

### Cash Donated To Give Boys A Trip Put To Good Use

#### Much Paraphernalia Bought For Club, Sponsor Reports

Owing to the cancellation by Miami officials of a proposed boxing tournament in the lower East Coast city last spring, money donated to send members of the Boys' Athletic Club to Miami was expended for equipment, reports Judge S. A. B. Wilkinson, sponsor for the club.

Much needed paraphernalia for the club and the boys who are there learning the manly art of self-defense was bought. This has enabled the club to "carry on" and earn funds with which the boys belonging to it are now taking care of four children in school, with prospects of adding four more to that list.

"We are doing our best to train these 175 boys in sportsmanship and citizenship and to teach them a little something about self-defense," said Judge Wilkinson, "but above all to develop a spirit of self-sacrifice that they may be of some real help to others in this life, as we all know that selfishness is at the bottom of all our troubles today."

Judge Wilkinson reports that \$20.40 was donated to the Boys' Athletic Club last May, to help defray the expense of taking eight additional boys to Miami. After all arrangements were made here for the proposed trip and 22 pairs of boxing trunks and 18 pairs of boxing shoes had been bought, a wire was received (on May 23 from Don Sessault) which read: "Sorry, Miami bout postponed due to illness."

The trip therefore had to be called off, Judge Wilkinson explained, and it was decided to use the money contributed by citizens of Sanford in the purchasing of necessary equipment for the club. Of the nearly \$40 contributed, \$28.40 of that sum was raised through the efforts of H. M. Hayward, president of the County Chamber of Commerce. However, more than the \$40 was expended, for in addition to the trunks and shoes bought for the proposed Miami trip, the club bought three sets of boxing gloves, the total cost of all the equipment being \$44.80.

"We make this announcement," said Judge Wilkinson today, "to the donors may know just what went with their money. That equipment is being used twice a week. We now have 24 pairs of trunks, and did have 34 pairs of shoes, but they are about worn out, and we have eight pairs of boxing gloves, three pair being practically new."

#### SPORTS BRIEFS

The University of California at Los Angeles football team wears silk "molesters."

Lou Gehrig of the Yankees made three homers last season off Schoolboy Rowe.

Brigham Young university's football team at Provo, Utah, has produced the unusual this season by starting an all-sophomore backfield in most of its games.

It took Johnny Cooney, the 1935 Johnny Cooney batting champion, 12 years—eight of them as a pitcher in the National League—to learn that he belonged in the outfield and not on the mound.

Guy Cheng, the Chinese, Davis Cup player, has enrolled as a freshman at Tulane University.

The traditional Jerseys with gold arm stripes worn by University of California's Golden Bears have been abandoned in favor of jerseys having no "golden rings."

Up to the 1935 football season, Alabama's Crimson Tide had played 317 games, won 217 of them, tied 20 and lost 80.

Wolf hunting, with frequently as many as 50 men following the herds, has become one of the most popular sports in Oklahoma.

### Celery Fed Centers Called Strong Men On Local Squad

Edwin Squires, Seminole High's first string center, is one of the most favored men in the conference for a position on the All Conference team. He weighs 170 pounds and is a member of the senior class. This is his second year as a varsity man.

Couch McClucas claims that Squires in every play is coming through the line, both on the defense and offense, and that he is one of the best blockers on the team and also a good tackle. When he hits a man he is down and there is no argument about it. According to all reports he is one of the best centers that Seminole High has had since the day of Murray Kanner.

### Gordon Captains Stetson's Squad In Miami Contest

#### Hatters Are To Meet Hurricane Eleven Next Friday Night

DELAND, Oct. 30.—Harry "Whitey" Gordon, scrappy little guard, has been elected captain of the Stetson football team for Friday night's game against the University of Miami at Miami. Gordon, a senior, is playing his second year on the Hatter squad and has won the acclaim of all observers despite his relatively light weight for the guard position.

Coaches Brady Cowell and Chester Freeman gave the Green and White players a long workout yesterday on Hulley Field, stressing defense against hurricane plays which they spotted in observing last week's game against the University of Tampa at Miami. The freshmen were used for opposition but the coaches were careful to restrain tacklers and ball carriers from accidents which might produce injuries.

Taking their last Deland workout this afternoon before leaving tomorrow morning for the scene of the next big fight, the Hatters appeared to be in excellent condition with those who have suffered minor hurts fully recovered and ready to give their very best in this important engagement. This afternoon's program included informal lectures by both coaches to their men upon the finer points of the game, especially with reference to the style of play which the Hurricanes are expected to develop.

The probable starting lineup will be right end, Swede Phillips; right tackle, Winston Bridges; right guard, Harry Gordon; center, Frank Monhart; left guard, Bob Haynesworth; left tackle, Claude Miller; left end, Lynn Hart; quarterback, Ken Louton; right half, Aubrey Smith; left half, Herb Wotting; fullback, Tom Gannarsell.

same charges, \$5 or 10 days each. Both of the heads paid their fines. Charlie Casper, drunk, \$5 or 10 days, fine paid; Claude Mae Brown, drunk, \$5 or 10 days; Julian Vaughn, drunk, \$10 bond ordered.

Claude Mae Brown, disorderly conduct, charge dismissed, Racind Kearse, operating a disorderly house, \$3 or 10 days.

H. B. Tullis, operating a business without a license, \$50 or 50 days, \$48 of the fine suspended on condition that he take out a \$2 license.

Willie Patterson, larceny, transferred to the County Court; Rufus Merchant and Nathaniel Davis, trespassing, transferred to the Juvenile Court.

HR: SWEET POTATO CROW HOLDS, Okla. Oct. 30.—(AP) R. W. Worrell, the local "sweet potato king," reported a harvest of more than 100 bushels per acre from his 70-acre patch near here. He expected to realize \$128 an acre.

### He Leads Stetson's Band On Parade

DELAND, Oct. 30.—Homer Dills of Sarasota is the snappy high-stepping drum major who will lead Stetson University's Green and White band in street parades in Miami and West Palm Beach Friday and Saturday of this week when the Hatter musical aggregation visits the east coast cities on concert tour.

Dills, who won applause as drum major of the Sarasota high school band, is a freshman at Stetson University this year. He will lead the Hatter band in intricate maneuvers at the Stetson-University of Miami football contest at Miami Friday night.

## More Than 300 Hold WPA Jobs In This County

### State Program Will Be In Full Blast By Monday Week, Pynchon Avers

### Working Now On Eight Projects

### Much Employment Is Being Provided In Country Precincts

WASHINGTON, Oct. 31.—(AP)—The Commerce Department today approved the \$17,000,000 airport program of the WPA, including \$11,658 for the Sanford Airport.

More than 300 men are now employed on Works Progress Administration projects in Seminole County. Latest payroll figures of file in the local WPA office in City Hall disclose, but the number is to be augmented next week it was announced by E. A. Pynchon, state administrator officing in Jacksonville.

Indications are that the goal of 25,000 heads of impoverished families at work on WPA projects in Florida by Nov. 4 would be exceeded by several thousand, Administrator Pynchon stated yesterday.

Payroll figures on file in the WPA office in the Sanford City Hall show the projects now under way as follows:

- Sanford Airport, building runways, sprigging with grass, installing boundary lights, 40 men employed.
- Sanford sewer system, relaying sanitary sewers, 60 men employed.
- Tunkashilla Road, from the Ovido road to Gabriella, grading and ditching, 33 men employed.
- Altamont, Springs to Forest City road, finishing up and ditching, 23 men employed.
- Mickler Road, in Mitchell Hammock near Blavia, grading and ditching, 13 men employed.
- Elm Avenue Road in Black Hammock, grading and ditching, 13 men employed.
- Longwood to Lake Mary Road, grading and ditching, 15 men employed.
- Kimford Army, building construction, from 20 to 45 men employed.
- State Road No. 3, from Soldier Creek to Matfield, resurfacing, estimate of 75 men employed, no payroll figures on file in the WPA office.
- More men are needed on the Army project, and the Sanford WPA office today requested the Board to publish a list of men whom assignments are waiting and who should report to the office in City Hall immediately. These men are: Shley H. Ernst, O. E. Wover, Franklin Cummings, Herschel Dunn, Joseph Berry, Ed Rodley, Theodore Wood, Raymond Ashon, Earl W. Jones, John Williams, Lewis Williams, Arthur W. Wilson, Charles C. Woods, Harry Wooten, Brown Yates, Henry Wynn, Andrew Gardner and Ed Givens.

## Mary Pickford Threatens To Move Away From California

HOLLYWOOD, Oct. 31.—(AP)—"The California, Here We Go," movement of William Randolph Hearst had a recruit yesterday in Mary Pickford, veteran movie star.

The actress, like Hearst, complained of California's income taxes.

"The decision of Mr. Hearst to make unless our law-makers give me a chance to possess a small portion of my income for living expenses," declared Miss Pickford upon her return from a trip East.

Mary Pickford

She predicted that others in the film industry would move, possibly to New York or New Jersey, and said financing of a shift in movie-making activities "could be easily arranged."

The wealthy publisher announced last week he intended to close his vast ranch home at Ran Simson, Calif., before the end of the year and to spend most of his time in New York.

He charged California's income tax, coupled with federal taxes, amounted to 85 percent of more of his income.

So far, Miss Pickford and Louis B. Mayer studio chief of Metro-Goldwyn-Mayer here, are the only motion picture people to comment publicly on Hearst's prediction that the many film notables and other wealthy persons would leave the state.

## Character Built By Football, Says University Head

Sanford, Oct. 31.—(AP)—The University of Florida today held its 44th annual convention of the South Association of Congregational Churches in Sanford today afternoon. Officers were elected at this morning's session, a memorial service was conducted, and a closing prayer was read by the Rev. Victor H. Chicolin, pastor of the church in Winter Park.

The Rev. J. B. Root, pastor of the Sanford Congregational Church, was elected treasurer of the association and also as a member of the board of directors.

The Rev. L. A. Geddes of St. Petersburg was also elected a director, and the Rev. Mr. Chicolin was chosen as delegate to the (Continued on Page Three)

## Lossing Obsequies Held This Afternoon

Funeral services for William Lossing, 69, who died Tuesday evening of injuries received when he was knocked down by a bicyclist, were conducted from the First Christian Church at 2:00 o'clock this afternoon, and the body was to be taken to the funeral home of the deceased in Tallahassee, Fla., for burial. The Rev. Herman W. Farber, pastor of the church, was called home from Fort Lauderdale, where he was attending the state convention of the denomination, to conduct the services.

A coroner's jury, investigating the tragedy, today returned a verdict of "unavoidable accident," thus absolving Tommy Jones, 14, rider of the bicycle, of blame.

## Law Says Nix To Mr. Nix On Move To Free Client

Sheriff J. P. McClelland's office stated today that a negro who said "hunches" on a "hot job" game will be held to the grand jury, upon the unearthing of a statute which makes it unlawful to charge for advance information.

The negro, one George Moultrie, was arrested last Saturday night and held several days on a "hold for investigation" order, while Attorney S. J. Nix threatened to bring habeas corpus proceedings to spring him from jail. The attorney contended that his client had not obtained money on false pretenses as the "hunches" he sold were correct, and that he did not violate the anti-lottery law as he did not sell tickets on the game.

Chief Deputy Sheriff O. R. Feitzinger was shown the law by County Prosecuting Attorney John G. Leonardy II in Section 7308 of the compiled general laws of Florida 1927 and reads as follows: "It shall be unlawful for any person or persons to defraud or attempt to defraud any individual or individuals out of anything of value by assuming to have or be able to obtain any secret, advance or inside information regarding any person, transaction, set or thing, whether such person, transaction or thing exists or not."

The law sets up a penalty for violation of a fine of not more than \$10,000 and a penitentiary sentence of not more than 10 years.

## Old Rifle Left By Army Deserter In 1898 Is Offered To Legion By Engineer Shelley

Easy and scratchy, but still a formidable looking weapon, an old Springfield rifle, the kind used by infantrymen during the Spanish-American war of 1898, has been offered Campbell-Lanning Post of the American Legion in Sanford by W. P. (Bill) Shelley, engineer on the Atlantic Coast Line.

It is a relic with a history, and Mr. Shelley's offer has been accepted for the Post by Lloyd P. Boyd, its commander. The post's next meeting is on Monday night of next week, but formal presentation of the rifle will not be made until the monthly dinner of the former service men's organization on Monday evening, Nov. 18, at which time Mr. Shelley was to appear.

## Four Die When Wintry Gale Hit Northwest

### Pilot Loses Way In Storm, Reported Missing Off Canada Coast

SAN FRANCISCO, Oct. 31.—(AP)—Four deaths were attributed to the cold.

A Northwest airliner flying between Helena, Montana, and Spokane, Washington, lost its way in a snowstorm and made a forced landing at Nelson, British Columbia, with only nominal damage to the plane and no casualties.

Several small boats were missing in British Columbia waters, with their crews unaccounted for. Gale blew themselves out in the Pacific Northwest, but swept across the Canadian provinces of Alberta and Saskatchewan, Manitoba, leaving behind broken telephone and telegraph lines and highways blocked by snow. Prince Rupert, in northern British Columbia, was cut off from train service.

The cold wave is expected to reach the East and down into the South by the end of the week.

## Gangsters Are Ordered In By Miami Police

### All Law Enforcement Agencies In Joint Move To Rid City Of Undesirables

MIAMI, Oct. 31.—(AP)—Miami police officers, aroused by reports that out-of-town racketeers were attempting to "muscle in" on night club profits in Greater Miami today, ordered all known gangsters brought to headquarters. The action came after Acting Police Chief W. J. McCarthy, State Attorney G. A. Worley and County Solicitor Robert R. Taylor joined in promising to keep the gangsters out.

The police order was taken to indicate that no time would be wasted in showing reported racketeers that the city's law enforcement officers meant business. Possible charges against any who might be arrested remained undisclosed.

The action followed apparently well-founded reports yesterday that Greater Miami night club operators had been approached by racketeers and told they would furnish waters and "guards" for the clubs this season.

Following the murder last winter of an alleged operator of a gaming house, some of the most elite of the night clubs were closed, not to reopen for the remainder of the season. The murder was never solved. As another aftermath of the crime, all persons with criminal records were ordered to report at police headquarters.

## Lehmann Put On Teaching Staff Of Trade Bodies

Karl Lehmann, for the last four years secretary of the Seminole County Chamber of Commerce, has been honored with an appointment in August of 1935 to the faculty of the National Institute for Commercial and Trade Organization Executives at Northwestern University, Chicago.

Mr. Lehmann is the first Florida secretary ever to be invited to be on the staff of the National Institute and he has been asked to conduct the period on the subject "Community Hospitality," which deals with community advertising, tourist recreation, welcoming committees, etc., and the whole subject of bringing visitors to a community and keeping them satisfied after they are gone so that they will want to return and bring their friends.

Mr. Lehmann's selection to this position on the faculty of the National Institute is in recognition of his 13 years of service to Chambers of Commerce in central Florida and his acquaintance with community advertising and entertainment plans.

The appointment came from N. Christie Mead, manager of the Merchants' Association of New York City, who is president of the National Institute.

## Mrs. Ha May Smith Dies At Age Of 58

Mrs. Ha May Smith, 58, a resident of Paoli for the last 10 years, died in her home, at Paoli at 3:15 o'clock Wednesday afternoon.

Funeral services will be conducted from the Erickson Funeral Home in Sanford at 2 o'clock Friday afternoon, with the Rev. C. H. Baker of the Gospel Tabernacle officiating. Interment will be in Lake cemetery.

Mrs. Smith was born in Akron, Ohio, Apr. 13, 1877. She is survived by her husband, D. H. Smith; one daughter, Mrs. W. H. Lynch of Sanford; one son, Ralph Smith of Paoli; and a brother, Clarence Hittell of Lake Monroe.

## Ingley Will Direct Memorial Fund Drive

James L. Ingley, executive vice-president of the Sanford Atlantic National Bank, today received notification of his appointment as Seminole County chairman of the Will Rogers Memorial Committee.

The appointment was made by Frank B. Shuts of Miami, state chairman.

T. K. Johnson of Orlando was named chairman for Orange County; F. C. Gessler of DeLand, chairman for Volusia county and Gilbert E. Leach of Leesburg, chairman for Lake county.

The purpose of the drive, Mr. Ingley said, is to acquire money for a "living" memorial to the late humorist. No one in Florida will be asked to give more than one dollar.

## Italy Bows To League, Will Negotiate Peace

### Vociferous Welcome Slated For Former Mayor Walker

YORK, returned home today from almost three years of self imposed exile in Europe. Walker with his wife, the former Betty Compton, comedy star, arrived at Quantico on the liner Manhattan at noon. An advance guard of a flotilla of welcoming craft met the Manhattan shortly after it steamed past Ambrose Light.

Beginning under fire of a sensational political investigation of city affairs Sept. 1, 1932, Walker returns three years later to what promises to be one of the famous welcomes he himself created back in the lush days of big money and speakeasy times.

A flotilla of at least seven boats will meet the Manhattan down the bay, while a contingent of 2000 brewers will be massed at the pier to add to the general welcoming hub-bub.

Two columns of the customs service will carry influential personages to the Manhattan's pier, together with a corps of reporters, photographers and radio broadcasters.

## Offer Made Today By Spokesman For Duce At Geneva Sanctions' Session

### Nov. 15 Deadline Meets With Favor

### Italian Propaganda Causes Britain To Enter New Protest

The League's sanctions' staff of 62 nations convened today to lay down the deadline for imposition of the drastic economic sanctions—the "ban" nothing from Italy boycott—and the prohibition of exporting key products to Italy.

At London high authoritative sources announced that Britain had made new representations to Italy against continuation of attacks upon it in the Italian press. Similar representations were made in regard to alleged anti-British propaganda on the Italian radio. Action was taken yesterday.

It was disclosed, when Sir Eric Drummond, British ambassador to Rome, called on Mussolini. Among delegates to the League early in the forenoon there was the belief that the sanctions deadline would be around Nov. 15. While some, including Anthony Eden of England, wanted the deadline earlier, the two weeks delay gives Duce two weeks to consider possible consequences of continuing to drive into the face of the League. Then the League published the latest figures of nations accepting economic sanctions.

In addition to this the United States has reiterated its neutrality policy with its moral support to the League. Some Washington quarters thought it likely the Administration might publish the names of firms violating the spirit if not the letter, of the neutrality policy.

(Before he left Paris for Geneva, Premier Laval of France said "peace will be made.")

## Hallow' en O.K. If Youngsters Don't Do Any Damage

### City Police Expect "Certain Amount" Of Harmless Fun

The average small boy is doubtless aware of the fact, but possibly some of them elders may have forgotten that tonight is Halloween, when ghost and witch tales can be expected to inject a little lively interest in otherwise commonplace affairs. These aids to youngsters seeking entertainment never show up until after dark, but then they are liable to put strange notions into the heads of youthful revellers.

"Harmless fun will be O.K.," said Chief Roy Williams of the police department today, but extra men will be added to the force for the night to prevent any damage being done. "We want the youngsters to have a good time, to have a lot of innocent fun, and we will actually help them to have it if they will let us," said the chief. "But we want it thoroughly understood that there is to be no property damage."

Chief Williams and Sheriff J. P. McClelland both said they anticipated no trouble, and their had never been any property destruction in Sanford on Halloween.

Bible Verse For Today

WHAT TO SEEK: Seek the Lord, and his strength; seek his face evermore.—Psalms 105:4.

It seems that everyone in town has plenty of old coins, though some of us haven't very many new ones.

American bakers tell Secretary Wallace they can't help this rise in bread. They should try leaving the yeast out.

Gen. Johnson says that Felix Frankfurter occupies the highest position among the President's advisors. So the accounts for the mounting cost of stuage.

News of the War in a Nutshell: Emperor Haile Selassie sends his imperial tent to the battle zone. There's nothing like sending your tent if you can't go yourself.

Sally Rand gets her picture printed in shorts. Sally must feel terribly dressed up in shorts.—Times Union. Extremely bad taste for her to be overdressed in any such manner.

Our "Pick the Winner" contest has got people watching the sport page who never saw a football game in their lives. And strangely enough, they are having as much luck winning theater tickets, as the seasoned fans.

Do you know the "National Anthem" of the Townsend Pension Clubs? If not, you're no good Towns-entite, no matter how much you may want that pension. Here it goes, to the tune of a well known hymn:

"Unward Pension soldiers, Marching as to war, With the Plan of Townsend Going on before. This great pension leader P's depression go. Join him in the battle; Help to fight the foe!"

Following the repeal of the sales tax in New Jersey, the governor of Mississippi has asked the Legislature of that state to repeal the 2 percent retail sales tax in that state. It will be recalled that Mississippi was one of the first states in the Union, if not the first, to enact a sales tax, and has often been pointed to with pride by politicians who wanted to show what a fine thing the sales tax is. Now, however, there appears likelihood that it will be abolished.

A survey recently conducted among manufacturing establishments, both large and small, by the National Association of Manufacturers, resulted in the startling discovery that "virtually no sentiment at all exists for any new attempt by the federal government to regulate business and industry such as was contemplated under the NEA." But in spite of this fact, which seems to be the sentiment of business men everywhere, bureaucrats in Washington are already devising ways and means of enacting such legislation as soon as Congress meets.

Legality of barriers set up by Florida to keep out destitute persons this winter is questioned by the Sanford Herald. The state is attempting to enforce immigration restrictions between states, just as taxes on the products of other states have been levied elsewhere, constituting practically a tariff wall within the state. In principle, the state has no right to do this, but it has no practical possibility of enforcing it. A special impossibility of Florida is that for all the talk of immigration restrictions, no one has ever been turned away from the state.

Dr. Tigert's Footballers

Sanford Rotarians who journeyed to Orlando last night heard Dr. John J. Tigert, president of the University of Florida, describe the real purpose of football in a manner which may have come as a distinct shock to most of them. The game of football is now being played at the University, it seems, not for the sole purpose of magnifying gate receipts into enormous proportions, not to keep loyal fans from losing their bets, not to put the name of Florida in the headlines of the newspapers from one end of the country to the other, but rather to develop finer men out of those young students who are fortunate enough to be able to play football.

The Florida football team, apparently, has not been going so well this season. . . from the standpoint of the fans who like to bet on the outcome of the games and the size of the scores. It lost a game to Tulane, and then lost another game to Mississippi. And so it seems that agitation has already been commenced to the effect that something has got to be done. The University of Florida should get another coach! The University of Florida should "go out after" better football material! The University of Florida should win its football games if it has to arm everyone of its players with a blackjack before they go on the field!

That is what some of the fans are saying. And Dr. Tigert certainly got them told last night. He made it pretty plain that the important thing in football is not who wins the game but how it is played. And we have an idea that a good many of his listeners last night had decidedly different ideas about it, but Dr. Tigert is an old football player himself, was once a star on the mythical "All Southern Eleven," and while he probably can't hit a line as hard as he once could, still in his fighting mood last night we doubt if anyone would care to dispute too strenuously the merits of his position.

Personally, it gives us a tremendous amount of satisfaction to find the President of our state university battling so vigorously for the players, against the fans who would make a bunch of professional "brelings out of them. As Dr. Tigert so pointedly remarked last night, he knows how to go out and get a winning team. He could pick up a few boiler-makers in New York's east side, a couple of lumberjacks in the Maine woods, a backfield of longshoremen in San Francisco, a few Chicago gunmen, pay them their price, and whip any team in the South, possibly in the whole country.

But what then, becomes of the legitimate student at Florida who goes there primarily to learn something and likes to find his much deserved recreation on the football field? What chance has he got of making the team if he has to compete with men—professional footballers—several years older and recruited from among the toughest thugs in the country? And how are other colleges, where legitimate students are still allowed to play football, going to feel about playing Florida when they are expected to battle men who are in there solely for financial gain?

And if football is going to be allowed to degenerate into sordid commercialism by every college in the country, where every coach simply goes out and buys his players and the best players go to the highest bidder, what chance would a state university like Florida have anyway of turning out a winning team? Florida's university is supported by taxpayers. Some universities are supported by endowment funds contributed by the country's richest men, and have untold resources on which they could draw, if they so desired, to organize a team with which Florida couldn't hope to compete.

If the playing is confined to the students, every college will have somewhere near an equal chance of winning, but if professionalism is allowed to grow, the richest colleges are sure to get all the best players, the tax-supported universities will not fair anywhere near so well, and the poorest colleges will have no chance at all. But we realize that most fans do not carry their thinking this far. They figure that Florida could hire a few players without other colleges knowing anything about it, and so by playing professionals against amateurs pile up a bigger score.

But we like Dr. Tigert's stand. He's got the right attitude. And we hope all the soreheads in the state can't make him change.

A United Florida

The Ocala Star, than whom there is no whomer in its almost passionate support of the cross-state canal, views with alarm the present agitation for a division of the state, seeing in it a sort of backhanded crack at Mr. Knott's prize baby. We hasten to assure the Star, however, that such is not the intention, at least of Seminole County, and that we personally see the state division propaganda as more of a campaign for Congress than a fight on the canal.

"The malcontents who are agitating state division as an outgrowth of the unsuccessful fight to stop construction on the canal," the Star says, "will be waaling their time and only succeed in fanning into new life the feeling of sectional jealousy that exists between south and north and northwest Florida."

"For economic, sentimental and political reasons Florida should and will remain one state. Sectional jealousy and political animosity have retarded Florida's growth and will continue to retard it as long as the feeling that promotes this state division idea exists in south Florida."

"Floridians who love their state and want to see it take its rightful place in the sisterhood of states" (and Florida is forging to the front steadily) "could perform a better service by promoting a campaign to unite Florida rather than a hopeless one to divide it."

"The present campaign is being launched by the politicians for political ends. Putting other considerations aside it is folly to think of creating another state to make a place for another bunch of politicians in public office at the public expense. It is doubtful that any considerable number of south Florida people are in favor of state division. And even if they were they couldn't outvote central, north and northwest Florida, which would be necessary to even make a beginning toward state division," the Star concludes.

We quite agree with the Ocala Star that no considerable number of South Florida residents are in favor of state division, and as far as Seminole County is concerned, while most of us are opposed to the canal, we feel reasonably sure that most of us are opposed to state division. A Florida divided against itself will fall about as quickly as a house will.

JUST BETWEEN FRIENDS

By GEORGE BARNER

Two interesting anniversaries are celebrated in Central Florida. The tenth anniversary of the foundation of Rev. John Durham Wing as Bishop of Southern Florida, and the semi-centennial of Rollins College. The achievements of Bishop Wing in his diocese are fully proportionate to his opportunities and to his great ability. Central Florida is peculiarly blessed in the character, the ability and the personality of its clergy, and Bishop Wing is outstanding. For persons who may approve the "collective" policies of Rollins College, there is every reason for rejoicing. It is progressive and "progressing" along its lines and in Dr. Holt and his faculty has an able group of leaders and workers in that school of thought. With Bishop Wing and Rollins College as pillars, all Florida is to be felicitated.

Comes to me the news of the death of my dear old friend Joseph Levering of Baltimore, over 90 years of age. To most folks in Central Florida this event means absolutely nothing, and yet I venture to guess that an appreciable number still live who recall him as a presidential candidate and, possibly, voted for him. Anyhow, there were 654 Levering voters in Florida in the election in 1896. Four major tickets were in the field that year and the total Florida vote was divided in this wise: Bryan, Democratic and People's or Populist parties, 32,700; Palmer, National or Gold Democrat, 1,700; McKinley, Republican, 11,200; Levering, Prohibition, 654. Contrary to my belief before investigating, I find that the Palmer vote was meager throughout the country, and it is for this reason, I learn, that the genuine Democratic now propose to work and vote directly and positively against Roosevelt, rather than indirectly through a genuine Democratic ticket. Mr. Levering was a militant Christian and a fundamental Baptist. His faith in the return of bread cast on the waters was unbounded. "About a year ago," he once told me, "I was notified that some securities which I long had considered worthless, and almost had forgotten, had just become of substantial value." Mr. Levering made his contribution without thought of any reward; but the return of the bread with butter and jam on it surprised him not in the slightest.

One is amazed by the spread of the pacifist spirit. A king snake and a rattler cast into a pit in Orlando, to do battle to the death, shake hands, instead, and thousand people. United States Senator Duncan U. Fletcher presided and delivered an inspiring address. The South Central District of the Florida C. E. Union will meet in convention at Kissimmee Nov. 10 and Nov. 11. It is expected to make this the banner convention for attendance, especially for the second day, as Karl Lehmann, Southern States Secretary of Christian Endeavor Work will be the chief speaker on that day. Mrs. Ender Curtiss of Geneva was rather provoked last Sunday as she was expecting company from St. Augustine and the storm prevented them from coming. C. C. Worthington of Tampa was here last week looking after his property and made a short visit at the Ellsworth home. Harry Ward has returned home after spending the past month at Decatur, Ind. where the Ward Fence Co. "let" its plant. Mr. Ward was accompanied by his sister, Mrs. Rose Adington, of Indianapolis. The dredge boat is still doing great work on the bulkheading of the lakefront and the work of filling in preceding very satisfactorily. The boat is throwing dirt at a remarkable rate and the city officials and the contractors are well pleased with the results. Among the many charming affairs of the week was the annual meeting of the "Book Lovers' Club" with Mrs. Fred T. Williams as "hostess" yesterday afternoon. Mrs. Williams who is very popular with the club, was in attendance for the eleventh year. Those present were Mrs. W. W. Albrecht, Mrs. Henry McLaughlin, Mrs. E. C. Bennett, Mrs. George Fox, Mrs. John T. Brady, Mrs. E. J. Bell, Mrs. Betty Ward and house guest, Mrs. Rose Adington.

"Gift Of God" Baby Is Held As Evidence

ST. LOUIS, Oct. 21. — (AP) — While Mrs. Nellie Tipton Muench was led screaming from the courtroom, Special Commissioner Rugh H. Lambaugh of the Court of Appeals yesterday ordered her "Gift of God" baby, whose parentage is contested, held as evidence, in a hospital. The baby, claimed both by Mrs. Muench and by Anna Ware, an unwed servant girl, made its first appearance in Court today.

Siam's King Delays His Return To Throne. BANGKOK, Siam, Oct. 21. — (AP) — The return of ten-year-old King Ananda from Switzerland has been postponed, it was announced officially, following an agreement between the Court of Legency and the Council of Siam. Ananda's return, originally expected next month, would be "inconvenient" now, the announcement stated, and probably will take place some time next year. Ananda has been attending school in Switzerland.

## Old Rifle Left By Deserter Will Be Given Legion

Just what an office building burned in the early days.

It has been an object of interest on the railroad since Sept. 1886, and pulled its way down to Sanford, then a remote village, with only a winding road winding in and out around the trees where First Street is today a thriving main street of the present Atlantic Coast Line system in those days was known as the Jacksonville-Tampa & Key West railroad.

Some of the rough riders in Theodore Roosevelt's famous brigade, that made the thrilling charge up San Juan Hill in the part of his work transported to the port of embarkation on troops pulled by Engineer Shelby, and he saw much of the combat. "Teddy" he was in Tampa the day T. R. started up and down the harbor front because he could not embark his troops even with the full full of ships, "went over to the house" of the powers that be, he was Washington and obtained the necessary order for embarking his regiment.

Troops of the old 69th New York (which 19 years later formed the nucleus of the 16th or Rainbow division in the World War) were headed by Engineer Shelby's name as well, the 2nd Illinois troops made up largely of railroad men from Chicago. These latter took possession of the engine, ransacking all over the engine and cab. Mr. Shelby recalls.

Because of his railroad connection Mr. Shelby could not enter in the First Florida Infantry, but two of his brothers were in the regiment. They are J. Andrew Shelby, postmaster in Palatka, and E. Carlton Shelby, also a resident of that city.

In giving the Spanish-American War rifle to the Legion here Mr. Shelby is parting with only one of a number of valued articles in a collection of interesting things, most of which have been handed down to him from several generations back. He has an old tool chest his grandfather brought over from England, and in the chest is the tool that ripped the buttons from the coat built in Palatka to house a ammunition for the Spanish-American War between the Florida and Cuba. He also has the iron knife that original is believed to be the set has been used during the war of 1861-65. These culinary utensils are bone handled and fold up like jackknives. Mr. Shelby's father served in General J. J. Dickinson's cavalry. He was the first sheriff of Putnam county, and held that office for 28 years.

Mr. Shelby was a year ago presented with a diamond-studded pin by the Atlantic Coast Line officials commemorating his 50 years of service with the railroad company, but he said he has actually been with the A. C. L. for 44 years. However, the records of his first three years' service as an apprentice in the shops were

which he attended as an alternate delegate from the Sanford Club, in place of Secretary G. M. Douglass who was prevented by illness from going to the national meeting. Florida sent 56 delegates to the convention, there being a total of 6,591 accredited representatives from various states, Mr. Logan reported.

Arthur E. Kirchhoff, brother of W. E. Kirchhoff, Jr., owner of the Mayfair Hotel, has arrived from his home in Pembroke, N. Y., to spend the winter in Sanford. He was accompanied by their mother, Mrs. Elise Kirchhoff. Arthur Kirchhoff said today he expects his brother will return tomorrow. He praised the Florida climate and announced that he might decide to make Sanford his permanent home.

A fish survey is to be conducted soon by the conservation department of the state, in cooperation with WPA and the bureau of fisheries. C. L. Vincent, wholesale fish dealer in Sanford, was advised today. The assistance of Mr. Vincent and others engaged in the fish business was asked by the officials.

W. E. Shelley, No. 1 engineer on the Atlantic Coast Line, has accepted the invitation to deliver the main address at a convention in Miami on Nov. 7 of employees of the Florida East Coast railroad. He will tell of the work of engineers' organizations and the benefits railroad employees through the nation have received as a result of Brotherhood activities. The attendance of some 1,500 railroad men is expected at the convention.

**TOWNSEND CLUB TO MEET**

J. A. Logan, delegate from the Sanford Townsend Club to the national convention in Chicago recently, will give a full report of the Convention at the regular meeting of the Sanford Club Friday evening at 7:30 o'clock in the Arcade Building. Mr. Logan served as alternate in place of Secretary G. M. Douglass who was unable to go because of illness.

## Next Year's Budget For Relief May Be '36 Campaign Issue

WASHINGTON, Oct. 31. —(AP)—President Roosevelt's decision on how much to spend for relief next year may be the talking point in the 1936 campaign. That decision is the most important now facing him in preparation of next year's budget.

Administration officials already have indicated that expenditures for normal government activities will be about the same as this year's. In his recent budget summary the President said "the prevailing rate of recovery points to the speedy decline of federal expenditures for emergency activities." He said he was seeking to decrease "the spread between income and outgo."

general convocation. On the committee on church welfare the Rev. Walter Metcalf of Tampa, the Rev. A. M. Brodie of Mt. Dora, and the Rev. Mr. Chelone were appointed, and the Rev. Mr. Root and Dr. Abbe of Winter Park were appointed as a committee on ministerial standing. The Rev. Walter Metcalf was moderator of the convocation.

The Rev. Harry J. Bennett was the main speaker at the afternoon session yesterday, telling of his work as a missionary in Japan, and Dr. Warren Devision of New York City delivered the principal address at the evening service, following the fellowship supper. Dr. Devision spoke on "Christian Stewardship," which, he said, is something many people know nothing about. He explained it as follows:

"The matter of giving is not a matter of giving to the church, whether our church needs money or not, a personal worship, no one can worship for you; giving is not a matter of paying a debt, but is giving to the Lord."

Dr. E. C. Gillette, of Jacksonville, state superintendent of Congregational Churches for the last 10 years, gave an encouraging report of the work the denomination is doing in Florida. "The Congregational Church is not a 'closed' church," he said. "We welcome all who are sincere, but the church is really for the local community."

## Heroes Of The Champ Back In Town Again

The circus has come to town! Leading the big parade are Wallace Beery and Jackie Cooper, together again in the Metro-Goldwyn-Mayer picture of circus life, "O'Shaughnessy's Boy," which opened yesterday at the Milane Theater.

For their brilliant performances in "The Champ" and "Treasure Island," Wally and Jackie have been rewarded with their greatest triumph under the big top—Wally as "Windy," famous animal trainer, and Jackie, as his son.

Directed by Richard Boleslawski, whose star is one of the fastest rising in Hollywood, with such recent hits to his credit as "Clive of India" and "Les Miserables," it is packed with thrills, laughs and drama.

As "Windy," happy-go-lucky, swaggering animal trainer, who faced a ferocious tiger and frantic elephant for the love of his son, "Stubby," Beery has one of the finest roles of his long and illustrious screen career.

Jackie, as his son, will be the envy of every boy who has dreamed of traveling with the circus.

The best forward passes I have ever seen.

"A new kind of pass was used that Mississippi is better than Florida. If I might say so, I give credit to the boys who made their ball game."

At length President Tipton reviewed the football situation at Florida, 1935, and also discussed the plan of expansion at the University of Florida for the coming year.

"I believe if a boy is a bona fide student and needs financial help he should not be discriminated against because of athletics. We ought to pay like any other citizen and NOT enjoy 'special' rates. I favor an immediate attempt at adjustment of our bonded debt. I favor more rigid tax collections from out-of-town firms. —and I'll fight for these things with all the power and enthusiasm I can muster."

"A new kind of pass was used that Mississippi is better than Florida. If I might say so, I give credit to the boys who made their ball game."

At length President Tipton reviewed the football situation at Florida, 1935, and also discussed the plan of expansion at the University of Florida for the coming year.

"I believe if a boy is a bona fide student and needs financial help he should not be discriminated against because of athletics. We ought to pay like any other citizen and NOT enjoy 'special' rates. I favor an immediate attempt at adjustment of our bonded debt. I favor more rigid tax collections from out-of-town firms. —and I'll fight for these things with all the power and enthusiasm I can muster."

### Much Depends On Williams Boys Of Celery Fed Squad

#### Bob And 'King Kong' Occupy Important Positions At Guard

Much depends on Bob ("Bill") Williams and his younger brother, Theodore ("King Kong") Williams, who hold down the important guard positions on Seminole High's football squad, when the Celery Feds go against the Ocala Wildcats in Ocala next Friday evening. But they have always been dependable players, fill their positions as well as any player in the Northeastern Conference, and those who have watched their gridiron performances agree that they are really there to fight for Coach and the School.

"King Kong" was selected as all-conference guard last season, and from all appearances he will be selected again this year. He was also awarded the Judge Shanon Trophy for the most valuable man in the line last season. He tips the scales at 175 pounds, and that is 175 pounds of power on both offense and defense.

Last season the Ocala team was laying for this "King Kong" and next Friday it will be out there again to get him regardless of his weight as he is one of the big obstacles the opposing team must pass in order to gain a victory over the traveling Celery Feds.

Bob or ("Bill") Williams will be in that game and it is believed he will spill plenty of the Ocala Wildcats before it may become necessary to take him out because of a knee injury received in DeLand last Friday. Bob weighs 170 and, like "King Kong", is just that much power in his game. Bob is one of the best defense guards Seminole High has had in the last few years.

Bob is a senior and one of the three veterans on the team. "King Kong" and Elwin Niquites at center are the other two veterans and "King Kong" is a junior this year and will be out there next season spilling the opposing team all over the field as he did last fall and during the present season.

If Bob's knee gives him too much trouble next Friday in Ocala Jack Wilkerson or Bill Wright, two junior guards weighing 165 each, may see some of the game from the playing field. Both of these boys are ready to go in and prove their worth. They have been in a few minutes this season and showed up well. Jack has only one hand, but is in no handicap to him as he is there fighting for a position as a regular guard next season.

Brady Odham, one of the heaviest men on the team, is out for a guard position. He was used as a utility man all last season and it is hoped that he will see some service this season or next. He is a junior and tops the scales at 185.

Jimmie McElhannon, another junior out for the guard position, is handicapped by his weight, which is only 140 pounds, but if he can put on some weight by next season he probably will see lots of service on the first string.

### Can't Win Unless We Practice, Says High School Coach

Wednesday afternoon's scrimmage practice on the High School field did not leave Coach McElhannon in a happy frame of mind. He said he was frankly discouraged and that "Ocala will beat us by about 40 points if the squad doesn't come out for practice." Only a few of the first string men turned out yesterday, and not many others, he said. The Celery Feds play Ocala in Ocala on Friday night of this week, and Coach McElhannon said after yesterday's disappointing workout that he expects to start the men who turn out for practice. "Members of the squad do not need to think they are going to play in every game if they won't come out for practice," the coach declared.

### Landis Doubts Constitutionality Of All "Narrow-Range" Population Bills

TALLAHASSEE, Oct. 31.—(AP)—Attorney-General Cary D. Landis today said he believed all narrow-range population bills passed by the Legislature would be held unconstitutional if attacked in the courts.

He referred particularly, he said, to bills passed as laws of general nature but limited in specific application to "all counties having population between" two given figures which are such as they make the law patently effective in only one county.

The opinion was given as the attorney general advised W. V. Knott, state treasurer, that under existing authority the state board of administration could credit to the St. Johns county commission half of that county's share of the gasoline tax allocated to bond retirements.

"It is my opinion," he said, "that the said act of 1925 (giving the county commission authority to apply for the gasoline tax money) is probably unconstitutional and would be so held in the event the matter were presented to the courts. However, the board of administration is protected in complying therewith until such invalidity is determined by a court of competent jurisdiction."

In past legislative sessions, many bills—not advertised for passage as local laws—have been enacted by the Legislature under the designation of "general bills of local application." In these, the sponsor would figure out a narrow range of population figures covering the population only of his own county, and insert in the law a clause that it would apply only in the counties of the population given.

The Supreme Court in recent months has held several such laws to be unconstitutional.

### 'United Colonies' Was Once U. S. A. Name, Old Money Proves It

Originally the United States was known as the "United Colonies," as shown by currency in the possession of F. D. Scott. The bill was printed by Hall & Sellers in Philadelphia in 1775 and bears this inscription:

"The United Colonies Four Dollars. This bill entitles the bearer to receive four Spanish Milled Dollars, or the value thereof, in gold or silver, according to a resolution of Congress passed at Philadelphia, Nov. 29, 1775."

Other old American coins have been brought to light by F. T. Meriwether, the oldest of these being a large copper cent minted in 1807. He also has a 25-cent piece (called a "Quar. Dol.") on the coin, minted in 1857, and two Indian head pennies, one dated in 1854 and the other in 1865.

Not American money, but still interesting nevertheless, is a Roman coin evidently minted in the days of the Caesars, which is in the possession of Herbert Messer. It was given to him by a friend who served on the Italo-African front during the World War and from whom it was acquired when the friend was discharged a month for service.

### Young McRory Wins High Test Score At Military Academy

MARION, Ala., Oct. 31.—The seventh highest score made on the difficult English Placement Test taken by 100 members of the Freshman College Class this fall at Marion Institute was made by Cadet George Whitfield McRory, a graduate of Seminole County High School of Sanford, Fla. McRory's score was 205, out of a possible 300.

Cadet McRory is the son of Captain and Mrs. G. W. McRory, 1118 Magnolia Avenue, Sanford, and is a student in the Army department of the Institute taking preparatory to entering the United States Military Academy at West Point, New York, and in a student body of unusually high ranking holds an outstanding position.

The ten highest scores in the test, exclusive of McRory's, were made by Cadet Hunter Taylor, Jackson, Tenn., 218; Cadet Virgil Hancock, Jr., Tallahassee, Fla., 212; Cadet Joseph A. Demeter, Tallahassee, Fla., 211; Cadet Peter W. Beers, Laurel, Miss., 210; Cadet M. Lemley, Hope, Ark., 208; Cadet Frank Harvey Miller, Jr., Montgomery, Ala., 207; Cadet Clarence M. Grace, Huntsville, Ala., 205; Cadet Paul Dickson, Jr., Raeford, N. C., 202; and Cadet Carl H. Merrill, Heflin, Ala.

### Army Recruits Must Meet Eight "Musts"

Uncle Sam's Army wants recruits for service in the Panama Canal Zone, but applicants for enlistment are required to come up to certain qualifications. Eight "musts" are listed as follows:

Every applicant must be between the ages of 18 and 25 years, be at least 5 feet 4 inches high, weigh not less than 115 pounds, be sound in health with no organic disease, have sufficient teeth to properly perform the function of mastication, be of good moral character as attested to by three reputable citizens, be a citizen of the United States, have no dependents and be able to pass the intelligence test.

cents per box, according to the weekly market review issued by the Florida Citrus Exchange. Both oranges and grapefruit sales were heavier, 48 cars of oranges as against only 8 cars the previous week, 11 cars more of grapefruit, making 203 cars to the auctions.

Total sales of oranges and grapefruit in the auction markets were 259 cars, compared with an even 200 cars for the week ending Oct. 19. Total shipments out of the state by rail and boat last week were 448 cars compared to 376 cars the week before.

### Rollins Coach Is Far From Pleased With His Eleven

#### Says He Feels That Tampa Will Win On Monday In Orlando

VINTER PARK, Oct. 31.—With a pair of scrimmage sessions with the freshmen eleven behind him, the "rats" using Tampa plays, Coach Jack McDowell is still far from pleased with his Rollins College football team. Meeting Tampa University in Orlando Monday, Nov. 4, the Tars will have to show almost miraculous improvement before they can be regarded as a threat to the invading crew.

George Miller has been held out of the rough work to give his ankle a chance to be in tip-top shape for the Tampa fracas. Miller, the key to the Tar offense, suffered a painful ankle injury last week-end and the bruised pedal is taking time to round into shape.

"Bo" Young, an Orlando boy, is being given a chance at the regular fullback berth. Carmoly, who has been starting at the fullback position, was moved over and Young was put in his place. With Don Murray's bruised rib responding to medical treatment, the backfield will more than likely lineup with Murray at quarter, Howe and Miller at halfbacks, and Young, fullback.

R. Brown, reserve guard of last year who reported for practice last, stands an excellent chance of being in the starting lineup when the Tars clash with Tampa. The rugged Nebraska has shown some fine blocking and defensive ability the short time he has been out. With Argyris "stomping and Little suffering from an injured knee, it is probable Brown will earn himself a starting place before the whistle blows Monday night.

Danny Winant, veteran center, will more than likely get the cover Carroll Goodwin for the pivot job. In the scrimmage against Tampa plays, Winant had some success stopping the plays over center, while Goodwin was drawn out of position often.

Ellen Baker, sophomore, continues to show improvement at a tackle. Baker looks like the Arthurd advanced sophomore in the line. Mobby, a guard converted from a back last season, has also been showing steady improvement. Powell and Levy are two dependable men at the end positions.

## County Ready Any Time For PWA Projects

### Commission Notifies Engineer Promised Contributions Will Be Made As Needed

### Totals Come To Tremendous Sum

### Projects Scattered Throughout County Will Employ Many

Seminole County is "ready and willing" to proceed at any time with the large number of PWA projects scheduled for this County, the Board of County Commissioners yesterday advised the Works Progress Administration. The decision was made at a special meeting of the Commission, and of the Board of County Commissioners, in the presence of John Mersch, District No. 2, WPA engineer in charge of the projects in Seminole County.

The Board of County Commissioners of Seminole County desire to advise you that they are ready and willing to proceed at any time with the large number of PWA projects scheduled for this County, the Board of County Commissioners yesterday advised the Works Progress Administration. The decision was made at a special meeting of the Commission, and of the Board of County Commissioners, in the presence of John Mersch, District No. 2, WPA engineer in charge of the projects in Seminole County.

Project	Amount
Trunkville Road	\$2,111.00
Longwood	1,000.00
Lake Mary Rd.	1,000.00
Elm Avenue	1,000.00
Forest City	1,000.00

Sanford Avenue	1,000.00
Monroe Road	1,000.00
Orlando Road	1,000.00
Curryville Road	1,000.00

There are a number of other projects in this County. Engineer J. Mersch, who from whom the above figures have been obtained, has not on file the exact amounts of these other projects. Included in these other projects are the Army, in which the County joins with the County in making contributions; the Nelson Road, State Avenue, Goldenrod Road and Georgia Avenue. Mr. Mersch calls attention to the fact that much of the contribution promised by the County to various projects will be material and labor and cash.

## Hofmann Believes That Hard Fighting Will Win Bond Settlement For Sanford

Stating that he does not believe "we can damage the reputation of Sanford by fighting," because that reputation was "ruined" when city bonds were defaulted in 1929, W. D. Hofmann, candidate for the City Commission, today made the declaration that "if we fight hard enough, we can get a satisfactory settlement" of the bonded indebtedness. Mr. Hofmann's prediction statement follows:

## Hofmann Believes That Hard Fighting Will Win Bond Settlement For Sanford

Stating that he does not believe "we can damage the reputation of Sanford by fighting," because that reputation was "ruined" when city bonds were defaulted in 1929, W. D. Hofmann, candidate for the City Commission, today made the declaration that "if we fight hard enough, we can get a satisfactory settlement" of the bonded indebtedness. Mr. Hofmann's prediction statement follows:

"Ever since entering the race for City Commissioner I have been asked for my views regarding the bonded indebtedness of our City, and if all the figures I have are correct, as they seem to be, I believe that if we fight hard enough, we can get a satisfactory settlement. We started that once but for some reason quit for several years now we've been met as
