

REFUNDING MEASURE WAS PASSED BY SENATE LAST NIGHT--VOTE WAS 39 TO 25

Met With Solid Opposition From the Minority Side

ELEVEN BILLION DOLLARS DUE

AND IS TO BE PAID WITHIN TWENTY-FIVE YEARS FROM DATE OF NEW BILL

(By The Associated Press) WASHINGTON, Feb. 1.—The bill authorizing the refunding of the eleven billion dollar foreign debt into securities maturing in not more than 25 years was passed last night by the senate.

The vote was 39 to 25. Final enactment of the measure must await adjustment of differences between the house and senate, which is expected within a week or ten days.

Three Republicans—Borah, LaFollette and Norris—joined with the solid Democratic minority in opposing the bill.

Under the terms of the bill a commission of five members, headed by the secretary of the treasury, would have authority, subject to the approval of the president, to refund or convert, and to extend the time of the payment of the principal or the interest, or both of the foreign debt.

The date of the maturity of the obligations accepted by the commission could not extend beyond June 15, 1947, and the interest rate could not be less than 4%. Bonds of one foreign government could not be accepted for those of another, nor could any part of the foreign indebtedness be cancelled.

The life of the commission would be three years from the date of the approval of the act and the members, other than the secretary of the treasury would be appointed by the president subject to confirmation by the senate. During its life the commission would be required to make annual reports to congress at the beginning of each regular session in December.

Only members of the cabinet and of congress will be appointed on the debt commission, according to Senator Watson, Republican, Indiana, who told the senate during the debate yesterday that, although he was not authorized by the president to make such an announcement, he nevertheless knew that this was the president's intention.

Aside from the section proposing not less than 4% which was added that interest on the refunded debt be as an amendment from the finance committee, the only important change in the bill by the senate was the elimination of a provision which would have given the commission authority to settle and refund any claims which the United States hereafter might have against "any foreign government."

Efforts to add a soldiers' bonus provision to the measure; to limit the authority of the commission in deferring interest payments and to require congressional approval of the bond conversion agreements failed. The senate did adopt, however, an amendment by Senator Walsh, Democrat, Massachusetts, requiring the commission after the conclusion of each refunding negotiation to report the results to the senate. Senator Walsh explained that the object was to give "pitiless publicity" to the work of the commission.

NORMA AIDS CAMPAIGN FOR NEAR EAST RELIEF

Norma Talmadge, star of the First National picture, "The Sign on the Door," which is the current attraction at the Star Theatre, recently contributed \$1,100 to the "Say-It-With-Flour" campaign for the relief of starving children in the Near East. Miss Talmadge also made a special motion picture entitled "Herself" to aid in this relief work.

"The Sign on the Door" will be the feature attraction at the Star tonight.

Lord's Purity Water will be given away tomorrow. Go out to the filling station on the Sanford-Orlando road tomorrow and get your bottles filled free of charge.

UNITED MINE WORKERS SIDE WITH R. R. MEN

WILLING TO POOL THEIR INTERESTS IN ATTACKS UPON WAGE SCHEDULE

(By The Associated Press)

INDIANAPOLIS, Feb. 1.—United Mine Workers of America are willing "unreservedly to pool their interests with railroad organizations and stand with them in resistance to proposed attacks upon their wage schedules." John Lewis, international president of the miners declared in the statement today. The statement made in connection with the announcement invitations participate in meeting with miners sent officers sixteen major organizations railroad workers.

FIVE SACKS OF MAIL STOLEN AT CHICAGO BY THREE BANDITS

(By The Associated Press) CHICAGO, Feb. 1.—Five sacks of mail believed registered was stolen by three bandits who after firing one shot stopped mail clerk in Whiting, Ala., this morning enroute to Pennsylvania depot to postoffice.

(By The Associated Press) PARIS, Feb. 1.—The near Eastern question considered by the premier and a number of experts at a conference last night which lasted until early today.

FIFTH SESSION ARMS CONFERENCE OPENED TODAY

FOR PRESENTATION NAVAL LIMITATIONS AND USE OF SUBMARINES

(By The Associated Press) WASHINGTON, Feb. 1.—The fifth open session of the arms conference was called to order just after eleven o'clock today for presentation of naval limitations treaty and special treaties limiting the use of submarines and poison gases. Chairman Hughes began with resolutions adopted in Far Eastern committee after reading many treaties relating to China, each of which adopted, Hughes read points of agreement between Japanese and Chinese regarding Shantung.

EX-PREMIER VENIZELOS WAS HERE TODAY WHILE AT RAILROAD STATION

Many of the Sanford people went down to the station to see Ex-Premier Eliptherios Venizelos, who was here for a short time on his way to the east coast where he will spend some time at Palm Beach and then go to Cuba and South America. The great man of Greece and the war premier is making a tour of the United States and has been in Florida since Sunday. He was enroute from Tarpon Springs to the east coast today when he stopped over.

MALE VAMP BECOMES VILLIAN WITH NORMA

Lew Cody, wrecker of cinema homes has reformed. The former male vamp will vamp no longer. Instead he will appear before the camera as an honest-to-goodness villian, such a one that was heartily hissed in the good old melodrama days. Cody will be seen in a picturization of "The Sign on the Door," Channing Pollock's highly successful stage play of last season, at the Star theatre tonight. He is a prominent member of the cast supporting Norma Talmadge, who is the star of the production, which is released by Associated First National.

Ex-Premier of Greece was here today for a few minutes' stay at the Union station.

Yesterday was the last day of the duck and snipe season. The state law does not end yet but the federal law does and that is sufficient.

GREATEST OPPORTUNITY IN SOUTH IS AT SANFORD SAYS WILLIAM T. DONNELLY AND GIVES HIS REASONS

First Class Modern Tourist Hotel Here Would Prove Great Investment

Sanford, Fla., Feb. 1, 1922. Sanford Chamber of Commerce, Sanford, Fla. Gentlemen:

Since joining your Chamber of Commerce last year, my interest in Sanford has not only continued but increased and after the very remarkable response to my suggestion looking to the improvement of your waterfront, it is only natural that I should continue my study of Sanford and its natural advantages.

Venturing to enumerate these in a conversational way to some of the fellow members of our organization, I have been requested by several to put them in the form of a letter to the Chamber.

In my judgment, there is in Sanford one of the greatest opportunities in the South or anywhere else for a first-class modern fire-proof tourists' hotel, and I would submit the following in support of that opinion.

I believe there are hundreds of thousands of others, besides myself, who have had in the north by the end of summer, all the salt water and ocean experience that they have any use for and that they like myself, in coming South for the winter, naturally want to get into the interior on fresh water. It is well known that in the north we have no end of people

who live along the seashore and go to the interior on our fresh water lakes and to the mountains for the summer. Now winter nights here in Sanford are as cool or cooler than they are in the Adirondacks or other mountain regions in the north during our summer months and the air in the morning is just as snappy and invigorating. Coming to location, Sanford is at the present time, at the head of navigation on the St. Johns river, and my idea is that no end of people would come down to Jacksonville by steamer and then travel by day boat up the St. Johns river. The distance to Sanford from Jacksonville is approximately the same as from New York to Albany, and of course, for northern people, it is a voyage of discovery every foot of the way.

Then you have Lake Monroe, about five miles long by four and a half miles wide, with ample room for all kinds of small boating and sailing, and to the south further up the St. Johns river, there are no end of lakes as large or larger with winding streams, and no end of wilderness for hunting and fishing.

Now the supreme attraction which Florida has, and which no other point in the United States has anything to compare with, is its natural springs of

SECRETARY HUGHES OUTLINES PLAN FOR NEW TREATY AND LIMITATION NAVAL ARMAMENT

Naval Treaty Not Read But the Secretary Outlines the Terms

(By The Associated Press) WASHINGTON, Feb. 1.—Secretary Hughes presented to the arms conference at 12:26 today the text of a treaty for the limitation of naval armaments. The naval treaty was not read but Hughes outlined its terms. In concluding Hughes said no more extraordinary or significant treaty probably ever negotiated.

"Obviously it means an enormous saving of money and lifting of very heavy burdens from the people. This treaty absolutely ends the race in naval competition. At the same time it leaves the security of all powers unimpaired but means more. The best thing is the spirit manifested by which we were able to reach this conclusion. We are taking the greatest forward step to establish the reign of peace."

PRESIDENT TRUST COMPANY INDICTED FOR LARCENY OVER MILLION DOLLARS

(By The Associated Press) BOSTON, Feb. 1.—Max Mitchell, president Defunct Cosmopolitan Trust Company arraigned today on five secret indictments in which he charged with larcenies aggregating to one million five hundred thousand dollars fraudulent loans and conversions, false reports and entries and with altering promissory note. Pleaded not guilty. Released fifty thousand bail.

TRINKLE INAUGURATED OF VIRGINIA TODAY

(By The Associated Press) RICHMOND, Feb. 1.—E. Lee Tinkle, Waytheville, inaugurated Governor of Virginia today.

Sacred College Convenes Tomorrow to Elect New Pope

(By The Associated Press) ROME, Feb. 1.—The Sacred College will convene tomorrow to elect a new pope. The Italian, French and Spanish governments which formerly claimed the right of veto have informed the Holy See semi-officially they have no desires in the matter.

REVENUE INSPECTOR ROBBED MANY HOMES OF PRIVATE WHISKEY

CHICAGO, Feb. 1.—Police announced today Scott Burnette, inspector of internal revenue department confessed to participation in whiskey robberies totalling half a million dollars within the last year. Burnette said to have confessed implication in robberies homes of many most prominent citizens of Chicago.

NEW BRUNSWICK TO ADOPT MONOPOLY ON LIQUOR TRAFFIC

(By The Associated Press) FREDERICTON, N. B., Feb. 1.—Adoption of government liquor monopoly in New Brunswick similar to that now in vogue in Quebec and British Columbia is being considered by Provincial authorities on account of the serious falling off in revenue due to depreciation in the lumber business.

Policemen Assigned to Special Duty With Health Department

In the Effort to Stamp Out Influenza Epidemic

(By The Associated Press) NEW YORK, Feb. 1.—Seventy-five policemen were assigned today to special duty with the city health department enforcing house heating and sanitary rules laid down by the health commissioner in an effort check further spread of influenza epidemic. Commissioner Copeland announced he would take immediate legal steps against house owners who refused to provide sufficient heat.

RAILWAY STRIKE IN GERMANY TODAY, WILL TIE UP TRAFFIC

(By The Associated Press) BERLIN, Feb. 1.—The executive committee of railway men's union decided today to proclaim a general strike on railways beginning at midnight tonight.

CANAL NOT AFFECTED BY EARTHQUAKE TREMORS—MOVEMENT NOT STRONG

PANAMA, Feb. 1.—The canal was not affected by the earthquake yesterday. The movement was not strong enough to be apparent generally but registered on seismograph as prolonged tremor.

FRANCE AND BRITIAN SPAT ON SUBMARINE QUESTION BUT FINALLY COMPLETED

NEW FIRE TRUCK ARRIVED FOR DEMONSTRATION

ONE OF THE VERY LATEST AND BEST PUMPERS AND TRUCKS MADE

The new fire engine, pumper and auxiliary chemical combined arrived here yesterday and was unloaded by the representative of the LaFrance Engine Co., H. T. Gleeson, who is giving her the once over and will make a demonstration tomorrow if possible and show the commissioners and the people generally what this newest wrinkle in fire-fighting apparatus will do. The new engine will pump 750 gallons of water a minute and carries a 35 gallon chemical tank and 1,000 feet of hose and is ready to fight any kind of fire at any time and any place.

In fact the new fire truck is the last word in fire fighting equipment and will not only reduce the insurance rate in Sanford but will demonstrate that from this time forward we can rest assured that regardless of breaking mains and low pressure our property will be protected. Not only is this a great investment for the business portion of the city but the suburban sections of the city as well. Wherever water can be procured in any quantity this new truck will pump it out and can throw three streams of water over any of the highest buildings in the city.

Text of New Treaty Will Be Read in Session Today

SHANTUNG AGREEMENT

WILL BE ACCEPTED ALONG THE LINES OF PRESIDENT HARDING'S PROPOSALS

(By The Associated Press) WASHINGTON, Feb. 1.—Preparations to present publicly the five-power naval and submarine treaties at today's open session of the arms conference were completed in the committee yesterday after the British and French delegates again had indulged in a sharp exchange over the submarine issue.

At the same time the Japanese and Chinese about completed their drafting of the treaty by which Shantung is to be restored to China, and it was predicted that this agreement, too, might be formally written into the book of confidence accomplishments at today's public meeting.

Despite the British-French tilt, the naval committee of the whole approved in short order the two treaties by which the powers agree to limit their capital ship sea power and to impose certain restrictions on their submarines. At the public session the treaties are to be read into the record and each delegation head is to deliver an address expressing his government's acceptance.

Until the last minute it had been undecided whether the submarine declarations and the accompanying resolution condemning use of poison gas in warfare should be put into a formal treaty or left in the form of a protocol not requiring parliamentary ratification. Expressions at the committee meeting, however, are said to have revealed a preponderance of opinion in favor of the latter course.

In their final agreement on Shantung, it was learned last night, the Japanese and Chinese accepted in substance the proposal supported by President Harding, providing that the Tsingtau-Tsinanfu railway shall be purchased by China and paid for with treasury notes, and that two Japanese officials be included in the operating personnel during the period of payment. The notes are to be for fifteen years, with an option of full payment in five.

THE NEW TAX ON AUTOMOBILES TO BE ATTACKED

ORAL ARGUMENT BEFORE THE STATE SUPREME COURT TODAY

(By The Associated Press) TALLAHASSEE, Feb. 1.—Oral argument in an attack on the constitutionality of new Florida automobile license tax law before the state supreme court today. Action was brought by L. S. Bonsteel, of Miami. Habeas corpus proceedings and more particularly involves the validity of the license tax imposed on heavy trucks thought the issue, which has been joined before the court attacks the validity of the entire act.

RECITAL LAST NIGHT WAS WELL RECEIVED

The recital at the Parish House last night of Mrs. Julius Takach assisted by Mrs. Wren McGuinn, reader was well received and those who attended attested their pleasure at each number by unstinted applause. There is no better talent than these two excellent entertainers, Mrs. Takach having long ago won her way into the hearts of the Sanford people and Mrs. McGuinn making a great hit whenever she visits the city in the winter. Mrs. McGuinn is one of the most talented readers in the south and is well known in Georgia and especially in Atlanta, her old home.

The following program was carried out:

- Who is Sylvia?—Franz Schubert
- The Lass with the Lelicate Air—Dr. Thomas A. Arne
- Sing, Smile, Slumber—Charles Gounod
- Villanelle—Eva Dell' Aqua
- Mrs. Julius Takach
- Reading, Mrs. Wren McGuinn
- Vale—Kennedy Russell
- Caro Nome—Verdi
- Mrs. Julius Takach
- Mrs. Julius Takach
- Group of Readings, Mrs. Wren McGuinn
- Vinsi D' Arte, Vinsi D' Amore—(Tosca)—Puccini
- Love in April—Christians Kriens
- Un bel di Vedremo (Madame Butterfly)—Puccini

Laurent the Magician will be at the Princess Theatre Thursday night under the auspices of the American Legion.

S. W. BRADFORD CHANGES HIS POSITION TODAY—IS NOW WITH CHURCHWELLS

The first of the month has brought one change in the personnel of store life. Sam W. Bradford, who has been with the Sanford Shoe & Clothing Co., so many years that he was looked upon as a fixture left that firm to go with the Churchwell Company and took up his new duties today. Mr. Bradford is probably one of the most popular clothing men in the city and numbers his friends by his acquaintances. He recently won the prize for being one of the men in Sanford who always had a pleasant word and a smile all the time and he is certainly a popular young business man. Mr. Bradford will have charge of the men's furnishings with the Churchwell Company and will be glad to see all of his old friends at his new place of business.

FIELD MARSHAL PRINCE YAMAGATA OF JAPAN IS DEAD

(By The Associated Press) LONDON, Feb. 1.—Field Marshal Prince Yamagata, one of few remaining of Papan's elder statesmen died at his home in Odawara today says exchange telegraph dispatch from Tokio. Eighty four years old.

Friday—Mrs. R. J. Holly will entertain the members of the Book Lovers Club at her home on Park avenue.

Friday—The Intermediate Christian Endeavor Society of the Presbyterian church will be entertained by Misses Irma Smith and Grace Gilson at the home of the former.

Friday—Mrs. George Rice will entertain in honor of her guests, Mrs. Chas. H. Bliss and Mrs. Arthur Fiske, of Worcester, Mass., at the home of her daughter, Mrs. Raymond Key.

Miss Ola Redmond, of Atlanta, Ga., is the attractive guest of Mrs. J. S. Harvard.

Mrs. Homer Williams, (nee Ruby Roy) spent Thursday and Friday here with her father, A. L. Roy.

Mrs. Karl Schultz and Mrs. L. I. Frazier motored to Orlando yesterday where they spent the afternoon.

Mrs. W. M. Gaut, of Jasper, Ala., is the guest of her daughter, Mrs. Ned Harrison, at her home on Sixth street.

Mr. and Mrs. S. O. Chase, Mrs. B. F. Whitner, Mrs. E. D. Mobley and Miss Martha Fox were a congenial

party motoring to Orlando yesterday to attend the concert given by Frieda Hempel at the Beacham Theatre.

Miss Gertrude Jordan, of Savannah, will arrive Wednesday to be the guest of Miss Ruby Williams at her home, 218 Magnolia ave.

Mrs. H. H. Hill left yesterday for her home in Columbia, S. C., after spending several weeks here with her daughter, Mrs. Turner Houser at her home on Palmetto avenue.

Mrs. C. T. Pound, Jr., and Mrs. F. A. Hazard left this afternoon for their homes in Augusta, Ga., after spending some time here as the guests of the latter's parents, Mr. and Mrs. T. L. Dumas.

PIPE ORGAN CLUB

Mrs. J. B. Ray was the hostess yesterday for the members of the Pipe Organ Club.

A short business session was held in response to roll call, the members responded with recent happenings in musical world. Articles were turned in for the Easter Bazaar, and during the social hour the members were busy sewing on articles for the bazaar.

Miss Dorothy Ray sang two solos, and Mrs. Ernest Butts sang in her usual charming manner "My Little Gray Home in The West."

Late in the afternoon the hostess assisted by Mrs. Robson and Miss Dorothy Ray served delicious refreshments consisting of salad, saltines, olives, cake and coffee.

Members of the club present were Mrs. Sinnah Bray, Mrs. Rossiter, Mrs. Muires, Mrs. Ernest Betts, Mrs. O. D. Farrell, Mrs. Geo. Hyman, Mrs. B. G. Methvin, Mrs. L. T. Bryan, Mrs. Est-ridge, Mrs. McGaghin, Mrs. Powell, Mrs. Porter Pitts, Mrs. Forest Gatchel, visitors were Mrs. Bob Rowe, Mrs. Herby, Mrs. Dunn, Mrs. Robson and Mrs. Phelps.

FOR MRS. MERO.

One of the prettiest parties of the season was that given yesterday afternoon by Mrs. Ralph Wight and Mrs. Hal Wight, at the Woman's Club House, honoring Mrs. Percy Mero, a

recent bride. There being thirty-two tables.

Mrs. Mero formed the receiving line, welcoming the guests on their arrival. Mrs. Hal Wight was beautifully attired in Brown canton crepe and satin, and Mrs. Ralph Wight wore an exquisite gown of black satin and chiffon beaded. Mrs. Mero, the honoree, was handsomely gowned in a smart afternoon creation.

The decorations were elaborate and beautiful and featured the dainty color motif of rose, green and white. The walls were completely hidden with asparagus fern gracefully entwined with bouganvillea. Floor lamps and lights shaded in rose cast a soft rich glow over this pretty scene.

The tally cards were lovely hand-painted brides, these were given out by little Misses Billie Wight and Julia Higgins, who wore dainty frocks of organdie. The hours passed very quickly in the interesting game of bridge, high score being made by Mrs. Julius Schultz, who was awarded a pair of candlesticks and candles, second prize, also candle sticks and candles, was won by Mrs. D. L. Thrasher; low score prize favors was won by Miss Mary Howard. The honoree, Mrs. Mero, was presented an embroidered apron.

Following the awarding of prizes the hostesses assisted by Misses Florence Henry, Daphno Wimblish, Marie Teague, Frances Chappell, Marjorie Clay, Sara Warren Easterby, Agnes Dumas, Florence Mero, Frances Dutton, Mary Elizabeth Puleston, Olive Newman, Sara Evelyn Williams and Mrs. J. N. Tolar served dainty refreshments consisting of block ice cream in rose and white, individual cakes iced in white, rose cups filled with mints and coffee.

This was indeed a charming social courtesy, and one of a series with which Mrs. Mero is being honored.

ROADS MUST TURN

OVER PART PROFITS

WASHINGTON, Jan. 30.—Railroads which earned more than six per cent upon the value of their property used in transportation during the period from September 1, 1920, to January 1, 1921, are required under an order issued today by the Interstate Commerce Commission to turn half of the excess so earned over to the government.

A new telephone enables you to see the faces at the other end. "Wrong face, Central, I wanted a blonde," will be the next complaint.

FORTY-FIVE CONVICTS VIOLATING LICENSE TAG LAW

Tavares, Jan. 30.—Sheriff Cassidy has secured 45 convictions of violators of the license tag law and a number of cases are yet to be tried. When he notified the public that on and after Jan. 15 he will arrest those who were operating cars and trucks without the 1922 license he meant what he proclaimed.

He is also watching carefully the dates on temporary license placards and no longer can anyone get away from paying the license fee by using a dealer's license plate for the entire year. Fifteen days is now the limit.

The sheriff and his deputies are also after those who drive recklessly over the county roads, who do not dim their headlights at night and those who throw their searchlights straight ahead of the car, which is an offense that is absolutely criminal.

"Arresting those who violate the automobile laws does not make me popular with some," said the sheriff, "but I didn't make the laws. I am simply enforcing them. The man who applauded me for arresting a moonshining negro, condemned me when I asked him to see the judge for driving a car with 1921 license."—Eustis Lake Region.

RICHMAN PLAYS LEAD WITH NORMA TALMADGE

Charles Richman plays the leading man for Norma Talmadge in the popular First National star's screen production of Channing Pollock's successful stage play, "The Sign on the Door" which will be the feature offering at the Star Theatre tomorrow.

Mr. Richman's engagement with Miss Talmadge marks his third appearance opposite a First National star within a period of six months. He recently supported Anita Stewart in "Harriet and the Piper," and since that time played with Katherine MacDonald in "Trust Your Wife." During the latter engagement Richman wrote in collaboration with A. S. Lovo an original story which has just been pictureized by Miss MacDonald and entitled "Stranger Than Fiction."

MEMBER THE ASSOCIATED PRESS

Just a little more sun if you please.

The cloudy weather is spoiling the good fishing and boating.

How popular we are the first of the month. One would almost believe it was Valentine Day—such a big mail.

After the roof of the theatre fell and almost a hundred were killed the Washington authorities are probing for the cause. They could probably find many buildings of the same sort if they looked hard enough.

Roaches were found in a still near DeLand where liquor was being made. That's nothing. They found rats and other varmints in several stills in Duval county the other day but it does not keep the poor fools from drinking this liquid poison.

Ford now has a plan to use corn as a fuel making grain alcohol out of the surplus and using the new mixture in cars. We hope he has a new way of mixing the alcohol in cars as all we have ever seen was a bad mixture and usually winds up in disaster.

Tomorrow and Friday the balloon ascension and Dollar Day Sales will be put on by the Sanford merchants. If the weather is clear by that time and we have every reason to believe it will, there will be big crowds here to see the ascension and to take advantage of the dollar sales. This is the way to make Sanford the trading center. Bring the people in and then give them something to stimulate the buying. Sanford stores were never better, the stocks were never finer, the prices were never lower than they are right now and we want the thousands of people here to know it. Sales are the things.

Sanford will have several big surprises in the near future in the way of new buildings and new business houses. The only thing that is keep-

Fancy Groceries

Fresh Fruits and Vegetables

DEANE TURNER

WELAKA BLOCK

ing them out is the dearth of store rooms and building lots. However there are several men here now negotiating for building sites and when they make a deal there will be buildings started here that will make Sanford the city it should be. You can't hide your light under a bushel any longer. Outside capital is waking up to the many advantages of this city and there will be at least six new buildings built this spring and they will house entirely new business ventures.

DOES COURTESY PAY?

Does courtesy always pay? When does courtesy cease to be a virtue?

Both these questions were aroused by the experience of a friend who recently visited a newspaper office in a Florida city.

This friend was offended because he thought he had been treated rudely.

What happened was this: He walked into a busy newsroom and laid his card on the desk of the city editor. The visitor expected to be greeted warmly as was his customary reception at home. The city editor of this Florida newspaper gruffly answered: "I haven't time to talk to you today."

Perhaps this city editor was too abrupt. But the happening pointed a moral. Newspaper offices are busy places. The newspaperman's work is limited by time. He must finish his job today. The newspaper goes to press at a fixed hour. Other business firms may lay over this or that job for the morrow, but not so with the newspaper—each day brings a new job—the production of that day's publication.

And so many, many visitors do not realize this fact. So many, many callers expect the wheels of work to stop while they discuss their pet project.

Courtesy is a fine thing and most newspapermen possess it. But there is a limit to how far it may go before it ceases to pay and to be a virtue.—St. Petersburg Times.

THE PUBLIC SCHOOLS

The one institution of this land of greatest importance and in which we show the least active interest, is the public school. As pointed out by Sam Small, if we want to form an estimate of the future of America, we must go to our public schools. In 10 years from now, the young people whom we are looking upon as children, will be in control of the business and political organizations of America. The children now 11 years old will constitute a vast army of first votes in 10 years from now, and the 18 to 20 year old young people in the high schools will in 10 years be at their prime, in the height of their greatest strength and will be the active heads of business and politics.

Those of us now at the helm, shiver at the thought, but in 10 years our mantle will have fallen upon the high school youths of today, and we will either be acting the role of "emeritus" or will be on full retirement, or, perhaps many of us shall have gone to final rest. In view of these stern facts, can we afford to show so little concern for the institution that is preparing the future citizenship of America and moulding the minds that shall shape the future of the country we love?

Many of the states of the union are making an effort to take the schools out of politics. Various methods are being tried out by which state and county superintendents will be selected without reference to political af-

fillations. The manner in which they are usually selected is a disgrace to our school system. Men who are better politicians than educators are too often selected and their greatest effort while in office is to keep in office. The political turn-stile is too often worked for and against teachers. Teachers are not permitted to use the freedom that they are entitled to, and are hampered in their efforts by the political axe that hangs above their heads. This is all wrong. It is this conduct that has brought the private school into greater favor because there, merit counts for more than political activities.

Happily, politics seldom enters into local school board organization. Sometimes, it is to be regretted if does, if any one can conceive of a good reason why a man's political views should enter in to his fitness for a place on the school board, he is invited to name the reason. If he is a man who properly appraises the school, is interested in school questions, and is a man of good business judgment and good morals, his political party should be of little concern, unless he should happen to belong to a party that advocated unAmerican principles and policies.

The one plea that is going up with great uniformity from the teaching force of America, is, that parents take a greater and deeper interest in our public schools. Seldom do parents take any interest in the school room activities until commencement day—this great day in the life of young people when they take their perspective of the future; and even then too little concern is shown in the future education of that graduating class. If parents would take a lively interest in school room work throughout the year and manifest their interest in the work being done, it would be very encouraging to the teaching force and would inspire the students with a better zeal. So too, business men should take a friendly interest in the school problems, the revenues and the methods employed. The public school is of more vital and far reaching importance than any other institution in the land, and yet we can find no time to devote to it, though we can spend several hours a week for matters of purely amusement or political significance. Some day we shall realize our mistake in this matter of school interest, and that day will mark a new era in American citizenship as well as in school efficiency.—Reporter Star.

WHY PARK TRAMMELL REMAINS ON THE JOB

There is one thing about Senator Park Trammell which makes him almost solid with the people of his state and that is that when it comes to issues that he knows are wrong, regardless of party, you can find Park voting with the masses and on the right side. You can take decent legislation and see where he stood. For instance in the conscription Park Trammell voted against the measure and with the Republicans which ast took issue with President Wilson and all the party leaders. The people of this state have since found out that he was right on this question and just thought in advance of their conception of what was right. Then the next big thing which he faced and fought was the infamous Esch-Cummings railroad plot to get control of the railroad lines; he voted against this measure when all the rest of the Florida delegation voted for it as well as most of the Democrats, simply because the bosses wanted them to, but Park again faced the music and did them that he didn't care for what the party thought or the President or the bosses, he was going to vote against such rotten bills as that.

Then came the consideration of the reappointing of the crooked Newberry in the United States Senate and the way that Senator Trammell skinned those grafters and their acts beyond a doubt that he was not afraid of the whole bunch and also proved to his people in Florida that the same element that railroaded the conscription measure, the same bunch that pushed over the Esch-Cummings bill was also behind Newberry and for the very simple reason that Newberry had money and a pull regardless of whether it lowered them or not in the estimation of the general public or whether it was right or wrong, Newberry was to be seated because the gang wanted him on the job.

Senator Trammell will probably call on the Winter Park Post while in Florida this trip and ask them where the editor Windler got his information and also ask him to put up his proof of the charges he has made. Windler will slip out of it through the back door because he knows that he can't face the truth and we would suggest that Senator Park get the Windler's record when he was operating in Lakeland and Tampa and perhaps that will be all the gent will want for a while. The thing which the people of this state like about Park Trammell is that he does, as their agent, just what they want

MIGHT HAVE BEEN KING

But for the war this young man might have been now the ruler of Bavaria. He is the former Prince Albrecht, who was heir apparent to the throne.

done or just as they would do if on the job themselves. He is not dictated to by anyone; he is always on the job and never misses a roll call, except when on committee work and in all the sessions that he has been in the Senate he has voted on every important measure that has come up and along with his good looks and his splendid ability to think for himself, he has a backbone of his own and the people of South Florida are proud of of such a record.

He is unlike some others we know who are not very far away who spend most of their legislating home in Lakeland and when it comes to boss rule they vote with the bosses every time and simply follow the dictates of the ring politicians, chief among their acts being the supporting of the Esch Cummings measure and the conscription bill and every other abominable measure that has come up as well as absenting themselves from the halls of Congress when the rolls are called on most questions. We need men who will stay on the job and who will do what they believe is right and not what the bosses tell them to do.—Lakeland Star.

New Smyrna Gives Away a Bungalow to Best Writer

New Smyrna is pulling one of the greatest publicity stunts in the history of the state. Last year the Board of Trade conceived the idea of building and equipping a fine bungalow home in New Smyrna and giving it away free to the person living outside of Florida who would write the best essay about the beauties and advantages of New Smyrna. There are no strings tied to this offer except that the lucky one must come to New Smyrna to reside. The contest has been going on for the past six months and New Smyrna has received thousands of dollars worth of advertising already and will receive many thousands more when the contest is decided. The judges have been selected and the editor of the Herald has consented to act as one of them. The New Smyrna Breeze has the following about the selection of judges in the last issue:

"At the Board of Trade meeting Tuesday night, in reference to securing the board of final judges in the essay contest, Mr. Duss, who is chairman of the essay committee, reported in the elimination of essays of lesser merit were working like beavers, but that so far he had been unable to get the third member of the final board of judges. Dr. Forster wanted to know who were the two that had been secured: Mr. Duss replied that he had secured Mr. R. J. Holly (our beloved Bob), of Sanford, and at the suggestion of Mr. J. P. Beckwith, vice-president of the F. E. C. R'y, had secured Mr. Herbert Felkel, of St. Augustine. Dr. Forster thereupon took the floor and in a telling speech recited the splendid educational qualifications of Mr. Duss, his long and varied business career and singular fitness to act in this capacity of heading the final board. Thereupon moved that Messrs. Holly and Felkel be informed that Mr. Duss was chosen by our Board of Trade, as a body, to act as chairman of the final judges. The motion was seconded and carried with enthusiasm and unanimity."

Everything Ready For The Opening of South Florida Fair

County Exhibits Will Be Better Than Ever

TAMPA, Jan. 31.—(Special).—Everything is in readiness for the opening day of the South Florida Fair here Thursday morning, February 2. Every building has been completed; every booth in the county exhibit buildings have been put in shape. A small army of men has been busy the past two weeks putting on the final touches. Each county agent or man in charge of the exhibit for some county, is here or has his agent here placing that county's particular exhibits. Last minute gathering of the best fruit, vegetables, plants, shrubs, and flowers is being made. Most of the staple products such as grain, forage, meats and the like, were brought in days ago.

The county exhibits will be surpassingly beautiful. There is intense rivalry not only to make the most artistic displays but to make the best all-around showing, for every county exhibitor in the show hopes to capture one or more of the main prizes out of the total of about twenty-five thousand dollars which the South Florida Fair and Gasparilla Association is offering.

The amusement pike is in readiness and the free acts are here for the opening day. The racehorses are quartered at the track. There is not one thing left undone that would add to the entertainment of the great throngs.

The Gasparilla fete, which begins February 6 and is to be concluded the following night with the coronation of King Gasparilla XIV and his queen, will be a great entertainment. The Krewé has special costumes here, the pirate ship has been put in true form, and Capt. Toat Lozano has had his whiskers trimmed and waxed to the exact piratical angle.

The railroads have offered special rates from all parts of the state for the entire period of the fair.

HOME COMING WEEK EAST FLORIDA SEMINARY STUDENTS AT GAINESVILLE

GAINESVILLE, Feb. 1.—Preparations for the reunion here March 8 and 9 of former students of the East Florida Seminary, at which many Floridians were educated and which passed out of existence some years ago with other institutions to be merged with the University of Florida and the Florida State College for women, are going forward rapidly and the local committee in charge of arrangements is bending every effort in an attempt to get in touch with those who attended the school. Numerous committees have been

organized and it has been announced that from time to time their personnel would be enlarged by the addition of others. The committees as organized at this time follow:

Advisory committee, (To be consulted with regard to all plans Major W. L. Floyd, Gainesville. Captain George M. Lyuch, St. Petersburg. Major W. R. Thomas, Gainesville. Professor Brinson, Gainesville.

Committee on Invitation, Miss Ida C. Burkham, chairman, Mrs. E. G. Baxter, Mrs. J. A. Spruill, Mrs. L. B. Morris, D. J. Edwards, J. R. Millan, Miss Nello DaCosta (all of Gainesville). Mrs. Fred Gilbert, Kissimmee, Miss Sue Barco, Clearwater, Howell T. Lykes, Henry Hollingsworth, Harris, Greenville, S. C., W. C. G. Kilgore, Wildwood, Mrs. George Davenport, Jacksonville, Solomon Maas, Tampa, Charles Price, Brooksville, Mrs. Paul Carter, Marianna.

Committee on Publicity, Byron Mc G. West, Jacksonville, chairman for the state at large. Eli Futch, vice-chairman for the state at large, Miss Francis Wells, vice-chairman, Gainesville, Perry G. Wall, Tampa, T. Curry, Merchant, Madison, Elmer McCreary, Gainesville, Mrs. L. J. Knight, Ocala, Mrs. W. A. Roxby, Daytona.

Finance Committee, r. DeVere B. Morris, treasurer local organization, Chairman, Dr. J. Maxey Dell, J. H. Vidal, Miss Betty Miller.

Program and Entertainment, Eli Futch, chairman; Mrs. J. W. McCollum, assistant chairman.

Sub-Committee on program, Kline Graham, chairman; J. Fletcher Burnett, Miss Mable Schez, Mrs. Orville T. Stone.

Sub-Committee on Entertainment, Mrs. W. M. Dale, Chairman, Mrs. Thornton B. Stringfellow, Mrs. L. J. Burkham, Mrs. Geo. S. Waldo, Miss Myra McMillan.

Committee on Hotels and Transportation, Mrs. E. G. Baxter, Chairman, S. T. Dell, Mrs. DeVere B. Morris, C. S. Robertson, Mrs. Oscar Morris, J. B. Dell, Miss Alma Fennell.

MRS. CHAS. D. BRUMLEY, Manager

SEE LAURANT The Man of Many Mysteries

Princess Theatre, Feb. 2

LAURENT AND COMPANY WILL BE AT PRINCESS TOMORROW NIGHT

For more than seventeen years the great Laurant has been a Chautauqua Lyceum headliner. For more than ten years he has appeared under ten management—a fact which speaks for itself. During the years which he has devoted to the Lyceum platform, many offers from vaudeville and theatrical managers have been made aside by Mr. Laurant because he believed in the Lyceum as a great field in which to present his work. In fact as a charter member of the International Lyceum Association, he has had no small part in the development of this organization and the Lyceum movement as a whole. The high esteem in which he is held by the members of his own profession is evidenced in fact that he was given the gold medal by the Society of American Magicians. He has also appeared on several occasions before societies of scientific research.

It has always been Mr. Laurant's aim to have the most artistic magic entertainment before the public. He has never been content to let well enough alone or to rest upon his laurels. Each season he has endeavored to make his entertainments better than the last. The production of the coming season will be equipped in the usual lavish manner that has characterized all his entertainments, the stage settings surpassing in beauty all previous efforts. Mr. Fred Larson will assist Mr. Laurant and as stage manager will have charge of this mass of equipment, insuring a perfect presentation of the program. Mr. Laurant will also be assisted by Miss Greta Banes, a talented pianiste who will delight the audiences with her piano solos. She will take an active part in the various magic scenes.

A criminal's favorite punctuation is the period, which marks the end of a sentence.

SUGGESTIONS FOR WATER-MELON GROWERS

Watermelon growers of Central Florida should have their seed in the ground by February 20. Growers of South or North Florida should plant a few days earlier or later.

New land is best for watermelons. If you cannot get new land, select a plot where melons have not been growing for five or six years. This lessens the risk of disease.

Watermelon land should be broadcasted and disc-harrowed two or three weeks before planting time.

About ten days before planting, check off the field and apply from 400 to 600 pounds of fertilizer to the acre, putting it around the places where the seed will be planted. This means that the fertilizer will become incorporated into the soil and there will be less danger of injury to the seed from the caustic action of the fertilizer.

It is a good idea to follow the first planting with one or two others, about a week intervening between each. This is advised because frost is liable to kill unexpectedly the first planting.

THE NON-PRODUCER

The curse of the age is the man who consumes will ingly without producing anything. There are thousands of men who busy themselves at nothing better than incubating schemes for making a living by preying upon society. They fasten themselves upon society like leeches, and stick and hang with bull-dog tenacity. They are proof against shame, and even though conscious of the fact that they render no service for what they get, they continue in their brazen effrontery sucking the life-blood of society.

These schemers are the pest of business men. With well oiled tongues and a trained ability for tinting their schemes in rainbow colors, after gaining admission to the business man they manage by a constant flow of words to inveigle him into putting his

name on "the dotted line." Thus they stick the business man, and in turn the entire public. These associations and agencies so full of promise furnish an easy means of making a living to the shameless projector of the scheme but it adds to the cost of living to those who are producers and who actually render society some service. Every dollar paid out to one of these schemers or associations by a merchant adds to his cost of operation, which in turn must be added to the cost of goods sold to the public. These non-producers have been the means of burdening the people more than the profiteer. In justice to the honest producer, merchants ought to look well into every scheme presented to them before considering it. These smooth guys that come around with a scheme have a faculty for making them appear very plausible. They are hard to get rid of, and for that reason are the bigger nuisance. —Orlando Reporter-Star.

1922 CALENDAR PADS

There is nothing quite so handy, quite so useful, quite so indispensable for the busy office man as the calendar desk pad. It helps you to remember, it gives you the day and date, it gives you just what you want and when you want it. 1922 Calendar pads just received from the factory—the second shipment—the first shipment was exhausted in one week. Get a 1922 Calendar pad before they are all gone. Desk stands for the calendars if you have none.

DISORDERS IN SILESIA. TWO FRENCH SOLDIERS KILLED NEAR PETERSDORF

(By The Associated Press) BERLIN, Feb. 1.—Two French soldiers were killed and twenty-five wounded in disorders Monday night near Petersdorf, Silesia.

Grand opera is almost as good as a phonograph record after you get accustomed to the absence of that funny scatching noise.

THE GREATEST OPPORTUNITY OF THE SOUTH IS SANFORD

(Continued from Page One) artesian water. At Green Cove Springs, a short distance above Jacksonville, there is a natural spring discharging 3,000 gallons a minute which flows over a curb six feet wide and four inches deep into a swimming pool, and this is one of the small springs of Florida. Silver Springs on the Ocklawaha discharges 350,000 gallons a minute, and we are only at the beginning of the story. Jacksonville, a city of 90,000 inhabitants, gets its water from seven or eight, ten-inch wells, discharging under a considerable head into a basin from which the pumping machinery delivers it into the city mains.

Anywhere in the St. Johns River valley, practically any amount of pure artesian water can be obtained simply by putting down a hole or number of holes through the overlying strata and the supply is practically inexhaustible. It, of course, comes from the rainfall in the interior of the state which finds its way down below the tight strata and then comes up to the surface through natural faults, when it is called springs, or through driven wells or holes bored down, when it is called artesian water.

Now as you know, Sanford, at my suggestion, has reserved more than 500 feet of waterfront to make a clear water basin in front of the hotel property. My idea would be to have a hotel in the form of a hollow square with the open side facing the lake, and I would here call attention to one supreme condition which is most important. Sanford is located on the south side of Lake Monroe and consequently all day long one is looking towards the north or away from the sun, which makes it a delight to look out on the everchanging surface of the lake from morning until night.

To return to our consideration of the hotel. In the center of the enclosed grounds, would be a magnificent swimming pool fed by artesian water and the overflow from this pool, four or five thousand gallons a minute, would find its way down through the grounds in a perfectly clear stream and into the basin in front of the hotel grounds, forcing out the lake water and taking its place, with a result that you would have in front of the hotel, another pool of clear water approximately 500 feet square.

The central feature of this whole plan would be to have such a hotel as would attract the class of people in winter who like to frequent beaches and swim in the salt water during the summer, and part of the plan would be to have the swimming contests at Sanford during the winter, and of course, also motor boating and sailing races on the lake.

In a comparatively few years, the waterway will be opened up South through the St. Johns river into the Indian river and then passenger boats will run from Jacksonville to Miami, and the trip will be as popular or more so in the winter, as are trips up the Hudson in the summer.

Since time began, men and women, too, have been wont to gather for rest and recreation around springs, and this is the reason why. The remark of that great explorer, Ponce de Leon, regarding the springs of Florida, has had such a wide circulation and attracted so much attention throughout the world, I am very much inclined to believe that his remark was intended to mean just exactly what the words convey. In other words, he referred to the "springs of eternal youth" to convey the meaning that they flow on forever, and certainly through Florida's water supply and her almost continual sunshine, this land has attractions second to none and superior to almost any that I have ever visited.

Yours sincerely,
WILLIAM T. DONNELLY.

NATIONAL BISCUIT BLAZE IN PITTSBURGH TODAY—FIREMEN ARE OVERCOME

(By The Associated Press) PITTSBURGH, Feb. 1.—Nearly a score of firemen were overcome by smoke today fighting a blaze at the National Biscuit Company's building in the downtown district. The loss was estimated at \$100,000.

JAEGER

The Sanford Merchants and Business Men whose ads appear on both sides of this circular in order to make this \$ Day the beginning of more just like them have arranged for an attraction for these two days that will pay you to come to town even if you do not want to make purchases at this time. Miss Stella Jaeger has been engaged to put on some thrilling stunts with her balloon and will on these two days entertain the large crowds with a triple parachute drop.

THIS BALLOON ASCENSION WILL TAKE PLACE
DAILY AT 10 O'CLOCK A. M.

She will take up hundreds of tickets from the different merchants and business men which will entitle the finder to certain premiums. These tickets will be released 3,000 feet over Sanford and then the scramble. Come and get yours. The big balloon will go up promptly at 10 o'clock so be in town early and be sure to get your prize. Thursday and Friday will be big days, come early, see the balloon ascension, parachute drops, get a prize and a good bargain.

The Sanford Merchants are spending good money to introduce you to their money saving counters.

Thursday and Friday,

FEB. 2-3

OUR WEEKLY BUSINESS REVIEW

By Henry Clews & Co.

New York, Feb. 1, 1922.

Secretary Mellon's statement in reply to inquiries put to him by Representative Fordney, in which he reviews the soldiers' bonus proposal and makes it plain that the money required must be raised by taxation, has placed a very sharp issue before the business community. According to Mr. Mellon, the cost of present bonus plans will ultimately run from \$3,300,000,000 to \$5,200,000,000 and will be likely to require as large a sum as \$1,000,000,000 in cash during the first two years. The secretary's conservative statement that the field of taxation is already well covered and that the department would hesitate to recommend additional taxes calculated to provide the money needed for the bonus is a very moderate way of calling attention to the disastrous financial effects of any such program as now contemplated.

President Harding has not yet announced a decision as to our representation as to the conference in Genoa. Premier Lloyd George's address at Westminster a week ago offered positive advocacy of the conference as a means of rebuilding trade and restoring exchange; and while not directly doing so, nevertheless by inference built up a strong argument for the participation of the United States. Such participation appears to be an admitted necessity if arrangements are to be effected for the financing of exports and the stabilization of foreign exchange conditions. As things are now going, the absence or only technical representation of France and the United States might result in practically rendering the conference ineffectual. Meanwhile, in the hope of the performance of some thorough work at Genoa, current quotations of the principal European exchanges have continued to effect a distinctly better condition of affairs than has been true for some time past.

Railroad prospects continue to be the fundamental factor in the securities market in more ways than one. The events of the past few weeks have furnished fresh evidence that the roads have great vitality and with even moderately favorable conditions could make a good recovery. The decision of the United States labor board as to working rules is favorable to the roads, and there is undoubtedly a better prospect of reaching some agreement "out of court" between the managers and the employes than has existed thus far. But just as these more favorable conditions present themselves, the demand of the agricultural interests for further cuts in rates is once more voiced through the medium of the farm conference at Washington. There has been nothing in recent development that would warrant such a reduction in rates unless it could be accompanied by a corresponding lowering of cost of production.

The interest shown by purchasers of steel shares during the past week as well as the activity and advance in price noticeable in a number of specialty issues, is attributable not merely to the various rumors of capital readjustments, mergers and the like, but to real progress toward normal conditions. For one thing, the reports which are now being made

public with respect to the fourth quarter of 1921 are showing decidedly better results in some cases than had been expected, thus indicating that the turn for the better that has been so much talked of is already several weeks under way. Significant in this connection is the much improved outlook with respect to sugar shares, growing as it does directly out of a better valuation for raw and refined sugar. Both the product itself and the stocks of the sugar companies have been driven down too low, and the progress toward higher prices during the past week or two reflects a consciousness of that fact on the part of the public at large. A very similar situation exists in a number of other industrial branches, notably in leather and in the principal leather stocks.

The fact that our money and credit situation is sounder than for a long time past is being repeatedly demonstrated. Statistics of failures for 1921 now available show a surprisingly small ratio of bank failures, particularly for those in the national system and in the federal reserve system generally. High reserves at federal reserve banks are no novelty, and the past week's figure of 77.2 per cent for the reserve ratio of the 12 institutions is in line with the figures of recent weeks. Experience as to rates has proven that a fair yield is necessary in order to keep out-of-town money in the New York market, and this fact tends to confirm the belief that extreme reductions in rates are not to be expected in the near future, although there are abundant free funds in many parts of the country, and particularly in the cities. There is now no reason why commercial businesses should not supply themselves with the funds they require at very moderate figures; indeed, most of the banks in all parts of the country would be very glad to see an active revival of the commercial demand.

Market conditions during the past week have been somewhat uncertain and irregular. Buying demand has been slack, but the general public are in a receptive mood, and with any market encouragement would not hesitate to make fresh purchases. The trouble is that spurts of activity are followed by periods of sluggishness due to the publication from time to time of last year's unfavorable earnings reports, and this condition has a discouraging effect on the outside man, although it does not produce any liquidation of consequence. The sugar business is fast righting itself, and most of the refining and producing companies are now in a fair way to show profits hereafter instead of deficits. The firmness of the woolen shares indicates quite clearly the improved condition of the woolen trade, and this is also true with respect to the shares of the Steel corporation and of the copper companies. The outlook therefore, is by no means discouraging, although the market may continue to be a two-sided affair until it is demonstrated more fully that present predictions of trade improvement are well founded.

BUSINESS HOUSES TO BE IN PARADE AT ORLANDO FAIR

One of the Features of the Sub-Tropical Fair Will Be the Parade

One of the features of the Sub-Tropical Mid-Winter fair at Orlando will be the big parade on the 16th of February and will be under the personal supervision of Jack Hughes and anyone wanting a place in the parade should write to Jack Hughes at Orlando and let him know what you will have. The Orlando Reporter-Star has the following about the parade:

"Among the elaborate features of the Mid-Winter Fair this year is to be a merchants, manufacturers and business men's parade through the city of Orlando, headed by Chief Dean, with his big ladder and hose truck and other equipment sufficient to show the City Beautiful and the Fair as well at their best.

"C. E. Howard, secretary of the fair association, stated this morning that he had never before seen such genuine enthusiasm over Orlando's great annual show, and that it was particularly pleasing to see how readily the business men, the merchants, growers and manufacturers had responded to the idea. This parade, which is being staged by Jack Hughes, assisting Mr. Howard with the big show, will start at 10 a. m., sharp, on the 16th of February and the present indications are that it will reach from Lake Lucerne to Lake Ivanhoe, if lined up on Orange avenue exclusively. Merchants and business men from Kissimmee, Sanford and other cities in the five-county zone are participating to a noticeable and pleasing degree.

"Flats, miniature houses and emblems on motor vehicles will be seen in abundance, especially since the entire parade is to be by motor. Chief Dean agreed to lead the long display only after he had been assured that the march would start promptly at 10 o'clock, and his corps of men and display of modern equipment will add greatly to the enterprise. The department stores and cloth establishments will be out 100 per cent, while other business men, merchants and manufacturers are busy polishing up motor cars and making streamers and emblems befitting the occasion. At least three bands will be on hand to furnish the proper musical thrill.

"The substantial prizes will be awarded after the parade ends at the Fair Grounds.

"It has not been determined what route the march will follow. Jack Hughes said today, but that will be announced within a few days and in plenty of time to permit all concerned to get a mental layout of the line to be followed.

FORD AGREES TO COMMISSION FOR PRICING OUTPUT

WASHINGTON, Jan. 31.—Two important modifications of the original proposal of Henry Ford for the purchase of the Mussel Shoals, Ala., power and nitrate projects were contained in an official copy of the contract signed by Mr. Ford received today by Senator Hiram Bowers of Georgia.

Appointment of a commission by the president was provided in the contract as finally approved, which would be empowered to determine whether the contract was being strictly observed with respect to production of fertilizer compounds and whether the contractor was retaining profits in excess of the 8 per cent return allowed him.

The other change was an agreement by Mr. Ford to pay an annual rental of 4 per cent on whatever sum was necessary to complete dam No. 3 in its original form: the contract provided for payment of rental only on the sum which Mr. Ford estimated would be the maximum required to complete dam No. 3. The government experts were of the opinion that Mr. Ford's estimate was far below the cost which would have to be met. The modification, therefore, removed one of the points in dispute between the government and the Detroit manufacturer's agent.

The commission would have the right to "determine what has been the cost of manufacture and sale of fertilizer products and the price which has been charged therefore and if necessary for the purpose of limiting the annual profit to 8 per cent such as shall limit the price at which said fertilizer may be sold by said company."

The commission would consist of nine members seven of whom would be chosen by the president, the other two to be representatives of the Ford company. The seven members, the contract provides shall be selected by

the president from a list of 21 names and seven submitted by each of the three leading representative farm organizations national in fact.

EDUCATION COMMITTEE WILL STUDY STATE TAKE UP THE WORK

DELAND, Jan. 31.—Members of the commission appointed recently by the Florida Educational Association to study matters pertaining to education in this state, and the executive committee of the association, have been requested to meet at Gainesville, Jan. 30 for the purpose of getting underway their work.

The call for the meeting was made by C. R. M. Sheppard president of the association and Dr. Joseph Rummer, chairman of the executive committee. The executive committee plans to inaugurate steps looking to an increased membership in the association.

The educational commission, comprising nine members, two from each congressional district and one from the state at large is charged with the study of a broad field in the educational life.

A program of its work calls for an investigation of the state national system, means of financing it, an analytical compares with the system of education in other states.

Recommendations designed to improve Florida's educational methods and its system of financing the schools are to be made to the next legislature by the commission upon the completion of its work.

Members of the commission include: W. S. Gawthorne, Gainesville, chairman; J. E. Knight, Tampa; R. W. Vanbrunt, Inverness; F. S. Hartsfield, Tallahassee; J. H. Workman, Pensacola; J. S. Richards, Fort Lauderdale, and S. Johnson, Orlando.

It's hard for a rich man to get to Heaven, but it's easy for a poor man to be virtuous at \$12 a quart.

USE CORN AS CEREAL At Present Prices It's Decidedly to Pocketbook's Advantage to Go Back to War-Time Practice

The best way to find out which cereal is more economical for the family to use without impairing the energy-giving qualities of the family's menu is to compare prices of the different cereals.

According to food specialists of the Home Demonstration Department Florida State College, Tallahassee, all cereal grains have practically the same food values when eaten in a mixed diet containing plenty of milk, vegetables and fruits. Therefore, at present low prices, corn may well be used in place of other grains on the family table.

Quick breads and breakfast cereals in which corn is the chief ingredient are palatable, appetizing and easily prepared. Recipes for them will be sent to persons who write to the previously mentioned office at Tallahassee.

Many housekeepers learned during the war to prepare corn foods in many different ways, and now that corn is so low in price, careful housewives are coming again to its wider use.

MUNICIPAL OWNERSHIP

Under This Head, Articles Pro and Con Regarding Municipal Ownership Will Be Published in the Herald.

FIGURES FROM OTHER CITIES.

There are many good articles being printed in the Orlando papers these days regarding municipal ownership and private ownership. The Herald will copy them from time to time in order that the Sanford people can judge for themselves when the time comes. The following figures of comparison are taken from the Orlando Sentinel:

DAYTONA:
Total assessed valuation, \$5,702,800.
Millage levied, 25.
Water rates, 16c per thousand gallons.
Electric rates, 13c.
Electric power, 13c.
Gas per thousand \$1.05.
Assessed value per capita, \$760.
Budget per capita, \$22.40.

GAINESVILLE:
Total assessed valuation, \$3,761,437.
Millage levied, 18.
Water rates, 12½c per 1,000 gallons.
Electric rates, minimum, \$1.00.
Electric power, 5.5-2 cents per k. w.
Assessed value per capita, \$442.
Budget per capita, \$9.40.

Phone 34

at 20c. Industrial, monthly minimum \$10.00; first 10,000 cu. ft. at 20c; over 10,000 cu. ft. at 17½c. Rates are based per 100 cu. ft. per month.
Electric rates: Residential, minimum, \$2.00 per month; consumption at 11c per k. w. hr.
Electric power and light: Commercial, minimum \$2.00 per month; consumption at 10c per k. w. hr. Power—monthly minimum charge \$5.00; 1st 250 k. w. hours per month at 9c k. w. hr.; 2nd 250 k. w. hours per month at 8c per k. w. hr.; third 250 k. w. hours per month at 7c per k. w. hr.; 4th 250 k. w. hrs. per month at 6c per k. w. hr.; over 1,000 k. w. hrs. per month at 5c per k. w. hr.
Assessed value per capita, \$835.
Budget per capita, \$24.00.

The "budget per capita" means the amount spent each year per person. This does not necessarily mean that a large amount is alarming. It is based upon what each person is receiving in return. For instance, Orlando's budget per capita is larger than Ocala, but Orlando is giving garbage collection free of charge, keeping up parks, cemetery, repairing pavements, making donations to charity through an appropriation to the Associated Charities, Orange General Hospital, etc., has a paid fire department, police department, street cleaning, provides for interest on bonds, a sinking fund, etc. The other cities have a lower rate but are not doing these things. Orlando pays one-half of street paving where the other cities pay one-third. In Orlando one-half the cost is assessed against the property owners. In other cities two-thirds is assessed against the property owners.

JACKSONVILLE:—Rates for electric light and power: Monthly minimum charge, 50c; consumption at 7c per k. w. hr. Last year electric plant earned \$500,000 net.
ST. PETERSBURG:—Rates for water: Minimum, per annum, \$8.00. Rate per 1,000, 20c.
LIVE OAK:—Water rates \$1.00 minimum charge; 15c per M, for all over 8,000 gals. up to 50,000, and 10c per M. Water plant under municipal ownership. Net revenue for 1920 was \$6,000; for 1921, \$6,000 and for 1922 is estimated at \$7,500.
FOOT MYERS:—Water rates are: Minimum, \$1.25 to 3,000 gals., additional, 25c per M., to 10,000 over 20c. (Note—"M" means 1,000.)

GOMPERS SAYS LABOR WILL FIGHT BOARD
Unions Unwilling to Have Differences Settled As Hoover Asks.

NEW YORK, Jan. 31.—Samuel Gompers, veteran president of the American Federation of Labor told delegates at today's session of the National Civic Federation that organized labor would "never submit" to the creation of a tribunal for the compulsory adjudication of railroad labor controversies. He characterized the proposal as "resuscitation of a barbaric condition under conditions of unfreedom."
President Gompers' ultimatum given in an answer to appeal for such a tribunal voiced by Ben W. Hoover, vice chairman and public member of the United States railroad labor board. In a speech earlier in the day, patches "whose decision shall be enforced by suitable penalties." The labor leader made an issue of Mr. Hoover's suggestion.
He also demanded to know to whom Mr. Hoover was referring when he spoke of radical and conservation labor leaders, asking in which class he was listed. Mr. Hoover replied he did not wish to cast reflection on Mr. Gompers or the labor movement as a whole, but insisted there were "many radicals" in the movement.
Mr. Gompers closed his address with the charge that railway officials gave the railroad board railroad figures \$1,250,000,000 in excess of the total actually paid.

THE FARMER HIS OWN RESCUER
The discussions at the recent meeting of the Florida Swine Grower's Association in Ocala reveal the fact that the leading farmers of this state are fully aware of the fact that marketing has become one of the paramount features of agriculture, that it is no longer of less consequence than production.
Considerable divergence of opinion evidenced itself as to how the marketing problem should be solved. But all were in accordance with the idea that the solution of this problem is up to the farmer himself, and those closely allied agencies of agriculture.
If it is up to the farmer, we have reasons to believe that the problem will be solved. The study of America life gives us confidence in the farmer's ability to work out his own salvation. No one can dispute the fact that the conditions of our farm life and farm people has ever been a true index to the industrial and social conditions existing in our country.

ORLANDO, FLORIDA

No advertisements for the Classified or Want Columns of the Herald are taken without cash in advance and none are taken over the telephone. This is made necessary by the mistakes in phone messages and by the extra bookkeeping entailed on the small accounts that take the profits out of this form of advertising.

1/3 OFF
There is bound to be more cold weather and if you haven't a nice warm Sweater, see those nice—

PENNSYLVANIA KNIT COATS
We are now offering. Your choice of any in the house, one-third off the regular price.
