

SANFORD BOARD OF TRADE HOLDS ANNUAL ELECTION COURT HOUSE TONIGHT

PRESIDENT, VICE PRESIDENT AND GOVERNORS FOR ELECTION

You are urged to attend the annual meeting and election of officers of the Board of Trade tonight. The meeting will be held at the court house at 7:30 o'clock.

Is there such a thing as vegetables freezing while under refrigeration in regular refrigerator cars due to outside temperature? This is a question to come before the Board of Trade for thorough investigation.

No hotel or boarding house in Sanford is lacking tourist guests at present and we have every opportunity to increase this number many times over.

Among the prominent visitors recently were Dr. and Mrs. Tuttle of New Haven Conn. "First time we ever stopped in Sanford," remarked Dr. Tuttle.

Mr. and Mrs. Dennison of Virginia are late arrivals and are pleased with Sanford. They will return within a few days to complete the winter in this section.

Messrs. B. G. Smith, of Oviedo and T. W. Jones of Sanford are two new Board of Trade members and good ones all the way through.

The following are tourists either stopping in Sanford or passing through who have received Seminole county literature from this Board of Trade and who expect to remain sometime in the county because of this advertising: W. J. Close, Paducah R. M. Mound, Bufalo G. W. Kyle Chicago, Mr. and Mrs. Hendrickson Boston, W. J. Carson Providence, Mr. and Mrs. C. H. Caruthers Louisville, Miss Stout Minneapolis, Mrs. L. M. Anderson Washington and R. L. Downey Philadelphia.

Because of increased business the Clyde Line has put the City of Jacksonville back into service between Jacksonville and Sanford. This gives Sanford daily steamer service the Osceola also continuing on the job. This service is worth much to this entire section and the people of Sanford appreciate the elegant accommodations to be found on these steamers.

With fourteen exclusive passenger trains and six mixed passenger and freight trains in and out of Sanford daily over the Atlantic Coast Line coupled with the steamer service to New York Sanford has many sections beach a mile in the way of transportation facilities.

This Board of Trade is going to produce more than ever during the year 1918. Are you going to be among the progressive membership? After all it's the union of members that gets results.

Come to the annual election and meeting tonight.

Food Conservation Meeting. The women of Seminole county (whether or not member of the San-

ford Woman's Club) are invited to a talk to be given at the club rooms under the auspices of the Home Economics Department Friday afternoon January 10th. The special subjects to be dealt with are the Chayote (the new vegetable being introduced by the U. S. Government) and fish foods.

A neighborhood food conservation meeting will be held at the home of Mrs. James Moughton on Union avenue on Thursday afternoon at 2:30. The fireless cooker will be used and the water glass method of egg preservation talked of.

Wiley M. Fletcher Berry, Emergency Home Dem. Agent.

Sent to Reform School

Otho White a young negro boy was sent to the Reform School at Marianna today by order of Judge Housholder. This same boy was up for stealing last August but was placed under the care of the Probation Officer and had walked the straight and narrow path up to a few days ago when he slipped and having a chance to take some money at the store of J. H. Stumon made away with the change and took flight.

Contracts for five steel ocean-going tugs between 150 and 175 feet long for six huge steel barges and possibly double that number and for one or more steel floating dry docks have been let to the Williams Shipbuilding corporation to be built at Tampa it was learned recently from an authoritative source.

Active work towards securing the mammoth \$15,000,000 shipbuilding plant recommended by Henry Ford famous auto manufacturer and member of the war industries board and other experts to be located at some point in the southeast was begun by the Tampa Board of Trade recently when telegrams were prepared and sent to Chairman Hurley of the shipping board to Henry Ford and to Senator Trammell and Congressman Drane.

After looking carefully at the outcome of the experiment made to demonstrate the profitable results of corn growing in St. Johns county all doubt is at rest and it is expected that the corn acreage in St. Johns will be greater than ever next year.

RAILROAD LEGISLATION THIS WEEK

CONGRESS HAS MUCH TO DO AT THIS SESSION

Washington Jan. 7.—Legislation by President Wilson in connection with government operation of the nation's railroads heads the program of congress this week.

The interstate commerce committee of the senate and house will meet tomorrow to begin consideration of the administration railroad bill and the membership of both bodies appear desirous of its early disposal.

Other important legislation also is in the making for early consideration at the capitol. The senate Democratic steering committee meets tomorrow to map out a program and to fill the vacant chairmanship of the interstate commerce committee.

Woman suffrage is to be settled in the house next Thursday when a vote on the resolution for submission of the Susan B. Anthony amendment is scheduled.

The principal business before the senate this week is the disposal of the Walsh Pittman coal and oil land leasing bill designed to open up vast western natural resources.

Various investigations of war operations will continue and on Tuesday the senate privileges and elections committee will resume consideration of Senator LaFollette's alleged disloyal St. Paul speech and make plans to begin hearings.

The war inquiry of the senate military committee will continue tomorrow with further investigation of clothing conditions and the house naval committee will resume examinations of the navy department's conclusion of the army inquiry late this week or earlier next week is planned by the senate committee so that it can present its report and press the bill for a new department of munitions and other proposed legislation.

Investigation of the delay in reconstructing merchant ships will be resumed Tuesday by the senate commerce committee.

The coal and sugar shortage inquiries of the senate manufacturers' committee will continue. Several important witnesses are to be heard. Several appropriation bills are nearing completion for early consideration in the house but postponement for some time of further taxation or revenue legislation is planned by senate and house leaders.

The rules committee of the house is preparing to take up the president's proposal for creation of a special house committee to have sole jurisdiction over water power legislation so that the draft of a bill prepared under the direction of Secretaries Lane Baker and Houston may be rushed through the house and put before the senate.

Services at Moore's Station

Miss Emma L. Tucker the noted evangelist and Christian worker who so delighted the two audiences at Moore's church on Sunday Dec. 23rd has very kindly consented to hold a series of meetings at Moore's Station church beginning Sunday Jan. 13th on which day she will hold services both afternoon and evening. She will give the church a week of her valuable time. Services every evening at 7:30 o'clock. All are cordially invited. Come and bring your friends.

Farmers in Bradford county have ordered a car load of Irish potato seed co-operatively. The acreage on any farm will not be large, but a number of farmers ordered as much as twenty five bags of seed. Farmers in the Worthington Springs section expect to plant at least a hundred acres to potatoes requiring one or two cars of seed.

STOCKHOLM NO PLACE FOR TEUTON

GERMANY AFRAID TO TREAT WITH PRUSSIANS THERE

The peace negotiations between the Central Powers and the Bolshevik government in Russia have been temporarily suspended by the Germans. From the meager advices received it appears the rock upon which a continuation of the parleys split was the demand of the Russians that the conference be resumed at Stockholm instead of at Brest-Litovsk.

German advices Saturday were to the effect that the Bolshevik delegates on finding that the representatives of the Teutonic allies were at Brest-Litovsk awaiting them had started for this town but nothing has come through to show that there had any foundation in fact.

Feat Entente Diplomats. A belated dispatch from Berlin gives as the reason for the refusal of the Germans to consider Stockholm as a place where peace might be adjournedly discussed the fear that British French and American diplomats in the Swedish capital would by intrigue render all endeavors futile.

Dispatches from Berlin indicate that although the Reichstag parties in the main are supporting the government considerable political unrest is prevalent and that strong efforts are being made to hold the Socialists in line.

Although the weather continues cold and much snow lies on the ground in northern France there has been considerable activity by the infantry in the Artois sector in Flanders and in the eastern part of the front along the Moselle river.

In the Italian theater the big guns on both sides are hammering away at opposing positions in the hills and on the lower reaches of the Piave river. Several attempts by the Austro Germans to make headway with small detachments between the Brenta and the Piave river were repulsed.

Food Situation Serious. Washington Jan. 7.—The food situation in the allied countries of Europe is graver than it has been at any time since the beginning of the war and is giving American government officials deep concern.

In England and France the situation is described as critical in a cablegram to the food administration today from Lord Rhondda the British food controller which concluded with these words: "I view the situation with grave anxiety. Yesterday a cablegram from the French government said that the wheat crop had been requisitioned and that the bread ration would be cut to allow only seven ounces of bread daily to all persons except the very poor and those doing hard labor. In Italy conditions are not as good perhaps as in either England or France."

W. O. W. Attention. Installation of officers on Wednesday night at seven o'clock. Refreshments. F. L. Miller Clerk.

UNPRECEDENTED WEATHER FOR FLORIDA PENINSULAR DID LITTLE DAMAGE HERE

SIX COLD NIGHTS FAILED TO HURT VEGETABLES BADLY

Sometimes a Florida freeze looks like a great hardship but very few of them are hardships and many of them really prove to be blessings in disguise. While the cold of last week which was unusual for Florida looked like it would kill everything in sight in the vegetable line it has not hurt the lettuce as badly as the people thought it would.

HUMAN FLY HERE WED. NIGHT

Will Climb Court House Building at 7:30

Jack Williams, the only and original Human Fly is probably the greatest wonder of the age even Edgar Rice Burroughs creator of Tarzan could not picture a more unique character. Jack Williams began climbing at the age of twelve according to his own admission but never really made a big success of it until about four years ago even though he always had a mania for climbing.

Williams' "Human Fly" exhibitions are most thrilling even on a small building although he does not like to climb anything less than ten to twenty story ones. He makes one shiver to see the stunts he pulls off on five and six story buildings. His exhibition here is under the auspices of the Seminole Guards and is given for the benefit of the Armory expenses: 30 per cent of the money collected goes to this fund which is used for the benefit of the Guards.

Williams will make his climb promptly at 7:30; he will tell us in a few words about the war and why he thinks we should ALL do our bit to help Uncle Sam win this war; he will take up a collection and donate 30 per cent of all he collects to the Armory fund of the Guards. Cities like New York Albany Newark Buffalo and in fact most of the large cities have donated as high as \$1,000 in one day. The Human Fly's work brings one to realize that we are really up against the most atrocious wars ever heard of and the end is not yet it is in fact hardly begun and unless we all do our part we cannot win this war.

Williams' work brings one to realize that we are really up against the most atrocious wars ever heard of and the end is not yet it is in fact hardly begun and unless we all do our part we cannot win this war.

Williams' work brings one to realize that we are really up against the most atrocious wars ever heard of and the end is not yet it is in fact hardly begun and unless we all do our part we cannot win this war.

LIVE STOCK MEETING

Jacksonville Will Have Large Gathering of Stock Men

The annual meeting of the Florida State Live Stock Association which convenes in Jacksonville this week Jan. 9 to 11 is attracting nation wide attention.

Not only are there speakers from several states from Texas to Illinois but one of the great breeders associations has sent a car load of pure blood registered bulls to be sold at the auction sale of pure blood and high grade live stock which will be made a quarterly event in the Jacksonville market.

Col. M. A. Judy secretary of the American Aberdeen Angus Breeders Association is here with Col. W. H. Cooper of Hedrick Iowa from whose farm the bulls were shipped. It is not Colonel Judy's first visit to Florida. He was here last September in attendance on the live stock round up at Gainesville and was so much impressed with what he saw and heard on this visit that he was convinced that the southeast offers one of the best markets in the world for the breeders of pure blood stock.

Colonel Judy made the statement at the round up that Florida was the most talked of state in the live stock world and his attendance on the annual meeting of the Live Stock Association proves his sincerity especially when he induces one of the prominent breeders in his association to bring a car load of some of the best bred cattle in the country to offer in this market.

These bulls will be sold Friday Jan. 11 at 2 o'clock with other pure bred and high grade cattle. The sale of hogs will take place Wednesday afternoon.

Henry Ford has ordered a shipment of Dade county sugar cane and sorghum sent to Detroit. It is not believed that he proposes to make slivers from it but that he probably is attempting to find cheap fuel to take the place of gasoline. In which case Florida's cane industry would get another boost.

AMUSEMENT

Charlie Gano (Chef)
That pastmaster of black face comedy who is also the stage manager and producer for J. A. Coburn's Greater Minstrels the inimitable "Charlie" Gano has sprung a new character for cutting his fun and witticisms this season in the "Chef" of the "Eukalali Club" at which the American All-Star Tennis Champions are entertaining with their valets in Honolulu. Everybody knows and likes Gano both on a off of the stage. He is in a class by himself as a performer and a clever, genteel chap to meet at all times. In his latest character creation he is better than ever and his claims for ability in gastronomic delicacies while musical and up to the minute on topical events are not guaranteed to be followed literally by the good housewives looking for new receipts and novelties for home consumption. "I'm The Cook" sings Gano and no one doubts it from his get-up and capers in the all new first part of Coburn's minstrels this season. Backed by a fine chorus and clever

TOM POST COMEDIAN AND SINGER

COBURN'S MINSTRELS
LYRIC, THURSDAY, JAN. 10th
Soloists crackerjack dancers and funny endmen with everything new bright and beautiful the attraction is said to be superior in every way to any former season. With an excellent past reputation for twenty years a fine performance should result on Thursday Jan. 10th at the Lyric.

Novel Musical Feature

The "Five Syncoated Saxones" a novel up to the minute musical feature specialty appearing with J. A. Coburn's Greater Minstrels at the Lyric on Thursday Jan. 10 has broken away from the old worn out ideas and present a very clever musical and dapper caberet-melange act original and pleasing with this well known attraction this season. Opening with five saxophones and dressed in neat Tuxedos two of the number as black face comedians and dancers they proceed to exude musical numbers dances and comedy steps all the way from the syncoated ragtime jingles to grand opera without a minute's wait or cessation from action throughout the act closing with four trombones and cornet in a melange overture number that would make the average darkey jazz soloist wild with envy. It is new ideas and departures from the old routines which makes this company and its members welcome visitors to Sanford. Don't miss the show on Thursday Jan. 10th.

Got His Goat Mad

The supposition that all fat men are jolly and never lose their temper or peace of mind is according to Charlie Gano a mistake. Gano is the feature comedian and assistant manager on J. A. Coburn's Greater Minstrels and nothing pleases him more than getting something on "Cobe" to jar him out of his placidity. While making a parade in the south this past season Gano claims

to have heard the following conversation between two darkeys. Gano and Coburn always lead the street parade walking opposite each other. "Look yer boy Whuffo make dat big fat man walk so far ahead dis little man ober hesh huh?" "Pshaw niggah he ain't walkin ahead he just stickin out a little fuder dat's all." Gano says that never fails to get Cobe's goat when he tells it as Charlie is no featherweight himself.

WATCH PRICES ON FEED

All users of feed such as "shorts standard middlings mixed feeds flour middlings bran" etc. which come under the common term of mill feeds, are now protected as to price by a recent ruling of the United States Food Administration which went into effect on the 25th of December.

Food Administrator Braxton Beacham calls special attention of the people of Florida to this ruling and wishes them to be sure that retail prices charged are not unreasonable. The action of the food administration should work a benefit in prices to the consumer as the mills have been limited to a certain charge on feeds of the kind mentioned and the limitations extend to the wholesale dealer and the licensed retail dealer so that no extortionate charge can be made or maintained.

Millers are required to use not more than 264 pounds of wheat of 58 pounds to the bushel in making 196 pounds of 100 per cent flour. Millers can remove 5 per cent of the flour so milled and sell the part removed as a lower grade flour but the 95 per cent cannot be further separated or divided and none of the flours can be sold or mixed as feed.

While the manufacturers are allowed a range of prices that will allow competition they are not allowed to exceed 25 cents per barrel at the mills and differential charges are also fixed so that complete stabilization is secured.

Manufacturers are also held to observance of prices which shall not exceed 38 per cent of the cost per ton of wheat delivered at the mill and the price must average with the previous month's cost. Dealers and manufacturers are held to observance of rulings regarding differentials for certain kinds of packages and sacks including wooden barrels, burlap and cotton sacks and paper bags.

Food Administrator Beacham emphasizes the fact that the new order will no doubt result in lower prices for the feeds mentioned and con-

sumers can expect to see some reduction in the near future.

The rulings referring to the subject have been made a part of the general food regulations and all dealers who are not entirely familiar with them should at once communicate with the Milling Division at Washington for detailed instructions.

Crossed the Euphrates.

The word Hebrew first occurs as given to Abraham by the Canaanites (Genesis 14:13) because he had crossed the Euphrates, the name signifying "beyond, on the other side."

All-wool clothes and all-wool service

GOOD service isn't worth much without good merchandise, and good merchandise is all the better when good service goes with it. It's good service to offer such large selections of

Hart Schaffner & Marx
all-wool clothes

It's better service to guarantee them, as we do, to give you lasting satisfaction.

You'll like these clothes; the fabrics, the style, the workmanship; and the fit is assured; otherwise you don't buy. Your satisfaction is the thing. When you're satisfied, we are; and not until.

That kind of service adds value to any transaction; come in here and see how much it adds to clothes buying.

CURBSTONE GLEANINGS

BUDGET OF OPINION "JUST BETWEEN YOU AND ME."

EVEN THE GATE POST NOT IN IT

A CHIEF IS AMONG YE TAKING NOTES AND FAITH. 'HE'LL PRENT 'EM'---SO SAYS SAUNTERER.

Friend Branch of Orlando (same state who writes for the Times-Union Tampa Tribune Conway Chronicle-Pinecastle-Pleasant Ocean Occurrence and the Orlando Sentinel) has the following in that paper:

"The Town Slouch is quite a rhymer. We are anxiously waiting for him to write a verse and make something rhyme with 'camouflage.' To which we send the following answer:

Camouflage
In the days of long ago
Before Orlando was on the map
When Branch and Slouch were embryos
And Bossiere was a Yap
While Kaiser Bill was working
To put the world on the bum
And we were busy shirking
The war that was sure to come
We talked the old United States
And chewed and spit terbacker
Knew nothing of the armor plates
Or the fellow called a slacker
Cranked up the horse and wagon
That was good enough for us
And if the top was seggin'
'Twas still the family buss
We used to have a cabbage patch
But now it is called cabbazh
And to make the cow stable match
We turned it into a grazh
And now to hide the cabbage land
And show up the fine garazh
The artist takes his brush in hand
And we call it cam-go-blazh
He can change the face of nature
Even the face of Branch and Slouch
Change the Florida legislature
Make Mayor Giles a grouch
He can change our atmosphere
Change sunshine into snow
Turn water into lager beer
Show Beeman with a hoe
Yet on one thing we can bank
We have him stopped foursoth
He can't make B. M. R. a Yank
Or Joe Ferris tell the truth
Sometimes we are changing things
Branch thinks it a mirage
But we have granted his request
And he can camouflage.

Did it ever occur to you:
That the man who had bought
most liberally of Government bonds
never questioned the safety of his
security?
That the woman who was knitting
the most socks and saw articles
never believed the silly stories about
the Red Cross being a crooked institution?
That the soldier boy about to
board a transport and join his comrades
to France and Great Britain
never was known to doubt the sincerity
of the man with whom he was
to buy his "Sundlers"?
No indeed!
All the wells and millings and
fisheries are set into circulation
by a few fortunate capitalists who
were just built to be abstractionists
and somehow can't help it.
They are the kind of people who
oppose public improvements, will
not buy tickets for the chautauque
criticize the minister if he smiles in
public and attach the proscription

efforts to keep these people out of Sanford and if he cannot invoke the law he can ask for a vigilance committee and they can handle the job all right. If the law will not make these gentlemen move on and if they are caught here again it will not be good for them. And the next legislature of Florida should endeavor to pass adequate laws regarding these get rich quick schemes that would stop it in this state. Other states have laws that keep or endeavor to keep suckers from parting with their hard earned cash but in this state any kind of bunco game can be worked with impunity.

Now that Sanford has hotels our own people should boost them at all times and do not let the knockers from abroad get the idea that they can come here and knock our hotels. If Sanford people are good enough to sell goods to they are good enough to receive some consideration from those who wish to sell goods here and if a traveling salesman knocks any institution in this city he should be blacklisted by the merchants. There may have been a time when these knockers were warranted in a measure but not now and we should be ready to stand by our hotels and all of our institutions at all times. Sanford is just as good a place as there is anywhere and it will be much better if all of us pull together for each other and for the city generally.

The ten day period is replete with valuable agricultural information available to any one who enrolls in the course. The attendance is not limited to farmers. Tuition is free and there is no charge for registration.

Keep Sheep for Profit
At this time there is reason to consider seriously the possibilities of sheep husbandry in Florida. The supply of wool is being heavily drawn on and flocks in various regions have been seriously depleted as a consequence of the war. Wool substitutes are at a premium and the wastage of war is enormous. The production of both wool and mutton in this country has dropped below consumption and is apparently still falling.

From this it must not be inferred that Florida farmers should rush into the sheep business says the University of Florida extension division; however with proper care a goodly number of sheep could be produced profitably. Too often it seems that sheep tending is apparently a lost art. Indifferent care poor nutrition and the fluctuation of market conditions have contributed a lack of confidence in this business. With poor care sheep degenerate become parasitic and the business ends in ruin. Sheep respond however to intelligent care and usually a healthy sheep is certain to be a profitable one.

Success with sheep consists of more than buying a flock and placing it on the farm. The shepherd must know the habits and characteristics of his flock and be quick to interpret the unfailing signs of disorder or health. The ability to look beneath the exterior for evidences of drift or disorder is essential with all livestock and constitutes one of the essentials of a successful shepherd. A flock well kept will bring to any land much fertility and to the farm homes a good share of comfort and prosperity.

In spite of instances where sheep raising has been compared unfavorably with other farm activities sheep certainly have a useful place to fill. This will become more apparent as farm practice becomes better adjusted to present economic conditions and sheep find their true place in Florida agriculture. All evidence points to the great safety of diversity in farming with emphasis on live stock. Much farm land in west Florida is rough land not

suitable for use by other stock than sheep and such land can be made to pay a substantial profit if devoted systematically and intelligently to sheep.

Pahokee is All Right
As undisputable evidence that the cold wave which swept the country during the past week did not serious injury to the crops on the East Beach Lake Okeechobee the freight boat "Indian River" of the Pahokee Transportation Company arrived yesterday morning with two car loads of peppers and eggplants bound for the eastern markets. The sight of these perishable vegetables being unloaded at the canal was a very interesting one. The "Indian River" will return this morning with a cargo of two car loads of miscellaneous freight bound for different places in the 'Glades.—Palm Beach Post.

Folding Stairs.
Recently a stairway has been patented for reaching seldom used portions of buildings. It folds into a ceiling and is hidden by a panel when not in use.

Decay of Tin.
The most remarkable example of allotrope disintegration of metals is perhaps that of tin. Investigation has shown that the disease can only occur in a temperature not exceeding 64.5 degrees Fahrenheit. Tin decay is, therefore, most prevalent in cold climates.

Beautify the home and yard with a concrete flower vase like this. Away with the old style tubs. We transplant if you wish. Drop us a card. **K. S. JOHNSON & SON** Box 1573.

Farmers and Fruit Growers

Items of Interest for the Man Behind the Plow

Pedigree Animals are Best
Pedigree animals are likely to be more efficient than those of uncertain or haphazard breeding. Farmers are learning this through experience and the present high prices of feeds are emphasizing its importance. Few farmers realized the value of good animals as long as feeds of all kinds were cheap. Now that all prices are high it is necessary that every animal on the farm be as economical a producer as possible. It makes no difference whether the animal is a beef steer, dairy cow or a hog.

The importance of this is shown by the University of Florida experiment station in discussing the dairy cow. According to our best authority the average dairy cow in Florida produces only 265 gallons of milk in a year. The best dairy cow in the state produced nearly 900 gallons of milk. Little more feed was required to maintain the better cow than for the average cow.

How to Dry Cure Pork
The method of dry curing pork described by the University of Florida extension division as follows: After the meat has been thoroughly cut of place each piece on a clean plucked muslin cloth about a yard square for an open floor sack after covering the cloth with newspapers. Place the ham or shoulder skin side down on top of the papers and apply the following:
For a fifteen pound ham take 1 teaspoon of granulated sugar, 2 tea-

spoons of salt, 2 tablespoons of black pepper and one tablespoon of cayenne pepper. Place all in a vessel and mix thoroughly. Rub this mixture into the meat until every part has absorbed all it will doing the work thoroughly. After this application fold the cloth entirely around the meat being careful that every piece is well covered and hang in a cool place.

State School for Farmers
Florida's best farmers realize that the greatest success in farming depends upon keeping up to date in using the results of sound investigations on their farms. They know agricultural practices are being gradually changed and improved and they appreciate that the expenditure necessary to maintain specialists at the Experiment Station and College of Agriculture is not wasted but returns many fold to those who observe the results obtained from the experiments conducted.

The University of Florida through its extension division is carrying these results to the farmer but not in as great detail as they are presented in the annual ten day short course for farmers. At the University the entire faculty of the college and the experiment station assisted by members of the extension division staff are available as instructors during the period of the short course January 15 to 25.

These men know Florida conditions and fully understand methods for applying the results of experimental investigations and research to farms in this state. The information given is specific not general and the particular problems of individual farmers will be considered and solved.

This past season has shown clearly the need of extreme care in choosing planting and cultivating the staple farm crops. Haphazard method at any one of these steps spelled failure or near failure. Why not study the essentials under the direction of the state's soil and crop specialists? Many cows on Florida farms are not paying their board and are discounting the profits from other cows. Make old Bessie deliver the butterfat or replace her by a cow that will. Learn how to discover the "boarders" and make the dairy business profitable.

If interested in fruit growing or gardening or both the farmer will find the instruction in horticulture of great interest and value. There is not enough fruit grown in the state and the farmer should be giving this work more attention. Profits in handling livestock are based upon knowledge in buying breeding feding managing and selling. The live stock farmer cannot absorb too much knowledge along these lines and much will be offered him at the short course.

Every season finds the farmer's profits reduced by insects and diseases. Specialists at the University know these enemies know how they grow and can offer the best methods of holding the pests in check. The knowledge gained from one lecture might pay the expenses of attending the whole course before the year is over.

BURN'S MINSTRELS

Appearance Here Presents Richly Costumed Troupe - Features Are Unusually Good

Information that Gano was to be present in all his glory as one of the greatest burnt-cork artists on the American stage today.

An unusually large audience gathered at the Century last night for the annual appearance of the celebrated minstrels...

Coburn has collected one of his best companies in years for the 1917 season. The soloists Frank Shearer, Jimmy Bishop, Lester Lucas...

The first part and its climax however are reserved to that prince of comedians Charley Gano...

Coburn's olio of vaudeville features for the 1917 season are by far his best. George and George the bounding bounders proved a sensation...

The climax of the evening was Gano's trip on a submarine chaser introducing a fan fare of comedy and mechanical efforts that kept the audience in an uproar.

CITY COUNCIL SWORN IN FOR TERM

C. H. DINGEE MADE PRESIDENT OF NEW BOARD

One of the momentous occasions and yet one that attracted but little attention was the inception of the new city officials into their offices for the term of two years from the first day of January.

The new aldermen then met and elected C. H. Dingee as the president of the Board of aldermen and in this selection is a man in every way fitted to perform the functions of this important office.

The other retiring member W. W. Abernathy has also made a good alderman but found that the many duties of his position on the important committees assigned to him kept him from his own business and he would not consent to become a candidate.

The two new members G. F. Smith and W. M. Leffler need no introduction to the people as they have been residents of this city for many years.

As the mayor's appointments have not yet been made and the committees of the council have not yet been named they are not known at this writing but will be made public later.

Weeks, Walfred Pierson, Vander Perritte, Adolph Shaw, Barney F. Griggs, Harry Miles, Duncan Mitchell, Drawdy Matthers, Lewis Collins, John A. Rhodes, John R. Long, William B. Lynch, James H. Lee, J. C. Hutchinson, C. T. Smith, Roy Mason, Dr. T. A. Neal George Hyman

WIN TWO MORE Sanford Victorious In Every Game Played

Last Friday night the Sanford High School team defeated the boys' team from Daytona in one of the hardest fought games seen on the local court. All during the first part of the game it looked as though the local boys would be defeated by the heavier visiting team but when the timekeeper's whistle blew the score was tied. An extra period of five minutes was allowed for play and again the score was tied. Another five minutes was allowed for play and Issy Kanner put Sanford in the lead. The game ended with the score of 26 to 24 in Sanford's favor.

Sanford's line-up: Issy Kanner (20) forward G. W. Spencer (6) forward Hay Burns center Rex Holiday guard Robert Cobb guard. Daytona: D. Whipple (4) forward W. Snyder (2) forward W. H. Pope (8) center L. Waldron guard F. Snyder guard.

The boys play Daytona a return game next Friday in Daytona.

Last night the girls with all their players back in the game defeated the Stetson University with the one-sided score of 28 to 11. The game was fast, being Sanford's from the very start. Stetson girls were unable to keep up with the fast team work of the locals. They put in fresh players to try to keep down Sanford's score but it did little good. All the girls did well and deserve much credit. Stetson has been defeated only once by a High School team in Florida in the last few years being defeated some three years ago by Duval and then by only one point. Sanford's line-up:

Cora Lee Tillis (19) forward May Thrasher (9) forward Helen Hand jumping center Helen Peck running center Ethel Henry guard Dorothy Rumph guard. Stetson line-up:

A. Peyton (8) forward F. Harper (3) forward W. Bates jumping center O. Bowen running center A. Taylor guard M. Hulley guard.

Sanford boys and girls are working hard this year to make a record for Sanford in athletics and deserve the support of the town. This next game to be played in Sanford will be Friday night Jan. 18 at which time the boys will meet the Ocala boys. Come out and give a cheer for Sanford.

RED CROSS NOTES Items of Interest Regarding This Great Work It is desired that any one giving entertainments for benefit of Red Cross work confer with Mrs. R. J. Holly who has been appointed director of entertainments in order that dates and character of entertainments do not conflict. This office has been created so as to obviate any danger of overlapping in this phase of the work.

Service flags can be had at the work rooms. Any member desiring a flag please call at Rooms 1 and 2 in Pico Block.

Headquarters has promised buttons for all new members.

The Seminole Chapter sends greetings to all new members and wishes to express heartfelt appreciation of all who assisted in any way in the recent membership campaign.

Regular business meeting Friday January 12th at 2:30 at Woman's Club. A full attendance is desired.

Minutes of Executive Board Jan. 3rd the chairman of the Seminole Co. Chapter A. R. C. presided at a called meeting of the executive board held upon that date.

Minutes of last meeting read and approved.

A communication from headquarters promised membership buttons to all new members: Mr. Holly moved and Mrs. Turner seconded a motion that the secretary be instructed to apply for 1000 buttons. Carried.

Upon a recommendation from chairman that the sweaters made from the first \$75.00 worth of wool be sent to Seminole county boys. Mrs. Turner moved that Mrs. Hill be instructed to ship the sweaters sets now ready to the Captain of Co. C 124 Inf. Macon Ga to be given to Seminole county boys who have not been supplied. If there are more than enough sweaters to supply Seminole county boys the surplus are to be given to other boys who have no sweaters. Seconded by Mr. Deas. Carried.

Mrs. Turner spoke of work room needing chairs and other equipment. Motion by Mr. Holly seconded by Mrs. Turner that the remaining expense of work room including janitor's pay be covered by the secretary's petty cash account which is to be increased as needed. Carried.

Motion that the selection of janitor and amount of pay also all matters pertaining to running expense of work room be left with Mrs. Speer. Carried. Motion Mr. Deas seconded by Mrs. Gerror. Upon suggestion the secretary was instructed to write the Elks Lodge a note of thanks for the use of a room in their building as a work room.

Mrs. Curlett moved that the chairman appoint an entertainment committee to whom all benefits shall be reported to avoid any conflict in dates seconded by Mr. Holly. Carried. Mrs. R. J. Holly was appointed as chairman of entertainment committee.

Upon a recommendation from headquarters Mrs. Curlett moved seconded by Mrs. Deas that the chairman of all standing committees be made members of the executive board. Carried.

Motion that the minutes of the executive board meetings be published in the Sanford Herald by Mrs. McLaughlin seconded by Mrs. Gerror. Carried.

Treasurer reported \$125.00 approximately in checking account beside this chapter's portion of Xmas drive.

Chairman reported that chairman vice chairman secretary and treasurer acting in an emergency had voted \$110.31 to purchasing committee.

Mrs. Turner suggested that all future board meetings be held in work rooms.

No further business meeting adjourned.

Annie L. Carter Secy.

Kempie Works Translated. The works of Thomas Kempis were written in Latin, but they have been translated into the language of almost every civilized people.

IN SOCIETY'S DOMAIN

HAPPENINGS OF INTEREST IN AND AROUND SANFORD Mrs. Norma King McLaughlin, Social Editor. Anyone having guests, parties or any article for the column, it would be appreciated if they would telephone 270-3

Mr. and Mrs. G. I. Loucks entertained at cards on Friday evening in honor of their son Lieut. Earl Loucks who is home on a two weeks' leave of absence from the Aviation Camp at El Paso, Texas. Christmas decorations prevailed in the rooms where the tables were arranged for the interesting games of auction. After a series of progressive scores were added and the ladies' prize a lovely pair of silk hose was won by Mrs. T. A. Neal and the gentlemen's trophy a silver cigar cutter fell to Mr. A. P. Connelly. A delicious lunch was served. The guests for the enjoyable occasion were Mr. and Mrs. A. P. Connelly Mr. and Mrs. W. J. Thigpen Mr. and Mrs. Morse Mr. and Mrs. Deane Turner Mrs. Neal Mr. and Mrs. Roy Symes Mr. and Mrs. G. F. Smith Mrs. G. D. Bishop Miss Adelaide Higgins Miss Catherine Wilkie and Lieut. Loucks.

One of the prettiest parties of the holiday season was that given Friday night when Mrs. Robert Grovenstein entertained in honor of her niece Helen Peck and the boys and girls who are home from school for the Xmas vacation. The attractive home was aglow with holiday decorations of red and green. Wreaths of holly and bright red berries and red bells and ribbons gave a gala air. The seven tables for the players were arranged in the living room and parlor and for some time the absorbing game of progressive hearts furnished entertainment for the guests. In the game highest score was made by Cora Lee Tillis who received a lovely box of correspondence cards and the boys' prize a knife was won by Edmund Meisch. Delicious refreshments consisting of hot chocolate sandwiches and pickles were served at the close of the happy evening. Mrs. Grovenstein was assisted in entertaining by Mrs. Tom Getzen. Those present were Sarita Lake Norma Herndon Agnes Dumas Dorothy Waring Marjory Clay Catherine Levis May Thrasher Ethel Henry Florence Henry Dorothy Rumph Cora Lee Tillis Helen Peck and Miss Owens; Jack Leach Hawkins Connelly Walter Connelly Edmund Meisch G. W. Spencer Harry Lewis J. D. Woodruff Israel Kanner Leslie Roller Lafayette Tillis Lee Peck Frank Purdon Max Stewart and Alfred Robson.

Mrs. D. L. Thrasher was hostess for the "Spentrift Club" and a few other friends Friday afternoon entertaining at her attractive home on Park avenue. There were four tables arranged for the players in the living room. Those enjoying the spirited game and the delightful hospitality of Mrs. Thrasher were Mrs. Hart Mrs. Watson Mrs. Keeler Mrs. Hill Mrs. Morgan Mrs. Henry Mrs. Puleston Mrs. Newman Mrs. Clay Mrs. Housholder Mrs. A. B. Wallace Mrs. Connelly Mrs. J. M. Wallace Mrs. Bishop Mrs. Bell and Miss Charlotte Hand. Highest scores were made by Mrs. A. P. Connelly and Mrs. A. B. Wallace who were presented with silk hose. A tempting luncheon was served during the social hour after the game.

Miss Ethel and Florence Henry were charming hostesses Saturday evening when they entertained at an informal supper party at the home of their parents Mr. and Mrs. C. E. Henry especially honoring Norma Herndon and Sarita Lake two popular girls who have been home from school for the holidays. The home was beautiful in Christmas decorations. In the dining room the table was centered with a basket of exquisite red roses and asparagus fern. Covers were laid for twelve and a tempting supper was served. The girls present at this happy informal affair were Misses Agnes Dumas Dorothy Waring from Charleston S. C. Marjory Clay from Arcadia Fla. Sarita Lake Norma Herndon Catherine Levis Kathleen Brady May Thrasher Dorothy Rumph and Helen Peck.

Mrs. T. W. Mitchell and daughter Miss Susie Mitchell of Yatesville Ga. and Miss Mary Johnson of Macon Ga. are the guests of Mrs. Mitchell's parents Mr. and Mrs. Brown on Sanford Heights.

Mr. J. C. Hutchinson returned to Camp Jackson Friday after spending a week in the city the guest of Dr. H. H. McCaslin at the Gables. Mr. Hutchinson enters the officers' training camp on his return.

Miss Lillie Farnsworth who spent the vacation in Tampa the guest of her brother returned home Saturday.

Mr. and Mrs. G. C. Chamberlain entertained Mr. and Mrs. W. E. Watson and their mother Mrs. R. S. Keelor at their beautiful home on Beardall avenue on Sunday.

Miss Thelma Harber Miss Annette Harber and Young Simmons motored over to St. Augustine Sunday and spent a day in the Ancient City and returning home yesterday.

Miss Elizabeth Charles has returned to Columbia S. C. after spending the holidays with her father Mr. T. O. Charles of this city.

Mr. and Mrs. Lyman Ward and son left Friday night for Ledy N. Y. having been called to their son Lieut Ward who had had a serious accident.

Mr. and Mrs. E. G. Brown and daughter Miss Bernice Brown of Hamburg Iowa are winter visitors in the city at the Gables.

Miss Nell Weldon of the High School faculty returned Sunday after spending the vacation with home folks at Milner Ga.

Misses Norma Herndon and Sarita Lake have returned to school at Staunton Va. after spending the holidays at home.

Mrs. E. E. Watkins of Tampa arrived in the city Friday and will be with Mrs. Wilmot at the French Shop this winter.

Mrs. Kirby and Miss Kolb who have been guests of the Hotel Carnes for some time left Saturday for Miami.

Felix Frank left Friday for Moore Haven where he expects to remain for several weeks.

Mrs. J. F. Hayden and Miss Hayden left Saturday on the boat for Jacksonville.

Mrs. Norma King McLaughlin is visiting this week in Leesburg the guest of friends.

Mrs. Hal Wight is home from Winter Park for the week end.

Woman's Club Notes On Thursday afternoon at Jan. 10th promptly at 2:30 o'clock the neighbors and friends of Mrs. Moughton are urged to be at her home on Union avenue to attend a meeting conducted by Mrs. Berry in the interest of food conservation at which time a demonstration will be given showing one or two uses to which the fireless cooker may be put also the value of water glass preservation of eggs and some other facts of interest and importance regarding food. Everyone whether club members or not are asked to come.

At the Club House on Friday afternoon January 11th at 2:45 a meeting under the auspices of the Home Economics Department Mrs. Berry chairman will be held in the interest of food conservation when both fish and vegetable chafoyote will be talked of. Please any one interested bear this date in mind and come.

Mrs. Moughton chairman Welfare Department wishes to thank all who so generously gave their time and efforts to the sale of Red Cross Christmas seals. The state at large should be proud and happy to see the results of the sale during Xmas week. Sanford had for her share, to report the amount of \$70.55 toward this most urgent and worthy cause.

The Literature Department have a program on Wednesday the 9th beginning at 3 o'clock and this is also the date for the election of officers and the department business. Members please make an effort to attend.

Tuesday the 8th the Social Department has a business meeting and novelty party. At this meeting the nomination of chairman for ensuing year will be in order as well as other business of the department.

Our president Mrs. Galloway wishes to remind the different departments that now is the time for nomination of their chairmen for ensuing year.

An Extravagant Woman. "My Auntie Frettle was in certain ways the most extravagant woman I ever knew," stated the old codger. "For example, she got the measles at sixty-seven, when by taking time by the forelock she could just as well have had them at nine."—Judge.

Grapplers to Try Hand in York When Boxers Out

Offers Have Been Made to Stage Test Between Earl Caddock and Joe Stecher—Would Fight Arena Anywhere.

The curfew that tolls the departing boxers in New York will be in the grappling crowd. For years the wrestlers have not lost soft picking in New York state, the popularity of mitt contests now they have high hopes of getting the spotlight and holding it in time as their empty jeans help green and yellowbacks.

Some of the men long identified the promotion and of boxing have called their attention to matchmakers. Already offers have been made to induce Earl Caddock and Joe Stecher to stage a contest in Gotham dock just now is recognized as heavyweight mat champion, due recent victory over Stecher. Even that last affair Stecher has called the triumph of Caddock the "fluke" order and has been long for another session of the with him.

Wrestling Will Draw Two winters ago a wrestling val was put on in New York in addition to the boxing contests drew fairly well. There is no doubt but what wrestling of a class would bring out the fans at prices were asked. A Caddock bout certainly would be an arena.

The pair of youngsters

above are the outstanding wrestler of the top-notch division. But many other prominent in the sport day who might be able to give of them a mighty tussle, but Strangler Lewis, Zhyzako, the European athlete; Ivan Llew Mort Henderson.

Lack of Light Grapples. Just now the lighter division devoid of national prominence during the last few years quite a number of youngsters have been who need only a little more to bring them out and rank them with best low-weight grapplers in the story of the sport.

Wrestling was a great favorite the populace some years ago, but of crooked deals were pushed the public and the game was strangled. Since then the wrestling element discovered the error of crooked and now when the chance presents itself to perform a "come back" elect to keep the sport honest, that is the case then wrestling provide an excellent substitute for boxing.

Most Popular Game of Many Though Risk Hands in Street Wielding of Racket. Tennis seems to be one of the favorite outdoor sports of musicians the violinists and pianists risking high priced hands in strenuous wielding of the racket.

John McCormack is an enthusiastic little skill, and possesses maps to prove that he has played with Laughlin, Brokes and Wilding. On his opponents this summer has Fritz Kreisler, the violinist.

Pablo Casalo, the Spanish one also plays a creditable game, the names of Frances Rogers, Ione, and Marshall Kermochan, a power, stand well up in the ranks of the West Side club, New York.

Two composer-conductors, Hultin and Victor Harris are on tennis committee of the Madison club, East Hampton, L. I.

White Sox Secretary Has Lost Ten Pounds Harry Grabner, secretary of the White Sox, who had charge of the seat sale to the world's series game, admitted that he had lost ten pounds weight during the week.

He attributed this loss of flesh to overwork and was due to abuse which he had received from baseball fans who failed to get seats to the game.

Earl Caddock.

Chickens In Your Home

EVERY FAMILY SHOULD HAVE A FEW OF THEM FOR COMPANY

Every family which has even a small back yard can go far toward applying itself with eggs and producing some poultry which will lessening its draft on the nation's meat supply. Even in a small back yard with the aid of a few hens much of the chicken garbage can be manufactured into food instead of being wasted at a time when there must be no waste of anything that can be made edible. Keeping chickens even in a small scale can be made a pleasant worthwhile recreation particularly interesting to a child old enough to assume responsibility.

This article is the first of a series of simple practical instructions on keeping poultry on a small scale. The series is designed primarily to help beginners start their flocks but should convey valuable information to those who have had experience or who keep poultry on a suburban or larger scale. The facts are those gathered by the government's poultry specialists on the department of agriculture's poultry farm at Beltsville, Md., and from the thousands of private poultry yards which they have visited and studied. These specialists will be glad to send bulletins or furnish advice to those interested in producing more eggs and chicken meat during the emergency.

Keeping small flocks of hens in a village or city back yard has proved successful. It is an important branch of the poultry industry. Though the value of the product from each flock is small in itself the aggregate is large. The product of each flock both in the form of eggs and fowl for the table may be made at a relatively low cost because of the possibility of using table scraps and kitchen waste which would otherwise be thrown away. A small flock of hens even as few as six or eight should produce eggs enough where used economically for a family of four or five persons throughout the entire year except during the molting period and fall and early winter. By preserving surplus eggs produced during spring and early summer this period of security can be provided for. Keeping pullets instead of hens also will insure production of eggs at this time. Not only will the eggs from the home flock materially reduce the cost of living but their superior freshness and quality are in themselves well worth the effort expended. The need for an extension of poultry raising is particularly great in those sections where the consumption of poultry products exceeds the production with the result that prices are high.

Objection frequently is raised to the keeping of poultry in towns and cities because of the odor which may result and also because of the

noise made by roosters crowing particularly early in the morning. In some cities regulations have been formulated to prevent or control poultry keeping. Where these are such regulations it will be necessary for the beginner to find out their provisions and to conform to them. The poultry flock need not become a nuisance to the neighbors. If the dropping boards are cleaned daily and the houses and yards are kept in a reasonably clean condition there will be no annoying odors.

The male bird need not be a nuisance. Unless it is intended to hatch chickens from the flock it is unnecessary to keep a male bird. The fact that there is no male in the flock will have absolutely no effect upon the number of eggs laid by the hens. Those who wish to produce eggs for hatching should get rid of the roosters when the hatching season ends. This is desirable not only to eliminate the noise of the rooster but also to save the food that would be eaten by the male and for the further reason that the eggs produced after the male is disposed of will be infertile. Since these eggs are incapable of chick development they can be kept much better than fertile eggs and consequently are superior for keeping putting up in water glass or marketing.

The flock of course must be kept confined; otherwise the hens will stray into neighbors' yards and gardens where they may cause damage and almost certainly ill feeling. The next article will deal with the kind of chickens to keep the size of the flock and how to procure it.

In practice it is found that if a hen gets about half of the daily ration with little effort and the rest with moderate effort she will be well fed and at the same time take exercise enough to keep her in good physical condition.

As a rule the mash whether moist or dry constitutes from one-third to one-half of the ration. This being fed in troughs or hoppers the hens get without exercise. In eating the grain fed in litter fowls at first get it with little effort. As the supply diminishes they must scratch more and more to find what remains.

Under this condition it is necessary to feed grain more liberally in deep litter than in shallow litter; otherwise the supply would run so low at times that the hens would have hard work to get it as fast as they should. The feeder is guided as to the quantity of grain to give by observing how the hens eat the mash and by occasionally examining the floor to see whether grain is accumulating in the litter.

Many Can Answer Her.

Will you tell me what way I can get rid of my character.—Lady Gregory.

TRY ONE-MAN SYSTEM

War Gives Big Universities Opportunity to Slice Staffs.

Pennsylvania Has Retained Bob Folwell to Coach All Gridiron Candidates—Plan Will Be Watched With Interest.

The war has paved the way for many of the country's biggest universities to experiment with the one-man coaching system in football this fall. Heretofore a big per cent of the larger schools have maintained coaching staffs for their football teams on which as high as three and four paid coaches have been serving. This fall there are fewer paid coaches and, though it will be hard on the football coach who is dropped, it will give the universities an opportunity to determine just how much one good coach can accomplish.

Folwell Is Retained.

At Pennsylvania university Bob Folwell has been retained to coach the gridiron candidates, and he is the only paid coach at the Quaker institution. Folwell, rated as one of the foremost

Bob Folwell.

coaches in the country, has charge of all the teams including the freshman team, and he is the dictator absolute.

The use of big coaching staffs has been prevalent in the East for a number of years and, despite the old adage that two or three heads are better than one, the real value of a big staff has been an open argument. In the West one high-salaried coach has been considered sufficient by many schools for a number of years, though the advice offered by old grads, who have given their services gratis, has generally been welcome.

Large Coaching Staffs.

The great number of players who have turned out for the football teams at the larger universities during the past few years have been responsible for the introduction of large coaching staffs, for it is difficult for one coach to devote much time to the individual player where the field is so large.

But Pennsylvania is going to try the plan out, and it will be watched with a great deal of interest by schools throughout the country.

WILL ENLARGE HIS STANDS

President Comiskey Announces Gaps Will Be Filled With New Seats to Accommodate 45,000.

President Comiskey won't be caught short again in case his White Sox get into another world's series. He has announced that the gaps in the stands and bleachers at his Chicago park are to be filled, making a continuous line of stands around the field, except where the score board is located, and increasing the seating capacity to 45,000. The work will be done before the 1918 season opens and will give Commy the greatest seating capacity in the major leagues. The 2,000 additional box seats built for the world's series also will be permanent, and are a part of the plan to make Comiskey park the biggest and handsomest in the world.

It Pays to Produce A Championship Club

Jack Hendricks, manager of the Indianapolis club, winner of the American association pennant, is wearing a diamond cluster stickpin, the gift of Indianapolis baseball fans. Jas. C. McGill, president of the club, was presented with an engraved gold fountain pen. The presentations were made at a banquet given in honor of the victorious players.

MANY WEALTHY MEN AMONG CONSCRIPTS

San Antonio, Tex.—The per capita wealth of the ninetieth (90th) division of the National army in training at Camp Travis is \$650, and the average subscription for Liberty Bonds is \$105 per man of the more than 33,000 men on the rolls. The conscripts composing this division were taken from all walks of life and all classes in the states of Texas and Oklahoma. Five men are worth, in their own name, \$500,000 each. 20 of the recruits can sign checks for \$100,000, 42 are worth, in property, more than \$10,000 each, and one man is said to be the sole heir to an estate estimated at \$3,000,000. There are more than 400 young men in this camp who are doing the first "real work" of their lives, and all of them are over twenty-one years of age, but they are among the happiest in the ranks.

BRITISH GET HONOR STRIPES

Distinctive Marks to Be Worn on Uniforms to Show Length of War Service.

London.—British soldiers who have served in the great war will henceforth bear a distinctive mark of their service on their uniform. The war office announces that a chevron stripe will be immediately issued to every soldier who serves overseas in a theater of war. Soldiers whose service dates back to 1914 will be given a red chevron, and those whose service began after that year will get a blue stripe. An additional blue stripe will be awarded for each aggregate of 12 months' service. The new stripes will be worn by officers as well as privates.

SAILORS ROPE ARCTIC DEER

Meatless Days on Steamer Alaska Will Be Unknown for Some Time.

Seattle, Wash.—Meatless days aboard the steamer Alaska, in port recently from an eventful trip up the Yukon, will be unknown for some time.

Sailors standing in the bow of the vessel roped a number of caribou or Arctic deer, which constantly swam around the vessel as she plied her way upstream.

A big herd was encountered a mile from Eagle City, on the way to Fairbanks, and furnished great sport for the crew. Another herd, numbering about 10,000, will appear shortly at a point near Dawson, say hunters who

have been following them. There will be plenty of meat here this winter.

CHYOTES WILL HELP DEFEAT THE KAISER

Macon, Ga.—Few people have heard of a chyote. No, it is not an animal. It is a vegetable which grows on a vine and may be used as a pickle or relish. It is appetizing and "hits the spot" with all who have tried it. It is suggested as another article adding to the supply of food in the country's effort to "beat the kaiser." The vegetable is about the size of a cucumber.

To the drippings add a tablespoonful flour; mix well and add two cupfuls of cold water or enough water to make two cupfuls of gravy; a tablespoonful caramel and seasoning to taste; serve with a goose or a duckling.

COBURN'S MINSTRELS LYRIC THEATRE, THURSDAY, JAN. 10th

COBURN'S MINSTRELS LYRIC THEATRE, THURSDAY, JANUARY 10th

The Makings of a Nation

Corporal J. A. Dunning, privates Patrick J. Sharkey and M. P. Conroy, 165th Infantry, U.S.A. (the famous fighting sixty-ninth), of the "Rainbow Division." Note the sacks of "Bull" Durham in their shirt pockets. That's why they were going away with a smile. The "Rainbow Division" is now in France, where they identify U.S. Soldiers by those familiar "Bull" Durham tags.

Send 'Em Away With a Smile!

—by giving your soldier boys "Bull" Durham tobacco.

"The smokers at home do not know what a life-saver Bull Durham is," writes Private Bangs, with the American Expeditionary Forces in France. "We use Bull Durham tobacco almost exclusively for our cigarettes."

GENUINE "BULL" DURHAM TOBACCO

Guaranteed by The American Tobacco Co. INCORPORATED

A Suggestion To Pipe Smokers: Just try mixing a little genuine Bull Durham with your favorite pipe tobacco. It's like Sugar in Your Coffee.
