

F. H. McGraw

Charter Members Installed

By JANE CASSELLBERRY

F. H. "Mac" McGraw, president of the College Park Optimist Club, has announced the formation of the new Optimist Club of Sanford, which will meet each Tuesday night at the Holiday Inn Steak House.

Under the direction of new club building chairman Ray Legg, McGraw and the College Park club accepted the challenge of Optimist International to form the Sanford Club and completed the project Nov. 10. At an installation dinner presided over by Dan Ford, Past International Vice President.

Men In Service

PAUL H. Duncan Jr., whose parents and wife, the former Sharon Spivey, reside at Altamonte Springs, has completed basic training at Lackland AFB, Texas, and has been assigned for communications training at Keesler AFB, Miss.

Ronald Norman

NEWPORT, R.I. Navy Lieutenant Ronald W. Norman, son of Mr. and Mrs. Kenneth A. Norman of Fern Park Fla., is presently attending the Naval Destroyer School at Newport, R.I.

R. L. Willis

S. Sgt. Robert L. Willis, husband of Sally Willis, of 1018 Magnolia Avenue, has arrived with the Marine Corps at Da-Nang in South Vietnam. He is the son of Mr. and Mrs. Robert T. Willis, formerly of Lake Mary and now of Jacksonville Beach. His wife is the former Sally Walters, of Sanford.

Republicans Blame Their Losses On Agriculture Handouts

WASHINGTON (AP) — Several days before the election, a Republican congressman showed parity at a 37-year low. It was seized by Democratic opponents as fresh ammunition for their party against Nixon administration farm policies. Just which GOP election losers are putting the heat on the department was not immediately known. Among the more prominent farmhand House members who lost were Reps. Thomas S. Knappe, R.N.D., Odin Langen, R-Minn., Catherine May, R-Wash., and Chester L. Mize, R-Kan.

Mercer Bows Out As A Candidate

By BILL SCOTT

Unless there is a last minute change of heart, John Y. Mercer, United States Bank of Seminole president, will not be a candidate for the Sanford City Commission.

Mercer, contacted this morning by The Herald, said he had seriously considered running for the commission seat being vacated by Thomas McDonald, who was appointed a year ago to serve the last year of Mayor Lee P. Moore's term, when Moore won a new three-year term as mayor, but "right now I am not a candidate."

The Sanford Industrial Commission member said he does not expect to be a candidate this year but did talk about it and talked about seeking the office.

Wednesday at 5 p.m. is the deadline for persons interested in seeking the post to qualify by paying \$90 fee. The election will be held in three weeks on Dec. 8.

Thus far, former commissioner Earl Higginbotham and newcomer Dennis Brunahan have qualified although there have been several other persons expressing themselves as seeking the post.

Port Authority Will Support St. Johns-Indian River Canal

Seminole Port Authority at last night's meeting adopted a resolution in full support of the construction of the St. Johns-Indian River Canal. The resolution will be presented along with a statement by Harold Kastner, port authority chairman, at Friday's 10 a.m. public hearing concerning a proposed navigational channel from Sanford to the Indian River near Oak Hill. Chairman Kastner is expected to explain to the U.S. Corps of Engineers, who is conducting the hearing, to allow persons for and against the proposed enlargement of the navigational channel to give their views, that port authority efforts will be seriously circumvented.

Sanitation Act Wins Final OK

By KATHY NIBLACK

CASSELLBERRY — The work load was light for the City Council's work session last night but several things were accomplished, including final passage of the new Sanitation Ordinance, and the hearing of several annexation and rezoning requests.

The ordinance dealing with "private water systems" (wells). Changes made by the State Department of Health require that owners of existing and future wells obtain a permit and pay a fee to have their wells inspected monthly for sanitation purposes.

Councilman William Grier was strongly opposed to this requirement, saying, "I'm not sure that the water be inspected but I think this section is too stiff."

The Council heard several Zoning Board reports last night, and has placed all requests for annexation and rezoning on the agenda of the next regular Council meeting, Monday night.

The Land O' Lakes Country Club has made a request for the rezoning of a portion of its property from R-1AA (residential) to R-3 (multiple family dwelling). The owners plan to abandon what are presently the 7th and 8th fairways, and local school officials to obtain the appointment for the local board. Finberg pointed out that the only thing left to do is to raise the \$2,600 to finance the three-day trip.

To help meet the expenses of the trip the band members are selling doughnuts on alternate weekends. Finberg added that any and all financial help that can be given by Seminole County citizens will be greatly appreciated.

The band, 70 members strong, received an "excellent" rating at the recent Florida Bandmasters Association district marching festival held at Lynn High School. The marching unit includes seven majorettes and 13 dance corps members.

According to a police report, someone broke into the closed movie house, slashed the cloth screen with a knife, tore the stage curtain down and threw film around in the projection room before making off with an amplifier and speaker.

Detective William Lykens and Patrolman Robert Bernosky investigated the complaint, which was received from Stronstrom Realty, and discovered a pocketbook belonging to Eunice Long and a wallet belonging to the complainant, which was identified by cards of Frank Thomas.

Police after contacting Mrs. Long learned that her purse had been stolen earlier in the day.

Police Chief Ben Butler said today the number of transients coming into Florida for the winter has increased substantially and warned residents to keep their homes locked during the day time since some of these persons on the move make it a practice to break into homes and unattended businesses in an effort to obtain money and items which can be sold easily. Chief Butler theorized the Rita break-in was done by a transient.

Big Rumble Caused By Rumble-itis

By MARION BETHA

"Get rid of those rumble strips before they drive us crazy." These were the words of Edward Aikens, president of the Lake Mary Chamber of Commerce, who appeared before the Seminole Board of County Commissioners this morning relative to the old Lake Mary Road-Osora Road intersection.

Aikens told the board that when the road was a four-way stop, there were no problems, no congestion and no fatalities. However, he continued, since Osora Road was permitted to become the through street, cars have been breezing across at full highway speed.

He said the railroad crossing is a blind crossing which is almost obscured in any direction with no warning lights. He continued, "Someone is about to be killed by cars traveling 50-60 mph" and further stated that three different systems had been in effect at this intersection in the past six months.

He further contended that, in his opinion, the experts did not seem to be sure what they wanted, employing a trial and error method. Aikens said, some people did not realize it was a longer four-way stop and that he had witnessed a situation recently in which a car missed a train by three or four feet.

Aikens mentioned that at the approach to the intersection there were eight sets of rumble strips in each direction alerting drivers to the hazard, but he maintained that one or two sets would accomplish the same purpose and people do not need eight rumble strips. He said these are distracting and irritating to drivers. When people are agitated this minimizes the safety factor, he added.

Aikens also said that most people go around these rumble strips, although it is both illegal and dangerous to drive on the side of the road. Aikens said that the Lake Mary C. of C. endorsed the four-way stop as the best method and that he had heard several complaints about the present system. He suggested that the commissioners survey this intersection.

In addition to the regular program there will be an instrumental trio and a group of vocal selections by a well-known mezzo soprano.

Opening the program will be Lampe's "Daughters of the American Revolution March" and the closing number will be the interesting "Mexican Overture" by Isaac. Other numbers include a dramatic overture, a Norwegian dance, one of Sigismund Romberg's most popular musicals and a Chinese lullaby.

A similar program will be presented in the DelRay Center on Friday, Dec. 4, at 8 p.m. If the proceeds are in excess of the financial requirements of the orchestra for the season, a part of the collection will be donated to some local Christmas-time project or activity.

HAROLD KASTNER

Seminole May Move To No. 1

By GARY TAYLOR

An irregularity in area high school football practices turned up today when The Sanford Herald received an anonymous tip that a football player at Orlando's Edgewater High School is making residence at an Orlando motel for the purpose of meeting requirements to attend that school.

Clifford Brackins, a guard on the team which presently is on top of the District 3AA race, is making residence with his parents at the Flamingo Court on Mills Avenue, while the family owns a home at 3500 This Drive, located in the Winter Park High School district.

Mrs. Rebecca Refett, of the pupil placement department of the Orange County School Board, confirmed that 3500 This Drive is located in the Winter Park High School district.

When the school was called, and this reporter inquired as to the address of the student, the receptionist immediately referred the call to the assistant principal.

The assistant principal advised he did not have the information available, but the head coach will call.

Floyd Lay, executive director of the Florida High School Activities Association, told The Herald that he would look into the matter as other inquiries had been made to his office. However, he was under the impression that it was all "legal."

(Editor's note: It is a possibility that the state activities association could rule against Edgewater High School for forfeit all games in which Brackins played. If this occurs, Seminole High School of Sanford would move into first place in the District 3AA race.)

Oviedo Hi Band To Inaugural

By LARRY NEELY

OVIDEO — The Oviedo High School band has been chosen to represent the home county of Florida's new first lady, Donna Askew, wife of Gov.-elect Reuben Askew, in the Jan. 5 gubernatorial inaugural parade in Tallahassee. Fred Womble, parade director, made the announcement at the Oviedo band will have a "prominent position" in the parade.

Richard J. Finberg, director of the Marching Lions, had been working closely with the Tallahassee parade officials and local school officials to obtain the appointment for the local band. Finberg pointed out that the only thing left to do is to raise the \$2,600 to finance the three-day trip.

To help meet the expenses of the trip the band members are selling doughnuts on alternate weekends. Finberg added that any and all financial help that can be given by Seminole County citizens will be greatly appreciated.

The band, 70 members strong, received an "excellent" rating at the recent Florida Bandmasters Association district marching festival held at Lynn High School. The marching unit includes seven majorettes and 13 dance corps members.

Theater Equipment Stolen

Sanford police are investigating the break-in and vandalism of the old Rita Theater, Second Street and Magnolia Avenue some time Monday.

According to a police report, someone broke into the closed movie house, slashed the cloth screen with a knife, tore the stage curtain down and threw film around in the projection room before making off with an amplifier and speaker.

Detective William Lykens and Patrolman Robert Bernosky investigated the complaint, which was received from Stronstrom Realty, and discovered a pocketbook belonging to Eunice Long and a wallet belonging to the complainant, which was identified by cards of Frank Thomas.

Police after contacting Mrs. Long learned that her purse had been stolen earlier in the day.

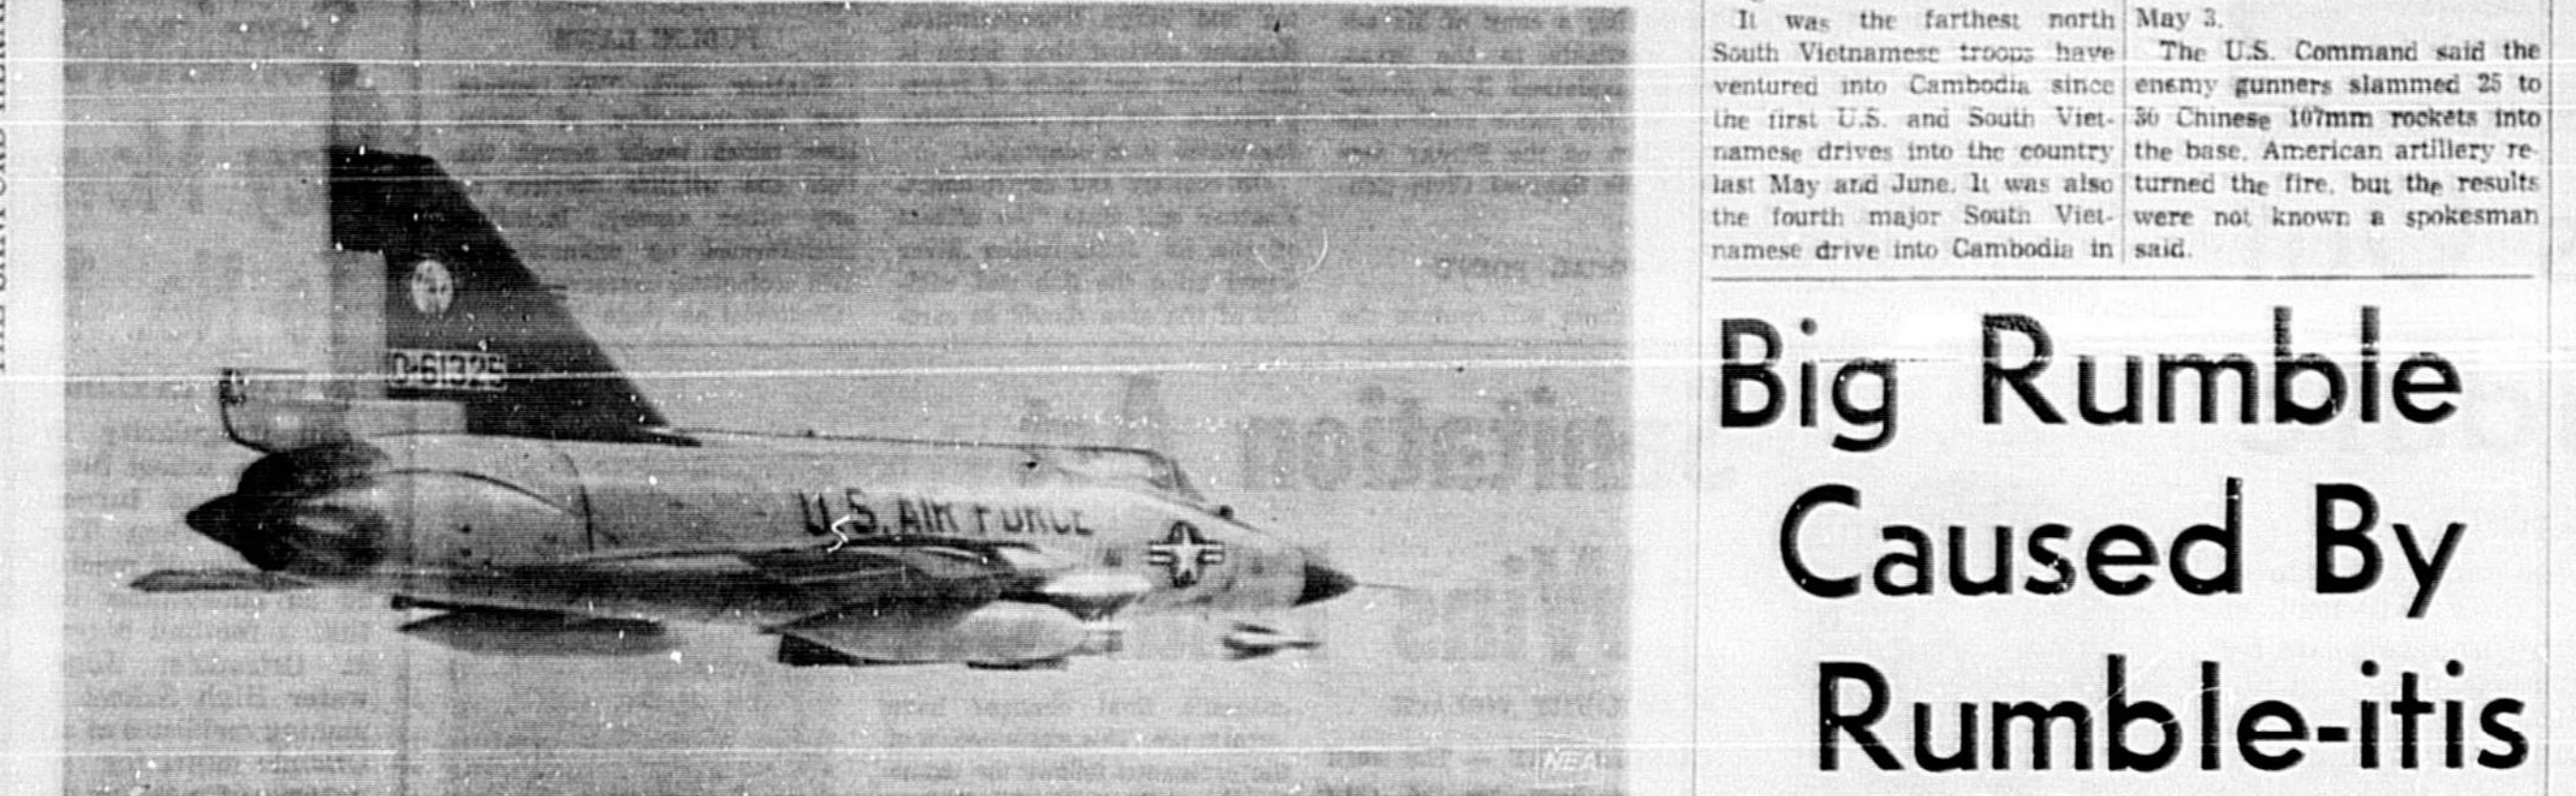

Police Chief Ben Butler said today the number of transients coming into Florida for the winter has increased substantially and warned residents to keep their homes locked during the day time since some of these persons on the move make it a practice to break into homes and unattended businesses in an effort to obtain money and items which can be sold easily. Chief Butler theorized the Rita break-in was done by a transient.

Enemy Rockets Kill 3 GIs

By GEORGE ESPER Associated Press Writer SAIGON (AP) — Thousands of South Vietnamese troops pushed into Cambodia today and uncovered one of the biggest North Vietnamese ammunition caches in the war. In South Vietnam, enemy rockets and mortars hit two U.S. bases, killing three Americans and wounding 20. It was the heaviest American toll from rocket and mortar attacks since July 22.

LETHAL LAUNCH of a Falcon missile (near nose of plane) by an Air National Guard F-102 fighter interceptor resulted in a "kill" of a simulated enemy bomber. Action took place during Aerospace Defense Command's weapons meet at Tyndall Air Force Base, Fla. Nine teams from the United States and Canada competed in a test of the continent's ability to detect itself against bomber attack.

Boys, Girls Invited To Join Sheriff's Youth Deputy Club

By BILL SCOTT Seminole County sheriff's youth deputy division will begin taking applications from county young people, boys and girls, starting Nov. 22 at the opening of the Seminole County Fair. This was disclosed today by Chief Deputy Duane Harrell, who said the sheriff's department will accept applications to join from young people age 14-17. "Both sexes will be represented and there will be 50 of each for the beginning of the program," Harrell advised. The sheriff's department will have a booth at the fair and all applications in the age group will be accepted with a screening expected to narrow down the first group to an even 100, Harrell advised. "We expect to get the whole program rolling by Dec. 1, with troops composed of 25 boys and 25 girls," he added. The deputy disclosed that Mr. and Mrs. Roger Blatterberger had been selected for the directorship of the program with Mr. and Mrs. James Hilliard chosen for the assistant directorship. The program is designed to enable the youth of the county to take an active part within the law enforcement branch, to stem the rising tide of juvenile delinquency within the county; allow the youth an opportunity to work with and reconcile their own problems within their peer group and allow the youth to educate their peer group on problems of law enforcement agencies when dealing with law violators. Funding for the program will be by public donation and money raised by the youth deputy themselves. For the purpose of fund raising and social activities, the group will elect a president, vice president, recording secretary and treasurer. All fund raising projects must have the approval of the chief deputy. Expenditures of money must be approved by the group adviser. Under qualifications than are to join are: Must be a citizen of the county; never have been convicted of a felony; take the oath of allegiance and parents permission to join. Members will be assigned to perform work in upkeep of records and reports; jailer assistant with security force at public events; road patrol as an observer; attend sessions on sensitivity and drug abuse, and close order drill with physical fitness. Members for \$70 to purchase a San Hog mower attachment was also approved by the authority.

Navy Is First To Use New Port Of Sanford

The first large cargo to be brought into the just completed Port of Sanford will arrive or Dec. 7 and will consist of obsolete gun mounts bound for the U. S. Naval Training Center at Orlando via waterway from Norfolk, Va., to Sanford and then over U.S. 17-92 to their destination. It is just a coincidence that the 350 tons of former fighting ship apparatus will arrive at the new port on the 29th, anniversary of the bombing of Pearl Harbor by the Japanese. The information of the first cargo to use the Central Florida facilities of the only state inland large port came from James Ryan, port administrator during last night's month by Seminole Port Authority meeting. Ryan stated that Navy Department officials have consulted with him concerning the movement and that, in all, the job will require four days to accomplish. Ryan said the mounts could not be moved on an interstate highway due to regulations and, therefore, would have to be carried from Sanford along the 17-92 route. In an action during last night's session the authority accepted \$2,995 bid from Behren's Tractor Company for purchase of a David Brown tractor for use at the new port. Another bid from Behren's was \$3,000.

'REALTOR OF THE YEAR' award was presented to Ben F. Ward Jr., of Oviedo, by the Seminole County Board of Realtors at last night's annual meeting. President Meric Warner (left) made the presentation.

Reds Place 'Moonwalker' On Surface

By DAVID NAGY MOSCOW (UPI)—An eight-wheeled Soviet moonwalker laden with flags, pennants, and a portrait of Lenin today became the first manned object to propel itself across the lunar surface. The Soviet news agency Tass said the 20-yard journey of "Lunokhod 1" (Moonwalker-1) was accomplished under earth-bound remote control beginning at 9:28 a.m. (1:30 a.m. EST) when the device crawled down a special ramp from its lunar lander. "Flags and pennants with the coat of arms of the Soviet Union and Lenin's bas-relief were put up on the Lunokhod 1 and the landing stage," Tass said. Besides that, the moonwalker carried television, radio and French-made laser beam apparatuses to scan the moon's surface and send telemetry data back toward earth. A description of the moonwalker's trip on Moscow Radio said it travelled "at the first speed" indicating that the device was capable of various speeds. Nothing in the Tass report indicated whether the Lunokhod will attempt a return to earth or whether it will carry out any moonwalking functions like its predecessor, Luna 16. Nor did it indicate the size or weight of the vehicle. Luna 16, stranded in the Sea of Rains at 6:47 a.m. Moscow time (10:47 p.m. EST Tuesday), was launched a week ago. The test was a new space first for the Soviet and Moscow radio declared that it is "a new effective means for the exploration of the moon by automatic methods."

By North Vietnamese fire U.S. B2 bombers and fighter-bombers hammered North Vietnamese supply routes and depots north and south of Saigon. The U.S. Command said no direct American support was being provided for the operation 160 miles north of Saigon. It was the farthest north South Vietnamese troops have ventured into Cambodia since the first U.S. and South Vietnamese drives into the country last May and June. It was also the fourth major South Vietnamese drive into Cambodia in three weeks and raised to 16,000 the number of Saigon troops operating across the border. One of the American bases hit by the enemy was the 15th Air Force base and Army camp 10 miles northeast of Saigon. It was the first time the sprawling base had been attacked since May 2. The U.S. Command said the enemy gunners slammed 25 to 30 Chinese 100mm rockets into the base. American artillery returned the fire, but the results were not known, a spokesman said.

Big Rumble Caused By Rumble-itis

* Continued From Page 1 NORMAL PROCEDURE Commissioner Chairman John Alexander told Aikens in relation to the project having been changed three times in six months, that this was a normal systematic procedure and was the intent of the engineers, and the county commissioners, he said that Onora Road was the major traffic hazard. He also said that Onora Road was a normal process in changing of a four-way stop to a minor road yielding the stop street; two-to-the-four-way stop; and three-to-the present situation with Onora Road through road and the installation of rumble strips, was a systematic change rather than just "three strikes in the dark." "What is that a car count indicated 2500 cars on Onora Road and 500 on Old Lake Mary Road. Commissioner Robert Parker, questioned Aikens as to his feeling on having only four rumble strips. To the Chamber of Commerce would prefer leaving only two. He again cited the rumble strips as irritating creating a safety hazard. Alexander injected that although he did not vote for the rumble strips, that this was part of a situation of making rumble strips a danger. He continued that installation of the signals was "unpleasantly a slow and cumbersome item." Alexander continued that the opening of Lake Mary Boulevard extension to 14 had been delayed due to this same situation with the railroad.

Probe Opened On GI Booze

By LAWRENCE L. KNUTSON Associated Press Writer WASHINGTON (AP)—A special Senate subcommittee opened a new probe of GI drug abuse today that will include a hard look at one of the most abused intoxicants of all—alcohol. Sen. Harold Hughes, D-Iowa, said in a hearing-opening statement the over-all drug problem, including drinking, may be so serious as to threaten national security. The same allegation has been raised by Sen. Thomas J. Dodd, D-Conn., in GI drug abuse hearings before his juvenile delinquency subcommittee. Pentagon officials concede drugs are a problem but generally deny that the nation's defenses are impaired as a result. The Hughes probe comes at a time when interest in the problem has been rekindled by a dramatic television newsworld segment last week depicting a squad of U.S. soldiers in Vietnam smoking marijuana. Hughes, who lashed a drinking problem of his own, heads the special subcommittee on narcotics and alcoholism. He made clear he considers the abuse of alcohol in the same league with the abuse of marijuana or hard drugs. Hughes said the purpose of the inquiry is to generate possible solutions, not publicity. "Our objectives are to determine the dimension and nature of the drug problem in the armed services," he added. He said staff members have visited Vietnam, toured Army and Air Force bases in Thailand, talked to men along the demilitarized zone in Korea and checked by the situation with psychologists, psychiatrists and social workers. Your questions and comments are welcomed and will be used in PASS IT ON wherever possible. Please address your letters to L. M. Boyd, P. O. Box 90068, Seattle, Wash. 98190.

RONALD LEE Nordstrom, son of Mr. and Mrs. Leo A. Nordstrom, of Casselberry, was graduated from Marine Corps boot camp at Parris Island, S. C., and is undergoing advanced training at Camp Lejeune, N. C. He received his AA degree at Seminole Junior College and attended Florida Technological University.

Sanitation Act Wins Final Approval

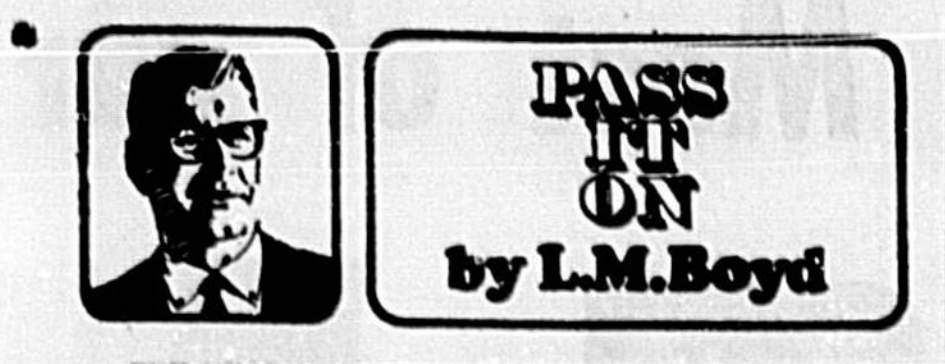

* Continued From Page 1 build townhouses and apartments on this property. Two more houses would then be built elsewhere. Councilman Edith Duerr expressed some concern for the future of the golf course, as the landowners will be free to sell the entire property for residential development in 1971. There is nothing the city can do, however, unless the owners make an agreement with the city not to sell this property for anything but golf course use. The Council heard several other requests last night, including a request from Howell Investment of Florida for the rezoning of its property west of SR 436 from A-1 (agricultural) to C-1 (commercial), a request from Grier for the rezoning of his property from R-1AA to R-3, and a petition by ABC Liquors for annexation of his new store into the city on C-1 zoning. Mayor Curtis Blow presented the names of Richard Blackwell and John Armstrong as potential appointees to the Civil Service Board. A third name is needed, and the Mayor will present this to the Council at the regular meeting on Monday night.

Port Authority OK Given Waterway

* Continued From Page 1 of all approved and existing waterways within the state. Estar will urge that Congress make adequate funding available to implement such programs so a national and state program can be carried out. Finally, Estar will urge that when the St. Johns-River Canal is under consideration for final approval, that no consideration be given to the establishment of user charges. This includes: Improvements of waterways; improvements of interconnections between the inland systems, Gulf of Mexico and State of Florida; and improvement of physical condition.

Now You Know

By United Press International The marine claim family car, known as heart claims, ranges in size from small specimens less than a half-inch in diameter to the smooth, giant sloop, a nine inch variety found off California. OAKLAWN MEMORIAL PARK Memorial Core Cemetery COUNTRY CLUB ROAD at 8th St. of Sanford

THE HEARING APPARATUS of a fish is such that it picks up low notes better than high notes. For this reason, a man's voice is more apt to reach it than a woman's. Or so says a fish expert named Dr. S. L. Shapiro. Next time you're down by the river bank, remember that if you've got to talk, talk soft. CERTAINLY MISS Eva Six would marry Gregory Peck. That would be her Eva Six Peck. ... HAS ANY BRAVE sport ever fought a rhinoceros the way a matador fights a bull? If not, why not? ... WILL BET YOU a quarter on the odds you see in Alcoa for remelted and fabricated into new sheet metal.

Furloughs In States For GIs?

WASHINGTON (AP) — The Pentagon is trying to arrange cut-rate fares for American servicemen traveling from Vietnam to the United States during a new liberalized leave policy. In addition to saving them money, this would help U.S. servicemen get around a scarcity in leave travel space available on military aircraft. As it now stands, the space problem could severely limit the number of men taking advantage of the 14-day at-home leave program announced earlier this month and effective next Monday. The two-week leave would be in addition to the five to seven days of rest and recuperation—RRC—which are granted to all men during their one-year duty tour in the war zone. However, the 14-day home leave is not automatic. Under the regulations, no more than 10 per cent of the men assigned to a given major unit or base can be absent on leave at any one time. Also, whether a man may go on leave when he chooses to do so could hinge on such military considerations as whether his unit is engaged in some important operation.

Student Use Of Drugs Mounting

By MARYANN MILES "Usage of drugs here in the high schools is at" "mounting," stated Dr. Michael Gutman to the PTA members of Milnes Middle School. He further stated that most youngsters begin with marijuana, then "acid" and increase to larger dosages of other drugs. He also said that he feels that there will be more usage before the drop-off stage or saturation point occurs. Dr. Gutman stated that his contact with the problem indicates that there is now a "hands-off" attitude but the continuation of this is dependent upon society. "We are polluting our streams, our air and now our bodies in a drug-conscious society. Children are catching on to the habits," said Dr. Gutman. "It is important how the first encounter with drugs and freedoms. He used the term "Don't legislate what you can't police." He definitely believes children like discipline structure. Parents have to evaluate themselves and become less hypocritical and go back to proper disciplining and setting better examples and having more fun. "Educational programs make people aware but this is not the answer," stated the speaker. "The social ills have to be corrected that are created by the drug conscious society." Dr. Gutman stated that he does not believe in setting limits on a child's personal problem is to establish a happy environment thereby preventing the desire for drugs. Glenn Williamson, president of the PTA, announced at the next meeting, Dec. 11, the second annual Milnes variety show will be presented.

JUDGE KERR AND PAULA HAWKINS
**Juvenile Judge Heads
 March Of Dimes Drive**

Juvenile Judge J. Chester Kerr, Orange County, has been named campaign director for the 1971 March of Dimes drive against birth defects. Announcement...

Hippies Police Selves
 MIAAMI (AP) — Hippie vigilantes are supporting their local police in an effort to get rid of drug peddlers who carry on their trade in Coconut Grove's Bayfront Park.

The hippies say they aren't inspired by any particular love of law and order. They hope that by their self-policing tactics they can convince local businessmen to drop attempts here to close the park at 6 p. m. each day.

The businessmen complain that a growing number of long-haired young people who frequent the park has caused a decline in the number of evening shoppers.

Paul Andre, president of the Coconut Grove Chamber of Commerce, said he would watch the activities of the hippie vigilantes for a week before making a recommendation to the chamber.

"There's already a lot of drug stuff (drugs) floating around that way," said Dave, a tall, long-haired blond who runs a free kitchen in the park for hippies.

The hippie law enforcement committee said it had warned drug sellers to make their sales discreetly and had passed the word to park habitués to refuse to buy drugs in the park.

"We've warned four or five people to lay off already," said 18-year-old Earl Greer, a member of the committee. He said the hippies would not go so far as to turn drug peddlers in to the police.

IT'S A GAS. A white-suited technician, wearing head shields, scans powdered nerves. Eye of Radar's steady center for the deadly substance.

Editorial Comment

Auto Pact Shows Price-Wage Controls Need

On the political horizon there is becoming more and more visible a cloud which could presage a storm of such intensity that the Nixon administration in 1972 would be engulfed by the same sort of economic turbulence that upset the Hoover administration in 1932.

In oversimplified terms this is the existence of a price-wage control problem. The cumulative failures at the highest levels to move boldly into actions which could control and prevent disastrous inflation.

This week, as a prime example, the local unions of the UAW are voting on acceptance of a new contract with General Motors which include such benefits as that only the most biased observer can see anything but inflationary in nature and eye-opening in terms.

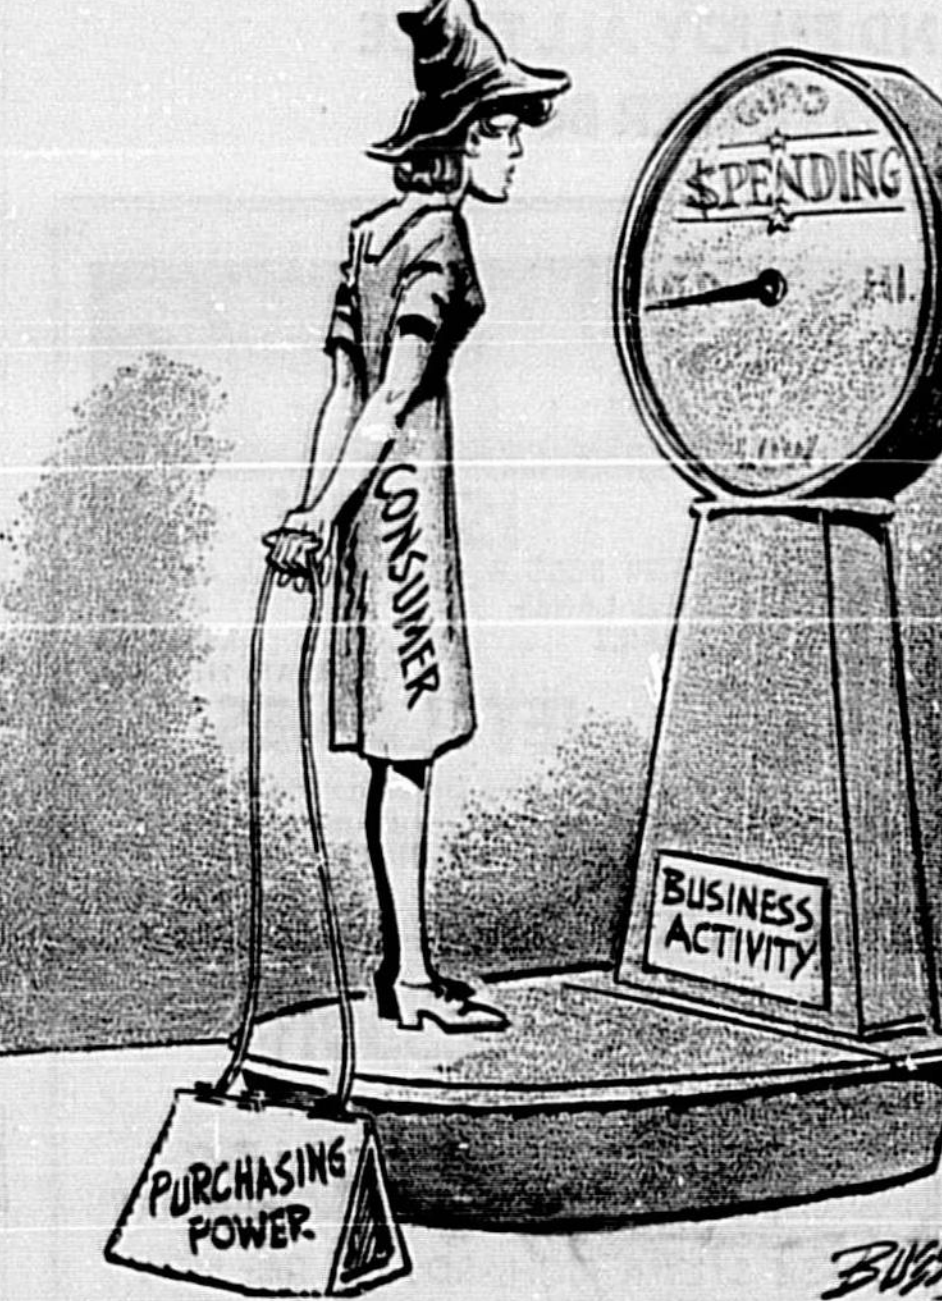

General Motors, it should be borne in mind, is only the first of the three automobile giants to have been attacked and defeated. Ford and Chrysler are the next and these, in union parlance, are apt to furnish "the icing on the cake" with even more advantageous terms.

Tulsa-Cable TV

Anyone who has attended the meetings of the City Commission where the two surviving applicants have been in spirited competition to win the franchise for cable television in Tulsa must be aware that the stakes are high, as well as the risks.

Both bidders for this service have deep dedication of Tulsa, and their ownership includes men prominent in a long and illustrious list of civic activities. Further, there is no question as to either party's financial responsibility to carry out development of a cable TV system, which in itself is a big investment.

In Wake Of Cyclone Disaster Cholera Spreads Thru E. Pakistan

By ARNOLD ZEITLIN. Associated Press Writer. Dacca, East Pakistan (AP)—Cholera spread today among hungry, homeless survivors of the cyclone and tidal waves that devastated heavily populated lands at the mouth of the Ganges River and stretches of the East Pakistani coast behind them.

Estimates of the total casualties were still only guesses, although relief officials said Monday night that the count of the dead had reached 35,000. Information Secretary Syed Azizuddin said that 25,000 tons of relief supplies were waiting for swift currents to subside so they could land their cargo.

Historical Asolo Theater To Present 'Candida' Saturday

The Asolo State Theater Company which will be appearing at the Sanford Civic Center, Saturday, Nov. 21, at 8:15 p.m. is part of the 1970 concert season of the Seminole Mutual Cancer Association. This theater group, has their own repertory theater in Sarasota. As years passed the castle became unoccupied and in the late 118th century the impressive Antonio Lestolli secured permission from the municipality of Asolo to build a theater in the audience hall of her court, visiting nobles, and petitioners for royal favor. In 1887 a Society of Ben Holders bought the 300 seat theater and rededicated it and throughout the late 19th and early 20th centuries all the leading Italian actors played on its stage. The Asolo was also the home theater of the immortal Eleonora Duse. In 1930 the theater was taken down and an antiquarian bought all of the elements that characterized the original building (such as the proscenium arch, the curving walls, the ceiling decorations, and the valances) and stored them in Venice. Years later, while attending a curator's meeting in Europe, A. Everett Austin, Jr., the Huntington Museum's first director, heard about the Baroque theater and went to Venice to investigate it. He found it and recommended that the State of Florida purchase it. In 1949 it was shipped to Sarasota and put up in the Museum auditorium. In 1957 the Asolo Theater opened in its own building. Its appearance, with its limber, horseshoe plan, rising tiers of boxes, gold decorations, and rare paintings of Baroque varied roles by the late 18th century Florentine, Giovanni Domenico Peretti. The Asolo provides the exquisite headquarters for the Official State Theater of Florida. The Saturday Review drama critic Henry Hewitt had said of the Asolo, "There are two theaters in North America where one feels that it is worth the price of admission simply to enter and be seated. One is the Stratford, Ontario, Festival Theater, and the other is the Asolo Theater in Sarasota."

Annual Bazaar Attracts Throngs

By LIZ MATHEUX
It was more than obvious that many fingers and minds had been hard at work for a very long time creating colorful hand-made tree ornaments, handwork, homemade jellies, cookies, cakes and other novel items, including a covered yard stick. The White Elephant Booth really did a landable business, but of course with the many interesting and varied items which they offer, why wouldn't they?

Mrs. Dan Gallant of Lake Markham, was the winner of a large and beautiful oil painting of a Florida scene, which was donated by Mr. Edmund Stowe, local well known artist. Mrs. Georgia Ball, another artist, donated three lovely paintings which were offered for sale.

Not to forget the youngsters, there was even a punch and cookie booth.

Persons who assisted were Mrs. W. H. Stewart, Mrs. Gloria Simpson, Mrs. Kenneth McRoberts, Mrs. Bettie Brough and Mrs. Julia Chase. Mrs. Alice De Brine was overall chairman.

A delicious luncheon was served at noon with women of the church serving as hostesses and caterers.

The annual affair attracted throngs of shoppers and diners with plans already in the making for the 1971 bazaar.

MRS. CARMETA RAY, president of the Episcopal Churchwomen is seen as she takes time from her many duties to chat with Mrs. Harold Chapman, Allison Lee and Mrs. Earl Lee at the recent Holy Cross Episcopal Church Bazaar. These talented ladies were chairman and co-chairman respectively of the most successful endeavor. (Liz Matheux Photo)

leading Italian actors played on its stage. The Asolo was also the home theater of the immortal Eleonora Duse. In 1930 the theater was taken down and an antiquarian bought all of the elements that characterized the original building (such as the proscenium arch, the curving walls, the ceiling decorations, and the valances) and stored them in Venice. Years later, while attending a curator's meeting in Europe, A. Everett Austin, Jr., the Huntington Museum's first director, heard about the Baroque theater and went to Venice to investigate it. He found it and recommended that the State of Florida purchase it. In 1949 it was shipped to Sarasota and put up in the Museum auditorium. In 1957 the Asolo Theater opened in its own building. Its appearance, with its limber, horseshoe plan, rising tiers of boxes, gold decorations, and rare paintings of Baroque varied roles by the late 18th century Florentine, Giovanni Domenico Peretti. Library Night Observed

Sanford Chapter 1404 of the Women of the Moose held their annual Library Night on Nov. 11, with Ann Cook presiding as chairman.

Mrs. Stacey Harrison, head librarian of the Seminole Memorial Library, was guest speaker. She spoke of the growth of the library in Sanford and the importance of having a good library.

In her speech, she brought out the fact that books are a part of life. She also stressed the fact that everyone should take a 15-minute book break a day. November 15 is National Book Week and the slogan is "This is the Age of the Book."

The seven new members enrolled were: Johnnie Mae Polley, sponsored by Mary Johnson; Wanda Rayson and Ollie Lee Yelinski, sponsored by Mary McLaughlin; Corine Benton, sponsored by Junelle Addison; Linda Ruth Smith, sponsored by Louise Sinko; Margaret Sigmond, sponsored by her daughter, Gladys Chabot; and Mary Lee Thompson, who was sponsored by Mary Beggs.

The Award of Achievement was presented to the chapter. This plaque was presented to Junior Graduate Regent, Louise Sinko, in recognition of a very successful year 1969-1970.

Mrs. Sinko received her green cap during the ceremony in Jacksonville on Nov. 1. Doris Gandy, College of Regents Chairman of the Sanford Chapter had the honor of capping Mrs. Sinko. Joe Sinko also received his Fellowship Degree in Jacksonville on the same day.

Refreshments were enjoyed by the members at the social hour following the meeting.

MR. AND MRS. NORFLEET T. MANGUM (Cecelia Farmer Photo)

On 50th Anniversary Couple Honored

Mr. and Mrs. Norfleet T. Mangum observed their 50th wedding anniversary Tuesday, Nov. 10 at their home, 1913 Summerlin Ave. No formal celebration was held as none of their children or grandchildren were able to be present.

Norfleet and Ruth G. were married Nov. 10, 1920 in Graham, N.C., and resided in that area until 1964 when they moved to Sanford. They have five children, Ruby Williams, Cary, N.C.; Louise Wimer, Palmyra, Pa.; Everett, Raleigh, N.C.; and Wesley, Stoney Creek, Va. They also have 18 grandchildren and 26 great-grandchildren.

Mr. Mangum was an insurance salesman until his retirement in 1964. After taking it easy in Sanford for awhile he decided that doing nothing was more exhausting than working so he took a part time job with the L. B. Merchandise Co. Currently he and his wife both work for this company doing special work in Seminole and Orange Counties.

They both like to fish, in their spare time and belong to the Methodist Church. They plan to celebrate their golden anniversary at Christmas time when some of their children and grandchildren come to visit them.

Green Thumb

IBIBUSCUS CIRCLE

Ibibiscus Circle of Sanford Garden Club had its November meeting at the home of Mrs. Gordon Brissson with Mrs. L. A. Albrighton, president, presiding. Mrs. J. V. Jones and Mrs. T. B. Middleton were co-hostesses with Mrs. Brissson setting delicious pumpkin pie and coffee. Sixteen members and guest, Mrs. George Schmidt, were present.

Mrs. Frank Luecker volunteered to take charge of the Circle's table for the Fantasy Land Holiday. Tables which will be displayed at the Bazaar on Dec. 5 and 6 at the Garden Center.

Collection for World Gardening was taken up at this time as well as a collection for the gardening project at Radford.

Mrs. Brissson, in charge of Garden Therapy this year, requested that each member donate a cake of soap and one Christmas Tree ornament for gifts and decorations to the local nursing homes. A meeting of the Garden Therapy chairman from each circle was held Monday, Nov. 16, at Mrs. Brissson's home to start making these gifts.

Nominating Committee was elected with Mrs. Stewart as chairman, Mrs. Burdick and Mrs. Brissson. Their state of new officers will be presented at the December meeting.

Mrs. Moreland, Horticulture Chairman, gave a very interesting talk on plants to be put out at this time. She recommended that we put a bulb for the Flower Show next spring. She gave many good pointers on the care of house plants, particularly African Violets. She recommended a very good booklet for the gardener, "Learn How to Garden."

Garden of the Month went to Mr. Delbert Abney, 2115 Laurel Avenue. Next meeting will be Dec. 11, at the home of Mrs. J. M. Fahey, Lake Mary.

JACARANDA CIRCLE

Jacaranda Circle of the Sanford Garden Club met at the home of Mrs. Irving Pryor on Friday evening with Mrs. Halda Kibbe assisting Mrs. Pryor as co-hostess.

Mrs. James G. Johnson presided over the business session with Mrs. C. A. Anderson, Jr.

bringing the report from the general board meeting. Routine reports were given by each chairman.

Each Circle member was asked to donate a Christmas Tree ornament so that the three nursing homes may have decorated Christmas Trees during the Holiday. Every Circle of the Garden Club will make donations.

Mrs. Blanton Owens, chairman of the Bazaar being held Dec. 5 and 6 at the Garden Center, urges more members to attend the workshops held on Mondays and Fridays until Bazaar time.

Jacaranda Circle will have the "Happy New Year" table for the table show in connection with the Bazaar. Mrs. Roy Reel will be the chairman for arranging the table.

The nominating committee was appointed and consists of Mrs. A. C. McReynolds, Mrs. C. C. Tyre and Mrs. William Wilson.

Mrs. C. A. Anderson, Jr. and Mrs. Mitchell Mooney will be hostesses for the Christmas meeting, first a dinner at Holiday House, then to Mrs. Mooney's for the business session. Gifts will be exchanged.

Mrs. Pryor brought the report from the general Horticulture meeting. Among the things to do in December is to prune flowering shrubs. She had some plants displayed.

Mrs. Johnson talked on the care of the Bromeliads group, having several plants on display.

Duplicate Club Meets

DelBary Duplicate Bridge Club met with 12 tables in play under the direction of Miss Ethel Johnson.

North-South winners were first, Mrs. E. Nichols and Col. G. H. Sibbald; second, Mrs. D. Johnson and Mrs. D. Crosby; third, Mr. and Mrs. F. A. Postrow; fourth, Mr. and Mrs. F. Taper; fifth, Mr. and Mrs. J. Deavers; East-West, first, Mrs. Gloria Accardi and Dolores Finn; second, F. J. Shoemaker and Dr. R. H. Bozborough; third, Mr. and Mrs. F. Matheux; fourth, Mr. and Mrs. E. Forrest; and fifth, Mrs. Frances Henley and C. Daglia.

Robyn Lynn Francisco, daughter of Mrs. Dolly Parsons of Lake Jessup, celebrated her fourth birthday, Oct. 24, with a party. Assisting Mrs. Parsons was Mrs. Carol Myers. Enjoying the birthday fun were Karen and Vicki Hart, Stevie, Timmy, Rickey and David Myers, Jennifer Taylor and Mrs. Ed Parsons.

B. S. Kiddy Announces Second Chevron Station.

By CHARNEE LEONE

There's always room for a new gas station. That is, if that station is in a convenient location, offers prompt, efficient, capable service and products, and if the owner of that station is a responsible, honest business man.

Such a gas station has come to Seminole County. And such a station is deserving of recognition.

Kiddy's Standard Station, located on the busy intersection of Highway 17-92 and First Street in Sanford has a new brother! Kiddy's Station Number Two is just down the street a bit closer to the 2211 West First Street (that's right near the electric company's sub-station).

B. S. Kiddy has a saying: "When you see a sign for a doctor, when your car is sick go to Kiddy's." He says it with a smile, but his meaning is serious.

There is good reason to heed his remarks.

The Kiddy stations have a staff to be proud of. Chuck Duncan and Doyle Crews are stationed at Number 1 and Donnie Vaughn and Jimmy Johnson are at Number 2. All of them are qualified to perform mechanical work. And at all times Kiddy himself is nearby, as he divides his time between the two stations.

The Number 1 station is especially equipped to give your car or truck complete service, including the new Chevron F-10 gasoline that reduces substantially the automotive emissions to reduce air pollution and the brand new unadorned Chevron with F-10 that has been available for only a month for the 1971 cars which use low compression engines.

The Number 2 station is the place to take your car or truck for any mechanical work from a replacement of a light fuse to a motor overhaul. They'll do it all.

You have to have a lot of faith and confidence in your automotive mechanics these days. And Kiddy is the rare man who has proven he is deserving of that trust.

The hours of the Kiddy Stations are convenient — from 7 a.m. to 10 p.m. seven days a week at Station Number 1, and from 7:15 Monday through Saturday at Number 2. He will accept BankAmericard, Master Charge, American Express and

VALE'S JUNIOR Shoeland, which opened in Longwood Plaza, is owned by long-time Sanford residents, Betty and Ed Vale. They have moved from their Titusville store to serve area children in top quality, stylish corrective and normal shoes. "We carry the 'Cadillac' type shoes," laughs Betty. Top quality shoes are an investment—They assure good fit, stylishness and save you money in the long run. Let Betty show you how. The Vales also carry Unroyal Keds for adults and Dr. Scholl's Duty Shoes. (Charner Leone Photo)

RAIN-FLOW MOBILE UNITS are equipped to provide your home or place of business with top-quality all-aluminum rain gutters. The gutters are made on the job site from continuous lengths of metal. They include a pre-baked finish, inside and out. Thus they are durable and attractive with no seams to mar the sleek line that surrounds your home. For home-improvement plans or new construction call Bill Hedrick at 831-1181. It may be the call that will save you costly repair on your roof from damage caused by backed-up water, or a paint job to cover rust stains made from water as it drips through your old leaky gutter. Here Mike Cromwell and Rick Payne pose for Herald camera. (Jane Casselberry Photo)

Visit Vale's Junior Shoeland For Prescription, Duty Shoes

By CHARNEE LEONE

A healthy child is a happy, comfortable child. It doesn't take a Spock or a Gisel to tell you that. And the reverse is also surely true, as any mother will know. A happy, comfortable child is a healthy child.

And nothing is more important to a mother than these three factors:

• So why do mothers inflict their growing children with shoes that will cause them pain and suffering and untold agony in their adult years?

• Just because your feet hurt, and you're learning to live with it, or to save a dollar or two, or because they just aren't interested?

• Of course not! All three "reasons" are ridiculous. Ignorance is probably the answer.

Children grow in spurts. At times the growth is rapid, at times slow.

But the shoes the child wears should fit him all the time, regardless of the growth spurt. The shoes should give him proper support — not too tight or too loose. They should be attractive — it's important for a child to feel well-dressed. And they should fall within a reasonable cost range.

This last is very important. In view of all this, parents when buying shoes for their children must realize that a pair of \$3.00 shoes bought in a bargain basement are probably no "bargain" at all. They are made from cheap material. In a matter of a few wearings they will look shabby and children are extremely conscious of these things! and within a month or so they will need replacing, either for poor fit or because they are just worn out.

The solution is obvious. Buy a good pair of shoes to last with.

Seminole Counties are fortunate to have such a place, recently opened, called Vale's Junior Shoeland.

At Vale's children are the "specialty." There the needs and desires of the style-conscious children, and the fit-conscious parents are catered to. And even the budget-conscious Dad is included!

The country motif of Vale's is friendly and welcoming — tiny ceramic frogs and ducks peek from behind the shoe display — fascinating Pennsylvania Dutch "hex signs" to ward off evil spirits decorate the walls, and comfortable orange-tweed carpeting and cushioned chairs make Vale's a unique place.

Vale's is conveniently located in the Longwood Plaza, only a few minutes by car from any point in the county.

Ed and Betty Vale have lived in the Sanford area for 12 years. Recently they moved their successful Titusville business back to their home town. "I just couldn't stand any more of that daily traveling!" says Betty.

They are experts in children's shoes and in fitting those shoes.

They sell both regular and prescription shoes. Vale's carries Edwards prescription and regular shoes (Edwards make only children's shoes and is a byword for quality).

They also carry the Marshall line of prescription shoes and the Unroyal Keds for children and adults. And the Dr. Scholl's duty shoes for professionals are also available.

Seamless Gutters Beautify Your Home

By CHARNEE LEONE

The rainfall last summer seemed heavier than usual. There were more days spent by the loved children and harassed mothers watching the rain pelt against the windows. There were more days when the man of the family arrived for dinner drenched "to the skin" because the sunny skies of the early morning had lulled him into belief that at least today would be a fair one.

But the mark of the rain is seen indelibly in the area. The lawns are green and lush and lovely. But the homes they surround are not so pretty as rust stains made by water dripping from a gutter in need of repair has marred the finish of the house. Or a rust stain, caused by backed-up water, is in need of repair.

The water has slipped through ill-fitting seams in the gutter, or holes drilled by the insect.

Bill Hedrick, the owner of Rain-Flow services (of course new construction as well as home-improvement jobs).

Rain-Flow is a new concept of "one job" fabrication for the installation of rain gutters. They are fully equipped and experienced in the precision produced gutter made from spoils of flat material on the site. The gutters are made at the rate of about 25 feet per minute.

Two mobile units, bearing the well-known Rain-Flow insignia, are available to give you prompt after-noon service.

The units are self-contained and equipped to fabricate exact lengths of guttering measured to fit precisely to your home or business. It is a franchised system that serves the area within a 50 mile radius of Orlando. They have recently expanded to include the Tampa area.

Rain-Flow services (of course new construction as well as home-improvement jobs).

J. Edgar Hoover In Hassle

By MARK BROWN
 Associated Press Writer
 WASHINGTON (AP) — FBI Director J. Edgar Hoover and former Atty. Gen. Ramsey Clark, apparently uneasy bedfellows in law enforcement for two years, have publicly divorced themselves with verbal blasts at each other.

Clark, Hoover's boss from 1967 to 1969, fired the first shot. The 75-year-old director's "self-centered concern for his own reputation," said Clark in a new book, led to the FBI's sacrifice of "effective crime control."

Hoover, in turn, told a Washington Post reporter that Clark was "a jellyfish," the worst at attorney general in the 43 years Hoover has headed the elite federal law enforcement agency.

While a 1964 confrontation over standards for FBI agents resulted in Hoover's refusal to speak to the late Robert F. Kennedy in the last six months of his tenure as attorney general, a director told the Washington Post in an interview.

"If ever there was a worse at attorney general, it was Ramsey Clark. You never knew which way he was going to flop on an issue."

Do Your FALSE TEETH Drop, Slip or Fall?

Don't keep worrying whether your false teeth will come loose at the wrong time. For more security and comfort, use the FASTERTH denture adhesive. FASTERTH holds false teeth more naturally. Seeks To Ease Tough Bill

Bank Lobby Working On Solons

By JEAN HELLER
 Associated Press Writer
 WASHINGTON (AP) — The American Bankers Association has launched a last-minute campaign to win congressional approval of a watered-down version of a bill to regulate controversial one-bank holding companies.

The ABA's drive seeks an eleventh-hour lobbying effort by 60 bankers in the home districts of the 12 House and Senate members who meet Wednesday to mark out a compromise between the tough House-passed one-bank holding company bill and the weaker Senate version.

The legislation would in effect stop banks from doing business in non-banking fields.

The ABA, in a letter to the Senate bill and asked the bankers to get in touch with the House-Senate conferees before Wednesday to make that position clear.

Three of the conferees hold large pieces of stock in banks, and the ABA has tried to persuade them. They are Reps. Leonard K. Sullivan, D-Mo.; Henry S. Reuss, D-Wis.; and J. William Stanton, R-Ohio.

Mrs. Sullivan is a stockholder of the Mercantile Trust Co. in St. Louis. Mercantile Trust's president, Donald E. Lasater, was asked by the ABA to contact Mrs. Sullivan but he said in an interview that the bank did not intend to take any action on the ABA request.

"They knew better than that," Mrs. Sullivan responded. "It's humanly possible to keep it

and the bankers all know my position.

Reuss owns stock in Marshall & Isley Bank in Milwaukee. The ABA asked the bank's vice president, Donald N. Baxter, to contact Reuss. Baxter said another banker handled the request. A spokesman for Reuss said the congressman had not been contacted by anyone.

Stanton's stockholdings are in the Lake County National Bank, Painesville, Ohio. The bank's president, Albert R.R. Pike, was asked by the ABA to get in touch with Stanton. Pike, who was Stanton's campaign treasurer in the election earlier this month, said Stanton was out of the country, so no attempt had been made to contact him.

These same three congressmen were involved in a recent controversy when a rich cam-
