

Democrat O'Brien Knocks President

By LEE BYRDE
Associated Press Writer
WASHINGTON (AP) — It was the Democratic National Convention in 1960 that Lawrence F. O'Brien saw the latest episode in a burgeoning movement to make more use of political football.

Fact is, television is finding itself as much a government battleground as the halls of Congress and the homestead rally.

O'Brien's 25-minute broadcast for CBS radio-TV was the first of several shows the network allotted the Democratic National Committee to answer Nixon's broadcast speeches and news conferences.

O'Brien said Nixon had "promised to bring us together again. But that is the opposite of what is occurring, polarization encouraged by Vice President Agnew in speech after speech across the country."

Flies Continue Flying

to the city of Caselberry.

The state attorney is asked to review the legal aspects of the problem and any action that should be instituted should the track fail to comply.

Robbins advised the board that Conrad Dancig, state entomologist, in an appraisal of track conditions, found that the alleged fly larvae was a reality. It had been disposed as to whether there was actual breeding of the flies at the track or whether it was merely an attractant. Dancig said that no larvae was detected in the manure-straw mixture, but that it was not discarded into the soil and could lead to conditions conducive to fly breeding. There were larvae on the floor of two stables and adult stableflies observed in two stables.

Commissioner Groz Drummond queried if the crummy established an ordinance to control this type of problem if the ordinance was not applicable to the city limits. County Attorney Harold Johnson stated that it would not, that such a law would have to be passed by the legislative delegation, and that Home Rule did not extend to the municipalities. Although it was stated that there is a state law regarding a public nuisance, the burden of proof rests with the county. Therefore, it would be necessary to establish a chain of continuity between the actual breeding and the harm caused to people.

Commissioners went on the merry-go-round of favoring issuance of a corrective notice to the track, and if there was non-compliance instituting legal action. Drummond offered the opinion that had the recommendations which were made by another entomologist, Dr. Bragren, eight weeks ago followed the situation had been corrected, and that a "sloopy-goody letter" would be necessary to establish a chain of continuity between the actual breeding and the harm caused to people.

OEO Now Investigating County Stamp Planning

hypocritical to say \$20,000 will not buy much food, when the county only appropriates \$10,000 for the same thing," Jones said.

Rep. Chappell said today that OEO had informed him the grant money would not be used for a survey as earlier planned, but would be used only for emergency food and medicine.

Chappell said he is trying to assist the county commission in any way he can to be sure there is no overlapping or duplication of food stamp programs.

State Sen. Lawton Childs to Leland said he is seeking the Florida Congressional delegation to seek the cancellation of the grant. However, Sen. Brewster Holland and Rep. Robert Sikes, heads of the delegation, both say they have not received any communication from Childs.

Vihlen Takes Official Seat On Commission

By CHARNER LEONE

The commission of newly-appointed Seminole County Commissioner for District Five, Sidney Vihlen Jr., has been signed by the Governor and the Secretary of State, reported John Alexander, at Tuesday morning's regular meeting of the Board. The chairman of the Board received word of the signing by telephone shortly before the Commission met.

Thus Vihlen may act officially as one of the commission members the complicated budget session that will occupy them for the month.

At the Tuesday meeting of the commission County Board Superintendent C. Lavender told the Board that the Department of Transportation is using old equipment in traffic signals in Seminole County as they phase out their obsolete stock. He said that approximately 12 months ago he had asked that only solid state equipment be

'Tiger Cells' Seen In South Vietnam

By JIM ADAMS
Associated Press Writer
WASHINGTON (AP) — A staff aide charges the select House investigating committee that the tiger cells in South Vietnam were "led around by the nose" and suppressed its discovery of political prisoners crammed into tiny "tiger cages."

Thomas R. Harbin said Tuesday disclosure of several hundred prisoners in the cramped, unsanitary pits—many unable to stand and some showing signs of beatings—was striking evidence from the committee's report that some members feared it would be "highly embarrassing" and would overshadow other findings.

Chairman G. V. "Sonny" Montgomery, D-Miss., responded, calling Harbin a disgruntled staff member. He said the tiger cage conditions were left out of the report for fear of repercussions on American prisoners of war in Hanoi.

Maddox Slaps At 'Veep'

BOSTON (UPI) — Praising Vice President Spiro T. Agnew for his verbal attacks on the news media and students, Gov. Lester Maddox of Georgia urged Agnew Sunday to expand the scope of his attacks to include such "sacred cows" as President Nixon.

"There are too many sacred cows," Maddox said Agnew "ought to hit the Supreme Court, the White House, the Congress and the Justice Department."

"The President seems to have one message for one group of people in one region of the country and another message for another group of people in another region of the country," Maddox told newsmen prior to a speech before the final session of the New England Rally for God, Family and Country.

In his speech, Maddox said the United States has not only lost the war in Southeast Asia, but also has surrendered to communism in other parts of the world.

"We lost the war in Southeast Asia because we surrendered to communism in Cuba and Korea," he said.

Maddox also criticized Nixon's family assistance welfare program.

Productions Finds Home

Seminole Junior College's theatrical productions finally seem to be finding a home. After a year of productions on a makeshift stage, the college has made do on a makeshift stage. The drama functions of S.J.C. will be housed on the new campus. Because of the configurations of stairways, and atrium spaces, an outside area of the new campus will find itself quite well to theater in the round productions, a production technique that has gained national popularity in recent years.

In addition to the outside facilities, S.J.C.'s new complex will include a 300 seat capacity lecture area that will be used by the acting group for traditional productions as well as experimental shows. The combination of an outside area as well as an interior space will allow S.J.C. dramatics to attempt from the pressures of finding theatrical space on an available basis.

The fall season looks promising. If all goes well, the production plans include a series of plays, including "A Hatful of Rain" that was warmly received by area audiences last fall and "Clotel" that played to area youngsters this summer.

Heavy Hand Of Time On Politicos-Voters

That old tyrant TIME is at it again. His hand is bearing down hard on political hopefuls who are in the stretch — July 7 to 21 — when qualifications must be completed.

The Democratic line-up is the one which could present the voters with the greatest surprises. This qualifying period is one where the hopefuls (estimated at about 450) must plow through the red tape, miss no guidelines, and come out on July 21st with legal status.

But what must be emphasized again and again is the privilege and obligation of all eligible citizens to register and vote.

Strikes And Spares

BY JOHN A. SPOLSKI

It'll be a long, long time before Ray Carroll forgets his bowing this past Thursday night.

Bowling for the Corona team of the Toyota Mixed League, Carroll went out in a blaze of glory for his third and final game of the evening when he just couldn't do a thing wrong and finished with a gigantic 342. Most have been the highest of his career.

That action took place on lanes 9 and 10, not too much different from the pin-pounding going on in the area of lanes 2 and 3 by Robert Dorn, though. He put together a meta-of-3s and called it a night when he totaled a 326.

However, those weren't the only two lanes producing high scores... notwithstanding the fact that there are brand new bowling pins in the racks. Take it from yours truly... I had more splits than I did strikes while bowing the first time in league last Monday.

So, when we tell you that there were others who didn't find the pins too tough to handle... THAT'S NEWS!

Bill Varner finished with a 210/245, Billy Painter 210, Jack Bailey 202/219, Orville Touchton 192/233, Earl Weaver 200/202 and Jimmy Carver 185/200.

Two more legends deserving of notice were Steck Boley and Ted Dalecki.

Boley was struggling through his third game and had all of a 72 in the fifth frame (not too encouraging for a strong finish...), but then he found the "line" and put together a string of strikes to bring back the game to a respectable 340. For Dalecki, the thought of rolling against new pins didn't bother him... so, he politely cringed in the "charmed circle" with an even 300, plus a 317 for series.

Robert Dorn RAY CARROLL New Shining Stars

There are three leagues in particular, loaded with lots of new local bowling talent, many of whom had some pretty good games, word of mention in the columns... KELLATRONICS MIXED—Andy Bohlen 187/206, Ken Wilkins 189/215, Sandy Tronzo 196, Cliff Holzer 194/246, Peggy Moon 172, Jerry Dougherty 177, in the JET BOWLETTES—Vernie Houghton 199/212, Giny Woods 187, Margie Will 197, Margie Parry 190 and Mel Evans 171. Bowling well in the SHOOTING STARS—Doris Hagan 172, teammate Jane Gosman 162, Bernice Chada 152, Bonnie Link 163 and Mickey Loomend 164.

The Maryland Fried Chicken Friereracker Special did line-up eight of the A Division bowlers, but the B (lower averages) could use three more to complete its complement of eight legkies.

Scheduled to bowl for the "A" group is Orville Touchton, Wayne O'Neil, Jim F. Brewer, Ben Urban, Reggie Sigman, Bob Driscoll, Don Witt and Jr. Lewis.

Compiling with averages of 180 and under for the "B" group are Ken Wilkins, Rod MacLeary, Bob Barbour, Gordon Lynch and Jimmy Carver.

There's over \$100 in prizes, plus individual trophies for both categories, with the competition starting at 9 p.m. on July 16.

They're Comin' to Sanford

On the consecutive Sunday, July 13 and 20, there'll be quite a few out-of-town bowlers converging on Sanford to make a week out of scoring high in a travel league competition.

The Knights of Columbus men's travel league will take to the lanes in the 10th at 1:30 p.m. with ten teams of bowlers.

CEZBA comes to town the following weekend. CEZBA (Central East Zone Bowling Association) which included bowlers from the following cities... Daytona Beach, Deland, Ocala, Ft. Pierce, Indian River, Leesburg, New Smyrna Beach, Eustis, Orlando and from Brevard and Martin County.

There'll be upwards of 300 persons in town on this one... including the wives, of course, and they'll be the guests of the Sanford Men's Bowling Association.

One of the points of interest, insofar as the girls are concerned, will be their guided bus-tour. Dinny Wick's book "They're Viewing the World-Famous Attractions, their husbands will be attending a meeting here at Joe Lanes and following it, there'll be a special tournament just for these visiting "bowling beauties."

All-in-all, two continuous weekends of visitors getting a bowler's view of how well things are done by the Bowling Associations here in Sanford, and the opportunity of visiting our fair city.

HOPE SCOTCHING THE LEAGUES... From the Dynatronics Mixed—John Coffman 172, John Thomas 167, Marie Koel 151, Ginnie Lundermill 176, Ed Mullin 154, Jack West 154 and Ken Kasper 171... ADCKC BILL—Steve Senzaback 152, Merrick Evans 152, Jane Spalding 112, Jo Ann Wright 109, Forrest Wagner 184, and Giny Gaudreau with the high single for the night, a 281.

In the Tuesday evening SANFORD FLAZA MIXED LEAGUE—Ed Jackson 212, Betty Allen 181, Bob Moore 181, Ed Lee 191, Brenda Lewis 179, Mimi Brutsche 178, Jim Carver 206, Alice Best 189, Hoy McPherson 188, Roy Green 196, Mike Gilio 187 and Polly Rogers 186.

The word's getting around... Moonlight Bowling on both Friday and Saturday nights. A good chance to pick up some easy cash, and lots of bowing for the beginner as well as the seasoned bowler, too.

Five-State Colt Tourney Begins Monday

By GARY TAYLOR Herald Sports Writer

Colt League baseball at its finest comes to Seminole County beginning this Monday night at 8 p.m. at Cooper Field. At this time, Area One and Area Two double-elimination tournaments will begin at the field. It will all conclude nearly a month later with five-state competition.

The Area One tournament starts at 8 p.m. Monday. Matched events Anderson Park, Winter Park, which drew a "bye," will play the winner and action will continue until Thursday night.

The Area Two tournament starts at 8 p.m. Monday. Matched events Anderson Park, Winter Park, which drew a "bye," will play the winner and action will continue until Thursday night.

will be a best two out of three game series between Pine Hills and Northside. Games will be played Monday, Tuesday and Wednesday. Seminole is in Area Two, but they have received an automatic berth in the Southeastern Regional Tournament which they will host and they don't have to play until August 3.

The winner from Area One and the winner from Area Two will meet in a best two out of three series beginning July 20. The second game will be July 21 and the third game, if needed, will be July 22.

The winner of this tournament then advances to the Region tournament. This tournament, like all the others, is at Cooper Field. It is a double elimination tournament between three teams. The first night's action, July 27, pits the District One winner against the District Two winner at 7:30 p.m.

The following night the winner of that game plays Orlando, who drew a "bye." The two losers play the 29th and the final game is set for July 30.

Then comes the big tournament, the Southeastern Regional. The winner of that game represents the South in the Colt League World Series in Kansas City.

This will be one of the biggest baseball tournaments of its type ever staged in this area. All games will be played at Cooper Field, located on State Road 419 near Five Points. There will be a slight admission charge for the event.

The Seminole Little League had Colt League teams from Altamonte Springs, Casselberry, Seaside, Lake Mary and Longwood competing in the league. From these teams an all-star team is selected which will represent Seminole.

The league takes in boys 13-16 years of age. Major League and Pony League tournaments are scheduled to get underway later this month, with the dates and time to be announced in the near future.

Four mighty chukit clauds proved too much for the Seminole Big League team as they fell 10-4 Sunday to Conway in District 3 action.

Seminole jumped to an early lead in the top of the opening frame as Mike Wheeler and Ed Smith combined with one out and then came home on a two-out base hit by Ricky Smith.

Seminole jumped on Conway hurler Mike Gordon in the second and piled up three more runs to give them a 4-0 lead.

Mark Neufeld started it off with a double and his brother Bob followed with a single. John Kirkland and Brian Brewer then reached base on errors. Before the inning was over, Seminole had three runs and led three stranded after the third out.

Meanwhile, Clarence Cain was shining on the mound for Seminole. He was three up and three down in the first, second and third frames. Then after Cain retired the tenth consecutive batter, the next man to the plate worked the count 0-2 and then reached base on a base-on-balls. Gordon, the Conway pitcher, then proceeded to cut the score in half with a two-run homer.

A lead-off homer, a pair of walks, a single and a big error gave Conway four runs in the fifth as they took the lead 6-4, never to trail again.

Another solo shot in the sixth and they led 7-4. Terry Baker relieved Cain in the fifth and pitched the remainder of the game. He will be on the mound tonight as Seminole has a home game at Cooper Field, 7:30 p.m.

Conway put the icing on the cake in the eighth with a three-run shot. That gave them their 10-4 margin of victory.

The Neufeld brothers were hot at the bat for Seminole as they led two hits each. Cain, Smith and Kirkland, Cain, Smith and Weirich had the other three Seminole hits.

Sanford Takes Senior Title In Extra-Inning Battle, 5-3

"Panama City here we come," were the shouts of the Sanford Senior League all-stars as they defeated Ormond Beach 5-3 and captured the District 4 crown, earning the right to compete in the state tournament beginning July 30 in Panama City.

But the win didn't come easy. It was a hard-fought battle that went into extra-inning before being decided in the ninth inning by Sanford.

Both teams went in order in the first inning. The Sanford team led 1-0 in the top of the fifth, Brady helped himself out as he led off with a two-bagger. Back-to-back singles by Ron LaFollette and Randy Boyd pushed Brady across with the go-ahead run.

Brady fanned ten in the first five innings, including retiring the side 1-2-3 in the fifth, all on strikeouts. He fanned the first batter in the sixth and then issued a base-on-balls. The next two outs came as a pair of runners were caught stealing.

Herbst led off the eighth with a single. He stole second and was put out at third as Lee Stodennire led off and

fireworks began in the next frame. Harold Herbst slammed a one-out solo shot over the fence and Sanford suddenly led 1-0. But Ormond Beach came back with a big hit themselves, a lead-off homer by Buzz Dowman.

The teams then battled on scoreless in the third and fourth innings. Nicky Brady led off the mound for Sanford; Mark Hanford hurled for Ormond Beach.

Herbst led off the eighth with a single. He stole second and was put out at third as Lee Stodennire led off and

fireworks began in the next frame. Harold Herbst slammed a one-out solo shot over the fence and Sanford suddenly led 1-0. But Ormond Beach came back with a big hit themselves, a lead-off homer by Buzz Dowman.

The teams then battled on scoreless in the third and fourth innings. Nicky Brady led off the mound for Sanford; Mark Hanford hurled for Ormond Beach.

In the top of the fifth, Brady helped himself out as he led off with a two-bagger. Back-to-back singles by Ron LaFollette and Randy Boyd pushed Brady across with the go-ahead run.

Brady fanned ten in the first five innings, including retiring the side 1-2-3 in the fifth, all on strikeouts. He fanned the first batter in the sixth and then issued a base-on-balls. The next two outs came as a pair of runners were caught stealing.

About Hobbies

David Churchill, 27, of Santa Monica, handicapped and confined to a wheelchair, and his brother Lester, 30, a commercial photographer, have been building model trains for the past two years.

The Churchill brothers have more than 200 feet of track, 80 pieces of rolling stock, and about 18 engines, each about four inches in size.

David also builds model cars on a 1/20th scale, making them about six to eight inches, with each comprised of about 400 separate pieces.

The two also raise turtles and have three tanks with rare turtles from all over the world. They said the turtles range in size from 1-10 to 10 inches in diameter. "You wouldn't think turtles have a personality," David said, "but they are as lively as little puppies."

Dear Abby:

By Abigail Van Buren

WEDNESDAY, JULY 8, 1970

DEAR ABBY: Since you look it upon as a favor to lend Sweden's policy on sex education in the schools, perhaps you will want to come to her defense again. She could sure use it.

The Swedes have made a lot of enemies in the United States by opening their doors to American draft-dodgers and deserters. Do you call this friendly to the United States?

DEAR ANNOYED: Sweden has not issued any special invitations to American draft-dodgers and deserters, but you should be aware of the following: A convention between Sweden and the United States on October 2, 1969, stated that no extradition may take place for military offenses—including desertion—in plain language, this means that the United States has exactly the same attitude toward deserters and draft-dodgers as Sweden has.

DEAR ABBY: Two weeks before our first baby was due, my parents drove 1,800 miles to spend three months with Gilbert and me.

I love my parents, Abby, but they are not the easiest people in the world to live along with. The entire time they were here, they fought bitterly between themselves, quarreling constantly about money, and my mother criticized the way I did everything.

Gilbert is naturally a very quiet man, but my parents

instated he didn't like them, and he was "arrogant".

such a poor housekeeper? I gave her suggestions, a 35-year-old daughter who answers the description of yours.

I tried, I scolded, wringed, wept, shamed, worked with her, for her, against her. I stayed away, I tried again. I gave her suggestions, a dishwasher, a sweep, a money, my cleaning woman, and the benefit of the doubt.

Jacoby On Bridge

Jacoby and Son

In the late '30s and early '40s, Sonny Moyle used to regale his bridge world readers by describing hands played with his wife Jackie. In the articles, Jackie was always pictured as an enthusiastic but most erratic partner. The articles were so delightful that Sonny and Jackie are still married and still playing bridge together on rare occasions.

We will relate today's article in some of Sonny's own words. "Jackie has just taken up the Blackwood convention. She also has decided that experts don't have open two bids. Hence her one-pace starter. I passed with some misgivings but you can't have everything and I didn't have any ace or king. Jackie almost fell off her chair but East responded with two clubs and Jackie burst into four no-trump.

going to six or seven. So I decided to try five hearts. This produced a six-club bid from Jack and a diamond lead from West.

"Down came the dummy. "Where are your two aces?" asked Jackie. "I take quite an effort to raise those words but Jackie managed.

"I couldn't have two aces and pass one spade" was my reply.

"At this point, East got into the act to inquire if Jackie was going to play. She did and West said "no". She led the king of clubs. West ducked. Jackie discarded a diamond from her hand and continued with the queen. West covered this. Jackie ruffed, got back to her hand with another ruff, played her ace-king of spades and made her slam after that. Jackie dropped the queen and in."

Worry Clinic

By Dr. Crane

PH. D., M. D.
CASE N-569: Tom P., aged 25, is not married.

"But, Dr. Crane," he protested, "my wife keeps me broke by her mania to keep up with the latest styles and fashions."

"Indeed, I think she needs psychiatric counseling, for she knows we must live on a modest budget."

"Yet she squanders money as if I were a millionaire."

"She wants to show off at parties with the very latest hat and dress and then refuses to wear them a second time!"

"That's not ideal! And she's usually extravagant? So what is wrong with such a woman?"

"Once per semester at Northwestern University I used to open my evening classes in applied psychology to guests. My students thus could invite other members of their families or any other associates."

"We had to adjourn to the law school auditorium to hold the crowd, for I always inscribed some remarks on the "Psychology of Fashion."

"For example, I'd show you women like high heels for formal wear, and I'd illustrate my remarks with cartoon sketches on the blackboard."

"So I'd show that women look relatively more like space than men do, since their legs are proportionately shorter than a man's."

"Thus, the addition of two or three inches of high heels makes them mimic men and also offers a lotter outlook on life, which bolsters their feminine ego."

"Also, I'd sketch the difference that high heels produce in a woman's leg, and I'd illustrate my remarks with a cartoon of a slenderer leg and a give her a more shapely calf."

"Thus, high heels set a modish appeal but at the medical price of tilting her forward, as if she were standing on a hillside, facing downhill."

"To compensate for this forward stance, a woman with high heels must thus arch her back in the lumbar region, so that her spine is actually tilted backward to have their backs rest the small of their back at

night. Emurt husbands, note well!

"Missairts also are not the proper length to make a girl look graceful, though they maliciously attract male gazes."

"For the proper skirt length should fall at least half-way below the knee to slenderize a woman and prevent that elephantine appearance that ministers always give plump females."

"Fat women also should avoid anything that accentuates their East-West dimensions. This includes belted frocks, tight horizontal strands of pearls, rings, a square cut neck in their frocks and, of course, horizontal stripes in their fabrics. Light and flowered fabrics also make you look heavier!"

"O, the contrary, they should avoid North-South lines, say vertical pin stripes, long strands of beads and dark, non-flowered patterns."

"The ideal hat, too, I used to picture on the blackboard. It is one that is pulled down over the forehead, and it is tilted back to point backward and you have the psychological prescription for a snugly chapeau."

"Narcissus women with a inferiority complex may become proud slaves of the fashion scene, and thus go overboard in copying the latest style, even though it detracts from their face or figure!"

"(Always write to Dr. Crane in care of this newspaper, enclosing a long stamped, addressed envelope and 20 cents for postage and printing costs when you send for one of his booklets.)"

"Don't worry, dear," I said consolingly. "The bacon bits on the salad last night weren't made of real meat. (They didn't taste like real meat either, but I didn't think this was the time to mention it.)"

"Bacon?" I explained. "I'm sure you'll not be eating meat at all—just imitation meat made of protein."

"Where will it come from?" she asked suspiciously.

"I know all about it," her brother said. "It's made of soybeans. A farmer will just pick soybeans and feed them to a factory." He expounded. "But first he has to plant the soybeans. Planting means you stick

the beans down in the dirt!" "Stop it!" Babs cried.

"Yes, I'm afraid you'll have to stop," I sighed. "I have a little headache, children, strange. They didn't ask where it came from."

"Where will it come from?" she asked suspiciously.

"I know all about it," her brother said. "It's made of soybeans. A farmer will just pick soybeans and feed them to a factory." He expounded. "But first he has to plant the soybeans. Planting means you stick

the beans down in the dirt!" "Stop it!" Babs cried.

"Yes, I'm afraid you'll have to stop," I sighed. "I have a little headache, children, strange. They didn't ask where it came from."

Negro Mayor Reports Year's Progress

Charles Evers Looks Forward To 'Bountiful' 1970 In Fayette

Editors: One year ago, Fayette elected Mississippi's first black mayor of a biracial town. Charles Evers pledged to show that black and whites could rule together in harmony. Here is a report on Evers' progress one year after his election.

By WILLIAM L. VAUGHN
FAYETTE, Miss. (UPI) — Droning window fans sent waves of stale air over the tightly pressed crowd in the tiny wooden church and the first words of the husky black man were almost drowned out. "Help me, God, to be the kind of mayor to look out for all of us," he said, his voice rising. "The whites who hate us, and the blacks who distrust us." The prayer uttered by Charles Evers the night he won election as the mayor of Fayette has not fully been answered.

After one full year in office, Evers has made significant strides in advancing the hopes of his people in the small town of 1,700 in southwest Mississippi. He has enticed industry to a town where no trained labor existed. He has appealed to friends and supporters around the country, and the response has brought a new ambulance, a new police car, a garbage truck and other vehicles, \$16,000 in school textbooks, and more than \$250,000 in separate donations to funds to help the town.

Despite the realities of progress, white detractors quickly point to pledges by Evers not yet realized, and — his biggest

disappointment — his own people have greeted the changes with a degree of resistance. "Many of our black people haven't been able to accept the speed that we have made," Evers said in reviewing the year in office. "It'll be the first to admit that I've had problems. It's going to take time. Our people expect more out of a black in office than they do out of a white."

Evers took the oath of office July 7, 1969, after he won election as the first black mayor of a biracial town in Mississippi. He was joined by an all-black city administration which also won office, and the Evers administration will be honored Thursday at a gathering sponsored by friends to commemorate the one-year tenure.

Promised Progress

Evers, 47, the brother of slain civil rights leader Medgar Evers, vowed his election would bring material and spiritual progress to the town — it was to be an all-American town where black and white could work together in harmony. From the outset, the pledge was an uphill fight. First of all, the county had the lowest per capita income (\$484) in the nation, a 30 percent drop in population since 1940 and a growing migration of young people to urban areas. The 1970 census showed the county with 8,778 residents, down from the 10,420 of 1960. The town had only one factory employing 75 persons, but the white administration ousted by

ing loud juke boxes on Sunday, and launched a cleanup drive to remove abandoned cars, unoccupied shacks and other eyesores. Examples of his philosophy are the crackdown on speeding and public profanity. "Before we took office, you could hear somebody curse two blocks away," Evers recalls. "No more of that."

Guns and Knives

An ordinance also was passed prohibiting guns and knives within the city limits. "Before we went in office, blacks were beating and cutting each other almost every Saturday night and now we don't have one hardly a month, because to slap a woman in this town is \$250... we just can't have women being mistreated and beaten."

"Whites just don't believe we can do it, and blacks don't trust us," Evers said, "and so what

we got to do is prove to black and white that we can do it. Blacks have always seen a white mayor, they've always seen white aldermen, but we're going to do a good job and we're very, very conservative in our moves."

"Many blacks would just rather not be governed by blacks," Evers concedes, "and we got to get over that hurdle."

Rollins Swim Coach Honored With Party

By POLLY McLAUGHLIN

WINTER PARK — Fleetwood Peoples, swimming instructor for 40 years at Rollins College, received a distinct honor last Tuesday. The parents of his pupils got together in a group of about 90 at Rollins College swimming area and gave a surprise party for the grand old man of swimming.

Dr. Peoples is well known throughout the country for his trophies and abilities with very young children in the water. He has taught infants of unbelievably young ages to swim the length of a pool. He taught his own 2 and 2 1/2 year old grandson to swim 1/4 mile. The parents brought refreshments and presented Dr. Peoples with an underwater watch.

His true age is a secret but Tuesday was his birthday and although his instruction has extended over 40 years, Dr. Peoples looks not more than 50. He is filled with enthusiasm and energy and still plans to continue working with children.

Speaking Of Friends

Another Visitor Come to Stay — Captain Jack N. Miller returns July 30th as Commander of the Navy Recruit Training Center but he and his family have decided that Orlando is "home." Captain Frank H. Featherston will succeed well liked Captain Miller.

WINTER PARK—Dr. W. J. Muller, a Winter Park Psychiatrist had a dream of helping youngsters in trouble and now the dream is to become reality. On Wednesday of this week HALFWAY HOUSE will open. The official name for this institution will be La Amistad, Spanish for friendship, and the home is designed to house and help emotionally disturbed teen agers.

The home is located at Canton and Knowles Avenue in Winter Park and according to Dr. Muller, the youngsters will run the place (under supervision) doing their own chores such as cooking, cleaning and upkeep of the house.

He plans to keep each youngster a minimum of three months and thereby, hopefully, avoid Juvenile Home or worse. An Open House will be held on July 8, between 5 and 8 p.m. at which time the public and city officials will tour the home.

Working With Youth

ORLANDO — The Orlando Police Department is also working with the youth of our town. Sgt. Jimmy Lovett, Sgt. Noel Moore and Sgt. Fred Walsh are taking groups of three teens at a time on routine night patrols. These boys and girls will learn that crime doesn't pay and possibly end up influencing others to be decent law-abiding citizens. The youngsters or their parents must sign waivers in case of accidents or injuries and must agree implicitly to obey instructions given by the young but seasoned police officers. Perhaps we parents could watch and see how they accomplish this!

WINTER PARK—Tropical storms continue to harass. Sunday afternoon a sudden wind and rain storm tore down Orange Avenue in Orlando breaking plate glass windows and knocking down signs. A number of trees were uprooted in both Winter Park and Orlando — Osceola Avenue — and causing a number of minor traffic mishaps. Just before the storm hit, we noticed a trail, little lady carefully taking the flag down from a high flag pole in her front yard. As the wind howled, swirling the colors and almost knocking the lady down, she calmly and carefully lowered the flag and gently folded it and walked into her home just as the downpour hit.

Communists Think Alike

VIENNA (UPI) — If there is one point on which Communist nations agree on the issue of European security, it is that Germany must be permanently divided and East Germany recognized as a sovereign state. Likewise, Western nations consider the "German problem" one of the major stumbling blocks to a so-called Europe security conference between East and West.

After the respective positions about Germany and its divisions, the definitions of what will constitute "European security" differ from nation to nation.

Poland, geographically trapped between Germany and Russia, sees the division of Germany and the recognition of the Oder-Neisse Line as guarantees that will never again be squandered to deals between the two European powers.

The Soviet Union wants a European security conference to legalize its control over Eastern Europe. But the Eastern European nations see it differently.

Hungary and Czechoslovakia, both part of Russia's buffer against the West, feel that a European security agreement would ease tensions in Europe

Florida's Own Meal: Crabs!

By POLLY McLAUGHLIN
The beautiful, luscious Florida Crabs are running and now is the time to enjoy this plentiful and inexpensive food. The best way to eat crabs, according to the real Crab Fishermen, is steamed and eaten off newspaper covered table along with the gold rings of beer. That is one of many ways to prepare crab and if you wish to catch your own and steam them for a feast here is the method.
Additionally, you can try these other methods for a company dish or just for fun. Different parts of the country appreciate the methods of preparation but after steaming the crabs and using this as a base, go on to the other recipes and make up your mind which is best.

STEAMED CRABS - FLORIDA STYLE
First - and this is important - catch the crabs! Second - Keep them alive until cooking time. Naturally if you catch a crab with a large orange underside, you will throw back in to perpetuate the breed.
Stone Crabs: Break off one of the large claws, throw the vicious animal back into the water and be (or she) will grow a new claw.
A large cooking pot with a tight fitting cover is imperative. Put about two inches of water or beer in the bottom of the pot, add 40 tablespoons salt, 1/2 cup vinegar, a generous amount of crushed red pepper, a bay leaf, a teaspoon of fresh ground black pepper and bring the mixture to a full, rolling boil. Dump in the fresh crabs and quickly cover the pot and you may have to hold down the lid to be covered.
Keep on high heat for 5 minutes and lower the heat to medium.
Cook about 8 minutes, preferably to make sure the crabs are evenly steamed. Serve with crab crackers, small hammers and wooden blocks. Some folks like a small dish of vinegar laced with hot pepper in which to dunk the delicious morsels.

CHESAPEAKE CRAB IN SHELL
In the top of a double boiler, melt 4 tablespoons butter. Add 2 tablespoons flour and stir until dissolved. Add 1 cup light cream and cook until thickened, stirring often. Remove from fire and add 2 tablespoons sherry, 1 teaspoon salt or less, dash of white pepper and cayenne, 1 tablespoon finely chopped parsley, 1 tablespoon lemon juice, 1 teaspoon dry mustard, 1/2 teaspoon prepared horseradish sauce and 2 minced hard-boiled eggs. Mix lightly with 1 pound lump crab meat, trying to keep crab from breaking up too much. Pile lightly in buttered baking shells and top with buttered crumbs and paprika. Bake in 400 degrees, 10 to 12 minutes.

SOUTHERN CRAB CAKES
Blend 2 cups or 1 can of lump crab meat with the following mixture: 2 tablespoons mayonnaise, 1 teaspoon salt, 1 teaspoon dry mustard, 2 tablespoons minced parsley, 2 teaspoons Worcestershire sauce, 1 egg yolk, beaten. Use a fork to mix, and form rather than stir. Shape into "cakes" or balls and roll first in beaten egg and then in fine bread crumbs. Sauté in butter or margarine until golden brown on all sides.

CRAB ANNANDA
Mix 4 tablespoons butter in a skillet. Add 1/2 pound mushrooms, washed and thinly sliced, leaving part of the stem, and sauté until just tender, stirring frequently. Remove from fire and add 1/2 teaspoon salt, 1/2 teaspoon fresh pepper, 1/2 cup dry white sherry, or dry vermouth and 1/4 cup cream. Stir to mix well and add 1 pound lump crab meat sprinkled with 1 tablespoon vinegar. Gently mix all together and put in a buttered casserole. Grate 1 cup of Swiss cheese and spread over casserole. Sprinkle cheese with lemon juice and paprika. Bake at 350 degrees, 15 minutes or until cheese is golden and bubbly.

Tasty Rhubarb Desert

By POLLY McLAUGHLIN
Rhubarb Pie
Use a prepared pastry mix or make your own favorite recipe for nine inch pie.
2½ cups chopped Rhubarb
2 tablespoons (1/2 cup) sugar
a pinch of salt (¼ teaspoon is just about a pinch)
1 Tablespoon butter
¼ cups sugar
grated lemon rind
dash of nutmeg and cinnamon (a dash is less than a pinch)
Combine all ingredients except the cornstarch and bring to a boil. Turn off the heat. Combine the cornstarch with a tablespoon cold water and stir quickly into the Rhubarb mixture. Pour into the prepared pastry and make a lattice top or all holes in a regular top. Bake in the oven, always brush the edge of the bottom crust with water before adding the top crust. Press gently and gently: no messy oven to clean. Bake the pie at about 375 degrees for an hour or until golden brown.

Simple Summer Meal

By POLLY McLAUGHLIN
The simplest of foods, hush puppies are a delight. Delicious when served with a simple and cooling summer meal of salad and soup. Of course hush puppies are lovely with fish, but try them with other foods as well and please your family.
Hush Puppies
1½ cups cornmeal
1 teaspoon salt
1 egg
¾ cup flour
1 cup milk
1 teaspoon finely chopped onion
1 teaspoon baking powder
shortening
Add cornmeal and flour, sifted together to milk, stirring in gradually. It will be thick. Allow to cool. Add egg, beaten slightly, onion, baking powder and about 1 tablespoon butter or drippings from bacon. It will be a very stiff dough. Form balls by dipping it out with two spoons, first dipped into water. Fry in deep, hot fat.

Interesting, Nutritious Corn Bread

By POLLY McLAUGHLIN
A pan of crisp corn bread squares makes an interesting contrast to the usual bread or rolls served with summer meals. Cornbread is nutritious and very easily whipped up and served with lots of icy butter. Try hot cornbread squares with a cold luncheon, perhaps a tuna fish and celery stick arrangement.
Early American Corn Bread
¾ cup yellow cornmeal
½ teaspoon baking soda
¾ cup corn kernels, either fresh or canned
2 eggs
2/3 cup buttermilk
1 teaspoon baking powder
2 teaspoons sugar
1/2 cup butter
1 teaspoon salt
Sift cornmeal, salt, soda, sugar and baking powder together. Beat butter in heavy skillet, cool slightly. Add buttermilk, eggs and corn to dry ingredients. Mix thoroughly. Add butter last and pour at once into skillet. Bake in hot, 400 degrees, oven about 20 to 25 minutes or until brown.

Quantico Crab Deluxe

By POLLY McLAUGHLIN
QUANTICO CRAB
1 pound basket lump crab
1/2 cup mixed sweet red and green peppers, chopped fine
1/2 teaspoon dry mustard
1/2 teaspoon salt
1 cup medium heavy cream
1 tablespoon Worcestershire sauce
1 teaspoon vinegar
1/2 teaspoon cayenne
2 cups soft bread crumbs
Melt butter, saute pepper a few minutes. Remove from fire and add cream, Worcestershire sauce, salt, pepper and bread crumbs. Sprinkle crab with vinegar and very gently stir into bread mixture. Pile lightly in shells and top with fine bread crumbs, sprinkle with melted butter and cayenne. Bake at 375 degrees about 10 or 12 minutes or until golden brown. Serve with plenty of creamy cole slaw and French fried potatoes.
CRAB CAKES VIRGINIA
1 can lump crab meat
1 tablespoon minced parsley
1/2 teaspoon salt
1 cup milk
3 tablespoons butter
Tobacco
1 tablespoon minced onion
2 tablespoons minced green pepper
3 tablespoons onion juice
1 tablespoon Worcestershire sauce
pepper
Make a sauce by melting butter and blending in flour. Add salt and pepper and gradually add milk. Cook over low heat, stirring constantly until thick. Cool. Add lemon juice and Worcestershire sauce. A dash of Tobacco and a little fresh pepper improves the taste. When cool, stir in the crab and the vegetables. Using an ice cream dipper or soup ladle, lift out round balls or "cakes" and roll first in cracker crumbs and then in beaten egg, and once again in cracker crumbs. Chill before frying. Fry in hot vegetable oil, adding a little butter for taste. Serve hot with wedges of lemon and sprigs of watercress or parsley for decoration.

Delicious Blueberry Cupcakes

By CECILY BROWNSTONE
AP Food Editor
DELICIOUS LUNCH
If you like featherweight cupcakes, this recipe should please you.
Shrimp Salad Potato Chips
Blueberry Gems Beverage
BLUEBERRY GEMS
1 cup unsifted flour, stir to aerate before measuring
1 teaspoon baking powder
1/2 teaspoon salt
1/2 cup (1 quarter-pound stick) butter
1/2 cup sugar
Grated rind of 1 lemon (1 teaspoon)
2 large eggs
1/2 cup large cultivated blueberries
Topping, see below
Put paper baking cups in a muffin pan that has 12 one-third cup capacity cups. On wax paper thoroughly stir together the flour, baking powder and salt. In a medium mixing bowl cream the butter, sugar and lemon rind; thoroughly beat in eggs, one at a time, scraping bowl several times. Gently beat in flour mixture, 1/4 at a time, until batter is smooth. Fold in blueberries. Fill prepared muffin-pan cups about 2/3 full. Sprinkle Topping over batter, 1 teaspoon for each cup. Bake in a preheated 350-degree oven until cake tester inserted in center comes out clean—about 25 minutes. Serve warm, reheated or cold.
TOPPING: Stir together 2 tablespoons sugar, 2 tablespoons finely chopped walnuts and 1/4 teaspoon cinnamon.

Ripe Peaches Enhance Steaming Roast Duck

By CECILY BROWNSTONE
Associated Press Food Editor
Toss fresh peaches and an orange sauce to serve with roast duckling and we venture to say you'll never regret it. We did just that recently and even a few hard-to-please tasters were ecstatic about the combination. If directions for cooking the duck are followed, the skin will be devoid of fat and wonderfully crisp. Because the duck is quartered before roasting, no carving is needed at the table — always a boon. With the duck we offered orange — they mean that, ladies and gentlemen. But if you aren't in your market you can use brown or wild rice or a combination of white and wild. For a vegetable we chose green peas. We also offered a salad and homemade bread. For dessert we served Boston Cream Pie — the pie that is made of two layers of featherweight cake plus a custard filling and a chocolate frosting. Needless to add, this meant making a company meal.

2 tablespoons sugar
1/2 teaspoon grated orange rind
4 medium-size firm ripe fresh peaches
2 tablespoons orange-flavored liquor
Sprinkle duck with salt. Place on fat rack, skin side up, in a shallow roasting pan. Roast in a 350-degree oven until tender — about 2 hours. Remove duck on rack to broywright foil or a broiling pan; or have duck on rack in shallow roasting pan but discard fat in pan. Broil duck briefly — just long enough to further crisp and brown skin. Meanwhile into a 10-inch skillet turn the orange juice, butter, sugar and orange rind; bring to a boil; boil very gently for about 5 minutes; remove from heat.

COOKOUT SALAD — Made with frozen whole small potatoes and all manner of other good things, it may be heated in a skillet or wrapped in foil on the outdoor grill.

Cover peaches with boiling water; let stand about 2 minutes; slip off skins; halve and pit. Add peaches to orange-juice mixture in skillet; simmer until peaches are just cooked through, turning once — about 5 minutes. With a slotted spoon remove peaches.

In a cup stir together the cornstarch and liquor until smooth. Bring orange-juice mixture to a gentle boil; add the cornstarch mixture. Stirring constantly, cook until clear and more peaches.

thickened. Add peaches to this sauce and set aside off heat. When duck is ready, place on a platter. Reheat sauce and peaches and pour over duck. Serve at once. Makes 4 servings.

ROAST DUCKLING WITH PEACHES

4 1/2 to 2 pound duck, quartered
Salt
1 cup strained fresh orange juice
2 tablespoons butter

Serve Iced Tea With Fruit Kalobs

An old-fashioned thirst quencher also low on the calorie scale — if a non-sweetener or little sugar is used — iced tea is a popular summer drink in most parts of the United States, yet many beginners just don't quite pull off a perfect pitcher. To do this, follow simple suggestions and keep the tea at room temperature until ready to serve. Refrigeration will naturally turn tea cloudy, but this is no problem. To restore the sparkle, pour a little boiling water into the pitcher.

For a refreshing afternoon interlude, serve iced tea with fresh kalobs strung on long bamboo or branch skewers. Dip these in a creamy flavored sour cream mixture.

Stir sugar, lemon juice, orange rind and cinnamon into sour cream. Blend well and refrigerate for at least one hour. Serve at room temperature. Makes one cup.

Cheddar Cheese Spread

By CECILY BROWNSTONE
Associated Press Food Editor

Here's a new cheddar cheese spread that's comforting to have in the house because it may be used several ways. Pimiento-stuffed green olives, walnuts and mayonnaise plus just the right seasonings are mixed with the cheese and produce a delightful result.

The simplest way with the spread is to put it to work as a help-yourself offering with crackers or party-style miniature slices of bread.

It also tastes marvelous with hamburgers and spells a change. To use it this way, place a cooked hamburger on the bottom of a toaster bun; cover the hamburger with the cheese mixture and add the second half of the bun.

Another way with the spread is to use it as a stuffing for tomatoes. For an hors d'oeuvre or a snack, Cherry tomatoes are perfect when the combination is being used as an hors d'oeuvre; medium-size tomatoes serve well when the combination is to make a salad. The spread may also be used as a stuffing for small wedges of celery; here again the stuffed celery may be used as an appetizer or, with lettuce as a salad.

And a fourth way to use the spread is in a bacon-and-lettuce sandwich. These hearty sandwiches make a fine main course for lunch or Sunday-night supper.

OLIVE CHEESE SPREAD
1 package (8 oz.) cheddar cheese, grated, medium-firm (2 cups packed down slightly)
1/2 cup chopped (medium-size) pimiento-stuffed green olives
1/4 cup chopped (medium-firm) walnuts
1/2 cup mayonnaise
2 tablespoons prepared mustard
1 tablespoon bottled white horseradish
1/2 teaspoon salt
1/2 cup medium mixing bowl

Turn the cheese, olives, walnuts, mayonnaise, mustard and horseradish. Mix well. Add about 2 cups

Almonds add good texture contrast.

2 tablespoons butter
2 tablespoons flour
1/2 cup chopped (medium-firm) walnuts
1/2 cup milk
1/2 cup grated cheddar cheese
1/2 cup roasted dried almonds
6 large carrots, cut into diagonal slices and cooked
Make a white sauce of the butter, flour, salt, pepper and milk; stir in cheese until melted; stir in almonds. Serve over the hot cooked carrots. Makes 6 servings.

Blueberry Tops All Good Desserts

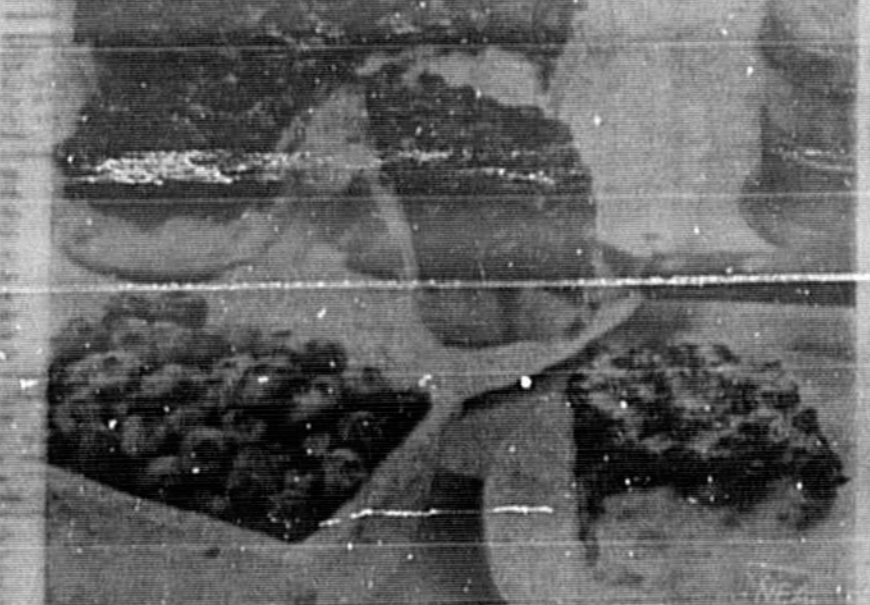

By ALLEN CLAIKE
NEA Food Editor

A basic approach to food may close a generation gap—at least between grandmothers and the grandchildren. Since many protesting youth today claim an interest in foods raised naturally or organically, they will find it interesting to hear a few words of food wisdom from the archaic relatives who practiced and believed in the home sustenance based upon fresh herbs, berries and vegetables.

A small pamphlet, "Fifteen Medicines" by Ben Charles Harris (Pocket Books) serves in an healthful resource of the most common fruits, vegetables and cooking herbs.

It is interesting reading and makes no pretense of being a substitute for a doctor or regular medical checkups. It does make a strong point, though, for the value of eating a wide variety of foods that are tasty and help from nature's miracle working without help from pills, etc.

For example, the staves and berries of blueberries have medicinal qualities which most will believe use as a remedy. However, the berry we all eat of, in or out of season, iron, potassium and manganese, all

Blueberry dishes add to healthful and tasty eating.

Orlandoan Guilty Of Manslaughter

William Harris Palmer, 33, of Orlando, was found guilty of manslaughter by a Seminole County Circuit Court Jury Wednesday evening. Ten hours of deliberation by the six man jury culminated the two day trial. This is the second conviction on a manslaughter death in Seminole County in the past ten years, reports the State Attorney Office in Sanford.

Harris was declared guilty of driving while intoxicated, an action which resulted in the death of Paul Theodore Mouchon.

The 34 year old Bear Lake resident was standing in front of a gas station on the corner of Bear Lake Road and Highway 426 in Forest City when, according to testimony, Harris' car crossed two other vehicles on the wrong side of a solid yellow line "at a high rate of speed", hit another vehicle making a left-hand turn in the intersection, glanced off that car, and hit Mouchon.

Mouchon's grandson, nine-year old Loren Brent Mouchon, standing beside his grandfather, was seriously injured, according to the same testimony.

Circuit Court Judge Tom Waddell remanded Palmer to the Seminole County Jail pending a presentence investigation. The maximum penalty is 30 years in prison for manslaughter.

The case was tried by Assistant State Attorney Fred Leone and Assistant Public Defender Ned Julian, both Sanford attorneys.

In other action Wednesday, Zell Gilmore of Apopka, pleaded guilty of discharging a firearm in a public place. He is in custody pending a presentence investigation.

Forced Busing Coming?? Seminole Out Of Compliance

By BILL SCOTT
 Since the Seminole County freedom of choice school plan now in effect is expected to be declared out of compliance with the U.S. Department of Health, Education and Welfare (HEW) edict on what constitutes a unitary school system for black and white students, what are the alternative plans under consideration by the school board in the event litigation such as that threatened by U.S. Justice Department forces a retreat and the board is made to change to another acceptable plan?

Coming on the heels of a letter dated July 2 from the Justice Department to State Education Commissioner Floyd Christian, that threatened 14 counties, including Seminole with court action unless an acceptable plan is filed by August 31, opening of new school term, is a request from Pat Bule, school board member, that other integration plans be discussed at this afternoon's board meeting.

Presumably these plans contain some form of pairing and zoning of schools and some forced busing may be necessary if the county is to keep its federal funds and open the doors of learning to students for the 1970-71 term.

The school board staff and Andrew Braeken, administrative aide, has said that plans (Cont. On Page 1B, Col. 4)

Budget Review Continues

By CLAY HARTSOE
 The Board of County Commissioners met Wednesday at the Seminole County Courthouse, to review the new County budget.

The Board is faced with the monumental problem of cutting down a budget that is estimated to be exceptionally greater than the total income of the County. Board member Sid Vihlen stated, "Many people will feel like we are a group of Simon LeGree because of the corners that we will be forced to cut, but there is no other way of making ends meet."

"Inflation is one of the main factors causing the problem. A good example of this is last year's telephone cost. Due to rate increases, last year's cost for local service was as high as the money allotted for local and long distance service. This caused a deficit in the budget because of the long distance calls that had to be made."

Board Chairman, John Alexander, stated that the present distribution of phones he surveyed before any further money is allotted.

"Inflation is not the only other major cause of the money problem. The Department is not run solely by the County as the Federal, State and County Governments, all allot money to the Health Department.

The employees of the Health Department are responsible to the State Government, not the County Government.

Mr. Vihlen stated, "The Federal State Government will implement a new program without consulting the County Government. New employees have to be hired and more equipment bought, therefore the costs rise. The County allotment grows and we don't even know where the money goes. It is nearly impossible for us to keep track of the Department under the present set up."

"Another factor that burts us is our lack of a present Health Director, who don't have anybody to explain where or why the money is needed. Mr. Robbins, the Head of Sanitation, is doing his best, but just does not know enough about the Department to be able to explain fully."

Irate Osceola Residents Protest Proposed Dump

By MARION BETHEA
 Irate residents of the area appeared en masse at a meeting of the Seminole County Planning and Zoning Board last night to protest the use of Osceola Airfield as the county's central sanitary landfill and possible collection depot for junk cars.

Representing the County Commission, County Sanitarian Val Robbins made a presentation to the board explaining the use of the site. Robbins said that preliminary approval had been granted by the State Board of Health, and that soil borings had been made. In answer to a query by board chairman, Glenn McCall, Robbins said that he did not know the results of the soil borings. He further stated that there had been no final approval of the site by the state, and that he was aware that residents of the area were concerned with the pollution aspect.

McCall then directed his questions to burning at the site of auto bodies and the detriment to ecology. Robbins said that the public would be unable to set fires with the site closed unless attended, and that he had no present information on the junk cars.

ENGINEER'S REPORT READ
 County Road Superintendent J. C. Lavender told the board that he had read an engineer's report stating that the water table was three feet beneath the surface, that no pollution would result of lakes or rivers, and that no garbage would be buried below the water table. Lavender also cited that it would be necessary to raise the elevation for a 10 foot landfill.

McCall continued his probe by asking what would hinder garbage from washing into the rubbish, and Lavender replied that there would be a layer of dirt. Lavender further stated that the operation would begin at the north side of the runway and that the present runway would not be disturbed for a "long while."

In answer to a query as to the ultimate disposition of the \$1 million runway, Lavender said the concrete would "be buried." He went on to say that for the next 7-10 years the site would be visible from the highway, but after the proposed use as a sanitary landfill for 20 years, would be reclaimed and utilized as a park.

McCall defended the landfill operation with the contention of "this is apparently today's answer to garbage." Lavender cited such operations in Tampa and West Palm Beach. McCall mentioned that the proposed site is on the fringe of the green belt area of the county's plans.

Residents interrupted proceedings with caustic comments about living next to a dump, and one resident suggested it be placed in the back yard of "the county commissioners."

McCall shot back that he did not blame the residents for their feelings but that the "dump" had to be located somewhere as the ultimate answer to the landfill situation. However, he said, no one seemed to be in favor of Osceola "but the county commission."

AREA
 John Sewell, attorney representing Forrest Products Inc., owners of 1,000 acres of contiguous property, questioned the landfill being permitted in an M-1 industrial area with the fact that the county had no authority to "set a graveyard for cars in an agricultural or M-1 area. McCall replied that the county was granted this authority under an enabling act passed by the state legislature. Lavender again interjected that the county has not said that it would accept junk cars at the site, but if such were the case there would only be 100 at a time, which would be mashed and removed.

Sewell countered that the county has not submitted any specific proposal or specifications for the landfill nor any governing regulations. He continued that he could not ascertain how the board could make a decision without state and county reports, and concluded that "there is more to a landfill than digging a hole in the ground."

Barry Peterson, realtor, told the board that several investors were interested in the area, who would be discouraged with a landfill. He also said that he had spoken with a reputable engineer" who said the site would take "months of study" and that no reputable engineer would hazard a guess as to pollution, etc. until the operation, said, "If elected I will spare no efforts to bring to each Seminole County child, the best education it is possible to provide."

He continued, "this county's educational program should not take a back seat to any county in the state and if I am elected, I will work toward that end."

Agge pledged he would be available to hear suggestions and complaints from the citizenry concerning the school operations.

"We believe we have some of the best teachers in the state and we will do whatever we can in keeping with good county school operation to keep them," Agge stated.

Father of two boys, ages 8 and 10, Agge said he had looked at the school situation for some time before deciding to seek office.

Agge is the second person to announce candidacy for the educational board in the past two days; John Evans, board chairman from Oviedo, Tuesday told The Herald he would seek a third four year term.

Agee After School Position

James Wendell Agge, 35-year-old branch manager of GAC Corporation of Sanford, is expected to qualify today for a place on the Seminole County School Board. Agge told The Herald he would seek the position now held by Republican A. F. Keith in District 5.

Agge is a Democrat and has been associated with various civic projects and has been involved in past efforts of the Little Red School House for orphaned children, having served as 1969 president of the organization.

Agge's background has been a limited education although from the very beginning since his mother was a teacher and father his wife, having served years in Orange County and is now Area Supervisor for Home Economics for 10 counties with the State Education Department.

Agge graduated from Orlando's Boone High School and attended Georgia Tech at Atlanta.

The candidate has served on the advisory committee for Head Start and his other civic endeavors include Sanford-Jennings Jaycees past president; Board of Directors of United Cerebral Palsy for Central Florida; Seminole County Muscular Dystrophy Association and participation in the county United Fund drive every year.
