

Dillon Linked To Tax Study

WASHINGTON (UPI) — Treasury Secretary Douglas Dillon and members of his family have about \$3 million riding on a tax case under continued study by the Internal Revenue Service, an arm of the Treasury Department.

A spokesman for Dillon said today the secretary has taken every precaution to make certain that no conflict of interest arises in this or any other tax case. An IRS spokesman declined to comment on the case.

As one of his first acts in office, Dillon directed that no tax case be brought to his attention unless it had been established in advance that he had no interest in the affected firm.

The tax matter involving the Dillons concerns a closed-end investment company known as United States & Foreign Securities Corp., whose shares are traded on the New York Stock Exchange. The firm is holding close to \$10 million as a reserve in event of an adverse ruling.

Most Russians Reported Gone

WASHINGTON (UPI) — Army Chief of Staff Gen. Earle G. Wheeler says that the Soviet Union has withdrawn about two-thirds of its forces from Cuba since last October's crisis.

Wheeler told the Association of the U. S. Army Monday the remaining Russians were mainly technicians, training personnel and some air defense specialists.

While Wheeler did not mention any exact figures, officials have estimated the peak Russian force at 22,000. His statement indicated there are only a little more than 7,000 stationed there at present.

Osceola County Cool To Karl

KISSIMMEE (UPI) — gubernatorial candidate Fred Karl, who says he will fight for a bigger legislative voice for heavily-populated counties, got a cool reception from small-county officials here Monday.

Osceola County commissioners and the county attorney ate elsewhere when the Daytona Beach representative spoke at a Rotary Club luncheon meeting.

County Commissioners Chester Barber and Tom Humby said before the luncheon that they disagreed with Karl on school matters and felt he was against small counties.

WASHINGTON (UPI) — Mohamed Yazid, a personal representative of Algerian President Ahmed Ben Bella, will meet Wednesday with Secretary of State Dean Rusk on the Algerian - Moroccan border conflict.

8 Men Die In Viet Nam Crash

J. DANFORTH WRIGHT (left), vice president of Central Florida Council of the Navy League, was present when Mayor Thomas S. McDonald signed a proclamation calling for the observance of Sunday as "Navy Day."

'Big Lift' Hours Ahead Of Schedule

FRANKFURT, Germany (UPI)—American Air Force planes neared the end of their massive troop-carrying "Operation Big Lift" from Texas to Germany today hours ahead of schedule. The historic air test of U. S. global striking power was expected to be completed at 10:40 p. m. (4:40 p. m. EST), 8 hours and 20 minutes under the 72 hours that had been allotted for the airlift of the entire 11,500-men of the 2nd Armored Division. The final plane of Big Lift's aerial troop ferry was scheduled to land at Sembach Air Force Base about 30 miles south of Frankfurt. The big C-130 transport is now on the 5,000 mile transoceanic flight from Bergstrom Air Force Base, Texas, a spokesman said. Earlier, the Air Force issued an even more optimistic forecast. A spokesman said the airlift phase was expected to end with the arrival of a C-130 jet at Rhein-Main at 6:01 p. m. The Air Force was optimistic it would complete the job in less than 72 hours despite sporadic bad weather that caused diversion of 11 transports Wednesday night and early today. Rain or fog at Rhein-Main, primary terminal of Big Lift, and at Chamouille, Toul and Etain in France, caused the planes to be shunted at Mildenhall and Prestwick in Britain and Chambley and Evreux in France.

Mayor Proclaims Sunday Navy Day

Sanford Mayor Thomas S. McDonald today proclaimed Sunday, Oct. 27, Navy Day, paving the way for a community-wide celebration that includes a Navy League reception and dinner Friday at the Sanford Naval Air Station. By virtue of the Mayor's proclamation, Sanford joins with the nation in paying its respects to the more than 800,000 members of the Navy and Marine Corps plus millions of veterans and reserve personnel. McDonald cited Navy Day as one to "give well deserved honor and recognition to the achievements of our mighty Navy and its heroic men and women—living and dead—alike over the globe. He called upon all citizens "to take part in appropriate observance of this day through the many channels open to them." Friday's observance by the Central Florida Council of the Navy League will begin with a reception at the NAS Sanford ballroom at 6 p. m. followed by dinner at 7 o'clock. Also Admiral Fitzhugh Lee, Chief of Naval Air Training, is scheduled to speak after dinner. Lee, who is headquartered in Pensacola, is in charge of the Navy's far-flung air training operations which span the south from Jacksonville to Corpus Christi, Texas. He will arrive at the naval air station from Atlanta about 9 p. m. Early arrivals to the Navy League reception-dinner will be treated to a tour of the station and Ramey Field flight line where they'll inspect the A-1A Vigilante and A-1H Skywarrior, the workhorse aircraft of Sanford's Heavy Attack Wing One.

Ship Captain Tells of Raid

CORPUS CHRISTI, Tex. (UPI)—The Liberian-registered ore freighter strayed and set fire to unidentified planes near Cuba docked today at Corpus Christi, and the captain said the first inkling he had of an attack was when aerial flares burst directly over the vessel. Capt. Gerhard Krause said he and two men were pained on the bridge by bullets whizzing around them during the attack. He ordered the rest of the crew to remain below. "We didn't have anything to defend ourselves with," Krause said. "All we could have done was throw potatoes." Krause's ship, the J. Louis is a Liberian freighter. Released and in a jovial mood, said he counted 16 passes made by the planes. "There," he said, "I stopped counting." He said he never saw the planes because they were moving too fast. Krause said little damage was done to the ship and that most of the bullets missed. He said he never feared for the ship's safety as long as the plane kept straying. A fire broke out on the bow but never endangered the fuel supply. It was extinguished by chemicals and water after two hours.

Board To Meet After Election

TALLAHASSEE (UPI)—The Board of Control will meet in Jacksonville Nov. 8, just three days after the public has voted on the proposed \$75 million college bond issue. If the people approve the bond-financing plan, the board will make plans for getting the program into the works. If the bond issue proposal is defeated, the board probably will discuss alternative ways of getting badly-needed construction and apparently the only way open would be to ask for a special session of the Legislature to raise taxes. The board meeting will be held at 9 a. m. in the Gulf Life Insurance board room. On the following day, board members will attend the Georgia-Florida football game in Jacksonville.

4 In Family Die In Fire

PALM SPRINGS, Calif. (UPI)—Four members of the late comedian Joan Davis' family—her mother, daughter and two grandsons—were killed today when fire swept their home. The victims were Nina Davis, 72; Mrs. Beverly Gilbert, 29; and Mrs. Gilbert's two sons by a former marriage, Guy Grossman, 7, and Larry, 4. Neighbors were awakened shortly after midnight when windows in the modest home began "popping" out under pressure built up by the infernal fire. Firemen controlled the blaze and found the four bodies all in the master bedroom where the fire apparently originated.

Diana's Death Ruled Suicide

LONDON (UPI)—The Westminster coroner's office ruled today that Diana Churchill, who resumed her maiden name after her 1959 divorce from Commonwealth Relations Secretary Duncan Sandys, was found dead Sunday in her apartment in the Westminster district of London. An inquest was ordered, officials said at the time, because of some bottles found in the apartment.

Hope Going To Viet Nam

HOLLYWOOD (UPI)—Bob Hope is planning to entertain American troops in Viet Nam this Christmas. The comedian said in making the announcement Wednesday that he was postponing a scheduled personal appearance tour of Australia and New Zealand. He plans to take regular troupe members Jerry Colonna, Anita Bryant, and orchestra leader Les Brown on the tour.

White Back On 'Gideon Ruling'

Robert E. White, of Orlando, serving time for cattle stealing in Seminole County, has returned today from Raiford state prison for a new trial under the U. S. Supreme Court's "Gideon ruling." Circuit Judge Volie Williams ordered White's return for retrial when it was brought out that White had pleaded guilty to two charges without benefit of legal counsel. White, in April 1962, pleaded guilty to cattle stealing and was sentenced from two to five years and to breaking and entering and grand larceny and was sentenced from six months to 10 years. Sheriff J. L. Hobbs said this morning that White is the seventh convict to be returned from Raiford for retrial under the Supreme Court ruling.

\$300 Stolen

Burglars broke into the pro shop of Mid-Florida Country Club Wednesday night and obtained \$300 in cash. Manager Joe Hornstein reported to the sheriff's department today.

Tiny Island Declared Safe For Natives

SOUTHAMPTON, England (UPI)—A party of 198 men, women and children turned their backs today on the comforts of modern England to return to the rugged, simple life of Tristan de Cunha island in the South Atlantic. They were scheduled to start the long voyage to "the loneliest island in the world" aboard the chartered Danish ship Bornholm. The group was the main

Out Of Politics, Says Collins

MIAMI BEACH (UPI)—Former Florida Gov. Leroy Collins said today he will not endorse any candidate in the 1964 gubernatorial race—and took his own foot out of the political door for good. "As far as I can tell, I am through with politics," said Collins' son is here as president of the National Association of Broadcasters (NAB) for an NAB regional conference. "A man cannot do a job if he has one foot or one eye on another area of service. My job commands the whole of my energies," he told a news conference following his return to the NAB. "I don't plan to make any endorsements because that is no longer my field," Collins said when asked about the race for governor next year. Collins was governor from 1951 to 1959, and today he called these years in Tallahassee among his "most satisfying." But he reiterated that he looked upon his present job as one of public service also, and said he had no plans to re-enter politics.

body of the island's total population, which was removed two years ago when a volcano eruption forced them to leave their tiny British-administered island. Two advance parties totaling 40 men have gone ahead to prepare the island to be lived on again, now that the volcano has subsided. Eleven Tristaners chose to remain in England. Five others died here, mainly of pneumonia and related ailments attributed to the harsh winter weather. Eight babies were born during the islanders' stay in England. Victor Rogers, 50, his wife and their three children are among the islanders who chose to face the cold weather and complexities of modern life in Britain. "We are happy to stay," Rogers said. "My younger children will get a better edu-

ation. Life is much harder on Tristan." The rocky island was inhabited in the early 1800's by fishermen, shipwrecked seamen and other persons who arrived by chance at the isolated spot off the normal shipping lanes and lacking a harbor. Tristaners learned to eke out a living by fishing, raising sheep and growing potatoes. The modern develop-

ments of 160 years passed them by and until they arrived in England they had never seen such things as television, automobiles, trains, neon lights, cement sidewalks, movies or nylon stockings. When experts declared Tristan de Cunha once again safe for occupancy, the islanders voted overwhelmingly to return and the British government started making the necessary arrangements.

Dilemma For Romney

It is unusual that, months before presidential nominating time, any state should become so much a party battleground as Michigan already has become for the Republicans.

With 48 convention votes at stake, Michigan is naturally one of the big prizes for 1964. And right now Sen. Barry Goldwater's partisans are hard after a large share of that total.

Hence the early struggle. For the normal political realities make Michigan the preserve of its new but well known GOP Governor, George Romney. And the Goldwater push has given Romney an unlooked-for predicament.

The governor himself is often mentioned as a presidential prospect. He figures fairly well up in many polls. Yet he has repeatedly disavowed any interest in the 1964 nomination. Various party and other interests, who want to see him stay on and try for re-election as governor next year, urge him to make that disavowal rigidly final.

But in so doing they are complicating the governor's problems of normal political leadership in his powerful state.

For example, some tell him that he cannot declare himself a Michigan "favorite son" without going all the way in a major bid for the nomination.

Most political realists consider this view to be utter nonsense. Any big state governor worth his political

salt is expected to command his party's forces in a nomination struggle, to use them effectively as bargaining elements for the benefit of his state.

If he has to make himself favorite son in order to keep right rein, that is looked upon as perfectly sensible politics. Professionals do not see in such a course a commitment to "go all the way," even when the man involved is a popular governor, frequently placed in the presidential lists.

Romney, on his own, evidently has not wished to stand as favorite son. Perhaps he is impressed, too, with the argument it would thrust him into the 1964 race up to his ears.

His current situation, however, is not one a state political leader likes to swallow. Goldwater elements are claiming upwards of 20 of Michigan's 48 votes will be theirs in 1964. Romney in some circumstances might find himself going to San Francisco virtually as chairman of a Goldwater delegation.

This could hardly promote the governor's image as a powerful leader in his own state and a potential national figure for 1968 and beyond. In blunt fact, it might do him serious damage, even to affecting his prospects of re-election as governor next year.

These are the detached professional assessments of Romney's present somewhat unenviable position. He is believed not to have too long to work himself out of this dilemma.

Political Notebook

WASHINGTON (NEA) — Sassy reporter May Craig asked President Kennedy early in his administration, "sir, what are you doing for women?"

"Whatever we have done," Mrs. Craig replied the President, "I'm sure it hasn't been enough."

So in December 1961 the President created a 26-member Commission on the Status of Women with the late Mrs. Eleanor Roosevelt at its head to study the situation.

Twenty-two months later on the anniversary of that great lady's birth, the commission filed its report and went out of business. From here on, anything done to improve the status of women is put up to the President, the courts, Congress, the state legislatures and city councils, education, business and labor leaders and the 50 million members of women's clubs that concern themselves about it.

The first natural reaction of

any mere male to all this is to don misogynist robes and imitate Schopenhauer. What do women want with any more status than they now have? Why don't the dears hang on to what they already have and let it go at that, as the most favored of the sexes?

But women are never satisfied and never will be, which is one of the things that makes them so—so womanly.

The commission report, titled "American Women" is an 86-page slick paper job that sells for \$1.25 from Government Printing Office, Washington, D. C., Zip Code 20501, in case you want one for your club. It was put together under the direction of its two vice-chairmen, Mrs. Esther Peterson, assistant secretary of labor, and Dr. Richard A. Lester, head of the Department of Economics at Princeton.

At last report, Old Nassau women's clubs that concern themselves about it.

What this means for the future is that more women will find that they have a second life to live after their children are grown. The choice will no longer be family or career. They can have both. It is happening already.

One third of the labor force is women. Half of the 24 million employed women are in the 45 or older age bracket and 88 per cent of them are married women.

These are women who for financial reasons can't or for personal reasons don't want to sit out the second half of their lives. They want to resume old careers or find new ones. They want to live long and useful lives not only for the happiness of their own sweet selves, but also to be of more service to their families, communities and country.

There is another aspect of it which the commission report doesn't go into, but which is worth a close look. This is the effect which the employment of more and more women has on the total unemployment picture.

To provide jobs for all these women means that the growth rate of the economy must be accelerated more than if only an expanding male labor force has to be kept at full employment levels.

Thus, an undergraduate

college coed was pictured as blithely claiming Krebiozen was nothing but creatine. She was used deliberately to belittle and insult Dr. Ivy, who is a world famous physiologist.

If Krebiozen and creatine were the same, any high school chemistry student knows they would react alike! But Krebiozen dissolves in No. 9 mineral oil; creatine does not! Their melting points and spectrographs also are not the same.

With typical Gestapo methods government men just last month descended on the professional chemical laboratories that did the analyses of Krebiozen and threatened those astute scientists with imprisonment, plus heavy fines, if they did not let them see the private lab reports.

The scientists properly refused, saying their data had been paid for by a private client. But they finally had to call their own private lawyer to order the government Gestapo agents out of the lab!

Since the FDA is financed by us taxpayers, it has no right to try to distort data and intimidate voters in this dastardly manner.

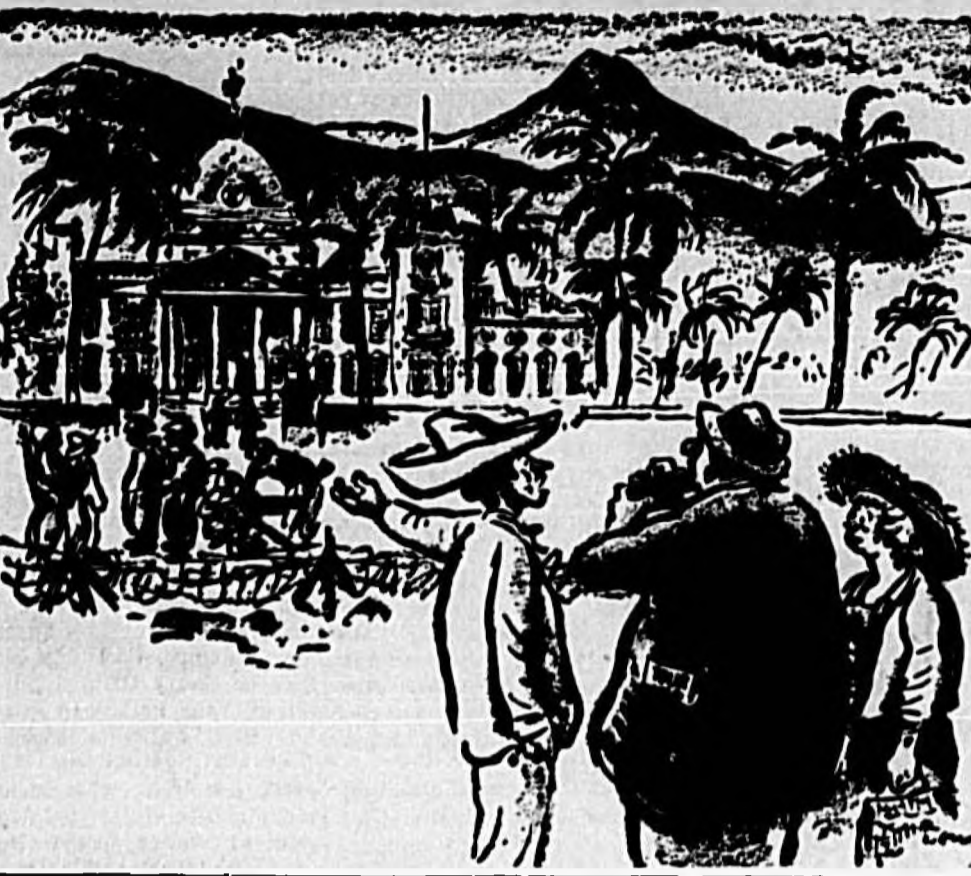

Two weeks ago I personally talked to several cancer patients who had been given up as hopeless cases and listed as "dead or dying" way

back in 1951 in a report in our A.M.A. Journal. Now (12 years later) they seem healthy and are back on the job — with nothing but weekly shots of Krebiozen to explain these miracles.

Since Krebiozen has no medical ill effects and has been used on over 3,000 patients by over 3,000 physicians, why is the FDA so terrified about the fair test of Krebiozen that Senator Douglas urges in his bill?

Is it just trying to "save face" while letting thousands of cancer victims die?

Dr. Crane's

Worry Clinic

Pete asked me to give the banquet address at MacMurray College.

But he was scheduled that same night at McKeniree College, so Karin Walsh, City Editor of the Sun Times, ably served as emcee.

"Dr. Crane," Karin began during our dinner conversation, "did you ever use any Krebiozen, the new anti-cancer substance, on patients?"

I shook my head, saying I knew nothing at that time about Krebiozen except what I had read in the newspapers. "Well," Karin added, "I had one personal experience with it. For an elderly lady, childhood thum of my mother, was suffering intense pain as she lay dying of cancer."

"Since opiates would not give her relief, she finally begged my mother to ask me to contact Dr. Ivy about Krebiozen."

"Dr. Ivy immediately sent some to her physician. After the first injection, her pain disappeared!"

"Being a hopeless, terminal cancer victim, she died a month later. But at least she was pain-free during those final weeks!"

Karin perked up my curiosity. So I talked with U.S. Senator Paul H. Douglas, himself a Ph. D., and famous former university professor.

Senator Douglas recently introduced a bill in Congress to demand a fair clinical test of Krebiozen.

But the Food and Drug Administration seems to have a pathological hatred of Dr. Ivy. For example, it tried to smear Dr. Ivy by press releases last month.

Thus, an undergraduate

Phil Newsom Says . . .

Red China Changing?

Among those assigned to watch the twists and turns of Communist foreign policy there is at present a wonder whether Red China is making some attempt to change her image as the great advocate of war.

The speculation arises from a statement last Sept. 18 by Liu Shao-chi, president of Communist China and Mao Tse-tung's chosen successor. Visiting North Korea, he said: "It is impermissible for any socialist country to be the first to use nuclear weapons under any circumstances."

The speculation received further impetus on Oct. 1 from a speech delivered by Peking Mayor Peng Chen at a parade marking the 14th anniversary of the founding of the Chinese Communist Republic. He said world war could be prevented through united effort and "concerted struggle" by the peoples of the world, including those of the United States.

Both statements seemed designed to cast a different light on Chinese foreign policy which has held that force is the only means of settling differences with the Western world and that in the event of nuclear war it would be the Communists who would inherit the earth.

Since previous attempts ov-

er the last 20 years to forestall day-to-day turns of Communist policy have been markedly unsuccessful it would be a mistake now to take statements by even two such high officials to mean that Red China is changing its coat.

But as items of temporary expediency they may have some meaning. In past years the Reds have not been backward about boasts of their advances in the fields of steel plating and factory construction.

Lately the talk has been of steel tubing for fertilizer plants, and for small tractors and diesel engines.

Bicycles have taken precedence over manufacture of automobiles.

Other reports have told of the manufacture of so-called luxury goods such as clocks, tableware and glassware. Indicating difficulties, there also have been reports of complaints stemming from shortage of replacements for agricultural machinery.

WITH A FLAMELESS electric dryer

Washday is still washday... but without the aching back and tired feet. Because an automatic electric dryer makes it unnecessary to haul 'n' hang the 4,000 pounds of wet-wash the average family must dry annually. And it also saves an estimated 40 miles of walking required for old-fashioned clothesline drying. It spells goodbye to drudgery!

Any woman who owns a modern electric dryer will tell you that it is even better than sunshine and is truly an all-weather convenience, day or night. Clean electric heat dries your clothes safely and gently. Whites

dry white, colors stay bright and every thing is softer, fluffier, wrinkle-free and sweeter-smelling.

And remember, a flameless electric clothes dryer is as safe and clean as a light bulb. No flame, no fumes. Can be installed anywhere. Operating cost is just a few pennies a load.

An all-electric laundry with an automatic washer, an "instant sunshine" dryer, and a super-fast electric water heater for a plentiful supply of hot water will really help you wait through your next washday. See your electric appliance dealer today.

There's no match for flameless Electric Living... IT'S CHEAPER, TOO

Officers Named By Emergency Committee

By Mrs. Adam Muller
Officers elected at a recent meeting of the DeBary Emergency Committee were Kress Walter, chairman; Mrs. Charles Ulrich, secretary and Mrs. C. E. Butler, treasurer.

Plans were discussed for reviving the committee under direction of new leaders with new committees formed for various departments.

Resignations of Mrs. Eli Yoder and John Rasch were accepted with regret.

The committee, which has expressed its desire to be prepared for any emergency, has asked for suggestions and cooperation of the residents. It is hoped that each organization in the community will elect a representative to serve on the committee.

A good attendance is urged for the next meeting which is scheduled for Nov. 18, at 9:30 a.m. at the Community Center.

BEAR LAKE CHILDREN already have been treated to one Halloween Party and sweet little angel Bonnie Speir (left) and her small Japanese friend, Gayle Nichols, were prize winners. Sponsors of the party were members of Bear Lake Community Club. (Herald Photo)

They placed in the top two per cent of all those taking the tests in the nation.

Pete is the son of Mr. and Mrs. H. T. Carlson, Longwood, and Lorraine is the daughter of Mr. and Mrs. Leonard Wagner, Altamonte Springs.

Fall Fashion Show Draws Full House

By Julia Bartos
The Fall Fashion Show sponsored for benefit of the Altamonte Springs Library was presented before a capacity house last Thursday morning in the Educational Building of the Altamonte Community Chapel.

Stage sets were decorated with trees, falling autumn leaves, pumpkins and footballs and one screen was covered with colorful balloons, confetti and Halloween party hats.

A fruit of plenty centerpiece decorated the buffet table where coffee and doughnuts were served by Mrs. Russell T. Overly and Mrs. Smith Cady before the show began.

Welcome to the audience was extended by Mrs. Graham Fuller and Mrs. Milton Tinsley, commentator, introduced the models and described each costume.

Styles were by Playgirl Fashions of Fern Park. Models were Mrs. A. M. Birks, Mrs. Leonard Casellberry, Mrs. George C. Hearn, Mrs. Thomas Malone, Mrs. Walter Norton, Mrs. Gerald Peables, Mrs. Alfred Skelton, Mrs. Eugene Taylor and Mrs. Julian Williams.

Surprise entertainment featured a pantomime skit enacted by Mrs. Keith Nixon, Mrs. Wayne Sobotka and Mrs. Thomas Pincock to the tunes of "Anything you can do, I can do better" and "Doing what comes naturally."

A number of attractive door prizes were awarded during the show.

Rev. Goerss Speaks

By Bernice Kelsey
Rev. Herbert W. Goerss of Sanford spoke Monday night for the Slavia Parent-Teacher League on "Satisfying the Basic Yearnings."

Presenting his topic in four parts, Rev. Goerss outlined security that children need at home, affection needed by children, recognition that a child needs by his parents and teachers and adventure that a child finds in learning. He pointed out that the greatest adventure in life is Christianity and the battle against force of evil.

Relationship between the church and the school was discussed by Rev. Stephen Tuby.

During the business meeting Principal E. L. Bellhorn announced that the annual Halloween Costume Party will be held next Wednesday at the school. A cartoon movie to be shown at 6:15 p.m. will be followed by judging of the costumes. Later games for adults and children will be played and refreshments served.

Bellhorn asked that parents notify either the bus driver or teachers if their children are to leave the bus other than at their regular stops.

He also called attention to expansion of the playground advising that a baseball diamond will be added since the new school wing took in most of the old playing field.

Mrs. C. W. Roberts announced that the candy to be sold as a fund raising project by the PTL has arrived.

After the meeting was closed with prayer by Rev. Tuby, refreshments were served by Mrs. Roberts, Mrs. Monroe Parsons and Mrs. Charles Penlarvis.

South Seminole Garden Club Hears Program On Orchids

By Jane Casselberry
South Seminole Garden Club members heard a talk by Col. Mark Fravel, who has an orchid nursery near Ovidian, on the subject of growing orchids at the first meeting of the new year held Monday afternoon at the home of Mrs. H. T. Crittenden, president, on Red Bug Lake Rd.

Mrs. W. J. Hartley of Longwood, who first conceived the idea of forming the club, was presented with an orchid plant in appreciation for all she has done for the organization. She is presently serving as horticulture chairman.

A brief memorial service was held for Mrs. Eula Hirsch, a member of the club who died recently. Mrs. Burbon Ferrell, her daughter, and Miss Barbara Ferrell, her granddaughter, attended the meeting and were presented with the white rose used in the ceremony.

Mrs. Walter Krohne Sr., was in charge of the devotionals.

A new choral group known as "The Orioles" entertained the club by singing "In The Garden" and the State

Federation song. The group is composed of the following garden clubbers, Mrs. Milton Tinsley, Mrs. Charles Pierce, Mrs. C. L. Legett, Mrs. Ralph Newcomer and Mrs. E. P. Richards and is well-coming new members.

The club voted to donate some podocarpus plants to the Lyman P.T.A. for their beautification project at the school.

The next meeting will be held Friday, Nov. 22, at "The Barn" in Eustis and the program will be on Christmas decorations.

New club members joining at the meeting were Mrs. Glenn Humes, Mrs. Tom Hueston, Mrs. Paul Watson, Mrs. Harry Peterson and Mrs. Arthur Landry.

Visitors were Mrs. Oscar Fosse, Mrs. Gus Sawyer, Mrs. Paul Knight, Mrs. O. K. Graham and Mrs. Ala Tritscheller.

Members of the executive board joined Mrs. Crittenden in serving refreshments in the social hour that preceded the program. They were Mrs. Fred Heuberger, Mrs. L. E. Swope, Mrs. Arthur Putman and Mrs. Otis Lee.

Patrons may subscribe to new magazines, renew present subscriptions or purchase gift subscriptions with the class receiving half of the amount turned in for subscriptions to four of the publications.

Proceeds from the sales will be used for the annual Junior-Senior Prom.

Halloween Dance Slated Saturday

Seminole High Broadwing Club is sponsoring a Halloween dance from 8 to midnight Saturday at the school.

The dance is open to all senior high students. Costumes are optional. Gil Luck will play the records. Door prizes will be offered.

Three Games On County's Grid Menu Tonight

Lyman JV In Only Contest Of Season

By Dick Grant
Herald Sports Writer
 The Lyman Junior Varsity meets the Apopka Blue Devils tonight at Apopka, the only JV's play this season.

The Hounds, which have only a limited number of boys, will have just enough to meet the field with those who have played very little or no football thus far this season. The Hounds haven't had a regular JV team this season.

The JV cheerleaders who were just selected last week will have their first showing this week also. They are Mary Louise Haines, Janet Harmon, Shirley Davis, Sandy King, Carlon May, Candy Potter, Dian Rodas and Pam Means.

The starting line up for the Hound Pups will be ends Dale Perry and Don Patrick; tackles, Mike Coles and David Balantine; guards, Nelson Stergal and Danny Hall; center Jim Mitchell; halfbacks Kenny Kelly and Terry Hammond; full back, Austin Haville; quarterback Gerry Smith.

Seminole JV In Final Tonight

Tonight's Memorial Stadium engagement between the Seminole High School Jayvees and the Baby Wildcats from Ocala High School shapes up as an "all or nothing at all" affair when the two clubs tangle tonight at 7:30.

If the Baby Seminoles can post another one in the win column this evening it'll mean they will have gone through the season undefeated, their fourth consecutive season undefeated, and if they can whitewash the little Wildcats it will mean they will have been unscathed upon this year.

So, the little Tribesmen of Head Coach Ralph Stumpf and his able assistant, John Colbert, are hoping to ring down the curtain for the '63 season in a blaze of glory.

Page Abner
 United Press International Baseball was played by poet Oliver Wendell Holmes as a Harvard undergraduate in the 1820s, years before it was "invented" by Abner Doubleday in 1839, according to the Concise Dictionary of American History.

Hurricanes, St. Cloud In Return Match

Head Coach Jim Clark of the South Seminole Junior High Hurricanes says his club—minus 10 of the youngsters who started the season with the team—are as ready as they can be expected for tonight's clash with St. Cloud Junior High at Lyman Field in Longwood.

Clark's boys have posted two wins against a single loss thus far this year and will be starting the closing half of their six game schedule.

One of the Hurricanes' earlier victories was a 32 to 13 win over the same club they will meet this evening. Clark says the St. Cloud outfit has improved considerably since the earlier tilt between the two schools. St. Cloud last week romped over the Oviedo Junior High Lions by a 40 to 0 count.

The kickoff is slated for 7:30.

AFL Teams To Try Pay TV In 1964 Season

NEW YORK (UPI)—National Football League clubs will keep faith with their millions of home television viewers even though some may experiment with pay-TV in 1964 and 1965.

That was NFL Commissioner Pete Rozelle's pledge today following his announcement that the league's 14 clubs have been granted permission to experiment with presenting games on theater-TV screens in 1964 and 1965.

Rozelle said the league's first experiment with theater-TV could be with its 1963 championship game Dec. 29.

In making the announcement, Rozelle emphasized the league's intention to continue its current policy of home television for all away games and for home games except within a 75-mile radius of the city in which the game is played.

"The fans in all 14 of our cities will see all their teams' away games as in the past," said Rozelle.

"The fans in non-league cities will continue to see our games in the same pattern as in recent years," he added.

The difference in 1964 and 1965, however, will be that individual clubs will be able to experiment with theater-TV of their home games.

Land O' Lakes Tournney Sunday

The Land O' Lakes Country Club has scheduled a membership tournament at the Casselberry Links this Sunday, according to an announcement by the club's pro, John Porter.

Each member, says Porter, will play with his guest as a partner in a handicap-best ball tournament. A buffet will follow the tournament at which time prizes will be awarded to the victors.

Members have been requested to make reservations with Porter no later than noon on Sunday. Reservations can be made by calling 834-2499.

About Sports Thinking Out Loud

BY JULIAN STENSTROM

The Florida High School Athletic Association's recent ruling in the case of young Bill Gainesford of Fort Lauderdale High School apparently is not a popular decision with those with whom we have talked since its announcement.

Here's what happened: Gainesford played halfback for the Fort Lauderdale High Flying 'L's. He was a qualified student of the school just like any other student.

But his parents decided to build a new home and moved from their former house to an apartment in nearby Pompano Beach while the new home was being built. There was no apparent need for young Gainesford to withdraw from Fort Lauderdale High and enter another school for so brief a period.

The Florida High School Athletic Association's regulations require the school to submit a request to the association for young Gainesford to be reassigned to Fort Lauderdale High.

But the school's head football coaches, Duke Malby, by his own admission overlooked this minute detail.

As a result the state wide association has rendered a decision ruling that young Gainesford is not only ineligible to play football for the remainder of this season but also during his senior year.

In addition, Fort Lauderdale High School has been fined \$100, according to the letter to the school from Floyd L. Lay, executive secretary of the all powerful organization headquartered in Gainesville.

Undoubtedly the Florida High School Athletic Association remained within the scope of its authority to penalize young Gainesford and the fine levied against the school means absolutely nothing inasmuch as no one particular person will be required to pay it out of his pocket.

On the other hand, to punish young Gainesford by eliminating the possibility of a college scholarship could actually cost this youngster—guilty or absolutely nothing—something indirectly in the neighborhood of \$6,000 to \$8,000. This judgment is based on the possibility that he might have been qualified for a scholarship to play football at some university.

The Florida association's decision simply does not make sense when Malby himself admitted that the administrative oversight was the school's responsibility and not that of the youngster. Gainesford probably was not aware of any infraction of the rules. We understand that this sort of thing has been going

 Egud, friends, never in my long and illustrious career as a football forecaster do I remember the form sheets taking such a beating.

All season long, underdog eleven have refused to accept their assigned roles and instead have delivered some well-aimed kicks at what is vulgarly called the dupe bucket.

Chief of the big surprises will take place in Austin, where the Texas Longhorns will be inundated by a shower of Rice — heh-heh! I predict Rice will trounce the high-flying Texans, 21-10.

Other startling results will find California downing favored Southern California, 23-12, Texas A. & M. defeating Baylor, 22-12, and Cincinnati venturing out of its own class to lumbie Big Ten representative Indiana, by the close score of 25-22.

Now go on with the forecast.

Berra To Replace Houk As Yankee Manager

NEW YORK (UPI) — You Berra has the last laugh to day.

Once the ugly duckling of baseball who as a young player was ridiculed and taunted by players with half his ability, the 38-year-old Berra will be officially designated as the new manager of the New York Yankees.

An open secret since Ralph Houk succeeded to the general manager's chair on Tuesday, the formal announcement came from club President Dan Topping at noon during a press conference at the Savoy-Hilton Hotel.

Berra's salary is expected to be \$50,000 a year — 100 times what he received when he signed his first contract with the organization in 1913.

Then Berra — a far cry from the shy kid who told St. Louis fans honoring him with a "night" in 1917: "I want to

thank everybody who made this night necessary" — was expected to outline his plans for rallying the Yankees from their four-straight disaster at the hands of the Los Angeles Dodgers in the World Series. Berra is reported to have

rejected several managerial offers from other clubs because he had been tipped by the front office that he was to become the new manager of the Yankees. Berra's career started on the sandlots of St. Louis.

Born on the "Hill" in St. Louis on May 12, 1925, Berra took naturally to athletics and played hockey and football as well as baseball. His natural sport was baseball, however, and he entered the Yankees' farm system in 1943

when he signed with Norfolk in the Piedmont League. After spending 1944 and 1945 in the Coast Guard — he went ashore on Normandy Beach in the invasion of Western Europe — Berra was moved to the Yankees' Inter-

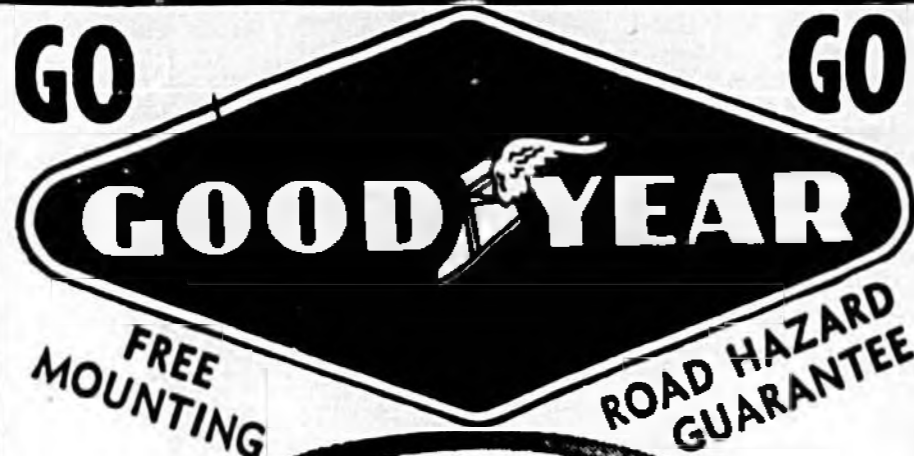

national League farm club in Newark. He played seven games at the close of the 1946 season and reported the next spring to Manager Bucky Harris a serious candidate for a regular job.

Although ridiculed at first because of his linguistic and parlor-room faults, Berra's exceptional batting ability and his inherent instinct to make the right move on the field quickly established him as a big league star.

Citizens Comment On New Building

By Donna Estes
Many favorable comments are being heard in Longwood about the new City Hall and Fire House being built at the

corner of Wilma and Warren Streets. Construction of the 90 by 42 foot building, estimated to cost between \$15,000 and \$20,000, was begun Sept. 30.

E. F. Richards, treasurer of the Longwood Area Chamber of Commerce stated: "For what little it may be worth, I give my enthusiastic endorsement of the council's step toward providing the town with a new municipal hall."

"I believe it is a much needed forward step for two reasons—first, the town definitely has outgrown the old building so far as its capacity to serve the community is concerned and also as far as the nature or quality of the building is concerned. The town needs a larger building with increased facilities to handle the growing needs of the community."

CONSTRUCTION on Longwood's new City Hall and Fire House, which is advancing on schedule, is expected to be completed by mid-December. The new facility is going up at the corner of Wilma and Warren Streets.

Longwood PTO Hears Talk On Communism

By Donna Estes
Youth, the Target of Communism was the title of the address given by CFO George Felgar at the regular meeting of the Longwood Elementary PTO held Tuesday night at the school auditorium.

Felgar, who qualifies himself as a student of the subject, pointed out that there is little danger of adults being converted to Communism because they already have been educated in our way of life.

When replacement personnel is needed for the Communist Party, he said, students of higher education are most favored because they are young and impressionable enough so that the Communist Doctrine may be wholeheartedly received and believed.

He explained that very little can be done with this age group since they make most of their own decisions about life, using the background which they already possess. He advised that parents can

do something now about future decisions of the elementary school age child and recommended that parents encourage their children to have the good, clean habits such as regular church attendance, good personal hygiene, neatness, sobriety, ambition, courage and honesty.

Throughout his talk he gave examples of differences in the way Americans and Communists understand various terms. One example was the word "co-existence." He stated that to Americans co-existence means living peacefully with our Communist neighbors in the world while to the Communist the meaning changes. He compared a dog co-existing with a bone until the dog gets hungry and eats the bone, then the bone co-exists inside the dog.

Felgar's talk was well received by the attentive audience. Immediately preceding the program, the business meeting of the PTO was conducted with Mrs. Joan Voskan, president, in charge.

Under Cdr. Sette the squadron began laying the groundwork for becoming the first squadron to operate the RA-3C Vigilante reconnaissance attack planes.

Cdr. Sette's year as commanding officer of VAH-5 has seen many changes, including transition from the A-1H Skywarrior to the VA Vigilante, which began in March, and presently to the RA-3C Vigilante.

Lake Sette, Cdr. Werner has been with the squadron during the transition period. He is also a qualified Vigilante pilot and was one of the first Naval fliers to pilot the new RA-3C.

An 18-man grand jury was deliberating "only a few cases" today at the Seminole County courthouse.

Seated by Circuit Judge William A. Akridge, Cocoa, the jury was considering evidence as presented by State Attorney A. L. Steed, Orlando.

It was expected the jury would make a report to the court late this afternoon.

Approval of amendment No. 2 to the state constitution is of vital interest, also, to Seminole County, it was pointed out by G. E. Dail Jr., West Palm Beach, since it will mean recreational improve-

Appeals Made For Three Amendments

Pleas to "carry the word" throughout Seminole County for the support of three state constitutional amendments and a county measure in the Nov. 5 election were made to more than 200 persons who attended a joint service club luncheon meeting Thursday noon at the Civic Center.

Eleven service, civic and other organizations were represented at the meeting, hosted by the Junior Chamber of Commerce to acquaint the public with "the necessity to have approval of these measures if Florida's economy is to continue to grow."

Sen. Mack N. Cleveland Jr. voiced the plea for support of amendment No. 1 to the state constitution, providing for a change in the election date for governor and cabinet members. The change would provide for state elections in presidential election years.

"With national parties predominantly controlling television time during presidential years," Cleveland stated, "our voters get little opportunity to become acquainted with the qualities and records of our candidates for state offices. This change would permit the state candidates to have more TV time and more space in the newspapers."

He also pointed out the state is turning more to the two-party system and "it is vital that we devote more time to state and local issues."

Stressing the estimate there will be 200,000 college students in the state by 1970, William H. Dial, Orlando, called for approval of amendment No. 2 to the state constitution, which will permit the state to issue bonds in the amount of \$75 million for new construction of institutions of higher learning. He emphasized these bonds would be retired with taxes from utilities.

Dial, president of the Committee for the Florida Institute of Technology, remarked that Seminole County should be especially interested in the passage of this measure since this county is being considered for a new state university.

Former Sen. Douglas Stenstrom, moderator for the meeting and chairman of the joint range committee on education for the Chamber of Commerce, explained the county measure as "approval of a permissive legislation which will allow the County Commissioners to continue with their plans for acquisition of a site for a new university, should the State Board of Control select Seminole County."

He held that five sites in this county have been offered. One has been offered gratis by the three land owners but the other four must be purchased, if one is selected.

He explained the county measure, to be voted on by all electors, merely gives the commission a "go ahead signal" in the event Seminole is chosen. It also provides that if the state selects one of the four sites needed to be purchased that the County Commission may call for a special election by freeholders to raise funds for the purchase of the ground.

School Group Gets UF Award
Instructional personnel and employees of Goldsboro Elementary School have become the first such group of United Fund contributors to win a gold award for 100 per cent participation. United Fund officials reported today.

Mrs. Melissa Roberts, member of the Goldsboro faculty, served as chairman for the school UF drive.

STATE AND COUNTY questions before the electorate Nov. 5 were outlined in detail Thursday noon when the four men above requested some 200 persons to "carry the word" into the county seeking approval of the measures. Also at the speakers table were Mrs. Harriett Shawter (left), president of the Business and Professional Women's Club, and Mrs. William Reynolds, civic chairman of the Woman's Club.

'Big Lift' Declared Complete Success

FRANKFURT, Germany (UPI)—The biggest and fastest transoceanic military airlift ever undertaken was declared a complete success today. Military leaders began planning for a larger one to the Far East next spring.

Air Force Secretary Eugene M. Zuckert called special attention to the 100 per cent safety record in Big Lift, the movement of more than 15,000 troops carried out to show how rapidly the United States could build up its forces in Europe in a crisis.

In a tribute to the Military Air Transport Service's MATS accident-free delivery of the 2nd Armored Division from Texas to Western Europe, Zuckert said operations over the 5,600-mile aerial bridge were performed "with a real sense of urgency but entirely consistent with airline safety standards."

The transoceanic phase of Exercise "Big Lift" ended at 10:05 p.m. (4:05 p.m. EST) Thursday when a big C130 turbo-prop troop transport set down under glaring floodlights at Sembach Air Base, 35 miles southwest of here.

Issues To Be Discussed
Constitutional amendments and local bills to be voted on Nov. 5 will be discussed at a public meeting at 8 p.m. Tuesday at Lyman High School auditorium, Longwood.

The issues will be presented by State Sen. Mack N. Cleveland Jr., Reps. S. J. Davis Jr. and Jan Fortune, and Douglas Stenstrom, chairman of the University Site Committee, Seminole County Chamber of Commerce.

Members and guests of the league will fill the NAS ballroom for a reception and dinner beginning at 6 p. m.

The event is being held in conjunction with the nation's observance of Navy Day, proclaimed by President Kennedy for Sunday, Oct. 27.

Earlier in the week Mayor Thomas S. McDonald gave local endorsement to the occasion with a proclamation of his own.
