

### Warning Issued Against Lavish Loans To Europe

#### House Member Wants Control Exercised, Payment Required

WASHINGTON, Sept. 29 (AP)—Rep. Whitten (D-Miss.), asserting that "congress is through dabbling out American dollars on simple request," said today future aid to Europe should follow the pattern of the Import-Export Bank loans to foreign countries.

This type loan, he told a reporter, provides "absolute assurance of repayment and supervision by the United States of the use of such loans."

Whitten, member of the House Appropriations Committee, said that under this plan "the United States sells foreign countries what they need on credit but only after we approve the use to be made of the material and only after a plan for repayment is submitted and approved."

He said he and other members of Congress had opposed the British loan and others of that type "largely on the ground that there is insufficient control" over them.

These loans, he said, were not used to rehabilitate the countries. "In many instances" but "were used either to appease certain segments of the population or else to carry on experiments in a socialist form of government as in Britain."

Under the Import-Export loan plan, he said, the country making repayment together with a budget it needs, submit a plan of application must "specify what and statement of tax structure showing wherein provision would be made for repayment."

"Under such loans, dollars are not loaned but credits are set up within the United States and the borrowing country permitted then to draw against such credits," he said.

Meanwhile several London newspapers warned today that authors of the Paris report on the Marshall Plan may have erred on the side of optimism in estimating the amount of American financial assistance required for European economic recovery.

All agreed the report was "an impressive document" but, forecasting the possibility of further price increases in the United States, questioned the wisdom of estimating needs in dollars rather than in goods and machinery.

The financial times said the report contained "serious assumptions" pointing out that it estimated "import and export levels during 1948, and thereafter export prices will be maintained whereas import prices will fall rapidly."

The Financial Times said there "is no reason to suppose" that the relative price movement will favor Europe—a factor which will determine the adequacy of any U. S. assistance that may be forthcoming.

The Times also found "ample room for error and the possibility of miscalculation" and added: "Any plan for assistance, to be terms of quantities rather than as a fixed amount of money."

### Sanford Is Commended For Accident Prevention Work

Attention by Don Egan, National Safety Council consultant, for their alertness to the need of reducing traffic accidents. Among the group who met with him at the City Hall were H. N. Sawyer, city manager, Gordon Bradley, County Judge R. W. Ware, City Judge J. G. Sharon, J. Brasley Odham, Jack Ratigan and R. W. Ruprecht.

Mr. Hill presented an NSC analysis of the Sanford report given by Police Chief Roy G. Williams which showed that during 1946 there were two vehicle accidents resulting in 21 human injuries, 15 property accidents and 145 property damage accidents.

Sanford was reported to be tied for 150th place in the accident records section among cities of this group. It was tied for 81 place in total amount of credit given for traffic engineering, a rise in rank from 144th place the previous year. The City was commended for placing of responsibility of traffic engineering in the City Engineer's office. Sanford was tied for 124th place in total amount of credit given for Traffic Law Enforcement.

The conviction record showed 445 cases for hazardous moving violations, or 93 percent of arrests for these violations resulting in convictions. This represented the top 30 percent figure on this item. There were 48 convictions for speeding a vehicle while under the influence of alcohol. The City ranks among the top 30 percent of cities for traffic law enforcement by having 16 officers and five full time traffic officers.

No public education for safety credit was given because this part of the report was not filled out. It was also pointed out that no local safety council exists. Mr. Hill stated that no city can have a complete safety program without public education.

The report recommended that Sanford to rank among the top 30 percent of cities it should have created or removed or reconditioned approximately 47 traffic signs; two traffic signals should be modernized. Four miles of center and lane markings should be maintained and 23 crosswalks regularly marked. The City reported 14 signs, no traffic signal, one center line, one mile of markings and 10 crosswalks.

Elks Meeting (Continued from Page One) They sponsor an Anna Miller Circle among members wives in order to promote this work. He was introduced by Exalted Ruler J. E. Rowland.

An outstanding program of entertainment was presented during the evening, and dancing was en vogue. Featured on the program was the music of Harry Kudd, performed were Dick Alken, Sanford senior soprano, with Roger Harris, accompanying. Miss Alma Lou McAlexander of Deland and Miss J. E. McAlexander of this city; Miss Ida Mae Cook, whistling soloist who formerly performed on Broadway and during the war on U. S. O. service entertainments, and little Maria Menendez who gave a tap dance, and encore.

Miss McAlexander, a Deland high school girl, who has a voice of exceptional clarity and power, was accompanied by Miss Lillian Welt of Deland. Among her numbers were "Sweet Mystery of Life," "Thine Alone," and "While You Remember" from Maytime.

Dick Alken received plenty of applause for his rendition of "Gloria Mia" which he sang on the Arthur Galfrey program. He also sang "Shortnin' Bread," "Santitas" and "Big Red Top." Miss Cook ignited a traffic cup whistles, various birds, and whistled solo with Mrs. Dorothy Thomas of Deland accompanying and was heartily applauded. Little Miss Menendez got a big hand for her tap dance.

Florida Storm (Continued from Page One) reported efforts were being made to refloat her. The sea-going tug ATA 210, out of Charleston, S. C., for Glen Cove Springs, Fla., reported she was unable to make much headway and was standing firm. A open water until the storm subsided.

Meanwhile, the turbulent Atlantic was making a mess of some of northern Florida's playgrounds. High tides, whipped by a strong northeast gale, destroyed two houses near Jacksonville and damaged several others.

The great combers cut through sections of seawalls in this area, washed away beach cabanas and damaged waterfront approaches and eroded lands behind protective barriers.

In the beach area near Jacksonville, damage was estimated at \$300,000 or more. Fifty Coast Guardsmen and residents worked to shore up cottages believed undermined by the breakers.

At Fernandina several houses were damaged and power lines were down. Daytona reported its beaches littered with debris and winds up to 48 miles per hour. A Red Cross life-saving station at New Smyrna Beach, south of Daytona, was washed into driftwood. So was an ocean front house and part of another. The ocean front building at New Smyrna also was reported in danger of collapse.

Two dwellings at New Smyrna Beach toppled into the sea, their foundations undermined by roaring high tides driven by northeast winds, and at least six others were in danger of being engulfed. Thomas D. Mattison, owner of

### Some Objections Seen To McGrath As Chairman

#### Committeemen Voice Willingness To Go Along With Truman

WASHINGTON, Sept. 29—(AP) A sampling of Democratic National Committeemen lined up behind Senator J. Howard McGrath of Rhode Island today in the face of some expressed dissatisfaction with his apparent designation as the party's next chairman.

A campaign on behalf of U. S. District Judge James J. McGrath of Philadelphia for the chairmanship developed over the weekend, following Robert E. Hannegan's announcement he will step down because of ill health.

But it ran head-on into a big obstacle: the tradition that a president, as titular leader of his party, has the right to choose his own chairman and that the committee ratifies his choice.

The pledge to campaign for McGrath when the committee meets here Oct. 29 to select a new chairman came from John Cahill, Democratic state chairman for Massachusetts.

Cahill said he has no personal opposition to McGrath, whom he described as "an able, active and militant Democrat," but he declared "The party will need in its new national chairman a 24-hour-a-day man, one who will be able to travel from state to state, a full time man."

McGrath, who said he will "proceed on the theory that my task will be to reflect President Truman," announced he will retain his seat in the Senate and serve as party chairman without pay.

A cross section of the National Committee, which could be reached for comment generally indicated approval of McGrath, who "has done his job," Mr. Truman, "has been his approval."

Sam Morris, Arizona committeeman, expressed the majority view succinctly. "I will go along with the President and vote for Senator McGrath," he said, "because I believe he is the man the President desires as chairman."

Francis M. Bintlinn, Idaho committeeman, said in Peabody that he knows nothing of the issues but "I imagine that the National Committee would go along with President Truman's selection."

Only a small fraction of the committee could be reached, but the count was far from decisive. But it failed to turn up the "great many" members which Cahill predicted would support McGrath.

Several committeemen praised the Philadelphia bid but said they would go along with the President's wish.

The Coronado Beach Hotel adjacent to one of the houses which rolled into the sea today, said that his hotel also is in danger but that he believed it would "ride out the storm."

Less serious damage was done on the Daytona Beach Oceanfront, where reports by city officials and property owners indicated the total damage would amount to about \$300,000.

Men of this town arose from destruction of masonry seawalls built to protect property from tidal action, concrete approach ramps to the wide beach, and beach playground equipment.

The number of automobiles in the United States increased from about 3,000 in 1900 to about 34,000,000 in 1945.

A mighty atom of the barbell world, Joe is pictured performing in the International Weight Lifting Championships at Philadelphia. He stands four feet, eight inches and tips the scales at 124½. The U. S. team won in three classes. (International)

### Passion For News Seen As Salvation Of America's Independent Newspapers

HOT SPRINGS, Ark.—"What ought we to do about the criticism of newspapers?" Nat. R. Howard, editor of Cleveland (O.) News and president of American Society of Newspaper Editors, asked the question at the 46th anniversary convention of the Southern Newspaper Publishers Association here.

The answer, he said, is the relentless pursuit of truth and publication of truth, whatever the truth is found to be.

"Not even the most wishful antagonists can hurt us so long as that is our consistent activity," Howard declared.

"It is we who have to do and order the search of truth and fact today and always. That is not only our ordained professional right, but a duty which we can bring no one else to do. As long as in our own hearts we want the facts to spread forth for the people to know, we will organize and inspire the kind of search which no agent could achieve.

"In a desperate world, and in a time of confusion, the facts of American life in our efforts to find and make public. And man's fortunes never more dependent on the rapid disclosure of the facts, and the pointing of the truth which they form.

"This is no lackadaisical, meandering world any longer, if indeed it ever was. This is a dangerous world, in which time, good will and courage are of the essence. If our calling was ever thought of as merely pleasant, profitable, and cultural, it can be no more. The newspaper has become a weapon, an agency of statecraft, a highly important bulwark against the new barbarians and the older peril of human hopelessness.

Understanding Within Craft "What the laborers of the newspaper do not appreciate is the understanding which is within our craft, that newspapers which do not search relentlessly for the truth to publish will eventually be left behind. The newspaper enterprise can manage a patchwork of syndicated features, opinionated editorials, and a listless gathering of handouts, and thrust this dull combination down the throats of a defenseless populace. Nothing is further from the facts. For the free American people will have news and so to great lengths to get it.

"We of the newspaper business long since learned what it means to search for the truth. It means to be critically disatisfied with what we find of it, and to feel that every journalistic discovery of fact is only an additional challenge to dig for the facts beneath that. It means not being satisfied with a handout statement full of wind and nothingness, whether the handout is from the biggest corporation in the world, or from the football coach, or from Molotov in Moscow.

"It means training reporters in courage to demand specific answers instead of generalities, and editorial writers in the hard mental feat of stripping the verbiage from the meaning. It means irritation with a news service when it is slow or overcautious or less than responsive to a news issue. It means investment of dollars and manpower in apparently hopeless or trivial exploration of obscure suspicion.

"It means getting all sides of the story, and it can mean the defense of courts and other formal institutions against the whims of the mob. Not the least it can mean to get to press on time to reach the ultimate consumers with the facts.

"No careless or complacent newspaper man can search for the truth, whether he be the publisher or the cur reporter. Editors in charge must be admitted.

"I admire most those newspapers in whose operations you detect an electric current of constant news pursuit. Those papers whose editors have not forgotten how to be reporters in an emergency; whose business managers regularly contribute tips on news so the paper can be first with the story; whose advertising staffs are conscious of the news breaks and ready to brag when their paper is out first with a smashing exclusive piece of news; whose reporters constantly are embroiled in fights over the facts; whose composing room foremen are caught up with excitement over their part of the job by beating the competition; whose publisher raises hell when the paper is scooped and with justice cause he has worked hard to build a paper that should not be scooped.

"I marvel that the critical survivors of our operations never discern how little time is wasted and how few tears are shed over whether the news is 'favorable' or 'unfavorable,' for they could, if they would, select the amazing fact that neither the reporter nor the publisher, in our fast-moving operation, has time to siff and suppress any facts he may dislike to comfort. Whichever it is, he knows only one paramount obligation, to slip the facts into print fast for the people to know.

"Let them like it or dislike it—the people will settle the ultimate issues anyway. We committed our nation and our descendants to the theory that the people of a free society will know how to defend and to prosper themselves. And so the people have been setting the issues for 150 years, and on what basis? On the basis of the truth exposed in print, largely by the newspapers. They are still doing so.

"That is where the critics and the demagogues have missed the boat. If their tears were well founded, the people would have gone wrong long since, and our free republic corrupted by error, would be no more.

"As long as our loins are filled with that occupational disease of ours, that ache to search and disclose and publish, neither the republic, nor the people, nor the newspapers have anything to worry about."

### Better Racial Relations Are Stressed At Ball Park Meet

A Good Will Program of the Municipal Ball Park under the direction of the Rev. W. R. Fairley, colored evangelist, in spite of rain the meeting was fairly well attended.

The meeting was featured by spirituals sung by the Silver Tone Gospel Singers from North Carolina and Virginia.

City Attorney Fred R. Wilson addressed the meeting briefly and warned the group against the subversive elements in this country that would destroy loyalty to the government. He pointed out that work and production was a solution of many of the problems of the day.

The Rev. Fairley in his talk stressed the point that white and colored people in the South could and would solve their own problems without outside interference. He pointed out that in many cases the negro himself in his own greatest handicap due to his not wanting to shoulder responsibility. He stressed the need of the right training of youth to make them useful citizens.

The good will program was highly commended by J. A. Foster, negro boy scoutmaster of Sanford.

The program was sponsored by the Good Will Youth Council which was set up under the direction of the Rev. J. J. Oles, pastor of St. James AME Church. The Council committee includes: Samuel Wright, Hortense Henderson, Lillie B. Fields and Roosevelt Harris.

Soloists on the musical program were Millard Strickland who sang "Danny Boy" and Christine Chapman who sang "Lord I Have Tried." The Gospel Singers sang: "Precious Lord," "In That Jerusalem," and "My Record Will Be There."

### Arabs Will Fight

(Continued from Page One) Fox, indicated in 1944 at the Todd Pacific Shipyards.

The Destroyer Douglas H. Fox, which hit a mine today off Trieste, was the latest type, Washington officials said.

She left Norfolk July 21 to join United States warships in the Mediterranean under the command of Vice Admiral Berhard H. Hori. The Fox was on her way from Venice, Italy, to Trieste when the explosion occurred.

A Summer class destroyer, she was built in 1944, displaces 2,200 tons and has a wartime complement of 315 men. She is one of the most heavily armed of American destroyers, her main battery consisting of six five-inch guns, plus 10 torpedo tubes.

Friday to the United Nations. In affirming the Jews' readiness to work out for themselves the problem of assuming statehood, Ben-Gurion asserted they would make every effort to achieve cooperation with the Arabs, but he added firmly:

"It is now clearer than ever that there can be no settlement nor can Palestine become really independent unless a Jewish state is established."

Ben-Gurion's statement came as the United Nations special committee on Palestine, meeting in New York, prepared to hear Arab arguments against his proposals for partitioning the Holy Land. Jamal Husseini, 65-year-old nephew of the exiled Grand Mufti of Jerusalem, was listed as the first speaker.

At the same time an Arab spokesman in Baghdad called upon the states to take "decisive action to save Palestine." The spokesman, Senator Sadi Albasam, a member of the Iraqi delegation to the Arab League meeting which opens in Baghdad Saturday, declared that "abrogation of oil and economic concessions, and boycott of British-American trade, are our best weapons which we can and must use at this stage."

### Palestine Explosion

(Continued from Page One) the time of the blast suffered minor cuts and bruises. Police said the bomb was a bar-barricaded.

It was dumped from a truck which backed up to the wire barricade surrounding the police station and dropped an improvised ramp over the barrier. Rolling down the ramp and crashing into the building, the barrel exploded moments later with a roar which shook the whole harbor area.

The truck, which pulled away just before the blast, later was found abandoned in a nearby square.

Irgun Zvai Leumi, Jewish underground organization, immediately issued a communique declaring that its agents had carried out the attack in retaliation for transportation to Hamburg of the Exodus 1947 Jews and the deportation to Cyprus of refugees who reached Palestine Saturday aboard the Agia.

Treaty labeled the bombing "operation Hamburg"—a contraction of the words Hamburg and Agia.

The attack was the first major outbreak of violence in Palestine in three months. The casualty toll was exceeded only by the bombing of the King David Hotel in Jerusalem on July 22, 1946 and the Goldsmith Officers Club last March 1—both operations for which Irgun Zvai Leumi assumed responsibility.

Ninety-one persons were killed in the King David bombing and 16 at the Goldsmith Club.

Today's bombing, which coincided with the opening of the Arab case on Palestine before a special United Nations committee in New York, came as Haila Jews began celebration of the eight-day feast of the Tabernacles (Sukoth), commemorating the ancient Jews' from Egypt and recalling their eating of manna from heaven.

This morning's explosion ripped a gaping six by 12 foot hole in the wall of the police headquarters, in which some 60 British policemen were sleeping or on duty, exposing snarled cables and a litter.

Parts of bodies were blown 50 yards across the wide avenue into buildings opposite the headquarters. Buildings across the street were damaged and windows were broken within a radius of a quarter mile by the force of the explosion which was heard atop historic Mt. Carmel.

### Special Session

(Continued from Page One) composing the cabinet food committee.

One congressional Republican said he believed "there was a meeting of minds so far as procedure (calling together the four committees) to be followed is concerned." He said this means that Congress probably could not be called into session before December 1 if the President should finally rule that necessary.

This informant said the President reported that about \$100,000,000 of aid will be needed. He said the figures given were \$600,000,000 to \$700,000,000 to see France and Italy through the winter and up to \$600,000,000 additional to feed populations in British and American occupied areas of Germany and Austria.

Another Republican said figures discussed for interim relief in Europe, particularly for France and Italy ranged up to half a billion dollars.

He expressed the opinion that interim relief could not be given without Congress specifically appropriating money or directly authorizing the Export-Import Bank to advance the money.

"There is no way interim relief can be given without legislation," he said.

## Argentina, Canada Named To Council

### 2 Moslem States Of Yemen And Pakis- tan Admitted To U. N. Membership

NEW YORK, Sept. 30 (AP)—Argentina and Canada were elected by the United Nations Assembly today to sit on the Security Council for two-year terms, but the contest for a third seat was indicative on the first ballot.

A last minute switch eliminated Czechoslovakia from the running and left the Soviet Ukraine and India competing in a second ballot run-off.

Earlier in the day, Czechoslovakia was reported to have had the support of both the United States and Russia, as well as the 20 Latin American republics. However, Soviet Delegate Andrei A. Gromyko was reported to have announced a shift of the Latin Americans to the Ukraine.

Jan Masaryk, Czechoslovak foreign minister, had waged a persistent behind-the-scenes campaign to keep his country off the council, where it would have been in the middle of the East-West conflict.

In this spot previously Poland had been the consistent voting partner of Russia. The tenets of Poland and two others on the council expire Dec. 31.

On the first ballot, Canada received 41 votes and Argentina 41—three more than the required two-thirds vote. No other country received the necessary majority, but India and the Ukraine qualified for the run-off by polling the highest votes.

At the same time, Yemen and Pakistan were accepted as members of the United Nations to replace Afghanistan alone voted against admission of Pakistan at this time. This increased the membership to 51.

The new members both are Moslem and Asiatic countries, both are sworn enemies of Zionism in Palestine, and Pakistan is involved in bloody communal strife with Hindu India.

Observers were expecting a Pakistan appeal to the UN Council.

(Continued on Page 2)

### Strike Is Started On Atlantic Airline

LONDON, Sept. 30, (AP)—American Overseas Airlines has grounded five flights in Europe pending settlement of a pilots' strike that began in the United States this morning, a company spokesman announced today.

NEW YORK, Sept. 30 (AP)—The crew of an American Overseas Airline plane which was to have left New York at 4:30 A. M. today for Washington, D. C., before starting a trans-Atlantic flight, failed to report for duty, a company spokesman announced.

A few minutes before, in Chicago, David L. Behnecke, president of the AFL Air Line Pilots Association, announced a mass walkout of the company's trans-Atlantic crewmen had begun at 4 A. M.

The first planes affected here was to have flown empty to Washington, picked up passengers there for a return flight at 7:50 A. M. and then to have left La Guardia Field at 10:30 A. M. for Frankfurt, Germany. The company said 17 passengers were scheduled to make the trip.

Three other flights from New York to European points were scheduled today, the company said. Three planes were scheduled to return today.

Company officials did not comment immediately on Behnecke's statement that the strike was called because of the airline's "strong-arm or else negotiating tactics that bluntly attempted to circumvent the Railway Labor Act."

### LEWIS DENOUNCED

SAN FRANCISCO, Sept. 30, (AP)—John L. Lewis' refusal to comply with the anti-Communist clause of the Taft-Hartley Act touched off a fight against his stand today in the preliminary of the American Federation of Labor convention. Committees from two of the largest segments of the AFL met to draft a resolution after President John P. Frey of the metal trades department denounced Lewis' position and recommended action.

## Seven Youths Are Arrested In Crackdown On Auto Thefts

Two Deland youths, who as members of a gang of seven youths have been charged with the theft of two automobiles here, two in Orange county and one in Lake county, were yesterday turned over to Sheriff P. A. Mejo following arrest Sunday in Deland by Deputy Jess Kincher of Volusia county and one now in the County Jail awaiting trial in Circuit Court.

Sheriff Mejo stated this morning that the two youths, Thomas Murray, 21 and Wesley Gilbert, 18, had been brought by their parents to the Volusia county jail.

Thomas Doney, employee of the Seminole Tire Shop whose 1936 Ford automobile was stolen on the night of Sept. 13 from in front of his home at 709 West Ninth Street today told Sheriff Mejo that he had recovered the motor and certain other parts of the car, but not the frame and body which had been dumped into a deep lake in Volusia county.

A 1941 Packard sedan, the property of Mrs. T. Bradford Byrd, was stolen from in front of the home of her son-in-law H. B. Odham, Jr., 2019 Hibiscus Court, on Aug. 17. A negro, while hunting wood five miles from Casselago, on Aug. 28, discovered the car in the woods, stripped of tires, wheels, generator and other parts. He detached the license tag from it, took it to Winter Park and turned it over to authorities, according to Mr. Odham, a Deland State Highway Patrolman, went to where the automobile was hidden. It was taken by the Ratliff wrecker to the Packard shop in Orlando.

The finding of this Packard, was the first clue to authorities of the ring allegedly responsible for the thefts, said Sheriff Mejo. Other members of the gang have been turned over to Orange county for trial and include Fred Zornes, John Dowling, George Sebastian, Raleigh Hickox and another Dowling boy, all of Deland according to Sheriff Mejo.

George Sebastian was arrested yesterday in Deland and turned over to Sheriff Black of Orange county. Murray and Gilbert were turned over to Seminole County following a hearing held in Deland.

A term tenant of a rental unit for an inter-faith meeting of Sanford was found near the parts of Mr. Doney's Ford with enough of the license number visible as marked on the paper to identify the car, said Sheriff Mejo.

He also revealed that a Deland junk dealer, who is charged with buying parts of stolen automobiles, had been arrested and released on \$3,000 bond.

### Another Blast Rocks Palestine; No Casualties

JERUSALEM, Sept. 30 (AP)—The explosion of a bomb outside an Arab shop near the Jaffa gate touched off an eight-minute general alarm today in Jerusalem, still jittery from the bombing of a Haifa police station in which 10 persons died yesterday.

No casualties were reported from today's bombing, which police believed was intended to intimidate Arab shop owners who have broken out.

### Progress Reported On Airport Transfer

Chamber of Commerce Manager Edward Higgins, who with City Commissioner Lea R. Leaser, left last Wednesday for a conference in Washington, D. C., to confer with Civil Aeronautics authorities in regard to securing by the City of facilities of the Municipal Airport, announced here today that the interview with CAA officials had been very favorable, and that action on the matter is expected soon.

### FUNERAL BITES

Funeral services for Mrs. Alice D. Long, 88, who died early yesterday morning in a local hospital, will be held Thursday afternoon at 3:00 o'clock at the Erickson Funeral Home with the Rev. Douglas Charles officiating.

### INJURED

TRIESTE, Sept. 30 (AP)—Hospital authorities said today that four American sailors badly hurt yesterday when the U. S. Destroyer Douglas H. Fox hit a mine 18 miles off the port were expected to recover.

### WOW MEETING

Woodmen of the World will entertain new members at their meeting tonight at 8:30 o'clock at their headquarters at 116 South Park Avenue. R. H. Gibson, assistant state WOW manager, will be a guest, according to H. J. Finch, district manager.

## Non Partisan Foreign Policy Is Continued

### Senator Vandenberg Says Quick Aid To Europe Needed For Elemental Survival

WASHINGTON, Sept. 30 (AP)—Senator Vandenberg (R-Mich.) said today that in the matter of emergency aid for Europe "the immediate question is one of elemental human survival in a free society."

Vandenberg, the recognized Senate Republican spokesman on foreign policy matters, made that statement in announcing he has called the Senate Foreign Relations Committee to meet Nov. 10 in accordance with a request from President Truman. Vandenberg is chairman of the group.

Explaining why he had not called his committee to meet until Nov. 10, Vandenberg said the State Department "will not be ready with concrete proposals until Nov. 1."

He added that "other essential reports, including findings of congressional committees visiting Europe and also the report of the Hartman Commission, will not be available until that time."

Secretary of Commerce Harry Truman is directing a study into the question of how much aid the United States can give Europe without injury to its own economy.

With Vandenberg's call for the Senate Foreign Relations Committee to meet, three of the four committees Mr. Truman asked to study European aid have now been summoned to convene in early November. The others are Senate Appropriations and House Foreign Affairs.

The fourth committee is House Appropriations, U. S. Rep. Taylor (Continued on Page 2)

### Sutton Charges Public Power Is Wasting Millions

WASHINGTON, Sept. 30 (AP)—L. V. Sutton, president of the Carolina power and light company, says that the Tennessee Valley Authority and "the Nebraska Public Power" have cost the country \$84,423,000 in "tax-revenue lost."

The Raleigh, N. C., man made the statement in a letter to the House Public Works committee which was made public today. It is part of testimony Sutton presented the committee earlier this year, published today.

In the letter Sutton said the utility business in 20 years had increased its kilowatt-hours sales 240 percent and its revenues from them 127 percent.

He added that if electric revenues increase only 50 percent in the next 20 years and tax rates remain as they are "loss in tax revenues occasioned by the TVA system and the Nebraska Public" (Continued on Page 2)

### Henry Wallace For Special Session

BOSTON, Sept. 30, (AP)—Former Vice President Henry A. Wallace today came out flatly for a special session of Congress to deal with present emergencies facing the nation.

He also suggested as a step toward better relations between the United States and Russia a meeting in Berlin between President Truman and Premier Stalin so that they might reach "a better understanding."

Commenting on economic developments in England, Wallace said at a news conference: "England is lightening up under Cripps and it would appear that country was about to do a real job under a totalitarian proletariat." He described Sir Stafford Cripps, new minister for economic affairs, as "a very good economist."

## Methodist Meeting Studies Plans For Feeding World

SPRINGFIELD, Mass., Sept. 30 (AP)—The world-wide Methodist conference today heard a proposal for an inter-faith meeting to consider "how the hungry of the whole world might be fed."

The suggestion was made by Dr. Channing Tobias of New York, executive secretary, Commission on Inter-Faith Relations, Federal Council of the Churches of Christ in America.

He recommended that the party include Jews, Protestants, Roman Catholics, Mohammedans, Hindus and Buddhists, who would work "not in the spirit of charity, but of sharing, and not according to selective processes by which friends would be favored and enemies denied."

Delegates to the conference from the Colored Methodist Episcopal (Continued on Page 2)

### North Is Chilled By Canadian Winds

By ASSOCIATED PRESS  
A mass of cool air from northwestern Canada chilled a wide section of the country today.

The cool air extended from the eastern Dakotas and eastern Nebraska southward to the Ohio River and eastward to Ontario and was moving toward the Atlantic coast and into New England.

Temperatures dropped below freezing in the early morning in many sections of Wisconsin, northern Minnesota, lower Michigan and parts of northern Illinois, northern Indiana and northeastern Iowa. Lowest reading reported by the federal Weather Bureau was 24 at Duluth, Minn., but the mercury was freezing at Fort Wayne, Ind., and near that mark in Toledo and Findlay, Ohio.

Showers were reported in a narrow belt through central Pennsylvania and in the New England States. Warm weather continued in the Gulf states and temperatures were normal along the Pacific coast and in the mountain states.

### COMPLAINT DISMISSED

WASHINGTON, Sept. 30, (AP)—The National Labor Relations Board dismissed today a complaint of the Foreman's Association of America in its first decision since the Taft-Hartley Act went into effect Aug. 22. The F.A.A., an independent, had charged in the complaint that Westinghouse Electric Corp. of East Pittsburgh, Pa., had refused to bargain with the union.

### PRIESTS ON TRIAL

TRIESTE, Sept. 30, (AP)—Advocate General Plinio in Yugoslavia reported today that Monsignor Jakob Umkar and Father Stefan Cek had gone on trial there before a people's court charged with actions leading to a riot in which another priest was killed Aug. 25 at Ljubljana.

### HUNDREDS KILLED

TEHRAN, Iran, Sept. 30, (AP)—Four hundred persons were killed in a series of earthquakes recently which destroyed the village of Dowlatabad, in eastern Khorasan province, officials announced today. The survivors have left the village, the announcement said.

## Yankees Capture Opener In World Series By 5-3 Score

### Officials Warn Of More Slaps From Russians

### Attack On Truman By Red Press Seen As Forerunner Of More

WASHINGTON, Sept. 30 (AP)—An increasingly violent anti-American campaign by Russian press and radio was predicted today by U. S. officials examining Moscow's propaganda line. They said the attack on President Truman by a Russian magazine which compared him with Hitler indicates a decision to pull out all the stops.

One official expressed belief the Russians have given up any hope of winning favor from the American public and will concentrate now on trying to discredit the United States in the Soviet Union and abroad.

The "war-mongering" accusation against nine Americans by Andrei Vishinsky, deputy Russian foreign minister, in a United Nations Assembly address Sept. 18 was viewed as part of the campaign.

The latest Soviet-American disagreement came to light yesterday when the State Department announced that the American embassy in Moscow has emphatically protested criticisms of Mr. Truman of the Russian publication "Literary Gazette," No. 29.

Boris Golobov, author of the article, called Mr. Truman "a mediocre boy, a bank clerk and a plagiarist." He also charged that he had compared him to the "rot" (Continued on Page 2)

### William S. Earle, Civil Engineer, Dies In Sanford

William S. Earle, who had lived in Sanford for 25 years, died Monday night at 8:00 o'clock in the local hospital.

Mr. Earle was a civil engineer and brought his family to Florida as a Veteran. He was born in Springfield, Mass., in 1870. For many years he worked for the city of Worcester, Mass., first in charge of a survey for municipal water works, and later as superintendent of sidewalk construction and block paving of streets.

During the first World War he went to Muscle Shoals, Ala., superintendent of carbide division, one of 11 divisions in producing fixation of nitrogen from the air. After the plant was closed, he brought his family to Florida where he was division engineer for the State Road Department in charge of all road work from Gainesville to Pensacola.

During the second World War he worked on construction of runways. (Continued on Page 2)

### Americans Held By Russians In Berlin

BERLIN, Sept. 30, (AP)—Russian soldiers led by a major arrested a lieutenant Colonel of the U. S. Army and a civilian employee of the Military Government in the Russian sector of Berlin today and held them for three hours before releasing them without any explanation or apology.

Leut. Col. John P. McNeill of Oakland, Calif., chief of the German court section of the U. S. Military Government for Berlin, and the chief prosecutor for the Berlin Military Government court, Fred A. Tappan, Jr., of Atlanta, Ga., were the Americans involved.

With the proper authority from the Allied Kommandatura of Berlin, they were gathering material requested by the prosecution staff at Nurnberg in the German central statistical office in downtown Berlin.

The office is in the Russian sector and administered by a German staff under a Russian officer.

## Police Chief Is Taken For Ride By Safe Robber

### Criminal Makes Good Get-away But Is Later Apprehended

ALLENTOWN, Pa., Sept. 30, (AP)—Police Chief Wayne Elliott of Allentown was kidnapped early today by a man he was seeking to arrest on a robbery charge. Forced to drive at gunpoint for two hours and finally managed to escape by leaping from the car in nearby Bethlehem.

Elliott said the man threatened a number of times during their ride to shoot him with one of three revolvers he was carrying and "laughed about taking a cop for a ride."

The 45-year-old police chief identified his captor as Edward Julius Worsack, 23, who was apprehended in Allentown several hours later.

Elliott said he went to the house in Allentown where Worsack has been living to seize him in connection with several safe robberies in the Allentown area.

A crowd of police was thrown around the house as Elliott approached the front door. Before he could knock, however, Worsack appeared with a revolver.

Forcing Elliott to walk in front of him and muttering threats that he would shoot if other police moved, Worsack forced Elliott to climb behind the wheel of his black, radio-equipped police sedan.

"He kidded part of the time" (Continued on Page 2)

### Trade With Russia Reported Dropping

WASHINGTON, Sept. 30, (AP)—Russia's share of total United States trade has dropped back to pre-war level after being swelled by wartime Lend Lease and post-war UNRRA aid, the Census Bureau reported today.

The agency's figures show that Russia got 1.2 percent of the value of all U. S. exports during the first half of this year and provided 1.1 percent of all goods imported into the U. S. That is about the same percentage of American trade that Russia handled before the war.

The total value of U. S. Exports to Russia and imports from Russia during the first half of this year declined from the same period last year. Exports dropped 90 percent and imports 43 percent.

### NEW AUTO LAW

TALLAHASSEE, Sept. 30, (AP)—Florida's new automobile accident financial responsibility law becomes effective tomorrow.

The law, adopted by the 1947 Legislature, provides that any driver found to be at fault in an accident causing personal injury or damage over \$50, will lose his driver's license unless he can prove his responsibility to pay the damage from any future accident.

### RANKIN TO RUN

WASHINGTON, Sept. 30, (AP)—Rep. Rankin (D-Miss.) said today he will return to Mississippi within the next day or two and resume active campaigning in the race for the United States Senate seat left vacant through the death of Senator Bilbo.

### OIL SHORTAGE

ATHENS, Sept. 30, (AP)—Greek reconstruction under the U. S. aid grant was reported temporarily stalled today because of a world oil shortage. Dwight Griswold, head of the American Aid Mission administering the U. S. funds, told a news conference the oil supply for Greece would be greatly curtailed for October and November.

### Poland Re-Assured By American Note

WASHINGTON, Sept. 30, (AP)—The United States assured Poland today that measures to revive industry in the combined American-British zones of Germany will not create a threat to Europe's security.

A note delivered by the State Department to the Polish ambassador also renewed the long-standing United States proposal for a 40-year treaty to guarantee Europe against a revival of German militarism. Soviet Russia thus far has been cold to the offer.

Poland contended that the new Anglo-American German industry plan is "in complete contradiction with the Potsdam agreement" that the Big Four powers together should make such decisions.

Poland also said the move will create "a threat to the security of Europe," give German reconstruction priority over that of her neighbors, and revive reparations plans at the expense of Poland.

### Oil Shortage

ATHENS, Sept. 30, (AP)—Greek reconstruction under the U. S. aid grant was reported temporarily stalled today because of a world oil shortage. Dwight Griswold, head of the American Aid Mission administering the U. S. funds, told a news conference the oil supply for Greece would be greatly curtailed for October and November.

## Yanks Score 5 Runs In Fifth Inning; Crowd Of 73,365 See Opening Game

### By JACK HAND

YANKEE STADIUM, New York, Sept. 30 (AP)—The old Yankee big inning formula worked again today as the New Yorkers shattered 21-year-old Ralph Branca's no-hit with five runs in the fifth frame for a 5-3 triumph over Brooklyn before a record 73,365 turnout in the opening game of the World Series.

Twelve Yanks had been retired in succession by fast-balling Branca, the Dodgers' 21-game winner, until they cut loose with big hits that completely unnerved the righthander.

Branca was followed in turn by Hank Behrman and Hugh Casey. Frank Shea, who started for the Yanks was lifted for a pinch hitter and succeeded by Joe Page as the big series opened according to the script with a battle of the bullpen Page vs Casey.

### First Inning Dodgers

Stanley Hied to Landolt; Robinson walked; Reese hit to Shea and Robinson was thrown out trying to make third. Walker, singled, scoring Reese; Homanski struck out.

The run, one hit, no errors, one left.

### First Inning Yankees

Brunans hit to Stankey and was thrown out at first; Henrich struck out; Horra fired to Reese; No runs, no hits, no errors, none left.

### Second Inning Dodgers

Edwards hit to D'Margio; Jorgensen struck out; Reese grounded out to McQuinn.

Not a run, no hits, no errors, none left.

### Second Inning Yankees

Dillman grounded out; Reese to Robinson; McQuinn bounced to moving to second; Branca hit (Continued on Page 2)

## Plan Is Drafted To Save Food For Western Europe

WASHINGTON, Sept. 30, (AP)—Chairman Charles Lusk today said today the Citizens Food Committee will draft a meeting tomorrow a "very definite and specific" plan for saving food at home in order to help feed Western Europe.

Lusk told reporters after a long White House conference with Mr. Truman and the Cabinet Food Committee that there is "complete unanimity of thinking between the President's food advisers" and the 26-member citizens group.

He added that he planned to confer with the President's food advisers in the day because, in his opinion, "no program will be embarked upon unless all representatives of all the people are in agreement." He did not name (Continued on Page 2)

### Shake Up Is Begun In British Cabinet

LONDON, Sept. 30, (AP)—Vogelstein, Sir Stafford Cripps, took over today as Minister of Economic Affairs. Informed sources said it was but the first installment of sweeping changes in the Labor cabinet.

There was general agreement among Britons that Cripps' appointment as Minister of Economic Affairs to lead this dollar-short country's fight for economic recovery at home and abroad was a step in the right direction.

The choice of 31-year-old James Harold Wilson, the so-called "boy wonder" of the Labor government, as president of the Board of Trade to succeed Cripps was termed indicative of the government's decision to introduce new blood into the Labor regime.

The resignation of Arthur Greenwood, a veteran Labor politician who had been a minister without portfolio, was considered to be a further demonstration of Prime Minister Atlee's determination to bring in younger men to fight the economic battles of Britain.

### OIL SHORTAGE

ATHENS, Sept. 30, (AP)—Greek reconstruction under the U. S. aid grant was reported temporarily stalled today because of a world oil shortage. Dwight Griswold, head of the American Aid Mission administering the U. S. funds, told a news conference the oil supply for Greece would be greatly curtailed for October and November.
