

**Today's Cross-Word Puzzle**

A GEM—Puzzle No. 122.

By J. C. BOYD.

**HORIZONTAL**

- 1—sharp and biting to the taste
- 2—alert
- 3—leaves on the body where the skin is broken
- 4—an exclamation
- 5—assured
- 6—one who sings
- 7—to combine with bromine (rad.)
- 8—to the inside of
- 9—a girl's name
- 10—estate
- 11—age
- 12—one of the digits of the feet
- 13—a longer age
- 14—a high explosive
- 15—annual
- 16—an article
- 17—medical
- 18—important
- 19—lead isolated by water
- 20—suffix forming diminutives
- 21—stirring, moving about
- 22—maize
- 23—wrathful
- 24—to send away forcibly
- 25—unit of weight for gems
- 26—an exclamation
- 27—heavy rope or chain
- 28—hoax or sham
- 29—once more
- 30—measure out
- 31—Garden of Paradise (poes.)
- 32—spelling
- 33—a spring
- 34—the summit, perfection (pl.)
- 35—active for superiority
- 36—pertaining to the dead (a combining form)
- 37—rand
- 38—divisions of a motion picture
- 39—the stem of certain marsh grasses
- 33—standing room only (abbr.)
- 34—to grow old
- 35—a proclamation or edict
- 37—sum up
- 38—consume

- 67—pertaining to the dead (a combining form)
- 68—rand
- 69—divisions of a motion picture
- 70—the stem of certain marsh grasses

Herewith is solution for Puzzle No. 122:

**Tip For Beginners.**

Solve this puzzle by comparing the synonyms listed in the "Horizontal" and "Vertical" columns with the number of spaces extending crosswise or downward on the diagram, as the case may be. If a word occurs to you meaning substantially the same as the synonym and the correct number of letters to fit in the spaces between its number and the first shaded stop following, write it in lightly. Work away the small words, the "easy" words, first, and they will give you plenty of clues to the difficult ones.

**May Make Parks Of Army Reservations**

JACKSONVILLE, Mar. 12.—Data on state parks in the south and plans of various states for development and maintenance of systems of state recreation grounds are being gathered for the National Conference on State Parks by Raymond H. Torrey, field secretary of the organization. This information is to be used in advising other states of the ways and means used in establishing, maintaining and administering state park systems. Mr. Torrey, speaking of his labors, declared that one of the objects of the survey was to induce

states in which are located military reservations which the United States war department wishes to dispose of, to take over these tracts he said. The National Conference on State park systems from states which already have public outdoor recreation lots.

**MARKETS "SPUDS"**

PALATKA, Mar. 12.—The Hastings district has sent to market its first shipment of early Irish potatoes of the 1935 season, which brought \$12 for No. 1's and \$10 for No. 2's f. o. b., Hastings. They were shipped to New York. The potatoes were grown by H. H. Williams, negro farmer, who planted the seed last Nov. 15.

**A Beam of Light Visible 100 Miles----**

**T**HERE is a giant searchlight atop the Tarragona Tower at Daytona Highlands, one block west of Daytona, Florida. This searchlight, the largest ever made, throws a beam of light visible on a clear night for one hundred miles. If you live or have been within one hundred miles of Daytona during the past week you have doubtless seen this shaft thrown across the sky during the early evening and wondered what it was.

Following this beam of light and you will make no mistake thousands are doing it and they are not being disappointed. This light is more than a mere advertising stunt for Daytona and it's Master Development, Daytona Highlands. It points the way to greater opportunity for you whether you seek investments, a home site or merely a place to enjoy your favorite outdoor sport for a few weeks. This great light beckons you to Daytona, City of Wide Streets, destined to become the greatest residential, recreational and year 'round resort city in the state. It invites you to the World's Greatest Speedway, Daytona Beach; famous speed kings are now gathering on this beach, holding weekly contests, having selected it as making possible the attainment of a greater speed than is possible on any other course in the world.

This great light points to a thousand other attractions, all within a few short moments of Daytona Highlands. It is the light of Golden Opportunity, pointing a way to sound investment and a maximum of health and pleasure.

**FREE YOURSELF FROM THE SHACKLES OF Indigestion**

Indigestion has many symptoms and frequently we mistake these for other ailments. That tired, grouchy, out of sorts feeling usually means indigestion. The sick headache and heavy fullness after eating are signs of indigestion. In fact, indigestion is one of the most common ailments and a very serious one.

**Glyka-Nuxsin**

Is a scientifically compounded prescription successfully used for many years. By overcoming indigestion this medicine gives to the blood the health and strength building elements contained in the food. Read the following quotations from letters we have received: Mr. Reed of Daytona Beach writes: "I have tried many remedies but Glyka-Nuxsin has given me more relief than anything else I have taken." Miss Murray of Dallas says: "Your medicine gave me complete relief from indigestion." Mrs. Lot of the same city tells us, "I suffered severely from indigestion. It seemed I would have to give up my work, but after taking Glyka-Nuxsin a short while my health was greatly improved." Glyka-Nuxsin is recommended and sold on a guarantee of satisfaction by all druggists. Get a large bottle today, price 75c.

## NOTED LECTURER TO APPEAR HERE AT LOCAL CHURCH

Will Conduct Conference of Christian Endeavor Workers at Presbyterian Church of Sanford on March 17

Rev. Frank Freet, Christian Endeavor worker of Columbus, O., will conduct a one afternoon conference in Sanford at the First Presbyterian church on March 17. Rev. Freet is at present making a tour of southern cities in the interest of Christian Endeavor work. Following is the program for the occasion.

Conference with workers among young people of the "teen" ages, 3:30 to 5 o'clock.

Banquet, to be attended by the Intermediates and Intermediate workers, 6 o'clock.

Mass Meeting of Christian Endeavorers of all ages, and of interested folk, with address by Mr. Freet, 7:30 o'clock.

Continuation of the Conference adjourned at 5 will begin at 9 o'clock.

Leaders of young peoples work from a fifty mile radius around are being urged to attend these conferences, which mark the first intensive effort on the part of Christian Endeavor in the South for the High School age boys and girls.

Mr. Freet, has had large experience with his subject. During his youth he was active in Christian Endeavor affairs in Cincinnati, O., and in all the state of Ohio, serving as president of the Cincinnati Union for several years. He has also held many volunteer offices in the Ohio Christian Endeavor union of which he is now the general secretary.

## SIGNS YOU CAN BELIEVE IN

If your breath is bad and you have spells of swimming in the head, poor appetite, constipation and a general no-account feeling, it is a sign your liver is torpid. The only one really dependable remedy for all disorders in the liver, stomach and bowels is Herbine. It acts powerfully on the liver, strengthens digestion, purifies the bowels and restores a fine feeling of energy, vim and cheerfulness. Price 60c. Sold by Laney's Drug Store.

## MOTHERS

Watch for symptoms of worms in your children. These parasites are the great destroyers of child life. If you have reason to think your child has worms, act quickly. Give the little one a dose or two of Whit's Cream Vermifuge. Worms cannot exist where this time-tried and successful remedy is used. It drives out the worms and restores the ruy hue of health to baby cheeks. Price 35c. Sold by Laney's Drug Store.

## Holder of Slaves In Arabia Forced To Modify Methods

JERUSALEM, Mar. 13.—The slave trade still flourishes in Arabia where a state of war exists between the Hashemite family, the former rulers of Mecca, and Sultan Ibn Saud, the Wahabi leader and contestant of the Hussaina's vested rights to Mecca's holiest city. One of Ibn Saud's first acts after attacking the Hedjaz was to free many slaves.

Conditions, however, differ considerably from the methods of former days. The slave markets have now been closed, and it is very rare to hear of a slave being offered for sale openly. But this does not prevent the existence of slaves in the service of the noble and wealthy, who still have the children of their old slaves in their service. These were never freed by their masters, nor did they ask their masters to free them being content to live in the houses where they were born.

In the Yemen, it is said, the children of negroes may be offered for sale. The masters who have such slaves are free to do what they like with them; even if a slave is killed by his master the latter cannot be held responsible for the crime.

## Shipping Experts To See Trial Of New Oarless Lifeboats

LONDON, Mar. 13.—A lifeboat without oars, which it is claimed may be propelled even in rough weather by persons without previous training, was tried out here recently in the presence of shipping experts and representatives of the government. Because of the absence of oars the inventor J. R. Fleming, contends that one of the chief difficulties of launching a lifeboat from a vessel in distress has been overcome.

The new type of lifeboat is propelled by the occupants, who have levers which they pull forward and backward, this action through a very simple gear causing a propeller to drive the lifeboat through the water. The boat used in the experiment had 42 occupants. With one man at each of the eight levers it was possible to maintain a speed of three miles an hour and with two men working on each side of the levers a speed of six miles an hour was brought about, according to official announcement of Lloyd's agent who were present.

Representatives of the London Board of Trade, the British Corporation and 40 of the leading British steamship companies also witnessed the tryout, which was reported as a success.

The Scotch average nearly an inch taller than the Irish. But then the Irish were kept down for 1700 years.

## STATE BAPTISTS PLAN TO OBSERVE HUNDRETHYEAR

Dr. Rufus Weaver, President of Mercer University Is On List of Special Speakers To Appear In Florida

TALLAHASSEE, Mar. 13.—The Baptists of Florida are this month celebrating the one hundredth anniversary of the denomination's activities in this state. The first meeting in this connection was held at Campbellton church, Jackson county, yesterday, and others will follow in about 10 days at Jacksonville, and two meetings will be simultaneously held at Miami and Orlando on Mar. 23. Specially selected speakers have been assigned to each of the gatherings.

First evidences of Baptist work in the state is traced back to 1812, says Dr. S. B. Rogers, secretary of the state mission board. "A number of Christian men came into Florida with the United States Army about 1812 for the purpose of suppressing Indian uprisings and detaining the colonies against the inroads of English and Spanish under Indian guides, who were constantly crossing the line into Georgia and trespassing upon the United States," says a sketch of the denomination's work in the state, prepared by Dr. Rogers. Among these men was the Rev. Wilson Conner who is described as "probably the first Baptist preacher on the soil of Florida."

He was with the troops of General John Houston McIntosh who came to the Florida territory in 1812, and fell dead in a Baptist pulpit at Hawkinsville, Ga., a few years after his work in Florida. The first Baptist church to be constituted on Florida soil was at Campbellton, and was known as Bethlehen. It was at that church yesterday that the first of the centennial celebrations was held, with Dr. Rufus W. Weaver, president of Mercer University of Macon, Ga., as the principal speaker. Jesse Mercer, founder of Mercer University, was the first pastor of the Bethlehen church.

Following institution of that church on Mar. 12, 1825, by 17 members the next one was founded three years later at Indian Springs in Leon county, in 1828. Others followed in rapid succession at Newnansville, in Alachua county and along the Georgia and Alabama lines to the extreme west. Among these were Okeessa, 17 members; Salen, 12 members.

Among early churches in northern Florida were Belleville, New Hope, New Prospect, and Union in Hamilton county; Fayetteville, Hatch Bend, Midway and Sand Hill, in LaFayette, Macedonia in Madison, and Rose Mary in Suwannee, Newnansville, Fort Clark (now First Church Gainesville) in Alachua county. Bethel, Jacksonville, Duval county, was organized

## Ball Hardware Co. Fishing Contest Is Opened In Sanford

The annual fishing contest of the Ball Hardware Company, which has been held for several years to stimulate interest in fishing, is now open and will continue until Dec. 31. Four prizes, carrying an aggregate value of approximately \$50, will be given to the winners at the end of the contest.

According to the rules, contestants must bring their catch, which is limited to Black Bass, to the Ball Hardware Company store where it will be weighed on the store scales. The fish must have been landed by artificial means—by rod and reel using artificial lure. The fish must be in good condition, showing no signs of mutilation, when brought to the store for weighing.

The first prize is a Iridon Bamboo rod valued at \$22. The second is a Shakespeare Morhoff reel valued at \$15 and the other prizes are Kennedy tackle box valued at \$8.50 and a Simson XX one carrying a \$2.50 value.

## Good Sight Needed To Confirm Scientist

LONDON, Mar. 13.—The tiniest things which the human eye can see are the black spots and patches sometimes visible in soap bubbles, said Sir William Bragg, lecturing recently on "Ray and Soap Films" at the Royal Institution. The rainbow-colored soaps films are, therefore, not the tiniest things the human eye can detect. The black areas are so thin that if the soap bubbles could be magnified to the size of the earth and the thickness of the envelope film increased in proportion the film would then be only the thickness of a sheet of glass.

In 1838. There were six members. Rev. James McDonald and wife, Elias Jaudon and wife, and two colored persons, Peggy, slave of William Edwards. The church has changed its location three times. In 1866 the church divided, the white members buying the negro interest and changing the name of the white church to Tabernacle. The name Bethel was retained by the negroes and exists in Jacksonville today, the largest Baptist church in the city. The first Baptist association organized in the Florida territory was in Florida in 1841. This association extended from the Georgia line to Key West and from the Atlantic ocean to the Chattahoochee river. The first record of Sunday School work in the state was at Key West as early as 1841. At the close of 1924 records of the denomination show 88,710 church members with a church property valued at \$6,697,206.

## Washington Team Is Aggregation Of Baseball Celebrities

(Continued from Page One) Nemo clings to the belief that valuable things come in small packages. Liebold is also a veteran, having been in the majors for several years. At one time he was a member of the Cleveland Indians. In Fred Marberry, the Senators have the greatest relief pitcher in the American League. It was Marberry, who saved many a game for the champions last season by responding with a brand of pitching which turned defeat into victory. After finishing two games in the last world's series in a creditable manner, Marberry was given the task of starting the next game and he promptly "blew up".

Bludge will be found at his regular place at the hot corner. He has the distinction of being a third baseman who, when shifted to short stop to relieve Roger Peckinpaugh, performed with the same finesse that he had in his regular position. Peckinpaugh, who aided Washington materially in taking the championship, is an old Yankee player and had seen service in a world series before.

"Muddy" Ruel, "the hitless wonder" made but one safe clout during the series but he started something thereby. The ensuing rally brought the championship to Washington and fame to himself. "Muddy" will not be seen behind the bat, probably, for that duty will fall to the lot of either Tate or Hargrave.

## NETS BIG ON "SPUDS"

DELAND, Mar. 13.—John Paleterski has made a net profit of \$306.25 on one acre of Irish potatoes on a plot of ground near Samosula, according to T. A. Brown, county farm agent. The acre produced 43 barrels, says Mr. Brown, at a cost of \$97.75, and the potatoes were sold for a total of \$101.

## Teapot Dome Case Closes Fourth Day Amid Legal Tangle

(Continued from Page One) Judge Kennedy reserved decision on the question of admitting bank records of Fall in the case upon which the government hinges its attempt to prove that bonds from Sinclair eventually found their way to the credit of Fall.

L. C. Dunbar, cashier, J. E. Gonzales, an employee of the First National Bank of El Paso, Texas, and Harlan J. Smith, cashier of the First National Bank of Pueblo, Colorado, identified accounts of Fall and the Tres Ritos Land and Cattle Co. in which Fall is interested, and Liberty bonds coupons alleged to have been cashed by Fall. This testimony was taken on the objection of defense counsel. Judge Kennedy has the objection under advisement. Evidence was taken in this way in an attempt to trace from Fall to Sinclair the Liberty bonds which are said to have cost \$100,000.

**CABLE LINE AMERICA IS ASING ITALY**

Materially Aid In News Publishing In South American News Is Badly Misrepresented

Mar. 13.—The concluding month of the work of submarine cable from Anzio to Malaga, Spain, where it is for the first time joined to the North Atlantic cable, is being hailed with enthusiasm by the large of the Italian population who are avidly towards the States for inspiration for a new growing commercial life.

The completion of the cable having the effect of enlarging the extent to which Italy until the present occupied by insular role in regard news communication with Africa, and even with north-western Europe.

Roman newspapers, and but few large Italian papers outside of Rome, are in conformity with the realistic idea that opinion important than news, and it should have the color to it by the personal view of the reporter or the politician of the journal.

Several years ago, comfortable shoes for women suggested ugly broad toes and flat heels—shoes which were worn in the privacy of one's home and hurriedly changed at the arrival of callers. But now in answer to the persistent demand,

**What Do You Know About Your Feet?**

**B**E earnest with your feet! When you stop to think that there are twenty-six small bones in each foot and these bones are held in arch formation by the muscles, you will begin to realize the importance of wearing shoes that support the foot—not low cut sandals that permit the muscles to break down and the foot to become flat and spread out. (Figure A). But shoes of soft kid leather that will conform to and preserve the lines of the foot, (Figure C), just as a kid glove fits the hand.

Comfort is the watchword of fashion today, and it starts with feet, for uncomfortable feet can ruin even the smartest ensemble. A woman no longer buys shoes for appearance alone—she demands that they be comfortable as well as fashionable.

Several years ago, comfortable shoes for women suggested ugly broad toes and flat heels—shoes which were worn in the privacy of one's home and hurriedly changed at the arrival of callers. But now in answer to the persistent demand,

**NEW MILEAGE OPENED.**

NEW SMYRNA, Mar. 13.—More than 20 miles of the Dixie Highway through Volusia and Brevard counties have been opened to travel during recent months, and it is expected that within another six months the remaining mileage through these counties will be completed. This will give this section a stretch of 80 miles of a superb structure which will cost the state \$2,500,000, it is stated. This section of the highway passes through some of the most attractive semi-tropical scenery along the East Coast, much of it along the banks of the Indian river.

ening. Drop by spoonfuls on hot griddle. Cook on one side. When puffed, full of bubbles and cooked on edges turn and cook on other side.

**Banana Pie**  
Crust—One and one-fourth cups flour, one-half teaspoon baking powder, four tablespoons liquid fat, one-fourth cup water.  
Filling—Four eggs, one-fourth cup sugar, one-eighth teaspoon salt, one-eighth teaspoon mace, one cup evaporated milk, one cup water, one cup chopped bananas.

**Lenten Fritters**  
Three tablespoons evaporated milk, five tablespoons water, three tablespoons butter, one-half cup flour, two tablespoons powdered sugar, two eggs, pinch salt, fruit preserves.  
Put butter in saucepan and pour on water. Heat to boiling point, add flour all at once and stir until mixture leaves sides of saucepan and cleaves to spoon. Remove from fire, add eggs, one at a time, beating constantly. Drop by spoonfuls and fry in deep fat until well puffed and browned. Drain, make an opening and fill with preserves. Sprinkle with sugar.

**Nest Eggs**  
Separate whites from yolks, beat whites until dry. Butter a small baking dish in which eggs are to be served; sprinkle fine bread crumbs in the bottom. Place beaten whites in dish, make hollow and slip in the yolks. Set bowl in saucepan containing boiling water, cover and cook until white is firm. Set in hot oven for one minute or hold dish under flame in broiling oven.

**Clam Bisque**  
Two cups clams, two tablespoons chopped onions, bit of bay leaf, two tablespoons butter, four tablespoons flour, two cups meat stock, one teaspoon salt, pepper and red pepper to taste, two cups evaporated milk, one teaspoon Worcestershire sauce.  
Chop clams, and cook in stock 20 minutes. Melt butter, add onions, cook five minutes; add flour, strained clam liquor, cook five minutes; add seasonings, evaporated milk and serve.

**Eggs in Baked Potatoes**  
Six potatoes, six eggs, three tablespoons grated cheese, one teaspoon butter, three tablespoons evaporated milk.  
Bake the potatoes, cut off the top and remove half of the inside of potato, put in one-half tablespoon evaporated milk, salt and pepper. Drop in a raw egg and season with

**Bean Croquettes**  
One-half cup evaporated milk, yolks two eggs, one tablespoon butter, one tablespoon flour, one tablespoon chopped parsley, one pint white beans, one teaspoon onion juice, one teaspoon salt, pepper to taste.  
Soak beans over night, drain, cover with fresh water, boil an hour, drain, throw away water, cover with fresh water and boil until tender; drain and press beans through colander. Rub butter and flour together, add evaporated milk, stir until almost boiling, then add yolks of eggs. Stir again for a minute over fire, add bean pulp and all seasonings; mix and roll out to cool. When cool, form cylinders, dip in egg, roll in bread crumbs and fry in hot fat. Serve with tomato sauce.

Entered as Second Class Matter, October 27, 1915, at the Postoffice at Sanford, Florida under Act of March 3, 1879.

The People Will Decide

There has been considerable comment in the state press during recent months regarding the possibility of the candidacy of William Jennings Bryan for the United States Senate in 1926. While it is almost too early to make any predictions as to the outcome of the election in the event Mr. Bryan runs or even to expect any announcement as to his candidacy for the Senate forthcoming from Mr. Bryan, it is nevertheless interesting to speculate on the Commoner's intentions and to analyze the various aspects of the situation.

FRIDAY, MAR. 13, 1926.

THE HERALD'S PLATFORM

- 1.—Deeper water route to Jacksonville.
2.—Construction of St. Johns—Indian River canal.
3.—Extension of white way.
4.—Extension of local improvements—swimming pool, tennis courts, etc.
5.—Acquisition of a municipal band.
6.—Augmenting of building program—houses, hotels, apartment houses.
7.—Extension of street paving program.
8.—Construction of boulevard around Lake Monroe.
9.—Entrance into Florida state baseball league.
10.—Completion of city beautification program.

BIBLE THOUGHT FOR TODAY.

GIVING GETS.—There is that scattereth, and yet increaseth; and there is that withholdeth more than he meet, but it tendeth to poverty. Proverbs 11:24.

MORE TRUTH THAN POETRY

When Caesar took an westward ride and grabbed the Gauls for Rome, What was the first thing that he did to make them feel at home?

Did he increase the people's loads and liberty forbid? No; he dug in and built good roads—that's what old Caesar did.

Did Caesar put the iron heel upon the foeman's breast. Or did he try to make them feel that Roman rule was best? What did he do, to make them glad he came their lands amid?

He built good roads from hill to hill, good roads from vale to vale; He ran a good roads' movement 'till old Rome get all the kale.

He told folks to buy a home, build roads their vits to rid. Until all roads led up to Rome—that's what old Caesar did.

If any town would make itself the center of the map, Where folks will come and settle down and live in Plenty's lap, If any town its own abodes of poverty would rid, Let it go out and build good roads—just like old Caesar did.—Exchange.

Only one more day to figure out that income tax.

The early bird catches the worm except during the fishing season.

Wall flowers have degenerated into sand spurs now that men occupy all the seats.

A lot of Sanford people will be hoping to see Walter Johnson pitch this afternoon.

Collidge may be right but he's stubborn and the Senate will probably defeat Warren's nomination again.

A man who is gored by a bull while looking for a four leaf clover, wouldn't have much chance at a pink tea.

This is one time we are not going to be betting on the Senators. It would augur pretty well if the Brewers should win their first game on the Sanford diamond.

When Albin Rockefeller, the richest heiress in the world, gets married she is going to do her own housework, which is more evidence of the servant problem than of her ambitious intentions.

The Associated Press tells about a New York man who won five hundred thousand dollars on the seventh race in Miami the other day. Yet they say there is no gambling done down there.

Addison used to say: "Silence never shows itself so great an advantage as when it is made the reply to calumny and defamation, provided that we give no just occasion for them."

It has been suggested that The Sanford Herald publish the names of those who back out of the Palm Beach Rotary trip, if any, just to show exactly who does lack the proper Rotary spirit, and we may do something like that.

Seventy-two Florida prisoners, 33 being lifers, were paroled last year, and twenty-five others, thirteen being lifers, were paroled; but the name of Mendall not being on either list Pinellas people are not so particularly interested.—St. Petersburg Times. Give him time. He will make it interesting for Pinellas people yet.

As Brisbane Sees It

Well, Dear Mr. Weeks! How About Aircraft Now Are They Still "Unimportant" Perfect Score, No Hit BY ARTHUR BRISBANE (Copyright 1924)

AN OLD school Tammany Hall leader expressed his opinion of suits against newspapers in rugged double-negative Anglo-Saxon, thus, "Don't never sue for libel. They might prove it on you."

Mr. Weeks, Secretary of War, should have had that in mind before ordering the recent tests of anti-aircraft guns, to uphold his theory that flying machines don't amount to anything in war, and should not be allowed to interfere with the highly profitable sport of battleship building.

THE WEEKS theory, and that of battleship men who collect \$45,000,000 per ship, was as follows: "Don't worry about flying machine attack. If insolent Japanese or Europeans come flying against us we'll simply turn our anti-aircraft guns toward the sky, riddle the invading flyers and teach them to respect the great American eagle, even if he is a fat bird, slightly asthmatic, stuffed with gold and without any wings."

THEY SAID: and for contradicting them they devalued Major Mitchell of his rank, thereby raising him in popular estimation. And then, most foolishly, they tried to prove what they had said.

THEY SAID: and for contradicting them they devalued Major Mitchell of his rank, thereby raising him in popular estimation. And then, most foolishly, they tried to prove what they had said.

THE AIRMEN flew, dreading behind them what is called a "sleeve target" as big as an airplane. The powerful three in anti-aircraft guns, manned by the best marksmen, fired at the flying targets as they would fire at invading airplanes.

THINK THAT over, fellow citizens, especially you great financiers and corporation men that put Mr. Weeks in Mr. Harding's Cabinet. Those enemy bombs would reach you remember, your banks and factories, and you would have to find the cash, if dark gentlemen, with slanting eyes, flew down and asked "what will you give us to fly away and spare the rest of your property?"

YOU ALSO think about it please Mr. Weeks. Enemy planes might by mistake hit the War Department.

THAT AMUSING anti-aircraft test, with 100 per cent of misses was not the funniest part of the week's airplane demonstration.

THEY SAID: and for contradicting them they devalued Major Mitchell of his rank, thereby raising him in popular estimation. And then, most foolishly, they tried to prove what they had said.

ACCORDING to the Weeks story exchange war school, our searchlights would sweep the heavens making them bright as day and revealing to our anti-aircraft gunners every enemy flyer. Then "pop!" and down they would come, like clay pigeons at a shooting match. It was tried, and again the flyers "proved it" on Mr. Weeks and his searchlights.

FIVE powerful lights swept the sky with beams strong enough to light the air, 3,000 feet above the earth. It was a magnificent spectacle. But the army men, having admitted their failure to make a single hit, in daylight with their anti-aircraft guns, also admit that with their magnificent searchlights they were not able to "pick up" even one of the test machines, that obligingly remained within 6,000 feet of the earth.

AND, REMEMBER, the searchlight men and gunners knew just when the test planes would fly and where to look for them.

OUR SEARCHLIGHTS did "pick up" the test planes, when the latter threw blazing "flares" into the darkness. But you could hardly expect enemy planes to be as obliging as that.

ONE OTHER little touch, in the course of a perfect day, dedicated to the theory that airplanes are no menace and should not interfere with battleship graft. One plane, in the gunnery tests, flying 6,000 feet up, released a "glider" plane. It was to float gently down, while anti-aircraft guns just simply riddled it with bullets.

WELL, IT glided down, out to sea, where the gunners were looking for it, a halfhour after it had sank peacefully into the ocean. They had not even seen it. So much for the value of anti-aircraft guns. Also for the theory that

NOW THEN, LET 'EM FIGHT IT OUT

INDEPENDENT ARTISTS' EXHIBITION

The more one surveys the American aesthetic scene the more one becomes convinced that we need more enterprises like the exhibition now in progress under the Society of Independent Artists. The main thing about this exhibition is that it is open to all. Anybody who pays \$5 may submit two works, and these must be exhibited. This plan undoubtedly brings into the cruel light of day a great deal of trash; but it also acts as a corrective to a deplorable phase of our artistic receptivity. This is our tendency to regard foreign art as superior to domestic art.

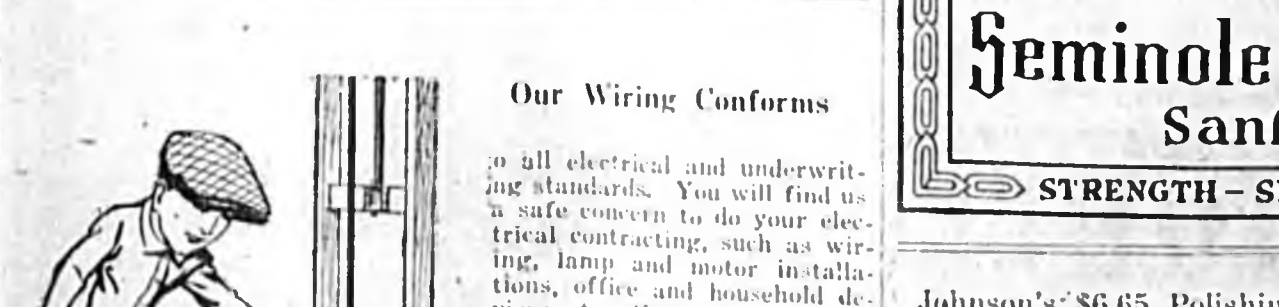

IS THAT ALL? Not quite. A target was marked out just the size of a battleship for the aimers to "shoot" at with their bombs. Did any of the flying men hit the target? Yes, dear Mr. Secretary, they did, as your records show. Every bomb dropped, with one single exception, hit the target and it would have been sunk 20 times had it been the world's most powerful battleship, floating on the water, and similarly attacked with real bombs.

MR. WEEKS can now truly tell the Secretary of the Navy this: "If

## MISS FLORENCE AND ETHEL HENRY ENTERTAIN AT BRIDGE LAST NIGHT

Beautifully planned in every detail was the delightful St. Patrick's bridge party given by Miss Ethel Henry and Miss Florence Henry at the Woman's Club, Thursday evening.  
 Guests were greeted at the door by Mrs. H. B. Lewis and receiving were: Mrs. C. E. Henry, Miss Ethel Henry, Miss Florence Henry and Mrs. Sadie Giles, a sister of Mrs. Henry, who is visiting her from Philadelphia.  
 Mrs. Henry wore a handsome gown of flesh crepe, heavily beaded, Miss Ethel Henry was attractively gowned in black satin and lace, Miss Florence Henry wore a lovely crystal beaded georgette frock of flesh color and Mrs. Giles wore a handsome gown of beaded apricot satin. Mrs. Lewis wore a becoming gown of orchid georgette which was beaded. Assisting the hostesses in passing the tallies and later in serving were Miss Ruth Henry and Miss Carmetta Barber who made quaint little Irish peasant girls with full skirts of green, black basques and white aprons.  
 The suggestions of St. Patrick's were artistically carried out in the decorations. A naturally attractive setting, the club was beautifully decorated. A naturally attractive which interspersed with white asters, white sweet peas and asters were arranged in bowls and baskets about the room.  
 Two beautiful pictures, "The Hope" and the "Seminole" were awarded as prizes for high score. Mrs. D. B. Caswell and Edward

## Mrs. Check Entertains At Bridge Honoring Mrs. Julius Grunhut

Mrs. Victor Check charmingly entertained at bridge, Thursday afternoon, as a courtesy to her house guest Mrs. Julius Grunhut of New York City.  
 The rooms were attractively decorated with vari-colored snap dragons and ferns. The favors were rosemarys and St. Patrick pencils. Mrs. John Gillen, for making high score, was awarded a teapot, hand painted in St. Patrick's design. Mrs. P. Weinburg won the consolation, an Abe's tape measure. The guest of honor was presented a glass tray with scenes of Florida painted upon it.  
 Delicious refreshments of Irish paradise pudding, individual sherry cakes with mint Julep were served. The hostess was assisted by Mrs. J. Parker Hill of Orlando.  
**Ladies Union Meets With Mrs. Davison**  
 The Ladies Union of the Congregational Church met Monday afternoon at the beautiful home of Mrs. J. D. Davison at "Twin Lakes." An interesting business session was held during which the plans for the new parsonage were discussed.  
 Delightful refreshments were served. There were 33 members present at this pleasant meeting.

## Interesting Program Given At Clubhouse

The meeting of the Literature Department of the Woman's Club on Thursday afternoon, with Mrs. C. C. Woodruff presiding, was one of the most delightful of the season. At the conclusion of business, the program was taken up. The first number was a dramatic review given by Mrs. Stella P. Arrington in a most interesting paper.  
 Mrs. L. R. Phillips then gave a skeleton outline and criticism of the play "The Piper" written by Josephine Preston Peabody, which will be the next play taken up by the department. Parts were assigned to the different members who will take part in the play.  
 Plans were further made for the birthday celebration May 13, which has been set aside to commemorate the beginning of the Wednesday Club out of which the Literature Department was organized.

## Mrs. Thigpen Hostess To Everyweek Bridge

Mrs. W. J. Thigpen was the hostess Thursday afternoon, of the Every Week Bridge Club and extra guests at her home on Park Avenue.  
 White larkspur and fern were used in decorating, suggestive of St. Patrick. The prize, silk hose, was won by Mrs. Forrest Lake.  
 Mrs. Frank Winthrop of Tallahassee won the guest prize of powder. Refreshments were served following the game.  
 Those present were: Mrs. J. G. Sharon, Mrs. Forrest Lake, Mrs. Frank Winthrop, Mrs. W. M. Scott, Mrs. Harry T. Bodwell, Miss Wilkey, Mrs. D. P. Drummond and Mrs. H. B. Lewis.  
 Opium pills are given children in Indian to keep them quiet.

## Personals

A. H. Lewis of Tampa is a business visitor in Sanford.  
 John Townsend of Quitman, Ga., is spending a few days in Sanford on business.  
 Mrs. J. N. Tolar and Mrs. Edward Betts motored to Orlando Thursday for the day.  
 W. M. Cathrac who is an income tax specialist arrived in Sanford Friday for an indefinite stay.  
 Mrs. B. D. Saswell, Mrs. Len Conley and Mrs. Emmett McCall spent Thursday in Daytona.  
 Mrs. Henry Wight and Mrs. Walter Wight will return from a motor trip into Georgia, Friday.  
 Miss Norma Grimal of Kissimmee will arrive Friday evening to spend the week-end with Mrs. Minnie Jones.

The Rev. and Mrs. J. J. Rankin of Scranton, Pa., are spending a few days in Sanford before leaving for their home.  
 Mrs. C. Cherry who has been the guest of her sister, Mrs. W. A. Zachary, left Thursday for her home in Mt. Olive, N. C.  
 Miss Ruby Harkey, left Thursday for Scotland Neck, N. C., to accompany her cousin, Mrs. A. G. Yandle back to Sanford.  
 J. L. Lustig of Scranton, Pa., arrived Thursday in Sanford. Mr. Lustig represents his own produce firm and is a regular visitor here.  
 Mr. and Mrs. George D. Bishop will return from Tampa Friday.  
 Mrs. George A. DeCotte is expected home Friday from a visit of several weeks in Jacksonville.  
 Mrs. Frank Winthrop of Tallahassee who has been visiting her sister, Mrs. Walter Wight will be joined here by Mr. Winthrop Saturday and they will take a trip down the East Coast.

## HOARDED GOLD IN FRANCE CAN HELP ON LARGE DEBTS

**Stocking Bank Contains More Than 2 Billions Of Francs In Gold. Financial Experts Declare: Loan Efforts Fail**  
 PARIS, Mar. 13.—According to conservative estimates there are two billion francs in gold coins hidden away in the traditional "old stockers" of the French people, and if France had this hidden gold at its disposal the country's financial situation would be distinctly improved. Every kind of appeal but one has been made to induce the holders to let the state have their hoarded coins, and during the war much was recuperated under patriotic influences.  
 What remains seems to form an unobtainable residue as far as the state is concerned. Every now and then, however, cases come before the courts wherein people are condemned for going round the country buying up 20 franc pieces, which they induce the hoarders to surrender in return for from 40 to 50 francs. Their real value is more like 70 francs, but this traffic is illegal and dealers in it need high rates of profit.  
 Jose Thery, a financial writer, is advising the state to offer enough paper for gold to bring out this two billion. Theoretically, he says, will be shocked at the idea of the state admitting its 20 franc gold coin is worth more than its 20 franc bill. The humblest field laborer knows this, so what harm can the state's admission do? he asks.

## APPOINTMENTS MADE

TALLAHASSEE, Mar. 13.—Governor Martin announces the following appointments:  
 J. W. Hawkins of Westville, to be justice of the peace, District 3, Holmes county; E. L. Hills of Ocala, to be commissioner for district No. 1, Marion county; J. W. Williams of Baldwin, to be constable district No. 3, Duval county; L. L. Fraser of Eau Gallie, to be constable district No. 5, Brevard county, and John G. Roberts, Telegria, justice of peace, district No. 6 Liberty county.  
**UNDERWRITERS MEET**  
 JACKSONVILLE, Mar. 13.—The Florida Underwriters' Association will hold a two-days' meeting here on Mar. 20-21, at which the rechartering a license and a qualification test for underwriters operating in Florida will be one of the most important subjects discussed. The National Association of Underwriters have considered the Connecticut statutes on the subject as a model for adoption in the various states, it is stated.

## OUTLINE IMPROVEMENTS

ST. PETERSBURG, Mar. 13.—An extensive program of municipal improvement is outlined in the call for a bond election set by the city commission for May 12, when the freeholders will be asked to approve an issue of \$2,414,000 to provide funds for carrying on the work. Election of a million dollar municipal pier is the largest single item in the list. For opening First Avenue north from Canal to Ninth Street, the sum of \$400,000 would be provided; \$250,000 for improvement of waterfront park; \$194,000 for construction of two yacht basins and necessary seawalls and fills, and \$180,000 for Booker Creek drainage.  
**\$30,000 ADVERTISING FUND**  
 BRADENTON, Mar. 13.—The business men of this city have set out to raise a fund of from \$25,000 to \$30,000 to be spent exclusively for advertising Bradenton during the coming summer, fall and winter. City council has promised \$10,000 towards the fund to be raised by tax levy for public purposes, and members of a committee appointed by the chamber of commerce expect to raise \$20,000 additional.

### FORMER KANSAS GRID STAR FACES MURDER CHARGE

#### Roy Turner Alleged to Have Administered Poison to Widow to Obtain Insurance; Polson Found in Stomach

KANSAS CITY, Mar. 13.—A first degree murder charge was filed Thursday against Roy M. Turner of Wichita, Kas., former University of Kansas football player, following issuance of deputy coroner's report that physicians had found poison in the stomach of Mrs. Dora Gage, Atchison divorcee, who died in a hotel room here Wednesday.

The report stated enough poison had been found to cause death and described three large bruises on the woman's body. Turner was arraigned and held without bond. He was arrested Wednesday in a hotel room with Mrs. Gage when her screams attracted attaches. Before death Mrs. Gage declared Turner had given her a drink of poison from a bottle, had later thrown the bottle to the pavement below and that he had poisoned her so that he might collect her insurance.

He said he met Mrs. Gage last November in Atchison and sold her an equity Dec. 5 in a 160 acre farm near Nevada, Mo., for \$11,200 taking Mrs. Gage's note for \$8,000 and retaining a collateral life insurance policy she had. Later he said he sold the note and with it went the insurance policies. Wednesday afternoon Turner said, he met Mrs. Gage near a hotel where she had obtained a room.

Mrs. Gage told him, Turner said that she wanted to talk to him about the note saying that the mortgages on the Nevada farm had been foreclosed.

Going to Mrs. Gage's room, Turner said he found her drinking from a bottle, "I tasted the stuff," he said, "I said it tasted rotten and she asked me to row it out of the window, so I did."

"Then," Turner continued, "I noted that Mrs. Gage was becoming ill and I called a hotel clerk. At that juncture, according to Turner, Mrs. Gage began to scream and he tried to summons a physician by telephone.

#### MAKE 1,000 MILE TRIP

ST. PETERSBURG, Mar. 13.—Mr. and Mrs. H. C. Gibson and their two children have arrived here after a three thousand mile trip down the Mississippi river and across the Gulf of Mexico in a 22 foot five ton cruiser, The Lady Margaret. The little cruiser is equipped with a four-cylinder motor capable of ten miles an hour an average of 7 1/2. A high powered radio set and interior furnishings that may be folded into the smallest possible space are among the conveniences of the vessel. The trip was begun at Rock Island last May 28 and will continue to New York where the Gibsons will make their future home.

#### HOLLAND'S QUEEN HONORED

LEYDEN, Holland, Mar. 13.—This old-world town has just celebrated the 350th anniversary of the founding of its famous university.

Upon Queen Wilhelmina was conferred the honorary degree of doctor of laws, and the women students presented her with the first tulips of the season.

### Fight Between Dawes And Senate Is Believed By Hunt To Be Coming

WASHINGTON—A foretaste of a collision that seems certain to come when the new Congress gets under way next fall or winter was given spectators in the United States Senate when Charles Gates Dawes, newly sworn in as vice president, addressed to that body his views as to what its conduct has been in the past and should be in the future.

As Dawes talked, one could sense a developing atmosphere of conflict. The address was pitched in the key of a querulous grand-mother chiding an unruly child.

Dawes scolded, chided, ragged. His thin, high-pitched voice rose to even shriller notes than on the occasion of his famous "Hell an' Maria" utterance.

The senate Senate, jealous of its traditional dignity and power, at first sat shocked and silent.

The idea of this newcomer, this fire-eating politico-financier, reading it a lecture on its rules and its conduct within five minutes of taking oath as presiding officer, at first stunned it into speechlessness.

Then, as Dawes pounded the desk in front of him and renewed his exhortation—the Senate laughed.

That laugh revealed one thing beyond any possible mistaking. It revealed that the Senate doesn't take its new presiding officer half as seriously as he takes himself.

To an observer, who has watched and studied Senate psychology for more than a decade, it seems plain that Dawes had got off on the left foot at the start.

Senators can be led when they cannot be forced. They are not different from other stubborn animals in that regard.

Dawes has a large popular following, due in no small part to his penchant for picturesque speech.

The Senate is not unmindful of this popular strength. Recognizing it, they would have followed with some show of enthusiasm at least if he had made it possible for them to appear to do so of their own free will and volition.

But after the Dawes diatribe in his inaugural address, it is too much to expect sovereign senators to toe the mark like a lot of unruly schoolboys simply because teacher has taken them to task.

When leading senators of his own party are moved to mirth, as they were during the final stages of the vice president's inaugural address, it does not forebode well for said vice president's ability to enforce discipline in the future.

Chicago contributed one highlight to the Senate in addition to the vice President, during the inaugural ceremonies.

Conspicuous on the Senate floor, among the dignitaries in cutaways and Prince Alberts, was a big, deep-chested, swarthy gent in a dinner coat and broad expanse of stretched shirt front.

Inquiry revealed him as "Diamond Joe" boss of Chicago's Little Italy and a power in Republican policies in the Windy City.

Cities like Helsingfors, Reval and Riga, which are usually buried in snow at this time of the year, have up to the present experienced nothing more wintry than a few nights of frost.

Judge D. J. Jones, was disqualified in the two cases.

Ivory hunters must pay \$200 for an elephant hunting license.

### Craze For Bobbing Hair Is Bringing Women New Work

LONDON, Mar. 13.—The women and girls of England are being absorbed back into industry far more quickly than the men and boys, according to recent statistics on unemployment. Hair dressing, owing to the bobbed hair craze, has given employment to a large number of young women who earn better wages than the men barbers because of the extra charges made for trimming bobbed locks. Men in London pay approximately 25 cents for a haircut, while women pay double that amount.

Last spring there were 300,000 women among the unemployed of Great Britain, while today the number is something like 250,000. Although about 1,000,000 extra women and girls are now at work compared with the figures of the year before the beginning of the war, women and girls together do not represent one-quarter of the total number of unemployed. Government officials say there is every indication that the number of unemployed, both men and women, will be greatly reduced during this year.

MIAMI, Mar. 13.—The Baptists of Florida may in the near future establish a great religious center, comprising a large pavilion, classrooms and hotel accommodations for more than 500 persons built in or near Miami, according to opinions given expressed here. Details expected to be taken on subject at the annual assembly of the Baptist Young People's state in June, according to J. L. White, of this city.

Coleman—\$35,000 voted for new school building.

for more than 500 persons built in or near Miami, according to opinions given expressed here. Details expected to be taken on subject at the annual assembly of the Baptist Young People's state in June, according to J. L. White, of this city.

### Spring In Denmark Takes Winter's Role

COPENHAGEN, Mar. 13.—This is the mildest winter Denmark has known in three centuries. Not once has the temperature fallen below the freezing point in the daytime, and the nights when this has been the case have been exceedingly rare. Generally the month of February is the coldest in Denmark; this year it has had the character of early spring. The mild winter has been blessed by everybody, except the furriers and the coal-merchants. Particularly the latter are complaining bitterly. They are losing a great deal of money they say.

Cities like Helsingfors, Reval and Riga, which are usually buried in snow at this time of the year, have up to the present experienced nothing more wintry than a few nights of frost.

#### LEWIS ASSIGNED

TALLAHASSEE, March 13.—Judge Amos Lewis of the fourteenth judicial circuit has been assigned by Governor Martin to preside over circuit court for Washington county in the trial of cases of the First National Bank of Chipley vs. John T. Britt, and the State vs. Alex. Danford and L. K. Johnson.

Judge D. J. Jones, was disqualified in the two cases.

Ivory hunters must pay \$200 for an elephant hunting license.

# WORK IS STARTED ON DEEP HARBOR ON LAKE MABLE

J.W. Young, Hollywood Developer Has Engaged Goethals of Panama Canal Fame as Chief Engineer of Construct

HOLLYWOOD, Mar. 13.—The organization and preliminary work to build the \$15,000,000 harbor at Lake Mable as part of the Hollywood development has been started. Work of designing derrick, dredges, pontoons and other equipment has begun. The harbor will be complete in three years.

This announcement was made tonight by Frank C. Dickey, chief engineer of the Hollywood Land & Water Company, who will be first assistant under George W. Goethals, builder of the Panama canal, who will be chief consultant engineer on the job.

In a few days, according to Engineer Dickey, 100 men will be put to work clearing the land surrounding Lake Mable.

To furnish the great amount of rock necessary for this construction, J.W. Young, builder, has purchased a quarry in Maine and has made contracts with six large sailing vessels to transport the rock from Maine to Lake Mable.

In an official interview, President J. J. Young, developer of Hollywood, said: "We are not only going to build the greatest harbor between New York and South America, but that while this great piece of construction work is in progress, many hundreds of men will be at work upon other big projects in Hollywood, in Dania, in Fort Lauderdale, and in other sections of Broward county. The next few years are to witness in this county," continued Mr. Young, "the building of factories, hotels, homes, the phenomenal growth of towns, and the actual construction of cities not yet dreamed of. It is a big undertaking, but I am certain of its success. With the sincere, loyal citizens of Broward, Dade and Palm Beach counties, standing shoulder to shoulder with me and with the men who are to assist me in the work, will give to the people in Southern Florida a development that will surprise the country in its magnitude and in its possibilities."

## Standard Oil Road Maps Now Prepared

The new 1925 automobile road maps of Alabama, Florida, Georgia, Kentucky and Mississippi are now being distributed free at Standard Oil Company (Kentucky) service stations.

These maps show the paved roads, the improved roads, graded roads, dirt roads and roads under construction. They also show the mileage figures between points on the principal routes.

The maps are distributed free by the Standard Oil Company (Kentucky) to motorists, as a part of their service to their customers. Indicated on the maps are the points where the Standard Oil Company operates service stations, and where the tourist may secure free air and water, cranks and differential service, information about roads, as well as quality motor products.

## Canada Foxes Get Homes In England

LONDON, Mar. 12.—British farmers are watching with much interest the experiments which are being made here in an effort to make silver fox farming in England a paying proposition.

Farms have been started at Almon in Scotland, and Oxfordshire and Hertfordshire. What effect this move will have on the price of silver fox fur in Great Britain cannot at present be stated, but it has been proved during the last 15 years that the best and most costly examples of the silver fox are those of animals bred in captivity. The foxes have been brought here from Canada.

## RUTH BUYS LOTS

ST. PETERSBURG, Mar. 12.—George Herman Ruth has purchased two lots in a St. Petersburg subdivision, and announces that he will build a home on one of them next year.

# Democrats Confident Of Gaining Control Of Congress, Hunt Says

By Harry B. Hunt  
WASHINGTON, Mar. 12.—Considering how badly the Democrats were beaten in the last presidential election, it may seem as if there can be no justification whatever for the hopes their leaders express of gaining control of Congress next year.

Yet Democratic politicians are sincere in the confident predictions they make. What's more, the Republicans are a little anxious. And on second thought it becomes apparent that this naturally follows from the very fact of the last election's one-sidedness.

The Democrats already have lost about all they possibly can lose and if the situation changes at all from their standpoint it is bound to change for the better. The Republicans at present hold, not only all the normally Republican seats in Congress, but a good many that are normally Democratic, so from their standpoint there hardly can be any change which isn't for the worse.

The Senate illustrates this better than the House, because the former is a smaller body and only a third of its members' terms expire a time.

On Mar. 3, 1927, then, the terms of Senators Broussard of Louisiana, Caraway of Arkansas, Fletcher of Florida, George of Georgia, Overman of North Carolina, Smith of South Carolina and Underwood of Alabama will expire.

All these are Democrats and all are sure of re-election, or, if any of them should be retired, other Democrats would be elected in their places. No politician of either party looks for any such miracle as the victory of a Republican senatorial candidate in any of those states.

Also on Mar. 3, 1927, the terms will expire of Senators Bingham of Connecticut, Cameron of Arizona, Cummins of Iowa, Curtis of Kansas, Dale of Vermont, Ernst of Kentucky, Gosling of Idaho, Harfield of Oklahoma, Jones of Washington, Ladd of North Dakota, Lenroot of Wisconsin, McKinley of Illinois, Means of Colorado, Moses of New Hampshire, Norbeck of South Dakota, Odie of Nevada, Poppers of Pennsylvania, Shortridge of California, Smoot of Utah, Spencer of Missouri, Stanfield of Oregon, Wadsworth of New York, Watson of Indiana, Weller of Maryland and Wiley of Ohio.

These are Republicans and everybody knows that Arizona, Ken-

ucky, Oklahoma, Missouri and Maryland are Democratic a good deal oftener than they are Republican states.

So there are five senate seats, to begin with, that the Democrats are hopeful of and the Republicans worried about.

The Democrats lay claim also to Connecticut, New York, Indiana and Ohio.

As to Connecticut, this claim probably is pretty thin, but Indiana and Ohio are at least doubtful chronically and Gov. "Al" Smith's influence unquestionably will weigh heavily in New York, especially if he should make the senatorial run himself.

FRANKLIN REPRESENTED  
APALACHICOLA, Mar. 12.—Franklin will be represented at the good road convention at St. Petersburg Thursday and Friday by H. D. Marks, chairman of the board of county commissioners. He will be accompanied on the trip by several leading business men of this city.

PRIMARY DATE SET  
PENSACOLA, Mar. 12.—Date for the municipal primary in this city has been fixed for Apr. 14. Each candidate entering the primary contests will be assessed \$200 to bear expenses of the election, officials state.

# Popular Price On Jazz Is Put On In Old Covent Garden

LONDON, Mar. 12.—London's famous Covent Garden Theatre, officially known as the Royal Opera House, has come at last under the spell of jazz. The theatre, built in 1858, is to be taken over by a syndicate which gives dances every night in the week at popular prices. This will be the first time that the theatre has been used as a dance hall, although many public dances have been held there in former times.

The dancing season will end late in the spring. It is announced, in time for what is to be known as an international season of opera. The Royal Opera House, which became popularly known as Covent Garden Theatre because of its location near the famous market place, has had varied experiences, having been used for opera, drama, circus, ballet, pantomime, revues and films. During the war it served as a storehouse for furniture from other buildings taken over by the government for office purposes.

# Baseball Has Rival In Hawaiian Islands

HONOLULU, Mar. 12.—Football has become a close rival to baseball for popularity in Hawaii, according to the paid attendance figures for both sports made public by J. Aghman Beaven, owner of Moiliili Park, Honolulu's shrine of athletics.

For the short football season 73,000 persons paid admission to the park. These included the attendance at the one game played by Occidental College of California against the University of Hawaii and the games of Colorado University against the Pearl Harbor Navy team and the University of Hawaii.

The total turnout for last year's senior league baseball season, with attendance compiled for four times as many games as were counted in arriving at the football attendance, was 78,000, Beaven announced.

# The Country Has "Gone" Nash

February Biggest Month of Business in Nash History

The cyclonic sweep of Nash sales is like a political landslide.

For five successive months Nash business has swept far beyond the highest previous records for these same months.

Nash sales at all motor shows to date average 114% higher than 1924.

February, though a winter month and shortest of the year, saw mounting public demand drive sales and production to the highest point in Nash history.

And March has opened up with an added momentum sure to speed sales far past the great February record.
