

Sanford Legion Wins 6th District On 5-0 Victory

Cards Play Lakeland On Merchants Night Here Tonight

Jimmy Krider Blanks Winter Park; Post 53 Advances To Area Tourney

By SAM JACOBSON
"Big Jack" Krider altered his way to a masterful two-hitter, out-muffling Winter Park, 5-0, last night in Orlando to lead Sanford's Junior Legion team to its second straight District Six championship. It marked the 14th straight victory for the new champs.

The lanky right-hander, his fast ball seething all night, struck out 12 batters while passing only one, as he provided Sanford "Whiz Kids" with their third shutout win of the already eventful year. Each of the two contests ended 1-0, with Krider also picking up one of his wins.

In other words, Sanford pitchers have really had a bopping time of it throughout the whole play-off. In 21 innings of play they have yielded no runs on only four hits, whiffing 31 and bouting 12.

It was the same story all over again last night. The strong-armed offspring of former FSL President John Krider, began "tearin' back and flinging 'em" right at the opening bell and never quit.

All but two of the first 17 pitches to face him fell fair to that blazing fast ball, or just about as often, to a swooning curve that proved very effective. It wasn't until the fifth inning that the opposition could muster a safe hit.

Meanwhile, pitching was figuring strongly, although rather unfavorably for Winter Park. Wendell Sanders, the tall hillbilly, matched Krider pitch for pitch for two innings. But beginning the third, he reverted to his old "wild self," giving the leads more than a sporting chance.

In the third and fourth frames, he walked six men in addition to giving up three hits and hitting one outman that hit himself.

Ross Hammom ended the third for Sanfords, striking out. But the "Whiz Kids" began to show signs of life as "Pee Wee" McCall and Randy Reynolds blasted out base hits. Jimmy Butler was walked to fill the bases and then Shadrack plunked "Lascivious Larry" Bates in the side, forcing in a marker.

After Junius Metts pointed out, Budus Bishie also walked for another run. With the bases still loaded, Krider grounded out to cut short the rally.

The next frame, though, the locals started right back in where they had left off. Shadrack, having like a throwback to the aborigines, put Hammom and McCall on base with two-on-base. And when McCall and Reynolds had batted and bunted, McCall had bunted in. McCall, Butler flew out to left, but Shadrack, himself, accounted for two more runs with an overthrow of Bates' dribbler and three bases his fifth and sixth to McCall and Bishie.

At this juncture the "jungle leashed" speedster was derricked in favor of Lefty Edell, who promptly led McCall off first to start all the action.

DIAMOND DUST: One of the most humorous sights seen in some time came on "Pee Wee" McCall's unorthodox start of third while the Parker hot-corner man was tossing to his pitcher. The usually "slew footed" McCall aped the "Australian" by lunging it like Native Dancer in a human stretch was perched on the bag before anyone knew what had happened. . . . Winter Park sure has taken a lacing from Sanford this year having dropped six in a row, including four whitewash-

Korean Conflict Cost U. S. Over 22,000 Dead And \$15 Billion

WASHINGTON (AP)—What did the Korean War cost the United States? More than 22,000 dead on the battlefield, part of a \$10 billion cash outlay total.

More than 15 billion dollars to help pay for over 1,125,000 tons of artillery ammunition; over 1,800,

000,000 bullets and grenades; 800 tanks and 40,000 trucks used up in battle; more than two million shells for naval guns; hundreds of thousands of tons of bombs.

It triggered a general rearmament program for which the government has spent to date over 101

billion dollars. The shooting and the casualty lists will stop.

But the boys won't start home tomorrow or next week. Secretary of Defense Wilson says, "It will be a long time before we can with safety withdraw our troops from

Korea." A long time can mean six months or more, depending on how fast prisoners are exchanged—and how soon peace instead of mere armistice, can be assured.

Everyone, President Eisenhower, Secretary of State Dulles, Wilson—hurried to caution the coun-

try that a Korean truce should not be a signal for demobilization or letdown of the defenses against a bigger war by Russia.

The government is obviously con-

cerned. The industry thinks that the truce means quick and wholesale cancellation of munitions orders.

Hardly had the truce signing announcement been made when Wilson issued a statement saying current production plans would be continued until such time as an orderly production plan can be worked out that will take into account the changed Korean require-

ments. He did not however give figures. Less than half a dozen Army divisions have moved and equipped to a point where they were ready for combat.

Today the military manpower stands up to about 3,000,000 men, though it is being reduced. The Army has 29 divisions.

Total Of 3,313 American Prisoners Will Be Returned Within 60 Days

MOSCOW (UPI)—The secret record of the Pusan truce negotiations released today showed that the Communists have told the Allies they will return 12,738 prisoners of war—includ-

ing 3,313 Americans.

The Communists gave this break-a-

way to the captives they will be released.

3,313 Americans

8,100 Koreans

922 British

12 French

22 Turks

15 Australians

10 Filipinos

11 Indonesians

22 Colombians

6 South Africans

1 Greek

1 Belgian

3 Japanese

This makes a total of 13,377 pris-

oners no Korean nationality to be returned.

The Allies informed the Communists that about 5,000 Chinese pris-

oners and 10,000 North Korean cap-

tives will be turned over to the Reds in the big exchange planned.

The information was exchanged in a secret staff officer session held at Pusan on July 22. Major James C. Murray spoke for the Allies and North Korean Col. Lee Pyung Il for the Reds.

The U. N. said that about 7,800

North Koreans and 11,500 Chinese

captives will be turned over tomorrow.

The two powers have re-

named communism and capitalism.

The Communists said yesterday

they would return 300 prisoners a day, including sick and wounded.

They did not give the number of disabled men they still hold.

The U. N. Command informed the Reds they may turn over the Communists captured at the rate of 2,400 able-bodied prisoners daily plus 300 sick and wounded each day until all the disabled are released. The Allies said they hold about 3,000 sick and wounded in U. N. camps.

The true document requires that all prisoners desiring to return home be exchanged within 60 days after the signing.

Sewerage Problem Gets Full Airing At City Meeting

Report from both the state and federal health departments on the local sewerage problem, which will be presented tomorrow night at a special meeting of the City Commission, specify that the plan to pipe raw sanitary sewage into Lake Monroe should be eliminated in favor of a sewage treatment plant.

The report, signed by David R.

Lee, director of the state Bureau of Sanitary Engineering, and by Paul W. Roberts, public health engineer with the U. S. Public Health Service, both indicate the recommendation prepared by Dr. Abel M. Sturtevant, former mayor of Boston, and Dr. George E. Gray, both from Johns Hopkins Institute, Baltimore, to extend a long pipe into Lake Monroe to discharge raw sewage would create a health hazard.

Instead, both reports indicated that raw sewage should be discharged into the lake.

Also, both reports indicated the value of the lake as a recreational spot and tourist attraction and stated that steps should be taken to eliminate the lake for such purposes.

Cost of the proposed sewer pro-

gram, according to Robert And-

son, consulting engineer for the city, will be at least \$1,200,000. Cost of a sewage treatment plant would be an additional \$200,000, he said.

The discussion tomorrow night will start at 8:00 o'clock.

The true document requires that

all prisoners desiring to return

home be exchanged within 60 days

after the signing.

Natural Gas For Sanford Is Job For Company's New VP

Bringing natural gas to Sanford is one of the jobs already assigned to William R. Gienilliat, newly elected vice-president of South Atlantic Gas Company, according to an announcement made by Hassell Oliver, president, in Savannah, Ga.

Mr. Gienilliat joins the company Aug. 1, with the specific assignment of expanding its subsidiary pipeline system through affiliated systems to nearby cities and towns in Georgia and Florida. The pipeline for natural gas is now being laid to Savannah. Oct. 5 has been set as the "target date" when it will be turned on. At that time, Savannah will be connected to the remaining parts of the pipeline system of Southern Natural Gas Company, which transports natural gas over several thousand miles from the Texas border and from beneath the waters of the Gulf of Mexico.

Drastic Drop Seen In Draft Demands

WASHINGTON, D.C.—The Defense Department anticipates that monthly draft calls will drop 4,000 in about three months if reasonably stable conditions are achieved in Korea within that time.

John A. Hannah, assistant secretary for manpower, discussed this prospect in stressing the continuing need for selective service as long as the United States keeps more than three million men in uniform.

today with jubilant tobacco farmers already jingling about \$3 million dollars received for sales the first seven days.

Though price averages are off slightly from opening days of last week, the increased volume pushed total sales 23 million dollars ahead of last year's sales to date. Even so, the \$7,132,907 pounds sold have brought an average of \$51.79 a hundred pounds this year. Poundage is running

\$52 million ahead of last year.

Last week's 5-day sales totaled 49,718,536 pounds at an average of \$51.89 a hundred. This is 18 cents above the season average so far but 15 cents short of last year's

average.

Quality of leaf offerings, which started high last week and declined as the week progressed was expected to be high again at the start of this week. Average prices by grades climbed from 73 cents to 80 cents a hundred last week. About two-thirds of all grades registered gains.

Zoning Body Hears Several Appeals

The Sanford Zoning Board met Thursday night at City Hall and heard several appeals for variance and rezoning.

Rappert Suckland appeared to request a variance on the Central Baptist Church property at the corner of Ninth Street and Laurel Avenue to be used as a Youth Center. A public hearing was set for Aug. 1.

William Bush appeared before the Board to request commercial rezoning of an area at the corner of Twenty-Fifth Street and Sanford Avenue. No action was taken.

In the third case heard, Marjorie L. Smith requested a variance on his property at the corner of Third Street and Cypress Avenue, but he was advised to await the action tonight when a public hearing will be held during the

Nixon Says Public Faith Restored

WASHINGTON, D.C.—Vice President Nixon says the Eisenhower administration's biggest accomplishment has been "restoring public confidence in the integrity, loyalty and efficiency of the nation's public servants."

In an interview, Nixon said yesterday he interpreted last year's election returns as symptomatic of a feeling among voters that per-

sonal considerations were inter-

fering with major policy decisions.

'Operation Tailwind' Pronounced Success

"Operation Tail Wind," an Air Defense Command training exercise conducted July 11 and 12, has been pronounced a great success by Colonel M. C. Woodbury, commander of the 36th Air Division (Defense), according to information received in the office of A. L. Pearson, Seminole County Civil Defense director.

Early in July all members of local Ground Observers Corps throughout Florida were alerted to "stand by" for a surprise air attack, which was in fact an uncheduled training exercise put on by the Air Defense Command to test their readiness.

In the Jacksonville Filter Center Area, of which Seminole County is a part, an estimated 1600 volunteers participated in the exercise at the 105 observation posts which were operated during the major portion of the exercise.

Chief difficulty encountered during the exercise was the bad flying weather. This not only interfered with flying and observing, but made it inconvenient for volunteers operating observation posts without shelter. Since the exercise was conducted during a period of telephone installation change-overs in some instances, some posts were not operative. In general the telephone service was good.

According to Colonel Woodbury's letter: "Operation 'Tail Wind' . . . by all odds was the most comprehensive and informative exercise held in this area. It showed our strength as well as certain weaknesses in spite of some difficulties in telephone facilities, shortage of personnel on Ground Observer Corps posts, plus non-participation of other posts, the business of detection, plotting and interception of aircraft went on as usual."

The vital role of the Ground Observer Corps was never more evident than in this exercise. Convey my heartfelt congratulations and thanks to the civilian volunteers at the Ground Observer Posts in your area as well as in the Jacksonville Filter Center.

Veteran Greek Soldier-Satesman Dies Following Heart Attack One Week Ago

ATHENS, Greece (AP)—Gen. Nicholas Plastiras, 69, veteran soldier and revolutionist who often headed Greece's government, died here yesterday. He had been stricken by a heart attack a week ago.

The tall, white-haired leader, often considered left-wing and anti-colonial, served his last term as Premier from Oct. 27, 1951, to Oct.

7, 1952. At that time his coalition government with Liberal leader Sophocles Venizelos was defeated

in a vote of no confidence.

His earlier brief terms as premier were from January to April in 1945 and from April to August in 1950. He wielded top power in several pre-war regimes.

He was born in 1884 in the present regime of Alexander Papagos.

FROM deep inside you comes a new stir and sparkle when you take the wheel of a fun-filled car like this Buick Convertible.

You feel happier just to be in a car with the lift of larks to its styling—with the breeze-blessed airiness of all outdoors all around you.

It's a car that refreshes your spirits with its sky-filled view—yet it can snug you in weather-tight shelter, when the need arises, with a mere finger-touch of hydraulic buttons.

But you get a heart-lift in this Convertible from something more than just its looks, or its versatility, or the push-button control of its top, its front seat and its windows.

Rev. Mrs. Smith Honored At Party

Blues In The News

By BOB ANTHONY

Now that Bill Yost, seaman, airman, will direct a radio show of Composite Squadron Nine, he is going forward to soon put NAAS on the air.

Before reporting for duty at NAAS Bill was staff member for the Armed Forces Radio Service in Port Lynty, North Africa. He plans to include on the show interesting Naval personnel as well as talent from the personnel stationed here.

The station dance orchestra which has been recently formed will be with music for a while. Bill describes as the "block fence" over which the station may talk to its neighbors, the residents of Sanford. The show will be "taaped" aboard the station and heard over WTRR once each week. Bill says the initial program should be ready within two weeks.
