Truman Is Said To Have Power To Take Over

Government Lawyer Contends President Is Not Limited By U. S. Constitution

WASHINGTON (AP)—The government's chief lawyer in the steel seizure case argued today that the president is accountable only to the country and is not limited by the Constitution.

This contention by Assistant Attorney General Holmes Baldrige brought from Federal Judge David A. Pine the comment: "I never heard that expressed before."

Baldrige had just said that the Constitution "limited the legislative branch, limited the judicial branch but did not limit the executive branch."

As Baldrige developed his argument, it was plain he was using "limited" in the sense that the president's powers were not restricted, or limited, to those specifically set out in the Constitution. Pine is hearing in U. S. District Court the plea from the steel industry for a court order against what it contends was President Truman's "wholly illegal and wholly unconstitutional" seizure order of April 8.

Baldrige argued that the court was without power to issue such an order.

He told Pine there is "not one single instance where the courts have enjoined executive power," and declared the Constitution "prohibits the courts from encroaching on executive authority."

Baldrige said "The courts have developed the fiction" that officers of the federal government's executive branch can be sued as individuals. The steel industry is directing its suit specifically against Secretary of Commerce Charles Sawyer, who was instructed by Mr. Truman to carry out the seizure.

"The President is an indispensable party," Baldrige said, and added that the President himself cannot be enjoined.

"Suppose the President should declare that the public interest required seizure of your home. Do you contend that the court could not restrain that act?"

Baldrige: "I would rather, your honor, not to (sic) answer. It is essential that you look at rise in the emergency steel situation."

Pine: "Is that your conception of our government?"

The hearing began Thursday.

Most Newspapers Slow In Deciding On Governor Race

Only Eight Have Yet Endorsed Any Candidate For Governor

By MALCOLM B. JOHNSON, Associated Press Staff Writer

Florida's daily newspapers are slow to choose sides in the current gubernatorial campaign. Only eight of them so far have endorsed candidates editorially. Five are for Dan McCarty and three support Al Adams for the Democratic nomination.

That is in contrast with a choice in the St. Petersburg Independent, for Adams. Its rival St. Petersburg Times is for McCarty. However, both endorsed Harry S. Swann for the Republican nomination.

Other dailies for McCarty are the Palatka Daily News, Bradenton Herald, Fort Myers News Press and Lake Wales Daily High-Land. Others for Adams are the Winter Haven News Chief and the Fort Lauderdale Daily News.

The Tampa Tribune, Orlando Sentinel, Miami Herald, Jacksonville Journal and Miami Daily News are among the larger papers which customarily endorse candidates for governor, but haven't made known their choices yet.

He told a questioner if he is elected he would be glad to sign an undated resignation as governor not to be invoked if he failed to keep faith with the platform on which he runs.

And he dated Adams and McCarty to match his proposal to make all key appointees file statements of their personal worth when taking office and copies of their annual income tax returns while they are serving.

"They'd drop dead first, because they know their supporters would leave them overnight if they had to do that," he said.

McCarty devoted part of a statewide radio speech at Panama City to a slap at Odham for being "very glib in criticizing just about everything and everybody in Florida."

"This is in line with his legislative record," McCarty said. "I have checked that record carefully and have not been able to find a single piece of constructive legislation of state-wide effect which he introduced and passed either of the two sessions in which he served."

"He did a lot of talking as a legislator and in this respect he is running true to style in this campaign."

McCarty's own legislative voting record again was under attack from Adams and brought a defensive statement.

In populous counties of Southeast Florida, Adams hammered at McCarty's joint sponsorship with other annual county representatives of a bill in the 1951 Legislature which would have given Florida a county unit election system like that of Georgia.

Under such a system county unit votes, not popular votes, count in election of state officials, giving an advantage to smaller counties.

Adams said the 1951 bill "would have had the effect of disenfranchising the voter in such counties."

Supreme Court Rules Termites No Refund Cause

TALLAHASSEE (AP)—A Dade County couple who failed to break the master of a house they were buying and examine it for termites were negligent and can't sue for a refund, the Florida Supreme Court ruled today.

The couple, Mr. and Mrs. Paul J. Davis, should not have accepted the word of the seller that the home was in sound condition and the court said.

"It is the writer's view, after a careful study of the record, that (the Davises) had a full and ample opportunity to inspect the premises for termites or in have obtained the inspection services of an expert in their field prior to accepting the deed," the opinion by Justice R. H. Chapman said.

A special master, who heard the case but whose findings were overruled by the Dade County Circuit Court, said the couple were told to believe "that there had been a qualified and thorough inspection of the premises which resulted in the finding that there were no termites present." The master found "that the misrepresentation was and is false and actually did mislead the persons to whom it was made."

The high court's opinion upheld the Circuit Court in rejecting the master's findings.

The Supreme Court also ruled that anyone should be able to judge whether a stapler is safe—so if one breaks with you, you haven't much chance of recovering damages.

The high court handed down the opinion today in upholding the Dade County Circuit Court's dismissal of a suit by Alice Lambert.

She bought a stapler from the Stratunk Feed and Seed Co. It broke when she tried to use it and she was injured. She sued the company.

The court took note of the fact the salesman told her the ladder was safe and that it was not. It was not a lifetime and was unworkable but dismissed this as "trivial" and "little more than a nuisance."

The ruling said "One who knows a stapler is a stapler of a type which is simply looking at it, would require a stretch of imagination to find lurking in the salesman's remarks any fraud."

Canal Project Pushed By Coast Guard Unit

MAITLAND (Special)—A campaign to arouse interest among central Florida business men, boating enthusiasts, farmers and others in opening of a navigable canal through the Maitland area is being launched by the Coast Guard Reserve in this area, Joseph R. Raback, Maitland, commander of the CGR, said yesterday.

Raback said a committee was appointed at a meeting of the Coast Guard the reserve and auxiliary in Palatka last weekend to contact chambers of commerce and other groups and also to get in touch with congressmen on the matter.

Named to the committee, besides Raback, were Harry B. Fossard, Jacksonville, chairman; R. O. Colwell, Fustula; E. W. Verily, Deland; Harlow Merryday, Palatka; and Clarence W. Simmons, Orono Beach.

KANSAS FLOOD DUBUQUE, IA. (AP)—The marauding Mississippi pushed its record flood crest into this city of 30,000 today and hung poised for a swing downstream.

Meanwhile, the top level of Old Miss's sister river, the Missouri, slipped past Kansas City and the feeling there was that the worst was over. But flood watchers continued to keep a close watch on the leaves.

Another big event of the day was the fish fry at the Softball Diamond which was attended by nearly 1,100 persons. Mayor W. H. Memphis welcomed the DeBary visitors and Chaplain Danielson of the Navy Air Station, pronounced the benediction.

The fish fry was a fine example of co-operation on the part of various groups. Gus Schmah, west

New Evidence Is Uncovered Of U. S. Graft

House Investigators Report Improper Dealings In Purchase Of Auto Parts

WASHINGTON (AP)—Congressional investigators said today they have uncovered new evidence of "improper relationships between high-ranking government officials" and companies selling spare automotive parts to the government.

A House expenditures subcommittee report did not mention details involving high-ranking officials but it cited increased government business secured by one company after employing a former ordnance inspector and another which hired a retired Army captain.

It was learned that the group headed by Rep. Harry (D. Va.), is considering further action on a number of other cases.

Subcommittee disclosures were first reported in the removal of Brig. Gen. David J. Crawford as commander of the Tank Auto Motive Center in Detroit, and Col. Shirley W. McElwain as commander of the Rosford Arsenal.

Today's report recommended that the Federal Trade Commission thoroughly study the "legal" use of trade practices in the automobile industry and take action if they are considered in restraint of trade.

The report specifically criticized the lack of competition in bidding for government contracts, and the custom of buying auto parts through companies assembling vehicles in lieu of those originally manufacturing the parts. Some parts makers bid high to avoid getting contracts, it said.

"Repetitive costs and pyramid profits," the report said, cost the government "hundreds of millions of dollars extra in buying spare parts totaling around one billion dollars a year."

It cited one case in which the Studebaker Co. made cylinder heads for \$4.04 apiece but the government paid \$12.23 for them after the parts had passed through three middlemen.

It also cited the case of a corporation which bought auto heaters from Tropico-Aire Inc. for \$32.74 apiece and sold them to the government for \$51.95 after adding "nothing to the heater but government packing."

Chrysler spokesmen told the subcommittee that this system was necessary to keep many auto manufacturers in business, through higher profits of parts.

The subcommittee reported, however, it saw no justification for the government following the procedure and recommended that parts makers buy directly from parts makers.

DeBary Day Festivities Climaxed With Talent Show At High School

ROTARY SPEAKER

DeBary Day, a program of welcome for more than 600 citizens of the neighborhood community of DeBary in Volusia county, was a heart warming success yesterday as Sanford demonstrated its spirit of friendliness by going "all out" to entertain the delighted visitors.

Climaxing the program in which the Seminole County Chamber of Commerce, Sanford Merchants Association, Seminole High School pupils and band, and City officials and many volunteer workers cooperated to please the DeBary folk was a lively program of entertainment last night at the Seminole High School Auditorium, which was nearly filled.

Sparked by the wit and personality of Charles Morrison, chairman of the Sanford Rotary Club, the performers, including boys and girls of the Seminole High School Glee Club, pupils of the Duxbury School of Dancing, and talent from the Naval Air Station, soon had their audience in a state of enthusiastic excitement.

DeBary folk joined heartily in the group singing led by Mr. Morrison at the start of the program with Harry Kudel accompanying. Gerald Covington, initial performer, and Glee Club soloist, was applauded for his singing of "Where Ere You Walk" a Negro spiritual number.

Albert Green of the Glee Club, accompanied by Lucille Price, drew a hearty reception with his singing of "Auld Lang Syne," a Negro spiritual.

The Girls Triple Trio, including the Misses Norma Faye Harvey, Gretchen Kirchhoff, Carolyn McIntosh, Barbara Higgs, Donna Willet, Sylvia Hayes, Linda Leonard, Sandra Dunn and Joyce Jones, scored a big hit, stopping the show with their "Gay 90s" rendition of "Sweet Violins."

Rousing songs of the sea were sung by the boys double quartet including Edwin Tison, Joe McClung, Kenneth Gano, Gerald Covington, Joe Hutchison, George Harden and Gordon Toll. Miss Miller accompanied both groups.

Fred Green of the Naval Air Station grooved his plans technique with three numbers, including an oddity entitled, "Three Blind Mice."

Three talented young ladies from the Duxbury School of Dancing, Norma Faye Harvey, Ann Whitaker and Joni Saunders, introduced the DeBary folk with their mastery of tap, toe and acrobatic dancing. Mrs. James Blankenship accompanied.

C. B. "Pete" Schirrad, playing the vibraphone and accompanied by Harry Kudel, drew applause with three numbers, including "The Rosary" and "Brahms Lullaby."

Gene Arnold, Naval Air Station expert on the piano accordion, was interrupted with applause right in the middle of his rendition of "Lady of Spain." He also played marches and medleys.

Edward F. Lane, general chairman of the DeBary Day program, was given a hearty reception when introduced by Mr. Morrison. M. L. Saborn, president of the Merchants Association, had charge of the prize gifts. Forrest Breckenridge, manager of the Seminole County Chamber of Commerce, was introduced.

Another big event of the day was the fish fry at the Softball Diamond which was attended by nearly 1,100 persons. Mayor W. H. Memphis welcomed the DeBary visitors and Chaplain Danielson of the Navy Air Station, pronounced the benediction.

Senator Russell To Greet Public Here Sunday Afternoon

No Calling Of Grand Jury Told By Judge Smith

Clerk Of Court Held To Have No Authority To Call Jury

Judge M. H. Smith of the Circuit Court "ruled" this morning that there is no need to summon a grand jury during the present Spring term of court.

This action came after he was informed by Assistant State Attorney Herbert Griggs that there are no capital cases, or other complaints to be investigated.

Asked what part the Clerk of the Court has in summoning a grand jury, Mr. Griggs replied that the Clerk only handles the minutes of the court and has no responsibility in calling a grand jury.

He said the sole responsibility of the circuit judge, he said, who receives his information from the state attorney's office before making any decision on order on the necessity of a grand jury investigation.

Any citizen may inform the judge or state attorney of the need for calling a grand jury into session, Judge Smith said. But the summons of the Clerk of the Court carries no more weight than that of any ordinary citizen on the matter.

Attorneys for Samuel Gerson of Casselberry, victim of an alleged attack by Hibbard Casselberry, have filed civil suit in Circuit Court against Mr. Casselberry for \$10,000. Of this amount, \$10,000 is sought as punitive damages and 1,000 as compensation.

The attorneys represent Sanders, McEwan and Ferguson, Orlando.

In the complaint it is stated that the defendant did without justifiable cause, maliciously, intentionally, brutally and publicly assault and beat the plaintiff and as a result thereof the plaintiff suffered bruise and contusion and was forced to incur doctor bills, medical bills and as a further and direct result thereof did undergo great mental and physical pain, suffering and humiliation.

Bostick Acquitted In Negro Slaying By Coroner's Jury

Ole Bostick, local Negro, who had been held pending the outcome of the fatal shooting of Lema of a coroner's jury investigation in the Negro, early Saturday near the Bostick Road, was released from County Jail yesterday after the jury returned a verdict of justifiable homicide.

Laura Randolph, a witness of the affair, pointed out that Bostick had become involved in an argument with Wise and Matthew McGill, Negro, who appeared as a third witness in the case. Wise and McGill were described as having drawn knives and advanced on Bostick who shot to protect himself.

Dr. George H. Barke, Negro physician, who had attended Wise and McGill, then sent him to an Orlando hospital for brain surgery, stated that Wise had been shot over the right eye, the bullet penetrating his head and not emerging from the front of the head, as had been his first impression.

The initial witness was R. Donald Summy Lewis, 11, who told of recording Bostick's car license number in the sand, as the latter rushed for his car. This enabled Bostick's dentists to locate Bostick's car, following which the latter gave himself up to authorities.

W. E. Watson, justice of the peace, called the jury into session and Assistant State Attorney Herbert Griggs conducted the inquest. They had all been in Tampa previously to view the body of Wise at a funeral parlor there.

Rally Tomorrow At Bear Lake Club

Citizens of Bear Lake, located near Forest City, will have an opportunity to hear candidates speaking at a rally to be held at 8:00 o'clock tomorrow night at the Power Company club house. No supper is scheduled.

Alm Lee, chairman of the Seminole County Democratic Executive Committee, will again preside.

Two more rallies will follow before the election. One will be held at 7:30 p. m. on Wednesday at the American Legion Building, Fern Park, and the other, the wind up of the campaign on Saturday, May 3 at 8:00 p. m. at the Seminole County Court House.

FOOD PRICES

WASHINGTON (AP)—Restaurants, boarding houses, taverns, hotels and dog feed stands must post publicly today their ceiling prices for food and drinks.

The Office of Price Stabilization (OPS) said the price ceiling order affects more than a half million establishments serving 70 million meals a day and doing more than 12 billion dollars of business a year.

Price Stabilizer Ella Arnold said that through the posting of prices their customers now will be able to see the maximum prices they should pay.

BOMB ATTACK

WASHINGTON (AP)—Lt. Gen. Ennis C. Whitehead said today a surprise atomic bomb attack on this country 10 months ago would have succeeded "beyond the fondest hopes" of its planners.

Whitehead retraced the time from the Air Force. He emphasized he has no information on the defense powers as of now.

John Carlton Is Smathers' Assistant

WASHINGTON (AP)—John T. Carlton, a former Georgia newspaperman, is the new administrative assistant to Sen. George Smathers (D-Fla.).

Carlton, who became Smathers' executive assistant a few months ago, moved up to the top post with the departure this week of George Young to practice law in Jacksonville.

Carlton's official residence now is Sanford, Fla., where he has a sister, Mrs. W. B. Rowell.

SOMETHING'S Missing

Tom has a ballbat and Joe has a mitt. They are two sturdy, normal, active boys, eager for a good time. But something is missing.

There is no ball. They can swing the bat in thin air all day long, and wave and pound the mitt. Yet all their motions are completely senseless if they have nothing to strike at or to catch.

You are a fortunate normal American, eager for a good time and happy life. But perhaps there is something missing in your life too.

Do you go through the motions of earning a living, clothing and feeding your family, finding entertainment, yet everything seems rather empty and senseless?

Perhaps then God is missing. Seek Him and your life will take on new meaning with vital purpose. "Seek and you shall find—"

THE CHURCH FOR ALL ... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

METHODISTS MEET
SAN FRANCISCO (AP) drama to floor light shaped up today as the General Conference of the Methodist Church took up its most controversial subject—a Survey Commission report recommending drastic revision of church structure.

The 3-year, \$20,000 survey by a firm of industrial engineers aims at streamlining church organization. Opponents contend the proposed revisions are "too sweeping" and would result in a "destruction of power."

Blues Drop Second In Row To Orlando, Play 'Hats' Tonite

Seminole Blues To Meet Leading Red Hats Here Tomorrow And Saints On Sunday

By KENT CHETLAIN

The Seminole Blues suffered another one of those recurring attacks of erroritis last night in losing to the Orlando Senators for the second straight night at Tinker Field in Orlando. In all, the Blues committed four mistakes. Actually the game turned out to be a battle between a pair of erroritis sufferers, as the Senators were charged with six.

Wayne "Rip" Sewell fired a four-hitter for the Blues but one of the blows was Mr. Champ Aleno's first home run with Murray Byrd and Gomez aboard, which tied the game at 4-4 in the top of the seventh.

Byrd, who has been the most effective pitcher to date for the Blues, spun a 5-hitter in seven and one-third innings before being relieved by reliever George Kenis. Byrd yielded only three earned runs but was charged with his second defeat as against one win.

The Nats opened fast in the first with four runs on a 2-run double by catcher Don Ford and two wild throws by Blue shortstop Howie Miller. Ford slipped in the winning run in the bottom of the eighth on a single. It was Ford's sixth RBI of the two-game series and his 14th of the year.

The Blues threatened in the ninth when Bill Campo, a St. Louis Brownie chatter, who just arrived prior to the game, laced out a double pinch hitting for Miller. Two were out at the time. Parise walked, but for some strange reason, Campo broke for third and was nailed there to end the game.

Blues Week-End Schedule
 Tonight
 Sanford at DeLand, 8:00 p.m.
 Saturday
 DeLand at SANFORD, 8:00 p.m.
 Sunday
 St. Augustine at SANFORD, 3:00 p.m.

Tonight the Seminole will try their luck against the long leading DeLand. The Blues now have a record of five wins and as many losses for a sixth place rating. The Red Hats boast of a 5-3.

Tomorrow night the Blues will return home to play the last game of the DeLand two-game series. On Sunday afternoon the Seminole will meet the last place St. Augustine Saints led by suspended manager Bert Sheppard, a one-legged war veteran.

The Blues defeated the Red Hats in their only game this season, 7-0, in 10 1/2 innings. The Saints' 5-2 win over the Blues is one of their two wins thus far this year.

Aleno may try Jesus Corralo against the Red Hats tonight. It will be the first mound appearance of the year for the new comer.

Rollins Is Featured At Sanlando Springs

A gala water show featuring Rollins College aquatic stars under the direction of Fleet Fishes will be one of the attractions at Sanlando Springs on Sunday afternoon. The program will include swimming, diving and canoeing by top-notch performers.

Synchronized swimming will be demonstrated by members of the Tarpon Club under the direction of Vera Jane Dorsey, director of physical education for women at Rollins.

Another outstanding performer will be Miss Bobbie Doerr, New Jersey's state back stroke champion from Westfield, New Jersey. She won the Southern AAU back stroke championship at Highpoint, North Carolina in 1948. Her time on the 100 yard back stroke is 1 minute 17 seconds.

New Scoreboard Being Erected; Blues Sign Two, Drop Malarkey

The ultra-modern \$100 scoreboard for the Memorial Stadium arrived two days ago and will be up in time for tomorrow night's Seminole Blues-DeLand game. It was announced by President Field today.

The 17 by 8 foot scoreboard had to be split in two to be transported to the stadium from the railroad depot. "It will be a tremendous improvement over the old one," Mr. Field said.

Meanwhile, the Blues announced the signing of a gigantic pitcher, George Smith. He stands 6-feet-3-inches and weighs 210 pounds. Smith is a limited service player who bats and throws right handed. With St. Cloud of the Class C Northern League last year, he compiled a respectable 3.87 earned run average in winning 8 and losing 5.

Celery Fed Golfers Play In State Meet

Sporting a victory over the highly touted Orlando Senior High School golf team, the Seminole High linksmen entered the annual state prep golf tournament at Lake Worth yesterday.

Coach Bill Fleming took his four top ranking linksmen, George Herndon, Mel Fleischer, Jimmie Fox and Wes Spencer.

The Orlando victory two weeks ago was especially significant for the Seminole High golfers since the Orange County linksmen have been ranked as one of the top teams in the state.

Sanford defeated Orlando 11 1/2 to 0 1/2.

DOES IT MAKE A DIFFERENCE?

The following question has arisen during the past few weeks:
"Is Seniority Essential To Good Committee assignments in your State Senate?"

In the United States Senate where there are definite rules regarding committee assignments because of seniority, we would have to agree that seniority could have a big bearing on a candidate's qualifications for the post.

But, in our Florida Senate, no such rules exist, and we offer this proof to the citizens of District 37 that Seniority does not help a member of the Florida Senate:

The present senator had more and better committee assignments as a member when he first became a senator in 1945 than he had during the last session in 1951.

Here are his committee assignment records during his terms:

Senator Russell
 (Continued From Page One)

Senator Russell will make a whirlwind stumping tour of Florida for 10 days prior to the May 6 presidential primary. He and the Tennessee senator of crime-busting fame will meet again in another primary May 27 for election of 24 convention delegates.
 He appears assured at this point of the support of virtually every state of the Solid South except Florida and Tennessee. A Kefauver victory in Florida would lock the claim of Russell's boosters that the Georgian is the overwhelming choice of Southern voters.
 Georgian, who elected Senator Russell their governor once and senator four times, plan to send their favorite son into the fray with a rousing show of their support tonight.
 A mammoth parade with a 200 motorcycle police escort will make its way down famed Peachtree Street this afternoon to the cheers of more than 100,000 persons. Parade planners say it will rival the one which accompanied their rimer showing of "Gone with the Wind."

Virtually every Georgi political figure of note will be on hand for the steak dinner along with a number of other Southern leaders including Gov. Warren, James P. Byrnes of South Carolina and Hugh White of Mississippi.
 Russell will be introduced at the dinner by Gov. Herman Talmadge of Georgia whose father, the late Eugen Talmadge, was once a political foe of the senator. Talmadge proclaimed tomorrow "Richard B. Russell Day" and ordered the State Capitol closed in the afternoon.

Russell Given Big Reception In Sanford

Nearly One Thousand Trek Thru Center To Shake The Hand Of Next President

Nearly 1,000 happy citizens of Sanford and Seminole County jammed the Chamber of Commerce building yesterday afternoon to greet and shake the hand of Senator Richard B. Russell of Georgia, leader of the Democratic nomination for president.

It was by far the largest crowd ever to greet a political candidate here at such a reception, according to many observers, and estimates of the crowd passing through the building in the two hour period ran as high as 1,000.

Photographers' flashlights popped at frequent intervals in the jam, as an almost endless line of citizens filed past Senator Russell who seemed delighted with the thrill of the occasion.

With him in the receiving line were Senator George Smathers, Eric Coker, Jr., immediate past commander of the American Legion, Capt. John L. Chittenden and Comdr. G. H. Boyson of the Naval Air Station and Mayor W. H. Stempert. The latter presented the Key of the City to Senator Russell.

The reception followed a luncheon attended by about 25 Russell supporters headed by Bill Kirk, at the Twilight Grill.

Finally during a hall in the handshaking at the Navy Center, A. D. Curran, secretary, treasurer of the Seminole County Democratic Executive Committee, introduced Senator Smathers, who in turn introduced Senator Russell.

Senator Smathers declared that Georgia and Florida are 100 percent behind Senator Russell, who he predicted would be given a "riderless victory."

Senator Russell declared that he did not have words to express his deep appreciation at being in the midst again of real Jeffersonian Democrats.

"As Jeffersonian Democrats we do not want any more graft, corruption or betrayal," he declared. He added that if elected he would seek to prevent the centralization of the federal government in the hands of a few.

He also predicted a big inauguration in July and victory at the (Continued on Page Two)

Value Of Motion Picture Business Is Told To Rotary

Maurice Wolf Stresses Over 200,000 Employed In Films

The motion picture industry represents an investment of over 25 billion dollars, employing over 200,000 persons, Maurice N. Wolf, public relations director for Metro-Goldwyn-Mayer, who was introduced by Bob Harris, Rotarian, stressed at the Rotary Club today.

Wolf, who spoke to the Sanford club on a trip through this part of the state four years ago, said that he had not forgotten the fine luncheon served him at the time by Mrs. Gatchel and that in all his travels throughout the country speaking to more than 470 city organizations he had not had one as good as that.

He also announced that there will be no meeting of the club on Monday, May 5, and that there will be an inter-city meeting with the DeLand club at the Gasparilla County Club on Wednesday, May 7. The annual corn roast and boat race is expected to take place on May 11.

176 Seamen Lost As U.S. Warships Collide At Sea

Hunt For Survivors Is Abandoned After Worst Navy Misadventure

WASHINGTON (AP)—The destroyer minisubmarine Wasp Saturday night and sank in the middle of the Atlantic Ocean. The Navy said today it has called off the search for 176 seamen listed as missing.

It was one of the worst naval disasters in this nation's history. The Navy Department said the air and sea search for survivors was called off at sundown Sunday.

There were no casualties reported on the Wasp. Sixty-one seamen on the Legion-Hobson were listed as rescued.

The collision took place shortly before midnight Saturday 120 miles due east of Lisbon and 700 miles east of the Azores. The Navy said the seas were choppy and the weather murky. It described the conditions as near stormy.

The first official word of the crash came shortly before noon EST Sunday.

A Navy Department spokesman said the search was called off because planes and ships in the area of the sinking had ample time to search the waters.

The crash ripped a 75-foot hole in the hull of the Wasp. The ship was just above the water line near the bow. The Wasp was making its way to New York to repair it when it was expected to reach New York before Friday or Saturday.

Confusion marked early reports of the tragedy, but the Navy believes this is what happened.

The Wasp and Legion-Hobson were part of a task force en route to the Mediterranean. In all, there were about 30 carrier, cruiser, destroyer and submarine.

Night maneuvers were being held by the fleet in a general area.

The Wasp and the Legion-Hobson were on a collision course. The Wasp was on a course to the east and the Legion-Hobson was on a course to the west. They collided at a point about 120 miles east of Lisbon and 700 miles east of the Azores.

Supreme Court Rules On Question Of Religious Teaching In Schools

WASHINGTON (AP)—The Supreme Court today upheld New York's released time program for giving religious instruction to public school pupils.

A decision Justice Black, Frankfurter and Jackson wrote separate dissenting opinions.

That meant the majority was composed of Chief Justice Vinson and Justices Reed, Burton, Clark and Minton in addition to Douglas.

In many states, varying numbers of public schools now use similar released time plans. Under them, an estimated 10 million students are freed from regular classes to receive religious instruction.

Under the New York program, children are released from classes to attend religious instruction at their parents' request.

Religious centers located away from public school property.

If a parent does not wish his child to go to the religious classes, the child remains in public school for regular studies.

The program was attacked by Mrs. Tetlain Zorach and Mrs. E. A. Gluck, Brooklyn mothers who said their children do not participate in it. (Their children attended schools for religious instruction at times when the public schools are not in session.)

The mothers contended the program violates the federal constitutional requirement of separation of church and state.

Lawyers for the mothers argued that "The power of the state should not be used to help religious people get pupils for their religious instruction."

4 Shots Reported Fired Friday Nite At Sanford Man

Sanford (AP)—A man was shot in a series of strange snappings street W. A. Barfield, 223 W. Second Street, when four shots were fired into his small house narrowly missed him last Friday night shortly after midnight.

Mr. Barfield, who was sleeping at the time of the shooting, said today that one bullet missed his head by just six inches. Police were alerted when Fred Clay, a neighbor, called police after hearing four shots and seeing a person running around the yard and jumping into a car, driving away.

Policeman Joe and Jack Hickson answered the call but were unable to find the person firing the shots. Only last Monday night Mr. Barfield's car was stolen from in front of the American Legion Hut while he was attending a meeting.

The car was found near Tavares last Tuesday morning completely burned. About one month ago, Mr. Barfield's home was badly burned while he was away. Police have not been able to track down the criminal or criminals responsible for these acts of violence. Chief J. W. Barfield said today.

"The first thing I did when I awoke and heard the shots was in roll off the bed and fall on the floor. I like we were taught in the Army. I actually only remember hearing two shots."

He told the Herald that the police found two slugs in his house and he had discovered two more since Friday night.

Terminal Proposal Is Expected Tonight

A counter proposal in regard to lease or sale of city owned lakefront land for the building of a terminal by private interests is expected to be submitted tonight by Commissioner Randall Chase to the City Commission, to which he has already sent a memorandum on the subject.

At the previous meeting of the Commission, and following two hours of discussion, City Attorney A. Edwin Shinkholder and G. W. Spencer, attorney for the terminal group, were instructed to outline a 90 year lease on the lakefront property. Mr. Spencer and Albert Pitts, terminal committee head, insisted that no outside capital could be interested in the project unless at least 35 acres of land were available for lease.

Mr. Chase in his proposal stated in part: "I suggest that the City make a proposition for the Terminal group to buy from the City a sufficient area, probably 5 to 7 acres, for the construction of the initial unit warehouse. I suggest that an outside sale be made on the basis of \$1,000 an acre."

Mr. Pitts today termed the proposal of Mr. Chase "a complete agreement reached in February by a committee appointed by the City and a terminal committee, and of the Commission's action at its own meeting on Apr. 14."

Southern Memorial Day Observed In Sanford With Talk By Wilson

High tribute was paid to General Robert E. Lee and Thomas J. Jackson, as well as other leaders of the Confederacy by Attorney Fred R. Wilson in Southern Memorial Day program Saturday morning honoring the dead of all wars arranged by the Norman DeVera Howard Chapter of the United Daughters of the Confederacy.

Mr. Wilson also emphasized the correctness of Southern political thinking from Thomas Jefferson down through the years to the present time when "it is left for the South to rescue the country from the element that has polluted the stream of simple and sane Jeffersonian Democracy," and read the names of all Confederate soldiers from Seminole County.

The program was broadcast over Station WTRR. Dr. W. P. Brooks, Jr. asked the invocation. Mr. Wilson's address was as follows:

"Before the adoption of our national constitution, two schools of thought sprang up in this country, one espoused by Alexander Hamilton, who believed and taught that a highly centralized national government with absolute power in the President and the Congress would redound to the best interest of the people; the other by Thomas Jefferson, who believed, and correctly so, as time is demonstrating, that the more government is diffused among the people, the safer are the people. Thomas Jefferson was the greatest political thinker that this country has ever produced. At times marching on, the wisdom of his views on the proper rela-
