Germans Blown To Pieces By Minefields in Crimea

Russians Claim To Have Situation In Hand, Stopping Two Attacks

Nazi Parachutists Also Annihilated

Hitler Reports Destruction Of 4 Red Armies Near Kiev

PARIS, Sept. 26 (AP)—The first three men sentenced to death by the powerful tribunal of state were executed today on the gallows in the courtyard of the Rantzau Prison. The tribunal was created by the French to show Germany the French themselves could handle the opposition.

Whole battalions of German shock troops have been blown to pieces by minefields in a strong attack on the Crimea, advisers reaching London today said and the Russians are reported to have the situation well in hand after stemming two Nazi assaults.

German parachute troops used in the attack were likewise decimated.

To the north, Hitler's command reported the destruction of four Red armies trapped east of Kiev was progressing relentlessly with the number of Soviet prisoners now standing at 192,000.

The British said, quoting a Soviet spokesman, said the Germans launched their initial attack on the Crimea Wednesday night, hurling tanks, mechanized infantry and a number of paratroopers into the assault.

On the Leningrad front, German dispatches pictured the city as being slowly reduced to ruins. Leningrad still stood last night while the Germans and Russians fought outside its gates on a battlefield that was no front at all any more.

The Red soldier-sailors forces claimed a little the better of it, at least momentarily, reporting that a series of counterattacks had thrown the Nazis back six miles in one section, recapturing two outlying villages in the process.

The Germans issued reports that they were sometimes conflicting, they acknowledged for example that two Soviet battleships previously pictured as out of action now were lifting a powerful bombardment—but stuck to the central version that there was essentially an advance, although admittedly only block by block and house by house.

One of the most authoritative of German commentators, the Dienst am Deutschland, described the ships, the Meffert and the Grotz, as forming "the strongest potential defense" for Leningrad, but added:

"It will not be long until the barrels of these gun towers are silenced."

Along with this assurance, however, Berlin for the first time mentioned that more than 40 Soviet U-boats were "hidden in the bay."

The principal success claimed by the Germans slayer on the front was in the lower Ukraine, where it was stated the southern Nazi armies advancing on Kharkov in the industrial Donets River basin were standing before one of the most important cities of that region.

Rovlet military dispatches of yesterday said little of that area, but reported a continued advance for the Russian armies of the center somewhere in the area of Gomel.

The Germans announced the Russians had thrown great masses of men against Nazi positions on the Dnieper River more than 200 miles west of Moscow, and said that German infantry holding the east bank had repulsed these attacks. It appeared that this was about Velich, which is 60 miles north of Smolensk.

C. Of C. Has Meeting For Organization

Principal Officers Of Trade Body Are Re-elected

W. A. Leffer was re-elected president of the Chamber of Commerce of the annual organization meeting of the trade body held in the City Hall last night. Edward Higgins, secretary, was also re-elected as were the other principal officers.

In accepting the responsibility for a second term, Mr. Leffer expressed his gratitude for the cooperation he has received during the past year and pledged his continued efforts toward objectives which he described as comprehensive but none the less well striving for.

Making the treasurer's report, H. H. Coleman revealed that the Chamber of Commerce has kept well within its budget during the past year, that it began the year with a cash balance of \$185 and now has \$1,904.99 on hand. Meanwhile it has spent over \$2,000 in advertising.

Commenting upon the good financial condition of the Chamber of Commerce, Mr. Leffer said that the budget for the coming year would be about \$11,100 and that for the first time in years there was enough money set aside to make a serious effort to accomplish big things.

He suggested that more money be spent in national publications to attract tourists, that a fund be set aside for blue prints of worthwhile objectives, and that greater efforts be made to improve highway communications with the outside world.

Early in the meeting, D. J. Higgins was appointed temporary chairman for the election of officers. A nominating committee composed of John Meisch, chairman, J. L. Ingle, secretary, and W. G. Kilbee, secretary.

The following were recommended: W. A. Leffer, president; Gen. D. Bishop, vice president; Ed Higgins, secretary; H. H. Coleman, treasurer.

J. L. Ingle, vice president, District No. 1; F. A. Bryan, vice president, District No. 2; C. E. Bradshaw, vice president, District No. 3; R. F. Wheeler, vice president, District No. 4; W. G. Kilbee, vice president, District No. 5.

As there were no nominations from the floor, upon motion they were unanimously elected to their respective offices.

Others who addressed the gathering during the meeting were: H. H. Coleman, H. F. Wheeler, B. F. Haines, and Fred T. Williams.

Ware's Office To Be Open Until 8:00 P. M.

Welfare Board Grants Large Sum To County

JACKSONVILLE, Sept. 26 (Special)—Seminole County received the sum of \$45,000 in public assistance cash grants during the fiscal year ended June 30, 1941, according to an announcement here today of the State Welfare Board.

Cash totals for the county in the three categories were: Old Age Assistance, \$69,130.00; Aid to Dependent Children, \$13,010.00; Aid to the Blind, \$1,190.00.

"The payments, spaced at monthly intervals throughout the entire year, constitute a continuous and helpful payroll, the benefits of which were shared by the entire county and all eligible needy beneficiaries."

"Also," the Commissioner continued, "the county was spared the responsibility of caring for a large number of needy children."

Mr. Shaffer shot consistently in the matches taking up a score of 97 in all three events, rapid fire, slow and timed. Mr. Wolfe finished his scores a bit lower, but dropping to a 97 in the rapid fire, Mr. Wolfe picked off a 97 in the timed shooting but fell to 51 in the slow fire to take fourth place in the match score competition with a 297 total.

BIBLE VERSE FOR TODAY

JUDGES SHOULD CLOSE THEIR EYES TO PERSONAL INTEREST OR ADVANTAGE. ALL SHOULD BE FAIR IN JUDGMENT. AVOID EMOTION IN JUDGMENT. Ye shall do no unrighteousness in judgment; thou shalt not respect the person of the poor, nor honor the person of the mighty; but in righteousness shalt thou judge thy neighbor. Lev. 19:15

LOOK NO MORE
 (From Kaleidograph)

You who have seen me look for me no more
 I was no comet come to complete the starry pattern
 I was only a falling star, a magnificent slattern
 I came by the rush of my fall, in burning tatters
 I flung out of heaven's door.

I was no star to steer a vessel by
 I had no orbit; I was away among the planets
 I was a fragment only, when the gods in their gigantic wrath hurled star upon star and flung me, frantic, ahward the startled sky
 I shall not come back, you may look till you are old
 You will see only the stars that troop like quiet sheen
 You will hear only the winds that trickle sweetly down
 They must look down to find me, who find me where I sleep
 a small black stone, and cold, that flamed, a remembrance, a monument only in crimson and gold
 —CORAL MORGAN

Movie Propaganda

Because the movies have failed to extoll the virtues of Nazism and have pictured it in its true light as the basest form of government yet devised by man, they are now being subjected to a "witch hunt" by Senate isolationists who, whether they know it or not, are serving as Hitler's tools in this country.

"A little group of isolationists in the senate, fiddling while Rome burns," says the Daytona Beach News Journal, "are wasting time and funds in an investigation which for their nonsense caps anything ever undertaken by wearers of the toga. And of course that statement is something in superlatives. Senators Clark, Nye, and Wheeler—that triumvirate of obstructionism—assert in their wisdom that the movies have undertaken a deliberate propaganda drive to get us into war.

"The basic fallacy of their position lies in the fact that the movies—interpreting the form of drama the emotional values of life, in the past and also in the present—could not touch upon the gravest and most dramatic of all modern situations without stirring the emotions toward action against the aggressors who threaten the future of the world. Had they failed to do so, the movies would have fallen down as an art functioning in and expressing the life of a democracy."

—The *Picture Post* pictures as "The Great Dictator," "That Hamilton Woman" and similar films objected to by the isolationists, the movies have merely responded to a popular demand which has existed here ever since the dictator began to strut upon the world stage.

Football Coaches

Retiring from coaching to become commissioner of the National Football League, Elmer F. Layden—who succeeded Knute Rockne at Notre Dame and coached his teams to 47 victories and three ties, and only 13 defeats—has a word of caution for grandstand quarterbacks who "pan" the coaches. In the current issue of *The Rotarian* magazine, ex-coach Layden gives a few rules for gauging coaches.

"Because these intangible factors are not perceptible from the 50-yard-line seat, I suggest, Mr. Spectator, that you ignore strategy," Layden writes. "There are other bits of evidence you can pick up—check his players on these points: Do they tire quickly or do they appear in good physical condition? Do they block hard and tackle crisply? Layden feels the most important item in rating a coach is not the win-or-lose record of his team, but whether the team plays clean football, is alert, well conditioned, proficient in fundamentals. If the answer is yes, the coach is a capable man.

The work of a coach, Layden explains, is not confined to the season of a few weeks when the team is playing. It is a year-round job. Not the least of his duties is the making of myriads of speeches. And it takes some years to know the full story—because the men who trained under that coach really exhibit what they learn ten, 15 or 20 years later. "A coach should be judged ultimately by the men he produces," Layden asserts.

Less than 50 coaches draw the "headline" salaries. Layden explains. Down the lists, the salaries shrink until an average high school coach draws less than \$3,000 a year. "If a coach didn't like boys and like to work with them, he wouldn't have become a coach in the first place," Layden concludes. "Think that over, Mr. Spectator, some Saturday evening this Autumn after your favorite team has lost a tough football game and then—speak kindly of the coach!"

Trend Of The Times

Many items of interest which indicate trends of the times are shown as old files of the St. Augustine Record are scanned.

For instance, here's one on higher education. Twenty years ago, in 1921, a news story on young folks going to school and college lists the total as 31. Ten years ago, in 1931, the total is given as 67. This Fall a check of the college and school list, and a detailed news story appearing in the Record recently showed a total of 156. That is a big total from a town of 12,000 inhabitants. It indicates that local people desire the best for their children in the way of education, and undoubtedly many are making sacrifices in order to give them the advantages that come from good schools and colleges.

The increase this year over 20 years ago is 500 percent. Over 10 years ago it is more than 200 percent. There is much that might be said and written over this trend.—St. Augustine Record.

Current Comment

By AGNEW WELSH

Writing in "Coronet" magazine about the coming revolt in France a prominent woman of that country stated that 90 percent of the people in occupied France and 75 in unoccupied are stubbornly opposed to any collaboration with Hitler.

About the finest bit of scorching I have read is one of Carlton Smith's "Thorns" To Warner Bros.—for moronic assembly-line productions which tire your tail-bone.

One of those word-hounds spent much time in tracing the origin of Nazi and about as far as he got was that it was a derivative term applied there to the National Socialist party, and was pronounced Nahi-see.

The ancient Hebrew law—"an eye for an eye, a tooth for a tooth"—was eminently fair when compared with that of their latter-day enemy, the Nazis, who shot 50 Serbians because of one German officer they had killed.

For the season of 1940-41 Dutch cranberry growers had 18,000 acres planted to winter tomatoes and already 500 have been set out for next winter's crop but reasonable growers predict that the total acreage this season will reach but 10,000 and about 4,500 to potatoes, a reduction of about 1,000 acres over last year.

The astute and dependable United States News says that an inflation is inevitable in any war situation but ours will not be a printing press war, as was Germany's, but rather one growing out of a great burst of production of material.

"DOWN TO THE SEA IN SHIPS!"

were seven deaths from natural causes. But why the last clause? There have been 39 violent ones so far this year.

The Columbia Broadcasting Company has opened a network of 39 standard and 25 shortwave stations in 18 South American countries. It has stations in 127 U. S. cities.

Pathfinder magazine says that each year an average of 3,160 of "the little old red schoolhouses" are disappearing. The centralized schools and the little old yellow busses marked their doom.

Marshall Field, the great Chicago merchant, said the greatest good a man can do is to cultivate himself—develop his powers—in order that he may be of greater service to humanity.

Miami will be one of the 80 largest cities being asked to find homes for Christian refugees, her quota being 61.

The University of Florida at Gainesville, has 21 Greek letter fraternities and 22 early returns showed 489 pledges for the new college year.

A mark Byron graph shows that the Miami bank clearance, a good index of a city's business, for August have been as follows:

1938	\$17,910,245
1939	21,193,915
1940	23,946,320
1941	23,985,234

While many Americans are opposed to war, any war on the grounds of cruelty and economic loss, and will continue to so think a Gallup poll does not show a very dependable average percent only 16 that would vote in a peace party, the action voting as follows: Southern, nine percent; New-England, 18; mid-Northern, 12; Western-17; Pacific slope, 15.

A graph showing the items Japan needs shows the odds and evens against her, the only two for war use she produces being coal and rice, and she must import ten percent of her coal and 60 percent of her rice; she must bring in her iron ore, cotton and rubber.

A national news agency states that from Nov. 1 of last year to June 1 of this, 324 new arms factories were completed, thus showing up monthly production as follows:

ITEM	1940	1941
Military planes	415	1,581
Tanks	20	359

Give YOUR CHILD EVERY Chance

School days are the formative years which determine what will be the child's success. He should give your child every chance to develop his full potential. All of the qualities with which they are naturally endowed.

If their eyes are not right, they are handicapped in their studies and in the development of their character, which is every day's business.

Make sure that your eyes are right before they go back to school. Have them examined now.

Your satisfaction is our business.

Missionary To Speak At Methodist Church

Sanford persons will be privileged to hear Dr. William S. Hughlett, a Methodist missionary to the Belgian Congo in Central Africa, at the Methodist Church Sunday evening at 8:00 o'clock.

Dr. Hughlett is the son of a retired Methodist minister now living in Clearwater. He was graduated in medicine from Emory University in Atlanta before reaching his majority. Therefore it was necessary for him to have special permission from the legislature before he could practice.

Dr. Hughlett entered practice with his uncle in Cocoa, who at his death left him in charge of his practice. It was about this time that he came to him from the Mission Board to which he had offered his services some time before.

He is now in charge of the hospital in the Congo where he has been for the past 11 years. His work includes special work for about 300 lepers.

Japan is endeavoring to increase domestic production of lumber, according to the Department of Commerce.

Eastern Stars Have Banquet At Valdez

The Valdez Hotel was the scene on Wednesday evening of the annual banquet of the Eastern Star, which was given in honor of the Worthy Grand Matron of the Grand Chapter of Florida, Mrs. Marian Neeb of Miami.

Emphasizing a patriotic theme throughout the affair, the banquet tables were decorated with red, white and blue streamers and low bowls of red roses and air reflectors which were placed at intervals along the tables. The guest table was centered with a bowl of red roses placed upon a reflector and balanced on each side by lighted blue tapers. On each side of the central arrangement were placed large letters in the shape of V for Victory. Small American flags were placed against the piano which was placed at one end of the banquet room.

Place cards further carried out the patriotic motif and letters of the United States flag embossed on one corner and the name done in red ink upon a white card. Large decorative miniature airplane pencil sharpeners and red, white, and blue torpedoes pencils.

A special feature of the dinner was the playing of letters by Miss Dorothy Sanford, music instructor, accompanied at the piano by Miss Lenora Whiddon. Soft music was also played by Miss Whiddon throughout the dinner.

The program presented at the banquet follows: Invocation—Chaplain Mrs. H. J. Lehman; Welcome—address—Worthy Grand Matron Mrs. Marian Neeb; Response—Worthy Grand Matron Mrs. Marion Neeb; Welcome to Worthy Grand Patron—Past Grand Patron—Glenn E. McKay; Greetings—Past Grand Matron Mrs. Glenn E. McKay; Response—Right Worthy Grand Conduress Mrs. Mamie Laney.

Greetings to Everybody—Associate Matron Mrs. Fodye Russell; Honor guests at the banquet included: Mrs. Marian Neeb, Worthy Grand Matron of Miami; Mrs. Mamie Laney, Right Worthy Grand Conduress of the General Grand Chapter of Orlando; W. J. East, Past Grand Patron of the Grand Chapter of Pennsylvania, of New Smyrna; Mrs. Frances Kestling, Assistant Grand Matron of Jacksonville; Mrs. Charlotte Perry, Past Grand Matron of Jacksonville; Mrs. Glenn E. McKay, Past Grand Patron, Mrs. Murray Jarvis, Past Grand Electa, all of Sanford; Mrs. Pauline McGee, Grand Instructor of District 24, of Dunnell.

Among the visitors attending the banquet were representatives from Eastern Star chapters in Orlando, Jacksonville, Daytona Beach, New Smyrna and DeLand. There were 69 persons present.

Club Entertained By Mrs. Cordell

Mrs. J. D. Cordell entertained for members of her bridge club and an extra table of guests at her home on Elm Avenue last evening. Annual flowers were used to decorate the rooms in which the guests played.

Not all home gardeners have enough space for a vegetable garden and fortunately present conditions in this country do not demand that we give up our flowers to plant vegetables. However, we should know something about vegetable gardening in case the necessity for growing our own does arise.

A small experimental plot will help us over the trial and error period of determining what is most adaptable to our individual needs and conditions. Seeds of lettuce, radishes and carrots may be sown now and enjoyed before cold weather. Plant them right in your flower beds to fill in the gaps where summer annuals flourished a few weeks ago. An edging of curly parsley will remain cheerfully green all winter to brighten up the garden as well as the table.

Have you thought of laying a few cauliflower plants and setting them out as carefully as permanent? In midwinter, when vegetables are scarce, you'll wish you had planted more.

Bay trees (Laurus nobilis) do not come under the heading of a vegetable, but their leaves certainly have a place in the kitchen as a cooking herb. The handsome evergreens make beautiful specimens.

Concentration For Maneuvers Starts On September 29

FIRST ARMY PUBLIC RELATIONS, DIVISION, CAMDEN, N. J., Sept. 26.—(Special)—Concentration of the main body of Maj. Gen. Karl Truesdell's VI Army Corps in the 10,000 square mile Caroling maneuver area will get underway Sept. 29 when units of his command will leave their home stations and proceed along four separate routes to the vicinity of Norman, N. C.

Except for the 1st Division, commanded by Maj. Gen. Donald C. Cubison and stationed at Fort Devens, Mass., the concentration of the VI Army Corps will be completed by Oct. 2. The 1st Division will arrive approximately Oct. 15 in the maneuver area in which Lt. Gen. Hugh A. Drum's First Army will participate in the most grandiose war games in the nation's history.

Advance detachments from the VI Army Corps consisting of the 34th and 101st Engineers, the 87th Signal Battalion and units from each regiment and separate organization of the VI Corps are already in the area and busily preparing camp sites.

The motor movement of the VI Army Corps will be governed by regulations laid down by traffic control headquarters, First Army, designed to expedite movement, prevent bottlenecks and to interfere as little as possible with civilian traffic.

One motor column consisting of VI Army Corps headquarters of attached units will move out of Providence, R. I., on Sept. 29 one hour in advance of another column consisting of units from the 26th (Yankee) Infantry Division commanded by Maj. Gen. Roger W. Eckfeldt, but both will use the same route—US 6, US 6A, Merritt Parkway to Westport, Conn., where the troops will bivouac that night.

A third column consisting of the remainder of the 26th Division from Camp Edwards, Mass., will proceed on the same day via Plymouth and Danbury, Conn., through Hartford and Danbury, Conn., to a campsite at Peckskill, N. Y. Units from Fort Devens, Mass., will pass through Worcester, Mass., Stafford Springs, Conn., and Poughkeepsie, N. Y. to Middletown, N. Y., where they will spend the night. Field artillery units from Fort Ethan Allen, Vt., will leave on the same day and bivouac at Wurtsboro, N. Y., that evening.

Bivouac areas on Sept. 30 for the four different routes will be Bel Air, Md., Littlestown, Pa., and Greencastle, Pa. The Third phase line of the motor move will find the troops bivouaced on Oct. 1 at Camp Lee, Va., Farmville, Va., southeast of Lynchburg, Va., and Lynchburg, Va. On the fourth day, Oct. 2, troops will arrive in their respective areas in the vicinity of Norman, N. C.

Italy Loses 29 Ships In One Month

September Has Been Worst Month Since Warship Defeat By British At Matapan

Bread Rationing Ordered In Rome

Program To Pay For Defense Of Libya Passed By Cabinet

ALEXANDRIA, Egypt, Sept. 27.—(AP)—Reports from here today say Italy lost 29 ships totalling 200,000 tons in trying to send reinforcements to Libya. During September, her blackest month at sea since the defeat of her warships by the British at Matapan, four big liners have been lost carrying up to 5,000 soldiers each. Loss of life is believed to be relatively small because the troopships were heavily escorted. In Rome, Italy's bread has been ordered rationed starting Wednesday and group measures to conserve material to defend Libya and pay for the war through a heavy profits tax have been approved by the cabinet. Mussolini (Ilay announced the amount of grain is insufficient to feed the army and her allies might be preparing to plunge into the Russian war, which already is consuming so many men that Germany is reported asking for soldiers.

Amid a flurry of roundabout reports and obscured diplomatic moves, these facts stood out: The Exchange Telegraph stated an Ankara dispatch saying Germany was trying to raise armies of 100,000 Hungarians, 100,000 Rumanians, 100,000 Belgians, 500,000 Italians and 100,000 Slovaks to relieve weary and hard-pressed German troops in Russia. A political and military alliance between the Free French and Russia was signed here by the Russian ambassador, Ivan Malinko, and Gen. Charles de Gaulle. The organization of a Polish army to fight for Russia, expected to total as many as 200,000 men eventually, was announced here by Dr. Joseph Retinger, political adviser to the Polish government on exile here.

The return home of Capt. Oliver Lytell, British military officer in charge of Middle Eastern affairs, from his post in Cairo, was revealed by authoritative sources. His visit, presumably for conferences, closely followed the disclosure that Gen. Sir Archibald Wavell, commander of the British Indian Army holding the junction with Russian troops in Iran, had been home for several weeks.

Other diplomatic moves were the arrival of Myron C. Taylor, President Roosevelt's personal representative for the Vatican, to visit the United States Ambassador in Rome before he returns to the departure of Lord Halifax, British ambassador to the United States, and Lady Halifax, for Washington by airplane after a visit in Ecuador; the announcement that Sir Samuel Hoare, British ambassador to Spain, was en route here.

Touchton Drug Store Erects New Sign

The eyes of Sanfordites who pass along First Street this week will be attracted to the new neon sign on the Touchton Drug Store. W. V. Blitting, stated when this sign was erected Friday afternoon, it completed a three-month job, the remainder of the construction included redecorating the front of the store. In describing the sign, one of the workmen remarked that it is 10 feet long and the block letters in the upper row are two feet high and when lighted glow "Touchton" has a very color surrounding it. Mr. Blitting said that the management of the Retail Store is "right proud" of its newest work.

Public May See Forest Train In Orlando

Educational Movies And Exhibits In Seaboard Train

Farmers and the general public of Seminole County will have an opportunity to see the Seaboard Forest Train which will be touring Florida during the month of October. C. R. Dawson, County land agent, announced today it will be exhibited in Orlando Oct. 14 at the Seaboard Air Line Station and will be open to the public from 9:00 A. M. to 5:30 P. M. All features of the train are free, the county land agent stated, and in addition to the two cars of exhibits, the train has one car which is devoted to motion pictures and lectures. Any questions or problems presented will be answered by foresters who are to be stationed on the train. The forests of the State are one of its greatest assets and this first all-southern Forestry Demonstration Train will show effectively the importance of the forests and the necessity of protecting them from the ravages of fire, according to Charles A. Gillett, industrial forester for the Seaboard Railroad. After making ten stops in Florida, the train will make approximately 40 stops in the south at important points on the Seaboard System, it was disclosed.

Chicago Is Feeling Effects Of Defense Boom, Says Reporter

By FRANK COWLES CHICAGO, Ill., Sept. 27.—(Special)—The "Wind-up" craze feeling the full effects of the defense boom, and while it is several hundred large factories are getting their share of orders, a move is underway to see that the little manufacturers in the south are left out in the cold due to priorities. A meeting was held here recently to form "pools" of the smaller industries through which they can obtain defense contracts by working on them jointly. Otherwise, many of these factories would be obliged to close their doors or greatly reduce their output. Something of the same order will undoubtedly have to be done in other cities over the country. Otherwise there will be more unemployment as a result of the defense program than there was before it.

Daylight Saving Time Ends Sunday

WASHINGTON, Sept. 27.—(AP)—That part of America on day light saving time—about 200,000,000 people—can turn back the clock Sunday with full government sanction. The federal power commission said Friday that a survey of the power situation had uncovered no emergency justifying the continuation of daylight saving time as a measure to conserve electricity. Consequently, it said, no area would be asked to keep its clocks an hour ahead of standard time. ON WAY TO U. S. LISBON, Sept. 27.—(AP)—Lord Halifax, British ambassador to Washington, landed here in a British overseas plane late Friday and will board a transatlantic clipper for New York today.

Launching Of Ships Hailed By President

Roosevelt Calls Finished 14 Cargo Vessels Telling Blow At Menace To U. S.

By Associated Press. President Roosevelt today hailed the launching of 14 cargo ships as a "telling blow at the menace to our nation" and emphasized his intention to protect American merchant ships from the "shell or from bombs, a time-ripened message to the Axis on the Atlantic, Pacific and Gulf coasts. Speaking for the Army and Navy and the Maritime Commission before the launching of the ships, President Roosevelt said that the country's program in providing merchant ships for the struggle against the Axis. On the 14th, the Navy Fleet Day, the 14 cargo ships were launched down ways at the great naval yard since the first World War, they told of what had been done toward increasing tonnage and what still had to be done. The commission said Rear Admiral Landis, U. S. Navy, returned, chairman of the Maritime Commission, presided over the launching of the ships during the early phase of the all-out effort which the president has asked every American to make. But neither the shipyard nor the commission are content. We all realize that more and still more merchant ships must be built to carry a cargo so vital to the ultimate defeat of those aggressors who are threatening the liberty of all the people of the world.

Rear Admiral Robinson of the Navy's bureau of ships called off the launching of 14 vessels in one day "a gesture which should be remembered by these cities in our mind who would have us believe that neglect of our defenses during the long years since 1919 placed us as far behind in the in the international race that it was useless for us to attempt to catch up." Major General Gregory, the Army's quartermaster general, described outgoing bases as "defiant symbols of democracy." "If they fail to be truly effective, a chain of ships must be welded to lock them to the mainland," he said.

Teachers Of Home Economics Meet

Ocala, Sept. 27.—(AP)—Home economics teachers from all parts of Florida assembled here Friday for a two-day conference called by the state department of education to work out the part teachers will have in the division of the Florida defense program. The program was outlined by Dr. Margaret R. Daniels, dean of the school of education at Florida State College for Women, chairman. The conference was conducted by Miss Elotha Projes, state supervisor of home economics, assisted by Mrs. Rex Todd Withers, itinerant teacher-trainer.

6% Profit Limit Is Called Preposterous

WASHINGTON, Sept. 27.—(AP)—Secretary Morgenthau's proposal for 100 percent taxation of all corporations, profits above six percent was described Friday by an influential member of the house ways and means committee as "too preposterous for congress to swallow." Representative Disney (D., Okla.) added that the treasury head's suggestion would be "a fine way to kill all incentive in small businesses." "I'm afraid Mr. Morgenthau is shooting the moon," he said. "The proposal to assess 100 percent of excess profits over six percent has no parallel even in England."

Survivors Of Ship Rescued From Raft

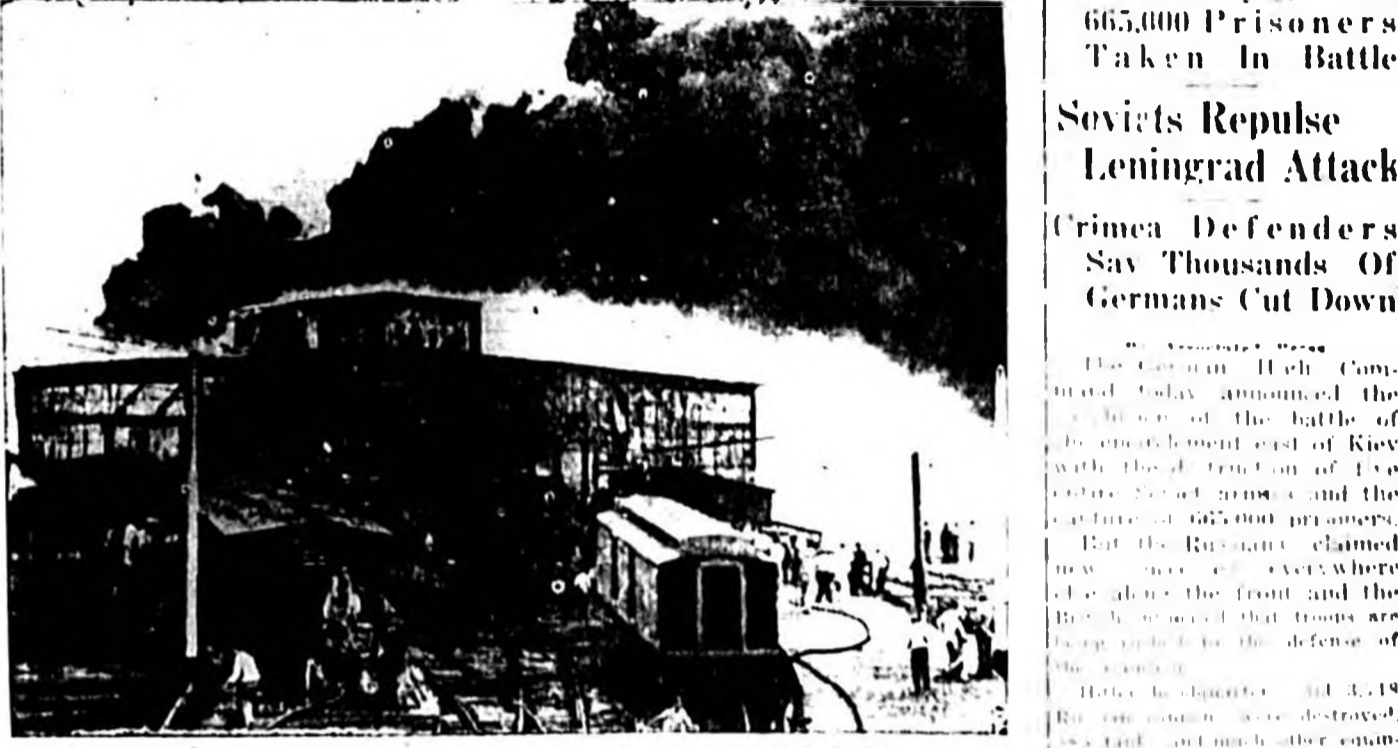

SAN JUAN, Puerto Rico, Sept. 27.—(AP)—U. S. destroyers today rescued First Mate Francis Holmes and Crewman James Moore of the founder steamer Libby Maine from a raft in the Caribbean. The survivors said a third man was washed off the raft by the stormy seas during the 36 hours they were reported farther south and planes went in search of them. Later four additional seamen were rescued. No details were given.

Boy Scout Councilmen Enjoy Big "Round-Up" Meet At Camp Wewa

The "Round Up" of the district Boy Scout Councilmen and leaders took place at Camp Wewa Sept. 25 with 77 members of the various councils present, including Ralph A. Smith, E. L. Kelsey, A. C. Madden, H. E. Morris, J. C. Griffith, W. E. Kader and John Kader of Sanford. In the afternoon scouts swam and played volleyball, horseshoes, tennis and other games, while the executive councilmen met, with Judge H. B. Frederick from Daytona Beach presiding, Ralph A. Smith, representative from this County board, stated. After supper the leaders were divided into three groups, the "Army," the "Navy" and the "Marines," according to their various stations and duties as councilmen. The "Army" was composed of district chairmen and officers the "Navy" composed of committee chairmen while the "Marines" were composed of scout masters and troop committees. These bodies had separate meetings, Mr. Smith disclosed. Following the individual meetings there was a general meeting every which Iran Bayle of Orlando presided. There were several reports delivered to the councilmen from representatives of the committees in all the counties. Both Mr. Smith and W. E. Kader agreed that the high light of the annual "Round Up" was the address delivered by Judge Kader.

Navy Planes Sight Survivors Of Ship

SAN JUAN, Puerto Rico, Sept. 27.—(AP)—Navy patrol planes reported Friday they had sighted five rafts leaving nine shipwrecked men, presumably survivors of the 1911-ton American freighter Eibel Shaker which went down Thursday in a hurricane off Aruba, Netherlands West Indies. The rafts were tossed on seas too rough for the planes to attempt alighting and an effort was being made by a destroyer and coast guard vessels to reach the men. Initial efforts to guide rescue vessels to the survivors were hindered by poor visibility and the Navy planes returned to their bases here at dark. The rafts, carrying from one to three men each were sighted over an area of 10 square miles north and west of Aruba. The Navy prepared to send out searching planes again at dawn tomorrow if the surface craft fail to find the men during the night.
