

Loss Of Key Men In Keeping Rickey Awake At Night

By DILLON GRAHAM
AP Features Sports Editor
BROOKLYN, Feb. 8.—Branch Rickey isn't worried over the certain loss of his Brooklyn Dodgers' ace pitcher, Dolf Camilli, who is being drafted for Army service. Rickey says he has a half-dozen key players who can take over in Flatbush at any time, many years with the club. Rickey, however, knows he is going to find suitable replacement for Pete Riser, center fielder, and just about the best young hitter in the loop, Reiser was plucked from any old team.

Rickey knows the Dodgers will miss pitcher Dolf Camilli, who has been playing for the Dodgers since 1935. Rickey says he has a half-dozen key players who can take over in Flatbush at any time, many years with the club. Rickey, however, knows he is going to find suitable replacement for Pete Riser, center fielder, and just about the best young hitter in the loop, Reiser was plucked from any old team.

Defense Unit Has Successful Test Of Mobilization

(Continued From Page One)
Defense Force, commanded by Maj. Norman B. Gibbs of Fernandina, conducted a test mobilization and practice field problem Sunday, Brig. Gen. Vivian Collins announced last night.

The exercises were held in the coastal area of northern St. Johns County in connection with a practice problem in security measures conducted by the Army, General Collins said.

A command post, first aid station and communications center were established at the State Arsenal at St. Augustine under the command of Col. Edward C. Rose of the Army. Troops were moved into the area in Army trucks furnished by Camp Blandin.

Units of the Third Battalion participating in the maneuver were Company A, commanded by Capt. U. V. Milligan, Fernandina; Company B, Capt. Oscar K. Kirk, Jacksonville; Company C, Capt. James A. Williams, Jacksonville; Company D, Capt. Giles C. Randall, St. Augustine; and Company E, Capt. Charles J. Herrington, Palatka.

Everglades Sugar Crop Is Threatened

CLEWISTON, Feb. 8. (AP)—Labor shortages are threatening the Everglades sugar crop, which was expected to produce a record 100,000 tons this year.

Joy W. Morgan, president of the United States Sugar Corporation, said the company needed 1500 additional workers but was unable to find them.

"We in Florida are experiencing the shortage of farm labor that will strike the whole country in a few months," he said. "Florida needs help now."

The United States Sugar Corporation is one of the largest sugar producers in the country.

GENERAL MOTORS
"Victory Is Our Business!"

"THE AMERICAN WAY WILL WIN"

"Production, Production - and More Production!"

GENERAL MOTORS REPORTS ON ITS FIRST FULL YEAR OF WAR ACTIVITIES

FIRST, AN APPRECIATION . . .
While the figures and statistics shown below are impressive, they do not tell the full story. They do not show, for example, the cooperation we have had from Army and Navy officials at every step of our progress toward the record production already achieved. Nor do they indicate the fine spirit of cooperation shown by our suppliers and subcontractors, on whom we rely for so much of the work.

They cannot convey an adequate picture of the eagerness of hundreds of thousands of General Motors men and women to back the courage and determination of our fighting men with an ample supply of the most effective fighting weapons in the world. They cannot give even a hint of the initiative displayed by our engineers and mass-production technicians in effecting manufacturing economies and efficiencies which have resulted in the saving of critical war materials and manpower, and which have already made possible price reductions amounting to hundreds of millions of dollars.

These are the practical results that come from encouraging individual effort and initiative—the American way of getting the job done. Machines alone cannot win the victory—it will be won by free men working and fighting together for the only kind of future worthy of America.

1940 and 1941 were years of defense production and of planning for the possibility of war. Pearl Harbor found this defense production well under way. With the declaration of war and the call for "all-out" war effort, General Motors concentrated its entire organization and all its facilities on war production.

The tremendous job ahead at the threshold of 1942 called for the "know-how" of all our engineers, designers, mechanics and managers, skilled and experienced in mass production. It required the retooling and rearranging of all our plants for maximum production of war products. It meant designing and building new machines, and tools to make them—training skilled hands to perform new tasks, and teaching the unskilled—building employment and payroll to unprecedented peaks—organizing and enlisting the support of our network of thousands of suppliers and subcontractors. It also meant establishing and operating training schools to teach thousands of men in the armed forces how to properly service and maintain General Motors-built war equipment.

Now at the beginning of 1943 these basic tasks have all been accomplished, and during their accomplishment General Motors plants made and delivered a mighty, rising tide of war materials. That tide continues to rise with mass-production technique swinging into full stride.

Thus General Motors answers our government's call for "Production, production—and more production!"

JAPANESE EVACUATE GUADALCANAL

Red Ski Troopers Press Southward Into Donets Basin

After Taking Kursk, Armies Smash Anew At Three Sagging Lines Of Germans

The Russians smashed anew at sagging German lines in three sectors after storming into Kursk, the enemy's main point on the Moscow-Orsk rail line, and destroying a Nazi army there.

Kharkov also was menaced by envelopment tactics while mobile units and ski troopers pressed southward into the Donets Basin and toward the Sea of Azov.

Above Rostov the Germans were reported counter-attacking while Red army units were reported to be held by 250,000 Axis troops. Another 200,000 were cut off in the western Caucasus.

Sweeping westward with unprecedented speed, the Red army has recaptured the pivotal city of Kursk, a major battle in the East. The winter defense line has fanned out over a tremendous area and is threatening vital objectives both to the north and south.

Now however, the triumphant Soviet army is pushing the city quickly. The German defense line led the occupation, a special command announced last night, making an advance of 24 miles from Zolotukhino and other towns north and west of the city.

As the crumbling of this northern pivot of the Nazi defense line was announced, pressure was increased on the Caucasus, where the Russians are besieging the city from the south and another column is driving down from the north.

Kursk was occupied after "a violent attack" assisted by an encircling movement from the southwest, said the special communique as recorded here by the Soviet Monitor.

Civic Clubs Will Participate In Luncheon Honoring Governor

All civic clubs have cancelled their regular luncheons for the week of Feb. 22 and will participate at the Mayfair Feb. 23 in the luncheon sponsored by the Chamber of Commerce in honor of Gov. Spessard L. Holland immediately following the patriotic rally at the Bandshell, Mrs. E. F. Housholder, chairman of the Send-off and Follow-up Committee, announced today.

Reservations for the luncheon can be made by telephoning the Chamber of Commerce at 51 any time before Friday, Feb. 19. Secretary Ed Higgins stated today that he urged those planning to attend to make their reservations immediately as accommodations are extremely limited on account of the labor shortage.

Programs have been arranged for both occasions. Mrs. Housholder said, and will include speeches by both Gov. Holland and Comdr. F. Massie Hughes, captain of the Sanford Naval Air Station, a concert by the Navy

Band from the Jacksonville Naval Air Station and presentation of a WPA Efficiency Flag in connection with the scrap collection drive. Senator F. F. Housholder will act as master of ceremonies.

The program at the Bandshell in honor of the selectees leaving that day for Camp Blanding has been announced by Mrs. Housholder, as follows:

10:30 A. M. Assembly at Bandshell, Sanford Municipal Pier.

10:45 A. M. Opening song led by Charles Morrison, accompanied by Harry K. V. Dell.

Invocation.

Welcome address by Mayor Edward Higgins to honor guests and citizens.

Navy Says Axis Resistance On Key Island Has Ceased

Signal Corps Men Against Seining St. Johns River

Powell Says Men At Home Take Advantage Of Soldiers

Stating that the people at home are taking advantage of men who are in uniform and serving in the armed forces away from Sanford, Charles H. Powell, Signal Corps, in a letter to The Herald says that the St. Johns River should not be opened to commercial fishermen for seining.

The Sanford man, who lives in Palm Beach, N. Y., commended the Navy edition which was published Jan. 25 and said that some of the men were in the employ of the navy.

Mr. Powell's letter follows: "I want to add a note to myself (and family) on representative Mann's real supporters, opposed to the opening of the St. Johns River to commercial fishermen for seining."

"I think they are pretty poor sports that would try to put something like that over while the men are away from their homes (Sanford) doing their bit to win the war, and are not home to have their say in the matter."

"And it seems to me, with all the help that is needed in the defense of this Nation by those who are in uniform, that it is more for them to work and let the fish take care of themselves, and when this war is over we can all go back home and enjoy fishing again."

"If some of the people in Sanford were up here and could go fishing because there isn't any fish, they would appreciate what Sanford has to offer in sports that you can't get everywhere you go."

"One of the first things a man up here wants to know when he finds out that the war is over is 'How is the fishing down there?'"

"I showed your recent Special Edition of The Herald to some of the men here in uniform, and they were amazed to learn that a bass got larger than four or five pounds. And I have heard several say that they were going to Florida to live when the war is over. So I still think the St. Johns should not be opened to commercial seining. These are my views on the matter and also every other true sportsman."

WEST FLORIDA MAY BE EXCLUDED FROM RATION

WASHINGTON, Feb. 9. (AP) The Petroleum Administration for War announced Monday it has asked exclusion of the City of Bristol, Va., and all Florida counties west of the Apalachicola River from the Eastern gasoline shortage area.

PAW said it has asked the Office of Price Administration to direct the exclusion, which would raise the value of gasoline ration coupons from three to four gallons in the designated areas.

Exclusion of the specified Florida counties was asked, PAW said, "because of the peculiar geographical position of that section in its relations to the Alabama region."

PAW said that exclusion of Bristol was asked because part of the town lies in Tennessee, which is outside the Eastern area, and the present orders give filling stations in the Tennessee side an inequitable advantage over those on the Virginia side.

Salvation Army Gets \$300 From City Commission

Capt. Woods Appears Before Group To Discuss Boys Club

Captain George W. Woods appeared before the City Commission at their meeting last evening, told them that the Salvation Army program for boys' clubs was a good one, and that he had secured the local corps would be quite more funds.

The Salvation Army drive this year, which started on Feb. 8 and will continue to Feb. 27, will be for a goal of \$1,000. This is an increase over the amount raised last year, and is largely due to the estimate of \$1,000 of the sum needed for the boys' club.

Col. J. H. Hickey, state commander of the Salvation Army, has appointed M. E. Moody as campaign director for the local drive. Capt. Woods said.

A temporary location for the boys' club has been offered by the parking firm of Patrick and Fringle, who recently acquired the building at French Avenue and Twelfth Street, formerly occupied by the Stevens general and grocery store.

Assisting Capt. Woods in the boys' work will be the following: Capt. R. Wilson, H. M. Moore, Earl Kapp, W. C. Lee, R. C. Smith, Jack Russell and William H. Kelly.

The Sanford Municipal Commission of which the Rev. E. D. Brewer is president, has today voted on a resolution approving the work of the Salvation Army and endorsed its work in forming a boys' club.

CITY ORDERS REPAIR OF SIDEWALKS ON TWO BUSY AVENUES

A resolution to notify property owners on Magnolia and Park avenues between First Street and Thirteenth Street was adopted by the City Commission today.

The ruling followed the report of the Public Works Department regarding sidewalks in need of repair. Property owners on these two streets will be given 10 days to make the necessary repairs.

Due to a shortage of labor available for this work, property owners on these two streets only were notified at this time to get their sidewalks repaired.

The Commission appointed H. J. Gut and W. C. Hill to make an estimate of the cost of putting in additional tennis courts, also badminton and volleyball courts in Fort Mellon Park for use of service men, as requested by Frank Shames and William Wenskopf of the USO. This estimate would include the cost of installing and maintaining night lighting, Mr. Sayer said.

JEFFERS IS PLANNED WITH RUBBER PROGRAM

PITTSBURGH, Feb. 9. (AP) Rubber Administrator William M. Jeffers said today that the nation's synthetic rubber program is "getting along very nicely now" and indicated that as far as present supplies are concerned, there will be no need to extend the rationing area where pleasure driving is banned in Pittsburgh as well as other cities.

Jeffers said the program "will hit its stride next year."

BERLIN RADIO ADMITS WITHDRAWAL ALSO OF FORCES FROM Buna, New Guinea

Japan's Imperial headquarters was quoted today by Axis broadcasts as announcing that Japanese forces have evacuated Guadalcanal Island in the Solomons and in Washington Secretary of the Navy Knox said all enemy resistance on the key island "has apparently ceased."

It was Japan's first admission of the withdrawal of its forces from the island since it had been captured by the American survivors of the army originally estimated at 10,000 troops, and 10,000 American forces were in the Solomons striking the island.

The Japanese had announced the evacuation of the Buna area in New Guinea.

W. P. Brooks, 72, Retired Railroad Conductor, Is Dead

William P. Brooks, 72, a retired Atlantic Coast Line railroad conductor, died at his home, 417 West Second Street last night at 7:50 o'clock, following a short illness.

Born Dec. 31, 1870 in Tuleo, Miss., Mr. Brooks moved here Feb. 14, 1904 to accept a position with the Atlantic Coast Line, which he held for 37 years until he retired Nov. 4, 1940.

Dr. E. D. Brownlee will conduct funeral rites Wednesday afternoon at 3:00 o'clock at the Erickson Funeral Home. Interment will be in Lake View Cemetery.

Mr. Brooks is survived by his widow and two sons, W. R. of Tampa and T. R. of Groveland; one grandson, T. R. Jr. of Groveland; four stepdaughters, Mrs. J. I. Wilkinson, Mrs. Harry Lee, Mrs. R. F. Curry of Savannah, Ga., and Miss Elsie Farley of Dublin, Ga.; one step son, Victor S. Farley of Orlando.

Jennings Reveals Information On Victory Gardens

"Over 90 percent of the vegetables planted in Victory Gardens to feed human beings, are in my opinion eaten by bugs instead," was the statement today of William R. Jennings of the Kilgore Seed Company.

"Don't plant a Victory Garden for the benefit of the bugs," he added, "consult someone who knows how to combat them before it is too late."

"Many people come to buy insecticides too late usually about the time, half the vegetables are eaten," he continued.

"Pests may be divided into two kinds," he said, "the sucking type, such as aphids, which can be killed by contact poisons and the eating type, which may be dispatched by stamping."

Dr. E. W. Ruppert, of the State Celery Experiment Station, while not fully agreeing with the statement of a high percentage of home garden plants feeding the bugs, stated that many of these gardens are a failure due to lack of care.

"If you put in a Victory Garden, which to me it is through, otherwise all the benefit you will get out of it will be the exercise of plowing, seeding and planting," he advised.

Orie Mathews, agricultural specialist, said that in his opinion, fertilizer and seed are totally needed in the war effort to be thrown away in untended gardens, and advised more study of gardening before planting.

J. J. Rocco of the Rocco Seed Company, pointed out that Victory Gardens, if well taken care of, would be a fine method of obtaining plenty of vitamins, fish vitamins.

"I believe there will be adequate supplies of seed for this purpose," he stated, "with good planning, the success of each garden will be assured."

Victory gardens by local seed companies are available for planting in Florida. Contact your local seed company for more information.

Mrs. Henly Mann Dies After One Week's Illness

Mrs. Henly W. Mann of Lake Monroe died at her home at 455 A. M. today following an illness of one week.

A resident of Sanford for 34 years, Mrs. Mann was born May 20, 1866 in Wilkesboro, Ga. and was a charter member of the Lake Monroe Baptist church.

Also four brothers who live in Georgia, J. F. Ward, H. S. Ward, J. W. Ward and Joseph Ward, four sisters, also living in Georgia, Mrs. Emma Thompson, Mrs. Ruben Bell, Mrs. Millie Bell and Mrs. Margaret Horn.

Funeral arrangements will be announced later by the Erickson Funeral Home.

Regulations Told On Enlistments In Spars, Waves

JACKSONVILLE, Feb. 9. (Special) Effective Feb. 15, Navy recruiting stations throughout the Jacksonville district will assist in the procurement of Waves and Spars by handling screening tests and other preliminary steps. It was announced here today by Lt. Comdr. T. J. Needham, U. S. N., officer-in-charge.

The plan is part of a nationwide movement to speed up induction of personnel for the women's naval reserve organizations, the officer explained.

Meanwhile, Navy recruiters in the Jacksonville district were reported distributing literature and answering questions relative to service in the navy.

Enlistment ages range between 20 and 30 for the enlisted personnel, while officers may be enlisted between the ages of 20 and 49.

Navy recruiting stations in the Jacksonville district are located in the post office buildings here, in Orlando, Gainesville, Tallahassee and Daytona Beach. In Tampa the office is located in the city hall building, while in St. Petersburg the office is located in the chamber of commerce building. Applicants may also write or contact the office of Naval officer procurement here in the Lynch Building.

Stamp Boutonnieres Suggested As Gifts

"Valentine's boutonnieres of some stamps makes excellent gifts for the holiday coming up soon," Mrs. W. L. Cooper, co-chairman of the women's war savings committee, said this morning, as she discussed that on sale at the women's booth in Yowla's are these novelties made by the Pilot International Club.

The women's organization have taken a week to stamp the defense bond and stamp booth, Mrs. Cooper said.

Cooper said the stamps are available at the Garden Club, the Sanford Women's Club and the

New Maritime Bill Presented By Group

WASHINGTON, Feb. 9. (AP) Carrying more than a billion dollars to speed the Maritime Commission bill by next May, a group of 77 independent officers today introduced a new bill in the House.

The bill would give the Maritime Commission authority to set rates for shipping and to regulate the industry.

The bill would also give the commission authority to regulate the industry.

The bill would also give the commission authority to regulate the industry.

The bill would also give the commission authority to regulate the industry.

Ritz Theater Is Showing Film On Venereal Disease

A picture that carries the endorsement of many of the outstanding citizens and health authorities of the nation will be shown at the Ritz, tomorrow and Thursday when "No Greater Sin" is shown.

Some of the endorsements given in the film after its recent showing in Jacksonville, follow:

"You were kind enough to invite a committee from the Jacksonville Protective Association to preview the picture and without an exception each person present expressed his appreciation of the educational value of this picture."

"Perhaps the City Fathers who hold the responsibility for the health and well-being of our community as their hands might get some valuable suggestions from the Jacksonville Better Film Council."

"This picture will be of great help in awakening the public to the importance of stamping out venereal diseases."

"In conclusion, Mr. Morrison and although the picture is not a sex picture because of the delicate nature of the subject, it should be admitted."

"In 1940 Chile's exports exceeded her imports in value by almost \$35,000,000."

Soviets Pound Nazi Defenses Near Belgorod

Enemy Menaced By Tightening Semi-Circle On Three Sides Of Section

(By Associated Press) Strong Russian forces are pounding through Belgorod a gap in German defenses north of Kharkov, the only point on the 200-mile wide front where the Nazis hold the line from which they launched their 1942 offensive, battlefront dispatches reported.

Industrial Kharkov thus was menaced by a tightening semi-circle closing upon Rostov and against a Kramatorsk wedge to the northwest which might pinch off the whole Rostov defense force.

Belgorod was the second German base and railway center, held tenaciously through all the Russian counter-offensives of the winter of 1941-42 and the Spring of 1942 to fall to the Red army in 48 hours.

The city is only 50 miles northwest of Kharkov, industrial capital of the Ukraine, and is 78 miles southeast of Kursk, the big defense center which fell only yesterday.

Along with Belgorod, the Russian base Shebekino, only 40 miles to the northeast of Kharkov, was captured by the Red army.

At the junction of the Rostov-Kharkov line and a branch railway which runs north to Gerasimovskaya, the central base of the Rostov defense, the Red army tried to force a breakthrough.

On the top of the line, 300 miles south of Moscow, appeared to be left unguarded, suspended by the fall of Kursk to the south and a massive thrust past that former German bastion toward Lgov and Kiev, 250 miles to the southwest.

Gas Ration For 10 Counties In State Is Increased

JACKSONVILLE, Feb. 10, (AP)—Gordon Moresco, state rationing officer, announced yesterday that 10 Florida counties west of the Apalachicola River would be removed from the emergency gasoline shortage area effective at midnight last night.

The counties are Jackson, Calhoun, Gulf, Holmes, Washington, Ocala, Santa Rosa, Escambia, Bay and Walton.

The immediate effect of the ruling will be to increase the volume of "A," "B" and "C" gasoline coupons from 2 to 4 gallons and to increase the occupational mileage allowed on "B" books from 270 to 470 miles, Moresco explained.

It will make salaried certain essential commodities eligible for mileage up to 75 occupational miles per month and will remove the ban on pleasure driving in those counties, the rationing officer said.

Removal of most "B" and "C" books are coming up for renewal at this time, all local war and ration boards affected are urged to request to take books being renewed according to the "B" guidelines. Moresco added.

The 10 counties were not included in the original gasoline rationed area.

Beat The Gun On Shoe Rationing

ECONOMIC STABILIZATION DIRECTOR JAMES F. BYRNES chose shoe sales preliminary to rationing of footwear. But on New York's Lower East Side stores close Saturdays and stay open on Sundays. One of these stores is pictured jammed with women shoppers.

Navy Spokesman Says New Drive In Pacific Near Guadalcanal Seizure Said Part Of Offensive Action

(By Associated Press) A United States Navy spokesman said today that a new offensive drive in the Pacific is being planned, and indicated a new Allied offensive was near.

"We are now going to take offensive action in which the complete seizure of Guadalcanal was an important part," said Capt. Miles Browning, Admiral Halsey's chief of staff.

The triumphant news came 10 months after the nation heard the tragic tidings that Bataan had fallen; that a gallant band of American-Philippine troops had been broken by starvation and disease and their hopes for reinforcement crushed by a strangulating blockade — were forced to yield that blood-stained Philippine peninsula.

American fighting men vowed then that they would avenge their fallen comrades.

Yesterday the pay-off came. The Japs asked for it and they got it—miserable, suffering and defeated—the same kind they dished out to the boys on Bataan.

Their defeat came six months and two days after United States Marines invaded the Solomons in the first American offensive of the war.

Rites For Mrs. Mann To Be Held Thursday

Funeral rites for Mrs. Hanly W. Mann, who died at her home in Lake Monroe yesterday morning, will be conducted by the Rev. H. H. Martin and the Rev. W. F. Brooke, Jr. Thursday afternoon at 4:00 o'clock at Lake Monroe Baptist Church.

Mrs. Mann was the mother of nine children, five sons and four daughters. Her husband, who was a resident of Lake Monroe for 24 years, died at the age of 74.

Pope Goes To Field Artillery School

GAINESVILLE, Feb. 10, (Special)—John E. Pope, 2921 Sanford Avenue, Gainesville, was among the 100 officers and 1000 enlisted men who were graduated from the field artillery school at Fort Benning, Ga., on Feb. 9.

L. B. Bink Promoted To Air Force Captain

Louis B. Bink, Jr., of Mr. and Mrs. J. C. Bink, owner, in the Sanford, Fla., is being promoted to the rank of captain in the United States Air Force.

48 Hour Week Set By F. D. R. For Industry

McNutt Immediately Applies Work Law To 32 Areas With Labor Shortages

WASHINGTON, Feb. 10, (AP)—Economic Stabilization Director James F. Byrnes told the nation today that he had ordered President Roosevelt's 48-hour week work plan for 1943 to be applied to 32 areas with labor shortages.

Mr. Byrnes established the policy by executive order in a double-barreled move to achieve maximum production from available manpower and to meet the manpower requirements of the armed forces.

Mr. Manpower Chief Paul V. McNutt last night immediately applied to 32 labor shortage areas President Roosevelt's order decreasing a minimum 48-hour week as a nationwide measure.

All forms of business and industry in the 32 areas and 25 States and the District of Columbia are affected. These areas are: Bath, Maine; Bridgeport, Hartford and New Britain, Conn.; Portsmouth, N. H.; Springfield, Mass.; Burlington, Conn.; Buffalo, N. Y.; Somerville, N. J.; Baltimore and Elkhart, Ind.; Hampton Roads, Va.; Washington, D. C.; Akron and Dayton, Ohio; Detroit; Mantoloking, N. J.; Sterling, Ill.; Brunswick and Macon, Ga.; Charleston, S. C.; Mobile, Ala.; Panama City, Fla.; Pascagoula, Miss.; Wichita, Kan.; Beaumont, Texas; Cheyenne, Wyo.; Ogden, Utah; Las Vegas, Nev.; Portland, Ore.; San Diego, Calif.; and Seattle, Wash.

At present, the 48-hour week order will apply only to the 32 areas, but it will be extended gradually as the need arises until it may become virtually universal.

The Presidential order would make the 48-hour week compulsory for all industries holding government contracts and it is clear that no other place of employment shall be deemed "to be making the most effective use of its manpower" if its minimum work week is less than 48 hours.

It vested McNutt with discretionary authority to make such exceptions on the 48-hour standard as he deemed necessary in the interest of the national health, safety or interest.

Under these powers, McNutt immediately applied the policy to all types of employment—whether war or non-war—in 32 labor shortage areas.

Rates of pay for hours worked in excess of the agreed or customary work week—normally 40 hours—shall be in accordance with the result that boys are apt to run wild," he said, and referred to the paroling by Judge Ware of three of the boys recently arrested in a visit from the police department in Oklahoma, and added that the hands of police are tied in the matter, as all they can do is arrest the boys caught in the act of looting.

Edward Lane was introduced by Frank Shames, to speak regarding Sanford founders Day and the Sanford Senior Shelter. Sanford and of interesting incidents in connection with the history of Sanford.

A hearty laugh greeted his tale of the old gas lamp lighter who mounted on a pony and went around lighting lights, only to be followed by mischievous boys two blocks behind, who put the lights out.

The Rev. J. J. Kelleghan, here on a visit from Gainesville, led the singing. Guests included, W. M. Moody, Lieut. Gross, W. M. Laffler and Peter Brock of the Key Club.

Prof. G. E. McKay, announced plans for the Key Club convention to be held here, March 26.

British Launch New Drive Against Enemy In Tunisia

Lt. Gross Tells Recreation Needs Of Service Men

WASHINGTON, Feb. 10, (AP)—Lt. Gross, director of welfare and recreation at the Sanford Naval Air Station today told Kiwanians at their luncheon at the Hotel Mayfair that "the mere fact of getting service men into hard shape physically is not everything to be considered in relation to their welfare."

He stressed the fact that many of the sailors are young, and away from their homes for the first time in their lives. In addition, there are games and other activities to be enjoyed by the men.

"Our principal job, however, is to condition these men," Lieut. Gross added, and stated that it is required that every service man at the station between the ages of 20 and 45, get at least 30 minutes of outdoor exercise daily.

A grassed area at which four or five soft ball games can be played will be laid out, he said. Twelve soft ball teams have been organized, and also a basketball team is being formed to play Rollins, Stetson, the DeLand Naval Air Station and others he said.

Fred Englehart, former physical director of the Army-Navy Y.M.C.A. at San Diego California, was introduced by Lieut. Gross as the speaker.

He stated that he had noted an article about Lieut. Gross in the Orlando paper and was overjoyed to see him for the first time in person.

"Many parents are now obliged to put in more time with their children," he said, and referred to the paroling by Judge Ware of three of the boys recently arrested in a visit from the police department in Oklahoma, and added that the hands of police are tied in the matter, as all they can do is arrest the boys caught in the act of looting.

Edward Lane was introduced by Frank Shames, to speak regarding Sanford founders Day and the Sanford Senior Shelter. Sanford and of interesting incidents in connection with the history of Sanford.

A hearty laugh greeted his tale of the old gas lamp lighter who mounted on a pony and went around lighting lights, only to be followed by mischievous boys two blocks behind, who put the lights out.

The Rev. J. J. Kelleghan, here on a visit from Gainesville, led the singing. Guests included, W. M. Moody, Lieut. Gross, W. M. Laffler and Peter Brock of the Key Club.

Prof. G. E. McKay, announced plans for the Key Club convention to be held here, March 26.

Charles Cole was appointed financial secretary of the club.

CITY BRIEFS

Farm Wage Scale Approved By Agriculture Department

To Visit Here

Senator Claude Pepper (above) will visit Sanford while he inspects the St. Johns River to consider digging a deeper channel.

WASHINGTON, Feb. 10, (AP)—Wage rates for farm workers based upon prevailing farm wages for different operations in vegetable growing and farm work as determined by the Florida Agricultural Wage Board during its hearing Jan. 15, with approval by the United States Department of Agriculture, County Agent C. R. Dawson revealed today.

A letter to Mr. Dawson from M. U. Mounts, agricultural agent of Palm Beach County, who acted as chairman of the Board at the hearing, lists the following approved wage rates for various operations in vegetable crops as required for the purpose of securing contacts under the Government's farm labor transportation program.

For Seminole, Orange and Lake Counties, the wage rate approved for unskilled male and female field workers is \$3.00 a day the maximum day is 10 hours.

For truck and tractor drivers, the rate is \$2.25 a day, maximum day, 10 hours.

In the harvesting of celery the following wage rates apply: Male strippers, 30 cents an hour; female strippers, 30 cents an hour; male and female box fillers, 30 cents an hour; cut-off men, 10 cents an hour; cut-off women, 10 cents an hour; men, (two to a crew), 30 cents an hour; male loaders and stackers, 40 cents an hour; crew leader and foreman, \$4.00 a day.

In packing of celery the rate is 20 cents per row of 310 feet for putting on celery paper, and 12 cents for taking the paper off the same row. Earnings are to be divided equally among a crew of three men.

In packing of beans the rate is 30 cents a bushel hamper for the first picking, and 35 cents a bushel hamper for the second picking. The rate for second picking is 40 cents a hamper.

Pepper To Make Inspection Of St. Johns River

Senator Claude Pepper will come to Sanford on Feb. 22 for an inspection of the St. Johns River and will be the principal speaker at the regular meeting of the Rotary Club at the Mayfair Hotel, H. J. Johnson, Rotary program chairman, announced today.

While on a tour of Central Florida Senator Pepper will consider the feasibility of increasing the present authorized depth of the St. Johns River from 10 feet to 12 feet, in view of the increased traffic due to war conditions and the construction of a number of military bases and stations along the river requiring the movement of supplies.

The present depth of the river is 8 feet, Ed Higgins, secretary of the Chamber of Commerce, stated today, "and is wholly inadequate for present day conditions. A depth of 10 feet has already been authorized, but it would cost very little more and would require practically no new materials to increase the depth to 12 feet. We hope to gain Senator Pepper's support for this project."

Defense School To Start Course In Auto Mechanics

A course in auto mechanics designed to supply local demand for persons qualified to make minor repairs to trucks, tractors and automobiles, and to enable farmers or others to repair their own machines, will be started Feb. 22 at the Seminole High School farm building, it was announced today by Alex R. Johnson, director of the Sanford School for War Production Workers.

Frank L. Harnum, former instructor in Sanford of the war production workers program, will be in charge of the class, which will be limited to 15 members, Mr. Johnson stated.

Men and women of from 17 years of age up, are eligible to enter this course. The course is especially for girls who want to join the W.A.A.C., for which purpose this training would be valuable.

Garage report that they are overloaded with work and that there is a special need for workers who can make minor repairs to automobiles, said Mr. Johnson. He added that applicants for the course in mechanics may register at the school farm building.

Teachers Strike For Increase In Salary

PITTSBURGH, Feb. 10, (AP)—Public school teachers in Rankin, demanding a salary increase, embarked on a sit-down strike Tuesday and prevailed over several classrooms when the 1800 pupils of the suburb's four schools were subsequently dismissed.

The 50 teachers, declaring they would report daily at their desks but would not teach, ignored a notice from Superintendent Sullivan that "you will not receive pay for days not taught, and you might as well go home."

The pupils, after over their unexpected holiday, cheered Sullivan's request that they go home but report to classrooms in the morning and at noon until a settlement is reached.

Kader Accepted By Meteorology Corps

Raymond Kader, son of Mr. and Mrs. William Kader, has been accepted for meteorology work in the United States Army Air Force and will report to an instruction center March 1.

Young Kader attended Sanford schools and was graduated from Seminole High School. He also attended the University of Florida. His brother, John, is a lieutenant in the Army Air Force.

Vichy Radio Asserts Axis Opens Attack To Forestall Offensive Of Allies

WASHINGTON, Feb. 10, (AP)—Bombing attacks on the Japanese at Naha in the Aleutians were today reported by the Vichy radio which also asserted that the Japanese were launching an offensive from Guadalcanal.

Britain's eighth army was officially reported to have started a new advance into Tunisia today, breaking the protracted lull and the Vichy radio asserted the Axis Tunisian forces had launched an attack against the British, to forestall their offensive.

The first word of the British advance came from General Sir Harold Alexander, British Middle East commander, who told newsmen, "The enemy's forces have been completely eliminated from Egypt, Tunisia, Libya and Tripolitania." He said he expected Nazi Marshal Rommel to pull his forces in behind the March Line, some 65 miles inside Tunisia, but expressed he was confident it could be turned.

This preparation for a knock-out blow at Tunis was accompanied by softening attacks on enemy communications in the Mediterranean war theater by Allied bombers.

General Charles De Gaulle Tuesday characterized the new French government in North Africa as "broad and artificial" and indicated that it is as far as ever from accord with Gen. Henri Giraud on fundamental issues.

Some of his few press conferences. He said he had taken some steps that have taken some freedom in that unfortunate country.

This referred to the announcement by the new regime set up by Giraud that it would abolish Jewish legislation and review the cases of persons imprisoned on political charges. These two points coincide with De Gaulle's policy and their adoption presumably would bring him closer to Giraud.

De Gaulle indicated, however, that the only basis on which complete restoration of the laws of the French Republic in North Africa would be possible would be the complete restoration of the laws of the French Republic in North Africa.

Clothes Rationing Is Not Necessary, Says WPB - OPA

WASHINGTON, Feb. 10, (AP)—War Production Board (WPB) and Office of Price Administration (OPA) officials today said that clothes rationing is not necessary.

"Seeking to halt 'scarce buying' of clothing in some parts of the country, they said in a joint statement that 'WPB has not asked OPA to undertake rationing of clothing and no machinery has been set up for such a program.'"

"Announcement of shoe rationing appears to have stimulated scarce buying in some parts of the country," they said. "Such buying is unnecessary."

"Supplies of wool in the United States are larger by several hundred million pounds than they were when the Japs struck at Pearl Harbor. At the present time there is no shortage of clothing and therefore no need for rationing."

The statement was issued after Brown had obtained reports from OPA regional offices showing "panic buying" in various areas.

The reports showed buying was heavier in some sections than in others but officials refused to make details public.

WPB Plans To Break Production Hindrance

WASHINGTON, Feb. 10, (AP)—The War Production Board today announced a plan to break production bottlenecks in the production of "critical components" — motor valves, boilers, gears, instruments and other products whose shortage is a drag on armament systems.

Orders will be withdrawn from firms having excessive bottlenecks given to plants less equipped. Manpower will be provided to plants which have production capacity but lack labor force.

The Irish potato is believed to have originated in the mountains of western South America.
