

Santa's Letters

Dear Santa, I would like for Christmas—Crash-Under Derby set, a gas station, Presto motor set, some school clothes, 2 boxes of big cars and trucks, some books to read and color, Chopper figure 8 track, a Snoopy garbage can, and a small Xmas tree.

Dear Donald, It was nice to hear from you what you would like for Christmas. Be a good boy.

Dear Santa, How is Frosty and your elves. Dallas Mary's scared of you at Sears. But she likes you when we talk about you, not when she sees you. Dallas is my sister.

Dear Santa, My name is Bobby Gene Jr. I am three years old. I have been a pretty good boy this year.

Dear Santa, I am sorry Dallas was frightened of my "Ho, Ho, Ho." Next year maybe she won't be

house on Christmas. Love, Santa

Dear Santa, I want a Velvet, TV, play horses, Coke dispenser, and a play blender.

Dear Santa, I have been a good girl and making good grades in school. Will you please bring me a 10-speed bike and a record player and clothes for Christmas.

Dear Santa, It was so nice to hear from you and learn the things you would like for Christmas.

Dear Santa, Please send me a five-speed bike, a pellet gun, and 250 pellets, a lock blade stiletto, a rock computer, a new suit of clothes, a new pair of shoes, pants that all match each other.

Dear Santa, Please bring me a walkie-talkie, a Johnny West doll and some candy. Thank you.

Dear Santa, I'm 5 years old. I've been pretty good this year. Please bring me for Christmas sleeping bag, a racing car, drum, bicycle, candy in my stocking, battery dune buggy, cowboy outfit and guns, bow and arrow, a yo-yo and a flashlight.

Dear Santa, I will put you and baby sister on my list of good boys and girls. Thank you for your letter.

Dear Santa, I will leave you cake and coffee under the tree.

Dear Santa, Please bring me a "Miss America" doll, some games, a ball and whatever else you think I should have.

Dear Santa, I will leave you cake and coffee under the tree.

Dear Santa, I will put you and baby sister on my list of good boys and girls. Thank you for your letter.

Orlando POW's Wife Not Girl He Left 7 Years Ago

ORLANDO, Fla. (AP) — When Air Force navigator Glenda Perkins comes home after seven years as a prisoner of war in North Vietnam, he'll find that the submissive wife he left behind now challenges his most fundamental beliefs.

A devout Christian Scientist, a male supremacist and stern father-figure, Perkins was a man who made all the family decisions, did not approve of his wife reading books and certainly would have forbid his sons to read the shoulder-length hair they now sport.

"I lived a sheltered life. I was naive and never questioned anything. I never finished high school and I didn't know much."

At first Mrs. Perkins, now 33, said she tried to base all of her decisions on what her husband would do. But she said eventually those decisions seemed as out of date as the crew cuts that her sons, Ed, now 18, and Paul, 17, wore when their father went off to war.

Little by little she struck out on her own. Daughter Cindy, 13, was allowed to date and Steven, 13, was sent to a reading clinic.

She traded in the family's old car and then purchased a new car for Ed and Paul—a decision she is sure her husband would have disapproved.

Then, the new Kay Perkins enrolled in night school, earned a high school diploma and entered a nearby community college where she's majoring in psychology.

Mrs. Perkins then became active in local POW causes and started organizing rallies and making speeches to local service clubs.

CHIMP PULLS SWITCH LONDON (AP) — Minutes before a circus show was due to be staged at a concert hall, all the lights in the auditorium went out. Frantic electricians located the fault. A chimpanzee had thrown the master switch.

Central Florida Builders Presents KINGSBERRY HOMES ENJOY LUXURY LIVING "PARK AVENUE" Townhouse Condominiums

OFFERED EXCLUSIVELY BY William McCoy Realty 222-8661 834-0331

THE PICTURES WE'RE RECEIVING FROM THE MOON ARE EXCEPTIONAL. THE SERVICE WE'RE GETTING FROM THE U.S. POSTAL SYSTEM CONTINUE TO "ASTOUND" ME, BUT IN ANOTHER EXCEPTIONAL WAY, I'LL CHEER YOU.

Today it is Dr. John Wilson's turn to jump on the wagon. He was to have received a check in the mail from the Stempner Real Estate Agency.

They're in Sanford... as is the intended recipient Dr. Wilson. This one sends the record... 33 days and the darn thing still hasn't arrived!

If you live in the city of Sanford, then for goodness sake read the comprehensive story written by our Bob Lloyd on our page 2A. It covers the proposed sale of the city-owned lots.

Seems to me there is an awful lot which can be read "in-between" the lines. Not only on that particular transaction, but how about those 12 acres located next to The Herald building.

Under no circumstances should anyone be permitted to come in and speculate on these properties. It behooves each and every one of us that with the premium attached to land generally, only after the assurance that it would be developed in the best interests in the city should the sale be consummated.

It's abhorrent that city-owned property could be used for more than the long green. I'm not saying nor inferring that's what's being done in either of these instances. What I am saying is that we at The Herald are pulling all of our resources at the disposal of the news teams to investigate all of the dealings, and report them to our readers.

FPL encourages you to ask questions. About electric service. Rates. Environmental protection. Or anything else. We believe you deserve honest, straightforward answers. And we try to answer your most frequently-asked questions publicly. (All others will receive personal replies.) Address your questions to your local FPL Manager.

Knowing what concerns you helps us do our job better.

You ask. FPL answers.

Hospital Mulling New Phone Service

Seminole Memorial Hospital trustees at Monday's regular monthly meeting authorized the setting up of a special work session, at a date and time to be announced, to deal with replacing the hospital antiquated telephone system.

Southern Bell has not treated us right, "Besserer complained to the trustees. He advised, "I've been trying to get something done about it for years, but they just haven't treated us right."

John Evans, board member, said he wanted to look at the financial responsibility of the private firms, with whom Besserer had been talking.

Besserer replied he was getting better service from the phone company since they found out he had been talking with other firms about replacing the 17-year-old switchboard and other equipment.

At present the hospital is spending \$1,700 monthly line charges, not counting tolls, and he added the hospital would have to continue renting Bell's trunk (outgoing) lines, even if the board elected to lease another firm's equipment.

Besserer listed proposed charges for monthly rentals from other companies as \$1,650; \$1,500 and \$1,267 per month on a five-year lease with a third firm.

At present Bell is charging \$1,900 a month; the administrator added, this does not include the \$400 a month trunk line charges.

Zoo Underway By July 1st Chamber Directors Are Told

First phase construction on the Central Florida Zoological and Botanical Gardens is expected to begin in approximately six months or by July 1, 1973, according to Clifford Nelson, president of Seminole Zoological Society, in a presentation this morning during the Fourth Quarterly Directors meeting of the Greater Sanford Chamber of Commerce. (Related Photo Page 2A).

Sanford city commissioners are holding up final payment to the contractor installing pier A. A floating dock unit in the west basin of the city-owned marina because of apparent leak in one deck unit. Commissioners Gordon Meyer, kneeling, and Julian Stenstrom are shown as they measured water level in suspect unit this morning. Meyer said unit is "at least half full of water."

Sanford Council To Hold Final Payment On Docks

Sanford City Commissioners are holding up payment of a contractor's final bill for \$1,378.33 because at least one unit of the pier A floating concrete dock in the west basin of the city-owned marina is apparently leaking.

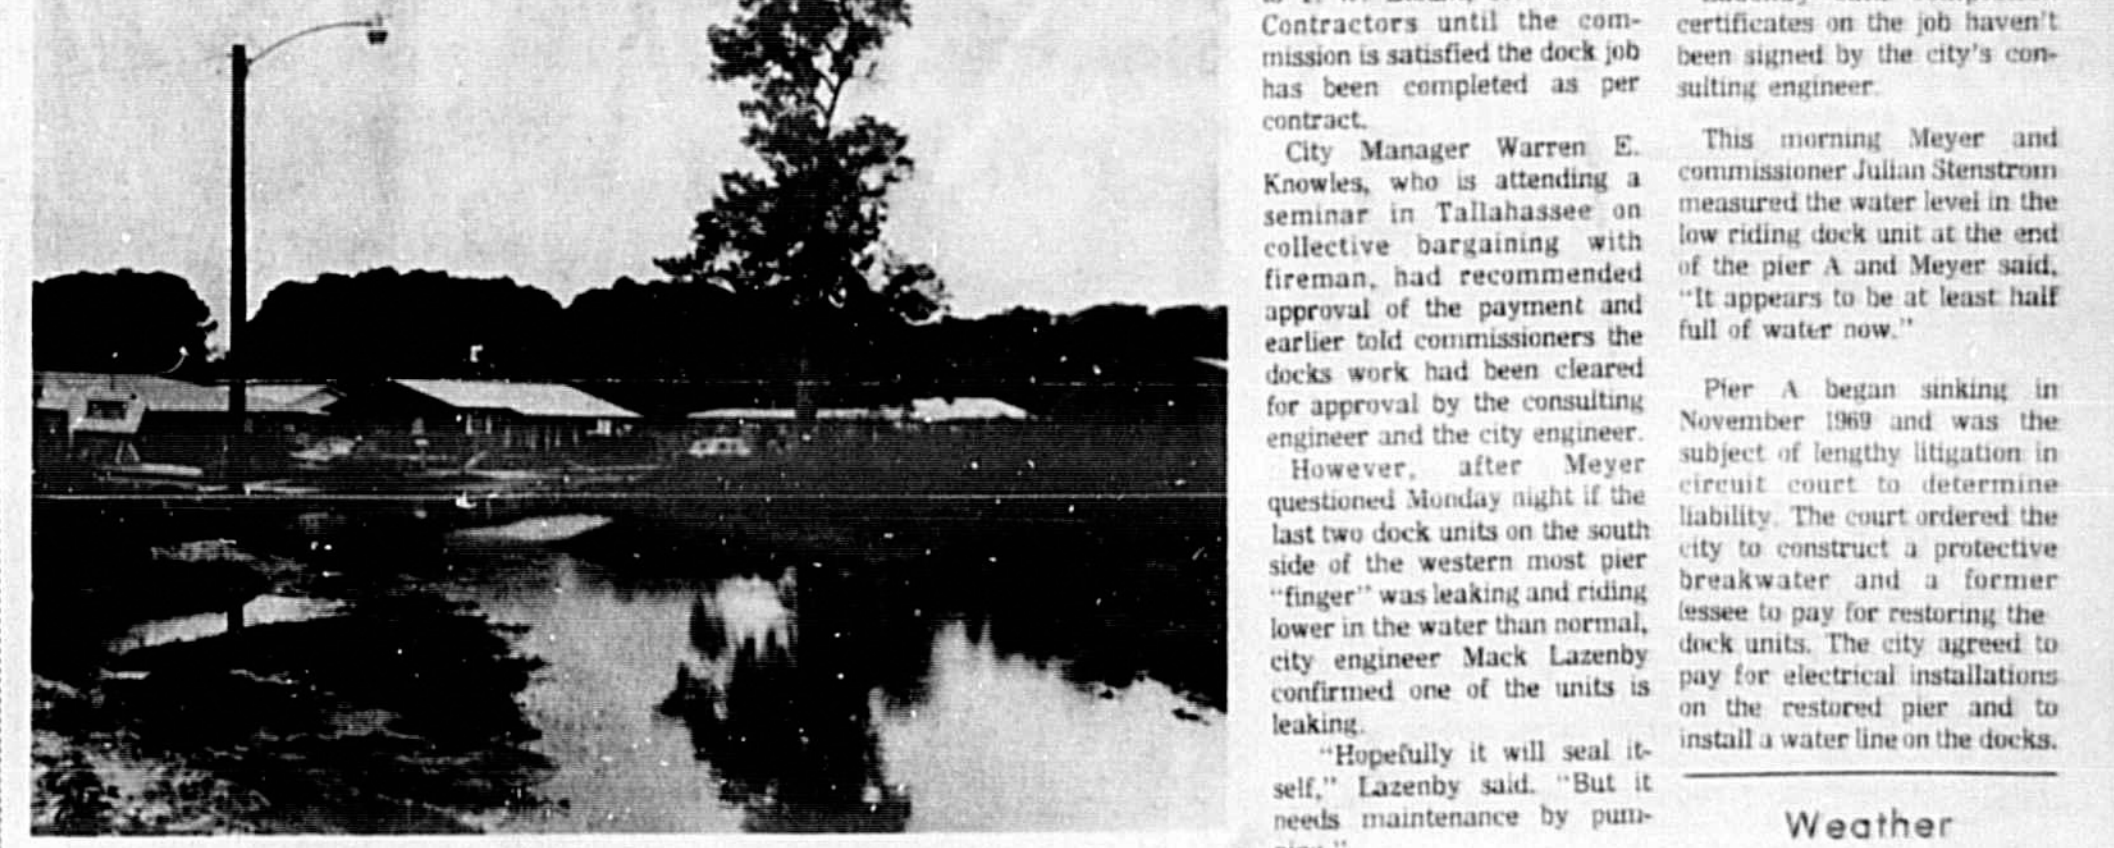

PHOTO TAKEN Friday looking west an unfinished Valencia Court West, San Lanta Subdivision, shows water standing in street in front of at least one occupied home (truck at left). Developer Wick Austin Monday said he's offered to match funds with Federal Housing Administration to temporarily correct flooding but said the street and permanent drainage isn't slated for completion for a year.

Street Paving, Drainage FHA Will Investigate

The Federal Housing Administration (FHA) has started an investigation into the sale of a year-old home in a Sanford subdivision where residents are complaining of lack of street paving and drainage.

FHA officials promised to seek "relief as soon as possible" for the residents. Caught up in the situation is Raymond Jones, a route salesman for an Orlando bottling company, who has already moved into the house and expects closing on its purchase any day.

After rains last week water covered the unpaved, unfinished street in front of the house at 818 Valencia Court West, San Lanta subdivision. Jones said complaints have been made to the developer, Austin Development Corporation of Altamonte Springs.

Several days later he came home from work and found he had no water. The meter had been removed. So now he has no water or sewer service. According to Jones, who plans to marry soon, there is no trouble getting electricity since he had his service transferred from his previous home. Jones said when he complained to the developer of the subdivision he was told Valencia Court West, which is slated to be completed by Mellenville Avenue on the east, won't be finished for a year. Along with the street goes drainage that is supposed to alleviate the current flooding of the partially paved section that ends near the west property line of 818 Valencia Court West. Jones told the Herald when he looked at the house several months ago with a representative of Jim Hunt Realty, the firm handling the sale of the repossessed home for FHA, there was no water in the street. An FHA official reported however that their files show water was standing in the street in front of 818 Valencia Court West in August when a field representative checked the house. "A couple of weeks ago I was told I could move in. Then last week it rained and the (un-completed) street flooded and the water got up in the front yard and driveway," Jones said. Neighbors reported within the last year there were times when rains flooded the street and the water got nearly to the front door of the house Jones is buying. Developer Wick Austin, when contacted by the Herald Monday, said he has "offered to match funds with FHA to a reasonable amount" to temporarily correct the (flooding) situation. "We've made temporary (Cont'd On Pg. 3A Col. 1)

"The price I pay for electricity seems pretty high to me. I was wondering how it compares to what customers pay in other areas."

# Why do doctors need all that boiling water?

By Abigail Van Buren

DEAR ABBY: I am a 13-year-old boy and like to watch TV a lot. One night I saw a movie on TV where a baby was about to be born and the doctor asked for "lots of boiling water." This puzzled me. I asked my father what they needed boiling water for, and he said maybe they wanted to make tea or coffee.

Then I asked my mother, and she said, "The doctor probably just wanted to keep the father busy so he wouldn't be in the way." Abby, I think they didn't want to tell me the truth so they just made up those silly answers.

Will you please be honest with me and tell me why a doctor needs boiling water for the birth of a baby? This is something they don't teach you in school.

DEAR ABBY: My husband and I are making a success of our marriage, the second for both of us. My son, 14, lives with us. My husband's three boys, age 8 to 14, live with their mother, but occasionally come to visit at our house for several days.

At their house, the family lives very informally, taking their meals on trays to eat in the den while watching TV. At our house the evening meal is important as a family gathering and it is eaten at the table. When his boys are with us they often eat quickly and leave the table before others are finished eating.

DEAR ABBY: How can I get the message across to my mother in law when she tells me one of her "stories" that she already had told at least 20 times?

DEAR ABBY: You don't say how old you are, but I assume your mother in law is at least 25 years older, which could account for her forgetfulness.

GENERAL TENDENCIES: The daytime time flies and it is often at the table. When his boys are with us they often eat quickly and leave the table before others are finished eating.

DEAR POLLY: My Pet Peeve is with those thoughtless people who leave grocery carts in parking spaces at the shopping centers. You start to pull into a parking place, maybe the only one left, and there are two or three carts parked in it.

DEAR POLLY: I have heard that one could dig up geraniums and hang them right side down, in the basement for the winter and then replant them in the spring.

DEAR POLLY: My Pointer is for other young mothers. I was given a cradle for my baby but could not find sheets to fit it.

DEAR POLLY: My Pointer is for other young mothers. I was given a cradle for my baby but could not find sheets to fit it.

DEAR POLLY: My Pointer is for other young mothers. I was given a cradle for my baby but could not find sheets to fit it.

# Altamonte Insurance Critic Swofford Gains An Ally

By MARION BETHEA  
WINTER SPRINGS — Altamonte Springs Mayor Lawrence Swofford no longer stands alone in his rebuke against insurance companies with City Attorney Thomas Freeman, at a meeting of City Council last night, citing some discrepancies.  
The matter evolved, innocuously enough, from consideration of general liability and auto insurance for the city to employees hospitalization which was supposedly settled last week after weeks of consideration. At that time, with three companies submitting proposals, Councilman Victor Miller recommended the Southeast Trust Group plan. Councilman Troy Piland voiced the only dissenting opinion contending the city should deal with an insurance company that would rather purchase the insurance from a company in the insurance business. Councilman Herbert Fox injected the company was of the same category as if the city were purchasing stocks and bonds. Piland rebutted it was not a question of "handling money but of handling people."  
Last night, Miller said he was advised by the Southeastern Trust Group that the trust fund already has the legal number of participants in the fund, and therefore cannot accept the city. Miller said that since two other companies submitted proposals, these be considered in the alternative, especially that of Metropolitan Life Insurance Company who, Miller said, had the best plan of the two.  
Freeman said he felt impelled to "rebo" the comments of Piland last week, in that it is more advantageous to deal with an insurance company than a trust type company. This type, he mentioned, has a "prime objective of income for participating members of the trust." Freeman cited also a news story that shuddered the fact Blue Shield and Blue Cross have refused to pay a hospital bill for a Nebraska woman who is the wife of a civilian employee of Corps of Engineers, based upon the fact of rising medical and hospital costs.  
The woman felt she was covered by the insurance as indicated by the Blue Cross brochure, but the company failed to pay although she was not notified she was not covered in the policy.  
It was the consensus of council that Miller should "tell the outfit" (Southeastern Trust Group) and re-negotiate with other companies. Freeman again mentioned the trust group's main function is to produce income for agents or underwriters. A regular in-

# Police Probing Several Thefts

By GARY TAYLOR  
A fatted trailer valued at \$5,000 was reported missing from the 2406 block of Bay Avenue in Sanford. According to Patrolman J. A. Cash of the Sanford Police Department, the trailer was left unattended on the street on Wednesday. It was discovered missing a few days later.  
Leroy Telkamp, 1107 West 20th Street, reported the theft of about \$125 from money boxes on the machines at the Easy Automatic Laundry.  
Patrolman Joe Dillard reported two rooms at the Goldenrod Elementary School broken into, but apparently nothing was taken.  
Clara Mae Bryant, Apartment 15, Lake Monroe Terrace, told police someone entered her residence and removed about \$20 cash and \$30 in food stamps.  
Mrs. Charles Bruno, 321 West 15th Street, told Patrolman George Myers that someone entered her residence and took \$140 in traveler's checks and \$70 cash. Det. Sgt. Johnnie Parker recovered the traveler's checks on 16th Street and most of the money was also found. A wallet and \$27 is still missing.  
Edith Rodgers, 910 Myrtle Avenue, Lake Monroe, told Patrolman D. H. Whitmore that she was working in her back yard when someone entered the house and took a billfold con-

# Editorial Comment Going On Warpath Hurt Indian Cause

When 500 Indians invaded the headquarters of the Bureau of Indian Affairs last month and left it in a shambles, dozens of telegrams and letters arrived in Washington from elected heads of tribal organizations around the country. Most of them wanted to dissociate themselves from that destructive protest. Though they sympathized with some of the goals of the "Trail of Broken Treaties" caravan, they could not condone its violent tactics.  
It is not surprising that responsible Indian leaders now are fearful of a setback in their own patient efforts to right old wrongs and bring about reforms in Indian policy. The lamentable behavior of a few could rebound to the discredit of the many.

The Nixon Administration has made it a primary goal to give Indians more responsibility for the management of their affairs. Its program calls for giving grants to tribal groups so they can provide services under their own direction which in the past had been performed by "outsiders" from the Indian Bureau.  
The attitude of Congress toward this program will hardly be helped by the fact that one of the organizations which has received such a grant for "educational purposes" was instrumental in organizing the seizure and occupation of the Indian Bureau last month.

Many of those who sacked the Washington offices were "urban Indians" — not directly affected by BIA activities. They claim that in attempting to make their way in a society dominated by non-Indians they are victims of

**A Thousand Cheers**  
In that stock market index known as the Dow Jones Industrial, the difference between 1990 and 1,000 is hardly more than a few cents in the value of 30 blue-chip stocks. In the world of Wall Street, however, that single point counts the stuff of history.

Nevertheless we will take those celebrations on the floor of the New York Stock Exchange with a grain of salt. There is probably no chamber in the world that is more likely to ring with cheers one day and be flooded with tears the next.

The bulls and the bears can have their say about what the break through past 1,000 means. If some of them start sounding like numerologists, who find an occult significance in certain magic numbers, chalk it up to too much tape-watching.

prejudice and discrimination and their native American heritage is not recognized or appreciated. If they are genuinely interested in overcoming prejudicial stereotypes about the American Indian, their behavior in Washington did not reflect it.  
Congress and the administration will surely recognize that the "Trail of Broken Treaties" did not represent the Indian population as a whole. What it represented was anger, frustration and disappointment expressed in the form of unlawful and unproductive hostility toward a symbolic target.  
The failure of the U.S. government years ago to fulfill Indian treaties is an understandable source of dissatisfaction among Indians today, but

# Offbeat Ruminations How To Get Rid Of The Cockroach

By EDWARD NEILAN  
Copley News Service  
Now that man has reached the moon, no further seemingly insurmountable challenge remains: how to get rid of the cockroach.  
The cockroach, death and taxes, a third could be added—the cockroach. In some countries there are more cockroaches than people, although all cockroaches are not equally numerous. Cockroaches exist all over the world in 7,500 different species—4,000 of which are still unnamed. There are at least 53 species in the United States.  
The life-style and virtual indestructibility of the 250-million-year-old pest is described in the December issue of Smithsonian Magazine. Author Laura Henning reports in the article that fossilized ancestors of the cockroach have been found in Pennsylvania coals formed in the carboniferous age. Most species prefer humid, tropical climates, but cockroaches have been found from the Sahara to Labrador and aboard jumbo jets and submarines.  
The German cockroach (periplaneta americana) is the largest of the common cockroaches found around the home. Called the "Bombay canary" by British seafarers, it thrives in sewers, damp basements, kitchen basements, and the media cockroach, which measures up to two inches long, has established itself in New York City.  
It arrived in the 1940s, aboard ships from West Africa, Puerto Rico, the West Indies and South America. Because of its size, this roach has been used in the laboratory as an experimental animal.  
Another species, the brown-

handed cockroach (supella longipalpa), has "learned to crave paste, glue and insulation in television sets, where it finds not only food but warmth. It may not venture out for water, since it can in all probability metabolize enough from its food."  
Dr. C. Douglas Mame, technical manager for the National Pest Control Association, said roaches infest many telephones and are particularly fond of household appliances that run continuously and give off warmth.  
The continued success of the

roach is due to several factors. One is that it has only a few natural enemies. Other animals do not like to eat roaches because of their malodorous secretions, a defense mechanism.  
"But the housewife's horror can be the scientist's delight," according to the Smithsonian article. Despite its pest qualities, the same characteristics make the roach a valuable laboratory animal for research in nutrition, metabolism, genetics and cancer.  
Cockroaches used in laboratories are kept alive on a

diet of dog food pellets.  
Research has revealed that roaches are allergic and "harbor four strains of poliomyelitis virus in addition to 40 different types of pathogenic bacteria, including typhoid and dysentery."  
Cockroaches have not been positively linked to the spread of any human illness, though they have certainly been implicated in the transmission of research in nutrition, metabolism, genetics and cancer.

# Tuna Dispute U. S. - Ecuador Rift Needs Repairing

By MICHAEL O'CONNOR  
Copley News Service  
Quietly over the last year, the State Department has been attempting to smooth tempers in the troublesome issue between the United States and Ecuador over the seizure of tuna boats.  
Diplomats would like to work out an arrangement between the two governments on handling of vessels that purportedly violate an Ecuadorian statute of fishing within a 200-mile offshore limit.  
American officials, particularly congressmen close to the domestic tuna lobby, have been quick to criticize Ecuador's seizure of boats and imposition of fines for crossing territorial limits.  
Bills which would restrict aid to Ecuador under the U. S. foreign aid program and others which would give American Navy protection to vessels in Latin waters all received little more than token support in the 92nd Congress.  
Ecuador, and some other Latin coastal nations, have used wide-open policy on seizure of ships and there is no indication that policy has changed, according to State Department sources.  
In some instances, Latin coastal gunboats have fired shots across the bow or used other severe warning devices to prevent American boats from wandering indiscriminately in waters under local control.

Ecuador's problem is compounded somewhat by its rich supply of tuna and related species which become a magnet for large, ocean-going fishing vessels.  
Although Ecuador itself barely taps the potential tuna reserves in its own waters, there are arguments from Latinas that the nation is losing economically by U. S. and other boats drawing on its tuna supply.  
In the 92nd Congress, no new tuna legislation is expected to be introduced unless Ecuador continues to make a headline issue out of seizures.

# Merry Christmas Now Lets Talk About Finances

We are preparing for Christmas and enough family birthdays to put the average man in the porthouse. I checked the bank book. It looked pretty average.  
I took my little car into the shop the other day. I said: "There seems to be something wrong with this bomb. Will you check it out?"  
He phoned me a couple of hours later and said: "Man, there are all kinds of things wrong with that car. Here, let me read you the list."  
Merry Christmas, already.  
The wife said: "Do you know I spent \$67 for groceries today" And that's not really enough for the entire week. It seems like everything costs a fortune these days.  
I said: "Are you telling me? Yesterday I looked at the price of a fish in the store."  
"It wasn't too long ago that I could go on a fishing TRIP on that kind of money."  
I dialed 411 on the phone. Said: "Hello, could you give me the number of the postoffice?"  
"Where does all the money go?" That's a good question, and I have been looking for a good answer. Every month the bank sends me a

# Political Notebook From Here On, We Measure Kennedy

By BRUCE BROSSAT  
WASHINGTON (NEA) — The idea may bore the American people, but the quest for the presidency always begins the moment a given election is over. So, for the Democrats, everybody already knows the name of the man who will be elected. It's just a matter of how long it will take to get there.  
Because Ted will have the big clout, much of the party's probably over-publicized goals in the next couple of years will in fact be secondary stuff.  
You'll read about, or see on television, the battle for "party control," a lot of stir about a new party charter and other reforms to be piled on top of those instituted in 1971. An "interim convention" to draft major policy positions.  
Every wispy bit of conflict will be brought your way, and your living room screen will show the various Democratic leaders scratching their ears in unguarded moments.  
But you can forget most of it. And you can ignore, also, any high-faloot talk from young militants about "taking to the streets again" because George McGovern got elected this year. The demonstration bit has lost its snap. There are better television serials than the young folks' street theater that have worn themselves out and gone off the air.  
What will count is how Kennedy performs and what he says from now on. One major speech from him will be more important than a week's haggling over policies by a couple of thousand or more earnest Democrats in some off-year "platform" convention.  
He'll be leading a Senate inquiry into the 1972 Watergate "bugging" affair and additional matters alleged to be Republican spying and sabotage against 1972 Democratic presidential and other campaigns.  
The nation will watch to see not only what evidence he dredges up, but whether he acts with responsibility and restraint. If his behavior is professional, his 1976 nomination prospects will get a further boost, which at this point they hardly need. But he could be hurt by any descent into rash, emotional, unsupported assaults that take on a strictly partisan flavor.  
With most Americans gone from Vietnam and very likely some sort of cease-fire or other agreement with Hanoi in effect in the not-distant future, Kennedy likewise will be observed closely for his response to this altered situation. Despite his work on the tough Vietnamese refugee problem and his many visits to foreign shores, he is still to be judged by his party and nation in the foreign affairs field and additional matters alleged to be Republican spying and sabotage against 1972 Democratic presidential and other campaigns.  
The article notes that in 1967, a housing project in California had nearly 40 per cent of the hepatitis cases in the Bellflower health area.

"YOU'RE NOT LEADING, YOU'RE BLOCKING THE WAY!"

# One Man's Opinion IRS Dials Wrong Phone Tax Number

By DON OAKLEY  
The American Telephone and Telegraph Company reports that some 22,000 of its subscribers are withholding payment of the federal excise tax on telephone service in protest against the Vietnam war.  
This is an increase from 17,000 in 1971 and 12,000 in 1970. The Internal Revenue Service has been trying to get AT&T to disconnect the protestors' telephones, but the company argues that its only responsibility is to forward the tax money to the IRS, not enforce its collection. If they won't pay the tax, that's the government's problem.  
There the matter rests, for the moment.  
As for the withholders, it seems to be an easy way to have your morality and your convenience too, without getting into trouble with Uncle Sam.

# Jackie Photos: Nix on Such!

The editor of the Italian magazine which published photographs taken by hidden cameras of Jacqueline Kennedy Onassis sunbathing on a nude on her private island of Skorpios has made a strange defense of the ethics of this kind of "journalism."  
"She (Mrs. Onassis) has seen other pictures of her taken in that bathing area on the island," said Mrs. Adeline Tattilo. "She must have known a way was found to photograph her there. She should have been more discreet than to go sunbathing there."  
That is like a burglar contending that the owner of a house he was caught robbing should have known that a lot of crime was going around and should have been more discreet than to leave his door unlocked.  
What the burglar says may be true, but it hardly justifies the act of burglary. Not by any means.

# Letters To The Editor Christmas Parade

Editor, Herald:  
Thank you very much for the excellent coverage of the Sanford Down-Town merchants sponsored Christmas Parade. I believe that this was one of the best parades staged in Sanford during the recent years.  
My wife and I and a friend who is a prominent Sanford business man with his wife and family witnessed the parade from the side-walk on 1st Street in front of the Chamber of Commerce building. Everything in the parade was very fine except for the unruly and unpoliced crowd on 1st Street just east of where we were standing who crowded into the street and defied both the marchers and vehicles.  
They crowded the marchers to close ranks and the vehicles also until both had to stay left of the center line in order to pass. They also closed-in and crowded around the horses with riders in the parade until some of the horses became panicky and the riders had to dismount in order to control them.  
I was very concerned when this happened as panicky horses could start a stampede and the result could be very unpleasant, there was only one policeman who was at the intersection of 1st Street and Sanford Avenue who was available to control anything should happen. He came on down 1st Street a couple of times and tried to control this crowd and move them back off the street, but they defied him and just came right back.  
In the first place many of the Down Town Merchants were quite reluctant about sponsoring this parade and they had type of behavior what can we expect for next year.

# Lyman Sports Coverage Kissimmee Man Is Accused Of Robbery

By GARY TAYLOR  
The Seminole County vice squad joined forces with agents against persons division of the Orlando Police Department and arrested a Kissimmee man for robbery early this morning, Sheriff John Polk said.  
According to Lt. Ed Paden of the Orlando Police Department, Gilbert B. Allison, 22, allegedly robbed a barmaid at knife-point at the Sheridan Colonial Plaza lounge. Two 35 mm cameras were blocked away and the money was recovered.  
According to Polk, the arrest came as "the result of a very intensive surveillance investigation on this subject."  
Polk went on to add that the investigation began in Seminole County but spread to Orlando. Det. Sgt. George Abbeys arrested a 14-year-old youth on breaking and entering charges after Willie Pearl Allen, of 2620 Arlett Avenue, Forest City, caught the youth inside the residence. He reportedly had money in his pocket belonging to the complainant.  
According to the arrest

# Lyman Sports Coverage Society Gives Thanks

On behalf of myself and the Lyman High School Booster Club, I would like to thank you and your Sports Department for the excellent coverage you have given our athletic activities this year.  
I would particularly like to commend the Sports Department for their unbiased coverage of all the high schools in the county. This is something I cannot say about two of the largest newspapers in the area.  
One has to be a parent to appreciate the thrill those kids get when after playing their hearts out, to see a little recognition in print. To be lucky enough to appear in a picture is an extra bonus. This is something I cannot say about two of the largest newspapers in the area.  
During the last three months, since the start of school, The Key Club of Seminole has been doing an outstanding job. I think they deserve the highest recognition.  
My job, as Lt. Governor, is to advise and work with the clubs of Orange, Osceola, and Seminole counties. Working with your president, Mark Carl, has been a highlight this year. Mark has shown tremendous desire to make the Seminole Key Club a success. I cannot say enough about their improvement. I felt it only fitting that you be aware of the fine work of these guys.  
In closing, I would like to thank you and the faculty of Seminole High School in assisting in the building of a topnotch club.  
Insuring Tomorrow thru Service Today.  
Jim Klindt, Lt. Governor, Division 6 Florida District, KCI

**Lions Mean Business**

After opening the season with two relatively easy victories they were still a few skeptics (including yours truly) as to the real talent of the Oviedo Lions basketball crew. But after their victory over Lyman at the Greyhound home base last Saturday we figure it's time for a long hard look.

The Lions lost the big name stars from the team that won the Orange Belt title and a trip to the playoffs. And they were not supposed to have the same type of club this year. But evidently the newcomers were not told of this and they've picked up where the Lions left off last year.

It's tough to rebuild a team after losing the caliber of players coach Dave Miller did last year. And it's a real tribute to the Oviedo coach to quickly mold a club around the returning veterans as he has done.

Lyman's basketballers will get a welcomed break in the action with an open date on their schedule.

Presently the Hounds' coach, William Moore is recuperating from emergency surgery for removal of his appendix. He was not available at either the Deland game or the Oviedo tilt last weekend. He is expected to return late this week.

And one of the top veterans of last year's club, Jerry Carter, suffered a cut on the index finger of his right hand and it required five stitches to close the wound. So, he too will be sidelined for a few days.

**Really 'Steel' Bowl?**

Jacksville coach Tom Wadain was telling of how the Steel Bowl in Pittsburgh was called the "STEEL BOWL" by one of the Providence coaches prior to the Dolphins participation in the tourney.

But a look at the boxscore of the tourney final disclosed that the invading Dolphins shot 21 from the charity line while the host Duquesne Dukes were awarded only 22.

But 6-10 Butch Taylor did foul out for the Dolphins and in the personal foul department it was the Dukes with 18 and DU hit with 22.

**Progress 'Hurts' Lyman**

Lyman's fine wrestling team of last year, which posted a 13-0 record, was perhaps the hardest hit of the county schools when the doors opened at Lake Brantley High School.

Presently the Hounds are preparing for their season opener with Satellite Beach after having two matches cancelled because of Lyman's participation in the Space Bowl Football game.

Scott built a strong club last year, one which had trouble with only one foe, Satellite Beach. And now although many members of that team were underclassmen Scott must rebuild his team. No less than four starters were lost to Lake Brantley.

Two of the real standouts were Bruce Hill, a 95 pounder last year who lost but one match and Alphonse Franklin, a 145 pounder who was really coming on strong at the end of the 1971-72 season.

There were several others who played key roles in the 13-0 regular season mark of the Hounds last year and who will help form the nucleus for Lake Brantley's team this season.

Meanwhile the Hounds are preparing for their season opener with Satellite Beach after having two matches cancelled because of Lyman's participation in the Space Bowl Football game.

The fact that they went unbeaten last year is enough to have Satellite really after the Hounds. But add to this the fact that Lyman was the only team to inflict a defeat upon the Cape Coast Conference champions of last year and you have the stage set for an exciting opener.

The leader of the Greyhound grapplers is junior Glenn Hill who equaled the team's winless record of last year when he won all 13 of his matches, 10 by falls.

Speaking of the Lyman wrestling team they were really set back in their practice sessions by the Greyhound footballers participation in the Space Bowl. Many of the grapplers were on the grid team.

Florida Air, one of the teams on the Lyman schedule has already opened its campaign, winning its opener in easy fashion.

Grappling, high school style, is picking up in the county what with Lake Brantley and Seminole following Lyman's lead of organizing the sport on the varsity level.

**Bench Doing Fine Says Team Doctor**

CINCINNATI (AP)—Surgeon performed on Cincinnati Reds' catcher Johnny Bench should result in "no impairment" in his ability, the team's physician says.

Bench's mother, Katie, said that before going into the operating room "he was nervous, but he wasn't going to let it show."

Dr. George Ballou, speaking at a news conference after the operation at Christ Hospital Monday, said Bench should be ready to play by the Reds' 1973 opening game.

**WRESTLING**

Bench, the National League's Most Valuable Player in 1970 and 1972, underwent surgery for removal of a spot on one lung.

"Examination of the lesion revealed no existence of a malignant tumor," Ballou said. "Tests are being run on this to determine the cause."

"All of these things, barring complications, would indicate a high and complete recovery," Bench was recovering today in the intensive care unit at the hospital. His condition was listed as good.

Ballou said Bench should be hospitalized for seven to 10 days, and should make complete recovery within about eight weeks.

Ballou said it was necessary to remove "a small amount of lung tissue." But he added it was so small it couldn't be measured in percentages and wouldn't affect Bench's vital capacity in any way.

Bench's mother, Katie, said that before going into the operating room "he was nervous, but he wasn't going to let it show."

**Wildcats Short Again**

By ED SHEARER  
Associated Press Sports Writer

Has Kentucky, off to its poorest basketball start in 46 years, finally found itself? Coach Joe Hall thinks so, and with good reason.

The Wildcats were trailing defending Atlantic Coast Conference champion North Carolina by 26 points, 59-33, early in the second half Monday night when they finally made a charge only to fall short 76-70.

It was the third consecutive defeat for Kentucky, which won its season opener, and marked the Wildcats' poorest four-game record since the 1962-63 season when they lost their first four games.

In the midst of defeat, Bobo Johnson and Wee Willie Wilson teamed up to defeat Chris Markoff and Mike Webster. Mike Graham put the pin on "Slane's valet," Steven and in the match between Paul Jones and Bob O'Brien, Graham was triumphant.

**Another Division Tilt**

**Raiders Playing Host To Valencia '5'**

By GARY TAYLOR  
Staff Writer

The Seminole Junior College Raiders will be going after their third consecutive Division II title against the Valencia Matadors of Orlando in an 8 p.m. game at the Seminole High gym.

In their last outing, the Raiders put on a strong second half effort and posted a 63-53 come-from-behind win over the St. John River Junior College Vikings of Palatka.

The Raiders are currently ranked sixth in the state, one point behind the Lake City Timberwolves, another Division II foe that the Raiders set down 77-21 earlier this season.

As an extra attraction, an archery demonstration is scheduled for halftime tonight. According to Athletic Director and Head Coach Joe Sterling, Richard C. Simms of Orlando is up on the exhibition.

Simms has 30 years experience in hunting and tournament shooting. He was accepted into the Professional Archery Association in 1961.

He has also been an archery instructor and has been instrumental in organizing many archery clubs.

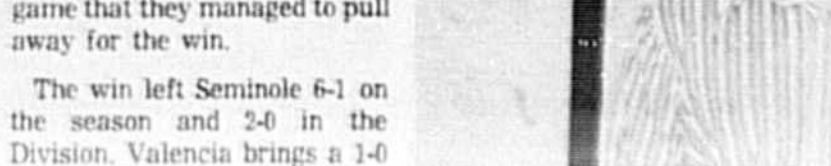

The Raiders were sluggish against the Vikings last Saturday night. They trailed much of the time and it wasn't until the final seconds of the game that they managed to pull away for the win.

Bennie Shaw, the number two scorer in the state, is currently averaging 21.1 points per game. Four other Raiders are also averaging in double figures. Willie Paulk is hitting at a 19.4 points per game clip. Bob Hurst is averaging 13 ppg. Wright is hitting 11.1 ppg. and Gerald Owens has a 10.1 ppg average.

Shaw, in addition to being the leading scorer for the Raiders, is also the top rebounder. The Orlando freshman is also ranked statewide in assists, field goal percentage and free throw percentage.

Bob Hurst, who has 26 assists going into the St. Johns game, is ranked in that department. He also had eight recoveries to his credit, but was hindered by 11 bad passes in the first six outings.

Most valuable player award went to Kyle Peters at the recent banquet held for the Altamonte Saints midget football team. He is shown with his coach, William Rierce (left) and his father, John Carr. The banquet was held at the S and S Cafeteria in Winter Park. (Ann Riley Photo)

**'Fluittless' Knights Bow To South Florida**

By HERKY CUSH  
Herald Sports Editor

ORLANDO—Florida Tech's Knights just ran out of "flair," Eddie Fluitt says that is, the 6-8 senior center of the FTU capped, who re-injured his knee in the first half of last night's meeting with South Florida.

At the time of the injury to Fluitt the Knights were on top of a 24-21 score. They went on to lose to the "Golden Brahmins" by a 106-86 count, their first loss ever on the Lake Highland Prep court.

Den Williams, coach of the talent loaded Golden Brahmins had a great deal of praise for the Knights, calling them one of the finest shooting teams he's seen.

The excellent shooting displayed by the Knights early in the game forced Williams to change his Brahmins from their zone defense to a man for man setup.

"They sure do have a good shooting club," said Williams. "And the way they hit the boards is something too."

FTU could have hit the boards a lot stronger had he been fortunate enough to have the services of Fluitt who re-injured his knee with seven minutes remaining in the half. He had just scored a pair of free throws to put FTU in front, 32-31, when he headed up court and his knee gave out.

Arnett Hall, the game's high point man, sank a fielder to put Tech on top of a 34-31 lead but it didn't last very long. A pair of hoops by South Florida's Larry Berrien, the Brahmins' smallest player, put the visitors back in front.

FTU led on two other occasions in the half, 36-35 and 38-37 with Pete Haas getting both of the hoops. In fact Haas scored the final three hoops for Tech in the half. But the Knights trailed by five, 45-40 when the first season came to a close.

South Florida had its big 6-9 center Fred Gibbs get into foul trouble but it really didn't seem to bother the Brahmins offensive machine.

Bonner was one of six South Florida capers to hit the double figures. John Kiser and Berrien were the point leaders, each hitting 18 markers.

The Knights, with Hall and John Smith getting hot, were able to keep close to the Brahms the entire evening but could not contain the fast moving offense of the visitors to get back.

South Florida opened up an 11 point lead at 86-69 with a little more than seven minutes to play but Tech came back to win 101-86.

The game was a classic, with both teams playing hard and fast. The Knights, led by their coach, Coach Bill Bonner, was inserted into the lineup in the second half and the former Pennsylvania star replied by sending seven doubleteckers through the cords.

Arnett Hall, the game's high point man, sank a fielder to put Tech on top of a 34-31 lead but it didn't last very long. A pair of hoops by South Florida's Larry Berrien, the Brahmins' smallest player, put the visitors back in front.

Bill's as the best high school warrior up drill in the nation. He arrived at the game well rested and ready to play. He was treated at 7:30. The young Patriots go all out in the crowd-pleasing show, spinning balls from both hands, on a stick and even riding a unicycle.

John Collins, another Captain and wingman, who hit five field goals for 10 centers in last outing, rounds out the starting quartet. Also expected to see plenty of action is the team's big man, 6-foot-4 Freshman Rick Andrews, who Coach Hoover hopes to help control the offensive and defensive boards for the Pats.

**Lake Brantley Faces Trinity Prep Saints**

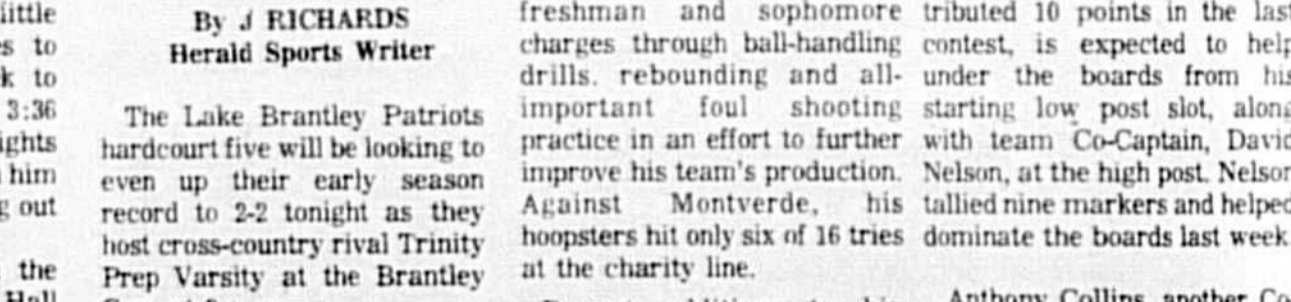

By J. RICHARDS  
Herald Sports Writer

The Lake Brantley Patriots hardcourt five will be looking to even up their early season record to 2-2 tonight as they host cross-country rival Trinity Prep Varsity at the Brantley Gym at 8 p.m.

Starting additions to his recent first from the football team, pointman Dan Anquilli and wing Steve Hargis have earned starting roles tonight by virtue of their performance last week. Back-up men at these positions, Bob Avery and Chuck Gibbs are also expected to see plenty of action for the Pats.

Curtis Merrill, who contributed 10 points in the last contest, is expected to help under the boards from his starting role. Also expected to see plenty of action is the team's big man, 6-foot-4 Freshman Rick Andrews, who Coach Hoover hopes to help control the offensive and defensive boards for the Pats.

**Cheerleaders for the Altamonte Saints midget football team and their sponsor are (left to right) Vickie Crouse, Susan Carr, Krista Carr and Pam Carr.**

**From Playoffs Raiders Eliminate Jets, 24-16**

By ERIC PREWITT  
Associated Press Sports Writer

OAKLAND (AP)—Even in defeat, New York Jets' quarterback Joe Namath has a knack for upstaging other football players.

"Joe was on target all night," Jets' Coach Weeb Ewbank said Monday night after Namath passed for 400 yards in a 24-16 loss to the Oakland Raiders that killed the Jets' hopes of making the National Football League playoffs.

The Raiders kept the Jets out of the end zone after Namath hit tight end Rich Caster on a touchdown pass covering 49 yards in the first quarter. That score put the Jets ahead 7-0.

Two interceptions near the goal line helped the Raiders. Lamonia put the ball into the end zone on a perfect 39-yard scoring toss to Fred Biletnikoff as the Raiders took a 16-7 lead in the second quarter, and a pass to Ray Chester in the fourth quarter produced a 68-yard touchdown play and the final 24-16 margin.

Namath left the game briefly after suffering a slight ankle injury. He waved a hand off the field to the loud cheers of Oakland fans.

The touchdown pass to Chester was the biggest Oakland offensive blow of the night. It came right after Bobby Howland's third field goal had cut Oakland's lead to 17-16.

Lamonia went to Chester, who was all alone behind the New York secondary, after taking a handoff to running back Charlie Smith on a third down and half-yard situation.

Had Namath hit 118 yards to become the ninth NFL rusher to hit the 1,000-yard mark this season, the 35-year-old quarterback would have a lot less than Namath, passed for 202 yards and two touchdowns in the nationally televised game.

The loss left the Jets at 7-6 and eliminated their chance of winning the American Conference's wild card playoff berth. The Raiders, as champions of the AFC West, are 9-3-3 and heading toward a playoff opener on the road against Pittsburgh, or possibly Cleveland, on Dec. 23.

A WRECKED car (left) can be repaired just like new (right) if you take it to the right place. That place is Seminole Paint and Body Shop.

## At Seminole Paint And Body 'Complete' Repair Offered

By ANN SIECZKOWSKI  
With traffic on the streets and highways what it is today, accidents are much more common now. And finding a reputable repair service is quite a problem in some areas. But, we hasten to add, this is not true in Sanford and Seminole County. Because, David Redwine and his crew of experts in the repair and paint business at Seminole Paint and Body Shop, are on the scene. This shop specializes entirely in automotive body work. "I specialize in the repair of heavy wrecks," Dave told us. The shop, which is located at 2540 South Myrtle Avenue, is especially geared to the repair of wrecked cars; they do all of the work, from straightening out the body to putting on a new paint job.  
Fast service, guaranteed work and satisfied customers are their mark in trade at Seminole Paint and Body. "We are set up to take care of insurance jobs," David said. He is in the know about the intricacies of filling out the mountains of confusing insurance papers required for this type of work, and because he has only top quality of repairmen and painters on his staff, he is confident that the work will meet all of the stringent requirements of the insurance companies. Since David and his staff are

ENCIL ROBINSON (left to right), Edith Jones and Janet Fraser, residents of the Seminole Lodge, sit around the Christmas tree discussing Santa Claus' annual ride from the North Pole. The Seminole Lodge offers a happy, peaceful atmosphere for its guests.

## Carlando Building Plans Disclosed

ORLANDO — Carolando Corporation today disclosed plans to build a 500-room hotel and convention center in the second phase in a multi-million-dollar resort complex adjacent to the main entrance to Walt Disney World.  
In making the announcement at the company's annual meeting, Ben C. McGabey, president, said that preliminary arrangements to finance the new project were underway, and that he hoped that construction could start within ninety days. The hotel-convention center is tentatively scheduled for completion in the spring of 1974.  
McGabey also reported to stockholders that construction of the 960-room Carolando Motor Inn is proceeding on schedule. The initial 480 rooms at the multi-cluster inn will be ready for occupancy within thirty days, and the remainder of the units will be finished by February 1st, he said.  
McGabey pointed out that the decision to go ahead with the hotel convention center was made following an in-depth study by the nationally known Real Estate Research Corporation. The study indicated that there was an immediate need for such a facility to accommodate the heavy influx of group and convention business being generated by Central Florida attractions.

## For Cruises Europe Is The Favorite

By ANN SIECZKOWSKI  
Are you packed yet? Well don't wait too long. The dates of departure from Orlando are January 20, February 10 or March 10 and more often from Miami. Departures are, oh well, to Europe, dahlings, for an unbelievable exciting eight days, or longer, if you wish. The eight-day fling is now the thing.  
Caribbean Cruises has this grand eight-day trip to Europe now. You can have your choice of four delightful gourmet days in Rome and three days in swinging London, or four days in fashionable Paris and three days in theatrical London, or just the full wonderful seven nights in sporting, gambling, decadently or just laid in un-ground London. You can combine almost any two cities for this really marvelous short vacation to revitalize those spirits which winter somehow and sometimes frazzles.  
The vivacious and expert traveler, Judy Schlenk, advises that if last year is any indication, it would not be well for you to procrastinate too long. "More making your reservations for this fantastic eight-day vacation. Europe is now a year-round vacation land.  
But if you don't want to go to Europe, we have another splendid suggestion from perky, pretty Bertie, another lovely from Caribbean Cruises in the Winter Park Mall, who just returned from a trip to completely extraordinary Mexico — and that is right here on our continent — very convenient and completely, totally fantastic, according to Bertie. Bertie visited the ruins in the Yucatan, Chichenitza, Mayan, Uxmal and Toltec and the stories behind the ruins which the very informed guides relate to those on the tours is absolutely fascinating. Get into the swing of things for sure, with a climb up the pyramids — there are steps going up which are not too difficult to traverse, but on the way down on the other side, Bertie said the steps are straight up and down and there is a rope for the inexperienced climber to cling to on the way down. "It was so exciting — you just can't imagine."  
And for those of you who like to combine shopping in their vacation plans, Bertie recommends the market place outside Mexico City called Lalaguanilla. She says that it is the largest one in the area and if you can find the Spanish words, you can really do some fantastic bargaining for the lovely toiled leather goods as well as the quite beautiful hand seen articles. Next fall, Caribbean cruises will be booking the first cruises to Mexico and this will be on a ship called the "Bolero." You can take your car along with you, although the experts do not recommend driving in Mexico. "It is really wild," according to Judy.  
If you rest after your pyramid climbing and shopping, slip off down to Cozumel — this is a real "get-away" island. Fishing, skin diving, and all other water sports are featured on this island surrounded by beautiful reef. It is one of the few remaining unspoiled places to visit.  
We recommend that you get in touch with Caribbean Cruises and let one of those travel experts help you plan your most fantastic vacation you ever had. Call them in the Winter Park Mall today.

## Eike A Private Club Lodge Is A 'Happy Place'

By ANN SIECZKOWSKI  
One of the happiest places in Seminole County is Seminole Lodge. It is a nursing, convalescent center, but you would never know it. It seems more like a private club for folks who enjoy being together.  
Seminole Lodge is owned and operated by Mr. and Mrs. Donald Graham, whose faces reflect joy in being with people and who perhaps explains the general atmosphere of contentment which one feels upon entering the lovely spacious lobby. Flowers are placed in the most strategic places and paintings on the walls loved by members of the Sanford-Seminole Art Association greatly enhance the tastefully and comfortably furnished lobby and rooms. The center of a function in one of the sitting areas is a piano donated by the Medical Auxiliary, which affords much pleasure for the guests at the Lodge.  
Seminole Lodge is small, has only 40 beds. The staff of 25 highly competent personnel has one goal, and that is to keep all of the residents there comfortable and content. Graham stresses a home-like atmosphere at the Lodge and there is a family-like relationship between staff and guests, with individual attention given to the guest needs.  
The guests are free to move about as they wish and there is expert medical attention for those who require it. Visitors are welcomed anytime. Three times each week, a social worker comes in to plan programs to entertain and enrich those who live there.  
Several different groups visit the Lodge on a regular basis to conduct Bible classes, discussion groups and to provide music. Special entertainment is arranged by the nursing staff for those celebrating special days — such as anniversaries or birthdays.  
Because the Grahams believe in providing the best care possible for their guests, a continuing program of education is carried out for the personnel.  
At Seminole Lodge, the order of each and every day is highly efficient, compassionate care, where service is provided with a friendly attitude and interest and concern for the welfare and happiness of each resident.  
We cannot think of a better place if you have been faced with the need for nursing or convalescent care, either for yourself or for a loved member of the family. If such a need is present in your life, do go down and talk with the Grahams at Seminole Lodge, take a tour of this very fine institution, and be assured that here the very best care is available.

## Girl Scouts Sing For Needy

Girl Scouts of Seminole County will give their Annual Christmas Carol Sing in Seminole Plaza Dec. 16 from 2 until 3 p.m. All Girl Scout troops in Seminole County have been invited to participate in the event.  
Each girl will bring an item of non-perishable food, which will be collected by the Salvation Army for the needy families of Seminole County. This event has become a tradition for Seminole County scouts and is very important to the Salvation Army's efforts in assistance to needy families in the county.  
This will be the 8th year for the Christmas Carol Sing by Seminole County scouts. Anyone interested in this worthy service project may bring a food donation to be given to the Salvation Army during the Sing. The girls will gather in the Plaza Mall in the center of the shopping center. Brownies are urged to bring sit-ups so that they can be seated during the program. Cadettes will assist as lostesses. The event is being coordinated by Senior Scouts and the Choir leader will be Janice Hatcher. The master of ceremonies will be Kathy Arlynn.

# Grape Juice Fraud Starts Food Probe

By JEANNETTE BRANN  
Copley News Service

LOS ANGELES—The young girl came into the attorney's office with a shocking story. In the supermarket where she worked, she had seen the manager take bottles of commercially produced grape juice and pour them into empty bottles which he then labeled "Organic Grape Juice, a Health Food."

The newly bottled juice then was stamped with a price far higher than the original cost, she said.

"Isn't that illegal?" asked the girl.

"Isn't it fraud to deceive the public in that way?"

Those questions started the young attorney, David Caplan

of Los Angeles, on a new career, that of health food investigator.

"Like most other consumers, I have always thought of the health-food industry as being pure," he said in an interview. "Now I know that it is not."

Caplan began by sending a law clerk out into the city to ask both producers and consumers one question: What does organic mean?

"We found a wide divergence of definitions," he said. "Some thought organic foods had more nutritional value; some thought organic referred only to the fact that no insecticides had been used in growing them."

"And we discovered that no governmental agency ever has defined just what the word 'organic' means."

Next, a task force of lawyers and law clerks conducted a year-long investigation of distributors who termed their products organic foods.

At the end of the investigation, Caplan initiated a class action lawsuit against the

distributors who, he said, were most fraudulent in palming off commercial products grown with synthetic fertilizers as "organic," after jacking up the price 30 percent.

"Food manufacturers in the

past have lobbied against such labeling," said Caplan. Caplan's aim is to demand exact and honest labeling.

**CONTEST RULES**

10 football games this weekend are placed, one in each ad on this page. Indicate winner by writing in the name of team opposite the advertiser's name on the Entry Blank. No scores. Just pick winners.

Pick a number you think will be the highest number of points scored in any one game on this page and place this number in the space provided in Entry Blank. This will be used to break ties.

One entry blank only to each contestant. Entries must be brought to the office of this paper or marked no later than Friday, Dec. 15.

**CASH PRIZES**  
TO BE ANNOUNCED EACH WEEK

**First Prize .... \$10**
