67th Year, No. 246—Wednesday, June 4, 1975 Sanford, Florida 32771—Price 10 Cents

250 Graduate From Oviedo

Michael, Teresa Yoder, and Kim Faxon. Leading the teams on were captains Jay Saucer and Althea Tyson.

GOLF

The golf team had only two seniors but these were the top two on the team. These seniors are Mark Simon and Jim Stamps. Stamps has been captain for four years and has received the Outstanding Player Award for three years.

ANNUAL STAFF

Developing a yearbook for the entire school that everybody would enjoy was the job of Editor-in-Chief, Lynn Sollars. On the staff for the '75 Oviedian was Kevin Creechen, sports editor; David Dees, asst. sports editor; Steven Goodman, senior section editor; and Ann Liville, faculty section editor with sponsor, Mrs. Helen Wheeler.

BETA

As always the Beta Club of Oviedo High consists of students who maintain an average grade point of 3.2. This year's Beta Club President was Steve Goodman who had the support from Beta seniors Tracy Adamson, Brian Daker, Sylvia Banks, Candi Baylor, Karen Birchett, Robert Borkoski, Kay Bovard, Rosanna Bowman, Barbara Bradford, Bill Carter, David Dees, Charlene Elmore, Kim Faxon, Robin Ferebee, Laura Fritsch, Robin Gibson, Marty Gilmore, Teresa Hanvey, Linda Johnson, Steve Lemanski, Robianna Merrifield, Rebecca Metcalf, Janet Moore, Patricia Myers, Susan Morris, William Myers, Lance Nogle, Robert Olafski, Brian Osborn, Clettie Patterson, Jane Phillips, Lou Rajchel, Tim Risher, Shari Rubenstein, Deborah Sieple, Kimberly Self, Steve Smith, Lynn Sollars, Margaret Sterling, Larry Stewart, Helen Swiney, Kathryn Vandergriff, Brenda Walker, Mark Wilson, Warren Davis, Lisa Van Camp, Robert Winter, Greg Young, Teresa Yoder, and Leslie Holian. Beta Club Sponsors are Mrs. Jean Gray and Mrs. Judy Davis.

CHEERING

With a lot of hard work the Varsity Cheerleaders raised the spirit of OHS to a peak. Captain was Lisa VanCamp and aiding her was Karen Birchett as Co-Captain. The other seniors on the squad were Janet Moore and Debbie Seiple.

BASKETBALL

This year's Basketball Team was called, Dale's Dividers. Their season ended with a 16-12 record. They took third place in the All-County Christmas Tournament, first place in the OCB Tournament, and second place in the District 8 AAA Tournament. The team was led by seniors Larry Jackson, Robert Borkoski, George Ribbon, Eddie Browly, Tim Stone, and Sinclair McNeely. The captain was Clettie Patterson who won the MVP Trophy at the Christmas Tournament and won the player of the week award.

WRESTLING

This was the first year wrestling made the scene at Oviedo. The seniors on the squad were Lou Rajchel, John Phillips and Sam Horne. Dan Myers was the team captain.

SWIMMING

Diver — Greg Pfundston, and free styler — Mary Beth Metzler are the seniors on the swim team. Swim sponsor is Miss Barbara Rhoter.

TENNIS

The tennis teams showed great improvement this year. Much of their success was due to the seniors of the teams. They were Mark Wilson, Wes

DRAMA

The Drama Club not only taught students about stage acting but entertained the entire community with the production of Shakespeare's "Romeo and Juliet." In the leading role as Romeo was David Dees, David Jones as Capulet, Marnie Schlabig as

Early College Admissions

Jill Cumbaa, daughter of Mr. & Mrs. Gene Cumbaa. Early Admission to S.J.C. Michele Jedlick, daughter of Mr. & Mrs. Roland E. Jedlick. Early Admission to S.J.C. Mrs. Randall Judd, daughter of Mr. & Mrs. Robert G. Carrivann. Early Admission to S.J.C.

N. Kathleen McCutcheon, daughter of Mr. & Mrs. Robert E. Schlabig. Early Admission to S.J.C. LaAnn Monteclaro, daughter of Mr. & Mrs. Richard Monteclaro. Early Admission to F.T.U. Sheila Stanick, daughter of Mr. John Stanick, Maitland and Mrs. Shirley Stanick, Goldenrod. Early Admission to F.T.U.

student affairs the Government was anything but idle. They planned assembly programs, rock concerts, fund raising drive for the zoo, sponsored the blood bank, held orientation program for the new students, got the student parking lot repaired and many other projects. The Student Government was sponsored by Mrs. Hazel West.

Longwood Fire Hassle Ends; Keller Applies 'Gag' Rule

By DONNA ESTES Herald Staff Writer

LONGWOOD — Local television stations on the 11 o'clock news last night were broadcasting stories about the fire protection crisis in this city, caused when volunteers firefighters walked out Monday night.

The media was unaware the volunteers in a meeting some time prior to 11 had voted to return en masse.

Roger Mobley, a 12-year veteran volunteer firefighter, chosen by the city council Monday night to reorganize the volunteers, refused to reveal the action taken at a meeting of the firefighters last night on orders from the city's new Public Safety Director Doug Keller.

"I can't say what happened at the annual meeting," Mobley said. "Mr. Keller gave a talk to the volunteers and told us statements, repeat come only from him."

Mobley, in the firehouse at 11:30 last night said Keller had gone home to Titusville for the night and would issue a statement this morning.

Repeated calls to Keller at the police station this morning were answered with the statement that Keller was out-of-town attending a police chief's meeting and it was unknown what time he would return.

Sources said the gag rule, imposed by Keller on his third day on the job, was intended to control the news emanating

"I can't say what happened at the annual meeting of the volunteer fire department," Mrs. Keller gave the volunteers a talk and said all statements must come from him." — Roger Mobley

from the police and fire departments so that citizens would not be unnecessarily upset.

The sources could not explain why Keller had not released the information that the city was no longer in danger from fires since the volunteers had returned to duty, which would have alleviated citizen concern.

Mayor James Lormann also could not be reached by telephone.

council Monday night is also a volunteer, the source said. Councilmen contracted today pleaded ignorance of the final outcome of the 2 1/2-hour lengthy meeting last night, but all expressed surprise that Keller is back as a volunteer despite the council vote.

They also were puzzled why LaBosiere would want to be a volunteer when he has stated publicly on many occasions in recent weeks that he was anxious to leave the city's employ for another job.

The 24-hour crisis in the fire department began Monday night when the city council unanimously rejected a proposed agreement with the incorporated volunteer department after the volunteers issued an ultimatum to the city. One volunteer said the "city may burn tonight."

In a meeting with the volunteers before they walked out, leaving firefighting gear stacked on chairs and tables, Grant said he would be happy to discuss the situation with Mobley and any other volunteer but Keller. He then ordered Keller out of the city fire hall.

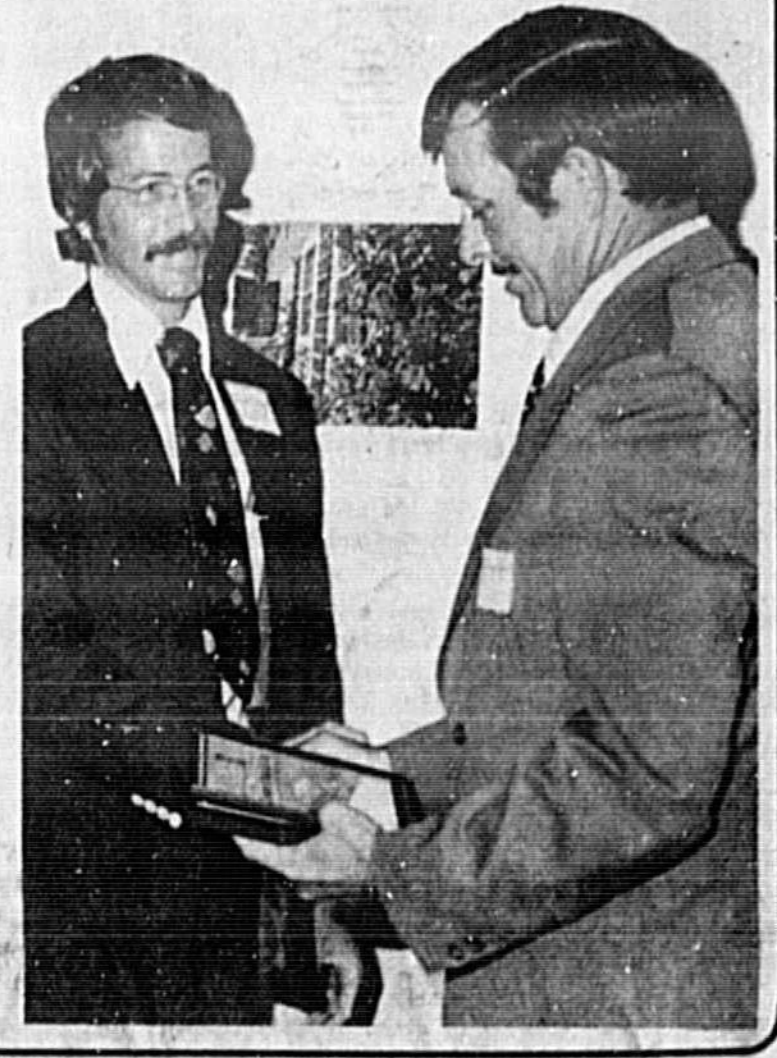

Grant received calls at his home yesterday from residents who had served with fire departments in the north offering their services to the city.

During the crisis the city called on and received assurances of stand by firefighting assistance from the Seminole County Fire Department, and departments in Casselberry, Altamonte Springs and Winter Springs after appeals for help were issued by Mayor Lormann.

JUDGE HALL HONORED

Dedication of a multipurpose room in honor of Judge Wallace H. Hall was the highlight of a program last night at Seminole County Juvenile Detention Center. In the top photo, prior to a tour of the facility, are Paul J. Charters, state chief of the Bureau of Detention, Division of Youth Services; Judge Hall; Ned Julian, Seminole County Bar Association, and Bob Hitz, district supervisor for the Division of Youth Services. In the photo at right, Thomas Fay, Superintendent of the DYS, presents Judge Hall with a plaque denoting Hall's efforts in assisting in getting the detention center built. (Herald Photos by Bill Vincent)

Altamonte Accepts Orienta Plan

ALTAMONTE SPRINGS — A plan for providing bicycle paths for school children who will attend the new Lake Orienta Elementary School in the fall was accepted by the city commission last night, after a lengthy workshop on the matter yesterday afternoon.

The plan, estimated to cost \$13,350, calls for a bike path from Orienta to Arlington and another from Woodling to Maitland Avenue. This plan includes the necessity of acquiring rights-of-way.

The bike paths are to be paid from federal revenue sharing funds formerly allocated for construction of a tennis court at

the civic center recreation area.

City crews are to provide labor for the project, resulting in a substantial saving, Mayor Norman Floyd said.

Floyd submitted seven separate plans for commission consideration.

The resolution, directed to the School Board and School Superintendent W. P. (Bud) Layer, notes budgetary complications are created when school requests are received at random throughout the year.

The policy created in the resolution asks the school board to make all requests in the future prior to the annual budget session, and by May 1.

"These requests should include all items of paving, signals, signs, crosswalks, and sidewalks that would be located in unincorporated areas of Seminole County and will be needed for a period of one year following the next Oct. 1."

The policy recommends that "similar requests be directed from the district school board to the appropriate municipalities in Seminole County whenever needed projects are located within the city limits of the municipalities involved."

Copies of the resolution were ordered sent to each of the county's cities.

Part-Time Job Irks Pelley

SEA, Board Dance Around Topless Teacher Issue

By ED PRICKETT Herald Staff Writer

The bare facts of whether a teacher who works part-time as a topless go-go dancer is a matter for School Board approval or disapproval surfaced during talks yesterday between the county's teachers' association and board negotiators.

A Seminole Education Association (SEA) proposal

that the "private and personal life of any teacher is not within the appropriate concern or attention of the board" drew heated fire from the board's chief negotiator, Harry Pelley.

"Don't you think a teacher has an obligation to live the kind of life students would look up to?" Pelley asked SEA's Steve Rosenthal, who replied, "Sure, that's part of the contract."

"But let's say I was a worm

farmer, and my principal didn't like it. What I do outside the classroom is my own business."

Rosenthal agreed that teachers are governed by the laws of the land, and said he is asking only for those rights guaranteed other citizens in the country. He questioned individual principal's rights to make a "judgment" about what's considered okay and what is not.

"If that teacher took a job as

a topless go-go dancer, I'd be opposed to that," Pelley argued.

"Go-go dancers have won the right to their jobs. Some principals may feel working at the dog track is immoral," Rosenthal shot back.

Finally, a compromise was reached after SEA offered the Pelley team a counter proposal.

The SEA proposal tentatively agreed on states: "Any in-

volvement of the School Board into the private life of a teacher shall remain within the scope of the Florida State Statutes."

Pelley was concerned that any type of outside job might detract from a teacher's ability to teach. For example, he said a two-hour part-time job might mean one teacher's ability while a job with even more hours might not affect another teacher.

Rosenthal, accusing Pelley of

continuously bringing up money items during talks, also sprung a surprise on the veteran school administrator.

Rosenthal said more than 500 teachers are paid for 10-month contracts and work over a 12-month period. That, he said, converts to about \$70,000 a year in interest which the School Board receives. That much money — \$70,000 — if stretched payments out over a year, "It's illegal to pay you interest," he added.

"The board did us a favor by paying us once a month. They'd pay us once a year if they could get away with it. I just want it made perfectly clear that teachers subsidize the board," Rosenthal retorted.

"The SEA proposal, which Pelley rejected, asked that the board add to a teacher's last check the amount of interest earned on that teacher's money that was withheld.

"Why don't you accept the money on a 10-month basis?" Pelley asked. "Your salary is not due, anyway, until you earn it. You're not paid until you earn it."

Anyway, Pelley said, "The board is doing you a favor" by stretching payments out over a year.

Rosenwald Ruling Arrives In Time For Board Meeting

The "longest telegram" School Supt. Bud Layer has "ever seen" arrived today from the U.S. Justice Department and shuffled them instead off to Casselberry, a 16-year-old school.

At last week's board meeting, Sims challenged information presented by school officials to

parents, went against Layer's recommendation to bus the students to the soon-to-open Lake Orienta Elementary and shuffled them instead off to Casselberry, a 16-year-old school.

The telegram, which will convert to about five typewritten pages, is the formal ruling School Board members have been waiting for since a request was made by Rosenwald parents for an investigation.

The ruling advised the board not to bus 207 black students past three other schools on the way to Casselberry.

At least one board member, Davis Sims, says he intends to stick by the "Lake Orienta Plan," which was adopted by a 3-2 vote by the board. That plan, drawn up by Lake Orienta

the Justice Department. And he was miffed because the board made no input into the department's decision. But Layer says it wasn't up to him to tell the FBI whom to interview.

Tonight's decision may put the Rosenwald controversy to rest. Except for a suit which

awaits a ruling from a federal judge in Orlando. That ruling will decide whether Rosenwald closes or doesn't, which blacks say is the only matter they're really interested in, away from the school system's personnel program which governs the hiring and firing of teachers.

Personnel Director Stewart Gatchel said this morning that 179 teachers are eligible for rehire. Tonight's action only concerns itself with 19 transfers of teachers within the system.

But Gatchel says phase III, which will be presented to the board on June 4, deals with the number of teachers to be rehired.

Orlando Man Gets SCIDA Job Offer

The Seminole County Commission has agreed to offer James Melvin Daniel of Orlando the job as director of the Seminole County Industrial Development Authority (SCIDA).

However, Commission Chairman Sid Vihlen Jr. and Daniel were in conference this morning on the offer and Vihlen said that Daniel has not made a decision "one way or the other."

Daniel was the top choice by the SCIDA Board of Directors from among four applicants. The decision to offer the commission

yesterday in a 3-2 vote with Commissioners Mike Hattaway and Harry Kwiatkowski opposing the choice.

Commission is offering Daniel a salary of \$18,000 to \$18,000 and was the choice of Hattaway and Kwiatkowski both of whom sit on the county's personnel board.

TALENTED TWIRLER

Cathy Capko, Lyman High School Band's featured twirler, brought home the second place twirling trophy, won during the recent Sherrinshah Apple Blossom Festival at Winchester, Va., where the entire Lyman Band performed. NATION IN BRIEF

Jury To Decide Today On Poisoning Death Penalty

HOUSTON, Tex. (AP) — A jury decides today whether a 30-year-old Houston optician will be put to death for poisoning his eight-year-old son with Halloween candy.

The 18-man, two-woman jury deliberated only 46 minutes Tuesday before finding Ronald C. O'Bryan guilty of giving his son, Timothy, a cyanide-laced candy during a suburban trick or treat outing.

The state is asking for the death penalty. It contended that O'Bryan killed the boy to collect \$30,000 in insurance, \$20,000 of which he had purchased just four weeks before Halloween.

The defense said the state never proved O'Bryan actually bought cyanide and poisoned the candy with it. Asst. Dist. Atty. Mike Hinton said in his closing argument Tuesday that O'Bryan had triggered "terror and suspense" in his son's childhood.

O'Bryan is known to many Houston school children as "the man who ruined Halloween." Some parents' organizations have already announced plans to forbid the traditional Halloween trick or treating this year.

CIA Space Data Sought

WASHINGTON (AP) — A Senate opponent of the upcoming American-Soviet space mission is asking the Central Intelligence Agency if secret data on Soviet space failures justifies cancelling the project.

Sen. William Proxmire, D-Wis., has called Carl Duckett, the CIA's deputy director for science and technology, to testify before a Senate panel later today about Soviet space technology.

An American Apollo and a Soviet Soyuz spacecraft are scheduled to be launched July 15, and the U.S. ship later will attempt to rendezvous and dock with the Soviet craft.

Proxmire has long been a critic of the project's \$225 million price tag and its overall risks. He said he is asking the CIA to provide data on its monitoring of the Soviet space program and to give details on the problem areas it has found.

Plane Was Fifth To Crash

DAWSONVILLE, Ga. (AP) — A World War II plane that crashed into a hillside was the fifth in 10 months to go down while smuggling drugs into the Southeast, authorities say.

The B-25 bomber crashed near this Dawson County community in north Georgia early Tuesday, just after apparently dropping off what authorities said was a ton of marijuana.

Two persons were killed, but their bodies were badly burned and they were not immediately identified, authorities said.

Utility Assures Longwood Council: No Rate Increase Pledge Is Given City

By DONNA ESTES Herald Staff Writer

LONGWOOD — A pledge was given by Phillip Tatish, attorney for privately-owned Longwood Utilities Inc., that no sewer rate increase would be imposed before the City Council granted a temporary certificate to permit continued operation

this week. Tatish said the certificate was very important to the firm and developers using the plant were encountering a hardship. City Attorney Ned Julian indicated loans for home construction from the Federal Housing Administration (FHA) were being withheld from builders who use the facility

until the city granted the temporary certificate of convenience. Council Chairman J. R. Grant set a workshop with the utility company principals for 10 a.m., June 21. He invited persons in the audience who are residents of the subdivisions abutting the E. E. Williamson Road and served by the utility to attend the meeting.

Julian said he would have a resolution ready for adoption next week, setting fees to be charged by the city to utility users that monthly sewer fees would be raised from \$4.50 to \$7.50.

The firm was apparently aware that the city had an ordinance on the books to control rates and operation of privately-owned utilities in the city.

In a response to a question from Councilman Don Schreiner, Julian said the city would add the sewer package plant to be built in an improperly zoned area of Longwood Hills Road. (The area is zoned residential).

Apopka Man Facing 15-Year Jail Term

By BOB LLOYD Herald Staff Writer

A 21-year-old Apopka mechanic faces a maximum 15 year prison sentence after pleading guilty to manslaughter in the Feb. 16 pistol slaying of another Apopka man at the western edge of Seminole County.

Paige Edward Evans entered a guilty plea to the lesser and included charge of manslaughter on the death of 26-year-old Johnny Jones. The plea came after negotiations with Assistant State Atty. Bill Hefferman, who was ready to go to trial on the second-degree murder charge originally lodged against Evans.

Evans said his wife hadn't returned home with their one-year-old child by midnight and he started driving toward Orlando on U.S. 441 looking for her in case she had car trouble.

Evans said he spotted his wife's car turned around and stopped it to find Jones with his wife.

"I thought he might be armed so I took my pistol from the glove compartment," Evans told the court, "and approached the car."

"I asked him to get out. He didn't say a word. I lost control of myself and shot him," Evans said.

"I went around the car to see if I'd killed him and opened the door and he fell out," Evans continued. He said he then took his child and drove away, but later returned and was looking for Jones at U.S. 441 at Via Palma Circle when a state trooper drove up.

Sheriff's detectives said Evans got into the trooper's car and laid the pistol on the seat. He was arrested a short time later.

Judge Cowart accepted the guilty plea and ordered Evans held in county jail pending completion of a pre-sentence investigation.

Testimony was to begin today before Judge Cowart in the robbery trial of Andrew J. Milan, 21, of Orlando. A jury was selected yesterday afternoon to sit in the trial in which Milan is accused of robbing John Pryor of Orlando on Feb. 12 on Markham Woods Road near Lake Mary Boulevard.

In other circuit court actions yesterday, Assistant State Atty. Charles Gordon dropped a charge against Earl Jacob Menster, 27, of Colonial Heights, Va. He had been accused of possession of controlled substance — cocaine in Sept. 1973.

Plan Back To Lake Mary Victim Vanishes As Trial Resumes

WILCO to serve a greater area than just Scott and the Interstate Commerce Center (ICC), the method of purchasing the private utility by either the city or the county and a reciprocal deal that if the city bought the utility Lake Mary would have regulatory control over the service area of Wilco in the county.

Newsender recommended to the commission that a slightly modified original agreement be sent back to Lake Mary to which would "immediately" provide service to the plan.

Newsender, who said he had been working with Lake Mary on the agreement for two months, said that Lake Mary officials had "substantially" changed the agreement and now is "not straight forward. This is what we were trying to avoid," he said.

Newsender said he never discussed with Lake Mary the additional boundaries to be included in the agreement which includes a large section around the ICC.

Newsender called the compromise "an open ended contract."

Carpenters Picket Sewer Plant

ALAMONTE SPRINGS — Carpenters who continued picketing the city's Keller Road sewer plant for the second day today reluctantly admitted they represented AF of L-CIO Local Carpenters 1278 of Orlando.

"We were just hired to do a public service — picket," one man told a city official.

"Construction is under way on the city's effort to expand the current 1.2 million gallon daily capacity sewer plant into a 7.5 million gallon daily regional facility by two construction contractors, both of whom operate open shops."

Lee Construction of Sanford and Tuttle-White of Altamonte Springs in a joint venture have gotten work under way in the first phase of the project.

Mayor Norman Floyd said the pickets were only a token group — just a few men — and he did not foresee any problem.

"Unions are not looking for any criticism at this time, especially after union officials and employees were convicted in the Casselberry Air-Flow design arson," Floyd said.

Floyd said one possible area of contention may be the difference in the federal wage rates for heavy construction and regular construction workers.

In another matter to do with unions, Floyd said the city has received a response from the Public Employees Relation Committee (PERC) on the move by the South Seminole Chapter of the Fraternal Order of Police (FOP) to unionize the city's police officers.

Floyd said PERC requested a complete roster of police department employees.

The City Commission refused to accept a claim recently by Robert Connelly, president of the FOP, that the majority of the department's members wished to be unionized.

Prior to Connelly's appointment as City Commissioner as an FOP representative, he had been relieved from duty on the city's police department during his probation period.

Firm Seeks 230 Acres Rezoning

Spartan Investment Co. Inc., a public hearing tonight will request the rezoning of 230 acres from single and multi-family residential districts to an agricultural district on land between Oviedo and Florida Technological University (FTU).

Seminole County Planning and Zoning Commission will consider the request in a 7:30 meeting in the County Commission chambers in the courthouse.

The land Spartan is seeking to have rezoned, specifically, lies to the east of roughly abutting on the south side of Lake Hayes Road, approximately 2 1/2 miles north of FTU and 3 miles south of downtown Oviedo.

Also on the agenda for public hearings, is a request by Cumberland Farms Dairy Store to rezone the southwest corner of SR 46 and Academy Drive in Forest City from a duplex zoning to a general retail commercial district.

FLORIDA IN BRIEF

Amateur's Joyride Solo Ends In Runway Crash
OCALA (AP) — "It's not a pilot. He just wanted to fly," a policeman said after arresting a New York man who allegedly tried to take a joyride in a small plane but wound up crashing into three aircraft 100 feet down the runway.

Gary Francis Wilson, 23, of Amityville, N.Y., was being held on \$2,500 bond on charges of auto theft, attempted theft of an airplane and destruction of more than \$50,000 worth of private property.

Officers gave this account of the incident: Wilson had been hitchhiking when he hopped in a car being serviced at a truck stop and drove it to the Jim Taylor Municipal Airport near this Central Florida city.

He quickly started a 230-horsepower Cessna 182 owned by airport manager Ralph Bradford and began to taxi down a runway. The plane ripped into two small parked planes before making an S-turn and ramming a third.

Ables Trial Jury Seated

DELAND (AP) — Testimony has begun in the first-degree murder trial of James Perry Ables, 29, in the kidnapping of disc jockey Fred West, 25, last October. The 12-member circuit jury for Ables, also 26, of Deland, was seated Tuesday.

Police found West's bullet-riddled body last Oct. 26, a day after he failed to report to work and after a ransom demand of \$10,000 was received by radio station WKXX. Ables was arrested that day.

FBI Agent Named To Post

TALLAHASSEE (AP) — St. Petersburg FBI agent Charles A. Nuzum has been appointed state beverage director by the Board of Business Regulation.

Nuzum, an agent for 21 years, was appointed Tuesday by Business Regulation Director A.L. Baker to succeed Winston Wynne, who resigned in August after a controversy filled three-year reign.

Longwood Balks At Paying For Engineering

By DONNA ESTES
Herald Staff Writer

LONGWOOD — The City Council this week considered searching for another consulting engineer, raising sewer connection fees at the Skylark sewer package plant and hiking monthly rates to customers of the plant. The two problems hit the city head on. First, City Attorney Ned Julian ruled the city had no choice but to pay Jerry Coons, a principal of the original Skylark subdivision, some \$1,560 in sewer connection fees collected by the city.

Under an agreement approved by a previous city council, Coons was to receive half of the \$225 sewer connection fees per house paid by builders in the development.

Secondly two other bills — one for a flow meter for the Skylark plant and the second from Consulting Engineer A. E. O'Neill and Associates for acquiring a permit to allow continued operation of the plant — raised Council Chairman J. J. Grant's ire.

Grant called the \$851 bill from O'Neill for acquiring the operating permit "outrageous," adding "we may have to find a cheaper engineer."

Councilman Gerard Connell requested an itemized statement from O'Neill, showing how his firm spent 23 hours acquiring the operating permit.

In addition, Grant was told to discuss the bill with the engineer to see if it can be reduced.

Julian said the city had to pay the \$800 cost for the flow meter which the former owners of the plant, the Skylark developers, had failed to have installed before turning it over to the city.

The attorney said while the city had to rebate to the developers, according to contract, half of the \$225, the city could raise this fee to meet expenses. Julian said despite the sum the city charged, it would only have to return to the developers half of the \$225.

Julian was authorized to prepare an ordinance setting sewer rates to customers and sewer hookup fees for both the Columbus Harbor and Skylark package sewer plant.

Councilmen told Julian a decision will be made after the ordinances are prepared on the fees to be charged.

In other action, the Council accepted the second unit of Skylark subdivision for maintenance upon the favorable report of the engineer that it meets all city regulations.

Sheriff Gets Word To Move Bicycles

By MICK LOCHRIDGE
Herald Staff Writer

The Seminole County Commission yesterday ordered the Sheriff's Department to move the more than 100 bicycles jammed in the "sally port" (jail drive) to a county road department building south of Sanford.

The OK to free the logjam of bikes in the driveway comes only a few weeks after Sheriff's department officials made a hard plea to commission for some relief from the lack of storage space in the sheriff's department.

Chief Corrections Officer George Proudfoot told commission the bicycles would be moved immediately even if he (Proudfoot) had to move them.

Proudfoot said the bicycles will be locked together in the building and Capt. L. E. Rice will hold the key. The plea at the jail occurs when deputies find misplaced or stolen bicycles. They are required by law to hold the bikes a certain period of time before they may be sold in a public sale.

Commissioner Dick Williams, in charge of finding storage space for the sheriff's department, told Proudfoot that no decision has been reached on what to do with the stacks of new tires in the deputies' shower area or the stacks of files and cartons in the stairwells.

Commissioner John Kimbrough asked Proudfoot if the tires were going to be moved to the "sally port" now that the bicycles were being moved.

"No," Proudfoot said.

Deputies, according to Proudfoot, need to use the escape proof "sally port" to bring prisoners into the jail. But, since the bicycles have been lined up in the driveway cruisers cannot be driven into the area and the cage gate dropped, thus preventing a possible escape of a prisoner.

Also, Chief Deputy Duane Harrell points out that when a prisoner is walked by the bikes on his way to the jail, he passes a number of items which could be used for weapons.

The "sally port" also is used for fire vehicles to reach the jail area in case of fire, but because of crowded conditions trucks must park outside and run hoses into the jail, over the bicycles and other equipment stored there, according to Harrell.

"I'd like to show you the best auto insurance plan available."

"Hello, I'm your local Safeco agent. I represent Safeco because it offers an auto insurance plan tailored to the individual. And one of the best things about Safeco protection is that it usually costs less."

"Safeco has long been known for fast, fair claims service. But not enough drivers are aware just how competitive Safeco prices are."

"I offer Safeco because Safeco really has something to offer! If you'd like to know all the details, drop by my office or simply give me a call."

Smile, you're with Safeco

Industries Said Providing Poor Pretreatment Altamonte Gets State Advice On Sewers

ALTAMONTE SPRINGS — The State Department of Pollution Control (DPC) offered only advice to city officials this week on problems created by industrial wastes at the city's west plant.

Alex Senkevich, DPC regional administrator, in a letter to city Public Works Director Don Bundy, said his office is aware of the upsets to the city's west plant developed by poor or non-existent pretreatment afforded by area industries.

Senkevich also noted possible discharges of printer's ink residues and poorly maintained grease traps from restaurants.

Senkevich said DPC attorneys advise compliance and operation of the sewer treatment plant is the responsibility of the municipality.

He recommended adoption of a comprehensive industrial ordinance, prior to July, 1976, to assure proper compliance operations of the existing west plant during the ensuing months until the advanced

waste treatment facility on Keller Road is completed.

In other business, the commissioners in the last meeting before a seven-week summer vacation time:

— Passed on first reading the ordinance permitting Sunday sales of alcoholic beverages in restaurants, bars, cocktail lounges and package stores from 11 a.m. to 7 p.m. A public hearing and final reading to make the ordinance effective was set for Aug. 5.

— Adopted a resolution setting the sale of bonds for the northside sanitary sewer district for 3:30 p.m., July 9 at city hall.

— Denied unanimously the request of John Orlando to close Pine Street near Highland Drive, Orlando, who insisted the street is located partially on his property, was told by Mayor Norman Floyd to submit proof of his contention and it would be considered.

— Instructed City Attorney Joe Davis to prepare an ordinance annexing and rezoning from professional office district to neighborhood commercial the Hutton property on SR 434 and Little Wekiva Road.

— Referred to the planning board a request for annexation and rezoning of property located on Montgomery Road adjacent to the Centennial Homes tract. The owner, Christopher Kallivokas, is asking for neighborhood commercial zoning to permit construction of a center with professional offices on the 2.5 acre site.

— Passed on first reading ordinances annexing the Goodman property north of SR 436, bordering Chateau LeMans apartments, with general commercial zoning.

— It is planned to build a liquor store at the site. Public hearing and final reading of the ordinance was scheduled for Aug. 5.

Citizens' District Plan Gains City Approval

ALTAMONTE SPRINGS — City Commissioners last night passed on first reading the districting proposal prepared by a commission of private citizens.

The districting group's report set the city's population at 18,494, split among the four districts with less than a 1 percent variation, committee chairman David Richards said.

Richards said the population was determined from information made available by the city's sanitation department. A 3.5 persons per household was the ratio used for

single family homes, he said, adding firefighters counted actual numbers of families in apartment complexes.

The committee also received helpful information from the Winter Park Telephone Co. and the U.S. Postal Office in Macarthur said.

The group recommended the city amend its charter to change wording in the section concerning districting from "mathematical preciseness reached in the legislative appointment of the state" to "as nearly equal as practicable."

The commission also submitted a list of five procedural guidelines which the districting commission in 1978 might find useful.

The recommendations were:

— To establish a cut-off date for submission of proposals for consideration.

— Not to adopt any plan at the same meeting at which it is introduced.

— A uniform procedure in the preparation of maps demonstrating proposed plans.

— To attempt to preserve a separate district for each incumbent, if possible, while adhering to the primary requirement of a compact, contiguous territory based on equal representation.

— Establish performance standards for members such as requiring a new appointment if a member has two or three unexcused absences.

The committee received criticism when its first districting proposal denied Commissioner Helen Keyser the right to seek re-election.

This year our poles are going to be 50% higher.

Everything is going up. Not only has the price of our 75 foot wooden poles gone up by 50%, from \$425 in 1973 to \$636 in 1975, but so has the price of virtually every other essential item we use. Copper wire, for example, has risen 60% in the past two years. From 69¢ a pound to \$1.11.

What it all really adds up to is that we have a big problem with spiraling inflation. We have the problem. And you have the problem.

One of our biggest areas of concern is the international fuel crisis. In just two years the price of fuel has tripled.

And, of course, that increased cost also affects your electric bill. Forty cents out of every dollar you pay goes directly to pay the fuel bill.

FPL is doing everything it can to keep the price of electricity low. In fact, even though rates have increased somewhat in the past two years, the cost to you of one kilowatt of electricity is actually less than it was twenty years ago.

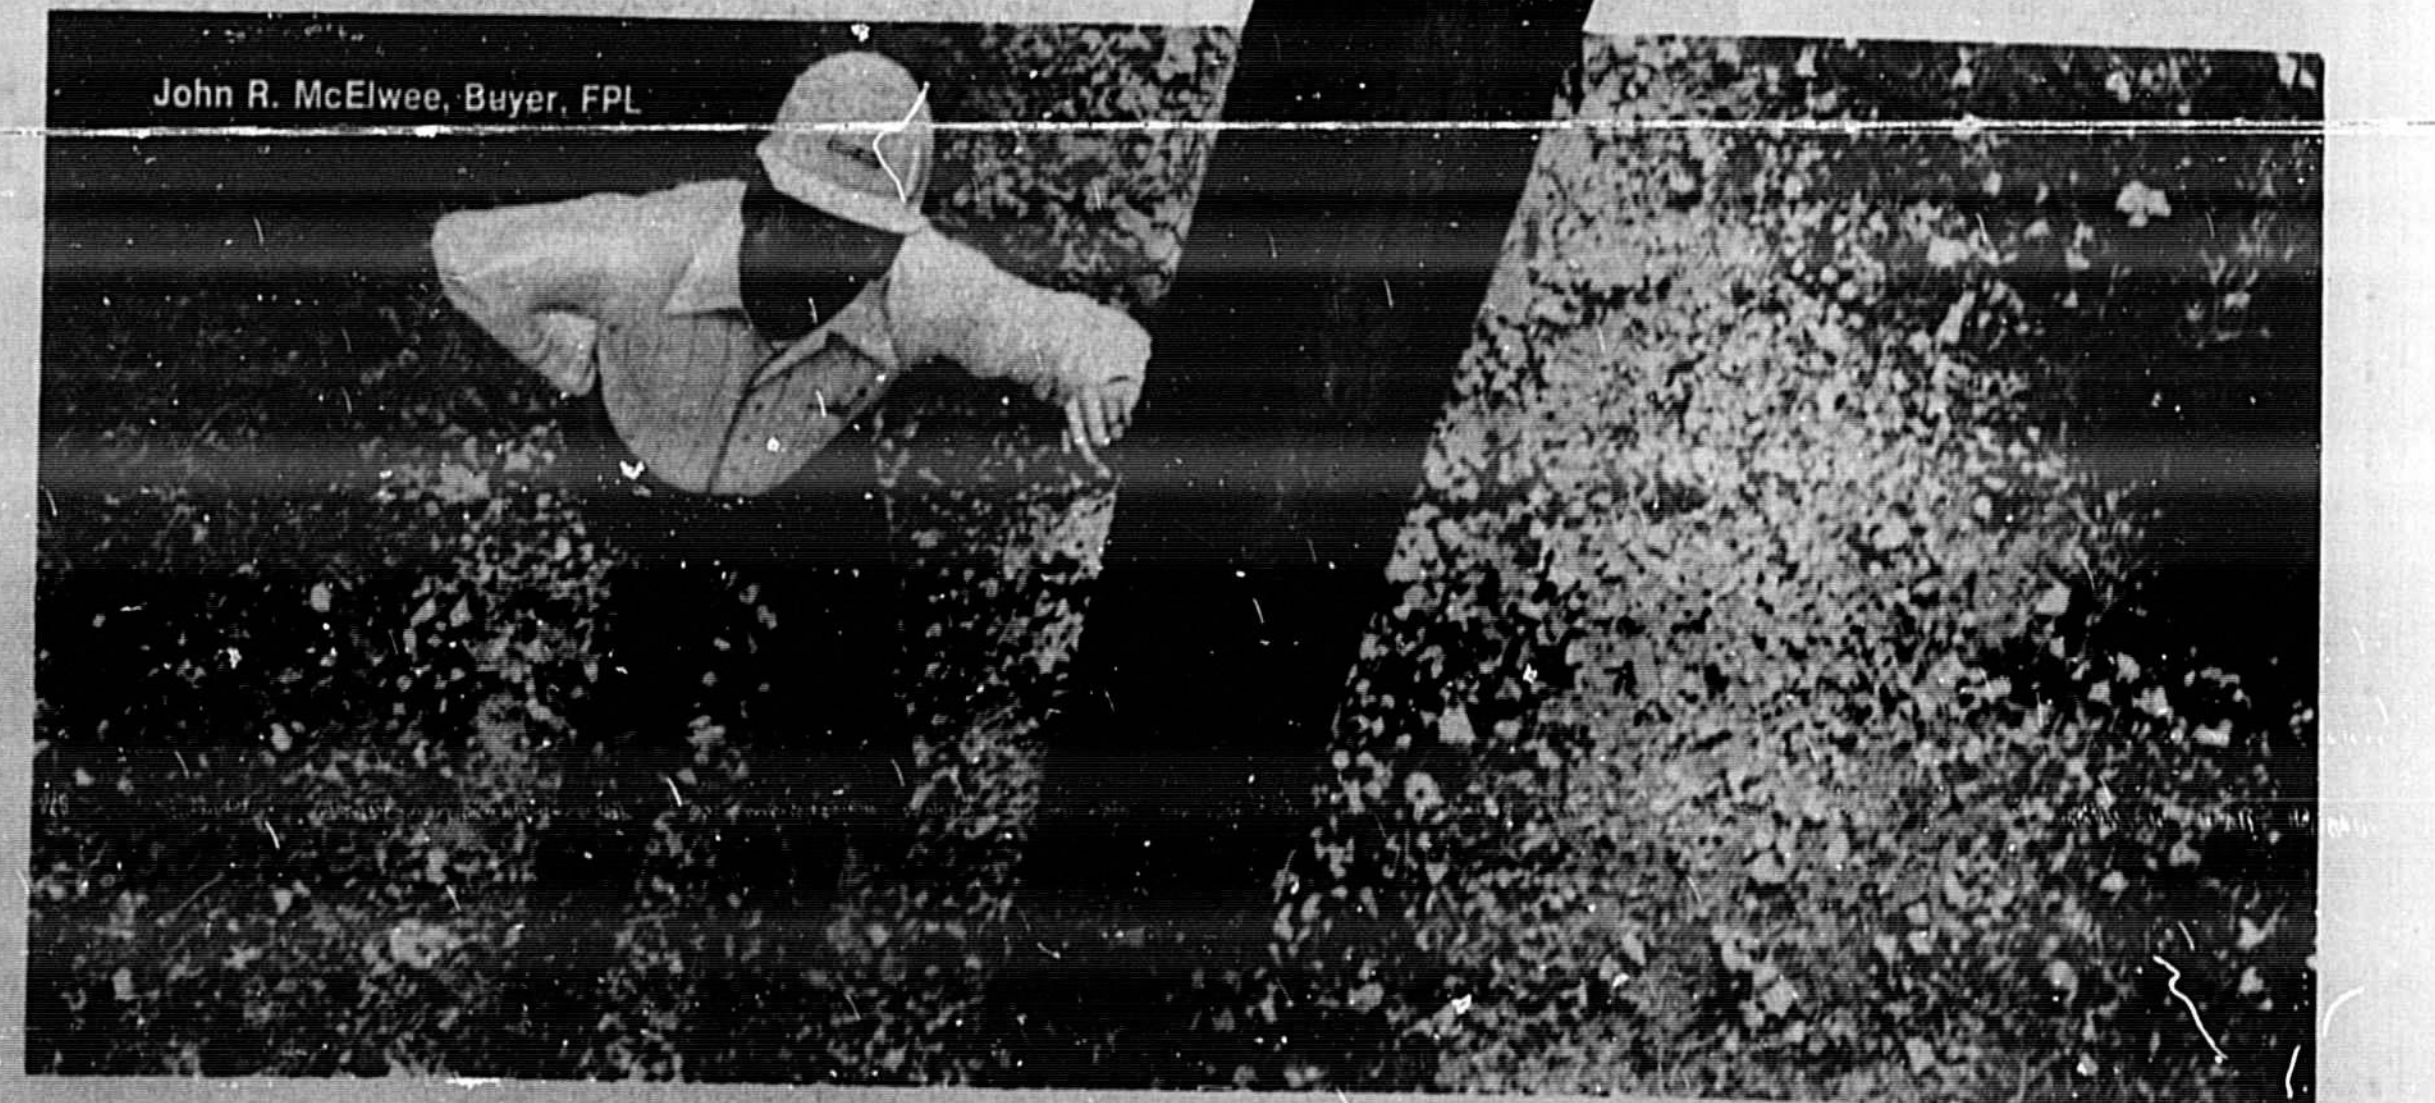

Then why do electric bills seem higher?

One of the biggest reasons bills appear to be higher, is that despite conservation efforts, most people are using more electricity. In fact, our residential customers are using on the average twice the amount of electricity they did 10 years ago.

You know, we sometimes forget how many things are dependent upon electricity in the home. The air conditioning, the refrigerator, the freezer, the iron, the electric stove, the vacuum cleaner, the TV, even the sprinkler system. To name just a few.

It really makes quite a list. And as modern technology advances, the list is sure to grow.

So use electricity wisely. To help keep your electrical bill down. No one likes to see things get any higher. Not you. Not us.

John R. McElwee, Buyer, FPL

Askew Appointee To Keep O'Malley Staff New Treasurer Ashler Shows He's Quick With Quips

TALAHASSEE (AP) — Phil Ashler says that when he became state treasurer and insurance commissioner, he had to sign a \$100,000-bond along with his certificate of office.

"I wanted to write them a check but they wanted the bond," joked the well-to-do retiree who is as adept with quip as he is in politics.

Ashler, 60, was appointed Tuesday by Gov. Reubin Askew to serve until the Senate completes the impeachment trial of Thomas O'Malley. The trial is scheduled to begin Sept. 15.

The dapper Ashler, trim, gray, deeply tanned and dressed in a tailored white suit, said he planned no personnel or policy changes "at this time" because of the possibility of O'Malley's return.

But he said he would not wait either and would make changes when obvious defects appear.

"I'm going to continue going with the No. 1 insurance department in the country," Ashler said.

Department employees cannot police for O'Malley "on my time" and if any are found doing it, "I will discuss it with them and see if they can't return to the path of righteousness," he said at a news conference.

Ashler and Askew are long-time friends and political allies. They served in the legislature together from Pensacola in the 1960s.

But Ashler said that did not mean he would always vote Askew's way on the Cabinet. "I will vote my own convictions," he said. "Anyone who searched the record when we

served together would find we differed on votes, although we considered they were doing their job."

Asked about a suit involving his house on the Wakulla River about two miles south of Tallahassee, Ashler said he would not hold it against Cabinet-agency officials. "I would just consider they were doing their job."

Besides, he said, a federal judge has dismissed the state as a party in the suit by the Corps of Engineers seeking to remove the house on grounds it is built over a navigable waterway.

If that issue came before the Cabinet, "I would excuse myself on that case but no other," Ashler said.

Ashler has two other houses — his suburban Tallahassee residence and a villa overlooking the Mediterranean in Tangier, Morocco.

Born on Oct. 15, 1914 in New York City, Ashler was educated at St. John's College and received a master's degree in business administration at Harvard.

He retired from the Navy in 1959, he was an instructor at Pensacola Junior College and moved to Tallahassee in 1968.

He took leave this year as vice chancellor of the state university system to join Askew's staff in March as legislative coordinator for the recommendations of the Governor's Management and Efficiency Study Commission.

Asked what Ashler would not be a candidate for permanent appointment as treasurer- insurance commissioner should O'Malley be convicted by the Senate.

Ashler agreed. "I do not want to ever engage again in activity before the electorate."

He will draw O'Malley's \$40,000-a-year salary in the interim.

Gurney Trial Testimony To Resume

TAMPA (AP) — Testimony is expected to resume today in the bribery conspiracy trial of former Sen. Edward Gurney following a one-day closed session with the public barred and the jury sent home.

Gurney's former law partner, Stewart Gilman of Winter Park, waived all day outside the closed courtroom while opposing attorneys met in secret with U.S. District Judge Ben Krentzman.

A court source said oral motions were argued but refused further comment. No written motions have been filed since mid-March in the 15-week-old trial.

Gurney, ex-aides James Gret and Joseph Bastien, and former federal housing officers K. Wayne Swiger and Ralph Koontz are charged with conspiracy to create an illegal \$22,000 slush fund from builder payoffs through peddling the ex-senators influence with the Federal Housing Authority.

Dear Abby

By ABIGAIL VAN BUREN

DEAR ABBY: I just read up. And although she won't live to see it, she will be the cause of it, because it will take place at her funeral.

Since everyone will be crying, anyway, the two who finally decide to make up won't be conspicuous — even though they'll be crying twice as hard as everyone else. And with good reason.

DEAR ABBY: My best girl friend is getting married soon, and I am her maid-of-honor. I am trying to talk her out of a crazy plan she has that sounds ridiculous to me, but maybe I am wrong.

DEAR ABBY: I just read up. And although she won't live to see it, she will be the cause of it, because it will take place at her funeral.

Students To 'Roast' Principal

What is "Everything you always wanted to say about your school's principal but were afraid you'd be expelled?" It's a Don Reynolds Roast.

Several members of the community, along with Seminole High School students will roast Don T. Reynolds, the school's principal and an active participant in community affairs at 7:30 p.m. Friday June 6.

Assisting with the roasting will be Andy Brackin, a past principal of SHS, Jim Howe, past president of SHS Booster Club; Sal Manfre, principal of Milwee Middle School and LaMarr Richardson, assistant principal at Seminole.

The roast is sponsored by the Thespians club. Chip Johnson will be Master of Ceremonies and "chief burner." Reed Fraasa, Bobby Robinson and Katie Wheelock will display their wits in frying Reynolds while Bryan Harden and Anthony Sutton will add a musical touch.

Tickets will be available at the door of the school's auditorium and the Flagship Bank. Proceeds benefit the sports stadium fund.

On June 25 at 7:30 p.m. also in the auditorium, Seminole Memorial Hospital Inservice Education will present Charlotte Anzalone, R.N. talking on "Implications of Nurse Practice Act," and "Malpractice Insurance: Who Needs It."

Gases: What You Have Always Wanted To Know," in the Seminole Memorial Hospital auditorium.

Five Vehicles Recovered

Stolen Auto Cache Found

By BOB LLOYD
Herald Staff Writer

Sheriff's deputies and Altamonte Springs police discovered a cache of stolen cars early today in an orange grove off Magnolia Ave. south of Bunnell Road, Forest City. Two of the five vehicles were recovered by officers before their owners reported them stolen.

Patrolling deputy Ron Gilbert said he discovered two Volkswagens in the grove. One had been wrecked and the other ransacked.

Checks by officers disclosed the autos had been stolen from their owners—Claire Guffanti, 253 Pearl Lake Causeway, and R. D. Harry, Trailwood Dr., Forest City.

Altamonte Springs police joined the investigation since one of the cars had been stolen from inside the city limits. Altamonte officers searched the area and discovered two more stolen cars—one taken in Casselberry and one in Orlando.

Investigators said no arrests have been made and the investigation is continuing.

Deputy B. L. Thompson discovered a fifth stolen vehicle abandoned in north Seminole in a field off Markham Road south of SR-46. It too was a Volkswagen and officers said it was stolen from Winter Park. Thompson reported the car was damaged, apparently when it struck a tree in the field.

Action Reports

★ Fires
★ Courts
★ Police Beat

Oviedo police arrested Patricia Ann Brooks, 18, of P.O. Box 813, Oviedo, early today at the Jesse Smith Apartments, according to jail records.

Sheriff's deputies jailed Earl Charles Wright, 18, of Apopka, on \$5,000 bond after his arrest last night on a circuit court warrant charging possession of a controlled substance.

Altamonte Police also are

searching for a ski-masked bandit who robbed Newell's Spur station on SR 438 late yesterday as the station manager, Robert Vaughn, was closing the business for the day.

Vaughn said one black man walked into the office, ordered him to open the cash register, then emptied the cash drawers, took Vaughn's wallet and fled on foot. The exact amount of cash taken was undetermined.

Winter Park Police rushed in their canine patrol. But the dogs lost the scent nearby the station. Police theorize the robber fled in a waiting car.

Sheriff's deputies today were investigating the theft of a canoe and camping equipment from a Wekiva River cabin owned by Charles Pafford, of Miami Springs Road.

Patrol reported a chain saw and \$700 in camping equipment was taken in a break-in at the cabin on Island Five on the river.

Deputies said the canoe and some of the camping equipment was recovered at fish camps on the Wekiva and St. Johns River but the chain saw and a suspect in the case haven't been found by officers.

Deputy W. Jackson Starr spotted another cache of stolen items—highway traffic control signs—in the Lake Jessup

Sanlando Seeks Hike In Rates

By MICK LOCHRIDGE
Herald Staff Writer

Sanlando Utilities, serving more than 2,000 customers in the Longwood area, has applied to the Seminole County Commission for water and sewer service rate increases.

A public hearing to consider the rate hikes has been set for July 1.

Bill Dale, director of the county's environmental services, informed the Commission yesterday of the utilities firm's request for rate increases.

The firm responded by filing two legal suits claiming the county had not granted them increases in the time permitted under county law, and asking new rates be granted. The county then filed a counter suit to block General Waterworks action.

The court has ruled in favor of the firm.

Yesterday, Utility Attorney Ned Woodfolk recommended to the Commission that a public hearing be set to determine if the unapproved rates being charged by the company are "reasonable" as the Commission has charged.

An 18-year-old Oviedo woman was being held on \$10,000 bond today in county jail on aggravated assault and aggravated battery charges.

City To Buy Insurance

By GLENN McCASLAND
Herald Staff Writer

Sanford City Commission, headed by Mayor Charles E. Kars, decided to purchase liability coverage for police officers acting in the line of duty where a false arrest suit might occur. This would cover the city as well as the individual policeman.

Purchase insurance to cover "errors and omissions," which takes in any wrongful action of a city official or other city employee from which legal action stems.

The Commission did not act on a suggestion to purchase \$1,000,000 in excess coverage on the general liability policy at a cost of \$6,500 or \$8,000 annually depending on the addition of streets and sidewalks coverage.

The Commission instructed Knowles to work a budget item up on the insurance, using \$6,500 as a figure, and have it ready to include in the October budget after next week's action.

Appearing with Kars were IAC committeemen Walter Carpenter, Bob Crumley, Alex McKibbin and Tony Russi.

The Commission will have another luncheon session tomorrow to hear proposals on a new city hall or the remodeling of the present building.

By CECILY BROWNSTONE
Associated Press Food Editor

DEAR CECILY: My family like your copy-cat recipes. Last year you gave one for mint caramels, a candy you said your nephew's young British wife had brought to you from England. When you found you couldn't buy it here, you had it duplicated. I make the mint caramels and my children enjoy them, but they asked me to find out whether you could give a recipe for mint-flavor pull taffy. — OBEIDIENT MOTHER

DEAR OBEIDIENT MOTHER: Happy to oblige. I'm glad you have more than one youngster because pull taffy is best pulled with more than two hands. — C.B.

MINT PULL TAFFY
2 cups sugar
1 1/2 cups dark corn syrup
1/2 cup water
2 tablespoons butter or margarine
2 teaspoons mint extract
In a large saucepan stir together the sugar, corn syrup, water and butter. Cook over medium heat, stirring constantly, until sugar is completely dissolved and mixture boils. Continue cooking, without stirring, until temperature reaches 255 degrees on a candy thermometer or until a small amount of mixture dropped into very cold water forms a ball that is plastic but hard enough to hold its shape. Remove from heat. Stir in mint extract. Pour into a buttered 9 by 9 by 2 inch cake pan. Let stand until cool enough to handle. Pull until taffy has a satiny finish and a light color, then pull into long, 1/2-inch wide strips. With a kitchen scissors cut strips crosswise into 1-inch pieces. Wrap each piece individually in wax paper and twirl the ends. Makes about 1 1/2 pounds.

Note: This taffy is a bit sticky to handle during the pulling, but after it has been pulled it has a perfect soft texture. One person can manage the pulling, but it's a lot easier if two people pull.

FAMILY SUPPER
Black Bean Soup
Hamburgers on Toasted Buns with Cabbage Relish
Fruit Salad Beverage
CABBAGE RELISH
Deliciously tangy
1/2 of a 1 1/2-pound head green cabbage, thinly shredded (3 cups not packed down)
2 teaspoons salt
Small onion, cut in thin strips
1/4 teaspoon mustard seed
1/4 teaspoon celery seed
1/2 cup distilled white vinegar
1/4 cup water
1/4 cup sugar
Small carrot, coarsely grated
1/4 medium green pepper, seeded
and sliced

Sprinkle cabbage with the salt; let stand 1 hour; press out all the liquid that forms; discard liquid. Mix cabbage, mustard seed and celery seed. Bring vinegar, water and sugar to a boil; pour over cabbage mixture; cool; add carrot and green pepper. Cover and chill overnight won't hurt. Drain before serving. Makes 2 cups after draining.

RANGETOP DINNER
Chili-fried Chicken
Refried Beans Yellow Rice
Salad Bowl
Fresh Fruit Beverage
CHILI-FRIED CHICKEN
Rohast but not overly spicy

1/4 cup flour
2 tablespoons chili powder
1/2 teaspoon cayenne pepper
1 egg
1/2 cup milk
1/2 cup fine dry bread crumbs
1 teaspoon salt
1/4 teaspoon white pepper
3 1/2-pound frying chicken, cut up
1 1/2 cups peanut oil

Stir together the flour, chili powder and cayenne. Beat together the egg and milk to combine. Stir together the bread crumbs, salt and pepper. Dip chicken, one piece at a time, into flour mixture, then egg mixture and finally into bread crumbs — coating evenly. In a 12-inch skillet, in the hot oil, brown chicken on all sides. Cover and cook gently, turning chicken as necessary, until tender — about 25 minutes. Remove cover during last 5 minutes of cooking to crisp skin. Makes 4 to 6 servings.

When we heard about this year's fantastically good avocado crop and that this delicious food would be an excellent buy, we immediately thought of one of the best avocado dishes we have ever eaten but which we have never duplicated.

Several years ago when "Feasts of France" by Antoine Gilly and Jack Denton Scott (Crowell) was published, we were at a luncheon given to celebrate the publication of the cookbook. On the menu was a dish that was the hit of the party — avocado halves (barely warm) with a hot tomato filling. The delightful M. Gilly, during his long career in the restaurant business, was the proprietor of two famous New York restaurants, and it was not surprising that when he planned the menu he decided to offer something new and delicious. Now we've adapted the avocado dish for your delectation. If you try it, we hope you enjoy it as much as our tasters did.

AVOCADOS A LA ANTOINE GILLY
1/4 cup olive oil
2 tablespoons chopped scallion
16-ounce can whole tomatoes, drained and chopped (1 1/4 cups)
4 tablespoons soft bread crumbs
1/4 cup freshly grated Parmesan cheese
3 avocados, each about 4 inches long
2 tablespoons (about) butter, melted
1/2 teaspoon salt
1/2 teaspoon white pepper
In a 1-quart saucepan heat the oil; add scallion and cook gently until limp; stir in tomatoes; simmer until blended and slightly reduced — about 5 minutes. Add 2 tablespoons of the bread crumbs and stir well. Keep hot over very low heat. In a cup or small bowl stir together the remaining 2 tablespoons bread crumbs and the cheese; set aside.

Cut the avocados in half lengthwise; remove seeds; do not remove the skin. Brush the cut sides (edges and cavities) with the butter; then sprinkle with the salt and pepper. Fill the cavities with the hot tomato mixture. Sprinkle the crumb and cheese mixture evenly over the tomato mixture.

Broil filled avocado halves about 4 inches from heat source just long enough to brown the topping — about 2 minutes. Serve at once on salad plates with spoons.

Makes 6 first-course dinner servings. If offering as a main luncheon dish, use 4 larger avocados with the filling given above.

Note: When local red ripe tomatoes are in season, you may want to substitute them for the canned tomatoes called for. In this case use two (each about 2 1/2 inches) fresh tomatoes; remove their skins, cut them in half and squeeze each half gently to get rid of the seeds, then dice — there should be about 1 cup.

Italian rice cake is made with ricotta cheese and flavored with lemon rind.

Good Rice Cake Comes From Italy

By CECILY BROWNSTONE
Associated Press Food Editor

DEAR CECILY: I've heard about an Italian Rice Cake but I've never seen a recipe for it. Can you track one down? — CURIOUS COOK.

DEAR CURIOUS COOK: Here's the dessert you want — or rather one version of it. Mrs. Anna Cirelli, who lives in Philadelphia, was happy to pass along her family recipe. I tracked it down through Mrs. Cirelli's daughter, a New Yorker, who told me that her mother usually makes twice the amount because she is a very generous person who loves to share food with her relatives and friends. The Cirelli Rice Cake is very sweet, but most of the tasters who sampled it liked it that way. — C.B.

Beer, Champagne For Fish Dinner

By CECILY BROWNSTONE
Associated Press Food Editor

A friend of mine had lots of fun working out a fish fry that is both beer and champagne style. In other words, for the sake of economy we used frozen skinless gray sole fillets and coupled them with elegant fresh scallops. The combination thoroughly satisfied our tasters.

SCALLOP-FISH FRY
1 pound sea or bay scallops, thawed if frozen
1 pound fish fillets, thawed if frozen
2 tablespoons flour
1 egg
1/2 cup milk
1/2 cup fine white bread crumbs, preferably fresh-baked and from bread with crusts removed
5 cups (about) peanut oil
Salt
If using sea scallops, quarter

or halve as necessary so they will be of uniform size. Spread scallops on paper toweling and pick over to remove any particles of shell. Cut fillets, following the fish markings, in pieces as close as possible to 1 1/2 by 1 inch. Dry both scallops and fillets on paper toweling. Put the scallops in a clear plastic bag, the fillets in another; add 1 tablespoon flour to each bag; shake well to coat evenly and evenly. Beat egg slightly; add milk and beat to combine. Turn the scallops into a bowl; pour half the egg mixture over the scallops; the other half over the fillets; with a spoon lift and turn the scallops to cover completely with the egg mixture. Do the same with the fillets. Put 1/2 cup dry clear plastic bag and add the scallops; put the remaining bread crumbs in another clean

Team thrifty fish fillets with elegant scallops and fry them in peanut oil in an electric frypan.

At last... a safe all-purpose household cleaner that the whole family can use

GREEN MAGIC DOES AWAY WITH RUBBER GLOVES AND ANNOYING HARSH FUMES

Tired of cleaners that promise miracles, but instead give you eye-watering, nose-irritating fumes and hand-wrecking ingredients? Then, you're ready for Green Magic! Green Magic's laboratory-tested formula cleans everything from baked-on oven grime to garden tools... safely! (Gently! Effectively!) Green Magic's safe enough for even the kids to use. And Green Magic's gentle cleaning action eliminates the need for rubber gloves.

As it cleans, Green Magic lays down an invisible silicone shield that makes the job even easier the next time.

Green Magic on all those household cleaning jobs — indoors and out.
