SUCCUMB IN BLAST NEWPORT

List Continues
Mount, Doctors
Predicting That It
Increase to 45

Naval Hospital

Patients Are Taken
Escape As Explosion
Occurs Last Night

NEWPORT, R. I. Aug. 19.—A scalding boiler explosion which brought to an end a close of 676 excursionists were leaving the port harbor aboard the Mackinac last night taken a toll of 29 lives to

throughout the night and early the death toll mounted. In addition to the dead, two are seriously injured and 52 seriously injured. Physicians at naval hospital predicting that they expected the list to mount to at least 45 the next few hours.

It was nothing new to Ale L. Wood to be elected recording secretary of the Jacksonville (Fla.) Trades and Labor Assembly. He is now starting his 50th term in that office.

DUTCH ANDERSON BELIEVED ON HIS WAY TO ATLANTA

Atlanta Police Tipped Off
That Notorious Criminal
Is Headed That Way; Note
Found by Orleans Police

ATLANTA, Aug. 19.—(AP)—Atlanta police and Fulton County officers were guarding the road from Chantanooga on the watch for a man who looks like George "Dutch" Anderson, pal of Gerald Chapman, notorious mail robber and killer.

Earl Randolph, chief of police of Muncie, Ind., where Anderson is accused of killing the inhuman against Chapman, telegraphed Chantanooga and Atlanta authorities today that a man answering the description of Anderson left Chantanooga this morning with another man and a woman.

Local officials here last night had not apprehended any such party as described by the Muncie chief. County officers along the road from the Tennessee city at Atlanta have been requested to be on guard for the appearance of any one resembling Anderson.

Anderson is believed to be making his way to the Florida Everglades, regarded as a hiding place and rendezvous for criminals.

New Orleans Search Begins
NEW ORLEANS, Aug. 19.—(AP)—George "Dutch" Anderson was being sought here today following the finding of a note late Tuesday signed with his name, which indicated that Anderson, pal of Gerald Chapman, notorious mail robber and killer, may be in this city.

The note, written on cheap stationery, was found by George Vienne, attorney, in the front seat of his automobile which was parked in the business district. It said: "To the New Orleans police department: I hope you find this." (Signed) "Dutch" Anderson. "P. S. Gerald Chapman and myself are both innocent."

Another "Note" Found
INDIANAPOLIS, Aug. 19.—(AP)—A threatening letter warning him to "make peace with your God" and signed "Dutch" was received Tuesday by Harry C. Webster, superintendent of the protective division of the Indiana Bankers' Association. Webster has been seeking Anderson who is wanted in connection with bank robberies at Eaton, Bourbon and Brook, Ind. The letter to Webster, which was mailed in Indianapolis at 5:39 p. m. Monday, read:

"King comes first and then you. You had better make peace with your God. I'm in town. Dutch."

The King referred to is probably W. J. King, a private detective of Columbus, Ohio, who has received two threatening letters signed "Dutch."

Webster scoffs at the idea that Anderson wrote the letter and that he is in Indianapolis. Police also are not inclined to believe that he is here.

Much Damage Caused By Storm In West

CHICAGO, Aug. 19.—(AP)—The weather returned to the first pangs in the middle west while a rival of the early July heat wave sent mercury skyrocketing to record heights in parts of Kansas and Missouri. Severe rain and hail storms ploughed destructive courses through southeastern Iowa and southern Illinois yesterday, bringing vivid memories of the tornado disaster of mid March.

Cooler weather is predicted today for the heat belt where yesterday it was possible to fry eggs on street car rails. Damage to crops and property is estimated to approximate \$1,000,000.

MacMillan Expedition May Be Compelled To Abandon Principal Object Of Trip

ENGLAND'S PART
IN PEACE MOVE
TOLD BY CURTIS

Oxford Man Declares Great
Britain Must Make Certain
Concessions in Order That
Peace May Be Assured

WILLIAMSTOWN, Mass., Aug. 19.—(AP)—Statesmen are coming to the view that in order to create a real state of peace in Europe and the world at large it is necessary for Great Britain to do what it dislikes doing just as much as the Democracy here dislikes doing, giving certain guarantees to the various powers in central Europe with regard to their frontiers, guarantees which may in unforeseen circumstances involve us in war.

Thus spoke Lionel Curtis of Oxford University in the last conference on the British Commonwealth of Nations while discussing the proposed security pact between Great Britain, France and Germany.

Raps Articles 10-16
As to whether the British dominions might ratify the pact, "it might be decided," he added, "that the best thing is for Great Britain to give the guarantee and let the dominions approve or disapprove. I don't believe this would disrupt the commonwealth."

Mr. Curtis also had occasion to refer to Articles 10 and 16 of the covenant. "I think," he said, "they are an unmitigated failure and an unmitigated nuisance. At the moment when Ireland was being admitted by the assembly into the League of Nations, I happened to be there in the middle of the Corfu incident. The thing that impressed me was that everybody there was striving for peace, and there was a general conspiracy of silence with regard to Articles 10 and 16. Everyone seemed to feel indignantly that if anyone attempted to raise articles the whole thing was hopeless."

Canada Breaks Away
Dr. Duncan McArthur of Queen's university, Kingston, Canada, said there was an overwhelming objection in Canada to being associated with the United Kingdom in the security pact and that Canadians preferred an elastic arrangement to the United Kingdom in the future without submitting themselves.

So Robert Borden, former prime minister of Canada, expressed the conviction that war could not be outlawed by force, but this could be accomplished only by education of popular opinion.

Professor Smiddy, minister plenipotentiary of the Irish Free State at Washington, asserted there could be no settlement of the boundary dispute except through the absence of a boundary. He hoped that history would ask to come into the Free State within the next five or ten years, and declared the economic developments and tax laws planned for the free state were expected to attract labor.

Sanford Unit Wins Competition Match In Machine Gun Fire

Company D, one of the Sanford units of the Florida National Guard now in camp at Camp Johnston at Jacksonville, has come into permanent possession of the Eleanor Louise Tupper trophy for machine gun competition by virtue of winning it for the third time, according to a telegram received here this morning from Capt. J. C. Hutchinson of the company.

Since the organization of the Sanford units of the national guard several years ago, these units always have taken an active part in the competition matches at the annual encampment at Camp Johnston and have played a large part in the state organization, having at times probably the largest contingent in the state on a per capita basis.

Acute this summer, running true to the hopes and expectations of the officers of the Sanford units, the guards have won what is considered the highest honor that can be bestowed upon a company or unit of the Florida National Guard in competition matches.

In the machine gun competition 12 marksmen are selected from each company and these compete for the various prizes and honors the Sanford team are: Capt. Hutchinson, Sgt. Bell, Corp. Stevens, Pte. Kennedy; Privates Black, Pate, Marshall. The highest score was made by Sgt. Robert Grier.

Judge Edward C. Darlington, of the Tampa juvenile court, following an inspection tour of the homes for boys and girls at Marianna, and Ocala and the school for the feeble minded at Gainesville, stated that this type of institution in Florida was maintained at a standard equal to that of any in the United States.

UNITED STATES AND BELGIUM AGREE ON DEBT

Remission of Interest Upon
Loans Preceding Armistice
And Part of Interest On
Balance Is Offered By U.S.

WASHINGTON, Aug. 19.—(AP)—An agreement for funding the Belgian war debt to the United States with remission of all interest on loans preceding the armistice and part of the interest on the balance is offered by U.S. commissioners.

WASHINGTON, Aug. 19.—(AP)—The program, approved by President Coolidge at Plymouth Vt. Monday, was described as recognizing "a heavy moral obligation" growing out of assurances given by President Wilson during the Versailles peace conference and also the right of Belgium to particular and special treatment by the United States.

Subject to ratification by Congress and the Belgian Government the agreement provides that \$171,750,000 loaned to Belgium during the actual fighting with Germany shall be paid free of all accrued or future interest. The Belgians had insisted that the loans represented in this amount should be considered a debt by Germany to the United States because such a proposal "was accepted by President Wilson at the peace conference."

Such transfer responsibility from Belgium to Germany was refused by the American commission, but it declared that while no legal obligation rests upon the United States in the matter there does continue a weighty moral obligation as a result of assurances given which entirely differentiates this sum from all other debts due the United States from foreign countries.

In consequence, the agreement laid down schedule of repayment for the pre-armistice loans which provides that Belgium shall pay \$1,000,000 in 1926 and the same amount in 1927, with increases in each of the next four years until in 1932 the total payment becomes \$2,000,000. It will continue at this figure until 1937, when a final payment of \$2,200,000 will be due.

The post-armistice debt was fixed at \$246,000,000 and was created in 1922. While interest on the debt is at the rate of 3 1/2 per cent the Americans agreed to forego a part of the interest for the first ten years, and arbitrary amounts were established, amounting to a reduction of nearly \$60,000,000.

The settlement is considered to be effective from June 15 last, and for the first year, Belgium will pay the United States \$1,440,000 in interest on the post-armistice debt and \$1,000,000 principal of a total of \$2,440,000. The second year, the total payment will be \$2,100,000 of which \$200,000 will be interest and \$1,900,000 principal.

Total is \$9,772,500. The charge for interest will increase sharply in each succeeding year, and the amount for principal will increase at a lesser rate, until in the eleventh year, Belgium will pay \$8,172,500 interest and \$1,500,000 principal a total of \$9,672,500.

Payment thereafter will remain in excess of \$9,000,000 per annum until the full term of sixty-two years has run out and the debt has been extinguished.

On the post-armistice debt, Belgium will actually pay during the sixty-two years \$10,000,000 as an interest charge in addition to the \$246,000,000 of principal.

Although the theory of suicide has not been abandoned entirely by officers, the inquiry was ordered postponed pending a complete investigation. State detectives have been requested to aid local authorities working on the case.

Thomas' body, stripped of all clothing, was found early last night by friends who went to his home where he failed to appear in town during the day. The body was hanging at the end of a stout cord which was attached to the ceiling. Thomas had been dead approximately twenty hours, physicians said.

A physician who examined the body reported that death was not caused by strangulation. It was stated that the man's neck was not broken. Others who examined the body before it was cut down are said to have stated that Thomas' feet were touching the floor and it is believed he could have adjusted his body so as to prevent choking.

Thomas was 33 years of age. He was said to be in good health and so far as known had no financial troubles or other difficulties. He came here about eleven years ago from Cleveland, Ohio, and was engaged in the tailoring business.

COUNSEL BARES LIFE HISTORY OF BOY SLAYER

Defense Tells of Walk Life
And Midnight Orgies In
Attempt to Prove Richmond
Youth Is Crazy By Drug

RICHMOND, Va., Aug. 19.—(AP)—The life history of young Rudolph Disse, alleged triple murderer, was laid bare in Hustling's court Friday as defense counsel presented testimony which they hope will save him from the electric chair.

It was the history of a willful, possibly even a "bad" boy. It was an history illustrated with pictures of selfish inconsideration of his own family, of a wild free love for the wife of another man and of midnight orgies at busy and girls, crazed by the use of narcotic drugs, resulting in brutality and leading, finally, to the tragically the morning of July 28 when three persons lost their lives and another was seriously wounded as young Disse, in a fit of jealousy set out "to get" his sweetheart and his rival and also killed a police officer who "tried to stop me."

It was one of the most tense and exciting days that Hustling's Court has ever known, a day which saw the breaking of the spirit of the debonair youth of twenty years, who, when first arrested, readily admitted officers have testified, but he had killed three persons.

Today, this young man who has heretofore given more of his attention to his dress and toilet than to the developments of his trial, and who has not seemed to feel the overhanging shadow of the electric chair, broke down.

Disse cried in the court room, cried long and loud, and today, his spirit broke as his aged mother—the mother of thirteen children—took the stand as the second defense witness and sought between her sobs and tears, to tell the story of his early life. When she finally became hysterical, he was taken from the room. Disse could stand the strain no longer, and as he cried, his aged father, who had preceded the mother on the stand, cried too.

Then followed many witnesses, boys and one girl of Disse's age and Disse's set, who swore to the jury the kind of parties they had frequently indulged in and testified that Disse had been an habitual user of narcotics.

It was on this testimony that defense counsel laid great stress in their desperate effort to save Disse's life by building up the theory that he was abnormal and therefore not responsible before the law for his actions on the morning of the twenty-eighth of last month when he shot and killed Mrs. Vivian Thoinet Press, Carter, and Policeman J. Harvey Burke.

Death Of Veteran Being Investigated By Carolina Police

BRANCHVILLE, S. C., Aug. 19.—(AP)—State, county and city officers last night were endeavoring to clear up the mystery surrounding the death of E. J. Thomas, commander of the Branchville post of the American Legion, whose life body was found last night hanging from the ceiling of his room.

Although the theory of suicide has not been abandoned entirely by officers, the inquiry was ordered postponed pending a complete investigation. State detectives have been requested to aid local authorities working on the case.

Thomas' body, stripped of all clothing, was found early last night by friends who went to his home where he failed to appear in town during the day. The body was hanging at the end of a stout cord which was attached to the ceiling. Thomas had been dead approximately twenty hours, physicians said.

A physician who examined the body reported that death was not caused by strangulation. It was stated that the man's neck was not broken. Others who examined the body before it was cut down are said to have stated that Thomas' feet were touching the floor and it is believed he could have adjusted his body so as to prevent choking.

Thomas was 33 years of age. He was said to be in good health and so far as known had no financial troubles or other difficulties. He came here about eleven years ago from Cleveland, Ohio, and was engaged in the tailoring business.

Work On McLander Arcade Building Is Commenced Today

Contract for Erection
\$127,000 Building
Awarded to W. D.
Gerbrick Company

Arcade To Include
Forty-Five Stores
Those Facing on First
Street To Be Rushed
To Completion

Work on the McLander Arcade building to be erected at a cost of approximately \$127,000 by McKenny-Rylander, Inc., of Orlando between First and Commercial Streets on Sanford Avenue, was started this morning. The contract for the building has been awarded to the W. D. Gerbrick Company of Jacksonville which also has the contracts for the erection of the Hotel Forrest Lake, the new city jail and the new county jail in this city.

The corporation building the arcade is composed of C. M. McKenny and Emory Rylander of Orlando, builders and investors of that city. They announced about a month ago their intention of erecting the arcade here following the lease of the Sanford Avenue property.

Time is being slack for the mortar, concrete and plaster work of the arcade and it is expected that excavations for the pouring of concrete foundations will be started within the next day or two.

The arcade will be a one story structure building and will contain 45 stores with eight facing First Street. The building will cover practically the entire half block, extending from First Street to Commercial Street and from Sanford Avenue to the alley in the center of the square. The building will have entrances facing on all three sides.

The store spaces facing First Street, it is announced, will be rushed to completion and will probably be ready for occupancy by Nov. 1, it is announced, it is understood that the lease of several of the stores has already been negotiated.

The Britt-Chittenden Realty Company has been designed by the Orlando firm to erect the new building. The local company has already taken over this part of the contract, it is announced.

Cheaper Beer Urged By British Brewers

BRIGHTON, Eng. Aug. 19.—(AP)—Cheaper beer has been suggested as one remedy for the unemployment in England that has been bothering successive governments since the war ended.

At the annual meeting of stockholders of a large brewery recently the chairman said that the country was still overburdened with taxation and that the crying demand today was for cheaper beer, which, he contended, could only be given by reducing the tax upon that beverage.

The chairman said that there are very few, including members of the government, who realize the number of industries which are dependent upon the brewery trade, and that reduced taxation on beer would not only assist agriculture, but would go some way to meet the unemployment problem.

Rich Daytona Beach Realty Operator Is Held In Murder Case

MIAMI, Aug. 19.—(AP)—John Gobel, wealthy Daytona Beach real estate operator is being held in the Duval County jail as a suspect in connection with the poisoning of Mrs. H. B. Hunt, alias May DeWillo, who died early this morning.

The pretty 23-year-old woman is understood to have been familiar with him and from letters found today was in jail accused of having stolen a \$1,500 diamond ring from Gobel.

A few minutes after Gobel was granted permission to see her alone last night, she came rushing into the jail office crying that he had forced drink on her and he began vomiting into the cuspidor. A few minutes later she was taken away where the poison struck.

British Ship Owners Compete For Cargoes

LONDON, Aug. 18.—Shipping freight rates are at present in a bad way. Rates have fallen to levels below those of pre-war days and are expected to continue to fall.

Large liner companies are experiencing a great dearth of demand for their space and are ordinarily go on tramp steamers.

Work On Hotel FORREST LAKE IS AHEAD SCHEDULE

Superintendent Says Construction Is Five Weeks Ahead of Time; Finishing Work Progressing Rapidly

Work on the Hotel Forrest Lake, Sanford's new \$500,000 tourist hotel, is fully five weeks ahead of schedule time and will probably be completed in more than ample time for the structure to be turned over to the Hulick Brothers on Dec. 1, according to J. F. N. Huddleston, superintendent of construction this morning.

The great progress that has been made thus far in the erection of the hotel is attributed by the contractor to the perfect cooperation of the building material companies of Sanford and the local city officials. There has been no delay in securing lumber, brick and other materials from time to time, the superintendent said.

Although the construction has progressed during the past two months at a rapid rate it was declared by Mr. Huddleston that everything was being done according to specifications and that there is not the smallest detail of work that has been done in a "slipshod" manner.

This morning the plaster work in all three stories of the east wing of the hotel was completed and the windows were in place. All that remains for the carpenters to do there, it is said, is to finish the floors and put in the base boards. This will probably take about two weeks. The plastering work on the third floor and part of the second in the west wing is finished and the work of that nature in that wing will also be completed within a few days, it was said.

Approximately two-thirds of the lath work is finished while over 65 per cent of the stucco work is completed, Mr. Huddleston said. The electric wiring for the hotel is practically completed and the plumbing work is progressing at a rapid rate. Additional tile layers have been secured by the plumbers and their part of the work is being rushed. All of the bathrooms are being finished in tile.

All of the porches are practically completed except for finishing touches. Work in the parlors, a room made by the United States and their part of the work is being rushed. All of the bathrooms are being finished in tile.

It was estimated by Mr. Huddleston that approximately 100 laborers and skilled workmen are at present employed in the erection of the new hotel. These include the regular carpenters and the workers of the Gerbrick Company that is doing the work and the helpers of the electric, plumbing and stucco gangs.

The reinforced concrete frame work of the kitchen and boiler room, which also will include a refrigeration plant, is being poured and it is expected that this building which is being constructed adjoining the main structure will be finished soon. Only the foundations of the servants' dormitory have been laid.

Number of Florida Farms Increases During Past Year

TALLAHASSEE, Aug. 19.—(AP)—The number of farms in Florida last year despite the fact that there were 30,000 fewer throughout the United States. A notable increase in farms inside the state was made in southern Florida, a report made by the United States Department of agriculture shows.

While the report shows that the number of farms throughout the United States decreased one-half of one per cent, it also notes a similar reduction of farm lands of one-third of one per cent, or a reduction of 1,200,000 acres.

The increase in some sections of the sections of the country in the number of farms, as in Florida, is attributed to the fact that the cultivated areas are being extended by clearing, drainage, while old farm lands are allowed to lie idle. It is estimated that over 25,000,000 acres of old farm land is idle.

The decrease in the number of farms, though small, is general in central and southern Georgia and southeastern Alabama, in much of Michigan and Missouri, in most of Colorado, and in southeastern Idaho and eastern Washington.

The increase in the number of farms is noticeable along the northern and western margin of the cotton belt, where the boll weevil infestation is less severe than to the south, in the lower central plain of the Carolinas, in central Florida and in Texas. Much of Minnesota, eastern South Dakota, and most of Nebraska, also central and southern California likewise show an increase in the number of farms.

Lakeland—Building permits issued first two weeks of July totaled \$334,725.

THE WEATHER

Partly cloudy, local thunder showers; moderate east winds.

Florida Citrus Conditions Are Improved During July; Crop May Be Rather Light

TALLAHASSEE, Aug. 17.—(AP)—Conditions of Florida citrus fruits improved during the month of July but with no prospect of a heavy crop because of the light setting of the fruit, the United States Bureau of Agricultural Economics at Gainesville, has discovered. The Bureau has found that general farm crops are maturing under excellent conditions and yields will be good, while the present demand for farm labor is light with a possible increase during the harvesting season.

The improved condition of oranges and grapefruit during July relates more to the tree than to the fruit. Light setting of the fruit is general over the belt with no prospect of heavy yields except in a few sections. For oranges the outlook is brighter than for grapefruit, with the possibility that production will equal or be greater than that of last year. The grapefruit production promises to fall short of last season with the lightest setting of the fruit in the belt. The Tangerine outlook is years over the greater part of the erratic. Some groves seem fairly well filled while others have no fruit in sight. It is doubtful if production will equal that of last year.

Rather light crops of Avocados and Mangoes are now moving from South Florida and the quality is good. Early grapes are moving and a light crop of late varieties is ripening. Movement of pineapples are well advanced on the east coast. Condition of pecans show a further drop during July but growers are expecting satisfactory yields.

Increased production of practical

ally all field crops is indicated by the August 1 conditions. Florida farmers will have more cotton, corn, hay, sweet potatoes and tobacco than last year. Prospects for sugar cane and other small acreage crops are also good. 12,388,000 bushels of corn are promised against something like 22,000 bales last year, of which about 3,000 were ginned outside the state. Some 123,000 tons of hay are promised against 118,000 tons in 1924. Sweet potatoes are turning out well and a crop of around 3,680,000 bushels will be harvested against 3,150,000 bushels last year. Production of tobacco is tentatively placed at 6,376,000 pounds in comparison with 5,600,000 pounds last season. Of this the greater part will be bright flue cured, as the production of wrapper, shade, tobacco has decreased on a smaller than usual planted acreage. With a slightly increased acreage of peanuts for to run under last year on account harvest production now promises of poor stands. The crop, for harvest is estimated at 59,480,000 pounds against 61,000,000 pounds last season.

For the United States, production of 900,000 bushels, in comparison with 878,000,000 bushels in 1924. Corn, 2,950,000,000 bushels against 2,437,000,000 bushels in 1924. Sweet potatoes, 85,300,000 bushels against 71,900,000 bushels last year. Tobacco 1,234,000,000 pounds against 1,241,000,000 pounds last year and the hay crop 91,000,000 tons against 112,900,000 tons last year.

Watertight Airplane Is Ready for Service

LONDON, Aug. 18.—A single 650 horsepower engine airplane to seat 14 passengers recently completed its trials and will be used in the cross-channel service. It has a large roomy cabin with wicker armchairs for the passengers who will have a constant supply of fresh air by means of special ventilation.

Emergency exits are provided in the room should it be necessary for passengers to emerge in case of landing on the sea, in which case the wheels, axle and undercarriage struts can be dropped by means of a lever in the pilot's cockpit. The body of the machine is watertight and buoyant and would float for several hours.

San Jose—Contracts to be awarded soon for installing new modern waterworks system here.

If you need a summer suit it will pay you to buy now. If you do not need a summer suit then it will pay you to buy it now for next summer. See the wonderful values being offered at Whidson and Hodges, 110 East Second St.

A RESOLUTION No. 235

A RESOLUTION PROVIDING FOR THE PAVING, RE-PAVING, HARD-SURFACING AND RE-HARD SURFACING OF OAK AVENUE FROM HIGH STREET TO HIGHLAND STREET, A WIDTH OF 21 FEET.

Whereas, the City Commission of the City of Sanford, Florida, deems it advisable to improve, grade, construct, re-construct, pave and re-pave with sheet asphalt on a six inch rock base, the following street in the City of Sanford, Florida, to-wit:

OAK AVENUE from High Street to Highland Street.

All of said improving, grading, construction, re-construction, paving and re-paving, to be done in compliance with plans, specifications, profiles and estimates of said proposed improvement of Oak Avenue from High Street to Highland Street, now on file in the office of the City Manager of the City of Sanford, Florida, which said plans, specifications, profiles and estimates have been heretofore approved by the City Commission and constitute the plans and specifications for said work, therefore,

BE IT FURTHER RESOLVED, That the City Commission of the City of Sanford, Florida, deems it advisable, as a necessary public improvement, to pave, re-pave, hard surface and re-hard surface with sheet asphalt, on a six inch rock base, Oak Avenue from High Street to Highland Street, a width of 21 feet; that all of said paving, re-paving, hard surfacing and re-hard surfacing of Oak Avenue, as aforesaid, shall be done in strict compliance with the plans, specifications, profiles and estimates therefor, now on file in the office of the City Manager of the City of Sanford, Florida, which said plans, specifications, profiles and estimates have been heretofore approved by the City Commission and constitute the plans and specifications for said proposed improvement of Oak Avenue, between High Street and Highland Street, a width of 21 feet, and this Commission hereby declares the necessity for the paving, re-paving, hard surfacing and re-hard surfacing of said portion of Oak Avenue, as aforesaid, as a necessary public improvement.

BE IT FURTHER RESOLVED, That a total expenditure not exceeding Ten Thousand Four Hundred

dred Four and 16-100 (\$10,404.16) Dollars is hereby authorized to cover the cost of paving, re-paving, hard surfacing and re-hard surfacing of Oak Avenue between High Street and Highland Street, a width of 21 feet, which said sum of Ten Thousand Four Hundred Four and 16-100 (\$10,404.16) Dollars, is the total estimated cost of said improvement; that the entire cost of the improvement aforesaid, shall be assessed against all property abutting and fronting upon that portion of Oak Avenue, between High Street and Highland Street, to be so improved by the paving, re-paving, hard surfacing and re-hard surfacing of said portion of Oak Avenue, a width of 21 feet, and against all lots and lands adjoining and contiguous or bounding and abutting upon said improvement; that Ten Thousand Four Hundred Four and 16-100 (\$10,404.16) Dollars is the total estimated cost of said contemplated improvement in the paving, re-paving, hard surfacing and re-hard surfacing of said portion of Oak Avenue to be specially assessed against all lots and lands adjoining and contiguous or bounding and abutting upon said improvement; the sum of \$4.88 is the estimated cost per front foot for said improvement.

BE IT FURTHER RESOLVED, That it is the determination of this Commission that all lots and lands adjoining and contiguous or bounding and abutting upon Oak Avenue, between High Street and Highland Street, will be benefited by the improvement provided for by this resolution, and that the special assessments to be made and entered against all lots and lands adjoining and contiguous or bounding and abutting upon such contemplated improvement shall be made upon a foot frontage basis; that is to say, that in the preparation of the special assessment roll covering the contemplated improvement, such special assessments shall be determined and prorated according to the foot frontage of the respective properties specially benefited by the said improvement.

BE IT FURTHER RESOLVED, That the Tax Assessor and the City Clerk of the City of Sanford, Florida, in accordance with the provisions of Sections 101 and 102 of the Charter of the City of Sanford, Florida, shall proceed without delay to make a special assessment roll, assessing the special benefits to be received as the result of the contemplated im-

provement against all lots and lands adjoining and contiguous or bounding and abutting upon such improvement, and upon the completion of said assessment roll to cause copy thereof to be published two times consecutively, once each week, in a newspaper published in Sanford, Florida, attaching to said special assessment roll so published a notice directed to all property owners interested in said special assessments, stating in accordance with the provisions of the Charter of the City of Sanford, Florida, a definite time and place where complaints will be heard and when the special assessment roll will be finally confirmed by the City Commission sitting as an Equalizing Board.

BE IT FURTHER RESOLVED, That the special assessments provided for by this resolution to be made and entered against the property bounding and abutting upon said improvement shall be payable at the option of the property owners owning property bounding and abutting upon such improvement as follows: either in full within thirty days after said assessments shall stand equalized, approved and confirmed, or in ten equal annual installments with interest at the rate of eight per cent. per annum upon all deferred payments from and after the time said special assessments shall be and stand finally equalized, approved and confirmed, and

BE IT FURTHER RESOLVED, That this resolution shall be and become effective immediately from and after its passage and adoption.

Adopted this 10th August, A. D. 1925.
FORREST LAKE,
S. O. CHASE,
C. J. MARSHALL,
As the City Commission of the City of Sanford, Florida.
Attest:
L. R. PHILIP, City Clerk.

A RESOLUTION NO. 236

A RESOLUTION PROVIDING FOR THE PAVING, RE-PAVING, HARD SURFACING AND RE-HARD SURFACING OF CORDOVA DRIVE, CORONADO CONCOURSE, REVONA COURT, COMMUNITY WAY, COLONIAL WAY AND AVENUE AMELIA IN THE PLAT OF HIGHLAND PARK, A WIDTH OF 24 FEET.

Whereas, the City Commission

of the City of Sanford, Florida, deems it advisable to improve, grade, construct, re-construct, pave and re-pave with sheet asphalt on a six inch rock base, the following thoroughfares in the City of Sanford, Florida, to-wit:

CORDOVA DRIVE, CORONADO CONCOURSE, REVONA COURT, COMMUNITY WAY, COLONIAL WAY AND AVENUE AMELIA, in the Plat of Highland Park.

All of said improving, grading, construction, reconstruction, paving and re-paving to be done in compliance with plans, specifications, profiles and estimates of said proposed improvement of Cordova Drive, Coronado Concourse, Revona Court, Community Way, Colonial Way, and Avenue Amelia, in the Plat of Highland Park, now on file in the office of the City Manager of the City of Sanford, Florida, which said plans, specifications, profiles and estimates have been heretofore approved by the City Commission and constitute the plans and specifications for said work, therefore,

BE IT RESOLVED, That the City Commission of the City of Sanford, Florida, deems it advisable as a necessary public improvement to pave, re-pave, hard surface and re-hard surface with sheet asphalt on a six inch rock base, Cordova Drive, Coronado Concourse, Revona Court, Community Way, Colonial Way and Avenue Amelia in the plat of Highland Park, a width of 24 feet, that all of the said paving, re-paving, hard surfacing and re-hard surfacing of Cordova Drive, Coronado Concourse, Revona Court, Community Way, Colonial Way and Avenue Amelia in the plat of Highland Park, a width of 24 feet, shall be specially assessed against all lots and lands adjoining and contiguous or bounding and abutting upon said improvement; the sum of \$5.29 is the estimated cost per front foot for said improvement.

BE IT FURTHER RESOLVED, That it is the determination of this Commission that all lots and lands adjoining and contiguous or bounding and abutting upon Cordova Drive, Coronado Concourse, Revona Court, Community Way, Colonial Way and Avenue Amelia in the plat of Highland Park, will be benefited by the improvement provided for by this resolution, and that the special assessments to be made and entered against all lots and lands adjoining and contiguous or bounding and abutting upon such contemplated improvement shall be made upon a foot frontage basis; that is to say, that in the preparation of the spe-

cial assessments contemplated in the special assessments to be made and entered against the property bounding and abutting upon such improvement, shall be and become effective immediately from and after its passage and adoption.

BE IT FURTHER RESOLVED, That a total expenditure not exceeding Forty-nine Thousand One Hundred (\$49,100.00) Dollars is hereby authorized to cover the cost of paving, re-paving, hard surfacing and re-hard surfacing of Cordova Drive, Coronado Concourse, Revona Court, Community Way, Colonial Way and Avenue Amelia in the plat of Highland Park, a width of 24 feet which said sum of Forty-nine Thousand One Hundred (\$49,100.00) Dollars is the total estimated cost of said improvement; that the entire cost of the improvement aforesaid, shall be assessed against all property abutting and fronting upon that portion of Cordova Drive, Coronado Concourse, Revona Court, Community Way, Colonial Way and Avenue Amelia, in the plat of Highland Park, to be so improved by the paving, re-paving, hard surfacing and re-hard surfacing of said portion of Cordova Drive, Coronado Concourse, Revona Court, Community Way, Colonial Way and Avenue Amelia, in the plat of Highland Park, a width of 24 feet, and against all lots and lands adjoining and contiguous or bounding and abutting upon said improvement; that forty-nine thousand One Hundred (\$49,100.00) Dollars is the total estimated cost of said contemplated improvement in the paving, re-paving, hard surfacing and re-hard surfacing of said portion of Cordova Drive, Coronado Concourse, Revona Court, Community Way, Colonial Way and Avenue Amelia in the plat of Highland Park, a width of 24 feet, and against all lots and lands adjoining and contiguous or bounding and abutting upon such contemplated improvement; the sum of \$5.29 is the estimated cost per front foot for said improvement.

BE IT FURTHER RESOLVED, That the special assessments provided for by this resolution to be made and entered against the property bounding and abutting upon said improvement shall be payable at the option of the property owners owning property bounding and abutting upon such improvement as follows: either in full within thirty days after said assessments shall stand equalized, approved and confirmed, or in ten equal annual installments with interest at the rate of eight per cent. per annum upon all deferred payments from and after the time said special assessments shall be and stand finally equalized, approved and confirmed, and

BE IT FURTHER RESOLVED, That this resolution shall be and become effective immediately from and after its passage and adoption.

Adopted this 10th August, A. D. 1925.
FORREST LAKE,
S. O. CHASE,
C. J. MARSHALL,
As the City Commission of the City of Sanford, Florida.
Attest:
L. R. PHILIP, City Clerk.

ABIE'S IRISH ROSE IN REAL LIFE

YOUNGSTERS OF 15 ELOPE WHEN PARENTS INTERFERE

CHICAGO, Aug. 19.—Life at 15 is a momentous episode! Parents can't understand. They dub the bloom of romance—"puppy love" and threaten the rod and bed without success.

Thus reasoned Hazel Mitchell 15, little Scotch-Irish girl when a week ago her mother and the boy's mother sought to separate her from her 15-year-old sweetheart of Jewish faith.

Today the Scotch-Irish and Jewish mothers look resentfully at each other across the back porch. For Hazel and Joe Medyke, the Jewish boy, have eloped—an Abie's Irish Rose affair in real life.

Affair Starts Early

The Mitchells have lived in the house where Mrs. J. Sack, the boy's mother, is landlady for three weeks. It was either a case of "puppy love" or love at first sight for the youngsters, say both mothers.

Or then again they may have known each other before the Mitchells moved the apartment.

In any event Joe was vamped good and securely. The second day the affair was on.

Joe would whistle up the stairway and Hazel would come tiptoeing down. She would tell her mother she was going to sit an hour with Mrs. Sack.

And while Mrs. Sack drank in the affairs off Cupid on the silver sheet a nearby picture show, her son and the little Scotch girl held hands and promised eternal love in the seclusion of the Sack apartment.

"We thought we had it stopped," Mrs. Sack said. "For a whole week it was peaceful. My son went his way and the Mitchell girl went

hers. Then I found my son writing a letter to Hazel. I stopped it straight off and hid the letter he had started. Then I found a note which Hazel left on the sewing machine for Joey. I called Hazel out on the porch and told her if she didn't stop this non-sense she and her mother would have to move."

And Then It Happened

But that didn't end things. An open window showed the route the elopers had taken. A letter from Hazel to her mother is in tears. While Hazel's mother is in tears, Joe's mother is optimistic. She thinks they are in the neighborhood, because someone has been raiding the icebox.

"Joe has run away before, and he usually slips back to get something to eat," says Mrs. Sack.

Hazel's Farewell Note

Here is Hazel's farewell note to her mother:

My Mother: I have run away. Forgive me. I am nearly out of my head. Don't worry, because the good Lord will take care of me. The hypocrite downstairs (Mrs. Sack) has the note I wrote to Joe about the farm. Please don't worry. I can hardly write. I haven't a cent, but I will try to get work as soon as I can, and I will send you money for my care and keeping all these years. Oh, mamma, I don't want to go, but you would never forgive me. Don't send anyone to look for me. I may go crazy. You have been so good to me, but I have taken advantage of you. When I get tired of it all, I may give myself up to a home. Such people as the landlady is what makes the younger generation what it is. Your daughter, HAZEL.

Twain Memorial To Feature Big Building

KEOKUK, Iowa, Aug. 19.—(P)—A memorial for Mark Twain will be included in the new building of an insurance company here.

The new building will be located next door to the old print shop in which Mark Twain worked as a printer during 1839 setting type for a City Directory, which his brother, Orion, published. In this directory the humorist gives his occupation as antiquarian.

A room or library in which will be kept many of the records of Clemens' personal life is the memorial planned. A printer's case, photographs, autographs and possibly a copy of the directory on which Clemens worked will be included as part of the equipment of the room.

Every county in the state can grow citrus fruit to some extent but there are only 35 that grow citrus fruit commercially. If all the bearing groves were in the smallest county in the state there would still be 17,000 acres of land in that county in which to plant fruit trees.

RESOLUTION OF THE COUNTY BOARD OF PUBLIC INSTRUCTION FOR SEMINOLE COUNTY, FLORIDA DETERMINING WHAT AMOUNT OF BONDS IS NECESSARY FOR A SPECIAL TAX SCHOOL DISTRICT NUMBER ONE, SEMINOLE COUNTY, FLORIDA, SAID DISTRICT BEING ALSO KNOWN AS SANFORD SPECIAL TAX SCHOOL DISTRICT TO BE PAID THEREON THE TIME WHEN AND THE PLACE WHERE PRINCIPAL AND INTEREST ON SAID BONDS ARE PAYABLE, AND PROVIDING FOR AN ELECTION TO DETERMINE WHETHER OR NOT SAID DISTRICT SHALL ISSUE BONDS.

WHEREAS, on the 7th day of July A. D. 1925, a petition was presented to and filed with this County Board of Public Instruction for Seminole County, Florida, signed by more than twenty five percent of the duly qualified electors residing within Special Tax School District No. 1, Seminole County, Florida, said District being also known as Sanford Special Tax School District, asking and petitioning that an election be called and held throughout said district to determine whether or not bonds in the sum of \$450,000.00 should be issued by said district for the purpose of acquiring, building, enlarging, furnishing, or otherwise improving school buildings and school grounds, and for the exclusive use of the public free schools within said special tax school district, the proceeds of said bonds to be used for the purposes set forth in said petition and to be expended and disbursed in the following manner, to-wit:

Many Rare Specimens Fish, Birds, Animals And Insects Brought Home By Scientists

SAN FRANCISCO, Aug. 19.—The U. S. S. Ortolan, a minesweeper detailed by Secretary Wilbur for temporary duty with the California Academy of Sciences, has returned here from a trip of several months to islands off the west coast of Mexico, whither it took a party of scientists. The expedition brought back many rare specimens of birds, plants, fishes, reptiles, fossils and insects for the museum of the academy.

The party, in charge of Dr. G. Dallas Hanna, curator of paleontology in the academy, sailed April 15, bound particularly for the little known Revillagigedo islands, 400 miles west of the Mexican mainland.

"One of the most striking collections made," related Dr. Hanna, "was of fishes about the coral reefs of these islands. Here abound great numbers of gaudy and grotesque species showing close relationship to the fishes of Hawaii. These species are always swimming and persistently live in shallow waters. This question for the ichthyologist to answer is how did they get where they are. Vast abyssal depths separate the Revillagigedo islands from all other known land. Can it be that these volcanic peaks are the above-water remnants of a former continent or archipelago now lost beneath the waves?"

"The deep canyons of Socorro Island are heavily forested and here we found a veritable botanists' paradise untouched by human hands. Strange trees, flowers, vines and shrubs were on every side. Among the trees was one

which immediately attracted our attention because of the large number of parrots and other birds which were feeding on the fruit. Our Mexican companions informed us that they knew of no similar fruit in Mexico and thus far it has not been learned even to what family it belongs. It is about the size and shape and color of a ripe olive but there the similarity ceases, because the pulp is sweet and delicious. It was very useful to us on some of our long journeys overland, where all food and water had to be carried on our backs. A sufficient supply of seeds of this tree was brought back for experimental purposes.

"We found the region about the Revillagigedo islands inhabited by many whales, mothers and young, just as our fathers did in the early days of whaling. They called the place the Cow Pasture for that reason.

"A spring of fresh water was relocated on Socorro island and marked in such a way that henceforth it can be readily found. This, the only fresh water within hundreds of miles, was first found by Colonel Grayson, a California pioneer who was wrecked on the island in 1869. While getting his scant supply of water ashore from his stranded vessel his Mexican boy noticed a small land bird drinking from a tide pool. Investigation showed a large spring of excellent water flowing out of a lava wall below high tide line, and the lives of his entire party were saved thereby. Although he described the location of the spring and printed it in 1872, many people who searched for it after that failed to find it."

STEWART'S WASHINGTON LETTER

By CHARLES P. STEWART

WASHINGTON, Aug. 19.—Washington has now probably the most complicated traffic code in the country.

The original idea was to make the capital America's model in the handling of automobiles—a nice place for drivers and a paradise for those who walk.

Unfortunately the code's compilers put too much into it, in an effort to make it cover everything. They also followed the congressional method, in including numerous regulations which either mean nothing at all or else mean two or three different and conflicting things, until they're "interpreted."

The trouble is, the "interpretations" differ and conflict, too.

one way, is pinched by a copper who "interprets" it otherwise. The Judge, with an "interpretation" all his own, simultaneously hawks out the cop, for the latter's "interpretation," and soaks the prisoner for his.

Taking his lesson to heart, the autoist starts out next morning full in the faith that he knows what's what, only to be run in presently for doing exactly what he was fined for not doing the day before, the tricky regulation having been "re-interpreted" by some still higher authority overnight and now implying something that neither the autoist, the cop nor the traffic judge had thought of before.

If anybody imagines this doesn't cause confusion, let him visit Washington and see.

Visit Of Stork Is Rare Happening In Spitzbergen Cities

LONGYEAR CITY, Spitzbergen Aug. 18.—Bird life is prolific enough in these lonely latitudes, but a visit from the stork is a sufficiently rare event to set all the wireless apparatus in the archipelago humming.

A baby born here enjoys the unique privilege of being baptized in the most northerly church on earth (78 degrees, 18 minutes North Latitude) and it was the good fortune of an Associated Press reporter to witness the christening ceremony of Baby Sigurd, first-born son of a mining engineer of the Great Norwegian Coal Company.

The little wooden Lutheran church was crowded to capacity with the entire female population of the village hardly more than 40

all told, all in their Sunday best, and young Sigurd marked his disapproval of the proceeding in the way infants have all over the world. He was much more amiable at home, where celebrations were kept up until the small hours in a dense atmosphere of tobacco smoke and an improvised one-man jazz band.

"He will be a regular Norwegian," his mother said as Sigurd was finally borne off to bed amid loud protests.

In 1909 when the Florida Citrus Exchange, one of the leading cooperative exchanges in the state, was organized, the per capita consumption of oranges in this country was 37 and the price per box was \$1.34. Today the per capita consumption is 60 and the price averaged for Florida citrus fruits is \$2.60 per box. Much of this increase is due to the work of the Florida Citrus Exchange. This statement issued by Commissioner L. M. Rhodes, of the State Bureau of Marketing.

FOR HOME AND STABLE

The extraordinary Borozone treatment for flesh wounds, cuts, sores, galls, burns and scalds is just as effective in the stable as in the home. Horse flesh heals with remarkable speed under its powerful influence. The treatment is the same for animals as for humans. First wash out infectious germs with liquid Borozone, and the Borozone Powder completes the healing process. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by Laney's Drug Store.

WHEAT CROP BE RAISED ON FRENCH MILL THIS YEAR

Field of The Marne to Bumper Wheat Crop; Harvest Comes In Time to French Mill Going

Aug. 19.—(AP)—The battle of the Marne, where the French turned the tide of war seven years ago, is being fought again in a bumper crop of wheat. The Department of Agriculture estimates that the official crop estimates, based on the average of recent years, are three to five percent above the average of 80 to 85 bushels per acre. Officials are warning that they will not again be obliged to import some of the ordinary requirements which began recent years.

Weather And Report Is Given

KANSASVILLE, Aug. 19.—(AP)—The weather that prevailed in Kansas during the week ending August 18 was the usual so-called "summer" weather of mid-summer—warm and humid with moderate high mid-day temperatures, daily excesses ranging from three to five degrees over most of the high for the week range of 92 to 96, the latter at but a few stations. The last of the week gave moderate night temperatures, especially over the west.

Another Rose Court lot adjoining the three above for \$1650. Here is a good chance for someone to get four large, well located together. Small cash payment will handle.

5 lots on Maple Avenue, Third and Fourth for \$1500 each. \$600 cash on each lot, balance 1, 2 and 3 years. Four East front and one West front.

Success Of Arctic Party Depends On Weather Conditions

WASHINGTON, Aug. 18.—(AP)—Success of the MacMillan Arctic expedition was described as dependent largely upon weather and ice condition encountered this week in a radio message received Monday night by the National Geographic Society.

The message, relayed by the 15-year-old amateur, Arthur A. Collins, of Cedar Rapids, Ia., said: "The NA-2 is not yet ready for flight. The NA-1 are preparing for another attempt to reach Bay Fjord and possibly Eureka Sound. If Fjords are clear of ice possibly the work can be done. If no landing places can be found on water land success doubtful. The men are flying over long stretches where, if the Liberty motors fail, results will be serious. The snow yesterday was a hard blow.

"The navy fliers roar away to Ellesmere Island and return with a swish. Dr. Koelz is off for a 5-day trip in a dory in search for specimens. Two Eskimos, heavily laden, left a primitive shelter of skins, and started over the 20-mile rocky road to Ameritick yesterday, leaving behind two sledges dogs. The midnight sun makes its last bow this week. New ice is on Alida Lake and mountain brook.

Boy Gets Message. "Cape Alexander appeared this morning in a new snow blanket as a result of yesterday's storm. The crew of the Bowdoin is busy and we are photographing many kinds of game.

Young Collins, who has had remarkable success in picking up the expedition's messages during the

last two weeks, spent his vacation money (to go to Wisconsin, Maine, when the party was there, to interview John Reinhardt, the Bowdoin's operator, and learned from him, the short-wave technic he has been using.

Winter Haven — Widening of Sixth Street approved; work to begin immediately.

AN EXHILARATING EFFECT
A bottle of Herbine on the shelf at home is like having a doctor in the house all the time. It gives instant relief when the digestion gets out of order or the bowels fail to act. One or two doses is all that is necessary to start things moving and restore that fine feeling of exhilaration and buoyancy of spirits which belongs only to perfect health. Price 60c. Sold by Lane's Drug Store.

The Sanford Herald

Published every afternoon except Sunday at Sanford, Florida. Entered as Second Class Matter, October 17, 1915, at the Postoffice at Sanford, Florida, under Act of March 3, 1879.

Subscription Rates: One Year—\$12.00. Six Months—\$7.00. Delivered in C. A. by Carrier, per week 15c. Weekly Edition \$2.00 per year.

Special Notice: All ordinary notices, cards of thanks, resolutions and notices of entertainment where charges are made will be charged at regular advertising rates.

WEDNESDAY, AUG. 19, 1925

THE HERALD'S PLATFORM

- 1.—Deeper water route to Jacksonville.
2.—Construction of St. Johns-Indian River canal.
3.—Extension of white way.
4.—Extension of local amusements.
5.—Swimming pool, tennis courts, etc.
6.—Augmenting of building program—houses, hotels, apartment houses.
7.—Extension of street paving program.
8.—Construction of boulevard around Lake Monroc.
9.—Completion of city beautification program.
10.—Expansion of school system with provision for increased facilities.

BIBLE VERSE FOR TODAY: REWARD OF THE RIGHT: EQU.—Mark the perfect man, and behold the upright; for the end of that man is peace. Psalm 37:37.

THE BROOK: I come from haunts of cool and horn, I make a sudden sally, And sparke out among the fern, Toicker down a valley.

By thirty hills I hurry down, Or slip between the ridges; By twenty thornes, a little town, And half a hundred bridges.

Till last by Philip's farm I flew, To join the brimming river, For men may come and men may go, But I go on forever.

I chatter over stony ways, In little shrubs and tangles, I bubble into eddying bays, I tattle of my pebbles.

With many a curve my banks I fret By many a field and fallow, And many a fairly foreland flat, With willow-weed and mallow.

I chatter, chatter as I flow, To join the brimming river, For men may come and men may go, But I go on forever.

I wind about, and in and out, With here a blossom sailing, And here and there a lusty trout, And here and there a grayling.

And here and there a foamy flake Upon me as I travel, With many a silvery water-break Above the golden gravel.

And draw them all along, and flow, To join the brimming river, For men may come and men may go, But I go on forever.

The Pittsburgh Sun asks "what makes popular songs live?" Do they?

Well, we all agreed with Mr. Browning on one thing. He said he was a damn fool.

Latest fashion note says, "next fall's frocks may seek the ears at the expense of the limbs." Say, isn't there going to be a limit to this business?

They say Dutch Anderson, Gerald Chapman's pal and wanted for the murder of Ben Hance and his wife, is heading for Florida. Better stay away or he might get in "dutch" here.

Paragraphers who find it hard sailing to fill their columns this time of year on account of scarcity of inspirations, will find consolation in recalling that Congress will be reconvening in three months.

Sanford's building permits are going to show a big total for this month. So far permits for nineteen new homes have been issued for the first nineteen days of this month. A new home a day will soon meet the house shortage.

New York authorities who arrested a man who claimed to have a dinner engagement with the Lord at a fashionable hotel, declared he was crazy. Now if that had happened in Chicago they would have had to call in the alienists.

A classified ad in the Isle of Pines News is as follows: For Sale: A four passenger car, never went anywhere and got back whole. Good for a deaf and dumb man with plenty of time on his hands and not afraid of work, trouble or expense. Cheap for cash if taken before the owner gets out of patience and spends more money on it. The Smithsonian Institute has been known to buy worse things than that.

The Dade City Banner will become a semi-weekly beginning September 1. We'll bet it won't be long before it will be entering the daily field. Florida newspapers are making more rapid strides than those of any other state in the Union.

Avoid Too Much Sunburn

The day after is many times painful to the person who tries to get a good dose of sunburn while at the beach or while on a picnic of one kind another. Some individual goes to the beach for the week-end and determines to have a good sunburn to show those at the office on his return. And not very often does he fail to get even more than he goes after.

A warm bath is all right; but not one in boiling water. Similarly a "sun-bath" is invigorating, but in excess it may be injurious or even fatal.

Fishing is a great pastime in this part of Florida. We have seen those who have gone out without exercising the necessary precautions of wearing long shirt sleeves or broad brimmed hats and have been amused at the way in which they manage to steer clear of rubbing shoulders with others the next day.

Dr. C. F. Pabst in Popular Science Monthly tells of some of the experiences he has had with sunburn cases and among other things he says:

"When you fish or lie in the sun for hours at a time, exposing skin that has been protected all winter, you are inviting trouble. The skin cannot manufacture pigment quickly enough or in large enough quantity to protect you from burns. Burns may be considered in three classes—first degree, when the skin is simply inflamed; second degree, when blisters are formed; and third degree, when charring takes place. A burn of the first degree, covering the entire body, probably would result in death. A blistering burn on half the body would be as severe, and a charring burn on a third of the body, equally so. That is, a superficial burn is as serious as one that blisters, if covering twice the area."

"You probably have noticed that you have suffered your worst burns while you were on water in a boat. That is because water reflects ultra-violet light and this reaches your face and eyes, even if they are protected from direct rays of the sun by a hat."

Avoid too much sunburn. The Literary Digest in a recent issue suggests eight rules to follow in doing so. They are:

- 1. Protect yourself from direct rays of the sun in July and August.
2. Build up a coat of tan, if you can. This deposit of pigment will prevent the sun from burning your skin.
3. Acquire this tan gradually through short exposures.
4. If you have a skin that doesn't tan, stop exposing yourself. For you, every new exposure means a new burn.
5. Wear a hat with a brim or carry a parasol.
6. Don't go to sleep on the beach in direct sunlight.
7. Don't go fishing or boating in the middle of the day in sunshine. Reflected light from the water will burn you, even if you wear a hat.
8. Remember that a severe case of sunburn may have serious and lasting results.

Discourage The Professional Job Hunter

"In our fight to keep our people from rushing to Florida we feel that we are justifiable," says the Park City News published at Bowling Green, Kentucky. Continuing on this subject, the Kentucky paper says:

"It would not matter so much if it was only the monied men who were going for they are able to stand the losses, which in the end might overtake them, but there are many going, not to make investments but in the hope of finding something to do. This is a vain hope."

"A man who has been down there for months told the News that those who want employees turn a deaf ear to all tourists who apply for jobs. They have found them undesirable. They would not more than get them broken in until they would pull up and go to some other point in the state and quit the job."

"They have had so much trouble of this kind that they are giving their jobs only to natives or to those, at least, who have lived there a long time and did not drift in on the bosom of the boom."

The Bowling Green paper is right. If the natives are given the preference in jobs, it is nothing but right. Florida should not open its doors to outside workers until those of this state have all been employed. The state should first take care of its own citizens and then if there is employment for others, invite them in.

However, there is plenty of work in Florida and to the man who comes here to make his home, there is work for him. The home-seeker is not outlawed. Far from it. It is quite natural that the business man wants employees who are here to stay. He has no room for the "fly-by-night," but for the future citizen he has employment. Those who drift from place to place are not deserving of consideration. The Kentucky paper realizes that for it continues:

"Who can blame the Florida business man for not employing them? So that the many who are going to get good jobs, will get no jobs. These facts are indisputable. Going job hunting in Florida is a very precarious and unsatisfactory kind of proposition. We only hope that after they get there and fail to get remunerative employment, that they will have enough to get back home on."

The Herald is glad that its Kentucky contemporary has published the facts as they are. It will have the effect of discouraging the professional job hunter. On the other hand it will show that those who are anxious to locate here permanently will find a hearty welcome.

If a man comes to Florida with plenty means and wishes to lead the life of a tourist, he is welcome. He can afford to do it. But if a man comes here seeking work, he should be willing to settle down and become a citizen. That's asking very little. While Florida is developing rapidly, each will be doing his share, the one offering his money and the other giving his labors.

WE SOW OUR thought, and we reap our actions; we sow our actions, and we reap our habits; we sow our habits, and we reap our characters; we sow our characters, and we reap our destiny.—C. A. Hall.

MY FAVORITE STORIES

Distances, as someone has so aptly said, are all relative. Also, much depends upon one's point of view. There is the story of the Texas cowboy from beyond Brownsville who made a trip to Dallas and upon his return stated to a group of his friends that he didn't believe he'd ever go up North again—he didn't care for "the way them Yankees lived."

As Brisbane Sees It

They Should and Will Pay. From \$32,500-\$5,250,000. West Siberias Neshen. Eyes That See Not. BY ARTHUR BRISBANE (Copyright 1925)

UNCLE SAM and Belgium are unable to agree as to the payment of \$480,000,000 that Belgium owes this country. Its small debt comparatively, Belgium did not get much when the Woodrow Wilson administration was handing out the money of the United States so generously.

However, President Coolidge feels that money honestly lent should be honestly repaid. Fortunately a simple method of collection can be applied in a friendly way.

Nations that do not pay their cities and industries will not be able to borrow from the United States until they do pay. American banks will not be allowed to lend.

In the case of Belgium, of France especially, and all of our European debtors, payments should be made as convenient as possible, but it should be made.

EVEN IN slow old London, real estate values go up. London's Foundling hospital, where the great Handel once played the organ, was established in 1740 by Thomas Coram, kind hearted seaman who left his entire fortune, \$32,500, to provide a home for abandoned children.

A place was bought in Bloomsbury, London. It sold the other day for \$4,250,000. The foundling home will move out into the country. Here, if you know how, you need not wait 185 years to change \$32,500 into \$4,250,000. The thing has been done by many in 10 years and less. It can be done by any intelligent man who has vision plus \$32,500, in California, Florida and half a dozen, other places.

Do you wonder the single taxers rage?

ONE EDITOR wants "Uncle Joe" Cannon to write his autobiography because "no other American statesman ever had such a golden store of historic memories." It spans American life from Lincoln's day until now.

It does, but Mr. Cannon is old and has seen everything that has happened from Lincoln's day until now without, perhaps, seeing the meaning of everything.

Montesquieu, in his "Spirit of Laws," chapter 1, book 31, complains that ancient writers of chronicles understood very near as much of the history of their time as our peasants know of ours.

WE HAVE men in public life that understand the history of the United States, as well as the history in modern French history. The French peasant is often a thoughtful, intelligent man.

THE LONDON Aero club, organized to encourage British air supremacy, invites Britishers to join and learn to fly. The rush for membership surprises the organizers of the patriotic scheme, and they are compelled to order additional "baby" planes to teach the members "light flying."

Members of parliament, business men, stock brokers, bookmakers, and mechanics are included among the members. WHO WILL start such a club for training here? A young flying New York broker might leave the stock exchange at noon, fly down to Palm Beach in time for dinner. Many young polo gentlemen now risk their lives and earn the applause that they deserve, on a saddle five feet above the ground. They might be interested in trying something higher. They have the leisure, the money and the physical courage.

IN CHICAGO, three brides were married at the same time, each carrying a coal black kitten. Thirteen guests carried 13 black cats. The idea was to show contempt for superstition. At that wedding, disease germs were more important than superstitions, which were defied by breaking 13 mirrors and in various other ways.

ANY COLLECTION of 13 black or white cats is sure to carry a complete assortment of contagious disease germs. An experienced health officer says "there is no hope of wiping out such disease as diphtheria, scarlet fever, whooping cough as long as children are allowed to play with cats. They collect the disease, and bring them home to the children."

EIGHT STUDENTS at George Washington university have agreed to go without sleep for 60 hours in a test of brain and body fatigue. A man can live 10 days without food, if he has water. He can live about a week without water, and only three minutes without air. Sleep is most important after air; then water, then food.

YOUNG GENTLEMEN very regular about food are often indifferent about sleep, and consequently foolish. The Chinese, among other forms of torture, killed men by having them roused from sleep every few minutes until they died.

THE TEST students weakened by lack of sleep will be asked to experiment in driving and parking cars, away from traffic, of course, to study the effect on their nerves and their "co-ordination." It is an interesting experiment, but it is likely that any student going 60 hours without sleep will be weaker in consequence for the rest of his life.

RUBBER-R-R !!!

JUST IN PASSING BY R. J. HOLLY

Among the new residents in Sanford that are doing big things in developing high class property is W. M. Young, formerly of Brooklyn but now a resident and booster of Sanford. Mr. Young is doing yeoman service at his Highland Park property, formerly the Swann estate on Hughey Street, and will have one of the prettiest developments in this part of the state when it is ready for the market. Mr. Young is also doing good work in the Chamber of Commerce and takes an active part in the upbuilding of the city.

San Lanta and Pinehurst are taking their place in the front ranks of Sanford's high class subdivisions and the owners and developers of these properties believe in making extensive improvements and keeping the property in shape at all times. It is such high class development that will make Sanford a city of beautiful homes in the near future. Knight & McNeill of San Lanta and Paul Keeley, Raymond Key and Forrest Lake of Pinehurst are to be congratulated on their good work in these developments.

A. P. Connelly recently returned from a trip to Canada. He is full of pep and ready to resume his good work in developing Fort Mellon and other subdivisions in which he is interested. A. P. Connelly has been boosting Sanford property for twenty years and is now reaping the reward of his labors. I am glad to see Sanford folks making good after years of hard work when it took nerve to stay on the job.

Among the younger men responsible for much development is my Irish friend Charlie Britt, who though young in the business has put on some of the first subdivisions in this city that started the ball rolling. His sales of Woodruff's property south of the city did much to build up that section and gave folks homes that they would not have obtained closer in.

J. G. Spurling is another pioneer in this line and when he went out on the Sanford-Orlando road years ago and started Flora Heights and put on an auction sale of lots, people thought he was wild. But all of this property has come into bearing and happy and contented folks are living out there helping to contribute their share of the big city of Sanford.

Other developers in south Sanford are Swope-Douglass and my old friend, E. A. Douglass had a lot of faith in the future of Sanford when he built his bungalows on Sanford and Geneva Avenue before the match of civilization had really struck its gait. Mr. Douglass is building many homes in Sanford Heights and at Edgewood and doing his share in building the City Substantial.

N. H. Garner is among the pioneer developers of property in Sanford and started selling lots in Sanford Heights and Markham Heights some fifteen years ago. He has been going the firm of Thrasher & Garner is one of the successful developments in south Sanford and Melvonia. Southward the trend of business, winds its way and there is no telling where the south division line of Sanford will really exist in the next five years.

Harry Lewis put on Bel Air last winter and made it a success from the start but afterward sold it out to Harry Bodwell and now it is among the Bodwell interests. This is sufficient evidence that it will be sold out this winter for Harry Bodwell knows his "eggs" and also his acreage and it is a wise man who knows his acreage this hectic days.

And so I might go on ad infinitum and maybe ad nauseam for the readers of The Herald who might not be interested in this stuff. As for my part I live to see real men doing real business and it makes my heart glad to see so much development in this city. There are many live wires here and many more coming here to help us build a big city. They will find some of the finest people on earth here and they are four square and a yard wide. Having this kind of folks here we want the same kind of folks to come in and help us.

The only "northern visitor" who was able to get a room in Tampa Monday was Al House of Toledo, Ohio, and a former resident of Tampa. Al arrived in the city late in the evening accompanied by several of his friends and was immediately taken to the county jail where he was given a good room and where he will receive accommodations until he can be tried at the next session of the circuit court for several robberies.

My old friend—not "old" in years but in friendship—Hon. Frank P. Forster agrees with me in the assertion that the growers should cut their celery crop in half this season if such a thing is possible. Of course the growers will not heed this advice but it is good, nevertheless and they can take it or leave it for what it is worth.

I knew that girls grow rapidly but that sixteen year old girl adopted by Millionaire Browning grew five years in one night. And all the fuss and feathers over his adopting this girl goes to show that when a millionaire really wants to help some one, the public will not let him. It is difficult for a rich man to do anything without being criticized, which is the reason so many of them do so little.

Sanford can be made into a beautiful city if we can have a concerted effort all along the line to make our places blossom this winter. All of us are prone to let the yard go at times and we get tired to trying to make grass and flowers grow where it seems they will not respond. But all of us want "jeping up" on this particular subject and we will get right in line and do our best.

SHOUTING PHILANTHROPY

These remarks concern three men. Two of them are millionaires. The third may be a millionaire, but we don't know. We don't even know his real name.

Edward W. Browning is the first man. His name is familiar to newspaper readers. His marital difficulties first threw him onto the front pages. After that he put himself on the front pages by announcing his desire to adopt another daughter.

An alleged blackmail plot, in which the life of his one adopted daughter was threatened, gave him further publicity. Now we'll give him some more.

It is unnecessary for a rich man to broadcast his wish to adopt a child. It is harmful for him to elaborate on his intention and ability to give the so-called fortunate child every advantage and luxury that money can buy. It is better for the child which may be chosen, and for the children of poor parents, that such a thing be done quietly, with no fanfare of trumpets.

The second man is Leopold Schep, another millionaire. He had given away considerable money and then was inspired to tell the newspapers that he wanted advice on what to do with the rest of his cash. He got publicity.

We'll not criticize Mr. Schep harshly. It is possible he was bewildered by the avalanche of bank

SPIRIT OF KINSHIP

In the not far distant past, North Florida fought Peninsula Florida; the West Coast battled against the East Coast; neighbor cities leaped at each other's throats at the slightest provocation.

Each section of the community, in striving toward greater expansion in the race of progress, attempted to win by tearing the other down rather than by building itself up.

The West Coast realizes that the East Coast has just as many advantages as it has; Daytona admires the progressiveness of St. Petersburg; Tampa and Jacksonville continue to fight for honor of being the state's metropolis, but each sees in the other an adversary of merit, and the rivalry is friendly and gentlemanly.

Let a Chicago publication slander Florida, and every city and cross-roads town lines up side by side to see that truth gains away. The spirit of kinship among Florida cities is growing. St. Augustine recently sent its commercial secretary to Daytona to give advice and lend aid in financing

CONFUSION IN NAMES

There is an unfortunate duplication of names all over Florida which is very confusing. This is true of many of the new developments and suburban areas which must be named in order to be platted, many of these appropriating without apology names which had previously been given localities already prominently known.

There seems no limit to the repetitions. Every time a visitor goes into a new locality he is confronted with the same names he left behind in the last place visited.

With as many beautiful Indian names as may be listed, native to the Seminoles and preserved in state history; Spanish names, relics of the earliest white settlers, and the hundreds of honest-to-godness United States historic places, why should we have so

Rev. and Mrs. Nixon Entertain League

Rev. and Mrs. T. J. Nixon entertained about 40 members of the Intermediate League last night. A cabinet meeting was held first and new officers were appointed, after which a delightful program was enjoyed. Many readings and musical numbers were given by the members.

The guests especially enjoyed the selections given by Mrs. Ernsbaw and Raymond Nixon, daughter and son of Rev. and Mrs. Nixon. A reading by Miss Eloise Lanier also received much applause.

Later in the evening a delicious ice course was served by the hostess, assisted by Mrs. Ernsbaw.

Longwood

Mrs. B. J. Overstreet and children are spending several weeks near Asheville, N. C.

Mrs. C. W. Henck who has been undergoing treatment at the Formosa Sanitarium is slowly recovering.

Mrs. J. E. Walker, wife of Mayor Walker, is visiting sons and daughters in Sioux Falls, South Dakota and reports cold weather there.

Theodore Pice has sold five acres adjoining his home on the Dixie Highway in southern section of Longwood and Albert Buck has disposed of 10 acres near his store on the highway.

Mr. Frazier and son-in-law, C. L. Thomas, have disposed of a 10 acre property adjoining their residence in the northern section of the town. This was sold to Orlando uyers for a substantial price.

Many real estate deals have been completed during the last few days. The Lake Jessup Land Company reports the sale of a tract of 300 acres and another sale of 40 acres, with many inquiries by letters and telegrams.

On Thursday afternoon the Civic League was entertained by Mrs. Y. N. Searcy and Mrs. C. B. Searcy, at their home on Greenwood Lake. Embroidery was done by the members and refreshments served at the close of the afternoon.

The general merchandise store conducted by B. J. Overstreet for several years has lately been sold to Oscar Bryant of Wagner who also operates several other stores. The store is now under the able management of Mr. North. Mr. Overstreet is giving more attention to road construction.

Two or three miles west of Longwood are the famous Palm Springs which have for very many years been celebrated for the exhilarating and medicinal qualities of its boiling sulphur bathing pool with a temperature of 73 degrees year round, and situated in a most tropical setting. Picnic parties are welcome to use the screened pavilion.

Joseph Phipps has gone on a business trip to Tampa and Fort Myers. Before his departure he gave a theatre party in Sanford. Among those present were Mr. and Mrs. B. C. Clark, Miss Margaret Stuart, Mr. Robert Simpson, of Pittsburgh, Pa., Mr. Thompson, athletic director of Rochester, N. Y., Mrs. Henry Menick and Mr. Phipps.

Many industrial activities are evident in Longwood. The mill is busily turning out finished lumber for building purposes. R. E. Cobb is manufacturing a device he has patented for attachments and improvements on musical instruments and Mrs. Cobb is supplying the public with rare varieties of plants and flowers from the Seminole Gardens. The handle factory is running full time to fill its orders from many large business firms throughout the state. Briceno Clark has contracts for many additional buildings in this neighborhood. The addition to the Baptist church enlarges its seating capacity 50 per cent.

East Sanford

Mrs. L. A. Brumley returned Friday from a two months stay in Hendersonville, N. C.

W. L. Henry returned Thursday from Atlanta, Ga. J. W. Conley accompanied him for a short stay.

B. E. Squires is at home from a motor trip to points in New York. Mrs. Squires will remain in the north until later.

Mr. and Mrs. W. W. Miller returned to Daytona Beach Tuesday for another stay of two weeks at the Colonial Apartments.

John Peters and Nick Zernovian accompanied G. F. Smith to Kissimmee for an interesting visit to the banana plantations recently.

The little child of Mr. and Mrs. Lee Kinard died at the hospital Monday morning, having been taken there for treatment while very ill.

Mr. and Mrs. Harry Heener and Mr. and Mrs. J. C. Ellsworth enjoyed a trip to Ponce Park and other points Sunday in the Heener car.

Mrs. Libbie Weeks and Miss Annie Weeks left Saturday for a two weeks visit with friends in Wilmington and other points in North Carolina.

Mr. and Mrs. George Elliott and son Edward have taken apartment at Mrs. Jennie Stevens' home on Mellonville Avenue and have rented their place on Fourth Street.

Hoke Hunter received word last week that a son had been born to him and Mrs. Hunter at Charlotte. Mrs. Hunter and son will come to their Celery Avenue home soon.

Two new families moved here last week from Mountain Lake and are living in Nick Zernovian's tenant houses. Another family from Palatka moved into Will Prevatt's tenant house.

Methodist Notes

By Mrs. J. S. Ward

Woolsey Sturdivant of Oviedo has accepted a position with Smith Brothers, Inc.

Mrs. A. S. Abrams and Mrs. C. J. Coleman are expected home from Atlanta on Thursday.

Mr. and Mrs. P. E. Stevenson left Saturday for a month's vacation in New York and Canada.

Clarence Priest and Newton Bell spent the week-end at Gainesville as the guest of Mr. Bell's parents.

Friends of Mrs. Lonnie McMullen will regret to learn she is quite ill in the Fernald-Laughton Hospital.

Mrs. C. H. Smith left Sunday to spend a week at DeLand as the guest of her two sons, Vigil Leo and Dwight Smith.

Mr. and Mrs. Frank Talbot and family returned Sunday from a pleasant trip to Miami and other points on the East Coast.

We are very glad to have Mrs. John Sneed with us again. She returned Saturday afternoon from Tennessee and other points of interest.

Miss Hazel Clore who has been the guest of Misses Mary Crawford and Fanny Bell Priest, left Sunday evening for her home in Lady Lake.

Mrs. J. B. Crawford and children were called to Harrisburg, Pa., last week because of the illness of Mrs. Crawford's mother, Mrs. Weigle.

The Senior Epworth League services on Sunday evening were well attended. Miss Rebecca Clark was the leader of a very original program, the subject of the lesson being "Kindness." Miss Clark and her assistants on the program are to be complimented for this impressive service.

Among important additional improvements which the governor intends to have inaugurated in the detention schools, is a \$50,000 printing plant to be placed in the Florida Industrial School at Marianna as well as a \$30,000 wood work shop in the same school. These will be established as soon as possible.

Goldenrod

J. Rouse and wife of Conway were callers here Sunday afternoon.

The Eldridges were the guests of Mr. Geve, Sunday, to a picnic luncheon at Lake Howell.

Mr. and Mrs. A. B. Smith of Winter Garden were visiting the former's parents here Saturday night.

Harry Williams' mother and cousin of Winter Park were pleasant callers at George Parker's Sunday afternoon.

Mr. and Mrs. H. C. Parker and Mr. and Mrs. W. D. Smith were dinner guests of Carl Mather's family Sunday.

Mr. and Mrs. George Parker announce the birth of a son Monday, Aug. 17, both mother and son are doing nicely.

W. T. Jennings of Griffin, Ga., has been employed by the Dodd Brothers to assist them in running the Garden Lake Dairy.

The Dodd brothers of Garden Lake are making marked improvements on their dwelling by the adding of a new roof and front porch.

Mr. and Mrs. R. L. Crown were the dinner guests of Mr. and Mrs. G. S. Brown's Sunday. All motored to Avalon Lake Groves Sunday afternoon.

B. O. Hull, who has been here for two weeks, left Friday via the Atlantic Coast Line for his home in Cleveland, Ohio. He expects to return about Oct. 1 to spend the winter.

Mr. and Mrs. Wayne Lathrop and four sons arrived here last week, by auto, from Ohio, Iowa. They will occupy their cottage on North Bear Tully Lake, purchased while here last winter.

The families of R. L. Crown and G. S. Brown, were dinner guests of T. C. Brannons of Orlando on Thursday evening and also their theatre guests to "The Country Store" at the beach.

Mr. and Mrs. W. D. Smith, who have been visiting the former's parents, Mr. and Mrs. W. J. Smith, left Monday for Keesau, Miss., for a week's visit with the latter's mother before returning to their home in Nashville, Tenn.

Mrs. Claire Everette
Teacher of Artistic Piano and Singing
Valuable courses in modern pedagogy taught from elementary to the highest standard.

Women to Announce Over NewTokyoRadio

TOKYO, Aug. 19.—(AP)—The raucous-voiced male radio announcer may become a thing of the past in Japan if the officials of the new Tokyo broadcasting station succeed in setting a new style. In fact, women are to be employed exclusively as announcers in the new broadcasting studio.

They are chosen by examination, it is said, and only those with excellent enunciation ability will be employed. One of the requirements is that the announcer have the pure Tokyo dialect, so that the station will not be mistaken for the one at Osaka. There is much difference in the speech of the two cities.

A very interesting and instructive meeting was held by the Baptist Women's Missionary Union at the home of Mrs. M. J. Collicutt Thursday afternoon. A very generous offering for foreign missions was given. Visitors from other unions were Mrs. Phillips and Mrs. Martin of Oviedo and Mrs. Tribble and daughter, Miss Mary, from Chulota.

Another famous PIE

"THE proper way to cut pie is in quarters." That's the ruling of the men-folks when Pecan Meringue is on the board. And the only way you can beat the game is to make a couple of small pies instead of one large. But not too small! You'll likely want a man's-size piece yourself—once you try this mixture of pecan meats with velvety brown-sugar custard, made with Borden's. And a meringue and more pecans to top off!

PECAN MERINGUE PIE	
1 cup Borden's Evaporated Milk	1 tablespoonful butter
3/4 cup water	3/4 cup pecan meats, chopped
1/2 cup brown sugar	1/2 teaspoonful salt
2 1/2 tablespoonfuls flour	1 teaspoonful vanilla
2 egg yolks, slightly beaten	4 tablespoonfuls granulated sugar
2 egg whites, stiffly beaten	Baked pastry

Dilute milk with water and bring to the scalding point. Mix brown sugar, flour, and salt thoroughly together. Add to the hot milk, slowly stirring until mixture thickens; cook over hot water (in double boiler) fifteen minutes, stirring occasionally. Add egg yolks slowly. Beat rapidly until set. Add butter. Remove from fire and cool; add flavoring and nut meats. Pour into baked pastry. Cover the top with meringue made of egg whites and granulated sugar. Bake in a very slow oven until slightly browned. Sprinkle with nut meats broken in small pieces.

Borden's comes in two sizes; tall (16 oz.) and small (6 oz.)

Order from your grocer's by the half-dozen or more cans.

Crawford Iron Man For Celery-Feds In Two Games Tuesday

Hurler Given Rotten Support In First and Smokers Win By Score 10 to 0; Holds Tampa to Four Hits in 2nd

Error Gives Tampa Edge In The Second

Sanford Pitcher Holds Smokers Score 'Til Seventh Inning of Second Contest

TAMPA, Aug. 19.—The league leading Smokers feel much more secure in their position at the top of the list after their double victory yesterday afternoon over the Sanford Celeryfeds even though Lakeland did win again from the Saints.

And there was a great eleventh inning finish in the second game that made it well worth while for the several hundred fans who were in the stands to have turned out even if there had been nothing else to make them excited.

Pitching Both Games.

Crawford was the real iron man of the afternoon and the second was certainly a tough one for him to lose. He pitched well in the first one but was afforded rotten support by his team. The Alfonso and Gaston act was pulled four times and the ball fell between two players each time for hits that should not have been counted him. This so proved the big fellow that he asked Manager Hardy to let him pitch the second game as he said he could show the Smokers that he could beat them, and he came entirely too near doing it to please the Tampa fans. For ten innings he held the heavy hitting Tampa men to two hits and had a one-run lead for seven innings. But his center fielder muffed one in what would have been the last inning and the runner later scored. Sanford had put its only run over in the first inning as the result of two Tampa errors so that evened it up.

Breaks Up Game.

It seems that Oscar Estrada figures in every game that is broken up in the last inning and it was the Cuban who scored the winning run with two down in the eleventh when it was so dark the ball could hardly be seen. Jesmer had gotten a single in the third and Weik had delivered a two-bagger in the next and that was all that had been chalked up against Crawford. But the Celeryfed hurler made the mistake that so many pitchers make with Estrada at the bat. He sent one over about shoulder high and Oscar landed on it to send it into right field. With an ordinary runner on the paths it would have been only a single but Estrada kept running and slid into third base just ahead of the throw. Only one was out but Weik bunted a high foul trying to put over the squeeze play and it looked as if the game would have to be called with the score standing one all. But Leo was next up and he crashed one to right field that would have been good for a two-bagger but all he had to do was to touch first base as the game was over when Estrada crossed the plate.

And while Crawford was pitching his second great game Foley was really doing just as well if not a little better. He gave up six hits and did not issue a single base on balls. None of the hits went for more than singles and he should not have been scored against as he had two of the hits come in one inning. Weik and Hicks booted one each in the first inning and Dumas scored on McQue's bingle to right. Casares cut off a second score when he caught Bailey's short fly to left and threw to the plate to get Frisbie. It was a close play and Nance had to make a dive to tag the runner.

Tie Score in Seventh.

The Smokers tied the score in the seventh when Kinsey dropped Casares' fly in center field and the runner scored on two sacrifices.

The Smokers started in the first inning of the first game to put the game on ice when they sent five runs on as many hits and a sacrifice coupled with an error.

Yesterday's two victories put the Smokers back with a two-game lead over Lakeland as both have won two games this week. With the double header to be played today there is still a chance to add to that lead by taking both of them. The first game today will start at 2:30 and will be followed by the second ten minutes after the first is over. The second game will be seven innings.

LAKELAND TAKES SECOND GAME IN ROW OFF SAINTS

Beats Leaders of First Half By Score of 2 to 1; Cusack Triples, Scores on Throw In Ninth for Winning Run

ST. PETERSBURG, Aug. 19.—Lakeland made it two straight from St. Petersburg here Tuesday winning 2 to 1 when Cusack hit a triple in the first of the ninth and came home on Allen wild throw. Cusack went back into the box for the Highlanders today after being pounded to the showers Monday and held the Saints to six well scattered hits.

Neither of the Lakeland runs was earned, Houston pitching steadily in what should have been a shut-out. The first counter came in the second frame when Surface, who got on through a fielder's choice after Doyle receiving a base on balls, came home on Messner's error and Cusack's single to right.

The Saints evened the count in the fifth when Barnes walked and came home on Cox's sacrifice. Block's infield hit and Houston's sacrifice fly.

PIRATES WALLOP ROBINS AS GIANTS TROUNCE CHICAGO

Braves Lick Cardinals Twice, 6-2, 5-2; Cincinnati Red Sox Take Both Ends of Twin Bill From Phillies 7-5, 11-10

BROOKLYN, Aug. 19.—(AP)—Pittsburgh held to it, two and one-half game lead in the National League Tuesday, defeating Brooklyn, 11 to 4, while the Giants conquered Chicago. Emy Osborne was knocked out of the box in the third and the Pirates scored eight runs off Hubbell. A Dodger rally sent Emil Yde to the showers in the third, but Vic Aldridge held Brooklyn scoreless thereafter.

Score by innings: Pittsburgh 008 010 011—11-12-0 Brooklyn 013 000 000—4-10-2 Batteries: Yde, Aldridge and Couch; Osborne, Hubbell, Ehrhardt, Cantrell and Taylor.

GIANTS BATTER CUBS

NEW YORK, Aug. 19.—(AP)—Excellent pitching for eight innings by Nehf and a six-run rally in the eighth gave the Giants a victory over Chicago Tuesday, 7 to 1. Nehf relieved Scott in the second and Maranville tripled immediately. The only other hit off the New York left-hander was a hunt by Heathcote in the ninth. Irish Meusel hit a home run with Young on base.

Score by innings: Chicago 000 000 000—1-6-1 New York 000 001 006—7-14-0 Batteries: Cooper and Gonzales; Scott, Neif and Hartley.

BRAVES LICK CARDS TWICE

BOSTON, Aug. 19.—(AP)—The Boston Braves celebrated the tenth anniversary of the opening of Braves' Field with a double victory over the St. Louis Cardinals Tuesday by scores of 6 to 2 and 5 to 2. The visitors were unable to gather more than eleven hits in both games, Hornsby going hitless. Thevenow, a former Syracuse player of the International league, played shortstop for the Cardinals.

First Game

Score by innings: St. Louis 000 000 011—2-5-2 Boston 010 010 108—6-12-5 Batteries: Reinhart and O'Farrell; Genewich and O'Neill.

Second Game

St. Louis 100 000 010—2-6-2

Boston 023 000 00x—5-6-1

REDS BEAT PHILLIES TWICE

PHILADELPHIA, Aug. 19.—(AP)—Cincinnati won both ends of Tuesday's double header with Philadelphia here Tuesday, taking the first game 7 to 5, and winning the second in eleven innings, 11 to 10. Home runs provided the Reds' margin of victory in both games. Circuit blows by Luque and Smith in the sixth inning won the opening game and Roush's home run with one on, followed by Walker's in the eleventh inning won the second.

First Game

Score by innings: Cincinnati 050 002 000—7-11-2 Philadelphia 001 010 201—5-13-2 Batteries: Luque, May and Hargrave; Betts, Couch, Mitchell and Henline.

Second Game

Score by innings: Cincinnati 011 300 400 03—11 Philadelphia 300 002 201 02—10

EAT WHALE MEAT

OSLO, Norway, Aug. 19.—(AP)—WHALE MEAT is a popular form of human nourishment among the poorer classes of Norway. During the spring months large quantities of this food was shipped to Trondheim, Bergen and Oslo. Only the best and most tender portions are selected for human consumption.

SENATORS BEAT SPEAKER'S CREW ATHLETICS LOSE

Yankees Tounce Detroit Tigers by Score 5 to 2; White Sox Bunch Hits in 6th and Win Over Boston Score 4-2

CLEVELAND, O., Aug. 19.—(AP)—Washington took the game Tuesday in the series from Cleveland, 7 to 4, knocking Uhle from the box in the fourth inning and scoring one run off Speece in the fifth. Cleveland was unable to score off Walter Johnson until the sixth, when the Indians made four runs. With two out and two on in the ninth and Speaker at bat, Gregg replaced Johnson.

Score by innings:

Washington 010 310 002—7-10-1 Cleveland 000 004 000—4-6-0 Batteries: Johnson, Gregg, Marberry and Kuel; Uhle, Speece, Kurr and Myatt.

BROWNS BEAT ATHLETICS

ST. LOUIS, Aug. 19.—(AP)—Washington gained a full game on the league leading Philadelphia's Tuesday when the Athletics dropped the first game of the series to the St. Louis Browns 7 to 6. Although his mates presented Joe Bush with a five run lead in the opening inning, he was unable to hold the Athletics and was succeeded by Danforth in the fourth frame. Vangilder later replaced

Danforth, Connie Mack's pitching array included Quinn, Baumgartner, Groves and Harris. The game was delayed 15 minutes by rain.

Score by innings:

Philadelphia 010 103 010—6-13-3 St. Louis 500 000 205—7-8-0 Batteries: Quinn, Groves, Harris, Rommel, Baumgartner and Cochrane; Perkins; Bush, Danforth, Vangilder and Hargrave.

YANKS DOWN TIGERS

DETROIT, Aug. 19.—(AP)—New York leaped on two helpless Detroit pitchers Tuesday and beat the Tigers, 5 to 2 in the first game of the locals' home stand that opened Tuesday. Babe Ruth poled his twelfth home run of the season off Stoner in the eighth inning.

Score by innings:

New York 000 001 031—5-13-1 Detroit 000 010 010—2-9-1 Batteries: Hoyt and Bengough; Stoner, Doyle and Basler, Woodall.

CHISOX BEAT BOSTON

CHICAGO, Aug. 19.—(AP)—Ted Lyons won his 17th game of the season Tuesday when Chicago bunched hits off Fred Wingfield and defeated Boston, 4 to 2 in the first game of the series. Lyons had only two bad innings before the visitors bunched six of their ten hits for two runs.

Score by innings:

Boston 000 000 010—2-10-1 Chicago 100 003 004—4-8-0 Batteries: Wingfield and Bischoff; Lyons and Schalk.

CHILDREN'S FATAL DISEASES

Worms and parasites in the intestines of children undermine health and so weaken their vitality that they are unable to resist the diseases so fatal to child life. The safe course is to give a few doses of White's Cream Vermifuge. It destroys and expels the worms without the slightest injury to the health or activity of the child. Price 35c. Sold by Lane's Drug Store.

SAFE Drinking Water Municipal Supply City of Sanford Approved by Florida State Board of Health

Try Smith's Barber Shop for good barber work. Ladies welcome. Next to Valdez.
