situation. Or they may
be trying to get a little free
trade with the Japanese.

A Lieutenant Governor Needed

The serious illness of Gov. Fred F. Cone, regrettable
as it is, has exposed a weakness in Florida's Constitu-
tion which should be corrected at the earliest possible moment.
Already nearly seventy when he was elected, Gov. Cone
has lain in a Jacksonville hospital for over a week now
with an illness somewhat belatedly pronounced by attend-
ing physicians as coronary thrombosis.

It is quite possible that with the proper care and at-
tention and a complete cessation of all business and po-
litical worries, the Governor will recover. But unless he
can be kept entirely isolated from the customary buffeting
of his office, he is likely to be sick for a long time, and
in constant danger of the most serious consequences of his
illness.

The safest thing for the Governor to do under the
circumstances would be to take a temporary leave of ab-
sence from his office and turn the administration of
State affairs over to a competent assistant in whom he
could place implicit trust, just as the chief executive of
any large business would do in the same predicament.
That, it seems to us, is about the only way the Governor
can lay down the cares of his office.

However, the State Constitution provides that when-
ever the Governor shall be incapacitated or for any reason
unable to perform the duties of his office, the President
of the Senate shall assume such responsibilities. Governor
Cone has recently tried to allow his brother and secretary,
Frank Cone, to act in his place, only to have a cloud of
illegality placed upon his every act.

We, for one, can appreciate the Governor's reluctance
to turn over the executive department of State govern-
ment to another, entirely outside of his own political fam-
ily, as long as he retains any hope whatever of recovering
from his illness. It is almost too much to hope that the
President of the Senate would run the State even for a
comparatively short period of time in accordance with
Gov. Cone's ideas or wishes.

It seems to us that what is needed in this emergency
or in any similar case where the Governor might be in-
capacitated for a few months, or permanently removed
from office, is a Lieutenant Governor, similar to those in
other states, or to the Vice President of the United
States, who could be expected in the absence of the Govern-
or to carry on without a complete change of policies and
patronage in the very middle of an administration.

The First Six Months

Local persons who may have realized from their own
profit and loss statements that business conditions this
year have not been as good as last may be interested in
figures showing the slump in other industries, may con-
sole themselves that no matter how much they may
have lost, there are plenty of others who probably lost
more.

Equally consoling is the news that while the first
three months of this year produced incomes scarcely above
depression years, the second three months in most in-
stances showed considerable improvement, occasionally
sufficient to wipe out earlier losses. General Motors, for
instance, which made \$8,231,000 in the first quarter of
this year, boasts \$21,786,000 profits in the second quarter.
Profits (or losses) for the first six months of 1937
as compared with the first six months of 1938, for the
following concerns were:

Table with 4 columns: Industry Name, 1937, 1938, Difference. Includes Durable Goods, U. S. Steel, Bethlehem Steel, Westinghouse, Railroads, Chesapeake & Ohio, Chicago, Burlington & Quincy, Building Materials, Johns-Manville, U. S. Gypsum, Chemicals, Du Pont, Union Carbide & Carbon, Automobiles, General Motors, Chrysler, Packard, Utilities, Commonwealth & Southern, Consolidated Edison, Food & Drink, General Foods, Standard Brands, National Distillers, Petroleum, Union Oil Co. of California, Tide Water Associated, Shell Union, Aircraft, Douglas, Martin, Cinema, Paramount, Twentieth Century-Fox.

The Department of Commerce reported last week that
income was off 8% from the first half of 1937, to \$30,-
\$30,000,000. Should income in the next six months keep
this pace, the 1938 total of \$61,000,000,000 will be only
\$5,000,000,000 less than 1937—a smaller drop than might
have been expected.

THE MINIATURE ARMY...
Before the World War, Poland
was geographically divided be-
tween its three ancient enemies—
Germany, Russia and Austro-
Hungary as it had been since
1795.
At the outbreak of the World
War, Poland found herself un-
comfortably placed between two
powerful enemies, Russia and Ger-
many. Interested in securing po-
litical independence, she consid-
ered bids from both of these powers,
but turned them down to fight her
own battle.
The Car promised Poland self-
government if she would remain
loyal to Russia; Germany made
similar promises. Poland insisted
on complete independence at any
cost, and it was obvious she
would have to fight for it.
Accordingly, under the leader-
ship of Josef Pilsudski, Poland
went to war with Russia on Au-
gust 6, 1914—with only 300 men!
These 300 loyalists were known
as the celebrated "Kadrowka." It
grew into a brigade then in three
brigades. Eventually it became the
Polish Legion of 14,000 men.
In 1918 Germany, attacking
from the West, captured Warsaw,
then offered to permit the Polish
Legion to operate as a separate
army unit against the Russians.
Pilsudski, however, held out
for complete Polish independence,
and was jailed. His Legion then
operated as an underground or-
ganization, and in 1919 with the
downfall of the Central Powers,
Pilsudski triumphantly returned
to Warsaw at the head of the
Legion.
In the same year the Poles pro-
claimed a republic with Pilsudski
as dictator and first provisional
president. From a tiny band of
300 men Pilsudski's dream had
grown into a political entity.

## Conference Is Held By Legion Auxiliary

The mid-summer conference of the Seventh District of the American Legion and the American Legion Auxiliary was held Sunday in Mt. Dora.

About 75 members of the Auxiliary assembled in the lounge of the Mt. Dora Yacht Club at 10:30 A. M. for the meeting which was presided over by the vice president of the Seventh District, Mrs. E. L. Vickers-Smith, of Louisville, who made appointments of district chairmanships to 100 members of the Sanford and Mrs. F. E. Bounillat was appointed District Chairman of Membership and Mrs. Henry McLaughlin, Jr. was appointed Chairman of Publicity.

The conference luncheon for both the legion and the Auxiliary was held at the Civic Center at 1:00 P. M. and in the afternoon a joint meeting was held at the auditorium.

An outstanding feature of the conference was the organization of the honor society of boys and girls, who have been recipients of the Legion medal. The award of these medals are made after recommendation from the principal and teachers have been received and a close examination of schools. Its records have been made. Based entirely on records of citizenship, these awards signify not only scholastic ability, but also service to school and community.

Special guests at the conference were Mrs. Gillen S. McClintock, Apopka, department president; Mrs. Lee Lovell, Apopka, department secretary; and Mrs. I. W. Hunter, Jacksonville, senior vice president and vice president of Fourth District.

The following department chairmen were present: Junior Department, Mrs. Margaret C. Long, Miami; Public Safety, Mrs. Adelaide Hatt, Palm Beach; Publicity, Mrs. Alice Ballentine, Orlando; Finance, Mrs. Frances Laughlin, Orlando.

Representatives from Sanford were Mrs. J. O. Huff and Mrs. Henry McLaughlin, Jr.

## Regular Meeting Held By Missionary Group

The regular business and program meeting of the circles of the Women's Society of the First Methodist Church was held at the church with Mrs. C. E. Williams, president, presiding.

Mrs. R. L. Brickland held a devotional service and Miss Inez Williams and Miss Gladys Ferguson gave an interesting report on the recent Epworth League Conference at Winter Haven to which they were delegates.

Circle Number Two was in charge of the program for the afternoon. The topic was "The Education of the Pioneers in Brazil," which was discussed by Mrs. Martha Moffitt, Mrs. W. E. Thornton and Mrs. J. P. McClelland.
