Church Advertising

In the Tampa Tribune of last Saturday appeared a double-column display advertisement for the First Methodist church of Tampa, announcing its Sunday services and other matters of interest to churchgoers.

The First Methodist church proposes to use the advertising columns of the Tribune throughout the year. It is the first church organization in this city to adopt this plan to any extent. The directing agencies of some churches in the city evidently lack the energy to even furnish the paper with notices of their services, although they are printed free of charge by this paper. The First Methodist officers realize that advertising will help a church as it will help anything else that is good, and they show commendable enterprise in adopting this policy of newspaper publicity.

The Tribune thinks the officers of this church will find their congregation and membership growing rapidly as a result

SANFORD CELERY STARTS

Continued from page 1

able improvement. The entire trouble with this section is the tendency to get prices beyond the reach of the consuming trade. The demand is choked off in the beginning, and with no demand prices naturally recede, and drop far below the average which would rule, providing the actual consumer of the celery was encouraged to use it regularly and in large quantities. Lettuce is daily moving in carlots, but the movement is only nominal, and at no time this season will there be an over supply from this point. Growers are planting their potato seed, a large quantity of best Spaulding Rose No. 4 having been secured. Seed stock is now going into the ground rapidly, and with the present favorable weather continuing, Sanford should duplicate last year's performance and produce a bountiful crop of early potatoes. H. M. D.

AN IMMENSE GATHERING

Continued from page one

were propounded so seriously and deeply.

The statement made some time ago by the Orlando papers that county division was only the talk of a few malcontents and office seekers at Sanford was refuted by the train load of enthusiasts who flocked to Oviedo last Friday. The business houses of Sanford closed their doors and left their business cares for an afternoon and evening to take part in the meeting and the Orlando people present at the meeting were greatly surprised at the outpouring of such an enthusiastic bunch of business men. It demonstrated that the question did not start and is not being agitated by a few people but is the solid foundation of the people of Sanford and a majority of the people in the new territory.

The meeting of last Friday was not only a county division meeting but a ratification meeting, a getting together of good people in the new territory and the best of feeling prevailed at the meetings. It is a consensus of opinion that the question of division is already settled. The majority of the people in the new territory have already signed the petitions and the work of the committees from now on will only be to attend meetings that have already been scheduled and to expound the truths to the doubtful ones who might yet be taken into the fold of the people who want to do and will do the most for them.

Most of us are sorry that the people of Oviedo are in favor of the movement. All of us would like to go there again and spend such a pleasant evening and talk to the best people in the world.

Freckled Girls

It is an absolute fact, that one 50 cent jar of WILSON'S FRECKLE CREAM will either remove your freckles or cause them to fade and that two jars will even in the most severe cases completely cure them. I am willing to personally guarantee this and to return your money without argument if your complexion is not fully restored. **WILSON'S FRECKLE CREAM** is fine, fragrant and absolutely harmless. Will not make hair grow but will positively remove TAN, PIMPLES and FRECKLES. Come in today and try it. The jars are large and results absolutely certain. Sent by mail if desired. Price 50c. Mammoth jars \$1.00. WILSON'S FAIR SKIN SOAP Etc.

DEEPER WATER AT SMYRNA

Big Meeting to Boost This Important Project

SANFORD DELEGATES PRESENT

Meeting Held at Daytona and Well Attended By Many Enthusiasts

At the request of the president of the board of trade a delegation from Sanford was appointed to attend the meeting of deep water project for Mosquito Inlet and New Smyrna, the said meeting having for its object the securing of the support of Congress by having an appropriation of half a million dollars made, for the purpose of establishing a depth of eighteen feet of water over the bar at the Inlet.

The meeting was held at the magnificent auditorium of the Daytona High School and was attended by a delegation of fifty or more citizens from New Smyrna, the enthusiasm being deep and well founded. A splendid band of music was in attendance and with the interesting talks made on deep water, Florida development, freight rates and the position of central Florida in relation to the upper and lower portion of the state, the meeting was a most entertaining one.

Dr. Van Velsah was the first speaker to take the floor and was armed with charts, maps and other data of an authentic nature and established a splendid case in favor of the deep water project. A survey of Mosquito Inlet was made in 1897 and the engineer in charge of the survey reported favorably as to the feasibility and practicality of the plan. Soundings were taken and specifications were worked out showing approximately the cost of the project.

In 1907 another survey was made of the project and the engineer in charge made a favorable report in the matter to the committee of rivers and harbors.

The deep water at the end of the docks at New Smyrna is about 15 feet, thus if these projects were carried out sea-going craft would be enabled to tie up at New Smyrna's wharfs and take on cargo for points in the most remote portions of the earth.

Judge Barrett, a winter resident of New Smyrna, made a most interesting address. He stated he had decided to cut Florida out of his winter calculations and his himself to California as a change. He went but when he reached there he saw such a complete scene of desolation from the recent freeze and the residents were leaving in such numbers that he thought it best to get out with them, hence his presence at New Smyrna and at this meeting. The Judge is a much traveled man and is eminently qualified to speak of ports, shipping and commerce and traffic. He related many instances of development to isolated sections, caused directly by the proper development of transportation facilities and equitable freight rate adjustments.

Judge Barrett was followed in an address by Thomas K. Bates, secretary of the Sanford Commercial Club, who went armed with facts and figures of the various advantages to accrue to a place which had water as well as rail transportation. After Mr. Bates had finished various members of the audience revealed their thoughts on the question, with the result that a concerted movement will be taken by all boards of trade and other civic bodies within a radius of 75 miles of New Smyrna for the organization of a deep water committee to work for the securing of this appropriation and making this grand improvement on the east central coast of Florida.

Mr. A. T. Rossetter and Mr. Alfred Foster were the other Sanford delegates to the meeting. The trip was made over in Mr. Foster's car, going to New Smyrna and New Smyrna and returning by Deland and Enterprise.

Our delegation was informed that Volusia county do not have a single dollar of outstanding indebtedness, which left the delegation under the impression that it would prove fruitful to Volusia county to set once annex some debts and take the wherewith for the annexation and convert the new trails they now call roads in real, genuine highways.

Coach's building record for December was a record breaker, the city standing ahead of such places as Washington, Memphis, Cincinnati and other much larger cities.

AFTER FORTY-SEVEN YEARS

Old Comrades Group Holds Re-count Events

In 1867 and during the trying days of reconstruction, Capt. R. H. Marks parted with his old comrades of his company who had fought for the lost cause all through the bloody battles of that great conflict. Among them was one of his mess comrades, one of the home boys from Merriwether Co., Ga., named O. W. McGehee. They had bunked together in the same tent when they had such a luxury, as a tent and had a fire from the same canteen and shared the provisions of often times foraged from the nearest barnyard. Capt. Marks, although an officer, was the same democratic, whole-souled gentleman that he is today, and his friends and neighbors were still his friends and neighbors even though he wore epaulettes and they were privates.

Capt. Marks and his company came out of the war sadly depleted in numerical strength but with stout hearts and courage undaunted. Returned to their ruined plantations and homes ravaged by the contending armies and started life where the thread had been broken by the call to arms. The boys were scattered, in a few years many of them sick at heart, leaving the old home for other states and other countries.

Merriwether county, Georgia, was good enough for Mr. McGehee and he gradually rebuilt his home, mended the fences, brought out his plantation and under the altered conditions of the New South retrieved his ruined fortunes.

Capt. Marks came south and settled in Florida and has been identified with the interests of his adopted state ever since.

Yesterday Mr. McGehee dropped in to see his old comrade after a lapse of 46 years and they are talking at the rate of forty miles a minute.

Mr. McGehee is now one of the most prominent residents of Greenville, Ga., and a member of the Legislature from his district.

Mingled with the joy of meeting with these old comrades is the regret that this will probably be their last handshake.

These old veterans, whose names are ringing, will not meet for many more such reunions and this thought makes their handclasp stronger and their heart beat faster. To us who had no part in the great struggle of the sixties this meeting means but little. To those grizzled old warriors who carried the stars and bars in so many battles and long marches with all the horrors, privations and sufferings, the meeting means more than mere friendship, more than comradeship, more than even kinship.

After a trip over the celery delta today Mr. McGehee will leave for the old home in Georgia, there to tell the remnant of the old company about gallant Dick Marks, their old Captain, in Florida.

HOME TALENT MUSICAL CO.

"Gibson Reunion" to be Given in Sanford at Early Date

The ladies of the Welaka Club decided by a unanimous vote at a recent meeting to stage a home talent musical comedy, "The Gibson Reunion." This will be one of the biggest amateur attractions ever attempted by any organization in Sanford, and it is anticipated they will make an immense success of it.

The Welaka Club has succeeded in securing the assistance of one of the instructors of the Hock Entertainment Company, from Gainesville, Fla. This company has been making a specialty of amateur musical comedies for 15 years, and have found the Gibson Reunion one of its biggest attractions. With no good an attraction combined with the untiring efforts of the ladies of the Club there can be no doubt of the affair being a splendid success in Sanford.

About 200 are being invited to participate. The committees have been appointed for the various departments of the work and will begin activities at an early date.

In preparing the performance the patron will not only see a splendid performance but will also be adding a most worthy cause. Also, the children and young people who are being invited to participate will not only enjoy the rehearsal, but will also receive much splendid instruction.

At the Presbyterian Church Rev. Fred D. Hunt will preach at the Presbyterian church next Sunday morning. Every one is cordially invited to attend.

FOR BIBLE CONFERENCE

Enterprise Will Be the Site of Gathering

CHAUTAQUA WELL UNDER WAY

The Little City Across Lake Monroe Will Soon Be a Scene of Activity

The Florida Christian Assembly Association takes pleasure in announcing its second annual Bible Conference, which will be held on the grounds of the Assembly at Enterprise, Fla., commencing Sunday, February 9, and lasting through the following Sunday.

A cordial invitation is extended to all lovers of God's blessed book to attend its sessions, and seek a fuller and deeper knowledge of the Word, whose "entrance giveth light."

The sessions of this Conference will be open to the public, free of charge.

Enterprise, Fla., is a small town on Lake Monroe, opposite Sanford. It is reached by rail (one train a day) from Titusville and Sanford (where connections are made to points in north and south Florida) via the Atlantic Coast Line Railway, or by steamer from Jacksonville and other points on the St. Johns river, or by launch from Sanford, a delightful four mile ride (made in half an hour) across beautiful Lake Monroe.

Enterprise is the site of the Epworth Inn, for fifty years known as the Brock House, which is now owned by the Florida Christian Assembly Association, and operated under its auspices. The famous Benson Sulphur Springs, of verified medicinal value, is also upon the Association's property, whose waters are noted as especially beneficial in cases of dyspepsia and rheumatism. Epworth Inn, together with other hotels and boarding houses will afford ample accommodations for visitors at moderate rates.

The Conference will hold three regular sessions each day, while group meetings for special purposes may be held between times, as occasion requires.

The Conference is non-denominational and Christians of every evangelical faith will find its atmosphere congenial. Its work will not be done in the interest of any church or creed, but in the interest of individual Christian character. It is hoped in the matter of progress of these annual assemblies, to gather to this favored spot the foremost teachers and leaders of the Christian faith from all evangelical denominations, and to make it a veritable feast of fat things."

The year's program has been built with care and affords a season of delight and profit to all students of the Bible who can attend. The principal speakers will be: Rev. Andrew Allen, D. D., pastor of the Presbyterian church at Farmville, Va., whose address at Montreat Summer Assembly last year made such a profound impression by their luminous and deeply spiritual expositions of the Scriptures, will conduct the regular morning hour's service, commencing at 10:30 each day.

Mrs. Mabel Hilbish Stevens, principal of Southland Seminary for girls, Gainesville, Florida, a trained, travelled and broadly experienced Christian woman, whose gifts and personality are of a very high order, will conduct the evening services, which will be evangelical in character.

Miss Emma L. Tucker, famed throughout the south as a Bible Reader and Evangelist, will have general charge of the afternoon services, which will be varied in character, and will be participated in by a number of distinguished visitors.

The general management of the Conference will be in the hands of Rev. J. Edgar Wilson, of the Florida Conference, and Miss Emma Tucker, acting as a committee for the Florida Christian Assembly Association.

Palmdale, Jan. 22. — Some days ago Capt. B. F. Whitner, who for the past eight years has been superintendent of the Florida Hospital for the Insane at Chattahoochee, tendered his resignation. The board of commissioners of state institutions today took up the matter of selecting his successor. Two applications were before the board, that of Hon. Worth W. Trammel of Pensacola and Dr. Ralph N. Greene, at present the chief physician of the hospital. The board elected Mr. Trammel as superintendent to succeed Capt. Whitner.

SANFORD'S NEW PIPE ORGAN

Its Installation Will be an Event in Our City History

The much talked of grand pipe organ for Sanford which for months past has been in building by the world-renowned Moller Company of Hagerstown, Md., is at last completed and was shipped hitherward Friday last. Workmen will be here to erect it when it arrives and soon the "king of musical instruments" will be heard in our burg. The musical people of this city are preparing a program of appropriate observances for the auspicious occasion which shall mark the installation date. It is intended to make the dedicatory a matter of public interest, every one realizing as he must the inestimable value of an advantage afforded by the inauguration of this splendid musical adjunct and utility. Exact date cannot yet be given, but it is presumable that the event-public will take place early in February. Grand organ, pipe and cornets and strings as well as wind instruments will support as fine a choral ensemble as ever a town of this size could boast, and felicitated, civic pride in the accomplishment and a feat of both wit and music, such as is but rarely heard, will make the echoes ring on the much anticipated and eagerly looked-forward to evening of installation and dedicatory.

The Doll Contest

The interest in the Doll Popularity Contest is growing stronger and stronger every day, and in order to handle this increased business the Star has added more help to their already large and accommodating crew.

Friday the great three reel feature of the Ohio prison will be shown without additional charge. This is the only picture of the kind ever made.

The following is the last count of the votes:

Anna Stafford	555

Fern Ward	260

Summer Weather

New York, N. Y., Jan. 23. — "Cattle freeze to death in the west," first straw hat out in New Jersey; "traffic blocked by snow in Chicago"; "tulipa budding up state"—These were headline contrasts today coincident with an official forecast of "much colder" here. With the mercury near 70 yesterday it could be "much colder" without upsetting the season's record.

Within the last few days January records of forty-three years standing were broken. It was just 102 years ago today that Fulton established a Hudson river record by navigation one of his steamers on that date as far as Albany—a record equalled today for the first time. There is not a particle of ice in the river.

Sanford Celery

This is the season that means money to the celery growers again, says the Sanford Herald. "The crop this year is said to be finest quality ever raised here and it is ready much earlier than usual. The market has been brisk and \$2 a crate has been offered." This is surely a satisfactory condition of affairs in Sanford and the celery section, and it will mean good times for the vicinity. It will also be a good thing for the people if they buy and eat a great amount of Florida celery, for next to Florida oranges, Florida celery is one of the healthiest and best of products of the soil of the United States.—Times Union.

FOR BUILDING DOCKS

Jacksonville Votes Over Million for Municipality

SITES FOR MARINE TERMINALS

Other Matters of Interest Around the Sunshine State

The vote yesterday on bonding Jacksonville for \$1,500,000, the money to be expended in buying sites for city marine terminals and building docks was overwhelmingly in favor of the project. A board of port commissioners, commissioners, consisting of fifteen business men, was elected to carry through the project. It was to get a special enabling act passed that the board of trade of that city a few months ago had Governor Gilchrist call a special session of the legislature, the expense of which session was paid by the citizens of Jacksonville.

Mistaking a bottle of carbolic acid for Jamaica ginger, Chas. McCrory, a brick layer, drank the contents of the bottle containing the poison Saturday night at Lakeland and died from its effects within a few minutes. McCrory was not a drinking man habitually, but he had been to Plant City, where he had become intoxicated, and on returning to his room at the Ford House, he got up out of bed about 11:30 to take a drink of the ginger, which he had secured, and in his condition he mistook the bottle of poison for the Jamaica ginger and swallowed its contents.

Two prominent men died suddenly Monday at Arcadia and Avon Park. Col. Harold Davidson, prominent in educational work and connected with the military school at Highland Park, Ill., fell dead at his home at Avon Park. Late Monday afternoon Armond E. Hollingsworth, 88 years old, a well known cattle man of this city, was talking to his wife when he fell dead at her feet. Both deaths are said to have been caused from heart trouble.

The Kimmee Golf and Country Club was organized in Kimmee a few days ago and officers elected for the ensuing year. Grounds have been donated on which an excellent nine-hole course has been laid out, and the golf instructor from the Orlando Country Club has been employed to give lessons to the members. A club house will be erected as soon as the members are enrolled.

The home of A. E. Gerrals, a resident Ocala city, was completely destroyed by fire. This house was formerly the W. C. Edwards home, just opposite the home of B. A. Wethers. The loss of the house, outbuildings, etc., was \$5,000 and in one of the outbuildings was stored \$8,000 worth of electrical supplies, which were a total loss. The insurance on the entire property was only \$3,000 so the loss is a serious one.

Theodore H. Thell, 40 years old, committed suicide late Monday afternoon at his home a mile north of Brooksville, using a double-barreled shot gun to effect his death. Just before committing the rash act, Thell, who is supposed to have been drinking, seized a yard stick and drove his three children, all of them young girls, from the house.

The Lake City Crop Improvement Association is the name of a new organization formed in Lake City. An expert agriculturist has been employed and this man will spend his time visiting the various farms and plantations in Columbia county, giving advice and suggestions wherever desired regarding crops, stock, fertilizer, etc.

Basket Ball

The Kimmee High School plays the Kimmee High School Saturday afternoon in Kimmee. The boys have been practicing faithfully since the game with Rollins and by showing they make are expected to take the game. The line up is: Kanner, R. F.; Raynor, L. F.; Gilbert, C.; Field, R. G.; Routh, L. G.; with Fry; Crosby, subs. The coach, Mr. Wildman, is very much pleased with the work and ex-

Wednesday Club

The Wednesday Club held their regular meeting at the home of Mrs. Geo. H. Fernald Wednesday afternoon with a fine attendance of the members and one visitor present.

After the reading of the minutes by the secretary, Mrs. S. O. Chase, the president, Mrs. G. L. Maris turned the meeting over to Mrs. C. E. Walker, leader for the afternoon, who opened the program with a most interesting paper on the "Early People"—that is, the first settlers of Mexico known to history.

This paper was followed by another of equal interest on "The Founding of the City of Mexico," written by Mrs. C. W. Goodrich of Orlando and read by Mrs. S. O. Chase, as Mrs. Goodrich was unable to be present.

Mrs. George M. Fernald continued the very entertaining study of Mexico by reading several splendid articles on the "Ancient Ruins" that are being found and studied by present-day excavators in Mexico.

Mrs. Lake entertained the club with an inimitable study of Spanish pronunciation. Mrs. Lake's proficiency in the Spanish language was acquired during a residence of several years in Cuba. The club thoroughly enjoyed Mrs. Lake's interesting talk and the several personal incidents related.

Mexico and Things Mexican was made very real by the exhibition of a number of curios brought from Mexico as souvenirs by Mrs. O. W. Brady, who with her family visited that quaintly peculiar country only a few years ago. Mrs. Brady gave several reminiscences and experiences of the trip that were very interesting, and which will be concluded at the next meeting of the club.

Program for January 29th, Miss Mell Whitner, leader:

Music.
 Sketch of Wm. H. Prescott and His Works, Mrs. L. G. Stringfellow.
 Outline of the Life of Hernando Cortez, Mrs. J. H. Roumillat.
 Story of the Conquest, Miss Mell Whitner.
 Roll call—Conquerors.

Reading Circle

The Reading Circle of the Missionary Society of the Methodist church were entertained at their regular meeting at the home of Mrs. L. R. Phillips Tuesday afternoon.

The Reading Circle and meeting of Tuesday afternoon was in charge of Mrs. H. V. Perry, who after brief devotional exercises conducted the afternoon reading and study of the second chapter of the book on "Mormonism, The Islam of America."

When the reading was concluded two vocal solos were very much enjoyed, especially the beautiful child's song, "Jesus Bids Me Shine," sung by Marian Newton, a dainty little tot, accompanied by Mrs. Claude Herndon.

After the conclusion of the program strawberry ice cream and cake were served by the hostess and her assistants, and a social half hour was enjoyed by the members of the circle and friends who were present.

Cameo Club

Mrs. G. F. Smith was hostess of the Cameo Club Wednesday morning. Two tables of bridge were played. Mrs. C. O. McLaughlin made the high score.

Mrs. Smith's guests were Mrs. C. M. Vorce, Mrs. R. L. Hughes, Mrs. O. W. Brady, Mrs. C. O. McLaughlin, Mrs. A. P. Connelly, Mrs. B. W. Herndon, Mrs. Barrett.

Earth as a Thermometer.
 The general rate of increase in the temperature of the earth's crust is about one degree Fahrenheit for every 55 feet of descent. If this rate were invariable a scale might be marked on the wall of a mine shaft, which would indicate the temperature of the strata of a thermometer. In fact, however, the rate varies in different regions, and Muhlberg and Konigsberger have suggested that these variations may be of advantage in prognosticating the existence of deep deposits of coal and oil, and possibly of other valuable minerals. The presence of such deposits causes an abnormal rise of temperature above them; but no deductions concerning their presence can be drawn from bore holes less than 600 feet in depth.—Harper's Weekly.

"Up" in Any Case.
 Mrs. Langtry in an interview in New York urged gay clothes for American men—sky blue trousers, red velvet coats, golden waistcoats and so forth—though she admitted that the "rah-rah boy" or "flick" hat was as gay as she could wish and required no change. "Gay clothes," said Mrs. Langtry, "encourage gay thoughts, and by gay thoughts I mean wholesome, cheerful thoughts. I am a foe to dissipation or anything of that kind, and I urge every girl to say 'No' to the dissipated man who would marry her." Mrs. Langtry smiled and added: "The man a girl is obliged to stand up for before marriage she will have to sit up for afterward."

Nice Mixture.
 Disraeli appears to have been endowed with a most accommodating digestion. When he visited Spain in 1830 he wrote his mother glowing accounts of "the most agreeable dish in the world—an olio. I will explain it to you, for my father would delight in it. There are two large dishes, one at each end of the table. The top one contains bouillie beef, boiled pork sausage, and black pudding. The other is a medley of vegetables and fruits, generally French beans, caravanseras, and whole peas. Help each person to a portion of the meats, and then to the medley. Mix them up in your plate together, and drown them in tomato sauce. I have eaten this every day; it is truly delightful."

When Napoleon Was Expected.
 The belfry of Wrabness church, in Essex, England, looks more like an ancient summer house than a belfry. Its chief interest lies in the fact that it contains two huge saws made at the time when Napoleon was supposed to be on the point of invading England. These saws were to be used for cutting down trees, with which the roads were to be blocked against the invaders. This, however, was but one of many means which were devised to repel the invaders. Perhaps better known are the series of curious Martello towers which dot portions of the southern coast of England and the military canal, which runs from Hythe to within a short distance of Hastings.

Paraguay's "Spider-Lace."
 Missionaries in Paraguay more than 200 years ago taught the native Indians to make lace by hand. Since that day the art has greatly developed, and in certain of the towns lace-making is the chief occupation. Almost all the women, many children, and not a few men are engaged in the industry. A curious fact with reference to the Paraguayan laces is that the designs were borrowed from the strange webs woven by the semi-tropical spiders that abound in that country. Accordingly, this lace is by the natives called *nanduti*, which means "spider web."—Harper's Weekly.

Notice of Sale of Bonds
 Notice is hereby given that the Road and Bridge District No. 1 of Orange County, Florida, will receive bids for the purchase of \$200,000 par value of Road and Bridge District No. 1 of Orange County, Florida Bonds at Orlando, Florida, at the courthouse at 10 o'clock a. m., on Tuesday, February 4th, 1912. Said bonds are dated January 1st, 1912, payable thirty years after date in denominations of \$1,000 each, and bear interest at the rate of five per cent per annum, payable semi-annually on July 1st and January 1st of each year. All bidders shall accompany their bids with a certified check for \$500.00 as security for compliance with bid. Both sealed and auction bids received. The right is reserved to reject any and all bids. Address all bids to B. M. Robinson, Clerk Circuit Court, Orlando, Fla., marked Bids for Bonds for Road and Bridge District No. 1. By order of the Board.
 B. M. ROBINSON, Clerk.

NEWS from the COUNTY

MOORE MOVEMENTS

Mrs. J. W. Prevatt of Geneva is a visitor this week at the McClelland home. Mr. and Mrs. W. W. Dresser were supper guests Saturday evening of Mr. and Mrs. J. C. Ellsworth, to help Mr. Ellsworth celebrate his birthday.

William Patrick Mitchell wishes it understood he is open for engagements to work an overseer on a farm. Learn particulars at McClelland's store.

Rev. Gaines preached to a large congregation Sunday for the first time. We understand he will preach here the first Sunday of each month and will be pleased if the people come to hear him.

The officers for the Ladies' Aid have been elected as follows for the coming year: Mrs. J. D. Ellsworth, president; Mrs. C. C. Morris, vice president; Mrs. Edw. Rapp, secretary and treasurer; Mrs. W. W. Britt, assistant secretary and treasurer. The ladies meet with Mrs. Pope of Beardall avenue this week.

The Farmers' Progressive Club were disappointed last Friday evening that the speakers did not come from town. Ouedo excursion the other attraction, we expect. An impromptu debate was held and caused interest and merriment. Good crowd in attendance.

F. N. Estridge of Cameron avenue and Jas. Hawkins of Celery avenue are cutting some splendid celery, and W. W. Miller will also put some fine celery this week.

A son was born to Mr. and Mrs. Frank Cowan of Cameron avenue the 16th.

Mr. and Mrs. Geo. Drake of Mulvane, Kansas, arrived here the 21st to spend some time with their friends, Mr. and Mrs. J. F. Smith of Cameron avenue.

Mrs. Myrtle Curtis of Columbus, Ohio, has joined her sister, Mrs. Ella A. Greenland of Cameron avenue for the remainder of the winter. Their mother, Mrs. Stephen Curtis of Columbus, is here and makes a pleasant family party.

Mr. and Mrs. John Welker of Richmond avenue are entertaining a niece and her daughter of Ohio.

Mrs. C. C. Chamberlain's aunt, Mrs. Grieve, of Missouri, who recently spent some time here, arrived safely in Ann Arbor, Mich., where she has gone to make her home with a nephew.

GENEVA

Mrs. Fred Yerkes and children of Jacksonville are guests of Mr. and Mrs. J. H. Huddleston.

Mrs. Worthy has gone to Americus, Georgia, called there by the illness of her daughter.

Miss Clara Phillips made a short visit to Sanford last week.

Mrs. Pattishall was hostess for the M. M. S. Society last week. A very enjoyable afternoon was spent by all. At the close Mrs. Pattishall served hot chocolate and cake. The ladies of the society will give an oyster supper at the hall next Thursday night.

Miss Dobbie Nicholson is visiting the Sanford.

Sunday, the 12th, was a great day in the Geneva Methodist church for it was the first Sunday under the supervision of the new minister, Rev. A. L. Hope. The Rev. Hope came to Geneva the day before, a stranger, but by nightfall he had entered the homes and made the acquaintances of almost every person living around the lake. His sermons, both morning and evening were of the highest order. Rev. Hope is an unassuming but very magnetic man in his personality and captivates those his meets at once. The feeling is general that there is a good year ahead for this organization.

Mrs. M. Rhebnder, teacher of the Byda school is quite ill.

Mrs. J. L. Adams entertained her Sunday school class of boys and their girl friends last Saturday.

Mrs. Curlett is looking forward with pleasure to a visit from her mother, Mrs. L. C. Eichner of Baltimore, Md., who is expected to arrive in Geneva next Friday.

Mrs. W. L. Taylor has gone to Ft. Pierce for an indefinite stay.

Mr. and Mrs. D. W. Adams of Herndon, Virginia have come to Geneva for the winter. Mr. Adams is the first one to take the winter home in Lake Down House, which he will set up on the west side of Buck Lake. He assures us that this will be a perfectly snug and comfortable home.

Miss Blanche Pattishall is the guest of her aunt, Mrs. Beagan of Titusville.

A large crowd of Geneva people attended the county division meeting at Ouedo last Friday night. The

teachers of the Geneva school, Miss McLain and Miss Geiger, with most of their pupils attended in a body.

The Geneva House, under the management of Mr. and Mrs. David Spoor is one of the successes of New Geneva. The hotel has been kept well-filled all winter and it looks as though it will be necessary to add more rooms in the near future.

Some pretty calendars have been received by friends in Geneva from Mr. Charlie Cresse of Grand View on the Hudson. Thanks, Uncle Charlie.

Miss Nellie Geiger spent Sunday in Geneva with home friends.

EBENEZER ITEMS

Mrs. M. E. Smith of Winter Garden is visiting Mrs. C. C. Humphrey.

Miss Mittie Bruy of Lake Mary spent Friday and Saturday with Miss Edith Corton.

The young people of this place and of Celery avenue met at the Five Bridges near Lake Jessup Friday night and had a fish fry.

Misses Gladys Bryan and Avis Stenstrom are spending a few days this week with Mrs. I. V. Stenstrom.

Miss Lillie Lord and Mr. E. C. Bowman spent Sunday in Winter Park with Mrs. J. D. Letson.

The infant child of Mr. and Mrs. J. M. Wynn has been very ill for the past three weeks, but we hope it will recover soon.

Mr. Schafer at Home

R. T. Schafer, proprietor of the Keystone Bakery has returned home after a two weeks cruise on the St. Johns river with his brother-in-law, Capt. W. J. Newman of Crescent City. Capt. Newman owns a finely equipped launch and it is needless to add that Mr. Schafer had a splendid outing. They visited Sanford during the cruise and the genial baker enjoyed a short stay with his old friend, Robert J. Holly, editor of that excellent paper, The Sanford Herald.

Holly is Some Good

Editor Holly stops long enough in his anti-Orange County fight to "belcher" for the Orange County Fair and advises the Sanford folks to support it.

That's altogether the proper spirit. Let the county division fight rest on its merits, and meanwhile on the county fair proposition let us be as generous as though there were two counties rather than one. Sanford has the goods, let her show that she has the good will to show them.

Things at the Star

The managers of the Star, with their usual generous manner have arranged to give to the most popular little girl in town a Beautiful Doll.

It is as large as a little girl and is dressed up like a princess. It wears everything that a girl should wear and is so natural that it will be a good companion for any little child.

This Doll is given away free. It absolutely costs you nothing.

Every five cent admission entitles the purchaser to five votes and ten cent admission ten votes.

As soon as your name is nominated you will receive 250 votes as a gift from the Star.

We will positively not allow any soliciting of votes, and only postage will enable anyone to receive ballots.

Friday night a special three reel feature will be given, showing the life of a convict in the Ohio prison. This is the only picture ever made behind prison walls and was made by special permission of the U. S. Government. Don't miss this motion picture masterpiece.

No extra charge will be made.

"Fairness" is our motto.

All the latest school news in the Celery Sprout.

HORSE AND MULE OWNERS

Have you tried Dr. Semple's Hoof Ointment? A Preventative and Cure for Hard, Dry, Brittle Hoof. It Prevents Thrush, Contracted Hoof. Will heal up Old Sores and it will positively keep flies and mosquitoes from tormenting the animals. Every Farmer, Liveryman and Turpentine Operator or anyone owning Horses or Mules should not be without this Valuable Remedy.

QUART FIFTY CENTS

The cause of numerous diseases and disagreeable habits heretofore ascribed as "constitutional" have been traced to the teeth. Turning head sideways in eating, frothing at the mouth in harness, blindness caused from wolfe teeth, loss of flesh, weak eyes and cribbing are always due to diseased and irregular teeth. Rough edges and sharp corners of the teeth lacerate the mouth and produce nervousness and irritability. Uneven, elongated molars and incisors prevent the proper mastication of the food, producing indigestion and general debility. Decayed molars cause necrosis of the bone, abscesses, nasal gleet, fistula of the jaw, etc.

"In the care of horses and mules probably no one point is more neglected by the ordinary horseman than the care of the teeth.

"Again, when the teeth become so deranged that the animal cannot properly masticate its food, what it eats does not do it as much good as it should, because when the food is not properly ground it cannot be properly digested, and when it cannot be properly digested more or less of it passes off as waste material."

If your Horse, Mule or any other Animal is Afflicted in any way, you may not know the cause. Consult

ANOTHER SIMPLE SIMON

In the words of Mutt and Jeff we say to the editor of the Reporter-Star, "You poor, pigeon-brained idiot." And our remark is called forth by the following piece of simplicity: "Our Oviedo friends, your good nature was very much imposed upon by your Sanford neighbors last Friday. They assumed that you did not know very much about affairs in this county. They seemed to believe that they could tell you any old thing and you would believe it. They told you, you will recall, how Sanford and your town alike had been cheated out of school money by Orlando. We have shown you just how false that was. Then they became more reckless still, and told you that your taxes would not be raised if you cast your lot with the proposed new county. That assertion, we take it, was a direct insult to your intelligence. They told you that the recently incurred two hundred thousand dollars bonded indebtedness for building hard roads, would be paid by the abutting property owners. We are wondering how long it would take the debt to be liquidated in this way, when we consider the aspect of the greater part of the abutting land. Here's what the law says about the taxes you will pay, Sanford oratory notwithstanding: "That whenever any special road and bridge district has been constituted and special road and bridge bonds issued by the county commissioners, as provided in this act, it shall be the duty of the board of county commissioners to ASSESS ANNUALLY A TAX UPON ALL REAL AND PERSONAL PROPERTY, RAILROADS, telegraph and telephone lines, owned or situated within the said special road and bridge district, to realize a sum sufficient to pay the interest upon said bonds as it may become due, and to create a sinking fund for the payment of the principal of said bonds at the maturity of same." (Section 9, Chapter 6208, Laws of Florida.) Will your taxes be raised? Think it over." No Sanford speaker made the statement that the abutting property owners would pay for the brick roads in the special road district, because all the people residing in the special road district will pay for the brick roads and every one of them are willing to do so, and as the bond election as stated by a solid vote for brick roads. This Simple Simon on the Reporter-Star makes himself more ridiculous by actually quoting the law on special districts and by that same law proves the truth of Sanford's statements that neither Oviedo, Chuluota, Geneva, Longwood or any other districts outside of the special road district would have to pay one cent on the brick roads in the Sanford district. We want to ask our good friends in the other districts if the law could compel you to pay for bonds when you have never held an election for that purpose? Ask yourself that question and ask your lawyers that question and find out if you ever participated in any bond election in Orange county beside the MILLION DOLLAR BOND ELECTION THAT WAS DEFEATED? The SANFORD DISTRICT IS THE ONLY DISTRICT in Orange county that has ever voted bonds for road purposes and the Sanford district will pay these bonds AND NO OTHER DISTRICT. Read your law that is so glibly quoted by the Reporter-Star and especially read the line: "the county commissioners shall assess a tax upon all personal and real property owned or situated WITHIN SAID SPECIAL ROAD OR BRIDGE DISTRICT." The law is plain enough to anyone who does not wish to twist and distort the truth to divert the minds of the people for their own selfish ends and we would like to think that the Reporter-Star editor knew some better. We would like to think that he twisted the truth to help his side of the problem. We would hate to think that any Florida journalist, and especially an Orange county journalist, knew so little about a special road district and a special road tax as our brother on the Reporter-Star. Sanford is about one hundred years ahead of the Orlando contingent and ever since we instituted the idea of having brick roads in Orange county we have been busy instructing the people about the advantages of brick roads and the expediency of paying for same. It has been a tedious and laborious task and the special road district was formed here because of the hopelessness of getting Orlando into the good road class forced

to make the Sanford and a special district. In a few weeks the work on the twenty-five miles of brick roads in the Sanford district will start and ere another season rolls round our tourists will be spinning away with their cars, and we will be hauling their loads of sugarcane garden stuff over them to market and our children will be coming to the five Sanford schools over them and they will be paid for by the satisfied residents of the SANFORD DISTRICT AND NO ONE ELSE. We grieve for the ignorance, the crass ignorance of our Orlando contemporary. Such ignorance displayed in an enlightened community is painful, grievous and inexcusable. In order to remove the stigma of shame that such a benighted individual actually wields a pen in the Florida Press Gang we pull the mantle of charity over him and let him sleep on in Orlando, in the grave where ignorance laid him.

EDITORS TO PANAMA

It may be that the Florida Press Association will take a trip to the Panama Canal when the time comes for the next meeting of the organization. At the last meeting of the Florida editors Tampa was selected for the meeting of 1913 and among other things it was promised that arrangements would be made for a visit to the big ditch that will soon be connecting the Atlantic and Pacific Oceans. Secretary Powell of the Tampa Board of Trade has been busy with the matter for some time and now announces that a steamboat company has offered to take the press association at a very reasonable rate to the canal zone and bring the party back, the round trip and the visit ashore occupying ten days and the expense being \$75. This is about half the usual round trip fare and the special excursionists will be taken care of all the time—ashore as well as on board the boat. It is necessary, in order to secure this rate, that there should be at least one hundred people on the trip, and the members of the association and their families and friends, who would like to take advantage of the offer, should advise Secretary Powell of their wishes at once. It will certainly be a most interesting and instructive as well as important trip.—Times-Union.

FOR BETTER LIVE STOCK

The management of the Orange County Fair Association are preparing to revive interest in live stock raising in the county, by encouraging live stock exhibits, and for the permanent welfare of this section no better work could be undertaken. That a good quality of live stock, both cattle and hogs, can be raised in this county there is no doubt. Proof of it was demonstrated when a twelve year old boy raised fifty bushels of corn on an acre of ground. That the raising of such stock would also be profitable there is no doubt. What is needed, is to show the ruralist the advantage of this branch of farming. To show him that fine stock can be raised; to give him some idea how to raise it, and to stimulate his interest by showing him the results of stock culture. This the Fair Association can accomplish in a way that is open to no other institution. And that President Dickson and his associates in their work are alert to their opportunity is very encouraging.—Reporter-Star.

WE CANNOT TELL A LIE

Oviedo citizens say that the latest dodge of the Sanford divisionists is the promise of the court house at Oviedo, provided the people of that section will join them in agreeing to separation from Orange county.—Orlando Citizen. The Orlando Citizen has been misinformed and never received this information from an Oviedo citizen. No Sanford man has ever intimated

that Oviedo or any other town in the new territory would be the county seat. Sanford has been agreed upon as the place for the county seat, although the location of the same will be left to a vote of the people after the county is formed. We know that our Sanford friends have made a promise to our friends in the new territory will be faithfully carried out. And lest you be misinformed again we will state that the court house has already been built. — Wants Trolley Service For the last thirty years that I have lived in Orange county I have been interested in Sanford as the town where most of my trading is done. I believe that almost every one now sees the wrong in almost forcing the Railway Company to build the new station out on Ninth street, and unless Sanford wakes up and puts in a trolley line from the new depot down town they are surely going to be the losers. There is already a talk (not imagination) not only to build a store but also a tourist hotel near the depot, and if that is done it will almost be good-by to the old town. I hope that the city council will take the warning and not only brick Ninth street but put in a trolley line. That, it seems to me, is the only way to save the old town from ruin. Even a tourist hotel on Sanford Heights, as contemplated, will certainly hurt the old town. The only thing that would keep parties from speculating in stores and hotels so far out of town would be the decision of the city council to have a trolley line started as soon as possible, and unless that is done Sanford is going to regret it. J. F. SUNDELL.

In the County Judge's Court, Orange County, Fla. To the unknown heirs of Elias Burge and to whom all this may concern: Whereas F. W. Mahoney an administrator of the estate of Elias Burge, deceased, has filed his petition to make assets of the amounts of the administration to sell and pay the debts of the said Elias Burge, deceased, the following described real estate of the said Elias Burge, deceased, being to-wit: Beginning at a stake standing at the intersection of the west side of the right of way of the South Florida Railroad Company with the township line between Township Nineteen (19) and Twenty (20) South, Range Thirty (30) East and running thence west along said Township line Ten (10) chains to a stake, thence South Fifteen (15) chains to a stake, thence East one chain and fifty-four links (1.51) to the west side of the right of way of the South Florida Railroad Company, thence in a north easterly direction along the west line of the right of way of said railroad company to the point of beginning, containing eight and sixty-seven one hundredths (8.67) acres of land, more or less. Said land being in Sec. 2, Tp. 20 S., R. 29 E. These are therefore to cite you to appear before the County Judge's Court on or before 30th day of December, 1918, and file objections if you have any to the granting of the petition, otherwise the same will be allowed as prayed. Witness my hand as County Judge of said court and the seal of said county this 18th day of December, A. D. 1918. W. M. MARTIN, County Judge.

Best Opportunity of the Entire Contest Is Being Presented

Fifty Thousand Extra Votes Offered For Every \$20.00 Turned In For New Yearly Subscriptions—Credit to Be Given On This Offer For New Business Already Turned In

"Count on me for at least two clubs," said one contestant yesterday. This contestant has already grasped the importance of the bonus offer that was announced last Tuesday, and is determined to receive it. By this time nearly every wideawake contestant in the friendly struggle has awakened to the importance of the bonus offer that is now on; and there are very few of them according to all indications, who will not have one or more clubs before this offer expires. This offer affords the greatest opportunity of the entire contest to secure, with the smallest amount of effort, a winning number of votes. A limited number of new yearly subscribers will give every candidate a lead that will be hard to overcome. Every contestant should turn in at least one club, and the ambitious ones are not going to be satisfied with one. Candidates who desire more subscription books are requested to apply for any number they want. If you have any friends who have agreed to help you, obtain books for them, so that they can secure subscriptions and write them up in your name. Hundreds of the ballots good for fifty votes that appear in each issue of The Herald, are not being collected. Their value amounts to ten thousand times more than the trouble that it takes to clip and vote them. Everybody should save them for someone of the candidates. General Rules and Conditions Any lady, married or single, residing in Sanford or its territory, may become a candidate. It is not necessary to become a subscriber to The Herald in order to enter. Just fill out and send in the nomination blank printed elsewhere in this issue. A nomination counts for 5,000 votes. Payments on all subscriptions will earn votes according to the following schedule. Renewals and back subscrip-

1 year \$ 2.00	2,000 votes
2 years 4.00	7,000 votes
3 years 6.00	12,000 votes
4 years 8.00	18,000 votes
5 years 10.00	25,000 votes
10 years 20.00	75,000 votes

Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, writes: "There is almost no relation between skin diseases and the blood. Eczema must be cured through the skin. The germs must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of watergreen, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema."

THE ROBIN REDBREAST

By Mrs. Marian A. McAdow, Punta Gorda, Florida

The Audubon Society of the state of Florida is going to do some strenuous work at the next session of the state legislature to get a bill passed to protect the robin from indiscriminate slaughter and remove it from the list of game birds. It is with shame that I must admit that Florida is one of the states that does not protect the life of the most worthy of birds. I have been told by a government game warden that he has seen the bodies of 250,000 of these birds at one time in market stalls in Texas, and they were shipped there from Florida.

It is an increasing wonder to me that the great Agricultural Department of our government does not stop short many of its varied interests and concentrate all of its energies upon bird laws and bird protection, until it would be impossible to kill one of these feathered benefactors without being prosecuted and punished as severely as if the life had been human. Not that the value of a bird's life is that of a human being; but if birds do all that our scientific agricultural professors claim they do, in destroying insects that ruin millions of dollars' worth of every kind of agricultural products every year, would it not seem quite well worth their while to apply all their energies to this preservation of bird life until the matter is put on so firm a foundation that there would never be repeated the extinction of any one of the various kinds of birds that act as man's chief assistants in protecting the plant form on which his life depends?

Our old pioneer tells us that the reason for this country-wide destruction is the scarcity of birds. That years ago before the forests were cut down and the country so thickly settled, when guns were not so common as they are nowadays, that the woods were full of birds that kept down this expensive insect life that in this age is committing such shocking devastations.

I am quite well aware that there is a class of persons who cannot sympathize with the unprotected robin, let alone say a kind word for him. These are small fruit raisers who have to pay a more or less heavy toll to the bird when their fruit is ripe.

If he could also see the number of

harmful worms and bugs that are culled daily from his fields and these were laid side by side with the fruit that was eaten, I think he would more cheerfully donate what is taken. Let there be a variety of things for this little marauder to eat and he won't be compelled to take so much valuable fruit. Try planting some of these in out of the way corners of your place and by this means will you not only invite these untiring little destroyers of destructive insect life to your trees and truck patches but you will prevent them from demanding too large a toll by giving them an assortment of food on which to appease their hunger. They can eat only so much every day and if you offer them a dozen different kinds of food, that they like it stands to reason that they will only eat one-twelfth of what they would take from your strawberry patch if you had only that one form of food for them.

Outside in the street we have different varieties of water oaks, and for several years these have been bearing acorns. The jay birds and grackles eat the most of them. Then there is a large native rubber tree that bears a small fig that is much appreciated by robins, cardinals, mocking birds and other varieties. All kinds of figs are relished and these may be grown in great variety in every part of our state. They don't take up much room, and may be planted in fence corners or along fences. I have also a sea grape that grows wild along the salt waters of our state, and not only is this a most handsome small tree or shrub, but its fruit is relished by birds, and it can be made into a very palatable jelly for household use. I have a small tree of the entley guava, whose fruit I seldom use, but the birds take toll from it.

My day blooming and night blooming jessamines have seeds that the birds like. A Dahoon holly never gets a chance to ripen its red berries before they are eaten. Some years ago I had seven or eight chinaberry trees that were greatly patronized by mocking birds all through the winter season, after their berries were ripe. I have several palmetto trees growing in the street along the walk, and different kinds of birds are very fond of the berries of

these. Last winter there were hundreds of robins came in one night and stayed three weeks feasting on these palmetto berries. The mocking birds tried to drive them out, but their numbers were too great and the mocking birds had to stand by and see their special preserves devastated. I have several drinking pans set about my grounds for birds, and the robins would eat berries until they were so full that they could not take a drink of water until they had coughed up enough berries from their craws to make room for the water.

The small red peppers from which pepper sauce is made have been brought to my grounds presumably by some bird, and these seed themselves year after year. I do not disturb these if they are not encroaching on some more choice plant. These are great favorites with the mocking birds. I have seen them carry the ripe pods to their fledglings in the nest and cram them so full of this hot stuff that you would be forced to wonder if such peculiar food was wise for infants, even though they were birds. The birds have also brought to my yard a small tomato that bears a fruit no larger than a cherry and these I permit to grow in many places around my grounds because the birds are fond of them. I have a tree that bears the name of Schetia, and in the springtime, when the flowers are full and overflowing with nectar, the birds drink their fill of this delicious flower-product. Two pounds of suet tied on the branches of trees is a warm welcome for them in the line of food.

If you can further the interest of the robin by talking to a Congressman from your district, do this much for the little fellow who needs your aid and can't ask for it. And don't put it off. Do it right away. —From Florida Grower.

City Council Meets

City council met in called session Jan. 18th, at 4 o'clock p. m. Present, T. J. Miller, president; F. L. Woodruff, W. S. Hand, B. W. Herndon, S. Runge, C. C. Woodruff. Absent, W. H. Underwood.

The object of the meeting was to consider the matter of paving Ninth street. Moved and seconded that the Southern Clay Manufacturing Co. be awarded the contract to furnish to the city 450,000 paving brick, to be delivered as soon as possible. Carried.

Council adjourned.

City council met in regular session Jan. 20th at 7:30 p. m. Present, T. J. Miller, president; F. L. Woodruff, W. S. Hand, B. W. Herndon, S. Runge, C. C. Woodruff and W. H. Underwood.

Moved and seconded that the street committee be authorized to locate and have placed such electric lights on Ninth street as they find necessary. Carried.

Mr. Wing appeared before the council and asked that Tenth street across the A. C. L. Ry. be opened. Referred to the street committee.

Council adjourned.
M. W. LOVELL,
City Clerk.

The World's Wheat Crop.

Statistics from abroad recently compiled give the comparative production of the world's wheat crop as follows: United States, 200; Russia, 194; France, 98; British India, 77; Italy, 52; Hungary, 34; etc. As to the yield per acre of territory, the order is quite different, this being: Great Britain, 21; Germany, 19; France, 14; Austria, 13.2; Canada, 12.4, etc. The United States occupies the ninth place, with a figure of 9.2.

Cost of Producing Milk.

The Massachusetts experiment station has found that the total cost of producing milk satisfactory in sanitary quality and containing from four to five per cent. of butter fat will usually amount to from four to five cents per quart. The cost of keeping a cow for one year is estimated at \$137.07. Milk produced under more than average sanitary conditions of certified milk will naturally cost considerably more.

Body Shields for Policemen.

The Electrometallurgic society, which has its factory at Neuchatel, has received an order to construct a certain number of body shields (bucklers) for the police of Paris. These shields, the invention of a Swiss named Paul Girod of Neuchatel, have been tested, and are said to have successfully resisted revolver shots.—Geneva Correspondence London Standard.

Bedridden.

"Yes, ma'am," said Harry the Hobo. "I know I look like a strong man, but out of my fifty years of life I've spent over sixteen years in bed." "Why, you poor man," replied the lady, sympathetically, handing him a quarter. "What has been the trouble—paralysis?" "No, ma'am," said Harry, "just a regular habit of sleepin' eight hours a day, ma'am."—Harper's Weekly.

Lenient Justice.

"But look here, judge," protested Willoughby, "how could I have done your regulations? I didn't see a sign all the way over from Yarrowby to Rockyville." "They're within in that," said the judge, "so I'll let ye off for costs, Thutty dollars, please." "Thirty dollars?" echoed Willoughby. "How do you figure out the costs at thirty dollars, I'd like to know?" "Why, it'll cost all o' that, mister, to hev them signs painted an' set up," said the judge.—Harper's Weekly.

Safety in Friendship.

An intimate friendship is at once a safeguard in recreation and social life. It is a stimulus, because before he plunges into surroundings which he knows his best friend would condemn. It is a stimulus, because in work or business, or even play, a man does not willingly lag behind while the friend is forging ahead. In common endeavors for good causes, religious or social or political, friendship is a powerful inducement to self-forgetting activity.

One Word She Could Say.

An earnest London slum worker records her unremitting, patient endeavors to improve the accent and vowel enunciation of her little protegee, Blanche, for the sake of the child's future destiny "on the stage." Once, falling in all else, she tried a mild dose of gentle ridicule. "You can't say 'food,' can you, Blanche?" she smiled, teasingly. "I can say 'fule!'" was the child's crushing retort.

Roman Method of Heating.

Like many other Roman houses that have been unearthed in England, one recently brought to light was heated by a system called "hypocaust." The entire basement was one big furnace, from which flues ascended, built into the walls. A wood fire was kept in the basement, the fuel being fed in from an outside annex, through an arch in the wall.

Sizing Him Up.

When you call the average young man honest he is likely to feel a mild sort of gratification. When you call him competent his chest begins to bulge. When you call him a heart-breaker he slaps you on the shoulder and gives you to understand that he considers you a person of remarkable perception and uperring judgment.

Reason for Superiority.

The domestication of animals and the utilization of plants does not go very far except under a civilized people. Contrast the age of Peru and Mexico with that of Egypt, Babylonia and China; and one reason for old-world superiority in the mastery of nature is plain.

Opulent Bard.

"I can't understand how that poet's wife is able to dress so well. I thought there was no money in poetry." "I guess there isn't; but her husband has the job of writing all the advertising rhymes for one of the biggest breakfast-food concerns in the country. Have you seen their new automobile?"

Had Stood Hard Test.

"I understand that you once sang in a glee club." "Yes," replied the great politician. "And I want to tell you when a man with a voice like mine can hold a position in a glee club it shows that he is some officeholder." —Los Angeles Listener.

Time to Beware.

If ever you meet a woman who succeeds in convincing you that you are an exceptionally fine fellow, be very, very careful. She has far more intelligence than you. —Jay Denby, in Letters from China.

Society People Classified.

Storekeeper—"They are society people. They belong to our first and last families." Customer—"You mean 'first families'?" Storekeeper—"No; first and last. First to ask credit and last to pay."—Puck.

Clash of Contrast.

"What is that terrific noise?" asked the pedestrian. "That," replied the policeman, "is caused by an ordinary one-cent safety pin sticking into a three million dollar baby."

Sometimes They Are Right.

Many a good wife is firmly convinced that her husband doesn't harmonize with anything in the house except the nutmeg grater. —Chicago News.

Safer.

Baker—"In five years you won't see a horse on the street." Wayburn—"Yes; they would be safer on the sidewalks." —The Causeur.

United States Ranks Tenth.

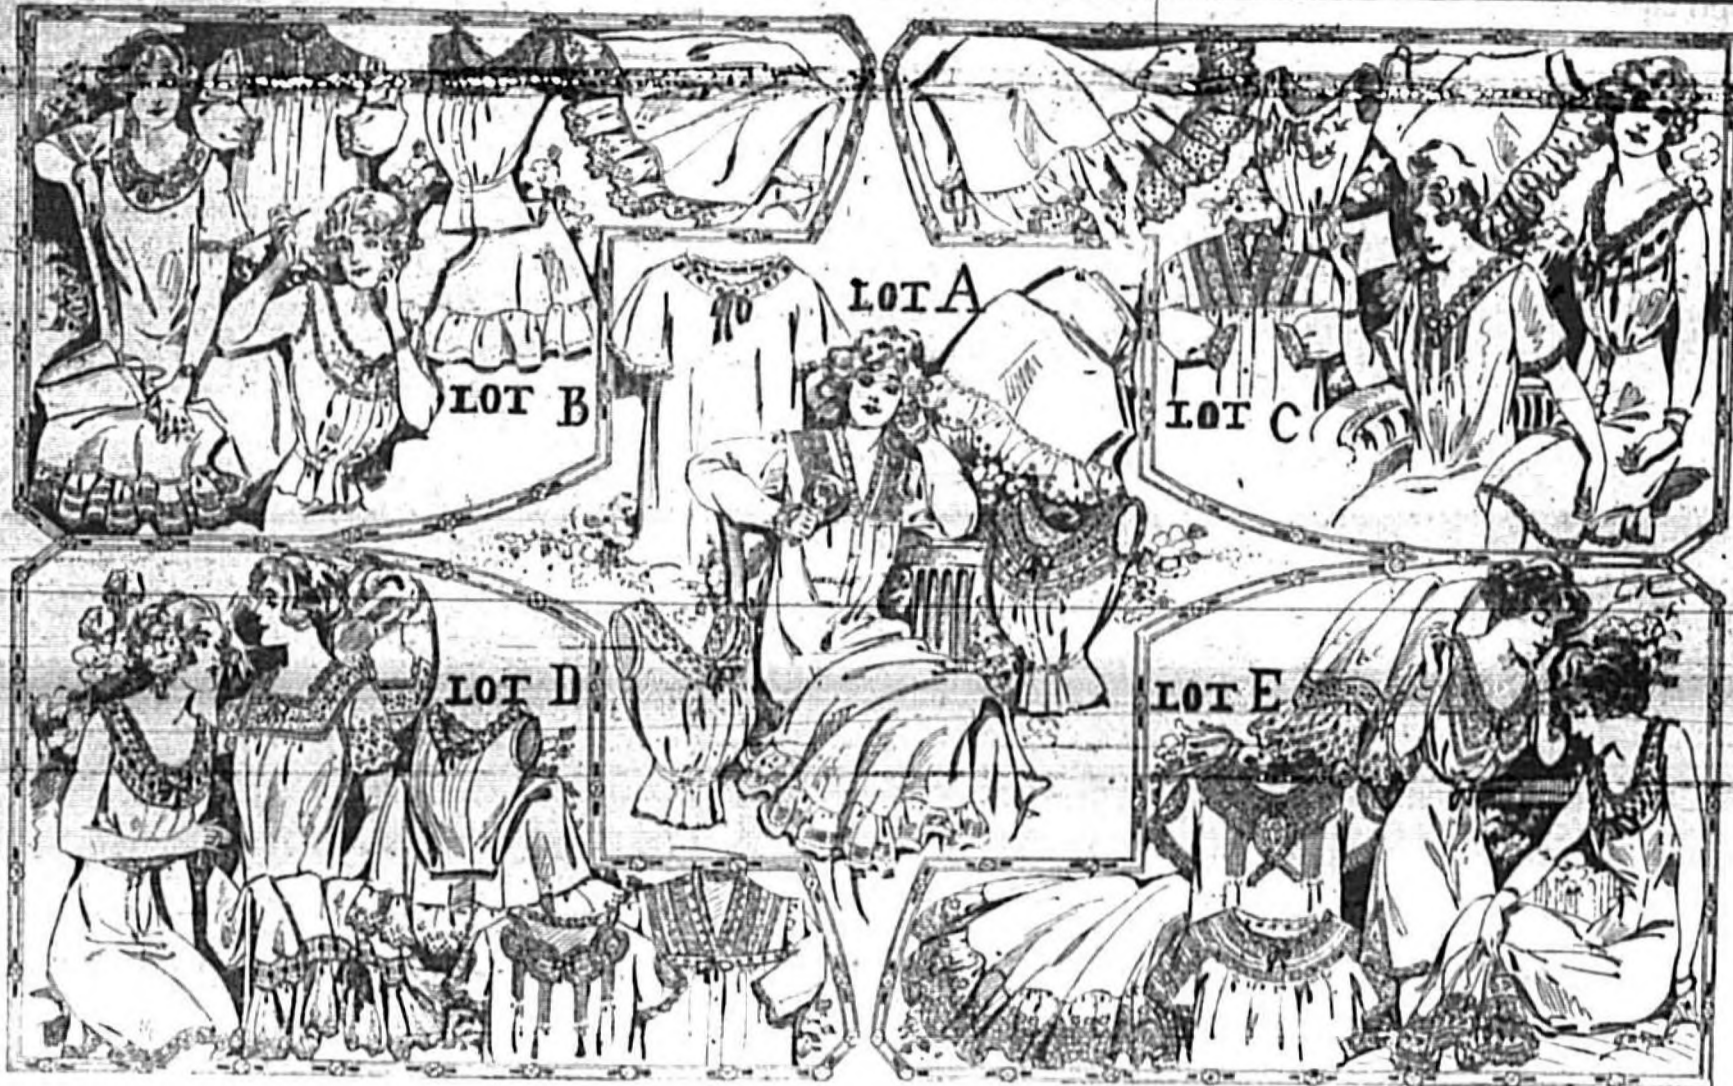

In the production of rice and coffee the United States ranks tenth, compared with other countries of the world.

Washing Soiled Greenbacks.

A soiled greenback is restored to its original glory by washing and ironing at a cost of one-tenth of a cent.

In the Majority.

Any man more right than his neighbor constitutes a majority of one already. —Thurston

The Celery Movement

Since last week the celery "scarcity" has assumed a different hue. California instead of being dead and buried, only had a fainting spell. Cold weather affects one's feet and makes them numb. This is only what happened to the celery movement...

It was only numb for a week or ten days following that extreme cold weather they had out there a short time ago. Last week 100 cars loads were sent east. This week's movement will be fully as large. This celery had all been banked up to protect it from the cold and was in good condition. The celery that was in the fields suffered to some extent, but all of it was not killed.

A California crate holds about as much as three 8-inch Florida crates. California celery is selling in most markets for around \$6 per crate. The celery is good. Buyers prefer it to Florida celery. They prefer STANDARD crates. They abhor a "short" package. When the grower makes up his mind to STICK TO the standard package, he will give the buyer what he WANTS. If you give a buyer what he wants, you will keep stuff moving at good prices. If you try to force him to take a package he does not want, you will be the loser, SURE as shooting.

About 20 cars of celery will roll from the Manatee section this week. The total from Sanford will be about 50 to 60 cars. Next week's movement will be close to 100 cars from here. The heaviest movement the last two years has been through the month of March. This season the heaviest movement will be through February.

Several mixed cars of lettuce and celery were sent from here this week. Others will be loaded next week. At this time there are many dealers or their representatives in Sanford looking after their share of the business. The city council has ordered fire escapes on the school buildings in St. Petersburg as a result of recommendation made by representatives of the Florida Fire Prevention Society, who made a thorough inspection of the conditions in that city a few days ago.

IN SANFORD—Life is Worth Living

Number 47

SANFORD, FLORIDA, TUESDAY, JANUARY 28, 1913

Volume V

VEGETABLES ALL THE YEAR

Sanford Grower Markets Every Day In the Year

HAS DONE THIS 27 YEARS

Remarkable Record of Sanford Soil By a Grower of Three Score Years

The Herald has from time to time enlarged upon the fact that in the Sanford section vegetables can be raised the year round and money can be made by the small grower as well as the large grower. The Herald has advocated the establishment of a city market where the small grower could bring his fruits and vegetables to this city, have a place where they could be sold for cash and the small grower and the people of this city would profit by the plan. The groceryman comes in for his share of criticism because his store at all times cannot at all times have fresh and crisp vegetables at a low price. He is criticized by the vegetable man and the buyer, because he cannot keep vegetables raised here and sell them at a lower price and still suffer the regular loss from the decay of the fruits and vegetables. A city market would undoubtedly be the means of establishing better relations with more small gardeners and the groceryman and the housewife.

This phase of growing and marketing the products of the small farms will come as soon as the tourist hotel and other features that will help this movement are located here.

Along the line of growing vegetables, and as sufficient proof that in the Sanford section we have the greatest vegetable section in the world, The Herald will quote Andrew Harper an old vegetable grower who lives two miles from the city and who is now sixty six years old and hale and hearty.

Mr. Harper has for the past twenty-seven years brought fresh vegetables to Sanford EVERY DAY except Sunday and has made money. He has never failed to have something growing on his small place every day in the year, in twenty-seven years, and has never failed to bring a wagon load of fresh vegetables to town in all these years. This record is one that cannot be duplicated in any other state in the Union, and is a strong talking point not only for the fertility of Sanford's soil but for the health of this locality as well. This affable old, young man has never been sick a day in his life and is as active as a man of twenty working his place every day, making the trips to this city in his wagon.

He has become such a familiar figure on the streets that the groceries could hardly do business without him, and every dealer knows that as sure as morning comes Andrew Harper will be on the street with his fresh vegetables.

There is not a locality in the world probably that could grow vegetables every day in the year and there are not many other fine old gentlemen like Andrew Harper who would stick to the job as faithfully and make such a record.

If there is any one contemplating coming to Florida who has any doubts about growing vegetables in this state or who thinks the sand hills of Florida cannot be cultivated and made to blossom like the rose let him visit Andrew Harper on his little farm south of this city and be convinced.

We give this to the state papers also, not as an advertisement for Sanford but as a proof that Florida soil will produce the stuff if the proper man gives the soil the proper attention. This record could be duplicated by other places in Florida, but we believe it has never been done up to the present time, either in this state or in any other, and it is safe to assert that no other state will ever be able to duplicate it.

WOODMEN HAVE BANQUET

Installation of Officers Was Made Great Event

A joint installation of the Woodmen of the World and Woodmen's Circle was held at the Masonic Hall Wednesday evening, Jan. 22nd. The hall was tastefully decorated with vines, palms, ferns and cut flowers. Back of the presiding officer's chair was a handsome flag and banner of the Woodmen.

Guardian J. D. Parker took the chair and calling the meeting to order instructed Sovereign Cora S. Fielding of Jacksonville, state manager of the Woodmen's Circle, who acted as installing Marshal, to escort Supreme Guardian Emma B. Manchester of Omaha, Nebraska, and Mr. Hughes of St. Louis, state manager of Missouri, for the Woodmen and Woodmen's Circle to the stumps.

Sovereign Fielding introduced the sovereigns to Guardian Parker, who called the two orders to their feet, and introducing sovereigns Manchester and Hughes had them give the supreme honors to the sovereigns. State honors were also given to Sovereign Fielding.

The officers of the Woodmen's Circle were then installed by Sovereign Manchester in an impressive and graceful manner. At the conclusion of the installation, Guardian Parker turned the gavel over to Council Commander W. H. Underwood, who requested Sovereign Hughes to install the officers of the Woodmen of the World, which when concluded, the Council Commander invited Sovereign Hughes to address the Woodmen Circle on Woodcraft. Mr. Hughes' response was a splendid and far-reaching address. Sovereign Manchester responded charmingly to a similar request by Guardian Parker in a delightful way on the beauties and benefits of the order.

At the conclusion of the installation, Mrs. J. E. Biggers presented Mrs. Manchester with a bouquet of exquisite roses, red with green and lavender ribbons, the circle colors. Sovereign Parker in behalf of the Circle presented Mrs. Manchester with a silver vase and a silver spoon of the Circle. Also in the name of the Circle she presented Mr. Hughes with a sterling silver paper knife, and Mrs. Fielding with a set of beauty pins with pearl settings.

Guardian Parker was also presented with a wooden watch pin, an emblem of the order. The closing song was then sung by the choir.

The banquet was a most pleasing and entertaining feature, the elegant banquet, at which the guests numbering one hundred and fifty were seated at tables beautifully decorated with cut flowers, graceful vines and luxuriant ferns.

During the most delightful music was played consisting of vocal solos, violin selections by Mrs. Williams, with piano accompaniment, and the beautiful trio from Gounod's opera Faust, rendered by Misses Margaret Davis, Essie Pardon and Lucie Chappell.

After the conclusion of the banquet, a special hour was enjoyed by the two orders and their guests. Delicious punch was served.

Through the courtesy of Mrs. T. W. Williams, the visiting sovereigns, accompanied by Mrs. J. D. Parker, enjoyed a delightful automobile ride in the care of W. C. Hill, over the city, through the magnificent celery delta and beautiful farms, with which the visitors professed themselves very much pleased.

Thursday morning W. C. Hill was host on a charming launch trip to Enterprise, where among other pleasures a visit to Mr. Troup's famous chicken farm, containing five thousand grown White Leghorn chickens, and one thousand little biddies, hatched since the first of January was enjoyed.

The visiting sovereigns of the Woodmen of the World and Woodmen's Circle left Thursday afternoon for Jacksonville.

SANFORD WILL EXHIBIT

Celery Delta Will Make Display at the Fair

COMMERCIAL CLUB MEETING

Orange County Fair Will Have Famous Sanford Product Display

Sanford will have an exhibit at the Orange county fair in February. That much was settled by the meeting of the Commercial Club at the special meeting called for that purpose last Thursday night.

Vice-President Forster called the meeting to order and the committee from the fair association, Messrs. Dickson, O'Neal and C. E. Howard, editor of the Orlando Citizen, each made stirring addresses on behalf of the fair association, calling attention to Sanford's wonderful crops and that the fair would not be a fair unless the Sanford exhibit occupied the whole half of the main building and demonstrated the irrigation system as formerly. Messrs. Whittier, Rossetter, Hand, Holly, Mayor Spencer and several other Sanford members also gave short talks in favor of the project.

Mr. Howard displayed a large card with mounted views of the fair taken last year and showing Sanford's wonderful exhibit in full flower, and after a few remarks by the chairman it was unanimously decided to appoint a committee with full power to act and arrange a creditable exhibit at the fair.

Messrs. J. N. Whitner, A. P. Rossetter, G. M. Fernald, F. L. Miller and R. S. Newman were appointed on the committee and the members of the Commercial Club will also lend their aid in collecting the exhibit.

C. H. Leiffer, the veteran who has had so much experience in arranging exhibits at many cities in the State for Sanford will be placed in charge of the exhibit and will devote all of his time and attention, and as usual Mr. Leiffer expects to have the most exhibit on the grounds. In this work he should have the help and cooperation of every citizen of the Celery Delta for Sanford can make a most creditable exhibit this year. We have the products and the people and the logs and land raised and this end of the county should, as we are represented at the Orange county fair. We owe it to our selves and to Florida in general to demonstrate what our soil, flanked by the greatest irrigation system will do in the raising of every known product in the vegetable kingdom and this season should find our exhibit at the fair the largest and the best that has ever been made. We are known by our wares and the best advertisement in the world is the living examples of our products exhibited where the people can see them and the benefits to be derived by a good exhibit cannot be figured by mere results.

The farmers of this section can assist the movement by arranging their exhibits now. The good ladies can assist by arranging the fancy work, the fruits and flowers, etc., and the time to start is now. A representative of the fair association will call upon you and assist in every way to start the exhibit. If you need further information you can secure a premium list at The Herald office that gives detailed information.

Get ready for the biggest fair on Earth.

Several Prospective Candidates Will Try Them On Jacksonville, Jan. 27. Already rumors are going the rounds among the politicians and the near politicians to the effect that both of Florida's United States senators are to have opposition to re-election at the expiration of their present terms. To be gin with it is stated by those claiming to know that ex-Governor Albert W. Gilchrist is to oppose Senator D. U. Fletcher two years hence and that Governor Park Trammell is to fight it out with Senator Nat P. Bryan four years from now.

Neither the Governor nor the ex-Governor will talk and they cannot be quoted upon the subject. However, they have many friends up here some of whom have "framed" it up for them. As far as is now known both members of the upper house of Congress from this state intend to run again, and they will both go out to win. The two men mentioned as probable opponents are also fighters and old hands at the game of politics.

If the program as announced is carried out it is sure to mean a lively time in the state. In both contests, the game would be played without gloves. If Gilchrist should run against Fletcher and be defeated it has not yet been announced as to whether or not he would get into the fight upon Bryan, and if it has not, it is stated as to whether he could offer the bids again for the governor as a candidate on a third or a fourth campaign.

In times past men from the city have run against one senator and lost with defeat only to come back and defeat the other senator two years later. Likewise it has not been announced as to whether or not their campaigns separated in the middle busy work. This will be the subject of much discussion among the politicians of the state no doubt.

Each state in the Union has its full quota of politicians but Florida seems to be getting none with Indiana being the horn of the well-bred politician. Up in the Hoosier state they claim to have invented the game of politics and as it is being planned around here of late it would seem that the Floridians had bought out the concern. At any rate D. U. Fletcher and N. P. Bryan are representing Florida in the senate of the United States and will be fighting for a long fight to retain their seats.

schools in general and especially in our schools and those close around us.

With this in mind we take the liberty to at least express our opinion on the subject.

We see several ways in which the schools of the proposed new county could be benefited. Let us take for instance the school tax of the territory that would be included in this proposed county. The school tax of this territory last year amounted to about thirty two thousand dollars. The expenditures for this same territory last year were about twenty nine thousand dollars. This leaves us a balance of about three thousand dollars, which amount however we have failed to even get a glimpse of.

As may easily be seen from these figures, we are paying in more than we are getting back, somebody must be reaping the benefit of this money.

As is easily seen, with this money our school system could be made much better. And although our's are among the best in the State, there is still room for improvement. But to what expense will we have gone to make them better? We will have gone to absolutely none, all we will have done will be to get what really belongs to us and what by rights we should have.

What we have been doing and what we are doing now is this, we have been making a gift to old Orange county, of three thousand dollars. This is all right for the recipient but how about the giver.

In other words we have been helping the rest of Orange to have better schools, this would be alright if we did not need better schools ourselves, but we need all that is coming to us.

The majority of the country schools at present only receive six months school in the year from the County. If they get any more they pay for it themselves.

With the money that is due us, these schools might be given eight months school in the year, which is nothing but a right that they would be entitled to absolutely impossible to accomplish, and to do the work properly, in six months which should be done in not less than eight months.

Again, it is very easy to see how three school commissioners elected from less than half the size territory, could much better represent the real interests of the people, than could three elected from so large a territory.—The Celery Sprout.

THE SENATOR'S SHOES

TAX VALUE NEW COUNTY

Statement Shows Orange Co. With \$6,948,798

HARNEY COUNTY IN GOOD SHAPE

New County Will Have More Assessed Value Than Eighteen Other Florida Counties

The following statement has just been received by the chairman of the Committee of One Hundred Fifty on county division. This statement shows the assessed valuations in the various Florida counties for the year 1912. When we have completed the job of dividing Orange county and have established Harney county out of its north portion, Orange county will have \$4,200,000 in taxable value. This will be more than thirty-four other Florida counties will possess and will give the old busi-ness which to recoup its losses.

The new county, Harney, will have \$2,747,000 in assessed values, which will act as a starter in the matter of incentive for it to sweep onward and upward. The new county will have more assessed values than eighteen other Florida counties have.

It will be seen from these statements that neither of the counties, Orange or Harney will be in an overly bad condition. We will both have splendid backings upon which to build and we will have to make the best of this backing, whether we are of a single mind as to the matter of creating new counties or not.

Each state in the Union has its full quota of politicians but Florida seems to be getting none with Indiana being the horn of the well-bred politician. Up in the Hoosier state they claim to have invented the game of politics and as it is being planned around here of late it would seem that the Floridians had bought out the concern. At any rate D. U. Fletcher and N. P. Bryan are representing Florida in the senate of the United States and will be fighting for a long fight to retain their seats.

Citrus Trees Killed in Arizona
 Mr. M. F. Robinson of this city has received a letter from a friend who owns an orange and lemon grove in Arizona. He says they had weather close to freezing for nearly three weeks and then the thermometer went down to 12 degrees below zero and the dead leaves are sticking to the orange trees, which is a bad sign, and the lemon trees are split at the ground. This means that the trees are dead, both orange and lemon trees.

He suggests that California is also badly hit and this should add 20 per cent to the value of Florida citrus groves.

A Scientific Lecture
 Tonight in the Congregational church at 7:30 o'clock Dr. E. O. Taylor of Boston, Mass., will deliver a lecture on Scientific Temperance. His precise subject will be "Some New and Startling Facts About Alcohol," with chemical demonstrations. Dr. Taylor is a lecturer on this subject with a national reputation. His addresses are popular, yet designed for thinking men. I know Dr. Taylor and have heard him, and being able to endorse him absolutely I beg that Sanford people will hear him tonight.
 J. W. WILDMAN.

Marion county is soon to have a very thriving colony. The company, of which Fritz Gleason, chief collector of abandoned, an influential German paper in Chicago, is president and the treasurer, and has purchased the plantation of Dr. J. S. Lewis in the Flemington neighborhood. In the "before the war" times this was regarded as one of the finest plantations in the state, and it is situated in the most fertile region of Marion county.

ORANGE TO BE DIVIDED

Better Schools Would Be The Result

AND MANY OTHER ADVANTAGES

Under Present Conditions We Are Not Getting Our Money's Worth

The division of Orange county is a subject that is being very generally discussed at present, especially in the county of Orange and vicinity.

Numerous reasons have been given why Orange County should be divided. This being a school paper, naturally we are interested in the improvements of

ORANGE TO BE DIVIDED

Better Schools Would Be The Result

AND MANY OTHER ADVANTAGES

Under Present Conditions We Are Not Getting Our Money's Worth

The division of Orange county is a subject that is being very generally discussed at present, especially in the county of Orange and vicinity.

Numerous reasons have been given why Orange County should be divided. This being a school paper, naturally we are interested in the improvements of
