SANFORD, FLORIDA, TUESDAY, JUNE 27, 1922

## ADMINISTRATION EFFORTS MEET PRELIMINARY HALT IN COAL STRIKE TRUCE

President Harding, Sec. Davis and John Lewis Confer

### WITHOUT RESULTS

NEW WAGE SCALE MUST NOT BE SET UP SAYS THE UNIONS.

(By The Associated Press) WASHINGTON, June 27.—Administration efforts to bring about a settlement of the bituminous coal strike met a preliminary check yesterday.

After conferences with President Harding and Secretary of Labor Davis, John L. Lewis, president of the United Mine Workers of America, announced that the union policy still was unaltered and unyielding in its insistence that a new wage scale must be set up for the strike ridden mining districts by national or semi-national conferences with operators.

The meeting between Mr. Harding, Secretary of Labor Davis and Mr. Lewis, which took place around the White House luncheon table, was the last of a series of conferences into which Mr. Davis took Mr. Lewis after his arrival from Cincinnati Sunday. Officially, no statement was forthcoming, though Secretary Hoover was called to the White House for a word with the president about the situation immediately after Mr. Lewis left. Apparently no spokesman for the mine operators, whose refusal before last April to meet in the semi-national wage scale negotiations of the central competitive field was the controversial point in the strike, were in the capital for yesterday's discussion.

Mr. Lewis was first invited to Washington last Tuesday, and upon his arrival Sunday was taken into Secretary Davis' private apartments for a protracted discussion, running several hours past midnight, to be renewed later yesterday at the labor department.

"We talked over the general problems of the bituminous industry and the strike," Mr. Lewis declared on leaving the White House, "its development, and intermittency, and projects for its stabilization. No definite plans affecting the strike were decided upon. The strike situation is unchanged.

"I explained to the president the futility of attempting settlements in individual mining districts. There are no groups of operators willing to hazard their competitive relationship with other producing sections by fixing a wage scale until they know what their competitors are going to pay. The country will be facing a serious shortage of coal within a few weeks, and if the strike continues, the railroads will be unable to transport enough to take care of industries and domestic consumers."

There were no indications of what further steps might be taken by the government after the meetings had been concluded. Mr. Lewis expected to remain in Washington for another day but was said to have no appointments with officials.

### MOTHER IDENTIFIES BODY OF SON KILLED AT HERRIN, ILL.

(By The Associated Press) HERRIN, June 27.—One of sixteen unidentified dead buried in the potter's field Sunday was claimed today. Mrs. Mable Jacobs, of York, Pa., identified the undertaker's description of Number sixteen as that of her son, Lawrence Jacobs, steam shovel operator. The body was disinterred this morning and taken to York.

### KELLY BILL POSTPONED, REDUCED THE RATES FOR SECOND CLASS MAIL

(By The Associated Press) WASHINGTON, June 27.—The house postoffice committee today voted to postpone consideration of the Kelly bill for reduction of second class postal rates until December session.

ATLANTA, June 27.—Hooper Alexander, former federal attorney, will be called before the federal grand jury to prove his assertions in a statement published today that bootleggers in Atlanta were immune from prosecution. N. T. Jones, assistant federal prohibition director, said today.

## ARMY BILL CALLED UP IN SENATE

AUTHORIZES SEVEN AND ONE-HALF MILLION FOR THE WILSON DAM

(By The Associated Press) WASHINGTON, June 27.—The army bill containing seven and one-half million authorization for renewal construction of the Wilson dam at Muscle Shoals, was called up in the senate today by Chairman Wadsworth of the military committee. The tariff bill was laid aside temporarily.

WASHINGTON, June 27.—The senate today concurred in the house amendment to the army bill authorizing the appropriation of seven and one-half million for new work on the Wilson dam at Muscle Shoals effective next October first.

### Mrs. William Jennings Nominated Today for The Vice-Presidency

Of General Federation of Women's Clubs

(By The Associated Press) CHAUTAUQUA, N. Y., June 27.—Mrs. Thomas C. Winter of Minneapolis, was nominated for re-election as president of the General Federation of Women's Clubs at the convention here today. Mrs. William S. Jennings, of Jacksonville, Florida, was nominated for first vice-president. Neither has opposition.

## BOLSHEVIKS WANT MONEY FIRST THING

GREED FOR COIN MAY THROW FAT IN THE FIRE

(By The Associated Press) THE HAGUE, June 27.—Bolshevik Russia wants credits before anything else. This pronouncement was made last night by Maxim Litvinoff, head of the Russian delegation, which arrived here yesterday, in his first statement to the press, and it has created consternation among the representatives of the European countries here, because they had virtually agreed to discuss credits last of all—after some tentative accord had been reached on the question of private property and Russian debts.

Some of the delegates believed that persistence of the Bolsheviks in this attitude may imperil the conference; they point out that there can be no serious conversations about loaning money or opening credits until some satisfaction is first obtained concerning property and debts. Belgium and France will be the first to oppose the soviet procedure.

### WATERWAYS HEARING AT DAYTONA YESTERDAY

(By The Associated Press) DAYTONA, June 27.—Citizens of several interested cities and towns appeared before Major W. B. Lehman, United States engineer, at a hearing held here yesterday into the proposed government sponsored waterway.

The hearing was one of a series conducted on the subject by Major Lehman. Speakers appearing today urged the development by the government of a waterway from Fernandina to Miami, which would be part of an intercoastal waterway from Boston to Miami. Several interested cities and towns were represented, including Daytona, Daytona Beach, Sea Breeze, St. Augustine, Port Orange, Ormond, Wilber, New Smyrna, Oak Hill and other east coast points, representing the local chamber of commerce, Major P. D. Gold, of Daytona, Judge J. R. Dunham and Eugene Masters, of St. Augustine, G. W. Parkhill, of Jacksonville, and G. N. Ridgely, of Ormond.

## RAILWAY UNION OFFICIALS CONTINUE THE CONFERENCE ON THE RAILROAD STRIKE

Informal Statements Show Strong Sentiment for Walkout

(By The Associated Press) CHICAGO, June 27.—Railway union officials continued their conferences today on the threatened railroad strike. With informal statements by union leaders indicating referendum of shopmen, maintenance of way employes and clerks throughout the United States discloses a strong sentiment for a strike as a protest against wage reductions. J. C. Smock, assistant to president of maintenance of way men predicted a walkout would be called July 15th. Others said conferences with railroad officials probably would delay call until August first.

## ONE MINER KILLED AND ANOTHER IS WOUNDED AT OHIO COAL MINE

Strip Mines Seem to Be Cause of Most of the Trouble

(By The Associated Press) BRIDGEPORT, Ohio, June 27.—A killing, declaring that the "most unfortunate affair" was due to the employment of non-union men "armed with rifles and machine guns" to mine coal in violation of an agreement entered into with the union miners. The Illinois representative contended that newspaper reports of the disorders in many cases were "very inaccurate," and said that according to the local papers of Marion, his home "not one-fifth of the press reports to the metropolitan newspapers were true." He said he regretted the "repulsive and horrifying details" contained in the accounts and added: "I know that many of the revolting, gruesome details are not reliable and not true in many instances. If the people of the country were better informed about the circumstances which led up to the tragedy they would take a different view of it."

WASHINGTON, June 27.—Two sides to the Herrin, Ill., mine killings were presented yesterday in the house during debate in which Representative Goodykoontz, of West Virginia, and Representative Denison, of Illinois, both Republicans, participated. Mr. Goodykoontz called upon officers of the United Mine Workers of America to assist in prosecution of those responsible for the disorders even though found among the union membership. Otherwise, he said, the United Mine Workers organization "will never be able to rise from the low level to which its members have caused it to fall." He added that the people "are crying out against the enormity of the crime, and strong men in the union should take note of the injury crime is doing their cause."

Mr. Denison, in whose district the disorders occurred, replying to the West Virginia member, set forth in detail the conditions, which led to the

## FLORIDA WILL VOTE ON CONSTITUTIONAL AMENDMENTS AT THE NOVEMBER ELECTION

Four of Them and Most Important is the One for Re-apportionment

(By The Associated Press) TALLAHASSEE, June 27.—Florida citizens in the general election next November will vote on four constitutional amendments, submitted as a result of action by the legislature last year.

One of the amendments provides for the creation of special school tax districts, authorizing a tax levy up to ten mills for school purposes in such districts.

The second is a proposed amendment to Article V of the constitution authorizing the legislature to provide for the appointment of additional circuit judges, where such appointments are necessary to the speedy operation of the courts.

The third amendment is to Section 3, Article XVI providing for the payment of salaries to state officials monthly instead of quarterly.

The fourth amendment is to Section 3, Article VII, and relates to reapportionment. The proposed amendment follows:

"The legislature that shall meet A. D. 1923 and those that shall meet every ten years thereafter shall apportion the representation in the senate, the whole number of senators not to exceed 38 members; and at the same time shall also apportion the representation in the house of representatives.

## WATERWAY'S HEARING BEING HELD HERE TODAY BEFORE MAJOR LEHMAN

## ENGLAND WILL ACT NOW IN IRELAND

IF IRISH GOVERNMENT CANNOT GET ACTION FOR PEACE

(By The Associated Press) LONDON, June 27.—The Evening News today says the British government sent a warning Saturday to the Irish provisional government declaring if the latter government's authority to restore order was not exercised the British government would have to take action.

### HILLSBOROUGH TO VOTE ON ANOTHER BOND ISSUE IMMEDIATELY

(By The Associated Press) TAMPA, June 27.—The advantage of holding two elections the same day occurred to the county commissioners yesterday after they set July 28th for repeating the three million dollar highway bond election declared invalid by the county attorney and they moved up the date to August first when the voters also will pass on the proposal to extend the city limits of Tampa.

### JAPANESE PRINCE DEAD

(By The Associated Press) TOKYO, June 27.—Prince Yorihito Higashi-Fushimi, scion of one of the oldest princely families and admiral in the Japanese navy, died yesterday at Hayama. The prince is believed to have been suffering from cancer complicated by an attack of influenza. He was 55 years old.

## ROTARY CLUB'S FINE MEETING AT VALDEZ TODAY

Had Many Visitors and Many Fine Talks

The Sanford Rotary Club had one of the most interesting meetings of the month today when there were about ten visitors, among them being Major Lehman, of the U. S. Corps of Engineers, of Jacksonville. President Thrasher called upon all of the visitors present to say something and they all responded with something good about Rotary. Major Lehman stressed the importance of the waterways of Florida, told of the rapid growth of the state and said that Florida's problem was not of waterways, as we had plenty of them, but getting the proper amount of work done on them, which he was sure would be had in good time.

A. Wayman of Palatka, J. H. Montmoulin of Palatka, Ernest Rowen of Palatka, Sam Crosby of Daytona, Red O'Conner of America, L. A. Brumley of Sanford, Cornelius Christiancy of Allendale, P. J. Felner of Oseola and several others gave good talks. Capt. Arthur Cundy, who has charge of the Boy Scout movement in five counties in this part of the state, gave a most stirring talk on reputation and character, telling of the difference and of the work that the men of this country must give to the boys in order that they may grow into the right kind of citizens and he received a most generous applause at the close of his remarks. Capt. Cundy is a forceful speaker and knows his work in the Scouts as few men know it and he will give the boys of this district the right sort of leadership. Rotary is very much interested in Boys' Work and they have done a large part of the work in this county in assisting the Boy Scout movement under the able leadership of Chairman Deane Turner.

President Thrasher touched on his recent trip to the international convention at Los Angeles and he was much struck with two principles as exploited there—that of the Boy Scouts and Boys' Work and the idea of peace throughout the world in which the International Rotarians are playing a big part.

## City Crowded With Men From All Parts of Central Florida

### WONDERFUL REPT

IS BEING READ AS COMPILED BY THE CENTRAL FLORIDA WATER TRAFFIC LEAGUE

Major Lemen, of the U. S. Corps of Engineers, is holding the hearing today at the court house on the Inland Waterway through Florida and representatives from every part of Central Florida are here to attend the hearing. This morning A. P. Connelly, representing the Central Florida Water Traffic League, with the president, S. J. Slight, and the vice-president, George W. Knight, and Secretary M. W. Tarpely presented an imposing array of facts and figures on the St. Johns river in a typewritten petition to the board of army engineers showing conclusively that the St. Johns river was tributary to over seventy-five per cent of the tonnage of Florida. Mr. Connelly had a carefully compiled statement that will be submitted and he read only parts of the statement in answer to the questionnaire sent out by the engineer's office. Col. Knight explained the map that has been prepared showing the streams and rivers and canal tributary to the St. Johns river and that can be made navigable to the river and many of the smaller ones that can be used for barges making Florida one of the greatest states in the union for water transportation.

The greater part of the morning was taken up with the facts and figures as read from the voluminous report and this afternoon the various business men and farmers will be called to the stand to state the facts regarding their volume of business that will flow north and south via the St. Johns river if it is made the waterway through Florida and the channel widened and made deep enough for larger ships to come to Sanford and on to Miami.

There were representatives from the lower east coast and from Orlando, Palatka, DeLand and many other points and the meeting is one of the most interesting and one of the most vital meetings ever held in this part of the state. The meeting is still in progress as this issue goes to press and the account of it will be given in a later issue.

## MAN SHOT BY WIFE AT JACKSONVILLE, DIES

Woman Shoots Husband Who Threatened to Give Her Beating

JACKSONVILLE, June 27.—Despite the persistent fight made by attending surgeons the pistol wound in the head of J. L. Travis, 39, inflicted by his wife, proved fatal yesterday after the man had hovered between life and death since Tuesday. The wound, extending from the right ear to the forehead, through which part of the brain pressed out, was beyond the remedy of surgical operations, and the man never regained consciousness.

Charges against the wife, whose two children were made fatherless, by her act, were changed to murder. The jailer conveyed the final outcome of the tragedy to her in the county jail. She had repented her act a few hours after the shooting and prayed for his recovery. She shot Travis when he advanced on her with the intention of administering one of his whimsical thrashings, she said.

Her body, broken badly by the experiences of the past few days, gave way completely when she heard of his death. "I wanted him to live so much," she sobbed, "for my sake, and for the sake of the children."

She has obtained permission to go today in custody of a deputy sheriff and arrange for the funeral. This completed she will return to face a coroner's jury inquest this afternoon.

### PERSONALS

Mr. Sheldon, of New Smyrna, is visiting his uncle, Wm. Aylett Pitts of Union avenue.

Maurice Helston left today for his home in Canada where he will spend the summer.

Mrs. W. D. Holden and son, Wm. H. Holden will be at Holy Cross Rectory for the summer months to greet their friends.

J. R. Hayden left today for Baltimore and Washington and points in Virginia where he will spend the summer months, returning to Sanford some time in October.

Mrs. F. J. Gonzalez, of Miami, who has been visiting her sister, Mrs. E. LaRue Bliss, of Orlando, becomes the guest this week of Mrs. Deane Turner of Myrtle avenue.

E. E. Wadbrook left Sunday going by steamer for a two weeks' visit to New York City and Boston, visiting relatives. He will then return to take charge of the Sanford Golf and Country Club.

On Friday Mrs. S. O. Chase delightfully entertained in honor of Deaconess Harriet R. Parkhill, the house guest of Mrs. B. F. Whitner. Among those invited were Mrs. N. de V. Howard, Mrs. J. N. Whitner, Miss Caldwell, Mrs. B. F. Whitner, jr., Mrs. B. F. Whitner, Sr., Mrs. L. G. Stringfellow, Mrs. A. D. Key, Mrs. Jonathan Peck, Mrs. Wm. D. Holden and Mrs. Rice.

### Capt. Arthur Cundy Is Here This Week With Boy Scouts

Capt. Arthur Cundy, who will have charge of the Boy Scouts work in this district, is in the city and is making a thorough canvass of the situation with regard to the work of the past, present and future. He visited all the churches and Sunday schools yesterday morning and will make talks to all the civic bodies of the city while he is here. He will address the Rotary Club and the Kiwanis Club and possibly the Chamber of Commerce and tell them just what the work of the executive consists of, what the community is expected to do for the boys and give a general outline of the work of the future.

This is the first time the Boy Scout work has had an executive and it will take much of the work and time from the shoulders of busy folks like Deane Turner and others of this city who have spent so much of their time in looking after the boys and the boys' work. Mr Cundy will have entire charge of all the details of the work in five counties and will make trips over his territory at least once each month to keep everything moving in good shape.

### Jazz Orchestra Will Play Thursday For Musical Carnival

Lake Mary Will Be Scene of Big Gathering of Young and Old

Newberry's Novelty Jazz Orchestra of Daytona has been engaged to play dance music at the Musical Carnival to be held at Lake Mary Casino next Thursday. This insures lovers of dancing good music as this well known aggregation of jazz producers have established a reputation wherever they have played. They also have a large following and it is expected that they will bring a large number of musical feet artists from Daytona with them. The program calls for dancing from 2:30 p. m. until 5:30 p. m. and from 7:30 p. m. indefinitely.

The most important feature of the day will be the bathing suit parade. Miss Ruth Gillon has had charge of this part of the program and advises there will be at least fifty girls entered. There will be three prizes given—one for the handsomest bathing suit, one for the most unique bathing suit, and the third for the most attractive girl in a bathing suit. Prizes for this and all other contests will be donated by Sanford merchants.

The committees from the different civic organizations that have charge of the arrangements are confident that, as a result of the day, sufficient funds will be secured for the Sanford band. In order to insure the day being a success, however, it is necessary that the Sanford people turn out in large numbers next Thursday and give not only their moral support but their financial support as well.

10% discount on all shoes until July 1st. Others at \$1.95, \$2.95 and all bargains.—Lloyd Shoe Store. 78-2tc

### Welcome to Dr. King at Union Meeting in Baptist Temple

Four Pastors of Four Churches Joined in the Public Welcome New Pastor

Dr. King, the pastor of the Baptist Temple, was formally welcomed by the Minister's Association and the people of Sanford last night at a union meeting at the Temple. On the rostrum were Dr. King, Dr. Brownlee, Dr. Walker and Dr. Burhans representing the Baptist, Presbyterian, Methodist and Congregational churches.

The program was varied by songs of the male quartette and by special selections by the choir and singing by the congregation. The ministers all joined in extending a welcome to Dr. King from their respective pastorates and he was made to feel that he has cast his lot among friends. Dr. King preached a fine sermon on "The Young Man" and told about the vast amount of good that the young men of the community can do and on the other hand the amount of bad they can instill into a community if they do not live the real Christian life. He made a powerful appeal for the young manhood of this city to assert themselves, come out for Jesus Christ and make this city the best city in the land.

The church was filled to overflowing with the people from every church in Sanford and the occasion was another epoch in the church history of Sanford.

### ENGLAND WILL WELCOME GERMANY INTO THE MEMBERSHIP OF THE LEAGUE OF NATIONS.

(By The Associated Press)

LONDON, June 26.—Asked by Lord Robert Cecil in the house of commons today whether he could state the government's attitude toward the admission of Germany to membership in the League of Nations, Prime Minister Lloyd George replied that Great Britain would be willing to support a proposal for Germany's admission.

RADIO THINGS BEGINNERS MUST LEARN FIRST

Explanation of Terms Used in Radio and of Its Basis Principles.

Due to the great interest taken in radio since broadcasting stations have been started, many radio forms are seen and heard that are unfamiliar to the novice. Some of the most commonly used terms are explained and defined below.

Like light, heat and sound, radio energy is propagated in the form of a wave motion. Every one is familiar with the wave motion set up on the surface of a still body of water by the dropping of a stone into it.

Every time a point on the surface of the waves goes through a complete set of motions and starts to repeat those motions the wave is said to have gone through a cycle.

The number of complete cycles gone through per second is the frequency. The human ear is responsive to sound frequencies up to a few thousand cycles per second but is not capable of responding to the higher frequencies encountered in radio.

In radio it is more common to speak of wave length than frequency. The wave length of a wave is the distance between any two successive crests in the same direction.

G. A. R. REPORT (By The Associated Press) NEW YORK, June 27.—A reply to the action of the United Confederation of Veterans at their convention in Richmond Va., last week, in accusing Abraham Lincoln of having caused the Civil war was made yesterday by officials of the G. A. R. at memorial services for the nation's soldier dead.

Julius Isaacs, chairman of the memorial committee of the G. A. R., said it was one of the most outrageous things that has ever occurred in the history of the country. He added, "It is an attempt to prevent the minds of the children of the country and teach them Abraham Lincoln was the instigator of the war."
