

Wright Hurls Lookouts To 6-4 Win Over I's

Langston's Triple In Eighth Stanza Is Deciding Factor In Lookouts Fifth Straight Win

Both Clubs Have Lead Twice During The Contest In Which Lookouts Bunch Nine Hits Into Three Innings

Bill Rodgers and his forward marching Sanford Lookouts gained their fifth win in a row last evening at the Sanford Municipal Athletic Field when they downed Jimmy "bushers" Daytona Beach Lookouts by a score of 6 to 4 in a seven-inning contest before 700 fans that were thrilled during every moment of the tilt.

Doing the slab work for the Lookouts was none other than the Lookout ace, Big Owen Wright. Wright was asked for ten hits by the visitors but they came scattered and spaced so as not to cause any possible damage. Wright, otherwise, had almost perfect control all during the contest. He allowed only one free pass to the initial sack and sent three of the

1937 S.H.S. Football Campaign Nearly Under Way

Ben Cantwell Is Sold To Brooklyn For Sum Of \$6000

Former Sanford Man Nearing Ten Years In The Big Leagues

NEW YORK, Aug. 18.—(AP)—Ben Cantwell, 35, veteran right-hander recently drafted from their Jersey City "farm" of the International League, yesterday was sold outright by the New York Giants to the Brooklyn Dodgers for the waiver price of \$6,000.

To keep within the player limit the Dodgers released Jake Daniel, rookie first baseman who hit only .185 in 12 games, to Elmira of the New York-Penn League.

Ben Cantwell's latest tour of duty with the Giants lasted only a couple of weeks.

Cantwell was brought from the Jersey City farm to the Giants on July 27, and pitched in but one game for the defending National League champions, losing to the Cardinals.

HE'S GOT RHYTHM. On June 1, 1934, Lou Gehrig went in to pinch hit for the Yankees. He has played first base in every game since that date. His amazing string of consecutive games reached 1304, and "Larrupin' Lou" is topping the American League's batting averages much of the time.

Class D World Series Is Set For September

State Loop Winners To Meet Winners Of Ga.-Fla. Loop

The Class D World Series of the South has completed its plans for the merry event between the winners of the Florida State League and the champs of the Georgia-Florida League.

The plans have been approved by W. C. Bramhan, president of the minor leagues, and the two teams that will meet each other are the winners of the O'Shaughnessy system playoff of the Florida State League and the champions of the Georgia-Florida loop which operate according to the rules and regulations of the split season system.

Last season the St. Augustine Saints were the deciding champions of the state loop and met the Tallahassee Capitals of the Georgia-Florida circuit and the Saints emerged the victors and the Class D Champions of both Georgia and Florida.

McLucas Hopes For Another Great Season With A Large And Experienced Eleven

Morgan, Lawson, Stoinoff And Darrell Ferguson Will Dominate Backfield Posts For 1937 Gridiron War

In two weeks many Sanford youths attending Seminole High School will dominate the new practice field in the rear of the high school every afternoon for daily workouts in attempting to make Head Coach Leonard McLucas' 1937 football team.

Coch McLucas, although losing a great number of his regulars last season, is again counting on a new team to carry the colors of Seminole High School again into victory.

Coch McLucas is expected to return from Camp Cloudmont sometime within the next week in order to begin the daily workouts and make the many other preparations that have to be taken care of before the season gets into full swing.

A schedule which is not yet complete is reported to consist of ten games and the season will open a week earlier than usual.

The first eleven which McLucas will probably be pinning his hopes on this year will be as follows: Billy Colbert, a 175-pounder, will be expected to dominate the left end position. Colbert was forced out of the game last season during a practice session when he suffered a severe leg injury but he is reported to be in good shape once more and has a great year in store for him.

At left tackle, Robert Howell, big 180-pounder, will probably get McLucas' call. Howell saw quite a bit of action last season and his experience is enough to predict a good year for him.

At left guard, 185-pound N. A. Harkey will go to war and he saw plenty of action last season. He is a hard worker and is fast. Fred Ganas will take the center position again this season and from his record of last season that position is filled with a mighty youth.

Being a member of the eleven this season will be James Young, a little 160-pounder who showed Coach McLucas last season that he was able to do it and also proved himself worthy of the position he is being picked for this season. Young is exceptionally fast and is a quick charger and an excellent tackler. Young will take the guard post on the right side of the line.

Another newcomer to the Sanford eleven will be Ralph Dean, a former resident of this city. Dean, a large husky youth, now hits the scale at 175 pounds and stands about 6 feet. His former record is not available at the present time but he will probably get McLucas' call for the right tackle position. Sam "Killer" Waits will again see his third season at the right

TODAY'S SPORTING WORLD

By JULIAN STENSTRUM
Herald Sports Editor

Once more we return to you with glad tidings of being back in the good old glory city after encountering two weeks of confinement at Fort McClellan, Ala. Once more we are able to give you the different opinions on many of the sporting situations of Sanford.

On with the news so let's go! Sanford had quite a little spell sometime last week when it dropped and dropped fast but now we have been entering the win column quite a bit and are back again giving those G-Men a run for their money.

With Bill "Raw Meat" Rodgers, the genial and immortal skipper of the locals, at the helm of the Lookouts, we have nothing to worry about according to one of Sanford's loyal fans last evening. "With Rodgers managing this club I'm not worrying for the glasses and the flying cap won't let us down." That's encouraging enough to all of us and so right here and now we congratulate Rodgers for his work with the Lookouts since his return from Chattanooga although we have not been here to see him had his boys.

Ellis Clary is now leading the pace with the sticks in place of Swede Martin with an average of .314 and also still far out in the lead of stealing bases with a number of 32. The only man in the State loop that can hold Clary on the bases is our choice for the Florida State League all-star catching department, Jack Owens.

With Sam Holbrook with the Lookouts in the catching department we can be assured of some neat work behind the plate as well as seeing him make hay while the sun shines with some of the hurriers in this fast class D loop. (Note)—We did not say all of them.

Sam is a nice big husky fellow who tips the scales at a wee bit over the 200 mark and he handles a stick nicely. He was with the Chattanooga Lookouts for some time and really has a record of real experience so let's pull for him and we are sure he will help us get ahead of those G-Men who are giving us the high sign, when they are playing somewhere else, but down in Shipper Don McShane's heart he

knows that the fire-works are yet to come and he also knows that it will be on an equal 50-50 basis when it happens.

McShane told us about a month ago that Bill Rodgers had the best pitching staff in the loop and that Sanford was the team his outfit had to beat to come out on top. Henry Watson looking forward for the next meeting with the G-Men for at that time the local orchard should be packed for it will be one of the most important series that the Lookouts have ever gone into this season.

SHORT SHOTS—Tommy Farr, holder of the British boxing crown and named first of the many fighters to have a shot at Joe Louis' newly acquired heavy-weight crown, did some fine work yesterday afternoon when he went out three sparring partners—Joe Louis did not do so bad himself when he forced two of his mates out of the ring and then another had to clinch to save himself. This Wes Kingston looks okay for our money and the work of Holbrook seems to be getting better everyday, so the fans say. . . Well Ben Cantwell just can't seem to satisfy the Giants and he is on the road once more. . . to Brooklyn. Whether he makes good or not, we still hope that he can get those few months of the record and flash those ten years in the majors. . .

Revolt In Ranks Of Rebels Reported In Scattered Places

Artillery Of Franco Shells Own City In Effort To Put Down Rebellious Activity

Brisk Conflicts Being Reported

Rebellion Is Said To Be Spreading Thru Several Provinces

MADRID, Aug. 11.—(AP)—Spanish government sources reported today that Generalissimo Francisco Franco's artillery had shelled his own city of Segovia to put down a revolt in insurgent ranks. The rebellion was said to be spreading through provinces after provinces. Government observation posts reported a brisk conflict was going on in the city 43 miles northwest of Madrid. The crackle of machine gun and rifle fire with Segovia, observers reported, could be heard plainly from nearby government lines. Insurgent artillery batteries were said to have opened fire on their own stronghold of Quila Passos. Reports from far to the south said that the revolt was widespread in the neighborhood of the city of Granada and that Franco's troops were rebelling against his regime and had used rifles and machine guns in an attack on the city.

Texas Mob Tars Labor Leader

Herbert Harris (above), of New Haven, Mo., was tarred and feathered by a Dallas, Tex., mob and dumped from an automobile in the downtown section after he had shown a film pleading the cause of organized labor. Harris holds his clothes in his left hand.

Fund Raising Help Pledged By Trade Body

Sanford's Trade Body To Assist In Any Practical Plan To Get Trailer Camp

Assistance to any practical plan that might be formulated for the purpose of raising funds through loans for the construction of a municipally owned and operated trailer camp here on the site overlooking the lake between Palmetto and Hood avenues, was pledged by the directors of the Seminole County Chamber of Commerce in their meeting last night.

No plan for raising the approximately \$5,000 which will be required in addition to the amount to be furnished by the City was made last night but members of the Trailer Camp Committee with Mayor Edward Higgins and City Attorney Fred R. Wilson were authorized to devise some practical plan and present it at a special meeting of the Committee next Friday night.

In last night's session Mayor Higgins indicated that the City was probably in a position to furnish 25 to 30 percent of the cost of the camp which the latest preliminary estimates placed at \$8,000 and that the remainder would have to be secured from other sources. He, however, indicated the City was willing to secure the necessary money in the form of loans to be repaid in pro rata amounts to the donors from the proceeds of the camp.

The Mayor also indicated that the City might absorb overhead expenses in the operation of the camp so that all cash receipts could be reverted to the donors thus wiping out the debt within a short time.

According to present indications efforts will probably be made to secure the funds through a fund drive in which all of the merchants of the City will be asked to cooperate.

In discussing the benefits that might be derived from the proposed camp which will accommodate 100 trailers and autos, T. E. Simpson, president of the trade body, re-stated his belief that the camp would be a boon to commercial enterprises in this city, and added that he believed \$1,000 to \$1,500 would be spent in this city weekly by the motels of the road if a modern camp is placed at their disposal.

President Simpson also indicated that efforts would be made to have the camp in operation before the first of November so that the influx of early tourists into this State might be accommodated.

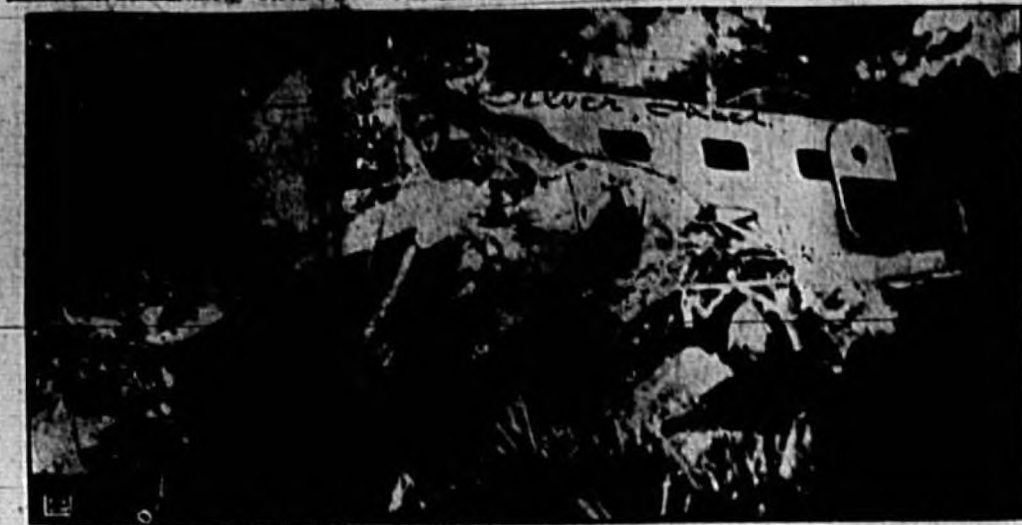

G. E. Rollins, superintendent of the Atlantic Coast Line, in a letter to the Chamber members pointed out the possibilities of extending a personal invitation to retired railroad veterans throughout the nation. This year, he pointed out, large numbers of railroaders had retired on pensions up to \$120 per month and that a number of these aged men wished to spend their declining years in Florida's sunshine, and Sanford, he continued, being the central Florida terminus for the Atlantic Coast Line would offer an environment which would be homelike to the veterans of the rail. Excellent fishing and hunting as well as other sports offered in this locality would also be a considerable attraction to the pensioners.

Mr. Rollins believed that Mr. Rollins by contacting these men were discussed and Mayor Edward Higgins advised the body that the City might be in a position to make those who wish to build homes here a very enticing offer on City-owned real estate. The matter was referred to the advertisement committee and Mr. Simpson indicated that a special meeting will be called in the near future to devise a plan whereby this class of persons might be extended a special invitation.

Hearings Are Set In Daytona Plane Crash

DAYTONA BEACH, Aug. 11.—(AP)—Bob Hazens, department of business official inspection, will today an official hearing would be held here tomorrow on the crash of the Eastern Air Lines transport plane in which four persons were killed and five injured.

FOUR DIE IN FLORIDA PLANE CRASH

Taking off from Daytona Beach an Eastern Airlines plane brought death to four and injury to five when it crashed against a power pole. Those who met death were the pilot, captain and two passengers. The wrecked plane is shown above after its fatal plunge.

National Guard Camp Described Most Successful

Officers Are High In Praise Of Actions Of Sanford Outfit

Local detachments of Florida National Guards returned here Sunday after completing two weeks military training termed by the commanding officer of the local units the most successful ever staged.

The encampment this year was held at Fort McEllen, Ala. where members of the 124 infantry of Florida and the 107 infantry of Alabama gathered for brigade maneuvers the first time in a number of years.

Company D, the largest of the Sanford units, under the command of Capt. H. C. Washburn was probably the most outstanding of the local units.

A machine gun section of the company under the supervision of Sergeant P. M. Vickery captured the Davis Trophy for efficiency with the machine gun. Sergeant Vickery was commended highly by camp officials and others present for the great skill he displayed in the handling of his section.

This cup was donated by the late State Supreme Court Justice, P. H. Davis, who was a regular officer in the 124th regiment. At one time he was commanding officer of machine company M at Tallahassee and after his promotion to Major he donated this cup to be competed for each year by the three machine gun companies in the State. This is the first year it has been won.

Snake Kills 2 Hogs Disproving Theory

Disproving the commonly held theory that hogs are immune to snake bites, was the report today from Longwood that a large rattlesnake caused the death of two parkers belonging to J. D. Warren. Attracted to his hog pasture by the combination of the rattling of the reptile and the squealing of the swine, Mr. Warren found them terrorized by the rattlesnake.

Immediately after the snake killed the hogs, Mr. Warren killed the snake, and it was found that it measured six feet in length and had nine rattles and a button.

Killed In Crash

Robert Reed (above), of Oklawaha, Fla., was one of four persons killed when an Eastern Air Lines plane crashed in taking off from Daytona Beach, Fla. Other victims included Pilot Stewart Dietz and two passengers. Reed was captain.

B. G. Methvin was granted permission to erect a garage at his home on West First Street at an estimated cost of \$100.

The weekly meeting of the Sanford Sea Scout Troop will be held tomorrow night at 7:30 o'clock at the Junior High School.

Dr. C. M. Mitchell yesterday was given permission to remove his two-story residence on Palmetto Avenue by local building inspector, G. P. Paxton.

Deputy Collector J. L. Hunt of the Bureau of Internal Revenue stated today that Corporation Capital Stock tax returns, which were due in July from every corporation active or inactive, are now delinquent. Semi-annual Social security returns were due in July.

Boy Scouts Tell Kiwanians About Their Experiences In Washington

Three Eagle Scouts from Boy Scout Troop 5, who recently attended the National Jamboree in the nation's capital, were guests at the weekly meeting of the Sanford Kiwanis Club today in the Veldin Hotel.

Myrl Higgins, who was sent to Washington by the club, stated that Troop 5 had the largest representation and exhibited more officers than any other troop in the Central Florida Council.

Efforts To Alter Men's Attire Are Seen As Failure

Some Ingenuity Produced In Move To Rationalize Clothes

LONDON, Aug. 11.—(AP)—An attempt by the Men's Dress Reform Party to "rationalize" men's clothing has produced some ingenuity and considerable disappointment.

A competition sponsored by the party brought out a strange array of "scientific" costumes. They were designed in an effort to eliminate collar studs, pockets and eye buttons—no win prizes.

Contestants marched by in clothing resembling everything from football jerseys to a half-headed woman in a Spanish ruff. In an effort to make the garments more practical, judges and spectators, who came to be impressed, stayed to be depressed.

The main objective was to get away from tight, buttoned clothes. "Free the neck" was a cardinal rule. The Men's Dress Reform Party wants "fewer clothes, lighter clothes" and so on and so forth and so on. Emphasis was put on convertible clothes, that is, garments that could be put on and taken off.

First prize of \$250 wasn't a waste. The judges didn't see anything worth that much. Several costumes consisting of jacket and vest, of dark blue, red and white, a light blue silk shirt and a dark blue cummerbund, all very free and breezy.

Third prize went to an evening costume of a black waistcoat lined with white silk, worn with a shoulder-length tunic which could be adjusted as a scarf and a red cummerbund.

The trouble was that some of the costumes had to be worn with "supporting devices" such as suspenders—an idea severely frowned on. But how to make trousers stay up without buttons or belt is just one of the problems.

Other costumes were a suit of safety outfit of shorts, jacket and knee-length socks; a green dress; a blue jacket with a buff blouse; an evening costume that might have come straight out of the eighteenth century—crinoline, breeches and black silk stockings that didn't stay up any too well. One costume can be described only as that of a Hamburg butcher's dress coat with the sleeves cut off.

The judge complained that everything ran to ugliness. Another complained of the lack of "masculinity" in the attire and voiced a fear that men and women might eventually exchange clothes. But although they admitted the contest had done little toward freeing men of their shackles of present clothing styles, the dress reformers, both a hitch in their belts and determined to go on with the hunt.

Chinese Routed By Japs In Battle At Ancient City Pass

Nelson Brothers Raise Reward To \$1500 From \$1000

Emphasize Fact That Money Is In Bank And Is Guaranteed

Brother of the late Chamberlain H. Nelson, who died in the local hospital recently as the result of injuries inflicted by an unknown assailant, today hiked the reward for information leading to the apprehension and conviction of the attacker from \$1,000 to \$1,500, it was learned today. J. P. Nelson of Baton Rouge, La., stated that there might be some doubt in the minds of people in his vicinity as to the payment of the reward to any one who had earned it. To this he replied that the five surviving brothers had already deposited the required funds in a Baton Rouge bank exclusively for this purpose and that the fund was guaranteed.

He also pointed out the fact that under the law of this State any person deserving an advertised reward might force his claim for it.

"I want the people of this community to understand that there will be no question in the receiving of the reward if the provisions provided for are carried out," Mr. Nelson said.

Although there has been no startling progress in the case, work is being continued along lines of elimination of various classes and County and City officials are confident that some of later assaults will be apprehended.

Soviets Liquidate 72 More Alleged Enemies Of State

MOSCOW, Aug. 11.—(AP)—The execution of 72 alleged Far Eastern traitors' wreckers, accused of conniving with the Japanese secret activities, was reported today by the Russian newspaper, "Red Siberia Herald."

The executions followed others in a series but this group was one of the largest to be executed in Soviet Russia's far-flung Siberian purge. Now the total of known executions in the Far Eastern campaign to root out spies and wreckers is 320.

The Russian band was described as made up of Trotskyist rightist terrorists, who wrecked trains along the Siberian Railway at the behest of the Japanese intelligence service.

The Japanese intelligence service thus weakening Soviet transportation in the case of war with Japan. They were charged with causing the wreck in which 14 persons were killed and many injured.

George W. Huff Gets High Masonic Honor

George W. Huff has been made acting grand secretary of the Grand Lodge, Free and Accepted Masons of Florida to succeed the late J. H. Meyer, who died recently. It was announced yesterday by Ralph H. Chapman, past worshipful grand master.

Mr. Huff has had a long and active career in Masonry, having been a Master Mason in Sanford Lodge No. 52, F. and A. M., in 1921 and worshipful master in 1927.

Japanese Naval Ships Anchored In River At Shanghai's Door In New War Crisis

Many Blue Jackets Patrolling Roads

2 Aircraft Carriers Stand By Off Forts Protecting Harbor

By The Associated Press—Japanese dispatches reported a Sino-Japanese battle at the ancient Nankow pass resulted today in a rout for the troops of China's central army.

A heavy Japanese artillery bombardment set the Nankow city afire, said the dispatches.

In the newest war crisis Japan checked Shanghai's Whangpoo River with a score of warships, scattered others to the mouth of the Yangtze and poured between 600 and 1,000 bluejackets into Shanghai.

Two aircraft carriers, said unconfirmed reports, were waiting beyond the Wossung forts which lie at the confluence of the Whangpoo and Yangtze rivers.

Japanese naval authorities said events that were brought to a head by the Hung Jan airport slaying of a Japanese naval commander and his officers "mean that Japan's navy effort in China must be increased."

Chinese naval advisers also told of a battle near the Great Wall of China and the firing of the Nankow city with the Japanese occupying positions in the environs and said the Chinese were holding stubbornly to some outposts in the area.

After sharp fighting with considerable losses to both sides, the Chinese troops were reported to have fled northward tearing up the tracks of the Peiping-Suiyuan railroad as they went to hinder Japanese advances. The railroad runs through Nankow.

The Chinese troops were from the 89th Division of the central army. Other troops of that division were reported to be threatening an attack along the southern western frontier of Jihai Province about 150 miles east of Peiping.

Candy Production Shows Large Gain

WASHINGTON, Aug. 11.—(AP)—Americans ate more candy last year than in any previous year on record.

The Commerce Department said today consumption last year averaged 16 pounds for every person in the country, compared with the former record high of 15.7 pounds in 1929.

Candy production last year was set at 2,841,000,000 pounds, valued at \$309,291,000.

More Benches Are Placed In Various Locations In City

Many new benches of the type recently placed in front of the Chamber of Commerce building have been erected in other locations in Sanford. It was stated today by Superintendent of Parks James Moughtin.

Four have been placed at the baseball diamond on Ninth Street and French Avenue where games between WPA recreational teams are played. Two were constructed for the park at Fourth Street and Park Avenue.

An additional six benches have been placed along the lake front for the accommodation of tourists and townsmen who might enjoy the scenery.

The seats were constructed with the cooperation of the local headquarters of the National Youth Administration, which did the cement work, and the Works Progress Administration.

Nation Still Frets In Enervating Heat

By The Associated Press—Thunderstorms in some states, driving rains in others brought a measure of relief today from the enervating heat but the country generally still fretted in discomfort. Rain cooled parts of Indiana, New York state and in South Georgia and Florida.

The middle West generally was free with prediction of thunder showers and cooler weather for the Chicago area and continuing high temperatures and clear skies in the states farther south.

A maximum temperature of about 85 with high humidity in New York City was expected to be broken by local thunderstorms. Humidity in the foreman was in the nineties. Upper New York State got relief this morning. Rain fell during the night on Pennsylvania.

RESCUE TO LIMIT GARTERS

City Makes \$500 In One Day From City Court Fines

25 Persons Arraigned Before F. L. Miller In Tuesday Session

Approximately \$500 in fines were assessed to violators of City Ordinances by City Judge Frank L. Miller in a session of the Municipal Court yesterday afternoon.

Twenty-five persons were arraigned before the City Judge on charges ranging from improper parking to selling of lottery tickets, the latter heading the list with 12 persons pleading guilty.

Booker T. Bradley, negro, charged with breaking and entering was transferred to the County Sheriff, C. M. Hand. James Hinkley, George Morgan, and Larry Mack, negroes, being held for investigation, were dismissed.

Two negroes, Cora Lee Hill and Willis Hill pleaded guilty to disorderly conduct charges and were given alternative of a 15 fine or 10 days in jail.

The two persons docketed for traffic violations were Oliver Miller, charged with parking on a pathway and L. C. Mayo. Both were dismissed.

Four persons were docketed for drunkenness. They were: F. J. McDonald, who was fined \$5 or 10 days; Frances Jackson, negro, \$10 or 30 days; John Mounds, negro, 15 or 30 days; and Sidney Brantley, Jr., 15 or 30 days.

The thirteen persons arraigned before Judge Miller on charges of selling lottery tickets were fined \$25 or 70 days.

BIG BUSINESS

CHICAGO, Aug. 11.—(AP)—Montgomery Ward & Co. announced last night its July sales this year were \$20,628,718, high not in the firm's history. The increase was 18.73 percent over the previous high, recorded in July, 1936.

QUADRANS LOVE AFFAIR
 The man was old; the maiden young
 And ruffled with a flattering tongue,
 Dan Cupid on their wedding day
 Deliberately stayed away.

GOLF'S GREATEST THRILL
 The greatest thrill of golf is not
 The simple, well-played brassie shot,
 But that one out of trouble which
 Close to the pin we sometimes pitch.

HONOR
 Honor with everything at stake,
 Fine choice of methods still will make
 And chooses, rather than to cheat
 To suffer nothing but defeat.

THE FEMINE TOUCH
 If it were not for woman's care
 Houses would ugly be and bare,
 Few men would ever think to sweep
 Or curtains at the windows keep.

By EDGAR A. GUEST.
 The Japs admit that a long war
 Was in prospect. That shows some
 Particle of modesty in a nation
 That is notoriously cocky.

Japan says her patience is just about exhausted with China,
 And we feel that our patience is just about exhausted with Japan.

Love of speed is held typical of Americans, but there'll be one time when we won't be in such a big hurry and that's when the next war begins.

The people of Florida realize of course that the CIO are formed unions in this state. There is likely to be plenty of trouble next winter.—Lakeland Ledger.

A power lineman fell 25 feet off a pole the other day, his life being saved by the fact that his fall was broken by a negro helper. Would that he was a case of a dark cloud having a silver lining!

Quinine bottles used for making moonshine are being used as scrap to England and Japan for making war materials. Thus, equipment which once contributed to destroying men's souls will soon be converted into implements for blowing out their brains.

We have never believed in "an eye for an eye and a tooth for a tooth," but in the case of the "friend in human form" who cut off a dog's legs below the knees just to see the dog suffer, we feel that similar treatment would be some too good.

England's plan to curb Nazi activities among residents in Britain is a move in the right direction. There is such a thing as freedom of action and speech and there is such a thing as carrying these rights too far. When a foreign "immigrant" comes into a country to undermine its foundations then it is time to take drastic action.

They become just for once, one of the countless thousands of workers who invest their money day after day to buy securities for the racketeers' and gamblers' gains.
 The staff writer was talking about the "numbers" game in New York, in Lakeland, it is the "lotto" or "Cuba." The same thing is going on in the same way in other parts of the state.—Lakeland Ledger.

First Air Tragedy

Florida's first major air disaster in commercial flying history has marked a long record of safety both for the state and for the company which operated the huge ill-fated plane which crashed into the ground at the Daytona airport yesterday after striking a power line pole.

The Eastern Airlines, operators of the plane, have an enviable record for having never lost a life prior to the tragedy early Tuesday morning. This is most remarkable when one considers the thousands of miles this line flies every week and the large number of passengers transported. Its services along the Atlantic seaboard from Newark to Miami are most heavily patronized, and the absence of accidents or mishaps have thoroughly justified its popularity.

It is too early to fix any blame or responsibility, but it is not too early for conjecture. Press dispatches tell of a power line constructed during the night, unknown to airport officials, the inference being that if the pilot of the plane had known about the presence of this obstacle he would have had his plane higher in the air.

Such an inference, it seems to us, does not lead in the direction of truth. Anyone who has seen a plane take off from the Daytona airport southward across the highway knows that when the plane is directly over the road it is usually at least 200 feet in the air. A plane which hits a power pole after the long run down an asphalt runway must be in some kind of trouble. No pilot would deliberately clear a highway by a scant 85 or 90 feet. In this instance it must have been a case of falling motors or mis-judgment on the part of the pilot.

At all events, the whole state is shocked at the horrible tragedy and no matter who is to blame, Florida's faith in air commerce and Eastern Airlines' worth to the state will not be diminished.

Prices Up

Persons who have thought that by raising wages and spending a lot of money the world might be prosperous are beginning to find out that high wages also mean higher costs. Recent announcements of increases in the prices of automobiles reflect the increases in costs of materials and labor.

"It is a simple lesson of arithmetic," says the Miami Herald, "that goes back to first principles of addition and multiplication, and one that cannot be altered by legislation. The consumer, the public, must pay the bill in the end, and the public is you, it is the worker, the employee. There is no escape from the facts and not even the radicals and Communists can alter the truths no matter how much they wave their hands and shout."

"The government is producing numerous laws and it proposes more which will increase wages and limit hours and reduce production, all presumably for the purpose of conferring benefits upon labor. But labor is the public, labor is the consumer and must foot the bill in the end."

"As the prices rise the consumption will drop, and along with it production and employment. An administration may have fine ideals and beautiful theories but they cannot undo the natural laws of practical fact."

"Automobiles and other products will be higher as the costs entering into their manufacture are increased. Whether this in the end will make all people more prosperous and happier, or poorer, time will disclose. But you cannot frost your cake without paying for the frosting."

SANFORD TWENTY YEARS AGO

Now that the young men are going to the front, this city will feel the first real pinch of war. All firms in Sanford should endeavor to conserve food and other material in order that we might do our part toward winning the war.

There was never such a whole-hearted response to any public request as that made for books and magazines for the soldiers last night. So great was the reply that the Woman's Club was filled with new material.

Mrs. G. L. Hodson and Mrs. R. G. Hickson will leave this week for Hartford, Ala., and other points.

Dr. Ralph Stevens and John Marrell have left for Fort McPherson where they will be stationed for some time. Dr. Stevens ranks as first lieutenant in the Medical Corps of the U. S. Army and John ranks as sergeant in the hospital corps.

Physical rejections in the selective draft are running higher than it was expected.

Aged Man Gets Third Teeth, Second Sight

PERRY, N. Y., Aug. 11.—(AP)—At 95, D. W. Alward, Perry's oldest business man, is beginning to cut his third set of teeth. He has three new ones already.

"They have grown out just enough so I can't wear my false upper, and not enough to be of any use in eating," Alward said. He reported that his eyesight, which began to fail him several years ago, also is improving. Now he only has to wear glasses occasionally, while formerly he wore them all the time.

"I guess it's a case of second sight," he remarked.

Advertising Survey Records Increases

CHICAGO, Aug. 11.—(AP)—Advertising Age reported today newspaper general advertising in 70 major cities increased \$2,789,241 from \$1,100,000,000 in 1936 to \$1,102,789,241 in 1937. Total advertising was up 5.4 per cent in the period although

Oldest Elephant, 99, Reported Near Death

WASHINGTON, Aug. 11.—(AP)—A 99-year-old elephant, reported to be the oldest in the world, is reported to be near death at the National Zoo, according to a report from the zoo's director.

WASHINGTON, Aug. 11.—(AP)—The average individual goes to his physician only when he feels that he is in a serious condition. Operations will be performed only when the patient is in a serious condition. The average individual goes to his physician only when he feels that he is in a serious condition. Washington Daybook

By PRESTON GROVER

This is the second of two articles in which Preston Grover tells how the Resettlement Administration is to help the poor. The first article dealt with the poverty-stricken farmers.

WASHINGTON, Aug. 11.—When the Resettlement Administration set out to put under-privileged farmers on their feet, it first decided it must keep them healthy. Thus was inaugurated a type of practice that is fast becoming a problem child to organized medicine.

It is the medical cooperative. The average individual goes to his physician only when he feels that he is in a serious condition. Operations will be performed only when the patient is in a serious condition.

Clyde Mallory Is Establishing Low Rate For Students

A new round trip fare from Jacksonville to New York will be put into effect by the Clyde Mallory Line. Costing approximately one and one-third of the former fare, the line will be sold for \$100.00 or more at intervals during the year.

The reduced fares will enable students from this section to secure tickets when they either return or Eastern colleges and when they return either at Christmas time, Easter, or the close of the school session. At that time, on either of the periods mentioned, they may secure another round trip at the same fare with the return selective rates.

The tickets will be sold for \$100.00 between Aug. 15 and Oct. 31, for \$75.00 between Oct. 31 and Feb. 25, and from Feb. 25 to Apr. 25, with the selective rates of return, leaving New York between Dec. 15-25; Feb. 15 to Apr. 15; and May 15 to June 30.

British Test Air Defenses At Mock Warfare In Skies

LONDON, Aug. 11.—(AP)—Britain tested London's vulnerability to attack from the skies tonight with the greatest air defense maneuvers in her history.

The mock warfare was just a realistic rehearsal. But to Londoners who experienced the harrowing night air raids of German Goetas and Zeppelins during the World War the thunder of 400 warplanes dramatized the recent grim warning to Parliament that their city "is the choicest target in the world."

Hole-In-One Is Made By Bolt Of Lightning

DAYTONA BEACH, Aug. 10.—(AP)—Lightning made a hole-in-one here Sunday.

Two score golfers, huddled in the Daytona Highlands clubhouse awaiting cessation of a storm, heard a loud clap of thunder, and saw by a blinding flash of lightning, a wispy of smoke buried by over number two grass.

After the rain stopped, it was discovered lightning had struck the metal can on the green, scattering the pin and ripping the flag in tatters. In all directions from the cup, the electrical charge left deep furrows in the green.

Mrs. Watson Reel Is Hostess To Circle

Mrs. Watson Reel was hostess to Circle Number Two of the First Baptist Church which met at her home on Palmetto Avenue Monday afternoon.

The meeting was presided over by Mrs. Fred Myers. Mrs. J. H. Colclough gave the Bible study after which routine matters were discussed.

Refreshments were served to the following: Mrs. J. N. Burdick, Mrs. C. M. Hand, Mrs. Murray Jarvis, Mrs. P. P. Campbell, Mrs. H. A. Speer, Mrs. Fred Myers, Mrs. R. L. Garrison, Mrs. P. P. Cox, Mrs. L. B. Reed, Mrs. J. E. Page, Mrs. J. H. Colclough, Mrs. L. H. Hodgins, visitor, and Mrs. Watson Reel.

Fraternity Will Give Benefit Dance Aug. 20

The Omega Xi Fraternity will present Louis Armstrong at the Orlando City Auditorium on Friday, Aug. 20, at 10:00 o'clock. Louis Armstrong is direct from Hollywood and New York.

He was born in New Orleans, La. and is known as the "Trumpet King of Swing." He was in "Penguins From Heaven" starring Bing Crosby and his latest picture is "Artists and Models" starring Jack Benny.

Tickets are on sale at Roumillat and Anderson's and at Laney's Drug.

Joe Brown At Ritz Tonight, Thursday

Bringing Richard Macaulay's famous character of Elmer Lane to the screen, Joe E. Brown, cavern-mouthed comedian will be seen at the Ritz Theater tonight and Thursday in a new photoplay, "Hiding On Air," based on the popular stories which have appeared in the Saturday Evening Post for several years.

As the small town newspaper editor who becomes involved in a sensational, big city scoop, Brown has a role tailor-made to his inimitable style of comedy in this, his second tour de force.

As a local correspondent for a big metropolitan daily, a gangster killing occurs virtually under his nose. He helps a rival reporter scoop him by personally flying the story and pictures of the crime to the competitive paper believing he is taking a sick dog to a Chicago veterinarian.

Ridiculed by the big city newspapers, as well as by the natives of his home town, Brown decides to rehabilitate himself by running down a smuggling ring running perfume across the Canadian border by air. Before he can carry out his plans, he is pursued by angry citizens who believe he has embezzled their money in a radio beam company organized by Guy Kibbee, a Chicago confidence man with a record who has used him as a pawn.

With the use of the projected radio beam, an invention of his buddy, Brown takes out after the smuggler's plane, engages in a thrilling air battle, walks out on the wings of his own plane and shoots down the sneaky ship with a shotgun. He returns home a hero, a leading star appearing as leading lady, Florence Rice is cast in an important role as Joe E. Brown's sweetheart. Vinton Haworth plays the part of his reporter and romantic rival, Harlan Briggs is cast as the stern father of the girl, and Anthony Nees is the young inventive genius. The picture was directed by Edward Sedgwick, for RKO Radio release.

Free men call Nov. 11, 1939, the Day of Dupes because it was the day Cardinal Richelieu fooled the enemies who nearly had succeeded in removing him from royal favor.

National Guard Camp Described Most Successful

(Continued From Page One)
The local unit has captured this honor.

Capt. Washburn also reported that his company narrowly missed winning the trophy given each year to the most efficient company. Company I, of Bradenton, missed out the locals for this trophy by 45 of a point.

The awarding of this trophy is based on the percentage of the company's men attending the camp, sanitation and cleanliness of mess hall and kitchen, cleanliness and general appearance of personnel, efficiency in military training and other items. Capt. Washburn reported that the localities lost the trophy due to the fact that they went to camp five men short.

During the encampment, Capt. Washburn, who said it was the best he had ever attended, added that his organization received intensive training in defensive and offensive maneuvers, anti-aircraft protection and also received instruction in the art of concealment from enemy aircraft observation.

All the maneuvers were carried on in mountainous and hilly territory which afforded all concerned considerable experience in handling men in this type of country.

Second Lt. W. D. Hoffman, communication officer of the Headquarters Company here, reported the company was cited by camp officials and others as the best Headquarters Company in the 62nd Brigade.

During the brigade maneuvers, their radio and telephone sections functioned perfectly and were always the first unit to complete their communications systems as the new command posts were established.

The training period, Lt. Hoffman commented, was a great success from both a physical and military point of view.

Capt. A. W. Knox, commanding officer of the Medical attachment, joined the other officers in praise of the encampment, adding that his detachment had gleaned a great deal of military experience during its stay at the camp.

Members of the local medical detachment were assigned to the dispensary where they administered First Aid to all Florida Troops, and one man was assigned to each of the units composing the battalion to render first aid treatment whenever necessary.

During the encampment a regimental station was set up on the field and was under the supervision of Capt. A. W. Knox. Battalion aid stations supervised by the non-commissioned officers also followed the three battalions.

Private Ralph Menger sustained the only major injury treated by the detachment while at the camp. Two of his ribs were broken when he was struck by a tent pole. However, there were several heat exhaustions and numerous cases of poison ivy which were all immediately treated by the Medical Detachment.

Next year, it was indicated, the Florida National Guards will probably encamp at Fort Shelby, Miss., where two divisions or about 20,000 soldiers will assemble for division maneuvers.

Eleven Florida cities employ radio in their police work, says the State Chamber of Commerce.

Some globe trotters say that the White Sands National Monument in New Mexico is more spectacularly than the great Sahara desert.

Most of the straw hats known as "Panamas" are manufactured in Ecuador, Colombia and Venezuela.

DREAMS TRUE. Mrs. Alben W. Barkley, wife of the newly elected senate leader, at last is mistress of "The Angles," long-desired mansion near Paducah, Kentucky.

Iturbi Won't Play If Modern Music Is On His Program

PHILADELPHIA, Aug. 11.—(AP)—Joe Iturbi, no stranger to controversy, jumped right into the middle of another opera-versus-just-plain-music debate last night.

Said Iturbi, Spanish born conductor who stopped a national radio broadcast by the Philadelphia orchestra Monday night because he objected to some popular songs:

"There is good American music—but all this love-you stuff is just trash."

"It is far below the dignity of the orchestra to play such cheap, rotten music. See, I cannot permit such stuff on a broadcast."

Iturbi left Radio Singer Lucy Munroe standing in the wings at Robin Hood doll and stalked to the stage when he discovered the popular songs were on the program. He is directing the orchestra for the summer.

Miss Munroe and Jan Pierce seem to have sung the songs—including works by Vietti, Herbert, George Gershwin, Gley Speaks, Jerome Kern, Frank Laforge and Daniel Wolf.

The program commemorated the 150th anniversary of the signing of the constitution. Alfred Reginald Allen, manager of the orchestra, noting this, said the songs should have been sung, adding:

"It seems proper to me that it should include popular music, loved by millions, as well as serious works."

Pierce had sung two songs when Iturbi interrupted. The radio announcer then ended the broadcast. Iturbi continued his own program.

State's Seminoles Indian Population Is Placed At 586

DANIA, Aug. 11.—(AP)—The State's Seminoles Indian population today is placed at 586 in a report filed with the Interior Department by F. J. Scott, superintendent of Indian affairs here.

About one-third, known as the Cow Creek group, live north and east of Lake Okechobee and at Dania. The remainder, known as the Big Cypress Indians, live in Miami and along the Tamiami trail to the west coast.

Scott reported that while the Seminoles "have not heretofore to any great extent, in any development undertaken by the United States Government for their benefit xxx a large group now is taking an active and genuine interest in the development of the 35,828 acres of land recently acquired in Glades County for their use."

During the encampment a regimental station was set up on the field and was under the supervision of Capt. A. W. Knox. Battalion aid stations supervised by the non-commissioned officers also followed the three battalions.

Private Ralph Menger sustained the only major injury treated by the detachment while at the camp. Two of his ribs were broken when he was struck by a tent pole. IT'S NO SECRET. Tradition links Ku Klux Klansmen with deep, dark secrets. When they met recently at Atlanta to demonstrate against "alien labor agitation," their wives donned hoods and took an active part. As seen here, it didn't take long for all the plans to spread.

U.S. Marines Mobilized In Shanghai Area

Other Countries Also Prepare For Worst As Japs, Chinese Take Up Positions

Sino-Central Army Forces Enter City

Japanese Marines In Number Of 5,000 Deployed For Action

SHANGHAI, Aug. 12.—(AP)—Ranks of Japanese bluejackets moved into battle position in Shanghai to face an unstemmed torrent of Chinese regulars tonight and garrisons of the United States and three other nations mobilized "for the worst." "The peace conference" intended to ease the crisis in the panic-stricken city ended in failure.

Backed by 21 warships at Shanghai's wharves, Japanese naval forces estimated to a number between 5,000 and 8,000 moved into the same positions they occupied during the 1925 Chinese-Japanese hostilities. They deployed along the fringes of the Japanese portion of the international settlement and the roads extending northward.

Chinese central authority troops streaming into the city answered to no authority but the army. Civilian authorities would not try to stop them. Each force indicated it was not planning to attack. But the situation needed only a spark to become a conflagration.

United States marines, 1,050 strong, were mobilized, along with Russian, French and British garrisons. The Americans were charged with protection of nearly 4,000 United States citizens in Shanghai and its environs, some of whom were cut off by the Chinese advances.

The American marines took up patrol duty along the northern border of the international settlement. It was war in everything but official declarations northwest of Peiping where the Japanese army sought to drive the Chinese 80th division back from the Great Wall.

After a heavy artillery attack, the Japanese were reported to have occupied the Hankow railway station area. The Chinese under command of General Wang Chung-Lien used mortars and rifles to defend the strategic Hankow pass and Chahar province.

The Japanese also moved troops south from Tientsin to head off the reported Chinese advance along the Tientsin-Pukow highway.

Nets Seized And Man Arrested By Wardens

Three hundred pounds of fishing net were confiscated, one man arrested and warrants obtained for the arrest of two more by Game Warden C. C. Howard and Ira Byrner near Bird Island yesterday morning. It was learned today.

The warden seized the boat with the net. It was indicated, as preparations were being made to lower the net into the water. One of the men on the boat was nabbed by the warden but the other two made their get-away.

Belting in Lake Jessup is forbidden by a State statute which provides that its waters are closed to all commercial fishing except trout lines. Violation of this law carries a maximum penalty of \$500 or a year in the County Jail.

ONLY 'TUMMY' ARMED

GRAND RAPIDS, Mich., Aug. 11.—(AP)—Burglars who broke into the plant of a Grand Rapids Double Mountain company got only a "tummy ache" for their efforts.

Detectives discovered the burglar had stolen a quantity of coffee which recently had been treated with varnish to make them suitable for display.

STRIKER BEATEN IN RIOT

A member of the strike committee was bludgeoned when 17 police and 150 girl strikers clashed at the Dominion Woolens and Textiles, Ltd., mill at Peterboro, Ont. A riot in which several were hurt and six arrested ensued as the company started a back-to-work movement following a walkout.

Wage-Hour Bill Flight Over Pole Blocked In Row To New York City Over Crop Law Begun By Russian

WASHINGTON, Aug. 12.—(AP)—Congressional forces, angered by President Roosevelt's refusal to grant Federal crop loans until a new crop control law is secured, blocked his wage and hour legislation yesterday.

The tug-of-war between the President and powerful elements in Congress became so fierce that it threatened to wreck plans for an early adjournment and to throw the remaining days of the legislative session into confusion.

Adjournment plans were jeopardized further when the Senate refused by a vote of 35 to 27, to sidetrack the Wagner anti-laboring bill. Administration leaders lost a motion which would have permitted them to bring up other matters in its stead.

Many Southern legislators lined up behind a movement to delay the wage and hour bill and compel the granting of price-bolstering loans on cotton and other major crops.

Charles West, liaison man between the White House and congressional leaders, hurried to Capitol Hill. He conferred with House leaders and they in turn with Chairman O'Connor (D., N. Y.) of the House Rules Committee.

O'Connor then called off a meeting of his committee scheduled to consider giving wage and hour legislation right-of-way on the House floor. He declined explanation, but told the House later he personally is "wholeheartedly and enthusiastically" for the labor standards bill.

One Administration leader told reporters the meeting had been called off because proponents of the labor legislation could not muster sufficient votes in the committee at present to get their bill before the House.

Some House members expressed belief that delaying the meeting would give the Administration time to seek additional committee votes, possibly by agreeing to grant crop loans without further ado.

However, Representative Cox (D., Ga.) a committee member who is opposed to the wage and hour legislation, declared: "There is no punishment, pressure or influence that can be brought to bear that will persuade this committee to grant a rule (for House consideration of the wage and hour bill)." He stated that the "belief of some other legislators that the labor standards legislation is a committee even if the crop loan dispute is ironed out. They pointed out that some Southern representatives are opposed to it because they fear higher wages in the South will injure the ability of Southern industry to compete with Northern plants. Legislation to override the (Continued on Page Two)

Black Named County Group High Justice Seeks To Get By Roosevelt Gas Tax

Appointment Of Alabama Man To Supreme Court Bench Causes Stir Among Solons

WASHINGTON, Aug. 12.—(AP)—President Roosevelt named Senator Hugo Black of Alabama to the Supreme Court today but his immediate confirmation was blocked by Senators Burke, Nebraska Democrat and Johnson, California, Republican.

The nomination to the place formerly occupied by Willis Van Devanter was sent to the Senate in a routine list of other appointments. The White House did not make it public leaving newsmen to learn of the designation at the Senate.

Black has been a leader in advocating the administration's wage and hour legislation. The nomination immediately created a tremendous stir in the Senate. Chairman Ashurst, Arizona Democrat of the judiciary committee, demanded immediate approval of it without reference to the committee, the usual procedure for nominations.

Senator Burke, one of the leaders in the recent fight against the Supreme Court enlargement bill which Black supported, quickly objected.

He was joined a moment later by Johnson who said he would object to immediate action. The objections forced the nomination to go over for action at least until tomorrow.

Ashurst told the Senate it was a "memorial custom" that whenever any member of the chamber was nominated to the Supreme Court it should be given consideration without reference to the committee.

Search Begun For Orlando Missing Since Yesterday

Sheriff C. M. Hand and several deputies have been conducting a widespread search today in the vicinity of a small lake on the Old Orlando highway between Altamonte Springs and Maitland for some clue which might lead to the finding of Gene Gaffney, Orlando barber, who, it is feared, met with violence on the shores of the small lake some time last night.

Early yesterday morning, a car identified as belonging to Gaffney was found abandoned off the highway near the small lake with a broken windshield and signs about it which might indicate a struggle, but an extensive search failed to reveal any clue as to what might have become of the Orlandoan.

Sheriff Hand indicated that if today's whereabouts of the missing man be would order dragging operations to begin on the lake at once.

School Bus Rules Studied By Group

Various regulations relative to the kind, care and operation of school buses in the counties, responsibilities of drivers and principals and behavior of students were discussed at a meeting of the State Committee on Pupil Transportation held in the P. K. Young Laboratory in Gainesville recently. T. W. Lawton, member of the committee, announced today.

Results of the meeting are being codified into a set of regulations which will be sent to the various counties as soon as completed, Mr. Lawton said. Those present at the meeting were: State Superintendent Colin English and Chief Clerk Walker; James Richards, secretary of the Florida Education Association; and County Superintendents T. W. Lawton, Seminole; H. F. Stewart, Alachua; L. S. Sargent, Putnam; and Don Mann, Marion.

Schenectady, N. Y.—(AP)—Burglars slipped away while looting the safe of a local market, police reported. The thirty burglar took nearly \$400 in cash, leaving an empty beer bottle lying near the dismantled safe.

AT SOLONS' LOVE FEAST

Smiles and warm handshakes were the order of the night at the "charmony" dinner of Democratic senators in Washington, Vice President Garner (right) toastmaster at the affair, greets Senator Allen W. Barkley (left), new majority leader of the senate, in whose honor the dinner was given. President Roosevelt sent his "regrets."

Lee Is adamant Simplification Of About Releasing Crop Program Is Gasoline Monies Growers Desire

State Comptroller Is Beseached Without Avail By Locals

TALLAHASSEE, Aug. 12.—(AP)—Joined by Governor Cone officials of twenty-five counties pleaded unsuccessfully yesterday for money they claim is due them from the State gasoline tax, then turned to the Supreme Court for aid.

Comptroller J. M. Lee, who halted payments to the counties because he said their special laws were invalid, insisted at an all-day session in the crowded Senate chamber that he would not honor the county claims unless the courts direct him to do so.

Two counties asked the Supreme Court to require Lee to pay the money, and Lee was directed to answer by Aug. 17. Attorneys said they waived the right to oral arguments in order to expedite a decision.

At the county officials' protest meeting, they said that the "emergency" created by Lee's action in halting gas tax distribution would force an extra session of the Legislature.

On this question, the delegates got no answer from Governor Cone. He attended their meeting late in the day and assured them he wanted the money paid. He refused to make an extra session while he was in the room, and the Governor declined to discuss the question with reporters.

"I'm not going to put my neck in a noose by paying this money," he said. Furthermore, he said, Florida is in danger of losing a share of its \$2,000,000 annual federal aid because of "diverting" tax money levied by roadbuilding. He invited litigation over the county claims, which he said involved \$9,000,000 a year.

"That's my story, gentlemen, and I'm going to stick to it," the Comptroller said. Lee declined any proposal that he continue making the disputed payments until the Supreme Court decides whether the questioned acts are valid.

He also declined another compromise under which all payments would be released if one county got a court order. Lee said that a test case would be necessary in each of several classes of special laws now in controversy.

Edith Wharton Dies SAINT BRICE, SOUS BOIS, France, Aug. 12.—(AP)—Edith Wharton, noted American novelist, died yesterday at her club near here. It was learned today she had an apoplectic stroke early yesterday morning. The novelist was 75.

18 Lose Lives As Tenement House Falls

Disaster Results As Tons Of Water From Broken Sewer Pipe Hit Old Structure

NEW YORK, Aug. 12.—(AP)—At least 18 persons were crushed to death in their sleep early today amid a smothering avalanche of bricks and debris when three Staten Island tenement buildings collapsed during a violent rainstorm.

Tons of water, foaming down from an overflowing storm sewer about midnight struck the ancient brick dwellings and ripped them asunder.

Rescue squads of police and firemen pulled at the tangled wreckage for additional victims. Three persons still were missing. Four others who escaped from scattered structures were taken to Straten Island Hospital with serious injuries.

Patrolman Joseph McElroy of Emergency Squad No. 10, the rescuer on the scene, died a hero. He plunged into one of the buildings after the first structure collapsed. Searching squads found him later buried in the wreckage.

In his arms, with her arms crossed tightly about his neck, was the body of four-year-old Virginia Hudnick.

The disaster struck at the height of a thunder and electrical storm that swept the metropolitan area and Long Island in which four other persons were killed by lightning or were drowned.

New Documents Are Given To Trade Body

Many new documents have been presented to the library of the Seminole County Chamber of Commerce by Congressman Joe Hendricks and are now on file for the use of the public, it was announced today.

The new additions include a Documentary History of the Florida Canal which covers a ten year period from Jan. 1927 to June 1936, a Report of the Committee on Rivers and Harbors of the House of Representatives on "A Bill for Completion of the construction of the Atlantic Gulf Ship Canal across Florida," and a report of the Secretary of War dealing with the Florida Cross State Canal.

"The Chamber's Library contains many directories of important cities in Florida and the South, and much other data of value to many lines of business," it was stated by Ralph Bagwell, secretary.
