UP I SIMPLY CAN'T MAKE UP MY MIND. ABOUT WHICH SCHOOL TO GO TO THIS FALL.

WHAT ABOUT THE ONE DEBBY IS GOING TO?

THAT'S OUT. THEY DON'T ALLOW CARS ON THE CAMPUS!

WELL AT LEAST IT WAS A BIG BOY! COLLEGE NEAR BY!

OH, YOU MEAN THE AGRICULTURAL SCHOOLS?

DID YOU EVER TRY BONES FOR A GUIDE IN THE MOONLIGHT ON A TRACTOR?

MINNIE! YOU PICKED THE WRONG GUY!

WHY THIS ONE, OF COURSE! ANYONE COULD SEE THAT!

SO THAT'S WHY MICKY WAS ACTING SO STRANGELY! IT WAS THE OTHER ONE AFTER ALL... OH, MICKY, I'M SO SORRY I MISJUDGED!

CERTAINLY, CHEER UP! BRING THEM IN...

MINNIE - BUT I'VE GOT TO FIND WHICH OF THESE IS MICKY... AND WHICH IS THE CROOK!

SO THAT'S WHY MICKY WAS ACTING SO STRANGELY! IT WAS THE OTHER ONE AFTER ALL... OH, MICKY, I'M SO SORRY I MISJUDGED!

MINNIE! YOU PICKED THE WRONG GUY!

WHY THIS ONE, OF COURSE! ANYONE COULD SEE THAT!

THE LARKS

HOW THY GUNS HAVE TWO MEN ON AND WHOODY OUT IN THE LAST OF THE NIGHT!

JACKSON'S DITCH HIT THE PEAK OF BEANS CAP?

OSKARK THE REPRESENTATIVE TH WHINING TH RUN AT TH PLATE!

THE STARLINER! A CYLINDER OF SHINY STEEL, SITS POISED AGAINST THE SKY - READY TO TEST HER WINGS AGAINST THE GIANT CHAINS OF GRAVITY...

WHILE INSIDE, TWO ADULTS - AND FIVE BOYS WHO CAN SEE THE STARS IN DAYLIGHT - DRAW THEIR BREATH...

NOW THOSE HYPNOTIC MACHINES ABOVE YOU WILL ENABLE YOU TO STAND THE THURST OF STARS BLAST-OFF!

ALL CONTROLS ARE PRE-SET! WE GO OUT 500 MILES, CIRCLE THE EARTH THREE TIMES... THEN RETURN! EVERYONE STRAPPED IN!

HYPNOTIC MACHINES! GAWSH! NOW I WISH THIS WAS THE REAL GEN-YOONIE THING!

WE'RE GOIN' OUT INTO SPACE! GAWSH! NOW I WISH THIS WAS THE REAL GEN-YOONIE THING!

IF I GOTTA GO, AT LEAST LET ME GET ON THE HORSE!

YOU'VE ONLY A SHOROT LAY TO GO.

YOUR SON IS WAITING NEAR THE WRECKAGE OF THE SHREDDER!

HE'S CLEANER THAN THE FLOOR UNDER MY FEET!

THEY'RE BOY CLEAN!

WE SAW THE HARBED MAH MAKE OFF WITH DOUGLAS!

WE WENT THAT WAY!

VOLUME XLIV Established 1908

AN INDEPENDENT DAILY NEWSPAPER SANFORD, FLORIDA FRIDAY JUNE 5, 1953

Associated Press Lease Wire

THE WEATHER Considerable cloudiness and mild with scattered showers through Saturday.

Turmoil Over Charge Delays Session's End

Legislature Puts Off Adjournment 'Hour
TALLAHASSEE (AP)—The Florida Legislature, with most of its work done and the decks cleared for adjournment, was thrown into last-minute turmoil today by the state beverage director's charge that a clique of six men controlled the Senate.

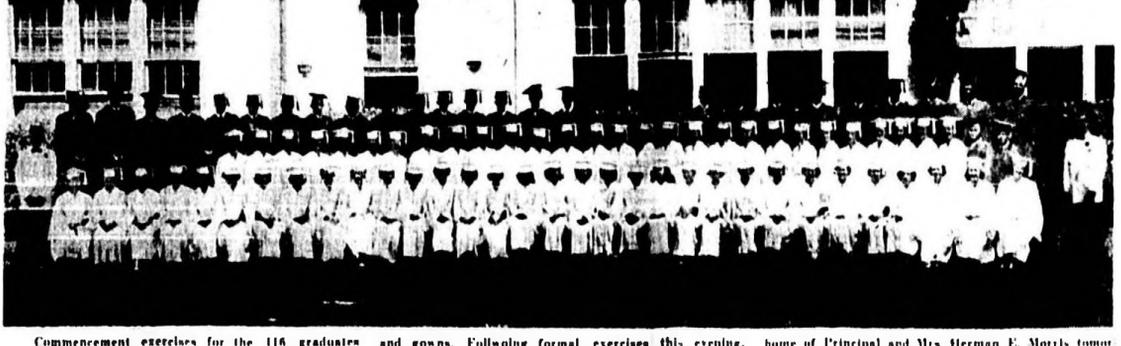

Davis, under pressure to resign from some of his own friends in an effort to patch up a serious rift between the executive and legislative branches of government, was in Tampa. He said he was telegraphing a complete statement on his speech clarifying the "emphasis" of newspaper reports about it, to Gov. Cary.

An announcement that he had resigned received applause in the House when it was made by Rep. Dowdy, Putnam County, a target of the beverage director's criticism—but Davis promptly denied it.

Legislative Group Praised For Stand On Beverage Hours

The three members of Seminole County's legislative delegation at Tallahassee today received a letter from the Seminole County Ministerial Association praising them for their stand in passing the law fixing the hours of sale of alcoholic beverages.

Senator Lloyd Boyle, and Reps. Volts Williams Jr. and Mark Cleveland Jr. have recently been criticized by the Seminole County Liquor Dealers Association through their attorney, Ernest Housholder, for refusing to consider and introduce any bill that would amend the act setting a closing hour of midnight for taverns.

Commencement exercises for the 116 graduates of Seminole High School will be held tonight at 8:00 o'clock in the high school auditorium. Members of the 1953 graduation class are shown above in their caps and gowns. Following formal exercises this evening, there will be a class reception at the M. L. Rabun home, followed by a midnight movie, a swimming and square dance party, ending activities with a breakfast at the home of Principal and Mrs. Herman E. Morris tomorrow morning. Highlights of tonight's program will be the recitation of the Pledge of Allegiance and the playing of the national anthem.

Taft Calls For End Of Fighting In Korea Looms As Parley Nears

By JACK BELL
WASHINGTON (AP)—Sen. Taft (R-Ohio) called today for a military alliance with the British in the Pacific to bypass the United Nations veto in that critical area.

The Senate GOP leader issued a statement clarifying the views he expressed in a Cincinnati speech May 26, which caused President Eisenhower to say "No," that he could not agree with Taft that the U. S. might as well forget the United Nations so far as the Korean War is concerned.

But if armistice negotiations fail, Taft indicated in the statement that he has not changed his view that the U. S. might as well forget the U. N. in dealing with the Korean situation if he denied he ever advocated "go it alone" policies and did not mention any difference of opinion with Eisenhower.

Race Controversy Wearing Of Shorts In Cooking School Is At Sewanee Ended By Unanimous Vote

SEWANEE, Tenn. (AP)—A racial segregation issue, simmering since June, 1952, apparently has been settled with a vote by the Board of Trustees of the University of the South to give all applications for admission to the school of Thoroughbred training without regard to race.

Foreign War Vets To Stage Free Supper

The Veterans of Foreign Wars of Seminole County Post No. 3282 will hold a free supper Monday, June 8, at the Legion Hotel. This will be the first meeting of the summer and all the old members are urged to attend by Comdr. C. W. (Pat) Johnson.

USO Fund Drive Has Reached \$163 Total

The United Service Organization's fund drive reached the \$163 mark today, according to Mrs. Pauline Brown, who is in charge of the drive.

Air Force Program Is Scheduled In Oviedo

OVIDO (Special)—The U. S. Air Force will conduct a special ground observation training program at the school here here next Monday night at 8:00 p. m. It was reported today by Mrs. Marian Jones.

Industrial Report Of Caccavajo Given To Board Members

116 Seniors Will Get Diplomas In Class Exercises

The high school careers of 116 graduating seniors of Seminole High School will formally end at the evening's commencement exercises in the S.H.S. auditorium. The school will present its own program, which will include a play, a musical, and a variety of other entertainment.

Following the exercises, there will be a class reception at the home of Principal and Mrs. Herman E. Morris tomorrow morning. Highlights of tonight's program will be the recitation of the Pledge of Allegiance and the playing of the national anthem.

Harman Is Believed As Deputy Sheriff

Walter Harman, 31, of Oviedo, was believed to be the man who shot and killed Deputy Sheriff J. J. (Red) Harman, Sheriff of Seminole County.

Movie Time Table

Time	Movie
1:11	"Red Head From Wyoming"
3:30	"The Sign of the Cross"
7:45	"The Sign of the Cross"
9:50	"The Sign of the Cross"

Several of the leading authorities in the field of sanitary engineering throughout this section of the country were on hand Wednesday night to hear a report submitted by Dr. Abel Waldman, professor of sanitary engineering at Johns Hopkins University, in the picture above, taken at the Yacht Club just before a luncheon which preceded the open meeting at the Court House, near first row, left to right—Dr. Waldman, City Attorney Ed. Rhinoholzer, Water Department Superintendent E. H. Johnson, and Dr. Wade H. Garner, president of the Seminole County Medical Association. In the same order in the rear row are Dr. David L. Lee, director of the State Board of Health; Robert Wakefield, State Board of Health representative; Ralph Heath, U. S. Geological Survey; Robert Angus, consulting engineer for the City from Jacksonville; J. Denver Cordell, City Commissioner; H. N. Hayer, City Clerk; Dr. J. N. Tolar, City health officer; Sidney Berkowitz, State Board of Health; Orlando William Hemper, City Commissioner; Paul Richards, U. S. Public Health Service representative from Atlanta; Gen. Sidney Richard, City sewer department superintendent; Dr. Frank L. Gullman, City health officer; Valde Robbins, assistant County health officer; Perry Temple, resident engineer; John Ivey, City Commissioner; and Mayor Randall Chase. City Manager Tom Lemon, although present, was not in the picture.

Wednesday Service 8:00 p.m.
Reading Room Tuesdays and Fridays 3:00 to 5:00 p.m.

The great need to recognize the spiritual nature of creation, get out in services in all Christian Science churches Sunday. Subject of the Lesson—Sermon is "GOD THE ONLY CAUSE AND CREATOR."
The Golden Text is from Jeremiah (10: 10, 14): "The Lord is the true God, he is the living God, and an everlasting king: . . . He hath made the earth by his power, he hath established the world by his wisdom, and hath stretched out the heavens by his discretion."
Bible citations include the following from Genesis (1:31): "And God saw every thing that he had made, and, behold, it was very good."
Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "God is Individual, incorporeal. He is divine Principle, Love, the universal cause, the only creator, and there is no other self-existence" (p. 331).

FIRST PRESBYTERIAN CHURCH
Oak Avenue and Third Street
Rev. H. D. McInnis, Minister
9:45 a.m. Sunday School.

ALL SOULS CATHOLIC CHURCH
Oak Street and Ninth Avenue
Sunday Masses 7:00 a.m., 8:00 a.m., and 10:00 a.m.
Weekday Mass 7:15 a.m.
Confessions Saturday 4:00-5:00 and 7:30-8:50 p.m.
Novena Devotions and Religious Study Club will be omitted during the coming week.
This Sunday is called Corpus Christi Sunday.
Corpus Christi means "Body of Christ" and refers to Holy Communion in which we receive the Body of Christ, the living resurrected Body of Christ as nourishment for the spiritual life of our souls. The Gospel for this Sunday, John, Chapter 6 verses 50-59 emphasize the literal meaning of this in the same chapter when some of the disciples could not stomach this teaching they "walked no more with Him" but He did not retract. Instead He "said to the Twelve, do you also wish to go away?" Peter answered for them all: "Lord, to whom shall we go? Thou hast the words of eternal life."

FIRST METHODIST CHURCH
J. E. McKinley, Minister
Miss Thelma Long, Director of Religious Education
9:45 a.m. Sunday School. A class for every age.

Rural Common Sense

By SPUDS JOHNSON

Surpluses of agricultural commodities in the United States are again building up to such a point that they have agricultural leaders worried. The old theory of seven years ago seems to have been pretty well outdated. Research on production, coupled with American farm efficiency, has practically made it possible to produce bounteous supplies of most commodities every year.
Howard H. Gordon, administrator of the Production and Marketing Administration, says: "Government inventory and loan holdings of storable price-support commodities are building up rapidly—too rapidly for comfort. Agricultural production has in general caught up with the post-Korea demand, and in some important cases it has already run ahead of it. Current needs have been met, reserves

have been rebuilt, and we are once again up against the problem of surplus.
Demands for our farm products for export have declined, too, as other countries have been able to rebuild their ability to produce.
Wheat, cotton and butter are giving most concern right now. Neither of these is produced in large quantity in Florida. Citrus and citrus growers know from fairly recent experience what a burdensome surplus can do for an industry.
Agricultural leaders are endeavoring to decide what will be best to do about the situation, for everybody realizes that the country's agriculture must be kept on a healthy basis. It is an integral part of the nation's whole economy, and all other parts of the economy will suffer if agriculture suffers.
Production and marketing controls may be resumed on some crops next year. This is a type of regimentation which nobody particularly likes, but it is better than chaos. Support prices at high levels are not the complete answer, because they can price American producers out of the world market.
In the meantime, efforts are being made to stimulate exports and to conduct research that will widen markets for farm products.
It is believed that the last wild boars in Britain were killed about the 10th Century.

The Sanford Herald

Report Given By Major Caccavajo To Members Of Industrial Board

Following is the report submitted to the members of the Sanford Industrial Board by Major J. C. Caccavajo, engineering consultant retained by the executive committee of the Industrial Board.

"First and foremost it must be clearly understood this memo is in no way a complete report on what I have been able to do to gather in the way of statistical information and data to date. It must also be accepted as a fact that no attempt can be made at this time to present anything more than an outline of what I believe to be the best way to arrive at a practical solution of the problems confronting the Sanford Industrial Board.

"Naturally I do not consider it within the scope of my investigations to make more than a passing reference to the efforts and undertakings of Sanford Industrial Board, inasmuch as most of you are well acquainted or actually engaged in its efforts to get subscriptions or pledges to its working capital.

"As to the present endeavors of the Sanford Industrial Board I am fully convinced that under the able leadership of its chairman, Captain Orlam, a comprehensive program can be developed which will be of the greatest possible value, not only to the City of Sanford, but to the entire area in and around Seminole County.

"Much can be done to improve the business, the financial and the entire economic picture in this area, if, and it is a big IF, the proper kind of cooperation, coordination and stick-to-itiveness can be brought to play.

"Some people may not agree with me when I state that there appears to be a number of important interests and individuals hereabouts who have the knowledge, the ambitions and the vision to accomplish much for Sanford, but who, as far as I have been able to discover, for one reason or another have been prone to play lone hands instead of joining together in promoting a collective team play.

"It is to be hoped that confidence in the fairness and the recognized ability of Captain Orlam to bring order out of near-chaos, will assure the early success of the plans as they are developed on by the City Officials, the Sanford Industrial Board, and all others truly interested in advancing the best interests of Sanford.

"Getting to something other than a lecture on the crying needs for concerted action, it is my conviction that there is a real need, right now, for a complete survey and comprehensive report on what Sanford has to offer, which can be used as promotional material to attract the attention of business interests, manufacturers, and other worth while industries to this city.

"There seems to be a grand opportunity for effective work by the Sanford Industrial Board. Most of those with whom I have discussed the local problems have been most friendly in speaking of the Board and its membership. Without exception people I have interviewed have offered to help gather the information I may need, but also without exception, practically all of the statistical information so far produced has been far from up to date, and cannot be counted upon to shed light on present conditions, until thoroughly revised and brought to proper focus.

"It is not strange to find that nearly everyone I have talked with very early in the conversation tells me not to forget about the 'River.' There can be no doubt that most people in this part of Florida are 'River Minded' and there can be no question that it is potentially the very best asset which Sanford, and for that matter all of this area, has available for promoting both growth and prosperity.

"Sad to relate, here again statistics are far from up to date. The stories and reports of yesterday must bring tears to the eyes

of the Old Timers. I have several voluminous reports covering arguments used at the time pleas were made for the Federal Government to deepen the channel in the St. Johns River to 12 feet from Jacksonville to Sanford. Just how much this job cost the government I have not as yet discovered, but the added depth has certainly not brought increased business via the river. I have yet to find any reasonable answer to the puzzle of what happened to strip the river of all traffic except a few oil tankers serving the electric companies' power houses, and a few number of gasoline tankers delivering gasoline to local dealers.

"Of course I have been told that the municipal dock and warehouse was unfortunately destroyed by fire, and that every attempt to rebuild these facilities has been blocked, but this alone certainly should not have been permitted to rob this community of the economic advantages offered by water-borne transportation. It is never too late to correct so grievous an error and I am sure that with proper and practical efforts Sanford can offer so many advantages to shippers of merchandise that river commercial shipping can be revived and expanded.

"As I understand it any and all plans proposed and programs which may be adopted by the Industrial Board is to be entirely independent of political influence as well as that of any special interests. With this in mind I have so far avoided mention of a most important factor in any long or short range study of the local area, the need for adequate housing facilities to keep pace with the growth in population which must naturally come along with any industrial growth.

"It is evident there are several different thoughts on the subject as to which direction the city expansion should be encouraged to take. Therefore it seems to me that for more and better information before opening up a highly controversial field. Needless to say the subject cannot be long side-stepped and will have to be carefully considered from all angles sooner or later.

"This memo, for that is what it amounts to, is meant for the information of the members of the Industrial Board and others present, all of whom are much better acquainted with Sanford, and with Seminole County and its surrounding area, than I can be expected to accumulate in a few weeks, even though the research be most intensive. Therefore I do not propose at this time to go into details describing what I have learned about the area of Sanford, its strategic location in the finest section of Florida, its growth potentialities, its great production of food products, fertilizer, iron, steel, other metals and manufactures including agricultural implements, farm tractors, machinery, motor vehicles and parts, and a long list of miscellaneous commodities such as silkworms, earth-ware, roofing materials, paints, varnishes, soap, washing powders, cigarettes, smoking tobacco, drugs, medicines, rubber, tires and tubes, dry goods, clothing, cotton bags, rope, textiles, chemicals and other general merchandise.

"What was promised in the way of new and increasing business on the St. Johns River after the channel was deepened to 12 feet is a dream which never came true. The why and wherefore is a most distressing story, which some of you know, some of you probably guess, and all those responsible for what has occurred might well be ashamed.

"It is not my intention at this moment to make any well defined suggestions as to how I feel the errors of the past may be overcome and the river, as well as the port of Sanford, may be restored to its rightful place in the economy and progress of this part of Florida. With the information already in hand along with what details about the citrus groves, the citrus firms and the fruit shippers who represent as large a proportion of the active business of this part of Florida, and who along with celery, lettuce and other vegetable farmers and dealers make Sanford the outstanding shipping center in this state.

"It is my belief that immediate attention should be given to an intensive search for ways and means of producing in this area a variety of raw materials which will attract business and manufacturing plants to move here. There are several things I have been studying which are certainly worth serious consideration. At the moment I have in mind one or two things which may be just what is wanted, but as yet I am not in possession of enough fully verified facts and figures to make it safe to offer any definite promise for success, but I am sure that when I am satisfied the solutions I can make will stand the acid test you will get them, pronto.

"The present status of proposed plans to construct a large canal from Sanford to the Indian River, which has been kicked around for a longer time than anyone of us have lived, is still an unknown quantity, so far as I have been able to discover. There can be no doubt the value of a direct connection with the Intracoastal Waterway and every possible effort should be made to help to make the dream come true of those who have favored this project for so many years.

"With a connection such as this waterway Sanford would undoubtedly become a favored stopping place for both business and pleasure craft on the way to and from the so-called Gold Coast resorts. It could easily become developed as a haven for cruise, here in the fresh waters of Lake Monroe while their owners were back in the northern states. Am in hopes of having complete information from the Corps of Engineers on this and other local projects with in the next little while. Also have in mind some tentative suggestions for ways and means to provide the much to be desired terminal and warehouse facilities to meet the needs of a buyer and better port for Sanford.

"As you are aware a considerable volume of freight movement through Sanford was existing prior to World War II. Most of this freight originated in Jacksonville and was carried by barges to Sanford. The last record I have of this movement was compiled by General Youngling in a report, made in 1945 on 'Further Improvement of the St. Johns River.' This report showed an average tonnage on the St. Johns (1939) through 1941) of 25,000 tons, including petroleum products, fertilizer, iron, steel, other metals and manufactures including agricultural implements, farm tractors, machinery, motor vehicles and parts, and a long list of miscellaneous commodities such as silkworms, earth-ware, roofing materials, paints, varnishes, soap, washing powders, cigarettes, smoking tobacco, drugs, medicines, rubber, tires and tubes, dry goods, clothing, cotton bags, rope, textiles, chemicals and other general merchandise.

"What was promised in the way of new and increasing business on the St. Johns River after the channel was deepened to 12 feet is a dream which never came true. The why and wherefore is a most distressing story, which some of you know, some of you probably guess, and all those responsible for what has occurred might well be ashamed.

"It is not my intention at this moment to make any well defined suggestions as to how I feel the errors of the past may be overcome and the river, as well as the port of Sanford, may be restored to its rightful place in the economy and progress of this part of Florida. With the information already in hand along with what details about the citrus groves, the citrus firms and the fruit shippers who represent as large a proportion of the active business of this part of Florida, and who along with celery, lettuce and other vegetable farmers and dealers make Sanford the outstanding shipping center in this state.

"It is my belief that immediate attention should be given to an intensive search for ways and means of producing in this area a variety of raw materials which will attract business and manufacturing plants to move here. There can be no doubt the value of a direct connection with the Intracoastal Waterway and every possible effort should be made to help to make the dream come true of those who have favored this project for so many years.

"With a connection such as this waterway Sanford would undoubtedly become a favored stopping place for both business and pleasure craft on the way to and from the so-called Gold Coast resorts. It could easily become developed as a haven for cruise, here in the fresh waters of Lake Monroe while their owners were back in the northern states. Am in hopes of having complete information from the Corps of Engineers on this and other local projects with in the next little while. Also have in mind some tentative suggestions for ways and means to provide the much to be desired terminal and warehouse facilities to meet the needs of a buyer and better port for Sanford.

figures can be obtained from Washington and Tallahassee.

"Mrs. Moughton, librarian at the Sanford Public Library, has been most cooperative but I have not been able to obtain the material of real value for the purpose of an Industrial Survey at the library, unless we want to look backward into the future. (In passing I might say that it is not strange to find the local libraries far from up to date on local facts and figures. Somehow the same officials who appropriate appropriations for the public libraries down to the vanishing point, are the same people who forget to send along official reports and other information of real importance so that the librarian can escape blasting when asked simple questions regarding local government matters.)

"In order to really make progress toward a complete and authoritative survey of Sanford and its market area, etc. much later figures than I have as yet been able to obtain must be forthcoming. Some of the needed data I believe can be secured by the Chamber of Commerce. Some has and will be furnished through the helpfulness of the Florida Power and Light Company, the Florida Power Corporation and the Atlantic Coast Line Railroad Company. Then there is the valued reports of the Departments of Agriculture, both State and Federal, some of which have been supplied through the good offices of the county Agent, Mr. Dawson.

"A considerable amount of most informative data has been handed me by the city authorities through Mr. Sayer, and as already mentioned much valuable information has been gathered from among the best informed citizens and business men, with whom I have had the extreme pleasure of trading questions and answers. Copies of special editions going back several years have been given me by the newspapers, and the editors have most kindly offered me free access to their files in their offices. To date, unfortunately, lack of time has not made it possible for me to take advantage of these generous offers of help, aid and assistance.

"It may be said that this memo which I stated in the beginning is not that and not to be considered a finished report, does not know, but it is in truth a combination of what I have gathered from you and others with whom I have been able to discuss local problems. It is my hope that in the next little while I may be able to collect and collate much more of vital interest to Sanford, but even though I have already formed some firm convictions as to what can and should be done, I do not feel it wise or safe to pro-

mise to perform miracles, nor do I want to report that any of the things some of you say are impossible of accomplishment, cannot be accomplished. Of course I have been trained to eliminate the word 'impossible.' In truth my experiences for many years in and out of the Army, and as a business man, have convinced me that nothing is impossible. Also true is the fact that though something may be possible it may not be practical, and this is a good place to recognize that fact before committing oneself beyond recall.

"Again may I repeat that it is my firm conviction that there is a great as well as a worthwhile future for Sanford, and all of Seminole County, and the areas in and about the St. Johns River. To get the best results the residents and business interests of this city and county must be united.

"One fact I would like to mention. No one is going to be able to accomplish what can and should be accomplished, unless there is much more of the spirit of cooperation and unselfish interest in the welfare of this community, than has been manifested in recent years. If you do not believe there is need for this, just get out, as I have done, and talk, holler and yell, with the 'VIP's' of Sanford.

"It may well be that what I have just said may be considered in the nature of an altar for not having been able to gather more facts and figures to date. Maybe I will be severely criticized for pointing out the lack of team work which has prevented or retarded progress, but as the late Ebert Hubbard once said, 'To avoid criticism, do nothing, say nothing and be nothing.' I must admit that what information I have been able to get together has only scratched the surface, but if it be your desire that I proceed with my search for light and truth, and the ways and means to bring about the results so earnestly desired by the Sanford Industrial Board, I am yours to command.

"Just one more remark. From what I have been able to gather in my walks and talks about town there is a very general thought that under its present leadership the Industrial Board is going to get all the various elements of the city firmly back of the betterment movement. It is sure to in aggregate. It has been a real pleasure to work with and for you all and Mr. Orlam. I had hopes to be able to have more of your time and valued advice as I went along, but maybe even this hands-on cap will be overcome in the days ahead.

"To sum up, Sanford has what it takes to meet the most optimistic plans for its future welfare. Where there is a will there is a way.

Industrial Report

(Continued from Page One)

"Ten days ago I pointed out to the major that we wanted statistics in the report—some thing that could be used as a good sales piece in appeal to manufacturers.

Major Caccavajo stated he had plenty of figures available but he did not want to submit them until he knew they were completely authentic and could back them up. Whether or not in permit the consultant to get ahead with his survey in the light of his first report was the subject of much discussion.

However, Chairman Orlam said that under the terms of the agreement a report must be submitted which is satisfactory to the Board. (Otherwise there would be no final payment according to the contract.)

Finally, the Industrial Board voted unanimously to have the Board resident continue with his work.

Mr. Orlam asked the members to give Major Caccavajo their cooperation in order that data would be available for the survey. He named W. C. Hutchison, John Bramley, and Fred Williams, to submit information in connection with a study of water transportation.

In the study of housing, local schools, and trade schools, the following were named to lend assistance: Wally Dietrich, W. J. Dawson, John Williams, and George Todd.

Gene Tucker said he would submit to the consultant the current status of the county hospital. Mr. Tucker, chairman of the Seminole County Hospital board of trustees, said two things were now holding up start of construction. (1) Waiting for Governor McCall to appoint a fifth man to the board of trustees, (2) and waiting for the Supreme Court to hand down a decision as to the validity of the board.

He said that after about twenty were taken care of, that construction would start and be completed in approximately eight months. Plans are for a 100-bed hospital.

Named to a committee to obtain information on a problem of the city from the back of the betterment movement it is sure to in aggregate. It has been a real pleasure to work with and for you all and Mr. Orlam. I had hopes to be able to have more of your time and valued advice as I went along, but maybe even this hands-on cap will be overcome in the days ahead.

To sum up, Sanford has what it takes to meet the most optimistic plans for its future welfare. Where there is a will there is a way.

FRIDAY JUNE 5, 1953

TODAY'S BIBLE VERSE

God has later inspired many to
write in the same book, and in
many books. All can have living
memorial of a life. The Lord
said unto Moses, Write this
for a memorial in a book.—Exodus
17:14

If you have not seen Kissimmee's
Silver Spurs in action, make your
plans to attend the Fourth of July
rodeo in the cow capital. Those
hossesmen really put on a show that
is worth watching.

There is no need to grow old,
says Dr. Norman Vincent Peale,
pointing out that Thomas Parr lived
to be 152. But he was just wonder-
ing what would happen to the
Social Security system and govern-
ment credit if everyone lived to be
152 and retired at 65.

Republican senators lined up
three to one in favor of recessing
or adjourning Congress by July 31,
probably reasoning that besides hot
weather there is another good rea-
son for getting out of Washington:
the fact that a legislative body
which isn't functioning is less likely
to make mistakes or create con-
troversies.

French liquor hi-jackers who
siphoned off thousands of gallons
of French brandy out of a huge dis-
tillery over a period of 19 years
have gotten off with light sentences
ranging from nominal fines to jail
terms of from five years to six
months. The government, however,
took a dim view of the distillery
which was robbed. It was fined \$30
million francs.

President Eisenhower has per-
sonally thanked 14 of his Florida
supporters for their work in his
election campaign. This is a nice
gesture but actually Mr. Eisen-
hower's victory in Florida was not
the work of any political organiza-
tion. It was the culmination of a
growing awareness among our citi-
zens that perpetual "New Dealism"
was leading us to eventual social-
ism.

The Indian government has or-
dered several American automobile
companies to close their assembly
plants in New Delhi in order to
give the local manufacturers a
chance. We doubt if this will work
much of a hardship on our auto
makers, and we have a suspicion
that any automotive products man-
ufactured by the Indians will cause
a lot of headaches to customers
who may chance to buy them.

General Lucius Clay in address-
ing future officers at graduating
exercises at West Point was opti-
mistic in his appraisal of the free
nations' ability to block instant
success of surprise attack by Com-
munist war lords. In a more sombre
note, however, the former com-
mander in Germany, expressed the
opinion that "peace if it comes
about, will be more nearly an ar-
mistice," an observation which will
not make Americans rest more
easily.

A "carriage cavalcade," a muse-
um of antique cars and coaches, is
being added to the already nume-
rous attractions of Silver Springs.
It seems that most of us have an
aversion to old cars until they really
become antique and then we'll
travel miles to see one. The pro-
moters of this new feature realize
the sentimental spot in every man's
heart for the old Stutz Bearcat,
the Stanley Steamer, and the aro-
matic Pierce Arrow like the one
Mr. Gotrocks drove.

Did you know that the first Colt
revolver which made history on the
western plains a generation later
was used in Florida by American
troops in the Seminole War. A few
years later when the Mexican War
began the Colt was in top demand
by all regulars who were equipped
with its possibilities, and Samuel
C. W. the inventor, immediately was
given a government order for one
of them. By the time the first
Colt was sold around 15 years
later the Colt was everywhere.

Facing New Horizons

Seminole High School seniors, like hundreds of thou-
sands of other young men and women this month, will re-
ceive their diplomas tonight showing that they have com-
pleted four years of labor in the quest for knowledge and
are now ready for the next phase of their careers.

Unlike those who graduated during the '30s, most of
them know what they are going to do. Many will go on to
colleges and universities to continue their education. Many
will go into the armed forces to prepare themselves for the
defense of their country. And still others will go to work.
But whatever they do and wherever they go, the time has
come in their lives when they will have to make a definite
choice: either they must take their stand for what is right,
or they will automatically become aligned with the forces
of evil. The struggle is one which cannot be avoided and the
issue is one which cannot be compromised.

Young men and women, now in their formative years,
will soon have established a fixed pattern of life. Whichever
way they choose now is likely to become the path they will
follow throughout the remainder of their lives. Men do not
suddenly and automatically become crooks and scoundrels,
they develop an evil trend which leads them inevitably into
the pitfalls of wickedness and lawlessness.

The choice of a way of life is usually based upon little
decisions. A deeply religious man is never tempted to steal
a million dollars. Before such a crime could have the slight-
est appeal for him, his faith and his character would have
to be undermined by thousands of little mistakes, like cheat-
ing on an examination, telling "little white lies," which
gradually become sullied, cultivating a disposition to want
something for nothing.

Worth remembering at this stage of life is that a per-
son gets out of it only what he puts into it. One has only to
look around him at those people who are selfishly grasping
for wealth or power and compare them with those who are
continuously ministering to the physical and spiritual needs
of the community to know which has found the happiest
and most satisfactory way of life.

Sometimes it may seem that it is a losing and hopeless
fight to stand for what is right, but the very fact that good
and evil have existed in this world from its very beginning
is evidence that the good has lasting qualities and in the
end will prevail. Christianity itself has been the guiding
light of millions of faithful men and women for nearly two
thousand years.

Some one has said, "There is not enough darkness in the
entire world to put out the light of one small candle."
Young men and women, as they go out into the world, should
remember that, and hold their candles high.

Anniversary Of Flight

President Eisenhower has signed a resolution authoriz-
ing the federal government to participate in the national
celebration of the fiftieth anniversary of controlled powered
flight. It was on December 17, 1903, that the Wright
brothers finally succeeded in getting the first airplane off
the ground at Kill Devil Hill, Kitty Hawk, North Carolina.
The June Harper's Magazine has a detailed account of
the invention of the airplane, edited by Fred C. Kelly, of-
ficial biographer of the Wright Brothers, and written by
Orville Wright as a deposition in a patent suit in 1920. The
article may help to dispel the notion that the Wrights were
merely bicycle mechanics who had one bright idea or that
they were tinkers rather than scientists.

Invention is not accomplished by a stroke of luck or
a brilliant flash of illumination from above. Usually it re-
sults from patient, hard work. The Wright brothers tried
everything they could about the other men who had tried to
fly. They examined and studied tables of air pressure. They
built and flew gliders. They failed many times but each time
began again and learned something from their failure.

There is no way to measure the contribution of the
Wright brothers to progress. From their first primitive at-
tempts at flight came the great airliners, the fast planes
that fly oceans over night and make every part of the world
just around the corner from every other part. It is good
to remember their achievement and participate in a nation
in the fiftieth birthday celebration of the invention which
gave men wings.

Pole Hopping

Once the North Pole was considered a remote spot,
"somewhere to the far North." Half fanciful tales of the
Northern lights, snowy wastes and igloo villages filtered
back to the temperate zones from the men with the daring
and stamina to venture into the desolate polar regions.

Today the pole is a mere point on a three dimensional
map of the world. Weather planes and military craft have
made so many trips over the pole that such flights are no
longer considered remarkable. The latest step in taking the
mystery out of the Northern wastes was the flight of a
Scandinavian passenger plane from Oslo, Norway, to Tokyo,
Japan.

Is the North Pole to become a mere sign post on a com-
muter route from Europe to Japan? Will pilots soon point it
out to curious travelers who fly over it in fast airliners?

Civilization moves on. The world grows smaller and
more tightly knit. It must become more peaceful, too, if it is
to survive. If passenger planes can make such long range
flights so can bombers.

Another Hansborough Auction Scheduled

Another one of Hansborough's fa-
mous and unique auctions will be
held next weekend between DeLand
and Ponce de Leon Springs when a
tract of land with home, turkey
and orange grove will go under
the hammer Thursday June 11 at
1:00 p.m. A roadside stand also
goes with the property.

A night auction will be held be-
ginning at 7:30 p.m. on choice
DeLand properties. On June 8 at
1:00 p.m. the "Circle J Ranch,"
12 miles south of Orlando will be
sold and Wednesday June 10 be-
ginning at 1:30 p.m. the Hans-
borough agents will be in Wildwood
Friday June 12 at 10:00 a.m. and
1:00 p.m. auctions will be held in
Gainesville.

Another ranch, two miles front-
ing the Sanford-New Smyrna
Highway, will go on sale Monday
June 15 beginning at 1:00 p.m.
The public is invited to attend any
of the auctions. Sale held on
schedule regardless of weather.

A quarter of the live boy babies
born in the United States died
before they were 28 years old. Today
a quarter of the boy babies are not
likely to die until they are more
than 50 years old.

Cheapest haberdashery sold in Italy
cost about \$200.

THE WORLD TODAY

By JAMES MARLOW

WASHINGTON (AP)—This Con-
gress, itching to close up shop by
July 31, probably will have set no
agenda in lawmaking by the time
it does end this session. It hasn't
done much in the form of major
legislation yet.

Some of its tardiness is under-
standable, particularly on the
money bills. The new Eisenhower
Administration needed time to
look over President Truman's bud-
get and try to cut it down. It sent
up its recommendations late.

President Eisenhower himself,
much in many people's surprise,
has been able to maintain with
Congress the same friendly rela-
tionship he insisted upon from the
time he stepped into the White
House.

It's already paid some dividends,
although not 100 per cent by any
means.

This week at a White House con-
ference with his Republican lead-
ers in Congress, Mr. Eisenhower
sanford, who they seemed bent
on pushing through, threatening to
shut off U.S. money for the United
Nations if Red China were ad-
mitted.

Eisenhower said he doesn't want
Red China in the U. N., either
but he said threatening the U. N.
was a poor way to frustrate the
Committee.

At the same time he has a mys-
terious job on his hands trying to
get the Allies to see the American
viewpoint. Some of them, Britain,
for instance, think Red China
should be admitted when there's
a settlement of the war in Korea.

Eisenhower wanted Congress to
extend the reciprocal trade agree-
ment, act without changes that
would shut out more foreign goods
than had been excluded in years.

There was an attempt to write
heavy restrictions into the act but
they were defeated when there's
a promise in the House bill. It seems
likely to sail through pretty much
as he wanted it, and a time when
he is trying to encourage free
world trade.

He has handled his relations with
Congress carefully, in public
and not for the first time. He
has expressed any personal hos-
tility to the man in the White
House, but that doesn't mean he
can't smile his way through all the
time.

He's had some setbacks and may
have more before this session
ends.

His own Republican leaders
brushed him aside on his request
for congressional approval of a
resolution to condemn Russia for
breaking wartime agreements and
cutting the people of Eastern
Europe.

His leaders wanted to add a
criticism of former Democratic
President Truman and Roosevelt,
who had made the agreements with
the Russians.

The Democrats balked, saying
they'd vote for Eisenhower's idea,
but not for the revised version.
The Republican leadership, know-
ing it didn't have enough votes in
its own ranks to outvote the Demo-
crats, ditched the whole business.

Eisenhower didn't put up any
fight on the resolution. Maybe he
didn't look on it as a major issue
anyway. But he has also been
beaten on two other major issues
he has talked of wanting.

One was admission of Hawaii as
the 49th state and the other was
changes in the Taft-Hartley labor
act. Statehood for Hawaii has been
getting the go-by, but Republican
leaders are now talking about mak-
ing it the next order of business
in the Senate in an effort to win
approval. Revisions of T-H at this
session is practically a lost cause.

For the failure on T-H Eisen-
hower can probably blame himself
more than anyone else. There were
lengthy Congressional hearings on
revisions in the labor act. But
Eisenhower sent no recommenda-
tions to Congress either directly
from the White House or through
Secretary of Labor Durkin.

This Eisenhower-Durkin silence
was astonishing to many. Durkin,
in fact, could be kept if changed,
but he never appeared before a
committee to express the admin-
istration's views nor did he make
any recommendations in public.

Eisenhower will face one of his
biggest and most critical tests on

Last Rites are Held For John Pierson

Funeral rites for John Pierson,
who died a week ago Sunday fol-
lowing a heart attack, were held
yesterday afternoon at the Green-
wood Cemetery in Orlando.

Several scouts and their leaders
along with representatives from
other Sanford groups were in at-
tendance.

Burial had been postponed pend-
ing the arrival of a son, George,
who teaches Sanford Wednesday
night from an overseas post.

Meanwhile, plans are progress-
ing for a memorial to Mr. Pierson
at Boy Scout Camp La No. Chee in
Lake County. A committee head-
ed by Robert Lippincott plans con-
struction of a flagpole set in con-
crete on which will be mounted a
memorial plaque. The silver
bust, highest award in scout-
ing, awarded recently to Mr. Pier-
son, will be a part of the memor-
ial.

Aquatic School To Be Sponsored At Beach

The National Aquatic School,
sponsored by the American Red
Cross, will conduct a special new
10-day course in surf rescue safety
at Daytona Beach beginning June
15. It was announced today by
Dick Aiken, publicity director for
the Seminole County Chapter of
the American Red Cross.

The course will be held at the
Mary Karl Vocational School and
pool where students will be housed
and fed from June 15 to 20. All
students passing examinations will
be given certificates certifying
them as instructors in lay courses
for their respective home com-
munities.

Included in the curriculum will
be such comprehensive courses in
life saving, as water safety tech-
nique, diving, swimming, first aid
and surf rescue. Joe Mason will
supervise the course.

The in-day curriculum is being
staged in Daytona Beach through
the cooperation of Daytona of
Florida, the Daytona Beach Red
Cross and Daytona Life Saving
clubs.

October, until Dec. 31. There
is strong opposition in the Capitol
against this request.

Segregation In The South

EDITOR'S NOTE: At the re-
quest of one of our subscribers
we are reprinting the following
article on race segregation in
the public schools of the South.
It is taken from the Pender
Chronicle of Burgaw, N. C., who
gave as its author the editor of
the "Telegraph," a colored
newspaper published in Newark,
N. J. We think the views are
interesting because they are
written by a Negro who lives in
the North.

The efforts made by certain paid
agitators and pressure groups to
have segregated schools in the
South declared unconstitutional
may cause southern Negroes to
lose a lot more than they will gain.

The trouble with this Govern-
ment, as with similar ones, is
that the initiators don't count the
over-all cost to the race. The pre-
sent effort is designed to destroy
the whole pattern of segregation
and to establish an integrated
social order in which there will be
no distinction made in this country
on the basis of race, religion, color,
or nationality.

That is a laudable objective,
but human nature just has not
changed that much, and the
achievement of such an objective
could cause the Negro back 50 years.

Integration in the schools in
the North and East is not a howl-
ing success. A Negro can attend
college in the North, but few of the
States that educate him will hire
him as a teacher. The State of
Connecticut doesn't have 25 Negro
teachers.

Recently I visited Albany, the
capital of New York State, and
learned that the city only em-
ploys three Negro teachers. Our
own city, Newark, with Negroes
constituting 20 per cent of the
population employs 2,200 teachers,
but only 70 of them are Negroes,
and we don't have one Negro
principalship.

Nowhere in these integrated
States do Negroes get anywhere
near proportional representation.
Every device is employed to keep
qualified Negroes from being as-
signed. Recently a reputable New
York labor union made a report
of the employment of Negro teach-
ers in New York City and charged
that a systematic scheme has been
adopted to exclude Negroes as
teachers.

This is not true in the South.
The State of Georgia employed
2,313 Negro teachers, and paid
them close to \$16,000,000 in sal-
aries last year. North Carolina
paid 14,000 Negro teachers over
\$25,000,000 last year. Florida is
another State that ranks at the
top on teacher pay.

If these States, that are now
pouring millions of dollars annual-
ly into Negro pockets which pro-
vide our people with money that
enables them to enjoy the dignity
of man, to enjoy the prestige and
responsibility, to buy homes and
the necessities of life, are forced to
abandon the segregated school, 75
per cent of the Negro teachers in
the South will lose their jobs. Not
only that, but approximately 20-

000 Negro principals will lose their jobs as well.

Can the Southern Negro afford
to take this sort of economic lick-
ing for the privilege of sending his
kids to a mixed school? I don't
think so. The price is too great.
Again, what will happen to race
relations in the South if school in-
tegration is forced down the throats
of the southern Negroes? They
include personal responsibility. Their
employers do everything for them
including selecting an undertaker
when a death occurs.

Certainly rulling out segregation
in the schools is not going to
change the habits of these Negroes,
but white employers will definitely
change their habits, and in the
retirement of these poor people
who are not responsible for the
forced change.

This present movement to end
segregation in the schools is merely
the beginning of a well-laid plan
to completely end segregation in
everything in the South. If this
happens, the Negro will be thrown
into direct competition with the
white race and our business institu-
tions will crumble.

No place in the world do Negroes
own and control as much busi-
ness as those in the South. Atlanta
is without question the Negro
capital of the world. It is the center
of Negro culture, education,
business and finance. And both
Negroes and whites live, work
and operate business with out
either being conscious of the
other's race.

This movement to integrate the
schools in the South is loaded with
more racial dynamite than appears
on the surface, and the Negro will
be the one who is blown away.

During the past two years I
have spent more time in the South
than I have in my office and I
have interviewed thousands of Negroes
in all walks of life and I
have found very few who favor
mixed schools. They want their
own schools, but equal facilities.
This being the situation, one ques-
tion the fairness of forcing these
colored citizens to accept what
they don't want. If a little group
of paid agitators succeeded in
forcing their will upon these
people, it appears to me that they
should at least be given an op-
portunity to be heard.

Right now the southern Negro
is in a better spot educationally,
politically and economically than
the Negroes any place else in the
world. Race relations are con-
tinually improving. Every day
more southerners are recognizing
the Negro as a man and according
him the respect which he merits,
but the southern Negro himself
can do more about improving con-
ditions than can courts, legislation
or pressure groups.

Despite all of the hullabaloo
about the liberal East and North,
no Negro has been made head
of a State college or university.
Down South the woods are full of
Negro college and university pre-
sidents. Down in Texas a Negro

college president of a State school
gets \$15,000 a year.

Negroes need to refresh their
memories on the fact that just
a few years ago we were taking
cain because colored kids in the
South were being taught by white
teachers. We wanted them taught
by Negroes. As Negroes qualified,
Negro teachers replaced white
teachers until now Negro teachers
have completely taken over.

As they were requested to do,
a group goes back into the courts
declaring that the Negro is not
now satisfied with equal facilities,
that the separate but equal law is
unconstitutional, that nothing less
than integration will do. That
doesn't seem fair to me.

State Legislature

(Continued from Page One)
The controversial work early in the session and coasted the last week.
It didn't raise any general taxes (although it took for the state a larger share of betting taxes collected by dog tracks and put an extra assessment on grapefruit to finance an expanded fruit advertising program).
It gave tax relief to a few—by repealing the \$500,000 a year sliding scale license tax on chain-saw and offering farmers and commercial fishermen a rebate on gas taxes paid for their tractor and boat fuel.
Its record \$12 million dollar general appropriation act became law Thursday when Gov. McNarty sent it to the secretary of state's office without a single change or objection—the first time that has happened in many years.
Although the Legislature left something less than half the \$25 million dollar working capital the governor requested, he said appropriations act contained safeguards which "with prudent business management" will let the state maintain a sound financial position.
He referred to a big building fund and clauses in the law which will let him and the Cabinet Budget Commission withhold from expenditure part of the appropriated funds if they think it is necessary.
The Senate Appropriations Committee released just before the session adjourned a balance sheet showing total general fund appropriations of \$357,229,252, which would leave a balance of \$9,170,000 on June 30, 1955, if all of it were spent.
It estimated total available funds of \$361,880,000 for the biennium. Some forecasts range as high as \$375 million.
The Legislature was generous with funds for education (64 mil-

High School Band To Give 100th Concert; Ends Successful Year

By GRACE M. STINECIPHER
Breaking a record for any organization in Seminole High School and that of many high school bands of the same size, the Seminole High School Band will present its 100th performance tonight at the commencement exercises.
These 100 performances include school assemblies, six major concerts, ten parades, among them three state parades (the governor's inaugural parade in Tallahassee, the Ginnville parade in Tampa, and the American Legion convention parade in Orlando), 15-out-of-town trips, 22 performances of non-school nature, and nine performances by the jug band.
Financially, the band has come a long way this year. Through the aid of the principal, the student body, the band parents organization, and by selling various items, the band has cleared up its uniform debt of long standing. This was indeed an accomplishment. The Seminole High School Band and Orchestra Association, headed by Peter J. Bukur, assisted in promoting the band by purchasing two trumpet trumpets and a set of timpani drums.
Several awards were given to outstanding band members recently on Class Day. A beautiful loving cup was presented to Gene Wilkinson, son of Mrs. S. A. B. Wilkinson, who has been the greatest number of being chosen the most outstanding senior. Gene has been captain of the band this year, sergeant and section head last year, played a solo at district contest two years, headed a brass sextet at district and state contests for two years, was a member of the ribbon band for two years, and holds a perfect 'A' average in band lessons for two years.
Special commendation was awarded to Mary Ann Bukur who is the only graduate in the last two years that holds a perfect pink card record.
A gold key was given to each senior who had been outstanding in musicianship and leadership for four years. These are Beverly Benton, Mary Ann Bukur, Dot Johnson, June Vance, Bobby Morris, Gene Wilkinson and Harvey Wilkinson.
Band students who had done outstanding work for two years received a band letter. These included Charles Routhugh, Jimmy Brown, Mickey Durak, Gladys Hasty, Barbara Lowe, Colleen Engerstrom, Geraldine Wilkinson, Marvin McKinley, Robert Newson, Ronnie Robson, Rudman Brunley, James Huffman, Faye Beckham and Patsy Haught.
Recently majorettes were chosen for next year. Heading the group of twirlers is Colleen Engerstrom, they include Freda Smith, Janie Ugleley, Patsy Witte, Sheila Browning and Carol Nutt. Substitutes are Barbara Lowe and Gladys Hasty.
First Sergeant Grace Marie Stinecipher announced that rehearsal will be held during the summer months on Tuesday nights from 7:30 to 9:00 p.m. in the Band

Bathing Beauties To Visit City Tomorrow

Forty bathing beauties riding in 10 convertibles accompanied by a band and a number of state dignitaries will circle the Sanford business district twice tomorrow morning at 9:30 o'clock.
The motorcade will be the New Smyrna Chamber of Commerce's way of announcing to local residents that the sixth annual Seaside Fiesta will be held June 11, 12, 13, and 14 at the beach.
W. J. Cuzens Jr., manager of the New Smyrna Chamber of Commerce, notified Forrest Strickland, manager of Seminole County's Chamber, that because of lack of time the group will be in the city tomorrow morning at 9:30 a.m. to make a stop here as it passes.
A full four day round of activities is planned with highlights being golf and shuffleboard tournaments, dedication of a new bridge, completion of an international air race, outdoor races, dances, and banquets.
The fiesta will come to an end Sunday afternoon, June 14, with a polo match at the Saddle Club polo grounds.

Korea

(Continued from Page One)
Pyun said angrily in an interview:
"I have never come across more dishonorable—and more cowardly—plans. We are greatly disgusted with such an ignominious truce."
He said war prisoners who refuse to return to communism would "commit suicide in disgust."
The violent South Korean opposition has worried Allied leaders. The South Koreans have threatened to continue the fight if an armistice is signed on the present proposal and Pyun predicted bloodshed if some of its terms are enforced.
Clark met earlier with Lt. Gen. William K. Harrison, chief Allied armistice delegate, and Lt. Gen. Maxwell D. Taylor, Eighth Army commander.
He also conferred with Maj. Gen. Thomas Hecren, commander of the Korean communications zone and the man in charge of Allied-held prisoners.
A reporter called to Clark as he drove away: "Anything to say, general?"
"Not a thing, sorry," Clark called back, through the open window of his car.
He declined any comment on the armistice negotiations and reports of an imminent truce.
Harrison flew from Munsan to Seoul to confer with Clark, then returned to the advance U. N. armistice headquarters.
Leaders of the South Korean government were represented as assigned to a truce soon on terms unacceptable to them.
They were said to be taking the position they would not recognize an armistice but that they would not offer physical resistance.
Eighth Army headquarters was rushing preparations for exchange of prisoners of war.
The prospects for an imminent truce sprang from a still-officially-

Shorthand Student Qualifies For Award

Miss Mary George, a student in the Sanford Vocational School for the past year, has qualified for the coveted Gregg Shorthand pin, which is awarded to students reaching a speed of 140 words a minute for five minutes in taking dictation and transcribing same. Miss George transcribed her notes with 97 per cent accuracy.
The pin, which is one of the highest shorthand awards, is given by the Gregg Shorthand publishers through business and high schools. Miss George is secretary for E. J. Moughton, Sr., and has been attending night classes in shorthand and transcription taught by Mrs. Lydia Walt for the benefit of office workers who wish to improve their speed and technique. She also has a beginning class of night students.
Other students are working to win the same award, both in night and day shorthand classes. A number of other students from the night classes have received Gregg certificates for transcription from 60 to 100 words per minute.

Lake Monroe By LADIE SODERBLUM

The Lake Monroe School had its annual picnic Wednesday, June 3, at Crystal Lake. A picnic lunch was served by the mothers. The graduation exercises of the Lake Monroe School were held Wednesday evening at 8:00 p. m. The invocation and benediction were given by the Rev. Bullock, pastor of the Church of Christ of Sanford. Those receiving diplomas were: Sylvia Price, Dorothy Metts, Joyce Boyd, Bernice Smith, Reva ...
Mr. and Mrs. H. Z. Dunn had as their guests Sunday Mr. and Mrs. Walter Hendrix of Orlando.
Tennessee law did not permit Negro admissions and no Negroes had ever applied for entrance.
The presence of 23 bishops indicated the importance of yesterday's decision. The total was said to be the most ever on the campus. Only the Georgia Diocese was unrepresented.
The school is owned by 22 dioceses of the Episcopal Church in 10 Southern states.
Although petroleum is produced in 35 countries, the United States produces and uses more than the other 34 countries.

Sanford Cards Seek 6th Straight In Leesburg Tonight

Sanford Is 4 1/2 Games Out Of 4th; 'Birds Here Saturday And Sunday

By KENT CHETLAIN
Junior Plivius provided Sanford with a well earned respite in its blissing victory onslaught last night and may have insured its first division finish for the huddling Cardinals this half.

Last night's washout in Lakeland has moved back Manager J. C. Dunn's pitching rotation system so as to allow the club's two top ace—Clarence Ingram and Kenie Palmieri—a change to work in the all-important Leesburg series.

Hard working Clarence Ingram, the Albany Georgian who runs 17 laps around the Memorial Stadium every day just to keep in shape, will open the crucial two-game slate tonight against the Lakeland in Venetian Gardens.

Ingram with a personal four-game winning streak will be seeking his fifth straight victory and ninth of the season as against four other

Jamezon Photo
CLARENCE INGRAM
Seeks 9th Win Tonight

Sanford will be seeking to extend its winning ways to six-in-a-row and 12th in the last 15. The Cards have also been victorious in 10 of its last 12.

Tomorrow night the big Cardinal-Laker series moves into Sanford's Memorial Stadium for the conclusion. Cool and deliberate hitting Palmieri with a 5-2 record will be in midst of his seventh triumph and sixth in succession.

The right-handed flash from Elmhurst, Long Island, who has turned in the best pitched games of any flinger of the Cards' mound corps, Monday night, 8-2, from Orlando yielding but seven Senator hits while fanning nine and not issuing a single pass.

SANFORD'S WEEK-END SLATE

Tonight
Sanford at Leesburg
Saturday night
Leesburg at Sanford
Sunday
Deland at Sanford

Those tapering-off Deland Red Hats will be in Sanford Sunday evening at 8:30 p. m. Manager J. C. Dunn has not announced his hurler choice for the contest, but it probably will be either Dave Leonard (1-1) or Walt Mitchell (1-0), the lanky right-hander who just couldn't seem to get out of the innings in his last two starts.

Sanford accomplished something last night it could not do while winning—won a game recently it picked up ground on the Leesburg Lakers, who are entrenched in fourth place. The Lakers finally lost last night when the Cardinals picked up a half-game on the fourth place Lakers to narrow the gap to 1 1/2 games. While Clermont winning, however, Sanford had a half game on the league leaders, the distance now being 7 1/2 games.

F.S.L. PENNANT RACE

Cocoa	31	20	1/2	18
Daytona	32	20	1/2	18
Jax Beach	32	21	1	17
Leesburg	30	22	3	17
SANFORD	25	27	7 1/2	18

Deland's loss to Daytona increased Sanford's fifth place margin over the sixth ranking Red Hats to 1 1/2 games. With 19 games left before the first half ends on June 21, Sanford has a good chance for the first division at its present winning clip and a top flight finish could mean a pennant with the league contenders so tightly bunched.

With an 18-8 winning margin at home and a 7-10 road record, Sanford is definitely a threat in its own ballpark. This factor may mean very much in the first half final since the Redbirds have nine more games to play here and nine more on the road.

The importance of the nine games here is that Sanford must secure such contention as Cocoa, Daytona, Jax Beach and Leesburg in seven of those nine games while four of the road games will be against last place Lakeland, seventh place Orlando and sixth ranking Deland.

Thus, Sanford will be opposing the contenders in seven games at home and only five on the road where the Cardinal won-lost percentage is not too impressive.

CARD CAPERS: Tonight's starting lineup for Sanford will feature six 300 hitters again, despite the loss of 214 hitting Bob Wagner and Catcher Bill Benoit slump . . . Rookies Bill Samuels and Ben Benedict have leaped aboard Sanford's hitting sandwagon and Samuels is leading the pace with .385 . . . Benedict is at an even .300 . . . Tommy Leonard, who hits like a ball afire in Venetian Gardens, will be carrying a .295 .37 average into this evening's contest.

Dismal Detroit Boasts Of Best Rookie Nominee

By BEN PILEGAR
AP Sports Writer
The Detroit Tigers have an outstanding candidate for the American League's rookie of the year, one of the league's leading hitters and a reasonable chance of finishing the season with the worst record in modern baseball history.

As spring training ended Manager Freddie Hutchinson looked over his Tigers, who had finished 63 games behind the winning New York Yankees last year, and declared:

"We're not a last place outfit."
In Hutchinson's favor have been Shortstop Harvey Kuenn, one of the most promising first-year men in either league, and a heavy hitting lineup paced by Bob Nieman at 31-2.

Yet today, with less than a third of the season gone, the Tigers have lost 31 out of 41 contests and are 21 games out of first place. Detroit lost twice yesterday to the Athletics, 11-2, and 9-6, running its present winless string to 12.

The second game was an out-of-control affair by Gene Michaelis in the 10th and marked the 12th time this year that Detroit has been beaten in the last inning.

At the other end of the league the Yankees continued their winning streak at the expense of the Chicago White Sox with a 9-5 decision in 10 innings. The Yankees produced the first place, equalling their best 1952 winning string.

Cleveland whipped the Boston Red Sox, 8-1, and Washington mopped up on the St. Louis Browns, 10-1.

The Brooklyn Dodgers, who hadn't hit a home run in two games, broke out with four, including a grand slam, and defeated the Braves, 10-5. The loss cut the Braves' league lead to a half game over the Dodgers.

Philadelphia moved into the lead on this place by turning back the St. Louis Cardinals, 4-5, in 10 innings. Pittsburgh won its 10-7 straight over Chicago, 6-1, and New York won its eighth in a row to tie up Cincinnati, 11-3.

The White Sox gave a much better account of themselves against Philadelphia yesterday, winning 7-4, running from five runs behind to tie the score in the eighth. But a single by Mickey Vernon followed by Gil Macdonald's home run produced the first two New York runs in the 10th.

Larry Doby contributed a grand slam home run in Cleveland's 11-9 victory over Boston. He drove in the Red Sox, a six-time loser to the Indians since April, 1950, tried to break his 11th but lasted only into the second inning.

Washington moved into a third place tie with Chicago by whipping the Browns. The Senators lashed three St. Louis pitchers for 15 hits including a homer and a single for Mickey Vernon.

Brooklyn got its long ball attack going against Milwaukee as seven of the 11 hits went for extra bases. Max Surkont, who had won straight, was tagged with his first. Bobby Morgan, Duke Snider, Gil Hodges and Carl Furillo hit Brooklyn homers.

Johnny Wyrostek singled home Richie Ashburn with the winning run to give the Phils their third victory in a four game series with the Cardinals.

Bob Hall, who said he was through with the majors when the Pirates tried to ship him to the Pacific Coast League two weeks ago, won his first big league game. Pittsburgh's triumph over Chicago.

Ralph Kiner, playing his first game for the Cubs, got a double. Seven hits and a walk, arranged by Ray Noble's three run homer, enabled the Giants to score seven times in the eighth inning against Cincinnati. Hoyt Wilhelm made his big league appearance for New York and picked up his fourth victory. All of Cincinnati's runs were homers—two by Ted Kluszewski and one by Roy McMillan.

The largest fish ever caught in Golden Lake was recently pulled in by R. K. Chism, an electronics technician who is attached to Composite Squadron Nine based at NAS Sanford. The fish, a 10 pound large mouth bass was caught while Chism was casting from a boat in the middle of the small lake. Golden Lake is located on the southern edge of the Naval Air Station and is used as a recreational area and fishing spot by the personnel of the station.

Rickey Says He Would Rather Have Winning Team Than Hero

By JOE BRADEN
PITTSBURGH — Branch Rickey, general manager of the Pittsburgh Pirates, admitted he is a little worried about fan reaction to his trade of home slugger Ralph Kiner. But, says Rickey, "I'd rather have a team that wins than a hero who is a loser."

Kiner and three other players went to the Chicago Cubs yesterday in exchange for a reported \$100,000 and six players. Some fans approved the trade, the Major League Baseball commissioner commented. "But I would rather have a team that wins than a hero who is a loser."

The long rumored deal for the \$125,000 - a year Kiner was announced shortly before the Pirates took the field to beat the Cubs, 6-1, for their third straight win over Chicago.

The Pirates gave up Kiner, outfielder George Melloan, pitcher Joe Garagiola and pitcher Herbie Poller. The Cubs in turn traded pitcher

Sports Roundup

By GAYLE TALBOT

NEW YORK — Tom Tamm, the most articulate of Ezzard Charles' co-managers, was prepared to go before the New York State Athletic Commission today and demand that the former heavy-weight champion be matched against Roland La Starza next month, the longest challenge Rocky Marciano in September.

The expectation was that Tamm would get nowhere. Jimmy Delangelo, manager of La Starza, states emphatically that his fighter will not fight Charles or anyone else over the time he is given his long overdue return crack at Marciano, who beat him on a split decision three years ago. The promotional octopus, realizes all too well that a Charles-La Starza bout might prove such a clunker that nobody would wish to see either of them fight Marciano.

Both the champion and his manager, Al Weill, have said they would prefer to give La Starza the shot. Not necessary, however, in September. They have made the painful discovery that any further fighting Rocky does this year would be for the almost exclusive benefit of the federal treasury. It is a tough problem to lick, and it remains to be seen whether, under such circumstances the commission can force a champion to defend his title every six months.

The crowning mystery of the baseball season in date is the failure of Stan Musial to hit at anything approaching his normal gait. But for the abject fall-down of "The Man" the St. Louis Cardinals might well be leading the National League today.

For five of the past seven seasons Musial has been the best hitter in his league and, in the opinion of many experts, the greatest ball player in the game. All of a sudden he appears to have lost it. Day after day for nearly two months the baseball world has waited for the Red Bird beauty to begin lashing the ball again. Opposing pitchers are the most puzzled of all.

Eisenhower Will Dine 44 Athletic Celebrities Today

By ED CREAGH
WASHINGTON — President Eisenhower, a golfer and fisherman himself, plays host today to 44 celebrities of the sports world.

Heavyweight Boxing Champion Rocky Marciano and Joe DiMaggio of baseball fame are among the topflight athletes, invited to a White House buffet luncheon.

Some ladies are on the invitation list, too—tennis greats Pauline Betz Addie and Helen Hull Jacobs, figure skater Carol Ann Peters and channel swimmer Pierette Chadwick. So Mrs. Eisenhower arranged to be on hand.

The visiting sports stars are here for tonight's benefit baseball game between the Republics and Democratic members of Congress. Eisenhower will throw out the first ball. Baseball figures dominate the guest list at the luncheon.

Besides DiMaggio, the lineup includes Jimmy Fox and Lefty Grove as well as two members of earlier baseball generations, Tris Speaker and Clark Griffith.

Only one golfer is on the list—Gene Sarazen.

Three well-known footballers are included—Dick and Ed Maderewski and the University of Maryland.

Eisenhower plans to remain at the congressional hall game from 7:30 p. m. (EST) until 9:30 p. m. (EST), assuming any legislators are still able to pick up a bat at that late hour.

Sixty-eight members of Congress have signed up for the game, an annual event put on by the Washington Evening Star to raise money for sending needy children to summer camp.

The fiscal managers, Reps. Blum (R-Ill) and Herlong (D-Fla.) both forecast victory today, but possible filibusters by the opposition.

Eisenhower himself promised to remain neutral. But he told a Star reporter he would stand up for the Republicans in the seventh inning stretch.

Bob Schultz, catcher Toby Atwell and outfielders Preston Ward, Gene Hermanski, and Bob Addis.

The Pirates were also given the option to purchase infielder George Petros from the Cubs' Springfield farm in the international league.

"I know some fans will take it hard that I sold their favorite ball player," the 71-year-old Rickey commented. "But I would rather have a team that wins than a hero who is a loser."

Phil Cavarese, Cub field manager, who welcomed Kiner with open arms, said the slugger will bat fifth directly behind Hank Bauer, who led him for last year's home run honors in the National League.

The SPORTS REGISTER

By KENT CHETLAIN
Sports Editor

A baseball fan becomes more and more interested in the game as it is inevitable that they also become interested in the players they see, night after night. . . . It also follows that they will scan the sporting sheets and box scores of other leagues to see if they know any of the players performing in other circuits.

For example, our executive sports editor Roger Ingram informed us that Fred Cavallaro, outfielder with the Seminole Blues last year, is now playing for Fitzgerald of the class D Georgia-Florida league. . . . Cavallaro, the pious outfielder who crossed himself before he batted every time last year, delivered some timely homers — one with the bases loaded against Cocoa in a game Sanford eventually won a month later after it was resumed following a protest by Manager Pop Hamberl.

Cavallaro went zero-for-four against Titton last night, however, good natured Fred pounded out two-for-four the night before. Most local fans will be interested to know that the Cavallaros had their child during the winter. . . . It was a boy.

Speaking of last year's Seminole Blue players, Mrs. Chuck Aleno, a resident of Sanford and secretary to Senator Lloyd Boyle, informed us that Johnny Imbra broke his hand recently while playing for Chuck's Oshawa, Ont. team in the independent Canadian semi-pro league. . . . Johnny was hitting a blazing .370 at the time he led the club.

Chuck writes Mrs. Aleno that the weather is cold up there and it rains frequently. . . . He says the schedule is a lulu. . . . Sometimes the club plays a game at 11:00 a. m. in the morning, then gets on a train to play in another town that same night.

Aleno is hitting .310, but says he hasn't hit his stride because of the weather and the schedule. . . . Both Johnny and Chuck visited newly wedded Joe Parize in New York on the way to Canada. . . . Parize is sticking to his guns at a good job in Gotham. . . . No baseball for hubby.

Another ex-Seminole Blue, Bill "Good Deal" Jones, is currently pitching for his hometown Lakeland Phils in the Florida State League. . . . Jones won over last four last year while appearing mostly in relief for the Blues. . . . The little 19-year-old lefty hurled three innings in relief here last Wednesday evening and blanked the Cards for two stanzas but errors and control trouble enabled Sanford to nick him for three markers in the bottom of the eighth.

Most Sanford fans will best remember Jones as the Blue pitcher who swallowed a big bug while pitching last year here in Sanford. . . . When Jones swallowed the insect he turned his back from the mound and began to choke on it. . . . Manager Chuck Aleno ran over from his third base position and barged Jones on the back yelling, "Put some mustard on it and swallow."

After the inning was over and the Blues retired to the dugout Aleno signaled to a hitch hiker for Jones, who was the first batter in the lineup. . . . Jones responded with, "Good Deal." And since that time was known as "Good Deal" Jones.
