Endorsement Of
University For
Peace Is Planned

GAINESVILLE, Fla., Feb. 26 (Spec
ial). Foreseeing that the Uni-
versity of Florida will be required
to handle many more students in
the future than it has in the
past, Dr. Julius J. Tigert, pres-
ident, has made specific recom-
mendations for enlarged peace-
time operation of the institution.
These programs were run con-
currently with the civilian pro-

civilian students.

In cooperation with the war
effort he pointed to the three
active war training programs, in-
cluding an Officers' Candidate
School which trained 1,300 offi-
cers; an Army Air Force training
detachment training approximately
3,000 students, and an Army
Specialized Training program
training approximately 1,500 men.

"The University plant is inadequate
to handle 3,000 students," Dr. Tigert
pointed out. "The Board of Control
urges the state legislature to
reappropriate at the earliest feasible
moment the amounts provided
for three new buildings

for the 1941 session. Dr. Tigert
explained that there are "two
ways in which a state can enrich
itself—it must either exploit the
wealth created by others, or create
the wealth itself." Dr. Tigert
pointed out that much vital
research has been carried
out by members of the University
staff both in the Engineering
College's Industrial and Experi-
mental Experiment Station. Much
of the research has been carried
out in the interest of developing
the state's natural and industrial
resources.

"Agricultural research has been

applied vigorously in the fields of

food production and nutrition.

"Sweden who settled on Del-
aware Bay in 1638 built the first
log cabins in the United States.

The average human body is
covered with about 20 square
feet of skin.

Edicts were issued in many
countries from the end of the
15th century onward sentencing
the 'gypsies' or 'Gitan' or
'Egyptians' to exile under pain
of death.

Jacksonville is the name ap-
plied to the mountain-locked floor
of the upper Snake River valley
east and southeast of the Tetons
Range, a few miles south from
Yellowstone National Park.

There are estimated to be some
2,600,000 farmers who sell dairy
products in the United States.

Tokyo Center Is Wrecked By Bomber Raid

Japs Are Reminded Of Losing Battles In Philippines And Two; Marines Inch Ahead

(By Associated Press) A devastated square mile in downtown Tokyo, wrecked by Superfortresses, today reminded the Japanese of their losing battles on Iwo and the Philippines. Photographs showed 240 square blocks of the industrial and business area in ruins.

A big Japanese banzai attack was repulsed in the foothills east of Manila where the Americans appeared to be running into a major battle. The Marines were barely able to inch forward on Iwo. Two divisions are making small gains; another was held in its full extent.

(By Associated Press) MANILA, Wednesday, Feb. 28.—Twenty-fourth Division troops have completed the destruction of the Japanese garrison on Bataan, the island south of Manila. Gen. Douglas MacArthur reported today. The island, between Luzon and Mindoro, is astride the shortest supply route from the United States to Manila.

Fourteenth Corps troops clearing the Japanese from the Manila watershed east of the liberated capital captured Mt. Mataas and the peak of Mt. San Miguel. They also secured the south and west slopes of nearby Mt. Paracauan.

South of there, the First Cavalry Division pressed its attack on Antipolo, just north of Laguna de Bay. In the face of heavy mortar, artillery, and machine gun fire, this opposition reflected reports of gathering enemy power in the sector.

Mounting up of Japanese remnants continued in the hills flanking the central Ibarra plain and on blasted Corregidor fortress at the mouth of Manila Bay.

Borneo was pounded with 100 tons of bombs concentrated on airfields and port facilities. Many hits on the target areas were reported, and smoke covered the area.

Fornors took a 60-ton bombing. Fires were started in barracks areas. Three coastal ships were damaged in the nearby Perakor Islands. Two American planes were lost.

Heavy damage resulted from a destructive bombing of Cagayan coast. Fighters escorting the attacking Liberators shot down two enemy interceptors and wiped out three on the ground.

The Melbourne radio reported, meanwhile that Australian troops now hold a 150-mile area south of the Genga River on the west coast of Bougainville in the Solomons, and "complete occupation of Bougainville's west coast is in sight."

Known Japanese casualties on Bougainville since the Americans left were reported at 1,200.

40 Selectees Leave For Camp Blanding

Wives and children of selectees were much in evidence at Selective Service headquarters yesterday morning as 40 selectees, most of whom married men, and the sons of 26 and 38, left by bus for pre-induction physical examination at Camp Blanding. In addition there was one volunteer, a former soldier, who led the group.

George A. Speer Jr., county prosecuting attorney, was among the group of selectees leaving.

For the first time, all Selectees registrants were scheduled to be inducted into the armed forces at Camp Blanding: John Daniel Gore, Charles Henry Powell, Clifford Hatje Wallace, transferred to Whaler Haven; James Franklin Benson, volunteer; William Thomas Woolley, Lawton Hall Thomas, Frank E. Black, Jack Edson Stapp, Enoch Boyd Smith, Morris Wyman Hartnett, to No. 1, Palatka; Hills Ross Fetter; Frank H. Robinson, and John Davidson Carlton, transferred from Tallahassee.

Already in the armed forces the following who volunteered for immediate induction on Jan. 14: Lether Marshal David, Edward Higgins Hurt, John Stedt Lee and James Walter Bush.

CITY BRIEFS

City Commissioners will meet tonight in regular session at 7:30.

A Boy Scout Court of Honor will be held at the Parish House of the Episcopal Church at 8:00 o'clock on the evening of Monday, Mar. 1.

Navy Gunner Killed At His Post

A gunner aboard a Navy LCI makes his all-out contribution to the capture of Iwo Jima. He was killed at his station during the amphibious invasion operations on Iwo Jima. This photo is based on a motion picture of the Iwo invasion. U.S. Navy photo. (International Soundphoto)

Nazi Resistance Crumbles To Near Rout As 9th Army Breaks Through

Police Ordered To Launch Campaign Against Loafers

Commission Told Of Farm Crop Losses Due To Vagrancy

With losses of hundreds of thousands of dollars, local vegetable and fruit growers due to lack of enough labor to harvest fast-maturing crops, the City Commission after listening to an appeal by local growers, Monday evening gave orders to Chief of Police Roy G. Williams that the City ordinance governing vagrancy and idleness be enforced to its fullest extent.

The group of growers and shippers appeared before the commission and urged that they take action in getting local labor to work at least five days a week. It was stated that from 40 to 50 percent of the workers fail to report for work on Mondays and Fridays, according to Mayor Edward Higgins.

County Agent C. R. Dawson headed the group which included W. A. Leffler and M. L. Culver, of Chase and Company, the latter also representing the Seminole County Farm Bureau as its president, J. E. Watson and H. D. Head of American Fruit Growers, Inc. R. A. Cobb of J. C. Hutchinson Company, Perry Whitehouse, Inc., the Sanford, and South Truck Grocer, Inc., and South Truck M. B. Smith, D. J. Thrasher, John Dingfelder, Frank Barthelme, manager of the WEA Labor Camp, Victor Green and others growers.

The group pointed out, said Mayor Higgins, "that several hundred acres of celery and other vegetables also are rapidly ruined." It was decided to have the city police to soldiers and workers for the drive who met Tuesday evening at 8:30 o'clock at the Woman's Club.

More than \$150,000 has already been raised previous to the drive, Mr. Higgins told the group. He was introduced by Mrs. Fred Dyson, chairman of the Seminole County Chapter of the Red Cross.

Mrs. E. D. Brownlee in a personal talk to the group, stated that many people deserve the opportunity to do something for the war effort, and the community, and that the opportunity should be given who has a job, she said, "but it should be without a break, even if it is temporarily."

Mrs. Dyson suggested a plan of the drive and explained to soldiers use of all material, solicitation cards and publicity pamphlets, and the area office for participation.

Dwight D. Smith, SK 2/c, of the Navy, returned to Sanford last night, reached Washington by special train. On his return he called a press conference at the Hotel Florida, the Straits of Gibraltar at a time when German submarines were lurking nearby, and the trip was uneventful except for the death of Major Gen. Edwin Watson, a native of Eufaula, Ala., and the President's secretary and military aide.

Gen. Watson was 61. A cerebral hemorrhage caused the death of the presidential secretary and military aide.

Gen. Watson had been selected as a committee to secure names of service men and women so that their friends may know where they are in Sanford.

He came ashore at an east coast port last night, reached Washington by special train.

BIBLE VERSE FOR TODAY

BUT WHERE THERE IS LOVE
AND RETAIN OUR SINS, WE
MUST ABHOR THEM AND
RENOUNCE THEM; If we confess our sins he is faithful and
merciful to forgive us our sins,
and to cleanse us from all un-
righteousness.—1 John 1:9.

The Prodigal
(From The American Mercury)
In self-aggrandizement man
walks the earth,
Nor owns that earth is mother of
all men.
Yet as each prodigal returns at
last,
She folds him gently to her heart.

INEZ CLARK THORSON
If women would spend more
time taking care of their health,
they could run the beauty par-
lors out of business.

The government is planning a
subsidized food program to guar-
antee low income groups an ade-
quate diet after the war is over.
That's better than plowing it
under.

An interesting letter comes
from Lieut. Volle Wiles, a
flier now in the Philippines. He
has one of the choicer jobs of
that area and is getting acquainted
with a lot of fine people.

Orlando grows space. Once
smaller than Sanford the City
Beautiful has grown from 9,000
people in 1920 to 55,000 in 1944.
It tripled its population in the
decade of the twenties, continued
to grow during the depression of
the thirties. It is now planning
for a population of 75,000 before
another ten years elapses. And
the wonderful thing about Or-
lando is its plans come true.

South Carolina's Jimmy Byrnes
suggests — in this connection
his suggestion has all the force
of a P-51 — that night clubs and
other places of amusement close
at mid-night with patrons under-
taking to obtain adequate enter-
tainment before that hour. This
is one New Deal decree, it seems
to us, that has nothing to do with
it. We never could understand why
people had to wait until mid-
night to celebrate.

Mrs. Roosevelt, commonly known as Eleanor, in opposition to
large families for those "who
cannot afford them." The law of
common sense, she says, should
be applied. Mrs. Roosevelt, who
has had six children herself, does
not know that the greatest asset
any man can have, who does not
have money, is his children. Each
one of them is worth a million
dollars to him and if he has ten
he is worth ten million dollars.
Most men who would not be
worth their salt if they did not
have hungry mouths to fill, will
work and somehow find a way
to feed their children no matter
how many they have.

There is grave danger, officials
say, that much of Sanford's fine
cotton, not to mention some of its
other crops, will go to waste
in the fields because of inadequate
labor with which to harvest it.
This would be most unfortunate,
not for the farmers who grow
the stuff, but for the people of
the city, the big country and
the produce market world wide.
Let it be noted that
Meanwhile hundreds of
people who formerly worked at
jobs of this kind are now resting
on the rewards from wartime
prosperity, the big wages a hus-
band gets in a shipyard, the
monthly check from a son in the
service, or the easy pickings from
others who have more money
than they know what to do with.

Down in Miami a Citizens
Education Committee comes out
with a proposal that we pay our
school teachers a minimum of
\$2,000 a year. Taxpayers will
say, "We can't do that. Think
how much it will cost," they will
say. But they don't think any-
thing at all about paying \$2,000
a year to the members of the
State Racing Commission, who
has virtually nothing to do, or
from \$12,000 to \$5,000 a year to
hundreds of other state officials
who also do little or nothing
even if they are supposed to.
The federal government throws
money away on thousands of
salary officers in the sum of
billions of dollars a year and
nobody thinks anything about that.
The budget of our state is
the responsibility of preventing
our children from growing up to
be morons, that magnificent \$1,
000 a year?

Useless Bureaucrats

At least 200,000 men and women should be dismissed immediately from federal jobs, and an additional 500,000 should be removed as soon as the war in Europe ends, declared Senator Harry F. Byrd (Dem.) of Virginia who, in a signed article in the April issue of The American Magazine, says many of the workers needed in war industries could be obtained from the government's more than 3,000,000 civilian employees.

Pointing out that the 300,000 whose services, he contends, could be terminated "with resultant improvement in governmental operations" approximates the number of additional workers the chief of the Army Services Supply estimated was needed to provide vital war materials, Senator Byrd, who is chairman of the joint congressional committee on the reduction of non-essential federal expenditures, writes:

"Recently, Lieut. Gen. Breton B. Somervell, chief of the Army Services of Supply, stated that over 300,000 was the number of additional workers our critical programs needed to get up to schedule. He stated that more may be needed later. General Somervell called upon former war workers to return to work, and more or less blamed them for the decline in production. I say he can get many of the needed employees from the federal government."

"At desks in Washington and scattered throughout every state in the Union, there are 300,000 men and women in jobs created artificially. They draw approximately \$700,000,000 in government pay each year. These non-essential employees serve no useful purpose and should be dismissed at once. In addition, if the war in Europe ends by the time this article appears, another 500,000 government employees can and should be demobilized to save taxpayers' money and release needed manpower."

Senator Byrd charges that while men and women are being forced into war work and Congress is struggling with a "work-or-jail" national service bill, top executives have shown that they do not want to eliminate such (manpower) waste in government."

"Some actually encourage it," he declares. "Others have clearly indicated that when the war in the Pacific ends they intend to have even more men and women in their respective bureaus. This is one more step along the road to State Socialism."

An inquiry made of government departments and agencies, according to the Senator, "revealed the amazing fact that nearly all except war agencies plan to increase, rather than decrease, their personnel in the postwar era. An analysis of the replies disclosed . . . a proposed increase in the postwar era of approximately 95,000 employees in non-war agencies."

If women would spend more
time taking care of their health,
they could run the beauty par-
lors out of business.

Senator Byrd claims there is widespread loafing among federal workers, overstaffing of departments, and wage increases are being granted government employees which wouldn't be allowed by the War Labor Board in private business.

"Hundreds of thousands of government employees sit around with nothing to do, and the United States government, while urging civilians to further effort, continues to take much needed employees away from private employers all over the United States," he declares.

As an example, the Senator cites the complaint of a Virginia businessman whose experienced secretary left him, after the WLB refused to allow a \$10 monthly raise, to work for the government in the same buildings at a monthly wage increase of \$40.

"War Labor Board and Treasury department regulations that forbid salary increases do not affect government bureaus," writes Senator Byrd. "Our committee has found innumerable cases in which government employees have received raises that under no circumstances would be allowed by the WLB in private business."

"It is monotonously unfair . . . for the government to have one rule for itself and another completely opposite rule for private business and citizens."

"It is possible that if (War Manpower Commission) McNutt made a serious effort to streamline government activities, as he has business and industry, the recent drastic hiring controls which regiment every worker under the authority of Mr. McNutt's United States Employment Service might not be necessary. And if government offices were forced to follow War Labor Board rules which control raises in salaries, it would be a considerable contribution toward the effort to stop inflation."

The Maryland Senator reports there were 3,300,783 civilian employees on the federal payroll last October. This included 262,281 civilians in the War Department outside the continental United States but excluded 146,621 county and community committeemen and compliance checkers of the Department of Agriculture.

Too Late To Classify

By RUSSELL KAY

One of the most interesting and valuable contributions dealing with the financial structure and operation of state government that has ever come to my attention arrived this week in the form of an "Analysis of Continuing Appropriations and Revenue Requirements of the State of Florida," submitted by Representatives Thomas B. Dowda and Joe C. Jenkins.

Like all such reports, it is discouraging to the average reader because of its length and statistical nature, but to anyone really interested in governmental finances, it provides plenty of food for thought, and indicates many days and months of painstaking research and compilation.

Governmental costs are a way of increasing up on the taxpayer, a little more here and a little more there until we suddenly find himself drowning under the burden and wonder how come.

One startling bit of information that shows how we have learned to "tax and spend, and tax and spend" is brought out in the beginning of the report, which reveals that in the last 80 years the increase in revenue received by our state (central) government has increased from \$16 million to 117 millions. That is an average yearly increase of 3% millions.

The report further shows that under existing accounting and budgeting methods less than 10 percent of the funds disbursed are laid out in advance and appropriated by the legislature. Upwards of 80 percent of all money paid out by the state is disbursed either under (a) continuing appropriations and (b) earmarked or trust funds.

Unrestricted spending authority and sovereign taxation among upwards of 100 agencies and their

Nazi Resistance
Crumbles As Ninth
Breaks Through

(Continued from Page One)
German resistance officially described
as being in "extreme confusion."
Several German divisions were
contested or completely destroyed
since the First and Ninth U.S. Armies
slammed across the Roer River last Friday.

At the center of the assault
was the Third Army, which had
crossed the Rhine at the last natural
barrier on that last natural barrier
before the Rhine. East of Duesseldorf
armored spearheads of the First Army
blasted their way to within
several miles of the banks of the
Rhine.

The Germans brought tanks

across the Rhine, but they

were easily repelled by

the Americans.

For the first time in the war

thousands of German civilian

refugees flooded the highways
before and behind the Americans.

A front dispatch from Associated
Press correspondent W. J. Gallagher

described it as the greatest

flight appeared to have

been completely set off by Ger-
man soldiers guarding the Rhine at

the bridgehead reported.

"They gave up in bunches,"

said one American.

MacArthur Raises U.S. Flag On Corregidor

Forty-First Division Makes New Landing On Palawan Island; B-29s Hit Singapore

(By Associated Press) With General MacArthur, on Corregidor Mar. 2, (AP)—General Douglas MacArthur returned to Corregidor today and ordered the Stars and Stripes raised to the peak of the flagstaff from which the Japanese tore it down three years ago. Also present were eleven members of his staff who left the island with him aboard a PT boat three years ago, almost to the day. B-29's of the American invasion force shifted the Pacific war theatre southwest toward Japan's richest conquest. Assault forces of the 41 Division invaded Palawan at the south western tip of the Philippine Archipelago Wednesday and were in firm control today of its port and two airfields.

One hundred and fifty superfortresses roaring out of India blasted the Singapore naval base for the third time in a month. American troops have landed on Palawan in the south. (Continued on Page Eight)

District Governor Urges Greater Interest In Affairs

Latin America Theme

Predominates With Rollins Students

By Willard Connolly The important part Latin American nations have played in the war effort; romance, history and customs of the Mexicans, how Red Cross has impressed a naval lieutenant overseas, and a program of Mexican music, singing, costume and art, were among the entertaining and instructive features presented at the Women's Club's Fifteenth Annual Magazine Luncheon, afternoon, in the club house on Oak Avenue.

A large group attended.

Mrs. A. M. Phillips and Mrs. E. D. Brownlee, assistant "Magazine" editors, announced the program. In place of Mrs. H. H. McAslin, editor-in-chief who was unable to be present, Barbara Rucker, Seminole High School student, attractively dressed in a genuine Mexican costume turned

Some Meat Point Values Reduced; Others Raised

WASHINGTON, Mar. 2, (AP)—The point value of meat was boosted sharply today after a Bantam, with the over-all effect of cutting another five to six percent off the amount housewives can buy in March.

The OPA also raised the point value of four canned fruits and one vegetable, while cutting the rationing price of two other fruits.

The canned foods, which will cost more than usual, are mixed fruits, peaches, pineapple and peaches. The point value for the popular No. 1 1/2 can for these items is being increased 20 points—

from 60 to 80.

The point value of tomatoes (No. 2 can) will be 30, an increase of 10 points.

Apples Points Down

The two decreases are for apples and applesauce, but one of them does not mean anything to most consumers.

The blue point value for a No. 10 can of apples is reduced from 120 to 80 points. This large can is bought principally by institutional and industrial users.

The point value of applesauce (No. 2 can) is being reduced from 20 points to 10 points.

The meat increases apply generally to beef and pork cuts,剔骨肉 low in point value or point. A few higher value steaks and roasts actually come down in point price to make them more attractive buys and prevent them from backlog up in stock.

To Come Out Even

OPA said the idea of the boosts is to make the point supply come out even with the civilian meat supply, down five to six percent from February and 12 to 15 percent from January.

Attributing the reduction in civilian supplies to heavy requirements and a decline in hog marketing below previous estimates, OPA said no marked improvements can be expected before late summer or early fall.

Present lamb point values continue unchanged. Mutton remains on the free list. Most veal cuts are unchanged.

T-bone and porterhouse steaks will cost nine points a pound instead of the previous round steak 10 points instead of 12.

Go Up

Hard-to-find bacon, hambers and chuck roast (bone in) go up to six points a pound. Present values are four for bacon and hambers and three for chuck roast. Items being added to the point list include beef, veal, pork and lamb liver, liver breads and sausages, lamb liver, liver loaf and ham. Bacon and hambers made from rationed materials.

Price Administrator Bowles said the rationing of red-point foods for March is the stiffest since rationing began.

WASHINGTON, Mar. 2, (AP)—John L. Lewis seeking royalties for mine workers, demanded yesterday they be allowed "set aside" something for that rainy day that the United States Steel Corporation is providing for. He told a conference of operators, "If you don't decide to it, we'll take that right anyhow."

STRICT DISCIPLINE
CAMP PERRY, Ohio, Mar. 2.—Some 2,000entine members of Hitler's Wehrmacht held at Camp Perry persisted today in a "no-work" protest" against what they described as too strict discipline at the camp. They were placed on a bread and water diet.

February was one of the driest months on record according to E. F. Whitehead, weatherman, with school rainfall amounting to only .04 inches. Normal rainfall for February is 2.21 inches and therefore the deficit is 1.77 inches. There is a net excess of rainfall for the whole year so far, but a tiny amount, only .01 inch. Total rainfall to March 1 was 4.67 inches.

Average temperature for February was 67.4, an excess of 4.3 degrees over the normal average of 63.1.

CITY BRIEFS

A resolution expressing a high sense of loss for their late fellow physician and friend, Dr. H. D. Smith, was recently passed by members of the Seminole County Medical Society. It was signed by a committee composed of S. Fulston, M. D., Wade H. Garner, M. D. and G. E. Belman, M. D.

Facilities for canning at the Community Canning Kitchen on Geneva Avenue, near Sanford Avenue are available daily from 8:00 o'clock in the morning to 6:00 P. M. Mondays and Fridays. Mrs. Edith Colbert is supervisor. (Telephone 220-W). If enough persons desire, there will be canning on Thursday evenings, according to Mrs. Guida Wilson, county home demonstration agent.

There will be a meeting of the senior hostesses on Tuesday evening at YWCA. All members are urged to attend.

Roosevelt Says Next World War Is Up To U. S.

Crimean Conference Is Described In Detail To Congress

WASHINGTON, Mar. 2 (AP)—The Senate Agriculture Committee voted 12 to 8 against the nomination of Avery Williams as Rural Electrification Administrator. The senate vote on the nomination is expected tomorrow.

WASHINGTON, March 2 (AP)—President Roosevelt, warning that the world could not survive another global conflict, appealed in Congress and the American people yesterday to understand, unite and peace-enforcing measures.

The drama-laden personnel appearance on Capitol Hill, the President emphasized, great responsibility for the future of the world lies with the United States Senate, the treaty ratifying committee.

He pointed out that citizens of the United States are getting more internationally minded, and that they know what war experience that this country is in, another all sufficient. He cited the other situation, that on the next decade South America would produce more rubber than had been previously obtained from the Far East.

He pointed out that the hospital he was at was originally Columbia College, which became the University of Florida after which these buildings were utilized as a public health hospital for the treatment of tuberculosis.

At a later date the Veterans Bureau took over and the hospital has been under the able guidance and management of Dr. H. L. Von Dahmen, manager, who is responsible for the operation of the entire facility.

The medical director, Lieut. Col. F. E. Byrd, M. D., is responsible to Dr. Von Dahmen for the examination and treatment of all patients.

The medical director, Lieut. Col. F. E. Byrd, M. D., is responsible to Dr. Von Dahmen for the examination and treatment of all patients.

The fact that many service men have problems today they cannot solve themselves, and that many families are in trouble due to absence of a father son or brother has resulted in sending by the Red Cross of 422 home service cases in Seminole County from July 1, 1944 through Jan. 1, 1945, according to Mrs. Edith Colbert, chairman. Below is a publicity chairman of the county.

In the following article she writes:

"From July 1, 1944 through Jan. 1, 1945 the Home Service Department handled 422 new cases. Many of these cases are carried for months and are not included in this number and are \$2,624.63 was spent in grants and loans, \$2,665.79 was collected on loans, \$300.11 was spent for telephone calls and telegraphic service. Twenty social institutions on men from the county were furnished medical authorities. We have assisted both white and colored people in filing claims for pensions and benefits when they were found to be eligible. Four families have been helped following fire disaster.

"Our priority service during time of war is service to the serviceman and his dependents. (Continued on Page Three)

Pvt. J. C. Newsome
Prisoner In Germany

A postcard from Pvt. J. C. Newsome, announcing that he was a prisoner or war in Germany was today received by his mother, Mrs. Nora B. Newsome, 600 West Ninth Street. Mrs. Newsome was a member of a mechanized reconnaissance group here. She left Seminole High School last April to enter the service.

On Feb. 19, at Campbell-Lossing Post 53 of the American Legion, Mrs. Newsome was presented with the Bronze Star medal by her late son, Wm. W. Newsome, who died in France on June 12. Col. Philip L. Cook, commanding officer, 10th Cavalry, Fort Meade, Daytona Beach, made the citation and presentation, "for heroic service against the enemy on June 9."

Two Men Arrested
On Vagrancy Charge

Two white men who gave the names of Jesse Keene and Charles J. Dugan, were arrested early Thursday morning on a vagrancy charge after one of them, Keene, had appeared at the home of Mrs. Robert Haynes, 2118 Meltonville Avenue and had begged for food.

Police have been instructed by Chief R. G. Williams to round up all vagrants and those who

abide in town.

COLLINE CALLED

Clyde Randall Colline, son of Mr. and Mrs. C. G. Colline, recently enlisted in the Navy as a hospital apprentice. He was called to active duty on Feb. 24 and is now stationed at Bainbridge, Md. where he is receiving boot training.

Prior to his enlistment he was a student in Seminole High School.

THIGPEN AGENCY SOLD

The W.J. Thigpen Insurance Agency, operated here for many years by W.J. Thigpen of 801 Park Avenue, has been taken over by the Andrew Carraway Agency. It was announced this morning by Mrs. Andrew Carraway, operator of the agency in the absence of her husband Lieut. (dg) Andrew Carraway, USNR now serving in the Pacific area.

The Andrew Carraway Agency has been in operation since 1939, and is located at 101½ South Park Avenue.

Walter G. Schoenemann, TM 3c, who has been aboard a seaplane tender operating in the Pacific, is spending a 20-day leave with his parents, Mr. and Mrs. Carl Schoenemann.

AIKEN ENLISTS

James Martin-Aiken is home on inactive duty after being en-

listed in the Navy on Feb. 12. He was learning today Young Atka 17, the son of Mr. and Mrs. Redford E. Aiken at 1800 Park Avenue, and a graduate of Seminole High School. His papers were handled by the Navy Recruit Station in Orlando.

Two Men Arrested
On Vagrancy Charge

A sharp increase in applications for homestead exemption over last year was today reported by Sanford P. Doudney, county tax assessor.

More than 1,600 applications have been made to date for these exemptions, as compared with 1,150 made at this time last year.

Deadlines for home exemption personal property, tangible and intangible property statements, and applications by disabled and widowed persons is March 31, Mr. Doudney said.

They will also be given an opportunity to express their view upon the necessity for deepening this waterway to 12 feet and to suggest measures considered desirable in the interests of navigation and commerce. Especially are they invited to submit data on the size and draft of vessels and towboats it is expected will use the waterway, and to determine the improvements which may be necessary to the construction of the dam.
