HOROSCOPE by BEHNICE BEDE OSOL. ARIES (March 21-April 19): It is today as if the sun were to be ambitious, you depend on for business advice, especially of a speculative nature. Wrong guidance could be very costly.

TAURUS (April 20-May 20): You are willing to pay your dues today, don't expect any great measure of success. You'll have to really go at it with tooth and nail.

GEMINI (May 21-June 20): There's a strong possibility today that what you say may be misinterpreted. Think twice before you open your mouth.

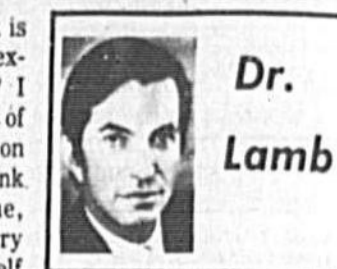

CANCER (June 21-July 21): Losses could offset your gains today. Keep your wits about you where things of value are concerned.

LIBRA (Sept. 23-Oct. 23): Today, you lack your usual tolerant nature. Don't be too pushy. Pals won't appreciate your attitude.

SPIDER-MAN comic strip by Stan Lee and John Romita. Panel 1: 'I CAN GUESS THE REAL REASON JOHAN JAMMONS WANTED DR. AMERICA TO COME TO AMERICA.' Panel 2: 'HE THINKS DOOM CAN DO WHAT J.J.'S OWN NEWSPAPER WANTS TO DO.' Panel 3: 'BUT IF HE THINKS I'M A PROBLEM, WAIT'LL HE TRY TO DEAL WITH DOOM!' Panel 4: 'HI, PRETTY GIRL! HOW ABOUT TELLING YOUR BIRD-BRAINED BOSS THAT HIS FAVORITE WEB-SWINGING WONDER IS HERE?'

Motion Sickness Related To Ear

DEAR DR. LAMB—What is happening to me while the vehicle is in motion? I experienced motion sickness on a sailboat and a bus ride that was extremely fast, on a winding and hilly road. Could I have helped myself in another way? I am not nervous about any vehicles—including jets.

Dr. Lamb

Puerto Rico Statehood Hailed Here

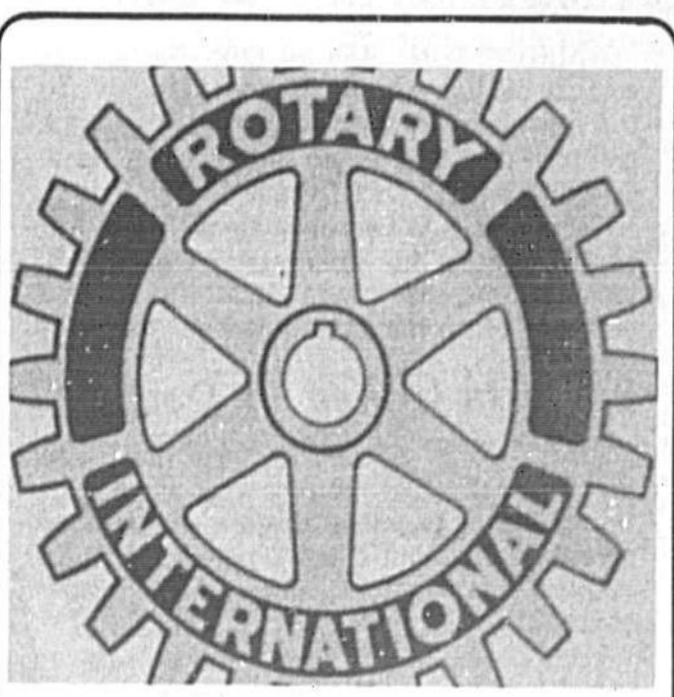

Congress' reception to President Ford's eleventh hour request for Puerto Rico statehood may be cool, but the growing colony of Puerto Rico an expatriates here is elated. They were so enthusiastic that they contacted Rep. Richard Kelly's office with a list of names favoring statehood and asked for his support of a statehood bill.

# NATION IN BRIEF

## Carter Sounding Congress On Idea Of 1-Shot Tax Rebate

PLAINS, Ga. (AP) — President-elect Carter, talking for the first time about possible early action on a permanent tax cut, is meeting with key congressional Democrats to see if they might favor a one-shot tax rebate to boost the economy.

Thirteen leaders of the Democratic majority were to meet here today with Carter and his economic team in an effort to hammer out a joint program to stimulate an economy that Carter and his advisers feel is far from robust.

## Chip Carter To Join Father

WASHINGTON (AP) — Chip Carter has sold the old house trailer down in Georgia and is living in the big city waiting for the day he and his father move into the big white mansion on Pennsylvania Avenue.

Chip, the son of President-elect Carter, will be working for his father after the Jan. 20 inauguration. But, says a Carter spokesman, he won't be on the government payroll.

## Bacteria Linked To Deaths

AMES, Iowa (AP) — Bacteria that cause disease in turkeys and parrots have been linked to Legionnaires' disease, the still unsolved ailment that killed 29 persons in Philadelphia last summer, government researchers said.

Tests on the blood serum of three patients out of four and a pathologist who became ill while studying victims' tissue samples showed antibodies that fight against bacteria called chlamydiae, the researchers said Thursday.

## Longest Jury Almost Complete

ASPEN, Colo. (AP) — Claudine Longet, who cried when the only prospective juror with "compassion" for her was rejected because of his concern for the singer's children, is about to face the final jury panel in the shooting death trial of her lover. With just one more juror to be approved, State District Court Judge George Lohr was expected to swear in 12 jurors and two alternates today. He said opening arguments and testimony would begin Monday morning.

## Female Killer Ordered Freed

PHILADELPHIA (AP) — Psychiatrists have recommended the release of a woman who was committed to a mental hospital 17 months ago for killing a pregnant woman and cutting out her baby. Winifred Ransom, 38, who admitted at her trial that she shot and bludgeoned the woman and removed the baby with a butcher knife, is no longer insane, doctors at Byberry State Hospital said. Mrs. Ransom had been acquitted on the grounds of insanity.

# WORLD IN BRIEF

## Heiress Assaulted During Jamaica Robbery

KINGSTON, Jamaica (AP) — Police are hunting four gunmen who broke into the home of Lady Sarah Spencer-Churchill, assaulted the 55-year-old Vanderbilt heiress and shot two people during a robbery rampage in a wealthy Montego Bay suburb.

The London Daily Mail said Lady Sarah, a distant cousin of the late Sir Winston Churchill and a sister of the present Duke of Marlborough, reported in a telephone interview that one of the gunmen "picked me up and slung me over his shoulder and took me down to the maid's room and assaulted me. There was nothing I could do. He held a knife to my throat, and if I had struggled he would have killed me."

## Premier Soares Urges Thrift

LISBON, Portugal (AP) — Portugal could become "a South American republic" dependent on the United States unless its people buy less and work harder, Premier Mario Soares said today.

# Welcome to our world Joe Thomas Peckinpaugh Jr.

## Seminole County's 1st Baby 1977 Contest Winner.

Joe Thomas Jr. is the son of Mr. and Mrs. Joe T. Peckinpaugh. He was born at 4:58 p.m. Tues., Jan. 2, 1977 in Seminole Memorial Hospital.

Joe Jr. weighed in at 8 lbs. 8½ oz. and his mother says "he's a good kid." Waiting at home, 513 Edgemon, Winter Springs, to welcome their brother are William, ten; Jane, eight; and Melanie, two. Local and county merchants have many fine welcoming gifts for Joe Jr. and his parents, brothers and sisters. Happy life Joe Thomas Jr.!

Little Joe Thomas, his parents, brother and sisters will receive gifts from 10 gallons gasoline for Dad's car to three boxes newborn Pampers, a baby book, a pizza for the whole family, two bank accounts, two surprise gifts. Joe Thomas's first pair of shoes, a money bank, a picture frame, theatre tickets for the family, a grocery gift certificate. A fine way to be and five days free child care! A fine way to be welcomed to our world and our local and county merchants have made this grand welcome all possible. The Joe Thomas Peckinpaugh family has already expressed their gratitude to the Seminole County's First Baby of 1977 Contest sponsoring merchants.

# FLORIDA IN BRIEF

## Union Chief Threatens To Spread Hotel Strike

MIAMI (AP) — An international union president oversteering a strike against eight Miami-area hotels says action to spread the strike will be taken today unless he gets a "reasonable" offer from hotel owners.

"The union is not beaten. The union is not in a position of weakness," Edward T. Hanley, president of the Hotel and Restaurant Employees and Bartenders International Union, told 184 pickets outside the Sheraton Four Ambassadors Hotel.

## Teacher Praised For Courage

TALLAHASSEE (AP) — Spanish teacher Joanne Campbell says she stayed calm while three federal prisoners threatened her with makeshift knives because "it never helps to get frantic."

Prison officials praised Ms. Campbell for her composure, saying she helped to keep a bad situation from getting worse.

The high school teacher and two male instructors were seized by the armed inmates in a vain attempt to escape Wednesday night from the Federal Correctional Institution.

## 40 Farmworkers Arrested

LABELLE (AP) — A dispute over wages has led to the arrest of 40 farm laborers, a migrant organizer and an attorney for the migrants, according to Hendry County Sheriff's deputies.

Deputies said farm laborers were ordered off a farm Thursday morning after they asked for higher wages and were arrested for trespassing when they returned in the afternoon.

## FP&L Seeks Reversal

TALLAHASSEE (AP) — In a sharply worded petition, Florida Power & Light Co. has asked the state Supreme Court to reverse its decision ordering the firm to refund about \$12 million to customers.

FP&L said in the motion Thursday that the court's order was based on wrong interpretations of utility regulation laws and would set dangerous precedents for the future.

# No Tuition Hike... ..Only \$30 Million

TALLAHASSEE (AP) — It's not official yet, but state university students probably will not be socked with another increase in tuition and fees this year.

Chancellor E.T. York announced that he will not seek an increase in tuition and fees. His recommendation should carry considerable weight with the Board of Regents and legislature, which make the final decision on fee hikes.

York said student fees have been increased substantially over the past three years and are now the second highest among public universities in the South.

"We are concerned that the relatively high fees being charged

Florida students are depriving many students of the opportunity for a college education," he said.

"The impact is even greater when you consider there has been during the past year a substantial decline in financial aid for many students."

He said his office will recommend no change in fees and tuition to the regents at a Feb. 7 meeting in Orlando.

In the fee schedule, freshmen and sophomores are charged \$15 per credit hour; juniors and seniors, \$16.50; graduates, \$22; and advanced students pay an additional \$23 an hour at the lower level, \$35 at the upper level and \$40 at the graduate level.

GAINESVILLE (AP) — A spokesman for United Faculty of Florida (UFF) says salary demands for teachers at the nine state universities would cost only half the \$60 million estimated by the state negotiator.

Ken Megill, representing UFF in negotiations, said that union data projected cost of the salary demands at \$30 million.

He also provided figures indicating that Florida professors rank in the bottom 20 per cent of pay at institutions that grant Ph.D. degrees.

State negotiator Cesar Naples, who earlier called UFF salary demands unreasonable and excessive, noted Megill's figures.

"Our job in management is not to walk away with the lowest possible salaries but to assure that our salaries are competitive with other institutions," he said.

The talks resumed today in Tallahassee, second stop in a series of meetings to be held at each university city.

Naples has not made a counter-offer to UFF salary demands presented in October.

Megill reminded Naples that University Chancellor E.T. York said last year it would take a 22 per cent increase to bring faculty salaries up to the 1972-73 level.

"We want salaries and fringe benefits to bring us up to 1977-78 levels," Megill said. "In that context, what we ask for is reasonable."

# County Legislators: Leave 436 As Is

By DONNA ESTES  
Herald Staff Writer

Seminole County's Legislative delegation is going directly to state Department of Transportation (DOT) officers in Tallahassee next week to stop the allocation of \$13 million for the reurfacing of SR 436 and the elimination of medians to expand the roadway.

The delegation agreed to take the action after Altamonte Springs Mayor Norman Floyd and Clyde Rice, past president of the Altamonte-Casselberry Chamber of Commerce told the legislators Thursday that the Center Street connecting Interstate 4 with Palm Springs Road, Crane's Root Boulevard and Montgomery Road.

Floyd said the lateral road would take at least 10,000 cars daily off SR 436 and would permit traffic to proceed either north to SR 434 or south to SR 434.

Both men instead favored reallocation of the money to build an east-west arterial carrier north of 436 at about Center Street.

Let's not put a bandaid on a wound that requires 15 or 16 stitches," Rice said, while Floyd insisted that the expenditure would only make a big parking lot of the highway, giving more space for cars to sit.

The Altamonte Springs mayor said most of the right way needed has been committed and that this solution should be undertaken now rather than 20 years down the road.

Floyd urged that the delegation support the effort of Altamonte Springs civic, business and governmental leaders to have the solution established as a priority program with the DOT. He said the leaders would go to the regional DOT office in Deland first and ultimately to Tallahassee.

Senator Wilson, however, branded a trip to the Deland regional DOT office a waste of time. "If the project (resurfacing and eliminating medians) is on paper and if we are going to move the bureaucrats, we have to go to the top," she said. She added that district DOT engineer, Bill Benedict, might be invited to attend the Tallahassee meeting.

Floyd said that currently the city's emergency vehicles — 68 between Interstate 4 and Maitland Avenue during the past year.

The \$13 million, currently in the DOT budget, calls for six-way and use the median strips often as roadways.

Maitland Avenue by eliminating on-street parking vehicles daily travel that highway, he said there have been 65 accidents on SR 436 between Interstate 4 and Maitland Avenue during the past year.

The \$13 million, currently in the DOT budget, calls for six-way and use the median strips often as roadways.

Maitland Avenue by eliminating on-street parking vehicles daily travel that highway, he said there have been 65 accidents on SR 436 between Interstate 4 and Maitland Avenue during the past year.

# An open letter to the 95th Congress and the new Administration:

An urgent need, which you are being asked to address, is the assurance of adequate energy sources for this nation at reasonable prices. The decisions you make in this regard in the next few months will have a profound and lasting effect for years to come.

We urge you to take positive and immediate steps to make this country less dependent on foreign oil and to reduce the inflationary pressures on primary energy resources so that consumers will be protected.

We are particularly concerned about the ever increasing cost of oil and its consequent effect on our customers. This country, and particularly Florida, has and will continue to have a growing need for electric power. If we are to meet this need in a manner consistent with our philosophy of the lowest practical cost to our customer, then some prompt and definite action is required at the national level.

We urge you to do these things:

- Propose and enact a sensible and effective energy policy that will protect the country from excessive reliance on fuel imports, and at the same time provide necessary and orderly growth with minimal inflation.
- Enact legislation that will permit the development of our most abundant domestic energy resources—coal, uranium, oil shale, solar, etc.
- Fund continued research in the development of alternate domestic energy sources.
- Eliminate the oil import fees which cost customer dollars which, at the present time, serve no useful purpose.
- Facilitate the use of nuclear power for electricity generation.
- Provide environmental laws and regulations that give balanced recognition to the nation's need for an ample energy supply.
- Amend current regulatory procedures to be responsive to the national interest regarding energy requirements.

The need is now.

## Israel Needs Strong Leader

Surveying the gloomy internal political problems in Israel, an astute observer commented recently that the situation resembled the leadership quandary of France during the Algerian crisis, but that there is no Charles de Gaulle in sight.

Prime Minister Yitzhak Rabin's abrupt resignation underscores the wisdom of the observation. Mr. Rabin, a brilliant and effective ambassador to the United States, has proved to be a failure as prime minister. And there is no Chaim Weizman, David Ben-Gurion or Golda Meir in sight.

Israel desperately needs a statesman on the order of these giants. She has had a comfortable time for more than a year and a half as the Lebanese crisis sapped the energies of the Arabs, while the presidential political season in the United States reinforced American support for the Jewish state.

The euphoria ended even before the resignation of Mr. Rabin. The truce in Lebanon still is fragile, but there is no doubt that the Arabs are mending their fences and soon will turn their full attention to Israel.

For example, Syria and Egypt have announced a joint political command that is intended to unite the two countries in stages. In the meantime, Palestinians friendly to Syria said they will join peacekeeping forces in Lebanon. Other Palestinians are refusing to turn their heavy weapons that can be used again to harass Israel.

Adding to the problems was the warning by Saudi Arabian Sheikh Ahmed Zaki Yamani that he expected the West, and particularly the United States, to show "appreciation" for Saudi Arabia's decision to hold oil prices down to 5 per cent. American failure to move ahead on Middle East talks, among other things, could lead Saudi Arabia to reconsider, he added.

Americans resent threats. Standing by itself, Sheikh Yamani's dangling of the carrot could be counter-productive. However, the general West European capitulation to the oil embargo in 1973 and the weak economies of such nations as England and Italy could bring much pressure against the United States from our allies.

Finally, in the United States, the chief sponsor of Israel, President Ford, was forced to recommend that Israel's request for aid be trimmed by some \$500 million next year. The same budget realities press in on President-elect Jimmy Carter, who has promised to cut the U.S. defense budget by \$5 to \$7 billion.

A realist, Premier Rabin realized that the lull in Israel's external problems is over. Given his choice, he probably would rather have remained in office until the November elections. But knowing that he would face a vote of no confidence — a mandate to resign — he accepted the inevitable.

He also may have realized that it is better for Israel to get its political crisis out of the way now — before the Carter administration has settled into a Middle East policy. A political flare-up during a Geneva conference on the Middle East, or during other negotiations, would have been much more harmful.

Still, one keeps looking for a Ben-Gurion on the horizon.

## Nervous Neighbors

As the new administration prepares to settle into Washington, it is understandable that there should be some concern over the reception members will receive from their global neighbors.

President-elect Carter and his designated secretary of state, Cyrus Vance, already are aware of the potential mischief from the volatile Middle East, stubborn Moscow and some of the ne'er-do-wells of Europe.

But the most likely source of trouble, perhaps, is just across the south fence in Latin America, where sensitive residents feel they have been treated shabbily by a series of capital tenants.

Previous administrations have meant well, pledging to bridge long-standing barriers to mutual understanding. Performance, however, has seldom lived up to promises.

The new man in the White House will be extended little time to send out signals of friendship. The first test will be the delicate negotiations with Panama over control of the Panama Canal Zone.

The president-elect and his official family can be excused if they were cautiously approaching their Latin American neighbors, but Latin America can no longer be ignored.

IRS Commissioner Donald Alexander told his agency was looking into serious criminal charges against 50 major corporations. Among them, we have learned, are such giant firms as General Tire and Rubber, Gulf Oil, McDonnell Douglas, Phillips Petroleum, Revlon, Schlitz Brewing and the 3M Company.

Evidence of fraudulent activities by these corporations was uncovered, Alexander said, by his "large case audit program." Under this program, the IRS automatically audits the nations' 1,200 corporations which have assets of more than \$50 million each.

Our IRS sources contend, however, that the tax agency should be catching even more corporate tax evaders. One source estimated there could be 200, maybe more, additional corporations filing phony tax returns.

In fact, the IRS auditors may not deserve all the credit for catching the 50 corporations under investigation. One case involving the Fruehauf Trailer Company, according to Rep. Charles

## Around

### The Clock

By JOSEPH D. VAN BRACKLE

As the economy begins to perk again and long-range plans move to front burners, let's explore a possible threat which could make the whole "new economy" words only and fizzle faster than a punctured balloon.

Our government (remember those are the guys we pay to help us run the country) wants to explore a tax rebate. Those against such an idea say we are not "personal income poor," that the economy is "beginning to jump a little" that as the new president takes over, confidence in him will "make things better." "Maybe they're right and maybe they're not... we won't know until time passes..."

Which is one thing hard to tolerate now while employment is down, expenses kept minimal, and most merchants latch onto a "wait-and-see" philosophy. The longer the wait... the longer it will take to improve our present life.

Here in Florida encourages "if anything, a one-shot rebate encourages purchases of appliances, TV's, etc., while delaying personal investment in real estate which Florida needs most."

We hear that same cry in other areas of the country as well... because so much of today's economy is geared toward land investments with the resulting benefit of deferred taxes, write-offs, etc., which mean more profits for those practicing the game. Hurrah!

Banks and savings and loan associations are for the practice because in that way the savings dollar you entrusted to them is, in turn, invested in land, construction, and they can earn enough profit to pay you the interest you want for savings with them.

But, wait a minute! Didn't someone put the cart before the horse? Sure the principal is sound. In the "good old days" our hard-earned savings went into a local institution which in turn loaned it back out to THE COMMUNITY for home construction. If enough of us saved, then some of us could build. The idea was so good that savings and loans became the answer to home ownership for millions in this country. The key words here are "back in the community."

Plumbers, electricians, carpenters... workers of all sorts had jobs. Merchants of appliances, carpets, lumber, nails, etc., made sales locally. Business was good, wages were good, and more money was spent on clothing, stores, shoe shops, department stores, restaurants, you name it. Things were going pretty well.

Then someone pulled the stopper out, interest rates went sky high, and the "source" drained of its local users, had to switch money loaning to big business elsewhere.

You know what happened. The local circle was abolished. When the cash left so did sales and jobs. Give us a cash rebate, let us go out and spend money again, let the merchant grow (he's supplying the jobs) give us back some of the former rosy picture again, and all of us, growing together, can make our economy sound again.

## DON OAKLEY Wiring The Future For Video

Even as the debate continues over the pervasive influence of television in our daily lives, we are moving into an age where the one-eyed monster will truly be man's servant.

The spectacular popularity of electronic games, that use the television set — like ping pong and hockey, in which people are active participants rather than passive viewers — is only a hint of things to come.

Cable television, which is steadily growing in usage and sophistication, may be the wave of the future.

Currently being tested in Tokyo is a cable system that ultimately could provide every household in Japan with a variety of two-way services. The system utilizes the new technology of fiber optics, by which information is transmitted via light beams through hair-thin glass filaments.

With a central computer providing the necessary controls, test subscribers can use special equipment installed in their homes to interact with the system in a number of ways. Some examples:

Request entertainment. By tapping out the proper code on a keyboard, the subscriber activates the computer's video information unit, which switches the designated program into automatic transmission.

Request data. This is transmitted to the subscriber in still-picture form at his option, and includes all types of specialized information, such as news, stock market reports, time, weather and other announcements of interest.

Facsimile. If the subscriber wishes, hard copies of video information can be printed out, including a home "newspaper."

Computer-assisted instruction. Questions and assignments appear on the screen of the home TV receiver. Students respond on the keyboard and their answers are evaluated by the computer, which regulates the program in accordance with the capability demonstrated by each individual. Typical courses are mathematics, Japanese and foreign languages, chemistry and vocational training.

Castless transactions. Store and restaurant bills, rent and utility charges can be paid through the system, with deductions made automatically from the account of the subscriber.

Shopping and reservations. Goods appear on the TV screen, together with prices. The subscriber can order by means of keyboard input, or make theater, restaurant and travel reservations the same way. Again, payment is made automatically from bank accounts.

Burglar and fire alarms. Detectors are installed in each home so that the central computer can sense any abnormality, such as intrusions or excessive heat or smoke. Alarms can be retransmitted to police and fire stations and instructions relayed to the households on emergency measures to be taken while safety units are on the way.

Even as the debate continues over the pervasive influence of television in our daily lives, we are moving into an age where the one-eyed monster will truly be man's servant.

The spectacular popularity of electronic games, that use the television set — like ping pong and hockey, in which people are active participants rather than passive viewers — is only a hint of things to come.

Cable television, which is steadily growing in usage and sophistication, may be the wave of the future.

Currently being tested in Tokyo is a cable system that ultimately could provide every household in Japan with a variety of two-way services. The system utilizes the new technology of fiber optics, by which information is transmitted via light beams through hair-thin glass filaments.

## RAY CROMLEY Mondale A Smooth Operator

WASHINGTON (INMA) — It may well be that President-elect Jimmy Carter has found the ideal spot for Walter Mondale: the inner sanctum of the White House.

By all the evidence, the new vice president is an "inside" man. He likes working behind the scenes where the levers are, in a post which guarantees him personal credit and publicity when he desires it, but free of public knock-down fights over policy.

As "chief staff person," Mondale will be able to shuttle tough problems gracefully to others, and wait to determine which issues are popular before going out on a limb with his stamp of approval.

And he will have the forceful President Carter as his shield so long as he keeps one step to the side and out of the rear of him. This Mondale does to Mr. Carter's satisfaction. The president-elect has made it clear, publicly and privately, that he considers Mondale as rival — and no threat which he must certainly not win.

Mondale will take pains to alienate no one in the White House or in the Congress. He will come forward at 1000 Pennsylvania Avenue, as he did in Capitol Hill, as the sponsor, publicly giving the side and out of the rear of him. This Mondale does to Mr. Carter's satisfaction. The president-elect has made it clear, publicly and privately, that he considers Mondale as rival — and no threat which he must certainly not win.

Even as the debate continues over the pervasive influence of television in our daily lives, we are moving into an age where the one-eyed monster will truly be man's servant.

The spectacular popularity of electronic games, that use the television set — like ping pong and hockey, in which people are active participants rather than passive viewers — is only a hint of things to come.

Cable television, which is steadily growing in usage and sophistication, may be the wave of the future.

Currently being tested in Tokyo is a cable system that ultimately could provide every household in Japan with a variety of two-way services. The system utilizes the new technology of fiber optics, by which information is transmitted via light beams through hair-thin glass filaments.

Facsimile. If the subscriber wishes, hard copies of video information can be printed out, including a home "newspaper."

# Never Mind Trenches, Watch Super Fly Patterns

LOS ANGELES (AP) — Super Bowl XLIII will be as much a territorial battle in the secondary as it is in the face-to-face pit of the scrimmage line.

"When I'm out there, I feel that the field is mine," says Minnesota wide receiver Ahmad Rashad.

"My job is a positive one, to catch a football. The other guy's is a negative one, to keep me from catching it," says Oakland wide receiver Cliff Branch.

"When someone catches a pass in my area, it is an embarrassment to me. And I do not like to be embarrassed," says Minnesota cornerback Nate Wright.

"I can make the man I'm covering think about me for just an instant and break his concentration, half the battle is won," says Oakland safety George Atkinson.

It is, to understate the matter, going to be one heck of a battle out there on Sunday in the fly patterns, the crossing routes, the zone seams of Super Bowl XI.

When the quarterbacks — Fran Tarkenton of the Vikings and Ken Stabler of the Raiders — stop their "hut-hut" chatter at the line and the ball is snapped, the taunting begins in those far-away regions where receivers and defenders try to outguess, outpsyche and outrum each other.

"Oh, yeah, there's an awful lot of talk going on out there," says Branch, an All-Pro wide receiver rated as Oakland's big-play game. "The defensive backs are trying to intimidate you, to get inside your head. If they can do that, they can make you lose up your route or break stride or miss a step or look like you or something. I can remember hearing guys shouting things like, 'You better not turn your back on me or you're gonna get hurt, or Here I come, baby!'"

Fortunately for Branch, he has roomed for the past several years with Atkinson, the master of intimidation, and has learned the art of the counterattack.

"The best thing you can do, except maybe for ignoring the guy altogether, is to give it back to him, to try to get inside his head and mess him up," Branch says.

"For example, if a guy's been giving it to me about how he's gonna get to me, I might yell back, 'Don't you blink, man, or I'm by you. I'm in the end zone. I'm gone...'"

Atkinson is nothing like the cutthroat, the intense, angry man he is pictured as being. He may seem to have that killer

instinct on the field — "let's just say I'm very aggressive" — but off it he is extraordinarily easygoing. He has an infectious laugh and a perpetual twinkle in eyes sitting behind violet-colored glasses. "I'm a very compassionate fellow."

And what is it that Atkinson says to the enemy receivers which has them quaking in their sneakers and sneaking looks behind them as they charge onto his turf?

"Oh, I ask them about the best dishes in town," he laughs.

Rashad doesn't sound like the type to give ground just because the other guy's talking up a storm. "Atkinson is a good friend of mine," says the Vikings' pass catcher. "I know him off the field. He plays a rough style. But let's face it. Football is rough. You can't let it get to you. I look forward to a nice, rough, tough game."

Sammy White, the Vikings' other star wide receiver, looks forward to "a pretty good day if I'm able to go one-on-one with anybody. I'm not worried about any of their guys giving me a cheap shot. We can't worry about these things."

Oakland's No. 1 receiver this year was tight end Dave Casper. He doesn't seem to be part of the high-powered offensive crew.

"Now, I don't listen to them, I don't talk back to them. I just go out there and try to catch passes off them," he says. "The only other thing I might do out there, when they're chattering away, is maybe to laugh at them... at what they're saying, that is."

## Senior Bowl Set Saturday

MOBILE, Ala. (AP) — College football standouts, most of them hoping for professional careers, play for cash instead of campus glory for the first time Saturday in the 28th annual Senior Bowl football game.

The North-South matchup looms as a showcase for the pro football industry of South Georgia, the site of the weeklong quarterback Tommy Kramer of Rice and the strong, quick legs of a stable of North running backs.

Five All-American first teamers will be on the line. There's something in it for the less celebrated, too. The nationally televised (NBC) contest provides a chance to demonstrate skills before professional observers. Kickoff is at noon CST at Ladd Stadium.

Already some 200 representatives of pro football teams, including 15 head coaches, have been around Senior Bowl practice sessions to check out the prospective pro talent.

For the players forging a pro future, there's sizeable money riding on the outcome. The Senior Bowl pays winners \$1,500 and losers \$1,250. A free automobile goes to the most valuable player, and four awards of \$2,500 go to outstanding defensive and offensive stars.

NFL Coach of the Year Forrest Gregg of the Cleveland Browns is at the helm of the North squad, which features running backs Pete Johnson of Ohio State, Wendell Tyler of UCLA and Laverne Smith of Kansas as well as All-American John Yarno of Idaho.

Miami Dolphins Coach Don Strock holds the reins of the South.

About 100,000 fans are expected for the game at the Rose Bowl.

About 75 million more — from Japan to Turkey — will watch on television.

"It's Super Bowl fever at its highest pitch," said Huggs.

The National Football League expects to gross \$5.3 million from broadcast revenue and ticket sales, but that is before expenses, which are considerable.

## Super Fever

PASADENA, Calif. (AP) — It may only be a game, but Super Bowl XIII is a serious business effort for the field — \$105 million worth of promoters say.

The trappings of the Minnesota-Oakland pro football championship, the conquest of the cocktail parties, the endless string of press conferences, are straight out of Hitting Bros., Barnum and Bailey and Ringling Bros.

The most impressive numbers are neither the passing statistics of Raiders quarterback Ken Stabler nor the rushing totals of Vikings running back Chuck Foreman.

"We estimate a total economic impact — using a multiplier of five — of between \$65 million and \$105 million," said Chris Hill, an official with the Los Angeles Convention and Visitors Bureau.

More than 100,000 fans are expected for the game at the Rose Bowl.

About 75 million more — from Japan to Turkey — will watch on television.

"It's Super Bowl fever at its highest pitch," said Huggs.

The National Football League expects to gross \$5.3 million from broadcast revenue and ticket sales, but that is before expenses, which are considerable.

Members of the Seminole Community College golf team, preparing for the Carmen Rosamonda, Steve Criggs and Wade Bots; Second row, coach Hank Sanderson, Bennie Smithers, Jim Howe, Bob Pike, Will Sims, Frank Ramey and Bill Braaten. Vic Richburg is not pictured.

## Baseball Draft Looking Bleak

NEW YORK (AP) — The winter free-agent draft, protected by baseball's peculiar immunity from antitrust laws, begins Tuesday, with the prospect of the clubs finding good prospects very bleak.

This is the worst January draft in its history since the Detroit Tigers' minor league system, slugging 19 home runs and knocking in 81 runs in 125 games.

Still, players will be drafted on the first round and beyond because major league teams often are optimistic and need players to fill their minor league rosters.

Weak draft or strong draft, it is a fair question to ask whether there should be any draft at all.

A federal court has ruled that the football draft is in violation of the antitrust laws because it severely restricts a player's free-market potential.

Baseball's stocking system would be treated the same way if upheld by the Supreme Court decision that gave the national pasture immunity from the antitrust laws.

The Supreme Court has been given a couple of opportunities to change its mind, each time standing on precedent and saying "if Congress thinks our decision was wrong, Congress can change it."

Congress has not acted, and the exemption stands.

The draft will be held at the commissioner's office.

The Montreal Expos, by virtue of having the worst record in baseball in 1976, have the first pick in the regular phase.

## Shad Derby Opens Sunday

Everyone's buzzing about the Shad Derby which kicks off Sunday. A great deal of time and effort has been invested to make the fishing more enjoyable. Camps and tackle shops have geared up to meet the needs of anyone who cares to try his or her luck.

If you're one of the unfortunate people who has never had the opportunity to latch onto a shad, then make every effort to do so.

The four-hour-long shad on an ultralite fishing outfit will make even a hunker-down angler a little better off than he was at the penstock from the moment you hook the little critter until brought to net.

The really pleasant aspect of shad fishing is that anyone, including the children, can get in on the action. The best method is to troll with a spoon and jig combination, eliminating the need for costly fishing license is required for a shad.

Plenty of sponsors from Sanford and surrounding communities will insure a variety of prizes for nine continuous weeks. The prizes will be awarded each week to the top fish in each category with a gift certificate from the various participating sponsors.

Any business or individual interested in participating may contact The Chamber of Commerce.

Lemon Bluff camp indicates a strongly early run has already started with reports that past Sunday up to 17 with nine roach.

I had the opportunity to attend a meeting this last week with a group of concerned citizens in the DeLand area who have formed the United Sport Fishermen of Florida, Inc.

It is a state-chartered and incorporated nonprofit organization that formed to protect our fish and wildlife throughout Florida.

All of the officers and board members hold nonpaying positions and are contributing their time in an effort to accomplish the following seven programs: STOP: The illegal taking of game fish; STOP: the wasting of our waters; STOP: the pollution of our waters; HELP: we want more fish and game authority on our waters; HELP: revert our waters back to their normal flow; HELP: a sensible system of hyacinth control.

## Outdoors

By HERKY HUFFMAN

The organization has 118 paid members to date and has set their goal at 100,000. They intend to have outdoor areas for recreational activities as well as educational programs to inform the public on matters relating to our fish and wildlife problems and accomplishments.

Anyone who wants additional information or wishes to join, dues are \$5 a year, can write to United Sports Fishermen of Florida, Inc. at Post Office Box 43, DeLand, or call Colon George at 284-0793.

Bill Von Schrittl had another good outing in Lake Monroe catching and releasing 17 bass up to seven pounds. Last week he hauled in 13 bass, again using a Rabble Rouser top-water lure and Yum Yum worms.

Tom Newsome who fished at the Marina in Sanford nearly weekly finally got tired of the wind blowing his hat off and traveled to one of the numerous lakes in the Deltona area to bring in a respectable string of 37 specks.

Doug Grannick and Eddie Wyatt of Sanford fished the river near Highbanks and had a nice catch of four bass up to six pounds using Mann's six inch grape worm.

Striped bass are being caught from Lake Monroe almost daily. T. M. Barrow of Orlando weighed in a nice three and one-quarter pounder this last week. Ron Blume, David Asel and Doyle Crews, all from Sanford, weighed in specks up to one pound.

## Fort Prevel Preakness Pick In Tropical Derby

MIAMI (AP) — Fort Prevel will try to overcome a handicap as much as nine pounds Saturday in the \$53,000 Tropical Derby, the nation's first stakes test for the 1977 crop of 3-year-old thoroughbreds.

Officials assigned Fort Prevel 121 pounds Thursday for the 1-16 mile turf test — three more pounds than My Budget and nine more than the rest of the 12-horse field.

Fort Prevel is entered as an entry with Pere Gordon, both sons of Jareh's son owned by J.L. Levesque. Pere Gordon drew the No. 1 post position with Fort Prevel in the seventh position.

As winner of the James H. Bright Handicap and McKnight Futurity last November, Fort Prevel stands as the only multiple stakes winner in the field. In his last start, on Dec. 11, he finished second in his final seven furlong test.

Fort Prevel will be making only his second start on a grass course while Pere Gordon has been in six grass events, capturing three and finishing second three times.

In the Critterum States last October, Pere Gordon was second and Fort Prevel third to Champion Du Nord.

Other challengers for the \$5,800 first prize are expected to be Sunny Collins, Smashing Native, Kentucky Frenchman and Michael's Charge.

Sunny Collins, a son of T.V. Lark owned by Zeston Madden, was second to Kentucky Frenchman by a half length in his last start, a 1 1/8 mile allowance race on Dec. 17. Sunny Collins, ridden by Mickey Solomons, has only four lifetime starts. His last victory came in his final seven furlong test.

Smashing Native, a son of Exclusion Native and ridden by Octavio Gutierrez, is owned by M.E. Sigler. He had two firsts, three seconds and two thirds in 10 starts last year. He was on the pace and ended second in the City of Miami Handicap, his first attempt at 1-1/8 mile.

Fort Lauderdale

**Team 'Strikers'**

FORT LAUDERDALE (AP) — Fort Lauderdale's North American Soccer League team will be called the Strikers.

Team officials announced the name change Thursday. The team played in Miami as the Toros through last season, but moved here in hopes of boosting attendance. The Strikers' 13-game home season begins in April.

# Drag Boat Racing Soon To Be Only For The Rich Kids

CARSON CITY, Nev. (AP) — If you're thinking of getting into drag boat racing — flying across water at speeds of 150 miles an hour or more — you'd better hurry. The fast-growing sport is getting so costly that soon only the "rich kids" will make it to the winner's circle.

Association record of 156.25 miles per hour over a quarter mile course for "blown gas" hydroplaners.

Phillips, 36, hauls his sleek, 14-foot-long craft, powered by a supercharged engine which develops about 1,200 horsepower, to waterways 200 miles away or more from this area.

He's a mechanic, so he helps build and maintain his engines.

But Phillips says he depends on a sponsor, Arnold Andreotti of Colusa, Calif., to do much of the engine-building and help pay the \$25,000 to \$30,000 yearly it takes to stay on top.

Besides the big expense, the sport is hazardous. Boats can bounce aside, flip and disintegrate at high speeds. "We lose two or three guys every year," says Phillips. "Maybe another dozen or so get a broken leg. We were lucky this year, we only lost one guy."

But drag boat racing "is a lot more thrilling and exciting to me than racing cars," says Phillips. So far, he has never been injured.

Phillips used to race cars, but he stopped "when the big boys started coming in with seemingly unlimited financial resources."

But now, drag boat racing —

a sport only about 10 years old — costs a minimum of \$10,000 for used equipment and about \$20,000 for a new boat and engine. "And it's getting worse every year," he says.

"It's turning into a rich kid's sport. Some guys have enough to pay \$10,000 just for an engine and they'll buy the rest."

There are only about 250 top drag boat racers around the country, most of them on the

West Coast, he says. And there are racial categories faster than his "blown gas" division. That's considered the third fastest category.

Costs are double or more for the racers in the top class — the blown fuel boats — which can cover a quarter mile stretch of water at speeds of more than 200 m.p.h.

But Phillips isn't thinking about moving up to a higher category. He won six of the 13 races he entered this year, and held onto his record set in 1975. But he won only \$400 to \$500 per race — and that doesn't even cover expenses."

He adds, "I think I'll stay with it one more year. But even if I don't win enough money to be in it — compared to what it costs to stay in. You have to draw the line somewhere."

### 66 Tops Phoenix Field

## Regalado Putts To Top

PHOENIX (AP) — The new clubs didn't work so well. But the old putter did and more than offset the problems caused by a new driver and a new, stronger set of irons as Victor Regalado took a one-stroke lead after the first round of the \$300,000 Phoenix Open, the kickoff tournament on the pro golf tour.

"I'm just going to take my time to get used to the new clubs," the 28-year-old bachelor from Tijuana, Mexico said Thursday.

Regalado opened with a 65 on his way to a five-under-par 185 that staked him to the lead for only the third time in his four-year career.

"I hit it all over the place, just wherever. But my putter saved me."

It did indeed. He took the lead with a 45-foot birdie putt on the 17th hole of the 6,726 yard Phoenix Country Club course. He dropped two others of about 25 feet, one of them for par. He one-upped six of the first seven greens. And he made an eight-foot to save today on the 15th, after hitting it into the bleachers.

Just one stroke back at 67 were U.S. Open champion Jerry Pate, his close friend George Burns and Danny Edwards.

## Jackie Left Off 'Worst Dressed' List

NANCY WALKER

LOS ANGELES (AP)—Louise Lasser, television's "Mary Hartman, Mary Hartman," tops this year's list of worst-dressed women, but Jacqueline Onassis didn't make it because designer Mr. Blackwell says she's "very bored" with her.

Blackwell, issuing his annual list of the world's 10 worst-dressed women Tuesday, said Miss Lasser dresses like a tumbledead that "picks up every little piece of dust."

But he went out of his way to praise Jacqueline First Lady Rosalynn Carter, saying she "dresses very nicely" and has "a nice soft taste."

"She is a fine-looking lady," he added. "If she ever submits to becoming a Seventh Avenue hanger, I'm sorry for her."

Blackwell said he studied the women for the past year and based his selections on clothes they chose to suit their own tastes, not on those worn as costumes for a show.

"It's a whole new crop," he said. "I'm so bored with having said Liz Taylor looks terrible. Who cares now? And

prominently displayed on the list in past years, was dropped this time for the same reason, he said.

Blackwell said he believes the best-dressed woman was former California Gov. Ronald Reagan's wife, Nancy; Mary Tyler Moore and Ann-Margret.

The complete list and Blackwell's comments: 1. Miss Lasser, "last summer's tumbledead, tumbledead." 2. Opera singer Marilyn Nicks. "Carmen dressed like Sadie Thompson." 3. Television star Angie Dickinson, "the policeman that has caught everything but fashion." 4. Singer Charo, "a rumble seat with a padded up front." 5. Dancer Ann Miller, "a 1937 screen test." 6. Holland's Queen Juliana, "all the Queen's horses and all the Queen's men couldn't make Julie look good again." 7. Lee Radziwili, "Did Lee's designer go down with the Titanic?" 8. Country singer Loretta Lynn, "the right dress in the wrong century." 9. Television star Nancy Walker, "vacuum cleaners have better covers." 10. Dinah Shore, "wild again, beguiled again and constantly contrived again."

## WOMEN

Evening Herald, Sanford, FL Friday, Jan. 7, 1977—1B

## Mother, You Talk Too Much'

Dear Abby

DEAR ABBY: I am a 73-year-old woman. I'm well-educated and have been active and gregarious all my life. I have noticed that people have been avoiding me.

Abby, I was as such a shock to me. I didn't realize that I had been talking more than usual, but apparently I had been. Now I am so self-conscious and inhibited, I hesitate to open my mouth in company. I was much happier when I talked too much and wasn't aware of it.

If there is a happy medium, how do one find it?

TALKS TOO MUCH

DEAR TALKS: Start by realizing to talk only when you have something of consequence to say. Then resolve never to interrupt anyone, and don't be hard, hurt, your son did you a kindness.

DEAR ABBY: Will you accept attention for a married man—no matter how lonely, misunderstood, hecked, mistreated, neglected or unhappy he claims to be. I am stupid, cheap, dishonest and shortchanged!"

Dear Abby

DEAR ABBY: I agree. An 8-year-old is too young to be "on her own" for three hours. The days a week if your sister can't find a friendly neighbor to whom Cindy can report after school, a sitter seems the only alternative.

If your sister doesn't agree, you report her to the child services department, don't prepare for a "family fight" but for a full-scale family war.

HELENE

DEAR HELENE: I do. I do. I do. My sister, who is divorced, recently took a full-time job. She has an 8-year-old daughter, Cissy. She refuses to get a babysitter for Cissy, saying the child is old enough to take care of herself for the three hours after school until my sister gets home.

I am really worried about my niece. She is a quiet child and I am concerned about the responsibility this thrusts on her right after losing her father a year ago. My mother has threatened to report the

W. L. Hamilton, worthy patron, and Eva Stephens, worthy matron cut Western Star cake at holiday party.

## Rose Of Sharon, OES Marks Holiday Season

The officers and members of the Rose of Sharon Chapter 134, Order of Eastern Star, held their annual Christmas party Monday at the Sanford Inn.

The decorations included Christmas trees, stockings, and a display of gifts.

Mr. and Mrs. Levi Coleman share a moment of hilarity at OES celebration.

Present was Eva Stephens, worthy matron, who served as supreme chaplain of the Supreme Chapter, Order of Eastern Star, and as secretary to the royal grand matron of the State of Florida and financial secretary of the District Six Matron's Council.

W. L. Hamilton, a 33-degree Mason, is chapter worthy patron. He was recently selected as National Mason of the year for 1976 in a supreme election of the Supreme Council of Grand Lodges of Florida.

Other officers attending were Wilma Coleman, associate matron; Johnnie Pierson, associate patron; Martha Franklin, secretary; Annie O'Neil, treasurer; Shirley Williams, conductress; Florence Long, associate conductress and Arthur Mae Scott, financial secretary.

## Wilber, Massie Exchange Vows

Linda Kay Wilber became the bride of Larry Hines Massie Nov. 26 at 11 a.m. at the First Presbyterian Church, Sanford. Rev. Virgil Bryant officiated at the single ring ceremony. The bride is the daughter of Mr. and Mrs. Richard E. Wilber, Sanford. The bridegroom is the son of Dr. and Mrs. Erby L. Massie, Shalimar.

Given in marriage by her parents, the bride wore a formal length gown of white lace and the fitted bridal sleeves were caught at the wrist with a small spray of lace. The skirt fell softly from the empire waist to a full chapel length train. Her headpiece of a matching lace cap secured clouds of illusion falling softly to her shoulders. She carried a bouquet of straw flowers in fall colors and orange roses.

Kimberly Wilber served her sister as maid of honor in a formal length gown of rust colored jersey featuring a round neckline. She carried a basket of fall straw flowers.

Dr. Massie served his son as best man and Gregory Wilber, brother of the bride, and Keith Madison, brother-in-law of the bridegroom.

Following a buffet luncheon in the church fellowship hall,

## Community Services Classes Set

Enrollment in the class is limited to 16 people, with a \$3 restriction fee.

For further information, call the Office of Community Services at SCC.

Death, Dying

An eight-week seminar on "Death and Dying" will be offered through the Office of Community Services at SCC, beginning Jan. 18. Class will meet each Tuesday evening from 7 to 10 p.m.

Cardiopulmonary Resuscitation

A class in a revolutionary life-saving technique, "Cardiopulmonary Resuscitation," will teach combined techniques of mouth-to-mouth resuscitation and external cardiac massage.

Enrollment in the class is limited to 16 people, with a \$3 restriction fee.

For further information, call the Office of Community Services at SCC.

## Suddenly, Basketball Fun Again In Milwaukee

By The Associated Press

There is a strange, new feeling in the camp of the Milwaukee Bucks — optimism.

"Basketball has become quite enjoyable lately," says forward Bob Dandridge.

The reason, of course, is that Milwaukee now is winning instead of losing. The Bucks, who had a miserable 4-20 record earlier this season, now have won seven of their last nine National Basketball Association games.

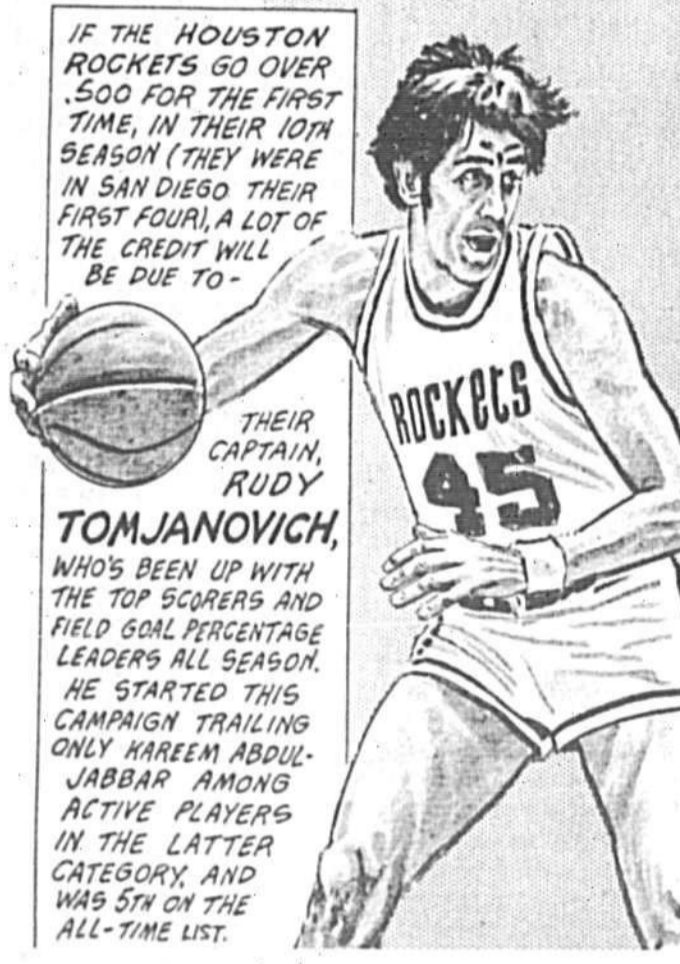

The latest was a 119-111 decision over the Buffalo Braves Thursday night, and the Bucks attribute their sudden success to an improved defense.

"Our centers have been giving excellent help switching," says Dandridge, "and we have the speed, quickness and basketball knowledge to play this kind of defense. It suits our personnel perfectly."

In the other NBA games, the Cleveland Cavaliers defeated the Golden State Warriors 129-110 and the Indiana Pacers trimmed the Atlanta Hawks 105-85.

Dandridge scored 14 of his game-high 27 points in a third-quarter surge. The Braves, led by John Shumate and Adrian

## ROCKETS LED GLARE

Tom Janovich, whose been off with the top scorers and field goal percentage leaders all season, has started this campaign trailing only Kareem Abdul-Jabbar among active players in the latter category, and was 5th in the all-time list.

Dantley, had whittled a 34-point first-quarter deficit to three points in the second half. However, Dandridge and Quinn Buckner sank field goals around a basket by Buffalo's John Gianelli, then Dandridge fired in Milwaukee's next six baskets as the ducks receded to lead 78-62.

Four baskets, two on rebounds, by rookie Scott Lloyd, put the Bucks ahead 89-72 going into the final 12 minutes.

Cavaliers 129, Warriors 110

Austin Carr spearheaded a second-period rally as Cleveland, which had lost four of its last five games, Car scored 22 of his 28 points in the first half, dropping to 16 in the second period as the Cavaliers took a 63-44 advantage.

Pacers 105, Hawks 85

Billy Knight scored a season-high 41 points, 14 in the third quarter when he matched Atlanta's team total, leading Indiana past the Hawks. Knight got eight of his points when the Pacers outscored the Hawks 16-2 during one stretch of the third quarter and went to their fourth consecutive victory.

Players 7, Blues 1

Philadelphia extended its unbeaten streak to 13 games, pounding the Blues as Harvey Bennett scored twice. The first period was marked by a fight which produced 62 minutes in penalties and resulted in the ejection of the Flyers' Paul Holmgren and Jack McHughen.

Holmgren, who wears a special plastic facemask because of a previous eye injury, was taken to a hospital when he returned to the eye area as a result of his skirmish with Bob Gassoff of St. Louis.

North Stars 7, Red Wings 2

Tim Young scored one goal and set up three others as Minnesota snapped a 13-game road winless streak, beating the Red Wings in Detroit for the first time in four years.

Capitals 3, Penguins 3

Syl Apps scored with 8:50 left in the game, completing a Pittsburgh comeback from a 3-1 deficit and giving the Penguins their tie with Washington.

## Montreal Blasts Buffalo

By The Associated Press

"The only thing that might have saved us tonight," said Buffalo Coach Floyd Smith, "is if we had been snowed out in Chicago after our game Wednesday night. They outlasted us, and just outplayed us."

"They are the Montreal Canadians, who blasted Smith's Sabres 7-0 Thursday night in Buffalo's Memorial Auditorium.

"It was a collective effort from everybody on our club," said Sabres left wing Rick Martin. "We all fell asleep at the same time."

"That was some time just after the opening faceoff. The Canadiens sped to a 5-1 lead after the first period, skating circles around the entire Buffalo team, and, even surprising themselves.

"I certainly didn't expect to score nine goals in the building of a team that was playing defense the way Buffalo has been playing all year," said Montreal's Pete Mahovich. "We would have had to be seen out of our minds to come out this building and expect to do what we did."

The Canadiens opened their first period lead on goals by Guy Lafleur, Rejean Houde, Larry Robinson, Yvon Lambert and Jacques Lemaire. Guy Lapointe and Lafleur combined for two goals in the second period, and Doug Jarvis and Mario Tremblay tallied in the final period.

In the other National Hockey League games, the Philadelphia Flyers blasted the St. Louis Blues 7-1, the Pittsburgh Penguins and Washington Capitals tied 3-3, and the Minnesota North Stars crushed the Detroit Red Wings 7-2.

In an exhibition game, a touring team from the Soviet Union scored a 3-2 victory over the World Hockey Association's Winnipeg Jets.

Philadelphia extended its unbeaten streak to 13 games, pounding the Blues as Harvey Bennett scored twice. The first period was marked by a fight which produced 62 minutes in penalties and resulted in the ejection of the Flyers' Paul Holmgren and Jack McHughen.

Holmgren, who wears a special plastic facemask because of a previous eye injury, was taken to a hospital when he returned to the eye area as a result of his skirmish with Bob Gassoff of St. Louis.

## College Basketball

Indiana 78, Michigan 60

By The Associated Press

After sitting on top of the basketball world last season, Bobby Knight seems to be carrying it on his shoulders this year.

"We just aren't getting the job done," said the troubled coach of Indiana University. "We have a lot of areas where we need considerable improvement."

With markedly less talent than last season's NCAA champions, the Hoosiers are losing as much as they are winning this season. Thursday night's 60-63 Big Ten loss to Purdue marked Indiana's fifth setback in 10 special games this year — a dramatic turnaround from last year's 32-0 record.

"We are not a great team," says Knight, "and teams that aren't great are going to get hurt some time."

There has been internal strife on the defending national champions as well. Some players have walked off the squad and even All-American center Kent Benson has not been spared Knight's acid tongue.

Purdue Coach Fred Schuman had a revenge motive Thursday night. He remembered a 104-71 beating from Indiana two seasons ago.

"What a difference in two years!" Schaus exclaimed. "It was a real juicy win for us, especially when we think of the way they rubbed it in two years ago."

Elsewhere in college basketball, top-ranked San Francisco blitzed Portland 59-27; No. 3 Michigan routed Northwestern 105-65; No. 11 Arizona edged San Diego State 80-77; and No. 20 Memphis State beat Oklahoma City 82-72.

## Struggling Indiana Shows 55 Record

Conference season, shot 55 per cent from the field and had a 49-38 rebounding edge.

Rickey Green scored 20 points and John Robinson 18, leading Michigan over Northwestern 80-74. It was a stonewall game throughout as the Wolverines won their 14th straight over Northwestern, dating back to 1959.

Herman Harris scored 22 points and Gary Harrison's basket in the last two minutes put Arizona ahead to stay in the Wildcats' victory over San Diego State.

Dexter Reed and James Bradley each scored 24 points, helping Memphis State's triumph over Oklahoma City. Reed and Bradley combined for eight points in the first four minutes of the second half as the Tigers moved into a 36-46 lead and Oklahoma City could get no closer.

In other games, Audie Matthews scored 29 points as Illinois beat Ohio State 89-72; Greg Kelsey's 20 points led Michigan State over Wisconsin 84-61; Mike Schultz scored 21 points as Houston whipped Houston Baptist 111-79; and James Edwards scored 15 points in the first six minutes of the second half, leading Washington to an 88-73 victory over California.

Debbie Raso Tops At Harder

REBRING (AP) — Debbie Raso of Cape Coral, shifted a three-under-par 140 total for 36 holes to take the lead in the 54-hole women's international amateur golf tournament at Hader Hall Golf Club.

The Cape Coral golfer had a three-under-par 71 Thursday on the 9,092-yard course. At 164 was first round leader Nancy Smith of Snyder, N.Y., who had a 78.

Jeanne-Marie Boylan of Key Biscayne, had 72-147, and Harriet Dulan of Danbury, Conn., 74-148. Barbara Barrow of Chula Vista, Calif., 74-149; Susan McClellan of Leeds, Mass., 75-151 and Susan Kenney of Springfield, Va., 76-153. Tied at 154 were Leslie Shannon of Halesh who had 75, and Chris Deed of Sarasota who had a 78.

## Women's Commission Sets Meet

The Central Florida Commission on the Status of Women will hold its regular monthly meeting on Tuesday at 7:30 p.m. in the Altamonte Civic Center.

Agenda items include committee reports and committee workshops, and a film, "Cinderella is Dead," will be shown.

As the Commission only meets in Seminole County once every four months — held monthly meetings are held in Orange, Osceola and Brevard Counties — Tuesday's meeting will be easily accessible to Seminole County residents.

For further information, call the Office of Community Services at SCC, meetings are open to the public.

## Death, Dying

An eight-week seminar on "Death and Dying" will be offered through the Office of Community Services at SCC, beginning Jan. 18. Class will meet each Tuesday evening from 7 to 10 p.m.

In general, Western society has yet to reach a satisfactory accommodation with the phenomena of death and dying.

Recognized as "the single most effective emergency life-saving technique available to the public to date," cardiopulmonary resuscitation has been credited with reducing death rates in several metropolitan areas by as much as 50 per cent.

Class will meet from 8 to 10 p.m. on Jan. 17 and 19.

## Cardiopulmonary Resuscitation

Enrollment in the class is limited to 16 people, with a \$3 restriction fee.

For further information, call the Office of Community Services at SCC.

INVITATION TO BIDDING

Florida

Sealed bids will be received in the office of the City Manager, Sanford, Florida on the city of Sanford. The bids will be received in the office of the City Manager, Sanford, Florida on the city of Sanford.

All bids shall be in the City Manager's Office, City Hall, Sanford, Florida not later than 1:30 P.M. Wednesday, January 19, 1977. The bids will be opened on the same date at 1:30 P.M.

The City Commission reserves the right to accept or reject any bid and to waive any irregularity in the bids in the best interests of the City of Sanford, Florida.

## ...THE HOPE OF OUR COMMUNITY, OUR NATION!

# The Church... SOUTH OF THE SAHARA!

Does he long for the hot breezes and wide spaces south of the Sahara? Can he remember the feeling of free air snubbing him, as he ran with his fellows? Oh, it's a lovely zoo, wide and airy. The giraffe's home duplicates his native habitat. But, as he nibbles among the treetops, I wonder: Does he wish for a quiet stream? I know what it's like to feel displaced. When first I came to this country, I was not at home with the language and unfamiliar with its customs. Often I felt confused and bewildered.

The one place that was no stranger to me was my church. Here, although the words were foreign, I recognized well-known melodies and litanies and the sure feeling of God's love.

If you feel disturbed and disoriented by events in your life, turn to the one place that knows no aliens. Your church has a welcome for everyone. God's love is universal.

### Pastor's Corner

**By WILLIAM R. MARR**  
 First Baptist, Oviedo

The founder of the Academy of Religion and Mental Health has said, "One of the most remarkable developments in modern medicine is a trend away from the laboratory microscope to the psychiatric and social world in which people live. The encouragement from modern medicine is the renewal of a unified concept of health and disease. We are increasingly recognizing that a human being is a biological, psychological, and social organism."

Every aspect in the healing process must take into account the whole person. Not many medical personnel speak any more of the "liver in 4B" or "the appendix in 2A." A physician does not heal an inflamed appendix; he heals a person. The physical therapist does not rehabilitate a broken limb; he rehabilitates a person.

A person's attitudes, his outlook on life, his understanding of his own prognosis, his will to recover, even his life to live all contribute to the speed and likelihood of recovery from illness or injury. So true is the oft-quoted remark of Sir William Osler that "It is sometimes less important to know what disease the patient has than to know what patient has the disease."

It is important, therefore, that every member of the healing team, from the attending physician, to the nurse, aide, to the volunteer all contribute to creating an atmosphere of health and encouragement for the patients under their care. But with all of the strictly medical duties required of the hospital staff, each is severely limited in the actual time one is free to give to one patient.

One who is in a special position of providing each patient the psychological and spiritual support so desperately needed during hospitalization is the minister. He is uniquely qualified as a vital part of the healing team in a number of ways.

First, most ministers today have been professionally trained in the area of pastoral counseling and psychology in general, plus many have been specifically trained to those generally omitted in a general or psychiatric hospital.

Secondly, the minister is uniquely qualified as a member of the healing team because it is his job to give the time needed for the spiritual-psychological care of his parishioners. He has time to listen or to be there. In the case of medical personnel the medical and psychological care of their patients is sometimes a luxury they are forced to forego. Not so with the minister. The emotional and spiritual care of the patient is his primary responsibility.

The minister's role as a member of the healing team is unique because he has at his disposal the resources of the church and of the people of faith. The hospital bed is not quite as lonely when a patient knows that there are people outside his own family who care for him and are concerned about his illness.

Then the resource of faith and the power of prayer cannot be overlooked. Who else is in the unique position of bringing to the patient the healing qualities of genuine faith in God and the comfort found in the Bible and through prayer?

The minister belongs in the hospital. For any member of the healing team to view him as just "another visitor" or someone "in the way" is to fail to appreciate the minister's unique contribution as an important colleague in the total healing team.

**By GEORGE W. CORNELL**  
 AP Religious Writer

Somewhat the burden of the job brings out a religious urge in U.S. presidents. If they weren't devout at the outset, they've tended to become that. Confronted with the immensity of responsibilities, most of them have sensed a need for higher help.

It's a curious phenomenon. As in the pious cliché about there being no atheists in foxholes, there have been none among presidents, as they attest. It's not that they're naturally, perhaps implanted in early years and laid into dormancy, take on new significance once they've stepped into the White House.

When the awesome weight of that office comes down crushingly upon a man's shoulders... he sees all things differently," write Edmund Fuller and David E. Green in their book, "God in the White House," a study of faiths of American presidents.

The depth of their inclinations, however, varies widely, some of them dedicatedly and knowledgeably religious, others only casually. Some have been strongly committed to their churches from the start, others only slightly or not at all, perhaps as a result of the terms of their military or political careers.

Nevertheless, seven presidents — Jackson, Polk, Pierce, Buchanan, Grant, Coolidge and Eisenhower — on experiencing that office have been moved to join a church for the first time, some during their terms end or afterward. Two never did, including Abraham Lincoln, probably the most profoundly religious of them all.

Others were lifelong, active churchmen. Ford (Wilson, Cleveland, Arthur and Theodore Roosevelt) were sons of clergymen. Three (John Adams, Madison and Benjamin Harrison) had considered entering the ministry. Three (Theodore Roosevelt, Benjamin Harrison and McKinley) were onetime Sunday school teachers. One (Garfield) was a lay preacher. Of the nation's 27 presidents to date, 11 have been members of one of the major religious bodies — Episcopalian, six Presbyterians, four Methodists, two Congregationalists (now the United Church of Christ), two Unitarians, two Dutch Reformed, two of the Christian Church (Disciples of Christ), two Baptists, two Quakers and one Roman Catholic.

Two never affiliated with any denomination — Lincoln and the successor after his assassination, Andrew Johnson.

The 19th-century presidents were a diverse group religiously, ranging from intensely devout men to those generally indifferent about it, a few of major impact in history, others of lesser stature, little remembered.

John Quincy Adams, son of the third president, though a Unitarian, had no specific religious affiliation but was a dependent-minded congregationalist — "the church to which I was bred and in which I will die," his diary notes.

He represented the Puritan heritage, not in narrowness but in

### Oral Roberts

**Question: Do you think the Christian life is happier than any other way of life? What does the Bible say?**

**Answer: Yes, I really do think the Christian life is the only way of living that brings real and lasting joy. It's certainly true that Christians have problems just like everybody else. But now you know someone who is powerful to help you with all your problems and in every situation. Now you know God as your loving Father who defends, protects, and cares for you. You can have joy just as soon as Jesus comes into your life. The kingdom of God begins inside you. And that kingdom is righteousness, peace, and joy (Romans 14:17). It's the joy Jesus gives us. His joy, which no man can take away (John 16:22). It's the joy that's deep within you and no circumstance, sorrow, or pain can change or remove it.**

**Now let's look at what most people think of as joy. Isn't it the good feeling when things are going well in your life? You may feel happy when you get a new car, go on a vacation, or make a new friend — getting, having, or achieving something you want. You rejoice because you have something to be happy about. And that's good.**

**But when that something changes or is taken away, then this kind of happiness goes with it. This is man's joy, and it depends upon having whatever it is that makes us happy. It's really not hard to be happy when there's something to be happy about. But can you be joyful when there's nothing to be happy about?**

**Yes, you can, if you have accepted Jesus as your personal Lord and Savior. Then His kingdom — righteousness and peace and joy — lives in you. If you haven't yet asked Jesus to come into your life, I urge you to delay no longer.**

### Evangelist Congress Set

The Rev. Leo F. King, pastor of First United Methodist Church of Sanford, is chairman of the Congress on Evangelism sponsored by the Florida Conference of the United Methodist Church. The congress is to be held Feb. 4-6 at the Lake Wales Baptist Assembly Grounds. The theme is "Committed to Christ the Third Century."

Other members of First United Methodist Church of Sanford who will be on the committee include Thomas S. McDonald, Jr., pastor of the Florida Conference of Churches and Florida Conference of Women's Society of Christian Service.

Featured speakers are Bishop Ellis Fieger of Knoxville, Tenn.; the Rev. Danny Morris of the Upper Room in Nashville, and originator of the "Ten Brave Christians" program; Florida Bishop Joel McDavid, Lakeland and Dr. Ethel Gray of Hastings, Deland District Lay Leader, and past president of the Florida Council of Churches and Florida Conference of Women's Society of Christian Service.

### Krusade For Kids

Lew and Marilyn Hall will present their King's Crusade for Kids show Friday, Jan. 14 at 7 p.m., at the Holy Cross Episcopal Church, 410 S. Magnolia, Sanford. They will present the Gospel message for children through the use of puppets, music, games and prizes.

### Church To Build

Participating in the groundbreaking ceremony for a new education building and fellowship hall at First Christian Church of Sanford Sunday following the morning worship were (from left) back row, Louise Jackson, Mrs. George Morgan, Dr. Harold Harris, Mrs. Francis Ring and Neil Kindy; front, Barry Smith, Karen Crawford and God: Patient.

### Methodist Churches Plan Area Crusade

An Oviedo Area Crusade sponsored by area churches of various denominations will be conducted Jan. 30-Feb. 5 at 7:30 p.m. by the Bill Penick Evangelistic Team, Evangelist Bill Penick and his wife, Nancy Penick. Dinner will be served family style after the service. Rev. Gertal A. Sims is pastor.

In his eighth year as a full-time evangelist, Rev. Penick has conducted crusades in Europe, Asia and the United States including Iron Curtain countries.

Christian Prayer Breakfasts organized by area Christian laymen will be held each Tuesday at 7:05 a.m. at Sun-B's Restaurant, 17-92 Sanford, beginning Jan. 11. Al Chubb, former bank president who now heads an outreach ministry and has his own Christian television show, will speak.

Homecoming Day will be observed at New Mt. Calvary Missionary Baptist Church, West 12th St., Sunday at the 11 a.m. service. The message will be delivered by the former pastor Rev. Joseph Smith. All members and former members and visitors are invited. Dinner will be served family style after the service. Rev. Gertal A. Sims is pastor.

First Baptist January Bible Study is a yearly planned activity of the Southern Baptist Convention and it will begin this Sunday at 10:00 p.m. at First Baptist Church, Sanford. There are studies for all ages.

Dr. Jay T. Cosmato will teach the book for adults, "Romans: Everyman's Gospel." The book will be for children, "Discovering Sounds." This Bible study meets each night through Wednesday. There will be a nursery provided for small children.

Also the month of January is Youth Choir Month. The local church will feature the Youth Choir for adults; a Single Young Adult Choir, for young people in school grades 9-12; Youth I Choir for those in grades 7-9; Young Musicians for boys and girls in grades 4-6; Music Makers for children in grades 1-3, and preschool music activity for boys and girls ages 4 and 5. While the full music program is under the direction of Charles E. Davis Jr., the Church's Minister of Music-Youth, church membership is not a prerequisite for choir membership.

Messiah Lutheran The "Renewal 77" prayer-praise and worship service is observed at New Mt. Calvary Missionary Baptist Church, West 12th St., Sunday at the 11 a.m. service. The message will be delivered by the former pastor Rev. Joseph Smith. All members and former members and visitors are invited. Dinner will be served family style after the service. Rev. Gertal A. Sims is pastor.

**Non-Aspirins Relieve Pain**  
**Dr. Lamb**

**DEAR DR. LAMB**— I have never been able to take aspirin. Is there any other medicine as good to take the place of aspirin?  
**DEAR READER**— A medicine should be chosen for a particular purpose. Aspirin is useful in both relieving pain and in decreasing inflammation. I do not know why you can't take aspirin, but accepting your statement I would suggest that you avoid any of the available medicines you can buy without a prescription that also contain aspirin. To give you a list of these I am sending you The Health Letter number 8-8, Aspirin and Related Medicines. Others who want information about these medicines can send 50 cents with a long, stamped, self-addressed envelope for it. Just send your request to me in care of this newspaper, P.O. Box 326, San Antonio, TX, 78209.

**HOROSCOPE**  
 By BERNICE BEDE OSLO

**For Saturday, January 8, 1976**

**ARIES** (March 21-April 19)  
 This can be an interesting day, because you get enjoyment out of whatever you do. You even have a way of doing your work so it becomes fun.

**TAURUS** (April 20-May 20)  
 You'll be a lot better off today if you step back from a project which has you stymied. Eliminating the pressure may give you a fresh approach.

**GEMINI** (May 21-June 20)  
 Others find you dependable today and they know things will be done properly. You can make many points.

**CANCER** (June 21-July 22)  
 Because you're not one to overlook small amounts today, they'll add up for you. You'll end up with a sizeable sum. Others may not.

**LEO** (July 23-Aug. 22)  
 Don't behave in a selfish manner, but try to direct your efforts so that you do reap some benefits. You must look out for No. 1 today.

**VIRGO** (Aug. 23-Sept. 22)  
 Be patient today. The clock is in your corner. You'll gain control over things that seem to be slipping away if you're not impatient.

**LIBRA** (Sept. 23-Oct. 23)  
 You know something that would interest others in your circle. You'd be wise to keep it to yourself.

**The Ear**

Let's scotch some rumors, Earlings. First off, School Sup. Bud Loyer informs The Ear he'll be here for the duration of his recently won four-year term. The latest rumor has the popular superintendent joining State Education Commissioner Ralph Turlington's staff in Tallahassee.

"That's crazy," says Loyer. "Absolutely untrue." The rumor is circulating among some teachers, and it was prevalent among members of the county's teacher's union — the Seminole Education Association (SEA). SEA boss Gene Grooms is irked at School Board Atty. Doug Stenstrom for telling the board it can accept the master's report (an \$8,400 minimum starting salary for teachers). Loyer's recommendation (\$8,300), or come up with one of its own. If the board opts for its own package, The Ear hears Grooms will ask to go back to the bargaining table. If that doesn't happen, it may be lawsuit time...

**He's The Teachers' Tallahassee Voice**

By DONNA ESTES  
 Herald Staff Writer

Seminole County's teachers and all teachers in Florida will have an effective advocate — a lobbyist — working on their behalf during the upcoming session of the Legislature in Tallahassee.

The man's name is Tay Green. He is a former math and science teacher, formerly principal of a large high school, past principal of a research and development center for Florida State University, and executive director of the public school committee of the Florida Senate.

Now he is employed by the 30,000 member Florida Education Association, which is affiliated with the 1.8 million member National Education Association (NEA).

During the upcoming session, he will eat and breathe teachers' needs and spend 20 hours daily passing the word and exhibiting his enthusiasm and dedication to the educational profession he loves and someday plans to go back to.

Practicing his particular concept of guarding against being a part of and competing with the people he is trying to pinpoint, he refuses to name any individual legislators who are more proeducation than others and lauds the legislators of today.

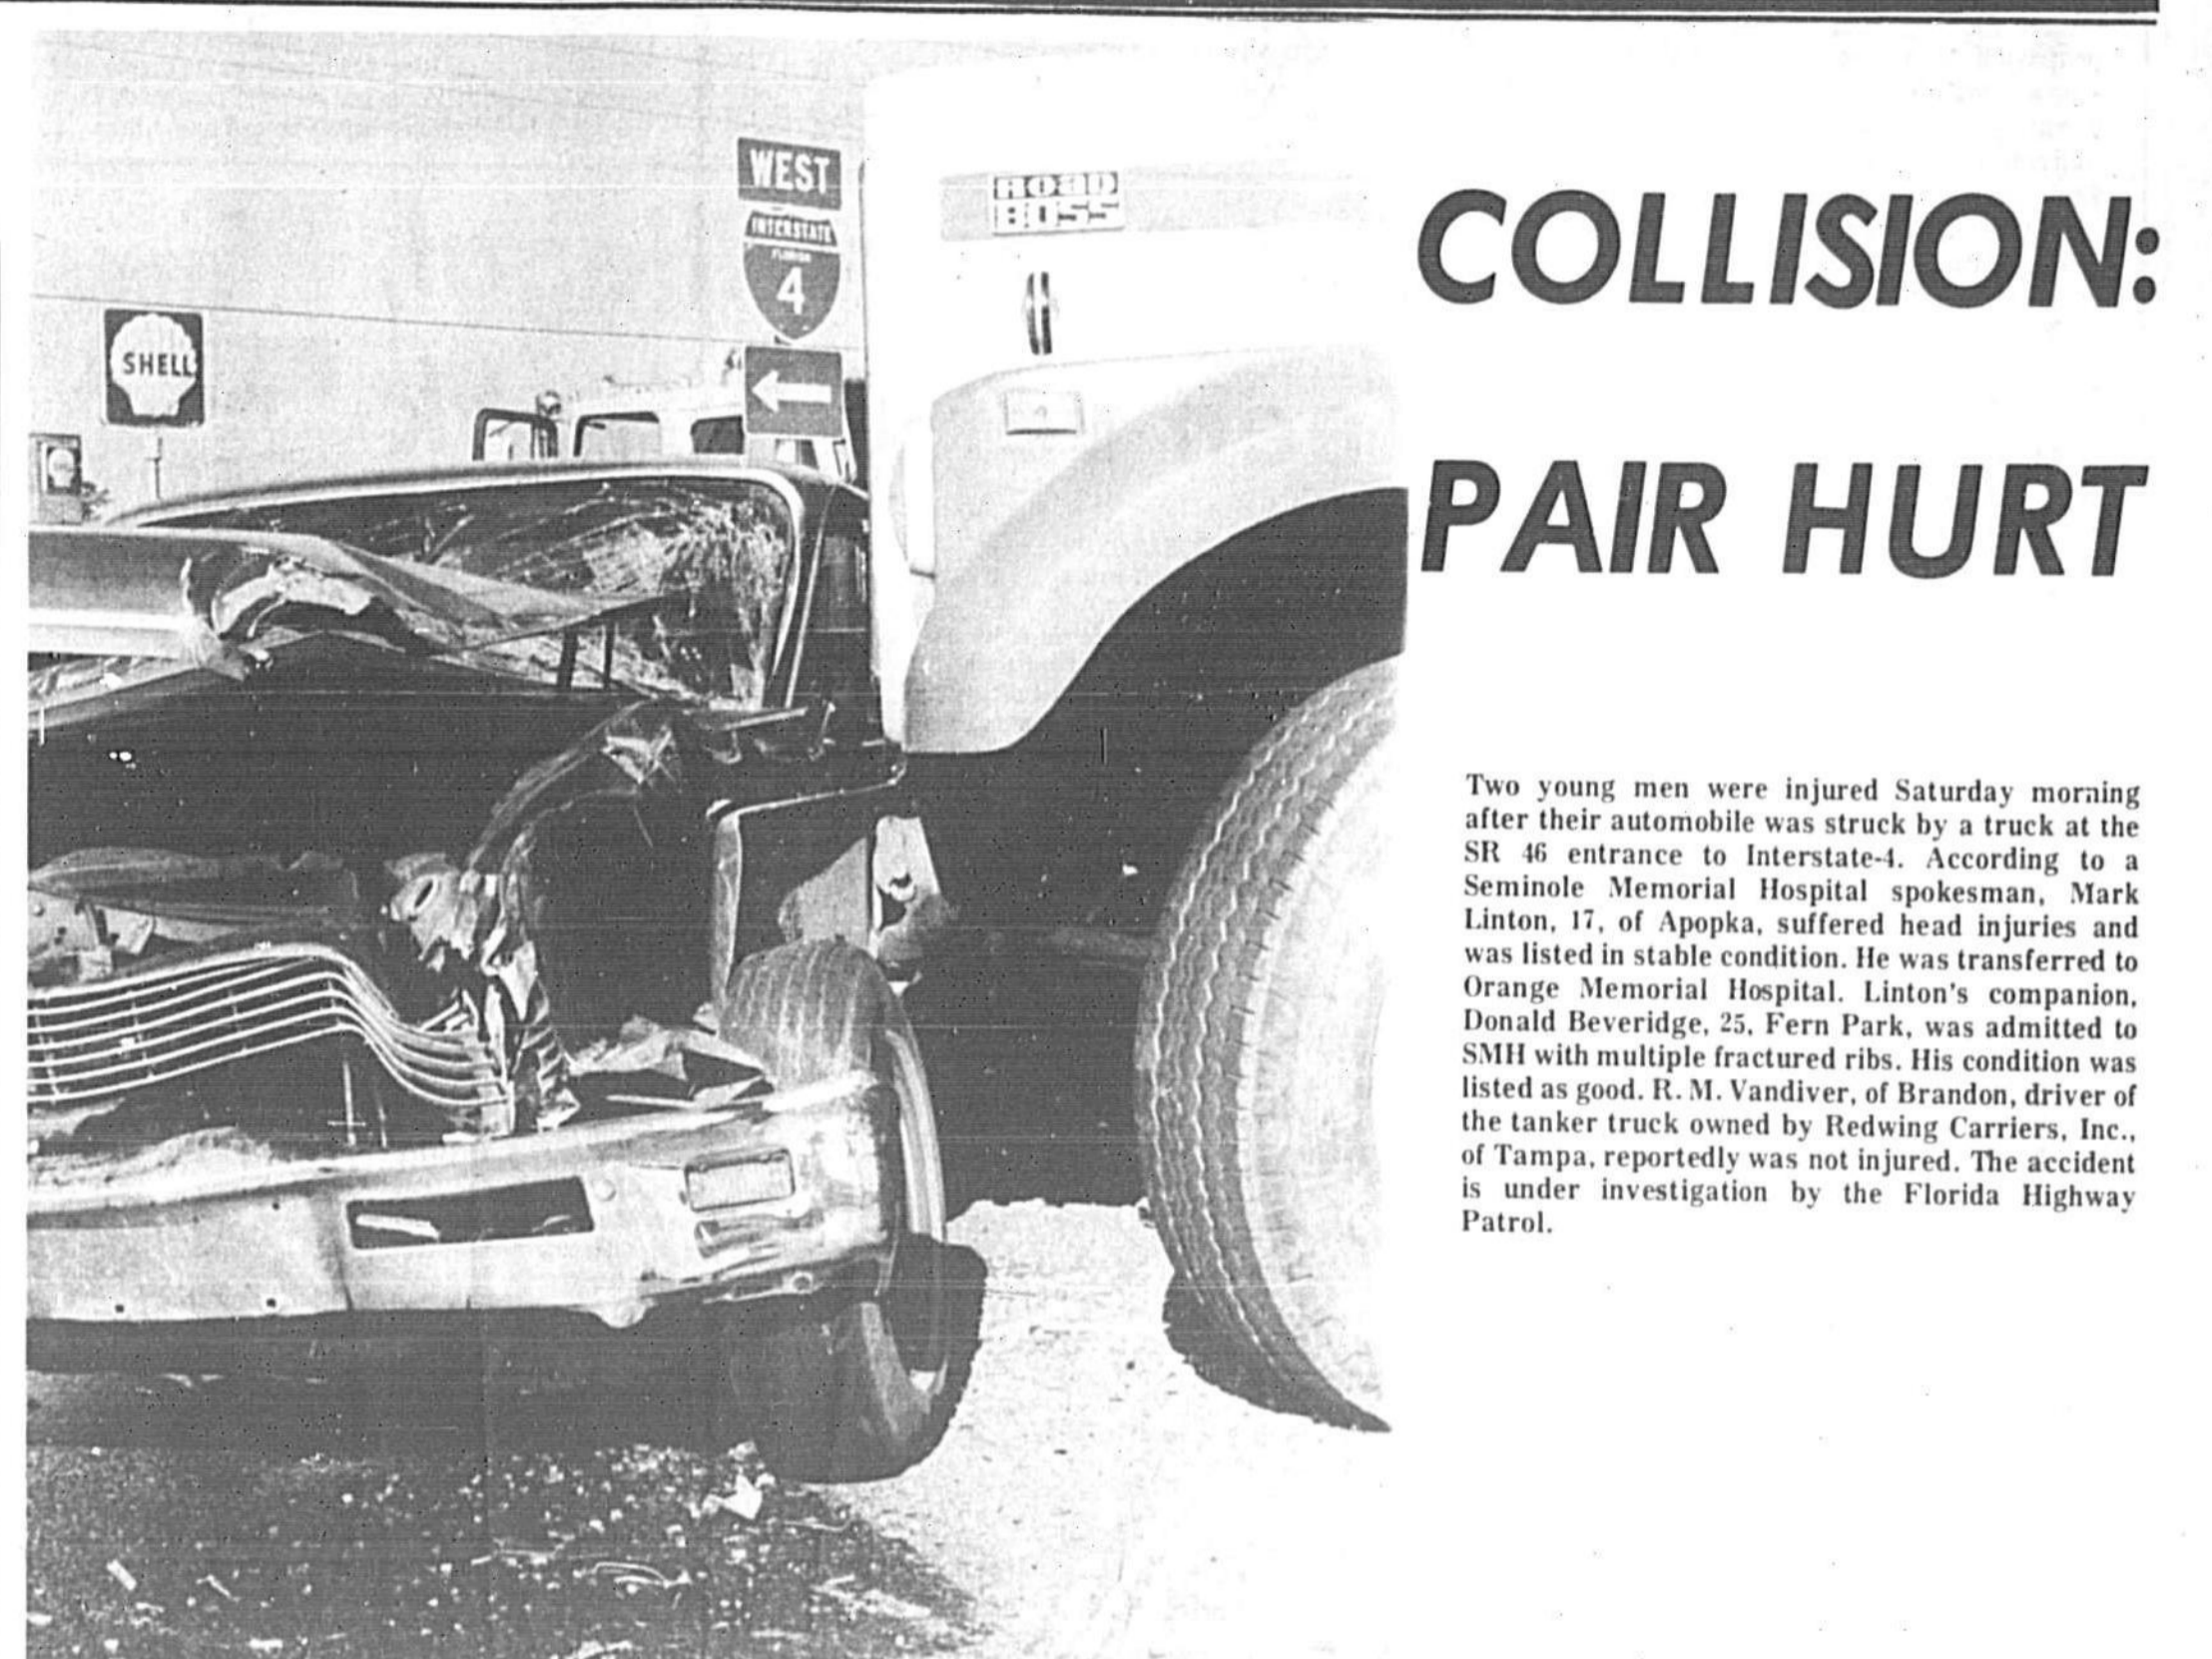

"All legislators are pre-education," he said, adding that some have received faulty information. "I find some very fine people struggling and succeeding in education today," Green said. "It was not too long ago when there were fistfights on the Florida Senate floor. Some legislators are very ethical, much more so than in the past. They are doing their homework and are dedicated to serving the people of the state. I have seen a change," he said.

## COLLISION: PAIR HURT

Two young men were injured Saturday morning after their automobile was struck by a truck at the SR 46 entrance to Interstate-4. According to a Seminole Memorial Hospital spokesman, Mark Linton, 17, of Apopka, suffered head injuries and was listed in stable condition. He was transferred to Orange Memorial Hospital, Linton's companion, Donald Beveridge, 25, Fern Park, was admitted to SMH with multiple fractured ribs. His condition was listed as good. R. M. Vandiver, of Brandon, driver of the tanker truck owned by Redwing Carriers, Inc., of Tampa, reportedly was not injured. The accident is under investigation by the Florida Highway Patrol.

**LOVE DOES NOT PAY**

ST. PETERSBURG BEACH, (AP) — Shamus, a 1964 German Shepherd trained to be ferocious and apprehend dangerous felons as this city's only police dog, has been declared unfit for duty because of love.

A female German Shepherd tickled Shamus' fancy this week when she walked through an alley next to the backyard where Shamus was sunning.

Six-year-old Shamus followed, and now will have to pay for his uncheduled journey with several weeks of rehab training in obedience school.

"It was the first love," said policeman Gary Petch in defense of his dog. "I've had the dog for three years, and he's never walked off before."

Petch, who lives in nearby Gulfport, had friends, St. Petersburg Beach and Gulfport policemen and Pinellas County sheriff's deputies looking for Shamus when the dog disappeared Tuesday.

"I thought it was possible a little old lady might have had him in her house," said Petch. Finally, a local postman told Petch that Shamus was visiting at the James Lassiter home six blocks away.

Lassiter said Shamus had befriended his young schnauzer, Fritz. Lassiter said a part-German Shepherd, a female, lives next door.

"Everytime it (Shamus) heard a siren, it sounded like a bear was howling," Lassiter said. "I heard about three sirens that night. It sounded like a grizzly bear."

But he said Shamus was friendly and didn't get mean when he was shamed out of the way when he opened his front door.

Petch explained, "Police dogs have a split personality. When they're in the police car, they won't let anyone in the car except their master. And when they're out, anybody can pet them that the master allows."

But when he's off duty, he's off duty just like a regular cop," added Petch.
