HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Married Readers

N.C., Sept. 3.—Two distinct earthquake shocks were experienced in Washington at a late hour Sunday night. The shocks were several minutes apart and each was of considerable duration. Houses were severely shaken but so far as can be learned no damage was done. The people for a time were panic stricken. Reports from nearby points today indicated that the shocks were general in this immediate section.

The sister dreadnoughts Florida and Utah, the mightiest warships in the American navy, will be in fighting trim by November 15, according to the calculations of the naval expert.

New York is now claiming to be the largest city in the world. The estimate of the health department shows that its administrative boroughs on January 1, last, had a population of 4,983,888. A census just completed shows that the administrative county and city of London has a population of 4,522,628. If London holds her present place as first city of the world she will have to include the outlying metropolitan police districts, which will increase her population to 7,500,000.

Sept. 4.—William A. Larned, of Summit, N. J., is national lawn tennis champion for another year. This resulted by Larned's decisive victory over Maurice E. McLoughlin, of San Francisco, the young player who last Saturday won the right to challenge the champion by defeating former Champion Beals C. Wright of Boston, in the final round of the all-comers' tournament.

It is said that the United States government has agreed to sell to Turkey four of our obsolete warships, but four that have made history for us and for which the nation feels a great sentimental attachment. They are the New York, which was Sampson's flagship in the Spanish war; the Brooklyn, that was Schley's flagship at Santiago; the Olympia, Dewey's flagship at Manila Bay, and the

Raleigh, which was with Dewey's fleet on that fateful first of May.

Mr. Taft's promises and pledges in regard to the tariff will hereafter be received by the country with a good deal of allowance, because the people know what he will do by what he has done.

The temperance people are much exercised over the question as to whether or not, in his investigations into the true inwardness of the cocktail cherry, Dr. Wiley has to drink all the cocktails to get to the cherries.

Scores of persons were injured in a wreck on the Long Island railroad at Rockaway Beach Tuesday morning. A panic among the passengers followed upon the wreck and many were hurt in the mad rush to get out of the cars.

The Beattie case is expected to go to the jury tomorrow and the world awaits their decision. Meantime Beulah Binford and Paul Beattie will be released and both expect to go on the stage.

United States Senator Joseph W. Bailey today confirmed his announcement of last night that he would not be a candidate for re-election to the United States senate. His term expires March 3, 1913.

Because he believes that under the present conditions it is impossible for negroes to prosper in southern Oklahoma since the recent race riots in that section, Dovey Costner, a negro farmer of the bet-class, has announced that he will head a band of fifty negroes in an expedition to colonize in Liberia.

A Democratic primary election was held throughout Virginia yesterday for the nomination of two United States Senators, members of the legislature and county officials. The campaign has been one of the quietest that the Old Dominion has seen in years. Even the senatorial contests have failed to arouse the usual amount of interest and enthusiasm, although the interest has increased to a noticeable extent during the closing days of the campaign.

Organized New Church

EDITOR SANFORD HERALD:
Brother J. S. Thrasher has been preaching in the Upsala neighborhood, and we are all pleased with his preaching. The Cumberland Presbyterians kindly let us have their house and we have organized a Missionary Baptist church, and held services every night this week. There are several to be baptized next Sunday at 3 p. m. in Crystal Lake. Brother Thrasher is a sound gospel preacher, and gets next to the sinner. All members come out.

Rev. J. F. McKinnon Has Resigned

Rev. J. F. McKinnon, who was recently appointed Superintendent of Public Instruction for this county to succeed the late Maj. W. B. Lynch, has resigned as pastor of the Presbyterian church of Sanford and the members of that church are now on the lookout for a successor to him. Rev. McKinnon is very much loved by the congregation he leaves and it was with much reluctance that he was given up. It was reported that he would move to this city in order that he could be more convenient to his office, but we cannot vouch for the truthfulness of the report. We hope, however, that he will do so. Orlando wants all the good citizens she can get, and certainly this man of God is in that category.—Reporter-Star.

Card of Thanks

We desire to express our sincere thanks to the neighbors and friends, who so generously and cheerfully came to our assistance in our recent disaster.

THE SANFORD HERALD

IN SANFORD—Life is Worth Living

Number 5

SANFORD, FLORIDA, FRIDAY, SEPTEMBER 15, 1911

Volume IV

ALL AROUND FLORIDA

The General News of The Land of Flowers.

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

The Florida Homeland Co., a colonization scheme which succeeded in settling 150 families (500 or 600 people in all) on land at a new place known as Celery City, near Maytown in Volusia county, is having troubles of its own, and the company seems to have met with dire misfortune, for now The Homeland Co., its officers and all the settlers who bought lands from them, are parties to a suit in the circuit court at Gainesville, Fla., the property, Hodges, O'Hara & Russell. It is hoped that the latter company will be able to deed the lands back to the poor deluded purchasers as soon as the foreclosure suits are settled.—Florida Star.

Volusia county boys are much interested in the corn contests that have been inaugurated by the Farmers' Club of Lakeland and it seems that there will be a number of contestants when the entries are all in. The prize offered for the best crop of corn produced on one acre of land by a young man under 21 years of age is \$100 and other prizes are offered for the next best, third and fourth, and so on in order of merit to sixth.

A series of lectures has been arranged in Gadsden county for the farmers' cooperative demonstration department to be delivered in Quincy and Greensboro this month. Speakers will be present from the agricultural college at Gainesville, and the work will no doubt be interesting.

Daytona is expecting to have a fine new passenger station before many months have passed away, although there is some delay in getting started. The new station, according to the Journal, will be of brick or stone and have a train shed extending 1,200 feet.

Fort Pierce is looking towards better things and making a bid for substantial and considerable progress. At the last meeting of the city council a communication was read from the mayor in which the needs of Fort Pierce were set forth, and it was shown that by the issuance of bonds to the value of about \$75,000 the place could probably have installed and put in operation a waterworks system, sewerage system and electric light plant.

One of the largest land deals made in Hernando county this year was that made last Monday between Capt. W. J. Hillman of Live Oak and the Weeks Brothers, of Enville, this county. Capt. Hillman sold to them 12,000 acres of Hernando county lands, the consideration being \$144,000.

Hastings will plant every available acre to spring potatoes. This means that with the land cleared since last season that there will about 3,500 acres planted in Hastings proper, and nearly 6,000 acres in the section. Growers are making preparations to plant second crop of potatoes extensively and if the weather permits the acreage will be the largest in several years.—Hastings News.

The automobile license tax law, passed at the last session of the legislature is unconstitutional and owners of autos in Florida do not pay a license tax to the state. Such is the ruling made by Judge W. S. Bullock of the Fifth judicial circuit at Ocala in the case of John H. Spencer, the well known automobile dealer, who brought a test case in the circuit court to determine the constitutionality of the act. He was represented by H. M. Hampton, while the state was represented by State Attorney Edwin W. Davis.

St. Cloud has a splendid Women's Club and they believe in doing something. The town has been divided into sections and a committee appointed in each section for work.

M. W. Lovell For Clerk.
In this issue appears the announcement of M. W. Lovell for City Clerk and Assessor. Mr. Lovell has held this position for one year, and given satisfaction in every way and with a strict adherence to duty. His made many friends. A thorough business man with a knowledge of property values, he has filled the position with credit to himself and will undoubtedly succeed himself since the people want a man of experience to hold this responsible position.

SANFORD IS A CLEAN CITY

Chairman of Sanitary Committee Writes of Conditions in His District

The following letter from S. Runge, chairman of the sanitary committee, about conditions in Sanford from the viewpoint of the city officials, is interesting:

MR. EDITOR:

Referring to the controversy in your paper about the city-cleaning and sanitary work I wish to call the attention of some of the kickers to a few facts. I have made a careful inspection of a number of our neighboring cities to compare their general cleanliness and sanitary conditions and I have found beyond any doubt that our city of Sanford is far above any of them in this respect. Comparatively we have the cleanest town in this part of the State and part of the credit for this is due E. E. Brady and Sam Williams.

Referring to the controversy in your paper about the city-cleaning and sanitary work I wish to call the attention of some of the kickers to a few facts. I have made a careful inspection of a number of our neighboring cities to compare their general cleanliness and sanitary conditions and I have found beyond any doubt that our city of Sanford is far above any of them in this respect. Comparatively we have the cleanest town in this part of the State and part of the credit for this is due E. E. Brady and Sam Williams.

Every citizen should comply strictly with the ordinances and regulations that have been passed and published by the city government, and which are: That all trash and garbage shall be placed in a covered receptacle, in the alley, where it is conveniently to be reached by the garbage wagon. Brush and grass must be placed in alley or on parkway of street, to be removed by the city cart, not by the garbage wagon.

All complaints of non-removal should be made to the city clerk, who keeps same on file to report to the proper parties and the council. Instead of compliance with these rules, I find on careful inspection, that but few of our citizens are taking advantage of the offer of the city, to sell their good trash-cans at cost price, but that even some of the smallest residences keep their garbage in broken and dilapidated old boxes and barrels where chickens and dogs have free access, and so create a condition of filth around their residences, that it is hard to overcome by the garbage man with pitch-fork and rakes for helpers. Also I find that garbage receptacles are not always kept in or near alley, but in any place around the house, in two instances near the parlor window and in some even inside the kitchen. It speaks well for the garbage man that he goes to the trouble of hunting up these boxes inside the premises, to which he is not held under his contract.

E. E. Brady holds the contract with the city for cleaning streets and removing garbage; he is under bond to fulfill this contract. If reasonable complaints are brought before the city council that he is violating his contract the council is fully able to take care of it and will see that it is remedied or that suitable fines and penalties are exacted.

The office of the sanitary inspector is held by the council to be one of greatest importance to the welfare of the city, and the present inspector would certainly not hold his job for any length of time, if his services were not entirely satisfactory to the board.

To the man from Gainesville who wants to run the fire department and street cleaning together with two wagons and also to some of our kicking friends, I would like to suggest that they kindly take the trouble to attend the meetings of the council regularly and also get some real facts and figures from the city clerk's books as to the amount of work that is to be done and what it is going to cost them. They almost always know what they are talking about.

In conclusion I wish to say again: Be sure you have complied with the city's sanitary ordinances. If then you have reasonable grounds for complaining, make same to the city clerk, make them good and strong and rest assured that the sanitary board will see to it that justice is done the tax-payer.

S. Runge,
Chairman Sanitary Committee.

Dick Calhoun Returns

After spending several weeks traveling through the Northwest, and covering every state from Florida to California, Dick Calhoun has returned home. He thoroughly enjoyed the trip in every way, but still adheres to the belief that Florida is the best state in the union.

BIG GROWERS' PICNIC

Ideal Day and Ideal Location Draws Crowd

FISH FRY WAS GRAND SUCCESS

Prominent Speakers Make Interesting Talks to Our Celery Delta Farmers

The Growers' Picnic, the annual event of the celery delta, seems to grow larger and better each year and the affair yesterday at Beck's Park was one of the best ever pulled off in this section.

Despite the warm weather the park was cool and shady all day, caressed by wandering breezes from Jessup-clos-by. In the morning while the fish were frying and preparations being made for luncheon, Prof. Rolfs of the experimental station at Gainesville made an able and eloquent address to the farmers. He punctuated his remarks by statistics showing the best crops to plant, the way to plant them and the way to harvest them. As the dinner hour approached Prof. Rolfs grew uneasy, because he thought the people were hungry, but they would not let him desert and asked him question after question about hay, corn, silos, etc. Prof. Rolfs was just as willing to impart information as the farmers were to ask for it and it is safe to predict that no more enthusiastic teacher and pupils ever met. The visit of this walking encyclopaedia of crop information to the celery delta will be productive of much good and the results will be noticeable in the near future.

About one o'clock the crowd gathered around the various tables and supplemented by plenty of fish and hot coffee spread a feast of all the delicacies of the season and how those people did wrap themselves around that good cooking. An hour was spent in pleasant chat after lunch when Chairman Lake called the meeting to order again and introduced Senator N. P. Bryan to the audience. This was Senator Bryan's first visit to Sanford since his election and his remarks were listened to with marked attention. He made an eloquent plea for good citizenship, paid a high tribute to Prof. Rolfs and the work of the University and urged the young men to make the best of their educational advantages.

Chairman Lake then introduced Hon. Frank Clark and the crowd recognizing their old friend gave him a hearty greeting. Mr. Clark always at his best in making an address was heartily endorsed as he pictured the beauties of nature the best and vast resources as they are exemplified in the state of Florida. He brought forth many a laugh as he quoted part of his recent famous speech before Congress about Florida and asked the people of Sanford to furnish the crops and make good before the thousands of visitors flooded into Florida. Mr. Clark's remarks were also directed at citizenship and the need of a better education along the lines of political economy and a better knowledge of affairs at Washington.

Mr. Clark's address closed the exercises for the day and the people spent the rest of the afternoon in enjoying the delicious luncheon and discussing the crop future. The Sanford Traction Company and the Sanford Everglades Railway handed the large crowd in an admirable manner and the park being close to the transportation line made the place an ideal location for the large gathering. So popular have these annual picnics become in this section that a movement is being planned to make a small county fair out of the next picnic and induce the farmers and their wives to make a display of farm products and live stock. There is no other section of the entire south where a better opportunity exists for a display of diversified farming than the great Sanford celery delta and these annual gatherings are a great pleasure as well as assistance to the farmer and city dweller. Much of the success of the picnic yesterday was due to the good people of this section, by Mayor Lake and the city council, by Cameron City and by the generous merchants of Sanford and the following committee:

Chairman of Committee, J. C. Rich; Secretary, J. W. Harper; Finance, G. C. McDonough, chairman; L. A. Brumby, E. E. Brady. Speakers, Advertising and Music: W. M. Haynes, chairman; C. C. Worthington, F. M. Berry, Frank Greenman. Grounds and Transportation, A. F. Rosenthal, chairman; Dr. W. A. Minnick, M. M. Smith, Guy Ellsworth, H. H. Chappell, T. H. Johnston, G. F. Smith. Refreshments, R. E. Carmly chairman, F. F. Dutton and C. O. McLaughlin.

THE ROAD TO NEW SMYRNA

Volusia County Commissioners Urged to Help With the Good Work

With the Atlantic coast and some of the finest bathing to be had anywhere, only about sixty miles away, hardly a half day's drive, it behooves those who enjoy outings there, or contemplate making the trip at any time, to urge Volusia county to get her roads in better shape. True, the trip can be made now without danger of bogging down or turning over, but a very small outlay of cash would mean a great deal to the travelling public. The new viaduct and bridge at the St. Johns' Ferry has been completed, making the ferry only across the main channel, which saves at least three-fourths of the time usually consumed there, while the long embankments on each side of the river are in good shape, the road as far as Osteen being in fairly passable condition.

Free of all obstructions, stumps taken out and some preparation made on the road from Osteen to New Smyrna, by way of Indian Springs, but in one or two places, especially during rainy weather, this road is boggy and requires some very fine driving to get through. These places are now wide, however, and could be made in splendid shape by putting in a corduroy road, not over twenty-five yards long at about three places, which would make it passable the entire route, saving at least a third of the distance from this city to Coronado and New Smyrna, to those seeking an outlet to the ocean who do not care to make Daytona their destination; going by the way of Enterprise and DeLand.

It is understood that citizens of Volusia living in the DeLand and Daytona sections are opposed to this strip of road, claiming that travel will be diverted from their sections and hoping that the road, which has been under construction for the past year or two will be abandoned or left in a state unfit for travel. It is to be hoped, however, that Volusia's commissioners will take this matter up immediately as the new road is badly needed and will prove a popular highway from the south to New Smyrna and the coast. A convict camp is established this side of the ferry, in Orange, and the road from Sanford out Celery avenue being greatly improved.—Reporter-Star.

Criminal Court

Criminal court convened Monday morning with Judge Worlow on the bench. Prosecutor DeCories being on hand, evidently determined to give all the law-breakers the fullest extent of the law. Following are the cases already disposed of and verdicts:

- A. Sullivan, charged with offensive language, caught a fine of \$5 and costs.
- William Fields, forgery, guilty; seven months on the road.
- Mr. Jordan, selling liquor, six months on the road and \$300 and costs, and in the event the \$500 is not paid an additional year on the road, making eighteen months in all.
- Jim Robinson, charged with arson, was acquitted.
- Allen Ambrose, vagrancy; three months on the road.
- Leonard Adams, assault and battery; not guilty.
- Sam Thomas, concealed weapons; \$100 and costs, or six months.
- Charles Cason, concealed weapons; \$100 and costs, or six months.
- Cling Hartson, careless use of fire-arms; \$25 and costs, or three months.
- John Hudson, Jr., larceny; four months.
- George Morgan, larceny; four months.
- G. W. West, assault and battery; \$500 and costs or three months.
- C. C. Lee, killing deer; \$25 and costs or three months.
- Ben Lang, larceny; four months.
- Oscar Preston, concealed weapons; \$100 and costs.
- Sam Epps, gambling; sixty days.
- Geo. Thompson, gambling; sixty days.
- Charles Bell, gambling; sixty days.
- Sam Williams, beating way on train; thirty days.—Reporter-Star.

William A. Herring

W. A. Herring died at his home on Maple avenue last Friday night after a lingering illness. Mr. Herring had been a resident of Sanford for the last two years, being identified with the firm of W. G. Hammond & Co. He was sixty-five years of age and a native of Michigan. He leaves a wife to mourn his loss. Interment was made in Lakeview cemetery on Saturday, Rev. Summers officiating.

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

Sept. 11.—Speaker Champ Clark of the house of representatives is the hero of his old home town, Louisiana, this week. He is being entertained by the home-folks, and they have gathered here from all parts of Pike county to do honor to a "native son" who has brought glory to his state by being elected speaker of the national legislature and so conducting himself that he is considered a possible candidate for the presidency on the democratic ticket of 1912.

While thousands of persons are staying in China because of the havoc wrought on crops by the great floods in the valley of the Yang-tze Kiang river, and France is torn by riots amounting almost to civil war over the high cost of living, which is increasing in Europe, as well as in the United States, there is renewed attention in the United States to conditions here. It is a fact that prices here have reached the highest level for twelve years.

Cabled advices from the American minister at Peking to the government brings very disquieting news from China. Blood has been spilled in the province of Sze Chuen and the situation is daily becoming more serious, with the possibility of massacres of foreigners in the more remote sections.

Nearly 25,000 persons engaged in the textile industry resumed work this week after various periods of idleness due to the curtailment policy practised by the manufacturers throughout New England.

It is earnestly hoped that the announcement lately made by Senator Bailey, that upon the conclusion of his present term, which will be on March 3rd, 1913, he will not accept re-election, but will finally retire from public life, was made in good faith and with the purpose of living up to it.

Death of Dr. Eaton

Dr. L. D. Eaton of Mt. Dora passed away at the Sanford Hospital Tuesday morning in an attack of congestive fever. The doctor was widely known and highly regarded in this state, where he had made his home since '82. He was 64 years old and had been an invalid for many years suffering from bronchial catarrh and asthma, and yet did much good work in his chosen profession. He will be sadly missed and his loss sincerely mourned by many who were his patients and his friends.

Many of the Mt. Dora friends came over to attend the funeral services which were conducted by the Knights of Pythias of which order he was an honored member.

The remains were sent to Homer, N. Y., his early home, where they will be met and cared for by the Knight and his relatives there. Mrs. Eaton, who has faithfully cared for him in all his sickness, will remain south for the present.

Coming to Sanford

The greatest of all love stories, by William Shakespeare, Romeo and Juliet, will be given to Sanford people in the course of ten days by one of the strongest dramatic companies producing plays—the Transhouser Company, which will insure elaborate staging, good acting and perfect photography. The Star has other good things in store for the people and their daily programs now consist of the newest film service ever given in Sanford.

The management has booked the entire series of the great Matt and Jeff pictures which will be run about one each week.

Nothing is too good for the people of Sanford and the management of the Star proposes to give them the greatest photographs produced in both independent and licensed films. Watch the bills for dates!

Mr. Roland C. Shaefer, of Ohio, who with his father-in-law, Mr. Bader, purchased ten acres of virgin celery land on the west side, has arrived in Sanford and will begin improving his property at once by erecting buildings, clearing the land and getting ready for vegetable growing as it is done in the celery delta.

CURBSTONE GLEANINGS

A Budget of Opinion "Just Between You and Me"

EVEN THE GATE POST NOT IN IT

A Chief Is Among Ye Taking Notes and Faith, He'll Prent 'Em'— So Says Saunterer.

My friend E. E. Brady thinks I have done him an injustice, so I am told, in the article last week about the sanitary contract. If I have injured Mr. Brady in any way it has certainly been unintentional on my part. The kicks registered against Mr. Brady were on the bucket system and yet when traced down some of these buckets were in territory that was outside the city limits and hence not in his jurisdiction. Another thing I am glad to learn is that according to Mr. Brady's contract he is saving the city a neat sum—about \$2000 a year I believe and he thinks he is entitled to a word of praise. The streets are in good condition and the city presents a good appearance and altogether I will have to hand it to Mr. Brady. As stated in the beginning the kicks were on some of the buckets and not the streets or trash cans.

I have been accused of many things in my long and varied career but knocking is not one of the aspersions that can be sustained for regardless of who makes the assertion they cannot back it up by facts. The department that I conduct for the Herald has been conducted on various papers in every part of the U. S. and no one has ever proved that I said anything that could be construed as a knock against the city in which I lived. My assertions are founded on facts and are made for the best interests of all concerned. There is not a city or town or hamlet that does not need a fearless, outspoken newspaper in its midst that will take up the fight for the best in city government and all the affairs of the city. I know no friends and no enemies and what is said is in all fairness to everybody. I have as much invested in Sanford as any one man in it and when I take an interest in city affairs it is from a desire to build up instead of to tear down or to build up after it is torn down and build better and stronger. In conclusion I wish to inform my dear friends that if you have a grievance against the Saunterer or you think you have been dealt with unfairly there is no one who will make amends any quicker than yours truly. On the other hand remember that I fought under the rattlesnake flag which bore the inscription "Don't Tread On Me" and though the war is over, I still fight under the same inscription.

Printers are not always to blame for the mistakes that appear in type. If the public could only see the mistakes in the copy that comes to the local editor, they would be quite lenient with him when, as occasionally happens, an error slips through. The reporter for a young people's society in a Missouri town learned this lesson at her own expense.

Miss Alice Trotter, who furnished the local paper with news concerning the young people's meetings, good-naturedly but earnestly took the editor to task for changing her news articles.

When the program for the next Sunday evening came to the editor, he printed it just as it was written. It happened that the reporter herself was the leader, and the announcement of subject and leader read:

Look up and lift Alice Trotter.

Through an apple the human race lost Paradise. Will the apple be able to make up for it by taking the place of the "hot hospital" and other drink cures and by putting the old-fashioned demand of temperance to rest?

The Iowa State Horticultural society thinks so. This year the Missouri society of the same name expects to listen to the claims of the new school of temperance workers that originated up in Iowa. Dr. Summit Bailey, of Mt. Airy, Iowa, was the first to bring it to the notice of the public. He asserts that the eating of two or three luscious and juicy apples daily will reduce the irritation caused by liquor in the human tissues and digestive organs. He claims that the chemical combination of acids that give the apple its distinctive flavor can be relied upon to restore the normal conditions of the tissues. When the normal conditions are restored the so-called "craving" for strong waters disappears. Eve was the cause of it all, according to the original account. By setting her white teeth into the red cheek of a ruddy apple she let sin into the world, and drunkenness has long been accounted one of the chiefest of these sins. The theory works down along the old lines that the hair of the hog is good for the bite. The soothing action of the acids and sugars contained in the apple straighten out the

Practical "Society Brand" Features

Coat

- 1 Pencil pocket joining inside breast pocket.
- 2 Match pocket on inner left side.
- 3 Perspiration shields at armpits to protect lining.
- 4 Neck-cape; prevents wrinkling below coat collar. Patented.
- 5 Extension safety pocket; conceals and secures letters, papers, etc.
- 6 Buttoniere holder under lapel.
- 7 Watch pocket within outside breast pocket.

Vest

- 8 side buckles to produce smooth-fitting back.
- 9 Watch guard in lower left pocket for fob or chain.
- 10 Pencil or fountain pen pocket; opens in seams of upper left pocket.
- 11 Vestee, Detachable and washable; attached with gold pins; adds dressiness.

Trousers

- 12 Permanent crease; keeps trousers pressed and prevents bagging at the knee. An excellent, practical feature. Patented June 10, 1908. No. 890792.
- 13 Cash pocket within right-hand side pocket. Permits carrying keys, knife, etc., on same side without confusion.

Society Brand Clothes

For Young Men and Men who Stay Young

THE modern clothes-maker must incorporate more than merely fine tailoring and good fabrics in his clothes. He must also embody "lines" which give the wearer the appearance of perfect physique. Ask us to let you try on a Master Suit of Society Brand make. You'll like the effect of full, broad chest, trim waist and stately carriage—the graceful stride it encourages—and the air of refinement it gives you.

The Master Suit possesses the very latest style effects in men's clothes. It is tailored faultlessly—of staunch fabrics. On sale here—ready-to-wear—\$20 to \$40

PALMER & SEIGH

117 WEST FIRST STREET THE HOME OF SOCIETY BRAND CLOTHING FOR MEN 117 WEST FIRST STREET

disordered conditions that a long series of drinking bouts has caused in the human economy and all is serene after a month or so of apple eating.

It is a cheap cure if it proves a success. The Ozark country of Missouri and Arkansas alone ought to be able to furnish the means of curing thousands of horrible examples of the evils of intemperance. A barrel of apples ought to be sufficient to remove the worst case of craving on record.

It is the cost of selling that is the primary cause of the high cost of living, according to H. Y. Yoakum, chairman of the board of directors of the Frisco lines. At the meeting of the Texas Farmers congress he told them all about it. He has investigated the matter thoroughly and his conclusion is that the farmer does not get enough for his produce while the ultimate consumer pays too much. He cited the government reports—for the government has also been on the trail of the middlemen—to show that the producer receives only 45 cents for produce for which the consumer pays a dollar.

There was that apple grower of the West for instance, who sold a barrel of apples from his orchard for 80 cents. He traded the same barrel to the New York market where its price had risen to \$4. If the apples the barrel contained were sold, not by the barrel, but in small measures, the disproportion between what the producer received and the consumer paid would have been much more apparent.

Mr. Yoakum showed that the farm products of last year were worth nine billion dollars. He assumes that the farmers kept one-third of their produce for their own use and he states that the consumer paid what the producers received only six million. This it is shown

that some seven million dollars were expended in selling the produce.

Reform in the selling of farm produce seems to be necessary, and Mr. Yoakum suggests that the government should establish a market bureau of the department of agriculture which should accumulate and distribute information on the best methods, the best times and the markets for selling. He pointed out that the rector of public roads is already doing much to put the country roads into such condition that the cost of hauling produce to market will be much reduced, but he thinks that this work could well be supplemented by furnishing information to the farmer that will enable him to see why it is that the food that he sells so cheaply is sold so dearly to the consumer.

Whatever the method, Mr. Yoakum thinks that the great thing is to bring the farmer and the consumer closer together, so that between them a goddy portion of that seven billion dollar payment to the middleman may be saved. If something along this line can be accomplished it will be a fine thing for the farmer; a fine thing for the consumer, and a who cares for the middleman, anyway?

Young man, let me give you the benefit of my observation. I have noticed that at least nine-tenths of the young men who have been before the courts for misdemeanors are those who take no interest whatever in education, seldom read a newspaper, and are always ready to make fun of other young men who use correct language and try to be somebody. It comes natural to them to discourage the studious and ambitious young men of their acquaintance. Their minds run toward dirty stories, midnight press and bad company. This is a short time means trouble, a sheriff's invitation to attend court, and a fine or term in jail.

Practical "Society Brand" Features

Trousers—CONTINUED

- 14 Guard in watch pocket to prevent theft or loss.
- 15 Pencil pocket in right-hand hip pocket. Very convenient, especially when no coat or vest is worn.
- 16 Braided belt loops. Neat, attractive, practical. None less attractive with suspenders.
- 17 Tunnel belt slides; hold trousers firmly over hips and keep belt in place.
- 18 Two steel pivot pearl buttons at front of waistband. Add tone and smartness.
- 19 Loop in front for belt; holds belt in position.
- 20 Improved secret money pocket on inside of waistband. Closed and hidden by buttoning to inside suspender button.
- 21 Silk braid edging on hip pockets.
- 22 Our specially designed side-pockets. Big, roomy, and shaped especially to follow the form of the hand. Pockets curve down to crotch.
- 23 Silk braid edging on watch pocket.
- 24 Hanger of colored silk braid.
- 25 2 1/2-inch turn-up for soft turn-up or permanent cuff.
- 26 Extension safety pocket, same as No. 5 in the coat.
- 27 Belt of same material with patent gold buckle.

Little to Show as Congress Results of Special Session

Reciprocity, Reapportionment, Statehood and Publicity Pass

THE extra session of the sixty-second congress attempted much, but owing to people over whom it had no control the results fell short of the effort. The laws it actually passed were Canadian reciprocity, publicity of campaign expenses both before and after election, reapportionment of the house of representatives and statehood with the stinger of recall of judges extracted. The things it tried to pass, but was prevented, were three tariff bills, covering several schedules and parts of other schedules, all of which were vetoed; direct election of senators, which was hung up in conference committee and goes over to the regular session, and the reciprocity treaties with France and England, which were reported out of the foreign relations committee of the senate with amendments, but were not acted on for lack of time. There were minor measures, but these were the most important. In addition there were a new investigation of the Lorimer case, a probe into the election of Senator Stephen of Wisconsin, inquiries into the steel trust and sugar trust and examinations of the bureau of chemistry of the agricultural department in relation to the execution of the pure food laws, into Controller Bay (Alaska) affair, into the expenditures of the state department and into the parcels post and postoffice department. The committees having these various inquiries in charge will presumably report to the regular session. At least none of them has reported yet.

While the president called the session to meet solely for the purpose of passing the Canadian reciprocity bill, it was readily recognized at the outset that the legislation would not be confined to that one item. This assumption was confirmed on the opening day of the session, when Speaker Clark laid before the house in a speech the Democratic program.

The progress of legislation through both houses of congress during the session plainly indicates that by far the greater portion of the delays has been the fault of the senate. The house acted with dispatch on its program and by sending much general legislation to the senate early in the session was able to take long recesses in May, June and July while the ways and means committee framed the tariff legislation. The table of legislation follows:

Schedule of Legislation

Canadian Reciprocity Bill.—Introduced April 12; reported to the house April 13; passed the house April 21; received by the senate and referred to the committee on finance April 24; reported to the senate July 13; passed by the senate July 23; signed by the president July 26.

Wool Revision Bill.—Introduced in the house June 2; reported to the house June 6; passed the house June 20; received by the senate and referred to the committee on finance June 21; reported to the senate without hearings on motion of Senator Gore, June 23; passed the senate July 27; house conferees appointed Aug. 1; senate conferees appointed Aug. 2; conference report adopted by the house Aug. 14; conference report adopted by the senate Aug. 15; vetoed by the president Aug. 17.

Free List Bill.—Introduced in the house April 12; reported to the house April 19; passed the house May 3; received by the senate and referred to the senate committee on finance May 9; reported to the senate on motion of Senator Gore and without hearings June 22; passed the senate Aug. 11; house conferees appointed Aug. 3; senate conferees appointed Aug. 4; conference report adopted by the senate Aug. 10; conference report adopted by the house Aug. 17; vetoed by the president Aug. 18.

Cotton Revision Bill.—Introduced in the house July 26; reported to the house July 27; passed the house Aug. 8; received by the senate and referred to the committee on finance Aug. 4; reported to the senate, on motion, Aug. 10; passed the senate, with amendments adding iron and steel schedules reciprocal coal with Canada and chemicals and machinery used in the manufacture of cotton goods, Aug. 17; signed by the president Aug. 21.

Statehood Bill (first).—Introduced in the house April 8; reported to the house May 12; passed the house May 22; received by the senate and referred to the committee on territories May 25; reported to the senate July 12; passed

Tariff Bills, Direct Election of Senators and Arbitration Do Not

the senate Aug. 9 (legislative day Aug. 8); Senate bill accepted by the house Aug. 10; vetoed by the president Aug. 15.

Statehood Bill (second).—Introduced in the senate Aug. 16; reported to the senate Aug. 18; passed the senate Aug. 18; received by the house Aug. 18; passed by the house Aug. 10.

Apportionment.—Introduced in the house April 10; reported to the house April 23; passed the house April 27; received by the senate and referred to the committee on census, April 28; reported to the senate July 6; passed the senate Aug. 3; senate bill concurred in by the house Aug. 4; signed by the president Aug. 8.

Political Reform Measures

Resolution Providing for the Direct Election of Senators.—Introduced in the house April 5; reported to the house April 12; passed the house April 13; received by the senate and referred to the committee on the judiciary April 17; reported to the senate May 1; passed the senate June 12; senate conferees appointed June 27; house conferees appointed July 5. This resolution is still in conference.

Publicity of Campaign Funds.—Introduced in the house April 10; reported to the house April 14; passed by the house April 14; received by the senate and referred to the committee on privileges and elections April 15; reported to the senate June 10; passed by the senate July 17; house conferees appointed Aug. 1; senate conferees appointed Aug. 2; conference report agreed to by the senate Aug. 10; by the house Aug. 17. Signed by the president Aug. 19.

Of the important legislation or legislative action remaining the senate has not acted upon the arbitration treaties with Great Britain and France, which were reported to the senate on Aug. 12.

The bone of contention in the bill for direct election of senators is the senate amendment placing senatorial elections under federal control. This is the same amendment which defeated it in the previous congress.

The chief difficulty in the way of the arbitration treaties is the desire of the senate to retain its control over what shall be arbitrated and to exempt certain matters from arbitration, such as the Monroe doctrine and the admission of Alaska into the United States.

The reason for the first veto of the statehood bill, as already intimated, was the recall of judges feature in the Arizona constitution. This was eliminated in the second bill.

Waiting For Tariff Board

The chief reasons assigned by President Taft for the veto of the tariff bills were that they were not scientifically and carefully drawn, that they were not in harmony with the protective principle and that the tariff board had not yet reported. He promised that before the next session the board would report as to the wool schedule and that he would then recommend revision in accordance with such report.

Trust investigations were begun during the session, and they are still in progress. Constructive legislation to bear on federal regulation of corporations is regarded as certain to come as a result of the inquiries, and plans already have been instituted to revise the anti-trust laws.

Special investigations into the United States Steel corporation and the American Sugar Refining company were undertaken to discover whether these industrial organizations operated in violation of the anti-trust and interstate commerce laws. The inquiries have been exhaustive and still are in progress, though the sugar committee, headed by Representative Hardwick of Georgia, practically has concluded its work and will meet in the fall to draft its report.

The steel corporation inquiry developed many interesting facts, but the predominant feature of the inquiry was the emphatic public declarations of some financiers that the Sherman anti-trust law is too archaic to deal with modern business methods. They insisted that there must be new legislation to regulate the corporations of the country.

Chairman Stanley of Kentucky plans to resume taking testimony in the fall and hopes to have as witnesses Andrew Carnegie and J. P. Morgan. Among the prominent ones who testified at great length before the committee were former President Roosevelt, Judge E. H. Gary, chairman of the board of directors of the Steel corporation, John W. Child, since deceased, Grant D. Schuyler, Charles M.

ran. ing J. Sherman iterated by W. Perkins sa. tion was absolute, needs of the great country. Publicity of co. fairs was advocated strongly, as one means of eradicating e. trust evils and to retain the g. benefits of trust operation.

Friction in the department of agriculture over the enforcement of the pure food laws has been exposed by one of many investigations originating in the Democratic house, and a countrywide issue is raised over the question of whether the activities of Dr. Harvey W. Wiley, the government's pure food expert, have been made ineffective.

Committees of the house on expenditures in the government departments were directed in special resolutions to inquire thoroughly into the affairs of the government. The Democrats announced that there would be a general housecleaning, that extravagance was rampant and that economies would be proposed. Predictions of many sessions were made. For many weeks the investigations progressed, and none of the committees has completed its task.

Much other work started by committees must await the action of the next session.

The question of coal lands in Alaska, the Controller bay controversy, in which President Taft's name figured, and all the kindred questions of government ownership and control allied therewith will be inherited by the session which begins next December. The Alaskan syndicate charges made by Delegate Wickersham of Alaska against Attorney General Wickersham came to naught in this session, but doubtless will come up in some form next session. Bills were introduced providing for a coal land leasing system.

One of the investigations which attracted national attention because of its rather startling and sensational disclosures was the Day portrait voucher investigation by the house committee on expenditures in the state department. As a result of its findings the committee recommended the dismissal from the service of William H. Michael, former chief clerk of the state department, now American consul general at Calcutta, and of Thomas Morrison, disbursing clerk of the department, but finally the whole matter was referred to President Taft for such action as he thought proper.

Bryan's Attack on Underwood

Proceedings in the house under caucus rule, led by Mr. Underwood, precipitated a sharp controversy between Mr. Underwood and William Jennings Bryan. Mr. Bryan was aroused because of the failure of the house caucus to include in its tariff program at first the revision of the iron and steel schedule. He attacked Mr. Underwood on this ground, but the latter received an overwhelming vote of confidence when the matter was made an issue in the house. During the controversy the ways and means committee was at work on an iron and steel revision plan, but it remained for the

week. specta: years. came on bill. When drew an amen. and steel revision the Democrats not only own and were able to regular Republicans refrain. voting or absented themselves the chamber.

One of the gratifying features of the session is that partisanship has been little in evidence. On Canadian reciprocity the Democrats supported almost to a man, and on the tariff revision bills, the progressive Republicans and Democrats worked together. While the list of laws passed was not long, the extra session laid the groundwork for important work in the regular session.

Yet, while there was little partisan politics of the old variety in the session, there was presidential politics in almost every move made. Engaged in this game were three groups, the Democrats, the progressive Republicans and the administration. It is too early yet to foretell which one of these elements had the best of it. That will not be entirely clear until the regular session has completed its

Mrs. Annie Warren

After an illness of three months during which she was confined to her bed, Mrs. Annie Warren died at her home on First street Sunday afternoon at five o'clock in the fifty-second year of her age. Mrs. Warren had been a resident of this section for many years, and was known to many of the older citizens. She was first married to H. H. Holtzclaw who died about eleven years ago. Afterwards she married Mr. Warren who lived five or six years after their marriage. Two daughters of her first marriage, Mrs. Sarah Parker, now living in Palatka, and Mrs. Annie Waters, a resident of Sanford, are her only surviving children. Mrs. Warren united with the Presbyterian church at Fort Reed in early life, and at the time of her death was a member of the Sanford Presbyterian church. The funeral services were conducted by Rev. J. F. McKinnon at the home Monday afternoon at 3 o'clock after which the remains were buried in the city cemetery. The sympathy of the community is extended to the bereaved daughters.

LETTER FROM W. J. HILL

Prominent Sanford Merchant is Waking Up Old England

The following letter from W. J. Hill, who has been in England for several weeks, will prove very interesting to his many Sanford friends:

DEAR HULLY:

I thought you might like to hear that I am still among the living and that you have not seen the last of the child yet. I might have been busted here but I looked ahead and took a return ticket. I left New York July 1st on the steamship St. Paul; on the Fourth we had a concert on board and out of the 1,300 passengers, I being a mass of very few words, was unanimously elected chairman, this you will see by enclosed program. After the concert the captain told me that if I was on the ship another week they'd have no use for him. Two days before the St. Paul arrived at Southampton I went round and paraded up the passengers in groups for their various destinations, and they all called me "Uncle Will." I don't know why people want to leave Florida in the summer, if it's to keep cool they miss the target. In New York people were dying from the intense heat and when I arrived in London it was over 100 degrees in the shade and there were many deaths, except members of my family, who are all tough and take after me. London is much larger than New York, covers 443,418 acres nearly 693 square miles, with about 8,000,000 people; I was lost at first but was soon found by a policeman who took me home. I've had a good time - visited many places, including the Crystal Palace where they are performing (on a space of many acres) historical events, in the time of Adam, as far as I could understand, up to the present time. Westminster abbey, tower of London, etc. I am now living at Greenwich Park where Queens, Elizabeth and Mary were born, their father, Henry VIII, was also born here; it seems a very new place to me after living in Sanford so long.

At Jersey, one of the English channel islands, I saw cabbages growing ten feet high. Enclosed is a picture of them; they are grown out of reach of cattle that graze amongst them, land being scarce. I stopped in the channel islands two weeks, I enclose a picture of my niece who went there with me. At the hotel they called me "Uncle from Florida" in fact all of London and Jersey did. Just 150 of us from the hotel went to the open

air concert given by the Gaiety Company and in the course of the evening, the leading comedian in giving his comic sketches told the audience of over 1,000 people, should they want to know anything about the United States of America "ask Uncle from Florida, who is now sitting in the grand stand," and the applause was great. I went in for the championship of Bowling on the green; I was green, but I won it, and the prize was a carrot.

I have invited Queen Mary over to Sanford for my 70th birthday party and she is mad because George will not let her cancel a previous engagement.

Had my picture taken this morning; just as the photographer was about to snap me I smiled; he stopped and asked me what was wrong; I told him I was just looking pleasant; he said he would wait 'till I recovered as he only took truthful pictures.

Send no more papers to London as I leave Sept. 13 on the steamship Oceanic, White Star Line. Send papers after this to me care Burger & Baumgard, 105 Chamber street, New York.

I remain, the man of very few words
W. J. Hill.

Too Much Politics

Most thoughtful foreign observers think, and say, that our people are kept in too continual a political turmoil, that our political life is as strenuous as our business life, and that both are too fast and intense. It is said that the latest one who has looked us over, Admiral Togo, came to the same conclusions; but, in character with the sobriquet he bears, "the Silent," he said very little.

It is not well to keep the country in a continual political uproar. We spend too much time and thought, and money on, and in, politics. We have too many elections now, and the tendency is to increase, rather than diminish, their number. The time spent in preparing for these periodical struggles and in getting over them, is largely wasted from profitable business and industrial employment.

With our national, state, county and municipal elections, our primary elections, to nominate candidates for the other elections, and now, or in the near future, the still more numerous elections required by the exercise of those new political inventions, the initiative, the referendum and the recall, we will soon have very little time left over for attending to our business avocations. This is not a healthy state of affairs and a change

should be made. Instead of increasing the number of elections we should diminish them at least one-half.—Tampa Times.

FORESTER, Cashier. Subscribed and sworn to before me this 7th day of Sept. 1911. R. C. MAXWELL, Notary Public. Correct - Attest: GEO. H. FERNALD, Director.

WOMAN'S GREATEST BLESSING

This Information May Be Of Untold Value To Every Reader Of The

Woman's greatest blessing is health. Without it her happiness is wrecked. Ignorance of the proper treatment of the diseases peculiar to her sex causes this deplorable condition. Poor health comes to all classes, the society woman and the woman who does her own work. Women's diseases often remain hidden and uncured because her natural modesty shrinks from consulting a physician and the disease goes on uncured for and is well advanced before she awakes to the truth. Her many duties often seem of greater importance than health itself and she neglects proper treatment until her life is a wreck.

The knowledge that Reno's New Health will surely cure Scanty, Profuse, Painful, Irregular or Suppressed Menstruation, Sickly Periods, Constant Weariness and Weakness, Depression, Cramps, Dizziness, Violent Headaches, Palpitation of the Heart, Pain in the Back and Groins, Leucorrhoea, all Inflammations, Ulceration and Discharges of the Vagina and Uterus, is of untold value to every reader.

It may be that today you are well and strong and are not in need of medical treatment, but weakness and disease come to every woman and then the knowledge that Reno's New Health will cure you will save you years of suffering and perhaps life itself.

The sickly woman is the saddest wreck, not only for herself but also for the loved ones around her, on account of the misery and sadness she causes them. Her children are likely to be sickly and peevish and too weak to properly fight the battles of life. How important, then, it is for every woman to have health.

Reno's New Health is sold under an absolute guarantee that it will not cost a cent unless it will do all that is claimed for it. Weigh well this statement. It means your restoration to perfect health and womanhood without risking a penny.

Every woman who is weak and ailing or who suffers with the diseases peculiar to her sex should use Reno's New Health at once and be restored to health and happiness.

Lady in Tampa named Axe says her husband beat her. What could she expect?

Mt. Etna is in eruption again probably caused by the rumblings in the city prelection campaign.

The Pensacola News states that hay fever is prevalent in that city. "Beware of the grass vidders, Samuel."

The world is growing better. The officials of all the large cities have determined to prevent Beulah Binford from appearing on the stage.

If any of our Northern visitors have doubts about beautiful lawns being grown in Sanford come down to The Herald office and we will show you.

The Clyde steamers and every train are bringing in new people. Most of them take in Sanford to their itinerary and most of them will make this city their home.

The Jacksonville Metropolis has secured leased wires of the Associated Press and will give the people of Florida the very latest news sizzling hot from the wire.

If Sanford is due a new depot some steps should be taken toward investigating the kind and construction thereof. We cannot expect a brown-stone front but Sanford is large enough to demand something good.

Last week the Sanford Herald celebrated its third birthday. The Herald is one of the heftiest three-year-olds in the state. The staff of the Evening News rejoices at the success of Editor Bob Holly, and hopes that he will continue to prosper long after he is so old that he is bald-headed. —Pensacola News.

The Sanford, (Florida) Herald, has been incorporated and is to be greatly enlarged and improved. The word improved is used advisedly, since it will be a difficult matter to improve the paper from a journalistic point of view. Mr. Robert J. Holly, the Herald's brilliant editor, is the most widely copied writer in the state; he has made Sanford one of the best advertised cities of the South. —Southern Printer.

The Jacksonville Metropolis urges a better suburban train service. All large cities sooner or later demand a better suburban service. Even Sanford demanded one last year and now our traction line for sixteen miles takes in all the small towns on the east side and will soon belt the west side as well. These improvements are bound to come when you get your town into the large city class.

Wanted—One Thousand Tourists to locate in Sanford this season where you can get the purest water, the finest fruit and vegetables, the best fishing and hunting, the best roads for automobiles, and the best accommodations. If you don't know Sanford, send to The Herald for information. Sanford is the sportsman's paradise and the editor of The Herald can prove it to you one hour after you arrive in the city.

FOR BRICK ROADS

The question of a brick road from the ferry to the Osceola county line is taking root in the minds of the most progressive people of Orange county and many of those who were not in favor of a million dollar bond issue are heartily in favor of a brick road for this distance. In other words let the districts that really are in favor of a brick road have one. If other localities do not want a brick road they should not have one forced upon them. Sanford and Orlando ought to get together on this subject and form a Good Road Club with brick roads between the two cities as their slogan.

NEW SMYRNA WILL HELP

The following clipping from the Sanford Herald speaks for itself:

The Herald gives \$25 toward the steel bridge at the Geneva ferry and will give \$25 more for a bridge at the nearest ferry. How many business firms will do the same?

The Herald is one of the most pro-

gressive papers in the State, and no wonder with Editor Holly at the helm. He is enterprising, public spirited, and generous, and if there is anything good for his county he goes after it.

The Breeze is not quite as "flush" with money as the Herald but will give ten dollars towards a bridge across the river at the Osteen Ferry. We are almost sure that if New Smyrna will raise a fund for the building of this bridge, that Sanford and Orlando will also raise handsome sums, especially when Sanford has taken the initiative. And maybe we could induce the county commissioners to contribute towards it.

Of course this bridge will be built in time, but we need it now, and it should be built by the beginning of the tourist season. What will you give towards its construction?—New Smyrna Breeze.

Capt. Smith Returns

Capt. R. B. Smith of the West Side returned yesterday from an extended trip through the north on a vacation. While away he visited his friends and other Smiths attending a family reunion wherein 96 others of this familiar cognomen were present.

Capt. Smith is a cousin of the famous Harry Thaw and while he did not visit this particular branch of the family he states that his cousin Harry is now behaving himself better than he has done previous in his life. While confined at the sanitarium he has been a diligent librarian and uses his money and influence in obtaining the release of his fellow inmates who should not be in the institution but were placed there for the purpose of covering some crime or forfeiting some inheritance and has succeeded in obtaining the release of twenty-two persons.

The Millers in Canada

Dr. Oliver J. Miller, of the U. S. Navy, and family, accompanied by his parents, Mr. and Mrs. Theo. J. Miller, of Sanford, Fla., have just returned to Buffalo, N. Y., where Dr. Miller is at present stationed, after spending some time sightseeing in Canada. While in Toronto, they had an opportunity to visit the well renowned Toronto Fair, which has the reputation of being the most elaborate carnival held in the world, and they felt well repaid for the trouble and inconvenience incident to visit same. On labor day, there were 121,000 visitors to the fair, and the massive grandstand was completely filled with 121,000 people.

Welaka Club Notes

The regular business meeting of the Welaka Club took place on Tuesday afternoon, Sept. 6th, with a large attendance, despite the general exodus of Sanford people at this time of the year. Many matters of importance were taken up and disposed of, and the new year book was then distributed among the members.

The year book is a new departure for the Welaka Club and contains a complete program for the year. The book is printed upon heavy ledger paper and is bound in a beautiful silk green cover caught with a red silk cord. The Club flower, the red poinsettia is printed upon the cover and the book is altogether one of the finest pieces of printing ever turned out by the Herald office of this city.

The program committee of which Mrs. J. W. Dickins is Chairman received a vote of thanks and congratulations upon their good work in arranging the Year Book. A glance over the book will convince any one that the ladies of the Welaka Club expect to accomplish a large amount of good solid work in various departments of art, music and civic reform and but little time will be wasted upon frivolities.

The Welaka Club met Tuesday afternoon at the usual hour and was well attended for this time of the year. The time was very pleasantly spent in sewing and social conversation. The guests Mrs. G. F. Smith and her assistants, Misses Linda Lottler and Mabel served dainty refreshments during the afternoon. —Press Reporter.

Massey is a Candidate

The following letter from Hon. Louis C. Massey, will be of interest to his many friends:

Editor of The Sanford Herald, Sanford, Florida:

Dear Sir—Many engagements have been made of me whether or not I would seek a re-nomination to the State Senate from this district. I wish to reply through your paper that I expect to be a candidate for re-nomination, and to make a formal announcement later.

Yours respectfully,

Louis C. Massey
Senator from the 19th district.

is Coming

Dr. J. C. Davis the well known optician will be at Robins' Neat Hotel Saturday, Sept. 23rd, until Tuesday Oct. 3rd. Headache cured with glasses. Don't neglect your children's eyes. Refs. Dr. O. W. King, Dr. J. N. Robson, J. E. Pace 5-2tc

The W. C. T. U. Meeting

A feature of especial and unusual interest at the W. C. T. U. meeting on Tuesday afternoon at the Congregational church was talk given by Mrs. Hildebrand of Wayne, Pa. Mrs. Hildebrand is the daughter of the Rev. Mr. Swartz, pastor of the church at Cameron City, and is a woman of charming personality. Her little talk to the W. C. T. U. women centered on the possibilities of work among the children of the public schools, and was illustrated with instances of things accomplished in Philadelphia and Wayne, through the department of Scientific Instruction, of which she is a local superintendent.

Another interesting visitor at this meeting was Mrs. Standifer of Mississippi, who is the guest of her daughter, Mrs. Richard Maxwell. Mrs. Standifer's name is well known to readers of the Union Signal, through her fine short stories.

Death of Phil Parramore

As the paper goes to press we learn that P. J. Parramore died at his home in Jacksonville this morning at 2 o'clock. Apoplexy was the cause of death.

Harry Einstein has doffed the Khaki and donned the glad rays of the city again. Harry has a nice farm, but there is no need spoiling a city man by making a farmer out of him.

ANNOUNCEMENTS

For Mayor

At the earnest request of friends and voters, I announce that I am a candidate for the office of Mayor of the City of Sanford, at the December election.

G. W. SPENCE.

I am a candidate for the position of Mayor of Sanford subject to the decision of the primary election and solicit your suffrage and support.

W. D. HOLDEN.

For Alderman

I hereby announce my candidacy for the position of Alderman, subject to the decision of the White Primary to be held November 21, 1911.

P. M. ELDER.

I am a candidate for Alderman of the city of Sanford subject to the decision of the White Primary to be held November 21, 1911.

FRANK L. WOODRUFF.

For Clerk and Assessor

I will be a candidate to succeed myself in the position of City Clerk and Assessor, subject to the white primary to be held in November.

M. W. LITTLE.

Sanford Florida

Young Women

Read what Cardui did for Miss Myria Engler, of Faribault, Minn. She says: "Let me tell you how much good Cardui has done me. As a young girl, I always had to suffer so much with all kind of pain. Sometimes, I was so weak that I could hardly stand on my feet. I got a bottle of Cardui, at the drug store, and as soon as I had taken a few doses, I began to feel better. Today, I feel as well as anyone can."

TAKE CARDUI The Woman's Tonic

Are you a woman? Then you are subject to a large number of troubles and irregularities, peculiar to women, which, in time, often lead to more serious trouble. A tonic is needed to help you over the hard places, to relieve weakness, headache, and other unnecessary pains, the signs of weak nerves and over-work. For a tonic, take Cardui, the woman's tonic. You will never regret it, for it will certainly help you. Ask your druggist about it. He knows. He sells it.

GENEVA SETTINGS

Special Cor. to The Herald: Mrs. Oscar Johnson returned from Daytona Beach Tuesday, to the delight of her many friends.

Mrs. W. H. Howard and children returned from the Carolinas and Georgia last Tuesday. We are glad to have them with us again, but sorry to know that the baby is sick.

We are very sorrow to learn of Mrs. G. A. Nicholson's illness at Daytona Beach, and hope for her soon recovery and return to Geneva.

Miss Mayme McLain has gone to Chuluota to take charge of her school. David Speer returned from Americus, Smithville and other points of Georgia last Thursday.

Mr. and Mrs. C. W. Laing and children, Ruby and Julia, of Sanford have returned to their home after a most enjoyable trip on Lake Harney, where they were the guests of their relatives Mr. and Mrs. D. W. Ballard and family.

Several of the Geneva families enjoyed a picnic on Lake Harney Wednesday.

J. T. McLain and daughter, Miss Mayme went to Orlando in their touring car Wednesday. They enjoyed the ride very much in spite of the rain.

R. F. Galloway of Griffin, Ga., former friend and neighbor of Mrs. D. W. Ballard is visiting the family in Geneva and is delighted with the Florida climate.

Mr. and Mrs. J. T. McLain and Mr. and Mrs. Flynt made up a party going to Orlando in Mr. McLain's touring car last Monday.

MOORE'S STATION

Special Correspondence to The Herald:

Mr. and Mrs. Frank Estridge of Cameron Ave, announce the marriage of their daughter, Nellie, to Bert Herndon of Howell, Ga. The wedding was Sept. 10th they will reside in Howell. A large circle of friends here offer congratulations.

Ingram and Joe Guerry are working at Lake Okechobee, and Oca Estridge has a position in Jacksonville.

A half dozen young people from about here report a very pleasant time at the dancing party at Geneva last Friday evening and fine music furnished by Orlando young men.

Mr. Ingram of Cameron Ave, left home about four weeks ago without informing his daughters of his intentions. They have not heard from him and are much worried.

Mr. Courtney and Son of Painesville, O., have rented land of E. L. Craig on Cameron Ave, to farm on this season.

Harry Ward has planned to raise fifty acres of lettuce beside much other crops this coming winter.

About twenty five young folks, Pine Grove Sunday School pupils met with Mesdames Ella Greenland and P. G. Miller Tuesday evening and had a "lucky" party, some great get-ups were among the costumes. The guests furnished ice cream and cake.

Oliver Mitchell is nicely located at Mrs. Moore's home on Park Ave, opposite Hands lively, he seems to be gaining in strength, would be pleased to have his friends call.

Eight horses and mules have died from one cause another mostly heat it is said about Sanford and here during the present hot spells. Careless drivers who do not water often enough and give a few minutes rest now and then may be the cause of some deaths. It is a pity such causes needless losses and much expense. Where is the humane society?

Grand Picnic

On Thursday September, 21, under the auspices of the Catholic ladies a picnic will be held at Woodland Park.

Boats will leave the city dock for the park at 8, 9 and 10 A. M., and will return between 2 and 6 in the afternoon.

Tickets for the round trip boat, and the use of the park and swimming pool are only twenty five cents each. Tickets for sale at Phillips drug store.

There are Two Kinds of Chili Tonic PLANKS AND OTHERS

The old reliable Planks Chili Tonic is guaranteed to drive out Malaria, to cure Chills, Fever, Colds and Grip, your money back if it does not, 25c and 50c per bottle. Ask your Druggist.

WILL HOLD A PRIMARY

Municipal Election Will Be Practically Decided By Primary

The much talked of white primary become a fact last Friday night when a majority of the white voters of Sanford assembled at the City Hall and passed the following resolutions:

WHEREAS, It is the sense of the white citizens of Sanford that it will be for the best interests of the City to organize a white man's primary for the purpose of securing greater purity in municipal elections in our city.

THEREFORE BE IT RESOLVED, By the white citizens of the city of Sanford that hereafter a white man's primary shall be held biennially in the city for purpose of nominating all elective municipal officers of the city of Sanford, said primary to be held on the third Tuesday of November of every other year beginning November A. D. 1911.

BE IT FURTHER RESOLVED, That there shall be elected five persons to act as an executive committee, who shall hold office until their successors are appointed or elected. It shall be the duty of said committee to issue a call for a primary election at times hereinbefore provided for. Such call state the date on which such election is to be held, and the hours which it is to be held and the names of the inspectors appointed to hold such election. At each primary election held five committeemen shall be voted for and the five earliest dates receiving the highest number of votes shall be declared to be the committeemen of the white man's party for the ensuing two years. Should a vacancy occur in the executive committee, said vacancy shall be filled by the remaining members of the committee.

BE IT FURTHER RESOLVED, That the city of Sanford be requested to open the registration books thirty days prior to holding any of primary elections for the registration of voters and that the city of Sanford be further requested to furnish the executive committee a certified list of all white electors as shown by the registration book.

BE IT FURTHER RESOLVED, That the certified copy of the white registered voters of the city of Sanford, to be furnished by said city as aforesaid, shall comprise the polling list to be used at the primary election.

BE IT FURTHER RESOLVED, That none but persons who possess the qualifications of a duly qualified elector under the laws of the state of Florida and the ordinances of the city of Sanford and who are registered white voters of the city of Sanford shall be entitled to participate in any primary election.

BE IT FURTHER RESOLVED, That the person securing a majority of votes cast for any office named shall be declared the nominee of the white man's party of said city for said office.

BE IT FURTHER RESOLVED, The polls shall be opened at 8 o'clock a. m. and close at 5 o'clock p. m. standard time.

BE IT FURTHER RESOLVED, That the primary elections shall be conducted by three inspectors selected by the executive committee who shall receive the vote of all white electors registered. In case any inspector is absent he shall appoint his own proxy or in case no proxy is appointed an inspector shall be selected by the white electors at the polls.

BE IT FURTHER RESOLVED, That the voting shall be by Australian ballot and under the same rule that now governs in state elections. At the close of the polls the inspectors shall canvass the vote in the same manner as now governs state elections.

BE IT FURTHER RESOLVED, That the inspectors shall make duplicate copies of the result of any primary election one of which shall be sent to the chairman and one to the secretary of the executive committee.

BE IT FURTHER RESOLVED, That the executive committee shall meet the next day after any primary election to canvass said returns and to declare the results and the persons receiving a majority number of votes for any office shall be declared to be nominee of the white man's party for said office and said successful candidates name shall be immediately certified to the city of Sanford as such nominee.

BE IT FURTHER RESOLVED, That every ballot used in any primary election shall have printed thereon a pledge to the elector voting such ballot agrees to abide by the result and to support the nominee of said primary election.

BE IT FURTHER RESOLVED, That the decision of the executive committee shall be final as to all questions submitted to them.

BE IT FURTHER RESOLVED, That all primary elections held by the white man's party of the city of Sanford, Florida shall be held in conformity with the laws of the state concerning primary elections.

BE IT FURTHER RESOLVED, That should no candidate receive a majority of the votes cast the executive committee shall call a second primary to be held within these days of the preceding primary.

BE IT FURTHER RESOLVED, That the executive committee shall be empowered to assess all candidates for all offices which pay a salary, for an amount sufficient to cover the expenses of the primary.

Those resolutions were unanimously adopted. The following resolution was introduced by C. C. Dutton and passed without a dissenting vote.

WHEREAS, A white man's primary has been organized in this city, and,

WHEREAS, It is necessary that a committee of five persons be appointed to act as the executive committee of said primary organization, therefore,

BE IT RESOLVED, That W. H. Underwood; Forrest Lake; W. W. Abernathy and George A. DeCottes shall comprise said committee until their successors are elected.

WOODLAND PARK NOTES

Launch ride, bathing, suppers, moonlight parties, have been the pleasures of Woodland Park visitors lately.

Mayor Lake and Alderman Runge and families visited the park. I wonder if they intend to extend the city boundaries again so as to take in this park. They looked at it rather longingly.

Better get busy on the direct road and ferry (or bridge) to DeLand via Woodland Park and Beck's Landing.

M. M. Smith is willing to grant a road through his land parallel with and along east side of A. C. L., connecting with First street road, thus avoiding crossing A. C. L. tracks and being almost a straight flip.

There is a rumor that the road will be made to cross the river at Thrasher's and to Orlando via Upsala and Lake Mary, leaving out Sanford entirely.

Board of trade, mayor and city council, here is work for you—get busy.

This road will add three or four miles to distance between Sanford and DeLand and would cost the tax-payers a great deal to build and maintain, as there is a mile of prairie covered at times with five or six feet of water, while at Woodland Park there is only about 700x800 feet of such low land and the rest of the road is partly made and will cost very little to put on straight line.

Last Thursday Father Bresnahan visited the park and enjoyed his bathing so much, that he wants his congregation to enjoy themselves likewise and has leased the park and the launch Mamie for Thursday, September 21st. Tickets including round trip and bathing in the pool will be sold for 25c, giving more for the money than was ever offered before.

The Park is being improved continually and when known more, churches and schools will have picnics more frequently than once a year.

Deane—Bothamly

At the Deane's this morning in the presence of Mrs. Spencer and Mr. J. L. Feinberg, Mr. Gid Deane and Miss Edith Bothamly were joined heart and hand, Dean Spencer performing the ceremony. The bonnie bride is a Sanford girl and she was here visiting Mr. Deane's sister, Miss Wille Deane, who did not know of the young couple's intentions until it was all over. She is a petite blond, very charming of manner and university popular in her home town. Mr. Deane is one of Orlando's best and most deserving young men. He is a son of Chief Deane, one of the useful citizens of the city. The happy pair left on the 1:38 train for Sanford, where they will spend some time with the bride's parents. The Reporter-Star joins their host of friends in wishing Mr. and Mrs. Deane long, useful and happy lives.—Orlando Reporter-Star.

New School For Sanford

Some Sisters of Mercy, whose Mother House is in 81st Street New York, has come to our city with the intention of locating here, and on Sept 25, they will open a school at the corner of Park Ave., and Ninth street. They are qualified to give music and painting lessons also and it is hoped that in the near future they will be able to start some real charitable work in the city. Their order is well known throughout the world and their motto is synonymous with charity and mercy. They are most cordially and warmly welcomed.

MANUFACTURERS - DISTRIBUTORS JACKSONVILLE, FLA.

IDEAL FERTILIZERS BEST. To gain a place on our regular list a formula must not only produce results, but results with a PROFIT. The user of fertilizer considers the effect on his pocket-book the REAL result. IDEAL FERTILIZERS produces the right effect, for it works with Nature. The preference of each class of vegetation for its source of plant food is carefully studied as well as the proper proportions to give perfect balance—no lack, no waste. With proper application of proper food vegetation outgrows diseases, and insects to a great extent, and being strong and vigorous, produces fruit that is pleasing to the eye and palate, and brings financial returns pleasing to the grower. Do not lose the maximum profit due you by using poorly balanced plant food from improper sources. IDEAL stands for PROFIT. Call at our Sanford Branch Warehouse in charge of R. C. Maxwell or address Wilson & Toomer Fertilizer Company JACKSONVILLE FLORIDA

CURING THE HAY CROP

By C. K. McQuarrie
of the
Florida Experimental Station

The Experiment Station wants to call attention in the most emphatic manner to the necessity for making hay this year on the part of the farmers of the State. All the markets in the country are lacking in this commodity, and prices will run high. There are thousands of acres of our farm lands producing large grass crops which are allowed to wither and decay. This should not be so when it is so easy to make first-class hay.

To make fresh herbage into hay is to evaporate the moisture in it before the leaf structure is destroyed by the hot sun. No mowing should ever be done when the grass is wet with either dew or rain. If one gets into the field a little too early in the morning, or stay too late of an afternoon, the result will be moldy hay. Owing to our moist climate we had better wait until the grass and ground are thoroughly dry before we start the mowing machine. In a spell of dry weather we can make more and better hay, but we must not be in a hurry to mow, and by not mowing too late of an afternoon, for when the proper conditions prevail, hay can be put in the barn the day after it is cut.

The stage at which to cut our hay and get the best results is one of the problems to be settled. Grass does not deteriorate for hay by standing in the field until it is a few days over-ripe when lying on the ground for the same number of days. So we had better delay cutting for a few days if the weather is in any way unsettled, than try and rush things when we think the grass is ripe enough to cut, and run the risk of loss in quantity or quality of hay. The value of one ton of well-cured hay exceeds that of two tons of moldy stuff.

Crab grass, which is the most abundant grass on our sandy lands, should be cut after the first stalks of bloom begin to show, as it depreciates in value quickly when it gets ripe.

On the heavier soils of the State, particular in the Western part, this plant has an important position as a hay producer. It comes as a catch crop in the cornfields and other spring-planted crops, and yields satisfactorily. The stage at which to cut it is when the first bloom appears. To prevent shedding the foliage, it should be cut in the afternoon, when it wilts quickly. It should be handled as little as possible, and the afternoon of the second day should see it in the barn. In many of our fields we have a mixture of crab grass and Mexican clover, which makes an excellent hay. The cutting period in this case should be when either of them shows the first sign of blooming.

This should be cut when the first bloom shows on the plant, particularly if the growth is rank, as it gets woody soon after. It is advisable to cut it late in the afternoon, so as to leaves to wilt naturally. Sun-wilted leaves are apt to be shed in handling the hay. The best rule to follow is to put in the barn the day after it is cut.

Hay made from cowpeas requires very careful handling. It should be cut when the first pods are in the snap stage. Hay made at this time will be found the most nutritious and palatable. Cut as soon as the dew is off, rake into windrows, and put into small cocks the same afternoon. Next day open up these cocks and the hay by twisting a bunch in the hand; if no moisture shows put in the barn. It will undergo a sweating process in the mow, but by leaving it undisturbed it will come out all right, and make hay of the finest quality.

These are useful if unfavorable weather prevails, and they will then repay their cost several times over. They can be made from 72-inch muslin, cut into squares, soaked in raw linseed oil, and wrung dry. They should have string loops on the corners, so as to fasten them to the cocks by wooden pins. Very thin muslin is best; for if thick muslin is used it causes the hay to sweat, and is no more effective in shedding rain.

Mt. Etna Erupts again
The eruption of Mount Etna has become more intense. The showers of ashes and cinders are heavier and the rumbling of earth-shocks at short intervals is heard for miles. The shocks are growing in violence and a panic prevails. The fear of the people is augmented by the great heat and suffocating atmosphere. All the country round about is covered with ashes and seems under an immense funeral pall. It is reported that three new craters have opened, but so far it has been impossible to ascertain whether they are emitting lava because of their high situation and the thick smoke that lies over them.

COUNTY COMMISSIONERS MEET

Many Matters of Interest Taken Up By County Seters

Board met Tuesday Sept. 5, 1911. Present Commissioners Dillard, Merrill, Woodruff and Branham. Upon motion Mr. Merrill was selected Chairman pro tem.

Minutes of the last meeting were read, approved and signed. Mr. Overstreet coming in now occupied the chair.

Mr. Humphries appeared before the Board in reference to raising the assessment of his personal property. The board declined to act, being advised by the Attorney of the board that they had no authority, the matter having passed out of their hands.

Communication from Gov. Gilchrist read in re-Miller prisoner and clerk instructed to answer.

Upon motion it was ordered that the Sheriff take into custody, Alonzo Moore and return him to the road camp for the completion of his sentence; the board being informed that the said Alonzo Moore is now in normal condition.

Mr. Moore presented a petition to change the road from Beulah to Gotha; upon motion the subject matter was laid over under the rules and the referred to Messrs. Dillard & Branham.

Letter from V. Schelz in reference to crossing at intersection of A. C. L. R. R. with lots 23, 24 and 34 St. Josephs received; upon motion subject referred to Messrs. Woodruff & Branham.

The subject of selecting automobile tags coming up, upon motion it was ordered that the subject be referred to Commissioner Overstreet, the Tax Collector and Clerk with power to act.

Upon motion it was ordered that the comptroller be requested to allow the redemption of "Beg. 193 ft. W of NE, cor. of SE 1/4 of SW 1/4 Sec. 10, Tp. 21 R 28, run W 67 1/2 ft. N 70 ft. W 26 ft. N to beg., redeemed at the flat sum of \$10.00 not including Clerk's costs, by H. H. Watherington, within 60 days, for the reason that the tax is excessive and owner wished to restore land to tax roll.

Upon motion it was ordered that the Clerk purchase the necessary matting for the court room pursuant to the recommendation of the grand jury.

Communication of T. W. Kenady read and referred to Messrs. Woodruff and Branham.

Communication and Dickinson & Dickinson in the matter of Thornton taxes received and the clerk instructed to notify Mr. Thornton that the valuation on his house and lot is not excessive, and that the individual certificates owned by Mr. Calhoun are not subject to the control of the board.

Bonds of the following to bears fire arms were approved and license ordered issued:

Carl B. Lin, Revolver, S & W 32 cal. No. 38774, Sureties A. B. Fulles, W. L. Meca; Geo. Hodges, Colts Army Special 38 calibre, blue steel 6 inch No. 334440; T. H. Harlock and C. B. Martin.

Wm. Holloway, S & W pistol, Sureties M. E. Weeks, F. F. Daubach.

Bond of E. C. Moore 1st Lt. Co. O. Nat. Guard of Florida, with S. J. Sligh and J. L. Feinburg as sureties in the sum of \$500.00 approved.

SIXTH VISIT TO SANFORD
Many self-styled specialists have made a few visits here and by false representation have robbed the sick of their money, but soon they are gone, never to return. Others will come and go, but we will continue coming regularly and cure our patients, as we have done in the past.

UNITED SPECIALISTS
The Celebrated Specialists will give Free Consultation and Examination at the
ROBBINS NEST
MONDAY
September 18
WE NEVER USE THE KNIFE
WILL RETURN IN FOUR WEEKS

Our visiting Specialist is a graduate of the best known institution in the United States. He has made a special study of the diseases he treats in the charity hospitals, which, together with his 14 years of special practice, makes him the foremost specialist of the day.

He Treats Acute and Chronic Catarrh—Ringing in Ears, Dizziness, Weak Eyes, Granulated Lids, Discharging diseases of the Eye and Ear.

Chronic Diseases of the Lungs, Heart, Stomach, Liver, Kidneys, Bladder, Bowels, such as Bronchitis, Shortness of Breath, Palpitation, Dyspepsia, Gastritis, Loss of Appetite, Sour Stomach, Constipation, Ulceration treated in the most scientific manner.

Hemorrhoids—Piles treated without the knife, and no detention from business.

Young, Middle Aged or Old Men suffering from Spermatorrhea and Impotency, the results of abuse in youth or later excess and other causes, producing some of the following effects: Debility, Nervousness, Emissions, Blotches, Dizziness, Confusion of Ideas, Aversion of Society, Defective Memory and Sexual Exhaustion, which unfit the victim for business or marriage, need Dr. Dickerson's advice and treatment, as he thoroughly understands these cases and knows how to cure them.

Epilepsy or Fits treated by best methods.

Diseases of Women treated in the most satisfactory manner. Our home treatment is pleasant to use, gives good results.

The Doctor Carries all His Portable Instruments, and comes prepared to examine the most obscure cases. Those who apply for treatment should bring along a small bottle of urine for examination, as it will assist in the diagnosis. Names of patients never published, but references gladly furnished on request. Consultation free and confidential, correspondence solicited and symptom blanks furnished on application. Address

IN AND ABOUT THE CITY

Little Happenings—Mention of Matters in Brief.

PERSONAL ITEMS OF INTEREST

Summary of the Floating Small Talk Succinctly Arranged for Hurried Herald Readers.

Born to Mr. and Mrs. C. G. Perry yesterday a ten pound boy.

Take in the picnic at Woodland Park next Thursday, and enjoy yourself.

Dr. J. C. Davis the optician, will be at the Robbins Nest Hotel next week.

Mrs. R. S. Keelor left on Wednesday for New York, where she expects to spend several weeks with Dr. Keelor.

Piling is being driven for the new coal chute, which is most pleasant news for the long suffering public.

Many strangers are within our gates this week, and the prospects for a fine season are most excellent.

Rev. J. F. McKinnon will preach morning and evening. All are cordially invited.

Capt. J. C. Higgins is recuperating at Hot Springs, and expects to remain for several weeks.

Capt. F. R. Murrell and G. O. Coffey have returned from the Eastern markets where they purchased a large stock of goods, for the Boston store.

J. F. Davidson, and H. J. Phillips of Cleveland, Ohio are among the visitors to the city this week.

The Sanford Traction Co., and S. & E. Ry., handled the large crowd at the Grower's Picnic in a satisfactory manner.

Mr. and Mrs. Ernest Maccabee and little son of Wichita Falls, Texas are the guests of Mr. and Mrs. George Speer. Mr. Maccabee will engage in the trucking business.

Mrs. Walter Fountain went to Sanford Wednesday where she will visit for some time.—Smyrna Beeze.

The many friends of Miss Lucile Richards are glad to see her home again and to know that she has recovered the use of her eyes.

Mrs. Yelzer and Miss Vivian have taken the Howard cottage on ninth St., and will move in town the last of the month.

Henry Peysor of the Barnhart Type Foundry, was in the city on Wednesday and sold The Herald some necessities.

Edward Hudwall, the well known shoe salesman was here this week. Mr. Hudwall lived in Orlando and Sanford before the freeze, and has many friends here.

The Alkahest Lyceum Course at the High School Auditorium promises some very fine attractions this year.

Mrs. A. E. Jones and little daughter of Winter Garden, who have been visiting the family of W. W. Long, left for their home Wednesday afternoon.

Mrs. C. E. Kemp and baby, returned on Monday's boat, from a stay of several months in Jacksonville. Dr. Kemp will arrive on Saturday.

Mr. Zachary of the Zachary Lumber Co., purchased a Cole 30 last week. Keely's Garage has disposed of several of these fine cars in the past few weeks.

Mr. and Mrs. Ashley Avant, from S. C., have arrived in the city. They expect to make Sanford their home. Mr. Avant is employed as train dispatcher from the Atlantic Coast Line.

Among the prominent visitors to the city this week, were Hon. N. P. Bryan, Hon. Frank Clark, and Prof. Rolfs of the Experimental station. All of them were guests of the Grower's Picnic, and enjoyed the day in Sanford.

Jas. W. Barnes Jr., the genial representative of the well known commission firm of Smith & Holden, is greeting his many old Sanford friends again. Mr. Barnes will be in the state all winter, and will make Sanford his headquarters.

Mrs. O. S. Pohill, after a pleasant stay of about four weeks in this city visiting relatives and friends, left Tuesday morning for White Springs where she will spend a few days at the spring, after which she will return to her home in Belleville, Florida.

Misses Carrie Ensminger, Clara Millen, and Nita Moore, have returned from Madison, where they attended the State Normal School. These young ladies are Sanford teachers, and believe in becoming more efficient by taking the summer normal course.

The Sanford Machine and Garage Co., has enroute two carloads of Everitt touring cars, which have been sold to residents of this city and vicinity. There are six cars in all, three of which are 36 horsepower at \$1,500 each, and the remainder being 30-horsepower at \$1,250 each. The purchasers are F. P. Dutton, Roy Simms, E. A. Bray, F. L. Pelot, and W. D. Holden, the sixth car coming as a stock car.

Many New Moose

The meeting of the new Moose Lodge of this city was held in the Masonic Hall Wednesday evening. About twenty new applications were received, and ten were initiated at the meeting.

The members express themselves as well pleased with the success this far and at the present rate this popular order promises to be one of the strongest in the city.

The next meeting will be held next Wednesday night after which the charter will be closed and the initiation fee will be advanced to the regular price.

Much of the credit for the success of the lodge to date should be given to National Organizer Mr. R. Lindemann who has worked faithfully and unceasingly to establish the lodge here, and whose efforts have been crowned with success.

Cunningham's Piano Department

In another part of this issue is the announcement that John A. Cunningham, of Jacksonville, has been appointed wholesale and retail distributor for the world-famed pianos manufactured by Steinway & Sons, and also the old reliable Mathushek, that has been before the public in the south for more than forty years.

These two famous instruments, along with the Kohler & Campbell pianos, and the Autopian, gives to Mr. Cunningham the strongest line of musical instruments in their respective grades, that is possible to get together.

The prices and terms on these standard makes are offered gives Mr. Cunningham's patrons the advantage of securing the best. Catalogues, prices and terms are cheerfully mailed to any address upon request.

From the West Side

On Thursday, after September 7th, the Westside Improvement society held a very interesting meeting at the Robbins Nest. There were fourteen ladies present, four new members added to the list, collections were very satisfactory, plans were discussed for a social in the park in the near future and a very interesting paper on civic improvement was read by Miss Flora Walker. There have been trees planted and paid for by families, one for each adult member and one for the children as a family tree, also junior society paid for one as a society tree. After the business session a while was spent socially before meeting adjourned.

Band Concert

The Sanford Military Band, will render one of their famous concerts in the City Park tonight at eight o'clock. An excellent program will be rendered, and every one is cordially invited to come out and enjoy the music, and cool breezes in the park.

Daffydills

C. C. Coffey rushed from the train the other day to The Herald office. Depositing his satchels upon the floor he grabbed the editor by the seat of the pants and he held him out at arm's length he shouted:

"If the moon had a little baby, would the sky rocket!"

Notice

All City Licenses will be due and payable October 1st, 1911. M. W. Lovell, City Clerk.

We make a specialty of framing pictures. Try us. Sanford Furniture Co.

Mrs. M. L. Allen left for New York Saturday, and will be away three weeks to buy her fall and winter stock. Wait for her.

5 or 6 doses "566" will cure any case of Chills and Fever. Price, 25c.

Place the titles to your real estate in the Realty Trust Company and avoid complications. For particulars address B. F. Whitner, Jr., Secretary.

Bring your old tires to Sanford Machine & Garage Co. for vulcanizing.

The nursing home at 8th and Elm Ave, is prepared to care for a limited number of surgical cases. Mrs. Wright, nurse in charge.

Just received a new line of Art squares, prices reasonable. Sanford Furniture Co.

We are equipped to handle your repair work. Sanford Machine & Garage Co.

Notice of Election

Whereas, petitions signed by more than ten per cent of the registered voters of election precincts 9 and 20, of Orange County, Florida, which are respectively located, have presented to this board at its regular meeting held Sept. 5, 1911, asking that an election be held in said precincts, for the purpose of voting upon the question of allowing wine to run at large in said precincts. It is hereby ordered by the board, that an election be held, as prayed in said petition, on the 28th day of September, 1911, to determine the question of allowing wine to run at large in said precincts. HIGH-GRADE GOAT BREEDING AN ILLUSTRATION OF THE RESOURCES OF VOLUSIA FARMS

We have just been reading a book on the "Mohair Industry of America," by Percy P. Vyle, of Jacksonville, Florida, and in conjunction with a recent article we read in the New York Herald relative to goats, it is possible that out of these comments some of our farmer correspondents and prospective settlers on Volusia Farms may be given a new line of thought.

The fine tract of mentioned resources of the fine tract of general farming land across the river from Sanford.

The book deals with the finer breed of goat called the Angora from which mohair is clipped—mohair being the technical name for the fiber of the Angora goat used in the manufacture of a variety of fabrics, either pure, or in connection with wool, silk, linen, etc., the shorter hair of the Angora is used in the manufacture of automobile tops, lap robes, etc. The odor noticeable in the common goat is entirely absent in the Angora; the odor in a fleece of mohair is milder than that in a wool fleece and is not at all offensive.

THESE GOATS THRIVE ON BRUSH AND SHRUBBERY. They could not live on fine pasture lands like cattle and sheep—their feed must be of a browsing nature.

With the opening of large acreages of wild land for farming and agricultural purposes, there is an enormous demand for Angoras in the middle west for clearing these lands of the brush and shrubbery.

In localities where the land is completely subside by brush the goat is considered of more value for the purpose of clearing it than for its mohair, its meat or skin combined. Goats will convert a wilderness into a pasture without expense to the farmer. Goats are even leased for this purpose in the west.

In Missouri, breeders are paying special attention to the production of Angora goats as live stock for the markets. Owing to the tremendous shortage of live stock in this country, there is a good profit, they assert, in the breeding of any kind of meat product.

As far back as Abraham's day, we read of goats being used for meat, and this, too, when there were many cattle and sheep. The reports that goats are sold to meat packers is true, but it refers to the Angora goat only.

The flesh of the Angora goat is exceedingly nutritious and palatable. The meat of the Angora competes with lamb from the fact of its exceptionally fine whole-some flavor.

Were this fact, says Mr. Vyle, more generally known, Angora goat flesh would be the world's favorite and popular meat. The only reason why these superior goats are not more often seen in the market reports of receipts and shipments is that they pass as sheep. Angora flesh commands the same price as the best mutton.

It is stated that Angora goats thrive best in high and dry altitudes as these altitudes have a beneficial effect on the mohair. Angoras require a great amount of exercise. They are exceptionally sensitive of restraint—the greater the exer-

cise the better the mohair. The point that occurs to us is this: Leaving mohair out of the question, why not introduce the Angora goat on Volusia Farms, first, for cleaning up the land, and second, for raising as live stock?

It is not likely that the Angora goat would do well on our lands if considered purely for its mohair, as all authorities agree that the Angora must have the rugged hillsides on which to climb.

In cleaning up land, however, we anticipate that they would prove of inestimable value. Pictures in the "Mohair Industry of America" show some wonderful effects of before and after—of lands covered with bushes and of those same lands cleaned up like a park solely through the medium of the Angora goat.

Homesteaders are making their herds do the work of clearing the land of brush for later farming operations, in other parts of the country, why not on Volusia Farms?

A subscriber, writing to the "Southern Agriculturist," desired to know how to exterminate wild onions, and a correspondent replied:

I wish to say to your subscriber that a small flock of Angora goats will do the work better and much cheaper than the method of the Department of Agriculture, and while the goats are exterminating the onions, they will also exterminate all other noxious weeds as well as at the same time spread a coat of rich fertilizer over the land. The Angora goat is the most economical I have ever found for wild onions and other troublesome weeds.

On Pine Key, near Tampa, Florida, Mr. H. H. Moloche has a herd of 100 head of goats. On this Key there is a very heavy growth of grass and other vegetation, and it is to get rid of this that the goats were placed there. We do not know whether Mr. Moloche's goats are Angoras or not, but we believe the Angora better suited to Volusia Farms than the ordinary common goat, because of the stock raising possibilities.

Angora goat raisers have been put into "circumstances" of comparative affluence by the scarcity of sheep and lambs, which has created a demand for their output at very remunerative prices. Lamb and mutton is a luxury in Florida only to be thought of—never eaten on account of its scarcity and its high price. Lamb chops sold for 35¢ a pound in Jacksonville last winter, while 25¢ was asked for the toughest mutton.

No Disease is Known to the Angora Goat. Farmers' Bulletin, No. 137, U. S. Department of Agriculture, 1901, page 23, says:

There is a deep-seated prejudice against the use of goat for meat. This is founded upon ignorance rather than experience. The most ill-smelling "billy" of the worst possible type is by many made the standard of goat meat for the whole of the goat family.

Shropshire lambs, which are considered among the best kinds of meat, are said not to be superior to a well-fed well-cooked Angora kid. In the Southwest, these animals are as readily sold for meat as sheep and the market has never been overstocked. In nearly every locality where they have been killed for mutton, there has never been a derogatory statement concerning its quality.

In Cape Colony it is said that the old does are slaughtered to furnish meat for

farm hands and young wethers are sold to butchers. In California many miners purchase Angora wethers in preference to sheep wethers for salting down for winter use, because, as they state, the Angora contains less fat, is more easily kept and is just as palatable.

So many inquiries have come to the Bureau of Animal Industry concerning the meat phase of Angora goat raising that the following facts from the actual producers. Answers to the question, "Do you have any difficulty in disposing of your surplus Angoras for meat?" were invariably in the negative.

IS VOLUSIA FARMS CLIMATE SUITABLE?

So far as temperature is concerned, no place has been found that is too hot or too cold for Angoras. Though not partial to heat, they will stand it quite as easily as sheep. Shade is essential where the sunshine is very warm. The climate in Angora, where the breed originated and is still supposed to flourish in its most perfect state, is extreme. A temperature as high as 85 degrees is registered there in summer. In the Cape of Good Hope, where Angoras are thriving well, the temperature goes higher in summer.

Almost any kind of soil, except wet and marshy land, is suitable for these goats.

Crossing the Angora bucks upon the common goats of the United States have been very satisfactory in many respects. Many of the large flocks of Texas and New Mexico have had Mexican does for their foundation. Why not success with the Florida goat?

According to the latest available statistics, Volusia county has only 124 goats, presumably of the common breed. Florida has only 40,210, so the opportunities there are in this State for high-grade goat breeding have not been extensively developed.

According to the New York Herald, some of the government's reasons for undertaking to develop the American goat are these—and this opens another phase of the question we have not touched:

"It is the unanimous opinion of milk experts that goat's milk is much better than cow's milk for invalids, children, cooks and nearly other purpose.

"It is of more nutritive value and more easily digested than cow's milk. It is absolutely free at all times from the germs of tuberculosis (bearing out what we said above that disease was unknown to the goat).

"Cheese made from goat's milk is of the choicest varieties and commands the highest prices.

Ask your grocer the price of Schweitzer, Roquefort, and other goat milk cheese.

Indeed, the possibilities opened up by this subject are so many that this Bulletin can only briefly dwell on a few. We firmly believe that, with care in the selecting a farmer can find as good land, absolutely dry and without marsh, on Volusia Farms as anywhere, and in addition, given attention and study, we believe Angora goat raising and by-products will prove very profitable.

Will YOU make use of this, only ONE of the many resources of Volusia Farms?

Birthday Anniversary

Dr. and Mrs. J. N. Robson, celebrated the first birthday, of their little Pearle, at their handsome home on the Heights, Monday afternoon, Sept. 4th, 1911. Quite a number of little tots were invited to help them do honor to the occasion, and enjoy the afternoon with them and the little hostess. The little folks were entertained at games on the lovely lawn, where Mrs. Stringfellow and Mrs. Fields, served them punch. Later the guests were ushered into the darkened dining room. The table was artistically ornamented with ferns and dainty little flowers. On the center of the table was a beautifully decorated cake, with the one little lighted candle on the center of the cake. After reviewing the pretty table, cake, and candle the little ones were taken back to the lawn and served with ice cream and cake, by Madames Graham, Dayles and Hill. The afternoon's pleasures terminated after playing several more games.

Monday afternoon, Sept. 11th, the little guests were again invited to be present, to witness the cutting of the birthday cake, and to enjoy it with baby Pearle and the photograph, that was to be made that afternoon, of the pretty scene, and the beautiful little children. After the cutting of the cake and the photograph was made the children were entertained on the lawn by Miss Nita Moore. Many games were played and ice cream and cake served the little folks who all expressed the wish that little Pearle would have a birthday every week.

At Bridge

Mrs. W. D. Holden, entertained a small bridge party, last Thursday afternoon, in the attractive and cosy new tea room, which was tastefully decorated for the occasion, by Miss Keelor, the proprietress. The predominant colors at the decorations were green.

There were two tables of bridge. Mrs. W. R. Anno, made the top score and re-

ceived the first prize, an exquisitely hand painted souvenir plate of Sanford, representing the Sanford House, park in front, and Lake Monroe, on which was a cute little boat. Mrs. O. W. Brady won the booby prize. The delicious refreshments were grape ice and chocolate cake. The dainty little napkins were very much admired by the ladies, they were designed and made by Miss Keelor, who is quite an artist. White crinkled paper was used, a band of gold was painted round the edge of the napkin, which when folded represented an envelope. Mrs. Holden's monogram in gold letters, represented the seal on the flap of the envelope.

Mrs. Holden's guests were, Mrs. W. R. Anno, Mrs. Forrest Lake, Mrs. O. W. Brady, Mrs. A. W. Brown, Mrs. C. O. McLaughlin, Mrs. O. W. King and Mrs. W. W. Prather.

A Delightful Evening

Tuesday evening, Miss Higgins entertained very informally for Miss Lottie Hurt, of Richmond, Va., the charming guest of Mrs. J. L. Hurt. The entire house was thrown open and tastefully decorated with ferns and evergreen. The card tables were placed on the veranda. Five tables were played. The refreshments were ice cream and cake. Punch was served during the evening. After playing cards for a while the young people indulged in dancing, also on the veranda.

Those invited to meet Miss Hurt, were Misses Belle Smith, Linda Leffer, Irene Brady, Gene Wicker, Veda Ward, Gelsie Butt, Eillian Gibson, Mable Hand, Mrs. J. L. Hurt and Mrs. Ed Higgins. Messrs. Nixon Butt, Braxton Perkins, Willie Leffer, Carl Hamilton, Jack Adams, Hal Wight, Willie Hill, Ed Higgins and J. L. Hurt.

A Surprise Party

The many friends of Miss Laura Lee tendered her a surprise party last Friday evening and although taken by surprise the fair young hostess, assisted by her mother, left nothing undone to make the evening most pleasant. At 9 o'clock the party repaired to the large and spacious dining hall where dainty refreshments served. Dancing and games were enjoyed. The party consisted of the following girls and boys.

Anna McLaughlin, Douglas Abernathy, Irene Thurston, Daisy Betts, Mabel Granger, Ruth Vaughn, Evelyn Burzer, Paul Jones, Willie Shepherd, Frank Woodruff, George McLaughlin, Frank Shelly, Harry Walker, Ernest Shepherd and Hugh Tillis.

Social at Walkers

On Monday evening, the young people of the Congregational church, were given a most delightful social affair, at the beautiful suburban home of Mr. and Mrs. C. R. Walker. Music, with a number of interesting games, was the principal entertainment of the evening. All who were so fortunate as to be present, seemed to have a royal good time.

At Gospel Tent

The illustrated Bible lectures at the gospel tent are attracting the attention, and interest of many of the citizens of Sanford. At times the seating capacity has not been sufficient to seat all that came to the meeting.

Mr. G. S. Vreeland, a sketch artist from Graysville, Tenn. has connected with the tent company, and will illustrate the subjects presented by drawings on the blackboard.

Elder C. N. Achenbach and wife from Palmetto, Fla., have just arrived, and he will preach Friday night taking for a subject the "Institution of The Sabbath."

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

Attacked by a shark Sunday morning at Pablo Beach, while he was swimming some distance out from the life line, the left arm of H. C. Rood, a traveling salesman of Hartford, Conn., was all but severed. A fierce battle ensued, and the plight of the man was noted by a number of other bathers who were close to the ropes. The race for shore started as soon as Rood felt the fangs of the shark, but the giant fish followed him in to shore trying to attack him further. Assistance was rendered as soon as possible, and he was taken to a hotel where first aid treatment was given. He was then brought to the city on the 1 o'clock train and dispatched to St. Luke's hospital in Conant's automobile ambulance for further treatment. There it was found that the muscles and tendons of the left forearm had been horribly mangled, but by chance the bones not broken.

A murder mystery as dark and gruesome as has ever been acted in Duval county confronts the sheriff's officers in their efforts to bring to justice the slayer of Cicero Thompson, and assassinated a woman companion of the dead man on Sunday night. Just after they left the Ortega car and started down the Morgan's mill road to the inn at the lumber plant, where the former was a boarder and the latter a domestic, late Saturday night.

The date for the celebration of the completion of the great Oversea railway to Key West has finally been set. It will begin on January 29 and continue through February 3. President Taft is to visit Key West during that period, and many representatives of foreign powers are expected to attend and contemplate the magnificent engineering triumph.

A bob-tail wildcat that has been causing havoc for some time among the poultry owners at Daytona Beach, was captured in a steel trap Monday night by John N. Gunn. The cat measured three feet from its nose to the end of its short tail and was 18 or more inches in length. These bob cats are ugly looking animals and are very destructive to poultry when they once get started upon a flock, even taking the chickens in broad daylight.—Daytona Gazette News.

Tampa's budget for the coming year carries \$544,250. The tax rate is 17 mills for the old and 13½ mills for the new territory.

The plasterers in Jacksonville have gone on a strike for higher wages, and building operations have been paralyzed in that city since Monday on account of the strike. Plasterers from other cities are being imported in order to remedy matters.

Chas. Da Costa, a prominent employing printer and stationer of Jacksonville died last Saturday in that city.

A Tallahassee correspondent has discovered that the recently enacted law forbidding the publication of the name of a woman who is the victim of an assault also covers similar occurrences in other states so far as Florida papers are concerned.

Messrs. F. E. Harris and R. S. Hall will sail October 7 on the Mohawk from Jacksonville for New York for the Glidden tour, in which Mr. Hall expects to make Ocala heard from. They will occupy the "bridal suite" on the Mohawk.

If the Florida counties of Leon and Wakulla decide to fall into line with Sumter, Dougherty, Mitchell and Thomas counties in Georgia, the next future will see build a line of road from Americus, Ga., to St. Marks, Fla., that will be unsurpassed by any in the south.

Duncan Frierson, aged twenty-five years, son of Rev. and Mrs. J. D. Frierson of Brooksville, accidentally killed himself Tuesday afternoon while cleaning a 38-caliber revolver.

A would-be assassin attempted the life of R. O. Meek, one of the most prominent citizens of Kissimmee Tuesday night. The shot intended for Mr. Meek just missed him. The party who fired it escaped, evidently believing that he had accomplished his deed. Mr. Meek's escape from death was by inches.

PLEASANT TRIP TO THE BEACH

Party of Sanford Citizens Motor to Smyrna and Coronado

G. W. Spencer, J. T. Davison, W. H. Underwood, P. M. Elder and R. J. Holly made a trip to Coronado beach last Saturday in Mr. Spencer's Overland car. Leaving Sanford in the afternoon, Celery avenue was first encountered and this was easily the worst road to encounter in the whole trip. The road gang is busy here breaking up and grading the road and when completed there will be a much smoother roadway. At the ferry the party was greatly surprised at the good work done in making a new trestle and banked roadway to the main channel of the river, and even with a ferry for the short distance the improvement is great and the county commissioners are to be commended for this move toward a better bridging of both channels. Being landed on the Volusia side the road was found to be in very good shape although no hard surface has been spent on the crown and the road gang has left the work unfinished in order to make a road at Trahaer's ferry—a work, by the way, that will not be fruitful of results for several years. Our only bad piece of road was at Deep Creek where a quantity of soft sand had been banked up on a small ridge and the car had difficulty in keeping on top, but all hands jumped out and pushed the wheels out of the rut and the Overland responded in good shape. The new road to Smyrna is a most picturesque one through level stretches of prairie lands and piney woods and not a soul was encountered on the road from Deep Creek to Indian Springs. A blow out took up some time, but was soon repaired, and as the shades of night were falling the party rolled into Smyrna and across the bridge to Coronado beach where a fine supper awaited them at the Atlantic House. A ride down the beach and a rest on the porch and the salt-laden air brought on that delicious drowsy feeling and several of the party prepared to retire. But such was not to be for the jokers of the party supplemented by J. H. Overman who was also at the hotel presumably to fish, decided to keep all hands awake and they filled Holly's bed with sand crabs and fiddlers and in the hunt for the elusive animals the hotel was kept in an uproar. Early the next morning several members took dip in old ocean and there is no better beach in all the world for this great pleasure. Spencer and Underwood, were denied this pleasure as no bathing suits large enough for them could be found. Before breakfast another ride down to Red Shell was indulged in and the bunch raced into the dining room prepared to clean up everything in sight and they did. After breakfast the car was taken again and New Smyrna and Hawk's park were taken in and the sea wall and other improvements noted. The car was then turned toward Daytona beach down the beautiful shell boulevard the entire distance of fifteen miles and arriving at their destination another dip in the surf was taken in which Spencer played the leading part. He was enabled to squeeze into a No. 48 suit and it fit him so quick that he almost creaked when he walked. While standing in water up to his knees Jack Davison urged him to get on his hands and knees to learn to swim and about that time a huge breaker struck him amidship and rolled him on the beach like a barrel and almost tearing his bathing suit off. The boys had great sport with the big one and everybody on the beach enjoyed seeing Spencer in his suit.

After a fine dinner at the Daytona beach hotel the party started home via the Daytona-DeLand route and although no cold drinks could be obtained in DeLand the boys managed to make a pleasant trip and arrived home safe and sound in time for supper.

To anyone wishing to spend a day or so this trip to Coronado beach via the new road and back by way of DeLand offers a most pleasant vacation.

Wants Pictures of Sanford

The Times-Union of Jacksonville are anxious to secure pictures of the business blocks and good residences of this city. If those who have pictures of their houses or business blocks will hand them to Mr. T. K. Bates or leave them at the Herald office they will be sent to the Times-Union and half tone cuts made and used in that paper free of charge.

This is an excellent way to boost Sanford and the people here should take advantage of this offer and show readers of the Times-Union what we have at Sanford.

TOWARD FLORIDA

The Eyes of The People Are Turning This Way

MANY PEOPLE WILL BE BUNCOED

Those Seeing Lands in This State Should Be Sure Of Their Purchases

Every transportation company, every railroad, every automobile man, and every hotel man is imbued with the idea that never in the history of land rushes will there be such a record season as 1911-12. The people of the east, north and west are planning to take advantage of the very low rates on all railroads to Florida this fall and the rush will commence about October first and continue until April. In this general exodus from the colder regions there will be the home-seeker and the tourist. The latter can always take care of himself but the former is not so fortunate. He seeks land for a living and listening to the siren song of the land fakir, "all land looks alike to him" and he is more than apt to join the procession of "home-suckers" in a year or two and wend his way northward a sadder but wiser man.

Florida is like every other state in the union. It has good lands, bad lands and indifferent lands and yet there is no land in any country that will yield so many crops or such abundant crops as an acre of Florida land—land that is subirrigated, well drained and good land, but it must have these requirements.

The land suckers who were lured to the poor lands by the flowery advertisements of the fakirs and then buncoed have only themselves to blame for they were put wise by all the state papers of Florida and by the honest real estate dealers.

No advertisements of Sanford lands have ever misrepresented the facts about the lands in this section and crop failures have never been attributed to the poor quality of the lands. See your land first!

ONLY A FEW DOLLARS

Will Build Connecting Link of Road To The Wekiva

Only three miles of soft sand separates us from our sister county just beyond Silver Lake and a small sum of money will straw this road and join this part of Orange county with Lake.

There is a good road now from Sanford to Silver Lake and about \$300 will straighten the road and straw it. All the trade from Lake coming this way and all the tourists will use this road and if the three miles can be strawed a fine road can be assured to the man who travels from Lake county to Orange. Going the other route via Orlando all of the tourist travel will take the road to Sanford and return home via the Silver Lake route to the Wekiva river and thence to Lake and Marion counties making a continuous thoroughfare of trade and travel.

The Orange county commissioners should take up this matter and straw the three miles as soon as possible. There will be a great increase of trade as a result of the new road and the inhabitants of both counties be benefited thereby.

Presbyterian Church

Rev. J. F. McKinnon will preach morning and evening. After the meeting service there will be a congregational meeting to act upon the resignation of the pastor; and to take steps for securing his successor.

The Presbytery of St. Johns will meet with the Sanford Church Tuesday Oct. 10, at 7:30 p. m.

Messrs. D. A. Caldwell, N. H. Garner and Harry Ward, and Mrs. Frank Woodruff, Mrs. Dr. Puleston and Miss Mell Whitner have been appointed by the session as a committee to provide for the entertainment of Presbytery. Mr. J. N. Whitner was chosen to represent the Sanford Church in Presbytery, and was made ex-officio a member of the committee. Mr. A. B. Brock was chosen as alternate to Mr. Whitner.

A full attendance of members upon the congregational meeting is desired. All invited to the services of the church.

Sumter county's school board has let the contract for a fine modern new high school building to be erected at Webster at a cost of ten thousand dollars.

IN UNION THERE IS STRENGTH

The Florida Vegetable Growers Association Means Salvation

If one will but read the signs of the times aught he can see that we are on eve of a great contest and uprising. The unrest in the world of toilers, the struggle for an existence, the clamor for increase of wages and better working conditions, the unfair and unequal division of profits, on the one hand, and on the other, the greed of individuals and corporations, the haughtiness and arrogance of the inordinately rich the method of putting all the burden on the toilers and all luxuries in the grasp of the rich, these all can have but one meaning outcome, and that the organization of the toilers for mutual protection and preservation.

The truck-growers of the Sanford district a year ago succeeded in effecting an organization for the purpose of securing the better marketing of their produce. It was hoped this would bring great results in securing better prices. While all was not accomplished that was desired yet some progress has been made. We have seen what might be done by a closer and more loyal organization. We have also learned that organization is not all that is needed. Loyal support and hearty cooperation also will do much to obtain the desired results.

The present board of directors of the Florida Growers Association, relying upon the support and cooperation of all growers of vegetables in this district, are proceeding carefully and economically to build up a strong organization. To this end we have worked along two lines viz. the curtailment of expenses and fostering a strong selling agency. We believe we shall be able to greatly decrease home expenses. This we are doing by cutting out various clerks and office expenses. We have so far not availed ourselves of the right given by the constitution and by-laws to pay ourselves two dollars each for each meeting of the board thus effecting a saving of \$225.00 to date. Other items could be mentioned.

We have paid debts we inherited as fast as we could get funds to do so, there being but two or three creditors of any considerable claim left.

It must also be remembered that we took hold just as the selling season was closing giving us no means of raising funds, and aside from a few cars of stuff we have had only some bad potato claims to collect and some rebates from certain commission men by which means we have been able to keep going at all. If our friends of organization will stand by us we believe we shall be able to accomplish far greater results the coming season than was secured last year.

Let not any be deceived by that will-o-the-wisp, delusion that has been offered from time to time of a contract for certain minimum prices with the benefit of the market. It is the same old device of the commission trust to keep the growers under their thumb, try their sincerity by asking them to put up a bond that they will take all the marketable product from five to ten acres at the price and see if they do not hedge.

We have a plan to affiliate with the state Citrus Exchange which if accomplished will put our members in touch not only with a strong selling agency, but one that is the best equipped for distributing its products of any agency in the state.

Then, too we will cut out all but the package charge, all commission and brokerage charges, and it is believed we will be able to get cheaper freight rates. Keep your eye on this movement and see if you will not all want to get in the band wagon.

Your board is doing everything possible to advance the interests of the growers and asks only that you stand loyally by it. We know how you are placed between what seems an uncertainty and a seeming sure thing. It is only seeming in either case. Try another season.

But few members so far have left the organization and they because from one cause and another were, most of them, ineligible to membership. Our office at the rear of the Peoples Bank will be open Oct. 1, where there will be someone present to greet you and give you information which we may be able to come around, until Mr. Hughes, our president, returning the writer may, from week to week give you in the Herald, any facts of interest.

L. J. HANCOCK,
Vice President.

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

Omaha, Neb., is one of the larger cities of the progressive west to adopt the commission form of government. The vote was more than two to one in favor of the change and the election of officers under the new form will occur next May.

Thirty-six saw mills in Texas and Louisiana are now closed and it is feared this number will be increased to fifty unless there is a decided change in the status of the dispute between the mill owners and the timber-brotherhood.

It is stated that a society belle at Newport vaccinated herself in the inside of her mouth because it was the only part of her person where the scar would be sure to remain unseen with the present style of dress.

The controversy that has been raging around Dr. Wiley, the pure food expert, has at last been brought to a conclusion in a complete and final vindication of the doctor; and he will not be dismissed nor permitted to resign. The president has made known his decision in the form of a letter to Secretary Wilson, the head of the department, which letter has been made public. It sets aside the recommendation of the board on personnel of the agricultural department, which had recommended the dismissal of Dr. Wiley, and instead of censuring the doctor, the president praises him.

A new crusade to evangelize the American continent, financed by a group of men worth more than a billion dollars, will be formally launched at a meeting to be held in New York. The conference will be preceded by a dinner, at which various public men, some of them ministers of the gospel, will give their views as to the best means by which the country could be evangelized.

The Russian Premier, Peter A. Stolypin died Monday night from bullet wounds received at the hands of Dmitri Bogroff, an assassin, during a gala performance at the Municipality Theatre Thursday evening. The official time of his death was announced at 10:12 p. m.

Ward, Rogers, and Fowler, the aviators who are contesting for the \$50,000 purse, for a flight from San Francisco to New York, have all been forced to descend for several days, on account of accidents.

King Alfonso has signed a decree suspending the constitutional guarantee guarantee throughout Spain. This is equivalent to declaring the country under martial law. This act was taken promptly to give the government power to deal sharply and promptly with the revolutionary agitation forming in many parts of Spain, especially in the cities and industrial districts.

A Fine Automobile Trip

Mr. and Mrs. D. L. Thrasher and little daughter May, returned to the city Wednesday night from a most delightful summer outing. Several weeks was spent in Hendersonville, N. C., from there a short visit was made in Baltimore, another in Atlanta, from which place, they started Saturday noon, for home in their automobile, which Mr. Thrasher had taken to Hendersonville, early in the summer. They came by way of Macon, Ga., making a first stop in Fort Valley, when another stop in Thomasville, the route continued through Lake City, Madison, and Gainesville Florida, which place they left Wednesday noon for Sanford, reaching here last night. The pleasure of the trip was unmarred by any accident, or incident, worthy of note, other than that they were lost for a short time, after leaving Madison Florida.

Time For a Change

Otto H. Hell of New York, will be known as Otto H. Hill after October 9. Mr. Hell applied to Judge Grant to have the name changed. He said he wanted to open a confectionery store and have a large electric sign, but could not stand the idea of it reading "Go to Hell for your candies!" The Judge agreed with him, and told him to come around on October 9 and get his new name.
