TE IS singled out here from among 54,000 because he is a well-known, representative citizen, a resident for more than twenty years. For the last five years he has been spending his summers in Asheville -one among the thousands who seek the bracing air of the mountains.

But Asheville has become more than a summer-time resort. Now, it welcomes its thousands of visitors every month in the year. For Asheville's winters are as remarkably mild as her summers are fresh and bracing. There are few extremes of weather, thanks to the combination of the altitude, the Southern latitude and the shelter of the mountain ranges.

Thus, golf is a year-round game in Asheville, a game to whose enjoyment is added beauty of surroundings equalled by no other courses in America. To her two most famous courses, scenes of combat for the foremost American professional and amateur players. Asheville is now adding four more.

To the visitor as well as to the permanent resident, the mountains that surround Asheville are the source of greatest delight. Great towering ranges, among which are the highest peaks in the East, are within easy reach. More than a thousand miles of perfect motor roads lead away from Asheville as a center. offering a score of motor trips through mountain scenery of surpassing beauty. Some of the most famous of these trips are to Mt. Mitchell (6.711 feet), to Mt. Pisgah and Pisgah National Forest, to Chimney Rock and through the Great Smoky and Blue Ridge Mountains.

Where There Is Activity There Is Profit

Sanford Grove, at the intersection of Geneva Avenue and Crescent Boulevard, is teeming with activity. On every hand improvements are being made, developments are being carried on with unceasingly rapidity. Building and construction is forging ahead with unusual energy. Sanford Grove is fast taking its place as one of Sanford's most desirable home communities, where every site, whether bought for homesite or profit, is afast growing investment.

We want to prove these statements to you; we want you to compare Sanford Grove with any development in the entire district. Call this office and make arrangements to have one of our representatives accompany you to the property.

No Town For Bums

The tragic Stephens-Morasso affair of Sunday night, end-ing in the suicide of a young railroad fireman and the serious wounding of a cafe waitress has stirred the citizenship of Sanford in a manner that serves to emphasize the rarity of similar crimes here, and the general freedom of the city from any serious infractions of the law.

This cafe brawl was the first show of violence to end fatally in many months, and police records show that Sanford's peace has seldom been disturbed by any crimes more live, approving or vetoing laws, serious than traffic law violations and occasional liquor enforcing them, if necessary. He

In considering this generally wholesome state of law and make laws or change them, and order, credit must be given not so much to the virtuousness he acts accordingly. of Sanford citizens as to the healthy state of business in this community. The only Realty Safeguard is Title Insurance

Title insurance is a guarantee that you can't lose through any hidden title defects. It is your protection against loss or litigation. It is a precaution which all realty investors, attorneys, abstracters and mortgage purchasers should insist upon. It is a pledge of a \$25,000,000 corporation (if we write the policy) to protect your interests and absorb your losses. There is just one small premium to be paid for complete protection to your property forever.

-and it's old-fashioned to let money lie idle

O one can justly say he makes the most of his opportunities to get ahead in the world if he knows how to save money and then lets it he idle—producing nothing—instead of investingit and making it earn MORE money. Isn't that the logical, sensible thing to do? Teach your dollar to have more cents. INVEST YOUR SAVINGS

You will be entitled to receive \$105 a year if you invest in only 15 shares of Florida Power & Light Company Preferred Stock. In only 12 months the dividends carned by your shares would amount to \$105. YOU would not have to do a tap of work for that \$105. Your savings, invested in our stock, would have done the work and turned the wages carned (the \$105) over to you. Investing is an up-to-date progressive way of making money. Do not confuse "investing" with "speculating". Lots of folks don't

realize the difference. "Speaking" means taking chances in ning risks; subjecting your becarried dollars to perils and hazata—what many people call "stock gambling". INVESTING does not consist of plunging or blindly taking chances. Investing means putting your money to work in some firmly established business where your dollars will be SAFE and where they will steadily and surely earn more dollars for you. And that is just what happens when you buy shares of

READ THESE TRUTHS ABOUT A "REAL FLORIDA" CITY

A day-by-day story of a Florida community that we believe will show more comparative progress in the next five years than any other city in the state.

THIS IS NO. 9

The Spirit of Sanford's Citizenship

Stand-patters are "out" in Sanford. A progressive citizenship-a new generation-now controls its destinies. It comprises ambitious and determined men and women, radiating success, and in the prime of life.

Factional troubles are not countenanced in Sanford. The cooperative spirit as near as possible to being 100 per cent effective, is an essential feature of Sanford's constructive policy.

And that spirit of welcome accorded the stranger in Florida's twelfth largest city! Before you know it, you become a part of the social, civic and business circles here. Your interest is aroused by the speed and thoroughness with which they attack their problems and consummate their plans.

This spirit is intensified by civic and social clubs and organizations; the Chamber of Commerce, Real Estate Board, Rotary Club, Kiwanis Club, Lions Club, Women's Club, Golf Club and Yacht Club in addition to the local branches of all great national societies.

It's that unusual and happy state of mind, after all, that builds cities—that doubled Sanford's population in five years, drawing its people from all fortyseven states in the Union. Sanford people believe that the "Sanford Spirit" can accomplish anything within reason which the community sets out to do. At Sanford are inexpensive homes and homesites, farms, acreage, business and industrial locations. Municipally owned utilities. Forty-seven miles of paved streets. Three banks. Modern schools, and churches of all demoni-
