

### Ten Fast Events On This Evening's Boxing Program

#### Show Will Be Put On By Boys' Club In 4th Street Arena

Ten events, advertised as fast ones, are on the card for tonight's boxing show in the Fourth Street Arena, put on by the Seminole Boys' Athletic Club. The first bout is scheduled for 8:00 o'clock. Tonight's card is as follows: Glenn Cochran vs. Paul Moore. Jack Emanuel vs. Billy Harrison. Edward Crosby vs. Theodore Kicker. Marvin Smith vs. Billy Hoelhaas. Laurence Barrineau vs. unnamed opponent. Edward Smith vs. Stanley Richard. Harry Lee Moore vs. Earl Felroy. H. C. Tippins vs. Duane Tillis. Eugene Tippins vs. Clarence Barrineau. Charles Cameron vs. Ray Edge.

### Crooms-Bronson Tilt Is Won By Sanford

Crooms Academy of Sanford defeated Bronson High of DeLand on the football field by the decisive score of 14 to 0. During the first quarter the Crooms squad received 10 points for safety, and then with their linemen as a stonewall of defense Patrick climaxed a touchdown. Rosier made a 30-yard run at the start of the second half and Earl made a 15-yard gain through center, ending the third quarter. Bronson High cheered Quarterback Peters for a 40-yard run. After losing the ball to Crooms, Rosier ran for 30 yards, and then Crooms lost to Bronson, and Peters gained 35 yards. Linemen on both teams battled from the start. Crooms intercepted a pass in the last few seconds of play, and a perfect touchdown was the outcome.

### Gators Defeated By Tulane, Score 19-7

By SAM MURRAY  
NEW ORLEANS, La., Oct. 14.—Fighting back at Florida with its own game, Tulane's Green Wave bombarded the visiting Alligators from the air Saturday to even up a first quarter touchdown deficit, and drove on to a 19 to 7 victory before a sunny day crowd of 10,000. Floyd Christian, the big Florida right end, scored the Alligators' touchdown, standing in the end zone to bring in a long pass from Captain Chase which was made from Tulane's 24 yard line. Al Hickland supplied Florida's extra point from placement and Dick Page made a perfect kick for the unit after Tulane's first touchdown.

### Fast Stetson Squad Beats Oglethorpe, 7-6

ATLANTA, Oct. 14.—Stetson's eleven came from DeLand last Saturday, and defeated Oglethorpe, 7 to 6. The visitors played defensive football until the third period when they launched an offensive pegged on a combination of end sweeps to come from behind and nose out the lighter Oglethorpe team. First downs were at premium and most of the game was played out of the danger zones. Oglethorpe held the edge in first downs, five to four. In the see-saw battle, punt exchanges were frequent, with some lucky booting turned in by Lawson, Stetson quarterback and Lewis, Petal halfback. Both lines presented a solid front during most of the game. Stetson twice repelling goal line charges, and Oglethorpe repeating the performance.

### Black - Draught And Good Health Year After Year

"I have never had a bad sick spell and for years I have taken Black-Draught for the best remedy of upset stomach or sluggish feeling," writes Mr. W. F. Pulliam, of Gatewood, Mo. "I am a very heavy eater and sometimes I eat too much. If I feel uncomfortable, I just take a small dose of Black-Draught and soon feel all right. I feel I owe my good health to use of this reliable vegetable medicine, Black-Draught." Where constipation is at the bottom of your troubles, as Mr. Pulliam mentions, take a good remedy. Thousands of men and women have given Black-Draught credit for having helped them to avoid the serious developments of constipation. (Advertisement)

### Myer, American, Vaughan, National, Lead Batters In Big Baseball Leagues

NEW YORK, Oct. 14.—Floyd Vaughan, of Pittsburgh, who led the batters most of the season, finished with a mark of .385, topping his nearest rival, Joe Medwick, of St. Louis, by 31 points for the undisputed batting championship of the National League. Vaughan made 192 hits in 499 trips to the plate and drove in an even 100 runs. Medwick made 224 hits in 633 times at bat and drove in 124 runs. Billy Herman, of the champion Chicago Cubs, made most hits, 227, while his teammate, Galan, scored most runs, 123, one more than Medwick. Herman also made most two-base hits, 57. Wallis Berger, of the lowly Boston Braves, rapped out most home runs, 34, and drove in most runs, 127, though he batted only .297. Bill Lee, of Chicago, is the leading pitcher with 20 games won and only six lost for a mark of .769. J. Dean, of St. Louis, won most games, 28, and pitched more innings than any other pitcher, 525. Dixie also was top in strikeouts with 190.

CHICAGO, Oct. 14.—The American League individual batting championship goes to Charles Myer, of Washington, who during the last four games of the 1935 season lambasted 10 hits in 15 times at bat to beat out Joe Vosmik, of Cleveland, by a single point. Myer's winning margin reads .349 and was made from 215 hits in 616 times at bat. Greenberg, Detroit, drove in 170 runs for the top in this department and tied Fox, of Philadelphia, for home runs with 36. Gehrig, of New York, who in former years was always a top in one or more departments, salvaged one honor among the batters this season by scoring most runs, 125. Werber, of Boston, stole one more base than Lary, of St. Louis, 29, according to the unofficial records. Elden Auker, of Detroit, is the leading pitcher in games won and lost, with 18 wins and seven losses for a percentage of .720. Wes Ferrell, of Boston, won most games, 25, and pitched most innings, 322.

### Ralph Wight Sees Banner Year For 1936 Oldsmobiles

"I've seen the 1936 Oldsmobiles. I've heard about the 1936 plans. I've been told of the great production expansion. And so I want to say that I am confident that 1936 will again see all records for production and sales of Oldsmobile broken." This was the enthusiastic statement today of Ralph Wight, Oldsmobile dealer in Seminole County, after returning here in one of the 1936 model Oldsmobiles from a dealer meeting at Jacksonville. "The country knows Oldsmobile as the car that has everything," he said, "and the new 1936 cars have everything plus. There is a definite advance in style leading in styling, keeping Oldsmobile far in front in graceful streamline design. "The 1936 cars are big, new automobiles, beautifully designed, roomy and comfortable, and possessing all those features which have made Oldsmobile famous. "When the cars were shown to the dealers of the area, and plans for the coming year were outlined, unanimous approval of both cars and program was expressed by the dealer organization. Popularity of the 1936 Oldsmobiles was so great that when the factory was closed at the end of the 1935 production season there still remained on hand a large number of unfilled retail orders. Mr. Wight pointed out. This condition is unprecedented in the industry.

### LONGWOOD

The primary department of the Baptist Sunday School had a picnic with all kinds of entertainment at the home of the superintendent, Mrs. L. W. Entzinger, on Greenwood Lake, Wednesday afternoon. Games, swimming, boat-rides and refreshments were enjoyed. Teachers present were: Mrs. L. C. Cramer, Gladys Stonebeck, Mrs. Clyde Whitehead and Miss Carolyn Lewis. The P. T. A. singers of Lyman School met as usual for rehearsal Tuesday night at the home of Mrs. Hallie Lavigne and Miss Aida Lavigne. The Tourist Club members held their fortnightly luncheon Wednesday at the home of the president, Mr. Daniel Lighton, and Mrs. Daniel Lighton. Those present from Orlando: Mr. and Mrs. Elmer Hall, Mrs. J. S. Watson. From Longwood: Mr. and Mrs. Hayes, Mrs. B. R. Grey, Mrs. Gertrude Williams, Mr. and Mrs. Tanner and Mrs. Manger. The next luncheon will be held at Sanlando Springs. The Civic League Sewing Club will meet next Wednesday afternoon at the library with Mrs. Ernest Harris and Mrs. Sarah Yarnall as committee. Mr. and Mrs. Jack Hayes' who spent the past year in New Eng-

### CITY BRIEFS

(Continued From Page 1)  
WPA board on education was issued by E. L. Glenn this morning. The main purpose of the meeting, Mr. Glenn said, is to organize.

Weather forecast: Cloudy tonight and Tuesday with possibly light showers in the extreme south portion and near the East Coast.

The congratulations of the City Briefers are extended to Mr. and Mrs. H. B. Odham who are today celebrating their 25th wedding anniversary, and to Mrs. H. B. Odham, Jr., who is celebrating her birthday anniversary today.

Work in the Master Mason Degree is announced by L. R. Hodgins, worshipful master, in Tuesday evening's meeting on the Sanford Lodge of the Masons. The lodge will meet in the Masonic Temple at 7:30. Refreshments will be served.

Officers for next year of Seminole Post No. 3282, Veterans of Foreign Wars, will be elected at a meeting of the veterans in the Legion Hut tonight, and because of the importance of the business to be attended to, Commander Harry Kent said he hopes every member of the post will be present. The post meeting is called for 8:00 o'clock.

Mayor T. L. Dumas said today that the City Commission in this evening's meeting will endeavor to figure out some way of obtaining more finances for the municipality to offset losses from the exemption of homesteads from taxation. The city budget was adopted a week ago but the revenue now in sight fails to equal the budgeted expense. The Commission meeting will be held in City Hall at 7:30.

Upon request of members of Staffed Memorial Methodist Church, City Engineer Fred T. Williams today measured the distance between the church building and a road house, a short distance beyond the St. Johns River bridge on the road to DeLand, a Volusia county ordinance, church members state, provide that liquor cannot be sold within 2,500 feet of a church. Mr. Williams found the distance to be 1,833 feet. The matter is in the court of Judge Peacock in Volusia county.

land, have returned to their home on Lake Street. Mr. Sunderland of Greenfield, Mass. has returned to his new home on Lake St. and brought his race horse to Seminole Park for the winter.

The Women's Missionary Union of the Baptist Church met Monday afternoon at the church lecture room when an interesting program was presented on Holding the Banner for Youth.

### ROCKEFELLER IN SUNNY FLORIDA

With the first brisk touch of fall in the North, John D. Rockefeller, Sr., the 96-year-old multi-millionaire, hurried to Florida's sunny climate in keeping with his custom of long standing. Wearing glasses and carrying a cane, he is shown alighting from his train at Ormond Beach where he will spend the winter at his estate. (Associated Press Photo)

### No Idle Men In Taxless Colony In Massachusetts

HARVARD, Mass., Oct. 14.—Only thirty-five miles west of Boston, with its relief rolls and panhandlers, lies this quiet Massachusetts community, the site of a twenty-five-year-old taxless colony of 784 acres, where unemployment is unknown and depression is only a word. The colony is named "Tahanto," after an Indian settler of Colonial days. It was inspired by the single-tax philosophy of the late Henry George, but came into actual existence through the initiative and energy of Frank Warren, millionaire New England paper manufacturer, Harvard and Oxford graduate, and one of the nation's outstanding tennis players in the 1890's. The way Tahanto abolishes taxes, Warren said, is quite simple. Instead of John Jones paying all kinds of property and improvement taxes, he pays a stipulated rental for the land—called economic rent—regardless of whether he uses the land or not. Neighbors Smith and Brown do the same, and all taxes are paid out of the rental fund. No part of what John Jones makes for himself out of the land is taken away from him by subsequent taxation, rates, or tariffs. The result, Warren said, is that industry is freed and a man retains the full reward of his labor. On the other hand, land cannot be kept idle for the purpose of speculation, and each member has the opportunity to employ his talents in which every direction he thinks best. The rents are changed from time to time, as the site values change.

The proof of the pudding, Warren said, is that in 1934, with a population of fifty-eight persons living on 784 acres, the average rent charged a lessee was \$33.94. And, he pointed out, while real estate values have been reduced drastically throughout the country since the depression, the average rent of an acre in Tahanto has advanced.

While some aspects of our system may be communal—we aim to destroy the selling value of land so we can maintain it for use and not for profit—our aim is not socialistic. Indeed, it is the very antithesis of individualism. "We have no regimentation. Each family does what it pleases with its land and disposes of its products as it wills. And there is no exploitation of labor, because the person being exploited could secure the land for his own use with very little effort."

TWO INJURED BY CAR  
GAINESVILLE, Oct. 14. (AP) Two men, one of them unidentified, are in a hospital here following an automobile-truck collision at Aicher, west of here.

### Still Coughing?

No matter how many medicines you have tried for your cough, chest sore or bronchial irritation, you can get relief now with Cromocin. Cromocin is a new medicine and you cannot afford to take a chance with anything less than Cromocin, which goes right to the seat of the trouble and relieves the cough and soothes the inflamed membranes as the germ-killing phlegm is loosened and expelled. If other remedies have failed, don't be discouraged, your doctor is authorized to prescribe Cromocin and to refund the money if you are not satisfied with results from the very first bottle. Get Cromocin right now. (Advt.)

### Get Rid of Malaria!

**Banish Chills and Fever!**  
To conquer Malaria, you must do two things: (1) Destroy the infection in the blood. (2) Build up the blood to overcome the effects and to fortify against further attack. There is one medicine that does these two things and that is Grov's Taster's Chill Tonic! The Taster's Chill Tonic is Grov's Taster's Chill Tonic! It destroys the malarial infection in the blood while the iron builds up the blood. Thousands of people have conquered Malaria with the aid of Grov's Taster's Chill Tonic. In addition to being a noted remedy for Malaria, it is also an excellent tonic of general use. Grov's Taster's Chill Tonic is pleasant to take and contains nothing harmful. Even children like it and they can take it safely. For sale by all drug stores. Now two sizes—50c and \$1. The \$1 size contains 75% more than the 50c size and gives you 25% more for your money.

## Acute Scarcity Eggs, Chickens Develops Here

Buyers Scramble For  
Supplies And Pay  
Good Prices

### HEN STOCK SHORT

Big Opportunity For  
Producers Of The  
Heavy Breeds

By HERBERT S. MORSE

A peculiar state of affairs exists at the present time in the Florida poultry industry. Prices on eggs, meat chickens, etc. have been increasing all summer, but poultrymen do not have enough eggs or meat chickens to supply the demand. Consequently, prices on eggs and chickens continue to rise and no one can say what the situation will be this winter.

Florida eggs have become such a scarce article that truck carriers have been seen all the way from Miami to Ocala, with their trucks full of eggs and chickens. The carriers are practically everywhere, offering good prices. Competition is keen between buyers from Ocala, Gainesville, Leesburg, Orlando and other districts. It is estimated that trucks drive through west Florida in search of poultry products. It has become a matter of first-class importance to get eggs and chickens to the market as soon as possible. It is estimated that the amount of eggs and chickens being taken to the market is only about one-third of what is needed.

Prices are higher. One district buyer recently drove into the town of Ocala, Florida, to buy eggs. He found that the eggs in town were selling for 12 cents. By driving to Ocala, he was able to find eggs for 10 cents. With these low prices, customers who had bought for the "average" price of 12 cents, were able to save 20 percent.

Eggs in central Florida, for example, are now selling for 12 cents per dozen higher in price than at the same time a year ago. Best large eggs (77 cents in the season) have been selling for 47 cents to 51 cents, standard grading on the dealer, while standard (Continued on Page 11)

## Commission

By H. H. HARRINGTON

Of late, the Florida Citrus Commission, Mr. H. H. Harrington is in charge of the citrus industry in the state. He is a member of the Florida Citrus Commission, which is the governing body of the citrus industry in the state. He is also a member of the Florida Citrus Growers Association, which is the largest organization of citrus growers in the state.

## France Eyed As Possible Outlet For Tangerines

Tangerines for France? Why not, asks R. B. Woodruff, vice president of American Fruit Growers, Inc. who points out that Florida needs new tangerine markets. He says that the French market is a possibility. He says that the French market is a possibility. He says that the French market is a possibility.

DOUBT OUTCOME

Plans To Commission Are Inconsistent Growers Say

By A STAFF WRITER

## Florida Growers Perturbed About New Potato Bill

Perturbed over provisions of the Warren potato bill, in a measure which has turned the potato world upside down, growers in Florida are taking steps to protect themselves. They are taking steps to protect themselves. They are taking steps to protect themselves.

## Aksum; Holy War

War Vets at Kent As Commander

Ship Roll Now Names Of Than 50 Men

## Tomato Prospect Is Normal This Season

The success or failure of the Florida fall and winter tomato deal will depend as usual upon weather conditions and the amount of crop. It is expected that the crop will be normal this season.

## Sequences To Be Tallahassee

Funeral services for the late Mr. G. G. Dumas will be held in Tallahassee. The services will be held in Tallahassee. The services will be held in Tallahassee.

## Plans For Year Are Outlined By Rector

The Rev. Martin Bram gave a short talk on plans for the year at the regular meeting of the St. Agnes Guild of Holy Cross Episcopal Church held Monday afternoon at the parish house.

# Three-Fold Effort For World Peace Is Advocated By Hull

## Ethiopian Troops And Town Of Alaji Bombed By Planes

Mass Concentration Of Warriors Along Front Is Ordered

By The Associated Press

Italian bombing planes roared across northern and eastern Ethiopia today.

Emperor Haile Selassie wept over the fall of holy Aksum and summoned his people to a holy war.

At Geneva the League of Nations sub-committee for economic sanctions decided in principle to recommend and embargo against the shipment to Italy of "key" products—materials used in the manufacture of war munition.

## Speech Delivered By Secretary Of State Is Regarded As Of Great Significance

WASHINGTON, Oct. 15. — (AP)—Declaring that the "obsolescent and bloodstained instrument of war cannot cure the world's economic ills, Secretary of State Hull today advocated a three-fold international effort for peace and prosperity. He called for "simultaneous action of many countries" for:

## War Can't Cure Economic Ills

1. A "vigorous rebuilding of international trade."

2. A "gradual restoration of international monetary stability."

3. An international agreement "upon the organization and principles which will assure that the all-important raw materials will become available on reasonable terms whenever they are needed."

## Simultaneous Action Needed To Rebuild International Trade

WASHINGTON, Oct. 15. — (AP)—Declaring that the "obsolescent and bloodstained instrument of war cannot cure the world's economic ills, Secretary of State Hull today advocated a three-fold international effort for peace and prosperity. He called for "simultaneous action of many countries" for:

## Hauptmann Given Opportunity To Appeal His Case

TRENTON, Oct. 15. (AP)—Bruno Richard Hauptmann's execution was stayed indefinitely today when the Court of Errors and Appeals granted him the opportunity to appeal his conviction in the Lindbergh kidnap murder case to the Supreme Court of the United States. The court gave Hauptmann 30 days in which to ask the Supreme Court to review allegations that Hauptmann's constitutional rights were violated in the trial.

## Slot Machines May Have To Pay More

Considerable time was taken up at last night's meeting of the City Commission in discussing the slot machine situation, but decision was deferred until a later meeting.

Joe Moss wanted to know what would be the license fee for operating a "race horse" machine and Attorney Fred T. Wilson asked the commission to decide under which classification such a machine comes. The latter cost the new state law which specifies license fees of \$15 on automatic vending machines, \$5 on trade machines, \$5 on skill machines and \$250 on "all other machines," the quoted words being those used in the legislative enactment.

## Seven Sentenced On Drunkenness Charges

Judge J. G. Sharon in County Court today sentenced seven men to pay fines of \$5 and costs or to spend 60 days in jail, each, on charges of drunkenness. The costs in each case exceed \$2.

The seven are Martin McClelland, Alvin Hardin, J. C. Locke, John Scott, George Knodel, George Cook and Norman Jones, the last named being colored. Locke, Scott and Jones were liberated from the County Jail on bond, but the others were still in jail this afternoon.

One other prisoner, James Sharnka, colored, was held before the judge, charged with the possession of concealed weapons. He was handed a fine of \$100 and costs, and ordered to serve four months in jail unless the fine is paid.

Considerable time was taken up at last night's meeting of the City Commission in discussing the slot machine situation, but decision was deferred until a later meeting.

Joe Moss wanted to know what would be the license fee for operating a "race horse" machine and Attorney Fred T. Wilson asked the commission to decide under which classification such a machine comes. The latter cost the new state law which specifies license fees of \$15 on automatic vending machines, \$5 on trade machines, \$5 on skill machines and \$250 on "all other machines," the quoted words being those used in the legislative enactment.

## Seven Sentenced On Drunkenness Charges

Judge J. G. Sharon in County Court today sentenced seven men to pay fines of \$5 and costs or to spend 60 days in jail, each, on charges of drunkenness. The costs in each case exceed \$2.

The seven are Martin McClelland, Alvin Hardin, J. C. Locke, John Scott, George Knodel, George Cook and Norman Jones, the last named being colored. Locke, Scott and Jones were liberated from the County Jail on bond, but the others were still in jail this afternoon.

One other prisoner, James Sharnka, colored, was held before the judge, charged with the possession of concealed weapons. He was handed a fine of \$100 and costs, and ordered to serve four months in jail unless the fine is paid.

## Efficiency In Co-Operative Marketing

By A. W. MULLER, Treasurer, Florida Citrus Growers Association

A co-operative marketing association is a business organization controlled and operated by its members for their benefit and convenience. It is not a charity, it is not a club, it is not a social organization. It is a business organization. It is a business organization. It is a business organization.

## Tomato Prospect Is Normal This Season

The success or failure of the Florida fall and winter tomato deal will depend as usual upon weather conditions and the amount of crop. It is expected that the crop will be normal this season.

## Sequences To Be Tallahassee

### Dairy Problems In Fall Are Many And Varied, Brown Says

By HAMLIN L. BROWN Extension Dairyman

The problems of the Florida dairyman in the fall season are many. Finances are usually low after a long summer of reduced sales of milk, caused by the exodus of winter tourists and the many vacationists from the state. Some of the items that are of major importance are securing good dairy cows for herd replacements; selecting herd sires; breaking in the young heifers that are milking the first time; seeding the winter supply of grazing crops and storing farm forage crops while they are available at reasonable prices; adjusting the feed of the cows coming fresh, and getting the dairy barn and milk house in order to receive visitors.

**Herd Replacements**  
The matter of securing herd replacements is a very serious problem this season. The cattle reduction program put on by the AAA that allows a cash bonus on all cattle slaughtered that goes to the Bang's disease, has reduced the number of dairy cattle on farms in the U. S. probably 15 to 20 per cent. This has increased the price of dairy cows from 40 to 50 per cent over the prices on dairy cattle in 1934.

Further complications exist where Florida dairymen have not completed the Bang's disease test to that point where all reactors have been removed from the herds. There is a considerable amount of danger in bringing high priced cattle from free herds into a herd that has reactors that have not been removed. It is the general rule to purchase cows with high producing records when moving them long distances, as the cow producing 1200 gallons in 300 days or 4 gallons of milk a day is generally worth two or three cows that produce 600 gallons in 300 days or a 2 gallon cow. However, this year, it will probably be much better for the Florida dairymen to be content to purchase 2 gallon cows at a reasonable figure and continue the Bang's disease testing until the herd is completely free.

It is a very common mistake for a dairyman that has the experience and training to feed and manage a 2 gallon herd to purchase 4 gallon cows. With only 2 gallon care and feed, the 4 gallon cow will revert to a 2 gallon cow. The high producing dairy herds are more often in the hands of skillful operators who are superior feeders of the better fresh cows for the first time in a vital part of the development of a high producing milk cow. The heifer acclimated to local farm conditions in Florida has a greater value than any cow shipped to her alive replacements. It is now the time that careful consideration be given to selecting some superior dairy bulls for the dairy herds of all the dairy farms throughout the state who own the land, buildings and herd where they practice dairy farming. There can be no permanent satisfaction to dairy farming as a business where the dairyman attempts to keep alive replacements. The pure-bred sire with outstanding records of performance, with a system of herd records is the solution to herd development.

**Best Unproductive Heifers**  
The most probable replacements come from the heifers grown on the farm, provided the heifers are sired by a registered sire with quality and production equal or better than the best cows in the herd. Be thoughtful dairymen dispose of all dairy heifers except from the high producing cows and feeds them a liberal allowance of milk and other feeds to grow a large size cow. The careful handling and feeding of the better fresh cows for the first time is a vital part of the development of a high producing milk cow. The heifer acclimated to local farm conditions in Florida has a greater value than any cow shipped to her alive replacements. It is now the time that careful consideration be given to selecting some superior dairy bulls for the dairy herds of all the dairy farms throughout the state who own the land, buildings and herd where they practice dairy farming. There can be no permanent satisfaction to dairy farming as a business where the dairyman attempts to keep alive replacements. The pure-bred sire with outstanding records of performance, with a system of herd records is the solution to herd development.

The dairy farmer of Florida should make provision during the summer and fall for a sufficient quantity of roughage feed to supply the herd all they can eat during the winter months when pastures are inadequate, because of drought, frost, or other causes. Although hay, winter grazing crops are various substitutes as cotton seed hulls, beet pulp are used. The dairymen that make use of the substitutes usually buy them on the open market. Silage supplies the best of home grown roughage, and is the cheapest in most sections of the state. Forage crops grown in the southeastern states are available at very reasonable prices in the fall season. It is good business for dairy farmers to store this high quality milk at a low cost per gallon grow the roughage on the farm, or purchase farm grown roughage in the form of the sweet. Roughage substitutes containing low grade ground peanut or soybean and other off-grade hays are very expensive feeds. The dairymen purchasing these feeds in large quantities have a very high feed cost. Winter grazing crops are of vital importance in the dairy farm. Some good succulent feeds for the dairy herd grown on fertilized lands, made available each day during the winter months. These feeds are those that are not in typical farm crops, those containing those essential elements give quality to milk that makes Florida milk a superior food. Cows that have access to a few pounds of green forage each day have superior health and possess the ability to produce more pounds

## DAIRYING

### Modern Plant Spells Dairy Success

Dairy dividends will accrue to farmers who keep their plant and equipment up to date. A good site or two is essential in proper dairy management. The hum of sawing cutters is a familiar sound in Florida these days.

### Milk Is Still Cheapest Food Commodity

By GEORGE O. WEEMS  
Whenever and wherever the curtain is drawn from the past some reference is made to milk, the one food element which has been the basic diet since the creation of man. Some of the oldest writings of which we have any record, say the praises of the animals that give milk as man's greatest benefactors.

Milk today in the tide of rising prices is still the cheapest food commodity—one glass equals 1-2 eggs or 4 ounces of lean beef.

If the daily consumption of milk among the millions of a half people of Florida could be doubled, and it should be, the \$8,000,000 investment in the milk industry would attain a value of \$16,000,000.

Many more thousands of men and women would be at work directly in production and distribution. Many hundreds more would be put to work in supplying both the producers and the distributors. Florida's food cost could actually be lowered by the concerted use of milk. At the same time those who have not the benefit of proper diet advice would be assured of actually getting correct proportions of the food elements, borne always in good wholesome milk, as necessary to the very preservation of life itself.

Back in 1933 when the 73rd congress was wrestling with the problem of passing laws designed to bring relief to the various branches of agriculture and granting authority for the formulation of codes that would release the clutches of a huge depression from the throats of the small farmer-operators, Florida's own legislature conceived the idea of creating a milk control board. It was built to salvage the milk industry of this state from the financial rocks.

During the two years of its existence it has brought a fair degree of prosperity to 6,000 dairymen, among whom a chaotic condition obtained. Had it not been for the stabilization functions of the board, a large number of these 6,000 dairymen would have lost their herds and would have had to resort to the relief rolls for subsistence.

**Has Benefited Farmer**  
The benefits of milk control have gone to the farmer—the boy with milk on his boots who has on his boots. Without the functions of the board prices would collapse in

of milk per day from dried rations than is able to produce from the same cows, that only receive dried rations.

The change of the summer dairy ration to fall and winter feeding conditions requires careful attention. Too often the farmer overwork the dry cows, and it is important that each cow be given food and care at least 30 days before freshening time. Cows that begin the lactation period carrying a good coat of flesh are capable of producing much larger quantities of milk with a high per cent butter fat, vitamins and other food elements than is possible to get from the poor, neglected cow. Milk consumers of Florida are entitled to the highest quality milk with conditions that prevail in this area. High quality milk is not produced from poor emaciated cows.

Dairy cows about to freshen should be fed lactative feeds, says the Florida agricultural extension service. Such feeds as wheat bran, ground oats, linseed oil meal, and succulent pastures are recommended.

the face of cheap milk. Good markets would disappear like straw in the wind. Out-throat competition would force all buyers to seek the cheapest markets and modern transportation would enable them to find it.

The law has not been administered without coming in for criticism. This or any other fair minded board should welcome criticism, accompanied by a constructive suggested remedy. It is not possible to promulgate a rule or order without drawing criticism where the producer wants a larger return for his product, the distributor an increased spread and the consumer adversely wanting a lower retail price. A wave of sympathy should go out to any board that tries to please each of these groups, all with such widely divergent interests.

The removal of future stabilization control in milk sheds where the farmers sell their entire production to the distributing plants would, in my opinion, be revolutionary until such time as pirates in industry become extinct. When that time arrives I'm sure we will all be ready for the millennium.

**Dairy Products Shifting From Butter To Cheese**  
Less creamery butter but more cheese, condensed milk and ice cream were manufactured in 1934 than in 1933, according to the bureau of agricultural economics of the U. S. department of agriculture.

Creamery butter manufactured by 4,499 factories totaled 1,694,700,000 pounds in 1934 compared with 1,762,688,000 pounds in 1933. Production of whole milk American cheese by 2,339 factories was 45,491,000 pounds compared with 40,631,000 pounds by 2,348 factories in 1933.

Production of unskimmed evaporated milk was 1,711,270,000 pounds in 1934 against 1,716,700,000 pounds in 1933. The output of dry or powdered skim milk was 294,000,000 pounds against 288,114,000 pounds in 1933. Ice cream production in 1934 was 179,594,000 gallons against 148,913,000 gallons in 1933.

**Butter Market Stimulated By Government Purchases**  
The butter market has been stimulated by AAA purchases of butter under the spot contract. The New York and Chicago Mercantile Exchange, the government, announced that it would make dairy operations early in September and began operations almost immediately.

Quantity purchased daily, since the policy was inaugurated has not been large but they have been sufficient to keep the market in good shape. This method of sustaining farm prices has much to recommend it and it apparently will help the butter market this season.

Milk consumption in the New York metropolitan area has begun to improve after showing a downward trend for the past three years, when the current month was compared with the same month a year ago. This has been a decidedly encouraging sign for field milk producers.

Evaporated milk manufacturers report a good export demand at the present time, which will be helpful in eliminating a rather unwholesome surplus that has been built up this year.

### ROOFING DIRECT TO YOU

FIRE PROOF EAST TO BAIL ON ROOFING DONE SENT FREE

Costs less than you think. Save money. Get your roofing done from the factory. All kinds and styles to suit you. Galvanized Steel and Aluminum. Asphalt Shingles and Shingles and Wire Fencing. All kinds of money saving plans. Freight and best quality. Easy to mail on.

WRITE FOR FREE CATALOGUE. You will be pleased and delighted with the fine quality and low prices. Write today—while prices are low. Address: Savannah Fence & Roofing Co., Dept. M, Savannah, Ga. Send me FREE SAMPLE. Direct from Factory. Free Prices and FREE ROOFING AND BUILDING BOOK.

## Three-Fold Effort For World Peace Is Advocated By Hull

### Ethiopian Troops And Town Of Alaji Bombed By Planes

By The Associated Press  
Italian bombing planes roared across northern and eastern Ethiopia today.

Emperor Haile Selassie wept over the fall of holy Aksum and summoned his people to a holy war.

At Geneva the League of Nations subcommittee for economic sanctions decided in principle to recommend and embargo against the shipment to Italy of raw products and materials used in the manufacture of war munitions. The committee drew up a specific list of products needed by Italy: aluminum, zinc, copper, molybdenum, coal, wool, manganese and gasoline.

It also answered the plea of Italian planes with additional concentrations of thousands of Ethiopians. The Ethiopian government announced the two Italian planes had bombed Alaji and another had bombed troops concentrating at Akale 60 miles south of Addis Ababa. There were casualties and the communication. The Emperor rushed enormous numbers of warriors to strategic areas to meet a threatened Italian onslaught in the north and south.

From official sources came the information that more than 150,000 fresh troops, including the best fighters of the empire, will pass through Addis Ababa this week for a review by the Emperor.

Great Britain promptly cancelled the lease of her Grant Hotel to the Italians, and military quarters believed it would be kept closed until a later date. Large scale British maneuvers began on Italy's route to East Africa.

Speech Delivered By Secretary Of State Is Regarded As Of Great Significance War Can't Cure Economic Ills Simultaneous Action Needed To Rebuild International Trade

WASHINGTON, Oct. 15. — (AP)—Declaring that the "obsolete and bloodstained instrument" of war cannot cure the world's economic ills, Secretary of State Hull today advocated a three-fold international effort for peace and prosperity. He called for "simultaneous action of many countries" for:

1. A vigorous rebuilding of international trade.
2. A "gradual restoration of international monetary stability."
3. An international agreement upon the organization and principles which will assure that the all-important raw materials will become available on reasonable terms whenever they are needed.

Hull's speech, regarded as of much significance, was delivered by radio on the program of the New York Herald-Tribune's annual forum on current affairs.

His declaration that war cannot achieve the hopes of people for a "less difficult and more rewarding destiny, comes at a time when Italian spokesmen are declaring that Italy's need for expansion is one of the justifications for the Ethiopian campaign.

The matter came up when City Clerk F. S. Lawson informed the Commission he had received three bids for supplying the city with gas for the remaining 11 months of the current fiscal year. The bids were not opened, upon request of Commissioner Vivian Speer who was unaware proposals had been asked for and had therefore informed a local distributor that, as far as he knew, bids were not to be received. New bids will be received at a later date.
