Heavy Volume
 (Continued From Page One)
 the first load of tomatoes moving out of the market on Thursday of the past week. Those were grown and packed by Gentile Bros. Several shipments from the same source are anticipated during the current week, with a light volume expected on the market platform between Oct. 10 to 15. Cucumbers are also expected to start in a small way this week. Quality is said to be very good.
 Sandy Anderson, manager of the Sanford State Market reports the first local beans moving over that market Monday of the past week and while the quality is not quite up to par, they moved out freely at \$3.00 per hamper. Picking of tender green variety will increase slowly until Oct. 23 when with continued favorable climatic conditions bean volume should increase weekly. Both packing houses on the market expect to start moving oranges during the current week. The market anticipates regular citrus and vegetable supplies through November. The largest volume of out-of-state products during any one season moved over the Sanford market during the past summer months.

Poultry men have been seeking to develop a new grade of meat chickens by crossing them with pheasants.
 Sawdust is sometimes used as a mulch in the orchard.

FOG
 Work to fill your home of trouble-free, germ-killing, stain-removing, brightening, deodorizing, and disinfecting. You can with FOG—the amazing new safe and sure way of insect extermination.

Longwood
 By MRS. J. H. MINICK
 The Civic League held the October session Tuesday afternoon when Mrs. O. P. Herndon of Sanford, director of District No. 7, stated her duties and urged members to co-operate with her early make-up reports. Mrs. John Reams, president called for many officers of the club served attractive refreshments.
 Citizenship will be the topic of the meeting on Nov. 7. Longwood's new Garden Club met Thursday night when Miss Rose Pirch spoke on succulents and cacti, a discussion followed by members. Chrysanthemums will be the subject by Mrs. Meckley at the meeting Thursday night Oct.

IN MEMORIAM
 In loving memory of our beloved Father and Husband, Mr. George Washington, who departed this life October 9, 1949. A precious one from us has gone, a chair is vacant in the home that never will be filled.
 Mrs. Annette Doyle Washington
 Wife, Miss Annie Washington,
 Daughter, J. W. and C. Washington, Sons. Adv.

12 in Library Hall, Seth Babcock, president, presided.
 Others present were Mr. and Mrs. Thomas Pinch, Mrs. Harriett Doseh, F. J. Niemeyer, Katherine Leland, J. Henry Manick, also Mrs. Dave Livingston and John Farina.
 The Local Home Demonstration Club held the monthly session Thursday morning. The County Council met at 10:30. Mrs. C. M. Flowers of Sanford presided over the meeting. Interesting reports were made and important resolutions passed.
 Phil Westcott, horticulturist for Central Florida, held attention of the audience on plant nutrition. A covered dish luncheon followed.

THIS IS NEWSPAPERBOY DAY...

"They demonstrate at an early age their faith in the American way of life..."

THE PENNSYLVANIA RAILROAD COMPANY
 GENERAL OFFICE
 300 N. BROAD ST. PHILADELPHIA, PA.
 Today the nation salutes its youngest business men - the newspaperboys whose faithful execution of their chosen task has helped make the American people the best informed in the world.
 These boys deserve our respect and good wishes. They perform an essential community service that is too often taken for granted by the people they serve. Most important, they demonstrate eagerness to prepare their faith in the American way of life and their world of tomorrow.
 This nation grew to greatness on the philosophy of achievement through free enterprise. The principal requirements for success have been ambition, initiative, enterprise and industry. In these troubled times when so many among the old as well as the young are being confused by conflicting ideas of human values and human rights, it is most encouraging to know that each year a half million American boys are voluntarily assuming responsibility and undertaking to learn the fundamentals of the American way of doing business.
 The newspaperboys that our newspaperboys are acquiring skill, be invaluable to them in later life. They are learning to be prompt, courteous, self-reliant and dependable. They are learning the great importance of thrift. When you look them in the eye they remind you of happy younger days of your own.
 During the war years they were among the nation's foremost salesmen of War Savings Stamps and they have continued this outstanding volunteer work for their country by supporting the peacetime Savings Bonds Drive. During the last Independence Drive 192,184 newspaperboys delivered 15 million leaflets urging their customers to buy Savings Bonds. And they invest their own earnings in Savings Bonds through their Thrift Clubs and other savings programs sponsored by their newspapers, thus developing the habit of saving regularly for their independence.
 It makes us most happy to have the opportunity to extend greetings and best wishes to America's industrious young newspaperboys on this National Newspaperboy Day, 1950.
 M. W. C. [Signature]

IT MEANS SO MUCH TO KEEP IN TOUCH

"Grandma? - Mommy says come on over ... sumpin' good's cookin'!"

The nearness of loved ones... the "togetherness" of the family... how much they depend on your telephone! Because it makes it so easy to keep in touch, you might easily forget just how much the telephone means to your enjoyment, convenience and peace of mind. And the price is still low. Rates for today's expanded and improved service have gone up far less than most other things you buy. Yes, telephone service stands out as one of today's biggest bargains.

"So glad you called, darling. I'll be right over!"

Southern Bell Telephone and Telegraph Company.

The U. S. Treasury Department is proud to join Mr. Cline and the newspapers of the nation in honoring America's newspaperboys. These sincere, enterprising young men are learning to accept responsibility—learning the importance of punctuality, dependability and service in dealing with others—and they are developing the valuable character building habits of courtesy and thrift. By their conscientious performance of their important part-time job and their regular investment of their savings in U. S. Savings Bonds they are demonstrating their readiness to grow into responsible citizens of our free country.

President Plans Pacific Meeting With MacArthur

Truman To Go Direct From St. Louis To Rendezvous "Somewhere In Pacific"

WASHINGTON, Oct. 10.—(AP)—President Truman announced today he will meet this weekend with General Douglas MacArthur in the Pacific to discuss "the final phase of United Nations action in Korea."

Mr. Truman said in a statement that he will also discuss with MacArthur "other matters within his responsibility." He did not say what these were.

Mr. Truman's statement did not say where he would meet with the United Nations commander. The White House withheld an announcement on the place of the meeting. But it was presumed to be somewhere west of Hawaii.

Mr. Truman will take off from St. Louis Thursday in the White House plane, the "Independence" for Hawaii, the first step on a trip expected to last about a week.

He is going to St. Louis tomorrow to witness the installation of big sister, Miss Mary Jane Truman, as worthy grand matron of the order of the Eastern Star.

Accompanying the President to the meeting with MacArthur will be General Omar Bradley, chairman of the Joint Chiefs of Staff, W. Averell Harriman, special assistant to the President on foreign affairs; Philip C. Jessup, State Department riving ambassador-at-large, and DeLoach, Assistant Secretary of State for Far Eastern Affairs. Secretary of the Army Pace may also make the trip.

Mr. Truman will leave St. Louis at 6:00 P. M. Thursday for Fairchild-Suisun Air Force base in California between San Francisco and Sacramento.

Arriving there at 10 P. M. (Pacific Standard Time) Thursday, he will leave two hours later for Hickam Air Field base (Continued On Page Five)

Austrians May Ask United Nations To Aid In Liberation

WASHINGTON, Oct. 10.—(AP)—Dr. Karl Gruber, Austrian Foreign Minister, said today that his own people have to ask the United Nations eventually for "real liberation."

Asserting Soviet diplomacy has delayed an Austrian peace treaty which would not be the slightest "notion," the Minister told a National Press Club luncheon. "It may be conceivable that a 'domestic means' will fail," he said.

"In that case," he said, "we shall have to appeal to the United Nations to help us get rid of the intruder, and we are convinced that sooner or later the United Nations not only will have the will, but also the power to restore freedom, peace and order in a country which does belong to the most ardent adherents of the ideas of the United Nations."

"A few days ago," he said, "we had a severe test of our inner stability. The Austrian Communist Party tried to use a present economic difficulty to stage a general strike and, following this up, to cause a uprising against Austria's free and democratic institutions."

"This attempt failed completely even though the Communists got some indirect assistance from the Soviet authorities in western Austria. This certainly gave ample evidence of the unity of our population and the people's determination to defend free institutions against Communist aggression."

INJURED STUDENTS
ATLANTA, Oct. 10.—(AP)—Injured while en route to attend the Georgia Tech-Florida football game, two University of Florida students today were listed in "good" condition at Crawford W. Long Hospital.

Haywood Thomas, 23, of Bradenton, and Lee Davis, 18, of Sarasota were hurt in a smash-up near Jackson.

James W. Lott, 23, of Regester, Ga., injured in the same mishap, was in "serious" condition at the same hospital.

LSU TO APPEAL
BATON ROUGE, La., Oct. 10.—(AP)—Louisiana State University will appeal a federal court order for the admission of a negro to the LSU law school.

Tom Dutton, chairman of the board of supervisors, announced the decision to appeal last night.

The application is made to Roy Whinn of Boston, one of a dozen negroes who sought to enroll in LSU. The school has a long white supremacy record.

Tom Dutton, chairman of the board of supervisors, announced the decision to appeal last night.

The application is made to Roy Whinn of Boston, one of a dozen negroes who sought to enroll in LSU. The school has a long white supremacy record.

Reds Charge Jets Strafed Soviet Field

Gromyko Note Claims U.S. F-80 Jets Hit Air Field 62 Miles North Of Frontier

MOSCOW, Oct. 10.—(AP)—Russia charged today that two American fighter planes strafed and damaged a Soviet airfield near the key Siberian seaport of Vladivostok last Sunday.

A Russian protest note was referred to U. S. Minister, Counselor Walsworth Barbour last night by Soviet Deputy Foreign Minister Andrei Gromyko. The note placed the incident 62 miles north of the Soviet Korean border.

It demanded "strict punishment" for the "responsible personnel" and American assurances against such incidents in the future.

The note said two F-80 Shooting Star jets machinegunned an airfield in the Sukhaya Rechka area at 4:17 P. M. (local time) Sunday. Sukhaya Rechka is across Novik Bay from Vladivostok and about 18 miles southwest of that important Siberian rail and shipping terminus.

"As a result of the firing, damage was inflicted on airfield equipment," the note declared. It made no mention of casualties.

Barbour declined to accept the note on the grounds the protest was a matter for the United Nations to handle.

Gromyko disagreed, arguing that since the note dealt with the firing by American planes on a Soviet installation, it was the sole concern of the two governments involved.

The note subsequently was sent by the Russians to the U. S. Embassy, U. S. Ambassador Alan G. Kirk, who had been in bed with a cold, but there early this morning to inform the State Department of the Soviet Communism.

It was published in Moscow papers without editorial comment. "In connection with these provocative actions of the American Government," it said.

Hit And Run Driver Gives Himself Up

Christopher Sprawl, Winter Park Negro who fled the scene of an accident in Longwood Sunday night after his 1949 Dodge Coupe had crashed into the rear of a Cadillac owned by Dr. Karl Gehlert of Mt. Vernon, N.Y., appeared at 11:00 o'clock last night at the home of Harrison and gave himself up.

Now lodged in County Jail, Sprawl is charged with leaving the scene of an accident, and driving after his license had been revoked. He was not reported as injured in spite of crashing through a chicken wire fence in his haste to get away following the accident.

BACK FROM ALASKA

J. P. Stevens arrived this morning from Alaska, where he has been serving as welding superintendent for a gold mining west of the Klondike. He will spend a week here visiting his mother, Mrs. J. P. Stevens, 900 Elm Avenue, he stated.

He revealed that he had to wear plenty of clothing in Alaska, including furs, and termed the climate there very invigorating. On his return, he said, he will take the boat from Seattle to Emory, proceed to Fairbanks by dog sled, and take a plane from Fairbanks to Juneau. Flying facilities and fields are excellent in Alaska, he declared.

Jaycees, Fire Department Launch Education Program To Halt Fires

By WILLARD CUNNOLLY

The Jaycees in co-operation with Fire Chief M. N. Cleveland, and members of his department have launched a campaign this week to educate the public in fire prevention. This is National Fire Prevention Week.

It took a disastrous fire that wiped out half of the village of Sanford in 1885 to arouse the citizens as to the need of a volunteer fire department, Chief Cleveland pointed out yesterday.

While most of the citizens sadly surveyed the ruins of the business section, an active citizen, Henry Lenthall did something about it and instigated a movement to organize a volunteer fire department.

This was completed in 1888 and 60 husky volunteers were ready for any emergency. It was only natural that they should elect Mr. Lenthall as chief, a post he held until 1890, when he was

U.N. Assembly Combat Force Gains Support

Yugoslavia, Peru And Other Small Nations Add Weight To U. S. Proposal

LAKE SUCCESS, Oct. 10.—(AP)—Communist-governed Yugoslavia joined today with several other small powers in support of a seven-power plan to give the United Nations General Assembly forces to combat aggression.

While supporting the plan's aim of collective security, Yugoslav Foreign Minister Zdravko Kacardelj told the Assembly's political committee some of the resolution's provisions were vague. He reserved the right to suggest changes later. Australia, Peru and Brazil offered similar statements of support.

Kacardelj said one reason his delegation is backing the American-initiated proposal is because Yugoslavia is being subjected to pressure by the Moscow-directed Communist world for over two years.

The committee was in its second day of debate on the anti-Communist peace plan. Western diplomats waited for an elaboration of Russia's surprise acceptance of some parts of the proposal. They were skeptical of the Soviet Union's move.

It was one of Russia's startling diplomatic shifts, they said. It was the tentative embrace which Soviet Foreign Minister Andrei Y. Vishinsky gave today plan in the committee yesterday intended as the kiss of death.

A major speech by Vishinsky could clarify the situation. Referring to the Communists' threats against his country, Kacardelj said:

Yugoslavia is exposed to an aggressive pressure which cannot be the concern of the people of Yugoslavia alone. The Yugoslavians (Continued On Page Four)

Lions Club Studies Problem Of Trucks On City Streets

Members of the Lions Club today discussed the problem of trucks on the streets of Sanford.

Joe Harris, member of a Lion club, reported that he had investigated the subject, stated that he had conferred with City Manager Clifford McKibbin in an effort to have a parking lot set aside for the convenience of the trucks.

W. R. Connolly reported that the Sanford Post 63 of the American Legion is interested also in this project, which was discussed at a meeting Monday night a week ago. Al Skinner, produce merchant at the Sanford State Farmers Market, declared that nine trucking brokers are now operating here. He stated that more drivers have their way (Continued On Page Four)

Wheeler Is Injured In Auto Accident

B. F. Wheeler, owner and operator of Nelson and Co., Orlando, was injured at 4:00 o'clock yesterday afternoon in an automobile accident while motoring from Ocala to his grove near Lake Pickett in Orange County.

Mr. Wheeler, Jr., said this morning that his father had fallen asleep at the wheel of his 1949 Oldsmobile and on a curve road had run into a bridge abutment. He was taken home to two of his grove workers, Charles and Carl Carter who heard the crash and then sent to Orange Memorial Hospital, Orlando, where his condition was pronounced satisfactory this morning.

Mr. Wheeler's injuries included a broken nose, several broken ribs and face cuts. He is 72 years old and a former Seminole County Commissioner. Active in church work, he is superintendent of the Ovidio Baptist Sunday School. His business interests include the large Nelson and Co. packing house, celery farms and citrus groves.

GAINES SENTENCED

TALLAHASSEE, Oct. 10.—(AP)—W. Anthony Gaines today was sentenced to serve four years in the State Prison for embezzlement of funds from Florida A. and M. College for Negroes.

Circuit Judge Hugh Taylor sentenced Gaines, former extension director at the school, to serve four years on each of three counts of embezzlement, but the sentences will run concurrently. Gaines had previously pleaded guilty to the charges.

FARMERS AUCTION

The land for the Sanford Farmers Auction Market has been purchased and the deed recorded, County Agent C. R. Dawson, chairman of the program, announced this morning. The work of bulldozing and clearing the 14 acre tract on the Orlando Highway, one mile south of Sanford, has been started.

Plans for immediate erection of a building for conducting auctions are now being considered by a building committee, he said. Stock is being sold to the limit of \$100 to each buyer to finance the project.

South Koreans Capture Big Red Arsenal City Of Wonsan

Karl Lehmann Is Named Governor Of Kiwanis Clubs

Atlanta Editor Delivers Main Talk At District Meet

ORLANDO, Oct. 10.—(AP)—Karl Lehmann for 15 years secretary of the Lake County Chamber of Commerce, today was elected governor of Florida district, Kiwanis international, by delegates ending their 3rd annual convention here.

The 63-year-old lawyer, who headed Florida law firm sales during World War two, succeeds Leonard A. Uims of Miami.

Leahmann's term of office will be for one year.

George Koark, Jr., Warrington, division one; Ernest Menendez, Tallahassee; 2, Carl D. Selph, St. Augustine; 3, Harold M. Giffin, DeLand; 4, Henry L. Pringle, Leesburg; 5, Tom W. McEly, Tampa; 6, J. E. Giffin, Lake Wales; 7, A. E. Booth, Cocoa; 8, Joseph Vason, Ft. Lauderdale; 9, Joseph Vason, Ft. Lauderdale; 10, and John B. Cook, Southwest Miami, 11.

Delegates adopted resolutions calling for support of the juvenile court amendment on the Nov. 7 general election ballot, urging that the constitution be amended as recommended by Kiwanis international, and Florida club's support of capital improvement at the new state 411 club camp in Highlands.

Ralph Merrill, editor of the Atlanta Journal-Constitution, told Kiwanis that Americans now stand little taller in the world as a result of their action in stopping the Red drive in Korea.

"When this country decided to go into Korea," Merrill said, "most of us felt a little cleaner and freer than at last we had moved to meet this thing called Communism that came out of Russia."

He added: "But now we must realize that it's a terrible price we must pay to take this step but that the only kind of coin which can buy the freedom of Korea."

Combat Strength Entire State Is Must Be Raised, Called Critical War Target Area

General Tells Chest Workers Civilians Must Sacrifice Too

WASHINGTON, Oct. 10.—(AP)—Secretary of Defense Marshall said today that while the biggest share of the nation's armament program still lies ahead, the program itself will be completed by the end of the year.

"The national defense is now going in its military phase," the general said in a speech prepared for a rally of capital Community Chest workers.

"We are preparing to mobilize our resources on a tremendous scale to strengthen our combat potential and that of our associates. Much in fact the most remains to be done. And it will be done. I am sure."

Marshall said that the nation's strength in the days ahead will depend in large part upon the extent to which civilians match the determination of our men and women.

Wheeler Is Injured In Auto Accident

B. F. Wheeler, owner and operator of Nelson and Co., Orlando, was injured at 4:00 o'clock yesterday afternoon in an automobile accident while motoring from Ocala to his grove near Lake Pickett in Orange County.

Mr. Wheeler, Jr., said this morning that his father had fallen asleep at the wheel of his 1949 Oldsmobile and on a curve road had run into a bridge abutment. He was taken home to two of his grove workers, Charles and Carl Carter who heard the crash and then sent to Orange Memorial Hospital, Orlando, where his condition was pronounced satisfactory this morning.

Mr. Wheeler's injuries included a broken nose, several broken ribs and face cuts. He is 72 years old and a former Seminole County Commissioner. Active in church work, he is superintendent of the Ovidio Baptist Sunday School. His business interests include the large Nelson and Co. packing house, celery farms and citrus groves.

Firemen And Enginemen Appoint Committee To Fix Wage Demands

By HAROLD W. WARD

WASHINGTON, Oct. 10.—(AP)—The Brotherhood of Locomotive Firemen and Enginemen assigned to a small committee today the task of fixing a wage demand to present to the nation's railroads as part of a general pay drive.

Altogether, nearly 1,250,000 railroad workers are involved in campaigns for higher wages already under way or about to get started.

David B. Robertson, president of the Firemen and Enginemen, assigned the job of determining the amount of the demand to a six-man committee. The proposal will be passed upon by a group of 110 general union chairman called here for the purpose.

Robertson told reporters the union would never agree to a three-year moratorium on strikes and wage demands, as the AFL Switchmen's Union had done and other operating unions have been requested to do.

Korean President Decorates MacArthur

Korean Chief of Military Staff, Park Chung Hee, is pictured with General Douglas MacArthur by President Syngman Rhee at the reception at Capital Building in Seoul. The general, head of the United Nations Command in Korea, today was decorated by the Korean president for his leadership in the Korean War. He is seen here with Rhee and other Korean officials. (Continued On Page Five)

Brannan Says Reds Cannot Be Crushed By Fighting Alone

KANSAS CITY, Oct. 10.—(AP)—Charles F. Brannan, Secretary of Agriculture, said today that Communism cannot be crushed on the battlefields alone.

"We have learned by bitter experience that we must keep our eyes beyond mere military victory," he said. "We must strike at the very roots of the war and unrest, not just at the results those causes produce."

He told the delegates—rural youth from every state in the nation, Puerto Rico and Hawaii—that farmers would continue to play a vital part in the fight for a free world.

"There can be no secure peace in a hungry world," he said. "But farming makes more than just a material contribution of abundant supplies of food and fiber toward the secure and peaceful kind of world that is our goal."

Farming itself, as a way of life, can be a solid bulwark of democracy.

General Tells Chest Workers Civilians Must Sacrifice Too

WASHINGTON, Oct. 10.—(AP)—Secretary of Defense Marshall said today that while the biggest share of the nation's armament program still lies ahead, the program itself will be completed by the end of the year.

"The national defense is now going in its military phase," the general said in a speech prepared for a rally of capital Community Chest workers.

"We are preparing to mobilize our resources on a tremendous scale to strengthen our combat potential and that of our associates. Much in fact the most remains to be done. And it will be done. I am sure."

Marshall said that the nation's strength in the days ahead will depend in large part upon the extent to which civilians match the determination of our men and women.

Wheeler Is Injured In Auto Accident

Active in church work, he is superintendent of the Ovidio Baptist Sunday School. His business interests include the large Nelson and Co. packing house, celery farms and citrus groves.

First Cavalry's Advance Is Slowed To Crawl As Enemy's Pill Boxes Are Met

TOKYO, Oct. 10.—(AP)—South Koreans captured the huge Red Korean post and arsenal city of Wonsan today after smothering the heaviest opposition they have encountered since the capture of the city.

To the southwest U. S. First Cavalry foot troops ran into fierce resistance just north of 38.

The cavalry's advance with tank artillery and an support was slowed to a crawl against log pill-box positions set up before the war. This is the line the Communists insisted was for "defense" but which was used as starting blocks for the Red invasion of South Korean June 25.

Wonsan, a city of 150,000 people on the Sea of Japan coast, is the first major Communist-ruled center taken by the Republic of Korea's (ROK) liberation forces on their 10-day sally into the northern Red country.

Wonsan is about 105 miles north of 38 and 95 miles almost due east of the Communist capital, Pyongyang.

It was the center of oil refining in Korea. It also generated 16,290 kilowatts of electricity. It has one of the best natural harbors in the country. A peninsula jutting northward in Wonsan's east side was once a Japanese naval air station.

Wonsan has been Red-ruled since Communist prisoners as a place where North Korean forces hoped to make a major defense effort.

But it fell after day and night fighting, street by street, before the rapidly advancing liberators. Gunners and some heavy gun teams remained to be cleaned out before the city is secure. Allied officers thought the mop-up would be complete some time Wednesday.

This would permit a start on hauling up the harbor and captured support for use quickly. The port was reported to be in good condition and would be opened earlier in the week.

On the western side of the 120 mile battlefield, the Reds stalled the first cross-border smash of an American group about a 25 mile front near Kaesong.

At Kaesong, the Reds and other Red Korean units (Continued On Page Eight)

WHO SUPPORTS YOUR CHURCH?

NOT THE OUT-OF-TOWN STORE....

HOME TOWN PEOPLE PROVIDE ITS FUNDS

The money that makes possible the good work of your churches and charities comes from the incomes of your home-town people.

YOUR CHURCH GETS NO PART OF THE MONEY THAT GOES TO BE SPENT IN OTHER TOWNS

It is the spending done at home that stimulates business, provides payrolls, creates jobs, increases the earnings of the people.

Home-Town People

A town's wealth and beauty are great to the extent that they bring gracious living and spiritual strength to the people who call it home.

Well-supported churches, clean public service, generous backing for all projects designed to make the town a better one for family life and happiness... all these proclaim the quality of the town's men and women. They say to the world,

"Our people are the salt of the earth."

—From a Citizen's Note Book

North Koreans In Shreds, Tatters, After 5 Years Under Communists

By HAL BOYLE

NORTH KOREA—(AP)—The South Korean soldier now in the land of his Red military enemy finds North Koreans a people in shreds and tatters after five years of Communist rule.

He also finds the North Korean civilians don't act like people who are losing a war. He walks under several hurriedly raised victory arches of logs and pine boards spanning the ravines.

He comes to a small village. The Red North Koreans had used it as a checkpoint to search for noise coming from the south. But the crude log road barriers now are lifted and point skyward. The road north is clear.

A group of villagers, happy that the war is sweeping beyond them, stand by the roadside. They cheer and wave South Korean flags as the army stragglers go by. But when the crowded trucks come through they raise both hands time after time and shout "Man zai man zai!" It is the Korean equivalent of the Japanese "Banzai" victory cry.

If the stragglers were tanks that would get even louder. "Man zai" that the trucks do. For the Orient power is admitted even more than in the western world.

But on this day no tanks are going up this road.

The ROK soldier sees that after five years of Communist rule, that boasted it would help the worker, these villagers are even more ragged than the peasants of South Korea. There are weak children with open sores on their heads. There are more with ill-fitted eyes. And there are few young farmers in the fields.

They are in the fields but tending such small patches of rice as it matures, for there is hunger here.

A young girl runs out and offers a cluster of white and red wild flowers in the soldier's helmet. She hands him some chestnuts and a ripe persimmon, golden as the Indian Summer sun and not much smaller than a tennis ball.

He grins at her in wondering surprise. Then he shuffles on, dropping his dry mouth with the pulp of the persimmon.

The sun is almost down as he sees into Yangyang, the first large enemy town captured by the ROKS. The townspeople are weary of sleeping and have given away all their flowers. The edge of dawn has been dined and they do not fear any great harm from this army from the south. They are now selling their possessions

114 People Walk To Death In Year, State Patrol Says

FALLAHASSEE—(AP)—One hundred fourteen Florida people have walked themselves to death so far this year, according to the Florida Highway Patrol in outlining the objectives of its October program of traffic safety education.

Safety Director H. N. Kirkman referred to statistical studies made by the National Safety Council to support his contention that pedestrian deaths rise sharply with the increasing number of hours of darkness of September, October, and November until they reach a staggering high in December.

"The big jump in pedestrian deaths," Kirkman said, "occurs in October when these fatalities rise to about 25 per cent above the monthly average for the rest of the year."

In breaking down this figure, it is significant to find that about 7 per cent of all the pedestrians killed in October suffer this fate during the hours of darkness.

Two widespread pedestrian misconceptions were cited by the State Patrol as big factors in that group's annual night time death toll.

"The misconception that has probably led to more pedestrian deaths than any other single cause," Kirkman said, "is the pedestrian's mistaken notion that HE is as visible to speeding drivers as the headlights of the car make it to him. He fails to realize that the driver has a far more serious problem than he does in seeing him walking in the roadway until he is just a few yards away. The results can be disastrous."

Kirkman pointed out that the other major factor leading to accidents is the pedestrian's inability to judge distances and speeds accurately at night.

"The files are full of the reports of pedestrians who thought they had time to cross the street before approaching headlights were on them," he said.

The Florida Highway Patrol outlined the following safe walking rules for particular observation at night:

1. Obey all traffic signs and signals.
2. Look both ways before stepping into the street.
3. Take into account the fact that approaching cars are probably traveling much faster than they seem.
4. Remember that the driver cannot see you until practically on top of you.
5. Wear something white at night.
6. Walk facing oncoming traffic if no sidewalks are available.

Two other sleeping ROK infantry men huddled together for warmth on the porch of a hut.

He says to a sitting position on the porch. He slowly begins to lift his leaden feet. And before his little body has straightened out he is fast asleep.

Tomorrow at dawn he will be up and shuffling again up the long road that leads to stone, dusty stone, to beyond the vanishing frontier of the 38th Parallel to the Manchurian border. Only when his army is halted at that border will all Korea be united and he will be free to rest.

Eyes Sore? Tired?

Have you ever experienced eye strain, sore eyes, or tired eyes? If so, you need eye glasses. They will relieve your eyes of all strain and give you the clear, comfortable vision you need for your work and pleasure.

HEARING AID SERVICE

On Friday, Oct. 13th, all day, we will be at Miller Bldg. & Appliance, 115 South Park, Sanford, with complete hearing aid service, including batteries and cords for most instruments, custom earmolds, and repair service. Facilities will be available for making audiometer tests to determine hearing loss and for proper fitting hearing aids. This is a regular monthly service in Sanford.

We invite you to see and hear the new, very small Master Tone "Ear" hearing aid.

Malco Hearing Service, Audiphone Co. of Orlando
651 E. Park Bldg., Orlando

And Here is Another Successful Business Man Helped by HADACOL

Jacob Goldburg should have been a very happy man. At an age when most men are still struggling to make a living, he was able to retire from his Chicago metal business to his beautiful 150 acre estate at Music Mountain, near Hot Springs National Park, Ark.

But at a time when life should have showered its greatest blessings on him, he met with unhappiness. He became run down through a deficiency of Vitamins B1, B2, Niacin, and Iron and as a result food had no appeal to him and he tried many expensive ways of overcoming his discomfort.

Then he saw the blessings that inexpensive HADACOL had brought to his daughter and many of his friends, who had such deficiencies. Life is more pleasant for Mr. Goldburg today, but let him tell you about it, himself. Here is how he overcame these deficiencies:

"I was generally run down some time ago. I lost appetite and my food just did not digest. I knew I needed food but even the tastiest dishes had no appeal to me. I have been coming to Hot Springs since 1947 and now make my home in that city. Recently I just about gave up hope of feeling well and happy again. I had tried almost every thing. I decided on HADACOL because it had helped my

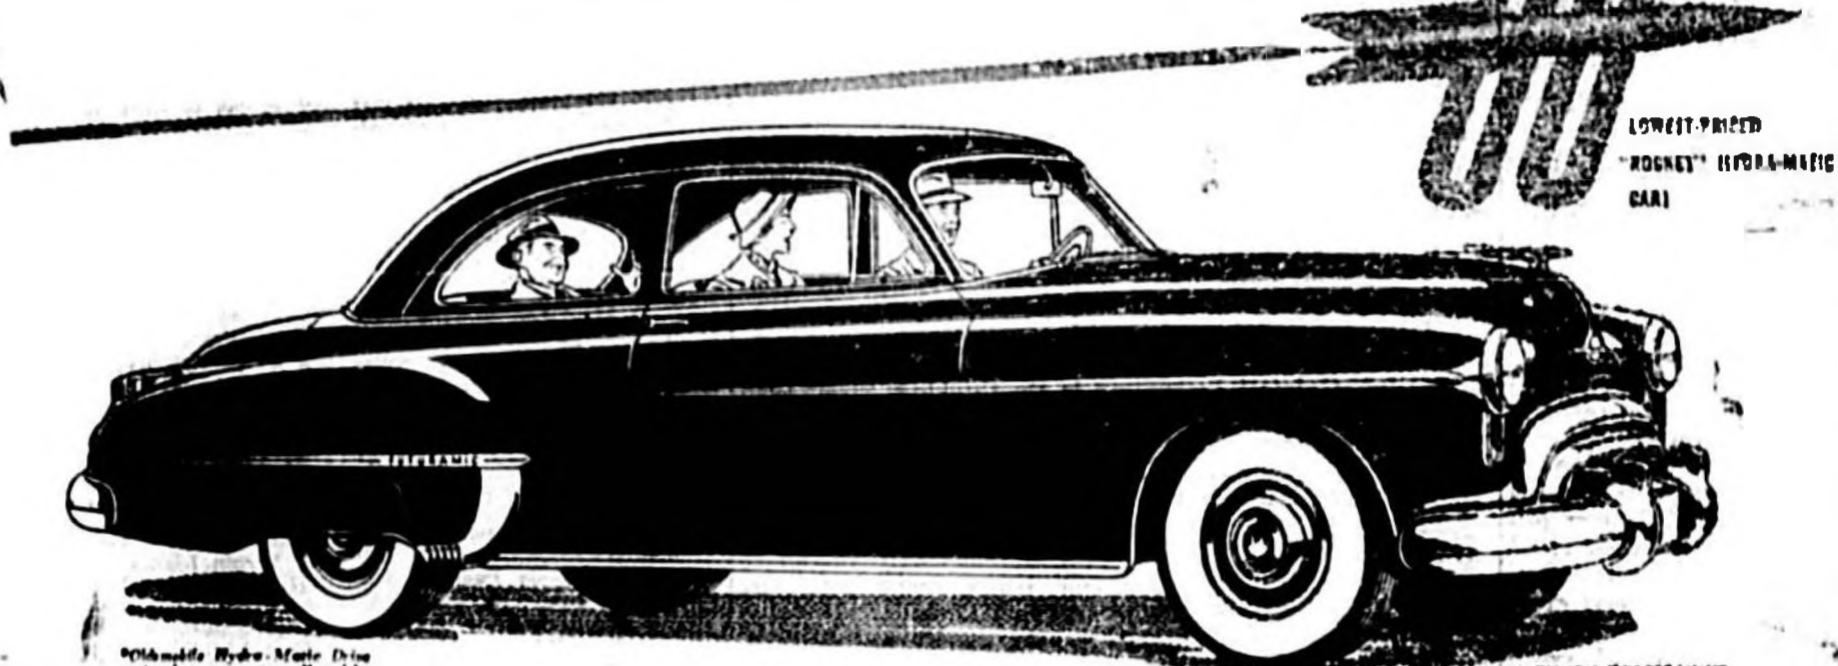

daughter and many friends. I have never regretted the decision. I am hungry all the time after taking only four bottles of HADACOL. I have back my old pep and vigor and all food agrees with me. I have recommended HADACOL to many of my friends and see the good it is doing."

Yes, HADACOL Does Help thousands and thousands of fine folks who are suffering from deficiencies of Vitamins B1, B2, Niacin, and Iron. HADACOL is wonderful in the way it builds up the hemoglobin content of your blood (when Iron is needed) to carry these precious Vitamins and Minerals to every organ, and every part of your body—to the heart, liver, kidneys and lungs. Today, even hundreds of doctors are recommending HADACOL to their patients.

You Use It To Yourself... to give HADACOL a chance. Refuse substitutes; don't let anyone tell you something else is "just as good." Insist on genuine HADACOL. You risk nothing because HADACOL is sold only on a strict money-back guarantee. You'll feel better with the first few bottles you take or your money back. Trial size only \$1.25. Large Family or Hospital size, \$3.50.

TUESDAY, OCTOBER 10, 1950 TODAY'S HIGHLIGHTS

You can't do evil and then square yourself with God by a bribe...

Get interested in something outside of yourself... said 80 year old Bernard Baruch...

Vice President Barkley is slated to make 30 speeches in 32 days in behalf of Democratic candidates...

The Supreme Court has held in effect that Senator Glen Taylor of Idaho, who broke the laws of Alabama...

The rising Negro vote has robbed the Democratic party of its "solid support"...

The allegiance of the South to the Democratic Party can no longer be taken for granted...

Sorry to learn of the death of Dr. J. H. Therrell, superintendent of the Florida State Hospital at Chattahoochee...

This is National Fire Prevention Week and a time for everyone to take a look around and see if he is trusting to luck in avoidance of disastrous fires...

One million steel workers now asking a 25 or 30 cent an hour wage increase are making on the average \$1.70 an hour...

We see where the various European nations are gearing up to ask for billions of dollars from Uncle Sam...

Education In Russia

By painting a black picture of past conditions in capitalist countries, Soviet educators make the low standard of living in the Soviet Union appear as a definite improvement...

Soviet education, for instance, compares social conditions in Great Britain around 1850 with present day conditions in Russia...

Every teacher in Russia has to devote part of every lesson—even mathematics—to the political education of his class...

This diabolical system of education is designed to turn out robots equipped with technical skill, a synthetic philosophy of life and a sense of mission as urgent as that of the early Christian missionaries...

The Solid South

Harry Truman is losing the South in the opinion of Sam Lubell, well-known political and economic writer...

The spectacular defeats of Graham and Pepper are something no Southern politician is likely to forget...

Instead of a militant labor movement the first fruits of Southern industrialism have been a rising urban middle class that is almost Republican in its thinking...

The rising Negro vote has robbed the Democratic party of its "solid support"...

The allegiance of the South to the Democratic Party can no longer be taken for granted...

Sex Criminals

"Dangerous sex criminals invariably give evidence of their tendencies in minor offenses before they commit crimes of violence"...

No woman is entirely safe from the threat of attack and molestation, cautions True Story...

- 1.) If you see a Peeping Tom or other suspicious character, report him to the police immediately. 2.) The man who shoplifts and fondles women's underwear and gloves has the earmarks of a sex fiend...

Should you find yourself face to face with an obvious molester, True Story advises you to dig your fingers in your assailant's eyes, kick your knee high aiming at the midsection, stamp down heavily on his instep and remember to use your teeth...

Lions Club

Plans were discussed for the Lion's big event of the year, the Charter night celebration of its 25th anniversary at the San Orlando Club on Oct. 27...

President Meets

(Continued From Page One) In Honolulu where he is due at 7:30 A. M. Friday, Hawaiian time...

The White House refused to say the ultimate place of meeting or give any other details except to say Mr. Truman will return to Washington Wednesday, Oct. 18...

Mr. Truman, in his statement, said that in the final phase of UN action, MacArthur's command "will be working closely with the United Nations commission which has just been created by the General Assembly..."

There were indications that the decision to make the trip came suddenly. There had been no hint in Washington that it was under consideration until about two hours before Mr. Truman's announcement...

With Congress in recess, there was little of the formal comment from political figures that usually follows major presidential announcements and actions...

Republicans in Congress have been urging for months that MacArthur be called home for consultation on Far East policy...

Soon after his return from the meeting Mr. Truman is to make a foreign policy address. Possibly one purpose of the Truman-MacArthur meeting is to review the whole Pacific situation before that address...

MacArthur and the Truman Administration have disagreed over policy towards Formosa, island stronghold of the Chinese Nationalist government...

MacArthur has taken the position that it is essential to the United States Far Pacific defense line that Formosa be kept out of unfriendly hands...

MacArthur during the summer is withdrawing a letter the General had sent to the Veterans of Foreign Wars convention in Chicago setting forth his views on Formosa...

It was understood that Mr. Truman's entire trip would be made by plane. He expects to be gone for about a week.

MacArthur has been in close contact with the White House, as well as the Pentagon and State Department, through frequent telephonic and telegraphic conferences...

It was learned that W. Averell Harriman, the President's special assistant on foreign affairs, would accompany Mr. Truman.

This suggested that international political matters, rather than military problems, would be of first concern.

The meeting will permit President Truman to get from General MacArthur a first hand account of the Korean war and MacArthur's estimate of future developments...

For MacArthur, the meeting will provide an opportunity to present personally not only his views on the specific question of Formosa but on the whole broad and policy in the Orient.

City Pool Serves 3,000 Per Month, McKibbin States

Sanford's Municipal Swimming Pool has served an average of 3,000 people per month since it opened last Jan. 28...

Mr. McKibbin pointed out that the pool has taken in a total of \$2,800 up to Sept. 1 compared to a total outlay of \$3,700. On the basis of these figures the City Manager estimated that the outlay for 1951 will be \$4,400 with an income of \$3,000.

The pool is now open on Tuesdays and Thursdays from 2:30 P. M. to 5:30 P. M.; on Saturdays from 9:00 A. M. to noon and 1:00 P. M. to 4:00 P. M.; and on Sundays from 1:00 P. M. to 6:00 P. M.

The pool is located on the bank of the river near the Mayfair Inn, has a top capacity of 246 swimmers. Six floodlights light the length of the pool for night swimming. It is 100 by 36 feet and graduates in depth from 3 to 9 feet.

States since 1948 when he visited the Virgin Islands. However, Mr. Truman has left the country several times since he assumed office in 1945. His first trip out of this country was that same year when he attended his only "big three" meeting at Potsdam, Germany.

In 1947, he visited Brazil. The Roosevelt-MacArthur meeting was at Hawaii in the summer of 1944. Their talks included also Fleet Admiral Chester Nimitz, the Pacific Navy chief, and other American military leaders.

MacArthur has been in close contact with the White House, as well as the Pentagon and State Department, through frequent telephonic and telegraphic conferences...

It was learned that W. Averell Harriman, the President's special assistant on foreign affairs, would accompany Mr. Truman.

This suggested that international political matters, rather than military problems, would be of first concern.

The meeting will permit President Truman to get from General MacArthur a first hand account of the Korean war and MacArthur's estimate of future developments...

For MacArthur, the meeting will provide an opportunity to present personally not only his views on the specific question of Formosa but on the whole broad and policy in the Orient.

United Nations

(Continued From Page One) via Government has not placed, and is not placing, this question formally before the United Nations because it does not wish to render more difficult the efforts we are making here in order to find the way to peace.

He said it was evident that states in a position similar to Yugoslavia's "can find protection and support only" in a system of international security able to counter every aggression.

"Although we fully take into account the weakness and shortcomings of the Assembly itself, the will and yearning of mankind for peace will carry more weight here among the delegations of 60 nations than in any other organ.

Reds Charge

(Continued From Page One) can Air Force, expressed in a gross violation of the U.S.R. state frontier, and in firing on a Soviet airdrome, the Soviet Government launches a resolute protest with the government of the United States," the note said.

In refusing to accept the note, the United States, and Russia submitted it to the United Nations for consideration only, not for action. It has remained shelved so far.

Korea has a long common frontier with Manchuria, China, but borders on the Soviet Union for only about 20 miles along the extreme northeastern tip of northern Korea.

On Oct. 3 the United States acknowledged that on Aug. 27 American planes fired by accident on a Communist Chinese airstrip in Antung, Manchuria—far west of the scene of the alleged violation of the Soviet frontier.

The Manchurian incident was protested by the Chinese Communist Government. Unlike the Russian note, its complaint was addressed to the U. N. Security Council rather than to the United States.

MacArthur has been in close contact with the White House, as well as the Pentagon and State Department, through frequent telephonic and telegraphic conferences...

It was learned that W. Averell Harriman, the President's special assistant on foreign affairs, would accompany Mr. Truman.

This suggested that international political matters, rather than military problems, would be of first concern.

The meeting will permit President Truman to get from General MacArthur a first hand account of the Korean war and MacArthur's estimate of future developments...

For MacArthur, the meeting will provide an opportunity to present personally not only his views on the specific question of Formosa but on the whole broad and policy in the Orient.

of the United Nations," he declared. Australian Foreign Minister Percy C. Spender suggested a conference of the five major powers on behalf of peace. He said: "Their consultations might prove futile, but at least let the attempt be made. All their representatives are here. And if there is to be a failure, let the world know with whom the responsibility lies."

Spender objected to a provision in the seven-power resolution proposing a survey of resources and armed forces of member nations. This proposal was not clearly available for U. N. use. He said it might even be dangerous.

Information obtained from peace-loving nations would be of value to a potential aggressor, he said, while a country contemplating aggression would either refuse to reveal any facts about its armed forces or give misleading accounts.

Rosa Circle will meet with Mrs.

Miss Rita St. Clair Weds James Collins

A pretty home wedding was held Sunday at 2:30 P. M. when Rita St. Clair, daughter of Mr. and Mrs. Clyde St. Clair of this city became the bride of James Collins, son of Mr. and Mrs. James A. Collins of Newton, O. Dr. J. B. Root, pastor of the Congregational Church, officiated at the ceremony which took place before the fireplace of her home, banqued with fern and white gladioluses.

The bride was lovely in an ankle length dress of aqua nylon she wore with a head band of matching aqua flowers. Her only jewelry was a string of pearls, which was a gift of the groom. She carried a bridal bouquet of white roses with showers of white satin ribbons tied with tube roses.

Robert St. Clair, brother of the bride, served as best man. The bride's mother chose a navy blue crepe with a corsage of pink carnations and sweetheart roses.

Immediately following the ceremony relatives and intimate friends gathered around the buffet, which was overlaid with a lovely cutwork linen cloth. The table was centered with a three tiered wedding cake, balanced with white tapers. Mrs. R. K. Evans aunt of the bride, presided over the punch bowl.

The couple left for their new home in Warren, O. for traveling Mrs. Collins wore a dusty rose color dress with black accessories and a corsage of white carnations and baby chrysanthemums.

Program Presented At School Auditorium

A medium sized assemblage of devotees of folk songs enjoyed the singing of Bill Monroe, WSM radio artist of "Grand Old Opry" fame, and the playing and singing of his Blue Grass boys in a program at the Seminole High School Auditorium last night sponsored by the P.T.A.

Mr. Monroe began music by singing in church work when he was a boy. As a result, most of his most popular melodies are hymns and songs of a religious nature and some of these were sung last night. He is an artist with the mandolin and last night played four part harmony on it.

Billy Brown of New Smyrna, who has recently made Columbia recordings and who has just joined the group, was repeatedly cheered by the audience. Like the rest of the group he plays his own guitar accompaniment. One of his bluest hits was the Eddie Arnold favorite, "I Never Know 'I Miss You'."

Featured in the program were Jim Martin, popular Nashville, Tenn. tenor; Joe Price, comedian, singer and bass violin player from Georgia; Red Taylor of Mississippi, fiddler; and Rudy Lyle, who straddled the show several times with his adept picking on the five string "ole Peary Shivers, comedian and harmonica artist from...

Next time you make Waldorf salad, add a little prepared horseradish to the salad dressing that goes over the apples and celery.

Personals

Mr. and Mrs. L. H. Harvey returned after spending the last three weeks in Carolinas, Georgia and Tennessee.

Mrs. Jean Huffer and Miss Rebecca McBride spent the weekend at New Smyrna Beach.

Mr. and Mrs. J. C. Mitchell spent the weekend at the guests of Mr. and Mrs. Tom Kirkland in Orlando.

Mr. and Mrs. Myron F. Smith are confined in the Thornton Minor Hospital in Kansas City, Mo. where they have undergone surgery. They are reported to be recuperating as well as could be expected and will remain in the hospital two or three weeks longer.

Seminole Hi

I don't know there'll be much variety around SHS this week with the exams coming up. Everyone has been piled with homework and having that they're going to really study this time! We mean all right anyhow.

Too bad about losing the game last Friday night to Deland. Just like Kenneth Gano said "How they were big!" We were in there, too. Anyway... The dance was lots of fun even though the juke broke once. It was fixed soon and everybody was dancing again. Joe Saunders made a date at eight with Buddy Corley. Edwin Tyson took his cute little Sophomore and Mrs. Whitaker walked around with that dakin' senior she dates on of tent I never see Tommy Sher's house dances... I know he likes girls.

Have you heard Roger Harris' latest joke? "It seems a fat-tot look his daughter driving one Sunday afternoon. While they were rolling merrily along in their horse and buggy they were held up by a bandit. Quickly the father exclaimed, "Daughter, put your diamonds on!" "I did and the robber escaped with their money, earrings and jewels but the bracelet was safe. As they walked along the father said, "Too bad we didn't bring your mother. We could have saved the horse and buggy also."

Mr. Harris said it took him five minutes to...

The bulletin boards look real cute advertising the football games. Especially that one of the mascot. You'll keep that good work up, now.

Dial Boy is president of the "Salle" this year. Know it'll be another fine edition... The Debaters went to Winter Park Friday and Saturday and had more fun... They learned a lot too... Mr. Wells, a literature teacher that you all know, was their instructor... they're going to Tallahassee next weekend!

Don't forget to make plans for the football game this week. We play Ocala and we've just got to win! The last home game until Oct. 27, so grab a date and snap on out...

You girls who can't understand that cute little boy that has the sweetest brown eyes read what Alan Beck says: Boys come in assorted sizes, weights, and color. They are found everywhere—on top of, underneath, inside of, climbing on, swinging from, running around, or jumping to. Mothers love them, little girls hate them, older sisters and brothers tolerate them, adults ignore them, and Heaven protects them. They have the appetite of a horse and the disposition of a sword swallower. A boy is Teath with dirt on its face. Wisdom with chewing-pum in it. Hair, and the hope of the future with a frog in its pocket. He seizes ya...

Wesley Daughters Have Annual Supper

The annual supper of the Daughters of Wesley Sunday School, under the First Methodist Church was held on Tuesday evening at McKinley Hall, with 42 members and guests present.

Throughout the large room were yellow hibiscus and coral vine arranged by the hostesses, Mrs. Fletcher Bolla, Mrs. Roy Tills, Mrs. W. E. Raines, Mrs. J. R. Anderson, Mrs. P. A. Rowland and Mrs. Robert Fretwell.

The invocation was pronounced by the Rev. J. E. McKinley. Following the supper, Mrs. M. E. Strickland, president, presided, conducted the business session and yearly reports were given by the various chairmen. Mrs. Claude Herndon reported that she has sent 75 cards, 15 bouquets, five plants, a basket of mixed fruit, four gifts and has made 49 visits during the year.

Mrs. Roy Tills, treasurer, stated that \$419.68 has been given to the building fund of the church. And an ice box, hot water heater, tables and dishes, has been purchased. Mrs. McKinley Hall at present the class is buying chairs to be used in the recreational room.

A card was signed by all present to be mailed to Mrs. and Mrs. L. M. Tynd, who are ill at Mayo Brothers Hospital.

Officers and chairmen who will serve for the coming year are as follows: president, Mrs. M. E. Strickland; vice-president, Mrs. M. L. Wright; secretary, Mrs. W. Zeh Ratliff; treasurer, Mrs. W. E. Raines; reporter, Mrs. M. J. Tills; teacher, Mrs. S. D. Shiner; assistant, Miss Ruth Hand, courtesy chairman, Mrs. Claude Herndon; publicity, Mrs. C. M. Flowers; contact chairman, Mrs. R. H. Monroe; and devotional chairman, Mrs. J. C. Davis.

Those present were Mrs. J. C. Davis, Miss Ruth Hand, Mrs. M. E. Strickland, Mrs. M. L. Wright, Mrs. P. A. Rowland, Mrs. Fletcher Bolla, Mrs. O. E. White, Mrs. Tills, Mrs. Clark Leonard, Mrs. E. H. Laney, Mrs. H. A. Fretwell, Mrs. C. M. Flowers, Mrs. H. A. Price, Mrs. S. O. Shubert, Mrs. J. H. Anderson, Mrs. Ben Monroe, Rev. and Mrs. McKinley, Mrs. J. R. Anderson, Mrs. L. M. Stall, Mrs. Caroline Hill, Mrs. Mary Fattish, Pauline Howard, Mrs. J. P. Thompson, Mrs. R. E. Davis, Mrs. W. A. Hunter, Mrs. F. B. Byrd, Mrs. G. Laney, Mrs. John M. Gillon, Mrs. J. E. Courrier, Mrs. Ruth Lundquist, Allice Chapman, Mrs. L. H. Boyette, Verne Woodcock, Beanie Zachary, Allable E. Kirchhoff, Mrs. A. D. Zachary, Mrs. Claude Herndon, Mrs. Zeh Ratliff, Mrs. Rupert Strickland and Mrs. W. E. Raines.

Mr. John Schirard Speaks At PTA Meet

Mrs. John Schirard talked on "Aspects of a Good Home" at the first meeting of the year of the West Side Primary School P.T.A. on Thursday afternoon.

She was introduced by Mrs. Sid Vilben, program chairman. Mrs. D. S. Winford, the newly elected president, presided. Mrs. G. L. Pittard offered the devotional and Mrs. P. A. Rowland read the minutes.

Besides the Halloween Carnival which is going to be a western style, there will be a western show on Oct. 30 at the school. Mrs. St. John was elected to go to the State Convention at Pensacola.

The second and fourth grades won the attendance prize. About fifty persons attended the meeting. The teacher and officers acted as hostesses for the social hour.

HAPPY BIRTHDAY

Happy Birthday to Anne Wright Aiken
Hollywood
by BOB THOMAS

HOLLYWOOD, Oct. 10.—The story Sam couldn't show up. He's not very reliable, you know. Probably out on a case.

This was Howard Duff last night at Sam Spade, the radio show. Duff has been playing on the air for a long time. He's a real actor without Sam from whom he quit company three weeks ago. The program was yanked off the air because it was "too simple." Duff explained. The sponsor wanted a "cheaper show."

But what seemed like a great cancellation of an air show has created something of a furore. Duff is reportedly being paid with a view of letters in protest of his late friend Spade. "NBC" officers here have positive protest letters against the network not set out of control.

NBC which has no further connection with the show is reportedly being asked what to do with the network was to be set up by various members of the Howard Duff Fan Club which is on a picket protest at the studio after Sam Spade was cancelled.

All this amazes and no doubt delights Duff, who confesses an affection for his late friend Spade. "I'd hate to see the old boy die off forever," he remarked. "After all we've been together four and a half years without a vacation summer layoff. You can't grow fond of a person in that time."

Not to mention the mood which the weekly show brought in. And Duff can credit Spade for bringing him to film fame. He was once an average free lance radio actor who tried out for the show. He is in his surprise, he landed the role.

The program was presented by Mrs. P. R. Stephenson, director. She was assisted by parents and friends of the children to come. The junior choir will sing special numbers.

Miss Lucille Campbell will also exhibit her famous doll collection Mrs. Stephenson said.

ven protests them. They have the appetite of a horse and the disposition of a sword swallower. A boy is Teath with dirt on its face. Wisdom with chewing-pum in it. Hair, and the hope of the future with a frog in its pocket. He seizes ya...

Fine Prevention

Investment from Fire Insurance of their enthusiasm by organizing "Kid Companies", from which the volunteers and reserves were drawn.

In 1934 the "let's wait and see" members of the City Council were outvoted, and Chief P. P. Morris was granted authority to purchase an up-to-the-minute book and folder, enabling Sanford to have at least having one of the most modern fire departments in the entire south.

As an inducement to stir up hot competition among the fire teams, first, second and third prizes of cash were offered to the three teams that arrived first at a fire. This excitement resulted in a peak activity on New Year's Day, when various contests were staged between the companies, and the whole town and countryside turned out to witness the events. The day was climaxed by a big feast which was enjoyed by the department members, along with prominent citizens.

The State Volunteer Firemen's Association was born, said Chief Cleveland, "and in state competition Sanford won more prizes than all other members combined. The Association was composed of all towns in the State south of Fernandina and Ocala to Key West."

In 1908 Chief Pappasotti resigned and was succeeded by Chief Hockstein, who after a short regime, was succeeded by George Davis. In quick succession came Chiefs Tom Brotherhood, C. M. Hand and W. H. Underwood.

Chief Paxton came in 1912, and this, said Chief Cleveland, marked the dawn of a new day in fire protection as now the City of Sanford is protected by a professional fire fighter, with a paid fire department.

On Jan. 3, 1911, the City of Sanford had purchased the first American LaFrance motor equipment, and Sanford was now in a position to compete with the metropolitan cities of the country in helping to protect citizens and property and to control fire incursions.

Chief Cleveland, after coming here from Georgia, found the department Oct. 21, 1920. He was made chief May 15, 1926.

The air with Spade, but he has 400,000 in the TV offers and many another top show is in the air.

"Any sponsor who buys Sam with the TV rights, too," he said. "I can't get that down to a weekly TV show and he's getting it. That would interfere with the deal."

Also there is a local case. Walter Brothers has sued to stop the air show. Sam Spade is the character Humphrey Bogart played in "The Maltese Falcon" and the studio claims it owns all rights. The case has not yet been settled.

Sam has been the most successful private eye on the air and he offered his theory: "I think it's because Sam doesn't talk himself seriously. He can always see the humor in a situation."

"Still, he can be tough when he needs to be. He's a man of extremes. When he's in a mood he's higher than anyone. He's got his low there's a public mood. "Ah, I'll miss him," sighed Duff and I thought I saw a tear drop into his cup of black coffee.

Duff said he hoped to return to the weekly show brought in. And Duff can credit Spade for bringing him to film fame. He was once an average free lance radio actor who tried out for the show. He is in his surprise, he landed the role.

The program was presented by Mrs. P. R. Stephenson, director. She was assisted by parents and friends of the children to come. The junior choir will sing special numbers.

Miss Lucille Campbell will also exhibit her famous doll collection Mrs. Stephenson said.

Hurricanes Meet Mighty Purdue In Vengeful Temper

Remark By Villanova Coach Fires Team With Will To Win

CORAL GABLES, Oct. 16.—(Special)—Should the University of Miami football Hurricanes line up to stage another of the major upsets of the 1950 football season by smiting Purdue University in Lafayette, Ind., Oct. 17, an upset might be chalked up for Jim Foss, head coach of the Villanova Wildcats.

After last week's thriller in which a tough Miami defensive line held a powerhouse Villanova offensive attack under the yoke on a field soaked by four days of rain while their own lighter backs raced for nearly 200 as Miami looked to the Wildcats 18-12, Coach Foss told a Miami newspaper man that "Purdue will run away with Miami if it wishes."

Jim might have made his remark on the spur of the moment after losing a game which he very much wanted to win and probably did mean if the way it unfolded at the Villanova road test the stage may be the spur the Villanova Miami football club needs to needs it into a proper performance.

Purdue edged Miami 17-13 in the Orange Bowl last week and the second half by a Miami team previously regarded as being the "hot" team with a 10-0 record. Miami's 1949 sophomores are seasoned veterans now and they've played before crowd-laden stadiums the one they expect to entertain in Lafayette. In each of their first two games, they've scored three touchdowns with their offense definitely aided more by a defense to be cautious to be-foully-remembered and, against Villanova, by most un-Miami-like weather conditions.

Coach Andy Gustafson, former Army backfield star turned head coach, never had a pushover on his hands in his entire coaching career and the 1950 Hurricane eleven looks like his best team. The Hurricanes are not overly deep on material but having an untoward accident, they'll do.

Miami's defensive line has been the exception to the rule. In two games, they've held the enemy back, taking a 27-27 per push in two games while the enemy has managed to advance the ball only 117 yards in two games.

Joe Martin, Miami's sensational junior end, is getting his Miami defense line includes only one senior, Co-Captain Pete Mastellone, a brilliant backer up.

The offense has peaked up behind the able coaching of Coach "Boss" Jack Hackett, an executive and passer, all 114 pounds of him, plus halfbacks Frank Smith and Mike Vachon, top pair in Miami history.

Feds Meet DeLand Bulldogs B Team Tomorrow Night

The Seminole High School junior varsity Cefey Feds will play host to the "B" squad Bulldogs from DeLand tomorrow night at the high school field. Kick-off time is slated for 7:30 P. M.

The Feds, defeated by the "B" squad Sandcrabs from Daytona last week will be out to uphold two victories over the Bulldogs last year.

The small and inexperienced Feds displayed possibilities last week against the Sandcrabs and should be fairly well matched with the Bulldogs tomorrow night.

Backs—Joe Hutchison and Gene Estridge, two of the Feds' most promising players, turned in good jobs in the Crab game and will be in the starting line-up tomorrow night.

The Bulldogs, reported as being at full strength, are rated as a tough team with some good prospects and are journeying to the Cefey City with hopes of revenging the defeat of last year.

The starting line-up for the Feds will be as follows:
Ends—Wright, Henderson.
Tackles—Brooks, Morris.
Guards—Skates, Howell.
Center—Fleisher.
Backs—Hutchison, Rinkavage, Estridge and Hardy.

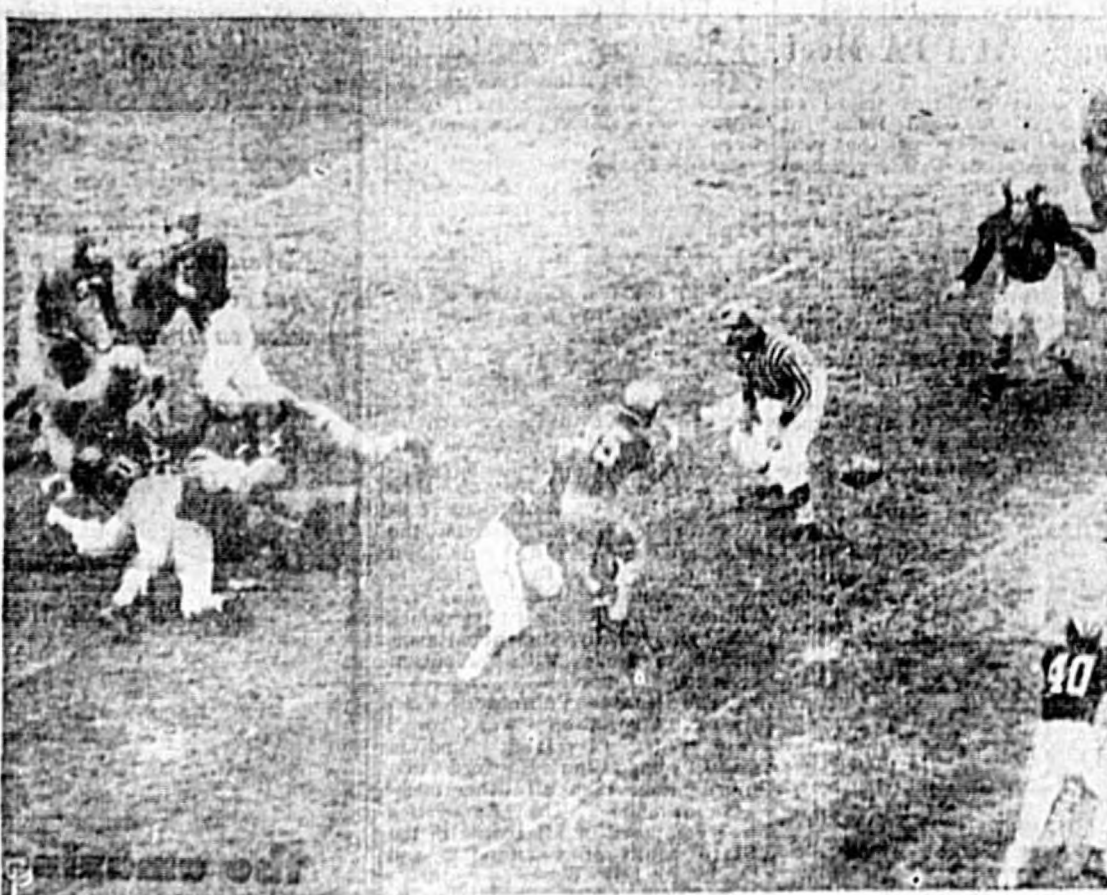

Helen, Gene Tucker Advance To Finals

Helen and Gene Tucker gained the final Saturday afternoon in the initial doubles of the City Tennis tournament, for which Rotary is donating a trophy, by defeating Martha Wight and Jim Higgins, 6-2, 6-6, and 6-2. Ellen Davis and Clay Williams are the other finalists.

No date has yet been set for the final matches, but this will probably take place during the latter part of the week. Mrs. F. M. Gingles, City recreation director, who has charge of the matches, announced this morning.

Pink Pitcher Ed Ford Passes Army Physical

NEW YORK, Oct. 16.—(AP)—Ed Ford, pink pitcher who won the World Series—clinging game New York Yankees last season, underwent a physical examination today for Army ser-

In one of the biggest upsets in recent football history, Notre Dame lost to Purdue at South Bend, Ind. This action scene, at a crucial moment in the game, shows Jim Matlack (left), of the Irish team, missing one of the many shovel passes attempted during the game. Interference played an important part in the Purdue victory of 25-14. It broke a winning streak of 39 games. (International Soundphoto)

California Bears Meet Trojans In West's Top Game

LOS ANGELES, Oct. 16.—(AP)—With no injured players to the first three teams, the defending champion California Bears will be in the best shape of the season Saturday when they meet USC's Trojans in Memorial stadium.

That was the advice given before the Southern California football writers meeting yesterday by publisher Norrie West, CAL's publicity man for the Pacific Coast Conference's No. 1 attraction this week.

West's evaluation was exceeded only by the discomfort of USC coach Jeff Cravath. Even if USC would probably lose anyway.

"Our offensive punch seems to have been pretty good against Pennsylvania," West admitted, "on the ground, that is. We don't have a passing attack, but I imagine Coach Waldorf will concentrate on this during the week."

Asked if he could stop the explosive California play, Jim Monachino, Johnny Olewiski, Cravath replied:

"I can stop it easy—if Pappy Waldorf promises not to come down the middle."

Washington State came "down the middle" last Saturday, but the Trojans escaped with a 20-20 stand-off. Other comments at the luncheon:

Doug Mills, athletic director, University of Illinois—"It's nice to be playing UCLA out here again, particularly since we've welcome this time." The Illinois last appearance here was in the 1947 Rose bowl game, for which public sentiment strongly favored Army, Illinois and UCLA clash Friday night.

UCLA Coach Henry (Red) Sanders—"Washington has a fine offense, but whether it's line can hold up or not, I don't know. I don't think Washington will go through the conference season undefeated."

Jordan Oliver, whose Loyola Lions dumped St. Mary's 41-0, was the only winning coach present. Said he: "This week we play San Jose. That'll be the second toughest on our schedule according to our scouts reports. College of the Pacific will be the toughest."

Sports Roundup

When the football giants were facing the Cleveland Browns last week, the thing burning a hole in Paul Brown's pocket was a letter from a fan who said he would attend another Brown game until a "real competition" was offered. Jim Hurd, coach of the New York World Telegram and Sun suggests nick-naming Brown the "Digger" after the name given excavator, Brown's Washington team really has been laying the opposition.

Pappy Wasi Happy After Washington and Lee's footballers had handed West Virginia a 26-7 licking, Art (Happy) Lewis, the West Virginia coach, went to Lynchburg, Va., hospital to visit his injured full-back, John Murphy. . . athletic director Legs Hasley, a foot-mooving guy, and other athletic staff members already had been there. . . Lewis asked if he could see Murphy and got this reply: "Yes, you may see him. The coach already has been here." . . Murphy's doctor grinned and told Art: "West Virginia sure works fast in getting a new coach."

Don Coleman, Michigan State's fine tackle, reported "overweight" at 184 pounds this fall. He played at 174 last season and is five pounds heavier now that he's in shape again. . . and Tom Tietelman, Marquette center, is an active member of the Chicago Board of Trade. . . Sometimes umpires do admit they "blow" a decision. In a television interview during the 1950 World Series, Harry Geisel, former American League ump, admitted that he called one wrong during the 1929 Series. While Buster Sherry, Holy Cross baseball coach, is tutoring GIs in Germany, assistant Bobby Curran is getting the Crusaders ready to open the season.

Cleaning the tuff Unusual sight at the World Series was tall Johnny Bulla, the golf pro, snapping pictures of the ball players in batting practice. . . Michigan alumni took 20,000 tickets for the Army game at Yankee Stadium this Saturday and the Big Ten alumni group took 10,000 more. After the game (which was Bob Satterfield in Buffalo recently, he came into the dressing room and asked trainer Teddy Bentham, "How much money have you got? . . . Teddy counted what was in his

Ezzard Charles To Be "Fighting" Champ

NEW YORK, Oct. 16.—(AP)—Ezzard Charles is going to be a "fighting" champion, just like Joe Louis was.

So said the heavyweight champion's manager, Jake Mintz.

"We would like to have him fight once a month, if possible," said Mintz. "We are still dickering for another fight with Freddie Bechler in Cincinnati late in November. After that we want to take Ez around the country and show the fans what a great champion he is."

pockets and found 17 cents. . . "Let me have it," said Lee. "Let it never be said that Lee Oun fought for nothing."

Woodruff Praises Gator's Spirit In Georgia Tech Loss

GAINESVILLE, Oct. 16.—(AP)—Blue Monday for Florida's Gators showed up as a rather cheerful smile of blue yesterday as the squad drilled for its homecoming clash with the Auburn Tigers here Saturday afternoon.

Praised by Coach Bob Woodruff for the fight they put up before losing to Georgia Tech last week on a last-minute field goal, the Gators apparently were in the mood to put away the loss in the hooks and tackle down for a good win over Auburn.

Because of the Tigers' three straight losses in a row, Woodruff said, the Gators' morale was high. He said the squad drilled for a week before the game. However, that doesn't make him and his staff work all the harder for the game.

To avoid a possible upset, he concentrated on groundable, reliable plays. For example, Mike Kelle and Bob Knight, who were injured in the Tech game, Kelly suffered a shoulder sprain and a foot, a looking one. Trainer Sam Lusk would not predict when either would be ready for action again.

The team viewed Monday of the Tech game immediately after their arrival in Gainesville Sunday and a "lighting" session. To counter the mistakes the sharp eye of the camera revealed.

Much of the practice session was devoted to setting up defenses against pass patterns manned by freshman Coach Hill DeLaatollos, who coached the Tigers in their only loss to Southeast Louisiana Saturday.

Wildlife Institute Urges Refuge Be Established To Save Key Deer

WASHINGTON, Oct. 16.—(AP)—The Wildlife Management Institute is urging prompt acquisition of land for a federal refuge to save Florida's tiny Key deer.

A bill to provide a refuge for the deer in the Florida Keys passed the House but was objected to in the Senate because no specific amount for land purchase was designated.

However, supporters of the bill including its author, Rep. Bennett (D-Fla.), plan to make the change and present the bill to the Senate after the bill adjustment.

The Wildlife Institute said in a report that protection of the deer themselves and their habitat is badly needed at this time.

Both could be effected by the creation of a refuge at a cost of about 100,000, the agency said. Maintenance and development of the area would be "relatively inexpensive and simple," the report added.

Aside from protection from poachers, about all the deer require is a supply of fresh water and enough suitable shrubs and trees to provide food and cover.

Bennett's bill calls for the acquisition of 6000 acres of land on several of the Florida Keys and for the purchase of land on several adjoining islands.

The Wildlife Service estimates that only one permanent employee would be needed to handle patrol, fire protection and maintenance of the habitat on the refuge after the land has been purchased.

The report continued: Although illegal hunting presents the most immediate danger to the 30 to 40 members of the species which survive, the potential settlement and development of the habitable range of the deer are viewed by tourists.

"Once this happens the price of the land, which is already high, would become prohibitive, and hotels, dining stations, and cafes would crowd the deer into the sea."

The agency said it felt that the small herd could be built up to a safe 200 head within a relatively short time if Congress will give it the land with which to do so.

"As recent developments spread southward toward the limited range of the Key deer, the job of preserving the species will become more and more difficult and more and more costly. If the deer is to be preserved, action must be taken swiftly. Two years from now, or even next year, may be too late."

Betsy Rawls Wins Medal Honors In Texas Tournament

FORT WORTH, Tex., Oct. 16.—(AP)—Match play opened today in the Women's Texas Open Golf Tournament here with Betsy Rawls leading the way at the River Crest Country Club.

The Austin, Tex., golfer captured medal honors yesterday with a 60.

A stroke behind was Louise Suggs of Carrollton, Ga. defending champion Beverly Hanson of Fargo, N. D., and India Calif. and pro Betty Jamieson of San Antonio card 71.

Amateur Bee McWane of Birmingham, Ala., had a 73.

revelation when they returned to San Antonio to receive a hero's welcome.

They said Lou Slesler, a pitcher serving as first base coach, noted that the position in which Fernandez held his mitt tipped off whether a fast ball or a curve was upcoming from the mound.

So the San Antonio players knew what was coming and acted accordingly.

Signal Stealers Aid Texans In Series Win

SAN ANTONIO, Tex., Oct. 16.—(AP)—The San Antonio Missions literally "stole" the Dixie Series from Nashville.

The Missions' ability to steal catcher Eddie Fernandez' signals to the Nashville pitchers helped the Texas leaguers sweep those last three games when San Antonio came from far behind to win the Series.

San Antonio players made the revelation when they returned to San Antonio to receive a hero's welcome.

Looking for POWER?

Better Buy Buick!

That bold bonnet that stretches out before your eyes on a 1950 Buick isn't there just for show. Lift it up, and you'll find that the space beneath is abundantly occupied, by one of the biggest hoodfuls of power you'll find in any motorcar.

What you're looking at is Buick's modern version of the high-compression valve-in-head engine, which gains extra wallop from the fact that it uses the exclusive Fireball combustion principle.

We could list a lot of mechanical reasons why fuel gives up extra power in a Fireball engine—how it's wrapped in a swilling, ball-shaped charge—how it burns with a smooth, clean thrust that delivers maximum thrust.

But the best way to find out what all this means is to touch off the eager horsepower out on the highway by a gentle nudge of your toe—and feel your shoulders press deep in the cushions behind them.

Now all this sounds thrilling, you say, but how about the feed-bills for all these horses? How about miles-per-gallon?

The practical answer to that one is found in this year's experience with the SUPER and SPECIAL—and even the ROADMASTER.

In all three, the horsepower was stepped up at the start of the year—and in all three, happy owners report the best mileage in modern Buick experience.

This is due to a little-known but authentic engineering fact—which is that an engine burns less gas when it doesn't have to labor. At any normal driving speed, therefore, extra power is extra thrifty.

So we say again—if you're looking for power—mighty power—buoyant power—silken power—thrifty power—better buy Buick.

Your Buick dealer is eager for the chance to demonstrate how sound this hint really is.

Only BUICK has Dynamic Drive® and with it gives you more compression and with it gives you more torque. Freshball valve-in-head engine in Buick engine. (New F-263 engine in SUPER models.) SUPER PATTERN SITTING, with MULTI-SHAFT fuel pump, less wear-through longer for longer life. SIZE, less wear-through longer for longer life. STRENGTH, about 1000 lbs. extra weight. SEATS, from all-steel springs. SAFETY, 200 lbs. extra weight. ROADMASTER, without all-steel seats and on SUPER and SPECIAL models.

THE HENRY J. TAYLOR, INC. National, every Monday evening. YOU TRY TO DRIVE BUICK.

36 Service Men's Families Helped, Red Cross Reports

Families of 36 active servicemen, 55 veterans and 35 civilian dependents have been given aid by the American Red Cross, Seminole Chapter since June 1, Mrs. Joseph Gonzalez, secretary, announced today.

Financial assistance has been given to seven families of active servicemen. These families included 40 dependents. In all, more than 151 persons have been given service information since June 1, she declared.

Queries are continually being received from servicemen such as "I am needed at home and I haven't the money to get there. What will I do?"

"If I'm in the hospital and the doctor wants my wife to visit me, who can help here make the arrangements?" is another type of inquiry commonly received, she said. Wives write, stating that allotments have not come through and inquiring what to do about the rent and the milk bill for the kids. Servicemen bring personal problems.

Cases have come up where families were unable to get word from servicemen in Korea, she pointed out, and the Red Cross has succeeded in establishing communication.

A typical local case was that of a soldier who was sent overseas and whose wife came here to stay. He worried about her not getting her allotment for which he had filed application in July. Pending the receipt of the allotment this month she was granted a loan by the Red Cross, said Mrs. Gonzalez.

Another family whose allotment was held up was given financial assistance. A disabled veteran was given a loan pending the first receipt of his pension for disability.

Local disasters brought assistance. One case was that of a family all of whose clothing had been destroyed by fire. These were aided by the Red Cross with donated clothing. A veteran was ill in the hospital, and his family was given

Williams were instructed to study this problem, particularly on Second Street.

Following a study that revealed that termite were "hard at work" on the City Hall and Library, a contract of \$880 was issued to the Walker Chemical Extermination Co., Orlando, to eliminate the pests.

In order to put the Ninth Street Ball Park at French Avenue into better condition for junior league teams, additional clay was ordered for both the infield and outfield and the Commission ordered the rebuilding of the park.

An ordinance covering the demolition or repair of unsafe buildings was given its first reading. This was contained in the provisions of the old Southern Building Code, and will be included in the new code recently adopted.

S. A. Allen was given a renewal on his bus franchise. He told the Commission that he will place three buses in operation in November with routes including the Municipal Airport, Melonville Avenue, Goldsboro, Midway and Canaan City. At present a station wagon is operated to and from the airport.

The resignation of Frank Shames as a member of the Board of Bond Trustees was accepted with regret. Mr. Shames work with Florida Fashions has made it necessary for him to move to New York.

W. F. Duggan, operator of a traveling animal show which includes an elephant, requested the Commission to allow him to place some of his animals at the Zoo for the winter on condition that the City feed the animals, and asked that he be allowed to store the cart in the Municipal warehouse on the waterfront. Due to the expense of feeding such animals as elephants, and the fact that the City is using the warehouse, the offer was rejected, said Mr. McKibbin.

Mayor Carraway urged the Commissioners to attend the meeting of the Florida League of Municipalities at Lakeland, Nov. 12-14.

Danger Areas
(Continued From Page One)

to do so, and hit the rural areas. Also, rural areas must furnish mutual support to the metropolitan areas. No community can withstand a major disaster without help.

"This office is without authority to release specific information pertaining to what is considered a critical area or a priority target. To do so would merely confirm to a potential enemy what he already suspects. People living in such areas would not appreciate this. While lucrative targets for an atomic attack may be considered by various means of attack to any military planner.

"To be effective our civil defense planning in Florida must consider all of the manpower and resources in the state. The participation and cooperation of all communities and communities urban or rural, regardless of size are vital to the plan and the ultimate overall effect upon a war effort. This office is operating on this premise."

hope of peace in the world is in the coin of men's lives in Korea. I have met but few men who have said they are not glad that America took the stand she did."

He urged Kiwanians to make their communities so clean that the Russian propaganda machine putting out lies about America "falls of its own weight and that people all over the world will find that America is not made up of Hollywood love nests, zany and corruption but is a country of fine churches, schools and of fine families and children."

Winner of club achievement plaques for the past year were: Orlando, said division for largest club in the district, with West Palm Beach, runner-up; Clearwater, silver division, with Bradenton runner-up; Lake Wales, orange division winner, with Mulberry, runner-up; Fernandina, blue division winner, with Wauchula runner-up; and Umattilla, white division, with Palma Ceia of Tampa, runner-up. Northside Miami club won the convention attendance cup.

Group winners in club bulletin competition were Boca Ciega, group one; East, group two; and Orlando, group three; and Clearwater, group three.

Railroad Labor
(Continued From Page One)

That would make it possible to start in at once to consider the new demand, along with the pending request for a 40 hour week with 48 hours pay for 50,000 members in yard service. That proposal has been pending since last spring, Robertson said.

"If the yard service employees' pay demand is not met in any settlement reached for them, Robertson said, it will be incorporated in the general movement for the approximately 80,000 workers on the rolling trains.

The Firmen and Engineers will cooperate with the Trainmen and Conductors in a common wage movement, Robertson said. The Trainmen's demand probably will be developed at a convention now under way in Miami Beach.

The Brotherhood of Locomotive Engineers, headed by J. P. Fields, is already negotiating with railroad representatives for a 20 per cent pay increase for all members, plus minimum assignments of five days' work and guaranteed mileage for those in passenger and freight service.

Tomorrow 15 unions represent critical area for effective planning. It's geography, coastline and beaches, terrain, climate, and resources make it an inviting target by various means of attack to any military planner.

"To be effective our civil defense planning in Florida must consider all of the manpower and resources in the state. The participation and cooperation of all communities and communities urban or rural, regardless of size are vital to the plan and the ultimate overall effect upon a war effort. This office is operating on this premise."

"Buddy System" Is Used To Integrate Koreans And G. I.'s

TOKYO, Oct. 10.—(AP)—Bobo Moe, Casey and Alabam are doing all right for themselves under the U.S. Army's buddy system in the Korean fighting.

They are four of thousands of South Korean volunteers who have been integrated into American Army units.

Names were perhaps the biggest stumbling block when the program began last July. Veteran American sergeant found their South Korean unit overflowing with Kim and Lees—the Smiths and Joneses of Korea.

A point brush and a little imagination cleared up the situation in a hurry. On each South Korean helmet was a painted official nickname assigned by his American buddy.

Combat Forces
(Continued From Page One)

"All over the world democracy is being forced to prove that it is the best way of life," he said.

"The example we set here at home by our own sense of civic responsibility is the best way to demonstrate the virtues of democracy to the peoples of other lands."

"Let us prove that we here in this country know how to make good use of freedom by doing freely what others are compelled to do."

"So long as we in this nation keep our high regard for the sanctity and dignity of the individual, we can be sure that our democracy is a living institution that will stand up in the face of emergency or trial."

Marshall called upon all communities to devote the same attention to the welfare of servicemen as he said they did during World War II.

"A sense of loneliness and confusion is often the first reaction of a young serviceman away from home," he declared. "In providing him with wholesome recreation and entertainment in pleasant off-post surroundings, communities can make a tremendous contribution to his well being and to the development of the spirit that makes for a good soldier."

"This program is worthy of the immediate attention of every community where numbers of service personnel can be expected to spend their leaves."

ing nearly 1,000,000 members in non-operating branches of the railroad industry will meet here today under the leadership of George E. Lighty of St. Louis, to draft their wage proposals. Non-operating unions are those whose members do not actually ride the trains they help to keep running.

Wonsan Captured

(Continued From Page One)

mean forces blunted the ROK drive in the center of the peninsula about five miles north of the border.

While fighting raged all about the Red Korean battlefield, an Allied transport plane flew a loud-speaker over isolated Red pockets, calling for surrender. It promised fair and humane treatment.

General MacArthur's "last time" surrender ultimatum boomed out over the airborne huller in a new phase of psychological warfare.

The Red high command has ignored the ultimatum. But Communist troops were surrendering in increasing numbers that have swelled the Allied prisoner base to more than 65,000.

Die-hard Reds around Wonsan dug in on heights encircling the city and customs. The South Koreans and Americans have developed a unique vocabulary of pidgin English, plus a smattering of Japanese words.

Instead of their usual rice diet, the South Koreans are eating American rations. And they are issued beer, cigarettes and candy bars on the same basis as their buddies.

They had even learned to swivel their hips to get the necessary extra inches out of their short legs to keep stride with the doughboys. The South Koreans have impressed Americans with their skill in handling rifles. Lt. Charles Bailey, Birmingham, Ala., said all in his outfit could take apart and assemble the rifles perfectly after one day of training. They like to shoot so much, their instructors have a hard time keeping them from sneaking back to the firing range.

The Americans no longer call them Gooks. The South Koreans are referred to as "ROKs," adopted from the abbreviation for the Republic of Korea.

One U. S. sergeant explained "How in heck can you call a foreigner when he's shared your foxhole, split your 'aft on you" and helped you fight off a night attack?"

to the left and right of this force. One crossed the Yesong River 10 miles west of Kaesong, smashed three Red counterattacks and drove into Red Korea on a northwest tangent.

The other wheeled to the vicinity of Panbu, 15 miles northeast of Kaesong. Panbu lies just north of Parallel 38.

The road-hardened ROKs of the Third and Capital Divisions fanned out on mop-up jobs after routing the bulk of the Red Korean defenders in bitter day-and-night street fighting.

Many Reds fled north and northwest of Wonsan. Unaccounted hundreds surrendered. Prisoners said other hold-out groups wanted to give up but hadn't found the opportunity.

The Reds made their first major stand Monday on ridges south of Wonsan. Allied warplanes strafed and rocketed ridge-line posts and the ROKs stormed over the airfield just south of Wonsan at 1 A.M. Tuesday (2 P.M. Monday, EST).

They entered the city at 10 A.M. The ROKs resisted bitterly, but AP correspondent William Jordan, with the South Koreans, said the defense was not as strong as had been expected.

From Wonsan, the ROKs are in position to swing 95 miles straight west across the narrow waist of the peninsula to Pyongyang.

U.S. First Cavalry troops who clawed across the border on a 25-mile front near Kaesong were 80-mile air line miles from the Red capital.

Organized Red Korean troops blocking the armored cavalry drive on the main road from Seoul toward Pyongyang and the South Korean thrusts in the center of the peninsula were showing no signs of giving up.

AP correspondent Lief Erickson reported from western Korea that Reds holed-up in their pre-war "defense" chain for Red American foot troopers to fight for every yard.

The Reds held mountain positions flanking the main highway. Defenses extended 25 miles in depth, an air observer reported.

Foot troopers, with Allied warplanes raining steel and fire-bombs on the Reds, slugged ahead 2 1/2 miles into Red Korea along the main highway, to the vicinity of Simcheon.

38 Reporters To Accompany Truman Party

MacArthur Refuses To Permit Tokyo Correspondents To Make Journey

WASHINGTON, Oct. 11—(AP)—Thirty-eight news, radio and photo representatives will accompany President Truman on his trip to meet Gen. Douglas MacArthur. They have chartered a Pan-American stratosphere for the week's trip starting late today. The plane will be used for the entire trip, ending Oct. 18.

A total of 56 passengers are booked for the plane. Besides the 38 news, radio and photo men, they included communications representatives and secret service men of the President's party.

White House officials said it was a large party but not a record for a press group accompanying the President.

The Associated Press representatives on the trip will be Ernest B. Vaccaro, who has been a White House correspondent since President Truman took office, and William C. Allen, a veteran photographer whose experience includes covering the war in Italy, France and Germany.

Meanwhile in Tokyo General MacArthur turned down "with regrets" a request by Tokyo press associations to go with him to his Pacific conference with President Truman this weekend.

Electric Company Invites Industry To Come To State

The amazing story of new opportunities for business and industry in Florida is being advertised by Florida Power & Light Company in advertisements published in leading business magazines and newspapers in the U. S.

"Our campaign to advertise Florida has gotten off to a fast start," H. H. Coleman, division manager, said today. "During July and August our company began advertising in such well-known publications as the Wall Street Journal, Business Week, New York Journal of Commerce and Chicago Journal of Commerce."

"Continuing in September, October, November and December, we will use these publications augmented by Nation's Business and U. S. News and World Report."

"Our advertisements in these publications are reaching millions of America's leading business men throughout the United States, telling them of Florida's opportunities and inviting them to locate their plants in Florida."

"Florida Power & Light Company is thoroughly 'sold' on the fact that we have a sound state with a sound and expanding economy. We are so convinced that we are buying advertising space to 'tell the world' Mr. Coleman said.

"Incidentally, our company president, McGregor Smith, is chairman of Governor Warren's Council for the Industrial Development of Florida. Our company is cooperating with the governor in his program to bring industries to Florida."

Some of the interesting facts in the advertisements are gains made by the state since 1940. They include:

Population	up 31%
Individual Income	up 224%
Bank Resources	up 204%
Postal Receipts	up 116%
Per Capita Savings	up 214%
Auto Registrations	up 49%
Life Insurance	up 155%
Income from Livestock	up 335%
Wages and Salaries	up 220%

COTTON EXPORT

WASHINGTON, Oct. 11—(AP)—Acting to halt advancing cotton prices and to assure the nation of its needs, the government last night placed rigid limitations on exports of the fiber crop.

The Agriculture Department set up export quotas which would restrict shipments to less than 4,000,000 bales for the marketing year ending next Aug. 1. Exports during the past season totalled 8,770,000 bales.

STOVALL RECALLED

Lt. W. B. Stovall, Jr., U.S.N.R., son of Mr. and Mrs. W. B. Stovall, of 1101 Elm Avenue, has been recalled to active duty with the Navy. He arrived last night to report for active duty at San Diego, Calif.

In civilian life, Lt. Stovall was chief of a vital statistics section, and at the time of his recall was acting director of the Bureau of Vital Statistics, Florida State Board of Health in Jacksonville.

New Yorkers View Crusade For Freedom Parade

STATE OFFICIALS AND DIGNITARIES (top) witness the giant Crusade for Freedom parade in New York in which an estimated 20,000 members of civic, labor and veteran organizations took part. In reviewing stand (top, l. to r.) are: Gov. Thomas E. Dewey, Gen. Lucius Clay, National Crusade for Freedom chairman, State Industrial Commissioner Edward Conel, famed anti-Communist Peter Hogue, and Mrs. Okoyana Kosenkina, who jumped to freedom from the Russian embassy. Below, the marchers pass in review.

Home Mortgage Credit Controls Are Designed To Reduce Inflation

WASHINGTON, Oct. 11—(AP)—The Federal Housing and Home Finance Agency issued the following explanation on how the government's new home mortgage credit controls will work:

Why housing credit is being restricted:
To reduce the current serious inflationary pressures in housing and to cut back homebuilding in 1951 to a level which can be met with the materials and labor available after defense requirements are filled. Current estimates place this 1951 volume at least one-third fewer homes than are being built in 1950, or not more than 500,000 to 600,000 new homes.

What the regulations control:
The amount of money that may be borrowed on the security of, or to finance new construction, on residential real estate.

What is covered:
Loans for more than \$2500, with more than 18 months maturity, on all one and two-family and housing (including major improvements or additions, as well as new construction), except for (A) loans on which written commitment were made before the effective date of the regulation, (B) conventional loans on housing construction started before noon of Aug. 3, 1950, and (C) certain hardship and special exemptions.

When the regulation is effective:
Oct. 12, 1950.

Who must comply:
Lenders, as defined in the regulation, are required to comply with the down-payment, maturity and other provisions of the regulation, with penalties provided for violation. Lenders are defined as those who, during the current or preceding year, made 2 or more real estate loans aggregating more than \$25,000.

Who administers the regulations:
The Board of Governors of the Federal Reserve System is responsible for administering its regulation applying conventional real estate loans (as distinguished from real estate loans made, insured, or guaranteed by the Federal Government or any agency thereof). The Federal Housing Administration, the Veterans Administration and the Federal Reserve Bank of New York are also administering the regulations.

Little Theater Is Advocated At Meet Of Sanford Pilots

Mrs. Richard Farrell spoke before members of the Pilot Club at their dinner meeting held in the Yacht Club last night, favoring the formation of a "Little Theater" in Sanford.

Mrs. Farrell, a graduate of Stephens College, holds a degree in Dramatic Art and has had wide experience on the stage, radio and the movies. She toured for several years in the "Theater Guild."

French Defense Minister Arrives To Study Rearmament Of France

WASHINGTON, Oct. 11—(AP)—French Defense Minister Jules Moch arrives today to press his country's request for a big installment of American dollars to hasten France's rearmament.

Moch has a date with Secretary of Defense Marshall this afternoon to explain what outside aid France will need before it can begin turning out more guns, tanks and munitions.

Much will be joined tomorrow by French Finance Minister Maurice Petesche who is now en route to the United States by ship. Petesche will outline the financial side of France's rearmament picture.

The two French cabinet members are to meet with Marshall, Secretary of State Acheson, Secretary of the Treasury Snyder and a score of American experts to learn:

1. How much France can ex-

15 Rail Unions To Ask 25 Cent Wage Increase

Non-Operating Unions To Serve Notice On Railroads For \$400 Million Pay Boost

WASHINGTON, Oct. 11—(AP)—Heads of 15 railroad unions with a million members decided today to ask for a 25-cent-an-hour wage increase.

The unions concerned are made up of non-operating workers, that is, rail employees not directly concerned with actually operating trains.

Announcement of the wage decision was made by George I. Leighty, president of the Order of Railroad Telegraphers and chairman of a joint committee of the 15 unions.

Leighty said money would be served upon the nation's major railroads on Oct. 25 asking for immediate negotiation. He estimated the demand would cost the railroads \$400,000,000 a year.

The average worker in the 15 unions now receives \$24.15 a week. The 25-cent wage would allow him a \$10 weekly wage boost.

The unions include the shop-crafts, telegraphers, clerks, signalmen, water service and dining car employees.

These workers, Leighty said, were asking for 25 cents an hour because they figured they were "far behind the parade" in other industries. Their last wage increase came in October 1948, when they received a seven-cent-an-hour wage boost, linked with that increase, however, was the recession to place the non-operating employees on a 40-hour week.

U. S. Steel To Open Wage Talks With USW Union

WASHINGTON, Oct. 11—(AP)—United States Steel Corporation, producer of one-third of America's steel, agreed today to open wage negotiations with the CIO United Steelworkers Monday, Oct. 16, in Pittsburgh.

Wage talks already are underway between the million-member union and about 35 big and small companies. But those sessions are not expected to settle any issues until after "Big Steel" and the union reach some agreement.

The steel workers union wants "a very healthy and substantial wage increase" this fall. President Philip Murray of the CIO and the USW says his workers need a fourth round post-war pay hike.

Sgt. Wiley B. Brooks Is Killed In Korea

Word was received here yesterday by Mrs. E. C. Kennedy of the death of Sgt. Wiley B. Brooks, First Class Wiley B. Brooks, who was stationed with Company I, 27th Infantry in Korea.

Sgt. Brooks, who had been in the service for nine years, was with the 2nd Airborne Division during World War II. He is estimated to have been in Korea for three years ago and was sent to Japan, accompanied by his wife and two children. He was born Mar. 19, 1919 in Newberry, Fla.

Survivors include the wife and two children in Japan; another sister, Mrs. Veron Brown of Jay, Fla.; three brothers, William E. Brooks with the Fifth Air Force in Korea; Hudson H. Brooks and Cecil Brooks of Sanford.

DEFENSE TO CONTINUE

WASHINGTON, Oct. 11—(AP)—Seoffing at the idea that America will "relax" after the Korean war, Rep. Vinson said today American never will scrap its defenses again.

The Georgia Democrat, chairman of the House Armed Services Committee, told newsmen he believes the people will be willing to make the sacrifices in taxes and other burdens necessary to build the armed forces up to 3,000,000 men.

The burdens must be borne "for an indefinite period of time."

TOWNSEND PICNIC

The Townsend Club will have a picnic covered dish dinner with wine roast at Lake Helen Friday. Members and guests will leave the Tourist Center at 2:00 o'clock in the afternoon. Dr. C. V. Stark announced today.

MISS STEVENS ENTERS

LAKE NUD, Oct. 11—(Special)—Denise Steves, daughter of Mr. and Mrs. A. B. Steves, 1300 Sanford Avenue, has reentered as freshman at Florida Southern College here.

Florida Southern is the only college in the world with a women's flag team. The team is being organized by the noted Frank Lloyd Wright.

Denise's sister, Mary Joyce Steves, was a 1949 Southern graduate.

Armed Services Chief Tells Kiwanis Of Men In December Fire Prevention

WASHINGTON, Oct. 11—(AP)—The military gear of arms inspection program another boost today with a new call for 40,000 more drafters. At the same time it tried to decide what should be future policy about using National Guard.

Frozen Steak Chain Looks For Plant Site

At a meeting of the committee of the Industrial Committee of the Seminole County Chamber of Commerce last night, Lee E. Lee, assistant manager, reported that a Kansas City distributor of frozen steaks who is looking for a site for a distribution plant for the south-eastern states had been here recently and was interested in Sanford.

The distributor, who is looking for a site for a distribution plant for the south-eastern states had been here recently and was interested in Sanford.

Reinforcements Go To Army In Germany

BERLIN, Oct. 11—(AP)—Lieut. General Manton S. Eddy announced today that "American reinforcements are arriving now in Germany."

"There is no evacuation plan at all," he said. "The American soldier in spite of any odds."

CIVIL DEFENSE

COVENTRY, England, Oct. 11—(AP)—Home Secretary J. C. Chuter Ede said in an address tonight that Britain aims to enlist a civil defense force of about 800,000 within a few months.

At a meeting starting a recruitment drive, he said goals of civil defense leaders can be attained if one in 20 of those eligible join the service. He estimated that 16,000,000 persons in Britain, most of them over 30 years old, are eligible.

American Officer, Fed By Korean, Spends 69 Days Behind Red Lines

KOREA—(AP)—A young American officer has returned safely after spending 69 incredible days alone behind Red Lines.

With no weapon but his courage Second Lt. Joseph Elbert Hicks, a 25-year-old platoon leader from Caden, Ill., steadily endured every hardship rather than surrender.

"I would rather have starved," he said grimly.

And perhaps he would have starved except for a loyal young South Korean who brought him food and saved his life by moving him from one mountain hideaway to another whenever danger of capture grew near.

For security reasons this native patriot cannot be identified now. But he risked the lives of himself and his wife and six small children to help the American.

WASHINGTON, Oct. 11—(AP)—A Defense Department spokesman said today the war in Korea is far from over and "there are plenty of fighting ahead."

That estimate was given at the Pentagon's regular briefing for newsmen on the situation in Korea. The spokesman said the nation should not be lulled into any false sense of optimism by the advances of the United Nations forces.

General Gay Returning From Front Declares "These Cooks Are Beaten"

WASHINGTON, Oct. 11—(AP)—U. S. British and Australian troops moved north of the 38th Parallel in force today and spearheads were more than 10 miles deep into Red territory late this afternoon.

The Allied push was closing slowly on the main road leading to the North Korean capital city of Pyongyang.

The Communist refusal to accept General Douglas MacArthur's surrender demands is making the creeping devastation of war into a steady advance.

Army Cuts Deeply Into Spending On Waterway Plans

WASHINGTON, Oct. 11—(AP)—Army engineers today pared the country's expenditure for flood control and river and harbor projects in the present fiscal year to a total of \$618,549,000.

The total which compares with \$650,000,000 in the fiscal year which ends June 30, reflects some but not all reductions which Congress ordered in spending as a defense measure.

What happened was this: Last summer the House approved \$600,000,000 for the waterway program. Then Senate took this to \$574,000,000. Later they agreed to reduce the Senate total about 10 percent to around \$518,000,000 but this did not apply the cut to specific projects. Still later Congress directed the President to slash another \$50,000,000 out of the package appropriation to fill the budget gap.

The Budget Bureau yesterday said \$500,000,000 was the amount of the 1951 appropriations, chief of which the money for the waterway program. The engineers then came up with a new list showing how the remaining money would be spent.

The new list shows that \$272,500,000 of the money for the waterway program is for projects which are being eliminated entirely while most others have taken 10%.

Included in the total is \$175,000,000 for general flood control work; \$22,000,000 for a flood control project; \$12,145,000 for river and harbor projects; \$61,400,000 for flood control work on the lower Mississippi and tributaries; \$2,000,000 for the Sacramento River and \$18,000,000 as a reserve for projects which President Truman may deem advisable to start.

Congress, in ordering the cuts, said that no money should be used on any new project unless it contributes substantially to national defense.
