Turkey Agrees Dard- anelles Will Be Open To French, English

The sensational declaration by the first lord of admiralty that naval anti-aircraft guns had been manned "to be ready for anything" created an exceedingly delicate situation for Great Britain today—concerned by German expansion and in the midst of defense talks with Poland.

Chamberlain told the House of Commons he gave directions for British warships to suppress or discount any suggestion of a discount on the guns because it gave an incorrect impression. Chamberlain said he acted to spare the public unnecessary agitation.

The Prime Minister's tendency toward the incident as a minor episode left the impression that the position in the cabinet did not be improved.

The British Foreign Minister, Lord Joseph, returned today with the British foreign minister, for the part of the "top" matter. France was reported to have given new assurances to Germany.

It was understood Turkey had agreed to keep the Dardanelles open to French and British warships in war time.

Town Of Oviedo Requests Relief On Bonded Debt

Routine Business Is Handled At County Commission Meet

L. E. Jordan, Oviedo town clerk, and E. H. Farnell of Oviedo, requested permission of the County Commissioners at their regular meeting yesterday to submit to the Legislature a bill providing for the cancellation of interest on \$3,000 in bonds which are held by the Board of Administration as an investment by the County.

The interest on the bonds has accumulated until the total principal and interest amounts to \$9,000 and the town seeks cancellation of the interest on the road and bridge bonds so that some plan might be worked out for payment of the principal. The Commissioners agreed that they would not oppose such a measure.

Paul Higgins, convict captain, was granted permission to spend not more than \$40 for construction of a dog house at the County convicts camp for the County's bloodhounds.

The Board approved a donation of \$10 to cover the expenses of a trip of local 4-H girls to Tallahassee.

The Wright Grocery Company was awarded the contract for supplying the monthly supplies to the Seminole County Jail.

Frank T. Williams, engineer, was instructed to make arrangements for an asphalt distributor from Orlando for use on the Sipes Avenue and Country Club road projects now being carried to completion by WEA crews.

Permit was granted the U. S. Department of Interior for constructing a water gauge house on the Escalochatchee River at a point near a County highway. The gauge will be used to measure the flow of water of this St. Johns tributary.

The Board approved a contribution of \$100 to the Sons of the Legion Drum and Bugle corps to help defray the expenses of taking the corps to the state American Legion convention in Fort Lauderdale next week.

PAT HITLER

William Patrick Hitler, above, son of Adolf Hitler's military aide, arrived in the United States to lecture and write and reported that his father "has a military feeling even toward his relatives."

Dr. L. M. Spivey Speaks At Lunch Of Kiwanis Club

Speaker Says Production Of Highest Men, Women Necessary

"Man is the measure of all things," Dr. Ludd Spivey, president of Southern College today told the members of the Kiwanis club gathered at a regular weekly luncheon. He declared in his address "that we must major in the production of the highest type of men and women, who are the only way in which we can hope to solve the problems of the world."

The speaker emphasized the fact that checks and balances are needed in everything, since two of anything tends to improve the quality of both, whether it be one church, one flag, or one system of schools. Therefore, he said, there should be state and church schools to act as stimulation for each other for the good of the state.

He explained that he had headed one such church institution for the last 14 years. As the president of Southern College he has attempted to aid in the production of the highest type of men and women needed in this day and age, pointing out that in the course of the last 14 years the faculty feels justly proud of the 1400 graduates of their school who have left the campus for the facilities of the public schools of Florida.

To further improve their production of this type of womanhood and manhood, the speaker went on to mention the new 14 building college named for E. Stanley Jones with its 20 acre campus located on the 80 acre campus of Southern College at Lakeland. The construction of this college was planned and is in charge of Frank Lloyd Wright, world famous architect, who is directing the work on what the speaker has termed "the most beautiful chapel in the world."

This school, the speaker continued, will be devoted to the production of the type of men and women needed today as exemplified by the ideals this new American led who went to India and made a great man of himself. He became widely known for his books, the first of which was "The Small Book of the Indian."

Dr. Spivey reminded the club that all of the work on the school is being financed by contributions from people who, though they may not have heard of the school, have known of the man for whom it is being named.

State Senate Votes Down Economy Move

House Votes Against Additional Attaches; Local Representatives Head Groups

TALLAHASSEE, Apr. 5.—(AP)—The Florida Senate today beat down by a 22 to 18 vote an attempt to economize on the number of its employes while the House voted a limit on attaches.

The Senate decided to continue last session's policy of allowing each member to name five attaches, after a sharp debate on a proposal to allow seven each.

In the House, the vote was 50 to 45 against increasing the allotment from one attaché to each member to three.

The Senate Rules Committee, which proposed to limit the attaches to four, said its move would cut down a payroll of that body which aggregated \$143,473 in 1937.

The House recessed until tomorrow to allow committees to organize while the Senate met again this afternoon for further consideration of rules.

In the appointment of legislative committees yesterday, state Senator J. J. Parrish of Titusville, representing the district which includes Seminole County, was made chairman of the citrus fruit committee.

Seminole County Representative H. J. Lehman was named chairman of the county organizations committee and Rep. John G. Leary was named head of the prison and convicts committee.

Endorsement of a sales tax for Florida and opposition to the levying of a state income tax on incomes of \$5,000 a year or more were the recommendations of the Executive and Finance committees of the Seminole County Chamber of Commerce which will be given to the board of directors for consideration at its meeting next Tuesday night.

Ralph Hagwell, secretary of the Seminole County trade body, said today.

The committee also recommended that the board of directors endorse a proposed budget increase for the local Experiment Station (Cery Laboratory).

DEATH PYRE FOR FLIERS

Here is the shattered wreckage of a plane in which an airman was cremated after colliding with another craft yesterday at East Baintree, Mass., costing four lives in all. The naval planes collided almost at the moment that the aircraft was christened, bringing a tragic end to the ceremony.

Proposed Laws Get Action By Chamber Group

Recommendations To Get Consideration At Directors Meet

Endorsement of a sales tax for Florida and opposition to the levying of a state income tax on incomes of \$5,000 a year or more were the recommendations of the Executive and Finance committees of the Seminole County Chamber of Commerce which will be given to the board of directors for consideration at its meeting next Tuesday night.

Ralph Hagwell, secretary of the Seminole County trade body, said today.

The committee also recommended that the board of directors endorse a proposed budget increase for the local Experiment Station (Cery Laboratory).

A request of the Atlantic Peninsular Corporation for a resolution endorsing the proposed harbor at Canaveral was referred to the directors for action.

Ways of co-operating with the Episcopal Church in holding the 17th annual convention of the Diocese of South Florida on Apr. 25-27 were discussed and the assistance of the Chamber was pledged to the entertainment of the 300 or more delegates expected to attend the convention.

In endorsing the proposed sales tax for Florida the Chamber approved the report of the Legislative Committee which is as follows:

"The State of Florida should abolish all taxes, city, county, and state, ad valorem, excise, license, or occupational, of any kind or character, except the gasoline tax, the tax on alcoholic beverages and some forms of real estate, and adopt in lieu thereof a single tax, whether called a transaction tax or a sales tax or a use tax, applicable to all alike, with a top percentage not to exceed three percent, and that the amounts received be allocated to the state, the cities and the counties, in an equitable manner."

Annual Membership Drive Of Jaycees Begins Today

Plans for the annual Junior Chamber of Commerce membership drive, which begins today, were completed last night at the Jaycees meeting in the Valdez Hotel with the following two teams selected: Team No. 1, general, Jesse Lodge, and adjutant general, Jimmie Rowland; Team No. 2, general, E. E. Laney, and adjutant general, Henry Witte.

An announcement today by H. J. Powers, president of the organization, revealed that the Jaycees will enter into no promotional activities for raising funds this year and will rely entirely upon revenues derived from membership to carry on the activities of the civic body.

Mr. Powers stressed this point in an interview today and expressed the view that the action should receive a favorable response from merchants who, in the past, have been asked to participate in fund-raising schemes.

The meeting last night, which was well attended, also saw the appointment of John Schirrad as chairman of the Welfare Committee; Jack Finnell and Clyde Ramsey as members of the Legislative Committee; and Joseph O'Conner as treasurer, following the resignation of Clyde Parker.

Plans were also made for the annual Jaycee City Championship Golf Tournament, arrangements for which are being handled by Andrew Carraway, chairman, assisted by Kaylie Housholder and Raymond Lundquist.

The quarterly rounds of play are scheduled to get under way Saturday and Sunday at the municipal golf course and a worthy representation is expected to be on hand to compete for the silver trophy, now in the possession of G. W. Spencer, who won it last year. Competition will be divided into three flights, players in which will be designated by Bert Fort, manager of the course, according to handicaps.

Members of the group attending the meeting were: George D. Bishop, Otto Caldwell, F. Z. Corser, H. James Gut, H. E. Papp, A. O. Rhinshler and Ralph F. Bagwell.

\$100,000,000 For Relief Is Given Okey

Factions Are Expected To Agree On Huge Sum Recommended By Senate Committee

Neutrality Act Bout Is Started

Stimson Explains His Views To Foreign Relations Group

VERSAILLES, Apr. 5.—(AP)—Sixty-seven year old President Albert Lebrun of France was re-elected today for a second seven year term, breaking a half century tradition of one-term presidents. The national assembly accorded him 596 votes of the 900 ballots cast.

Lebrun was prevailed upon to stand for re-election as a demonstration of national unity before the uncertain European picture.

WASHINGTON, Apr. 5.—(AP)—The Senate Appropriation sub-committee voted unanimously to recommend \$100,000,000 relief appropriation. That sum was voted by the House after President Roosevelt had requested \$100,000,000.

Members of the sub-committee said the \$100,000,000 allotment would receive general support from both Administration supporters and economy-biased senators.

Administration floor leaders previously had spent a conference \$125,000,000 appropriation. The session's big bout over neutrality legislation began today with Henry L. Stimson, former Republican secretary of state, and champion of "affirmative action" against the Fascist nations, explaining his views to the Senate Foreign Relations Committee.

His testimony was generally expected to emphasize at once the Senate's fundamental division of opinion on the subject by producing a searching cross examination from such advocates of isolation as Senator Borah, Republican Idaho, and Senator Republican, California, the ranking Republican members of the committee.

While a series of proposed amendments to the present neutrality law are pending, the real issue to be decided is the question how much freedom of action President Roosevelt is to have in charting this country's course, if and when war breaks out abroad.

The administration makes no secret of the fact that it wants more latitude than the present law would permit. And, because of President Roosevelt's evident disposition to help the democracies of Europe resist aggression by the continental dictator states, the isolationists are fearful that if such freedom of action is given it may eventually lead the country into a European conflict.

Hydrophobia Strikes Two More In Big Herd

MASCOTTE, Apr. 5.—Two more of the herd of 500 cattle in which rabies was discovered last week became sick yesterday—apparently the 18th and 19th victims of the deadly hydrophobia. States Attorney J. W. Hunter of Tallahassee yesterday to see if the State would furnish the anti-rabies vaccine necessary to inoculate the cattle.

Eleven persons who were exposed to the disease are now taking the Pasteur treatment. The vaccination of dogs in this section, scheduled for yesterday will be done today instead. Ground dogs will be vaccinated Thursday, and those in Clermont, Friday, under orders of the State Board of Health.

LOCAL WEATHER

Partly cloudy, possibly scattered showers near the extreme south coast tonight and Thursday and in the afternoon next; most portion Thursday slightly warmer in the west central and northeast portions tonight.

Legislative Proposals

Gov. Cone did not appear in person at the opening session of the State Legislature to read his biennial message to that body as has been the custom from time immemorial.

For the most part the Governor's message was an orderly conservative list of recommendations for the welfare of the State with which few people could find cause for complaint.

The Governor made a number of recommendations which have been heard before, among the more important of which, particularly to cities like Sanford, was his suggestion that some of the tax monies now collected from automobiles be returned to the municipalities for the repair of their streets.

There is much to be said in favor of the Governor's recommendations. But it will require strong leadership to secure the enactment of any such program, or to prevent the enactment of other measures not on the program.

What may come from the current session of the Legislature in the way of taxation and appropriations remains as much in the dark as ever.

The Next War

While another world war might solve the unemployment problem by removing the unemployed, there are some other factors which ought to be considered before the campaign actually gets under way.

- 1. All government officials responsible for declaring war shall be drafted in the shock troop regiment.
2. Each battleship, cruiser, destroyer, submarine, and war plane shall carry as excess baggage one or more stockholders in armament-building concerns.
3. All manufacturers of war munitions shall be sent to prison when their profits reach a million.
4. All ministers and rectors who announce to their congregation that "God is fighting with us," shall be dispatched to the front, to "fight with their God."
5. College professors who delve into history to prove the enemy "always was a lowdown scoundrel, anyway," shall be appointed spies in the enemy's ranks to prove it.
6. War correspondents and secret service men who discover all sorts of horrible atrocities shall be sent into "no man's land" to secure concrete evidence for historical purposes.
7. Secret service men who discover an "enemy plot" every time somebody turns on a light in the parlor shall be sent across the lines, because of their superior instinct and knowledge, to install similar plots in the enemy's country.
8. The cause of the war shall be clearly stated to the nation as the enrichment of the manufacturers of war supplies, and not disguised as "a holy war to make the world safe for democracy."

Seminole Faculty To Play PTA Squad

Plans for a soft ball game between the Seminole High School faculty and mothers of the high school Parent-Teacher Association on April 17, were made yesterday afternoon at the regular meeting of the organization which was held at the school at 2:30 o'clock, with Mrs. F. E. Roundhill presiding.

A nominating committee announced the following new officers for the coming year: Mrs. E. B. Carter, president; Mrs. Fred Dyson, vice-president; Mrs. M. N. Cleveland, secretary; Mrs. Forrest Gatchel, treasurer; Mrs. G. E. McCall, historian.

Mrs. W. W. Gotsch, program chairman, presented an institute sketch, given by Mrs. C. F. Proctor and Mrs. Fred Dyson. Mrs. Gotsch also gave an interesting home forum, assisted by the following members: Mrs. W. P. Chapman, Mrs. Forrest Gatchel, Mrs. F. B. Carter, Mrs. Oscar Harrison, and Mrs. Mary Stone.

Mrs. Volle Williams read a letter from the State Legislative Committee, comprised of Mrs. Katherine McClellan, state president, and Mrs. Beatrice Parvin, state parliamentarian. The message urged the support of the passage of several bills.

Mrs. Roundhill asked all local chairmen to submit their yearly reports to the state chairman.

Mrs. J. N. Trenet, secretary, was asked to issue an invitation to the Junior High Parent-Teacher Association, Mrs. J. C. Ingley, inviting to the next meeting all parents who will have children in high school next year.

The finance chairman, Mrs. Williams, reported \$9.05 cleared on a recent rummage sale, and \$9.78 made from sponsoring a movie jointly with the Junior High Parent-Teacher Association. Reports were also heard from various other committees.

Professor G. E. McKay announced that the senior play, "The Open Door," will be given on Apr. 18 and 19. He urged everyone to come and lend support as it will be the class' last school play. Minutes of the previous meeting were read and approved. Professor McKay led in prayer, and several songs were sung by the assembly.

Schools May Get Share Of DuPont Taxes

Senators Would Earmark \$1,250,000 For Use In Educational System Of State

Lawmakers Given Finance Measures

Repeat Of Ad Valorem And Gross Receipts Tax Asked

TALLAHASSEE, Apr. 6.—(AP)—Three senators today called upon the Florida Legislature to earmark for the public schools \$1,250,000 of the more than \$2,000,000 which the State collected late yesterday in inheritance taxes from the Alford I. DuPont estate.

Senators Hodges of Tallahassee, Whitaker of Tampa and Black of Gainesville made the suggestions as the Legislature received scores of bills and resolutions proposing many changes in affairs of the State, county, city and district governments.

They asked immediate consideration of the proposal. Hodges said the collection of almost \$2,000,000 from the DuPont estate will leave a book balance of more than \$2,000,000 in the general fund.

There was a deficit of more than \$700,000 in the general fund Mar. 31 and Comptroller E. A. Smith estimated that would grow to \$2,000,000 by the end of the fiscal year June 30.

Hodges obtained a 19 to 17 vote for a waiver of the rules to allow immediate consideration but the required two-thirds majority was not obtained.

Among the numerous finance measures placed before the lawmakers were proposals for a State Tax Commission, for the elimination of all State ad valorem taxes on real estate, repeal of the one-half percent gross receipts tax, an increase in the levy on chain stores and the apportionment to cities and counties of part of the funds received.

Local Boys Seek Offices In Vote At Gainesville

Two Sanford boys, Louis P. McCuller, Jr. and W. B. Zachry, Jr., are listed among the 110 students on the University of Florida campus now campaigning for the 87 student body officers to be decided in the school's annual Spring election today at Gainesville.

Louis McCuller, a junior in the College of Business Administration, is the son of Mr. and Mrs. L. P. McCuller of Cleveland, Ohio, formerly of Sanford, and nephew of Miss Emma Owen of this city. He is listed on the University Union Party ticket as a candidate for one of the two vacancies on the honor court from his college. He is a member of the Phi Eta Sigma and Fraternity Club scholastic societies. He was a member of the Executive Staff last year, and also made the class list for the past two years.

W. B. Zachry, Jr. is a sophomore in the general college and is a candidate for the athletic council of the university. He plans to enter law school next year, and at present is a member of several debating teams on the campus, as well as the Glee Club, an athletic club. He is a member of the Phi Kappa Alpha social fraternity, and last year was mentioned in the year book as the son of Mr. and Mrs. W. B. Zachry, and winner of the honor society award last year.

Among the numerous finance measures placed before the lawmakers were proposals for a State Tax Commission, for the elimination of all State ad valorem taxes on real estate, repeal of the one-half percent gross receipts tax, an increase in the levy on chain stores and the apportionment to cities and counties of part of the funds received.

With bayonet, Corp. Paul Gamino of the 45th division of the U. S. National Guard (Oklahoma, New Mexico, Colorado, Arizona), rips a swastika from his sleeve. The emblem was originally adopted as a good luck symbol from American Indians, but public resentment against German Nazi activities has caused 45th to abandon it.

Legislators Urge Southern Head Adoption Of Old Age Pension Plan

Resolution Of House Cites Benefits Of Townsend Proposal

TALLAHASSEE, Apr. 6.—Congress was urged in a memorial adopted by the House yesterday to pass the Townsend pension plan.

The memorial was sponsored by a number of representatives, and was adopted finally, after much vocal changing, by a vote of 70 to 11.

On roll call a number of representatives voted in the negative, but chairman Carl Vinson gave the official roll call was recorded.

The resolution said the plan would: (1) Provide employment for millions of persons now idle by increasing production and withdrawing large numbers of elderly people from the field of productive activity, thus creating new opportunity for youth of our land and making unemployment benefits unnecessary; (2) Greatly reduce crime, thus saving billions of dollars expended annually for the endorsement of law, maintenance of numerous prisons, reformatories, and protective agencies; also saving tremendous direct losses to our private citizens due to crime; (3) Save billions of dollars now spent for maintenance of public welfare agencies, poor houses, old people's homes and other institutions and temporary organizations maintained for the care of the aged.

Weinstein Urges Co-operation In Raising Funds For Sons Of Legion

Cooperation of the public with the Sons of the Legion Drum and Bugle Corps in raising funds to pay debts incurred in purchasing materials for uniforms and for new instruments was urged today by George Weinstein, commander of the American Legion post, as he announced a fund-raising drive made possible through the courtesy of the management of the Ritz Theatre.

Next Tuesday, the corps will give a matinee and night revue in addition to a five-part vaudeville on the theatre stage, with the regular picture featuring Boris Karloff in "One Third of a Nation."

All citizens and members of the corps have tickets to call for the entertainment and the corps receives a portion of the receipts of all the tickets they sell at the regular admission prices.

Outlining the program made for the corps during the past year, Mr. Weinstein pointed out that the boys have had intensive training during the last few months under the direction of Advisor Perry Moore and Mr. Childs, a white officer who who at one time served the corps in the regular admission prices.

Appropriation Increase For WPA Is Sought

Pepper Would Grant Request Of FDR; Stimson Flays Neutrality Act Of U. S.

WASHINGTON, Apr. 6.—(AP)—Senator Pepper (D-Fla.) asked the Senate today to increase the \$100,000,000 relief appropriation to \$150,000,000. The latter sum was asked by the President but the House approved \$100,000,000.

Pepper complained that the unanimous Senate Appropriations Committee report recommending \$100,000,000 was based on an "agreement" designed to "avoid a controversy on the floor."

Henry L. Stimson, former Republican secretary of state, demanded yesterday that the United States, for its own protection, give the right to name and boycott the aggressor in a foreign war.

"If I saw a dangerous situation approaching step by step," he asserted, sharply rapping his knuckles on the table of the senate foreign relations committee, "I wouldn't wait until it killed off the last nation that stood between us and safety before taking economic action."

Stimson, with this statement, opened what many expect to prove the reason's bitterest congressional battle, a fight already turning upon the question whether the neutrality act should be so amended that the President will have wide discretion in formulating this nation's policy toward a foreign conflict.

Stimson argued that he should. The present act, he said, had built up abroad the false psychology that Americans were insensible to cruelty and aggression and too timid to wish their government to make the decisions which might be necessary to their future interest. The law, he said, had encouraged aggression by nations which have rejected the traditional code of national behavior.

To correct the situation, he suggested that most of the neutrality law be repealed, and in its place, in the case of a war which threatens American interests, be empowered to name the aggressor and stop commerce with the country named. He would not object, he added, if such action were conditioned upon the approval of congress, but was not convinced that such a check was necessary.

Senators Borah, Republican, Idaho, and Johnson, Republican, California, two veteran isolationists whose service goes back to the battle against American entry into the league of nations, leaped into the attack. They piled Stimson with questions based upon their well-known point of view that to name an aggressor holds dangerous possibilities of pulling this country into the war.

Blizzard Strikes In Rocky Mountains

A heavy blizzard in the Rocky Mountain region extended its effect as far east as Michigan and Ohio today, bringing sub-freezing temperatures and snow. The mercury dropped below freezing overnight, in Chicago, Detroit and Minneapolis.

Color weather was predicted in the South, including north Florida tonight and north central portions tomorrow.

MOUNTAIN CLIMBER STRANGLD

High on a ledge of 1200-foot Break Neck Mountain near Beacon, N. Y., workmen pull up the body of 20-year-old Irving Feigen. Entangled in a rope on which he and a companion were lowering themselves, the youthful mountain climber strangled, his body dangling for two hours in view of the highway 800 feet below. Feigen's body is the white bundle at cliff's edge.

Senate Group Contributions Of Shrubs For Fort Mellon Park Requested

Planting of flowers and shrubs in Fort Mellon Park is continuing as rapidly as possible, Superintendent of Parks James L. Moughton said today, adding however, that many more plants are still needed to complete plans for the park.

Laying a walkway of shell around the shuffle board courts recently, the WPA has completed its work on the \$30,000 project for improvement of the lake front property. However, Moughton said that a large amount of work remained to be done by the city, including painting of the buildings which have been constructed.

Mr. Moughton said that plans are being made for placing a number of additional benches in the park, particularly around the shuffle board and horseshoe courts which are ready to use.

The grass in the park has been mowed two times and Mr. Moughton said that with a little more work the park will soon become one of Sanford's leading attractions.

Mr. Moughton expressed appreciation for the cooperation which has been given him in securing contributions of the required shrubs and flowers and said that the following have made contributions since the last list was published:

- Mrs. John Ludwig, 2 Washingtonias and 8 Houstonias, peonies;
- Mrs. Paul Stine, 21 white oleanders; Miss C. E. Smith, 5 pink oleanders; Mrs. J. C. Gibbs, 3 loquats; Mrs. Henley, 5 camellias; Mrs. Paville, 3 abelias, 2 crepe myrtles, 2 buddleias, 1 hibiscus, 1 oleander, 2 durantas;
- Mrs. Minarik, 3 cabbrietas, 1 bushbush, 5 azaleas; Mrs. Fred Williams, 10 azaleas; Mrs. George A. DeCotter, 15 capensis tecomas;

Immediate Qualification In City Golf Tourney Is Urged By Jaycees

Those who desire to compete in the annual city golf tournament sponsored by the Junior Chamber of Commerce should make their qualification rounds, immediately, Raymond Lundquist, member of the committee in charge of arrangements for the matches, said today, adding that matches in the tournament will get underway as soon as the necessary preliminary arrangements have been completed.

To the winner of the tournament will be presented the large silver trophy given by the Jaycees and it will become the permanent possession of the player who wins it for three consecutive years. G. W. Spencer now has possession of the trophy by virtue of his victory over Dr. D. G. Scott who was runner up in last year's top flight matches.

Britain And Poland Form Defense Pact

Chamberlain Announces Permanent Reciprocal Agreement Between Nations

Italian Ships Land In Albania

King Zog's Country May Try To Resist Occupation By Italy

The British Prime Minister Chamberlain announced today that Britain and Poland had reached a "permanent and reciprocal" defense agreement as Europe's fears were increased by reports that an Italian occupation of Albania was impending.

Three Italian warships arrived at Durazzo, port of Albania, little kingdom wedged between Yugoslavia and Greece across the Adriatic sea from Italy.

Polish Foreign Minister Colonel Joseph Beck, now in London, has given assurances that Poland would consider herself "under an obligation to render assistance to his majesty's government under the same conditions as those in temporary assurance already given by his majesty's government to Poland," Chamberlain told the house of commons.

In Albania many reservists have been mobilized, although some sources expected Albanians to try to resist any Italian aggression, there also was a possibility a formula might be found to make Italian occupation acceptable to King Zog's country.

Well-informed sources in Belgrade, Yugoslavia, said Italian occupation of Albania would be intended as a warning to Yugoslavia and Albania to stay out of the British-French-Polish "stop Hitler" bloc.

Foreigners learning that Italians were leaving Albania in large numbers, expressed considerable concern over the immediate situation.

An heir to the throne was born yesterday morning to Queen Geraldine, and this was accepted immediately by the country's simple inhabitants as an occasion for a tremendous wave of intense nationalistic feeling.

"We are a small country, but proud of our independence," was a representative comment. "We are determined to preserve it at all costs."

The Italian proprietor of Tirana's leading hotel and his Italian staff left the country after closing the building.

As the cabinet studied the Italian proposals, the belief spread that they exceeded any concessions Albania was prepared to make, and that the military precautions were taken on this account.

Albania, a wild and undeveloped country of 10,629 square miles and a population of one million, has been independent since 1912. Previous to that it had been for four and a half centuries under Turkish rule. It lies directly across the Adriatic sea from Italy.

Crowds last night were tense over the political situation. They gave vent to their nationalistic feelings in patriotic songs as they marched through the streets to the royal villa, where they cheered King Zog and the new crown prince which his American-Hungarian consort had given the country.

An artillery salute of 101 guns told the people that a crown prince had been born and the rugged townsfolk of Tirana marched through the streets to the royal palace to cheer it.
