**AARP President Advises Caution**

At the recent meeting of DeBary Chapter of American Association of Retired People held in the Community Center, President Grumbacher announced that the Chapter was not sponsoring any building of homes for retired people.

The president read a letter from the national organization urging them to proceed with caution in this matter. Members were advised on insurance and drug matters, and were told of tours provided for groups at special rates when traveling through the national association.

President Grumbacher stated he had rumors of the DeBary Chapter starting to build homes, and said this was not true. "No retirement homes have been started by the A.A.R.P. Chapter in this section," he said.

Previously, 1,000 convicts who had volunteered to work as extras were used in other scenes. But authorities prohibited casting inmates as guards for security reasons.

# 'From These Honored Dead, We Take Devotion'

**By DOTTIE HIGGINBOTHAM**  
Twenty years ago today was one of the blackest days in the history of the United States. On that day, Japanese planes attacked Pearl Harbor, and the thousands of civilians and service men living there were caught completely unprepared. In a nightmare of shock and horror that those who survived can never outlive. Dealt a mortal blow, dazed and almost unbelieving, the slumbering giant that was America in 1941 struggled to his feet, took up his sword, lifted his battle shield, and

began to fight for his very life. The initial shock soon turned to outrage, and aroused, the mighty giant began to flex muscles never before used. Out of the great red mouth of the steel furnaces came ships, guns, bullets, planes and tanks. From the loins of the giant there came 11 million fighting men and women and the mighty mailed fist began to strike blow after blow, tearing asunder the chains of capture and slavery. For almost four years, the giant fought the evil forces on both sides of the ocean, and to the conster-

nation of the enemy, grew ever stronger and more powerful, until at last with one mighty roar, the giant triumphed — and the last enemy flung down his sword and surrendered. Living in Sauford today is one of the survivors of the terrible day at Pearl Harbor, retired Navy Chief, Chester Oxford. He remembers Pearl Harbor — and here is his story: "Twenty years ago today, on Dec. 7, 1941, it was another beautiful sunny Sunday morning in Hawaii. "I was stationed at the Naval

Hospital in Pearl Harbor across from Ford Island. My duty section had the duty on Sunday, 7 December and we were in the process of relieving the watch. "Our routine was disrupted at approximately 0755 a.m. with the very loud noises of bombs bursting, low flying planes with Rising Suns painted on them and billows of black smoke pouring from the first targets on Ford Island and from the battle ships, which were already burning. "We didn't have to be told what had happened — the Japanese had sneaked in close to the islands and

done what everyone expected them to do some day — except maybe not so secret and complete. "Of course we were all busy for the next three days and nights before we started a watch routine where sleep was involved. "This was one nightmare that no one will ever be able to quite visualize as well as the persons who witnessed it. I saw more heroes and 'guys' on Sunday 7 December, 1941, than I have ever seen or ever expect to see. I saw young sailors walking around in their skins, holding broken and mangled arms, wanting to get

back to their ships, which were resting on the bottom of Pearl Harbor in some cases. "In pre-Pearl Harbor days the battle ships were considered the backbone of the Navy — and in the period of approximately 30 minutes six of our best were resting on the harbor bottom. "The USS Arizona was blown apart and carried approximately 1100 officers and men to their permanent graves. They still rest there today as the Arizona has never been decommissioned and with the mast extending out of the water, a permanent memorial

remains and the colors are raised and lowered every day by a color guard. "There are several retired officers and chief petty officers and active duty personnel in the Sauford area who were stationed at Pearl Harbor or the Philippines on that infamous day. I'm sure that December 7th of any year will not slip by these people without their stopping and thinking for a few minutes. "I think most Americans tend to take things for granted and seem to forget things in the same manner.

"I would hope that every American would bow their heads in a moment of silent prayer on this day for those who did not die in vain. "They died for one reason, for the protection of their country — so that their loved ones would continue to enjoy freedom and this wonderful American way of life. " (The headline of this story is taken from the most moving post-war speech ever spoken by Abraham Lincoln's Gettysburg Address.)

## Red China Warns India On Border Incidents

**TOKYO (UPI)** — Communist China accused India today of pursuing an "extremely dangerous" policy of "expansion by force" in the Sino-Indian border areas. It said only the Peking government's restraint has prevented a conflict. The charge came in a Foreign Ministry statement and the publication of a "strong" protest note to India last month alleging illegal Indian incursions into Chinese

territory designed to "create new troubles." The statement accused Indian Prime Minister Jawaharlal Nehru of lying, lacking in moral courage and "pursuing an unfriendly policy toward China" because of "certain needs of the internal and external politics of the Indian government." The text of the statement and details of the protest note were broadcast by the New China news

agency, which was monitored here. The official Peking People's daily newspaper also attacked the Indian leader. The newspaper said Nehru "is not at all interested in solving the Sino-Indian boundary question" and accused him of whipping up an anti-Chinese campaign in India following his recent visit to the United States. The newspaper said in its editorial that "any person with a little sense can see that there is

no threat whatsoever to the security of India's northern border." The Foreign Ministry statement said India's repeated violations of the disputed Sino-Indian border areas were "dangerous" and that China had no intention of being "cowed" by military threats. "It would be very erroneous and dangerous should the Indian government take China's attitude of restraint and tolerance as an expression of weakness," the Foreign Ministry said.

## Business Briefs

**David Hayward, manager of the former Hutchins Clothing Center in the Fern Plaza at Fern Park, this week announced taking over full ownership and management of the business, simultaneously changing the business name to Hayward's Clothing Center. The new firm will continue the same type operation introduced by Hutchins when the store moved into its present location several months ago. No women's apparel is handled, but the store specializes in fitting extra large and tall men, as well as the average size man, with a complete line of suits, furnishings and shoes. A real convenience to working people is the fact that Hayward's is open all day Sunday, from 8 a. m. to 8 p. m. It is closed Friday evenings and Saturdays.**

## Dominican Tension Appears 'Easing'

**SANTO DOMINGO, D. R. (UPI)** — The prospect of early agreement on an interim junta regime for the Dominican Republic was expected today to ease tension in the 10-day-old anti-government "general strike." Agreement was reported Wednesday night on plans to form a junta, representing both government and opposition parties, to govern until elections are held. Details were not announced immediately. Francisco J. Oyarzun, a Chilean diplomat invited here by the government, received much of the credit for the settlement. He spent most of Wednesday shuttling between meetings of government and opposition groups. Support for President Joaquin Balaguer appeared to be weakened.

## Kennedy Plans Drastic Overhaul In Welfare

WASHINGTON (UPI) — The Kennedy Administration is ready to launch a drastic overhaul of America's public welfare programs.

The first steps will be taken next week. Abraham Ribicoff, secretary of health, education and welfare, will issue a series of administrative orders modifying relief regulations which have been the target of mounting public criticism.

More sweeping reforms, requiring legislation action, will be proposed in a special message which President Kennedy plans to send to Congress in January.

The overall blueprint will place heavy emphasis on helping relief families to become self-supporting rather than remaining in a state of chronic dependency.

It also is aimed at eliminating welfare abuses, particularly in the controversial Aid to Dependent Children (ADC) program. Officials contend such abuses have been grossly exaggerated by welfare critics. But they know that public life has been aroused by stories about able-bodied men who refuse to work, and unwed mothers who squander their aid checks.

Present federal welfare programs had their roots in the Depression. They have undergone no basic changes in 26 years. About seven million Americans currently are receiving public assistance, at a cost to taxpayers of nearly \$4 billion a year.

The new rehabilitation services may boost welfare costs by about \$200 million a year initially. But officials are convinced that in the long run they will save billions of dollars.

Here are some major reforms the administration hopes to carry out, either by executive order or new legislation:

Under present regulations, federal funds which constitute from 50 to 75 per cent of the typical relief check may not be dispensed in the form of wages for work performed on community projects.

There is no bar against requiring an able-bodied person to work out the portion of his relief check which comes from state and local funds. But the federal portion must simply be handed out, with no strings attached, to any eligible recipient.

The new rules are designed to give local welfare agencies discretionary power to use federal funds as payment for work done on community projects which do not compete with private employment. For example, welfare recipients might be assigned to clean books in a local library—a job which the community probably would not include in its regular municipal budget.

Working out a relief check would not be required of the blind, aged, and disabled, or of others, such as mothers of young children, for whom it would be a genuine hardship.

Congress will be asked to make permanent two reforms in the ADC program which were authorized last session on a one-year trial basis.

One permits aid to children of unemployed fathers. In the past, ADC checks could go only to families in which the father had left home. This has served as an inducement to divorce and to real or faked desertions. Critics said it also encouraged illegitimacy because ADC aid was readily available to unwed mothers, but was denied to a legally married couple who simply happened to be poor.

The other reform permits ADC payments to foster parents selected by welfare agencies, as well as to the natural mother or other close relative. This provision makes it possible for a court to remove children from the custody of an irresponsible mother who is accepting ADC aid but is not using it to provide the youngsters with a decent home. Under the old rule aid was cut off to children placed in a foster home.

Another major change will be authorization for welfare agencies to give vouchers instead of cash to people who cannot manage money. If an ADC mother has been squandering her children's aid check on liquor or a boyfriend, the welfare agency could issue future aid in the form of vouchers good for rent, food, clothing and other necessities.

The first fatal motor vehicle accident on record occurred in September of 1890, in New York City. Assisting a woman alighting from a trolley, H. H. Bliss was struck by a passing car and died the following day, according to the Encyclopedia Britannica.

## Talks Continuing At Santo Domingo

SANTO DOMINGO, D. R. (UPI)—Negotiations between the government and the opposition were expected to continue today despite President Joaquin Balaguer's illness and the closing of the opposition radio.

Mediators Nicolas Pichardo and Emilio Rodriguez Demorizi visited Balaguer Tuesday night after conferring with leaders of the opposition UCN party. A new government proposal was reported under consideration.

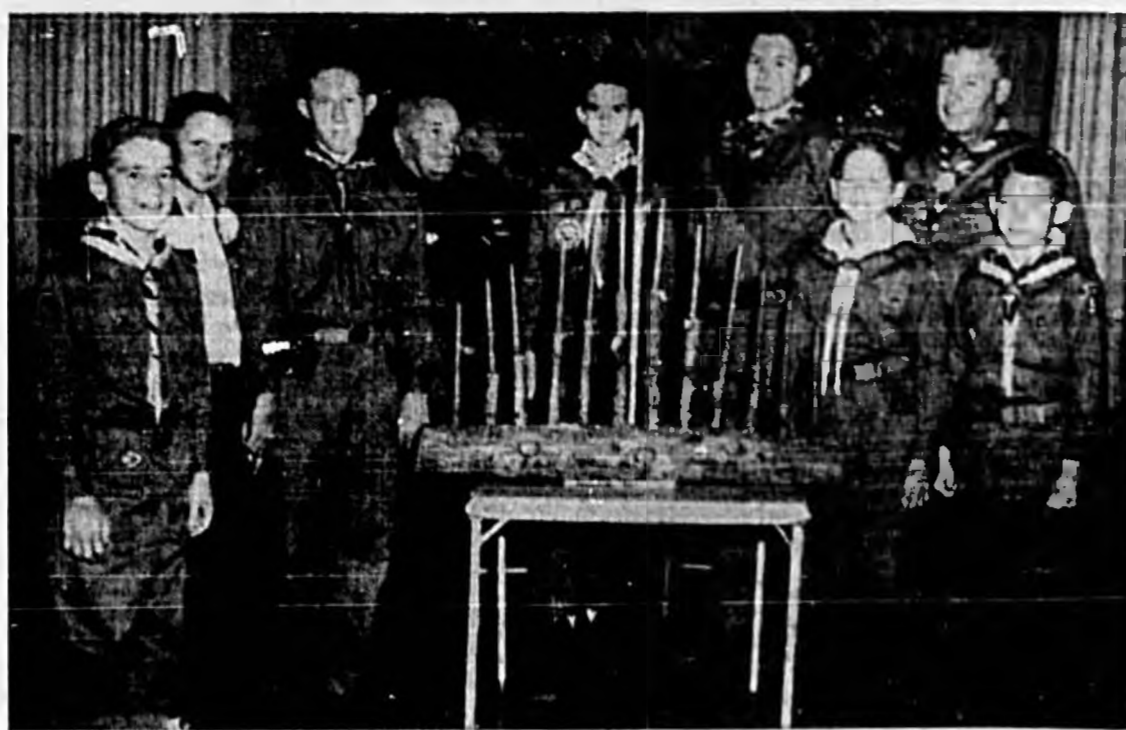

UCN president Viriato Fiallo, while withholding details of the new government offer, said it was "more favorable" than the proposal for the formation of a junta government dominated by

the opposition which Balaguer advanced earlier this week.

## 2-China Concept

UNITED NATIONS, N. Y. (UPI)—Support developed in the General Assembly today for the "two Chinas" concept—a UN seat for the Communist Peiping regime and one for the Nationalist government of Formosa.

Both the Chinese Communists and the Chinese Nationalists have refused to acknowledge the possibility of both regimes as legitimate governments, and the Soviet Union and the United States, their principal backers, have never discussed it formally.

## 2 Get Life Scout Pins At Court Of Honor

By MRS. ADAM MULLER

Steve Jackson and Larry Hughes were advanced to the rank of Life Scout last Friday when DeBary Scout Troop 580 conducted a Court of Honor in candlelight ceremonies at the Community Center.

The troop, led by Scoutmaster Jack Jackson moved single file to the platform to repeat the salute to the flag and the scout oath while 18 candles were lighted as induction for boys to the tenderfoot rank took place. Those making the rank were Timmie Sain, Randy Sullivan, Bobby Pa-

ron, Douglas Stewart and Robert Scott.

As the life scout pins were presented, Mrs. J. A. Jackson and Mrs. L. H. Hughes were called to the platform where their sons pinned the awards.

Refreshments were served during a social hour which followed the ceremony.

## Truman Defends Atom Bomb Decision

INDEPENDENCE, Mo. (UPI)—Harry S. Truman marked the 20th anniversary of Pearl Harbor today with an answer to critics of his decision to use atomic bombs against Japan in 1945.

"The tears that have been shed on account of the atomic bomb," the 77-year-old former president told United Press International here in an exclusive anniversary statement, "should have been shed on the Pearl Harbor attack."

The atomic attacks killed 150,

000 persons in Hiroshima and Nagasaki and brought Japan to her knees. She surrendered a few days later and the war that began for the United States on Dec. 7, 1941, was over.

"All you have to do is go to Pearl Harbor today and stand on the sunken battleship Arizona with the 1,100 youngsters beneath it," Truman said. "Then you can understand why I don't sympathize with the tear-shedding of Hiroshima and Nagasaki because of the dropping of those bombs is what ended the war."

Truman argued that the use of atomic bombs saved "hundreds of thousands" of American lives and that an attack by the Allies on the Japanese mainland would

have been fought with suicidal fanaticism.

There has been criticism from some quarters in recent years of the Truman strategy—taken four months after he moved into the White House.

# HOTTEST NOVEMBER IN FORD HISTORY!

And here's what started the heat wave!

Last month more Americans bought Fords than in any November in history. The blazing success of the long Ford line was end-to-end, all across the country and up and down it, too. Everywhere the people flocked into their Ford Dealers and bought smart new Falcons, and the new Falcon Squire, the glittering swift Galaxies, the famous Ford Station Wagons and the hot Thunderbirds. And they poured in to see and buy up the brand-new Fairlane just introduced. There are four magic reasons why behind the smashing success of the long Ford line for 1962. First of all is utterly modern styling, the fresh crisp lines that are now being so widely copied by other car-makers, the smart look that dominates the industry. Second is absolute power in eleven kinds of engines, giving you anything you could want in engine

options. Third is total economy—every Ford model is priced directly at your pocketbook, and every Ford, large, medium or small, gives you gasoline mileage outstanding in its class. Fourth is the service-saving concept—every Ford car is built to cut down maintenance worries and problems, with service-saving features other cars may have some day. Ford leadership from Falcons to Thunderbirds is founded on trend-setting innovations... The hot idea came from Ford. And at the heart of Ford success is an almost revolutionary new concept of quality... most serious and direct concern with the actual part-by-part quality. For the hot trends in the hot cars, for a new experience in quality, and for the best buys on the American Road, see your Ford Dealer.

PRODUCTS OF FORD MOTOR COMPANY

## NOW THERE ARE FOUR CLASSES OF CARS ... AND ONLY FORD HAS ALL FOUR!

**COMPACT CLASS:** **FORD FALCON**  
This class includes cars with 106- to 114-inch wheelbase. Most popular by far (a million happy owners) is the Ford Falcon. Falcon is America's lowest-priced 4-passenger car, set a 20-year record for Sales or Eighth in last year's Mobilgas Economy Run, gives you a choice of 13 models, including the Futura and new Falcon Squire wagon.

**FAIRLANE CLASS:** **FORD FAIRLANE**  
The Ford Fairlane is the first member of a new class which combines the advantages of both compact and big cars... you get big car room, ride and performance... compact savings and maneuverability. Priced below many compacts, Fairlane even rivals some in gas economy. Has twice-a-year maintenance introduced by the Galaxie.

**FULL-SIZE CLASS:** **GALAXIE BY FORD**  
The class for families who want big car comfort, performance and prestige. Value leader is the Ford Galaxie—which has every essential feature of the cooler big cars. With the optional Thunderbird 390 V-8 engine, a Galaxie will outperform America's most expensive luxury cars. Requires servicing only twice a year, or every 6,000 miles.

**LUXURY CLASS:** **FORD THUNDERBIRD**  
The top class—cars for people who want the very best. First of the trim-size luxury cars, the 4-passenger Thunderbird is the most distinctive car in this class. Its styling set the trend for an entire generation of cars and now finds a new elegance in the Landau. And Thunderbird's performance is just this side of flight.

A business meeting was also held earlier in the month. It was decided to send a child to Junior Nature Camp, in Ocala, next summer. Mrs. H. Edward Davis presented a horticulture report including fertilizers for use at this time of year and tips on the care of azaleas, grass, plants, bulbs, annuals and perennials.

Members are urged to report all blind and dangerous corners to the general beautification chairman, Mrs. A. K. Shoemaker Jr.

Mr. and Mrs. H. E. Davis entertained circle members and their husbands with a Christmas party, Saturday night, at their home 108 Satsuma Drive.

Refreshments included punch,

cookies, minis, nuts, potato chips, dips, cookies and bleu cheese. Those attending were Mr. and Mrs. Osborne Dorminey, Mr. and Mrs. Robert Dekle, Mr. and Mrs. Edward Gordon, Mr. and Mrs.

Guests And Hostess Like Lemon Crisps

Lacy lemon crisps are almost a co-hostess for friendly gatherings on these warm summer evenings, suggests Myrtle Wilson, home demonstration agent. What could be more dainty than thin lemon crisps served with assorted fresh fruit sundae?

One of the most popular — and colorful — ways to serve sundae with your lemon crisps is to pile ice cream high in an attractive bowl. In a divided container — a relish dish, for instance — include a variety of fruit sauces — crushed pineapple, fresh strawberries, fresh peaches or your own favorites. Whipped cream and nuts make a wonderful topper for your creation.

This as butterfly wings with flippy lace edges, lemon crisps also make a perfect accompaniment for simple desserts. The nut-

like flavor of rolled oats gives them the tangy delight of a delicate summer favorite.

They are right at home at formal afternoon lawn parties or casual evening gatherings.

**LEMON CRISPS**  
1/2 cup sifted enriched flour  
1/2 teaspoon salt  
2/3 cup sugar  
1 cup shortening, soft  
2 eggs  
1 teaspoon lemon extract  
1 teaspoon grated lemon rind  
1 cup rolled oats (quick or old-fashioned, uncooked)

Sift flour, salt and sugar together in bowl. Add shortening, eggs, flavoring and lemon rind. Beat until smooth, about two minutes. Lightly stir in rolled oats.

Drop from teaspoon onto greased cookie sheet, allowing about 2 inches between cookies. Flatten with a knife dipped in cold water. Bake in a moderate oven (375°) 10 to 12 minutes or until cookies are golden brown around the edges. Remove from cookie sheet immediately.

# Dear Abby:

By Abigail Van Buren

DEAR ABBY: I really got a kick out of "Church Widow." I am a preacher's husband. My home runs itself, and of late it sickens me to come home. Twenty-minute meals, no real cleaning, beds unmade until she hears my footsteps and, worst of all, children left on their own.

My crusading wife is determined that "the world must be warned of the imminent end of this system of things" and is devoting practically all her time to this cause.

I am seriously thinking of taking a second look at someone I have avoided for many years.

My wife can recite the Scriptures, but may I ask, is not the proof of goodness in daily living? Have you the courage to print this?

"FATHER"

DEAR "FATHER": I have the courage to print it, but that won't solve anything. Have YOU the courage to bring your wife down to earth? I couldn't agree more that "the proof of goodness is in daily living." Your wife could be more than "dedicated." She could be ill.

DEAR ABBY: I am a girl and I don't know how to kiss a boy. I mean I know HOW to kiss all right, but I don't know who is supposed to stop to kiss, the boy or the girl? Please put the answer in your column as I think I will have a chance to use it soon. Thank you.

LACKING EXPERIENCE

DEAR LACKING: A kiss should "end" just as it begins. In unspoken mutual agreement.

DEAR ABBY: Christmas is coming and I am on the brink of telling my parents and in-laws what to give my children. At every gift-giving occasion I am simply FLOORED by their selections. We have 3 children under five and our budget is so tight we aren't able to buy big blocks or riding toys that provide lasting enjoyment.

At Christmastime well-meaning grandparents squander good money on a lot of little poorly-made wind-up toys and stuffed animals to be dragged on the floor to gather dirt. (I've yet to get one that is machine-washable.) Most have glass eyes that can be swallowed, felt tongues that fade, small toy cars with metal that bends in your fingers or wheels that fall off. Miniature housekeeping kits with thumb-sized "soap" and clothespins are ideal for a child to stick up his nose or swallow.

Please ask parents to consider the practical side of giving. Give one good thing that will last at least until New Year's.

# We The Women:

By Ruth Millet

Well, what do you know? At last someone has written an article called "Let's Be Kind to Back-Seat Drivers." And it didn't appear in a woman's magazine, but in one of those automobile newsletters that go out to car owners—both men and women.

The gist of the article is that, according to safety experts, the back-seat driver isn't such a bad idea after all.

Sorry to report there were no statistics proving how many accidents have been avoided by back-seat-driving wives who keep their eyes on the speedometer, who read aloud such signs as "Slow to 15 miles an hour," "Road slippery when wet," "No passing," and "Road under construction." But any back-seat driver worth her salt KNOWS she is the best safety device in her husband's automobile.

The trouble is, husbands never give their wives credit for any of their near-misses on the highway. Their only thanks for a timely "Look out, this is an annoyed, 'Do you want to drive?' or, 'I had plenty of room; what are you yelling about?'"

But back-seat drivers know their value. Perhaps men wouldn't be so resentful of their wives' help in driving if it didn't come as such a shock to them to find out that all it takes to turn a woman into a back-seat driver is a license—not a driver's license, but a marriage license.

The very same girl who, before marriage, will snuggle down comfortably while her date steps on the gas and waves in and out of traffic, is a different road companion once the man at the wheel becomes her husband.

No longer does she pretend ad-

miration for his daring when he risks her neck by passing on a hill or roaring along on a rainy night. No, indeed.

She suddenly becomes a back-seat driver, much more interested in getting home safely than in letting her husband show her what a demon he is at the wheel.

Stunned by this sudden switch, men are just naturally resentful. And even though they may read the article taking up for back-seat drivers, it isn't likely they'll ever like having one in the car with them.

More good reading for men, in Ruth Millet's booklet, "Happier Wives (Hints for husbands)," just send 25 cents to Ruth Millet, Reader Service, c/o The Sanford Herald, P. O. Box 489, Dept. A, Radio City Station, New York 19, N. Y.

# Jacoby On Bridge

By Oswald Jacoby

This business of defending against your opponents' part score is all well and good. Naturally you don't want to let them get away with a game when you can bid against them.

On the other hand, many tremendous rubbers have been scored when someone gets the bit in his teeth and won't let go, and my strong recommendation is that once the side with part score opens the bidding against you, don't make an effort to keep the flag flying unless you have the ammunition to back defense. It's important to remember that even though game is saved, you are still going to be faced by the same part score.

South's three-diamond over-call falls into this class of silly defenses. His partner had passed ori-

ginally and South had no reason to believe he could defeat any spade contract at all.

Actually, West would have been able to make six spades but he was not going to get there. It was too much to know about the good break in hearts and the favorable position of the diamond king behind North's ace.

Of course, North did not have to try four diamonds but he was a gallant defender also. West was delighted to double.

There wasn't any great slaughter. South lost two hearts and a ruff; two spades; a diamond; and a club for a total of 700 points. But EAST AND WEST STILL HAD PART SCORE.

# Mysterious Death Laid To Overdose

BOSTON (UPI)—The mysterious death of Mrs. Elizabeth Cabot, bride of a socially prominent Boston artist, was blamed today on an accidental overdose of a drug prescribed for her husband. Hugh Cabot III, who married the former Elizabeth Peabody of Bethelham, Pa., last September, said he was informed by the medical examiner, Dr. Michael J. Luongo, that death was caused by a "massive" overdose of the drug.

Luongo has completed an autopsy but has yet to file an official report on the cause of death. Cabot said the drug, which he had been taking for a perforated ulcer condition, was in a bottle "exactly like" a bottle which contained vitamin pills his wife frequently took.

# Cecil Base Calms Hepatitis Fears

JACKSONVILLE (UPI)—The Navy said today there was no basis for concern over several cases of infectious hepatitis discovered at Cecil Field Naval Base.

A spokesman said "no more than 20" cases had been found at the base, but the source of infection was not "definitely" established. A news release said there was no basis for concern since the few cases reported involved a "relatively small and select group" and did not constitute an epidemic.

The State Board of Health reported there is an increase of infectious hepatitis in Florida, with 1,370 cases as of Nov. 24 as compared with 1,038 the same period last year.

# Reports Fill Brief Village Council Session

By MONA GRINSTEAD  
 North Orlando's Village Council met Tuesday night for about 15 minutes with 11 persons in attendance including the councilmen.

Mayor Frank Fasula announced hours of a temporary sub-station post office will be maintained through Dec. 23 with hours set

from 10 a. m. until 1 p. m. Monday through Friday and from 10 a. m. until noon on Saturday.

Fasula advised that plans for lighting North Orlando Blvd. (SR 434) had been received from Florida Power Co. and that specifications call for 50 mercury vapor-type lights along the road from its intersection with Hwy. 17-92 to the intersection with SR 419. Lights will be placed at 150-foot intervals within the city limits and at 300-foot intervals in the remaining area.

He announced that shuffleboard courts in the recreation area are ready for use and that playing equipment will be in the custody of George Sommers. Those interested in play are asked to contact the custodian to make arrangements for use of the equipment.

A suggestion from Sommers the council voted to build a Tot's Basketball Court in the playground. Sixteen swings, a slide, a jungle gym and two see-saws have been purchased by the North Orlando Co. for the area, Fasula said, and will be installed upon their arrival.

The old company sales office accepted by the North Orlando Civic Assn. for use as a Civic Hall will be moved to the area by the first of next week according to Fasula who also advised that the new water tanks for the enlarged system are almost completed and that the company now is waiting for delivery of pumps and motors.

Arrangements have been made to use county voting machines for the first Village elections which are to be held in March, the mayor reported.

Next month's council meeting, due to the holiday, was scheduled for Jan. 9.

## Good News For Army Dependents

WASHINGTON (UPI) — Dependents of 14,000 soldiers who filed their applications late should still get their November allotment checks before Christmas, according to the Army.

These applications were received at the Army finance center, Ft. Benjamin Harrison, Indianapolis, Ind., between Nov. 20 and 30, and are being processed at a rate of 1,500 to 2,000 a day, a spokesman said.

He said the finance center is working many hours overtime, and all the checks should be in the hands of dependents by Dec. 20 at the latest. Applications received after Nov. 30 apply to the December pay period and are payable in January.

## Lake Mary Club Party Set Tuesday

Lake Mary's Home Demonstration Club will meet next Tuesday at 10:30 a. m. in the Fire Hall for its annual Christmas party with Mrs. Helen Powell and Mrs. Martha Brock as hostesses.

All members are requested to bring a 50 cent gift for secret pals who will be identified at this meeting.

## Ted Kennedy To Run

BOSTON (UPI) — Edward M. (Ted) Kennedy will be a candidate next year for the U.S. Senate seat vacated by his brother, President Kennedy, it was reported today, but he denied it. Kennedy will wait until he reaches his 30th birthday in February before announcing. The minimum legal age for serving in the Senate is 30.

## Activity Mounts In Final Week Before Lake Mary School Festival

Activity at Lake Mary's Elementary School this week is at a near fever pitch as final preparations are made for the second Annual Winter Festival which will take place on the campus between the hours of 5 p. m. and 9 p. m. Saturday.

Several new features have been added to the full-scale carnival-like schedule for the convenience and entertainment of children and adults according to Richard Webster, general chairman.

A complete chicken or pizza dinner will be served in the cafeteria from 5 p. m. until 6:30 p. m. and a chuck wagon will sell hot dogs and hamburgers throughout the evening. Tickets for the dinner are available through the school office.

Goodieland will have cakes, pies, cookies, candy and homemade ice cream for sale and for those who prefer a more adventuresome atmosphere, the much-favored cake-walk will be conducted.

A variety of games booths such as break-a-dish, fish pond and wet sponge throw, plus a number of live and mechanical rides, promise plenty of fun for the younger set while mom and dad shop for gift items and the week-end baked goods.

Shoppers will find the country store featuring a pair-tree. The parcel post booth, sold out in a matter of minutes last year, will

offer surprise items from anywhere in the world. These packages will be sold just as they were mailed to the school students and could contain articles of almost any financial value.

With Santa, who plans to visit all areas of the campus during the evening, will be a balloon man and the pick-a-pocket lady.

Worth particular mention is the bazaar booth where handmade articles, including Christmas decorations, toys and clothing among the wide variety, will be sold.

Topping off the festivities will be an auction of articles donated by local merchants. All proceeds from the event will be used to purchase library books and other needed supplies for the school.

THE GENEVA CLUB DISPLAY was one of many eye-catching exhibits at the Home Demonstration Club's Annual Christmas Party and Installation of County Council Officers last Friday night. Admiring the lovely work are, from left, Mrs. W. O. Nolan, president of the Elder Springs Club; Mrs. W. R. Stringfield, president of the Sanford Club and Mrs. W. B. Heath, president of the Geneva Club. (Herald Photo)

## Toy Sales

NEW YORK (UPI) — Department stores do more than 40.9 per cent of the year's toy and game dollar volume in December, according to Federal Reserve figures. A 20.2 per cent volume in November kicks off the pre-holiday selling spurge.

# Kennedy Policy Gets Mixed Reaction

NEW YORK (UPI) — Business leaders reacted with caution to President Kennedy's call Wednesday for a new tariff policy.

Most members of the National Association of Manufacturers who heard the President's speech indicated they wanted first to see how Kennedy planned to implement his proposals for lower tariffs and broader powers in dealing with the European Common Market.

"I hope he goes slow and does not destroy more jobs than you create by free trade," said a southern textile executive.

J. Clinton Bowman, president of United Biscuit Co., Denver, said he was "very much impressed by the way he turned on the charm in a difficult situation." But he called for more details than appeared in the speech, during which NAM members applauded politely but not enthusiastically.

One official said he agreed with the President's aims, but added it was still possible "to disagree with his methods."

Frank E. Masland Jr., president of C. H. Masland & Son, Carlisle, Pa., also said he agreed with the President in detail, but "would feel more confident of

competing in the free world market if we could see some solution to high taxes and wages." Others said they were disappointed by the failure of the President to mention economy in government or indicate how he planned to balance the budget.

### Casselberry Artist Gives Impressive Show

By JANE CASSELBERRY  
Exhibit of the art work of F. W. Erdman, local artist, was held Monday, Tuesday and Wednesday

of this week at the Sparkle Cleaners and Laundry in Casselberry. On display were several oil paintings including a still life, most outstanding of these was "The Messiah," a large portrait showing the artist's conception of Christ which he painted for the Messiah Lutheran Church of Casselberry where he is a member.

He also showed an interesting collection of jack-knife carving done with native Florida woods in several lamps, planters and vases fashioned from roots and driftwood.

Though Erdman has had no formal art training, he has become quite proficient in his hobby as was evidenced by the favorable reception from the townspeople viewing the exhibit.

### Proctor Honored At Lyman Dance

By JANE CASSELBERRY

Proctor was selected Central Florida's most popular coach in a recent contest sponsored by Orlando Radio Station WHOO which put on the free dance for a capacity crowd of Lyman students.

Diak Jockies Terry Wood and Gene Stewart of Radio WHOO presented the award and played records for dancing in between numbers by a lively rock and roll combo, a teenage group, known as "The Temptations." Instrumentalists making up the group were Johnny Wagner, sax; Bill Holbrook, guitar; Ben Griffin Jr., guitar; Pete Wiley, drums and guest artist, Dave Miller, on the guitar.

### 'Gala Night In Paris' Draws Capacity Audience To School

By JANE CASSELBERRY  
The Council of Teachers and Parents of the South Seminole Elementary School in Casselberry presented its "Gala Night in Paris," Fashion Show to a capacity attendance in the school auditorium Tuesday night.

The audience was seated at small tables, each covered with a gaily-colored checked cloth, which were centered with lighted candles in wine bottles. Walls were decorated with French travel posters and the stage was converted into a garden scene.

Models, entering through an arch of white wrought iron grillwork, continued on a runway introduced by Mrs. George Shierlock who also described the lovely adult fashions from Jeane Elkins and the charming children's styles from The Younger Set, both of Maitland Plaza. Hairdresses were by Tressa of Tressa's Beauty Shoppe in Casselberry.

### Christmas Fantasy Coming To Geneva

It's all hands out this week in Geneva as moms, dads, brothers, sisters and hosts of aunts, uncles, grandmothers and grandpops create the unusual gifts and surprises for Saturday's Christmas Fantasy Night.

Beginning at 8 p. m. in the Community Hall, an evening is planned to provide entertainment, a coffee and dessert hour and a chance to shop for that "something different" always desirable for Christmas gifting.

### Chuluota Couples Form Social Club

By CAROL JEPSON  
Residents of the Chuluota area interested in joining a social group solely for the pleasure of it are invited to meet with those of the newly organized Friendship Club at the meeting scheduled for 8 p. m. next Tuesday at the Lake Catherine Inn.

The club organized on Nov. 14 when 12 couples met for dinner, cards and other games. This group again met at the Inn on Nov. 28 with 26 persons present for an evening of wahoo, pinocle and ace-deucey.

Those interested in joining the club are asked to contact Hartley Savage.

sleepwear through sports and casuals to the glamorous gowns suitable for parties or the theater. Adorable youngsters from the South Seminole School who modeled the children's fashions proved to be show-stealers while comic relief was provided by Mrs. Chester Miller wearing a creation from "The House of Sewers" designed especially for greeting the husband. This outfit featured a flowing housedress worn with black gloves and house slippers while the hair was "daintily" captured in a comfortable net. Accessories for the costume were a mop and pall.

Prior to the show's opening those attending were invited to look over gift items on display and to enjoy refreshments. Door prizes were awarded to conclude the entertainment. Background music throughout the evening was played by Mrs. Nell Drueding, South Seminole music teacher.

Mrs. Vernon Catron, who served as fashion coordinator, has expressed her joy and appreciation to all who helped make the event, the C-TP's major fund-raising project of the year, a success.

### Lyman Drama Class Faces Test In Presentation Of 'Our Town'

By JANE CASSELBERRY  
The talent and ability of Lyman High's Drama Class, directed by Raymond Delgado, face a thorough test when the 8 p. m. auditorium curtain goes up next Thursday night on Thornton Wilder's three act play, "Our Town."

This Pulitzer prize winning play has been one of the most popular of American dramas since it's first production on Broadway in 1938 and has been done by amateur groups throughout the country.

One reason for its warm reception is the novel manner of production. The play is presented on a bare stage without the aid of scenery and the audience, as well as the actors, is asked to imagine various settings and changes of time at the suggestion of an all-knowing, all-seeing stage manager, played here by Roy Stone, who narrates the typical events of a small American town at the turn of the century.

Though the story centers around two families, that of Dr. Gibbs and Newspaper Editor Webb, the main character really is the town itself expressed through the collective thoughts of its inhabitants. Thus the play is about life and the emotions which give it meaning... love and hate, hap-

### Geneva Citizens Veto Incorporation; Elect Officers

The question of incorporating the community in the face of predictions centering around demands created by the Nova project and quoted by County Commissioner Vernon Dunn at the Geneva Post Office Dedication recently, was a major topic of discussion at Saturday's annual election meeting of the Geneva Citizens Committee.

However no action was taken on the matter since the majority of residents feel it is not a pressing issue at the present time, according to W. E. Dibble, president of the organization.

In the election of officers, the Citizens named Martin Hanson, president; E. C. Putnam, vice president; Mrs. Augusta Bilbree, secretary, and Mrs. Ralph H. Grayson, treasurer.

In other business, members set the annual dues to remain at \$2 per year and appointed Oliver Mathieu, Charles Lamb and John D. Thomas as a committee to head the annual membership drive.

A proposal for the development of a town plan for Oviedo was submitted to the Town Council at its monthly meeting Monday night.

The preliminary draft of the plan was compiled by the engineering firm of Evans and Hammond, Inc. of Jacksonville and encompasses a 12-point program. The complete plan will be drafted and submitted in book form later, the company representative, P. D. Larrimore Jr., said in his letter to the mayor and council.

The purpose of the plan Larrimore explained, is to induce industry, especially Nova related industry, to locate in an area which is close to the vast Brevard development.

Larrimore said that the company "will endeavor to make the proposed town plan an example for procedures for towns of similar size in the Southeastern part of the United States."

He said that the plan would include preliminary costs so that subsequent budgets could be worked

out from the figures provided.

The letter said that the 12-point plan would include an economic survey to show the economic resources of Oviedo and call attention to the advantages for those seeking plant locations;

A detailed study of the tax structure and its relation to industrial and municipal development;

Population studies and growth statistics;

Survey of cultural advantages; Labor supply;

Aid in preparing all applications for government grants, etc.

### EDITORIAL COMMENT

#### Let's All Go Tonight

Residents of all sections of Seminole County would do well to follow the lead of Lake Mary's people and come to the meeting in the Courthouse at 7 p. m. tonight and hear the pros and cons of the County Commission's recently adopted Franchise Directive.

The meeting between the private utility companies and the County Commission is open to the public. Lake Mary is scheduled to present a petition opposing some of the provisions of the directive concerning the installation of sewerage lines by these private utility companies.

The directive, which would give franchise to these companies for a 30-year period, eventually could affect all sections of the county. For this reason it is important that all sections be represented in order that the Commission can get a complete understanding of the feelings of all areas on this important question.

ed to members that he had met with John Schwarz, company secretary, and Mayor Frank Fasula, who said that the offer on the barn still stands if the group wishes to carry through on original plans of renovating and repairing it.

In addition, the company will move the sales office to the recreation site and will furnish all materials for its conversion into a meeting hall with the association to supply the labor. The office, though newer, has less space and would accommodate approximately a 50-limit seating capacity.

The civic group voted to abandon work on the barn in favor of the more permanent offer.

A report on plans for the Santa Claus Party advised that a \$94 donation had been received from the North Orlando Co.; that oranges for the stockings had been donated and that the candy had been purchased.

Date and location of the event, when some 300 children of the Village are expected to visit Santa, will be announced.

Women of the association tentatively planned a meeting for the end of the week to plan a fund-raising bake sale in support of the party which also will be announced.

Mrs. J. D. Grinstead, editor of the association's monthly publication, "The Newlette," explained that delivery failed for the November issue due to lack on continuation and assistance on the project in her absence on a brief holiday vacation.

She asked to meet with the board of directors before the next general meeting of the association in order to discuss financial and mechanical details of publishing the newsletter.

Since next month's meeting date falls on New Year's Day, the association voted to meet instead on Jan. 8.

# Lake Monroe Jottings . . .

MRS. H. L. JOHNSON

Hello. Well our chilly mornings are here. Kind of nice during the day tho. . . . Monroe has been saddened this past week by the passing of a wonderful person. Using the words of Rev. John Pilley "an Angel in white" has been laid to rest. Clover Marrs who during her life time has helped to make hundreds forget their suffering by a most kind word of love or a simple little cheer. Her always smiling face would take the frown off of any face. No matter the time of day or night she would come at your beck and call. If you had a problem, she would be sure to straighten it out. Her favorite word was LOVE and she certainly lived up to it too. Her relatives and friends are going to miss her but the only good thing about her being gone is her suffering and pain is over and we truly know that she is in Heaven with her Master. Marrs, I will miss those walks down the road to your home to visit with you and to see you caring for your black kittens and dog. How she did enjoy them. . . . This past week has certainly been a fast one. Seems that there has been so much to do. Planning for the holidays ahead, school activities, club Christmas parties, parades. . . . The Elks Bowl game Friday evening in Leesburg was for a great cause. The high school football team did their part in winning the game for a very proud Sanford and drew a great crowd to help aid the Harry-Anna Hospital. They had the pleasure of visiting the hospital that morning. Don't you know they enjoyed that! And at the game our high school band gave a most wonderful half time performance. In fact it has been the best one yet. On Saturday the band went to DeLand where they participated in the Christmas parade and then we went on to New Smyrna where we ate lunch and from there we went to Titusville where the band marched there. Both parades were really good and our band sure did get the compliments on their performances. There was certainly a tired leader, players and drivers when we finally got home about six that evening. . . . Twenty-eight R.A.'s of the Monroe Baptist Church along with Rev. Wentz, Charles Johnson, Gene Tomlinson and Mr. and Mrs. O'Dell motored to DeLand Monday evening where there was a joint meeting of several district Baptists R.A.'s. Jimmie Carroll said there were nearly 400 there. . . . Over 100 Seminole County Home Demonstration members held their annual Christmas party and installation last Friday at the Center. I was so sorry I could not attend it. I heard that Mr. Seig's band from Geneva and Mr. Tucker's quartet, and Mrs. B. R. Gray were simply wonderful. . . . The Monroe Club meets tonight at White Hall for their annual Christmas party. Sure hope every member

can attend. . . . All Seminole County school bus drivers are going to training school this week at the Lake Mary School. This is given to the drivers every year. . . . Vihlen road is being widened and is to be paved. Another sign of progress. The Paola road is coming along rapidly now too. . . . Talking to Charlotte Hawkins the other evening. She and Vic are the proud grandparents of little Miss Kimberly Ann Hawkins. The little miss who weighed nine pounds, 14 ounces at birth was born Nov. 28 to Jimmie and Shirley Hawkins in Cascade, Md. The maternal grandparents are Mr. and Mrs. S. S. Drummy of Nebraska. Jim and Shirley hope to come down for the Christmas holidays. I know Jim's many friends will be glad to see them. And you know that Charlotte is anxious to hold the new granddaughter. . . . We are proud that our son-in-law and Don and daughter, Shirley, are residing in the Marrs cottage.

Don's cousin Mary Lou Halpin of Fredericktown, Mo., is here to live with them. . . . Louise and myself paid a visit to the County Home Tuesday morning where we distributed gifts to all the patients and employees. The gifts were brought to the HD Council party to be taken to the home. It was so touching to watch them and talk to them. One elderly gentleman was busy making fancy pot holders. Those in the hospital were getting ready to eat the noon meal. Mr. and Mrs. Beall, the caretakers, were very glad to see us and said they appreciated this very much. They were certainly nice and accommodating. . . . Here is our thought for today. This is another one of the favorites of Geneva Bumgarner. . . . CHARACTER IS LIKE BELLS WHICH RING OUT SWEET MUSIC, AND WHICH, WHEN TOUCHED ACCIDENTLY EVEN, RESOUND WITH SWEET MUSIC. That is so right. . . . Don't work too hard and will see you next week.

## Federation Of Art Names Officers At Convention In St. Petersburg

By MRS. ADAM MULLER  
Dr. Charles S. Giles of the University of Tampa was named president of the Florida Federation of Art, Inc., at the recent state convention held in St. Petersburg.

Mrs. D. R. Feemster of Sarasota, immediate past president, was elected chairman of the building committee and Mrs. George Brooks of DeBary, elected membership chairman also will serve as secretary to the building committee.

## Nonfarm Employed Continues Upward

TALLAHASSEE—The fall gain in Florida nonfarm employment continued in October, rising 17,000 over September to a total of 1,308,600.

State Industrial Commission Chairman A. Worley Brown said that was 20,400 above October, 1960.

Also, Brown said, Florida unemployment in October dropped for the third straight month.

An all-award winner exhibition from throughout the state now hangs in the Innes Gallery at the Mansion House and special works from Sarasota and New Smyrna Beach districts also are being shown in Whistler Gallery.

Going on exhibit approximately Dec. 24 will be the collection of William A. Martin of Falmouth, Cornwall, England, an outstanding realistic watercolor artist. This exhibit will be shown through January 14.

Due to the request of many local artists that an Art Club be organized in DeBary, Mrs. George J. Brooks has requested that all persons interested in forming such a club contact her in order that a discussion meeting can be arranged. A room at the Mansion House would be made available for meetings of such a club and exhibits also could be shown there.

Joblessness should continue to decline with the advance of seasonal activity, but the trend will be somewhat offset by seasonal job seekers from other states coming to Florida during the winter.

Wholesale and retail trade, Brown said, registered the largest gain of any industry group in October. At 354,400, it was ten thousand above September and 3,900 above October a year ago.

# Stevenson Turns Down Senate Bid

CHICAGO (UPI)—Adlai Stevenson turned away from Illinois politics and one of his oldest ambitions Tuesday in exchange for an "expanded role" in the nation's foreign policy.

The former Illinois governor and two-time Democratic presidential nominee declined an invitation from leaders of his party to oppose Senate Minority Leader Everett M. Dirksen for the state's junior Senate seat next year. Stevenson said he would remain as U. S. ambassador to the United Nations.

Stevenson announced at New York that President Kennedy "greatly reinforced by view that I can best serve him and the country in the field of foreign policy."

The President, in a brief statement at New York, said he was "delighted." He said he had conveyed his "emphatic hope" to Stevenson that "he would continue at the United Nations and play an expanded role in the making and execution of our foreign policy. I believe that his work is vital to the cause of peace. . . ."

Peel To Appeal
