## TEXTILE MEN IN ALABAMA VOTE STRIKE

### General Strike On Pacific Coast Is Set For August Unless Terms Are Conceded

HUNTSVILLE, Alabama, July 10.—(A.P.)—The Huntsville Times today will report that approximately 80,000 textile workers in the Alabama mills have voted to strike and that a meeting will be held in Birmingham Sunday to vote on the strike date.

The paper quotes John Dean, general representative of the president of the United Textile Workers of America, and Albert W. Ott, state representative, as saying a strike has already been voted which shorter hours, pay increases, and changes in working conditions.

Dean described the conditions under which the workers in textile industry are employed as "the worst in the union" and said the national union would aid the Alabama strikers.

The general strike threatened by workers of the Pacific Coast as an outgrowth of the union recognition strike by 17,000 coast longshoremen is expected to start Monday morning today. The 17000 members of the San Francisco and Oakland based union are expected to strike Thursday unless peace seemed near.

In New York, negotiations to end the bootleggers' strike were obstructed when the commission merchants objected to the personal visit of a government agent named by the workers to inspect for liquor.

An Erie, Pa., violence broke out among cannery workers following a strike. State police were called in to disperse several hundred workers throwing stones, hitting windows of vegetable stores.

Two men were under arrest, a policeman grabbed himself, 60 depots swung clubs to convey trucks. The strike was over wage work.

## Frederick H. Rand Killed Instantly In Auto Accident

An automobile accident which occurred 17 miles north of Jacksonville yesterday afternoon claimed the life of Frederick H. Rand of Miami, prominently identified with the life of that community for the past several years and member of one of Florida's oldest families.

The dead, 40-year-old, late Fred-erick H. Rand, one time mayor of this city, one time president of the First National bank, was born in Longwood about 10 years ago. He resided in that community for several years, but he was left Longwood to attend college, he returned to Longwood and Sanford only occasionally.

He was a recent visitor in Sanford, calling on old friends of the town.

## Paola Men Arrested In DeLand To Stand Trial For Trespass

R. F. Humphrey, assistant postmaster at Paola, and J. D. Mays, 19-year-old resident of that town, were arrested in DeLand today to stand trial for trespassing. They were arrested by Deputy Sheriff O. R. Estridge today.

Humphrey was released under \$500 bond on Saturday afternoon, pending his appearance in DeLand this morning before Justice of the Peace Heister Foster. Mays has been in jail in DeLand since his arrest Thursday at midnight.

The two men were identified by a Mr. and Mrs. R. C. Seeger of DeLand as the men who peered through the window of their home at about midnight Thursday, according to Deputy Estridge.

Both men fled from the scene when they were surprised in their "peeping Tom" activity. Citizens and officers with bulldozers caught Mays near Orange City after an hour's chase. He was lodged in jail at once, where he gave the name "O. Gant".

Humphrey was not arrested until Saturday, and then on suspicion and at the request of DeLand police. Deputy Estridge took Humphrey to DeLand late Saturday where the latter is said to have confessed that he was with Mays when they were surprised.

It developed, Deputy Estridge stated, that the men fled the scene and left an automobile, belonging to Humphrey, in DeLand. Police there believed that Mays had been there and had abandoned it. Humphrey stood in a story that he had seen the same man with the car, but that he had not seen the man since.

Mr. and Mrs. Seeger were accompanied by Deputy Estridge to Paola for their trial.

## AMOUR Fertilizer Opens Warehouse

The absence of several AMOUR Fertilizer warehouses in Sanford has opened a warehouse from which it will be distributed in this area under the management of L. E. Hillyer, Sanford district representative resident at DeLand.

Large interests have been secured at Sanford and the warehouse is located at Central Avenue, Sanford Street. The warehouse will open next week and will be managed by Hillyer.

The warehouse was opened yesterday and was surrounded by a large force of police.

## Campaign To Raise Funds For World's Fair Is Said To Be Going Over The Top

### RICHBERG INSISTS ECONOMIC PLANS ARE NECESSARY

#### Government Head Desires Economic Constitution For U. S.

CHARLOTTESVILLE, Va., July 10.—(AP)—Development of an "economic constitution for the establishment of self-government in industry" yesterday was named formally as the fundamental problem of the recovery program.

Donald R. Richberg, NRA general counsel and executive director of both the national emergency council and the new industrial emergency committee, asserted in an address before the institute of public affairs at the University of Virginia.

"This ideal economic planning is an ideal in harmony with political planning for self-government," Richberg said.

Richberg, who at President Roosevelt's direction is seeking to coordinate the government's industrial policies, said the goal of "a planned economy which is neither fascist nor communist in character, which is determined by the dictatorship of autocracy" is "in harmony with the ideals of those who first wrote the Declaration of Independence and then the Constitution of the United States."

"If we can write into that (economic) constitution," Richberg said, "a representative form of government based on a free choice of a free functioning of the representatives of all interests, using the substance of political government merely to enforce the considered judgment of the majority, we may devise a method of self control which will last long after the present experiments in political control in other nations have disappeared."

Richberg said it may be worth while to dispel the myth that the process of establishing codes of fair competition is a theoretical experiment being carried on by a mythical group of youthful brain trusters operating under a presidential dictatorship.

On the contrary, he said, NRA codes were written by representative groups of trade and industry (Continued on Page Three)

## CITY FATHERS DISCUSS OFFER FOR LIGHTING

### Insurance Group May Bring Suit Against Sanford To Acquire Preferred Creditor

Sanford city fathers are discussing the offer of the Florida Power and Light Company's recent offer to give the city 50 percent more street lighting service at no additional cost.

This was decided at a meeting of the City Commission last night when, after Mayor W. A. Leffler and City Commissioners V. A. Speer and S. O. Shindler had expressed opposition to the offer, Clerk F. S. Lamson was authorized to communicate with officials of the company to say that the Commission did not act on their offer.

Discussion of the offer came at the close of a meeting in which the Commissioners were advised that the United Mutual Life Insurance Co. is considering action to establish itself as a preferred creditor of the city on the grounds that it holds city bonds which were issued long before the "boom" and its effect on the credit of Sanford. This problem was referred to City Attorney F. R. Wilson.

If the City Commission accepts the Florida Power and Light Co. offer it would first have to sign an agreement in which all present contracts with the company are nullified.

The company then would give the city 50 percent more service at no additional cost for a period of 10 years, a period under which the present contract would be in suspension, to be resumed at the end of the 10 years.

Mayor W. A. Leffler expressed his opposition to the plan because "It involves the city under contracts for too long a time."

Commissioner Shindler, expressing his opposition and reluctance "to sign such a contract at this time," stated that the new agreement obviously strengthens the company's position locally while at the same time weakening the City's position.

Commissioner Speer, agreeing that the City should not be tied up any more than it is with the company and its contracts, reminded the Commissioners that although the present contract is understood to end in eight years, the City will not be obligated to purchase current for the operation of the waterworks after Oct. 1, 1936.

Commissioner Speer said he urged the Commission to set aside a portion of the earnings of the waterworks for the purchase of a generator that could be pressed into service to permit the City to manufacture its own electricity.

Commissioner Lehman, while expressing some opposition to the offer, was of the opinion that "since our contracts appear to be legal and we can't break them, I think we ought to go ahead and (Continued on Page Four)

## AUTOMOBILE GROUP STUDIES PROGRAM

WASHINGTON, July 10.—(AP)—President Roosevelt's aviation commission, headed by Clark Howell, Atlanta publisher, today began its job of formulating an advanced and integrated aviation program for the country. The commission members assembled at the White House to organize and prepare for public hearings and private investigations. Howell, arriving early today, emphasized that the commission will delve into every phase relative to efficiency, safety, and cost.

## ROOSEVELT GETS WELCOME IN COLOMBIAN PORT

CARTAGENA, Colombia, July 10.—(AP)—President Roosevelt arrived in the harbor here shortly after 10 o'clock today on a history making trip to South America, the first ever made by an American President.

Two Colombian destroyers met the American battleships outside the deep harbor and a plane flew overhead as guns boomed salute after salute while crowds of Colombians lined the dock of this seaport city.

Up early, the President watched the maneuvering into the harbor and remained aboard the cruiser Houston to receive President Enrique Olaya Herrera of Colombia at a formal luncheon.

Later in the afternoon he went ashore, using the destroyer Wilkeson to reach the pier for a motor ride about the quaint old town. The President ordered the American ships into formal dress in honor of the occasion and a myriad of pennants flapped in the tropical breeze.

## Justice Of The Peace Court Records For June

Joe Smith, fined \$50 for improper exhibition of a deadly weapon, and \$25 for open profanity.

Clay Jefferson and Clyde Davis fined \$10 and costs each, and Arthur Walker fined \$5 and costs for beating way on a train.

Lewis Hedding and C. C. Severy, fined \$5 and costs each for bare assault.

Curly Thompson, fined \$5 and costs for being drunk.

Lewis Ayche, fined \$10 and costs for being drunk and \$10 and costs for using open profanity.

Willie Harris, fined \$4 and costs for taking and using the property of another.

James Henderson, fined \$10 and costs for gambling.

Essie Mae Williams and Little Mae Green, charged with aggravated assault, and James Terry, charged with petit larceny, were transferred to county court for action.

## Cronin's American League All-Stars Beat National League Stars By 9-7

NEW YORK CITY, July 10.—In a free scoring, wild-hitting game in which 62,000 fans saw a parade of America's finest baseball stars, Managers Joe Cronin's American League All-Stars defeated Manager Bill Terry's National League All-Stars by the score of 9 to 7.

Unable to do a thing with Carl Hubbell, ace hurler of both leagues, the Americans fell on the offerings of Lou Wernke of the Cubs and Van Mungo of the Dodgers, copying eight runs in two innings, to be halted by Dizzy Dean of the Cardinals who permitted only one run in four innings.

In the meantime, the National stars had, aided by home runs by Fricch and Medwick, scored four runs off Lefty Gomez of the Yankees, and three runs off Red Kuffing, ace of the Yanks. But they ran late a stone wall upon Siding Mel Harder of the Cleveland Indians. Harder held them to one hit in five innings, and his hurling, plus the hitting of Earl Averill, his team-mate, and Al Simmons of the

## ENGLAND AND FRANCE AGREE ON WAR POLICY

### Britain Will Again Aid France If Belgian Territory Is Invaded By Germany

LONDON, July 10.—(AP)—Louis Barthou, the French foreign minister, indicated today upon his departure from here, that Great Britain will not assist Germany in case the Franco-Belgian area is invaded by a foreign power.

Leaving for Paris after two days of momentous conversations with British officials, he indicated further that Great Britain has sanctioned in principle the eastern security pact in which France is participating although Britain is not a signatory.

France and Britain "are agreed on the European situation" the French statesman said on his departure. He expressed the highest satisfaction with the results of his visit, reiterating that no formal pact of any kind had been signed but that the two nations had reached a "friendly understanding."

Francis Petri, minister of the navy, remained to have charge of the French side of naval discussions in preparation for the 1935 conference which is also said to be "going satisfactorily."

## Reichstag Called To Hear Hitler's Side Of Killings

### Storm Troopers Are Ordered To Turn In To State Their Arms, Munitions

BERLIN, July 10.—(A.P.)—The Reichstag was convened today for Friday to hear a speech by Chancellor Hitler on the events which made the executions of June 30 necessary.

Chancellor Hitler, who since June 30, the date of the climactic events marking the beginning of the "second revolution" has remained almost completely silent, will use the forum of the so-called national parliament to address the nation and the world.

His speech is calculated to answer the innumerable questions that German citizens and foreigners had been asking in explanation of the June executions.

Almost simultaneously with the Chancellor's announcement, secret orders were issued in Munich to a section of the Storm Troop by turn in their arms which were described as "state property." It is presumed the order came from Victor Lutze, the new head of the Storm Troop.

The Reichstag under the Chancellor's policy is called together only upon the most important occasions when the attention of the entire world is focused upon the meeting for the purpose of having representatives of the people endorse his actions and words by loud acclaim.

The Associated Press is reliably informed that Catholic bishops have sought an agreement from Hitler that he would state in some public speech that he had nothing to do with so-called "Hitler's accomplices." But Hitler is still adhering to the point in his party program which insists the new state shall be based on a basis of "positive Christianity."

It is understood the bishops made this a condition of their ratification of the concordat agreed upon between themselves and the government's representatives at the Vatican.

## County Agent Dawson Talks To Rotarians

County Agent C. R. Dawson appeared before Sanford Rotarians today at their luncheon meeting in the Valdes Hotel, to give a short survey of what he expected to accomplish in his new role in the agricultural life of this county.

Mr. Dawson explained that while he has yet to receive an official program for Seminole County from state headquarters, he is gathering data of all types, conducting investigations, and making it ready for immediate use in the interests of the grower-shippers, dairymen, poultry raisers, and other agriculturists in the county.

The Rotarians reached a decision to stage a boat race, probably a "stag" affair, early in August. Rotarians Asher Peter and Dave Laycock of Orlando were guests at the meeting over which Rotarian W. M. Haynes presided in the absence of President G. W. Spencer who is in Kansas City attending an Elks convention.

## Couple Go To Jail For Driving Drunk

TAMPA, July 10.—(AP)—Straight jail sentences were imposed on a man and woman who pleaded guilty in separate cases to driving while drunk by Judge Fitzroy in criminal court yesterday.

Alvin Mae Stanton, 22, was sentenced to 30 days in the county jail. H. B. Bove, arrested on the same charge by Constable Newburger in the Sulphur Springs section, was given 30 days and ordered to pay a fine of \$100 and costs, or serve an additional 30 days in county jail.

## Still Is Seized In Law Officers' Raid

A 200 gallon capacity still, 10 gallons of clear, white, double-distilled liquor, five gallons of mash, and a quantity of sugar, charcoal, and other items needed in the manufacture of the product were displayed at the Court House this morning by Deputy Sheriff R. J. Hickson, who, with Deputy M. C. Tyler of Altamonte Springs, arrested R. J. Maple, and confiscated the still near Altamonte Springs this morning.

Acting upon information they had secured, the two deputies went into the scrub for about one half a mile off the Lake Howell road west of Altamonte Springs.

They reached the site of the still in time to find Mr. Maple in the act of operating the still. His arrest followed, and, after the deputies had destroyed about 200 gallons of mash, they loaded all of the evidence on an automobile and brought it to Sanford.

Maple was placed in the County Jail under a tentative charge of possessing a still. Deputy Sheriff O. R. Estridge stated that unless he pleads guilty upon arraignment before Judge J. G. Sharon, Maple will be held for the October term of County Court. Maple has not been arrested before in this county, Deputy Estridge stated.

## ONION WEDDERS STRENGTHENED

KENTON, O., July 10.—Twenty-three strikers in Kenton, Ohio, left work yesterday as several hundred law violators returned from their leader, Gray O'Neil, their location in "see this" through.

## NEW ATTEMPT MADE TO FIND OIL IN FLORIDA

TAMPA, July 10.—A derrick more than 100 feet high is being erected near 100 in the southern part of Hillsborough county, preliminary to a new search for oil in Florida, by Malone and Pope, Inc., experienced oil field operators.

The well at Balm, it is reported, will be the first of four or more to be drilled in Hillsborough county, at depths of 8000 feet, if necessary, in an effort to determine whether or not many well known geologists are correct in their belief that the Florida peninsula is underlain with large deposits of oil.

Efforts to locate oil in Florida are not new. Wells have been drilled in various parts of the state over a period of more than 15 years. Among the most notable undertakings was that at Hildamar, in Hillsborough county. Another was at Cedar Key. There were also well drilled in Polk, Marion and Sumter counties and at various other points in the state.

But previous drillings, while interesting, are not at all proof that there is no "black gold" under Florida soil, according to Malone and Pope. Where others have drilled only 6000 feet or less, they will drill 8000 feet, they say. That, in their opinion, should determine something.

## GERMANS ATTEMPT TO SOFTEN HESS SPEECH

BERLIN, July 10.—(AP)—An apparent softening of the Nazi attitude toward her neighbors and the great powers brought a surge of calls yesterday for foreign diplomatic missions in Berlin, seeking to know the meaning behind the address of cabinet Minister Rudolf Hess.

The official German version of this was the greatest peace speech of modern times, did not seem to satisfy foreign observers and significance was sought behind Hess' flattery of Louis Barthou, the French foreign minister and his lavish compliments to the French nation, especially to her war vessels.

The fact that Hess, recently mentioned as possible successor to Franz von Papen as vice chancellor instead of Hermann Wilhelm Goering, was chosen as spokesman for Nazi foreign policy also was commented upon as having possible internal political significance.

## TEMPLEARK MARKET

SAN FRANCISCO, July 10.—(AP)—Knights Templar of the United States opened grand commencement business sessions of their thirty-ninth triennial congress here yesterday with acting Grand Commander Andrew D. Agnew of Milwaukee, presiding.

**SEEK TODAY:** Seek ye the  
 good while the day is long, call  
 upon him while he is near.—Isaiah  
 55.

**MCDONOUGH DAY IN NEW ORLEANS**

The nation blouse you wear, your  
 mother said, after a day of toil, "I guess  
 it'll buy you"  
 "These white yards—-as if you  
 would deny it!"  
 For ribbons on your head and  
 bones she paid  
 At night, after a day of kitchen  
 toil,  
 She attached your re-made skirt  
 of serge—once blue—  
 "Wentry of eye, beneath a lamp  
 of oil;  
 McDonough would be proud of  
 her and you,  
 "Not, some white "creepers" and  
 white stockings, too—  
 "They almost asked her blood  
 when they were sold;  
 "Lay some dark pinnease, to the  
 school go you,  
 With blue larkspur and pol-  
 low marigold;  
 "But fern would know—or even  
 fern this fact;  
 "How dear comes beauty when a  
 child is black."  
 —Marcus B. Christian.

"As we see it, instead of every-  
 body yelling "Hitler, Hitler!" they  
 ought to boot him.

"Herr Hitler evidently believes  
 that the way to get ahead in  
 the world is to get a head, and  
 crowd of them.

If Dr. Foss succeeds in re-  
 storing life to the long dormant  
 New West, many are a good  
 many other cities which would  
 probably like to try some of the  
 same treatment.

Speaking of the solar system,  
 Arthur Brisbane says the beautiful  
 "woman" is more than fifty  
 trillion, or \$5,000,000,000,000,  
 miles from this year. That fig-  
 ure has a look strangely like  
 the budget estimate.

Secretary Hull is very gener-  
 ous in his praise of Finland for  
 paying its war debts. He doesn't  
 think the debts are very small,  
 but he said to this country  
 how large Finland would be  
 to antagonize its best  
 customer by declining to pay a  
 relatively small account.

Two coal companies doing busi-  
 ness with the City of New York,  
 in the City of New York, are  
 supposed to look after the  
 taxpayers' interest fastened  
 their own bank accounts. People  
 reasonably wonder how  
 much better off the City of New  
 York might be today if it had  
 secured an honest administration  
 many years ago.

We like the idea of this  
 program, but there is  
 a certain similarity between its  
 plan to get five million men  
 to work and the plan of  
 the NRA last summer to re-  
 employ one million men by giving  
 them work which we don't like. If they  
 do not work, they are not  
 doing things they might work  
 for.

**America's Hitler**

Senator Long may be pretty much of a joke in Wash-  
 ington and an object of ridicule throughout the rest of  
 the country, but in Louisiana he is still monarch of all  
 he surveys. Striding up and down the aisles of the state  
 legislative chamber, shouting "Vote, Yes" as he strode,  
 the "Kingfish" whipped his program through the House  
 and Senate.

Having no more place in the state legislature than  
 Trammell or Fletcher have in Tallahassee, and ignoring  
 the pleas of the unemployed and the threat of the FEPA  
 that federal appropriations would be cut off if state aid  
 were not given, Senator Long bullied and cowed local  
 representatives into submission and devoted the entire time  
 of the legislature to his bills of reprobation.

One of them is a measure by which the Senator pro-  
 poses to get even with the newspapers. Originally aimed  
 at only the larger newspapers, it was finally broadened  
 to include every publication having a circulation of 20,000 or  
 more a week. This bill would levy a special two percent  
 tax against newspaper advertising, and will be the only  
 law of its kind in existence.

Commenting upon this bill, Senator Long said, "The  
 lying newspapers are continuing a vicious campaign  
 against giving the people a free right to vote. We man-  
 aged to take care of that element here last week. A tax  
 of 2 percent on what newspapers take in was placed upon  
 them. That will help their lying sons. Up to this time  
 they have never paid license to do business like everybody  
 else does. It is the system that these Louisiana news-  
 papers tell a lie every time they make a dollar. This tax  
 should be called a tax on lying, 2 cents per lie."

Obviously from this statement, Senator Long has de-  
 vised this measure not to produce revenue for the state,  
 nor as a tax bill for the legitimate purposes of state gov-  
 ernment, but as a means of whipping newspapers into  
 line and to make them get behind him in his vicious ad-  
 ministration. At least he is telling them that they will  
 have the choice of supporting him or being taxed out of  
 existence.

But the rule of the tyrant is not long. This would-be  
 Hitler is rapidly reaching the end of his rope. His des-  
 peration in attempting to muzzle the press proves this.  
 He will fall as Danton, Robespierre, and every other  
 tyrant fell. And his embittered efforts to muzzle the  
 press will be as futile as his rise in power. The newspapers  
 will only fight him harder than ever.

**The Next War**

It was a far cry from the military campaigns of  
 Alexander the Great to the tactics and maneuvers of Haig  
 and Foch in the World War. And when the first Roman  
 gladiator dashed against the enemy in a chariot with huge  
 knives extending from each side, the acme of military  
 aggressiveness was thought to have been reached.

In the war to come, however, there will be as wide a  
 gap between the methods and manners of wholesale de-  
 struction of this new war and the World War, as between  
 those of the World War and the Siege of Troy. Veterans  
 who slept in the trenches, who tossed hand grenades, and  
 camped in machine gun nests, may never march again  
 themselves, but if they do they will say "Is this thing  
 called war?"

**BALANCE BUDGET OR INFLATION**

This week begins a new fiscal year for Uncle Sam. But it is  
 doubtful whether more than 50,  
 000 out of our 50,000,000 people of  
 voting age took the time or  
 trouble to read the accounting  
 given by the Roosevelt Ad-  
 ministration for the year just ended.

Holder of government bonds,  
 bankers, economists and those  
 with an auditing turn of mind  
 probably looked thoughtfully at  
 the statement, but the layman  
 saw only a cluttered mass of  
 figures which do not readily ex-  
 plain themselves.

Yet on the course of govern-  
 ment finance depends more than  
 anything else whether the dollar  
 bill carried in the pockets of our  
 citizens will continue to be worth  
 100 cents or a few pennies some  
 day.

The picture presented by the  
 treasury is a serious one, but by  
 no means insurmountable. It is  
 here in a brief analysis of the  
 government's position which the  
 public by the treasury depart-  
 ment for the year ending last  
 Saturday, as Uncle Sam's ac-  
 counting year always runs from  
 July 1 to July 1:

First—The public debt was in-  
 creased by about \$4,500,000,000.  
 This is the largest increase in  
 public debt in any year in Ameri-  
 can history, except during the  
 World War.

Second—Through rigid economy  
 in the government departments  
 and bureaus which are in no way  
 connected with emergency  
 agencies, the total expenditures  
 for normal operations were \$2-  
 \$33,000,000. This includes an in-  
 terest item of \$757,000,000, but  
 makes no provision for debt re-  
 tirement or for any relief mea-  
 sures or lending by the federal  
 government.

Third—The total receipts of  
 \$2,763,000,000 were received from  
 all sources, exclusive of proceed-  
 ings taxes which are to be paid  
 out to the farmers anyway. But  
 this figure does include interest  
 paid to the government by private  
 borrowers through the Recon-  
 struction Finance Corporation and  
 other agencies.

Fourth—This means that there  
 was about \$100,000,000 lacking on  
 a normal budget (not yet no pro-  
 vision for debt retirement when  
 the law requires about \$300,000-  
 000 a year. This had to be bor-  
 rowed.

The foregoing is based on the  
 idea that a \$4,500,000,000 budget  
 would be composed of \$2,500,000,  
 000 for an ordinary budget about  
 \$200,000,000 for debt retirement  
 about \$200,000,000 for public  
 works and a social program  
 such as the President has outlined,  
 and about \$1,000,000,000 a year for  
 miscellaneous governmental cor-  
 porations, including agricultural ad-  
 ministrations which institutions will  
 continue for some years to be  
 somewhat of a drain on the  
 treasury.

Unless, however, some such  
 curtailment of emergency ex-  
 penditures is brought about in  
 the next 24 months and unless there  
 are definite indications of such  
 an effort when Congress meets  
 next January to consider the bud-  
 get for the year beginning July  
 1, 1935, and ending July 1, 1936,  
 the fiscal situation will not only  
 be a cause of apprehension to in-  
 vestors from whom long-term  
 money is to be sought, but busi-  
 ness itself will feel the paralys-  
 ing effects of an uncertain cur-  
 rency.

The moral is that if we are to  
 avoid currency inflation a couple  
 of years hence with its har-  
 mful effects on the working people, there  
 must be a balanced budget plan  
 soon, and both Congress and the  
 President must really stick to it,  
 no matter where the political shoe  
 may pinch.

**Sanford Forum**  
 Keene, N. H.,  
 July 2, 1934.  
 Editor Sanford Herald,  
 Sanford, Fla.  
 Dear Sir:

When one realizes how much  
 Florida's prosperity relies upon  
 her winter tourist trade, it is well  
 to know how other states treat  
 Florida citizens and how they han-  
 dle the auto tag situation.

This town has a population of  
 approximately 12,000 and a mo-  
 torcycle officer, it seems, to every  
 mile—yet we have been here since  
 the middle of April—and not a  
 word about changing tags. One  
 also is required to have a driver's  
 license if they drive any  
 but their own out of state car.

I have secured employment here  
 and have established a residence  
 and knowing our own state laws  
 relative to such procedure I went  
 down, several days ago, to take out  
 the necessary tags, licenses, etc.

It is not that I am opposed to  
 the state's right to collect tax,  
 but that I am opposed to the  
 way in which it is collected.  
 I am sure that you are  
 also opposed to the way in which  
 the state collects its taxes.

Keep your children far to-  
 morrow as they are today...  
 in changeless Photographs.

**Golf, too, has its Business Moments**

**"HEAD DOWN, eye on the ball."** When this admoni-  
 tion to yourself brings the reward of a singing drive  
 up the fairway, a beautiful mashie shot to the green or  
 a twenty-foot putt right into the cup... It's then  
 that the real thrill of the game begins to seep into your  
 veins; the worries of state give way to the pleasant  
 concern of lowering your score; while the fresh air and  
 the exercise pay dividends in health and mental fitness  
 for the battles of life.

**"Head down, eye on the ball."** But keep your eye  
 also on that other phase of production of added pleas-  
 ure—the possession of up-to-date equipment.

August is golf's mid-season. Prices of golfing ac-  
 quisites are on or somewhat below their peak. That set of weathered brass  
 that swanky new-carried bag, those comfortable  
 spiked moccasins, or those low-cut, soft-soled  
 golfer shoes—all are beckoning to you from the stores  
 in this city.

Keep your "head down"—and keep your eye on  
 your golf down too. Keep your eye on the golfing  
 gear. Savings begins with the purchase of your  
 golf—its at hand.

## Personals

Mrs. T. F. Adams has returned from Oklahoma City, Okla. and Lexington, Ky. where she spent a month visiting relatives.

Mrs. E. S. McGinnis has returned to East Orange, N. J. after spending a few weeks here with her sister-in-law, Mrs. W. C. Hill, 1900 Magnolia Avenue.

S. O. Chase arrived yesterday from Asheville, N. C. to spend a short time here. He was accompanied by Randall Chase who spent the week-end in Asheville.

The Rev. Mortimer Glover of Milledgeville, Ga., formerly of this city, and his father, Mortimer Glover, of Pittsburgh, Pa., spent yesterday and last night here.

Dr. and Mrs. W. T. Langley and guests, Miss Rachael Simmons of Mountville, S. C., and Miss Clemmone Thomas of Milledgeville, Ga., have returned from Daytona Beach where they spent a few weeks.

Miss Naomi Hutchins and Miss Winifred Hutchins left Sunday afternoon for Winter Garden where they expect to spend a few weeks visiting friends and relatives.

Miss India Leslie of Haines City returned home Sunday after visiting Mr. and Mrs. William E. Williams at their home in San Luis for a short time.

Mrs. B. F. Wiltner, who underwent an operation recently at the Fernald-Laughton Memorial Hospital, left Sunday for Orlando to convalesce at the home of her sister, Mrs. George McCullough.

Mrs. Anna Amick, Mrs. Roy Bernard and son, Harold and Joe, and Mrs. Alfred Porter of Orlando have arrived to spend a week here with Mr. and Mrs. E. B. Randall, Jr., West Sixteenth Street.

Mrs. Sadie Moses and sons, Julia and Raymond Baumel, left today for New York City where they will spend the summer. They were accompanied as far as Brunswick, Ga. by Mrs. A. Zalmonovitz who will spend several weeks there with relatives.

R. M. Schwartz, who has been receiving treatment at the Florida Sanitarium in Orlando, is improving nicely and left with Mrs. Schwartz today for Chicago to spend a short time. They will go from there to points in Canada for the summer.

Mr. and Mrs. W. C. Hill, Miss Caroline Hill, and "Sonny" McGinnis are planning to leave Thursday for Clayton, Ga. to spend several weeks at the Hill's summer home. They will be joined there later by Mrs. Lela S. McGinnis.

## Social Calendar

## City News Briefs

(Continued From Page One)

the grounds that a previous permit issued to it had been revoked.

Although he stated that he has not heard of an authentic case of the screw worm fly in this county, County Agent C. R. Butler says he will be constantly on the lookout for it. He requests that stock owners keep even a "more careful watch over their stock, and report to him, at his office in the Court House, any case where the maggots may be suspected. Mr. Dawson points out the importance of finding the infestation early so that the chance of stamping it out will be better than after the worm is widespread.

Fishermen returning from New Smyrna beach these days are reporting that experiments at shark fishing, now being conducted by the Casavari Pier and Fish Co., are meeting with success. Employees of this company are said to be catching from 20 to 30 sharks a day. A large boat is anchored to the ground about three and a half miles out at sea where six 600 foot shark nets are set. A crew of six men catch the sharks and skin them on board. Smaller boats then bring the hides, liver, and fins to shore, where they are prepared and sent to various Northern and Eastern markets.

Judge Millard B. Smith of Titusville, who was named by Governor Sholtz to assist Judge Frank A. Smith in disposing of an overloaded criminal court docket in Orlando this week, is the presiding judge in the case of the State of Florida versus Mrs. Betty Castiel, charged with first degree murder in connection with the death of her husband last February. The case has attracted unusual interest. Mrs. Castiel is the first white woman

Orange county has ever tried for first degree murder.

The Sanford Herald was one of 22 Florida dailies that had, up to July 5, signed the newspaper publishers' code which was agreed upon recently by publishers' representatives and the NRA code authority in New York City. C. R. Butler,

field representative, named the signing newspapers as: The Sanford Herald, Bradenton Herald, Daytona Beach News Journal, Fort Myers News Press, Fort Pierce News Tribune, Jacksonville Times Union, Jacksonville Journal, Lake Worth Leader, Miami Herald, Miami Daily News, Pensacola Journal, Ocala Banner, Palm Beach

so necessary in the public interest, the processes of industrial production and distribution upon which depend the political as well as the economic freedom and security of all the people.

"We cannot preserve the constitution of the United States as a charter of political freedom by construing it as a charter of economic anarchy. We cannot maintain our structure of political law upon the foundation of economic lawlessness. We cannot preserve individual liberty by sanctioning the right of any individual to use an economic power, any more than a political power, to oppress his fellow men."

"But we must make sure that they will govern themselves, not as warring economic states, or as trade monopolies, each seeking to prey upon the other, but as groups of individual enterprises, each as independent as an individual home but all working in accord with a common purpose to serve as co-ordinating parts of an economic system designed to serve the needs of the nation."

## Richberg Insists Economic Plans Are Necessary

(Continued from page one)

and were the product of majority rule. He added:

"To claim that such a process of self-government is invalid, under a constitution designed to establish and perpetuate government by the consent of the governed, is to claim that the American people have decided to surrender the power to control, determine the power to control,

# ROCKIN' the BOAT REVUE

Passengers and sailors who will present the Rockin' the Boat Revue at the Milane tomorrow are pictured above. On the upper right is Capt. Arnold Peck and Pinkie Porter, one of his "goofiest gobs. On the lower left is another view of the captain issuing orders to other members of his crew. On the upper left is May Mansfield and on the lower right are three of the six beautiful whoopee couquettes.

Labeled as a "crazy cruise" the Rockin' the Boat Revue is expected to provide a new kind of meritment for local vaudeville fans.

In addition to the captain and his passengers there are some 16 goofy gobs and half as many "gorgeous girls" who will contribute much to the gaiety of the occasion.

On the screen will be the feature, "Wild Gold", starring John Holes.

Orange county has ever tried for first degree murder.

### STAR GAME LED INTEREST OF EVERY FAN

### Victories Of Majors Paraded Before Big Crowd In New York

NEW YORK, July 10.—(AP)—Major league baseball today forgot for a day the bitter strife of the middle stages of two heated pennant drives, and gave up to the public its heroes for the all-star duel of the American and National League teams in the Polo grounds.

Wednesday it will be business as usual in the two major circuits, with the New York Giants fighting to stave off the surge of the Cubs in the National League while the Yankees pick up again the job of leading off the Detroit Tigers in an effort to make the metropolitan world safe for the first five-cent world series since 1923.

But today was strictly the day of the faithful from one end of the line to the other as 52,000, all the National League grounds will hold, picked into the stands, while the rest of the 200,000 who voted the making of the two teams in a nationwide poll, along with hundreds of thousands more who didn't vote listened in by radio to the resumption of hostilities begun for the first time with a 4 to 2 American League victory in Chicago last October.

There was growing sentiment last night that this might be the day of the National League, the team Bill Terry, manager of the New York Giants, will lead from first base against the blazing array of Joe Connor, leader of the Senators, directs from shortstop.

The last time these two tangled, Terry had all the advantage as the Giants ploughed Washington under in brisk and decisive fashion in the World Series last fall. His feat left handed screwball act, sent Hubbell, was of great comfort to him then, and again today it will be Hubbell for the National League in a southpaw duel at the

start against "Lefty" Vernon Gomez, a pitching battle the baseball world has been looking forward to and arguing about for months.

Although the odds in Jack Doyle's book were 4 to 5 against either and take your choice, there is no questioning the fact that the entire spirit and morale of the National League has been strengthened with the rise of "Lefty" Terry and his Giants.

The American League rosters scoff at this. They figure, and probably with deep wisdom, that a fellow will need more than luck today throwing them down the alley to the belting array backing the American League hurler.

### CITY FATHERS DISCUSS OFFER FOR LIGHTING

(Continued from page one)

sign this offer and take advantage of the chance of having our City properly lighted at no additional cost." Mr. Lehman indicated, however, that he did not care for the offer in its present form.

During the discussion, City Attorney Wilson pointed out that H. H. Coleman, local manager for the company, had advised him that a revision of the present contract is out of the question.

The Commissioners opened their meeting by hearing S. D. Higleyman make an appeal for \$150 as the City's contribution to the fund now being raised for the Florida exhibit at the World's Fair. A \$100 contribution was authorized.

H. B. Pope, representing the American Oil Co., was given permission to erect another series of gasoline storage tanks and a warehouse on the north end of the Orange State Oil Co. property.

As a member of the City Planning board, Mr. Pope reported that the Board sees no objection to a request by Otto Caldwell of the St. Johns River Line Co. that his firm be permitted to extend its warehouse 75 feet west of its present location at the foot of Palm-tree Avenue.

Mr. Pope's report on this subject was accepted with thanks, and Clerk Lamson was instructed to communicate with Mr. Caldwell in the matter of arranging for a long-term lease on the City's property, needed to complete proposed improvements.

The Commissioners listened to the reading of five bids on a new one and one-half ton dump truck for the street department, but no action was taken since the bids were taken under advisement.

R. J. Reel, Dodge dealer, was low bidder at \$701.83, with Ed Higgins of the Proctor Chevrolet Co. second low at \$785.80, and Rupert Strickland of the Strickland Motors Co., Inc. third low, third low with \$708.47. The Sanford Buick Co.'s bid was \$868.70, while the Orange State Truck Co.'s bid was \$864.40.

Clerk Lamson was instructed to send checks to the Bondholders' Protective Committee for \$12,200, to the United Mutual Life Insurance Co. for \$265, and to De Cotter and Bagns, attorneys, for \$1325, representing funds collected and due each, under contracts with the city.

No action was taken on a bid by the Palatka Boat and Construction Co. asking \$1125 to remove all of the wooden piling now coming off the wooden piling now coming off the north side of the canal.

The Commissioners turned down a request to the Florida League a request to the Florida League \$75 of the expense involved by the League in the Roger Babson City of Sebring bond suit, but the Commissioners authorized the payment of \$50 representing League dues for the coming year.

The Commissioners voted to assume responsibility of the telephone bill for the National Re-Employment Office on Magnolia Avenue, under certain reservations.

Clerk Lamson announced that E. A. Londenburg had delivered two City bonds in payment of a year's rent on the old Nickel farm, now city-owned, on the West Side. He also stated that the Umatilla Fruit Co. had approved a re-

### NATIONAL DRIVE ON CRIME CALLED BY CUMMINGS

### Attorney General Invites Every State To Join Law Campaign

WASHINGTON, July 10.—(AP)—Homer S. Cummings, United States Attorney General, disclosed recently that he plans to call a national conference in the fall to weld law-enforcement agencies throughout the country into a united drive against crime.

The conference, Mr. Cummings said in an address before the National Press Club, will be held in November or early December. Representatives from every state will be invited.

While the agenda has not been completed, Mr. Cummings said the conference "will consider virtually every aspect of crime and approach the problem of law enforcement in a way never before attempted." He said the conference plan had been endorsed by President Roosevelt.

Mr. Cummings felt justified in "reporting great progress in the federal campaign against crime."

"The common gangster, the corrupt politician, the crooked official and the conniving lawyer certainly can find comfort neither in the record nor the outlook," he said, "and the law-abiding citizen can be assured that there has been a substantial measure of recovery in an important sector of the Administration's efforts to bring peace and plenty in the nation—recovery from the ravages of lawlessness. That lawlessness has taken not only human life but its economic toll."

Mr. Cummings said progress so far in the federal offensive which is being augmented as quickly as new men can be trained and new equipment purchased, has shown unscrupulous lawyers and dishonest public officials to be among the most sinister elements to be dealt with.

"In some communities politics and corruption were so inter-

woven, gangsters and officials so interlinked, that the trails followed for criminals also led to men supposed to be holding public trusts. In some instances grave suspicion and public indignation were aroused and fugitive desperadoes were arrested and convicted.

"Along with those things was encountered the silly, coddling attitude of some minor officers, who, if nothing worse, lost their heads in the glare of the limelight. But for behavior of this kind, some of the most notorious gangsters would never have been at large after their first capture."

"I also regret to report that a segment of the public has exhibited a maudlin sympathy toward the most despicable of gangsters. Those who, at this hour, romanticize crime are in a very real sense aiders and abettors of the criminals. This at once emphasizes the need of widespread and accurate information so that a campaign of education can be carried on with the campaign against crime."

Mr. Cummings said the unscrupulous lawyer was one of the chief realizers of the predatory criminals who would defy the law and laugh at its agents.

To meet this situation the Justice Department is soliciting assistance of bar associations throughout the country.

DEVER, Del., July 10.—The eastern peninsula, comprising Delaware and the Maryland and two Virginia counties, presents today an air of prosperity which is contagious in the face of varying degrees of pessimism from other quarters of the land.

From the Mason and Dixon line on the north to Cape Charles at its southern extremity, optimism prevails and business shows along as if depression had never been. Talks with local bankers and farmers, and even with some of the politicians, reveal a wholly different gauge of sentiment from that existing elsewhere, and the answer is not far to seek.

What the Western and Southern farmer apparently has never been able to learn, the farmers of the peninsula have realized through all the three centuries. They are the final settlement by Swedish, Dutch and British immigrants. Peninsula farmers have learned that if one crop fails another may prove a real bumper, and that rarely do all of them fail.

At a recent gathering of agricultural and business leaders here—and only one of the group was a politician—the remark was made that "my county hasn't known such prosperity as this in a dozen years."

"Here's our situation," said this man, a bank director from Georgetown, county seat of Sussex, "the peach crop was winter-killed; there isn't a surplus of that fruit in the whole county. The apple crop is away off too. But look at our wheat, what high, full-earred and golden; they're harvesting it right now to sell around \$1 a bushel to compare with about half that a year ago. Corn is coming on amazingly; sweet potatoes are doing well and the grape crop never a big money maker, however—is promising. All around the Delaware farmer is in a position to strike a handsome balance on his books this year."

The politician—a United States senator—entered the colloquy saying: "I haven't the figures for the whole state, but our county raised rolls have shrunk 40 percent since June, 1933."

This reduction in the census of the involuntarily idle applies at least to the agricultural area of the state and includes the minor towns and boroughs southward from Newcastle.

"It was not until the federal government barged into the relief field that anybody down here ever thought that organized governmental relief was necessary," interposed a Kent county banker. "You can call current conditions 'prosperity' or just persistence of normal conditions, the peninsula has never known the depression since 1929, except for the industrial shutdowns in Wilmington, our only 'big city.'"

"In this whole period we've lost only two banks. They did not fail but were taken over by the stronger financial institutions and game conservation agent."

From the Mason and Dixon line on the north to Cape Charles at its southern extremity, optimism prevails and business shows along as if depression had never been. Talks with local bankers and farmers, and even with some of the politicians, reveal a wholly different gauge of sentiment from that existing elsewhere, and the answer is not far to seek.

What the Western and Southern farmer apparently has never been able to learn, the farmers of the peninsula have realized through all the three centuries. They are the final settlement by Swedish, Dutch and British immigrants. Peninsula farmers have learned that if one crop fails another may prove a real bumper, and that rarely do all of them fail.

At a recent gathering of agricultural and business leaders here—and only one of the group was a politician—the remark was made that "my county hasn't known such prosperity as this in a dozen years."

"Here's our situation," said this man, a bank director from Georgetown, county seat of Sussex, "the peach crop was winter-killed; there isn't a surplus of that fruit in the whole county. The apple crop is away off too. But look at our wheat, what high, full-earred and golden; they're harvesting it right now to sell around \$1 a bushel to compare with about half that a year ago. Corn is coming on amazingly; sweet potatoes are doing well and the grape crop never a big money maker, however—is promising. All around the Delaware farmer is in a position to strike a handsome balance on his books this year."

The politician—a United States senator—entered the colloquy saying: "I haven't the figures for the whole state, but our county raised rolls have shrunk 40 percent since June, 1933."

This reduction in the census of the involuntarily idle applies at least to the agricultural area of the state and includes the minor towns and boroughs southward from Newcastle.

"It was not until the federal government barged into the relief field that anybody down here ever thought that organized governmental relief was necessary," interposed a Kent county banker. "You can call current conditions 'prosperity' or just persistence of normal conditions, the peninsula has never known the depression since 1929, except for the industrial shutdowns in Wilmington, our only 'big city.'"

"In this whole period we've lost only two banks. They did not fail but were taken over by the stronger financial institutions and game conservation agent."

### SUPREME COURT TESTS OF N. R. A. COME UP IN FALL

### A. A. A. Rulings Also Are Expected When Season Starts In Oct.

WASHINGTON, July 10.—The Supreme Court of the United States will be confronted with a series of important cases at the October term, in deciding which it will pass on the validity of the National Industrial Recovery Act and some of the regulations under it. Presumably, too, it will have to pass on the validity of some of the important actions of the A. A. A.

Two important oil cases already have reached the court from Texas. The first is that of the United States of America, appellant, against J. W. Smith, Ray Taylor, John M. Kerr, et al. This is a criminal proceeding in which the government, after being defeated in Federal Court for the Eastern District of Texas, is appealing. Smith, Taylor, Kerr and Kerr were indicted by a federal grand jury for conspiracy to defraud the government of oil.

The second case is that of the Panama Refining Company, et al., appellants, against the United States of America, et al., respondents. In this case the Panama company and other appellants are seeking review by the court of a decision of the Court of Appeals of the Fifth Circuit which was favorable to the government.

The Panama company, a refiner of crude petroleum, joined by A. F. Anding, a producer, brought this suit to restrain respondents from prosecuting them for refusal to furnish reports of production, and disposition of oil by the producer and the purchase, transportation, refining and disposition of the products of petroleum by the refiner as required by regulations issued by Secretary Ickes. The District Court found that the appellants were not engaged in interstate commerce and concluded they were not subject to Section 9 (C) of the National Industrial Recovery Act. The appellants were granted an injunction, which is subject to modification by the government. The Circuit Court of Appeals for the Fifth Circuit reversed the District Court and granted the injunction against the appellants.

has been excellent; in fact much better than for several years; only 25 men out of the 1800 unemployed showing up at sick call this morning, and then only for minor ailments which did not keep them from their various duties.

Governor Dave Sholtz is scheduled to review the troops the latter part of the week, when another regimental parade will be given.

Staff Sergeant Schaal returned to Sanford Monday. However, he will rejoin his company next Sunday for the second week's training period.

Corporal Fox of the Medical Detachment, who has been at the Camp since last Thursday, secured a short furlough to return to Sanford for today. He is scheduled to return to camp early Tuesday morning.

The boys discovered many changes in Camp Foster since they were here a year ago. Many improvements have been made, including a new administration building and 18 new kitchens and mess halls. The kitchens are equipped with the latest type ranges, water heaters and refrigerators, while the mess halls adjoining are entirely enclosed and the boys can now eat their meals in absolute comfort, regardless of weather conditions.

The Headquarters Company take its meals with Company A of Miami, while the Medical Detachment is being taken care of by Company M of Tallahassee. Company D, as usual, has its own kitchen and mess hall.

The first regimental parade was held at 5:25 this afternoon, and was viewed by several hundred people from Jacksonville and vicinity. The feature of the parade was that all men were equipped with steel helmets and rifles with fixed bayonets.

The health of the camp so far

### CAMP FOSTER NOTES

### By E. H. CULLUM

Monday, July 9, 1934

The three units, Headquarters Company, Company D and Medical Detachment, comprising the Sanford Post of the National Guard, 124th Infantry, entrained at Sanford Sunday morning, arriving at the camp at 3:30 that afternoon, for its annual two weeks intensive training.

Immediately upon arrival the boys were marched to their respective stations where the respective advance detail had everything in readiness for them.

There are from Sanford 6 officers and approximately 120 enlisted men in camp here. The following officers joined the Medical Detachment on its arrival here: Major Ralph E. Stevens and Captain C. F. Youmans of St. Petersburg, Captain Boardman (dentist) of Orlando and Captain A. Z. Oberdorfer of Jacksonville.

The boys began to function on a regular daily program today. First call was at 6 A. M., with reveille 15 minutes later.

Company D put in a busy day making targets and loading belts for range practice, which begins Tuesday morning at 6 o'clock, and will be kept up through Thursday afternoon.

Headquarters Company was also busy getting ready for target practice.

The first regimental parade was held at 5:25 this afternoon, and was viewed by several hundred people from Jacksonville and vicinity. The feature of the parade was that all men were equipped with steel helmets and rifles with fixed bayonets.

The health of the camp so far

### ACTS AS BLOW TO RECOVERY

#### Royal Bank Asks Better Understanding Of Investments

NEW YORK, July 9.—An act of the Royal Bank of Canada in regarding business activity and that of the type of activity between investment and recovery were generally considered as a credit would be the Royal Bank of Canada in its Monthly Letter.

"Overproduction of capital goods constitutes the boom, under which the depression follows. Through out both boom and depression the volume of quick consumables produced and distributed remains constant. The variation occurs in consumption of the use of services, is almost altogether to the surplus purchasing power released by the excess activity in the durable goods industries under boom conditions and the deficit of normal purchasing power from this source under conditions of depression.

"For every unemployed worker from those industries producing food, clothing and other immediate consumables, there are ten to fifteen unemployed in the durable goods and service industries. It is the building industry and the industries manufacturing machinery and equipment which have borne the full brunt of the depression. Where consumption of many kinds of food and clothing has been reduced by 10 or 15 percent, the reduction in orders for buildings and machinery and other items of this nature has amounted to from 50 to 85 percent.

"The peculiarly close relationship between activity in the durable goods industries on the one hand and prosperity and depression on the other, is understood and accepted, does it not follow that relative stability could be attained if the balance between capital goods production and consumption of goods production were maintained? Is not the sine qua non of a restored prosperity the cessation of these conditions favorable to activity in the durable goods industries? Let us examine the statistics of unemployment in the United States to determine the extent to which these generalizations are supported by the statistics showing conditions in the groups of industries just mentioned.

"At the depth of the depression in the United States there were 12,500,000 unemployed in the construction goods industries as against 6,223,200 in the building and durable goods industries and 5,750,000 in those industries known as services.

"Those unemployed in services in March, 1933, consisted of 45 percent of those normally employed in railroad work, a quarter of those normally employed in manufacturing, a quarter of those in wholesale and retail trade, domestic and personal service, including hotel and restaurant work, and of total clerical work. With the recovery which has taken place there has been improvement in employment in services. In March, 1934, the unemployment among railroad workers had been reduced to 59 percent and that of those in domestic service and clerical help to

about 17 percent. In spite of the improvement there remained a total of more than 4,000,000 unemployed in services, and 4,700,000 unemployed in the building and durable goods industries. From the maximum of 7,540,000 unemployed in those industries preceding unemployment, unemployment had been reduced to 5,000,000.

The analysis continues, "with that normally 29,800,000 are engaged in production of food, clothing and other quick consumables. Statistics employ 25,000,000 and 10,000,000 are engaged in building and production of durable goods. At present, it says, "only about 10 percent of those normally engaged in the production of consumers' goods are employed, 17 percent of those normally engaged in services and 47 percent of those engaged in building and the durable goods industries.

"With the falling off in the buying power arising from the durable goods industries, the analysis continues, "there are fewer wages available for services, but the amount of food and clothing produced and distributed has remained relatively constant.

"From these statistics it is clear that the outstanding characteristic of the depression was the almost complete cessation of activity in the production of durable goods. Is not this decline the essential cause of the depression? Were not boom conditions general during the prolonged period of low business rates, large capital fluctuations and extraordinary building volume after 1921? It was when excessively high short-term interest rates prevented long-term borrowing that building began to decline and the boom gave place to depression. In like manner, if prosperity in the durable goods industries can be restored there will no longer be a problem of unemployment. To the building and the production of durable goods it is essential that the confidence of the investor in future prospects be restored.

"With the P. W. A. plans and projects as indications of recognition by the United States government of the necessity for activity in the durable goods industries, it is surprising that the act of 1933 should have taken the form which completely stopped long-term financing. It is clear that the production of capital goods cannot be financed by the commercial banking system; this is the function of the investor. There is no possibility that the activity in durable goods industries under the various government public work programs can yield place to industrial and private construction and manufacture until a market for long-term securities is available. In our opinion the securities act of 1933 has been the greatest individual factor in retarding recovery."

#### DAVE GETS MANGOES

PORT MYERS, Fla., July 10.—Governor Dave Sholtz will receive a prize shipment of Lee county mangoes, with compliments of Senator M. O. Harrison of Bradenton. The box of Haden and Cecilia is being prepared by Ray Barnes, who also will send a crate to Senator Harrison. The Bradenton legislator was in Fort Myers recently and was highly pleased with the Lee county fruit.

### KEY WEST MAN SEES FUTURE IN OCEAN HIGHWAY

#### Government May Build Auto Highway Over Florida Keys

WASHINGTON, July 10.—(AP)—Key West as the "American Bermuda" can become a reality in the opinion of W. R. Porter, prominent builder and shipper of the little tropical city, by opening the Miami to Key West over-sea highway.

Porter was in Washington trying to obtain an \$8,000,000 Public Works loan and grant for the bridges between the keys along the seacoast highway when word came that his home city had handed its affairs over to the Federal Relief Administration.

The visit of Julius F. Stoes, Jr., Florida relief director, comprehending a revival of tourist trade to pump new life into the stricken city, was glad news to Porter, one of the city's largest property owners.

Porter agreed a tourist business was what the county needed and said the over-sea bridge and highway following the beautiful ocean front "will turn the trick."

The Floridian was optimistic too. He has been in Washington almost two years working for the P. W. A. and grant, and today he said he was certain the application would receive approval within the next few weeks.

All that remains now to obtain favorable action, he said, was to convince the P. W. A. that the use of the highway and bridges, to be operated on a toll basis, would be sufficient to make the project self liquidating. Porter has been engaged in gathering traffic data to substantiate his claims as to the substantial use of this route to the southernmost tip of the U. S.

The project unquestionably will pay for itself, Porter said. The investment in the over-sea highway, he declared, would be of more value to the people of southern Florida than expenditures of millions in direct relief.

The public works application proposes that a toll of only .61 shall be charged to cross all the bridges, which would trim the travel time to about four hours. Porter said "the best sport fishing in the world" was about Key West.

### A Century of Progress

Louise Lindsay and Helen Larsen, who greet World's Fair visitors at the bicycle exhibit in the Travel and Transportation Building, compare the progress in bicycle design in the last 100 years. Miss Larsen holds an iron-rimmed, wooden-wheeled "bone-shaker," while Miss Lindsay calls attention to a modern wheel with its luxury items such as balloon tires, spring-seat, electric light, rear-view mirror, and coaster brake. The evolution of the bicycle is depicted both by mural painting and by actual vehicles at the World's Fair exhibit.

### Injunction Granted On County Consolidation

TALLAHASSEE, July 10.—(AP)—An injunction restraining publication of a constitutional amendment consolidating the office of county tax assessor and tax collector on the ground that it never properly passed the Legislature was granted yesterday by Circuit Judge J. B. Johnson.

The attorney general's office promptly appealed and the supreme court set Monday for a hearing.

"I would like to see this amendment adopted, because I'm in favor of consolidating some of these offices," Judge Johnson said. He said he was convinced, however, the measure never was properly passed.

### SEIZED FOR ARSON

PORT PIERCE, Fla., July 10.—Mrs. Malinda Griner, 28, was in the St. Lucie county jail yesterday, held on suspicion of arson in connection with a fire which destroyed the house where she resided in Maravilla recently.

### Mellon Company Loses In \$3,000,000 Appeal

NEW YORK, July 10.—(AP)—The United States circuit court of appeals yesterday reversed a verdict for the Aluminum Company of America in a \$3,000,000 damage suit brought last December in Connecticut by the Bausch Machine Tool Company of Massachusetts.

The Bausch firm alleged the Aluminum Company had fixed so high a price on aluminum, which the Bausch Company bought for use in making duralumin and other products, as to virtually prohibit purchase.

### HITLER CANT LAST

BOISE, Idaho, July 10.—(AP)—A conviction that "Hitler cannot last much longer" was voiced yesterday as he returned to spend the 27th summer since he started his uninterrupted career in the Senate.

Boah, in an interview, expressed amazement that the German people have "tolerated" the practice of the reich's chan-

cellor in recent weeks.

"The inevitable parallel occurs to me," he said. "Just a year to the day after Danton began the reign of terror in which also 'heads rolled' and men were led to death without trial, the same Danton was facing the revolutionary tribunal pleading in vain for a chance even to defend himself.

"Tyranny always runs its course."

### PUNY CHILDREN MAY HAVE WORMS

"Worms happen sometimes no matter what you do or how you clean food. White's Cream Vermifuge for years has been used to expel round and pin worms and some the delicate digestive tract. Frailty, sleeplessness, grinding of teeth, bad breath, poor appetite, all go as the worms quickly become expelled. White's Vermifuge at drugist."

### DON'T OFFEND

Whether or not you realize it, there's something about the look and fresh smell of clean clothes that instantly makes a favorable impression for the wearer. It's keeping your wardrobe in the best of all time you will bring out the most likable quality in your self. Semnole's cleaning is not only free of "cleaner's odor" but eliminates the body odor and marks that are inevitable in the ordinary summer months.

### BUSINESS HEADS ASKED TO RELATE DESIRED CHANGES

#### Senator Lewis Insists Roosevelt Wants To Know What Business Men Want

WASHINGTON, July 10.—(AP)—President Roosevelt was described Sunday night by Senator Lewis (D. Ill.) as willing to amend legislation passed at the last Congress if businessmen can make known any changes that should legitimately be made.

Lewis, chairman of the Democratic Senatorial Campaign Committee, said in a statement the President was anxious to have business men present their views for discussion in the fall election campaigns.

"Through some misunderstanding," Lewis said, "there is being published that in a conference the

President had before he went on holiday, he stated that he desired his particular political advisors to prepare for other measures to be passed by the incoming Congress as part of and of necessary importance to present legislation lately passed by Congress.

"This statement has caused large business interests to assume that the present legislation is not complete and is to be amended by additions, leaving uncertain the manner in which business shall conform itself to the present laws."

Lewis said the President is anxious "that there shall be gathered from the public, wherever possible, whatever objections exist as to legislation lately passed."

"He desires particularly," Lewis added, "to know where business feels that the legislation is inappropriate to its welfare or where some change in the legislation would best serve the general uses of legitimate business in the promotion of general prosperity in all branches of commerce and industry."

"The President is anxious that in the present political campaign the public shall be advised that there will be corrections and readjustments of anything necessary to make the legislation fit the needs that will serve the just purposes of prosperous business. He wishes to authorize the candidates going to the people to assure the people of those changes when the people have found such necessary, rather than to wait until after the election and merely make the demonstration at the meeting of Congress."

"The President prefers that the public shall know before they vote for congressional candidates that whatever is necessary in the way of changes or in the application of the enforcement of the legislation to serve the uses of finance and industrial welfare, the public will have become acquainted with the assurance he gives now when the public shall have become acquainted with the legislation and the manner of operation. He wants the people to be assured while the campaign is on and while the people are studying the measures, so that the voters may vote with the consciousness that whatever they find in the meantime to be corrected as necessary to the welfare of every form of commerce and industry will be carried out."

"I say that this plan enables the public to feel free in passing its criticisms now. It allows the candidates of all parties to know from the public what is desired and that the people may be assured that the President will advise the Congress to be elected

### MOLEY ADVISES AGAINST NAZI INFLUENCE HERE

#### Brain Truster Warns House Committee On Hitler Propaganda

NEW YORK, July 10.—(AP)—A warning by Raymond Moley, former under-secretary of state, against the spread of Nazi influence in this country and testimony of "sales of propaganda" sent here from Germany, were heard yesterday by the subcommittee of the special House committee on un-American activities.

Moley, an advisor to President Roosevelt, appeared before the committee briefly as editor of the magazine "Today."

"Whether an organic connection with the government is proved or not, any organization that has the same ideas as the Nazis in Germany is a danger to our country," Moley said.

Fritz Glasbi, member of the National Socialist Party of Germany, made the disclosure regarding propaganda pamphlets, some of them attacking Jews and Masons. He declared the material was distributed by the "Friends of New Germany," an organization for which Glasbi is the newly-appointed Middle Western leader.

The committee also made public testimony taken at a previous private hearing purporting to show that Dr. Hans Luther, German ambassador at Washington, had arranged free transportation to Germany for several American writers because he hoped they would present Germany in a favorable light in subsequent articles.

Glasbi asserted that the "sales of propaganda" came from the foreign propaganda office in Germany.

"He wishes—as I gather—that this assurance be given now when the public shall have become acquainted with the legislation and the manner of operation. He wants the people to be assured while the campaign is on and while the people are studying the measures, so that the voters may vote with the consciousness that whatever they find in the meantime to be corrected as necessary to the welfare of every form of commerce and industry will be carried out."

### Cronin's American League All-Stars Beat Nationals 9-7

(Continued from page one)

both runners, and Cuyler fled out. The American Leagueers picked up two runs in the fourth off Warnke who took Hubbell's place on the mound as the fourth opened. Foxx was an infield out, but Simmons doubled to center. Cronin singled to left, scoring Simmons, and after Dickey struck out, Earl Averill of Cleveland, batting for Cronin, tripled to right, scoring Cronin. Gehrigger walked but Mungo fled out to right.

The Nationals got a single hit but no runs off Red Ruffing of the Yankees who replaced Gomez at the start of the fifth.

The American Leagueers went at it with a vengeance in their half of the fifth. Ruth drew a walk, as did Gehrig, as Warnke protested to the umpires about balls and strikes. Manager Terry pulled Warnke at this point, and Van Mungo of Brooklyn came in to bat which has not yet been accepted, was given so he could become a leader in the Friends of New Germany.

The Americans got another run in the sixth. Foxx was the first batter to face Dizzy Dean who

met by Jimmy Foxx, who hit the first pitch for a single, scoring Ruth and sending Gehrig to third. Simmons hit a slow roller to short, scoring Gehrig and sending Foxx to second. Cronin fouled out to Hartnett, and Bill Dickey drew a walk, filling the bases with one out. Averill doubled along the first base line, scoring Foxx and Simmons and sending Dickey to third. Gehrigger was purposely walked, but Red Ruffing singled to left, scoring Dickey and Averill. Ruth was an infield out, and Gehrig struck out, ending the inning.

The Nationals scored three runs in the fifth. Pepper Martin, batting for Mungo, drew a walk. Frutch singled to left sending Martin to third, Traynor singled, scoring Frutch to second. Chuck Klein, batting for second, Frutch, sending Traynor to second. Met Harder relieved Red Ruffing on the mound. Met Ott, batting for Cuyler forced Klein at second on a fielder's choice in right field, sending Traynor to third. Paul Waner struck out but Traynor stole home.

Arky Vaughn was an infield out.

The Americans got another run in the sixth. Foxx was the first batter to face Dizzy Dean who

started the sixth in place of Mungo. Foxx struck out. Simmons got his second double to center, and Cronin doubled to left, scoring Simmons. Dickey walked, and Mickey Cochrane ran for him, but Cochrane was caught off second as Averill was struck out.

Dizzy Dean had fine support in the seventh and eighth after long hits had put him in the hole, and Fred Frankhouse, pitching the ninth for the Nationals had no trouble at all, although he walked

Gehrigger.

In the twelfth Mel Harder was having things his own way. He held the Nationals hitless in the fifth, sixth, seventh, and eighth. In the ninth, Frankhouse was out. Cochrane to Gehrig, but Herman doubled to left, the first hit off Harder. Traynor fled out to Sammy West in center, and Klein ended the game when he went out. Harder to Gehrig.

The NEW **Firestone CENTURY PROGRESS TIRE**

**Ten Million People HELPED TO BUILD THE TIRE SENSATION of '34!**

Beyond Comparison in Quality, Construction, Appearance and Price With Any First Quality Tire Made

THE way to create a TIRE SENSATION is to give the people what they want, and Firestone has done this with the new Firestone Century Progress Tire.

As millions of people visited the Firestone Factory at the World's Fair last year, we asked this question—"What do you value most in a tire?" They answered—"Give us Blown Protection, Non-Skid Safety, and Long Wear, at a moderate price." This was a big order, but Firestone has a habit of giving car owners what they want when they want it.

We knew there was only one way to build Quality and Value into a tire at a moderate price, and that was by volume production. We built the greatest tire ever made to sell at these low prices. Car owners are profiting because we found out what they wanted and found the way to give it to them.

The new Firestone Century Progress Tire IS EQUAL OR SUPERIOR to any first quality tire built, regardless of name, brand, by whom manufactured, or at what price offered for sale.

**CHECK THESE AMAZING VALUES**  
Come in and equip your car with this marvel of tire construction, at the lowest price we have ever been able to make on a tire of this high quality and construction, carrying a Triple Guarantee.

- for Unequaled Performance Records
- for Life Against All Defects
