Old Mather Hubbard

A point was raised in the House of Representatives yesterday regarding the Social Security Act which should be considered seriously by every employer of labor and every workingman who through payroll taxes is contributing heavily to a system which promises to provide against the hazards of old age and unemployment and dissipates the money as fast as it can get it on other things.

As explained by Representative Shafer of Michigan, the Federal Treasury has collected something over a billion and a half dollars during the past 14 months in Social Security taxes. These taxes constitute an entirely new levy against the payrolls of practically every business, big and little, in the country.

Presumably the money derived from these special taxes is to be used for a most worthy purpose. Certainly nothing could be more desirable in this topsy turvy world than security against the hazards of unemployment and old age. And that is what these taxes are for.

The Flower Show

Today at the American Legion Hut the Garden Club is sponsoring a flower show under the direction of the Dirt Gardeners' circle. Special efforts have been put forth this year to make this occasion one of the outstanding attractions of the season, and one of the best flower shows in recent years.

What appeals to us particularly is the plan which has been adopted this year of selling the cut flowers and contributing all the proceeds from this sale, as well as contributions from various civic organizations, to the beautification of the grounds of the American Legion Hut.

That is something which Sanford needs and needs badly. In the years following the boom this phase of our civic development was sadly neglected with the result that in beautification Sanford lags behind other Florida cities.

The example being set by the Garden Club should serve as a stimulus to other organizations and to all the people who live within this city, to the end that we will all become conscious of the importance of beautification, and do our part toward making Sanford the most beautiful city in Central Florida.

KILLING OFF THE MOSQUITO

Those who have been residents of Miami for some time, previous to the past two or three years, have vivid recollections of the frequent invasions of the mosquito pest and the discomfort inflicted on suffering humanity in the older days.

By the earnest and efficient work of the Dade County Anti-Mosquito District, the pest has been entirely banished from Miami and most parts of Dade county are practically free from the little pest.

The ditching, which permits the free flow of water and thus prevents breeding, requires a very great amount of hard labor. The application of larvicide is made principally through very frequent inspections and the immediate use of larvicide.

Up to the first of last year the district had excavated 222 1/2 miles of ditches. Last year it added 42.5 miles, making now 265.2 miles of ditches all operating to eliminate the mosquito from this section.

During last year the district sprayed approximately 7,000 catch basins every 8 or 10 days. This necessitated the spraying of 167,275 basins and the use of almost 2,000,000 feet of ditching.

The result has been that for more than two years this section has been quite free of mosquitoes, although, of course, until every breeding place is permanently destroyed we will have occasional visits of the pest, but never again in such swarms as in previous years.

Mr. and Mrs. W. A. Harrison of St. Louis, Mo. friends of Mr. and Mrs. Tolson are guests of the Hotel Grand for a few days.

MAN ABOUT MANHATTAN

New York, Mar. 9.—I have four times forgotten the errand that took me down to that particular part of Fifth Avenue—see I will always remember the ball of black fur that stopped me in front of the little red shop. It was a kitten barely 10 weeks old. With a tail like the plume on a cat's shako, and he was making the mistake for his old mother by rubbing at her tail and tramping in her face.

Occasionally when his under-arms got out of hand he would jump up and give him a whiplash, but he would always come back and finally she became resigned to these indignities and chose to disregard his altogether.

I liked his friskiness and the way he would scare himself with a fly, and run and hide behind his mother until he got his courage back, and then come jauntily out again.

And so of course I bought him. Who can walk away from a fun-some kitten after watching it trolly for half an hour? As they put him in a box and cut some holes so he could have plenty of fresh air, the sales girl observed, "He's a cute one, but minkie's hell on silk stockings."

Which was okay with me, seeing as how I don't wear them any more. I named him Cuddo after the old negro slave in Stephen Vincent Benet's poem about the Civil War, "Minkie's Hell on Silk Stockings."

That continued my previous convictions that all kittens have definite personalities. One Cuddo became a real cat of strong likes and dislikes. He was a glutton for red salmon, but he wouldn't touch pink. He liked lamb and he liked beef, and he liked for his head to be frequent and tasty. But, being a juvenile, he got only two a day, abridged, of course, by many a lapper of warm milk.

Now he could tip chair-covers and knock dishes off the table! Let me say here that if you place a value on material things you should avoid cats. They delight in breaking costly china and sharpening their claws on rare upholstery.

But they know how to play. They go till their tongues hang out till they drop in exhaustion. Then they sleep. When a kitten doesn't do this, look out, that's how I found out that this one was suddenly and unexplainably ill. A piece of paper on a string held no lure. He wouldn't jump on the desk and knock over a vase. One moment he was dancing a foxtrot and the next he was down in one of those strange and unbreakable attitudes.

And so maybe owning kittens isn't such a good idea, after all. No, that they aren't worth the times the money and trouble they cost. They are. But when something happens, it would you too deeply. You get too tied-up in the little devils.

## Helps For Housewives

Serve waffles as soon as they are baked. If they are allowed to stand they are apt to become tough. Never stack them, since stacking makes them soggy.  
Select pot-holders that are easy to launder and large enough to protect your hands. Hang a generous supply of them near the stove—or keep them in a nearby drawer.  
To make a caramel sauce melt twenty caramels in a double boiler and then add a third of a cup of cream. When the combination is hot mix it well and serve it over a frozen dessert.  
Orange and tomato juices lose much of their nutritive value after they have been exposed to the air room, speaker's and luncheon for several hours. Consequently they are a good plan to prepare them just before serving—to buy them in cans which had an amount that evening—Mrs. G. I. Loucks, Mrs. G. A. DeCottis, Mrs. G. F. Smith, Mrs. George McCarty, Mrs. Charles Etenworth, and Mrs. Warner; hostesses for afternoon session—Mrs. Sherman Lloyd, Mrs. Arthur Higgins, Mrs. John Apple Juice, Cool the mixture and galloway, Mrs. H. ## Helps For Housewives

Serve waffles as soon as they are baked. If they are allowed to stand they are apt to become tough. Never stack them, since stacking makes them soggy.  
Select pot-holders that are easy to launder and large enough to protect your hands. Hang a generous supply of them near the stove—or keep them in a nearby drawer.  
To make a caramel sauce melt twenty caramels in a double boiler and then add a third of a cup of cream. When the combination is hot mix it well and serve it over a frozen dessert.  
Orange and tomato juices lose much of their nutritive value after they have been exposed to the air room, speaker's and luncheon for several hours. Consequently they are a good plan to prepare them just before serving—to buy them in cans which had an amount that evening—Mrs. G. I. Loucks, Mrs. G. A. DeCottis, Mrs. G. F. ## Sanford Girls Get Teaching Experience

TALLAHASSEE, March 10—Miss Mary Nickel and Miss Eleanor Hickson from Sanford are obtaining practical experience in teaching this semester at Florida State College through teaching at the college demonstration school. Sons and daughters of Tallahassee families are enrolled at the demonstration school where hundreds of Florida's teachers are trained. Approximately 150 student teachers will supplement the regular staff this semester.  
Miss Nickel is practicing teaching in high school and Miss Hickson is practicing teaching in elementary grades.

For the soup, mix two cups of canned cream of asparagus soup, one cup of cream of mushroom and one cup of celery soup. Add half a cup of cream, a fourth of a teaspoon of salt and an eighth of a teaspoon of paprika. Heat until steaming. Serve in cups, topping each cupful with whipped cream and chopped parsley.

Cut slices of bread into shamrock designs, toast them to a nice brown, spread them with a mixture of grated cheese and soft butter and serve hot.

**It will take a pound and a half of canned tuna for the salad.** The day before the luncheon, cover the tuna with boiling water. After ten minutes drain and chill it. You'll find it tastes like chicken.

Now flake the tuna or cut it into half-inch cubes. Add one and a half cups of diced celery, a fourth of a cup of chopped sweet pickles and green peppers. Season with a tablespoon of lemon juice, salt and paprika. Add a fourth of a cup of French dressing and chill the mixture.

For serving, mix half a cup of mayonnaise with the rest of the ingredients and roughly pile portions onto cups of crisp lettuce. Top with mayonnaise and garnish with pepper or pickle shavings and slices of egg.

You might serve a variety of ice box rolls. Fix the dough the day before. Chill it over night and make up the rolls the first thing in the morning. They'll be ready to bake in time for luncheon.

Don't forget, either, to make better balls a day early. If you want to try a homemade dessert here are some suggestions:

### Cotton Farmers To Meet In Ocala In Statewide Session

OCALA, Mar. 10.—Scores of Florida Sea Island Cotton farmers will gather here tomorrow at the first of two statewide Sea Island Cotton conferences called by Gov. Eral Cone as chairman of a seven-member committee sponsored by the Florida State Chamber of Commerce.

Tomorrow's session will get underway at 2:30 p. m. in the Ocala County courthouse. The second meeting will be held in Lake City at the Columbia County courthouse, beginning at 2:30 p. m. the next day, Saturday, March 12.

In addition to Gov. Cone, the committee includes William Wilson, Jacksonville, secretary; Nathan Mayo, Tallahassee; Dr. Wilton Sewell, Gainesville; W. F. Lutz, Trenton; George D. Smith, Madison and J. P. Ingie, Jacksonville. The group was named at a conference sponsored several months ago by the State Chamber in the Alachua County courthouse.

been fluted green. Spread it, with a little butter, on a flat surface. Roll it up, then cut it into thin slices. Sprinkle with a little sugar and white chocolate shavings. With a sharp knife cut the cake into thin slices. Sprinkle with

According to the Governor, the meetings are being staged to arouse greater interest in Florida's long-staple cotton industry, which, with newly developed methods of boll weevil control and scientific farming, shows promise of regaining the prominence it held in Florida's economic structure before its almost total destruction by boll weevils in 1917.

### Political Announcements

### Grower Nominates Grapes As Coming Florida Industry

MOUNT DORA, Mar. 10.—(AP)—Grapes will be Florida's second largest industry within 25 years, P. W. Davidson, a grower, predicted today.

He said he believed many growers would turn to grapes because of the demand for the quality now being produced in this state.

"For 1938 growers have requested four times as many grapes as we can possibly deliver," Davidson said. "I expect they will be 100% in this season."

Approximately 200 tons of grapes were produced in the state last year. Most of these were

grown in Lake county. "We have an advantage in Florida because our grapes are on the market about June 10, a month before the earliest California grapes or those grown elsewhere," Davidson declared.

Research by the state pathologist and by growers has solved the two big problems which confronted grape growers in Florida, he said. He explained the problems were low production of bunch vines and fungus disease.

"We have found that by grafting native bunch vines to wild Texas rootstock we can increase production from 200 to 300 percent. We can reduce the loss by fungus from 60 to 80 percent by varying the methods and times of spraying."

## GET A CAR YOU'LL BE PROUD TO OWN AND DRIVE

THINK WHAT IT MEANS TO SAVE SO MUCH MONEY ON A BETTER LOOKING, SWEETER RUNNING, MORE MODERN CAR

Outside of the actual cash savings which National Used Car Exchange Week offers — the genuine opportunities to buy at rock-bottom prices — what's the outstanding news angle of this great event? Undoubtedly it is the discovery by owners of old cars that cars built in the last few years have improved more than they dreamed!

It's a real thrill to take the wheel of one of the many 1937, '36 or '35 cars included in this sale — and discover how a modern car handles — how much more pleasure it offers. Get ready for spring with a car that brings real pride of ownership — modern style — smooth, powerful performance — roomy bodies and luggage space — safe brakes — quieter operation — better economy — big tires — modern riding comfort . . . all yours at prices far below those of several months ago!

This is no ordinary sale. Car dealers, stocked with these good used cars, have joined in a great, nation-wide co-operative movement to "get things moving."

You may not even need cash to make the switch. Your present car may cover the down-payment on the car you want. Balance on easy terms. If you have no car to trade, you can still take advantage of the low down-payments and easy terms during this sale.

These bargains are GOING FAST. DON'T DELAY UNTIL THE BEST SELECTIONS ARE SNAPPED UP! National Used Car Exchange Week ends this Saturday night, March 12.

RECAPTURED FROM THE MARY JASON BY GERTRUDE GELBIN

**RESUME**

When William, a sincere and earnest preacher, tried to show his son Jason to accept the benefits of the benefits of the morning, Jason's mother, Mrs. Williams, understood her husband's aim in his hope of converting a doctor. His only source of information in the medical field was Dr. Shingle, a doctor who had been in the hospital for some time. **HEROINE UNSUNG**

Jason made the homeward journey with a heavy heart. The days of traveling he pondered the wisdom of his trip. He had been overworked, and the examinations would make him a year at school. When he finally arrived in High school, all about him was a year at school. When he finally arrived in High school, all about him was a year at school.

"How can you come home like this?" she asked. "But he will come some day."

"Mr. Ames," she called softly. He was in a sweater and she pointed to the ring. He picked it up, examining it critically, then handed it to her. She looked at it with a smile. "That's the ring," she said. "I found it in my pocket. It was a wedding ring. I found it in my pocket. It was a wedding ring. I found it in my pocket. It was a wedding ring."

## Activities Of COFC Listed At Meeting

Continued From Page One

Another important activity during February was our handling of arrangements for the official dedication of Fort Meban Park, and participation in the Annual Founder's Day Dinner on the evening of the 25th. The dedication ceremonies were attended by a large crowd and resulted in a great deal of publicity for this section. Your president presided over ceremonies in the afternoon and served as toastmaster at the Founder's Day Dinner.

Active cooperation is being given by the Community Center, in connection with the appearance of these international athletes in Sanford. We are very happy to report that substantial progress is being made by your Railway Employees Retirement Committee, under the guidance of Chairman J. L. Ingley. The work of this committee is one of the most important ever attempted by the Chamber of Commerce, and will undoubtedly accomplish much good for all of Seminole County.

The following officers and directors represented our organization at the annual meeting of the Florida Waterway Congress, Mt. Dora, in behalf of the St. John's River Canal project: T. E. Simpson, H. J. Latham, H. James Gut, Fred Forward and W. H. Tunkle.

A very valuable sales advertising campaign was started this month by the Florida Power & Light Co. with the printing of an unusually attractive postcard to be mailed in large volume to the north. The Chamber continues to distribute reply cards and is attempting to increase use of this product through several other means. We have also furnished photographs and copy for use in public logs having a circulation of approximately half a million copies.

## ANSWERS TO TOM SAWYER CROSSWORD PUZZLE

## Top-Flight Dogs About On Par At Longwood Track

ORLANDO, Mar. 10. — That goal of every horse or dog track racing secretary — a season during which there are no outstanding stars — has been attained at the beautiful Sanford-Orlando Kennel Club at Longwood, nine miles north of here, as the top dog season nears the end of its 15th week.

Standing as a tribute to the veteran racing secretary Bob Black and offering tribute to the industry and judgment of the hundreds of canine-loving patrons is the fact that the season's records to date of the top dogs among the 40 at the track are virtually on a par.

It is the racing secretary's duty, you know, to match the entries that close finishes are the rule and not the exception. This year, it has been true of virtually every race that five or six entries cross the finish line within inches of each other.

As a result, the better dogs have been beaten and other, none able to pull far enough away for a season's record to be a stand-out.

Through Tuesday night, 100 instances, only half a dozen dogs had won seven or eight races throughout the season. The rest had won from four to the "rest" meaning some 250 other dogs.

On the record, the "top" dogs so far are: W. H. Holpuch's leading dog, who won in 28 starts; Just Prince, owned by Jay Mitchell, eight in 22; W. Mason's Sir Bink, seven in 19; Ted Dunn's Our Nancy, seven in 22; H. C. Shelton's My Grand, seven in 20; G. H. Reid's Lady Joe, seven in 22.

The conclusion all spectators should draw from the record is that for pure excitement and thrills, Sanford-Orlando Kennel Club this season is outstanding in that every entry in every race is a potential winner.

Ten races are run nightly, except Sunday, starting at 8:15 o'clock. No minors ever are admitted. The track is a quarter mile off State Road or U. S. 92-17, nine miles north of here.

## Japanese Attempt To Establish Base On Yellow River

SHANGHAI, Mar. 10. — (AP) — Disclosed by military files, Japanese troops fought desperately yesterday to establish a base on the north bank of the Yellow River at Szechai from which to sever the Lanchow railway.

Field artillery on the north bank at Szechai and Wenhien laid down a terrific barrage on Chinese forces while 100 trucks, loads of Japanese reinforcements with pontoon boats moved up to support the crossing movement.

The Chinese cut dikes around Szechai, flooding the area. The 50 tanks brought across by the Japanese were reported handily captured by the river.

Pushing down the Peiping-Hankow railway, the Japanese were trying to establish a base at Szechai, within striking distance of Chongchow, strategic rail junction only 25 miles to the east. The Szechai-Lanchow cross the Peiping-Hankow line there.

## Builders Hopeful Recent Slump May Soon Be Checked

JACKSONVILLE, Mar. 10. — While passage of important amendments to the Federal Housing Act, state building construction circles are hopeful that the recent slump in residential construction may soon be checked and a new boom in housing may be expected.

The new legislation provides for 50 percent interest on newly constructed small homes of up to \$5,000 and for 40 percent interest on homes costing between \$5,000 and \$10,000.

Commenting on local programs for stimulating residential building, John W. O'Leary, chairman of the Executive Committee of the United States, stresses the importance of local interest and local action, he says.

### Florida Building At World's Fair Unique In Design

This State Is One Of Three Complying With Regulations

DELAND, Mar. 10.—It is the opinion of experts that the construction of Florida's building at the New York World's Fair will open a new era in exposition buildings, according to Earl W. Brown, manager of Florida's National Exhibit who recently returned from a conference with World's Fair officials and engineers in New York.

"Our building plans have met the rigid specifications laid down by New York World's Fair authorities and final contracts have been signed," Brown said. "Florida is one of only three states who have so far been able to comply with construction regulations."

A revolutionary plan of the Florida exhibit conceived by Earl Brown is that the floor will be divided into three levels so that those looking at the exhibits may stand one behind the other without having their view obstructed. Each level will be separated from the other by a railing so that the crowd on one level may pass as easily without interfering with the onlookers on another. There will be ramps between the levels, no corners, no cross-traffic and no steps to stumble over. With this arrangement more than a third of a million people can see the exhibit in a day.

Most spectacular innovation will be a Florida sky which will cover the ceiling of the great exhibit hall. Cloud machines, ultraviolet rays and special illumination equipment, the result of months of research by Westinghouse Electric Company, will enable visitors to the Florida exhibit to stand beneath a sky where rosy dawn rises to golden noon-day and descends into brilliant twilight deepening into a soft Florida night with translucent stars shining in the heavens. From the moment visitors step within the entrance of the Florida exhibit the main attraction of the new

### Services Continuing At Memorial Tent

Reports that services at the Memorial Baptist tent have been discontinued are erroneous, according to information received today from the Rev. J. H. Hardy, who is in charge of the meeting. The services will continue until Sunday night and may be extended for still another week, the evangelist stated, adding that those who wish to organize a new church should be present Sunday morning and Sunday night.

### Past Due Bills To Be Paid Before Mar. 15

TALLAHASSEE, Mar. 10.—Approximately half the state's \$1,274,804 past due bills will be paid on or before Mar. 15, State Comptroller J. M. Lee has announced. Funds from early license payments and special millage levies for state purposes have been used over the past 60 days to pay earlier bills reducing the state's general revenue fund deficit to that figure.

Payments of excise license taxes by insurance companies and utilities the past few days have made \$630,000 available and the comptroller said his "auditors are working up the oldest bills—largely those filed in my office during October and November—and the state's checks will be mailed between Mar. 10 and 15.

## Death Asked For Nineteen In Red Trial

### Only 2 Spared From Capital Punishment; Ex-Diplomat, Trade Delegate Escape

## 25 Years In Jail Asked For Them

## Prosecutor Compares Former Head Of Police To Capone

MOSCOW, Mar. 11.—(AP)—Death for 19 of the 21 defendants in Soviet Russia's greatest blood purge trial was demanded by prosecutor Andrei Y. Vlahinsky today at the end of a bitter summation of the government's treason and murder charges.

The only two spared from death were the once esteemed Soviet diplomat, Christian Rakovsky, and S. A. Bessanoff, former Russian trade delegate. For them Vlahinsky demanded 25 years imprisonment.

The prosecutor, demanding the life of Genrikh G. Yagoda, compared the case to that of Al Capone. "We can not leave such people alive," he cried. "They can do as much in America with Al Capone who kill and kidnap people they want to get out of way. But Russia, thank God, is not America."

## Woodmen To Attend Winter Garden Meet

A large delegation of members of the local lodge of Woodmen of the World are expected to attend the Old Fashion Box Supper to be given in Winter Garden tonight.

The affair will be an inter-lodge event with lodges from Sanford, Orlando and Winter Garden participating. Consul-Commander James G. Sharon of the local lodge will be the guest speaker for the occasion.

Localities participating in the program are: Ann Benson, Bernice Edmundson, Mrs. Mary Ruth Ridd and uniformed rank of the local lodge who will stage a performance under the direction of Capt. A. L. Thomas.

## AAA Asks For Suit Against Celery Men

WASHINGTON, Mar. 11.—(AP)—The Agricultural Adjustment Administration today announced it has asked the Justice department to file proceedings against two Florida shippers alleging a violation of the celery marketing agreement. Officials said they investigated unnamed shippers at the request of the State Central Committee.

## Little Increase Noted In Celery Prices In Week

## Proration For Coming Week To Be Studied By Control Group

Celery prices have shown but little improvement during the past week, according to daily reports of the Federal State Market News service, but track holding at northern terminals have been reduced despite the increase in celery shipments, reflecting slightly better demand for the commodity.

Participating by the Surplus Commodities Corporation from the surplus which farmers are not allowed to ship under the proration are expected to be approximately 68 cars as was previously allotted for purchase this week. The requests of Control Committee members for a price hike to \$1.25 per crate was not granted and the price effective during the previous week of \$1.10 per crate for U. S. Combination grades, has been maintained.

The heaviest shipments for a single day this season were recorded yesterday with a total of 127 cars leaving the State for distribution through terminal markets. Heavy shipments are also expected to continue through today and tomorrow and are expected to equal the volume of 549 cars which was allotted by the prorate at the last meeting of the Control Committee.

Faced with a probable increase in the available supply during the coming week and market conditions that are none too favorable, members of the Celery Control Committee met tonight to discuss proration for the ensuing week.

Secretary of the Committee J. C. Lettice invited all those interested in the industry to attend the meeting to be held in the Melach Building. Long distance telephone communications will be maintained between Sanford and the similar meeting of Control Committee members in the Sarasota-Manatee district to be held in Sarasota.

Although celery shipments during the current season have been heavy the total number of cars shipped to date are 3,228 as compared with 3,573 cars shipped to date last year. During the past week, however, daily shipments have been considerably in excess of the daily shipments for 1937.

## Appeal Made For Charity By President

## Drive Is Begun For Community Chests; Over Four Million Lose Jobs Recently

WASHINGTON, Mar. 11.—(AP)—President Roosevelt, opening the nation's annual Community Chest campaign, today declared that "only in jobs and more jobs, at good pay, shall we find national stability and individual security."

Addressing the meeting of the mobilization for Human Needs at the White House, the President appealed for a "united front" in making the 1938 private charity program a success.

He pointed out that the direct relief, provided by the Community Chests, was aimed at "many problems of human misfortune—adjusting maladjusted families, taking care of the sick, tiding over crises in family life."

Work relief, a federal task to which he said he was definitely committed, is designed to provide jobs for "normal people who can give useful work to the country, and seeking the adjustment of maladjusted society rather than of maladjusted individuals."

The business recession has taken a toll of 4,300,000 jobs in the past four months, federal economists estimated today, bringing the nation's unemployed to a total of about 10,450,000.

That total, based on a revision of figures prepared for the President's Committee on Economic Security, is the highest in three years.

After reaching a peak of 15,071,000 in March, 1933, the country's unemployed dwindled to a minimum of 6,182,000 in July, 1937, just before the current business recession began. In October the unemployed numbered 6,145,000, jumping to 7,177,000 in November, 6,680,000 in December and 10,181,000 in January.

## Richard Whitney Indicted On Grand Larceny Charges

NEW YORK, Mar. 11.—(AP)—Richard Whitney, head of the insolvent brokerage house which bears his name and one-time Stock Exchange president, yesterday was indicted by the New York County Grand Jury on grand larceny charges.

The indictment came after further investigation by the State attorney general's office had brought out that Whitney had taken securities valued at nearly \$200,000 which had been placed with his firm by clients for safe keeping. The investigators also revealed that Whitney's firm had a virtual monopoly on the stock of Distilled Liquors Corporation.

The specific charge in which trust funds established under the alleged misuses of a \$100,000 trust fund established under the will of Whitney's father-in-law, this fund had been left in trust with Whitney and the Central Hanover Bank & Trust Company, District Attorney Thomas E. Dewey, who entered the case yesterday, supervised presentation of the case to the grand jury. His office said that the will of George R. Shanon, Whitney's father-in-law, who died in 1918, established a trust for the benefit of the legatees, including Mrs. Whitney, her sister, Mrs. Mary Murphy, Harvard University and St. Paul's School at Concord, N. H.

## FLAMES IMPERIL 100 CRIPPLES

Four persons were injured and 100 crippled and handicapped persons were imperiled when flames swept a six story building in Detroit used by the Goodwill Industries, Inc., a charitable organization. Firemen said they believed all of the workers escaped. The firemen are shown pouring streams of water into the burning building.

## Lion's Club Parade Greet "Movie Queen" Tomorrow

Promptly at 2:00 o'clock tomorrow afternoon the Lion's club parade will greet the "Movie Queen" as she alights from her yacht at the municipal pier. Parade Chairman Paul Johnson announced today. Mayor Edward Higgins, city officials, and general chairman Maxwell Stewart will officially greet the queen, an announcement this morning stated.

"Rosette's Flower Shop has offered the flowers to be presented to her on her arrival," it was said. "And as the parade swings by the City Hall the Key to the City will be presented to 'Miss Movie Queen' there. Moving pictures will be taken of the whole parade and also of the spectators to see the celebrant. These pictures will be shown in connection with the plot pictures to be seen as the fourth act to the local comedy 'Movie Queen'."

## Ralph C. Tolar Is Honored At Citadel

Cadet Ralph C. Tolar, of 207 E. Tenth Street was reappointed recently to the grade of cadet corporal and reassigned to the cadet band at the Citadel.

Young Tolar, a member of the sophomore class and of the infantry unit of the Reserve Officers' Training Corps, is taking the pre-medical elective course. The appointments of cadet officers and non-commissioned officers of the corps of cadets, made by the professor of military science and tactics, are based on several factors, including academic and disciplinary excellence, constant standing, leadership and military bearing, personality, dependability and participation in athletics and other extra-curricular activities.

## Plan Started To Bring New People Here

## City Offers Special Inducements To Retired Railway Employees Coming Here

The plan of the Railway Employees Retirement Committee to tell retired veterans of the railroads about the attractions offered in Sanford and Seminole County and to encourage permanent settlement here through special inducements offered by the City of Sanford is well underway and already a number of inquiries have been received.

As a step in launching the program, the Committee has placed two advertisements in the two latest issues of the Brotherhood of Locomotive Firemen and Enginemen's Magazine, of which R. L. Glenn, former Sanford resident is editor. This official organ of the Brotherhood of Locomotive Firemen and Enginemen has a total circulation of 87,000 and, in addition to this, another advertisement has been placed in the current issue of the Railroad Trainman, the official organ of the Brotherhood of Railroad Trainmen which has a circulation of 147,000. Mr. Inley stated.

In an extension of an advertising program to other railway periodicals, namely the Railway Conductor and Railway Age is contemplated.

A detailed letter of explanation of the special inducements along with maps of the Bel-Air Subdivision and the City of Sanford with a contract recently approved by the City Commission are being sent to those making inquiries, Mr. Inley reported.

A sample letter in reply to an inquiry is in part as follows: "The City of Sanford has acquired a large number of desirable lots."

## Welfare Board Finds Many Are Widowed

JACKSONVILLE, Mar. 11.—Nearly one-half of those approved for Old Age Assistance prior to Jan. 1 by the present State Welfare Board—5,760 of 12,887—are widowed according to figures made public here by Clayton C. Codrington, state welfare commissioner. The statistics do not cover those who were placed on the rolls by a former board nor those who have been ruled eligible since the beginning of the year.

A study of the marital status of those receiving Old Age Assistance in Florida shows that 625 are single, 5,760 are married, 280 are divorced, 633 are separated but not divorced, 2,760 are living with spouse who does not receive Old Age Assistance, 2,381 are living with spouse who does receive Old Age Assistance, 325 are living with spouse who has applied for Old Age Assistance and 109 are married to persons residing elsewhere.

In Seminole County statistics follow: Single 2; widowed 34; divorced 0; separated but not divorced 3; living with spouse who does not receive Old Age Assistance 24; living with spouse whose application for Old Age Assistance is pending 2; married, spouse residing elsewhere 1.

## Schuschnigg Quits Under Pressure Of Nazis And Ultimatum Of Dictator Hitler

## Austrian Vote Is Called Off

## German Troops Move Toward Border And Cross At Passau

VIENNA, Mar. 11.—(AP)—The Austrian Government Press Bureau announced tonight that German troops had crossed the Austrian border at Passau. Austrian troops were ordered to fall back without resistance. A high official said the resignation of Chancellor Kurt Schuschnigg was expected momentarily.

## LONDON, Mar. 11.—(AP)

—Austrian quarters here received reports tonight that Chancellor Kurt Schuschnigg had resigned. They said his reports probably were true and that the resignation would be the natural consequence of the postponement of the plebiscite on Austrian independence.

Schuschnigg was said to have been succeeded in the chancellorship by Dr. Otto Ender, an elderly lawyer and legislator, a moderate anti-Nazi and a champion of the pre-Dollars era. The report could not be confirmed by this newspaper.

It was reported here that the appointment of Ender would indicate that all was not yet lost in the struggle against Nazism and that the moderates still were holding out.

## VIENNA, Austria, Mar. 11.—(AP)

—The government announced tonight that the plebiscite on Austria's independence has been postponed. The announcement followed reports that Germany's and Austria's Nazis had exerted powerful pressure to avert the referendum which Chancellor Kurt Schuschnigg had called for Sunday.

It came as Austria was assuming the aspect of an armed camp, with clashes in many cities between Nazis and the Fatherland Front supporters of Schuschnigg's fight for independence.

Arthur Seyss-Inquart, Austrian minister of interior, and a close friend of Germany's Reichsfuehrer Hitler, was reported to have presented a demand "like an ultimatum" for the cancellation or postponement of the referendum.

No new date was set for the plebiscite. The postponement meant Schuschnigg had bowed to Hitler.

Franz von Papen, the German ambassador, flew to Berlin this morning and returned to Vienna by special airplane this afternoon with Hitler's ultimatum against the vote.

To a hurriedly summoned cabinet session, Seyss-Inquart also presented a stern demand for the discharge of Dr. Michael Stubb, the director of security, other officials and the provincial governments.

An alternative proposal was Schuschnigg's own resignation. Otherwise the threat was made that Germany would enter Austria.

Natural observers believed an indefinite postponement meant cancellation of the vote. The official explanation was that the Chancellor had postponed the vote after discussing the matter with President Wilhelm Miklas.

Germany massed troops on the Austria frontier as the ultimatum went to Schuschnigg. Troops moved toward the border carrying pontoons for making bridges and also field artillery, passing motorcars said. One motorist said he saw 100 military trucks on the road to Salzburg. Hundreds of motorcars troops were moving southward in Germany. Passants along the highway near Munich said this has been "going on all night." Near the border German troops impressed passants for work and communication horses had been commandeered.
