Missionary Film True Christmas Among Eskimos

BAKER LAKE, Northwest Territory (UPI)— British-born Canon William J. E. Jones is an Anglican missionary who shares the message of the Christmas story, but he remained here 20 years by the side of the Eskimo people.

The 50-year-old cleric admits frankly that he would head south in a minute were it not for the spiritual welfare of the 600 Eskimos in his barren patch 2,000 miles north of Winnipeg, Manitoba.

"I love the Eskimos," he said in an interview. "That's the main thing."

"I've played the part of a doctor, lawyer and a school teacher for them."

The gray-haired bearded, who lives alone in a small frame house on the lake shore, believes his long years in the North — he says they've been lonely — have been rewarding. He pointed out that he goes to a school and preaches to the Eskimos at least once a week on church he built himself.

Canon Jones said church attendance is 200 per cent when the Eskimos are in the settlement. He emphasized that they have a true comprehension of Christianity and don't come merely for the food.

He said the Eskimos had known only two years of Christmas here. They were told that the Eskimos in the area, all being either Anglican or Roman Catholic.

Canon Jones preaches three services every Sunday, two in Eskimo and one in English for the Eskimos of other denominations. His prayer and hymn books are in Eskimo, a language he learned on his own.

He said he had been asked to visit to travel up to 50 days at a stretch by Eskimos visiting the temple of snowed Eskimos. But he has cut out most of this as he is getting older and more Eskimos are moving to the settlement.

Canon Jones said he came to the North because it was a challenge. Looking back on his 20 years, he said he hasn't regretted the move. In fact, he plans to stay another five years.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is the backbone of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four great reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his neighbor's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verse
Sunday	Leviticus	19	1-17
Monday	Leviticus	19	18-24
Tuesday	Leviticus	19	25-37
Wednesday	Leviticus	19	38-40
Thursday	Leviticus	19	41-42
Friday	Leviticus	19	43-47
Saturday	Leviticus	19	48-50

Through All Of Life...

Perhaps you see no significance to the hourglass superimposed on the Bible. But to the believer, it means that all of life is contained by God's promise. Every day, every hour, He gives strength and help to His followers. The light of His Word shines steadily through the passing of time. The more you read, the deeper will be your understanding, the greater will be your joy. By entering wholeheartedly into the work of the Church, by giving it your support, you increase the value of your own life, and help others to see the light shining through each day's experience.

Throughout life's entire span, the Church will help us (the Bible) will speak to us of God. Does the picture mean that to you? It will, if you look at it through believing eyes.

20,000 Weekly Get Prayers By-Phone

CLEVELAND (UPI)— Some 20,000 persons here find themselves "standing in need of prayer" every week. They find their need answered through the "Dial-a-Prayer" service of the East Cleveland Congregational Church.

"Although the number is un-noted, we get as much business as the two lines can handle," said the Rev. Robert Peters, pastor of the church, who writes the prayers.

When the service was first started, the eight lines then in use handled more than 100,000 calls during the first weekend of September, 1954. Business was good. So good in fact that the exchange was knocked out of commission and thousands of telephone calls in the area were out of service for a time.

The Rev. Peters says the calls are heavy during the morning and night with a noticeable tapering off in the early afternoon. The phones have even been heard ringing at 4 a. m.

The support of the Church Series is sponsored by the following Business Firms:

Boaters Spend \$500 Million

BY GORDON J. TOLL
(Manager, Security Associates, Inc.)

It has been quite obvious that the number of boat owners in the city and county has heavily increased. This is not only the case in our town but in practically every city that has navigable water available.

According to the Outboard Boating Club of America, 7,000,000 Americans participated in recreational boating last year, an increase of about two million over 1957. Spending on boats, motors, and trailers alone last year topped \$482 million. This year the outlay will more than likely exceed \$500 million. In all, boating enthusiasts spent over \$2 billion on their recreation. The reasons? More teenagers—more income—more leisure time.

In the current issue of Barron's there is an impressive report on the boating industry. A recent boat show staged by American M.A.R.C. Inc., of Inglewood, Calif., at the Beverly-Hilton Hotel in Los Angeles, featured everything from a 14-foot runabout to a 30-foot ocean going sailboat.

A new diesel fuel outboard motor has been developed by American M.A.R.C., which will be introduced next year, to cost some \$50 more than the conventional outboard motor of equivalent horsepower. The company says that boat owners will recover the extra cost in smaller fuel bills, lower maintenance, and savings on insurance because of a diminished fire hazard.

Net sales reported by this company for the year ended May 31 were \$4.6 million against \$2.1 million a year earlier. It is interesting to note another publicly-held company with a stake in the outboard business is Silver Creek Precision (usually identified as a Florida real estate enterprise—North Orlan Co.). Sales of their small electric outboard motors are "running about 150 per cent ahead of a year ago."

Quoting Barron's: "Silver Creek Precision expects an upsurge in business when it introduces its 1960 models, which will be promoted with increased outlays, notably on television. The company's small battery powered electric outboard motors, about equivalent to a two-horsepower gasoline type, are in increasing demand from fishermen and guides, either as auxiliary units or where gasoline engines are banned. This line now accounts for 16 per cent of the company's annual sales, and it is growing in importance."

Trends & Tangents from Forbes claims that Arvida Corporation, the Florida landowner and developer, is now going into the oil business. Arvida's President Milton Weir, a former Gulf Oil employee, has signed a long-term contract to market Gulf products through a chain of service stations and marine outlets which Arvida intends to build and operate in this state.

From the same source comes this statement: "Germany's Daimler-Benz, maker of the high priced Mercedes, reportedly buying into Studebaker-Packard stock on the open market. S-P distributes the Mercedes line in the U.S. At the same time American Motors is rumored negotiating for acquisition of BMW, another German auto maker." This could account for the recent advance in S-P.

EXPERTS SPEAK: The Bache Review of Bache & Co., predicts the coming months favorable for "machine tools, industrial machinery and equipment, heavy industrial construction, steel, autos, appliances, metals, rubber, department stores and other retailing operations." Herman Gade, president of Security Associates, Inc., favors Hewitt Robins Inc., (machinery-equipment). "Labor saving bulk material handling equipment, foam and rubber moulded products have good potentials, and with only 385,000 common shares outstanding, Hewitt Robins' earnings gain per share may be startling if business continues as expected. Dividend return of 5.4 per cent is enticing."

Christian Church To Install New Pastor Sunday

The Rev. James L. Barnett, new minister of the First Christian Church, will be installed Sunday, at 3 p. m. in the Church Sanctuary, with the Rev. Lawrence Ashley, executive secretary of the Florida Christian Missionary Society officiating.

The Rev. Darrell Joachim, minister, First Christian Church, DeLand, will give the address. Others on the program will be the Rev. Gilbert E. Counts, immediate past Ad-Interim minister of Sanford, also from DeLand; the Rev. Robert Spear Jr., president of the Seminole Ministerial Assn., and minister to the Church of the Nazarene, and Vincent W. Larson, chairman of the board, First Christian Church.

The Christian Women's Fellowship of the church will hold an informal reception honoring the new minister and his wife, at the Wesley Memorial Parsonage, 1801 Sanford Ave. The reception committee is composed of Mrs. W. H. Young, chairman; Mrs. Charles Grieser, Mrs. R. W. Ramey, Mrs. H. K. King, Miss Florence Bishop, president CWF; Mrs. G. W. Morgan, and Mrs. Claude Bishop.

Ebenezer Church Purchases Land

The congregation of the Ebenezer Methodist Church has purchased seven acres of land from the B. W. Miller and families for \$12,000.

The minister, William E. Timms, says that in the very near future the congregation will erect a new sanctuary on the purchased property adjoining the church. The congregation is increasing and the pastor also said he hopes to organize a Methodist Youth Fellowship group and begin evening services with the Old Gospel preaching, to which the public of all faiths will be invited.

Cold Hummingbird Travels In Style For Florida Visit

MIAMI (UPI)—A hummingbird who flew south for the winter by non-stop airliner buzzed happily in the warm Miami climate today. The hummingbird, found nearly frozen in North Woodstock, Va., arrived during the night in cardboard shipping carton aboard a Northeast airliner. It was to be turned over to the local Audubon Society.

The bird was found by Mrs. Eugenia M. Mooney, 75, vice president of the Woodstock Humane Society, who decided what the tiny bird needed was a trip to Florida for the winter. She shipped the bird Thursday as a "special passenger" to Miami at a fare of \$4. The bird arrived at about 4 a. m. and was greeted with this news: The high temperature predicted for Miami today is 87.

Alexander Graham Bell gave the first public demonstration of his telephone at the Philadelphia world's fair in 1876.

Report Gives Methods Appraiser Used In Reappraising Seminole Properties

The methods and premises used in the Dowling property appraisal in Seminole County were explained to the county commission yesterday.

The county appraisal was divided between personal and real property, Robert Dowling reported. Business personal property was appraised by examining property owners' books to determine the quantity and value of inventories, and furniture, fixtures, and equipment. The appraisers made value estimates where they couldn't get the figures, Dowling said.

Income from the land was given primary consideration in appraising Sanford business district land. For other properties, lands that a person had sold were compared in price with lands he retained

Princess RUSHES New York Tour

HYDE PARK, N. Y. (UPI)—Princess Beatrix of the Netherlands sped away from the Roosevelt estate at Hyde Park today an hour and a half before Soviet Premier Khrushchev was to arrive.

The princess wasn't trying to avoid the Russian leader, she merely has a full schedule. The 21-year-old heir-presumptive to the Dutch throne toured towns in the Hudson Valley, starting out with five-minute stops at Highland, New Falls, and Hurley. She picked up a variety of gifts, including ten boxes of freshly grown apples, 40 picture slides, and a book on the history of New Falls.

Wall constructions, granulation, size, shape, stories and multi-structures affected appraisals of residences. The Beach system Manual was used for cost estimation system for commercial buildings and some other types, and the Dowling Company's own system was used for residential buildings. The Beach system is recognized by the Federal government.

ROCK HUDSON stars in "This Earth is Mine" along with Jean Simmons. The Universal-International release opens Sunday at the Ritz Theater. Dorothy McGuire and Claude Rains play the key supporting roles.

Specials Swing At Cancer

As many people can have fun at the same time they are contributing to a worthy cause they are getting their money's worth.

The opportunity comes along Saturday and Sunday with the women's golf association at Cambridge and Mayfield courses will help the Duke University Laboratory of the Government to raise funds for the Scientific Chapter of the American Cancer Society.

Miss GUY, Governor of the Cambridge club, and Miss Helen Bates of the Mayfield group and Donald Perry, Sanford and Associates director, are heading up arrangements for the event and urge all golfers to enter.

Entry fee is only \$1 and golfers from the duffers to the professionals will have a chance to win the tourney, since the handicap system will be used.

Any Moonshiners?

A lot of opportunities remain for those of us who are interested in some phases of the jet and electronics age.

A lady worried of in The Herald reads:

"I plan to operate moonshine stills (must be experienced)."

Admittedly, the eye-patching of was placed in good humor by Mr. Franks, manager of the Merivale Theater, who means the "moonshiners" to operate a fantastic still in plugging a movie scheduled at the drive-in.

The old didn't say so, but it would be assumed that any moonshiner also would have to have a certain amount of naive courage to reveal this particular skill.

Viewers Warned To Feel Closer In Frisking Job

By FRANK BARNES
NEW YORK (UPI)—Don't you see the man who you are called on to frisk? "Frisk him," as they say, is the order given to you by the man in the black uniform.

The man in the black uniform is a police officer, or a security guard, or a soldier. He is not a frisker, but he is a frisker's helper. He is the man who is called on to frisk you when you are going through a security check.

The reason for all this detail about a frisking job is that it is a job that is becoming more and more important. It is a job that is becoming more and more difficult. It is a job that is becoming more and more dangerous.

Nikita Visit An Act?

By LYLE C. WELSON
WASHINGTON (UPI)— Buried deep in the structure of Nikita S. Khrushchev's visit to the United States is a disturbing fact as dangerous as a ticking bomb.

The reason may be this: That the Russian government is making a propaganda p y in support of its line that the people of the United States are sympathetic to and support the objectives of the Soviet Union.

A propaganda play to show that the American people love Mr. K and his Kremlin associates is only the masters of the American people would permit them to know the truth.

This is very dangerous propaganda, indeed, especially if it works. If it does work, the Russian people will vastly underestimate the determination of the American people to protect their way of life and to fight for it, if need be.

If the Russian people do understand the American point of view, as much as they will do for the Kremlin to ferment international relations with more crises, threats of calamities, hooding and the like—such as the near-war which Khrushchev brought about with respect to Berlin.

Cultural exchanges a hundredfold beyond anything undertaken or, even, possible, could not undo the damage which this misconception may cause. There are misunderstandings enough between the two peoples already to be the basis for serious worldwide trouble.

How can Americans understand a people whose top man can answer up with a half-mile playing over his face to a question about the Russian massacre of rebelling Hungarians? That was one of the questions at the National Press Club lunch this week.

Mr. K's half-smile told more than his many-worded response.

Assignment Washington

By ED KOTHERA
WASHINGTON — That extra penny-a-gallon federal tax law to further the cause of superhighways should also serve to increase a growing oddity — the human autoball.

The human autoball is a recently-developed breed of impersonal maniac who has no heart, no soul — only a sense of direction and a thousand-yard stare that peeps over his sweaty hand clamped to the steering wheel.

We ran out of gasoline on a 45-mile gasless stretch of the Ohio Turnpike, just four miles — less than a gallon — from the Youngstown plant.

Fantastic as this may sound, we were marooned — deserted, like on a forgotten isle — for one hour, 45 minutes. This happened on the shoulder of the road while a new record in heavy traffic was being established past us — at the rate of 4,000 an hour.

First, I raised the hood of the car and tied a white handkerchief to the handle of the left front door, like the turnpike regulations directed, to indicate emergency.

All it would have taken was a couple minutes to let a stranded motorist siphon a couple gallons of gasoline from a Good Samaritan's tank, for which the motorist would have paid a healthy premium.

But, no. I tried waving. I tried yelling. I tried smiling. These autoballs and their speed wagons went "who-ooo-oom!" I waited for a friendly "screeee-s," but all I got was "oo-oo-oom!"

Finally Doty said, "Get me try." She was in shorts and said, "Surely somebody will assist a lady in distress." She hiked down the highway, and took along our sad-faced, tired, seven-year-old Indian, while I waited by the disabled car, like the regulations directed.

She went a mile. Nobody stopped, even though she'd given those autoballs a pitiful look from time to time.

Old "impossible" turnpike stop-

Washington Calling

BY BARBARA GREEN
WASHINGTON — "The great," said Nikita Khrushchev in covering one of the questions put to him at the National Press Club luncheon. "A pretty persistent rumor." And he might have added that he himself is a decidedly persistent man.

For what came out of the hour and a half of the press club was the power, the drive, the conviction and the determination of the man who is the ruler of 200,000,000 people. In hearing a truly Soviet achievement, Khrushchev was the spokesman and the leader of a society with a tremendous dynamism and drive.

In displaying himself as the adversary of capitalism and a free society, Khrushchev never came hesitated. There were no cringes, no apologies. He did not take his remarks from the American audience, and in his frustration he perhaps unwittingly performed a service for the American public.

His speech was a warning that if the peaceful coexistence he repeatedly called for prevails, then it must be for the West to survive, a competitive peace of the furthest sort. The boots — about the room racket, the atomic test ban, the Berlin blockade — came from a leader who has no intention of letting his people rest on these laurels.

There was nothing new in what he had to say. He repeated all the familiar positions taken in his many speeches and statements and in the course of the negotiations at Geneva. Repeatedly, he said with characteristic frankness, to the motor of knowledge.

In his tour he intends to hammer — and hammer is the fitting word — on a 1945 treaty for two separate Germanys, on a five-city status for Berlin and on the other cardinal points of Soviet foreign policy. His appearance at the United Nations has promised to make into a spectacular offensive for a new Soviet disarmament plan.

In short, here is a propagandist who means to take every advantage of what he sees as a supreme opportunity.

But propaganda to one side, what should have impressed the American audience was not his obvious emotion over the post-war Hungary and Italia (this

Phillies Knock Off Braves, 13-6; Dodgers Win To Stay Alive

PHILADELPHIA (UPI)—The Phillies' comeback from a 1-0 deficit to win 13-6 against the Braves today was the most dramatic in the National League's pennant race.

The Phillies' comeback was aided by a three-run homer by Dick Allen in the eighth inning and a two-run homer by Pete Rose in the ninth.

The Braves' lead was cut off by a two-run homer by Dick Allen in the eighth and a two-run homer by Pete Rose in the ninth.

UCLA New Season World Clash

UCLA's new season world clash is set for next week. The Bruins will face the University of California, Berkeley in a highly anticipated match.

The Bruins' coach, John Wooden, expects a tough battle. UCLA has a strong record in recent years and is looking to continue its dominance.

Buffalo Asks New Major Loop Spot

NEW YORK (UPI)—The Buffalo Bills, winners of the International League pennant this year, are asking for a new major league spot.

The Bills' owners, including John C. Stigemeier, president of the Bills, are pushing for a franchise in the Continental League, baseball's third major league.

A three-man committee, headed by John C. Stigemeier, president of the Bills, held a three-and-a-half hour conference Thursday with Rickey, president of the Continental League, and Bill Shea, chairman of the mayor's committee in New York and chairman of the founders' committee.

Everybody's After Marciano To Fight

GREENVILLE, S. C. (UPI)—Former heavyweight champion Rocky Marciano said today he has not yet made up his mind on whether he will try a comeback.

"Everybody's trying to get in the act to force me to fight again," Marciano said. "But I just don't know what I'm going to do."

Marciano, who retired Thursday night's fight between Pete Rademacher and Ralph Schneider here, said his parents, his wife and his 6-year-old daughter, Mary Anne, are "all against my making a comeback."

Miami Eases Off Of Heavy Contact

CORAL GABLES (UPI)—Coach Andy Gustafson says his University of Miami football players have completed rough contact practice.

Gustafson says the players need a lot more work, particularly the second string team, but he doesn't want to risk any serious injuries before next week's opener with Tulane.

Gustafson put his teams through a dress rehearsal for the Tulane game Thursday night. The first and second teams with Fran Curci quarterbacking, routed the third team and reserves 54 to 6.

Durocher To Be Indian Pilot

NEW YORK (UPI)—Leo Durocher, finally secured the "stock deal" he has held out for since 1954, will be named manager of the Cleveland Indians between now and World Series time, it was learned today from an authoritative American League source.

Durocher's hiring by the Indians will set off a chain of events that will include Ted Gordon, current Cleveland manager, moving to Detroit as manager of the Tigers.

Jimmie Dykes, present Detroit pilot, returning to the job he left as coach of the Pittsburgh Pirates.

Gators, Tulane Open SEC Season In Game Tonight

United Press International
 Mister Touchdown takes over the Southeastern Conference campus scene beginning tonight in what promises to be a banner football year.

The 1959 season opens in New Orleans where Tulane and Florida kick off the season tonight. As usual, the SEC is loaded—with the great and with the question marks—and thousands of fans are grabbing their seat cushions to see if it's Auburn, LSU or Mississippi—or for that matter, any of the dozen clubs.

Tulane and Florida have not been honored with top ratings in the SEC, but LSU Coach Paul Dietzel, who knows a little bit about the game, says Tulane is vastly improved. Florida Coach Bob Woodruff, not exactly an optimist, says Tulane is the most underrated team in the league. And Woodruff says he never knows when his own team might go into orbit.

Rademacher Wins Fight On TKO

GREENVILLE, S. C. (UPI)—Former Olympic heavyweight champion Pete Rademacher today set his sights on a possible fight with Willie Pastrano, following his second straight win Thursday night.

Rademacher scored a four round technical knockout over Ralph Schneider of Daytona Beach, Fla., in Memorial Auditorium here to even his pro record at two wins and two defeats. The crowd was counted at 2,458.

FSU Takes Light Drill For Opener

TALLAHASSEE (UPI)—The Florida State Seminoles will go through light workout today in their final pre-season practice before meeting Wake Forest Saturday night.

The Demon Deacons of Wake Forest arrive here this afternoon. They will run through a late evening workout under the lights in preparation for Saturday's game.

Coe In Semi-Final Round Of Amateur

COLORADO SPRINGS, Colo.—A fuzzy-cheeked Texas kid takes on defending champion Charlie Coe today in the semifinals of the National Amateur tournament.

Twenty-year-old Dud Wyong of Dallas tees off against Coe, the most precisionist in the first 36-hole match, with 19-year-old Jackie Nicklaus of Columbus, Ohio, pitted against Gene Andrews of Whittier, Calif., in the second semifinal.

HAPPINESS THROUGH HEALTH
 BY DR. F. LEO KERWIN

Neck pains:

Did you ever wake up with a pain in your neck? More than likely that means you have a subluxation (misalignment) of a vertebrae in the neck. Other symptoms will surely follow because the nerves in the body are a part of the spinal chord in this area, some of which are undoubtedly impinged. A subluxation (misalignment) at the base of the skull causes not only headaches and neck aches, but indigestion, constipation and other disorders because the nerves supplying all organs are a part of the spinal cord. This would limit the transmission of energy over the nerves with a resultant impaired health and activity. Adjustments of the misalignment is the only logical way to correct the cause of neck pains. There is no substitute for Chiropractic adjustments. Decide: "Today I will start getting well."

One of a series of articles published in the public interest to explain and illustrate the practice of scientific Chiropractic, written by Dr. F. Leo Kerwin whose office is located at 201 E. French Ave. and his telephone number is FAirfax 2-7442.
