# TOUR of HOMES in the Sanford - Seminole Area

# Finest Of Homes Are Offered Locally

Homes and homesites being shown this weekend in Seminole County are some of the very finest in all price ranges.

In Idyliwiids of Loch Arbor, Sten-strom Realty is showing a threebedroom two-bath, air conditioned home with extra convenience fea-tures that definitely place it in the prestige class. It's at 303 Tammy Drive, a block or so off Country Club Road. This home was built to very high construction standards by Shoemaker Construction.

In nearby Ravenna Park, five new homes are nearly complete, two of which are already sold. These are in the newest section of Ravenna Park, and will fit nicely into this already well-planned community.

One of the loveliest areas for homesites is Greenbriar of Loch Arbor, offered by Kingswood Builders. Byron Leach says they are exercising extreme care to preserve its natural tree-covered beauty. Two large new homes are now under construction. Greenbriar is located next to the 12th green of the Mayfair Golf Course.

LMN Enterprises is now featuring homes in Crystal Lake Park in Lake Mary. Several sample homes are open for inspection. Lake front and lake view property adds charm to this development. LMN is also developing Lake Wayman Heights, on Highland Avenue in Longwood.

#### Group Ignores The Sanford Kerald **Police Order** To Move On

TALLAHASSEE (UPI) -Sheriff's deputies arrested about 95 Negroes today who sang and demonstrated in front of the Leon County jail where many of the 248 marchers arrested Saturday night remained in their cells.

Estimates of the crowd that first arrived at the concrete jail set the figure at about 230, but when Sheriff William Joyce gave the group 10 min-

They sat on the concrete apron in front of the door to the jail, singing "Climbing Jacob's Ladder" and refused to leave. The Negroes were ringed by deputies and state patrolmen.

Joyce ordered the arrest of the demonstrators for violating a direct order by the sheriff to leave. He said if they resisted, they would also be charged with resisting arrest. When told they were under arrest, the Negroes stood up quietly and marched two by two into the jail.

State patrolmen dispersed other Negroes standing across the street from the jail. As the spectators, many of whom had been part of the demonstration group earlier, moved away, a woman's voice from the second floor of the jail shouted "chicken." Meanwhile, 91 demonstrat-

ors arrested Saturday night while marching towards the jail were arraigned on charges of disorderly conduct.

## "LET'S TALK DRY CLEANING"

By - WOODROW CASH

Now that school is getting into full swing, it is time to turn your atten-tion to your fall cottens. Your blouses, skirts, or dresses will brighten considerably when cleaned with our special Sanitone method. Your raincoats can be given a specia waterproofing treatment that will give them almost new appearance. And you boys, bring us your good cotton shirts or trousers, and if they are especially dirty around the poc-kets, call it to our attention so they may be given special attention. The

football games will be starting soon when you will want your clothes to have that extra special look that Sani-tone gives. We have already had an indication that cooler weather is on the way by a considerably lower temperature this week, so don't let that first cold snap catch you unprepared. Get out your winter clothes now, look them over, and decide which ones you will be wear-ing first, then bring them by the Downtown Cleaners, or call them by phone and their truck will call at your home. For the best in drycleaning, call your Downtown Cleaners, known as the professional cleaners in San-

#### 30 Days To Better Grades

#### Case Of Classification

Written for Newspaper

Enterprise Association So far, we've seen two different kinds of subject development. History, whether is to memorize every little the history of peoples or of thing in the book just because literature develops in a horizontal fashion - each event leads to subsequent events. There is a cause and effect relationship between the historical events, and you should overview to find this pattern,

this "big picture." like sociology, psychology, economics and political science tend to develop vertically. The text and lecturer will construct a set of general concepts (like "group," "neurosis," "Law of Supply and Demand," etc.) which will then be applied to specific cases. You must understand these general concepts firstfor these are the foundation of the subject-before you get

into details. Biology is a bird of a different feather. Like all the other sciences, biology is constantly changing. Almost every day there is a new breakthrough or new piece of information obtained. It's important that you realize this, and it's also important that you see that your textbook and your teacher can't possibly keep up with all the new developments. No one can. As a result, and properly so, your biology course will be primarily a descriptive course. That is, you're almost entirely concerned with classifying the different forms of life.

If you decide to major in biology in college and make it your life's work, you'll go beyond mere classification. You'll study the chemistry of life, you'll be able to delve deeply into cell structure, evolution and other fascinating aspects. But for the time being, concentrate on passing your elementary courses.

Ninety-nine and 44/100 per cent of all students who have trouble with their biology course have it because they can't see the forest for the trees. Remember that for the most part your course will simply divide living things into great groups. The most general groups are called phyla. For instance, the chordates are a phylum. Do you know what they are? From the great groups, or phyla, biology then works down to smaller and smaller groups (family, genus and species). For instance, a red fox is a member of the chordates, and of the dog family (Canidae), and the genus Vulpes, and the species fulvus. Technically, the red fox is referred to as the Vulpus fulvus.

Horribly confusing, isn't it? Actually, it isn't confusing at

#### **Dun Machine**

MORRISTOWN, N. J. (UPI) - A new commercial reporting service here is bad news for the more than three million Americans who are chronic delinquents in paying for subscriptions and other mail order purchases. The Hooper-Holmes Bureau puts the name of subscription or product purchasers through a Honeywell computer and they are automatically compared against a pool of credit delinquents.

By The Reading Labourtory all once you get the classes straight; as a matter of fact, it's all extremely logical. But you have to get the classes straight! And the surest way not to get the classes straight it's there.

When you study a new animal or a new plant, take your time and look it over. How is it made and how does it work - that is, respirate, digest, reproduce and so forth? Then how would you classify it? On the other hand, subjects Does the book classify it that way? If so, fine! If not, why not?

> In other words, don't get flustered by a bunch of Latin names. Just keep in mind that when you dissect an animal, you're seeing how it works so you'll be able to classify it. When you study plant reproduction, you're seeing how they work so you"ll be able to classify them. Overview each major unit to find the properties of the classes; once calm, keep cool and keep

#### Fleet Off Our Coasts

hose famous Russian fishing a which are usually in the news injeter connection with charges of sering along our coasts and tracking missile shots, actually do fish.

In fact, they have been fishing too well. New England fishermen blame the Russians for an eight-million-mound drop in the catch. The catch for July is reported to be the

lightest in history for the Boston fisheries.

Evidence indicates that the Russians are using illegal nets with close mesh that sweep up small fish which should not be taken. The fish do not have a chance to grow to maturity

Better the Russians should stick to missile monitoring.

#### Who Owns Them?

Leaders of nations antagonistic toward the United States know what they're doing when they shut off their people from the news of our

It's not propaganda so much as the daily items in our press which might make their citizens wonder if their leaders are telling them the whele truth.

Take the reports of stockholders meetings, which make up a good bit of the business news grist. Our anposiets beap scorn on Wall Street it the "capitalist masters" who own the great companies in the UnitJust who does own these compa-

Well, the steel industry has just reported that it had 1,280,765 stock-holders in 1962.

Even more revealing is the steady trend to wider stock ownership. Just after the war, in 1946, there were 559,788 holders of steel stocks. In 1950, this number had increased to 688,216. In the 12 years following the number of shareholders just

about doubled. It wouldn't be difficult for those behind the curtains to perceive that the people own these "capitalist" companies. This is something for the people behind the curtains to ponder.

#### By Abigail Van Buren

DEAR ABBY: I am the young, attractive neighbor lady about whom WOR-RIED WIFE wrote. I am trying to get a sun tan, so naturally when the sun is hottest, I take sun baths in my back yard. Now, everyone knows that if you sprinkle your lawn in the hot sun you'll burn up your grass. My neighbor goes out and sprinkles his back yard when the sun is blazing just to get his eyes full of me while I'm out there taking my sun bath. I assure you, tion. his wife has nothing to wor-Yours very truly, ry about as I don't appreciate an audience. Can you

SUN BATHER DEAR SUN BATHER: Call your neighbor's attention to the fact that his lawn is getting brown right along with you. And suggest that he hold off the sprinkling until both you and the sun have disappeared.

suggest a way to get my

message to him?

DEAR ABBY: Recently my seventy-three-year-old father was taken to the hospital with a ruptured gall bladder which required emergency surgery. As they operating room, his last request to mother was, "Don't bother to save the newspapers for me-just tear out the pages with DEAR ABBY and I'll read them when I get home." We are happy to report that he is well on the road to recovery now and almost all caught up with his reading. It is our belief that your column somehow tends to create a measure of confidence in the older genera-

R. C. T.

DEAR R. C. T.: You've made my day. And please remember me affectionately to Papa.

DEAR ABBY: We live in a \$35,000 home, have over \$10,000 in our savings account, my husband has \$75.-000 in Life Insurance and we belong to the Country Club. I suppose you're thinking, "what a lucky woman to have a husband like that!" Well, you can have him. He's the world's biggest tightwad. He never carries a penny with him and he says that's the best way to keep from spending money. Our house needs painting, and our furniture is a disgrace. We drive a 1950 car. We've been married 26 years and he's getting tighter every year. What can I do?

TIGHTWAD'S WIFE

DEAR WIFE: If you've lived with this man for 26 years and haven't been able to loosen him up a little, there must be something wrong with your approach. On the other hand, few wives have the assets you both apparently enjoy.

CONFIDENTIAL TO "STILL JEALOUS OF MY 82-YEAR-OLD TREASURE IN HYANNIS PORT": Relax. You're secure unless an antique collector takes a fancy to him.

#### Garden Circle **Opens Season** At Dinner

By Mirley Wentworth The Bear Lake Garden Cirsie opened the new season rith a covered dish dinner meeting held last Wednesday evening at the home of Mrs. Albert Jacobs on Lake Asher Circle in Bear Lake.

Mrs. C. L. Brunk, new president, presided over the ness meeting held following the dinner, Mrs. Jacobs, garden therapy chairman, reported that plans have been made for the group to continue its work with the Gateway School in Orlando by providing favors for holidays and special occasions for the children there.

It was announced that work on beautifying the Bear Lake Elementary School grounds with plantings would get underway after a planning meeting of the beautification committee with Mrs. Richard Ostrander.

New members welcomed were Mrs. H. E. Chapman and Mrs. William Powell. Next month's meeting will be held at the home of Mrs. are growing bigger all the William Massey on Lake Ash-

THIS COMPACT CAR, driven by Harry L. Lenard of Altamonte Springs collided with a 1951 truck, driven by Franklin Lacy of Casselberry. In the crash Friday at the intersection of Hwy. 17-92 and Sparton Dr. in South Seminole the truck was a total loss. State Trooper J. L. Sikes investigated the accident.
