

## Rules Fight In House Made By Rep. Insurgents On Tuesday

fight is on as Condition to Re-election of Speaker Gillett

MAIN POINT AT ISSUE IS recommendation That Positions for the Discharge of Committees From Consideration bear 150 Signatures

(By The Associated Press.) WASHINGTON, Jan. 14.—The fight in the house, forced by the Republican insurgents as a condition to the reelection of Speaker Gillett will break Tuesday.

The main point at issue are the recommendation of the committee that positions for the discharge of committees from consideration bear 150 signatures.

Amendments Offered Amendments to the rules will be offered by both the Democrats and the insurgents. The Democrats will propose repeal of the Underwood rule and a minimum of signatures on petitions seeking the discharge of committees.

Having compelled its consideration of the administrative features of the Mellon tax bill, the house will begin public hearings tomorrow on the treasury secretary's recommendations for tax reduction.

Muscle Shoals and Russia Muscle Shoals and Russian recognition will be the most important subject to come before committee of congress during the week.

## Farm Loan Board Will Issue \$60,000 Bonds

WASHINGTON, Jan. 14.—The federal farm loan board, preparing to meet the late winter and spring demand for money expected to be made on the federal land banks announced Sunday it would issue Monday \$60,000,000 in federal farm loan bonds.

The bonds will be offered through federal land banks, national farm loan associations and other distributors at 100 1/2 with accrued interest from Jan. 1, the date of issue. Maturity of the debentures will be fixed at 30 years with the callable privilege after 10 years or after Jan. 1, 1934. They will bear four and three-quarters per cent interest.

"The 12 federal land banks," said Commissioner Cooper of the farm loan board, "have during the past year increased their capital to \$43,597,320, and their assets to \$876,232,007. With this continued growth and continued evidence of their solidarity it is anticipated that the present offering of securities will be promptly absorbed."

## MELLON TAX BILL STORM CENTER IN TODAY'S MEETING

Views of Interested Parties Will Be Presented on Proposals For Reductions in Tax Rates

(By The Associated Press.) WASHINGTON, Jan. 14.—The house ways and means committee will get down to cases Monday on the Mellon tax bill. Views of interested parties will be presented on proposals of the treasury secretary for reduction in tax rates.

While the hearings are in progress, Republicans on the committee will continue their efforts to reach an agreement as to what modifications, if any, should be made in the bill. A majority of the Republicans believe a compromise is necessary, particularly on the surtax rates, in order to avoid a long fight in the house during which radical changes in the measure might be affected.

Whether Secretary Mellon will appear remains to be determined, but the committee has decided to call several experts from the treasury department to explain the results of the revisions proposed as affecting both industry and the federal treasury.

Representative Watson, Pennsylvania, Republican member of the ways and means committee, endorsed the Mellon bill in a formal statement. He estimated that the enactment of the measure would result in a saving of more than \$32,000,000 in tax payments by the residents of Pennsylvania alone.

Carew on Tax Worries The involved mental state in which some members of congress find themselves after several weeks of struggle with the ins and outs of the new tax bill was demonstrated today by Representative Carew, of New York, a Democratic member of the ways and means committee, in a circular letter sent to constituents who had addressed to him an identical approval of the Mellon plan.

## Leaders Of The Democrats Are Mixed Up Over Nominee Choice

Gather for Discussion at Washington Prior to Committee Meet

McADOO'S FRIENDS BUSY Underwood Supporters Busy Presenting His Cause While Others Brought Forward Dark Horse Candidates

(By The Associated Press.) WASHINGTON, Jan. 14.—Democratic leaders here to coose a convention city and to discuss other business matters at the national committee meeting Tuesday night, found themselves Sunday night entangled in a maze of political discussion centering around the choice of a presidential nominee.

Friends of William G. McAdoo were especially active and promised a demonstration before the meeting is over. Supporters of Senator Underwood, of Alabama, were busy presenting his cause, and others with the interests of favorite sons and potential dark horses to guard last no opportunity to bring forward their candidates.

## BRYAN DECLARES WILL OFFER NAME OF DR. MURPHREE

University Head Will Receive Support of Bryan Elected to Democratic Convention

(By The Associated Press.) MIAMI, Jan. 14.—(By The Associated Press.)—William Jennings Bryan Sunday announced the name of Dr. A. A. Murphree of Gainesville, president of the University of Florida, as the Florida candidate he would support for the Democratic nomination for president.

Mr. Bryan's statement follows: "If elected a delegate to the national convention, I shall present the name of Dr. A. A. Murphree president of the University of Florida, as a candidate for the Democratic nomination for the office of president. There are a number of Floridians whose names have been mentioned and who are deserving of consideration in this connection, such as Senator Fletcher, Governor Mardele, and Judge Nathan Bryan. I would be glad to support any of them, but I believe that just at this time Dr. Murphree possesses more points of advantage and less points of attack than any other of the persons whose names have been mentioned."

"He is a rare combination of intellect and heart. He is a splendid executive as shown by the success of the university under his management; and he is a Democrat both in sentiment and in manner. He is dry and progressive and sound on economic questions. His popularity will grow as he becomes known."

"I shall discuss his merits more fully at some future time; all I mean to do now is to suggest his name for consideration. It will not hurt the state university to have the light turned on the merits of its distinguished president."

Reluctant to Talk Beyond this Dr. Murphree was reluctant to talk. Dr. Murphree, a native of Alabama was born in 1870 and came to Florida as professor of mathematics at the Florida State College at Tallahassee. He was appointed president of that institution in 1897 and continued in that capacity until 1905, when the college was divided into the Florida State College for Women at Tallahassee and the University of Florida at Gainesville. He became the first president of the women's college.

## INDICTMENT VS. POPHAM OF MAILS TO DEFRAUD QUASHED

(By The Associated Press.) TALLAHASSEE, Jan. 14.—Indictment against William Lee Popham, Apalachicola, charging mails to defraud and returned last Friday by the grand jury here was quashed by Federal Judge Sheppard Monday. Judge Sheppard upheld the defense contention that the jury sitting here was illegal inasmuch as the previous grand jury in Pensacola had not been dismissed and the two bodies could not function simultaneously in sections where population was less than 300,000.

The indictment returned against Popham and several of his associates at Pensacola last year was then taken up, Counsel for defense demurred.

Tallahassee, Jan. 14.—Judge Sheppard, in Federal District Court will hear the defenses' plea for abatement of the indictment returned by the federal grand jury here Friday against William Lee Popham, Apalachicola oyster culturist and three of his associates, in connection with his present promotion operation in Franklin county. The indictment will be attacked, according to a copy of the plea which was filed Saturday on the ground that the grand jury that returned the indictment was illegally impaneled in that it was summoned to appear Jan. 7, a week before the time fixed by the statutes and prior to discharge of the grand jury that was impaneled at Pensacola last year.

The jury impaneled at Pensacola, it is claimed, functions until the legal date, the assembling of the grand jury here fixed by statute as the second Monday in January. Two federal grand juries are allowed to function at the same time, it is contended in the plea, only in cities of 300,000 or more inhabitants, except upon special request of the district attorney, which it is claimed was not in this case.

County Jail Filled Result of a General Drive vs. Criminals (By The Associated Press.) MACOMB, Mich., Jan. 14.—Macomb county jail Monday was filled to capacity as the result of a sweeping drive against alleged bootleggers, gamblers and keepers of disorderly houses Sunday following, it is said, the secret invasion of the county by agents of the Ku Klux Klan. While the city and state police were bringing prisoners to jail Sunday morning 1,500 members of the Klan gathered in the First Presbyterian Church and held ceremonies including the burning of fiery cross.

## Foreign Exchange Rates on Decline

(By The Associated Press.) NEW YORK, Jan. 14.—Heavy selling of foreign exchanges in European markets caused a sharp recession in British, French and Dutch rates at the opening of Monday's foreign exchange market here. The demand for sterling dropped 3/8 cents to \$4.23. French francs broke 22 1/2 points to 44 1/2 cents and Dutch guilders dropped 45 points to 36.95 cents. Italian lira advanced 10 points to 43 1/2 cents selling for first time higher than French francs which created new low record for all time.

## Mexican Rebels Unite At Piedad For Big Battle Of Present War

War Department Officials See Biggest Battle of War Pending

12,000 FEDERAL TROOPS Are Reported Advancing From San Marcos in Preparation for Meeting the 8,000 Rebels Assembled on Jalisco Front

(By The Associated Press.) MEXICO CITY, Jan. 14.—War department officials believe the biggest battle of the revolution is near. The de la Huerta revolutionists are on the Jalisco front being concentrated at La Piedad, in the state of Michoacan, and are preparing to give battle to the Obregon troops on that front. A detachment of the city's federal troops are on the Jalisco front being concentrated at La Piedad, in the state of Michoacan, and are preparing to give battle to the Obregon troops on that front.

The federal forces number 12,000 and are commanded by Gen. Joaquin Amaro. This is the body of troops ordered to meet the rebels days ago to start the government's offensive against the revolutionists.

Departure of President Obregon for Panjamo, Jalisco was announced by the war department. An uprising at San Pedro de Las Colonias, Coahuila, Sunday, was short lived, according to special dispatches. Fifty federal recruits under Captain Sifuentes rebelled and tried to induce the federal garrison to go over the revolutionists. The garrison refused and in the ensuing fight Sifuentes was killed and the rebellious recruits fled.

Work On Road To Titusville Has Been Progressing Well That work is progressing on repairing the Titusville-Sanford road and that it will be in good traversable condition, is assured in a letter received Monday by R. W. Pearson, secretary of the chamber of commerce, from J. P. Wilson, secretary of the Titusville chamber of commerce. Mr. Wilson's letter is as follows:

"Our chamber of commerce expects to have a committee of four or five members to meet with the Volusia county commissioners at their meeting on Jan. 17 to endeavor to get them to furnish a larger amount than the \$1,000 that they have agreed to give for the repair of the Titusville-Sanford Road and we were wondering if you would also send a committee to aid us in this good work?"

"Our committee is composed of T. M. Seawell, J. I. Mitchell, J. J. Parrish, A. W. Donaldson and J. E. Nobles. Mr. Donaldson reports that work is progressing nicely on the road and an additional amount could be expended to good advantage."

BOND ELECTION

Continued from page 1. R. Phillips also assisted in the counting of the votes. When the tabulation of the votes was completed shortly after 7 o'clock, the results were flashed upon the screen at the Milane theatre and a tremendous applause greeted the announcement. There were groups of interested people collected in the downtown business section in the early part of the evening awaiting the results of the election and when the count was completed the news was speedily passed from one group to another.

Mayor Forrest Lake is out of the city having been called Thursday night to Laurens, S. C., to the bedside of his brother, T. D. Lake, who is critically ill. When the residence of Commissioner S. O. Chasus was called, it was found that he too was out of the city Saturday on a short business trip. However when notified of the results of the election Friday night by City Clerk L. R. Phillips, Mr. Chasus expressed his delight at the outcome and said that it had carried by even better majority than he had anticipated. He expressed his thanks for the support of the commissioners by the voters in their efforts to have this city own its utility plants.

By virtue of the fact that his colleagues are out of the city, Dr. C. J. Marshall is acting as mayor of the City and when called on Saturday to make a statement, he stated that he was highly gratified at the results of the election and that in behalf of the other commissioners wished to express the appreciation of that body for the splendid way that the voters put the election over.

AT THE MILANE "THE LAST WARNING"

This lively frolic among the ghastly and murders should be a good invitation for those who are pleased when their blood runs cold. In it they may find enough shivers and gasps to satisfy them through a season of dramatic offerings. All the green lights, apertures, hollow moans and other staple harrowing are here assembled in a spacious and jocular chamber of horrors. It is the Scars of the mystery. The Milane Theatre for one day only, Wednesday, Jan. 16. All the cast is out of the top drawer including Mortimer Snow, Gwen Norton, Connie Mackburn, Lola Hughes, William Hanley, W. Messinger Bellis, T. Jefferson Evans, Arthur Villars, D. J. Hamilton, Norman Greathouse and others.

The only trouble with it is that it is too complete. That is to say that it overflows a little, and that its incantations grow a bit surdulous and monotonous before the end. All of us have our pet terror-dramas. Some of us are committed to "The Bat," others to "The Cat" and "The Monster." "The Last Warning" is the expert in such things is the favorite. It appears to us to be the most audacious, the most ingenious of its class—the gayest of the current nightmares of the theatre.

GRAND JURY

Continued from page 1. matters to which your attention is called, the Grand Jury has found the County Institutions to be in excellent shape. Information has come to the Grand Jury that several of the railroad crossings on the public roads of Seminole County are in very bad condition. The Grand Jury recommends that those having this matter in charge, see to it without delay that the crossings be put in good safe condition.

We, as individuals, are not learned in the law, nor do we know nor are we advised of the style or method of court procedure, but we are most forcibly impressed by the prompt and business-like, yet thoroughness and spirit of justice with which the State Attorney and the Sheriff's office have disposed of the various persons and matters coming before us for consideration.

We thank the court for the many courtesies shown during our sessions and extend to him and then our best wishes for a successful term. To the Honorable George A. DeCottes, State Attorney we extend our sincere thanks and appreciation for counsel and services given us.

Local R. R. Employees Organize to Prevent Accidents on Trains

For the purpose of furthering the cause of safety among employees, and for the prevention of accidents, a new committee has been selected for the Jacksonville district and a most enthusiastic meeting was held in Superintendent T. L. Dumas' office Jan. 11, at 1 o'clock. Many interesting phases of the subject of accident prevention were thoroughly discussed and all members of the committee pledged themselves to do their utmost in promoting the important work. Supervisor of Safety J. R. Adams, with headquarters at Wilmington, N. C., and T. L. Dumas, superintendent at Sanford, outlined to the committee the purpose of the safety organization, and just what each man is expected to accomplish during the present year. Mr. Dumas also called attention to the committee the importance of attending each and every meeting held, making 100 per cent attendance of committee members and the good which would be accomplished by inviting and urging the attendance of as many employees as possible. Short talks were also made by W. F. Shelly, engineer, C. J. Wolfe, conductor, H. H. Newman, conductor, T. W. Baker, captain of police, A. Franklin, road master, C. E. Foshee, agent, H. L. Gibson, general yard master, R. L. Glenn, fireman, L. B. Bragg, yard conductor, H. J. Wolfe, conductor, W. F. Corley, road master, W. F. Shelly, engineer, O. R. Estridge, secretary. Meetings will be held at regular intervals, and employees, as well as others having matters of interest which they would like to present for the benefit of the safety movement, are cordially welcome.

Merle Thorpe Will Address Joint Meeting Here

Members of the Kiwanis Club, Rotary Club and Sanford Chamber of Commerce are looking forward with interest to the address to be made before the Kiwanis Club on Jan. 23, by Merle Thorpe, editor of the Nation's Business. Mr. Thorpe is recognized as one of the country's foremost speakers on business subjects. As editor of the country's leading business magazine he is in position at Washington to keep closely informed regarding business trends and especially national and state legislation affecting business. Mr. Thorpe is in great demand as a speaker before business organizations, and has spoken in practically every large city in the United States. Within the past year he has spoken in Cleveland, Detroit, Chicago, Kansas City, St. Paul, Seattle, San Francisco, Memphis and Providence. The Nation's Business, of which Mr. Thorpe is editor, is published by the United States Chamber of Commerce at Washington. Taking it as a house organ Mr. Thorpe has made it a great national economic magazine with more than 1,000,000 readers in all the states of the union and in foreign countries as well. In addition to acting as editor he has been responsible for the business activities of the magazine, and therefore brings to his addresses first hand information of business problems coupled with an editor's ability to present what he has to say forcefully and entertainingly. Mr. Thorpe will speak on "Business in Business." He will discuss the situation at Washington, and the relations that exist between government and business.

Hillsborough county line through Tampa by way of Six-Mile Creek through Bradenton, Sarasota, Englewood to the Myakka River, very good. Myakka River to Punta Gorda, rough and sandy in spots but easily passable. Punta Gorda directly to Fort Myers impassable, but traffic can go by way of Tucker's Corner.

Road No. 6.—Haines City to Fort Pierce: Haines City to Frostproof, good, shoulders poor. Detour through Frostproof. From Frostproof to Sebring, fair. Sebring to DeSoto City, good. Traffic for Okechobee City should go by way of Fort Babcock.

Road No. 23.—Belleview to Sumter County line, under construction and very rough. Through travel Ocala to Wildwood, Bushnell, DeSoto City and Tampa, advised to take Pedro Road out of Ocala. This will bring travel on Road 23 near the asphalt road in Sumter county. Excellent asphalt surface through Sumter County to Hernando County line.

Bible Thought for Today: Love, Joy, Peace, long-suffering, gentleness, goodness, faith, meekness, temperance...

If you want to live in the kind of a town, Like the kind of a town you like, You needn't slip your clothes in a grip...

Real towns are not made by men afraid. Least somebody else gets ahead. When everyone works and nobody shirks...

You can raise a town from the dead. And if, while you make your personal stake, Your neighbor can make his, too, Your town will be what you want to see.

Sanford did it! Sanford is a progressive city. Never get the idea that every girl who looks at you with dreamy eyes is asleep.

Washington News reads like a report of the old-fashioned debating societies. Miami is a knockout town this winter with both Stribling and Dempsey down there.

Mr. Haines is going to Santo Domingo and his gubernatorial chances are going with him, if any. No, every man who carries a cane and supports three chimneys on his housetop isn't necessarily a colonel.

Now that the bonus has been safely pigeon-holed, it isn't too much to hope for the possibility of reduced taxes. A man recently hired a taxi and committed suicide on the way to the undertakers. He should have chartered a ferry.

The president of Vassar College reports that half of all college girls smoke. The girls certainly have got her fooled. Illness has forced Trotsky to take a short vacation. The Russian death rate will probably suffer a severe decline.

Ethnologists are now making a study of the origin of the Eskimos. Darwin would probably maintain they evolved from icicles. One hundred and eighteen thousand dollars worth of Sanford real estate changed hands in a few days' time. Who says Sanford isn't growing?

Early to bed may be a good plan, but you'll notice that the only bird with a reputation as a wise guy is an owl.—Miami News-Metropolis. In the Jan. 7 issue of Time a list is given of recent fossil discoveries. It was surprising to note that no mention was made of Florida.

Some of the progeny of Man-o-War, race-horse champion of two years ago, are (Combat, Florida, First Mate, Flagship and Sealark). Naval disarmament evidently did not have much effect on Man-o-War. The coal operators and representatives of the United Miners are going to Florida to discuss next week's scale. Most people, however, have to stay home and hustle for money to pay coal bills at the present rate.—Detroit Free Press.

There are 5,000 pensioners on the government's Spanish-American War rolls. We didn't think there were that many soldiers in that war.—Tampa Tribune. A war veteran doesn't really have to be a soldier to draw a pension.

One of Sanford's leading bankers asks the question, "Why should our people here in Sanford and Seminole county be investing their money in speculative propositions all over the country with golden opportunities everywhere here at home, offered by well known, successful men whom they can go to and discuss personally any question that may arise?" He then advises, "Keep your money at home where you can see what it is doing, and where it is not only making you a good profit but is helping to build values all around you."

Marketing on a Business Basis

One of the most encouraging signs of the time is the evidence from all sections of the state that farmers are getting together on the question of orderly marketing...

The Herald has been asked to reproduce a statement recently made by L. M. Rhodes, state marketing commissioner and published in the current issue of The Florida Grower...

Agriculture is characterized by individual production. Other industries practice group production. There is an old threadbare argument from some sources that farming is only production and that the only requirement of the farmers is to grow and harvest abundant crops...

The experience of the past makes it so clear that the farmers' road to success is through better merchandising and orderly marketing of their products, and since 185 cooperative associations that are more than county wide and hundreds of smaller cooperatives marketed more than \$1,000,000,000 worth of products profitably in 1922...

The old theory was that all members were loyal. But cooperative associations are confronted with conditions, not theories, so most of them prefer to bind their members and commodities with contracts...

It changes the control of the product from many individuals to one organized unit. It provides standards of quality for products and distributes returns from sales, accordingly.

It places a premium of good quality of commodities and a penalty on poor quality. It makes merchandising or orderly marketing possible. It stabilizes crop movement, prices and agriculture.

It makes possible to market the commodity as a whole instead of by localities. Operating on a non-profit basis. It permits unity of purpose.

It lessens the danger of over-production by more orderly and general distribution. It substitutes merchandising for dumping. It gives the producer improved facilities in marketing.

It reduces the cost of marketing and distribution. It helps to furnish the consumer a better quality of product at a lower cost. It unites communities and joins neighbors together.

It gives group selling to individual production. It helps the producer to advertise his commodity and increase the consumptive demand. It employs expert men to work for farmers instead of against them.

It assembles the commodities and resources of producers, enabling them to employ expert business managers, salesmen etc., and meet organized skilled buying with organized skilled selling.

It prevents the individual farmer from dividing his energies between the science of production and the science of marketing. It minimizes fluctuations in prices.

It does away with variety of grades by different local organizations. It makes possible uniformity of methods, records and contracts. It commands prompt attention to claims and accounts.

It reduces operating expenses. It enables the growers to supply demand but not to oversupply. It brings in to one channel the products of wide areas.

It increases the income of the producer. It makes pooling possible and equalizes returns between members in proportion to amount and quality. It is the cornerstone of agricultural merchandising.

It prevents local organizations from competing with each other. It makes possible a well equipped grading department with experienced export graders. It puts hope, life, stamina, profit, progress and prosperity in agriculture, and agriculture is the basic industry.

It supplies the national commissary; it replenishes the wardrobe; it is the paramount source of our commerce; it is the dominant factor in supplying cargo for ocean transportation, freight for railroad, deposits for the banks; it is the nation's support in time of peace, its bulwark in time of war. It is the keystone to our national life. And economic profitable ample production, systematic distribution and orderly cooperative marketing, is the foundation stone of agriculture.

Then upon the progress we make in production and marketing depends the progress, prosperity and life of this republic. For republics live and advance or deteriorate and die with the progress or decadence of their agriculture. It sometimes means temporary sacrifice to change our course. It sometimes means loss to create and carry out reforms. Citizenship in a democracy is not a holiday excursion. There is not a demand in the crown of our civic glory that was not bought with blood or sacrifice.

MY FAVORITE STORIES

By IRVIN S. COBB

Among musicians this story, which is said to be true, has lately enjoyed wide circulation and a justifiable popularity. Heifetz was playing his American debut at Carnegie hall before a tremendous audience. In a box sat Godowsky, the pianist and composer, and with him was a certain distinguished violinist.

Very shortly, it was plain that in this newcomer, Heifetz was an artist who would make the world at large happier for his playing, but by the same token would fill the souls of a good many rival violinists with the pea-green envy of the envious. Geniuses, as we know, proverbially are jealous of other geniuses.

As Brisbane Sees It

On Tidal Wave. 200,000 African Natives. Harsh Words, for Girls. But Remember Olympians. Copyright, 1923

IT'S A variegated news picture today. A tidal wave in Europe sweeps all the way south from the British Channel. Americans living in calm peace with well trained French servants working for \$9 a month in real money, were amazed to have the sand swept into their villas at Biarritz.

WE WORRY about illiteracy here. France also has her worries. Two infantry regiments recruited last year were 60 per cent unable to read or write. Many did not know that a treaty of peace had been signed or anything about the nation's lawmaking.

WHAT CONDITIONS will be in France in the future, it is not easy to say in view of the problems presented by the fact that more than 200,000 "African natives" will be taken into the French army each year. The French plan a railroad across the Sahara to tap the resources, date trees, cattle tracks, sugar and cotton producing lands of Timbuctoo and other regions.

DR. CHARLES J. SMITH, president of Roanoke College, Virginia, has this to say about the modern girl. Reading it, you will hope that nothing unpleasant was left unsaid.

"Some women in every age drank liquor, a few even enjoyed a smoke, many of them threw away their honor, but the world has never known the turning loose of such an army of hard drinking, cigarette puffing, licentious amazons as walk the streets and invade the college campuses today."

IT MAY BE, or seem true, but, as usual, the next generation will be a little better than those before it. Providence attends to that, and makes very good mothers of the "licentious amazons" that worry good Doctor Smith. He must remember the famous Olympians, who danced stark-naked, with serpents wrapped around her, consulted magicians, killed the baby of her husband's second wife.

MANAGE A Bank carefully and it pays. For every one hundred dollars invested in 1844 in New York's Chemical Bank it has paid \$4,000 in dividends. A one hundred dollar share is now worth \$5,500. In 1907 stockholders got an extra dividend nine hundred per cent more stock, free of charge.

The intelligent Chemical Bank, by the way, went to a southern state for a president recently, and got Percy H. Johnson.

Charles M. Mitchell, president of the National City Bank, said to be biggest in the country, tells his stockholders that in 1923 they made profits of ten and a quarter millions.

A good bank stock is a good thing to own. RUSSIA'S "SUPREME" Revolutionary Tribunal forbids all Russians to pray for the patriarch Tikhon in private or public prayers because he is accused of a crime against the state. They mustn't pray for anybody accused by the state.

THAT'S PART of Russia's effort to fight religion with laws and other devices. Near churches they put up a sign, "Religion is the Opium of the People." And recently the Government undertook to manage a "non-religious Christmas Day celebration."

Fighting religion is like trying to mop up the Pacific Ocean. Voltaire knew it. "If there hadn't been a God it would have been necessary to invent one."

Human beings can no more do without religion than without air or water. THE BILLIONS of cells that make up the body are intelligent and adaptable. Lawrence Eastman, lying in the hospital with his ears sewed on, knows it. The other gentleman in the fight bit off both his ears and one little finger. Detectives picking up the ears and finger, hurried to the hospital. They were sewed on and are growing.

Do the little living cells recognize their brothers and sisters when sewed on again? An ear from a pig or cat would not have grown under the same conditions

NO "BETTER 'OLE" IN SIGHT

Mr. Wilson Speaks

NEW YORK TIMES

Every one will hope that ex-President Wilson's telegram to the Pittsburgh Democrats at their Jackson Day dinner presages the return to good health which every one wishes for him. There is no earthly reason why an oracle of the outs should not pursue his opposition to the policies of the late Ex-President Roosevelt with not precisely inarticulate on his retirement in Oyster Bay. Why should ex-President Wilson have his say, established as he is on the vantage ground of the duist of the administration? His desire to take part in "an aggressive fight" will be freely granted by Republicans as well as Democrats.

Florida Development Board Notes

The Florida Development Board requests all who have photographs of Florida scenery which may be suitable for use in a series of scenic wonders of America to send them in at once, as they have no offer from the editor of the Saturday Evening Post to include three or four Florida views of that character in the series now being run, and wish to select a number of the best for submission.

Officials of the Saturday Evening Post have expressed regret to the Florida Development Board that the cartoon entitled "Love in the Everglades" was published in a recent issue, as it was a misrepresentation of conditions, drawn by an illustrator who lacked knowledge of the Everglades and it got by an assistant editor.

In commenting on the cartoon, Mr. John Gribbell, a large stockholder in the Curtis Publishing Company, wrote: "This incident only furnishes another proof of the need of intelligent information that exists here in the north at least, concerning the actual conditions in the Everglades. For the last six years perhaps I have been making myself tedious at times in holding forth, in season and out of season, the amazing possibilities of the Everglades and the development of them that I myself have seen in that limited time."

Officials of the Florida Development Board and also of the Florida Forestry Association extended an invitation to every person interested in the growing of timber and utilization of same to attend the Sixth Southern Forestry Congress, to be held in Savannah, Jan. 24, 25 and 30.

This congress will be composed of representative southern businessmen and the three day program has been prepared especially to appeal to business men. Such subjects as: "The Naval Stores Industry"; "Forestry and the South's Business"; "A Business Man's View of Cut Over Land Problem"; and "The Responsibility for Forestry," guaranteed the practical approach to this large and important subject.

Arrangements have been made for all who are interested in the production of naval stores to spend Saturday, Jan. 26, at the Southern Forest Experiment Station branch at Starke, to study results of the first year's work in the woods near there. Lenthal Wyman, associate silviculturist for the U. S. Forest Service, in charge of the station, will be assisted by deputy supervisor, E. R. McKee of the Florida National Forest, who has been in charge of the naval stores experiments for a number of years. That date was selected for convenience of parties from other sections of Florida, going to the convention in Savannah.

TOM SIMS SAYS

Time flies. First thing know Coolidge will be asking for safe and sane July Fourth. One way to make an enemy to agree with a man when he is looking bad. The weather forecaster has a lot of competition. It is hard to grass an opportunity with both hands in your pockets. Trying to keep up with the neighbors is a fine way to get behind. Sometimes a man goes to bed to meet his wife and sometimes get away from his wife. If money was everything it wouldn't be much. When the political pot boils there is always lots of smoke. Any girl knows smiling for man is quicker than crying for one. Many people are down on prohibition because prohibition makes it harder to get a drink. Just about time man decides he has conquered the air you can see an aviator falling down on his job. Getting up before hubby as a way to keep in pocket change. The thrill of the first pair of long trousers is nothing compared to the thrill of the first stick. It must be awful to own the best car on the market and not be able to wish you had a better one. When a married man eats breakfast at a restaurant you know who is boss at his house.

## ATTEND STUDENT VOL. CONVENTION F. S. W. C. GIRLS

FLORIDA STATE COLLEGE FOR WOMEN, Jan. 14—Florida State College was ably represented at the Student Volunteer Convention held in Indianapolis from Dec. 28 through Jan. 1. The class delegates were Ethel Henry, Gladys Jordan, Martha Page, and Elizabeth Randolph.

Ida Holmes was representative at large, while Miss Ruth Ceandrett, Young Women's Christian Association secretary, represented that organization. Alice Albury and Mabel Murphy, the latter president of the student body, attended the convention on their own resources.

Miss Mary Schornherst, a graduate of Florida State College, last year, who is this year teaching at Detroit, was also present. She sat with the Florida delegates.

A report of the convention was given at the Y. W. C. A. services here recently. Speakers were Mabel Murphy, Margaret White, Ida Holmes, and Gladys Jordan.

The subjects discussed at the convention were racial, war and industrial problems. Most of those present at the gathering were volunteers to foreign mission fields.

The air is full of things you shouldn't miss. Get a radio.

New machinery is being installed at the Southland Citrus Product Company's new plant at Lakeland, and the wheels will be going 'round by the first of the year. The addition was built to accommodate the packing of the grapefruit hearts, and indications are that this product will reach a wide distribution more rapidly than has been dreamed of. The contract with one concern alone calls for 50,000 cans. Other contracts have been signed with big New York distributing houses.

Arriving in Sanford on Sunday was Fred L. Fleischer.

Mrs. John T. Brady returned to Sanford Saturday after an absence of several months during which time she visited relatives in Arkansas, Texas and Georgia, stopping over en route home, in Jacksonville, where she was the guest of her daughter, Mrs. Dan N. Wilder.

NOTICE. Phone Mrs. F. E. Roumillat (155-J) or Mrs. Charles Britt (175-W) for reservations for Subscription Bridge on Friday afternoon at the home of Mrs. Roumillat-benefit of K. of C. Hall.

## Tudor SEDAN

\$590 Fully Equipped

### The Lowest Priced Sedan

IN the Tudor Sedan a wholly new Ford body type is offered American motorists.

It is distinguished by a compact, roomy body, two wide doors opening forward, and folding right front seat. It is a car you can get into easily, drive handily, and park quickly.

Long-panel windows affording an open view in every direction, make for safer driving and greater motoring enjoyment. Upholstery is both attractive and serviceable. At \$590, this is the lowest priced Sedan ever placed on the American market. Combining all the familiar Ford qualities with the utility of its distinctive body type, it is a car of broad appeal and compelling value.

This Car can be obtained through the Ford Weekly Purchase Plan

## Georges Carpentier Will Try Comeback In United States

By The Associated Press. NEW YORK, Jan. 14.—Georges Carpentier, colorful French boxer, probably will essay an American come-back before the close of the indoor ring season.

His manager, Francois Descamps Saturday called Tex-Rickard that Carpentier was anxious to come here in February or March to fight Mike McTigue or Gene Tunney, holders of the world's and American light-weight titles respectively. If successful, Georges would like to fight Tom Gibbons in June or July.

The cable from Descamps was simultaneous with the arrival in New York of Eddie Kane, Gibbons' manager, who probably will confer with Rickard tomorrow on a Carpentier match as well as a possible return engagement next summer with Jack Dempsey.

Rickard did not indicate what reply he would make to Carpentier's proposals, but probably will offer the Frenchman terms for at least two fights here. Some time ago the promoter sought to sign Carpentier but the latter's financial demands abruptly ended negotiations.

## "Home Run" Baker Is Gone From the Majors

By The Associated Press. NEW YORK, Jan. 14.—The name of J. Franklin ("Home Run") Baker was scratched Friday from American league rolls when the New York Yankees announced his unconditional release.

Baker has not played regularly for several seasons. His last active service with the Yankees was in 1922. He was on the voluntary retired list last season. His release was given him so he may play independent ball.

Baker tended to fame as one of the stars of Connie Mack's \$100,000 Athletic league. When Mack broke up his great machine Baker was the last star to go. He was sold to the Yankees in 1916.

Baker established his reputation by driving in more runs than any other American league player for five successive years. His feat of winning two games for the Yankees, one in 1911 and another in 1913, with homers was unrivaled until last fall when Casey Stengel's circuit clubs decided the only two victories gained by the Giants.

## Max Marston's Win Doesn't Rank Him Ahead Bobby Jones

By The Associated Press. NEW YORK, Jan. 14.—Although Max Marston won the national amateur golf championship at Plover last summer few will concede that he deserves to be ranked No. 1 among the amateurs of the country.

Marston is a fine golfer, but hardly ranks above Bobby Jones victor in the open championships at Inwood. An in the opinion of most critics Marston is not entitled to displace Chick Evans of Chicago, who is only a stroke or so behind Jones in skill. Due to his victory in the national, Marston is properly rated in third position, behind Jones and Evans.

Jess Sweetser is at home in fourth place and Francis Quimet in fifth. From this point on the classification becomes a matter of opinion.

## BOOK BRINGS LARGE PRICE

LONDON, Jan. 14.—At a recent auction a William Blake "Milton" 1804, brought \$17,000. The volume is believed to be superior to the one in the British Museum as no other copy has 50 leaves. Two others are in the United States.

## CLERKS CAN'T KEEP WARM

PEKING, Jan. 14.—The "financial wretchedness of the ministry of education has reached the limit," according to a local newspaper which avers that the ministry cannot even keep its employees warm.

It has stoves, but no money to repair them or buy fuel. The employees are driven into the smallest rooms of the building, where they huddle together to keep warm.

Even the consolation of hot tea is denied them, for the ministry servants no longer have money to buy this luxury.

## GATORS FAIL TO LAND NICHOLSON AS TRACK COACH

By The Associated Press. GAINESVILLE, Jan. 14.—James L. White, athletic director of the University of Florida has announced that negotiations to obtain the services of John P. Nicholson, famous coach, to take over the 'Gator track team this year, had fallen through. Nicholson having accepted a position with Centre College to instruct both in track and basketball.

Efforts are being continued, however, with the view of providing the Florida athletes with the best instruction obtainable and Roy Watson, now of the Illinois Athletic club and one of the country's prominent amateurs has been invited to come to Gainesville in an advisory capacity. Watson was formerly with the Kansas Argonauts and his amateur rating prohibits the obtaining of links on a strictly coaching basis. He will be asked to bring a weight man with him.

The 'Gators prospects this season in track seem to be exceptionally good and before the spring starts by the training staff will be on hand to obtain the best results.

**IOWA RELEASES JONES**  
IOWA CITY, Iowa, Jan. 14.—Howard H. Jones coach and athletic director of the University of Iowa, has been released from his contract by the board in control of athletics, that he might accept a position as football coach at Trinity college, Durham, N. C. Secretary R. A. Kuever has announced.

## WEATHER VALUES

Estimate for State of Florida Announced by department of Commerce  
WASHINGTON, Jan. 14.—The department of commerce announced, for the state of Florida, its preliminary estimate of the value of property for 1922. The principal forms of wealth, the total amounting to \$2,423,692,000, as compared with \$2,179,000,000 in 1921 an increase of 162.9 percent. Per capita values increased from \$1,148 to \$2,341, or 103.9 percent.

All classes of property increased in value from 1911 to 1922. The estimate value of taxed real property and improvements increased from \$394,000 to \$1,140,203,000, or 291.7 per cent. exempt real property increased from \$31,553,000 to \$94,655,000, or 173.9 per cent; live stock from \$34,422,000 to \$38,716,000, or 12.5 per cent; machinery from \$4,243,000 to \$8,009,000 or 75.9 per cent; manufacturing machinery, tools, and implements \$28,791,000 to \$74,181,000 or 157.7 per cent; and railroads and their equipment from \$189,773,000 to \$233,518,000, or 23.1 per cent.

Privately owned transportation and traction enterprises other than railroads, increased in value from \$29,243,000 to \$62,372,000, or 113.4 per cent; and stocks of goods, vehicles other than motor, furniture and clothing from 205,150,000 to \$427,125,000, or 106.2 per cent. A comparison is possible for the value of motor vehicles, which was estimated in 1922 at \$44,108,000, because no separate estimate was made in 1921.

In making these estimates the department, it was announced followed in general the methods employed in making the estimates for 1912, though belief was expressed that in some respects that work in 1922 has been more thorough. It should be borne in mind, says the department, that the increases in money value are to a large extent due to the rise in prices which has taken place in recent years, and so far as the value of motor vehicles, that is, the value of the goods, do not represent corresponding increases in the quantity of wealth.

The estimated values of gold and silver coin billion, the vessels of the Navy, and privately owned waterworks will appear only in totals for the United States, it is stated.

## THE PLAN IS BRIEF

1. That the United States shall immediately enter the Permanent Court of International Justice, under the conditions stated by Secretary Hughes and President Harding in February, 1922.

2. That without becoming a member of the League of Nations and present constituted, the United States shall offer to extend its present cooperation with the League and participate in the work of the League as a body of neutral counsel under conditions which:

1. Substitute moral force and public opinion for the military and economic force originally intended in Articles X and XVI, safeguarding the Monroe Doctrine.

2. Accept the fact that the United States will assume no obligations under the Treaty of Versailles except by Act of Congress.

3. Propose that membership in the League should be opened to all nations.

4. Provide for the continuing development of international law.

## Jack Dempsey Says Stribling Will Be Champion Some Day

By The Associated Press. MIAMI, Jan. 14.—"Young Stribling will be a world's champion some day" declared Jack Dempsey to friends following the Stribling-Nestor fight in the Cyclorama Thursday night. "Anyone who says that the youngster has no wallop is wrong," declared the world's champion. "He is one of the fastest fighters I have ever watched, and with a little more experience and weight the youngster will make his mark in the world. Who knows, maybe I will have to face that boy some day, if he comes along as he is coming now," said Jack.

Dempsey enjoyed himself immensely during the battle. When it appeared that it was ended in the fourth Jack made a rush to the gate, but when the fight was resumed he was back to his seat.

"One of the best fights I have ever witnessed" was his comment as he and his party wended their way homeward. "Stribling is some boy."

Dempsey will be the guest of the Miami Kennel club Wednesday and in honor of his presence there, the club will have Dempsey day. There will be a Dempsey stakes event, and Jack will also act as honorary judge. Special arrangements will be made by the club to take care of the tremendous crowd which is certain to be present.

## BAN JOHNSON IS AT WORK ON THE BALL MEMORIAL

By The Associated Press. CHICAGO, Jan. 14.—President Ban Johnson of the American league has gone to Washington to be on the ground when the \$100,000 American league monument bill is introduced.

It is to be introduced by Representative James Callahan of Boston. Last season it was introduced in the Senate by Senator Pepper of Pennsylvania and passed late in the session.

Only the authorization for the erection of the shaft is sought of congress, as the American league has appropriated the \$100,000 to build it.

The site has been chosen by the art committee of Washington in Potomac park and the design only awaits approval of the bill by congress.

The names of George Sisler and "Babe" Ruth already have been selected for a place on the monument, as the most valuable players in the American league in 1922 and 1923, respectively.

## ANTHRAX DEPLETES CARABAOS

MANILA, Jan. 14.—Anthrax has made such inroads among the work animals, chiefly carabao or water buffalo, in central Luzon that paralysis of agricultural activities is threatened. Thousands of carabao have died from the disease in the last few weeks, and all available veterinarians have been detailed to the infected area in an attempt to stamp it out.

"With the \$60,000 just appropriated by the legislature," said Secretary of Agriculture Apostol "a systematic campaign against anthrax, including careful, thorough and complete quarantine and vaccination of every animal in the infected area, is made possible."

## Indications Are That Volusia Is To Have Big Fair

DELAND, Fla., Jan. 14.—After many months of painstaking preparation and through excellent cooperation of the citizenship of Volusia County, the Volusia County Fair is a reality and the exhibit will be open to the public on January 22 at Deland at one of the finest Fair Grounds in the state. All the buildings on the Fair Grounds are practically completed and have a physical valuation of nearly \$40,000. Of this sum approximately \$17,000 was appropriated by the Board of County Commissioners, who realized the value of such a county wide project in bringing together a comprehensive display of the products of the County and depicting the versatility of Volusia County enterprise. Other sources of revenue in the financing of the Fair came through life and annual membership fees, and in this the entire citizenship of the County responded nobly.

Public spirited citizens, realizing the necessity of advertising the products of the County, in other years had labored unstintingly in the gathering together of displays that would properly represent Colusia at fairs in other sections of the State, and in these exhibits Volusia carried off many prizes that gave the County a reputation as a section of great agricultural wealth.

With such diversified industries, there seemed no reason why Volusia should not have an annual Fair of its own, and thanks to the fine spirit of co-operation that characterizes Volusia citizenship, today, annual Volusia County Fair,

is a reality, and the first annual exhibit will open on modernly equipped Fair Grounds, with exhibit buildings unexcelled by any in the State.

## Income Tax Helps

### INCOME TAX IN NUTSHELL

WHO? Single persons who had net income of \$1,000 or more or gross income of \$5,000 or more, and married couples who had net income of \$2,000 or more or gross income of \$5,000 or more must file returns.

WHEN? The filing period is from January 1 to March 15, 1924.

WHERE? Collector of internal revenue for the district in which the person lives or has his principal place of business.

HOW? Instructions on Form 1040A and Form 1040; also the law and regulations.

WHAT? Four per cent normal tax on the first \$4,000 of net income in excess of the personal exemption and credits for dependents. Eight per cent normal tax on balance of net income. Surtax from 1 cent to 60 per cent on net incomes over \$8,000 for the year 1923.

### TIPS FOR TAXPAYERS

When, by reason of illness or absence from home, additional time for filing an income-tax return is required, the taxpayer should address to the collector of internal revenue for the district in which he lives a request for an extension. This request must be mailed before the return is due, March 15, 1924.

The collector may grant an extension of not exceeding 30 days. As a condition for granting such an extension the collector may require on or before March 15 the filing of a tentative return. A tentative return should be made on the usual form, marked "Tentative," and should contain a sworn statement of the estimated amount of tax due.

If before the end of a 30-day extension an accurate return can not be made, appeal for a further extension must be made to the Commissioner of Internal Revenue, Washington, D. C., together with a full recital of the causes for the delay. The commissioner will not grant an additional extension without a clear showing that a complete return can not be made within the 30-day period.
