

**THE WEATHER**  
Rain tonight, slightly colder in extreme north portion; Friday fair, colder in central and northeast portions; fresh south and southwest winds.

## Court Told "Altering Letter" Lansdowne

Several reported killed when two trains of Pennsylvania Railroad collided at Monmouth Junction, N. J., early this morning.

### NEWS SUMMARY

#### DOMESTIC

Several reported killed when two trains of Pennsylvania Railroad collided at Monmouth Junction, N. J., early this morning. Question of whether intangible property can be justly placed on assessment rolls if a low rate is applied, is discussed at tax conference.

Disinherited relatives of Archibald McArthur, wealthy spiritualist of Dodgeville Wis., await outcome of investigation into circumstances surrounding his death.

Misses and boys greet telegram from Adj.-Gen. Davis refusing to allow Col. William Mitchell attend dinner of war aviators in New York.

Sixty letters, alleged to have been written by the bride of Leonard Kip Rhineland to him and which were being used by the plaintiff in his suit to annul the marriage, have mysteriously vanished, counsel announces.

#### STATE

Jury trying County Commissioner Core of Wakulla for alleged mal usage of county funds, was still deliberating today after having been out since Wednesday morning.

Mass of technical matter with detailed exhibits presented at rate hearing, which reconvened this morning at Orlando.

#### WASHINGTON

Widow of Commander Lansdowne, pilot of the ill-fated Shenandoah, goes on stand before military court and gives testimony regarding insulting letter that was an attempt to influence her testimony before air board.

#### LOCAL

Armistice Day program featured by boat races and rodeo staged here Wednesday afternoon.

Sanford High School football team loses to Kissimmee Armistice day by a score of 33 to 6.

#### R. S. Entzminger, who negotiated transaction which brought big poultry interests to Seminole county, predicts wonderful future for Longwood and Seminole county in connection with recently announced enterprise.

December 2, is date set by board of governors of Sanford Yacht Club for the formal opening of the clubhouse on the lakefront.

## SUPREME COURT HAS SUCCESS IN DISPOSING CASES

Congestion Of Docket Has Been Greatly Relieved By Plan Recently Inaugurated; 201 Cases Heard This Year

WASHINGTON, Nov. 12.—(AP)—Chief Justice Taft and his associates upon the Supreme Court are greatly encouraged by the success which has so far attended their efforts to relieve the congestion on the court docket.

In directing their endeavor to promptly disposing of justice, they already have succeeded in making it possible for a case to be reached in regular turn for arguments and decision within a year. When Associate Justice Holmes, the senior member of the court, went upon the bench in 1912, cases were not reached for consideration in their regular turn for over three years.

All important cases waiting the consideration when the court meets in October or filed by the end of the following December, are now advanced, heard and disposed of before the court adjourns in June and those of major importance being reached shortly after the beginning of the new year may be disposed of before the summer recess.

It is recalled that not many years ago successful litigants in the lower courts were discouraged by an application to the Supreme Court and many of them were forced into unwilling compromises by the delay which confronted them and purpose of the appeal furthered for compromise outside of court.

The condition has now completely disappeared and the court's docket cannot longer be used to a great extent for the purpose of holding cases in limbo. The high prosecuting and its inroads upon accumulated business, is shown by the record it has made during the present term.

When it met Oct. 5 there were 737 cases upon its docket awaiting consideration. During three weeks in which it heard arguments and rendered decisions Oct. 26, it prepared for disposition in final disposition of 201 cases, seven original and 194 appellate, with only 536 new cases of action being during the intermission.

## J. C. ROBINSON TESTIFIES AT RATE HEARING

Follows Short Talk Of Matthews On Increase Of Tonnage In Starke Section At Orlando Session This Morning

### Says Shippers Save Carriers Many Cars

Presents Table Showing Difference in Cars Required If Roads Bind The Growers

ORLANDO, Nov. 12.—(AP)—A mass of technical matter with detailed exhibits was presented at one opening of the line haul rate hearing here this morning before the Interstate Commerce Commission attorney examiner by J. Curtis Robinson, secretary-manager of the Growers and Shippers League, complainant.

With one exception of short testimony given by E. S. Matthews, secretary of the State Railroad Commission, Mr. Robinson's testimony consumed the entire morning sitting.

Mr. Matthews told of the possibilities of increased tonnage of shipments of vegetables from the Starke section. He stated that in 1924 there shipped from that section about 20 cars of green corn and in 1925 there were 82 cars shipped. These shipments, he said, were limited by shipping facilities because green corn retains more field heat than most other vegetables and the carriers did not permit sufficient icing to carry to the market.

Shippers Save Carriers Secretary Robinson declared that the shippers were voluntarily saving the carriers the use of many cars by shipping above the present minimum of both citrus and vegetables.

He presented a table showing the number of cars that would be required if the shippers held the car loads down to the minimum of 300 boxes and the number of cars required with 360 boxes loaded. The table showed savings of approximately 3,000 cars in 1909-10, 5,000 in 1921-23, 10,000 each in 1923-24 and 1924-25.

He asserted that the growers and shippers were penalized on difference of minima in shipments to Jacksonville and of the minima on shipments beyond. He pointed out that shippers by heavier loading were saving the carriers one car in every five cars from Florida.

Penalties on minima past Jacksonville were said to be 85¢ per car on grapefruit and 93¢ per car on oranges.

Mr. Robinson said that shippers preferred the package rate shipment to that of carload lots.

He said however that it was necessary that minimum car loadings of 100 pounds instead of 120 pounds, the present minimum.

#### Rates Twice Increased

One of the exhibits presented by Mr. Robinson, shows that the rates (Continued On Page Seven)

## Jury Trying County Commissioner Core Still Deliberating

TALLAHASSEE, Fla., Nov. 12.—(AP)—The jury in the case of George C. Core, Wakulla county commissioner being tried at Crawfordville, for alleged mal usage of funds, was out all day yesterday and had not reported up to a late hour last night, according to word reaching here this morning.

The case was given to the jury yesterday morning following the presentation of testimony during the first two days of circuit court, which began Monday.

Core was indicted at the last session of the grand jury for alleged voting to pay a warrant for \$2,500, declared to have been an illegal claim against the county.

L. L. Parraro and J. L. French, two other county commissioners, will be arraigned along with Core at the next session of county court, the former for the alleged signing of the warrant, and the latter for voting to pay it. The county court will convene during the latter part of November.

Advices to Tallahassee also stated that the selection of a jury to try Hutch Gibson, of Tallahassee for the alleged murder of Noah Dodge, about a year ago is already under way. Gibson was also indicted under way. Gibson was also indicted under way. Gibson was also indicted under way.

## English Village In Danger Of Sea Wash

KILNSEA, Eng., Nov. 12.—(AP)—This ancient little village appears destined for the bottom of the ocean, a fate experienced by other Yorkshire towns of centuries past.

The sea for some time has been working its way toward Kilnsea at the rate of about 13 inches a month. Coast erosion, due to high seas, has been causing concern all along the east Yorkshire coast.

## Camera Studies at "Pitty Murder" Trial

At the left are two new camera studies of Dr. Harold E. Blazer, who is on trial for murder at Littleton, Colo., in connection with the killing of his crippled imbecile daughter Hazel. He slew her to end her sufferings and to relieve his married daughter, Frances Bishop (right) of her care. Mrs. Bishop will be one of the principal witnesses against him.

## KISSIMMEE COPS GRID GAME WITH SANFORD, 33 TO 6

Both Teams Are Weak On Defense But Backfield Men Play Brilliantly; Sanford Protests Game In Last Half

By HARLAN W. KELLEY  
A badly crippled and disabled Sanford High School football team went down to defeat yesterday before a clever and fast eleven from Kissimmee by the score of 33 to 6. Both teams played hard and well, time and again electrifying the large Armistice crowd with brilliant plays and long runs. It was a battle of backfields and a game of scoring, with both teams weak on the defense.

Kissimmee played quarter football and was rewarded with the long end of the score. The game, while interesting and exciting, was somewhat ragged due to incompetent refereeing. The Sanford team played the greater part of the last half of the game under protest.

The Sanford team gained enough in total yardage to have scored many more times than it did, but due to the strengthening of the Kissimmee line when its goal line was threatened, some bad breaks of the game, costly fumbles, and strange decisions on the part of the referee, they were unable to take full advantage. Barber, alone, gained enough yards to win an ordinary football game. He fairly outlanded another Red, the famous Grange, yesterday.

He carried the ball 30 times and gained a total of 212 yards, averaging more than seven yards every time he carried the ball. Whenever he was able to get past the line of scrimmage, he completely fooled the secondary defense of Kissimmee and was good for a gain of from 10 to 30 yards. He narrowed some of Grange's stuff and returned a kick-off 73 yards before he was downed. He also scored Sanford's only touchdown.

Entzminger Also Stars  
Entzminger, too, had a field day yesterday until he was injured and forced to withdraw. He averaged over five yards every time he carried the ball. He featured with a beautiful tackle of a man who had intercepted a forward pass and had a clear field with three men running by his side as interference. Entzminger broke through all three men and nailed the runner. Neither line played much of an important part in yesterday's struggle, but Grier, Pope and Rustad were the stars.

#### PAINLEVE HAS NEW PLAN

PARIS, Nov. 12.—(AP)—Premier Painleve's latest plan for the reform of the French treasury submitted to the finance committee of the chamber of deputies calls for a levy of 15 per cent on real estate, both improved and unimproved, payable over a period of 14 years.

#### MARVANIA SELLS FAST

Up to noon Thursday, 11 lots of the newly opened Marvania subdivision had been sold, according to officers of the Scruggs Realty Company, exclusive sales agents for the development. Of this number, four were lake front properties, listed at \$7,500, and all were disposed of to Sanford purchasers.

#### Florida Women To Represent College At Eastern Meeting

TALLAHASSEE, Fla., Nov. 12.—(AP)—Mary Pringle, president of student government at the State College for Women, and Mildred Bruce will represent Florida State College next week at the annual meeting of the Eastern Student Government Association at Wellesley College, Wellesley, Mass.

Miss Pringle, whose home is at Tallahassee, and Miss Bruce, who is of Orlando, will stop off at Washington, New York and Boston.

The meeting, the dates for which are November 14, 15 and 16, will be featured by a discussion of present-day student government. Penalties, point systems, freedom of speech of the school newspaper and other matters will be taken up.

A majority of the eastern colleges are members of the association, as well as Barnard, Wellesley, Smith, Bryn Mawr, Radcliffe, Agnes Scott, Randolph-Macon Women's College and many others.

As yet Florida State College is not an associate member of the association, but within a few years, it was stated, it is expected that the institution will be a ranking member.

Both defendants pleaded not guilty. About three days is expected to be needed to hear the trial.

## Poultry Ranch Project Will Mean Much To County, Says Entzminger

Speaking Wednesday in connection with the recently announced \$10,000,000 poultry ranch development located near Longwood and Sanford, R. S. Entzminger, of Longwood, one of the directors of the Orlando Development Corporation, and who was instrumental in securing the project for Seminole county, stated that final selection of the land chosen was made after six weeks of negotiations, with the Californians financing the deal.

He declared that Orlando interests, hearing greatly of the proposed development, had made a number of particularly attractive offers of land in Orange county in an effort to keep the corporation in that section. The attention of the westerners was directed to

## 12 Killed When Two Pennsylvania Trains Crash This Morning

HUNDREDS ENJOY BOAT RACES AND FIELD MEET HERE

Two Important Events Of Holiday Program Declared A Success By Legion Members; Ball Closes Program

Undaunted by a laden sky and choppy seas churned by the stiff wind blowing across Lake Monongahela, Sanford's sea pilots yesterday provided thrilling sport for a large crowd of spectators gathered at the municipal dock, and along the water front to witness what was said to be the first power boat regatta ever staged in this city.

The races, held under the auspices of the American Legion, in connection with the Armistice Day celebration, were declared to have been more successful than the committee had hoped, establishing beyond doubt the value of the lake as a drawing card for sports events.

Although racing during the afternoon was confined to but two classes because of the limited number of entrants, both contests provided keen competition and much excitement. J. D. Woodruff piloted his own craft around the buoys to lead the speed boat class home by a comfortable margin.

The thrills of the afternoon came during the race of small boats powered with outboard motors. The tiny craft found the heavy seas hard going, and many of the entrants were drenched. P. A. Mero won the event.

Field Day Program Given.  
Following the boat races, the field day program was given at the Municipal Athletic Field, before one of the largest crowds ever assembled by Sheriff C. M. Hand for the local Legionaires, but because of his sudden illness, the affair was conducted under the direction of Walter H. K. the sheriff's brother.

Eighteen entrants exhibited pretty form and furnished interesting entertainment as they clicked the rings in the tournament riding. Eddie Pell was awarded the first prize, \$39 while Dave Self and W. E. Killee won second and third awards, \$23.10 and \$25.60 respectively.

Killee Wins Sprint Event.  
In the sprint for tournament horses and riders, following the horse landing contest, W. E. Killee showed the heels of his mount to the field. Returning the winner, he was awarded the \$25 prize offered. Eddie Pell was second, winning \$15, and Joe Cameron trailed to win the \$10 show money.

By his grace of movement and the ease with which he handled his mount, together with his versatility in the saddle, Earnest Lee was adjudged the premier equestrian in the trick riding contest. Lee's specialty, picking handkerchiefs from the ground in a number of ways, showed to good advantage.

Willis Dixon, champion "hoosier" of Seminole county successfully defeated the efforts of an outlaw stallion, imported from the outlying districts for the occasion, to unseat him. The ride furnished a number of thrills for the spectators. Promoters of the rodeo report an excellent crowd in attendance.

As a crowning success of an eventful day the Legion gave a ball in the City Hall during the evening. The affair commenced shortly after the exhibition of fireworks, and continued until after midnight with a record number of reveler in attendance.

In an announcement today, Legion officials requested that school children submitting essays on the exhibition of the Declaration of Independence to turn them over to their teachers for collection.

## Jury In Colorado Trial Deliberates

LITTLETON, Colo., Nov. 12.—12 men locked in a room on the top floor of the Arapo county court house early today had in their hands the fate of Dr. Harold Elmer Blazer, who is charged with murdering his 34 year old daughter Hazel, a cripple and imbecile almost from birth.

The jury failed to reach a verdict late last night after two hours of debate, and was locked up for the night. No alternative finding, two verdicts—guilty of first degree murder or acquittal—were possible.

"I'm not worried," Dr. Blazer said. "The worst thing that can happen to me is a hung jury."

## MUKDEN CASUALTIES HEAVY

MUKDEN MANCHURIA, Nov. 12.—(AP)—A communique issued by the headquarters of Marshall Chang Tso-Lin admits that the losses of the Manchurian forces in the recent fighting in the region of Hsu-Chow and Kuchen were very heavy, 2,000 being killed.

The commander places the loss of the Chekiang enemy at two brigades.

## Victims of Wreck Are Rushed To Hospitals While Scores Relief Workers Go To Scene

NEWARK, N. J., Nov. 12.—At least 12 persons were killed and several injured today when the Pennsylvania passenger train Number 6, from St. Louis to New York telescoped the two rear coaches of train Number 166, Washington to New York, at Plainsboro at 5:30 o'clock.

The rear car, the Pullman, carried 10 passengers. Victims carried from the wreckage were rushed to hospitals in New Brunswick and Trenton. A corps of relief workers, doctors and nurses from St. Francis Hospital at Trenton, went to the scene in a special train.

Thomas Wry of Lynn, Mass., said to be a brakeman on No. 166, received a broken neck. He was taken to Middlesex Hospital, New Brunswick.

Frank Hershig, 27, of Baltimore, was taken to Trenton with injuries about the neck and back.

Ten Doctors Go To Scene  
NEWARK, N. J., Nov. 12.—(AP)—According to word received at the Clinton Street Station of the Pennsylvania Railroad shortly before 9 o'clock this morning, there was loss of life when a passenger train, number six, running from St. Louis to New York crashed into the rear of a passenger train, number 166, Washington to New York train at Plainsboro, this morning at about 5:45 o'clock.

Ten doctors, 22 nurses, a priest and several sisters from St. Francis Hospital left here on a relief train at 7:45 o'clock for the scene of the disaster.

Only one injured person, Frank Hershig, 27, of Baltimore, has thus far been brought to Trenton. He is severely injured about the neck and legs.

#### Two Relief Trains Sent.

NEW YORK, Nov. 12.—(AP)—Officials of the Pennsylvania Railroad have dispatched two relief trains, ambulances, doctors and nurses to Mammoth Junction, N. J., where there was a collision between two passenger trains during a heavy fog. Two Pullmans were derailed, according to reports.

#### NEW BRUNSWICK, N. J., Nov. 12.—(AP)—The Western Express on the Pennsylvania Railroad was wrecked at Mammoth Junction, 10 miles south of here at 6 o'clock this morning. Doctors were rushed from here. Traffic was locked.

#### American Schools In China Begin Well

FOOCHOW, China, Nov. 12.—(AP)—American mission schools started auspiciously and apparently will not be violently opposed this school year. Enrollment in one American middle school reached its limit a week before the opening date.

#### West Palm Beach—Plans announced for installation of new water system.

## SANFORD FACTS

#### BUILDING AND LOAN

The Sanford Building and Loan Association was organized in this city on Oct. 1, 1905, by A. P. Connelly, who has been its executive head since. The original capitalization was \$500,000. The stock is now valued at \$1,500,000. The record of the association shows but one foreclosure during the period.

The association has been instrumental in the construction of over 500 homes in Sanford, and has \$135,000 in its present program. Net earnings for October, 1925, are given as \$10,000. Paid up stock in the concern pays four per cent dividends semi-annually.

#### Clearwater—New equipment being installed in Wearer Ice Cream plant, on Park Street.

OUT OUR WAY :: :: :: :: :: By Williams

MANY HORSES KILLED

LONDON, Nov. 13.—(AP)—The horse and mule casualties on the Western front during the World War, distinct from accidental injuries, is placed at 120,886 killed and injured in the official history of the veterinary services. Of this number, 178 were killed and 1,868 injured by gas and 51,308 were killed and 67,532 wounded by gunshot.

**You can almost feel RHEUMATISM disappear!**

THAT miserable ache from inflamed, swollen muscles—GONE! Rheumatism conquered! Driven right out of the system—simply by building rich, red blood. Sounds almost incredible—but it's true! You see, rheumatism, as it is called, that cripples you up and tortures you night and day, is caused by impurities in the system. Weak, impoverished blood can't throw off these impurities—so rheumatism remains.

S. S. S. helps Nature rebuild your blood to fighting strength—builds red-blood-cells by the millions! Red blood purifies the system—rheumatism is driven right out.

Get this wonderful relief yourself! Thousands are doing it! S. S. S. has been stopping rheumatism by building up red cells in the blood for generations. It will do the same for you.

S. S. S. also cleanses your skin of blemishes—increases your appetite—puts power and strength and energy in your body. Get S. S. S. today from any drug-gist. The larger bottle is more economical.

**BONITA BRAND**  
Makes Everything Taste Better

Most southern housewives would not eat without butter and eggs at home, as to serve a meal without Bonita Syrup.

Many will tell you that this is because of its deep consistent richness. Others because of its perfect cane flavor. But all agree that no finer table syrup than Bonita has ever been made.

**Brings the Cane Fields of Georgia to Your Table**

Enormous production makes Bonita cost no more than inferior syrups, but you will like it best of all. Let your whole family enjoy Bonita—today.

The genuine is sold by all leading grocers. Be careful of imitations.

"KEEP A POUND"

—and Mrs. Haynes bought another Perfection

"I've bought four or five Perfection Stoves in the last nine years so you can imagine I'm not displeased with them! I have apartments which I rent and all are furnished with Perfection Oil Stoves," writes Mrs. P. B. Haynes, 501 West Peachtree St., Lakeland, Fla.

"I swear by the Perfection and wouldn't use any other kind. Though I have gas in my house I use the oil stove by preference. I like it for cake baking most especially. Better than gas, because it gives such steady, even heat. In fact it is fine for any kind of cooking and I feel sure I could cook a meal of any size on it."

Mrs. P. B. Haynes

That's the way practically all Florida women who use Perfections feel. They find the Perfection so dependable, convenient, and safe that they would not use any other stove. Cook a meal on one, and you will feel the same way. There are many reasons why.

**Every Range of Heat**  
At the touch of a match, you have instant cooking. It's easy to adjust the flame, too. For a steak-frying flame, turn the wick high enough to produce slim yellow tips 1 1/2 inches long above the blue flame. For simmering, just lower the wick until you get a gentle, blue flame.

**Long Chimney Means Clean Kettles**  
Of course there are many degrees of heat possible between these two extremes. Each burner is independently operated and gives every range of heat. You can simmer, broil, bake, and fry at the same time, if you choose. The flame stays at the height you set it.

**Kettles Stay Clean**  
Perfections burn only kerosene, the safe, household fuel. As the long blue chimneys completely burn every drop of oil before the heat reaches the cooking, the utensils stay clean and soot-free.

Is it any wonder that experienced housekeepers like Mrs. Haynes not only prefer them for personal use but feel they are the most satisfactory stoves for their tenants to use?

Ask any dealer to show you models. Equipped with from one to five burners, prices vary from \$7.00 to \$120.00 for our finest range with built-in oven. There's a model for your kitchen.

MOMENTS WE'D LIKE TO LIVE OVER-TEA LEAVES.

Mrs. M. J. Collicutt is very ill at this time suffering from toxic poisoning, caused by abscessed teeth.

Mrs. John Cleman and children, who have been in Cleveland, Ohio, during the summer months returned to their home here in East Goldenrod last week.

Mrs. Laura Mathers and son, Drady, were business visitors in Jacksonville Friday and Saturday last week.

Rev. and Mrs. Reid of Winter Park were making pastoral calls here Thursday afternoon.

Mrs. Lyle Gardener has accepted a position with the Western Union Telegraph Co. in Orlando and began work there Thursday last week.

Mrs. and Mrs. Graham and the former's father, all of Alabama arrived here last week by auto, and are located at present with Mr. and Mrs. Plumley of Bear Gully Lake. They are seeking a permanent location for a home.

The already overloaded Oviedo school bus had six more pupils from Goldenrod to take to the Oviedo schools Monday morning.

The Misses Smith, recent arrivals from South Carolina, now located in the Harriet-Parker cottage have positions as salesladies in Orlando and began work there last week.

Cecil Rogers of South Carolina arrived here Thursday evening and is visiting with her sister, Mrs. Stuckey and family, also of South Carolina who are here for the winter.

W. A. Scott, who has been in the Florida Sanitarium at Formosa for the last two weeks for treatment, returned to his home here Thursday very much improved in health.

Mr. and Mrs. Chappel of Orlando were Sunday afternoon callers at Mrs. Laura Mathers' home.

In a recent letter to Mrs. Harriet Parker, Mrs. Southgate of Kentucky states that she and Mr. Southgate leave for Florida the fifteenth of Nov., but that because of the failing health of Mr. Southgate, they will be unable to spend much of their time as usual in their cottage here on beautiful Bear Gully Lake. The Southgates have been coming here to spend part of the winter for many years and have hosts of friends who will be sorry to hear of Mr. Southgate's failing strength.

Mr. and Mrs. R. L. Crown were Geneva visitors Thursday.

Mr. James Sigler left Thursday for northern points on business connected with his real estate firm.

Several from here attended the Autrey rally at Eola Park in Orlando Saturday evening.

G. S. Brown and C. H. Parker were in Kissimmee on business Friday.

Longwood News

The Postoffice building has recently been purchased by the Kuhl Realty Company of Orlando from the former owner, Mrs. McWayner. This does not mean Uncle Sam has gone out of business. The company has also bought the adjoining modern building, containing a store and apartment, from Mr. Lou R. Payne.

The following have arrived from Kingfield, Me.: Mr. and Mrs. Arden Henderson, Mr. and Mrs. E. Dinton, Mr. and Mrs. W. N. Libby, and K. L. Libby, who has a position in the cash store.

Mayor J. E. Walker and Mrs. Walker have been entertaining their son-in-law, Andrew Ellwein, from Mitchell, South Dakota, who has come to inspect his property at Fort Lauderdale, purchased some twenty years ago.

Mr. and Mrs. B. E. Blanchard, from Stratton, Me., who built a house here last season, have arrived and are now stopping at the Orange and Black Hotel.

W. B. Joiner, president of Union State Bank at Winter Park, has recently been investing in large acreage in Seminole county.

Judge J. F. Buro, from Indianola and Mr. R. R. Green, from Parkville, Miss., are planning investments here, and intend spending the winter in this section of Florida.

At its meeting on Thursday evening, the Town Council voted to accept into the township the Lake Wayman extension as already plotted, subject to the report of Town Engineer Dietz.

Mr. Frank M. Ellwell, from Graham, Me., has bought the Harry Smith house and lot on Lake Street, ten lots from William Woodcock on Lake Wayman, and two lots of A. J. Sanford on the Dixie.

A large party of former residents of Longwood have just come in from Maine. They are John Ranger, Mr. and Mrs. Frederick Ranger, Mr. and Mrs. Orcutt, Mr. and Mrs. Ralph Ranger from Dryden, Me., Judson Bryan of North Jay, Me., and Walter Row.

The Parent-Teachers Association met on Thursday afternoon at the Lyman School. Many items of interesting business were transacted, including plans for having investments served to the scholars during recess, and a committee was appointed to bring a nomination for officers to be elected at the annual meeting to be held on the first Thursday in December.

Longwood continues its reputation as a famous poultry center. It is of great interest to the poultry people of Florida that Mrs. F. J. Niemeyer has just sent to the College of Agriculture at Gainesville a shipment of sixteen high class Barred Plymouth Rocks of both light and dark line. These birds are to be used in the Poultry Department of the college for teaching purposes, for egg records for experimental purposes, and as show birds. These birds are of the same stock from which the owner took prizes at the Tampa Fair and also at Orlando Fair.

A most unique industry in Central Florida is the Longwood squab farm, for which new buildings are recently completed and which are situated a half mile from center of town, on Lake Wildmere and are owned and operated by Squab Export J. Aaron Bistline, who is also president of the Silver Wyandot Club of America. These buildings are up-to-date in architecture and improvements. Each of the two houses is 44 feet wide by 100 feet in length, each building divided into 24 units. Each unit accommodates 42 breeding pigeons. Every unit is equipped with modern devices, including automatic self-feeders, running water, sun-parlor, as well as watering and bathing facilities. This establishment in a year will produce 12,000 marketable squabs which the proprietor ships to New York markets and also to the high-class hotels of Florida during the tourist season.

The Ladies' Five-Hundred Club, a branch of the Civic League, will have its first gathering of the season on Friday afternoon at 2 o'clock at the Library.

The following, stopping in Longwood on a special business trip, are registered at the Orange and

STEWART'S WASHINGTON LETTER

By CHARLES P. STEWART

WASHINGTON, Nov. 12.—Just one key position, in the Washington of the original L'Enfant design, remains for a monument of the very first class, and a row is on us to whom or what it shall be erected to.

Of these five key sites of Major L'Enfant's plan the first, at the center, is occupied by the Washington monument. On the second, to the northeastward of the monument, stands the capitol. To the southwestward, on the third, is the Lincoln memorial. To the northward, fourth, is the White House. The fifth, to the south-

Black Hotel: W. P. Bridges, Jackson, Miss.; O. C. Simmons, Utica, Miss.; P. H. Eager, Jackson, Miss.; W. Wardlaw, Utica, Miss.; E. S. P. Pool, Hattiesburg, Miss. S. B. Pierce and wife also registered from Fort Myers, Fla.

It is reported that George U. Stuart homestead, including the Sunnyside Hatchery, has been bought by a banker from Birmingham, Ala. This is close-in and very desirable property.

A very popular drive nowadays is towards the proposed new race track, about two miles south east, on Clear Lake reached by a new clay road. Many new visitors are seen in town looking over the situation.

Mrs. Robert S. Entzinger has returned from a visit of several days at her home in Hattiesburg, Miss.

A new shop for painting has this week been opened next to the planing mill by Thomas Henry Thornton, where many signs are being turned out for the new streets in one of the sub-divisions.

RUSSIA'S WAR CASUALTIES MOSCOW, Nov. 12.—(AP)—Russia lost 754,000 men in the World war, the statistical department has announced. During the 40 months of warfare the government spent 25 million dollars, which placed military tax of \$750 on each peasant's homestead. By the end of 1916, Russia had mobilized 15,780,000 men, which represented 47 per cent of the total able-bodied men of the country.

eastward, down y the Potomac, is vacant. It's been granted, however, by a congressional joint resolution adopted Feb. 12, 1925, for a Roosevelt memorial. Now the cry goes up that this resolution was passed in too much of a hurry—that Colonel Roosevelt was all right but not necessarily the only man the country ever produced worthy to class with Washington and Lincoln.

Admirers of the late President Wilson are particularly emphatic in disputing the colonel's claim to be regarded as one of the nation's three greatest men. Woodrow Wilson takes precedence of him, they say.

Others think the site should be occupied by a memorial or Monument to no single individual; that it should represent some ideal instead.

A third group believes no monument should be erected in the capitol to anyone who has been less than 50 years dead.

The McMillan commission, appointed in 1901 to see that L'Enfant's plans were adhered to as Washington grew, favored a memorial to the founders of the constitution.

At any rate, an effort is sure to be made to have the Roosevelt resolution rescinded when Congress meets. It is equally sure to be hard fought.

Nature Lovers Save Oldest Tree In U. S.

SEATTLE, Wash., Nov. 12.—(AP)—Washington's oldest inhabitant, a cedar tree 2300 years of age, has been spared the tax through the generosity of nature lovers of this state. It stands 200 feet high, is 58 feet in circumference and 18.1 feet in diameter.

The Washington Natural Parks Association raised \$2,000 by popular subscription to buy the monarch, together with 20 of its companions, which stand 35 miles from here. The land occupied by the grove will be set aside as a state park.

### Hisses And Boos Greet Wire Of Davis Refusing To Allow Mitchell To Attend Dinner

NEW YORK, Nov. 12.—(AP)—Hisses and boos came from 500 war aviators at an Armistice Day dinner Wednesday night when a telegram was read from Secretary Davis refusing permission for Col. William Mitchell to attend. The demonstration was heard by many radio listeners who tuned in on WRNY at the Hotel Roosevelt where the dinner was held.

### U. S. Weather Bureau Issues Storm Warning

WASHINGTON, Nov. 12.—(AP)—The Weather bureau today issued the following storm warnings: "Advisory 9:30 a. m., storm warning ordered for Atlantic coast—near Jacksonville, Fla. to Sandy Hook. Disturbance of moderate intensity over northern Alabama, including intensity and moving north-northeastward will cause strong south and southeast winds this afternoon, shifting southwest to west tonight north of Charleston and shifting to southwest and west this afternoon between Charleston and Jacksonville."

### MEMORIAL COIN CAMPAIGN HEADS NAMED IN STATE

Stone Mountain Half-Dollars Appear As Leaders Begin Sales Work For Fund; Mayor Lake In Charge Here

TALLAHASSEE, Fla., Nov. 12.—(AP)—Chairmen for the Stone Mountain Memorial coin campaign have been chosen in all sections of Florida, and an active sale of the 50-cent piece is expected within a few days.

### Two Marques Meet Accidental Deaths

TAMPA, Nov. 12.—(AP)—Sheriff L. M. Hiera has returned from Raleigh where yesterday he delivered Lester Gilchrist and John Kennie, members of the notorious "Red" house. Both of them are under sentences of 20 years for their part in the robbery of a hardware store here last March. House the leader is under sentence of 70 years, but is being held here to give testimony in trials of other members of the gang.

### Unrest Of Agents Gone, Head Stated

ST. PETERSBURG, Nov. 11.—(AP)—"The unrest which reigned in railroad circles seven years ago when this association was organized has abated, and the re-establishment of the confidence of the public in the railroads is in a large measure due to the influence and the personal contact of our members at the ticket window," President Polen, told the delegates in his annual address before the ticket agents here today.

Establishment of a standing committee of ticket agents which would confer at regular periods with a similar committee of the railroad officials. A love of work, courtesy to the public and co-operation with the officials was the keynote of his speech. The afternoon session was devoted to reading of reports, with San Diego making a strong bid for the next meeting. FATHER PLAYS FOOTBALL PHILADELPHIA, Nov. 11.—Rev. Charles H. Uran, six-foot-one and father of two children, is playing tackle on the freshman team at the University of Pennsylvania.

### Compare the Prices

Compare the prices in the classified Used Car ads with ours. You will find that there is little if any difference. In spite of the fact that our cars are invariably overhauled while other are usually sold "as is."

Dodge Brothers Dealers Sell Good Used Cars

Union points out that she has an intelligence superior to that of all the men in her vicinity. For that matter, the union claims the average Turkish woman is more clever physically and more energetic physically than the average Turkish man. When the governor of the village sends Mayor Hanoum a new order, she has taken it to the village teacher who reads it. She is known not to have forgotten a single point in an order. Under her regime, Germant has surpassed the entire district in its advancement. Mayor Hanoum rides horseback with vigor and handles a gun with skill. When the village receives rumors of approaching brigands, she it is who leads the young men to the defense. The chief aim of Turkish women now is not the vote, but education and experience. The great work has been against the social restrictions of Turkish women. Now they are pouring into the law and medical schools just opened to them, into normal schools and business. Many graduates already have provided their ability as professional and business women.

### TURKEY HUNTER NABBED

TALLAHASSEE, Fla., Nov. 10.—(AP)—Reports to the state game and fish department from Tampa regarding the arrest of a man for killing turkeys in Hillsborough county out of season by M. M. Penn, honorary deputy, recalled to mind that Mr. Penn's appointment had been made only the day before. "Nice work," observed Commissioner J. B. Royall, "and quick work also."

Clearwater—\$100,000 apartment house will be constructed at Mandalay.

BIBLE VERSE FOR TODAY

THE RESURRECTION:—Jesus said unto her, I am the resurrection and the life; he that believeth in me, though he were dead, yet shall he live; And whosoever liveth and believeth in me shall never die. John 11: 25, 26.

PRAYER:—"Joy to the world! the Lord is come; Let earth receive her King; Let every heart prepare Him room, And Heaven and nature sing."

AN OLD ARGUMENT

When home I come with treasures rare, As I display my purchase fair, My Nellie cries: "Well I declare! There's much we need you could have bought;

If I had only known that you had money just to fling away I should have bought that lamp shade new I wouldn't take the other day.

"Another picture!" she exclaims, As I display my purchase fair, "The walls are lined with ugly frames While I have not a thing to wear.

If you can buy such stuff as this Don't talk economy to me! I'm going to know the wondrous bliss Of spending money foolishly."

Now homeward I must trudge once more And timidly my prize display, And well I know behind the door Exactly what she's going to say.

She'll cry in scorn to lay me flat; "More books that you will never read! If you can buy such stuff as that, I'm going to get some things I need."

Volstead wants to jail all of the scoundrels. We'll have to build a few more first.

Systematic boxing began in England in 1710. Wonder if that means the kind of boxing Jack Dempsey has been doing.

A Kansas City man recently dislocated his jaw while yawning. He must have been in conversation with his wife.

We're against Aloysius, For wearing knickers; He never, never laughs, But always snickers.

A German has invented a phonograph record that will play continuously for an hour and forty minutes. Then Coué had the nerve to say, "that day by day, in every way, the world is getting better and better."

A large development for the purpose of establishing a poultry raising industry, will be started at once on a tract lying between Sanford and Longwood. If successful as those behind it are certain that it will, the project should prove to be one of the biggest assets to Seminole county.

If the casualties keep increasing, we will have to reduce the automobile repair stations at every corner with hospitals.—Plant City Courier. If they'd make the jails big enough to take care of all the drunken drivers, they wouldn't need the hospitals.

Howard Hulick has the honor of naming Sanford's newest development, "Lach-Arbor." He has demonstrated his public-spiritedness by dividing the two hundred and fifty dollar award between the Y. M. C. A. and children's playground equipment funds, both of which are worthy causes.

Listen to the Elkhart Truth raver: An Elkhartian who had planned making a trip to Florida by automobile has not been advised by a friend in Florida not to undertake it at this time as he said an embargo has been placed on all kinds of motor vehicles excepting those transporting food. "If one were to get as far as Jacksonville he would have to store his car there and proceed by rail," the message said.

Gluttons and Parasites

What would you do if you had a million dollars? Don't be like the young college student who said, "I wouldn't do a damn thing."

Would you spend your life in luxurious ease, traveling from one social center to another, gambling in Monte Carlo and Biarritz, going to the cabarets of New York and Paris? Would you spend your money on racing stables, polo ponies and speed boats? Would you own vast country estates and beautiful yachts where you might entertain your friends in costly gaiety? Such a life might be pleasant to your tastes and might not necessarily be degrading.

Or would you devote your efforts to the development of some latent talent within you? Would you spend your money in the study of architecture so that you might, disregarding the financial compensation, contribute your share to the world's civilization by designing new and perfect buildings? Would you develop your talents for painting, writing, singing, or whatever they might be? Would you devote your time and money to humanitarian uplift?

Time was, many thousands of years ago, when man was self sufficient unto himself. What he ate he himself fished out of the sea, hunted in the woods, and grew from the soil. The things he had on his back, he cut and prepared from the backs of animals which he slew. In short every man was his own grocer, baker, butcher, his own haberdasher, tailor, laundress, his own carpenter, mason, and house keeper.

Then came about diversification of labor. One man did all the fishing. Another grew the potatoes. And the man who had fish would exchange some of the fish for potatoes from the man who grew potatoes. They in turn would exchange for furs with the man who hunted in the woods. Such specialization was found to be advantageous to all concerned.

The fisherman devoting all his time to fishing became more efficient than he had been when he had to farm and hunt also. He became an expert in his line. The hunter, and the farmer, they too became experts. Hence there were fish, furs, meat and vegetables in great plenty and everybody was happy.

But it came to pass that the fisherman became so expert in his work and caught so many fish that he had enough for himself and his family to eat, and enough to trade for furs and vegetables without the aid of his oldest son who had formerly helped him with his nets. So the son said to his father, "You catch enough fish without my aid. We have all we need to eat and wear. Why should I work? I am young, I will enjoy life."

So we see many today who because they have money with which they are able to buy whatever they wish, think they owe nothing to the civilization which supports them. They pay for their bread. Why isn't that enough? The other fellow must want the dollar more than the butter else he wouldn't exchange. "A fair exchange is no robbery." But it may be gluttony. Civilization is based upon diversification of labor. When someone does something for you, as he is doing when he supplies you with meat or vegetables, you should, if you are a real sportsman and play fair, do in return for him. Else you are a glutton and a parasite and unfit to live with honest people.

EVERYTHING IN FLORIDA is now moving forward at a marvelous rate in the face of the handicaps and personal discomfort of the people, under conditions that would discourage any but those buoyed up by an unbounded confidence in the future. That is the secret of it all. An absolute confidence in Florida's future, and a vision of her future greatness. It is all we need to make the South the greatest section of the world. The natural resources of Florida have scarcely been touched. Only seven per cent of her land is now under cultivation, and what is now called the Florida boom has only reached the centers of population although it is affecting the values of the whole state.—R. J. Gantt in Spartanburg (S.C.) Journal.

OUT OF CALIFORNIA COMES FAIRNESS

EUSTIC LAKE REGION

Out of California another public spirited citizen comes forward with the belief that California has no business joining in the anvil chorus being sung through the north for the benefit of Florida. The Florida Development Board a few days ago received an editorial from the Eustic Lake (Calif.) Times on the subject, the newspaper suggesting that this is an opportunity for California to practice the Golden Rule.

Now the Secretary of the Chamber of Commerce at Wilmington, Calif., has written a letter along the same line.

"It isn't always that we agree with what other people do," he says "and one instance where we are off the reservation is the present attitude of some of our folks toward Florida. "We don't have to go back very far to recall how grieved and hurt we were when the middle western and eastern papers took a swing at California and threw a lot of mud at us, some of which stuck. Remember what we said about it? Dirty, inconsistent, actuated by jealousy, etc. And it was all of that and then some. After we unloaded on them for what they had loaded on us, we wouldn't have traded places with them under any consideration."

MY FAVORITE STORIES

By HEVIN S. COBB

"Tiny" Maxwell is a sporting writer in Philadelphia. He is called "Tiny" because he is about the size of a two-ton tractor. He has a ready wit, as his readers will testify.

Because he is an expert at football and also because back in his college days he was a gridiron star of magnitude, Mr. Maxwell frequently is called upon in the season to referee games along the Eastern Seaboard.

One afternoon last fall he was officiating at a match between Georgetown, which, as everybody knows is a Catholic institution, and a team representing a Southern university. In an interval one of the Southern players limped up to Maxwell.

"Mr. Referee," he said, "I want to make a protest. They's one of those Georgetown men that seems to have a private grudge against me. Every time we get in a scrimmage together he bites me. Yes, sir, he just hauls off and bites me. I don't want to start any rough house stuff, but I'm getting good and tired of having that big Irishman biting me. What had I better do?"

"I should advise," said Tiny, "that you play him only on Fridays!"

HATS OFF TO MIAMI

ATLANTA GEORGIAN

Those misguided Georgians who have inclined to view the Florida advance in real estate values with alarm and misgiving and to predict collapse and calamity really ought to quit it. There isn't the slightest sign of disaster on the horizon of Florida's hopes! Miami, which has been in the very center of the spotlight in Florida—a much smaller city than Atlanta—has just raised \$100,000 with which to bring the Chicago Grand Opera Company to that magic city for a spring season of opera—nine performances in all. Miami is building a \$1,000,000

As Brisbane Sees It

Protect Italy and Europe. Life—the Mystery. Don't Tax Wives. If He Should Come Again. BY ARTHUR BRISHANG (Copyright 1925)

IT IS predicted that President Coolidge and Secretary Mellon will find a way to settle Italy's debt question. The matters important, particularly to this country, with its horror of social unrest.

The plot to assassinate Mussolini shows what would happen if pressure from American should destroy the value of the lire and force a panic in Italy.

In protecting Italy from disaster this country would save all Europe from serious danger. One reasonable step would be cancellation of interest charges now amounting to \$500,000,000, as was done in Belgium's case. Interest should be fixed as a minimum, payments spread over many years, and all possible consideration shown.

IT IS doubtful that anything in the end can save Mussolini from the fate of Riezi, and he realizes the probability that his life will end with assassination. Mussolini has all the imagination and daring of Riezi, plus statesmanship, which Riezi lacked, but where will Mussolini find to make his mortal, three such men as Petrarch, Lord Byron and Richard Wagner.

AT LITTLETON, Col. the modern question comes up again, "Is taking human life ever justified?"

Dr. Blazer, anticipating his own death, chloroformed and killed in her sleep his daughter, 32 years old. She was armet, legless, weak-minded, deaf and dumb.

IT WAS hard to get a jury, but the prosecuting attorney says the "horny-handed mechanics and weather-beaten farmers have their opinions and convictions on the fundamentals of the world's greatest mystery—life."

If those weather-beaten and horny-handed ones understand the mystery of life, they are far ahead of all the world's philosophers and scientists.

THE WAYS and Means Committee will recommend abolishing the gift tax. Every man ought to give his wife, before death, enough to take care of her and her children. That is common sense and decency, and government should not tax decency, of which there is never too much.

JOHN FORTESQUE, English historian, says our first white Americans would have been kept out of this country under our immigration laws of today. You may add that under our present rulings the founder of Christianity could not get in.

Suppose He should come, unknown, advising the rich to give all to the poor, or quoting Saint James, "Go to now, ye rich, weep and howl, etc." He would be advised by our best mind to go to Russia.

STANDARD OIL will get a good example establishing signs to guide flyers all along the West Coast. Written on the roofs of Standard Oil Buildings in big letters these signs will give names of towns and other information.

EVENTUALLY THE government will establish for flyers modern perfected duplicates of the cloud and pillar of fire that guided Moses in his travels. The desert in which Moses wandered for 40 years is now often crossed by flyers in a part of a forenoon. That shows how travel has improved.

SCIENTISTS IN California prove that sabre-toothed tigers and imperial tusked elephants once inhabited a jungle just south of Hollywood, the capital of moving pictures. They missed many chances for a good real estate investment.

HOW MANY millions of human beings do you suppose will live in California in days to come? Great Britain has an area of 95,000 square miles with a population of 42,000,000.

Italy has an area of 18,000 square miles and a population of 38,000,000. California has an area of 158,000 square miles and a population of 4,000,000.

Great Britain could not sustain her present population without outside help. California could easily raise enough food to feed three times the population of Great Britain and have plenty left over.

THE RIGHT Rev. Benjamin I. Ivins, an Episcopan bishop, says that United States civilization is crumbling.

That's what the Puritans said not so long ago when a man kissed his wife or exhibited a red geranium in his front window on Sunday.

Civilization can stand a good deal including much pessimism. Civilization isn't crumbling. In fact, it has barely started. If anything, it is preparing for a fresh start after the great war.

DAN DOBBS SAYS

We seldom speak of short dresses, but they do show now high silk stockings are these days.

Every girl closes her eyes while kissing, and some have sense enough to keep their mouths shut afterward.

Following the line of least resistance gets many a man's arm around a waistline.

Now is the time when your small son had rather be right tackle than president.

After All, the Chopper Has the Right to Choose His Own Ax

PRESIDENT AND CONGRESS

NEW YORK TIMES

Washington dispatches have been full the past few days of reports that President Coolidge is doing everything in his power to arrange for harmonious co-operation with Congress this Winter. He is said to be spending much time in smoothing out old difficulties. He consults with men who either do not heartily support him in the previous Congress or who openly antagonized his policies. The President has also been showing concern about heading the breach in his own party. Apparently he sees the necessity of a better spirit of Republican unity, with a readiness on the part of the minority to submit to majority opinion. All these reported activities of Mr. Coolidge indicate that he is anxious to establish such relations with Congress that the main features of the Administration program may be accepted and embodied in law.

Such an effort is desirable in itself, and it also has a political meaning which is significant. A close student of our political history like President Coolidge, who is at the same time a sagacious reader of the signs of the times, must understand the importance of establishing a working agreement with Congress. Two years ago the case was different. Then the President was in the position of being made more popular by the very fact that his chief recommendations went unheeded by Congress. It often happens that a President at loggerheads with Congress, while the Congress is a candidate for re-election, gains political strength from being rebuffed by Congress. This is only one more proof that Congress is, as a rule, not popular with the country. It is attacked and abused more often than praised. By contrast, a President who urges measures for the general good, but who is unable to secure their adoption by Congress, stands out as a leader to whom the people rise, partly in a way of emphasizing their disgust with the narrow-mindedness, the petty partisanship and the futility of Congress.

Bear in mind, however, that this relates mainly to the President's first term. In his second term something else is demanded of him. It is expected, first of all that with his fresh mandate from the electors he will have a higher prestige with Congress. He is counted upon, secondly, to develop constructive power. It is not enough for him to show Congress what it ought to do. He must develop those qualities of leadership, a persuasive power of conciliation which will enable him to get things done instead of merely talked about. It is then his duty not to fight Congress—unless Capitol Hill forces an issue which cannot be avoided—but to cooperate with it and skillfully lead it along in the way in which it should go. In short, unless the second term of a President abounds in fruitful work of legislation, the repute and influence of his Administration will visibly decline.

This seems to be the danger which President Coolidge perceives and against which he is taking precautions. He was not hurt in 1923 and 1924 by Congressional rejection of one plan of his after another. He was unable to secure reduction of taxation as he desired it. On the question of the soldiers' bonus, Congress flouted him and overrode his veto. It would not heed him in the matter of Japanese immigration. The project of our adherence to the World Court, which he repeatedly urged, it postponed indefinitely. As we saw, these rebuffs of the President by Congress did not harm the President's standing with the people. They seemed, on the contrary, to make him stronger. But that period is now over. The time has come when Mr. Coolidge must pass on, if his Administration is to be accounted successful, to works of positive achievement, definite making of laws, instead of merely recommending what laws should be made.

It is clear, therefore, that the coming session of Congress will furnish a test of the President's deference from any that he has so far undergone. We shall see if his resources are equal to the new task. Great power has been placed in his hands by the voters, and they will watch to see if he has the disposition and ability to use it wisely. An early indication will be provided by the question of the unfinished business for a date in December. If it is ever to be finished, there must be more energy put into it than has before been displayed. And most of that energy must come from the White House. The success or failure of that great scheme, to which President Coolidge is wholly committed, will be almost like the article of a standing or falling Administration.

PROTECT THE CROPS

MOBILE REGISTER

Buried under a mountain of freight, Florida adopts drastic measures to get the fruit and vegetable crop of 1925 to Northern and Eastern markets, by declaring a state-wide embargo. Such action was made inevitable by a freight congestion that has been going from bad to worse.

The rush to Florida has overtaxed the railroads, the freight terminals of the state and housing facilities. It is reported that people are streaming into Florida in every type of motor vehicle imaginable, including cars of the most ancient vintage and in the last stages of dilapidation, as well as on board the trains. The motor arrivals probably take some, if not all, of their worldly goods with them, but the influx of population creates an inflated demand for all kinds of commodities that must be brought in by rail or ship. Also thousands of new settlers look to the railroads to transport their household furniture and other belongings.

The housing shortage and the demand for new office buildings and other structures call for great quantities of building materials, which can no longer be delivered by rail. In such cities as Miami the situation has become serious, causing a sharp increase in the cost of living and giving that city an unenviable reputation for "gouging."

While the restricting of freight deliveries, not including livestock, perishables, petroleum and its products, food stuffs and materials used in preparing fruit and vegetables for shipment, may cause economic loss and inconvenience, if not actual hardship, Florida wisely decides to protect its principal and most dependable source of revenue, the fruit and vegetable crop.

## Social Department Entertains Tuesday

The members of the Social Department of the Woman's Club were delightfully entertained Tuesday afternoon at the club rooms. Mrs. A. C. Fort acted as hostess. After a short business meeting, bridge was played, Mrs. W. J. Thigpen being awarded a lemon dish and fork for the high score. Mrs. Langley, Mrs. Sneed, Mrs. Moughton, and Mrs. Hawkins assisted Mrs. Fort in serving a delicious course.

**TO EVACUATE COLOGNE SOON**  
PARIS, Nov. 12.—(AP)—The Cologne section will be evacuated December 1, it is taken for granted in official circles, the German note on disarmament having been found to the point that no further obstacles are anticipated.

Al. Bockoven of Daytona spent Armistice Day in Sanford.

Mrs. Thelma Holly and son, Jack Holly, who have been the guests of Mrs. A. L. Betts and Mrs. K. B. McCracken for several days, left Tuesday for their home in Eilenon.

The Armistice dance given by the American Legion at the city hall last night was well attended and is reported as being one of the most enjoyable dances of the season. On Friday night another dance will be given by the same orchestra in the American Legion Hall.

L. P. Motley of Boston, Mass., is in the city for a few days on business. He is much interested in Sanford as an investment field.

W. A. Leland, Jr., of St. Augustine spent Armistice Day in the city.

Mr. and Mrs. Walker Blount and son of Fort Myers are guests of Mr. and Mrs. Roby Laing.

Shade Walker of Ft. Myers is in the city for a few days as the guest of his sister, Mrs. Roby Laing, in Rose Court.

H. C. Vele left today on a business trip to New York and Chicago.

C. M. Trott of Charleston, S. C., is spending several days in the city on business.

W. P. Tatum is in the city in the interest of the DuPont Company. He is stopping at the Valdez.

**Not for Three-Hundred Years Has Velvet Been so Fashionable as it is Today.**

Never since the heyday of the Renaissance in France and Italy—four hundred years ago—has velvet been so fashionable as at the present time. And perhaps never since those glorious days has such progress been made in the manufacture of velvet as at the present time. One is tempted to take a course of study in textiles at some industrial school or college, so as to be able to understand more fully how these soft and shimmering, rich and pliant fabrics that we know as velvets are made.

As you see them draped or lying on the counters in the shops nowadays they are a treat for tired eyes. There is something rich and luscious and joyous about them.

Earlier in the season before the French dressmakers had shown even the first of their collections word came from Paris that "Parisian dressmakers were dreaming in velvet." And now all these lovely velvet dreams have come true and wherever you see well-dressed women assembled you see velvet frocks or wraps or hats.

Wine-colored velvet—the season would not be complete without it. It is as much worn for afternoon as for evening. Sometimes combined with other fabrics and sometimes trimmed only with a bit of rhinestone or a little metal or lace.

The sketch shows a wine-colored velvet frock suitable for luncheon or afternoon wear. It is made in jumper style with a long tight blouse over a circular skirt, and is trimmed with matching grosgrain ribbon embroidered in gold.

Interestingly enough among the new velvet frocks there are many circular skirts. One reason for this perhaps is that a velvet skirt that is narrow around the ankles is decidedly uncomfortable. But the new velvets are so soft and pliant that there is nothing cumbersome about a circular velvet skirt. Sometimes the velvet is actual gathering of the velvet and sometimes close shirring—and yet there is no semblance of bulkiness.

Gray velvet has been handled with great skill by several of the dressmakers for this autumn and winter. The new greens are very lovely in velvets and of course black velvet is without a rival for richness and becomingness. Nothing that I have seen this autumn has been any smarter or more becoming than the little frocks of

black panne velvet—such as Redfern of Paris has been making—trimmed simply with small collars and cuffs of real lace.

Wine-red velvet was chosen for this frock, with long, tight blouse and full skirt trimmed with grosgrain ribbon embroidered in gold.

Palmetto—Construction work on new \$350,000 hotel to get under way shortly.

Jacksonville—Half block property on east side Julian Street, purchased by Y. M. C. A. for \$30,000.

## Film To Be Presented In Connection With Book Week Program

"Peter Pan" with Betty Bronson as the leading star, will be presented Friday afternoon at the Milano theater, at 4 o'clock. Mr. Marrett has secured this as a special attraction for Children's Book Week, and all the young folks are asked to attend.

The library greatly appreciates the interest shown by Mr. Marrett in adding this feature to the Book Week Program, and the staff are visiting the schools to secure the co-operation of the children, and urge them to see this delightful play.

The program for Saturday at the library promises to be a most enjoyable affair, and the grown-ups as well as the young people are invited to be present at 3:30 o'clock. The library wishes to thank J. R. Stewart, the florist, for the lovely roses presented to the library, to be used in the decorations for Book Week. These with the posters on exhibit and the new children's books make the juvenile room most attractive.

Greensboro—Several carloads of corn and potatoes shipped from here recently.

## "Red" Grange Receives Many Offers To Enter Various Lines Of Activity

CHICAGO, Nov. 12.—(P)—The world is knocking at the door of Red Grange.

With the college athletic career of the University of Illinois, flesh due to end this year, careers in movies and professional athletics have been offered him. The most talked of man in recent football history has made no decision, however.

Rumors were current here that Grange has been offered \$40,000 to play three professional football games with the New York Giants after he completes his collegiate career, but the reports were ridiculed by officials of the Giants club at New York.

It is known that Grange refused an offer of \$25,000 to appear in an athletic motion picture six months ago for fear of injuring his amateur standing, preferring to shoulder the ice tongs in Wheaton to keep in condition.

Grange is the role of congressman-at-large from Illinois is the vision of many of his friends who have started circulation of petitions to place his name on the Republican ballot at the primary, April 13.

## KISSIMMEE COPS GRID GAME WITH SANFORD, 33 TO 6

(Continued from Page 1.)

Well played well for Sanford. Grier played about the best game he has shown this season. Whitfield was absent from the line-up and his loss was sorely felt. The many injuries suffered by Sanford necessitated almost a second team lineup during the last quarter, and while they fought hard, they were unable to cope with their more experienced opponents. Many of the Sanford boys were playing their first game of actual football.

Kissimmee Has Speedy Backs

While the ground gaining activities of Barber and Entzinger were impressive, they perhaps would hardly compare with Kissimmee's two speedy backs, Wines and McLean. Time and again they broke loose for almost any distance they pleased. The Kissimmee backfield was fast and played heady football. It is a mystery to Sanford how St. Cloud was able to defeat it.

Kissimmee's line, however, was very mediocre and could not compare with its backfield. Both teams were weak on a forward passing attack, but Sanford was worse in this respect than her opponent as two of her passes were intercepted and productive of long gains for Kissimmee.

Near the end of the last quarter when man after man was being injured and forced to retire, Coach Welch was at a loss to know whom to substitute. He had used practically the entire line-up. The team faced Kissimmee yesterday in the worst physical shape it has been at any time this year. Six of the regulars had been out of bed either one or two days before the game, and practically every man on the squad was nursing some bruise or injury, more or less serious.

### The Game:

Kissimmee won the toss and elected to receive. Cottingham kicked to McLean on his own 38 yard line. Wines made 2 yards through left tackle. Pope nailed Cotton for a six yard loss on a criss cross. Wines punted to Entzinger on his own 37 yard line. He returned it ten yards. Entzinger made 10 yards and first down off right tackle. Barber made two yards off left tackle. Entzinger made four yards off right tackle. Entzinger made two yards off left tackle. On a fake punt Entzinger failed to make first down by a half yard.

It was Kissimmee's ball. McLean made 10 yards around right end. On a fake cross back, Wines ran 43 yards for a touchdown. He stepped outside the side lines and Entzinger refrained from tackling him on that account, but the referee allowed the touchdown. The referee, for some reason or other, placed the ball on the one yard line for the try for point. Wines tried an end run, but it failed.

Kissimmee 6, Sanford 0.

Wines kicked to Barber on his own five yard line and he returned 73 yards to Kissimmee's 22 yard line. It was a beautiful run. Entzinger made two yards off right tackle. Entzinger's pass was intercepted by McLean who ran 30 yards to Sanford's 42 yard line. Wines made nine yards through right tackle. Campbell went in for Fincher.

Wines was stopped for no gain. McLean made one yard and first down. A pass, Cotton to Steed, left guard, who was ineligible to receive it, was allowed by the referee, and it gained five yards. Cotton was stopped for no gain. Wines made five yards and first down. Cotton was injured and retired.

Wines made six yards. McLean made four yards and first down. Makinson fumbled and Dutton recovered for Sanford. It was a free ball, but the referee gave the ball to Kissimmee with first down on Sanford's three yard line. McLean made two yards. He then dove over right tackle for a touchdown. The referee again put the ball on the one yard line for the try for point and Wines made a pretty kick for a goal.

Kissimmee 13, Sanford 0.

Harris went in for King. Entzinger made almost seven yards, but missed first down by inches. On a pretty cut back part the line of scrimmage, Barber went through for 32 yards and first down. Entzinger made 12 yards and another first down. Barber made one yard off left tackle. John Entzinger went in for Maxwell, who had his arm broken on the play. Harris made two yards off

resumed play, Barber was stopped for no gain. Entzinger's pass was incomplete and it was Kissimmee's ball on its own 12 yard line. On a fake punt, McLean made two yards. Wines fumbled on the next play, but Makinson recovered for Sanford. Entzinger recovered Wines' fumble on Kissimmee four yard line.

Barber brought it to the two foot line. Barber made a foot. On the next play Barber went over for a touchdown. This time the referee placed the ball on the four yard line for the try for point. Barber's kick was blocked.

Kissimmee 13, Sanford 6.

Cottingham kicked to Lapher on his own 41 yard line. McLean made three yards. Wines made one yard. Elliott went in for Dutton and Lanier for Cottingham. The umpire called Kissimmee off side and the referee penalized Kissimmee five yards. One of the spectators on the sidelines objected to the decision, however, and complained to the referee. On his advice the referee changed his mind, called both sides off side, and brought ball back. The complaint was not an official in the game and had nothing to do with the play. On the next play, McLean broke loose for a beautiful run of 27 yards. Makinson made three yards. McLean's pass was incomplete. A pass, Wines to McLean brought the ball to Sanford's five yard line. It was first down. Wines lost a yard. McLean made one yard. Wines rolled along the ground for two yards, but the referee allowed the gain. On the next play Wines went over for a touchdown. For variety the referee this time put the ball on the two yard line. Wines' kick was good.

Kissimmee 20, Sanford 6.

Wines kicked to Entzinger, who returned the ball to his own 35 yard line. Barber made four yards. Sanford was penalized five yards for too many times out. Entzinger made three yards as the half ended.

Kissimmee 20, Sanford 6.

Wines kicked to Entzinger on his own 10 yard line. He returned 19 yards. Entzinger made 11 yards off right tackle and first down. Barber made 11 more yards off right tackle and another first down. Entzinger lost one yard. Barber made about 11 yards off right tackle, but lacked inches of first down. Entzinger made three yards and first down off left tackle. On the next play Entzinger fumbled but recovered for a yard loss. Barber made three yards. Barber fumbled but recovered and lost two yards. Entzinger again fumbled but recovered and lost two yards more. Barber lost six yards on a last down.

It was Kissimmee's ball. Russell threw Makinson for an eight yard loss. Wines made three yards. On the next play Kissimmee's right end was off side and Kissimmee was penalized five yards. Wines made eight yards. Russell was hurt, but resumed play.

It was Sanford's ball on Kissimmee's 35-yard line. Entzinger lost six yards. Grier was hurt but resumed play. Barber was stopped for no gain. Entzinger made one yard. Barber punted to McLean who fumbled momentarily but recovered on his own four yard line. Wines punted from behind his own goal line to Entzinger who returned the ball to Kissimmee's 31-yard line.

Barber fumbled but recovered and lost two yards. Barber made 2 yards and first down off right tackle. Entzinger made four yards. Barber made three yards. Entzinger failed to make first down on the next play by one foot. Wines' kick was blocked and Russell got it on Kissimmee's 18 yard line. Barber made two yards. Barber made two yards. End of third quarter.

Kissimmee 20, Sanford 6.

Sanford had the ball on Kissimmee's 14-yard line. Barber was stopped for no gain. Zachary went in for Harris. Entzinger's pass was intercepted by Hankins, who raced 70 yards with perfect interference before Entzinger brought him down with a seemingly impossible tackle. Wines made three yards off left tackle. Makinson made six yards. The ball was just one foot from the goal line. Barber stopped No. 7 a few inches from the goal. McLean's thrust, however, managed to carry it over for a touchdown. This time the ball was placed on the three-yard line, and Wines booted it over.

Kissimmee 27, Sanford 6.

Wines kicked to Barber on his 30-yard line. Sanford was penalized five yards for an extra time out. Barber made four yards. Zachary made five yards. Barber made two yards. Barber punted to Wines, who fumbled. Sanford recovered, but the referee gave the ball to Kissimmee. No. 7 made one yard. McLean made 15 yards around right end. Makinson made two yards around left end. Wines lost one yard.

King went in for Jones. McLean

## When the Floods Swept China

When the Yellow River flooded its banks in China it meant only a small news item in this country; but in China it means hundreds of tragedies and a vast amount of suffering. This exclusive photo shows four destitute Chinese watching over the bodies of their children, drowned when a dyke gave way.

hurdled on the next play and Kissimmee was penalized 15 yards. Wines' pass was incomplete and it was Sanford's ball. Barber made four yards. Barber punted to Wines, who returned 10 yards. Wines made four yards around right end. Gilton went in for Booth.

McLean made 12 yards on a criss cross. Cotton came back in the game. Wines' pass to Makinson was good for 15 yards. Makinson made nine yards around left end. He had a clear field for a touchdown, but was stopped on a beautiful flying tackle by King. On a double pass fake, McLean went around right end for a touchdown. Wines failed to kick goal.

Kissimmee 33, Sanford 6.

Barber kicked to Cotton on his own 30-yard line. He returned eight yards. Cotton made four yards. McLean waited too long to pass and lost six yards. Wines made 11 yards around left end as the game ended.

Kissimmee 33, Sanford 6.

## Football Teams From Mainland Will Invade Pacific Island Soon

CAN FRANCISCO, Nov. 12.—(AP)—Football has staged its longest end run to cross the goal line of America's most western outpost—Hawaii.

In the islands, where heretofore only ordinary interest has been manifested, the sport has penetrated to virtually every point. The thump of the pigskin will resound across 2,100 miles of the Pacific this year when three college teams journey from the United States to take on the pick of the islands at Honolulu.

The first inter-sectional game is scheduled for December 12, when the Colorado Aggies meet the University of Hawaii. On Christmas Day Washington State College will line up against the Senior League team. The football classic of the islands will be played on New Year's Day, bringing together Washington State and the University of Hawaii.

## Globe-Encircling Trip In Thirty Foot Yawl

MANILA, Nov. 12.—(AP)—Otto Karl Fritz Prahl, sailing into Manila Bay, completed the first leg of a voyage which he hopes to make around the world in a 30-foot yawl.

Starting from Shanghai June 7 with two companions, Prahl reached Hongkong June 29 after a rough voyage. Here his two comrades left him, but an American named Richard Lofstadt joined him and sailed across the China Sea to San Fernando, province of La Union, P. I., where he too deserted the vessel on account of the hardships experienced on the 13-day trip from Hongkong. Prahl sailed for Manila alone, making the 150-mile journey in eight days.

## COUNTY NURSE IN LEON

TALAHASSEE, Fla., Nov. 12.—(AP)—Residents of the Capital City are preparing to institute a campaign for funds to place a Red Cross nurse in Leon county.

A goal of between \$2,000 and \$4,000 has been set for that work.

A preliminary meeting has been held and plans outlined for the campaign.

## WAR VETERAN KILLED

## Military Court Told Of 'Insulting Letter' By Mrs. Lansdowne

(Continued from page 1)

fkrom Mrs. Lansdowne's testimony before the board but the prosecution objected and was supported by the court.

Mrs. Lansdowne continued that she did not tell Capt. Gherardi (Aid to Secretary Wilbur) that "things she had to the newspapers about the Shenandoah were lies."

"That is all that I denied."

The defense then introduced copies of the letter exchanged between Capt. Lansdowne and the Navy Department, relating to plans for the Shenandoah's last flight.

"Did Capt. Foley come to see you before you testified?" Mr. Reid of the Mitchell counsel asked the witness.

"He did."

"Two nights before I testified."

"Did Capt. Gherardi visit you at Lakehurst on or about Sept. 4th?"

"He did."

"When did you testify?"

"October 9."

Tells of Talk with Foley

Mrs. Lansdowne further testified that the letter Capt. Foley sent her suggested that she state her willingness to waive legal defense, authorize the naval court to act for on behalf of her husband and a him.

"What did Capt. Foley say to you when he visited you?" Mr. Reid asked.

"He impressed me with the importance of the court. He said the

solemnity of my appearance was very great and asked me what I expected to tell the court. I told him I would emphasize the fact that the court had been evaded—that the Shenandoah had been sent on a political flight despite Secretary Wilbur's denial."

"Captain Foley said I had no right to say it was a political flight as the tax payers had a right to see their property."

Answering Major Gen. William S. Graves, a member of the court, Mrs. Lansdowne said the letter from Capt. Foley had no signature to it and she marks to show even that it came from the Navy department.

"How did you know it was a letter from Capt. Foley?"

"Because my friend said so."

"What is the name of your friend?"

The question was repeated. Then Mrs. Lansdowne said "It was Mrs. George W. Steele, Jr."

Mrs. Steele is the wife of the commander of the Lakehurst air station and the airship Los Angeles.

had gone seeking reconciliation. Carter came here about a month ago from Jefferson, Ga., via Miami and the girl had been at Cortez about a week, coming from St. Petersburg, where her sister, Mrs. W. F. Cotton, resides.

The girl occupied apartments in Cortez with Miss Mae Goff and they were preparing to open a restaurant. Miss Goff came downstairs as Carter entered their apartment. A few minutes later shots were heard and inmates of

## —at a One-Profit Price

The Big Six Studebaker [Unit-Built] outsells every other car in the world of equal or greater rated horsepower

TODAY Studebaker Big Sixes are outselling every other car in the world of equal or greater horsepower, according to the rating of the Society of Automotive Engineers and the National Automobile Chamber of Commerce. (See table at right.)

That is because Studebaker has attained the goal in the fine-car field—One-Profit, Unit-Built cars.

Few motor car "manufacturers" have foundries, forges, etc., to make their own engines—yet one-fourth of the cost of an automobile is in the engine. Even fewer build their own bodies—yet one-third of the cost of a car is in the body.

Only two plants in the world today (Studebaker alone in the quality field) have the impressive facilities for making all vital parts and bodies from raw material to finished product.

These facilities enable Studebaker to manufacture quality cars under the One-Profit policy—enable Studebaker to make, in its own plants, vital parts and bodies and eliminate the profits of outside parts and body makers. Many major savings are thus effected and passed on to the ultimate buyer of a Studebaker car. No other car in the world of equal

rated horsepower enjoys the advantages of volume production reflected in the price of the Big Six.

**Unit-Built Construction**

These facilities result, too, in Unit-Built construction—in cars designed, engineered and built as units. The hundreds of parts used in a Studebaker car function together as a unit, resulting in longer life, greater riding comfort and higher resale value for you. Scores of thousands of miles of excess transportation thus are built into Studebaker cars.

**"No-Yearly-Models"**

As a natural outgrowth of these two factors, a third great advantage to the buyer is attained—"No-Yearly-Models." Because all phases of manufacture are directly under Studebaker control, Studebaker cars are constantly kept up to date. Improvements are continually made—not saved up for spectacular annual announcements which make cars artificially obsolete. Resale values are thus stabilized.

Because of these three major advantages the Studebaker Big Six has become the world's fastest-selling high-powered car. Ride in one—consider the price, and you will know why.

## Studebaker Big Six Sport-Phaeton

(FIVE PASSENGERS IN REAL COMFORT)

\$1575—Freight and War Tax Extra

Under Studebaker's fair and liberal Budget Payment Plan, this Sport-Phaeton may be purchased out of monthly income with an initial payment of only

It is not surprising that it sells every other car in the world of equal or greater rated horsepower. The Duplex body offers a ruggedness found in no other open-top within its steel-framed body. Roller side enclosures which raise or lower in 30 seconds. Its seat—providing instant storm or cold.

Lights are operated from wheel. Spark control is an 8-day clock and gasoline dash, automatic windshield view mirror, coil venting inspection light on 10-foot.

Ride in it—feel its smoothness and you will know why it sells all other cars of equal rated horsepower.

West First Street

### Alaskan Eskimos Prosper While Aleuts Deteriorate, Says Coast Guard Report

SEATTLE, Nov. 12.—(AP)—Eskimos inhabiting northwestern Alaska are prosperously advancing into new ways of living under Uncle Sam, but Aleuts, occupying the Aleutian chain of islands, seem downward bound to annihilation, a course into which they set before this country bought Alaska from Russia in 1867.

This report was brought by the cutter Bear of the Coast Guard when she reached Seattle from her 37th annual cruise into the Arctic Ocean. Indians, the other natives living in Alaska, dwell in the eastern part of the Territory, where the Bear does not touch.

Eskimos of continental Alaska have taken extensively to trapping foxes and marketing the pelts. For this industry they resort to St. Lawrence Island, American ground in the Bering Sea, and to the 300-mile stretch of northwestern coast of North America on the Arctic Ocean between Point Hope and Point Barrow, the northern tip of Alaska.

But the outstanding demonstration of advancement among Eskimos noted last summer by Lieut. Commander William P. Wisahar, executive officer of the Bear, was that of the King Islanders. King Island, of a mile long and 700 feet high, lies in the northern end of the Bering Sea, near where Bering Strait connects the Pacific and Arctic Oceans. Its population of 175 lives in huts that are built on stilts, so precipitously do the sides rise from the chill waters.

The King Islanders have long been known for the ornaments they carve from walrus ivory and which they market every summer in Nome.

Last summer they found a longshoremen's strike on in Nome. They fell to at that work, and for it received \$15,000. This money they spent in Nome for supplies, largely flour, tea and sugar. The Bear took the Islanders home, and carried 30 tons of their purchases, including furniture.

For other staples, the King Islanders are usually well fixed. Right at their island they take the big walrus, whose tusks afford ivory; the hair seal, which affords meat, heat and light, and the ugrook, a large seal whose flesh is sweet and nourishing. Blubber-layer fat beneath the skin—taken from the hair seal is burned by using moss as a wick.

Before Russia sold the Territory the Aleuts numbered 25,000 in an archipelago extending westward 1,200 miles from the Alaska Peninsula to 500 miles from the Kamchatka Peninsula of Asia and dividing Bering Sea from the rest of the Pacific Ocean. But white men's vices—leading to white men's diseases—and in general white men's ways of living without white men's age-old training—set the Aleuts into the path of destruction.

Villages have come few in the Aleutian Islands. In Attu, at the tip of the archipelago, Wisahar counted 15 residents, and in Atka, the next inhabited spot, 550 miles eastward, 40.

The one place at which Wisahar found Aleut prosperity was Unalaska, 150 miles from the eastern end of the Archipelago. There live 150 Aleuts, many of whom work at the seal rookeries of the government on the Pribilof Islands, St. Paul and St. George, in the Bering Sea.

### MARKETS

NEW YORK, Nov. 12.—(AP)—With the stock market greatly strengthened by its recent reaction almost as rapidly as they fell earlier in the week. Expectations of a large extra dividend for General Motors stock holders brought in a rush of buying orders for that stock, carrying it up more than six points, while DuPont soared almost 25 points to a record high level. Chrysler rallied 10 points and U. S. Steel headed a strong upward movement.

JACKSONVILLE, Fla., Nov. 12.—(AP)—Wholesale quotation prevailing on the Jacksonville market today as reported by the Florida State Marketing Bureau are as follows: Beans, green hampers 3.50 @ 3.70; cukes, U. S. 1s, bushel crates and hampers, 1.50 @ 2.00; eggplant crates, fancy 2.00 @ 3.00; peppers, green, large size, 2.50 @ 3.00; oranges, boxes fancy well matured 7.50 @ 8.00; grapefruit, boxes fancy well matured 5.00 @ 6.00.

NEW YORK, Nov. 12.—(AP)—Cotton futures: easy Dec. 20.40; Jan. 20.03; May 19.74; July 19.15.

WALDORF IS PERTURBED  
NEW YORK, Nov. 12.—(AP)—Oscar Waldorf was perturbed about a bathing beauty appearing in a group picture of himself and other men that says Oscar's having the photographer paint the eauty out of the negative.

INDIGNANT OVER PLOT  
Rome, Nov. 11.—(AP)—Baron Averezano, ambassador to France, has become a Fascist to show his indignation over the plot against Mussolini.

### Fashion Shops Ask For Right To Sell Milady Cigarettes

PARIS, Nov. 12.—(AP)—Shall milady have an opportunity to buy her rose tinted cigarettes along with her perfumes and lip-sticks? The fashion shops of Paris are endeavoring to get the Government to grant them permission to sell tobacco and the regular tobacco shops are up in the air.

Women say they do not like to go into the vulgar corner shops where men sip cognac and purchase their tobacco. But the tobacco shops retort that women can send in their men folk and they insist that the government will be doing them a great injury if its permits dealers in women's things to sell the dainty cigarettes which make up a large percentage of France's tobacco sales.

### Seeks Title

Here is Al Fugaro, the latest contender for flyweight honors now held by Eitel La Barba. Fugaro hails from Italy. He holds the flyweight championship of that country. Note the striking resemblance to the late champion Pancho Villa.

### FAILS TO PAY ALIMONY

NEW YORK, Nov. 12.—(AP)—Will Morrissey, comedian, in soup and fish, has joined the alimony club at Ludlow Street jail. A cabaret orchestra played "Goodbye, Forever," as he was nabbed for failure to pay \$1,500 alimony.

### Intangible Property Assessment Discussed At Annual Tax Meet

NEW ORLEANS, Nov. 12.—(AP)—The question of whether, with a sufficiently low rate applied, intangible property can be justly placed on assessment rolls, was before the annual convention of the National Tax Conference here today. Involved tax problems relating to assessment of the conflict between state tax authorities and local governments were discussed before the conference last night and consideration of these subjects was carried over for today's meeting.

K. M. Williamson, professor Michigan Wesleyan University, Middletown, Conn., said four states have tried and partly succeeded in listing intangible property for direct assessments. In eight other states, he said, such a law has been a failure, while in four states it has been in force and insufficient length of time to determine its future success or failure. The cause of failure in most cases was purely inefficient local tax administration while the greatest success thus far observed has been where such listing and assessing was wholly under state control.

### GANGMEN FOUND GUILTY

CHICAGO, Nov. 12.—(AP)—John S. Calisi and Albert "Afishel" members of the notorious Czestogang, who killed a policeman, were found guilty of murder and their sentences were fixed at from 14 years to life imprisonment by a jury which deliberated 10 hours until early today.

### Japan Prepares As China Crisis Looms

NORFOLK, Va., Nov. 12.—(AP)—Three score or more of the nation's best known golfers were here today for the opening of the second annual tournament of the Princess Anne Country Club. Matches today were between parred professionals and amateurs.

The tournament is among the first of the big fall and winter meets south of the Mason-Dixon line and is expected to draw the biggest gallery ever to watch a golf match in Virginia. One of the entries in today's menu was a match between Walter Hagen and J. H. Watters, opposing Cyril Walker and Judge James S. Barron.

A surprise of yesterday's arrivals came when Chick Evans showed up with the pairing in today's event with Rapid Beach Washington professional. Another match to attract attention was that of Jack Forrester, paired with W. H. King, III, 17-year-old amateur of Portsmouth. Among other entrants were Ray Quimet, H. H. Hume, H. Beckett, J. Beckett, Pat Dillon and two score more.

MOORE BID WITHDRAWN  
WASHINGTON, Nov. 12.—(AP)—The bid of Moore and McCormack of New York for the purchase of the Pan-American Steamship Line operating from New York to the east coast of South America was withdrawn before the shipping board today.

### 2 Prominent Tampans Are Placed On Trial

TAMPA, Fla., Nov. 12.—(AP)—Charles Wall, well known Tampa business man, and Edward Vestel, head of a private detective agency, were placed on trial in criminal court here this morning for alleged complicity in the activities of the famous Albert House gang. The men are charged with being accessories to the activities of the gang. Wall is accused of hiring house to come to Tampa to carry on his campaign of robberies.

### J. C. ROBINSON TESTIFIES AT RATE HEARING

(Continued on Page Two)  
on perishable shipment from Florida have, since the beginning of the World War been twice increased 25 per cent and had received only one ten per cent decrease. It was also shown that the second increase of 25 per cent was on the rate which the first 25 per cent brought the original rate, thus making a total increase of over 50 per cent above the original rate.

According to conditions brought out in the testimony of Mr. Robinson, California has a much more flexible and economical diverting privilege than has Florida.

"California," Mr. Robinson said, "can ship almost through Florida's front yard by use of her blanket rates which Florida does not have."

# 50% OF MOTOR REPAIRS DUE TO IMPROPER LUBRICATION

Save this unnecessary Expense by Using POLARINE

Motors rarely wear out. They usually burn out because there is not enough oil or not the right quality oil to protect the moving parts from friction and wear.

To completely lubricate, a motor oil must penetrate into the closest fitting bearings and guard all parts against wear; it must keep a film on the cylinder walls that will resist heat and not break down; it must flow easily in cold weather.

POLARINE is a prime-quality motor oil, distilled from carefully selected crude. Fair comparative tests have always proved its superiority.

It retains its lubricating value under extreme heat and long service. Full-bodied, it prevents friction and insures a smooth-running motor.

Keep your repair bills down by using POLARINE.

Lies the Land of Opportunity, Health and Happiness

# LOCH-ARBOR

The very name reveals its charm

**W**HEN, many years ago H. L. DeForrest acquired his estate from General Sanford and planted the first commercial orange grove, we wonder if he realized that one day his property would become Sanford's most prized spot, its most beautiful residential section where only those of good taste and sound judgment would wish to live. Undoubtedly this pioneer recognized the many advantages this particular piece of property held over other tracts in the central part of the state, and this fact, without doubt, caused him to select and to purchase what is now considered Sanford's finest property. Who knows but that he and General Sanford had visions of the present-day Sanford when property like Loch-Arbor would be in great demand. At any rate exceptional judgment was shown when he acquired this property.

**W**HILE in its natural state Loch-Arbor is very beautiful, it is the intention of the developers to add a touch or two, in an effort to make it even more attractive. So by means of dredges which are busily engaged in filling in some low parts and deepening some of the lakes, the task of improving goes on. An island is assuming form and as the days come and go this body of land in the middle of DeForrest Lake and Amory Lake takes on greater proportions. A close watch will be necessary to note the rapid changes as they take place. Hundreds of thousands of dollars will be expended in developing Loch-Arbor and the task of improving will run over several years.

**T**HAT individual who can peer into the future can see the time when the shores of the lakes in Loch-Arbor will contain many beautiful homes, the show-places of Sanford. The country homes of the leaders in the business life of the city will be scattered among the palatial winter residences of wealthy tourists who will come to Sanford every winter, captivated by the drawing powers of this wonderland.

**A**T almost the doorsteps of these homes will be small pleasure boats, while a glimpse over the chain of lakes that are to be connected with canals, will see hundreds of craft skipping over the calm and quiet waters of this land-locked sea.

**A**SPHALT roads leading from one section of Loch-Arbor to another will bring all of those homes to within easy reach of the business district, the golf course, the churches and schools, and places of amusement. Modern improvements will furnish those who live in Loch-Arbor with almost every conceivable convenience and the most fastidious individual will be satisfied with life there.

**A** PARADISE, a fairy-land is in the process of formation. Watch it take place. Keep in touch with developments as they go forward at Loch-Arbor. And when an opportunity is given for you to become affiliated with Sanford's newest project, don't allow the opportunity to pass. Loch-Arbor is not a subdivision. It is a real Florida development of great magnitude.

# Tibet Threatened By War As 2 Living Buddhas Split Causing General Turmoil

TATSJENLU, Province of Szechwan, Oct. 11.—(AP)—The two "Living Buddhas" of Tibet are at odds. One had fled the country, and strife threatens. Intrigues, political rivalries, and the superstitions of the Tibetan people are woven into the fabric of the troublesome situation. The unrest is not apparent on the surface of things, for Tibet is ruled by the "lamas" or priests of Buddha, but there are signs of dissension among the lamas themselves.

These, while the other is anti-British and pro-Chinese. The leading political question is that of Tibet's attitude toward the two greater nations. The Dalai Lama inclines toward India, and Panchen toward China.

## Frost Proof School Bond Issue Is Passed

FROST PROOF, Fla., Nov. 11.—(AP)—With but a single dissenting vote the Frost Proof school district Tuesday adopted an \$80,000 bond issue for additional school facilities.

Three previous bond issues recently for street paving and water supply extensions passed by the same over-majority. A modern two-story school building will be erected in the district almost in the heart of the town and the present several buildings will undergo improvements.

AMOS TO ATTEND MEET TALLAHASSEE, Fla., Nov. 10.—(AP)—Ernest Amos, state comptroller, is preparing to attend the annual convention of the National Association of State Comptrollers, Auditors and Treasurers, to be held at Miami, Nov. 18. Mr. Amos is a member of the entertainment committee. The National Association of Secretaries of State will be held the next day.

## Auto Speed Record Is Broken In France

PARIS, Nov. 11.—(AP)—On the Montlhery speedway Tuesday Capt. Eldridge, an Englishman, driving an automobile of one half litre engine capacity, broke the world's 50-kilometer (31.07 miles) record by covering the distance in 16 minutes and ninety-five hundredths of a second. His average speed was 187.314 kilometers (more than 116 miles) an hour.

# Within Easy Access To the Business Center

Yesterday we mentioned the exceptionally high elevation of Sanford Grove. It is important to know that a development is high and dry, but it is equally essential to know that it is well located, in a rapidly growing section and within easy reach of the business district of a city. So today we will stress location.

Sanford Grove is located exactly three miles from the Sanford Post Office, by the longest route to the property. It is 1 1/2 miles from the new Hotel Forrest Lake, as the crow flies. The property is located southeast of Sanford, and the first section to be developed faces on Geneva Avenue, the road that will be paved at once by the county and that will become the main artery to Geneva, Oviedo and east coast points.

The easiest way to reach Sanford Grove is to turn east at the corner of Geneva and Sanford Avenues and go straight, passing Oak Hill on the right and continuing through newly graded stretch, not in bad shape, until you see the signs of development. After going up a small hill, you will reach a point where men are busily engaged in laying sidewalks, in grading roads and in other development work. This is the first section of Sanford Grove.

# Homesites may be Secured At Extremely Reasonable Prices

The people of Sanford will be given an opportunity to purchase well located lots in Sanford Grove at prices ranging from \$400 up, depending, of course, on location.

Prices so low and so far under the present market value of this property, offer Sanford investors wonderful opportunities for reaping big profits, provided they make their purchases immediately.

The downtown office of Sanford Grove is in the First National Bank Building where our representatives shall gladly discuss the matter with you, and take you to inspect the property, if you so desire.

# MARINE CORPS WAS ORGANIZED 150 YEARS AGO

### Branch of Navy Was Formed Almost 8 Months Previous To Declaration of Independence by Thirteen Colonies

## Philadelphian First Recruiting Official

### History of Marines Is Full of Gallant and Courageous Deeds of Thousands of Men FIVE PERISH IN FIRE

JACKSONVILLE, Nov. 12.—(AP)—The United States Marine Corps was 150 years old Tuesday.

Almost eight months before the embattled colonists declared independence from the British crown, the Continental Congress, sitting in Philadelphia, authorized "that two battalions of Marines be raised." Thus, the United States Marine Corps came into being even before the United States government itself.

Samuel Nicholas, a Philadelphian, was commissioned captain of Marines and was the first recruiting officer of the corps, setting up a recruiting rendezvous in Tin Tavern, a famous hostelry of old Philadelphia, situated on one of the quaint cobble-paved streets leading to the Delaware River wharves. Captain Nicholas subsequently became first commandant of the corps.

On the site of the old tavern long since obliterated by expanding commerce the Thomas Roberts Reath Marine Post of the American Legion will unveil today a bronze tablet, commemorating the sesqui-centennial of the corps and marking its birthplace. A banquet and ball will be held tonight.

Basins their claim to seniority among branches of the United States' arms, on the commission line, December 22, 1776, of the first American navy by Congress, wherein the establishment of the Marine Corps was officially accomplished, the Soldiers of the Sea are proud of their "first" in arms, as well as their service in important activities of the United States. The traditions of the Marine Corps, expressed in its motto, "Semper Paratus" (Always Faithful), have not been allowed to tarnish. The organization's inscription, which can be read on the blue and gold banners of the Marine Corps, "From the Shores of Tripoli to the Halls of the Montezumas" describes only truthfully the ubiquity of these versatile "Web-footed Soldiers."

After the march of a detachment of Marines over nearly 200 miles of African desert, during the truce between the young American Republic and the Tripoli pirates in 1803, at which time the Americans stormed and captured the most fortified positions at Derne and, for the first time in history, hoisted the unfamiliar flag of Stars and Stripes over an Old World fortress, the Marines claimed "the shores of Tripoli" for their own.

Years later, during the Mexican War, a division of Marines was the first American troops to penetrate the Mexican capital and enter the Grand Plaza of the City of Mexico, hence their right to add "the halls of the Montezumas" to their banner.

Conspicuous in every war fought by this country, and distinguished in remote campaigns from Formosa to Abyssinia and from Taring Straits to Valparaiso, the Marines had earned a reputation long before their spectacular participation in the Battle of Belleau Woods.

# First Town To "Go Dry" And Give Women Right To Vote May Become Tourist Center

NEW HARMONY, Ind., Nov. 12.—(AP)—This little community which first offered to America equal political rights for women, universal elementary education, prohibition of liquor, and other reforms then regarded as communistic, is to be made accessible to tourists after a century of isolation.

Here Thomas Say, zoologist; John Audubon, ornithologist; John Chespley, engraver and German; and F. C. Frost, geologist, began the works which later brought them fame.

Huddled in the Wabash valley in the far southwestern "toe" of Indiana, New Harmony has kept to itself its interesting history, except when those who knew the way there penetrated the hills which hide it from the main highways. Now the Evansville Motor Club and the Hoosier Automobile Association have joined to mark and improve the trail connecting it with advertised highways.

It was in 1815 that George Rapp brought hither from Pennsylvania a group of German followers to establish in the wilderness a colony which they named "Harmony." All the 800 settlers lived a life of strict self-denial, shared equally in property, and received the necessities of life from a community depot.

The stone buildings they erected are still in use, and on an outer wall of what was Rappist store-room survives an old sun dial at which the peasants assembled a century ago to march to the fields.

After the Rappists had cultivated 5,000 of their 30,000 acres and built cotton, woolen and flour mills, they sold the entire colony, in 1924 to Robert Owen, wealthy Scotch Philanthropist and social worker. Recruiting his settlers in Scotland, Owen brought many leaders in science and education. The community was named "New Harmony," and William Maclure, Scotch educator, established an advanced public school system. But Owen's view with culture and the experiment failed.

Equal political rights for women were demanded first by Francis Wright in a speech at New Harmony. It was the first community to declare for abolition of alcoholic liquors. It was an early center of slavery abolition. Universal elementary education at public expense without regard to sex or sect was first proclaimed here, and in later years the community introduced to the middle west compulsory education, its system being the foundation of the Indiana compulsory education system later patterned after it.

The first club exclusively for women was formed here. Today the village contains a scant thousand persons. The descendants of its founders have scattered or their blood has become intermingled with that of subsequent settlers.

# VARIED WEATHER FELT IN FLORIDA FOR PAST WEEK

### Low Temperature and Scant Sunshine Reported in The Western Part and Normal Weather in Southern Part

JACKSONVILLE, Nov. 12.—(AP)—The week ending Tuesday in Florida was another one of low temperature and scant sunshine in the western and extreme northern portions, and moderately high temperature and normal sunshine in the central and southern sections, according to the weekly weather and crop bulletin issued by A. J. Mitchell, meteorologist in charge of the local station, United States Weather Bureau.

Rains were generally light and scattered and some sections on the west coast had little or no rain fall during the week. Showers were more general along the east coast and brought much relief to the lower east coast where rain was badly needed. Soil moisture is sufficient in the western division and the need is for more sunshine the

cooler nights in the central division improved crops and citrus, but more rains are needed and lower temperatures would help the maturing of citrus fruits. The weather and better soil conditions in the northern division were average for preparing land and seeding. In the potato belt work was pushed rapidly. Soil moisture is generally sufficient, except on the uplands, and

all crops made good growth. Cane citrus, which grinding and tyrum making continues. Cooler nights benefited citrus, which fewer reports dropping.

# Marion County Fair and Agricultural Association

J. H. MATHEWS, Secretary C. W. HUNTER, President

Ocala, Florida

# A Combination of Advantages

Gives to Marvania permanent desirability as a homesite and offers as well great security and possibilities for profit as an investment. The paramount importance of its location on the lakefront is not to be denied and the community environment is one of recognized excellence. Mayfair adjoins Marvania on the west, and everyone knows the beauty of Mayfair. Fort Mellon connects with Marvania on the south, and the possibilities of that section will make themselves manifest with the completion of the paving and beautification program there. The Hotel Forrest Lake is but four blocks away, and it is a certainty this hotel will be the center of tourist activities.

Improvements of the highest character will bring every convenience to the homebuilder in Marvania, and careful restrictions will protect him for all time. Weigh the importance of all these factors—you cannot fail to be impressed with these certain evidences of success.

# MARVANIA

Offers the greatest investment opportunity to be found in the entire region. This superior development commands the attention of every shrewd investor.

The number of lots that are to be offered for sale in the first section of Marvania are limited. They will be quickly sold to those who have the ability to realize the importance of location, the advantage of a beautiful setting, and the investment feature of reasonably priced homesites.

The price of lots in Marvania range from \$2500 to \$3650 and are being sold on terms of 20% cash and the balance at the rate of 10% every three months.

Make your selection now... Those who delay must pay a higher premium for the privilege of owning property in this close-in development.
