

'Service Above Self' Called Basic In Life

Rotary Governor Les Ginkel of Winter Park, speaking to Sanford Rotarians Wednesday, told them that "in spite of what seems an intangible concept of service above self, as upheld by our Rotary creed, the whole economy of our nation is in fact based on that concept."

"The successful business man actually looks for people he can serve, for this is his life and his success," he pointed out.

"Our whole economy is built on intangible belief in our fellow man and trust that he will do what he says he will do," Gov. Ginkel pointed out.

"Buying and selling are done on good faith. When you drive down the road in your car, you do so with faith that the other drivers will share the road with you," he said.

"But now we live in an entirely different kind of economic world. If any of the switches that you turn or the buttons that you push to turn on your lights, cook your breakfast, start your car, operate your office, turn your motors, deliver your mail and so forth, fails to operate do you then say—

"Never mind, I'll do it myself, I don't need you," he said.

Ginkel answered this by saying that we immediately get in touch with the person or persons or organizations who provide us with all these services.

"Never doubt the strength of the idea of brotherhood," Ginkel urged. "The power of Rotary lies in its concept of the new commandment given as a formula for success, as expressed by Jesus Christ, and that is, 'If any among you would be great let him be the servant of all,'" he pointed out.

Program Closes Vacation Church School

"FRIENDS NEAR AND FAR," theme of the Vacation Church School at Grace Methodist Church, also was carried out in Friday night's closing program presented by the students in conjunction with an open house.

Tiger Tails

By Lt. (jg) Bill Pullinger
Well friends and neighbors, in case you have been wondering where all the noisy A-5A's with the big orange stripes on their tails have been these past six weeks, they've been aboard the USS Independence (CVA-62) on her shakedown cruise south of Cuba.

As a rule shakedown cruises are all work and no play and this was no exception. The "Tigers" had their work cut out for them and they did an outstanding job. The USS Independence (CVA-62) had its Operational Readiness Inspection by Fleet Training Group who is responsible for the rigid training and inspection of Independence personnel and their combat procedures.

Lt. Paul Wireman was Officer in Charge of the divert crew at Leeward Point. Chief Russell, whose daughter, Janice, was recently chosen as "Miss Flame," was leading petty officer. These 27 "Tigers" claimed they really worked hard but there were a lot of suspicious sun tans. A "well done" was extended by the "Head Tiger," Cdr. L. J. Reinhart, for their fine work.

The traffic between Sanford and Norfolk this last week must have been a mess as a caravan of "Tigerettes" made the trip to Norfolk to be with their husbands while the ship was in port. Can you imagine following ten women drivers for 900 miles? The Independence was loaded with food, spare parts,

and aircraft in record breaking time during the inport period at Norfolk. Vice Adm. F. O'Brien, commodore, gave the ship a well done for her outstanding achievements during these past weeks and a proud crew and ship sailed from Norfolk on 6 August 1963 to join the Sixth Fleet in the Mediterranean.

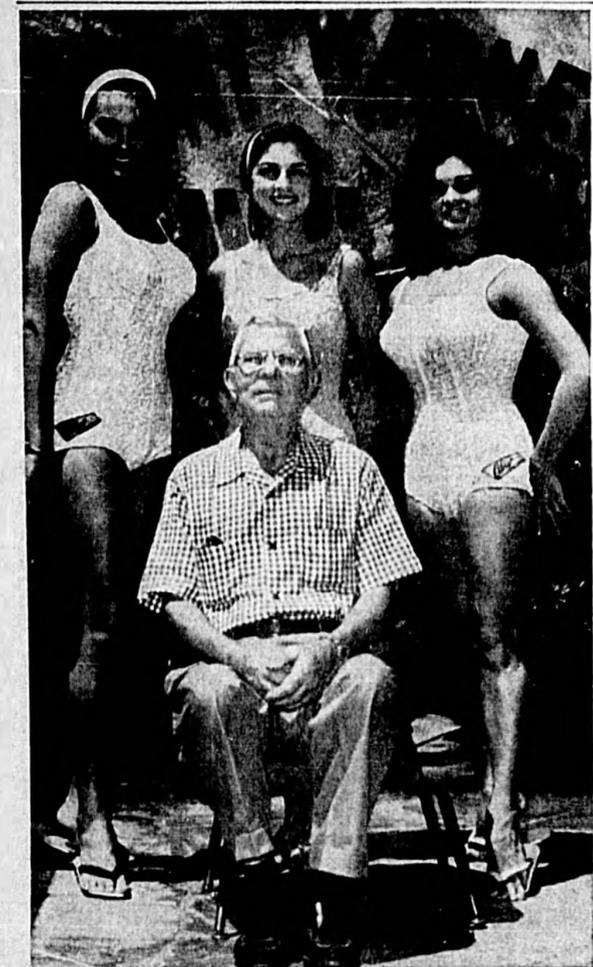

Congratulations Lt. and Mrs. James Bell of Heavy Attack Squadron One on the birth of their son, Mathew Bell. This new "Tiger Cub" arrived on the 2nd of August 1963, gross weight 7 pounds, 7 ounces.

Pope Paul Woos Eastern Church
VATICAN CITY (UPI) — Pope Paul VI apparently hopes to persuade the Eastern Orthodox church to end the boycott of the Ecumenical Council as a first step toward unity, Vatican sources said Monday.

The pontiff made a dramatic appeal Sunday to the Eastern church to help tear down "the barriers that separate us."

The Eastern church, representing the largest Christian body in the world after the Roman Catholics and the Protestants, split with the Roman church 900 years ago because of differences, including the Roman claim of supremacy of the Pope.

Signs With Phils
PHILADELPHIA (UPI) — The Philadelphia Phillies have signed 18-year-old catcher Allen Luso of Centro Hall, Pa. Luso, a 6-2, 180-pounder, hit .472 for Penns Valley High School last spring and sported a .490 average in a summer amateur league.

ANTHONY OPPEL, of Smyrna Drive, DeBary, celebrated his 80th birthday as a guest at Weeki Wachee Springs and is pictured here with some of the Mermals (all wearing Alix of Sanford swimsuits). Mrs. Oppel and their daughters, Mrs. Ed Regnell, West Hempstead, N. Y.; Mrs. Charles Drost, Floral Park, N. Y.; and Mrs. John Drewes, Happauga, N. Y., accompanied Mr. Oppel to Weeki Wachee Springs.

Vacation Church School at the Grace Methodist Church of Sanford came to a close last Friday night with an Open House and program held by the students and staff of the school and an Ice Cream Social sponsored by the Men's Club of the church.

General theme for the school was "Friends Near and Far" and during each class, in addition to the lesson study, the children enjoyed film strips from Japan, Africa, Hong Kong, Brazil and Mexico.

Articles made during crafts instruction included Japanese gardens, coiled hats, African drums, Mexican pinatas and ceramics.

Offerings received each week day and on Friday evening will go to Rev. Ken Traxler in Brazil.

Mrs. Ralph T. Cowan Jr. served as director of the school. Other members of the staff included: Kindergarten, Mrs. Thomas F. Price, superintendent and Mrs. Marvin E. Clark, Mrs. Russell B. Kitzer and Mrs. L. E. Sterling Jr.

Primary, Mrs. P. J. Murray, superintendent and Mrs. Andrew Crocker, Mrs. John H. Hires Jr., Mrs. Robert Kennedy, Mrs. Robert Thomas and Mrs. John A. Williams.

Junior, Mrs. Jack Rossman, superintendent and Mrs. John Capwell, Mrs. Donald Cummins, Mrs. C. L. Butler, Mrs. Donald Jackson, Mrs. T. L. Larsen, Mrs. W. O. Shephard and Mrs. James Thompson.

Mrs. Robert Bennett and Miss Janet Hill were in charge of the music and Grace and Barbara Middleton made up the nursery staff.

Refreshments were in charge of Mrs. C. E. Clemmer, Mrs. Malcolm J. Lodge and Mrs. Donald G. Tise.

Those assisting from the Methodist Youth Fellowship included Laraine Klay, Mary Lou Klay, Michele Malbon, Barbara Tiffany and Karen Williams.

Mr. Stanaland Dies At Home
Mr. Jack Stanaland, 48, died late Monday at his residence, Apt. 23, Cowan-Moughn Terrace, following a lengthy illness.

He moved here early this year from Apopka. Survivors are his wife, Mrs. Carrie Belle Stanaland of Sanford; a daughter, Mrs. Wanda Ann Sasser of Apopka, one grandson; a brother, Shelton Stanaland of Nacogdoches, Tex. and a sister, Mrs. Mary Nell Sauts of Winter Park.

Arrangements, incomplete at this time, will be announced by Grankow Funeral Home.

Quick Thinking Saves Man's Life
WASHINGTON (UPI) — A quick-thinking policeman reached into a man's slashed throat Sunday and saved him from almost certain death by pinching off the flow of blood from his severed jugular vein during a 15-minute ride to the hospital.

Using only two pieces of gauze, Pvt. Volney Wiley Jr. kept his life-saving hold on Edward Evans, 36, who suffered a six-inch straight razor slash across the neck during a fight.

Governor's Industrial Role In State Discussed By Bryant

WHITE SULPHUR SPRINGS, W. Va. (UPI) — Florida Gov. Farris Bryant said today a state's industrial future "can be immeasurably enhanced" by its governor's active and continuing involvement in various areas of sound industrial development.

That comment came in a report to the Southern Governors Conference from the group's committee on industrial development, of which Bryant was chairman. The report came near the end of the four-day conference's second general session. The conference will close after its business session Wednesday morning.

Bryant said the committee has not tried to spell out the role of each governor in the conference but that some general statements could be made to outline an active role in industrial development "for the aggressive governor."

The Florida chief executive said a governor can provide continuing leadership to see that up-to-date surveys and evaluations of his state's basic resources are available to serve as guidelines for analyzing his state's potentials.

Fishing Club Gets New Chairman
By Mrs. Adam Muller
The program for last Wednesday's regular meeting of the DeBary Fishing Club was presented by Elmer Thompson who has taken over as program and publicity chairman of the club after the resignation of Howard Middleton was accepted with regret.

Thompson, whose grandson, George Achilles, of Staten Island, N. Y., presented a number of piano selections preceding the meeting, showed a program of film on the Tampa State Fair, the Gasparilla Parade and on fishing for tuna and other game fish.

Members voted during the brief session to hold another fishathon at Lake Susan for the young people as part of the recreation program being sponsored in the community.

New members joining the club were Rev. C. M. Ogg, Ervin White, John L. Diehl and T. Leigh DeBary and T. Kaczor of Orange City.

Meeting Set For Parents
Harold Heckebach, principal of Pinecrest School has requested fifth and sixth grade parents to meet at the school auditorium at 7:30 p. m. Aug. 27 for an orientation meeting.

All teachers will be present and the 1963-64 school program will be explained, Heckebach said. The meeting is not expected to last more than an hour.

ence in recent years, the reputation of a state in the field of industrial development can well hinge on the soundness of the fiscal policies it followed," he said.

Gubernatorial endorsement and encouragement of special youth employment programs through his state employment agencies, and of economic education and other business and vocational education programs in the schools can help substantially in keeping youth off the unemployment rolls."

Bryant said "Similarly his work with the state education officials to train teachers that they may better stimulate occupational aptitudes in their students can have bearing on the drop out problem."

In addition, Bryant said, the leadership of governors in the development of sound financing plans for industrial development, including consideration of soundly based state development corporations, is important.

"With multiple sources for industrial development funds such as have come into exist-

ence in recent years, the reputation of a state in the field of industrial development can well hinge on the soundness of the fiscal policies it followed," he said.

Mr. Wimbish, who attended Sanford schools, moved 30 years ago to Homestead where he was Supervisor for the State Dept. of Agriculture, division of fruit and vegetable inspection.

Among survivors are a sister, Mrs. L. Hawkins Connelly and a brother, Glenn J. Wimbish, both of Sanford.

Funeral services were held Monday afternoon in Homestead for Richard M. Wimbish, 69, former Sanford resident who died Saturday.

Funeral services will be held at 2:30 p. m. Thursday at Brison Funeral Home with Miss Evelyn Kuck and Miss Joan Wilson officiating. Burial will be in Sylvan Lake Cemetery.

Mr. T. A. Hanson Dies At Hospital
Mr. Thomas A. (Tommy) Hanson, 36, died early this morning at Seminole Memorial Hospital following a lingering illness.

Born Feb. 25, 1927, in Sanford, he made his home on W. First St. at Woodruff Springs. He was owner and operator of the City Shoe Shop on Sanford Ave. He was a World War II veteran having served with the Navy.

Survivors are his wife, Mrs. Mary Hanson, two children, Melody K. and Randy Allen, all of Sanford; five brothers, Morris and Andrew, both of Sanford, Woodrow of New York City, John of New York City and James in Germany; a sister, Mrs. Grace Smith of New Smyrna Beach and his parents Mr. and Mrs. Morris Hanson of Sanford.

Funeral services will be held at 2:30 p. m. Thursday at Brison Funeral Home with Miss Evelyn Kuck and Miss Joan Wilson officiating. Burial will be in Sylvan Lake Cemetery.

Funeral services were held Monday afternoon in Homestead for Richard M. Wimbish, 69, former Sanford resident who died Saturday.

Mr. Wimbish, who attended Sanford schools, moved 30 years ago to Homestead where he was Supervisor for the State Dept. of Agriculture, division of fruit and vegetable inspection.

Among survivors are a sister, Mrs. L. Hawkins Connelly and a brother, Glenn J. Wimbish, both of Sanford.

Mathews Eligible To Run For Governor, Court Rules

TALLAHASSEE (UPI) — State Sen. John E. Mathews of Jacksonville was declared eligible to run for governor of Florida by Leon Circuit Judge Ben Willis today.

Mathews went before the court seeking a declaratory judgment to declare him eligible because of a question arising over the appropriation by the 1963 legislature of \$25,000 for the governor's salary.

The constitution bars a legislator from holding an office for which the salary has been increased during his term as a legislator.

Judge Willis said it was his opinion that the legislature had not increased the salary of the office of governor in appropriating the amount for a biennium. It was brought out in testimony the appropriation expires June 30, 1965.

On the constitutional provision, Judge Willis said, "the purpose was to prevent fea-

Director Is Elected By Sanford Atlantic

A. K. Shoemaker, Jr., today was the newest member of the board of directors of the Sanford Atlantic National Bank. Announcement of his election Tuesday was made by the bank's president, Howard Hodges.

Shoemaker is joining the board to replace Luther I. Frazier, recently resigned.

"The resignation of Frazier was accepted with regret," said Hodges, and added that a resolution was adopted by the board stating that the directors and officers of the bank were resolved to bestow upon Frazier their "full appreciation, gratitude and high esteem for his fine record of faithful service, loyalty and devotion."

Frazier has been a director of the bank since 1937 and has served in many capacities, including a period of several years in the 1940s when he was vice president.

Shoemaker is a native of Sanford and owns and operates the Shoemaker Construction Company. He is a graduate of Seminole High School and the University of Florida.

He is chairman of the Seminole County Zoning Commission, a director of the Home Builders of Mid-Florida, the Seminole County Chamber of Commerce, the First Methodist Church and is active in the Civitan Club.

A. K. SHOEMAKER JR.

Troops Storm Pagodas, Seize 100 Buddhists

SAIGON, South Viet Nam (UPI) — President Ngo Dinh Diem declared martial law throughout South Viet Nam today and sent his heavily-armed troops storming through pagoda headquarters of the Buddhist opposition.

At least 100 Buddhist monks were arrested in raids carried out under a state of emergency declared by Diem amid reports that a coup d'etat was imminent.

In a massive crackdown on anti-government elements, the president appointed a new military governor of Saigon and a new chief of staff. He also imposed press censorship.

The long-simmering religious-political crisis in this Southeast Asian country exploded suddenly early today when thousands of soldiers and policemen swept into the main Na Lot pagoda and rounded up more than 100 monks.

The government forces fired gas bombs and hand grenades as they searched into the center of Buddhist opposition to Diem's authoritarian regime.

Perez Family Can Leave

MIAMI (UPI) — A circuit court judge cleared the way Tuesday for the family of Marcos Perez Jimenez to join the ex-Venezuelan president in South America.

Circuit Judge Harvie Duval killed a restraining order against Mrs. Perez that was sought by Enrique A. Garcia Jr.

Perez was returned to Venezuela from a Miami jail cell last week to stand trial on charges of stealing \$13.5 million from the government during his six-year strong-arm reign.

Garcia, of Key Gardens, N. Y., claimed the Perez family owed him \$38,670 for negotiating a \$2 million loan to the Mexican government.

Mrs. Perez has not indicated when she, her three daughters and her son-in-law will abandon their plush waterside mansion here and leave for south America.

500 Petitioners

FALLS (UPI) — More than 500 Americans filed petitions at the U. S. Embassy here today in a demonstration of support for the civil rights march in Washington Aug. 28.

AF Pilot Wins Navy Honors

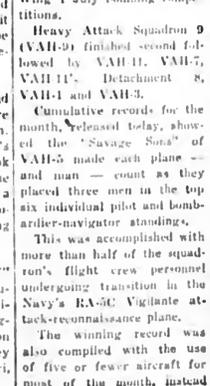

Sanford's Heavy Attack Squadron 9 made its last month of A-1H Skywarrior jet operations a crowning one by winning the Heavy Attack Wing 1 July bombing competitions.

Heavy Attack Squadron 9 (VAH-9) finished second followed by VAH-11, VAH-7, VAH-11's Detachment 8, VAH-1 and VAH-3.

Cumulative records for the month, released today, showed the "Savage Sons" of VAH-9 made each plane — and man — count as they placed three men in the top six individual pilot and bombardier-navigator standings.

This was accomplished with more than half of the squadron's flight crew personnel undergoing transition in the Navy's RA-5C Vigilante attack-reconnaissance plane.

The winning record was also compiled with the use of five or fewer aircraft for most of the month, instead

MAJ. W. S. DURSTELER

of the usual squadron complement of 12. The test had been turned in to make way for the Vigilante, As of Aug. 1, the final three A-1H's were going, too, ending six years of Skywarrior operations for the squadron.

The Air Force also stepped in for a share of the honors, winning "Pilot of the Month" honors was Maj. William S. Dursteler, an Air Force pilot assigned to VAH-9 on an exchange basis.

Bombardier of the Month was VAH-11's Lt. Dale Purdy. He edged Lt. (jg) Bob Boler of VAH-5 by less than 100 points.

Rounding out the bombardiers were: Lt. (jg) Charlie Bone, VAH-11, third; Chief Aviation Machinist Ed Dolea, VAH-5, fourth, and Lt. John Moynihan, VAH-9, fifth.

Following Major Dursteler in pilot standings were: Lt. Cdr. Don Munday, VAH-9, second; Lt. Cdr. Ken Hamilton, VAH-5, third; Cdr. John Barlow, VAH-11, fourth, and Lt. Cdr. Jack Ogle, VAH-5, fifth.

Bryant Elected Chairman Of Conference

WHITE SULPHUR SPRINGS, W. Va. (UPI) — Florida Gov. Farris Bryant was elected chairman of the Southern Governors' Conference today at the business session closing the four-day meeting.

Elected vice chairman was Delaware Gov. Elbert N. Carvel.

Bryant succeeded Gov. Orval Faubus of Arkansas and Carvel replaced Gov. Bert Combs of Kentucky.

The names of Bryant for chairman and Carvel for vice chairman were the only two presented by the conference nominating committee headed by Gov. James Davis of Louisiana.

The motion to nominate and elect Bryant and Carvel was seconded by Gov. Ross B. Barnett of Mississippi.

NEW SEMINOLE COUNTY teachers were taken on a sightseeing tour of their new home community today, to acquaint them with schools, points of interest and other things they had not seen. The schools have 100 new teachers this year, 65 as replacements and 35 new additional faculty members. This representative group was photographed this morning at Oviedo High School. All were luncheon guests at Sanford Junior High School. (Herald Photo)

61 Arrested In Demonstration

PLAQUEMINE, La. (UPI) — Police arrested 61 Negroes in 24 hours in this riverfront town, the South's new arena of racial conflict. But singing, clapping demonstrators planned another march today along with an economic boycott.

More than 400 Negroes attended a rally Tuesday night and sang and shouted their approval of another mass march today.

Mayor Charles B. Schneisen said the city would ask U. S. Dist. Judge E. Gordon West of Baton Rouge to issue a temporary restraining order against further demonstrations.

The Negroes sat in doorways of segregated cafeterias in demonstrating for civil rights and equal job opportunities.

Red Terrorists Kill Policeman

CARACAS (UPI) — Castro Communist terrorists, active here for the first time in nearly a month, killed a policeman Tuesday, wounded a civilian and tried to sabotage the city's only power plant.

The terrorist gunmen wore Castro-style fatigue clothes with armbands bearing the initials of the Red "Armed Forces of National Liberation (FALN)."

Witnesses said the two men were shot when three FALN members, carrying submachineguns, entered the government-owned Vargas Hospital and released a 28-year-old journalist student who had been arrested for terrorist activities.

The student, Rafael Ted. Lecher, had been taken to the hospital for a physical examination.

Miners' Rescue Is No Nearer

HAZLETON, Pa. (UPI) — Rescue workers conceded today they are no closer to bringing out three miners trapped 21 feet underground than they were nine days ago when a cave-in tumbled them.

Prospects of getting to one of the men, Louis Bova, 42, were so gloomy that workers temporarily have abandoned their attempts.

Bova is separated from David Fellin, 58, and Henry Throne, 28, by a wall of rock and debris. He is believed to be injured and has gone without food since the ceiling caved in Aug. 16. His only sustenance has been the brackish moisture seeping along the walls of his chamber.

Hope for Bova was giving way to despair among his closest relatives.

\$5 Million Contract Let

CAPE CANAVERAL, Fla. (UPI) — The U. S. Army Corps of Engineers awarded a contract worth nearly \$5 million today for construction of a causeway between the Florida mainland and the government's industrial complex on Merritt Island.

Col. G. A. Finley, Canaveral district engineer, said the contract went to the Houdaille-Duval Co., of Jacksonville.

The project, the Indian River-Ocala Causeway, will form the western portion of a 13-mile long, restricted use road. It will link the industrial area of the National Aeronautics and Space Administration's Moonport with U. S. 1 to the west and Cape Canaveral to the east.

Airline Struck By Two Crews

NEW YORK (UPI) — Mechanics and ground crew personnel of United Air Lines struck in major cities across the country early today. The airline said no flights have been curtailed.

Members of the International Association of Machinists, which has locals in 21 cities, walked off their jobs in New York, Newark, N. J.; Los Angeles, Cleveland, Philadelphia, Seattle and Portland, Ore.

A company spokesman said supervisory employees were "piling in" and that there have been no interruptions in service.

The union, which has about 12,000 members, has been without a contract since June, 1962, when the old pact expired.

\$10,095 Grant

LAKELAND (UPI) — The National Science Foundation has awarded a \$10,095 institutional grant for science to Florida Southern College, it was announced today.

Governors Don't Like To Be Told By Teller

WHITE SULPHUR SPRINGS, W. Va. (UPI) — Southern governors "uninvited" Dr. Edward Teller from their annual meeting today to avoid a battle over the hotly-disputed nuclear test ban treaty.

Teller, who opposes ratification of the treaty, was "invited" to the annual conference of southern and border state governors by the Southern Interstate Nuclear Board, a compact among the states, apparently with the idea he would speak on the final day of the meeting here.

But when the governors got wind of Tuesday's invitation conference chairman Gov. Orval Faubus of Arkansas said it was known that the distinguished nuclear scientist would not be asked to address the governors.

Faubus advised Teller it might be embarrassing for him to appear at the plush mountain resort hotel where the conference was winding up today.

Teller was reported to have departed Washington last night on an overnight train, then left the train before it arrived here and returned to Washington.

He was to speak at the National Press Club in Washington today.

Faubus and Alabama Gov. Wallace fired a parting shot in the civil rights controversy during a panel discussion today on the National Guard.

Wallace and Faubus both sharply criticized the federalizing of National Guardsmen in connection with racial strife in their two states.

U. S. Protests To Viet Nam

WASHINGTON (UPI) — The United States today officially deplored what it called "serious repressive measures" by the government of South Viet Nam against Buddhists.

A statement issued by State Department spokesman Robert McCloskey said: "On the basis of information from Saigon it appears that the government of the Republic of Viet Nam has instituted serious repressive measures against Vietnamese Buddhist leaders."

"The action represents a direct violation by the Vietnamese government of assurances that it was pursuing a policy of reconciliation with the Buddhists. The United States deplores repressive action of this nature."

U. S. officials said they were not yet drawing any conclusions by way of assessing the situation in Viet Nam, including whether an effort to overthrow the government might be imminent.

Fruit Juice To Replace Milk

OCALA, Fla. (UPI) — Marion County schools will provide fruit juices for school lunches rather than pay higher prices for fresh milk, schools superintendent John Seay said today.

"The prices being asked for fresh milk now would put up the cost of school lunches by about 5 cents," Seay said, "and many parents with several children could not afford it."

The county school board rejected fresh milk bids Tuesday night and said they would reconsider the matter in a month.

Push Aid Bill

WASHINGTON (UPI) — Administration forces today pushed the House toward a reluctant approval of the \$11 billion foreign aid bill, but observers predicted a close vote. The measure, if approved, would bring to \$108.1 billion the total U. S. outlays for foreign military and economic assistance.

Troop Use Hit

WASHINGTON (UPI) — The Pentagon's research chief, Dr. Harold Brown, told the Senate today that the limited nuclear test ban treaty would "actually improve somewhat" rather than damage the U. S. military position.

Treaty Backed

WASHINGTON (UPI) — The Pentagon's research chief, Dr. Harold Brown, told the Senate today that the limited nuclear test ban treaty would "actually improve somewhat" rather than damage the U. S. military position.

Jet With 28 Skids Mile To McCoy Landing

ORLANDO, Fla. (UPI) — A DC-8 jetliner with 28 persons aboard skidded on its belly for more than a mile after landing here today but no one was injured.

The mishap was blamed on faulty functioning of the big plane's landing gear but the exact cause could not be determined immediately. Aviation authorities promptly began an investigation.

The mishap occurred aboard Eastern Air Lines flight 804 bound from Miami to New York with intermediate stops at Tampa and Orlando. All 21 passengers aboard got on the plane at Tampa, 18 of them bound for New York and three for Orlando. Eastern sent another plane from Miami to pick up the passengers.

First reports from the federal aviation agency said the plane's main landing gear collapsed when it set down shortly before 9 a.m. EST, at McCoy Air Force Base which handles commercial jet planes that fly to the Orlando area.

A spokesman for Eastern, however, said the nose wheel locked into landing position but the main sets of wheels failed to come down and lock before the landing.

One eyewitness, Sunny Voorhes, a city employe, said it looked like the main landing gear was only part way out of its fuselage compartment when the plane touched down.

Voorhes said the plane skidded the length of the main runway, more than a mile and a half, and finally halted on grass at the end of the strip.

Castro Protests

MIAMI (UPI) — Radio Havana broadcast a Castroite communique Tuesday night accusing the United States of pursuing a "policy of perfidy" and saying that refugee attacks on Cuban installations "endanger world peace."

Conditions For Development Are 'Favorable'

MIAMI (UPI) — A low pressure area that appeared to have the makings of the season's second tropical storm popped up in the Atlantic today near where Hurricane Arlene was found Aug. 2.

A hurricane hunter plane sped from Puerto Rico to give weathermen an accurate picture of the disturbance.

The San Juan Weather Bureau labeled the disturbance a "tropical depression" on the basis of ship reports from the area and estimated its center to be about 600 miles east of the French Island of Guadeloupe or about 900 miles east-southeast of San Juan.

Highest winds reported by the ships were 30 to 35 miles per hour. The disturbance was estimated to be moving westward at about 12 miles per hour.

"Conditions remain favorable for further development and some increase in size and intensity is likely in the next 12 to 24 hours," the Weather Bureau said.

The second tropical storm of 1963 will be named Beulah. Arlene, an on-again - off-again storm, blew itself out at sea after tracking Bermuda with 98 m.p.h. wind gusts.

On Race Alone

TAMPA (UPI) — A dean of the University of Tampa, James W. Covington, told a federal court Tuesday that Negroes were denied admission to the school entirely on the basis of their race.

No Job Quotas

WASHINGTON (UPI) — President Kennedy says it would be a mistake to assign job quotas to Negroes or to any group of citizens on the basis of religion, race or nationality.

Loot Found

LONDON (UPI) — Police said today they found \$84,000 hidden in a house trailer believed to have been used as a hideout by a man and woman connected with the \$7.3 million mail train robbery.

The mishap was blamed on faulty functioning of the big plane's landing gear but the exact cause could not be determined immediately. Aviation authorities promptly began an investigation.

The mishap occurred aboard Eastern Air Lines flight 804 bound from Miami to New York with intermediate stops at Tampa and Orlando. All 21 passengers aboard got on the plane at Tampa, 18 of them bound for New York and three for Orlando. Eastern sent another plane from Miami to pick up the passengers.

First reports from the federal aviation agency said the plane's main landing gear collapsed when it set down shortly before 9 a.m. EST, at McCoy Air Force Base which handles commercial jet planes that fly to the Orlando area.

A spokesman for Eastern, however, said the nose wheel locked into landing position but the main sets of wheels failed to come down and lock before the landing.

One eyewitness, Sunny Voorhes, a city employe, said it looked like the main landing gear was only part way out of its fuselage compartment when the plane touched down.

Voorhes said the plane skidded the length of the main runway, more than a mile and a half, and finally halted on grass at the end of the strip.

Jet With 28 Skids Mile To McCoy Landing

ORLANDO, Fla. (UPI) — A DC-8 jetliner with 28 persons aboard skidded on its belly for more than a mile after landing here today but no one was injured.

Naval Academy Classes Open On Sept. 16

Scheduled opening day for the newest school in the area, the Sanford Naval Academy, has been set for Sept. 16, Col. H. J. Furman said today. Applications are still being accepted for the private school which will serve as a day school as well as a boarding school.

"We particularly wish to point out the availability of the day school services to Sanford parents, who might not be interested in sending their son to a boarding school, but would like to take advantage of the facility for a private day school here in the community," Colonel Furman said.

Day school students would take part in all the activities of the school on an 8 a.m. to 5 p.m. day of academic classes, drill and athletics, plus the supervised evening study classes from 7 to 9 p.m., with an extra half hour set aside for special help from 9 to 9:30 p.m.

One wing of the present building on Mellonville Avenue has been set aside for classrooms, with the other wing providing the dormitory rooms, pending the construction of a new classroom building, which will include an auditorium.

"We have a little more than three weeks to go yet before the opening of school and are still accepting applications until further notice," the superintendent said.

Florence Jones Funeral Today

Mrs. Florence Lenora Jones, 79, of 803 Stetson Avenue, Orlando, died Monday at 2 p.m.

Mrs. Jones was born in Christian City, Mo., in 1884 and came to Orlando nine years ago from Springfield, Mo.

She was a member of Park Avenue Church of Christ, Orlando.

Survivors are her husband, Henry S. Jones; one daughter, Roxacea Waldo, of Orlando; one son, Willard H. Jones of Sanford; two brothers, Holman and Julian Herndon, Springfield, Mo.; two sisters, Mrs. Geraldine Mooney, Nixa, Mo., and Mrs. Gertrude MacFarland, Peoria, Ill., and one granddaughter, Mrs. Aubrey Moran of Gainesville.

Funeral services were to be held at 3 today at Park Avenue Church of Christ here in Sanford, with Evangelist Bert Brown officiating.

Burial was to be in Evergreen Cemetery with Brisson Funeral Home in charge of arrangements.

Jamaica Holds Two In Clash

PORT ANTONIO, Jamaica (UPI)—An American and a Briton involved in a clash with Jamaican troops and police were held incommunicado here today while authorities considered possible action against them.

The trouble started Tuesday when the Briton, 37-year-old Harold Derber, tried to throw troops and police off the Nana, a boat he hopes to use as a ferry between Havana and Key West.

LOCAL Jaycees will help you heed this warning as they continue their sale of seat belts all this week at the Jaycees office on French Ave.

WHIRLY-GIRL — Doris (Mrs. W. H.) Renninger of East Norwich, Long Island, has become the first woman in New York State to qualify as a helicopter pilot. She is now the 59th member of the Whirly-Girls, an international association of women helicopter pilots. Mrs. Renninger, a grandmother, has been an airplane pilot since 1955.

Business Briefs

JACKSONVILLE—Employees of Winn-Dixie and Kwik Chek Food Stores have received \$1,068,022 in profit sharing bonuses, according to an announcement by J. Wertz Nease, vice president and divisional manager of the firm's Jacksonville division. Although the company's profit sharing plan has been in effect since 1946, this marks the first time cash distribution has topped the \$1 million mark.

The distribution of funds was made to 4,677 eligible employees of the Winn-Dixie Employees' Profit Sharing Program. Employees become eligible to participate in the program after completing five years' service with the company.

Each year, the firm sets aside a portion of its profits for distribution to employees under the program. A portion of the funds is paid in cash and the balance credited to individual trust accounts for retirement benefits.

It is estimated that an additional \$2 million will be allocated to participants' retirement accounts for the firm's current fiscal year which closed June 29. The assets of the retirement fund held by the trustees now are in excess of \$27 million. Participating employees are not required to contribute any part of their salary to the retirement fund.

The profit sharing program is part of the overall employee program of Winn-Dixie which also includes life, health and accident insurance, sick pay, stock purchase plan and a college scholarship program for children of employees.

The company operates 609 Winn-Dixie and Kwik Chek supermarkets throughout the Southeast.

Scholarly Look At Texas Lingo

AUSTIN, Tex. (UPI) — A Texan named E. Bagby Atwood has become the Noah Webster of the East Texas piney woods by turning the techniques of scholarly research to a probe of how the denizens of that region talk. "Haint," Atwood explains, is a ghost or spirit, not to be confused with "haint," meaning "ain't."

East Texans don't talk about wishbones, Atwood says. It's the "pullybone" they wish on. And a woodpecker, Atwood says, becomes a "peckerwood."

Other East Texasisms: —"Catty-wampus" — diagonally. —"Christmas gift!" — Christmas morning greeting. —"Dad-gum" — mild expletive.

SAVORY TURKEY BAR-B-Q SAUCE

- 1/2 cup chopped onion
- 1/2 cup butter
- 3/4 cup catsup
- 1 cup water
- 1/2 cup lemon juice
- 3 tablespoons sugar
- 3 tablespoons Worcestershire sauce
- 2 tablespoons prepared mustard
- 2 teaspoons salt
- 1/2 teaspoon pepper
- 2 teaspoons Ac'cent

Cook onion in butter until tender but not brown. Add remaining ingredients. Simmer 15 minutes. Use hot as basting sauce and serve with meat.

TIMETABLE FOR COOKING TURKEY ON A ROTISSERIE

Let's have a Turkey Bar-B-Q

On a lazy summer afternoon, set a turkey on a spit and let it turn over hot charcoal until done to utter perfection. Brush it the last little while with a savory barbecue sauce, and you're in for one of the greatest treats of your life. Add plenty of hot buttered corn, a green salad and hot French bread. You've got a perfect meal . . . especially if you choose a W-D Broad Breasted Turkey from Winn-Dixie.

One-Pay Seat Belts Good Insurance

Could you do a push up with 15 people standing on your back? It's doubtful. To perform such a feat of strength you would have to exert 2250 pounds of force.

If you could do that, you could also keep yourself from plunging through the windshield of your car if you weighed 150 pounds and crashed into a solid object at 30 miles an hour, or less. There really isn't much you could do to prevent being hurled into that windshield with a terrific force . . . unless . . . you were wearing a seat belt.

Under federal specifications, seat belts must withstand a force of at least 5,000 pounds, more than enough to hold you in your seat and keep your head out of that windshield.

Well, that probably would be a good thing on long trips, you may say, but I never go anywhere except just around town.

More than three fourths of all accidents occur within 25

miles of the drivers' homes, at speeds less than 30 miles an hour.

What if the car should catch fire or you should plunge into the water?

It takes less than one second to unfasten a seat belt with one hand.

Lifesaving seat belts at less than \$10 a pair are on sale all this week at the Sanford-Seminole Jaycee Building at Fourth Street and French Avenue.

Call it life insurance. You only pay the premium one time.

35 Refugees Due At Key

MIAMI (UPI) —Thirty-five Cuban refugees who were picked up by the Coast Guard off Anguila Cay Tuesday were scheduled to arrive at Key West today.

The Coast Guard said a Navy Patrol plane spotted the 10 men, 13 women and 11 children drift in a 25-foot boat about 28 miles southeast of the remote British Island.

The cutter Nemesis picked up the refugees and headed for Key West. Last week, two Cuban gunboats captured 19 refugees at Anguila Cay and returned them to the Communist Island.

JFK's Sister To Stand In

WASHINGTON (UPI) — President Kennedy's sister, Eunice, will stand in for Mrs. Jacqueline Kennedy as the White House hosts during the visit of the king and queen of Afghanistan.

Eunice is the wife of Sargent Schriver, the director of the Peace Corps.

FOOTNOTE — Pontoonlike water skis give a firm base from which to view the news. That's the point being made by this "commuter" in West Berlin. The goggles are called "Schleppski."

U. S. Is Ready Just In Case, Says Kennedy

WASHINGTON (UPI) - The United States is making preparations to resume atmospheric testing in the "unhappy eventuality" that the happy eventuality that the test ban treaty.

President Kennedy told the news conference Tuesday that \$25 million had been allocated to prepare the nation to respond to a possible nuclear attack if they should be required.

He cited the preparation as one of four safeguards being carried out by the government to protect U. S. security under the test ban pact.

Kennedy said the three other were:

"Activated and vital" nuclear laboratories to maintain testing readiness; continuation of a "vigorous series" of underground tests; and improved methods of detecting any clandestine nuclear tests.

The test ban dominated the news conference in which Kennedy also called for approval of his foreign aid program, reported a decline in Soviet troops in Cuba, and a summit meeting with Soviet Premier Nikita Khrushchev, and rejected job quotas for Negroes.

The President rejected charges by the "Forward Teller" of the "Month," that the administration curtailed the military in 1961 for political reasons.

Kennedy said, "I don't think that charge is valid."

He said that every atmosphere test produced fallout, but that fallout is "very slight."

Kennedy noted there were 80 atmosphere tests in the 1961 series plus 97 underground blasts in the last two years.

Will To Play With Trojers

NEW YORK (UPI) - Will (The Still) Chamberlain, the National Basketball Association's leading scorer, will play Thursday night in an outdoor game against an All-Star team at the Polo grounds.

Chamberlain, of the San Francisco Warriors, agreed to join the Trojers for the one night because the proceeds from the game will go to the Harlem YMCA and the National Association for the Advancement of Colored People.

Official Scotts At Bomb Idea

WASHINGTON (UPI) - Assistant Defense Secretary Paul G. Rubin has scolded the idea that ordnance bombs could greatly damage the earth.

Rubin's deputy director of research said Tuesday it would take a bomb equal to 2,000 megatons of TNT to burn a frame house from an altitude of 150 miles.

"Fortnight" is a contract of "fourteen nights" and is used in England instead of saying "two weeks."

PAR OR BETTER

By JULIUS BOROS
U.S. OPEN CHAMPION

Most chip shots are done with the 4, 5 and 6 irons because they have less loft, will keep the ball low, and make it roll better.

The club is determined by the amount of roll needed. The object is to hit the ball as close as possible to the near edge of the green, depending on the roll to take it close to the hole.

Use an open stance, feet close together.

There's little wrist action as the club is taken back, no pivot or body turning. The head is directly over the ball.

The follow through is important. There's no body action, for the chip shot is executed mostly with the arms.

The action of the chip shot is quite comparable to putting. It isn't a case of hitting the club in a regular backswing, as in pitching, but more of a motion of taking the club back deliberately along the ground, parallel to the line of flight.

The shot should be quite firm, with a short backswing, a brisk contact of the ball with a slight down and through motion, and a short follow through.

This is one of the few occasions where the ball can be hit with the hands ahead of the clubhead. Quite often this is done deliberately in order to keep the flight of the ball low to the ground and therefore on a more nearly true course.

Another change you are permitted to make in your chipping technique is that of shortening up on your shaft. If the shot has only a short distance to travel, some players can further increase their control by choking down on the shaft.

Chipping is a matter of taking the club back quickly and returning it equally as fast.

The action might be compared to a cracking-the-whip motion.

ARMFUL — Julius Boros' chip shot is executed mostly with the arms.

Hard Work Is Order Of Day At Lyman

Captain Dick Copeland and his Lyman Greyhounds after nearly a week of practice are beginning to shape up for the upcoming season.

A newcomer to Lyman, Copeland hasn't had time to size up the team. However, a few of the lettermen from last year's eleven are leading the younger boys through their paces.

A total of 33 boys has shown a desire to wear the Greyhound uniform and the spirit shown by the group is, in Copeland's opinion, unexcelled. The boys take the field at 3 p. m. each day for training and conditioning. The team will get into pads Friday when Copeland plans to "separate the men from the boys."

The coaching staff will include Copeland as head coach and backfield, Dutch Campbell as interior line coach, and another newcomer, Rodney Umberger, end coach.

Until the boys don their pads and cleats on Friday, basic fundamentals will be reviewed over and over. A little review of offensive plays for the older members and still more basics for the young boys is scheduled.

The playing field has been re-sodded and should be in near perfect shape for the season.

The Lyman Booster Club has been hard at work putting up new bleachers for the stadium. These should greatly enlarge the seating capacity.

The Greyhounds open the season the night of Sept. 20 with Oviedo.

SEMINOLE COACHES who put the Indians through their first paces in Monday's initial practice for the coming football season are pictured. Kneeling are Head Coach Jim Pigott (left) and Jim McCoy, varsity line coach. Standing are Dick Williams (left), varsity back field coach, and Ralph Stumpf (center) and John Colbert, junior varsity coaches.

Heading Home Al Dark Likes His Entire Club

NEW YORK (NEA)—About all there is left to shout about in baseball is the race down the stretch between the Los Angeles Dodgers and San Francisco Giants.

Who do you like? You hear the question all along the baseball beat. Practically every National League manager, coach and player we polled picked the Dodgers.

Casey Stengel was one of the few who seemed uncertain — and who wouldn't be that way managing the New York Mets? The old professor pointed out that the Dodgers would have won easily last season had not the life gone out of Sandy Koufax' index fingertip.

The others felt like Bob Kennedy. "The Giants have a lot more power and a much better defense, but the Dodgers have the pitching and speed," said the head coach of the Chicago Cubs.

In other words, the great majority believe that Koufax, Don Drysdale and Johnny Podres, backed by Ron Ferraro, can pitch the Dodgers into the World Series despite an infield and outfield that isn't exactly airtight. They look for the Dodgers' over-all speed to sufficiently offset the Giants' home run bats.

Appraised of this, Alvin Dark, manager of the Giants, said: "I like the Dodgers' pitching, too. Who doesn't? But I also like my whole ball club, especially through 1964."

We chatted with Dark after the Giants' highly successful stand in Philadelphia. We found him in much higher spirits than he was during the last visit to Connie Mack Stadium a month ago, when Hor-

JUAN MARICHAL.

ace Stoneham's strong boys dropped 10 games off the pace.

"We caught the Dodgers last season and can do again," said Dark.

Several things cheered Dark, starting with the pitching.

"We have a stopper, too, in Juan Marichal, who has been tremendous from the outset, and Jack Sanford is getting a few breaks," said the old captain and shortstop. "We didn't score runs for Jack for a long time. I believe he still will come close to winning 20 games. Billy O'Dell slumped after compiling an 8-0 record, but is returning to form."

Doctoring up his pitching, Dark developed a bull pen rich in numbers. He has no fewer than seven fire fighters — the right-handed Jack Fisher, Jim Duffalo, Don Larsen, Bob Bolin and the recently brought up Frank Linsay and the left-handed Billy Pierce and Billy Hoof, Duffalo became a starter. Pierce has been sharpened up, to the extent that he could start again.

Alvin Dark didn't appear concerned about the pitching or anything else.

He never does when the incomparable Willie Mays is stroking the ball well.

That is about all the Giants have needed since the Say Hey Kid first came around.

Error Spells Disaster For Cards' Hopes

By United Press International

Bye bye, Redbirds.

That was about the size of it for the cooled-off Cardinals today after the high-flying Dodgers beat them, 7-5, Tuesday night to increase their National League lead to 6½ games.

The Cardinals came into Los Angeles filled with pennant ideas following their three straight victories over the stumbling San Francisco Giants.

One misplay killed all those ideas and the unfortunate victim was first baseman Bill White, ordinarily one of the finest players in the circuit.

Here was the situation: The Dodgers trailed, 4-2, in the fourth inning and had runners on first and second when John Roseboro grounded to White.

Trying to force speedy Willie Davis at second, White threw the ball into center field, enabling Frank Howard to score from second and Davis all the way from first on the error.

Before the inning was over, the Dodgers rallied for five runs and that was the ball game.

Jr. Hi Football Call Set Aug. 28

Aspirants for the Sanford Junior High School football team are requested to turn out for initial practice at 2:30 p.m. Wednesday, Aug. 26, at the school gym by Head Coach Dan Pelham.

Boys trying out for the team for the first time are required to present birth certificates. This can be done at any time between now and Aug. 28.

All team members must present physical examinations and written permission from a parent or guardian.

Pelham said he and Ed Buckner will coach the line and Owen McCarron and Ron Hunt will coach the backfield.

First game of the season will be with Oviedo Junior High School Sept. 28. Place is undecided.

Pro Game At Mobile Canceled On Protest

NEW YORK (UPI)—Negro player complaints over "semi-integrated seating" in Mobile's Ladd Memorial Stadium has resulted in the cancellation of an American Football League game between Oakland and New York scheduled for the Alabama city Friday night.

The AFL office here announced the cancellation Tuesday night because the sponsors could not promise completely integrated seating in the stadium, scene of the scheduled contest.

Four members of the Oakland Raiders complained Monday that the stadium was segregated, and refused to play as long as it remained segregated. The players were Art Powell, Clem Daniels, Bo Robertson and Fred Williams.

Mill Woodard, assistant commissioner of the AFL, said the decision to cancel was reached in amicable discussion with the sponsoring Mobile groups and owners Dave Werblin of New York and Wayne Valley of Oakland.

"Since the sponsors felt fully integrated seating was impossible, and Negro members of the competing teams

Sarasota Wins Second Half

By United Press International

Lefthander Tom Hoagland pitched Sarasota to a 5-0 shut-out win over Orlando last night and assured the Sox of the second half pennant championship of the Florida State League.

The Sox thus became the first team since 1958 to win both the first and second half pennants. St. Petersburg was the last team to rack up the consecutive victories.

In other league action last night, a doubleheader between Lakeland and Fort Lauderdale was rained out and the nightcap of the Tampa and Miami twin bill was also washed out.

Daytona Beach hurler Lew Hamauer scattered three hits to shut out the St. Petersburg Saints 3-0. First baseman George Hulet tripled the Islanders' three runs.

Tarpon hurler Ken Hite had a no-hitter going against Miami in the opener, but gave up a run in the sixth and seventh innings. Tampa's three runs in the second and four in the fourth, however, saved them the victory.

Tonight, Lakeland plays at Miami, Sarasota goes to Daytona Beach, Tampa travels to Fort Lauderdale and St. Petersburg plays at Orlando.

Palmer Does It The Hard Way

AKRON, Ohio (UPI) — The last spot in the World Series of Golf was filled today by the first man you'd figure to do it—Arnold Palmer.

Palmer did it the hard way beating Phil Rodgers and Jack Cupit in a special 18-hole playoff Tuesday to win the fourth and final berth in the World Series of Golf coming up Sept. 7-8.

Palmer now has shot a winning \$99,000 in the next three weeks.

Any part of those winnings—and the minimum is \$5,000—will add more luster to his golfing gold, which already is an all-time season's record of \$96,965.

He'll start shooting Thursday in the \$55,000 American Golf Classic over the same course he trounced Rodgers and Cupit.

And he will be favored to defend the Classic championship he won last year. First place money is \$9,000, with bonuses of \$5,000 for a possible total of \$14,000.

Wins Race Annes Favorites In Fourth Round

By United Press International

What's the only way to describe the entire American League situation.

A lopsided race is one thing, but who ever heard of the pitchers still being ahead of the hitters in late August?

It's different in spring training where the hitters can claim they're rusty from the long winter lay-off, but what excuse can they offer now after having five months to sharpen their batting eyes?

Oh, well, maybe things will all even up by Thanksgiving Day, Tuesday night, however, it was strictly one-sided and the pitchers had a ball.

Marie One-Hitter

Moe Drabowsky of Kansas City, for example, beat Washington, 9-0, on a one-hitter in the first game of a two-night doubleheader and the A's also took the 14-inning nightcap, 7-5.

Southpaw Hank Aguirre hurled a two-hitter for Detroit in a 6-0 victory over Minnesota, while another left-hander, Juan Pizarro of the White Sox, retired 24 batters in order en route to a 10-3 triumph over the Red Sox.

Veteran Dick Donovan came up with some brilliant clutch pitching also in leading the Indians to a 2-1 win over the Yankees. Even with the loss the Yankees still lead the league by 9½ games.

The Baltimore-Los Angeles game was postponed because of rain with the Orioles ahead, 4-1, after four innings.

Great Britain acquired Gibraltar from Spain, under provisions of the Peace of Utrecht.

Two Try Out

TORONTO, Ont. (UPI) — Two members of the Swedish national hockey team have accepted invitations by Toronto coach Punch Imlach to try out with the National Hockey League champion Maple Leafs. Goalsie Kjell Svensson and left winger Carl Oberg, both 25, will be given a "good look," Imlach said Tuesday.

Postponed Bout Is Rescheduled

MONTREAL (UPI) — The postponed Sugar Ray Robinson-Willie Greaves 10-round middleweight fight has been rescheduled for Sept. 5, promoter Regis Laevaque said Tuesday.

Robinson reported that X-rays of his left wrist, injured last week in a sparring session, revealed no fracture and that he planned to resume training today or Thursday.

Sets Tourney Site

NEW YORK (UPI)—Maui Island in Hawaii will be the scene of the 12th annual International Golf Championship and Canada Cup matches Dec. 3-8, 1964. Sidney L. James, chairman of the executive committee of the International Golf Association, announced Tuesday that the matches will be played at the Royal Lahaina golf course at Kapalua, Maui.

Wyoming Vets

LARAMIE, WYO. (NEA) — No fewer than 25 lettermen return to help the Wyoming football squad through a 10-game schedule.

St. Paul's Pastor To Observe 24th Year

Robert B. Thomas, Jr. (FA 2-5756)
The St. Paul Baptist Church observes its pastor's 24th Anniversary on Sunday August 25 during the 11 a. m. and 7:00 p. m. services.

The Rev. Benjamin H. Hodge is pastor. The 11 o'clock address will be delivered by Clifford J. Hurston, instructor of Business Education at the Volusia County Community College, Daytona Beach. The 7 o'clock service will be a Candlelight Musical Recital by the St. Paul Gospel Chorus. E. E. Almont is director.

The orientation of new personnel was held at Crooms High School, Friday. The theme was: "Knowledge is of two kinds: We know a subject ourselves or we know where we can find information upon it."

The new personnel assignments are as follows: Mrs. Dethelia R. Stapler, Joe Young Jr., Mary E. King and Barbara J. Thomas, Midway Elementary; C. L. Boyer Jr., R. E. Green, E. S. Tossis, E. Bradley and Mrs. Pearl G. Scott, Crooms High School; Mrs. Ethel J. Oliver and Margaret Robinson, Rosenthal Junior High; Ola M. Witherspoon, Goldsboro Elementary.

PERSONALS
Isiah Russell Jr., is visiting his parents Mr. and Mrs. Isiah Russell. Russell is a graduate of Crooms High and Florida A. & M. University. He teaches science at Stone High School in Cocoa.

Mr. and Mrs. Willie A. Ashley Jr. and family motored to Silver Springs and Six Gun Territory. Mrs. Essie B. Green accompanied them on the trip.

Mr. and Mrs. Mamie Ashley and granddaughter of Madison are visiting her nephew, Mr. Willie Ashley, and family.

Ernest Mobley has returned after spending seven weeks in Washington, D. C. with relatives. Ernest is a 1953 graduate of CBS. He will matriculate at Morehouse College in Atlanta, Ga., this fall.

Flora Mae Jones of Bartow is the guest of Mr. and Mrs. Rubin Jones and their daughter Pearl Hester.

Barbara Lou Kelly has returned from a two-month vacation with her parents in Solus, N. Y.

Mrs. Betty Roberson and son have returned to Philadelphia after spending two weeks here visiting her parents, Mr. and Mrs. Angus

Ex-Peer Wins Commons Seat

LONDON (UPI)—Anthony Wedgwood Benn, the first British peer ever to renounce his title, won back his old seat in the House of Commons Tuesday night by swamping three opponents in a by-election at Bristol.

The victory by the 23-year-old "Perseus" comment had been expected. He will take his seat when Parliament reconvenes in October. It set the stage for the resumption of a political career in the opposition Labor party that many observers believe holds a brilliant future.

Benn was forced out of the House of Commons after representing Bristol for a decade when his father, Viscount Stansgate, died in November, 1960. By assuming the hereditary title, Benn was forced into the House of Lords which he once termed the "outer Mongolia" of British politics. Lords is virtually powerless.

But Benn led a campaign for a peerages reform act to permit those who wanted to renounce their titles and run for Commons. Titled persons are forbidden to sit in Commons under British law and tradition.

The reform act passed last month and Benn went on to win election from Bristol by polling 20,313 votes.

Time of day at the South Pole depends on where you stand because all time zones and date lines converge at the poles

Tillman and the parents of her husband, Mr. and Mrs. L. Roberson. Mrs. Roberson is the former Betty Jean Tillman.

Mr. and Mrs. J. L. Johnson are the proud parents of a baby daughter, born Aug. 17 at the Seminole Memorial Hospital. The baby, weighing 8 lbs., has been named Angela Yvette.

Mr. and Mrs. Earl T. Pollard and son Darryl, Mrs. Elizabeth Jones and daughter Barbara of Norfolk, Va., are house guests of Mr. and Mrs. Lawrence Johnson. Mrs. Pollard is the daughter of Mr. and Mrs. Thomas Wilson. They will visit with the entire Wilson-Johnson clan before departing for Norfolk.

House guest of Miss Eunice I. Wilson is Eddie Elzy. Elzy is presently teaching in Princeton, Maryland at the Carter G. Woodson High School. He is math instructor and has been granted a scholarship by the National Science Foundation to attend the University of Maryland this fall.

Mrs. Margaret Oliver is convalescing at home after spending several days in the hospital. Get Well Soon.

Faye Oliver, Lavern Hatch, Helen Starke and Cassandra Sheppard have returned from Hampton Institute where they participated in the pre-college orientation course.

Mr. and Mrs. Robert B. Thomas, Jr. celebrated their 12th wedding anniversary at home on Aug. 17. On Sunday they were dinner guests of Mrs. Thomas' aunt, Dr. Evelyn Sharpe, DeLand. The occasion was a pre-birthday dinner for Mrs. Thomas, whose birthday is Aug. 22.

Mrs. Joannah Moore spent two weeks in Cocoa visiting with her niece Mrs. Naomi Ford, Principal of Pointsett Elementary School.

Brenda Shaw, Marsha and Nelwyn Henderson spent a week at Summer Camp in St. Augustine. They engaged in such activities as arts and crafts, swimming and community singing.

The Junior Usher Board of Zion Hope Missionary Baptist Church observed its first anniversary Sunday by rendering a benefit program for its church. Mrs. Willie Bee Pendleton, who is president of the board, wishes to thank everyone who contributed to the cause. The amount raised—\$22.83. Rev. J. L. Brooks, Pastor.

Mr. and Mrs. William Mitchell are now residing at 133 Bethune Circle in Academy Manor. They are known affectionately as "Peaches and Mitch."

It is safe to say that the average spectator at a football game has a narrow perception of same. Since the football season is almost here, this suggestion might help one get more out of the game: Watch the interior linemen sometimes instead of focusing attention mainly on the backs. The linemen are most important in the successful operation of a team. Whenever a back makes a long run, some linemen played an important role in making it possible. One of the most exciting things to see is the guards pulling out of the line to lead the interference.

Daytona Votes Down Stadium
DAYTONA BEACH (UPI)—The city commission of this resort town voted Tuesday not to build a \$263,000 baseball stadium for the Houston Colts.

The decision reversed the commission's Aug. 6 approval of a contract with the National League ball club to oust two other major league farm clubs and build the stadium for the Colts.

The decision also leaves the Colt move here for spring training headquarters up in the air.

For the past two seasons, the Colts have trained at Junction, Ariz. Houston's farm club have been working out at Moultrie, Ga.

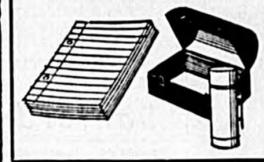

World's first railroad ticket was sold in Baltimore, Md.

GUES. WHO is going to be coming to Sanford in the near future?

PRINCESS VIJAYA

Pakistan, (who now is the glamorous Mrs. Bill Boutwell) will soon be returning to our fair community.

And what's more, she will be building a home here. That's right. During their last visit here, the Princess liked Sanford so well that she and her husband, who is the brother of Olan Boutwell, (and brother-in-law of the inimitable Ruth) purchased a piece of land from the Roumillat's out in the Loch Arbor area, and have already drawn up plans for a new home there.

Since their marriage in New York last spring, (soon after their visit here to a family reunion of the Boutwells) the couple have been back and forth to Karachi several times. Bill, who is an engineer, has been engaged to build another airport over there, so he will have to stay awhile, but the Princess will be flying in next month to begin construction of their Sanford home.

The presence of the Princess is going to add a bright touch of Eastern beauty to the local social scene, as she is an interesting conversationalist and a most delightful person with whom to discuss all manner of subjects. Princess Vijaya is a finely educated young lady, who majored in political science at the universities of India, and she has even spoken tentatively of the possibility of continuing her studies toward a Master's degree at one of our local universities.

She is sure to add her special touch to any scene in her beautiful saris, with their

Shower Honors Miss Jones

Mrs. Joe Alexander was honoring bride-elect, Miss Suzanne Jones. Assisting the hostess for a shower at her home, 718 West First Street, hostess was Miss Patty Glenn.

MISS SUZANNE JONES, whose wedding to Ted Walker will be an event of this Sunday, was guest of honor at a recent shower given by Mrs. Joe Alexander. In the background are left to right, her mother, Mrs. C. O. Jones, the groom-elect's mother, Mrs. L. E. Walker and Mrs. Alexander. (Herald Photo)

Simpson Family Returns From Vacation

Mr. and Mrs. Phillip Simpson and family have returned from a two week vacation. The first stop was in Washington, D. C., for a sightseeing trip then on to Akron, Ohio, for a visit with relatives.

Enroute home they came through Bassett, Va., to see Mrs. Ray Hite and children. Mrs. Hite is a former neighbor of the Simpsons, in Sanford. After resting up a few days at home, Mrs. Simpson and the girls, Jan, Susan and Becky went to Clearwater for a few days, leaving Mr. Simpson and the boys at home to keep house. They stayed with Mrs. Simpson's sister-in-law and family, Mr. and Mrs. Dale Kok. Jan decided to stay for a longer visit. She accompanied the Kok family on a vacation and the group is now touring Tennessee. They will bring her home a few days before school starts and spend a few days in Sanford.

Miss Lucia Duval Chase To Wed Joseph C. Bright

MISS LUCIA DUVAL CHASE

Mrs. and Mrs. Franklin Walker Chase, of Windsor, announce the engagement of their daughter, Lucia Duval, to Joseph Conway Bright, of Valdosta, Ga.

Miss Chase is the granddaughter of the late Mr. and Mrs. Frank Stanley Vornay and the late Mr. and Mrs. Sydney Octavian Chase, all of Sanford.

She is a graduate of the Shipley School, Bryn Mawr, Pa., and Hollins College, Va., and is now employed by the First National Bank, in Atlanta, Ga. Mr. Bright is the son of Mr. and Mrs. Joseph Elliott Bright, of Valdosta, and the grandson of the late Mr. and Mrs. Newton Bright, of Eminence, Ky., and Thomas Briggs Converse and the late Mrs. Converse, of Valdosta. He was educated at Christ School, Arden, N. C.; the Georgia Institute of Technology, Atlanta; the University of Virginia, Charlottesville, and is now studying law at the University of Georgia, in Athens. He is a member of Phi Delta Theta, social fraternity, and Phi Delta Phi, legal fraternity. The wedding is scheduled for Nov. 28.

New Arrivals

Mr. and Mrs. Aaron O. Compton, Monroe Corner, Sanford, announce the birth of an eight pound, six ounce daughter, Aug. 18 at Seminole Memorial Hospital.

This is the couple's first child and they have chosen the name Angela Sue. Mrs. Compton is the former Shirley Diane Eber, daughter of Mr. and Mrs. D. J. Eber, of Sanford.

Paternal grandmother is Mrs. Viola Compton, of Rhodis, N. C.

JANET MACEK, eight year old daughter of Mr. and Mrs. Chester F. Macek, of Geneva, celebrated her birthday with a party at the home of Mr. and Mrs. Richard Hoogerwerf, 2431 South Willow Ave., in Sanford. Enjoying the celebration left to right are, Sherry Hoogerwerf, the honoree, Jane Macek, Frank Macek, Pattie and Timmy Hoogerwerf and Laura and Donna Macek. (Herald Photo)

The same thing applies to both sexes, I think, for there are no week ends, holidays and few days off in the rush, hurry, run here—run there, type, answer the telephone world of the press.

The reporter sees everyone in town but his own family. He knows what's going on every where in the world except at home.

And the curious appeal of that knowledge is such that it outweighs the routine things hopelessly. Nothing breaks a reporter's heart more than to miss out on a story or get scooped by another source, and his indignation and rage know no bounds when he finds out about something by reading it in the paper!

"How come I didn't know about this?" he cries in a hurt tone of voice.

But news keeps no business hours. It doesn't happen just from 9 to 5. It goes on all the time and more often than not it happens at night, and on Saturdays and Sundays.

So now, without going into a lot of details, you can draw your own conclusions about your reporter changing jobs.

The Heart Association is a wonderful organization, dedicated to a great humanitarian cause, in warring on a disease that affects nearly all of us in one way or another, leaving distress and suffering wherever it strikes.

To be afflicted with the "heart-breaking" enemy will be a source of pride.

MRS. NELL FURMAN, wife of our good Col. H. A. Furman, superintendent of the Sanford Naval Academy, arrived over the weekend to join her husband here. She was accompanied by the Colonel's other twin son, Richard, brother of Jimmy who has been assisting the superintendent in his job here of establishing the new school.

The Furmans will make their new home in Loch Arbor and the boys will shortly return to Castle Heights school in Tennessee, as they are older than the group which will attend the Sanford school.

DeBary Personals

By Mrs. Adam Muller
Matt Thursam celebrated his birthday, last week.

Houseguests of Mrs. William Bragg are her daughter and granddaughters, Mrs. C. Messina, Joan and Darlene, from Washington, D. C.

Recent guests of Mrs. N. Gerstenek at her home on Narcissus Drive were Mr. and Mrs. David Williams, son, Steve, and Mrs. V. Williams and two brothers, Dennis and Thomas. It was an enjoyable family get-together as Steve, who is serving in the U. S. Army, is just home from duty in Alaska. His next tour of duty will be in Maryland.

Mr. and Mrs. Abraham L. Lincoln, of Eldorado Drive, have returned from a 15 day trip to Roanoke Island and Driver, Va. While there they attended an outdoor performance of the historic pageant play, "The Lost Colony." It is a story about Jamestown and the colony under Queen Elizabeth and their ordeal with the Indians.

LITTLE MISS DEBBIE EMANUEL celebrated her fifth birthday with a party at the home of her mother, Mrs. Carol Emanuel, in Enterprise. Other small fry invited to join in the celebration were Judy Goodwin, Cindy Oglesby, Roy and Janie Cohen, Joe and Jeff Bruce and David and Tony Emanuel. The children enjoyed games, refreshments of birthday cake and ice cream and helped the honoree open her gifts. (Cox Photo)

Bridal Couple Feted By Aikens

Miss Suzanne Jones and her fiancé, Teddy Walker were honored at an informal after dinner party Monday night, given by Mr. and Mrs. Dick Aiken.

The Aiken home in Mayfair was opened en suite for the occasion and was arranged with bouquets of mixed summer flowers. Yellow was the predominant color on the dining table that was graced with flowers flanked with burning yellow tapers. Mrs. C. W. Johnson presided at the punch bowl.

Guests included Mr. and Mrs. C. O. Jones, Mr. and Mrs. L. E. Walker, Mr. and Mrs. Frank Adams, Mr. and Mrs. Michael Thomas, Mr. and Mrs. W. L. Holder, Mr. and Mrs. Forrest May, Mr. and Mrs. Greg Walker, Mr. and Mrs. E. E. Walker, Mr. and Mrs. C. L. Echols, Mr. and Mrs. W. L. Kirk, Mr. and Mrs. W. W. Tyre, Mr. and Mrs. Curtis Lavender, Mr. and Mrs. J. D. Cordell, Mr. and Mrs. C. W. Johnson, Mr. and Mrs. Joe Alexander, Mr. and Mrs. Pat Donahoe, and Mrs. Debbie Trepanier.

Also the Misses Deanna Nichols, Rosemary Southward, Pam Jones, Patty Glenn Johnson, and John Mann, Charlie Higgins, Buddy Kirk, Jimmy Cordell, and Charles Fox.

Sanford Needs Told Lions By City Manager

City Manager W.E. Knowles speaking to the Sanford Lions Club Tuesday, declared that "to spite and in spite of events and people, the City of Sanford will continue to grow and become a major area of the Central Florida Metropolitan area."

"Growth brings problems and needs to every community and Sanford is no exception. Nearly everyone will say that money is the main community problem."

"However, I prefer to differ and say that the No. 1 problem is 'the equivocal man' the City Manager declared.

Knowles defined equivocal as being "ambiguous, doubtful, questionable as regards to genuineness," and included in this category the Sanford merchants, business leaders and The Sanford Herald.

Quoting from the book, "Advice and Consent," by Allen Drury, Knowles defined the biggest problem of progress as "the equivocal man as 'That perfect symbol of mid-twentieth-century America . . . He could always find an excuse for being hospitable to this, he could always find a reason for not being too hostile to that; he seemed always, or so it appeared, to slide smoothly just between the sharp edges of clashing principles and there find a glib, soft, woolly area of gummy compromise and rationale that effectively blurred everything, enervated all issues, weakened firmness and sapped resolve in a way that hamstringing his own country and made it easier for her enemies to move a few steps farther along the path they had set for themselves."

Knowles went on to say, "Nevertheless, the coming years will bring growth to the City of Sanford and will require many municipal facilities, when the population estimated for 1980 reaches the projected 40,000."

He listed as needs, (not in order of their importance):

Water Improvements to increase the city's capacity from 3.3 million gallon per day to 12 million to take care of residential and commercial growth; public library improvements for the inadequate service which has less than half the per capita volumes it should now have;

A civil defense warning system; street lights on West First Street, 25th Street from Mellonville Avenue to French Avenue and Orlando Drive from 27th Street to Onora Road;

Relocation of the central fire station farther south near the center of population; with the resulting extended fire coverage;

Proper housing for the city maintenance and sewer division, the city repair shop and future shop building;

Recreational center facilities in the Golden Bore area; more parks and playground areas around the city;

Rerouting of city traffic for greater safety and convenience and more off-street parking; a second sewer treatment plant to take care of the needs of the south end of the city and commercial developments.

Knowles said that a marina is a desirable need but it appears far more feasible to induce private capital to undertake this project in conjunction with a yacht club restaurant type structure on the bandshell pier.

On the subject of a barge terminal, Knowles took issue with The Herald for an editorial stand supporting the port facility, saying that the engineering feasibility study made of this proposal by Gee and Jensen in 1957 showed that the undertaking would require financing approaching \$1 million prior to its being given a chance to meet operating costs.

"I have steadfastly opposed such a financial burden being left solely to the municipal taxpayers of Sanford to carry alone," Knowles emphasized.

"The project is definitely an area project and should not be considered feasible until there are assurances of two-way loads for the proposed barge traffic," he pointed out.

Hispaniola is another name for the island of Haiti.

More Emotion In Religion, Graham's Plea

LOS ANGELES (UPI) — Evangelist Billy Graham said Tuesday night that more emotion in religion might spark a return to heartfelt faith in Jesus Christ and help combat materialistic philosophy in a generation "school-ed in violence, sex and mischief."

Graham said emotion was considered all right at a baseball game or the theater, but "if we shed a tear or show a smile in church, somebody screams 'over-emotion!'"

Graham hit at "Godless theories" and said "The Ten Commandments have been laughed at" in his talk before a crowd of 34,150. It was the fifth session in his current 25-day crusade at Memorial Coliseum.

Graham told his audience that religion must go deeper than mere attendance at church services.

"While I have never subscribed to sensationalism or surface emotionalism or flashy religious demonstrations, I believe there is a burning need for a return to heartfelt faith in Jesus Christ. 'Nazism had fire; communism has fire and Christianity had better catch fire.'"

Stargazing By Radar Planned

STANFORD, Calif. (UPI) — A new radar astronomy facility is being established at Stanford University to learn more about space and the phenomena that exist in it.

One of the activities planned for the center is the new technique of "bi-static radar astronomy" in which scientists try to bridge the gap between techniques using ground-based instruments and those using space probes to explore the solar system.

"Bi-static" radar puts transmitter and receiver at different locations—a giant transmitter on the ground, for instance, and a small receiver in a satellite in space. Ordinary systems have both the transmitter and receiver in the same place.

The Stanford scientists say the "bi-static" method—which will be used by the new center in connection with a planned probe of Mars in late 1964—gives more detailed information about the surface of a planet and characteristics of its atmosphere.

The new center is a joint project of the university and Stanford Research Institute, a privately operated organization. Financial support comes mainly from the Air Force Cambridge Research Laboratories and the National Aeronautics and Space Administration, with additional aid from the National Science Foundation and the Office of Naval Research.

Once Too Often

CISCO GROVE, Calif. (UPI) — Two construction men made a slight error in setting off dynamite for a highway job. The blast showered tons of rock down on eight drills valued at more than \$100,000. The men were fired.

A nuclear explosion produces four destructive effects — blast, heat, early fallout and delayed fallout.

30 Days To Better Grades First Learn Jargon Of Courses

By The Reading Laboratory
Written for Newspaper Enterprise Association

Before we start, let's review the last four articles briefly.

By now you should have begun to think of school positively, trying to get the most out of it. You've thought about your courses, trying to see just what they're driving at; you've taken a close look at your teacher and see what he's getting at and how to work with him, and you've started a regime of outside reading on your courses so that you can hold your own in any class discussion.

We're almost ready to get down to the hard realities of day-to-day studying, but there is still another tool that needs to be sharpened—that is, you have to begin to learn the jargon for each course, or to put it another way, you have to develop a course vocabulary.

Before you begin to study for a course, look through the first several chapters of your text, pick out the familiar words and terms, and find their definitions. This is the beginning of the course vocabulary.

But since each subject will require a different kind of vocabulary you'll have to use a different method for acquiring each kind of vocabulary. Here are some of the best ways of developing the vocabulary for your courses:

In history, you'll be required to know the meaning of events rather than words. For example, you won't memorize the wording of the Magna Charta, but will just understand what it was, and why it is important for English Common Law. For instance, you'd have to know that it gave privileges to the nobles rather than to peasants—but that won't require memorization.

In biology, your definitions will be descriptive. For example, a deciduous tree sheds its leaves every year. You'll be able to get away without too much memorization if you can properly classify the thing to be defined.

Physics and chemistry, on the other hand, often present definitions as formulas. For example, Force equals Mass x Velocity, and Carbon Dioxide equals CO₂ (that's easy if you know that "di" means "two"). You can remember these formulas better if you

understand why they must be as they are but they should be memorized, too.

Mathematics requires the most precise definitions of all. In the definition, "A relation is a strict simple ordering of A if and only if it is transitive, asymmetric, and connected on A," you can't afford to fool around with the order of the words. You had better memorize it!

Many of the definitions you learn will be of Latin or Greek origin. In a good English dictionary, you'll find the original meaning of the words as well as their present definition. If you know, for example, that the original meaning of "corolla" was "little crown," you'll have no trouble remembering that in biology it means the petals of a flower. While we're on biology, that word "deciduous" comes from a Latin word (decidere) which means "to fall off."

Developing a course vocabulary is the one thing you can't put off. The whole meaning of the course depends on it.

(NEXT: Getting ready for a productive study evening.)

Water Program Aired At Meet

By ERNIE LUNDBERG
Assistant County Agent
CAMP McQUARRIE—Over 300 interested citrus people heard a series of talks on various aspects of water resources. Byron Herlong stated, "Water is the greatest

single factor in determining the success of citrus."

It was said that the water problem is simply too much or too little at a given time and place. With the great increase in the Central Florida population we need to plan our basic resources—land, air and water. The impact of 1,000 new residents will require 120 acres of land and 120,000 gallons of water.

A panel of water experts discussed water legislation, drainage wells and many other problems.

Dr. E. T. York told of the importance of the farmer in the nation's economy. Farm products have increased in price much less than non-farm products.

Senator Bernard Parrish discussed the legislative citrus package and told of its importance to the citrus industry.

The necessity for producing a citrus concentrate that has uniform good quality was stressed. It should also be properly priced and advertised. The growers were told how the statisticians arrive at the annual crop estimates. We will get this year's estimate on Oct. 10.

Some interesting principles of grove irrigation were discussed by Dr. Robert Koo. He demonstrated by his figures that it pays to irrigate if it is done properly.

Seminole County residents attending the institute are: Edward Zimmerman, Mrs. Katherine Ladd, Mrs. Henry Simpson, J. V. Stowell, Mr. and Mrs. Venancio Adriatico, Jack Bolt, Mr. and Mrs. E. B. Carter and Carl Lind.

On Thursday the topics will be: The liquid-dry fertilizer program, new citrus hybrids, information on the burrowing nematode, fall management practices in cold injured groves, a summary of the discussions on the care of cold damaged citrus groves, and a session on the costs of rehabilitating and financing damaged citrus groves.

Ocala Rejects Bi-Racial Unit

OCALA (UPI) — The City Commission ignored requests by Negro leaders Tuesday and voted not to appoint a bi-racial committee to study segregation problems here.

Negroes have been picketing, and more recently, conducting a "selective buying campaign" here trying to break down segregation barriers.

County Prosecutor E. G. Musleh petitioned the City Court to bar spectators at the Aug. 28 arraignment of a group of Negroes on various anti-segregation demonstration charges.

The petition, noting that the local NAACP had urged its members to "pack the courtroom to see that justice is done," asked the ban apply to those "who have no legitimate business with the court."

Musleh said if Negroes jammed the courtroom, they would "create disorder and confusion" which would not help "the tense relations" between whites and Negroes.

Airline Denies Plan To Renew Cuban Service

NEW YORK (UPI) — KLM Royal Dutch Airlines Tuesday denied reports from Havana it intends to resume air service to Cuba.

KLM's semi-weekly flights between Curacao and Havana were discontinued in October 1962 at the height of the Cuban crisis.

The airline said the incorrect report probably was based on the fact it operated a special flight to Havana last Wednesday and will operate another one today in connection with a change in Dutch ambassadors to Cuba.

"These flights will not carry any ordinary commercial passengers," the airline emphasized. "KLM does not have any present plans to operate commercial service to and from Havana."

London Family Seeks New Life

LONDON (UPI) — William Kinella left Tuesday night for Sydney, Australia, with his wife and their 12 children, ranging in age from one to 20.

Kinella plans to live in Australia as "assisted immigrants" the family paid a total fare of only \$84.

Red Departures In 90 Days Set At 2,000 Men

WASHINGTON (UPI) — Some 2,000 Soviet military personnel, mostly combat troops, appear to have left Cuba in the last three months, sources with access to U. S. intelligence reported today.

President Kennedy told his new conference Tuesday there had been "a decline" in Soviet forces in Cuba in the past two and one-half months. But he did not give the number.

Kennedy said the U. S. military intelligence community believed the troops remaining were mainly concerned with training the Cuban armed forces rather than being "concentrated military units."

"But there are still Russians there," Kennedy said, "and this is still a matter of concern to us."

Asked to estimate how many Soviet troops had been withdrawn, the President replied: "It is difficult for us to say precisely."

The administration has been reluctant to make public its estimates of Soviet troops in Cuba for these reasons: Different intelligence channels vary on how many troops have left and on how many were there in the first place. Officials believe the Russians are likely to remove more troops if they can do so quietly.

It was variously estimated there were 21,000 or 22,000 Soviet military personnel in Cuba at the height of the October crisis. Kennedy said previously that 3,000 left in November and, taking into account some new arrivals, a net of some 4,000 left during March and April.

This would have left some 12,000-13,000 in late April. The departure of 2,000 more would leave 10,000-11,000 Soviet military personnel in Cuba. Most of the 2,000 recent departures were reported to have been combat troops. There have been 5,000 to 6,000 of these.

Some Southern Areas Drenched

By United Press International

Rain fell in the Southeast today, and in several places the downpour was heavy and the winds were harsh.

Washington, D. C., and suburban northern Virginia was drenched by 3.9 inches of rain in six hours, giving it nearly five inches of rain for a 48-hour period.

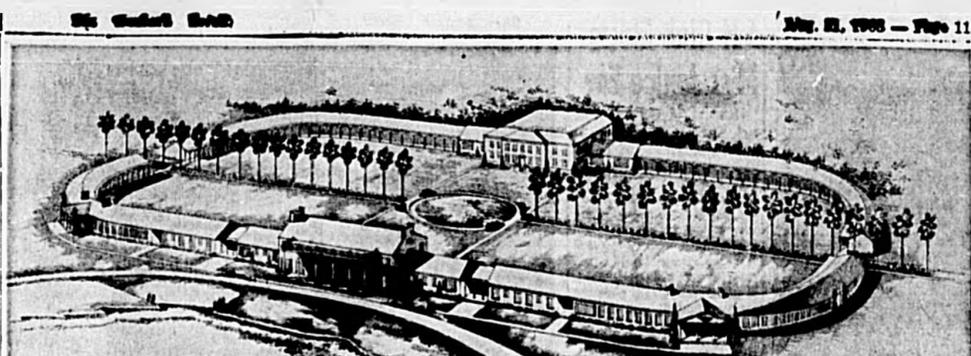

Andrews Field and Dulles Airport had 2.71 and 2.63 inches during the six hours.

A tornado was reported at Forsyth, Ga., Tuesday afternoon, and twisters formed during thunderstorms did about \$25,000 damage to small buildings and trees at Eutaw Springs, S. C.

A number of funnels was seen around Shaw in north central Mississippi.

Charles Shepherd, 41, of Fairfax, Va., drowned when his sports car was inundated and swept away by the overflow from rains in Arlington, Alexandria, Va. police reported water 10 feet deep in some residential areas and a number of families were removed in boats.

Newfoundland, which includes Labrador, became a province of Canada in 1949.

GIRLS' TOWN CAMPUS — An artist's-eye view of how the new Girl's Town "campus" in North Orlando will appear when the \$5.5-million complex of buildings is completed. According to Girl's Town's national headquarters in Palm Beach, construction of the residence-administration building (center foreground) will begin on Sept. 3. Girls' Town Inc. was incorporated in 1960 as a non-profit organization to provide a home community for "homeless girls of all faiths in need of help" between the ages of 10 and 17. Girls will be received from all over the nation through religious channels, local and state welfare organizations and family courts.

Bomb Blast Sets Off Rioting In Birmingham

By United Press International
A bomb blasted the front of a Negro integration leader's home in Birmingham, Ala., Tuesday night digging a two-foot hole in the ground and bringing 2,000 angry rock-throwing Negroes to the scene.

Shots were fired but no serious casualties were reported. Police fired over the heads of the milling Negroes and several shots were fired from a darkened area by unidentified persons.

The blast, heard 10 miles away, shattered windows, loosened bricks, blew in a garage door, damaged two cars and slightly damaged one room inside the house of attorney Arthur Shores, a long-time court battler in Alabama integration cases.

One policeman was struck in the head with a rock and taken to a hospital during a tense period when Negroes congregated near the site of the bombing.

In other developments in the nation's turbulent racial scene, Negro demonstrators promised more peaceful marches today in racially-tense Plaquemine, La., a small town on the Mississippi River. In Mobile, Ala., a federal court judge was scheduled to rule on a plan to desegregate the city's grade schools.

Motorist Gives Up
MOBERLY, Mo. (UPI) — William Houston gave up trying to start his car stalled on a railroad crossing Tuesday. He lit a cigarette, stood back and watched his car destroyed as a freight train dragged it 150 yards down the track.

PRINCESS ANNE IS 13 — Britain's Princess Anne, 13 on Aug. 15, wears uniform of the First Buckingham Palace Company of Girl Guides for her birthday portrait. Photographer is Anthony Buckley. (NEA Telephoto)

NEW OFFICERS of the 5-H Club of young horseback riders met Monday to install new officers for the coming year. Front row left is Janice Foy, new president and at right is Linda May, secretary-treasurer. Standing are County Commissioner John Fitzpatrick; Leslie Hartwig, reporter; Becky Giles, chaplain and Linda Ball, program chairman. (Herald Photo)

5-H Club Elects Miss Janice Foy

Members of the 5-H Club met Monday with Commissioner John Fitzpatrick to discuss the use of a piece of county property for the training and riding of their horses and construction of a riding ring and facilities.

Fitzpatrick assured the club that the county would allow them to use the land, which is off Dpsala Road, near the sanitary landfill, and that he would look into the matter of getting some assistance for them in the matter of clearing a portion of the property.

In other business the club installed new officers for the year with Janice Foy taking over as president. Other officers are Linda May, secretary-treasurer; Leslie Hartwig, reporter; Becky Giles, chaplain, and Linda Ball, program chairman. Counselor for the group is Wes Giles.

Presidential electors meet to cast their votes in their respective states.

The Ratification Debate

It is evident that the whole of United States foreign policy will be brought under review as the Senate debates the partial test-ban treaty. This is good.

The American people have not had the occasion for such a thorough review since the early post-war years when the policy was created.

Even an event of the magnitude of the showdown on Cuba, year before last, did not suggest any fundamental change of direction for the United States. Cuba was in the direct line of the Berlin blockade, the war in Korea and the multitude of incidents when the main object was to stop Communist aggression before it really got started.

The present treaty does not, in our judgment, call for a significant change of basic policy. But a great many people think it does and should. A great many other people think it does and should not. Hence the need for a broad debate.

It is our conviction that the treaty, which we confidently hope and expect will be ratified, does not begin a new policy but constitutes a logical and significant extension of the old.

It is not the American policy that is now changing. It is the Russians who may—or may not—be adjusting themselves somewhat to the failure of standard revolutionary methods to achieve what they were expected to in the postwar era.

Since the cold war began it has been the central idea of Western policy that the way to deal with the intention of communism to expand was to face it firmly, immediately, wherever it showed itself, with such strength that expansion was clearly unprofitable.

To be sure, Communist power has not been rolled back in the postwar years. To be sure it has had some successes since the satellites and China were swallowed up and an East-West line was drawn in earnest. But in the main confrontations the

West held firm, and by comparison with the steady forward march of Hitler, the Communist leaders have been blocked.

The basic aims of Soviet communism toward the outside world probably remain the same. As Governor Rockefeller tersely said, "The treaty partially banning tests has become a symbol of the hopes and the yearnings for peace of hundreds of millions of people. But the threat to freedom remains." And he properly reminded Americans that Communist strategy historically alternates between periods of planned conflict and periods of planned relaxation. The present period may represent merely the latter.

At the same time it could represent something additional. The Russians at any time could decide to modify somewhat the strategy that has shown no realistic possibility of conquering the world. There is nothing in Western policy which would bar taking account of Western success. It is to everyone's interest to encourage any possible sign that the Russians plan more than a momentary readjustment—and guard with unabated strength against a mere feint.

They have been unwilling up to now to check the onrushing nuclear arms race. If they agree to a first mild, largely symbolic, step in that direction, they might be willing to follow with additional safeguard steps. We shall see. As Secretary of State Rusk suggested, it will probably be a considerable time before we find out.

If these points are valid, the United States will reaffirm the nation's central postwar policy in its broad contours and will hold itself open for building on top of that policy, consistent with it, any structure of stability that can be safeguarded. This would not be a change. But it could be—depending on the Russians—progress.

(Reprinted from The Christian Science Monitor.)

"Suppose You Could Get Up More Pressure?"

Dr. Crane's Worry Clinic

Vera wonders if dreams have prophetic value, since the Bible tells us that Joseph became prime minister of Egypt by interpreting Pharaoh's twin dreams. Modern psychiatrists do find a mild form of prophetic value in modern dreams, as explained below.

CASE Q-427; Vera G., aged 19, is the coed who wanted some information about dream interpretation.

"Dr. Crane," she added, "do dreams have prophetic value nowadays?"

"And why do dead relatives reappear in our dreams without their causing us to be surprised that they are alive again?"

"During sleep, parts of the brain are more sluggish than others.

The sluggish regions may thus contain the information that one of our relatives is dead.

But this knowledge is thus not available in our dream, since sluggish areas are relatively inactive.

That's why in a dream we may see and talk to a dead relative but not feel that it is odd to have that dead person back among the living.

For the information about this relative's death may be stored away in that inert portion of the brain!

As regards prophetic dreams, you Bible scholars may recall that Joseph rose to the position of Prime Minister of Egypt by interpreting Pharaoh's twin dreams.

Pharaoh had dreamed that seven fat cattle were devoured by seven scrawny, thin cattle.

Then he awoke. But soon he fell asleep again and dreamed that seven fat ears of corn on one stalk were then devoured by seven withered or blasted ears.

A Michigan woman sued her maid for stealing her husband. Be careful what you leave around the house, men.

Even today psychiatrists

still believe to a mild degree in the prophetic value in dreams.

For example, if you are under prolonged dread, as of your boss, or of some disease or the police officers, then your recurring "fear" dreams may serve as the valid basis for certain predictions about the future.

They may thus suggest a forthcoming mental collapse or nervous breakdown. To this degree they are mildly prophetic.

Such dreams, however, are often of the recurring type. That means they appear again and again, though maybe in somewhat different forms, like Pharaoh's different versions of his twin dreams.

Some people profess that they never dream, but we know that is not so. They simply forget their dreams when they awaken.

Many people likewise say they sleep like a log and never move all night.

Yet scientific tests of sleepers show that they move some part of their body every few minutes from dark to dawn, partly to promote better circulation.

For too prolonged pressure on any part of the body will cut off circulation. That's what happens when you say your foot or arm "goes to sleep."

Subconsciously, therefore, we move hands and arms, as well as legs and feet, and even roll from side to side to improve circulation.

Sometimes in a dream we may even solve a problem that worried us just before we went to bed.

So send for my booklet on "Abnormal Psychology and Dreams" enclosing a long stamped, return envelope, plus 20 cents.

It helps you harness your subconscious mind!

(Always write to Dr. Crane in care of this newspaper, enclosing a long stamped, addressed envelope and 20 cents to cover typing and printing costs when you send for one of his booklets.)

Barbs

By Hal Cochran

Proper use of the head will keep you from cracking it by diving into strange streams.

A lot of a teen-age girl's pleasures to her boy friend over the wire are phony.

You can wake most everybody by pinching them, but not the habitual sleeper.

When the kids aren't up when Mom has breakfast ready they should be called down.

If you really have eight hours' work, eight hours' play and eight hours' sleep you don't have a television set.

With today's prices, what do you have left to take with you, if you could?

Now is the time for summer brides and wedding showers when all of the friends get soaked.

It's safer to play on the golf course with a club when he finally gets the swing of the game.

A Michigan woman sued her maid for stealing her husband. Be careful what you leave around the house, men.

About all brain storms do is make things look darker.

Peter Edson

Political Notebook

WASHINGTON (NEA) — President Kennedy is handing Congress its hottest potato of the year in an advisory panel report recommending salary increases of more than \$22 million a year for the top 1,640 civilian officials in the federal government.

This adjustment would grant pay raises of up to 50 per cent for members of Congress, the judiciary and executive department brass. Pension increases would add another \$1 million.

There are definite political complications to any action now on the report of the 10-member panel headed by Clarence B. Randall, former board chairman of Inland Steel.

Members of the panel include Gen. Omar Bradley, former Defense Secretary Robert Lovett, former Health, Education and Welfare Secretary Marion B. Folsom and retired Supreme Court Justice Stanley Reed. They recommend that the proposed salary increase go into effect Jan. 1.

career civil service pay scales, where top salaries are now \$25,500, grading down to \$17,000 for class D.

Since salaries of these high civil servants were increased by the Federal Pay Act of 1962, with a second stage raise due next Jan. 1, it is believed unlikely there will be immediate pressure for further raises at these levels.

While Congress now has before it legislation to raise military pay scales at a cost of \$1.2 billion a year, the salaries of top civilian government officials have not increased since 1954.

In proposing that their pay be increased now, the Randall panel is seeking better comparability, though not equality, with top salaries in private industry.

It is hoped that four principal benefits will result:

- The government will stop losing its top career and non-career executives to private industry.
- Salary equality of congressmen and assistant secretaries in the executive departments will be restored. This should enable the executive branch to recruit more officials from the members of Congress who now take a pay cut to switch.
- The government will have more luck in recruiting top quality brains from the foundations and the universities.
- The federal government can better compete with salary scales of the more advanced state governments.

Dick West Says

Balloons Away

WASHINGTON (UPI) — In politics, it is important to be able to distinguish between a trial balloon and a lead balloon.

Many a politician has turned loose what he thought was a trial balloon only to have it drop on his foot and fracture a couple of toes.

Others have been known to rupture their lungs trying to blow air into the unflatable variety.

Despite such hazards, however, it appears that we are in for a rather active balloon season during the next few months. The 1964 national conventions are still about a year away and already a couple of exploratory gasbags have appeared on the horizon.

When last seen they were losing altitude fast. Apparently the launchers were unable to get all the lead out.

Trial balloons have one thing in common—a certain amount of flatulence. Beyond that they may vary widely in shape and size.

Possibly there are a number of children, and maybe a few under-privileged adults, who have never seen a trial balloon.

For their benefit, and for others who may need a refresher course in trial balloon recognition, I shall undertake to list the identifying features of some of the more familiar types.

"Friends of Sen. Lungbuster are quietly working behind the scenes in an effort to obtain the presidential nomination for him next year."

The key word there, the one that stamps it as the work of a trial balloonist, is "quietly." If his friends thought that Lungbuster really had a chance, they already would have hired a brass band.

Should this balloon produce any sort of reaction other than hysterical laughter, a second one will be sent aloft.

Some of the prospective candidates for next year's presidential nomination are quietly working behind the scenes in a "Stop Lungbuster" maneuver.

A balloon of that sort gets its lift from the fact that the person being stopped actually has never started. It presages the launching of still another type.

"Sen. Lungbuster had quietly passed the word that he would not accept second place on the ticket."

Members of Congress, \$22,500 to \$50,000.

Chief Justice, Supreme Court, \$35,000 to \$50,000.

Associate Justices, Supreme Court, \$25,000 to \$50,000.

Cabinet level secretaries, \$25,000 to \$50,000.

Ambassadors, Class I missions, \$27,500 to \$50,000.

Career ambassadors and ministers, \$20,000 to \$35-\$45,000.

Courts of Appeals Judges, \$25,500 to \$45,000.

Undersecretaries, top agency heads, \$22,500 to \$45,000.

Commission chairmen, smaller agencies, \$20,000 to \$40,000.

Asst. secretaries, commission members, \$20,000 to \$35,000.

Members of Congress, \$22,500 to \$35,000.

District, Tax and Customs Judges, \$22,500 to \$35,000.

Chiefs of major bureaus, \$19,500 to \$33,000.

Smaller agency heads and deputies, \$19,000 to \$30,000.

Congress is so far behind in its work that the President is said to be unsure he wants to recommend these raises.

Nevertheless, it is expected some bills to raise salaries will be introduced soon. The administration may wait to see what these bills look like and what the reaction from the country will be before pulling together its own proposals.

The general expectation is that Congress will not accept these recommendations in full. One suggestion is that the \$50,000 for cabinet members will be cut to \$40,000. Lower grades would then be cut down proportionately to about \$26,500.

This would lead into the

Letters

To The Editor

Dear Editor:

I have heard that you would not print items which were considered controversial but I know that this is not true as I have just read the advertisement in regards to the U.N. for which you contributed valuable space.

In paragraph four the ad states that we should express our views to our neighbors, friends, etc. I request that you run this short letter, in your editorial section, so every one can read what my views are.

I believe that the advertisement starts correctly but the sentence is not complete. It should read "The U.N. isn't perfect but it's our best hope." "for obtaining One World government" "the second quote is the part left out. The second paragraph also has an incomplete sentence. It states "In the Congo, for example, the U.N. helped to restore order", however it left out the fact that the U.N. troops killed many of the trusting Katanga province citizens and destroyed their property.

Many people do not know that the U.N. Charter conflicts with our Constitution in many ways, that the Charter follows very closely the Constitution of the Soviet Union.

Many people do not know that the machinery has been set up to turn over our military might to the U.N. in three phases and leave open by enough men and weapons under U.N. control to subdue any small internal uprisings.

We have made a commitment to purchase up to \$100 million of U.N. bonds last year using your and my tax dollars. We are paying over 20% of the tremendous operating expenses of this monstrosity. A large group of personnel from communist countries is attached to the U.N. and it is a known fact that almost all personnel in these positions are trained in subversion and espionage.

Ex-President Hoover in a speech in West Branch, Iowa on August 10, 1962 made this statement: "The U.N. has failed to give us even a hope of lasting peace. If free nations are to survive they must have a new stronger organization." Winston Churchill stated: "Don't pay attention to the U.N." Many of the members of the U.N. itself show their non belief in it by not paying their assessments.

I believe that the citizens of the U.S.A. are awakening to the truth about this organization and that is the reason the U.N. has resorted to advertising in the newspapers and on T.V. to try to regain support.

Respectfully,
Vernon Feddersen
(Ed. Note: Until another and better organization comes along in its effort to promote world peace and settle the problems between countries, The Sanford Herald must support the United Nations.)

Dear Abby: By Abigail Van Buren

DEAR ABBY: I am a 12-year-old boy and every day of my summer vacation I stay home alone and watch television. My mother works all day long, Monday through Friday, and she doesn't want me leaving the house. I have nobody to talk to except the dog, and if somebody heard the way I carry on a conversation with him they would think I was nuts. I am not supposed to let anybody in the house. Can you tell me how I can keep from getting bored? A BOY UNNAMED

DEAR UNNAMED: Boredom is only one of your problems. A boy your age needs fresh air, exercise and the companionship of other young people. Ask your mother if there isn't a day camp where she can send you. A boy your age shouldn't be cooped up in the house all summer.

DEAR ABBY: My sister and I have a friend who lives in the same apartment building as we do. She went on vacation and left the keys to her apartment with her gentleman friend so he could water her plants and look after her goldfish. She hadn't been gone two days when this no-good gentleman friend brought another woman into her apartment. All the neighbors know about it and we are afraid one of them will tell her when she gets back, should we tell her first, or should we let this man make a fool of her?

FRIENDS

DEAR FRIENDS: WHO was the "other woman"? WHY did the "gentleman" take her there? Unless you are sure of the facts, don't be the

Jacoby On Bridge By Oswald Jacoby

In this hand from "All Fifty-two Cards" by Marshall Miles, I have shown the East and West cards, but you should play your play without looking at the East and West hands.

Don't bother to criticize the bidding. The slam contract is most optimistic and both North and South have overbid, but we are concerned only with the problem of how to make the contract. Analysis of the lead and a review of the bidding don't help. You have to find some place to park three little hearts and the only place is dummy's spade suit.

Do you see any combination of cards that will let you make your slam? If you do

you are a really fine player. If you don't then look at the East and West hands because they have been set up for that one combination.

You lead a spade and finesse dummy's jack. If it loses you will be down three, but you were down two anyway. The finesse works.

Now you trump a low spade and draw trumps, stopping in dummy. The ace of spades is played and West's king drops. Now dummy's last two spades are good and you can discard your three losing hearts. Eventually you lose a heart, but your slam has come home.

We The Women: By Ruth Millett

Do you care whether your son will be good husband material? If it really matters to you, here are a few points to consider:

One. Don't wait on him hand and foot. As a mother you may enjoy catering to him, but you can be pretty sure his wife won't want to keep it up.

Two. See that he doesn't adopt a superior attitude toward women. Squelch him every time he starts deprecating women in general.

Three. Don't give him the idea that any girl who gets him is plenty lucky. He may get the idea, anyhow, but don't encourage him.

Four. Don't run down modern girls to him. Today's girls are every bit as worthwhile as today's young men — and chances are he'll get as good as he warrants.

Five. See that he picks up after himself. A man who tosses his clothes on the floor and leaves the bedroom a mess, isn't any woman's idea of a perfect husband.

Six. See that he knows how to talk to girls and women. The husband who won't talk to his wife is no bargain in any woman's mind.

Seven. See that he learns how to make small household repairs. It's as important for a husband to be a skilled handyman as for a wife to be a good cook.

Eight. Give him some idea of what it costs to run a home, what a woman's clothes cost, etc., so it won't all come as a complete surprise.

Nine. Don't blame the wife every time a marriage breaks up. A lot of mothers do that — but it certainly gives a son the wrong idea of marriage.

Ten. See that he is considerate of you. That will let paper special purposes.

- TO - SCHOOL CLOTHING

Easy Way To Get Clothes Clean

This month youngsters from kindergarten to high school will be scrubbed from head to toe.

To help you do the most effective job on back-to-school clothes, here are some bleaching pointers from the leading experts at the Clorox Bureau of Information.

To whiten, deodorize and disinfect your youngsters' clothes, it is desirable to use a bleach. A liquid chlorine bleach also has a special cleaning ability that assists soap and detergents in getting clothes clean. It can be safely used for white and bleach-fast colored cottons, linens, rayons, and the man-made fibers such as Nylon, Acrilan, Orlon, and Dacron. Liquid chlorine bleach should not be used on silk, wool and non-bleachable resin finishes — nor should it come into contact with the clothes until it has been diluted with water.

Try the "Bleachability Test" before washing brand new colored shirts, blouses, and dresses that do not bear the "colorfast" label. Snip a small piece of material from seam allowance. Soak in a solution of one tablespoon liquid chlorine bleach to one gallon of hot water. If color holds after five minutes, the article can be bleached safely and therefore can be thoroughly cleaned.

Newer Blankets Made Warmer

A blanket is an essential item of equipment which must be toiled to school. But what a difference in eye-appeal is offered by blankets today, as compared with a few years back. Today's blanket looks better, feels softer, and is easier to care for. Newest innovation in the blanket field is an open cellular weave blanket. The construction of this blanket is based on the thermal principle and is an outgrowth of the specially-designed underwear that was developed for Sir Edmund Hillary's conquest of Mount Everest.

This blanket may be used all year round, since it offers warmth in winter and coolness in summer. The reason: Immobility air is the secret of insulation. In winter, air cells are trapped by the addition of a lightweight covering over the blanket and this weightless layer of air provides continuing warmth. In summer, without the top covering, this blanket helps speed away body heat.

Since they are made of 100% nylon satin binding, they go right into the washing machine, and may be either tumble-dried or air-dried. Because of their light weight, two blankets may be washed in one machine load, and they dry in half the time of wool blankets.

Yeehaw Section Ups Pike Take

ORLANDO, Fla. (UPI) — Sunshine State Parkway Engineer C. H. Peterson told the State Turnpike Authority Monday that the newly-opened section from here to Yeehaw Junction is proving to be a money-maker.

Peterson said an estimated \$1,000 a day in tolls is being collected on the 41-mile section against a cost of operation of \$650 a day.

He said gross income through July of this year for the turnpike was \$4,354,000 compared to \$3,910,000 at the same time in 1962. Gross expenses through July of this year were \$263,000 compared to \$264,000 at the same time last year.

Long Haul
TUCUMCARI, N. M. (UPI) — William Mase, 20, was charged with stealing a tractor from a Syracuse, Kan., farmer and driving it 300 miles to Tucumcari. The trip took 20 hours.

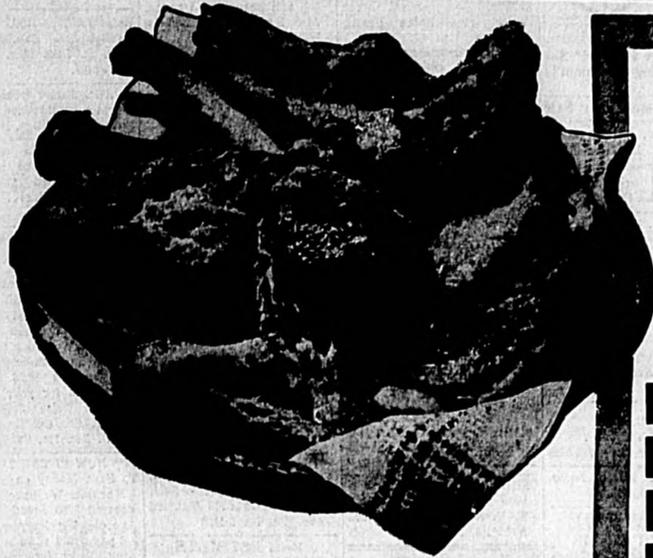

PTARMIGAN COLORATION
Summertime plumage of the ptarmigan is black, brown and white, but, with the approach of winter, they molt into a snow-white garb.

Baby Dead, Three Critical In Head-on Crash

Congressman Syd Herlong told R. E. Porter by long distance telephone from Washington this morning that he had acceded to popular demand of Oviedo residents "and am most happy to recommend John Courier Jr. for postmaster there." He added he was "literally swamped" with commendations and recommendations to nominate Courier, long active in boys' work in that community. He also said he would "do all possible to make my recommendation stick." His nomination of Courier will go to President Kennedy.

Any 10th, 11th and 12th grade students residing in the area served by Seminole High School who have not registered for the coming school year should report to the school auditorium at 8:45 a.m. Monday for placement tests, course requirements and schedule assignments.

Oviedo's Kirby Bucklew announced today that the municipal swimming pool will close for the season this Sunday.

Altamonte Springs commenced work today on its new water tank. Mayor Lawrence Swoford reported.

Seems a safe bet that Frank Fasula will stay as local manager of the North Orlando Company, although 80 per cent of the holdings have changed hands.

John Malloy, Jack Dodd, Curtis Green, Art Muller, George Means, Clarence Henderson, Orie Mathieux and Fred Blistine attended the Citrus Institute at Camp McQuarrie Wednesday.

Last Saturday's championship game for the South Seminole Little League seniors between Bear Lake and Casselberry was rained out. Game has been rescheduled this Saturday in Casselberry.

Saturday's championship game between the Casselberry and Bear Lake Little League Senior Teams will be played at 10 a.m. in the Casselberry Ball Park.

Chances were improved today for the Houston Colts to come here for training next spring, what with negotiations breaking down at Daytona Beach. Reports now are the Colts are interested in Sanford or Cocoa.

Trooper Tommy Tomlinson told R. E. Porter this morning, after that fatal crash on Highway 46, that "something must be done now to stop this slaughter on the highway." He added the three accidents he investigated this morning brought to 139 he, himself, has probed since December . . . and he is one of three troopers assigned to this county.

Visiting square dancers from Daytona Beach, Winter Park and Orlando fell victims of a gag perpetrated by Sanford square dancers last night. Police staged a mock raid and "locked up" all the dancers at the city jail. But, strangely, a loud speaker system commenced playing that type of music for square dancers . . . and the dance proceeded in the jail (for a while). One of the dancers, Mrs. Cecelia Farmer, the Herald society editor, reports that all the dancers then received the coveted square dancers' badge of "Jailbird." Another square dance badge is for those who travel 200 or more miles for a dance and then receive the "Knithead" award.

South Seminole Junior High Coach Jim Clark reported 50 boys out for Monday afternoon's opening football practice.

EDITORIAL COMMENT Happy Birthday!

The Sanford Herald is celebrating its 55th birthday today . . . 55 years of disseminating the news, good and bad, to its readers throughout Seminole County. In fact, during its first five years this county was a part of Orange County.

The Herald always has had and will continue to have a twofold purpose: (1) To publish factual news, without bias or slant, and (2) to work toward the betterment of our community without fear or favor.

The Herald believes that Seminole County, to grow, must aim to increase its economy before it can offer costly benefits such as recreational areas. And that is why The Herald steadfastly supports such proposals at (1) the St. Johns-Indian River Canal, (2) a port terminal which will serve the expected increase in water traffic with this canal, (3) a new four-year state university, (4) new industry. These are only a few of the many worthwhile projects which will benefit our community and our citizens.

In entering into its 56th year of service, The Herald pledges to continue with its double purpose: To publish the news and to support any worthwhile project which will lead to a better economy and a richer community.

Rail Rules Dispute Now Up To Congress

WASHINGTON (UPI)—The crisis-laden railroad rules dispute was turned over to Congress today following another breakdown in peace talks conducted by Labor Secretary W. Willard Wirtz.

The Senate Commerce Committee was to start serious work today on legislation designed to avert a nationwide rail strike at midnight Wednesday.

The committee was scheduled to meet at 10 a.m., EDT. Chairman Warren G. Magnuson, D-Wash., called the group to consider the failure to reach an accord despite tentative agreement on a arbitration plan proposed by Wirtz.

The Cabinet officer told Magunson Wednesday night the breakdown of negotiations left no immediate prospect of a voluntary settlement before the Aug. 29 strike deadline. Congress was reluctant to get involved in the four-year-old controversy but appeared to have little choice in view of the collapse of Wirtz' latest mediation effort.

The Senate committee was reported split, 9-8, in favor of President Kennedy's recommendation to give the Interstate Commerce Commission power to approve new work rules that would remain in effect for two years. No strike would be allowed during this time.

Public hearing on the tentative \$2 billion budget for Seminole County for the 1963-64 fiscal year will be held at 10 a.m. Sept. 10 by the County Commission.

If accepted, the budget will permit the Commission to hold the ad valorem tax at six mills.

The budget, in various accounts of officeholders, allows \$25,000 for construction of a courthouse annex in South Seminole County. A \$25,000 publicity item includes donations to the Chamber of Commerce, Junior Chamber of Commerce and the USO.

Detailed listings of the budget are published on page 10 of today's Herald.

Blonde Grilled On Train Loot
LONDON (UPI)—Police questioned a mysterious blonde today in connection with the \$7.3 million mail train robbery and issued descriptions of three men wanted for questioning.

The woman, who was picked up Wednesday for questioning and spent the night at a London police station, was taken to Aylesbury, headquarters of the search for the robbers.

Strike Ends
NEW YORK (UPI)—The brief nationwide wildcat strike against United Air Lines ended early today in compliance with a federal restraining order that at first was ignored.

School Suit
TAMPA (UPI)—A federal judge gave attorneys for two Negroes and the University of Tampa 30 days Wednesday to file briefs on a suit seeking to integrate the school.

Directors Visit Canal, River Junction Site

Indian River Canal District this afternoon were to inspect the general vicinity of the junction of the proposed waterway with the Indian River on the East Coast.

The canal will extend cross-country from Lake Monroe to rejoin the St. Johns River at a point near Lemon Bluff and from Lake Harney to a point near Maytown on the Indian River. The Army Corps of Engineers is planning a new haulover canal from the Indian River to the Atlantic Ocean in the general vicinity of where the St. Johns-Indian River Canal will join the Indian River.

District directors were to attend a luncheon meeting at noon today at the New Smyrna Beach Yacht Club, when they were to begin initial discussions on procedure to obtain necessary rights-of-way and to evolve a formal request to the State Board of Conservation and/or the State Canal Authority for operating funds.

The inspection trip was to follow the business meeting. Directors are John Kridler, chairman, and John Brumley, Sanford; Steve Shinholzer, New Smyrna Beach; R. C. Brady, Titusville, and Ransom Downes, Orlando.

Blood Bath Held Red Chinese Aim

MOSCOW (UPI)—The Soviet Communist party charged today that some Chinese leaders would sacrifice half of humanity to build a new civilization.

The charge came in a front-page editorial on the leading page of the party organ Pravda, it said.

"While some people in Peking are willing to sacrifice the lives of half of the population, half of humanity, the Soviet government holds dear not only the lives of half of the population, but every Soviet citizen.

"The destinies of other nations of the world are not allied to it." The editorial appeared to set the tone of a propaganda campaign to bolster the latest Soviet rejection of Chinese views. This rejection was made in a lengthy government declaration Wednesday which has sent Moscow-Peking relations toward a new low.

Stormy Weather Around Florida

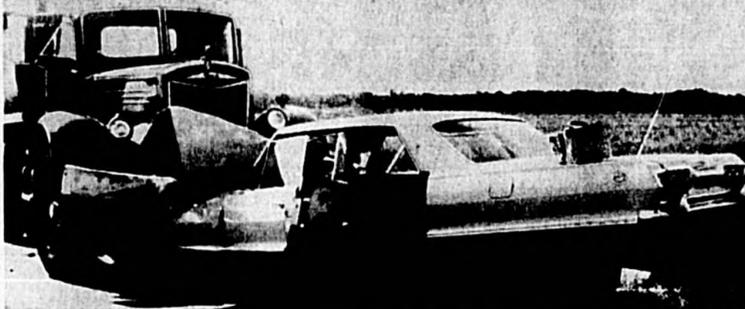

ST. PETERSBURG (UPI)—Tornadoic winds roared through the northern part of this city Wednesday, causing an estimated \$30,000 damage to a school and several homes.

J. R. Barnes, an official of the Pinellas School Board, said the high winds unroofed large portions of a school under construction and blew out several plate glass windows.

At least three homes in the area suffered heavy roof damage before the storm jumped about a mile and a half south and caused minor damage there.

The Miami Weather Bureau reported it had received reports of a funnel cloud west of Lake Worth Wednesday and also said that a water-spout had been sighted off Cape Canaveral.

The Weather Bureau here said thunder storms were widespread throughout the area, but added it had no confirmed reports of a tornado.

A DELAND BABY was killed and four persons injured, two critically, when this tractor-trailer and automobile collided head-on at 8:40 a.m. today on SR 46 five miles east of Sanford.

news... BRIEFS

Peace Plan OK'd
JERUSALEM, Israel (UPI)—Syria has approved a United Nations "peace plan" for simultaneous inspections of both sides of its border with Israel, informed sources here said today.

Builder Killed
STUART (UPI)—Prominent Florida and New York builder-developer Louis John Berlant and his son, Frederick, died last Friday night in a plane crash in Lake Okechobee west of here, authorities concluded Wednesday.

Rescue Fails
HAZLETON, Pa. (UPI)—A rescue attempt to drill through to two miners trapped 311 feet underground for 10 days ended in disappointment today when the drill missed the chamber where they are entombed.

Demonstrations
WASHINGTON (UPI)—Civil rights demonstrations will be held in many state capitols to coincide with next Wednesday's march on Washington by more than 100,000 integrationists, Frank Montero, the march spokesman, said today.

Visit Skopje
SKOPJE, Yugoslavia (UPI)—Soviet Premier Nikita Khrushchev and Yugoslav President Josip Broz Tito arrived in this earthquake-wrecked city today on a visit symbolizing renewed cooperation between their longestranged countries.

Syncom Stunt
WASHINGTON (UPI)—President Kennedy and Vice President Lyndon B. Johnson will join with United Nations Secretary General Thant Friday in the first live telephone conversations via Syncom 2, the new communications satellite.

Royal Visitors
CAPE CANAVERIAL (UPI)—America's giant "Moonport USA," rapidly gaining stature as a major point of interest for visiting royalty, next month will play host to the king and queen of Afghanistan, King Mohammed Zahir and Queen Humaira.

Diem Continues Arresting Monks
SAIGON, South Viet Nam (UPI)—Army troops and police, acting under martial law, continued making wholesale arrests of suspected opposition elements in South Viet Nam today in the government's massive crackdown on Buddhists.

The government of President Ngo Dinh Diem accused a "minority" of Buddhist monks of "systematic sabotage" in fomenting the 15-week political-religious crisis at a time when the country is at war with Communist guerrillas.

Beulah Now Hurricane 1,500 Miles Out

MIAMI (UPI)—Tropical storm Beulah stepped up into the hurricane class today with winds of 75 miles an hour blowing over the open Atlantic Ocean east of Puerto Rico.

A Navy hurricane hunter plane found the season's second tropical twister had gained power and pinpointed its center at 11 a.m. EST about 550 miles east of San Juan, P. R., near latitude 18.4 north, longitude 57.7 west.

Pilot Killed; 2 Passengers Safe
HOLLYWOOD BEACH (UPI)—A sight-seeing helicopter carrying a New Jersey couple crashed into the ocean off a crowded beach Wednesday, killing the pilot.

Witnesses said the helicopter crashed about 20 feet offshore after making several passes over the beach.

Life guards pulled three persons, identified as Mr. and Mrs. John Eisenhower and pilot Franklin E. Stone, 45, of Miami Beach, from the bubble-shaped cockpit.

Stone was given artificial respiration for 30 minutes, but was dead on arrival at the Hollywood Memorial Hospital.

Eisenhower, a customs official, is not related to the former President.

North Orlando Co. Sale Pact Signed

By MONA GRINSTEAD
Announcement that B. G. King and Associates, of Buffalo, N. Y., has signed a contract for the purchase of 80 per cent of the North Orlando Company was confirmed today by King, who arrived Wednesday to go over the Seminole County properties with Frank Fasula, local North Orlando Company manager.

Twenty per cent of the holdings are being retained by Silver Creek Precision Company, of Silver Creek, N. Y., which has approximately 18,000 stockholders throughout the United States.

King, whose company already has played a major part in promoting the location of Girls' Town in North Orlando, advised that further plans for development and growth of the community will be announced in the near future.

B. G. KING

Truck-Trailer Smashes Car At Geneva Bridge

A new model automobile with two women, sisters, and two babies, also sisters, crossed the Geneva Bridge on Highway 46 at 8:40 this morning, heading east.

A moment later one baby was dead, the women critically injured, the second baby seriously hurt and the new automobile was smashed. A truck driver was in the state of shock.

The automobile had been hit head-on by a tractor-trailer used for hauling lime rock. Trooper Tommy Tomlinson identified the parties:

Kim Weed, about one year old, dead on arrival at Seminole Memorial Hospital.

Her mother, Mrs. Alveda Weed, reported "desperately critical" and removed from Seminole Memorial to Orange Memorial Hospital at Orlando.

Her sister, Mrs. Rebecca Alderman, reported "critical" at Seminole Memorial Hospital.

Karen Weed, about 8, daughter of Mrs. Weed, seriously injured.

James L. Crozier, 37, of Wink Garden, in a state of shock at Seminole Memorial Hospital.

Trooper Tomlinson reported Mrs. Alderman resides at 57 University Circle, Deland, and it is believed Mrs. Weed and her children also reside there.

The trooper quoted Crozier as saying that he was proceeding east when a car stopped in front of him, to make a right turn off the highway. He averted to the left lane and hit the Alderman car.

Crozier's truck tires left marks for 418 feet, Tomlinson said, and knocked the Alderman car for 28 feet, with the truck coming to rest on the front of the automobile.

Tomlinson said any charges against Crozier are pending further investigation.

Early fog was blamed by Tomlinson for an accident on Highway 17-92 in front of Sunland Estates. He charged Nadine Shaaris, 611 Camellia Drive, with failure to yield the right-of-way after her car struck one driven by Daniel Long, of Longwood. Tomlinson estimated damage at \$1,000.

Sabotage Plot On Seaway Fails

MONTREAL (UPI)—Bomb-planting members of a terrorist underground organization today tried but failed to immobilize the St. Lawrence Seaway.

The seaway is a vital waterway that allows ships to sail from the Atlantic Ocean into the heart of North America.

A bomb planted by associates of a man who called Quebec provincial police identifying himself as a member of the Quebec Liberation Front wrecked the lifting mechanism of one of two left bridges spanning the seaway near here.

'Watchdog' Cat Left Legacy

READING, England (UPI)—William Butler, 73, left his cat, Tibber, \$1,000 in his will because she served as a "watchdog" each night when he went out for a drink, it was disclosed Wednesday.
